ARRIVAL OF THE ALAMEDA.

A Pleasant Passage and a Joyous Time... The Passengers and the Pleasantries.

The O. S. S. Co.'s steamer Alameda, Captain H. G. Morse, arrived in port this morning from San Francisco en route to Samoa and Australia.

The Alameda has generally been favored by "professionals" and sport-loving people, but the sports were in the minority this trip.

Amongst the kamaaina passengers for this port were: Mr. J. F. Brown and wife, Miss Josephine Deyo of Hilo, Mr. Frank Godfrey, and Rev. H. H. Parker.

On the voyage a very enjoyable entertainment was had, which added much to the pleasure of sailing on an even keel.

THE BEAGLE MATTER.

The wives of Douglas and Bloom, who came here and went away in the schooner Beagle, arrived from the Colonies by the Mariposa.

FOR DYSPEPSIA.

Use Horstford's Acid Phosphate. Dr. Lorenzo Waite, Pittsfield, Mass., says: "From its use for a period of about eight weeks, to the exclusion of all other remedies, I attribute the restoration to health of a patient who was emaciated to the last degree, in consequence of nervous prostration and dyspepsia."

FRUIT JUICES!

We are pleased to see that the public are awakening to the fact that FRUIT JUICES are preferable to Artificial Essences when used as flavorings for Soda Water drinks.

Appreciating the fact that the public of Honolulu are entitled to the best Soda Water attainable, we have resolved not to contaminate our New Soda Fountain by the use of Artificial Essences.

Consequently, while we were selecting our line of Goods in San Francisco, we procured a line of PURE FRUIT JUICES, the purity of which cannot be doubted, being prepared as they are by the well-known firm, Jas. W. Tufts of Boston, Mass.

As you pass the windows of our store, corner of Fort and King streets, you can see therein a complete line of those celebrated Fruit Juices.

AN INTERVIEW

Chicago, Nov. 7.—J. F. Brown of Honolulu, a Hawaiian Government inspector, who has been here some days on his return from Boston, where he went to have a surgical operation performed, says the news of German beet sugar being admitted free into the United States will largely stop sugar-cane cultivation in the islands, the planters devoting attention to coffee raising. Mr. Brown says that while American residents are loyal to their native land, they almost unite in opposing annexation.

McKinley Carries Ohio-Flower Deceats Fassett in New York.

William McKinley was elected Governor of Ohio by 10,000 plurality, defeating Campbell, the Democratic candidate. The Prohibition party and the Farmer's Alliance had candidates.

Roswell P. Flower, Democratic, is elected Governor of New York by a plurality estimated at 18,000 to 24,000. Fassett did not carry Elmira, his own city. The Senate is either a tie or Republican by a small majority, and the Assembly Democratic by eight or ten majority.

Massachusetts elected for Governor the Democratic candidate, William E. Russell, by about 5000 plurality. The Republicans carried the State ticket except Governor. The Legislature will be strongly Republican.

Pennsylvania elected a Treasurer and Auditor-General. The Republican candidate for Auditor-General had 50,833 plurality, and the one for Treasurer 47,467 plurality. A proposition for holding a constitutional convention was voted on and overwhelmingly defeated.

Horace Boies, Democrat, was elected Governor of Iowa by about 8000 plurality. The Republicans will control the House and the Democrats the Senate.

Municipal elections were held in Michigan, going strongly Republican.

Chicago, Illinois, had an election of some municipal officers. The principal ones were three Drainage Trustees, who will have the handling of \$30,000,000, to be spent in making a canal for sewage to the Illinois river. The Democrats elected one of these trustees and the Superintendent of Schools. For all the rest the Republicans made a clean sweep of Chicago and Cook county.

Nebraska elected an Associate Justice, the Republican candidate winning.

The Republicans had no ticket in the field in Virginia, but had a candidate here and there on other tickets. The Democrats claim every senatorial district, and will have four-fifths of the House.

Maryland gives a Democratic plurality of 12,000 to 15,000.

In New Jersey the Democrats will have a majority of 35 on joint ballot.

Colorado elected the Republican candidate for Chief Justice by 7000 to 10,000 majority.

TRAIN HELD UP

A through passenger train from Chicago on the St. Paul road was boarded by a band of masked men. Two of their confederates who had got on the train previously, with revolvers at the heads of the engineer and fireman, ordered the train to slow down while the men in ambush got on.

The express car was first attacked by the robbers. They wrecked the end of the car with a dynamite bomb thrown at the door. Packages of local money amounting to \$5000 were secured, and then the safes were removed from the car and opened. The safes were sealed and the messengers did not know the exact amount they contained, but it was probably hundreds of thousands of dollars. The passengers were not molested.

CHILE

No Satisfaction Yet to the United States.

The Chilean Government is still holding its secret enquiry into the assault on the sailors of the U. S. S. Baltimore. An important concession has been granted, in admitting an officer from the Baltimore to the investigation.

American and English correspondents charge each other with sending out false reports from Chile. One canard was that the Baltimore had been sunk.

A Chicago News despatch from Washington asserts the Government has determined, in case Chile does not proffer an explanation of the Baltimore affair soon, to make another and peremptory demand.

If Chile still fails to act, all available vessels of the United States navy will be concentrated in Valparaiso harbor.

To this end a number of vessels will be withdrawn from foreign squadrons. If this demonstration has no effect it will be for Congress to act.

AFRAIDS IN CHILE

The Chilean Junta is prepared to surrender its executive authority to the newly elected Congress. Waldo Silva has been elected president of the Senate, and Barros Luca presiding officer of the Deputies. These men with Admiral Jorge Montt, who is sure of election as President of the republic, constituted the Junta.

WAR CONSIDERED A NEAR CERTAINTY

An official high in the United States Government has received a letter within the past few days from an officer on the general staff of the German Emperor, which declares in effect that war in Europe cannot be postponed beyond next spring.

The communication is understood to have been dictated by the Emperor himself. It declares that there is no doubt of the massing of troops by the Czar on the frontiers of Austria, Germany and Roumania.

It is known at the Berlin War Office, it is said, that the Russian force posted on the frontier represents 90 percent of the effective strength of the Russian army. Only enough troops have been left in the

East and in the interior to save the frontiers from savage incursions and to preserve order among the people.

The Russian troops facing towards the west number 650,000 men, it is declared. The hint is also thrown out that the recent ukase of the Czar forbidding the exportation of rye and wheat was for military and not for economic reasons.

Since August 1st, 300,000 Russian troops, mostly light troops and Cossack cavalry, have been thrown into Southwestern Russia, the entire force, previous to August 1st, having been posted in Eastern Russia.

Over 600,000 men are in position between Odessa and Warsaw. Before the present mobilization was effected the Russian war office established the line of supply stations now being used.

The letter further points out the studied manner in which the Czar recently evaded the German Emperor, the only inference to be placed upon this being the desire of the former to be under no obligations to the latter.

It is known that for some time the German war office has been in communication with American firms, and made arrangements for supplying the needs of the German army in time of war. These arrangements had to be effected had to receive Government sanction. In consequence there is reason to believe that several high officials in the United States Government are interested in these speculations.

Whether these officials will retain their offices under the Government in the event of a European war remains to be seen.

LOST FAITH IN HOME RULE

At a conference of the Liberal Unionist Association in Manchester, Sir Henry James presiding, claimed that the recent factional fights in Ireland proved that the policy of the Liberal Unionists was the only correct one.

In a letter Joseph Chamberlain informed the meeting that the Gladstonians had lost confidence in the home rule movement, and they were trying to pass a bill to establish home rule sandwiched between more alluring proposals.

The Duke of Argyll described Gladstone as "a fanatic who was incapable of argument," and his followers as mere puppets.

The Marquis of Hartington complained of what he termed the apathy and cowardice of the Unionists in Ireland as again revealed in the polling at the recent election in Cork, thus rendering the work of English Unionists doubly difficult.

GREAT STORMS—WRECK OF THE J. C. PFUGER

A heavy gale set in the night of the 10th in the southern part of England and Ireland. Many shipwrecks are reported. Brave lifeboat men sacrificed their lives in several cases in attempts to save shipwrecked mariners.

The German bark J. C. Pfluger, Capt. Krutz, one of the regular traders in the line from Europe to Honolulu and San Francisco, represented at Honolulu by H. Hackfeld & Co., went ashore at Hastings, and after a tremendous struggle the crew and passengers were rescued.

The Pfluger sailed from San Francisco June 20 for Bremerhaven. The vessel may yet be saved if the sea goes down. Capt. Krutz was the last person to leave the ship, and all speak in high terms of his courage and assistance to the lifesavers.

CHINA

A Shanghai despatch of the 10th says intense excitement prevails there. The course is tending toward a great civil war. Foreigners in China are in extreme peril.

The chief of the great secret society, Kalo Hin, has been arrested in the French concession at Shanghai. The viceroy at Nankin has ordered him to be tortured, hoping that he will betray his accomplices. If not he is to be beheaded. The whole province of Hunan is in a state of siege and open revolt. Seditious placards are posted everywhere.

The European Ministers at Peking are seemingly indifferent. The Chinese Ministers and officials fraternize with and call them friends, banquet them and get up fetes for them every day.

The result of this is that the foreign residents in China are furious. Their indignation is beyond expression because of the meanness of those "diplomats" who are forgetting their duty to their own countrymen. The trial of Mason, who had attempted to pass arms and dynamite to the rebels, has now some point to it, and Mason's action is explained by the foregoing.

MISCELLANEOUS

BRAZIL IN OPEN REVOLUTION.

There is a bad state of affairs in Brazil, caused by the assumption of dictatorial powers by Da Fonseca, late President of the republic. An appeal to arms may result. Two provinces have already declared their independence.

Sir Julian Poncefote, British Minister at Washington, has a despatch from the English Admiral on the Brazilian station, saying the country is in open revolution.

The Santiago correspondent of the London Times says it is only with difficulty that Brazil news reaches there unless it is favorable to the dictator.

Only a portion of the navy favors Fonseca. Admiral Mell, a strong Republican, has protested against any change in the form of the Government. All attempts to hold meetings are frustrated. The chambers were dissolved forcibly. It is alleged that President Da Fonseca intends to reduce the number of Deputies to 150. Exchange is falling at Rio de Janeiro.

Uruguay is taking alarm and massing troops along the Brazilian frontier.

Three garrisons have deserted the dictator, and the number of rebels is constantly increasing.

A special article by the Lisbon correspondent of the London Times attributes the whole trouble to paper-money making, in which Fonseca's associates indulged to an enormous extent.

Fonseca has ordered all papers in Rio de Janeiro which will not support his authority to suspend publication. A private telegram received at the latest hour in London says Rio Grande de Sul is now entirely in the hands of the seceders, and the military have given support to the seceders.

OTHER REVOLUTIONARY CENTERS

Grandos and other leaders who are organizing a revolution against President Barillas of Guatemala have headquarters at Zapotitlan, Mexico.

The Government of Salvador has demanded that Barillas expel the Salvador refugees in Guatemala who are conspiring against the Exata Government.

"German Syrup" For Coughs & Colds.

John F. Jones, Edom, Tex., writes: I have used German Syrup for the past six years, for Sore Throat, Cough, Colds, Pains in the Chest and Lungs, and let me say to anyone wanting such a medicine—German Syrup is the best.

B. W. Baldwin, Carnesville, Tenn., writes: I have used your German Syrup in my family, and find it the best medicine I ever tried for coughs and colds. I recommend it to everyone for these troubles.

R. Schmalhausen, Druggist, of Charleston, Ill., writes: After trying scores of prescriptions and preparations I had on my files and shelves without relief for a very severe cold, which had settled on my lungs, I tried your German Syrup. It gave me immediate relief and a permanent cure.

The Remains to be Brought to Honolulu.

(San Francisco Bulletin, Nov. 2.)

Sunday Henry A. P. Carter, Hawaiian Minister to this country, died at the Everett House in New York after a long illness. Mr. Carter was born about sixty years ago at Honolulu. His father, Joseph O. Carter, was a ship master and owner, who, prior to the days of the Argonauts, traded on the coast of California and at Honolulu, delivering to the early Spanish settlers and the Indians of California and also to Honolulu the silks, teas and sandalwood which he secured as the result of voyages to China. His mother was a member of the Truphant family of Honolulu, and still survives, a hale old lady of eighty-five. She resides in Honolulu. Henry A. P. Carter was educated in Honolulu. Early in life he came to California during the gold excitement, accompanied by an elder brother. He remained here only a short time. Returning to Honolulu he entered the mercantile house of C. Brewer & Co. and by faithful service and attention to business he was advanced until finally he became senior partner in the house. He was actively interested in public affairs in Honolulu and occupied many positions, one of which was Minister of the Interior in the Hawaiian Cabinet. Having demonstrated his capacity for public affairs he was appointed Minister Plenipotentiary to the United States and to the Courts of Europe by King Kalakaua and this position he has occupied for several years, having been reappointed by Queen Liliuokalani. His official residence was at Washington, D. C. He married Augusta Judd, daughter of Dr. G. P. Judd, who in 1828 went to Honolulu as physician in the service of the American foreign mission, subsequently becoming interpreter to the Government of Kamehameha III. and who, later, in 1843, organized the first ministry, holding in it the post of Minister of Finance.

There were five children by this union, two sons and three daughters. One of the sons is a banker at Seattle and is also the Hawaiian Consul there. Three daughters are now residing at New York. One son is at Honolulu. Two brothers and one sister and a grandson also survive. These are Joseph O. Carter, Samuel M. Carter and Catherine R. Lewers, wife of Robert Lewers, a Honolulu merchant. It is significant that those who knew Henry A. P. Carter best speak most kindly of him. He had a large circle of acquaintances in this city, to whom he was endeared by his kindly manner and courtesy, and by whom he was admired for his accomplishments and his fidelity to the trusts confided to him. Although never in robust health, he worked energetically and faithfully. He journeyed overland from Washington to this city to consult with King Kalakaua, when the latter was here just before his death. About four months ago, finding that he needed a rest, he visited Europe to regain his strength. He was there taken ill and wished to return home. It

was intended to carry him to Honolulu, but this was found to be impossible. Although it has been known to his family for some time that he was seriously ill, they have hoped that his strong will and sanguine temperament might bring about his recovery. He was prominently connected with the Masonic order and he was a member of the Congregational Church. Probably no man who has been connected with the Hawaiian Government was more useful than Mr. Carter. He was an able diplomatist, and had that minute knowledge of Hawaiian affairs which made him of special value as the representative of that Kingdom at Washington and in Europe, whither he has been several times as Hawaiian Commissioner. He has served as the Hawaiian Minister to this country for ten years, and held a high place in the esteem of the members of the Diplomatic Corps.

New York, November 6.—The funeral services over the remains of Henry A. Carter, Minister from the Sandwich Islands to the United States, were held here to-day at the Madison-square Presbyterian Church. His son, George R., and daughters, Isabella, Agnes and Cordelia, were present. The diplomatic corps from Washington was represented by Minister Romero of Mexico. Secretary Blaine sent a personal official letter of condolence to the family, and detailed the chief clerk of the State Department to attend the funeral. Rev. Dr. Bartlett of Washington officiated. The remains will be shipped to San Francisco and there conveyed to the steamship Australia, which will sail for Honolulu on the 22d inst.

HAWAIIAN INTEREST.

Mission of Dr. Smith, the Special Envoy to the United States.

Washington, Nov. 5.—Dr. J. Mott Smith, the Minister of Finance of Hawaii, arrived in Washington to-day, accompanied by C. R. Bishop of Honolulu, an ex-member of the Cabinet and at present President of the Board of Education. Dr. Smith called on Secretary Blaine this morning. His special mission is to secure modifications of the reciprocity treaty between this country and Hawaii, the operations of which, so far as Hawaii is concerned, have been seriously affected by the operations of the new United States tariff law. As this law grants a bounty to producers of sugar the benefits heretofore reaped by Hawaiian producers from the free admission of their sugar into the United States under the provisions of the treaty are negated. Dr. Smith will also call to the attention of the Secretary the matter of laying a cable between the United States and Honolulu. The Hawaiian Government, he says, is ready to pay a subsidy to any company establishing a cable line between the two countries. Dr. Smith has been absent from Honolulu some years, and returned there only a short time before being delegated to come to the United States. He found on his return that the desire for annexation to the United States had grown greatly during his absence. The feeling, he thinks, however, is based more on the wish to participate in the commercial benefits to be derived therefrom than from any hope of political aggrandizement. From the tenor of his conversation it is evident that he has no fear of English interference in the affairs of the island kingdom.

STRATHBLANE WRECKED.

Capt. Cuthill, Three of the Crew and Two Passengers Drowned.

The British ship Strathblane, 1364 tons, which sailed for Astoria, Oregon, in ballast, from Honolulu on Oct. 14, went ashore at 5 o'clock on the morning of Nov. 3, on North beach, eight miles north of the Columbia river. In less than six hours the ship was beaten to pieces by the worst southwester that had ever been experienced in that vicinity.

Captain Thomas Cuthill, Donald McLeod, carpenter, Thomas Hunter, cook, Richard Hughes, able seaman, William Lewis, passenger, and another man, were drowned. The Fort Canby life crew had gone to the rescue as soon as possible, but could not get a line to the vessel till everything but the mainmast had been shaken out of her.

The sea broke over the Strathblane at every surge, and the crew one by one dropped into the seething water and started for the shore. Twenty-six of them reached the beach in safety, but those above-mentioned were drowned. Four bodies were recovered and taken to Ilwaco, six miles distant.

There were two passengers from Honolulu—Lewis, named among the lost, and H. F. Broderick. Whether the latter is the "other man" mentioned as lost cannot here be said. Lewis was a young lawyer from the Colonies, who left here disappointed at being refused letters of denization, under which he intended to apply for admission to the Hawaiian bar. Broderick was a resident of Hamakua.

THE CHILE AFFAIR.

No Satisfaction Yet to the United States.

The Chilean Government is still holding its secret enquiry into the assault on the sailors of the U. S. S. Baltimore. An important concession has been granted, in admitting an officer from the Baltimore to the investigation.

American and English correspondents charge each other with sending out false reports from Chile. One canard was that the Baltimore had been sunk.

A Chicago News despatch from Washington asserts the Government has determined, in case Chile does not proffer an explanation of the Baltimore affair soon, to make another and peremptory demand.

If Chile still fails to act, all available vessels of the United States navy will be concentrated in Valparaiso harbor.

To this end a number of vessels will be withdrawn from foreign squadrons. If this demonstration has no effect it will be for Congress to act.
