BY AUTHORITY.

Notice to Employers of Laborers.

All persons desiring to employ Japanese laborers, upon the conditions hereinafter named, are requested to immediately make application to the Board of Immigration, stating the number required.

It is understood that the applicant agrees to the terms of the contract hereunder stated, and will take the number of laborers applied for, upon their arrival in Honolulu.

Arrangements have been made which will probably enable the laborers to reach Honolulu within three months of the receipt of the applications.

The terms and conditions of the labor contracts will be as follows:

1. The term of the contract will be three years.

2. The wages will be \$15 a month to a man, and \$10 a month to his wife, if he has one and she desires to work, payable in U. S. gold coin.

3. The employer will furnish to the laborer and his wife and children if he has any, free of charge: (1) Proper lodgings; (2) Fuel for cooking purposes; (3) An allowance of \$1 per month for each child of such laborer not exceeding two in number; (4) Medical attendance and medicines.

4. One month's service will consist of twenty-six days of ten hours each, actual work in the field, or twelve hours each in and about the sugar mill or sugar house.

Over time exceeding thirty minutes to be paid for at the rate of 12 1/2 cents per hour to the laborers and 8 cents per hour to his wife.

The Personal Taxes of the laborer will be paid by the employer without charge to the laborer.

5. Twenty-five per cent, of the laborer's wages will be paid to the Board of Immigration to be deposited in trust for the laborer in the same manner as heretofore.

6. The employer will pay all expenses connected with transshipping the laborer from the vessel bringing him from Japan to the place of employment, including cost of food and fuel. No charge will be made for use of lodgings at the Government Immigration Depot.

7. The employer will advance the sum of \$35 upon the arrival of the laborer at Honolulu, towards paying expenses of bringing the laborer. This amount to be deducted from the laborer's wages at the rate of \$3 a month until paid. The employer will also deduct the sum of \$35 from the laborer's wages at the rate of \$3 a month and remit the same to the Board of Immigration, monthly, to be applied to the payment of the laborer's passage.

L. A. THURSTON, President Board of Immigration, Honolulu, July 29, 1887.

List of Inspectors of Election.

Whereas by Section I of the Rules and Regulations for Administering to Officials, Subjects and Residents the oath to support the Constitution and Laws; providing for the Registration of voters and holding elections for Nobles and Representatives, made and published by the Cabinet on the 25th day of July, 1887, the Minister of the Interior is authorized to issue commissions to such and so many persons in the different Electoral Districts of the Kingdom as to such Ministers may seem fit and necessary to administer said oaths, which persons thus commissioned shall be known as the Inspectors of Election of the Districts or Polling Precincts for which they are respectively commissioned, and by Section 14 of said Rules and Regulations said Minister is further authorized to designate one Board of Inspectors of Election for each Election District to Register Voters for Nobles.

Now therefore in pursuance with and acting under such authority, I do hereby appoint and commission the following named persons as Inspectors of Election for the several Districts, Wards and Precincts of the Island of Oahu, as follows:

- DISTRICT OF HONOLULU. Ward 1—M. P. Robinson, Chairman; A. P. Kalaukoa, A. W. Carter. Ward 2—F. Turrill, Chairman; Pierre Jones, David Waiwaiole. Ward 3—W. L. Wilcox, Chairman; Rev. J. Paaluu. SATURDAY, JULY 30, 1887.

A SUCCESSION.

So much has been said in the columns of the BULLETIN about the civil service of this country that anything further seems to require an introductory apology. The only apology offered for again taking up the subject, is the fact that one phase of it has not been set forth plainly in these columns nor in the columns of any other paper of this city. It is all very well to talk about stability in the service and the appointment of the ablest men to the various offices, but some definite plan is needed for carrying out these ideas. This paper has recognized the fact that the men now in power at Aliioli Hale have a heavy pressure to resist, in holding on to an honest and a good policy in this regard. And in this they do not stand alone. Nor is this state of things confined to this country. Our readers will remember what a revelation power brought with it to the late President Garfield, and his views with regard to the necessity for relieving the Executive of such a burden in the choice of capable officers and picking out and removing incompetents. A move has been made in this direction in the United States. The problem was well nigh solved in England long ago. Many of her colonies have followed the example of the mother country. A move in the way of systematizing the civil service, on the part of Hawaii, would simply be in keeping with the spirit of these times.

At present the whole responsibility

of appointments and removals, rests with the Cabinet Ministers. They need relief. Cannot some of our legislators come to the rescue with a plan for relieving them of some of this work and responsibility? The scheme, to command approval, should embrace the relief of the Cabinet, permanence of official positions, succession in offices and promotion for merit, removal for cause shown in some kind of an open court, where the accused can meet his accusers face to face, and the adaptation of the system to such offices as can be entrusted to its working with safety to the public interests. A successful move in the way of putting the business of the country on a business basis, will make its promoters public benefactors. Who of the candidates for election wants to be our Civil Service Reform leader?

THE ELEMENTS OF GREATNESS.

Hawaii has within herself the elements which auger infinitely greater importance in her future than in her past and present. Salubrity of climate and a remarkable productiveness of soil, lying waste, will in time gain for these islands a prominence as yet but little thought of. Waste and mismanagement, schemes of corruption and speculation have not obliterated the latent possibilities of the country; only obscured them. For a long period the diminutive nation floated down the stream of fallacious expedients, guided by the miserable contrivance of a brainless despotism. A halt has been called in a policy which directed to ruin. Vitality still remains. Our energies are not wholly crushed. The people are not utterly discouraged. Time and a liberal policy, supported by a united and determined people, will sweep away the blighting influences of past misrule; recovery may be hoped for; and a steady development of latent resources, will steadily raise the country to higher positions in the scale of nations.

FINANCE.

An intermediate financial statement will shortly appear from the Finance Office. It will show the money transactions of the government for the five months preceding the 30th of June last, so far as it is possible to ascertain them, and also the condition of finances of the country at that date. Information concerning the loan transactions, the cable, the navy, and, in fact, all of the finance matters which the people wish to know about, will thus be given to the public. The statement will be published in pamphlet form.

His Ex. W. L. Green has made a careful study of loan matters, and has sent his views at length on their proper adjustment to Mr. Armstrong, as a representative of the Syndicate, by the mail which left today. If the people will have patience until the financial statement mentioned above is out, they can get fuller information on all of these subjects than it is possible to give them at present.

BED ROCK.

In the midst of the discussion of the late political movement and its results, men seem to forget the lines upon which that movement was made, and, especially, the principles which it represented. Good government, economy, honesty, and capacity in office are all good; but it was not for these that men took their lives in their hands and staked all on success. It is said that when you touch an Anglo-Saxon's pocket, you reach his heart. There is truth in this old statement. But he who deems this proof that the great political movements which have been precipitated by touching the Anglo-Saxon's pocket are the results of avarice, comes wide of the truth. "All that a man hath will he give for his life." Men do not risk this most valued possession simply for the sake of adding a small percentage to their wealth. The key to this connection between the pocket and the heart, is the fact that when a man's pocket is touched, he sees the injustice and feels the imposition. And submission to an imposition is revolting to his feelings.

Coming down to bed rock, this is the explanation of the late revolution. The axiom that all men are created with equal rights was not adequately recognized. The people arose and demanded that their rights be more fully accorded to them. As the Government is for the people, they demanded that they be allowed to manage their own business. The new Constitution was intended as a security for their rights.

While it is not a perfect document, in this respect, it certainly marks a great advance. This is a step in line with the world's progress. No new principle was involved. If the government is good, henceforth, it will be good because the people manage their own affairs well. If it is not good, it will be because they fail to do so. The people will not regret their action even if they fail to get a satisfactory government at once. "Freedom is freedom, I don't care where it comes from," was a freed-man's reply to the observation that he worked harder for a poorer living than when in slavery. "Liberty is liberty, whatever the results," will be the peoples' reply, if it should prove that their first efforts at directing public affairs, prove less successful than they now anticipate.

KEEP THE BALL ROLLING.

EDITOR BULLETIN:—The action of the committee of ward five is worthy of commendation. Being a resident of ward two, I would suggest that a meeting be called to consider who would be the most competent candidates for the coming election.

SATURDAY HALF HOLIDAY.

EDITOR BULLETIN:—I offer an excuse for troubling you about the Saturday half holiday. Can you not help us to obtain it? There are a great number of men in Honolulu who would consider it a great boon—men who are kept at work at the desk, counter, bench, or anvil the year round. A continual grind with no relaxation, except what some of them find evenings in the billiard saloons or at card tables. Now would not the Saturday half holiday save many a man from the latter? I think it would. He could join the cricket, baseball, or boat clubs and get healthy recreation. As it is at present, he has no time for practice till after 5 o'clock. Then by the time the mechanic gets a little refreshment and a change of clothing, it is too late. Could we not induce the large employers of labor to move in the matter—such men as Messrs. Irwin, Macfarlane, Hackfeld, Wilder, Lewers & Cooke, Castle & Cooke, Young, Lucas, Thomas, and many others who are well known to be liberal men and would, I think, help the movement, if it were started. In many parts of the Colonies, they have a system of working up to 1 o'clock Saturday, taking no recess for dinner, which I think works very well. At any rate the two hours lost by quitting at 1 o'clock would be very little loss to employer or employees, considering what would be gained in good feeling and good health. Teachers and bank clerks have the privilege of Saturday rest and recreation, a privilege they value highly—how highly would be shown, should any attempt be made to take it from them.

Yours truly, J. W. C.

THE BLUE JACKETS ENTERTAINED AT THE Y. M. C. S.

Last evening an entertainment was arranged at the Y. M. C. A. Hall, for the special benefit of the sailors of H. B. M. S. Conquest and U. S. S. Adams. There was a goodly number present from each ship, and a large sprinkling of Honolulu society in addition. Mr. C. M. Cooke conducted the proceedings, and announced that Mr. P. C. Jones would give the opening address. The appearance of Mr. Jones on the platform was a signal for a round of loud applause. He made a brief, humorous and interesting address, extending a hearty welcome to the men of the Adams and Conquest. He directed their special attention to the words over the door of the building, viz: "Y. M. C. A." Various interpretations had been put upon these initials by different gentlemen, the captain of a British man-of-war construing them to stand for "Ye Men of Constance, Ahoy," while another gentleman asserted that, they stood for "Young Men's Climbing Association," inasmuch as one of the prominent officers of the Association had shown a great proclivity for climbing garden walls. (Laughter.)

Miss Jennie Grieve opened the programme proper by singing with pleasing effect the song, "When the Heart is Young." Her charming voice filled the hall with music and caused a loud outburst of applause.

W. Passel, of the Conquest, next sang, "The Sea is England's Glory," his shipmates joining in the chorus. He sang in excellent style, and was loudly applauded. Miss Addie Peterson gave a recitation, entitled "Jimmy Butler and the Owl," in a very pleasing manner. She was encored but did not respond. Francis Goose, of the Adams, next appeared and sang in capital style "The Fisherman's Child." The Rev. H. H. Gowen then proceeded to give his allotted five minutes address, which by the courtesy of Mr. P. C. Jones had been extended to 7 1/2 minutes, but as Mr. Gowen's watch had stopped he asked that if he exceeded his time, he might be pulled down by the coat tails by the gentleman behind him. He selected the word "Duty" and elaborated on it in a very interesting manner. Several other songs followed by

the Conquest men, also a stamp speech on "Phrenology," by Mr. Rook. The piece de resistance was a duet called "The Lily and the Rose," by Mesdames Judd and Paty. The entertainment concluded with a brief but pointed address by Mr. Secretary Fuller in which he hit back hard at Mr. Jones about his climbing propensities. Ice cream and cake was next in order to which full justice was done.

Firemen of Honolulu.

I once again appear before you as candidate for the position of Chief Engineer, in conjunction with my former associates on the ticket, Messrs. Asche and Souza. Although elected by a majority of votes and according to the usages in force for over 30 years, yet having legal advice on the subject, I have accepted the situation and therefore present myself for the coming election. Two assistant engineers duly elected declined to serve with me. A great amount of venom has been wasted on Pacific Hose Co. No. 1. As to how members have been picked up on the streets etc. Since I have had the honor of being Foreman of Pacific Hose Co. the Company has steadily increased and there has been good attendance at drills and fires. The Company consists of men of all occupations, and I fail to see any law by which the number of voting members of any Company for the election can be limited as it would be a manifest injustice excluding members who are now in good standing from voting. I will not follow the example of some and descend to personalities. My Motto is, "The good of the Department and of the Public" and on that platform I will meet my opponents and trust to your good sense and honest feeling in the coming election. M. D. MONSARRAT, Foreman Pacific Hose Co. No. 1.

NEW STYLE.

A slight diversion from the regular style of runaways occurred on Oahu Prison road this morning. A runaway horse attached to a brake jumped off the above road into a fish pond, to avoid an approaching carriage. The water had a cooling effect on the excited horse, and he permitted himself to be caught and driven to higher ground.

WOULD BUT COULDN'T.

The Minnie Palmer theatrical troupe passed through on the Zealandia this morning. The troupe consisted of seven persons, and though they were very anxious to give two performances here and go on by the S. S. Australia, they could not, as they were obliged to play at San Francisco ten days from to-day.

SEVERELY HURT.

A letter received from Dr. Chas. G. Bull, Government physician at Makawao, this morning, relates a most distressing accident to Mrs. Dr. Bull at Iliupalukua, last week. The lady, while riding horseback, was thrown violently to the ground. She struck on the side of her head, and received fearful injuries. Blood flowed freely from the wound and serious results were feared. When the steamer left she was slightly improved, and hopes of her ultimate recovery were entertained.

MAP OF HAWAII.

A map of the island of Hawaii, 27x30 inches in size, with a scale of about 3/4 miles to an inch, has been received from the Survey Department. The primary triangulations were made by Prof. W. D. Alexander, C. J. Lyons and J. S. Emerson; boundary and topography by C. J. Lyons, J. S. Emerson, J. M. Lydgate, J. F. Brown, F. S. Lyman and J. M. Alexander. The draughtsman, Mr. W. Wall, has displayed marked skill, reflecting considerable credit on the office where he was trained. This is not the final map of Hawaii, because Kau and Puna are not surveyed in detail, but generally. The map, as a whole, is correct for practical purposes as it contains all the plantations, landings, etc. This map is in three styles and three prices; first, varnished, with rollers \$2; second, cloth back for folding \$1.50; and third plain paper \$1. For sale at Hewitt's, Soper's, and the Egryve office.

ST. LOUIS COLLEGE.

EXAMINATION AND EXHIBITION.

The annual examination of the pupils attending St. Louis College has occupied most of the week. Parents, friends and others interested in the institution have attended daily. The universal testimony of visitors is favorable to the boys and their instructors. The examination closed on Thursday.

The exhibition was held in their hall, yesterday afternoon. The building was filled to overflowing not even standing room for those who got there after the exercises commenced. The stage and its appointments were arranged as in a theater, while the orchestra (made up from the pupils of the school) sat below and immediately in front of the stage. Their playing throughout the entertainment was remarkably fine and would have done credit to a much older organization.

Among those present were Princess Liliuokalani, Princess Kaiulani, Hon. A. S. Cleghorn, Hon. Chas. R. Bishop, President of the Board of Education; Senhor A. de Souza Canavaro, Consul and Commissioner for Portugal; Monsieur Laurent Cochelet, Consul and Commissioner for France; and a large number of the elite and beauty of Honolulu. The programme consisting of two parts, was as follows:— PART I. Overture—Popular Medley... F. G. Rathburn College Orchestra. Recitation—Welcome... Seven Small Boys Address... Eli Crawford Song—The Little Tradesman... College Choir Dialogue—Poor Georgie... Geo. Cooper, Jas. Crowder, Fr. Gurney, L. Reynolds, Aug. Viera, Le Val d'Amour... Junior Orchestra THE GREAT ELIXIR. Dr. Wiggins... Eli Crawford Doctor's Asst... Wm. Crook Doctor's Errand Boy... Chas. Murray Doctor's Patients... Mr. Grenbax (dead), V. Fernandez; Mr. Aspen (nervous), Jno. Aiu; Mr. Kilpatrick (stuttering), Wm. Cuelho; Captain (undersized man), Chas. Ross; Charles, chemist—(dissatisfied heir), Thos. Sylva; Charles' Friends—Fr. and H. Bertelmann.

PART II.

Overture—Poet and Peasant... College Orchestra Chorus—Birds of the North... College Choir Medley—Abon... Junior Orchestra THE ENCHANTED VIOLIN. Tamorante... Jas. Thompson Ico (his servant)... Jas. Lloyd Dwarf (good genius)... Wm. Cuelho Solomon (a miser)... V. Fernandez Judge... Eli Crawford Elders... S. Zablan, B. Peter, Thos. Sylva, Fr. Bertelmann, P. Sylva, J. Makainai. Guards... S. Kaleiope and W. Hoopili Chorus—Come, Where the Lilies Bloom... College Choir Distribution of Premiums. America... College Orchestra The opening overture by the College Orchestra was remarkably well rendered and loudly applauded. The next number on the programme, a recitation, was unique in conception. There were seven small boys all wearing a shield on their breasts and as each in turn recited a verse, they turned the shield and when the last one had finished, the word "Welcome" was displayed. The next was an address by Eli Crawford. He reviewed the struggles of the pupils during the last year to acquire knowledge. He referred kindly to the teachers, who had borne the task of instructing and training them, and that they merited their unfeigned love and esteem and that they should remember them as their most generous benefactors. He ended his remarks by thanking the audience for their attendance and hoped that the entertainment would be a source of pleasure and satisfaction. The next number, The Little Tradesman, when the curtain arose it disclosed to the audience a number of boys working at different trades and singing as they worked. This was the piece de resistance of the first part, and carried the audience by storm. They insisted upon an encore, which was heartily responded to. Poor Georgie, a dialogue, was given by five boys in a very effective manner. A notable feature was the singing by George Cooper behind the scenes. Next a selection Le Val d'Amour was rendered by the Junior Orchestra in fine style, and exclamations of surprise could be heard in different parts of the hall at the proficiency

of the players. It showed remarkable care and perseverance in their training.

Next followed a laughing chorus, which was received with hearty applause. The first part closed with the production of The Great Elixir, which kept the audience in a roar of laughter.

The second part was opened by the overture, Poet and Peasant, which was without doubt, the best production by the orchestra throughout the exhibition, and elicited rounds of applause. A chorus, Birds of the North, was very beautifully sung by the College choir. Special mention should be made of George Cooper of the choir, who has a fine voice for one so young.

The next, a medley, was well played by the Junior orchestra. The drama in two acts entitled The Enchanted Violin was a master piece of acting. Master James Lloyd as Ico played his part with skill, and was frequently applauded. The antics of V. Fernandez as the miser, while dancing to the music of the enchanted violin was most amusing, while W. Cuelho as the dwarf could not have been surpassed. The piece was remarkably well sustained throughout, and the vast audience showed its appreciation by vociferous applause.

The chorus Come where the Lilies bloom, by the College orchestra, was exceedingly well rendered and again Master George Cooper figured conspicuously as a remarkably fine singer. This closed the exercises by the pupils.

During the time intervening between the last chorus and the preparation for distributing the prizes, Princess Liliuokalani, Princess Kaiulani, Hon. C. R. Bishop, Monsieur Laurent Cochelet, French Commissioner, and the Right Rev. the Lord Bishop of Oba were invited to the stage. Everything being ready the Hon. C. R. Bishop was called upon to make a few remarks. He said he had listened with pleasure to the music; that whatever one undertook to do should be done thoroughly; and it was evident to him that the teachers had been very thorough in the work. He also congratulated the pupils, and said that the exhibition had been most creditable to all concerned. A year ago he had listened to the closing exercises of this school, and then heard some of the boys speak in English, who had spoken to-day, and noticed a great improvement in their pronunciation, the more creditable to them, as English was not their native language. He congratulated the teachers upon the success that had crowned their labors, and hoped that all would enjoy their vacation and return with fresh vigor to resume their studies.

The Lord Bishop of Oba then thanked the audience for attending the exhibition, and said it was gratifying to see the interest taken in the work of the school, and especially so to the teachers. The prizes were then distributed by Prince Liliuokalani, Princess Kaiulani, Hon. C. R. Bishop, Monsieur Laurent Cochelet, and the Lord Bishop of Oba, after which the orchestra played a medley concluding with "God Save the Queen."

The audience then dispersed, highly delighted with the exhibition, and loud in their praises of all who contributed to make it the success it was.

COMPANY "D."

While feeling in our midst runs high about the next election. And some will have a doleful sigh— On account of poor protection, I would remind those timid souls, That while our gallant rifles, Have now selected Comp'ny "D" There is no fear of trifles. This fearless "D" does represent Now every one a hero; Yet all their boys of course are game, But then my friends you see, Although they want to be like us, Still can't be Comp'ny "D." Because this comp'ny has two men "Among other bloods of fame To see safe through all the moves Of military game. These men attach to both their names An L. L. D. quotation And some bad A B C's do say This means Lie Like Darnation My friends, I beg, it is not so Though now your thoughts are free It means they are appointed last, Not least to Comp'ny "D!" For with such men we're bound to shine And safely say our amen's And our battle cry shall be That "Lick we will Like Demons." I hope the other comp'nies wont feel sore about us or jealous, Because we're cracks which we can't help, And therefore blow our bellows. The best that you my boys can do, I mean of A B C's, To try and emulate the cracks, The fire eaters "D!" Keep well D's watchword in your mind, "Let Duty never Cease" And don't forget your humble scribe, Poor John F. If you please!

A CONVERSATION FROM A.

SOUTH AUSTRALIA. JUBILEE FESTIVITIES. ADELAIDE, July 11th. In this far-off great southern land we have been having a festive season—great and prolonged have been our rejoicings which have had for their object the celebration of the fiftieth year of the reign of our honored and beloved Queen. The jubilee season was ushered in with a dual event, occupying two days; the first occurred on June 20th, the anniversary of the accession of Her

THE CHILDREN'S DEMONSTRATION.

When thirteen thousand children, attending the schools in Adelaide and its suburbs, were feasted by the civic authorities. Before midday the various schools were to be seen assembling under command of their respective head-masters, and in many cases headed by their school bands, preceded by gay banners.

The meeting place was Victoria Square, in the center of the city, whence a procession was formed and the light young hearts were marched four abreast through the principal streets to the park lands, which separate the northern and southern portions of the town, and took up a position under the slopes of Montefiore Hill. The main thoroughfares in the line of the march, also the verandahs and balconies were thronged with people eager to see the sight, and when the children had taken their different stands in places allotted to them it is estimated that no less than thirty thousand people had assembled on the slopes of the hill above them from which an excellent view could be obtained. It was a gay sight—a pleasing spectacle not soon to be forgotten. Between the spectators and the children a raised platform was erected from which the Governor-in-Chief, the Minister of Education, the Mayor of the city and several leading colonists addressed the young people who in response sang the National Anthem, the Song of Australia, the Old Hundredth, etc., when the various schools marched off to different parts of the spacious grounds in perfect order, sat upon the green grass, and in an incredibly short period thirteen thousand paper bags were handed around and emptied of their savory contents whilst many thousands of gallons of tea and coffee disappeared quite as rapidly. With banners flying and bannerets waving the youngsters were disbanded to talk over the great event which in their memories will remain as a distinct mark upon the path of life. Although heavy rains had fallen for many days in succession yet the youngsters were favored with a pleasant day—real queen's weather.

The other commemorative event was of worldwide importance; viz: the opening of the ADELAIDE INTERNATIONAL JUBILEE EXHIBITION.

Which has to some extent turned the eyes of all nations of the world to gaze upon our province. To South Australians the event is of double significance. Not only does it celebrate the jubilee of Queen Victoria's reign, but also it is the fiftieth year since the foundation of this colony. The scheme of holding such a big show was discussed some three years ago and abandoned as a majority of the members of Parliament were of the opinion that the undertaking would be too expensive for a colony containing less than four hundred thousand souls. Mr. E. T. Smith, M. P. (a wealthy brewer and the present Mayor of Adelaide) thought the year 1887 too opportune to pass by without doing something of a special character to place the advantages of the extensive colony before the notice of the world and with great courage introduced a measure into the legislature which provided for the gift of a sum equal to one hundred a sixty thousand dollars to a committee who would spend that sum on a permanent building which would eventually become the property of the Government, and all expenses incurred above that amount would be met by money taken as admission fees, etc., the company guaranteeing that there should be no monetary loss. Guarantors were speedily found and the scheme undertaken with such public spirit that the exhibition has at no time been regarded in any other light than that of a national undertaking. The invitations issued for the great nations of the world to exhibit were freely responded to and the show is truly an international one, and covers an extent of about ten acres. The site is on North Terrace, between the University and the Hospital, and having its main front southward opposite Pulteney street. The permanent building has an imposing appearance, and in its open situation becomes a marked structure with its lofty cupola lit with the electric light.

### JIMMY'S RETURN.

Time—Some time between sundown on Tuesday, July 26th and sunrise Wednesday July 27th.

Wahine: This is a pretty time of night for you to come home; aren't you ashamed of yourself? Jimmy (pulling off his boots and carefully putting them on the bureau): Don't get so cold. Couldn't get away er—moment sooner. Had a (hic) big argument. Wahine: Fiddlesticks! Jimmy: Fact, I 'sure you. Wahine: What think? All er—boys of the lodge in it. Question was, which of us had the most amiable and er—most beautiful wife. I beat 'em all. Described you—hic—beautiful eyes, silky hair, cheeks—er hic—roses, teeth pearls, lips cherries, temper—er hic—like an angel. Offered to fight 'em if they wouldn't admit it. They gave in, and here I am—late—er—victorious, finest wife in the world. Wahine (with a sweet smile): You are a sad fellow, Jimmy, and I'm afraid you will never be any better. Let me help you take off your coat, dear.

### UNRELIABILITY OF HUMAN EVIDENCE.

The following illustration of the unreliability of human evidence is commended both to complainants and to impatient critics of those who cautiously investigate complaints:

When Von Ranke, the great historian, who recently died at an advanced age, began to collect facts for his history, a small bridge gave way, and some passengers fell into the swift current below. Von Ranke was absent, and, on his return the next day, he inquired into the particulars of the accident.

"I saw the bridge fall," said one. "A heavy wain had just passed over it, and weakened it. Two women were on it when it fell, and a soldier on a white horse."

"I saw it fall," declared another. "but the wain had passed over it two hours previously. The foot passengers were children, and the rider was a civilian on a black horse."

"Now," said Von Ranke, "if it is impossible to learn the truth about an accident which happened at broad noonday only twenty-four hours ago, how can I declare any fact to be certain which is shrouded in the darkness of ten centuries?"

### Why am I so Miserable?

So weak and languid? Why such heartburns and pain in the stomach, such acidity, and such an unpleasant taste in the mouth? Why at times such a gnawing appetite, but then again such distaste for food? Why is the mind so frequently irritable, desponding, melancholy, and dejected? Why does one often feel under the apprehension of some imaginary danger, and start at any unexpected noise, becoming agitated as though some great calamity was impending? What is the meaning of these dull, sick headaches; these violent palpitations of the heart, these feverish restlessness, these night sweats; this disturbed and dreamy sleep, which brings no refreshing rest, but only moanings and mutterings, and the horrors of the nightmare?

The answer is: These are the symptoms of Indigestion or Dyspepsia—the beginning and the forerunner of almost every other human disease. Indigestion is a weakness or want of power of the digestive fluids of the stomach to convert the food into healthy matter for the proper nourishment of the body. It is caused most frequently by the irregularity of diet, or improper food, want of health exercise and pure outdoor air. It may be induced by mental distress—the shock of some great calamity. It may be, and often is, aggravated and intensified, if not originally brought on, by exhaustion from intense mental application, of physical overwork, domestic troubles, anxiety in business, or financial embarrassments. If the stomach could always be kept in order, death would no longer be a subject of fearful anxiety to the young and middle-aged, but what would be contemplated by all as a visit of an expected friend at the close of a peaceful and happy old age. However, the first hostile invader upon the domain of health and happiness is Indigestion.

Is there any relief, any remedy, any cure? That is the question of all suffering and unhappy dyspeptic. What is wanted is a medicine that will thoroughly renovate the stomach, bowels, liver, and kidneys, and afford speedy and effectual assistance to the digestive organs, and restore to the nervous and muscular systems their original energy.

Such a medicine is happily at hand. Never in the history of medical discoveries, evidenced by a dozen years' thorough test, has there been found a remedy for Indigestion so speedy, so sure, and so surprising in its results as Siegel's Curative Syrup, but to-day it is a standard remedy for that almost universal affliction in every civilized country in Europe, Asia, Africa and America. Public testimonials and private letters from military officers, bankers, merchants, ship captains, mechanics, farmers, and their wives and daughters, alike confirm its curative powers.

## RUPTURE

Who is Mother Seigel?

She is a lady who, by the merest accident, has made a most valuable discovery, and she is creating the widest enthusiasm all over the country, and everybody is talking about her and asking

WHAT IS MOTHER SEIGEL'S REPUTATION?

And she tells them to read the thousands of letters, something like the following from Mr Perkins—

A WONDERFUL TESTIMONIAL. "Grove Pharmacy, Felling, W., Jan. 2, 1885.

"Your medicine must be the most wonderful, for during my experience of more than twenty years, I never knew any proprietary or patent medicine in such universal favor and demand. It is simply extraordinary, and if I were to send you an account of every statement made to me in its favor, you would have to publish a separate book to contain my testimonials alone.

(Signed) "THOMAS J. PERKINS" And then people ask—

WHAT DOES MOTHER SEIGEL DO? GIVES RELIEF A ONCE.

"59, Bloomfield-road, Plumstead, Jan. 7, 1885.

"I find the sale of your medicine increases every year, and every one speaks well of them that tries them. I know a lady that attended the Female Hospital in Soho-square for some months, with pains in back and, side and bilious, and could take no food, but got no benefit from any of the medicines they gave her. Before she had taken all the contents of one bottle of your Syrup she felt relief and is now quite well.

(Signed) "W. K. BAKER."

THE EFFECT WAS MARVELLOUS. "Medical Hall, Bangor, Jan. 5, 1885.

"I hear people constantly speaking very highly of Seigel's Syrup. There is a case of a young married lady in Bangor who had been suffering from stomach asthma for a long period, who had consulted some of the best physicians of the day, but without deriving any benefit. She was daily getting worse, but at last a friend persuaded her to try Seigel's Syrup. She procured a bottle, and the effect was marvellous; she rapidly improved, and now she is as strong and healthy as ever she has been.

(Signed) "H. LLOYD-JONES."

WHAT IS MOTHER SEIGEL GOOD FOR? DOES NOT RESTORE THE DEAD, BUT SAVES THE LIVING.

Mr. J. W. SAVILL, of Dunmow, Essex, writes—September 1884—"I introduced your medicines into Dunmow almost as soon as they were brought out in London. I sold in a short time eighteen pounds' worth. I have known many grand cases of permanent cures; and, as yet, no case of failure. Notwithstanding many competitors, Mother Seigel's Syrup holds its own ground. I believe it a good medicine—it will not restore the dead to life, but appears to save the living from dying."

A CASE OF GRAVEL CURED. "Fellingham, Jan. 6, 1885.

"It has always given me pleasure to recommend your medicines to my customers, and the results of their use have invariably been most satisfactory. I could furnish you many testimonials. One case just now occurs to my mind. A constable of the police force of Tooting, S. W., where I for many years had a shop, was a patient of mine, suffering from a bad attack of gravel. He was persuaded to try Mother Seigel's Syrup. He purchased a bottle at my shop, and by the time he had taken half of it he reported himself to me as quite cured. The effect was simply marvellous.

(Signed) "J. D. FLORANCE."

IS MOTHER SEIGEL RELIABLE? Would respectable chemists write like the following if not?

A SUBJOICAL OPERATION AVERTED. "Titchhurst, Dec. 1884.

Mr. EDWARD CORKE, Chemist, writes: "Your medicine maintains a steady sale in this district, and is well established in general favor. I know an old man, over seventy, who some three or four years ago was advised to submit to the operation for stone. He certainly was suffering from one distressing symptom, and could scarcely walk. Instead of taking that advice he tried Siegel's Syrup, with the result that after one bottle, he could walk about fairly well, and, having taken three or four 2s. 6d. bottles, he was completely cured. He is still about, hale and hearty for his years. If any of the symptoms of the old trouble occur on, he takes a few doses of the Syrup, and all is well again."

WHAT PEOPLE SAY ABOUT MOTHER SEIGEL. AN EXPERIENCE OF FORTY YEARS.

"Gosham, Hants, Jan. 2, 1885. "My customers, over a wide country district, are not very demonstrative, and I have no written testimonials to send; but verbal admiration of your medicine is in the ascendant, and my experience of forty years assures me that no preparation has so rapidly acquired a popularity, and so firmly maintained its reputation as Mother Seigel's Syrup.

(Signed) "THOMAS H. BAKER."
