Latest News Items of Interest From Other Lands

Honduras, W. I.—The Honduras election is just over, and resulted in the astonishing discovery that the total number of votes exceeded the total population by thirty thousand. The recipient of the letter thought this an interesting item of information for American politicians, and was confident that something like it could be shown in this country.

Chicago.—The office of X ray expert and electrical diagnostician of the law department of Chicago has been created, and will be filled by Dr. H. Preston Pratt. This office has become necessary on account of the numerous attempts at fraud in claims against the city for personal injuries.

Korsor.—The German turret ship Wittelsbach, which went ashore near here, December 16, was refloated December 21st.

Queenstown.—Mr. Michael Davitt arrived here on board the Cunard line steamer Umbria and was given an enthusiastic welcome. Replying to an address from the Cork Branch of the United Irish League, he said that the success of his mission in the United States had exceeded all expectations.

San Jose, Costa Rica.—Three more earthquake shocks have been felt here. Despatches from Cartago, twenty miles from here, say subterranean rumblings have been heard there.

Lima, Peru, via Galveston, Texas.—There is great rejoicing in all parts of Peru, from Chimbote to Recusay Huaraz, over the news of the construction of the new railway by an American syndicate represented in Lima by Frederick J. Schafer.

New York, N. Y.—Inquiries are being made in this city for George S. Schaefer, a brilliant young lawyer of Philadelphia, who was last heard of at the Hotel Victoria on September 3. His friends are divided in their theories with regard to his disappearance. He may have met foul play, for he had with him nearly \$1000 in small bank notes which he had drawn from a firm of brokers and private bankers in Philadelphia.

Rome.—The Pope has signed the appointments of Bishop James E. Quigley, of Buffalo, N. Y., as archbishop of Chicago, and the Rev. J. F. Regis Canavin, rector of St. Paul's Cathedral, of Pittsburg, Pa., as coadjutor bishop of Pittsburg.

San Jose, Costa Rica.—General Vargas-Santos, who was Military Director of the late Colombian revolution, has sailed for Colombia.

Washington, D. C.—Major General Adna R. Chaffee will follow Major General S. M. B. Young as commander of the United States Army after the latter has served his term as successor of Lieutenant General Miles, the present commander. General Young will succeed General Miles next August, and will retire in January, 1904. General Chaffee will retire in April, 1906, to be followed, President Roosevelt has decided, by General Corbin. In all probability the title of these officers will be "Chief of Staff," as the Army

Staff bill, which will go into effect when General Miles retires, provides for such an officer, with rank of Lieutenant General.

Valparaiso, Chili, via Galveston, Texas.—President Riesco has asked the former Minister of Interior Elias Fernandez Albano to organize a new Cabinet. It is believed that a compromise will be reached in order to settle the situation.

The outlook is good, but nothing has been decided regarding the advisability of removing several governors.

New York.—When the German cruiser the Gazelle captured two antiquated Venezuelan ships and, taking them

One of the institutions here which has the special attention of tourists as well as the local people is the Mint, which is established on Nuuanu street, opposite Queen Emma Hall. It is interesting to enter the large main working room where general manager McDonough and his corps of assistants are at work. The cool and large lanai is a proper resting place and the vault, where the "bars" to be minted and beer are kept present a very tasty spectacle. The Mint is open from 10 a. m. to 11:30 p. m. and during those hours the work never ceases. Visitors after looking over the place will find first class refreshments and the purest of liquors.

AN EAGLES SMOKER

The Honolulu Aerie, of the Fraternal Order of Eagles, had installation of their newly elected officers, at San Antonio hall, last evening. After the regular order of business had been gone through with, the doors were opened to an "informal smoker," to which there were many guests invited. Time, for the first round of the "smoker" events, was called by the very efficient master of ceremonies, Al Moore, who made a brief spiel to the hundred or more who were scattered about the ringside. Kappelmester Simpton threw the music of a 4-horsepower graphophone in the air as an evidence of the "continual performance" orchestra which the Aerie possessed, and, immediately, there was a quantity of good things for the inner man supplied by a host of jolly waiters; the supply of the spread made the score, or more, of tables groan that they were "loaded." Salt water punches, leather sandwiches, and candy cigars were supplied to newly initiated members, while the invited guests were treated with consideration and supplied with the "best in the house." Speeches were made by past deputy president C. J. McCarthy, past president Simpson, president Julius Asche, and vice president Al Moore. Brother Mayfield gave a clever biblical story which brought him applause and a fine; brother — gave imitations, with piano accompaniment, which were interesting, an illustration by him of the bugle call of "taps" causing Moore to remark that he was better acquainted with "beer taps" caught the remarker a fine of "akahi dala." Brother Ross delivered two recitations, "Little Nell" (not Uncle Tom's) and the "Sailor's Story," in a dramatic manner, the

sympathies of the hardened sinners present being touched by the excellent pathos. A "very touching" incident of the happy occasion was the presentation to past president Simpson of a pretty and valuable watch-chain, a gift of the Aerie members. Duke McNicoll impersonated "one of the finest," and he made many arrests, all of the victims being fined. The "wee sma' hours" were passing when the last handshake was had and the party dispersed, after having enjoyed most thoroughly the Aerie's "informal smoker."

A WARNING.

The Executive Committee of the Republican party has sent out requests to the members elect of the coming Legislature to come to this city by the first of the coming month, February, in order to go into caucus with the Central Committee while here and previous to the coming together of the next Legislature

On the one face it looks very feasible, but on the other side of it, there is a certain amount of doubt in the success of this scheme. Now, however is the chance for the dominant party to do what it can in controlling those elected under its banner and whip them all into line.

The doubtful success, which seems very apparent to us, is in the lack of means, of some of those who have been elected, to provide themselves with the wherewithal to live in the city. This condition was very apparent previously, when many of those who were elected came at the call of the party and the then dominant party had not made any provisions for the support of their colleagues prior to the coming together of the Legislature.

Under the provisions of Section 26 of the Organic Act, the compensation of members is provided for as follows: "That the members of the Legislature shall receive for their services, in addition to mileage to the rate of ten cents a mile each way, the sum of four hundred dollars for each regular session of the Legislature, payable in three equal installments on and after the first, thirtieth and fiftieth days of the session, and the sum of two hundred dollars for each extra session of the Legislature."

Now, under the above provisions, how many Hawaiians can well afford to come to this city in advance? We know that many of them can ill afford to wait, unless some of our strenuous politicians could see their way to help them out in advance. The last time, many came already provided with means by reason of many months of saving, but, during their stay here, these savings dwindled down to almost nothing, and, by the time that opportunity was given to draw the first installment, many of them were close to being without any visible means of support. And, had it not been for friends, they would have been at a loss to provide themselves with the necessaries of life.

Everything in this city costs money, and to request members from the outside districts to come here to town in advance is to impose a hardship upon them. Many of them depend entirely upon their compensation for their living while

here, and this is the point of weakness we referred to at the beginning of this article.

And now we would ask—who are the owners of those elected to the Legislature, is it the Republican Executive Committee, or is it the people who elected them? We would suggest to the members-elect that as they were elected by the people, they are not entirely subject to the beck and call of the Central Committee, unless that Committee will pay them their traveling expenses as well as providing them with their living expenses after their arrival here. Without these, if they know their own personal interests, no notice should be taken by them of this request of the centralized and autocratic Executive Committee.

Seventy Gallons Okolehao

With a rattle, and a bang, that awakened the sleeping echoes of the post-office, station-house and surroundings, deputy Chillingworth with his two bowers, McDuffie and Rainer, and a news-writer drove up to the police station at midnight, last night, guiding a double team wagonette which was loaded with the results of a successful raid by him on a "moonshiner" in Nuuanu valley. The contents of the wagon showed, one of the largest and most complete stills yet captured, six five-gallon kerosene oil tins, and four ten-gallon kegs all filled with prepared okolehao. The Japanese distiller accompanied the outfit as part of the capture. The raid was well planned and successfully made, reflecting credit on all concerned.

The good time and inner view which the guests of the Honolulu Aerie had with, and of, their hosts last evening, in San Antonio hall, is a very creditable showing of the innate goodfellowship and fraternity which exists amongst the members of the organization. There is no non-overcomable reason why the membership should not be greatly increased before the year is out and, in that hope the INDEPENDENT wishes the Aerie every success.

The former checker champion of New York city W E Connell is at present in Honolulu and proposes to give an exhibition of his skill by playing against ten players, at one and the same time of the rooms of the Y M C A on next Saturday evening.

Boston, Mass.—So that the pupils in Boston schools may be able to study the cotton plant in its various stages of development from the time it begins to flower until the blyb sends forth its fleecy contents, the city has gone into cotton growing. Out in the city houses in Dorchester Mr. Doogue, the city forester, has raised nearly two thousand of these plants, which are being distributed among the high and grammar schools of the city.
