## BEACHED BARK IS TOTAL LOSS

Little Hope That the Alexander Black Can Be Gotten Off Reef.

HULL FILLED WITH WATER

Would-Be Rescuers Report the Vessel to Be in Precarious Situation.

The British bark Alexander Black is still on the reef off Puna Point, Maui, and latest reports are to the effect that, unless the wind moderates very considerably and the sea gets smooth, there will be no chance of ever salvaging her. At present there is no chance of getting her off the reef, and if any of the cargo or stowage is saved, it will be a dangerous and hazardous job.

The explanation of how she went ashore has been made by Captain Griffiths who, with his officers and crew, was obliged to leave the vessel for his own safety. He was standing up and down the Maui shore on Tuesday afternoon awaiting for a pilot to take him in to Kahului harbor and had sail shortened. The winds were variable and, without knowing it, he got too far ashore.

While standing out to sea on a tack to windward a sudden rain squall took the vessel aback and she was forced to slack off and run far enough to get way on to wear ship and stand off from the rocky point on the other tack. But there was not enough sea-room and she ran long onto the reef.

Immediately after she struck she began to ground and finally showed round, so that her port side is up against the rocks while her starboard side is facing the full front of the breakers.

No Chance to Save Her.

It was not long before the captain saw there was no chance of saving the vessel that day, so he gave orders to lower away the boats and the whole crew piled in. They had a difficult time of it in the breakers and both boats would probably have been smashed had it not been for the assistance of Harry Baldwin, who, after the vessel was holed, went to the water and threw out a line to the boat which was being holed. The line was caught by the boat which was holed, and the boat was saved.

No Wireless News.

Something has gone wrong with the wireless system on Maui, so that Alexander & Baldwin, local agents for the vessel, received no word yesterday afternoon as to what was happening. The Maui has returned from the scene of the disaster yesterday morning with Manager Kennedy of the Inter-Island company and John Waterhouse of Alexander & Baldwin, Honolulu. J. M. Dwyer, who is looking after the interests of the insurance people, was also at the party.

All three spoke very pessimistically with regard to the chances of getting the bark off the reef. They say that the waves were breaking over the side and that it seemed impossible ever to get the bark around at her, unless the sea moderates very greatly within the next few days. By that time, they say, the bark will have gone to pieces.

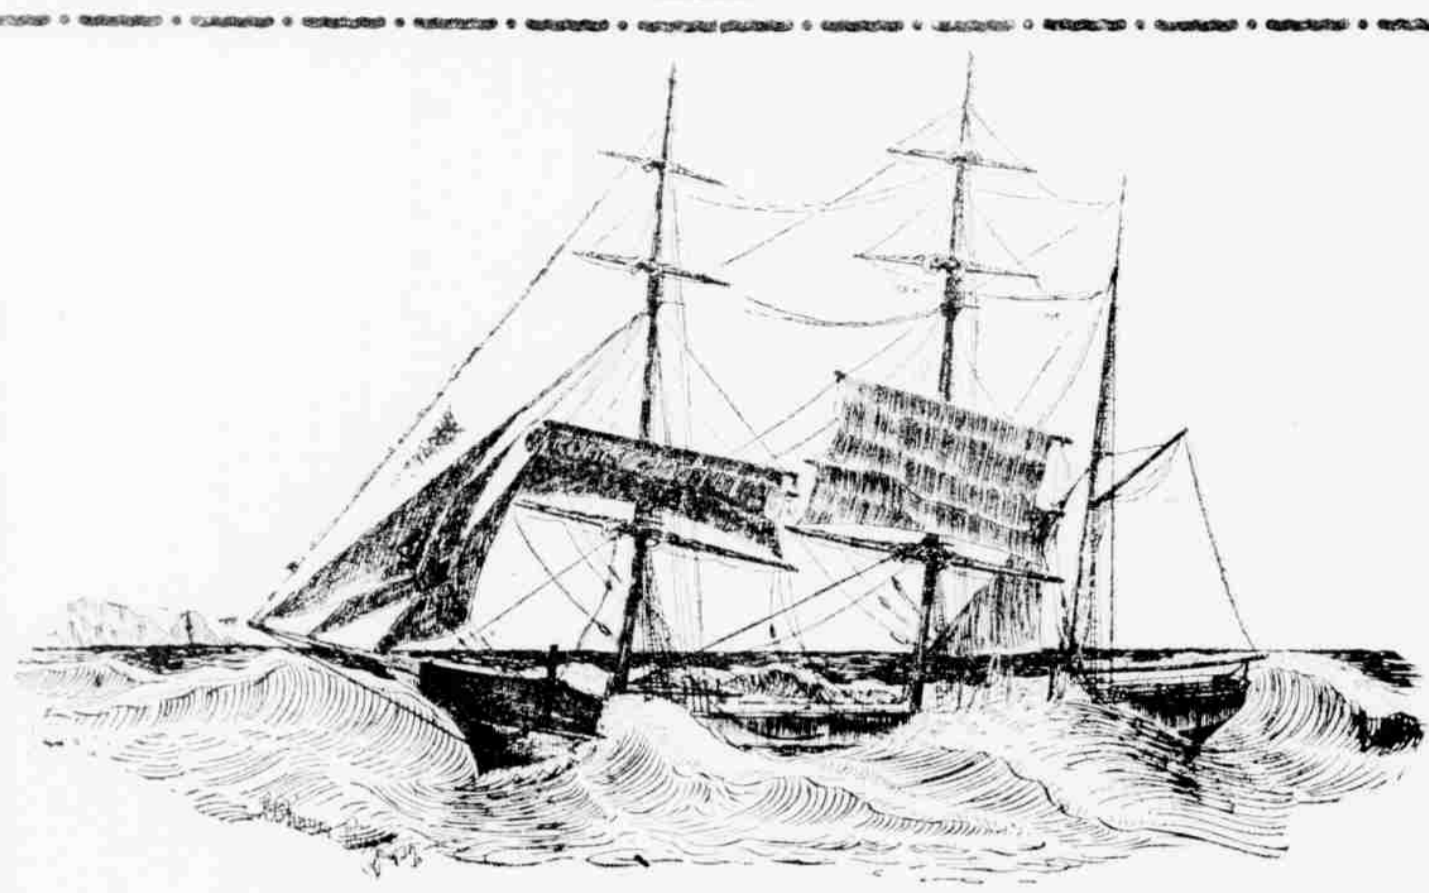

Captains Not Hopeful.

The Captain, which had stayed over to stand by, returned yesterday. Captain Bennett would not commit himself to the possibility of getting the bark off, but he did not seem enthusiastic to try the method.

At the time that the Maui left the scene of the accident the wind had shifted to the northeast and was blowing fresh. The waves were breaking over the side of the vessel, and the water had been holed in several places, so that the vessel was in a precarious position. It was feared that the bark would be smashed to pieces.

Sea Break Way Out.

The sea was breaking in such a way that it was feared that the bark would be smashed to pieces. The sea was breaking in such a way that it was feared that the bark would be smashed to pieces.

## PLANNING FOR BIGGER PAGEANT

Military Section of the Floral Parade May Number Over Two Thousand Men.

Single details in the tentative plans of the floral parade management as at present under consideration, prove the fact so often stated previously, that it will not only be better than those that have had gone before, but will completely eclipse them. A detail in instance is the number of automobiles that will be in line, as the committee expects between 75 and 100 machines. On the first edition of a floral parade being held here there were but 11 autos entered and last year the number increased but to 23.

The first year, horseback riders were depended upon largely, and last year the automobiles were, but this year there will be such a variety of features in the parade that no one class of autos will be dominant.

The military section of the parade will be particularly fine and it is expected that there will be over 2,000 men in line, including the companies that will be in the parade.

## OBSERVATORY NOW IS ALMOST A CERTAINTY

Land Has Been Donated and Money for Building Is Being Subscribed.

The astronomical observatory in Kahului is now almost a certainty. The land has been donated and money for building is being subscribed.

W. O. SMITH IS NOT A CANDIDATE

W. O. Smith denied yesterday that there was any talk in the honor that he was being selected for a candidacy for the second federal judgeship.

It is generally thought, however, that Smith is a dark horse in the race against A. G. M. Robinson and Governor Frazier as was announced in the Advertiser last week when an endorsement of Smith was given with this endorsement there is an idea prevailing that he will not be appointed.

The situation is much less clear now than it was last week.

## THREATEN MUCH ANONYMOUSLY

Medical Examiners Hear From a Bunch of Strong Portuguese.

Anonymous letters, threatening the members of the board of medical examiners, have been received by Doctor Sinclair and Doctor Judd, members of the board, declaring in substance that the medical profession of Honolulu is jealous of a certain Doctor Gaspar and that for that reason his application for a license to practise here, made three years ago, was refused. As Doctor Gaspar is back in Honolulu, having arrived on the immigrant ship Swanley, and has applied for a re-examination, the inference is that his friends hope by abusing the examining doctors to secure a more favorable result of his examination this time.

Naturally the recipients of the anonymous letters are indignant. Their indignation is not at any charges of professional delinquency, for that could be met at, but at the idea that their actions could be influenced away from the path of duty because of threats.

"We are public officers," said Doctor Judd yesterday, "and have taken an oath that we will carry out faithfully the duties of the office the Government has appointed us to and the advice in which we have been confirmed by the court. The only attention I want to pay to the letter sent me is to say that it will make absolutely no difference in what I may do."

The letters received are very similar in handwriting and phrasing. They are received by Doctor Sinclair and Doctor Judd.

Doctor Gaspar is needed here. We need him. He knows more than all the doctors in this town. Don't be jealous. Be good. Be just. The Portuguese colony is claiming (through) for the medical profession. We are expecting you will believe better than three years ago. Be sure. If you don't let Doctor Gaspar pass the examination it will be the first of the medical profession of Honolulu and the first of the medical profession of Honolulu.

Imminent Letters.

"There is no way in which we are able to communicate with the writers of these anonymous letters," said Doctor Sinclair, "and through the press I want to state for the benefit and for the benefit of everyone that we propose to carry out our duty as medical examiners and we will do so in the most impartial and just manner possible. It is our duty to examine the applicants for licenses and we will do so in the most impartial and just manner possible. It is our duty to examine the applicants for licenses and we will do so in the most impartial and just manner possible."

Who Doctor Gaspar Is.

Doctor Gaspar came to Hawaii three years ago with the Portuguese immigrants and worked in the sugar fields. He is now a prominent member of the medical profession of Honolulu.

## CHRISTMAS TREE BRINGS DISASTER

Royal Family of Greece Have Their Celebration Interrupted in Rude Manner.

ZELAYA IS THREATENED NOW

Deposed Dictator Thought to Be in Danger of Assassination by Malcontents.

(By Associated Press.)

ATHENS, January 7.—While the royal family was celebrating Christmas, the Christmas tree was upset with the result that the fire from the lighted tapers was communicated to nearby draperies. A conflagration ensued and an entire wing of the royal palace was destroyed. There were no lives lost, but the blaze burned fiercely for some time, despite the efforts of the fire department to extinguish it.

## ASSASSINS THREATEN FORMER DICTATOR

Zelaya Is Warned That Attempt May Be Made Upon His Life.

(By Associated Press.)

CITY OF MEXICO, January 7.—Former President Zelaya has been warned that an attempt may be made upon his life. The deposed dictator of Nicaragua has been very quiet since he sought asylum in this city, but it is believed that there is very grave danger that an attempt at assassination may be made.

## SENATOR PERKINS IS SERIOUSLY INJURED

Aged California Law-Maker Falls on Slippery Pavement.

Senator Perkins of California.

(By Associated Press.)

WASHINGTON, January 6.—United States Senator George C. Perkins of California today sustained a serious fall, striking the pavement which was slippery, being coated with ice. His spine was injured and his body badly bruised. Senator Perkins is seventy-one years of age and has been in delicate health for a long time. It is feared that the accident may result fatally. Assistant Secretary of State Huntington Wilson met with a similar accident and is badly cut in consequence.

## SEVERAL CASES OF DIPHTHERIA IN TOWN

There are at the present time a number of cases of diphtheria in Honolulu, scattered about in various sections of the city, and although there is no particular reason to apprehend anything like an epidemic, yet the health officers express the opinion that something in the nature of a sore throat should be carefully looked after and no cases should be taken.

Five cases of diphtheria have been reported within the past day or two, all of them among children, and several from one end of town to the other. There is no case in the vicinity of the city hall, and one near the corner of A and B streets, and one near the corner of B and C streets, and one near the corner of C and D streets.

The health officials do not wish to cause any needless alarm, but to avoid any possibility of a spread of the disease, they suggest that all cases of sore throat be immediately reported and treated by a physician.

## THUNDERBOLT IN PINCHOT DISPUTE

Letter From Forester to Senator Dooliver Is Read in the Senate.

CABINET MEETING FOLLOWS

Ballinger Is Declared Cleared of All Charges Preferred Against Him.

(By Associated Press.)

WASHINGTON, January 7.—Interest in the Ballinger-Pinchot controversy has reached fever heat. The intensity of the situation was doubly increased yesterday when a letter from Pinchot to Senator Dooliver was read in the senate. In the letter the chief of the division of forestry openly upheld the action of Glavis, the discharged employe of the land department, in making his charges against the secretary of the interior, and furthermore criticized the action of Ballinger in discharging him.

Immediately after the reading of the letter, the President hurriedly called a meeting of the cabinet. After the meeting both the President and members of the cabinet absolutely declined to make public the result of the conference.

It is generally believed, however, that the hurried and secret conference forebodes some executive action with regard to Pinchot.

## BALLINGER CLEARED.

WASHINGTON, January 6.—The report of Attorney-General Wickersham, rendered today, declares to be unproven the charges against Secretary of the Interior Ballinger, which charges were made by the discharged employe, Glavis, and behind which Pinchot was supposed to be. The charges involved accusations of aiding grafters.

PINCHOT MADE NO CHARGES.

(By United Press.) WASHINGTON, January 6.—Chief Pinchot of the forest service, suspected of being behind the charges against Secretary of the Interior Ballinger, makes a statement in which he declares Assistant Foresters Price and Shaw to be the authors of such charges.

## ALLEN DOONE, FAMOUS ACTOR, TO PLAY HERE

ALLEN DOONE, THE IRISH COMEDIAN, WHO WILL APPEAR AT THE ORPHEUM TONIGHT.

Allen Doone, the great Irish singer, contemporary of O'Neill and Shaw, and Andrew Mack, will appear at the Orpheum tonight, supported by Miss Edna Keeler, the American actress, as a part of the program. Richard Bullock's company, appearing as usual. This evening the program is presented by Manager Cohen in the belief that his Honolulu audience will appreciate his effort in having Mr. Doone and Miss Keeler with off from the steamer Monna and pass here before leaving.

Mr. Doone presents Irish plays of his own composition dealing with social, political and domestic incidents in Ireland, and he makes special scenes, costumes and all the paraphernalia, appearing and singing. Tonight he will present the "Sketch" "Sweet County" "Kerry" from the title of "Forty years" Miss

Keeler appearing with him. Another member of his company, Dick Stead, the Australian baritone, who is regarded in the same class as Hamilton Hill, well known here, will not appear until the Monday evening performance. Mr. Doone's playlets are of a high order of legitimate comedy, catering especially to those who appreciate clean-cut comedy. Mr. Doone gets his points with out the aid of the slapstick and the usual buffoonery of the average Irish comedian.

Mr. Doone is concluding a tour of the world and is due in San Francisco on January 21 to appear at the Empire Theater. The double program is one of the best which Manager Cohen has ever arranged for Honolulu.

The Golden company played to a big house last night and next time will be no doubting from start to finish. The singing was entirely, and Miss Ed

### CHAMPION HERE TO PLAY TENNIS

America's Leading Experts Will  
Stay Over to Play Roth  
and Gee.

Miss H. H. Long and Miss M. C. McLaughlin, the American champion tennis players, who were selected to represent the United States in the Davis cup tennis series in Australia, were passengers on the Monna yesterday, and were persuaded to stay off for a week and take part in a singles and doubles tennis tournament.

The feature of the visit of these two great racket wielders will be the doubles match at the country club courts next Sunday. Starting at three o'clock, Roth and Gee, the Honolulu champions, will play McLaughlin and Long, the United States champions.

From every point of view this will be an intensely interesting event. McLaughlin and Long are the finest duo of tennis players that has ever stepped off in Honolulu. Better tennis players have probably never been seen on local courts.

But both Gee and Roth are very good. If they both happen to be in form next Sunday, it is more than possible that they will make it hard for the other visitors, even if they do not beat them. The country club courts are in excellent condition. They are the best of their kind and should afford a good chance for each of the four players to do his very best.

The tennis tournament arranged is as follows: Commencing on Friday at half past three on the Beretania courts. Preliminaries best two out of three, binds best three out of five. Singles, first round, McLaughlin vs. R. A. Tucker; Wm. Roth vs. A. L. Castle. Second round, Long vs. Captain Low; Gee vs. W. F. Dillingham.

The probable entries in the doubles will be: Long and McLaughlin, Roth and Gee, W. F. Dillingham and Harold Dillingham, R. A. Cooke and C. F. Cooke, Richards senior and junior, Steere and Newell, Doerr and Hoogs, Anderson and Low.

#### Hospitality for Malibinis.

The advent of the two champions has made the local tennis fanatics prick up their ears and take notice. Honolulu is about to have the greatest exhibition of the ancient game that was ever seen here. In the mean time Messrs. McLaughlin and Long are staying at the University Club and are being entertained according to the ancient ritual of Honolulu that says that no madman shall be sent away discouraged. They will go on to the coast on the Alameda next Wednesday. Bo

Both Youngsters.

Both of these great tennis players are youngsters. Neither one of them looks to be very much out of the teens, but they have the manner and well-settled of the American gentleman and athlete, and both have a manner as modest as it is charming.

Long is still at U. C. while McLaughlin will enter the state university this year. At present the latter is a Lowell High school student and the record he has made during the last four years in California tennis, the position he has gained as one of the United States representatives on the courts and his wonderful prowess with the racket, will gain a great welcome for him when he returns to the coast.

Both Long and McLaughlin speak in high terms of the treatment they re-

ceived in Australia. "The best sportsmen, the best tennis court and the best hospitality in the world," they say and they beam when they say it.

STREET PAVING.

James A. McWhorter suggests that property owners should pay for the improvement of the street in front of their own property, whether in whole or in part.

This is a simple, economical and satisfactory way of securing permanent pavements, but unfortunately there is no way at present of instituting the plan in Honolulu.

Under present circumstances, if Honolulu is to make a start toward putting the main streets of the city into a satisfactory condition, it can only be done out of current revenue.

Few will disagree with the assertion that eventually Honolulu and the island generally will be money ahead by doing so, while there will be less occasion to apologize to each other and visitors for the usual condition of the downtown streets.

Four thousand dollars a month set aside for three months would furnish a sum sufficient to warrant the municipality entering into a contract for a bituminous pavement on Port street from the waterfront to Beretania avenue.

With these examples before them the taxpayers would insist on the following boards continuing on the program of providing the city with city streets.

ALBERT I. OF BELGIUM.

Albert I. ascends the throne of the Belgians at an auspicious time. There are signs of great impending changes in Belgian parliamentary life, pointing to the collapse of reactionary control and the revival of liberal supremacy.

Among the smaller nations of Europe, the Belgians occupy a most honorable position through their astounding progressiveness in modern industrial life.

HALLEY'S COMET.

From now on we may look for reports to the effect that Halley's comet has been seen in Honolulu. It was picked out by a fine telescope in New England two weeks ago, and is due to leave into sight from Honolulu about next week.

It is thought to be the same comet which was seen in the year 1835, and which will appear to be 10 1/2 more than a disintegration for some time to come.

It is thought to be the same comet which was seen in the year 1835, and which will appear to be 10 1/2 more than a disintegration for some time to come.

The committee on the proposed new street plan is now studying the various suggestions.

After a long session the committee has decided to report to the board.

Army and Navy News

Real National Guard. A bill (H. R. 10000) to amend the National Guard Act of 1903, and to provide for the reorganization of the National Guard, was introduced in the House of Representatives on January 5, 1910.

The new law provides that the regularly enlisted and uniformed active militia shall constitute the National Guard. After January 21, 1910, the organization, equipment and discipline of the organized militia shall be the same as that which is now prescribed for the regular army.

According to the act the secretary of war is authorized to issue from time to time to the organized militia such number of the United States service arms, together with all accessories and such other accoutrements, equipments, uniforms and clothing.

The new law authorizes the secretary of war to appoint a board of five officers on the active list of the organized militia so selected as to secure equitable representation to all sections of the United States.

Exactly \$12,430,476 will be spent on vessels of the navy now under construction during the fiscal year 1910 to 1913, inclusive, under the estimates submitted to congress by the navy department.

**EDITORS MAY PAY  
HAWAII A VISIT**

Member of National Association  
Writes to Promotion  
Committee.

There is more than a possibility that  
the National Editorial Association will  
pay Honolulu a visit next year. The  
promotion committee is in receipt of a  
letter from J. P. Baumgartner, editor  
of the Santa Ana (Cal.) Register, a  
prominent member of the association,  
asking what arrangements could be  
made for the entertainment of the  
members should they decide to come  
here.

At yesterday's meeting of the pro-  
motion committee the matter was dis-  
cussed at length and it was decided  
that it would be best to have the edi-  
tors here during February, that they  
might be able to take in the floral  
parade. It was decided to see what  
can be done in the way of accommo-  
dations, and when sufficient data have  
been collected a letter will be sent to  
Baumgartner, that he may bring the  
matter up at the coming convention at  
New Orleans.

**Acting Secretary's Report.**

"A letter received by the last mail  
from J. P. Baumgartner, editor of the  
Santa Ana (Cal.) Register, is of con-  
siderable interest. Mr. Baumgartner is  
a very prominent member of the Na-  
tional Editorial Association, and is very  
likely to be elected president of the  
organization at the next meeting which  
will be held in New Orleans about the  
middle of next month. He has long  
been interested in Hawaii, and is ex-  
tremely anxious to arrange a large ex-  
position of the members of the editorial  
association to Honolulu during the win-  
ter or spring of next year, and he  
states in his letter that he expects to  
bring the matter up and push it strong-  
ly at the New Orleans meeting.

"This is by no means a new project.  
Mr. Wood has had the matter before  
the association at every meeting for  
several years, and we are, in touch  
through correspondence with practical-  
ly all of the members. At the meeting  
in Seattle last summer, Hawaii got a  
splendid hearing, and whenever the  
name Hawaii was mentioned, the  
convention gave closest attention. We  
were able to arrange a little reception to  
several hundred of the editors and their  
wives at the Hawaii building one even-  
ing during their stay in Seattle, and  
they most appreciated the moving pic-  
ture entertainment and promenade treat  
arranged especially for their benefit; so  
we may be sure that the inclination to  
come to Hawaii will be very general  
among them, when the question is  
brought up.

"As usual, the principal difficulty  
will be that of transportation. Mr.  
Baumgartner talks of bringing three  
and four hundred making the trip, and  
even under the most favorable condi-  
tions it is going to be difficult to handle  
even half of the number. I feel, how-  
ever, that we should get after this ex-  
position as strong as possible for I feel  
that it will be largely on us whether  
or not the trip will be attempted. Mr.  
Baumgartner asks a party.

"At the meeting of the National  
Editorial Association at Seattle, last  
July, I took the matter up in the way  
of a personal interview with the mem-  
bers and also in the form of the con-  
vention hall meeting. Without  
being able to do it, I feel justified in  
saying that if the trip can be arranged  
without causing too much trouble, and  
if it is going to be made in the  
spring of next year, I feel that we  
should get after it as soon as possible.

"This matter is being treated  
lightly, for the reason that I expect  
the ball rolling and once kept in roll-  
ing and on the further reason that I  
am on the Pacific coast and am sup-  
posed to be in a position to work it  
out more easily and satisfactorily than  
any other member of the executive  
committee. Now, I wish you would  
write me as definitely as you can what  
we could count on in the way of en-  
tertainment and social rates in Ha-  
waii, and at what part of the year  
would you rather have us, and any  
other matters that may be of the best  
interest to you. I will make the matter  
up with the committee and will be glad to  
hear from you on the subject. I will  
also be glad to hear from you on the  
subject of the trip.

"I would also like to see that at the  
close of the Seattle meeting a large num-  
ber of the editors and their families  
would be invited to visit.

**The Clark Tours.**  
I am glad to hear that you are  
planning to visit the islands of the Big  
Islands. I am sure you will have a  
most enjoyable trip. I am sure you  
will be glad to hear from you on the  
subject of the trip.

Annexation of Hawaii Not to Be  
Compared With Conquest  
of Korea.

Editor Advertiser—In your per-  
mission to use a little space in your  
valuable paper, I will be glad to ex-  
press the feeling of Korea on the  
statement of Count Hayashi that "A  
third power has no right to interfere  
in the annexation of Korea by Japan,"  
as reported in The Advertiser recently.

He cites the example of America's  
annexation of Hawaii. But any one  
will find out the great difference be-  
tween Japan's annexation of Korea and  
America's annexation of Hawaii, if he  
has common sense enough to compare  
Hawaii, who needed help, and  
submitted to the morality of the United  
States, the great Christian nation,  
with Korea, a nation which contains  
twenty million of her people who will  
not submit to the immorality and  
rapaciousness of Japan.

In 1849 the American flag had sym-  
pathies much enlisted in the Hungarian  
effort for liberty. They all wept at  
the failure. They had a rational hope  
of establishing free government in Hun-  
gary. But unfortunately, this hope was  
suppressed by the despotic power.

"Why would a third power have no  
right to interfere if the United States  
annexed Hawaii by murdering and robbing  
the poor natives like Japan does to  
the Koreans today? O. H. how cruel  
Japan is!" She has murdered thirty-four  
thousand Koreans in six months' time,  
that is, from November, 1908, to May,  
1909!

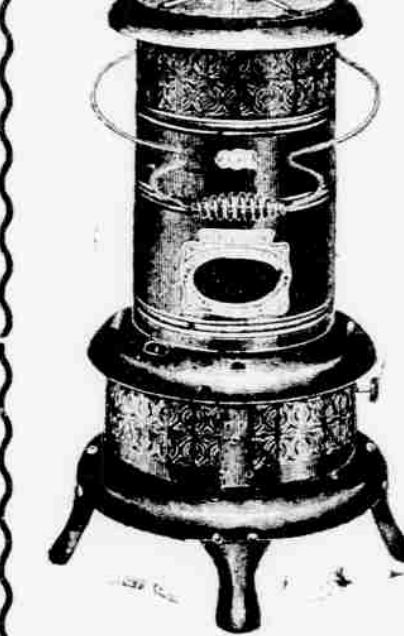

There is something greater than such  
an arbitrary power. The lightning,  
whirlwind and earthquake have their  
power; but there is something among  
men more powerful than anything else.  
That is the excited and aroused indig-  
nation of the whole civilized world. If  
it sees the blood of innocent Koreans  
dripping to the ocean today it will have  
sympathy for the Koreans in their  
struggle for freedom from ruthless oppres-  
sion, the failure of success of which  
is the blood of twenty million Koreans.  
C. H. YONG.

**WHAT IT WILL DO.**

A woman buys a sewing ma-  
chine for what it will do; not as  
an article of furniture. A man  
carries a watch to tell him the  
time; not as an investment of  
surplus capital. The same prin-  
ciple when one is ill. We want  
the medicine or the treatment  
which will relieve and cure. The  
friend in need must be a friend  
indeed, something, or somebody,  
with a reputation. There should  
be no guesswork in treating dis-  
eases. People have the right to  
know what a medicine is, and  
what it will do, before they take  
it. It must have behind it an  
open record of benefit to others  
for the same diseases, a series  
of cures that proves its merit  
and inspires confidence. It is  
because it has such a record that  
**WAMPOLE'S PREPARATION**

is bought and used without hesi-  
tation or doubt. Its Good Name  
is the solid basis for the faith  
the people have in it; and a good  
name has to be earned by good  
deeds. It does what you have a  
right to expect it to do. It is  
palatable as honey and contains  
all the curative properties of pure  
Cod Liver Oil, combined with the  
Compound Syrup of Hypophos-  
phites and the Extracts of Malt  
and Wild Cherry. In Scrofula,  
Anemia, Nervous and General  
Debility, Influenza and Wasting  
Complaints, it is to be thoroughly  
relied upon. Doctor J. L. Car-  
rick says: "I have had remark-  
able success with it in the treat-  
ment of Consumption, Chronic  
Bronchitis, Catarrh and Scrofu-  
lous Affections. It is of special  
value in nervous prostration and  
depraved nutrition; it stimulates  
the appetite and the digestion,  
promotes assimilation, and enters  
directly into the circulation with  
the food. I consider it a marvel-  
ous success in medicine." Every  
dose effective. "It cannot dis-  
appoint you." Sold by chemists.
