A brilliant sky, a delighted throng, a complete success, tell the story of the annual Floral Parade today. The birthday of George Washington was celebrated by Honolulu folk this morning, in a manner that would have seemed strange to the people of the Original Thirteen Colonies. Flowers and bright scenes every where marked the parade and showed a happy combination of modern achievement with the customs of Hawaiian days of long ago. The division of the automobile and the pa-u riders was one of the most striking features a combination that was especially interesting to the visitors from abroad.

Despite the fact that the parade this year was not, in some of its features, equal to the preceding celebration, the large crowds that thronged the streets and watched the display were delighted with the general effect of the affair and only words of commendation were heard. The divisions in the parade were good. The automobile division was naturally the most striking feature for the opportunity of showing originality and beauty of decoration, were

greater than any other division afforded. There were fewer automobiles in the column this year, but the decorations were in every respect, as beautiful while the runabout section was, if anything, better than that shown in the previous affair.

### THE PA-U RIDERS

The carriages of various descriptions were limited this year, but some of them were very pretty. Only one float that by the Kilohana Art League, was in the parade, and the fire department was also absent. But the single float of the Art League, showing a Grecian Temple in which were young women representing the various forms of art, was the most artistic thing of the kind that has ever been shown here. The float was applauded throughout the line of the procession.

### THE ISLAND PRINCESSES

There was a most striking array of pa-u riders. Frank Andrade led this division and immediately following him were the Princess Theresa Wilcox, Mrs. Puahi and Marie Beckley, the three recognized leaders in pa-u matters in

the islands. Behind them came an imposing cavalcade of the riders. The women rode well and handled their horses, with much skill. At intervals, during the parade this division galloped, which showed the flowing pa-us, makes a very effective feature of the display. The majority of the pa-u riders wore the royal yellow color of pa-u.

A new feature this year were the island princesses. It was in this division that the most elegant horses were shown. The prize Cornwell bay stallion from the Cornwell ranch was ridden by Miss Kitty Cornwell, who represented the island of Maui. Miss Cornwell was given a splendid opportunity to display her horsemanship, for her steed seemed to catch the spirit of the occasion and was one of the prettiest animals in the entire parade. Mrs. Malina, the Kauni representative also showed much skill in managing the fine Arab charger that she rode. She aroused much admiration. The horse she rode belongs to Representative C. A. Rice and was white with calico spots. She wore a brilliant red pa-u with the favored white floral design. Miss Alice Bartholomew as the Molokai princess, wore white and green costume, with flowing green pa-u. She wore a garland of white flowers. She was much admired, for her costume was very striking. Miss Gussie Clark mounted on a magnificent coal black horse was the Oahu princess. She wore yellow and black, with ilima leis. Her pa-u costume was yellow. She received much applause.

Miss Anna Rose, who was Hawaii's Queen at the Omaha Exposition, was Hawaii's princess today. She wore a red pa-u, with black hat and cape. She carried herself in a regal way and rode her bay charger in fine style. With the exception of Miss Cornwell, all of the princess wore long pa-us. Miss

Cornwell also wore a becoming continental hat with a cockade, at the side. All of the princesses were accompanied by heralds mounted on ponies or smaller horses.

There were no princesses from the islands of Lanai or Nihaui.

### COWBOYS AND ROUGH RIDERS

Following regular pa-u division of which the small riders were a pretty feature, came the miscellaneous riders under the direction of Harold Dillingham. This division was, in many ways better than the miscellaneous riders of the previous parade. Although the numerous characters were missing.

Somebody missed a fine opportunity to enter the "Water Wagon." Probably nobody could be found, just at present, to consent to remain long enough on the conveyance, to ride from the Capitol grounds to the base ball park.

### THE BICYCLE RIDERS

The bicycle division was small but there were some amusing characters and several original designs.

Last year the Japanese automobile entry was one of the most handsome and richest of the decorated cars, but this year had it not been for Governor Carter's act in placing his machine at the disposal of the visiting Japanese squadron, there would have been no representative of Japan in the parade. However the Japanese availed them-

## World's Greatest Fotografer

JAMES RICALTON WHO HAS CAUGHT WONDERFUL SCENES THE EARTH OVER, IS HERE.

Aboard the Alameda which this morning arrived from San Francisco is James Ricalton, the most celebrated war photographer in the world. He represents Underwood & Underwood of New York and has photographed bloody scenes in the Boxer troubles in China, the Boer War, the war in the Philippines, the Japanese-Russian war and elsewhere and otherwise. He will stop over here some little time to take scenes of the volcanoes on Hawaii and come in with the hope that the lava flows of Mauna Loa on Hawaii would still be in action. It seems that he will have to be content with the mild eruptions of Kilauea. From Honolulu he will go to Australia, New Zealand and perhaps, around the world.

One of his first photographs here will be the floral parade. As soon as he arrived and heard that there was a great floral parade for which Hawaii is becoming famous, he hustled up town with his camera, determined to get some of the pictures of this unique celebration. Through with the floral parade he will take pictures of the Japanese squadron now in port and will then devote himself to Volcano scenes.

Ricalton is one of the world's obscure great men. He has gone through a long life, with his nose to his work.

## Alameda Enters In Full Dress

MAKES GOOD TIME FROM COAST. HOME-RETURNERS — CAPTAIN NOTIFIED NOT TO TAKE JAPS.

In splendid time, 5 days and 20 hours the O. S. S. Alameda, Captain Dowdell, arrived from San Francisco this morning, docking at the Oceanic wharf at 10 o'clock. She entered the harbor dressed in all her colors in honor of Washington's birthday.

The Alameda brings 1615 tons of general merchandise for Honolulu. She enjoyed both going up and coming down, the smoothest weather of her experience.

Mr. and Mrs. John W. Cathcart returned home. County Attorney Cathcart has been away attending to important legal matters in Washington.

A. W. Eames is one of the arriving; he recently lost his wife in California.

Assistant Superintendent of the local cable office, F. Harwood, who went up in the S. S. Enterprise for his health, returned and is much better. Miss McGregor of Ehlers millinery establishment like a dog on a scent, heedless of fame and money. He is original, alone, and has done things no other man has done. It was he that Thomas A. Edison sent into all the tropical jungles twenty years ago to search for a vegetable fiber for the electric lamp. He took most of the photographs for John L. Stoddard's lectures. He was the first foreigner to walk through northern Russia, 1,500 miles from Archangel to

## SQUADRON ANSWERS SALUTE TO NATION

JAPANESE VESSELS BEAUTIFULLY DECORATED IN HONOR OF WASHINGTON'S BIRTHDAY.

Simultaneous with the tooting of the three time whistles at 5 o'clock this morning the ensign of the United States went to the top of the tall flagstaff in the grounds of the naval station. A gun was fired, and the official observance of Washington's birthday got its start. The three vessels of the Japanese squadron, lying at the naval station wharves, full-dressed ship, making a brave show of colors. The flagship Itsukushima, lying in the middle, was particularly grand in de-

corations. At noon the naval station saluting batteries gave twenty-one guns, the national salute and the guns of the Japanese flagship responded. Many people were on the waterfront, admiring the squadron and the decorations on all the vessels in the harbor. Flags were every where a flag could be shown.

STUBBORN COUGHS.

## THE HOUSE MET IN INFORMAL SESSION

OTHERWISE IT WOULD HAVE SACRIFICED ONE OF THE SIXTY DAYS OF THE SESSION.

The House of Representatives met this morning to commemorate the natal day of George Washington, the first president of the United States.

Being unwilling to sacrifice one of the sixty days, Speaker Holstein declined to take the chair and the meeting took informal nature.

Representatives Hughes and Kanine were called upon to speak on appropriate subjects which they did at some length. Each speaker dwelt at some length upon the character and works of "the father of his country," and were heartily applauded by the House.

None of the proceedings of the day appear upon the records and the clerk was instructed to amend the minutes making the adjournment taken yesterday read 9 o'clock Saturday morning.

There was no session of the Senate.

## LAUKEA REVIEWS POLICE FORCES

ENTIRE DEPARTMENT TURNS OUT TO MAINTAIN ORDER IN THE PARADE AND BIG CROWDS.

"All hands on deck" was the cry at the police station this morning, for the great holiday floral parade called for all the men the retrenched police department could produce.

At 8:20 o'clock Sheriff Laukea stood on the front steps of the police station, like the statue of Washington, whose birthday it is today, stands on the steps of the sub-treasury on Wall street, New York, and reviewed the mounted peace-preserving forces of this county. There were six men, not counting Captain of Police Parker. They formed and maneuvered, rode by and saluted and then dashed off to take charge of the parade.

All the foot police, about thirty men, including every watch, were turned out to maintain order.

It was an impressive sight.

**FILED HEAVY LIBEL**

**FORMER MATE OF BARKENTINE FULLERTON WANTS \$50,000 FOR LOSS OF HIS RIGHT ARM.**  
A heavy libel was filed yesterday rived Wednesday morning from Port Harford yesterday morning from Port Harford with a cargo of fuel oil. It had been planned to send the vessel out this afternoon but the filing of the libel stopped her departure. Fifty thousand dollars is the amount of the money claimed. Henry Withof, formerly mate of the vessel, is the libellant.  
He claims that on December 24, 1906, while the Fullerton, in tow of the S. S. Lansing was en route to Kihel from Harford, the anchor chain on the Fullerton slipped along the "wild cat," an apparatus over which the chain slides, and caught the right arm of the libellant, and bruised and injured it to a shocking extent. Although the vessels were then less than 500 miles from Port Harford, the master of the Fullerton refused his duty to the injured man, and persisted in continuing the voyage to Kihel, a distance of over 1500 miles. The Maui port was reached on January 2 and on January 6 the arm of the libellant was in such a condition that it had to be amputated four inches above the elbow, to save his life. He claims that his ability to earn his living as a mate at the scale of \$100 a month and his board on vessels, which could be worth an additional \$50, is now ended, so he prays relief.  
U. S. Marshal Hendry placed a deputy aboard the vessel pending the filing of a bond.

## FLORAL SOCIETY HELD A MEETING

RE-ELECTED FORMER OFFICERS. MORE VASES ARE NEEDED—FUNDS FLOURISHING.  
The sixteenth annual meeting of the Hospital Floral Society was held yesterday afternoon at the residence of Canon MacIntosh. The following officers were re-elected: President, Mrs. E. W. Jordan; vice president, Mrs. A. Judd; secretary Mrs. Allen Bottomley; treasurer, Miss Von Holt and auditor E. W. Jordan.  
Miss Von Holt the treasurer, reported that the funds of the society were in a flourishing condition. The society had expended \$220.39 during the past year.  
Mrs. Campbell reported that more vases for the flowers sent to the various hospitals, would be needed, as many of the old vases had disappeared. She was appointed a committee of one to ascertain how many more would be needed. She said she would donate a dozen.  
Mrs. Bottomley the secretary, was directed to write letters of thanks to Mr. Livingston and Mrs. Coleman, for contributions. A vote of thanks was extended to the officers, for their excellent work during the last preceding year.

## JAPANESE MAY GO TO MEXICO

LAW DOES NOT PROHIBIT LEAVING HAWAII FOR MEXICO AND SO ENTERING THE STATES.  
Japanese shut out of the United States from Hawaii are thinking of going to Mexico, and from there make their way to the United States, the new immigration law making no prohibition to their entry from contiguous territory, Mexico or Canada. According to the Hawaii Jifu shimbun, arrangements are already under way for a steamer to carry Japanese laborers from Hawaii to Mexico. They have not gone to Mexico before, it is said, because of unfavorable reports of the climate.

**PINKHAM IS ADVERSE  
TO THE JAPANESE**

REPORTS AGAINST THE EXAMINATION OF APPLICANTS IN JAPANESE LANGUAGE AND TELLS OF TROUBLE WITH JAPANESE LEPELERS AT THE STATION—SAYS JAPAN CAN CARE FOR HER OWN LEPELERS IF DESIRED.

Some very important matters were brought to the attention of the Board of Health yesterday afternoon by President Pinkham. In a communication to the Board President Pinkham said:

"I herewith hand you two communications from the Board of Medical Examiners, one that Dr. Homer Hayes be licensed to practice medicine and surgery in the Territory of Hawaii and one recommending that Drs. Naotaro Tausumi, K. Mijima and D. Ichikawa be refused licenses. The latter gentlemen were given a written examination in their own language, through an accomplished interpreter of their own race. In addition they were examined orally that they might have an opportunity to disclose further their knowledge on some points on which they were radically incompetent, according to their written replies. The oral examination only confirmed this deficiency. Much time and patience was expended in these examinations and every care taken to be fair and just to these candidates.

I below quote from my report to the Governor, under date of December 31st, 1906, relative to the "Practice of Medicine and Surgery in the Territory of Hawaii." The general principles therein laid down appear to be unacceptable to the Japanese alone.

In another item of administration some leading Japanese are defying the laws of the Territory.

A short time ago the laws of the Territory were broken as to the treatment of leprosy and unlawful escape of a leper. Apologies were made.

On the night of February 19th another Japanese leper with the connivance of Japanese, who are intelligent enough to know they were scheming to break the laws, broke from the Kalaheki Receiving Station. Upon receipt of the information I caused the town to be searched and also the departing S. S. America Maru. We failed to find the leper.

Henceforth every Japanese leper confined in the Kalaheki Receiving Station will have his liberty so restricted he cannot escape.

If the Japanese Government and Japanese residents desire to have the Territory of Hawaii transfer any or all Japanese lepers to their friends or the Japanese official representatives that they may be sent to Japan, there is no doubt but the Territory would be pleased to be relieved of the expense and responsibility of their care.

If such is the case I would recommend the Japanese residents to at once present the matter to the Board of Health, and the Board after consideration submit their conclusions to the Government and Legislature.

It is not the intention of this department to permit any nationality to disregard or hold in contempt the laws and regulations of the Territory of Hawaii entrusted to this department.

THE PRACTICE OF MEDICINE AND SURGERY.

The Board of Health is charged with duty as to methods of examinations of the issuance of licenses to practice medicine and surgery in the Territory of Hawaii from the fact the Board of Medical Examiners are by law the arbiters who decide upon the professional and ethical qualifications of candidates, and the Board simply endorses the applicant to the Treasurer who issues the license. Were the Board in possession of facts that warranted it they could refuse to endorse the applicant and thus hold up the license, but such a contingency is improbable.

It is not the intention of this department to permit any nationality to disregard or hold in contempt the laws and regulations of the Territory of Hawaii entrusted to this department. The Board of Health is charged with duty as to methods of examinations of the issuance of licenses to practice medicine and surgery in the Territory of Hawaii from the fact the Board of Medical Examiners are by law the arbiters who decide upon the professional and ethical qualifications of candidates, and the Board simply endorses the applicant to the Treasurer who issues the license. Were the Board in possession of facts that warranted it they could refuse to endorse the applicant and thus hold up the license, but such a contingency is improbable.

The Territory of Hawaii is an integral part of the United States and its official language is English and none other. In that language the laws must

be enforced, all evidence must be placed before the courts in English, either oral or written. The courts cannot allow French, German, Portuguese, Italian or any other language to be used in civil cases; situated. In criminal acts the courts may be compelled, for public safety, to use in apprehending, collecting evidence and prosecuting any language that our astonishingly polyglot population complainant and defendant must meet in documents and all legal procedure in the official language of the country, the English language.

No matter how numerous a nationality becomes in the Territory of Hawaii it comes wholly and solely on the suffrage of the United States of America and subject to its laws and those of the Territory.

The laws of the United States and the Territory of Hawaii cannot be properly enforced if any nationality can come here and plead numbers and expediency and undertake to set up its own foreign non-assimilating standards so disguised in a language the official servants of the Territory cannot understand, thus practically rendering those profiting thereby immune to the laws of the Territory and country.

Particularly is this the case in scientific and confidential professions like that of medicine where the terms and means, concealed in a most difficult foreign language are beyond the comprehension of the officers of the Territory and can only be solved by skilled interpreters practically impossible to obtain and only at an expense of money, time and circumstances that renders the officers of the Territory incompetent in the discharge of their duty. It is incomprehensible that we should be forced to such an issue.

There is a nationality in our midst too many of whom, in their eagerness to advance in personal gain and influence, seem to be forgetting all sense of equity and national propriety.

In place of high standards of ethics and practice a noticeable number are acting the part of unprincipled exploiters of their own and other races, totally ignoring the argument that is brought forward by themselves as to language relations between physician and patient, and some are defying the law altogether.

Complaints have been lodged by reputable physicians of this race against this illegal and exploiting practice, and action has been taken. Complaints still come from various separated localities. A number of successful prosecutions have been carried to a determination at the expense of the Board, but the fines are a realization to the treasury thus exhausting the resources of the Board. Private funds have necessarily been used to quite an extent.

It would seem if, to any nationality, the practice of medicine and surgery in the Territory of Hawaii is an object worth attaining it is worth the same effort and national respect shown by German, French, Portuguese and other nationalities in mastering the English language and presenting themselves for examination and professional fellowship in the legal and official language of the United States of America and the Territory of Hawaii.

No physician of any nationality, possessing high ethical professional and personal qualifications has ever been refused cordial recognition by the medical profession or all the courtesies within the power of the Board of Health.

The 350 Japanese who went to the Coast from Honolulu in the S. S. Mongolia will be allowed to stand at San Francisco, according to private advices received here from Japanese Ambassador Aoki at Washington, the new immigration bill not being approved by the President until after they had left. If any Japanese left here in the Sonoma may be brought back.

**Washington Observance**

It is a curious fact that there seems to be periodic movements in popular patriotic demonstration of sentiment for national heroes, as in most other things both physical and metaphysical. That things move in cycles seems to be a universal principle. These cycles or periodic movements are observable in the manner in which the memory of Washington has laid hold of the American people at different times. There have been long periods in the history of the American people when there seemed very little recognition of the great obligation the American people owe to Washington, of the grandeur of his character and the magnitude of his services. These periods have been followed by other periods when such recognition has been carried to the extreme of a cult.

At present we seem to be on the rising crest of a wave of hero worship which, in its apotheosis and in some minds, may almost extend to his deification. Everywhere throughout the land, and in foreign lands where there are American colonies, there is a more careful observance of Washington's birthday than was customary some years ago. More is made of the day and of the character of Washington in the schools and among the rising generation than was known a generation and less ago. The period immediately following the Civil War was one of the extreme periods of ebb tide in the popular expression of interest and recognition of Washington. Doubtless the momentousness of the struggle in which the nation was engaged at the time, engrossing the entire thought and sentiment of the people, was responsible for this. The issues of that war absorbed the thought of the American people for a long time afterward. Indeed, it is only a comparatively few years ago that popular attention has again been directed to Washington and his relation to what we are as a nation and a people.

We are far enough away from Washington so that there has grown up a Washington legend. We do not know Washington as a man among men. He has become idealized. In many attributes he has become almost deified.

It is however a matter of sincerest satisfaction, that the attention of the American people is again directed toward Washington, and that the lessons of his life are being taught in our schools. No harm will come if something of the legendary does become mixed with the ideas that are entertained of him. It is well that his birthday is becoming more and more generally observed than it was formerly.

May Washington ever remain, if not first in war, at least first in the hearts of his countrymen.

**Legislative Revision**

Senator McCarthy has introduced a bill in the Senate which proposes to do what ought to have been done long ago—re-district the Territory and re-apportion the legislators. The first legislature of the Territory was unable to do this for lack of the necessary data, the census returns not having at that time been prepared for this Territory in such detail as would permit the re-apportionment. Of course, to those who remember the first Territorial legislature other reasons will recall themselves why that body was unable to do this, and many other necessary things.

It became necessary to ask Congress to decide who should be the holdover senators, something which the legislature ought to have done itself.

The second and third legislatures neglected to re-apportion, and now the fourth legislature is in session on an apportionment which Congress made intending it merely to answer a temporary purpose, and which manifestly does not give equality of representation to the different parts of the Territory.

Senator McCarthy's bill has not yet been printed so that its mode of reapportionment is not known. But it is to be assumed that it will follow the plain intentions of the Organic Act. If it does not it can be amended so that it will, and in any event it is a step toward the performance of a long neglected duty.

**The Changes In Persia**

Bradstreet's which maintains a firm grasp on world movements of moment has the following:

Within ten days after the signing of the new constitution of Persia, the Shah, Muzaffar-ed-din, died at Teheran, the capital, in the fifty-fourth year of his age, after a reign of ten years and eight months. The dead ruler maintained many of the traditions of his country with conservatism, but he was an enlightened and cultivated man, and his grant of the recently signed constitution, coupled with his adoption of many of the conveniences and improvements in use in more advanced countries, notably the telegraph, bore witness to his desire to be abreast of the times. He has been succeeded by his son, Mohammed Ali Mirza, who is now in his thirty-fifth year, and is regarded as a man of intelligence and strength of character. It will not have escaped notice that he as well as the late Shah signed the constitution just before the close of the year, but there seems to have been some doubt as to whether the new ruler would accept that document in spirit. There are those who look for a dismissal of the Parliament as soon as he feels himself firmly seated.

**By The Mexican Route To Texas**

While the complete terms of the new immigration bill are not known it seems probable that the alleged plan of Hawaii Japanese to go, first to Mexico, and thence to the States, is from a legal point of view, entirely feasible. Whether it will prove so as a practical matter, is another thing.

When it was first announced that the immigration bill, which had been sidetracked because of a deadlock between House and Senate over the Educational clause, was to be made a stop-gap for the California-Japanese imbroglio, it was stated that it was proposed to make it answer the purpose by amending it so as to prevent Japanese laborers from coming to the mainland from Hawaii and the Philippines. At the same time it was specifically stated that "of course this will not prevent the Japanese from coming across the Canadian or Mexican borders, but it is only a tentative plan to hold the Californians quiet until a treaty can be arranged."

Whether this idea was carried out exactly or not has not yet been

disclosed at this distance. It seems very likely that it was. It does not seem feasible that any legislation of the United States could affect the rights of Japanese seeking to enter the United States from Mexico or Canada, except as such legislation should be general applying to Japanese from any foreign country.

If any Japanese are determined to leave Hawaii and get into the United States by way of Mexico or Canada, it seems probable that there are no legal obstacles in the way at present; they will not have to "smuggle themselves" across the border. However, it is likely that this detour will be only temporary, as in all probability the new treaty, which today's cables say is being negotiated by Secretary Root and Ambassador Aoki, will provide for this as well as all other matters.

If there should be a large migration from Hawaii to Mexico and thence to the United States, one of the results might be that in Texas and adjoining states, whither most of this immigration would in all probability spread itself, a sentiment similar to that in California might grow up, re-enforcing the California sentiment in an unexpected way and in an unexpected quarter.

Apparently the Japanese in Japan want to know what about it? They have interpellated their government on the question. Interpellated sounds serious.

**WORLD'S GREATEST FOTOGRAFER**

(Continued from Page One.)

St. Petersburg. He has traveled through every country on the globe, exposing 75,000 negatives, and has photographed most of the great men of his generation. Of late years he has become one of the most expert of war photographers. In the Philippines he was the only man to get troops actually firing on the foe. At the battle of Calocan a soldier near him was winged; Ricalton picked up the useless rifle, grabbed the cartridge belt and went up with the skirmishes. At the siege of Tien Tsin he stood on the walls and photographed Americans as they were dropped by Chinese bullets. Little the public knows when it sees photographs of war how few of them come from the front. Ricalton is one of the few who gets the real thing. He is sixty years old, yet he tramps ten and twenty miles a day with a thirty pound camera under his arm, for he sneers at the snap shot and will carry a tripod. Yet he outlasts the young men on the march. Here he goes everywhere—into captured forts, while the corpses are still about, through the most dangerous artillery positions, among reserves waiting for battle.

Mr. Ricalton and Richard Barry were visiting General Baron Nogi at his headquarters before Port Arthur and the following interview is related by Mr. Barry in his published works: "Look after your bodies," the General said after greeting us. "I was out to the firing line the other day and came back with a touch of dysentery, so take warning."

"We are of little account, General," said Ricalton, "but it is a very serious thing for a man on whom the world's eyes are centered to have dysentery."

The general smiled. "I am quite well now," he said "but how old are you?" he asked, looking at Ricalton's gray hairs. They compared ages. Ricalton proved to be three years the older.

"The command of the army, then, belongs to me," said Ricalton. "I'm your senior."

"Ah," said the general "but then I should have to do your work and I fear I could not do it as well as you do."

That night a huge hamper came to Ricalton's tent in charge of the headquarters orderly. It contained three huge bunches of Malaga grapes, half a dozen Bartlett pears, a peck of fine snow apples, and here a card reading: "The General sends his compliments to his senior in command."

"He is a great man," said Ricalton, "who can so notice, in the midst of colossal labors, a passing old photographer."

Mr. Ricalton has been a staff photographer for Underwood & Underwood, representing them exclusively, for the past eight years, and has made thousands of stereoscopic negatives for them all over the world.

patients at the hospital were delighted with the display.

THE AUTOMOBILE DIVISION

The automobile division was divided into sections. At the head of this column were the large heavy touring cars. Naturally this section was one of the most striking of the entire parade.

CLASS A.

In Class A were the following machines. R. M. Ballou's car entitled "Sweet Lavender." This was one of the most admired of the entire class.

Another especially original design was the car entered by H. F. Wichman under the title of "Winter." White cotton to represent the snow was the base of the decorations of the car.

CHINESE PAGODA.

C. M. Cooke entered his car as a Chinese Pagoda. The design represented a regular Chinese pagoda, with the brilliant combination of Chinese celestial colors.

Another car that aroused much comment was that entered by the visiting Japanese squadron. Governor Carter had kindly loaned his car for this entry.

A CHRYSANTEMUM CAR. A gorgeous car was that entered by J. A. McCandless and driven by Miss Madge McCandless. She handled the car like a veteran chauffeur.

Then came Class B. As usual the car entered by A. F. Afong was very artistic. This year the design represented the Cherry Blossom season of Japan.

Another chrysanthemum car, that received much praise and had a pleasing effect, was that entered by E. J. Lord. The color scheme was yellow, the machine being covered with a profusion of yellow chrysanthemums.

Easter Lilies. Easter Lilies was the title of the car entered in this class by the Promotion Committee. The car was profusely decorated with paper Easter lilies and other flowers.

HUAPELE VINE. J. R. Galt's entry was represented the "Huapele Vine," which covered the machine, the rear of the car being banked high with this vine and flower.

CLASS C. The small cars and runabouts constituted this section of the automobile division. Two especially striking designs in this class were shown.

Have the general effect and add to the originality of the design was a row of water lilies, which made it appear as if the big bird was gliding gracefully along on the surface of a pond.

A YACHT.

E. R. Stevens was the skipper of the yacht. With him was Master Kenneth Emory. The body of the yacht was white and green. Large paper red and white leis were fastened about the sides of the craft.

A. A. Young and C. C. von Hamm rode in a small car entered by the von Hamm-Young Company. The white snow paper balls was the style of decoration and the color scheme was white and red.

JUDGE KINGSBURY.

Judge Kingsbury entered his car as "The Katydid Adam." The color scheme was red and green. The Hawaiian and American flags were displayed from the front.

"Palms" was the entry of H. Hudson. His car was a mass of palms and various description. The back of the seat was a mass of palm leaves.

Another tastefully decorated car was the entry of W. N. Patten, green and yellow being the color design.

I. H. Beadle, accompanied by Mrs. Beadle and Master Irwin H. Beadle, Jr., drove the entry of R. H. Trent.

Leading the pa-u riders were individual representatives of the various islands, preceded by their boy-heralds, as follows: Oahu, Miss Gussie Clark with Herald Robert Quinn; Maui, Kate Cornwall with Herald Thurston Taylor.

AND SATAN CAME ALSO.

George Dennison made this entry, and it was very funny and original. There was a smoking flaming volcano in complete eruption.

Unofficially Col. Sam Parker had his car in the parade, but the car was not decorated, although Col. Sam and his guests, Jock Carter and Senator Hewitt, were decorated with malle leis.

RED CROSS AUTO.

There was a "Red Cross" ambulance auto, trailing the regular cars. This car was secured from von Hamm-Young Co. It was equipped with extra tires, and in it rode some expert chauffeurs whose business it was to repair any cars that might break down.

VEHICLES OTHER THAN AUTOMOBILES

The vehicle department of the parade under the direction of Robert Shingle was an elaborate one and added much to the appearance of the parade.

Braimard Smith drove a pair of beautiful black horses attached to a double seated trap which was decorated with pink and green artificial flowers.

A. J. Campbell drove a two wheeled surrey which was most beautifully decorated. He was accompanied by Mr. and Mrs. C. T. Wilder as well as his wife.

In a regular London Cab driven by J. C. Cooke of Davies & Co. were A. A. Hobson and A. R. Hatfield. The sight was a familiar one to those who have ever traveled in London.

Under the charge of E. S. Kong the Chinese merchants put in a float representing a Chinese tea house in a pond. The effect was artistic and neat.

Marjorie and Arthur Paxton in a single rig represented two Chinese of the better class. Their rig was very tasteful and brought forth a great deal of applause as they appeared before the judges.

Among the vehicles of a symbolic character of decoration was one representing the ideal of the Kiloahua Art League. The vehicle was arranged to represent a Greek temple within which were ten young ladies representing the

various divisions of art along which the League is seeking to carry on work. These were: Pictorial Art, represented by Miss Cordelia Gilman and Miss Edith Spalding; literary art, Miss

Dodo Ballentyne and Miss M. McCheney; dramatic art, Miss Edith Smith and Miss Alice Hopper; musical art, Miss E. Ballentyne and Miss Helen North; City Improvement, Miss Alice Spalding and Miss Ruth McInerney.

Following this an escort and chaperon in a carriage decorated in La France roses were Mr. and Mrs. William Montrose Graham, Miss J. Hardaway and Miss J. Winne.

A HANDSOME CAVALCADE

PAU RIDERS.

A gay cavalcade was the turnout of pa-u riders, and every color in flowing drapery possible was on exhibition. Those of the same color kept together as much as possible. Crimson and scarlet, yellow and gold, vermillion and pink, emerald and dark green, lavender and lilac pa-us flapped at the horses' sides and lined the figures of the riders eloquently.

These princesses of the parade drew an immense amount of interest. Oahu's Princess, arrayed in yellow and black, a yellow pa-u of great length and black silk waist, with yellow leis about her and her charger, sat proudly and won much applause.

The boy heralds, each with his princess, were dressed to match the costumes of their principals and carried silken banners on bamboo poles, bearing the colors of the pa-us worn by the royalty of the occasion.

Behind the pa-u riders came a host of society folks men and women, on fine-looking horses, arrayed in a hundred different ways. Some of the girls wore jockey costumes; some wore ordinary riding skirts; ninety-nine per cent rode in sensible Hawaiian style, astride. They were a merry crowd and looked well, rode well and represented all nationalities.

Miss Rose Davison, humane officer and one of the pa-u judges, rode with the pa-u riders, mounted on Confederate the splendid white horse of the Japanese consul.

The pa-u riders who lined up on the drilled grounds shortly before 10 a. m. were as follows: Miss Rose Davison (judge), Mrs. Maria Williams, Mrs. Jack Williams, Mrs. J. Watanaka, Mrs. Kanai, Mrs. Van Gieson, Mrs. Koma, Mrs. R. Johnson, Mrs. A. Makia, Mrs. Mahi, Mrs. Kaunaka, Miss Hattie Thompson, Mrs. Stahl, Miss Lillian Kipapa, Miss Minnie Hina, Mrs. Naka-puahu, Mrs. Haalou, Mrs. Panning, Mrs. Theresa Wilcox, Mrs. Maluluu, Mrs. Puahi, Mrs. Kahoa, Mrs. Woolsey, Miss Parker, Mrs. Richardson, Miss I. Lemon, Mrs. E. S. Holt, Miss I. W. Wood, Miss Margaret Van Vliet, Miss Lillian Keamala, Mrs. Mary Ann Makia, Mrs. Munden, Mrs. Solomon Kealoha, Miss Emily Anana, Miss Luka Anana, rs. Mauno, Mrs. George Maluluu, Mrs. A. Meyer, Mrs. Emma Jackson, Mrs. I. Silva, Mrs. K. Kuliheua, Mrs. P. Cummins, Mrs. Woodward, Miss Kallani, Miss Mary Annie Ah Sam, Mrs. Belle Mahoe, Mrs. Kaipua, Mrs. Mary Isaac, Mrs. J. E. Hopkins, Mrs. Gaseu, Mrs. J. M. Keenu, Mrs. Kalua Kapanauwaha.

Other pa-u riders joined at the last moment.

Following the ladies several score men and boys rode, among whom were the following: Clem Quinn, Ben Clark, "Railroad" Petrie, Louis Warren, D. Smythe, Marcus Monsarrat, Herman von Holt and Willie Ouderkerk.

AT THE BALL PARK.

The largest crowd of spectators ever gathered in the baseball park was there this morning to view the 1907 Floral Parade. The grand stand was jammed to its capacity and the bleachers and sides of the field were crowded. There were over 2500 paid their way in at the gate, the receipts amounting to something over \$750. And the sight was worth going a long way to see.

In the huge semi-circle facing the grand stand the automobiles were drawn up. Their decorations lent a beauty to the scene which as never before been equalled for beauty in Honolulu. Nearer the grand stand along the sides of the fields were the pa-u

riders and the cowboys. Back of the auto were the floats and carriages. The scene was one long to be remembered. The officials galloped about the field on fleet horses and were all dressed in costume all tending to add to the beauty of the scene.

The reviewing by the judges occupied much time, but so great was the interest the entire morning slipped away without the crowd growing restless.

SECOND ANNUAL FLORAL PARADE (Continued from Page One).

selves of the Governor's compliment and they made his car one of the handsomest in the parade. The Governor's children did not ride in that car however, but were occupants of Mr. Galt's automobile. Neither the Governor nor Mrs. Carter participated in the parade, but reviewed the assembling from the second story of the Capitol building with Secretary Atkinson, officers of the Japanese fleet and members of the legislature and others.

Probably the most generally admired car in the automobile section was the "Sweet Lavender" of S. M. Ballou. The color design was most effective and artistic. The "Fuzzy Teddy Bears" seated on the lamps in front of the car, provoked considerable amusement.

No better place of assemblage for the parade than the Capitol grounds, could have been chosen. The arrangements for the various divisions of the parade was well carried out. There was no confusion in the assembling of the parts of the parade, but the polling of the Capitol grounds could have been better done. The crowds were permitted, too much freedom in walking about the driveways. Captain Parker of the police force, seemed to pass most of his time galloping aimlessly up and down, tiring out his horse.

Nobody imagined that there were so many cameras in Honolulu, as appeared today. Aside from the official photographers, there were camera users by the hundred. Pictures of all of the decorated conveyances and autos, as well as the other divisions of the parade were taken. The hour from 9 a. m. to 10 o'clock, the hour of the start of the march was a busy time, about the Capitol grounds. The various judges and officers of the separate sections were occupied getting the cars into place or observing the points of excellence.

Shortly after 10 o'clock, Grand Marshal C. F. Chillingworth started up the parade. Accompanying him was Deputy Grand Marshal George C. Potter. Then came the bicycle division, under the direction of E. H. Paris. Then came the Hawaiian band in an eight in hand conveyance driven by E. H. Lewis. Then followed the pa-u riders, including the island princesses, the miscellaneous riders, of various description including the juvenile riders, and cowboys, then the vehicles in charge of R. W. Shingle, then the automobiles and runabouts division, which formed the last part of the parade.

The judges sat in review of the procession, on the front steps of the Opera house. The parade swung out of the makai gate of the Capitol grounds onto King street, then Ewa down King to Bishop, up Bishop, past the Young Hotel, to Hotel street, then up Hotel to Richards, up Richards to Beretania, up to Miller; to Vineyard; to the Queen's Hospital, through the Hospital grounds to Punchbowl street, down Punchbowl street the main parade passed and then turned Waikiki, on King and proceeded to McCully street, thence to Beretania street, to the base ball grounds. The automobile section turned into Beretania from Punchbowl, after leaving the Hospital grounds and then hurried out to Kapiolani street where it took the lead of the procession, and thence on to the baseball grounds, where it assembled, prior to the arrival of the remainder of the procession.

Queen Liliuokalani attended by the Princess Kalaniana'ole, Mrs. Auld, Mrs. Koohekalole and Mrs. Evans reviewed the procession from a grand stand as it passed her residence, at Washington Place. Many of the pa-u riders saluted the queen as they passed. The

## KAIALOHA GIRLS IN A NEW ROLE

### PROVE SPLENDID HOSTESSES AT DANCE GIVEN BY THEM AT THE HEALANI BOAT HOUSE.

The Kaialoa Girls' Rowing Club is just fourteen members stronger than it was yesterday. And may it continue to grow.

The Club last evening gave a most enjoyable little dance at the Healaní Boat House, some forty or fifty couples being present. The best of times was had and the officers of the Club proved themselves exceptionally fine hostesses. Dancing only ceased when the word was spread that the last car was ready to leave.

The dancing hall of the club house was decorated with flags and was very attractive in its simplicity. Over the water as it is it makes a splendid place for dancing. The music was of the best and all things seemed to conspire together for the pleasure of those who attended.

At the Capitol grounds yesterday afternoon at 6 o'clock the girls about to become members of the Club assembled. They were placed in an express wagon and taken to the Club where their initiation had been planned.

In bathing suits, blinis folded, and trembling the girls were put through all sorts of initiation stunts. Fire-crackers were used to profusion and many were the plunk the girls had to step over and many were the heads which were plunged beneath the water.

Of course all this was no slight for masculine eyes, but it is reported that one of the girls fought so hard that she had to be thrown into the bay in order that she might fight the waves. Judging from the appearance of the boat house when it was all over there was certainly something doing.

Old Peter Baron claims that he was on hand to witness all of the stunts. He may have been, but he is not telling what he saw. It was rumored that he hid under a pile of munting that he might not miss the fun.

The officers of the Club are Miss Bernice Dwight, president; Miss Maud O'Sullivan, vice-president; Miss Carrie

Crewes, treasurer; Miss Hilda Robertson, secretary; Miss Mary Crewes, auditor; Miss Sarah Williams, captain. The girls who were put through last evening are Miss Josephine Pratt, Miss Mildred Grace, Miss Ellen Dwight, Miss Alice Green, Miss Elsie Smith, Miss Caille Lucas, Miss Edith Treadway, Miss Lady Turner, Miss Mabel Lightfoot, Miss Mamie Dee, Miss Nora Dee, Miss Birdie Reist, Miss Clara Cameron and Miss Fanny Miles.

### TOURISTS WILL BE THERE.

Every tourist in Honolulu at the present time is very much interested in the Aquatic Carnival which takes place at the Hotel Baths Saturday night. Most of these people have never seen real good swimming and they desire to take this opportunity that is now presented by the Myrtle and Healaní Boat clubs.

Local people are also very much interested and much more notice is being taken of Saturday's show than has been shown in any aquatic entertainment thus far held.

There are going to be many new and entertaining features in Saturday's program that was not seen in the last show. There will be a few funny stunts judged off just to keep the crowd in a good humor. Walking the greased pole will be something entirely new to the Honolulu people. There will be a clothes race and the Clark boys will do an original turn.

The Baths have already gained a reputation of giving first class entertainments and this will be no exception.

Of course the principal event will be the relay race between the two clubs this is an annual event and looked forward to from year to year. The Myrtles have won the last two years and are out for the third. The Healanis, however, have a much faster team this year and should give a good account of themselves.

The entries for the different events are:

1. Final heat 25 yards. Healanis: Cunha, O'Sullivan. Myrtles: W. Cooper, T. Cooper.
2. Plunge for distance. Cooke vs. Cooper.
3. 100 yard dash—Myrtles: Kopke, Center. Healanis: Froeth, Winter.
4. High and fancy diving exhibition.
5. Novelty race (open).
6. Final 50 yard dash—Myrtle: Cooper, Kopke. Healanis: Cunha.
7. Junior 50 yard dash—Hitchcock vs. Pans.
8. Cork contest.
9. Club relay.
10. Extras.

value of the improvement movement. Honolulu from its racial, social and other differences, is peculiarly a city of spasmodic effort; it responds enthusiastically to any new idea which strikes it favorably but it is difficult to hold the community together for a long continued effort; nothing, however, could be presented of a more disinterested and worthy nature to invite cordial cooperation than the improvement movement. Everyone owes something to the town he lives in, and I have sufficient faith in the civic pride of our citizens and their appreciation of cleanly and pleasing surroundings to believe that this work will go on and broaden out. Many of the clubs are showing commendable activity and cohesion, some are languishing and their trouble is partly due to the fact that they do not appreciate the necessity of exerting themselves to better their conditions, but look upon this organization merely as a means to obtain benefit from the civil authorities.

The thanks of the committee are due to the Governor, territorial officers and supervisors for their considerate attention to our suggestions and for their valuable assistance. I also desire to express the appreciation of the Central Committee of the valuable recommendations of the advisory board which is an important department of the organization.

I would recommend that action be taken by this committee for the opening up to the public of the beauties of Nuuanu stream, from Nuuanu bridge to Kepena falls by a footpath at least, as suggested by the advisory board.

I also recommend consideration of legislation as to bill boards. I also call attention to the necessity of the filing with the Central Committee by the clubs of complete lists of officers and members.

The continued efforts of the Central Committee to perfect and extend the organization are necessary.

Secretary Wood moved that a list of men who would help be handed President Plokhman. A list will be made out.

Those at the meeting last evening were E. I. Spalding, Judge Frear, Punahou; General Davis, Makiki; W. W. Hall, Mr. Gurtley, Nuuanu valley; P. L. Hoogs, A. Herber, Makiki; Z. K. Myers, Waialua and Palolo; Mr. Kidwell, Alexander street; A. S. Young, Kapolei Park; Mr. Tarlton, Manoa; Alex. Hawes, Beretania avenue, N. S. Sachs, Fort street; Judge Whitney, Beckwith street, and Mr. Boot, Manoa.

## SCALE OF WAGES FIXED BY THE HOUSE

### REPRESENTATIVES ADJOURNED AT AN EARLY HOUR YESTERDAY AFTERNOON.

The House of Representatives did not run until a very late hour yesterday, adjourning at 3:45 o'clock until 9 this morning.

One of the matters which came up late in the afternoon was the report of the committee to decide on the scale of wages for employees of the House.

The report allows each employe a wage as follows: Clerk \$10 a day; interpreter \$10 a day; stenographer, \$10 a day; sergeant-at-arms, \$5 a day; messenger, \$4 a day; janitor, \$3.50 a day; chaplain, \$200 for the session; assistant clerk \$5 a day.

Representative Rawlins introduced a resolution providing for the appointing of a committee to inspect the condition of the Judiciary building and make report as to the cost of placing it in repair. The resolution was carried and the Speaker appointed Representatives Rawlins, Nakaleka and Kalana to inspect the building and make such a report.

Representative Sheldon introduced a resolution asking that the Secretary of the Territory be requested to purchase stamps for the use of members of the House out of the \$30,000 appropriated for the Legislature by Congress. The resolution carried.

A resolution asking for the sum of \$5000 with which to repair the Fifth district circuit court house at Lihou, was introduced by Representative Coney. The resolution was tabled and will be considered later in the session.

Representative Sheldon introduced a resolution, which was referred to the Finance committee, asking for \$12000 to build a new courthouse in Hanalei, Kauai.

A concurrent resolution with the Senate was passed instructing the Delegate to Congress to prepare and submit to Congress an Act to amend Section 73 of the Act providing for a government for the Territory of Hawaii. It will allow the Legislature to pass such laws as they deem necessary to simplify the Land laws. The clerk of the House is instructed to forward to the President, the President of the Senate and the Speaker of the House of Representatives in Washington copies of the resolution as well as one to the Delegate.

## OAHU IMPROVEMENT COMMITTEE MET

### DISCUSSED THE BEST MEANS OF DOING AWAY WITH DANGER OF YELLOW FEVER.

The Oahu Central Improvement Committee met last evening in the rooms of the Hawaiian Promotion Committee and the following officers were elected for the ensuing year. President, Z. K. Myers; vice president, Judge Frear; treasurer, General Davis; secretary, Robert Shingle, and another member to act on the executive committee, Mr. Thurston.

The retiring president, E. I. Spalding, made his report as follows:

Honolulu, February 21st, 1907.

The Central Improvement Committee completed its first year on the 16th inst. and in accordance with the by-laws adopted on March 1st, 1906, I have to present the following review of the proceedings of the committee for the past year.

Seven meetings have been held in all. Those of February 16th and March 1st were devoted to the details of organization, election of officers, and adoption of by-laws, provision was also made for the entertainment of Mr. Robinson, the authority on parks; the further meetings of the committee were devoted to consideration of various matters of public interest, among which I will mention the following:

Construction of a stop road in Pauoa valley.

Retention of Queen Emma property in Nuuanu valley for a park and filtration site.

A valuable address from Dr. C. B. Wood on the necessity from a health standpoint of a filtration plant in connection with the Nuuanu reservoir system.

Attention to telephone and other poles and to sign boards.

Opening up of mountain trails.

The construction of a belt road around this island.

Repairs to Halawa or Puakahi hill road, and the necessity of good roads in general as a valuable asset to this Territory.

Improvement of the government stables lot.

Another public conveniences for the residents of upper Nuuanu and also the beach road.

Request to the Planners' Association to stain their line of fence on Wilder avenue and vicinity.

Request of supervisors to attend to street gutters, and calling their attention to the urgent need of repairs to various roads.

Attention to vacant lots, new parks and opening up of mountain streams to be public.

Communications have been received from the several improvement clubs on various subjects testifying to their activity, and altogether there is general evidence about the town that sufficient has been accomplished to establish the

value of the improvement movement. Honolulu from its racial, social and other differences, is peculiarly a city of spasmodic effort; it responds enthusiastically to any new idea which strikes it favorably but it is difficult to hold the community together for a long continued effort; nothing, however, could be presented of a more disinterested and worthy nature to invite cordial cooperation than the improvement movement. Everyone owes something to the town he lives in, and I have sufficient faith in the civic pride of our citizens and their appreciation of cleanly and pleasing surroundings to believe that this work will go on and broaden out. Many of the clubs are showing commendable activity and cohesion, some are languishing and their trouble is partly due to the fact that they do not appreciate the necessity of exerting themselves to better their conditions, but look upon this organization merely as a means to obtain benefit from the civil authorities.

The thanks of the committee are due to the Governor, territorial officers and supervisors for their considerate attention to our suggestions and for their valuable assistance. I also desire to express the appreciation of the Central Committee of the valuable recommendations of the advisory board which is an important department of the organization.

I would recommend that action be taken by this committee for the opening up to the public of the beauties of Nuuanu stream, from Nuuanu bridge to Kepena falls by a footpath at least, as suggested by the advisory board.

I also recommend consideration of legislation as to bill boards. I also call attention to the necessity of the filing with the Central Committee by the clubs of complete lists of officers and members.

The continued efforts of the Central Committee to perfect and extend the organization are necessary.

Secretary Wood moved that a list of men who would help be handed President Plokhman. A list will be made out.

Those at the meeting last evening were E. I. Spalding, Judge Frear, Punahou; General Davis, Makiki; W. W. Hall, Mr. Gurtley, Nuuanu valley; P. L. Hoogs, A. Herber, Makiki; Z. K. Myers, Waialua and Palolo; Mr. Kidwell, Alexander street; A. S. Young, Kapolei Park; Mr. Tarlton, Manoa; Alex. Hawes, Beretania avenue, N. S. Sachs, Fort street; Judge Whitney, Beckwith street, and Mr. Boot, Manoa.

The House of Representatives did not run until a very late hour yesterday, adjourning at 3:45 o'clock until 9 this morning.

One of the matters which came up late in the afternoon was the report of the committee to decide on the scale of wages for employees of the House.

The report allows each employe a wage as follows: Clerk \$10 a day; interpreter \$10 a day; stenographer, \$10 a day; sergeant-at-arms, \$5 a day; messenger, \$4 a day; janitor, \$3.50 a day; chaplain, \$200 for the session; assistant clerk \$5 a day.

Representative Rawlins introduced a resolution providing for the appointing of a committee to inspect the condition of the Judiciary building and make report as to the cost of placing it in repair. The resolution was carried and the Speaker appointed Representatives Rawlins, Nakaleka and Kalana to inspect the building and make such a report.

Representative Sheldon introduced a resolution asking that the Secretary of the Territory be requested to purchase stamps for the use of members of the House out of the \$30,000 appropriated for the Legislature by Congress. The resolution carried.

A resolution asking for the sum of \$5000 with which to repair the Fifth district circuit court house at Lihou, was introduced by Representative Coney. The resolution was tabled and will be considered later in the session.

The following are further portions of the Governor's Message to the Legislature:

### PUBLIC PARKS.

The rapid development of parks; of open spaces with green lawns; of recreation spots, illustrates a high degree of culture in our community and a deep interest in the welfare of those who cannot afford the luxury of a garden. The recognition is general of the civic advantages of such beauty spots. The progress has been rapid, and it is suggested that legislation providing for a general park system would be opportune. It would facilitate the employment of experts and widen their field of usefulness. It would aid in the importation and distribution of flowers and decorative shrubs. At present the only nursery maintained in the community is that of the Bureau of Forestry, which, of course, deals only with trees. Such legislation should aim to stimulate the movement in all parts of the Territory.

### NOTLEY JUDGMENT.

Your attention is called to a judgment granted Mrs. Charles Notley on December 2, 1905, by the Circuit Court of the First Circuit, for \$1,350 against the Territory of Hawaii, in payment for 162 square feet of land fronting on Kukui street, said to have been taken by the Territory for street extension purposes.

The Superintendent of Public Works states that he has not taken possession of said property. The fences have not been moved, and, so far as he is aware, the property is still in the possession of Mrs. Notley.

I am of the opinion that, irrespective of possession, both the Legislative and Executive branches of the government should respect the mandates of the Judiciary. The judgment should be paid, even if it does add to the burdens of the taxpayers, and I therefore recommend that the item be included in the bill covering additional appropriations for the present period.

### LOANS.

There are a number of public improvements desired, permanent in their nature, which could be undertaken at an early date if further loans were negotiated. It may be of interest to enumerate those which have been suggested.

First. A new Administration Building, of reinforced concrete, to be located on the Waikeiki side of the Judiciary grounds, facing Ewa in which conveniently located for the benefit of the public, would be those groups of offices which should be near together. For instance, one group consisting of the Auditor's office and the Treasurer's office; a second group, the Land, Survey and Recording offices; a third group the Public Works office and the various bureaus under it; and finally the Educational Department.

Second. A new building, of reinforced concrete, to take the place of the Judiciary building, on the Ewa side of the present grounds and facing Waikeiki with accommodations for the three Circuit Courts, the Land Court, a more convenient Law Library and the Board of Health.

Third. A building, similar to the Archives building, on the Ewa side of the Executive grounds, for the Supreme Court, thus separating the work of this court from all others and giving it the facilities and distinction which it deserves.

Fourth. A fund for the purchase of the various water rights in Kailua Valley, not only to supply the residents located therein, but to secure for the city the largest existing supply of water at a high elevation now available. The city of Honolulu consumes approximately 11,000,000 gallons of water every twenty-four hours. The smallest quantity from the Pauoa Springs is 717,000 gallons. The proposed Nuuanu system, whenever the dam is finished, will furnish a minimum supply of 5,500,000 gallons. Thus if the increased commerce of the Pacific brings with it a larger population to Honolulu, the time will not be far distant when we shall either have to revert again to the expensive method of pumping or extend the gravity system.

Fifth. An early completion of the proposed wharf improvements in Honolulu—not only the double-deck shed immediately desired for the present large freight and passenger service, but for the dredging and equipment of the remaining slips, as well as the building of additional wharves at Hilo.

## CASES IN THE COURTS YESTERDAY

### THE SUPREME COURT DECIDED AN APPEAL—OTHER MATTERS IN THE CIRCUIT COURTS.

The Supreme Court heard argument yesterday in the appeal for plaintiff in the case of W. W. Bruner vs. Louis Andrade. The court delivered an oral opinion, reversing the decision of the lower court, and remanding the case for further action. The plaintiff sued for \$198 but a decision in favor of the defendant, was returned.

Judge De Bolt yesterday granted a motion for a new trial in the cases of Mrs. Heleluhe et al. vs the Rapid Transit Company. The court claimed that the verdicts which had aggregated \$4,000 had been excessive.

Notice of waiver of a jury, in the case of J. J. Bryne vs. E. K. Devauchelle, was filed today.

A motion was filed today, in behalf of J. F. Humberg, trustee, vs. Wong Kwai, to strike from the files, the answer of the defendant, on the ground that the answer had not been filed with-

Sixth. The creation of a new and more commodious High School on the Maertens property opposite Thomas Square, thus permitting the conversion of the present over-crowded High School on Emma street into a grammar school.

Seventh. Improvements of a more immediate nature to the Honolulu water system in the shape of a reservoir of sufficient capacity to supply the present population of Kaimuki. The structure now used for this purpose is defective and there is much waste. More capacity will certainly be needed, and a better location can be found.

New water mains will be required during the coming two years, also improvements to the water reservoir in Nuuanu Valley, in order to regulate the pressure from the water impounded above the dam, as well as the installation of oil burning apparatus in the remaining pumps.

Undoubtedly other suggestions of desirable improvements will occur to you. Our present debt, however, is not sufficiently secured, in that no provision has yet been made for its payment. And we cannot proceed to load down posterity indefinitely. We should recast ourselves not only to the payment of interest out of the current revenue, but our appropriation bill for every future period should carry an item which would provide for the retirement of a portion of the existing debt, which is at present \$1,722,000. Some day such an item will be necessary, and it is far better to provide for it now.

Our present average interest rate on all the outstanding bonds is 4 1/8 per cent and we are now sending away from the islands in payment of interest \$49,73 for every day in the year. Our debt has almost trebled since annexation, the increase being \$2,771,000.

It is not improbable that pressure will be brought to bear on you for a loan, including item for the construction of county and homestead roads.

To avoid duplication of road making machinery; of the necessary force of employees; to prevent confusion in the responsibility for construction and repairs, I urge upon you the wisdom of leaving all road and bridge building work to the care and initiative of each county. Experience convinces me that economy will be served by such a course.

Extend, if desired, to any County the provision of the Organic Act by which it can issue, under your supervision, its own bonds for such progress in new road building as its people may desire.

Such a course will avoid all questions of adjustment or proportion between counties. If the entire responsibility for the payment of both principal and interest rests upon each County separately, it is certain to result in an aggregate less by far than under any other system.

Further, such a plan will permit each County to develop itself and thus carry out the general idea of county government, as opposed to paternalism and

servant who has greater difficulties to contend with than the Commissioner of Public Lands. It is impossible to properly control the lands and carry out the laws without incurring opposition, and it is unfortunate that this opposition is often carried so far.

BOARD OF HEALTH.

During the past two years there have been thirty-nine sporadic cases of plague, but the effective methods of the Board of Health have prevented any epidemic. Its careful work has established such confidence that no alarm has been caused, nor has it been found necessary in controlling this disease to restrict commerce by resorting to quarantine.

There is, however, a serious and well-defined cause for alarm in the overwhelming preponderance of deaths from tuberculosis. The records show one hundred and thirteen deaths from leprosy and thirty-nine deaths from black plague, a total of one hundred and fifty-two out of our entire population, during the above period. Both of these diseases are viewed with horror and public opinion approves large expenditures for their control and suppression. Yet from the insidious "white plague" six hundred and fifty-one deaths occurred during the same period—more than four times as many as from the other two causes combined, and yet this causes little or no public comment from an ever-vigilant press or from various public organizations.

It is safe to say that there is more danger of death from this cause to the resident or to the tourist in Honolulu than there is from leprosy to one re-

centralization. There are those who will say that we cannot yet afford to trust such wide powers to the counties, and they will picture county campaigns of reckless extravagance, followed by financial disaster and loss of credit and reputation. They forget that no county debt can be created without your approval; that Counties must learn by actual experience, just as individuals have to learn, and that until responsibility be placed on them they cannot gain the experience. The record made by the Counties so far shows sufficient integrity to warrant trusting them further in this matter.

Under the faithful management of these entrusted with the administration of the public lands of this Territory there have been opened during the two years ending December 31, 1906, 296 homesteads, covering an area of practically 5,267 acres, or an average of 31.2 acres. The total revenues, other than sales, from public lands during the two years ending December 31, 1906, have been \$24,711.71. And the sales during the same period have amounted to \$197,678.26. This has been done at an operating expense of \$29,743.48. It is interesting to note that the operating expenses for the two years previous were \$32,281.39, showing that, notwithstanding the increased work, the department has been operated with greater economy.

Taking into consideration the great variety of lands handled and the many questions involved, there is no public

It is a pleasure to recommend improvements for those who show appreciation of what has been done for them. The co-operation between patients for the adoption by the inmates of higher standards in this regard. Waste could be brought to a minimum if those who occasioned it were subject to the condemnation of their neighbors. Unnecessary destruction or mutilation of property should be felt as a common loss to all those in the settlement.

Toward this end much can be done by the Legislature in consolidating all appropriations for the Settlement, so that savings, no matter how made, can be applied by the officials for other benefits and improvements. Thus economy will be a direct gain to these public wards, rather than simply proving a saving, by the lapse of appropriations, to the general taxpayer.

Let me repeat a former statement to the effect that this community will never abandon the care of their afflicted at Molokai to the Federal government so long as our settlement is conducted without waste or extravagance and as long as our people submit to segregation and co-operate in its enforcement. Resistance on only creates a sentiment for Federal control, but often is the worst thing possible for the one afflicted. To be hidden away, without intelligent treatment or ordinary comforts, is not an exhibition of love and affection which a true, unselfish interest in the patient should prompt.

ATTORNEY GENERAL.

The change in our "Organic Act," permitting appeals to the Supreme Court, throws greater work and responsibility upon the Attorney General. It is, therefore, necessary to provide funds, either to retain an attorney in Washington, D. C., to represent the Territory, or to send someone from here. In either case the cost is said to be about the same. I therefore recommend an appropriation for this purpose.

In civil cases, all fees are paid according to a fixed standard, by warrant from the Auditor on the Treasurer, upon vouchers approved by the proper official, a method which has been found practicable and acceptable. In criminal cases, however, the practice has been different. Appropriations have heretofore been made, covering fees and traveling expenses of witnesses in criminal cases. The amounts allowed the witnesses have varied according to the disposition of the official, the importance of the witness or his standing in the community. This has resulted in distinctions being drawn which are repugnant, and it gives an opportunity for a favoritism that should be avoided.

I recommend for your serious consideration the fixing by statute of a standard for fees and mileage of witnesses in criminal cases.

The opinion will deal indirectly, with the Japanese situation, and give to the board of education, an idea of exactly how far its rights and prerogatives in this matter as well as its right of supervision over other classes of private schools extends.

There is a possibility that the opinion may result in the matter being ultimately taken to the courts, for adjustment, if private school managers are not satisfied with the position taken by the attorney general's department.

THE CAUSE.

The first causes of Indigestion, Bloating, Loss of Appetite, Headache, Dizziness, etc., is constipation. Don't take cathartics, as they irritate the lining of the bowels, and are only a temporary relief. Dr. Miles' Nerve and Liver Pills permanently cure by strengthening the nerves of the stomach and liver. They effect a mild, natural movement.

SCHOOL OPINION

PRACTICALLY READY

The attorney general's department expects to have the opinion relative to the jurisdiction of the school board over private schools, settled this week. Superintendent Babbitt requested, some

aiding among those confined at Molokai.

I recommend in your particular attention that portion of the report of the President of the Board of Health which relates to our Leprosy Settlement.

It is gratifying to observe the practical common sense exhibited by those public servants in direct control of the Settlement and responsible for the expenditure of the liberal allowances that have heretofore been made.

The absence of the usual complaints from the Settlement is so marked as to almost arouse suspicion. There has been an sudden increase of expenditure per capita, and the only explanation of the evident satisfaction and approval of the inmates is that they must be due to the tact and good judgment shown by the officials in charge.

The resident physician has shown a willingness to try all so-called cures, and has created deep interest in the use of an emulsion of eucalyptus made from trees growing at the settlement, reporting considerable improvement in a number of cases. He offers evidence of his good judgment and practicality in the suggestion that the waste of the slaughter house be used in the manufacture of medicated soap for free distribution, thereby securing the general use of antiseptics.

President Pinkham's suggestion for an ice machine and coal storage plant is admirable. This would make the Settlement in a way independent of the supply of ice by steamer and furnish it with the requisites for cold storage, thereby economizing and saving much material.

It is a pleasure to recommend improvements for those who show appreciation of what has been done for them. The co-operation between patients for the adoption by the inmates of higher standards in this regard. Waste could be brought to a minimum if those who occasioned it were subject to the condemnation of their neighbors. Unnecessary destruction or mutilation of property should be felt as a common loss to all those in the settlement.

Toward this end much can be done by the Legislature in consolidating all appropriations for the Settlement, so that savings, no matter how made, can be applied by the officials for other benefits and improvements. Thus economy will be a direct gain to these public wards, rather than simply proving a saving, by the lapse of appropriations, to the general taxpayer.

Resistance on only creates a sentiment for Federal control, but often is the worst thing possible for the one afflicted. In either case the cost is said to be about the same. I therefore recommend an appropriation for this purpose.

In civil cases, all fees are paid according to a fixed standard, by warrant from the Auditor on the Treasurer, upon vouchers approved by the proper official, a method which has been found practicable and acceptable. In criminal cases, however, the practice has been different. Appropriations have heretofore been made, covering fees and traveling expenses of witnesses in criminal cases. The amounts allowed the witnesses have varied according to the disposition of the official, the importance of the witness or his standing in the community. This has resulted in distinctions being drawn which are repugnant, and it gives an opportunity for a favoritism that should be avoided.

I recommend for your serious consideration the fixing by statute of a standard for fees and mileage of witnesses in criminal cases.

The opinion will deal indirectly, with the Japanese situation, and give to the board of education, an idea of exactly how far its rights and prerogatives in this matter as well as its right of supervision over other classes of private schools extends.

There is a possibility that the opinion may result in the matter being ultimately taken to the courts, for adjustment, if private school managers are not satisfied with the position taken by the attorney general's department.

THE CAUSE.

The first causes of Indigestion, Bloating, Loss of Appetite, Headache, Dizziness, etc., is constipation. Don't take cathartics, as they irritate the lining of the bowels, and are only a temporary relief. Dr. Miles' Nerve and Liver Pills permanently cure by strengthening the nerves of the stomach and liver. They effect a mild, natural movement.

SCHOOL OPINION

PRACTICALLY READY

The attorney general's department expects to have the opinion relative to the jurisdiction of the school board over private schools, settled this week. Superintendent Babbitt requested, some

The circulating department of the Honolulu Library is closed for the day. A gold watch was lost yesterday. A suitable reward is offered for its return to this office.

A furnished cottage at Waikiki Beach is for rent. Particulars of The Henry Waterhouse Trust Co.

The first two days the Japanese sailors were in town they seemed to prefer the streets to the sidewalks.

Mabel Wing Castle reports that 201 heavy wagons, 8 automobiles passed over the Manoa road in one day recently.

Don't go home and cook when you are tired. Let us serve you with a special holiday dinner tonight from 5 to 8. Scott's Royal Annex.

Exchange papers were yesterday signed by the Governor to two small pieces of property on College Hills with Mary G. Singlehurst, the exchange being necessary to change the location of the road in that section.

The concert at Charles R. Bishop hall last evening was well attended. The chorus was excellent, its rendering of "The Heavens Are Telling," being especially effective. Much credit is due Mr. Hastings for the affair.

The suit of W. M. Crossman and Bro. New York vs. George B. Bidwell, collector of the port of New York, has been dismissed at the instance of the plaintiff. This was a suit to determine the status of Hawaii during the "transition period."

A debate on the subject "Resolved, that a new high school building is needed" was held yesterday by the Honolulu High School Debating Society. Miss Henrietta Smith and Arthur Lando took the negative side while Miss Lila Vogel and Harold Johnston spoke for the affirmative. The negatives won.

SECOND ANNUAL PARADE

(Continued from Page Five).

Back and forth before the grandstand the floats, riders, carriages and the like passed and repassed.

Only one thing happened during the morning which was not on the program and that was a runaway of the London Cab driven by J. C. Cook of Davies & Co. The horse got started and could not be controlled. Mounted Patrolman Dick Lane stopped the animal in a manner that was indeed creditable, but not before the cab had been run into the automobile belonging to Judge Kingsbury. No damage however was done.

The program was run off without a hitch and too much credit cannot be given to the members of the committee who planned the affair.

LORD AND DEVIL

The Lord and the Devil were seen walking about the grounds of the park today when the parade was on view. George Denison dressed as Satan accompanied by E. J. Lord walked about the grounds for some time and all who knew of Mr. Lord's cognomen caught on at once. It was a clever charade and took well with the large crowd.

MRS. CARTER GAVE PRIZES. The presentation of the prizes at the baseball grounds was an event of much merriment and enthusiasm. Prize winners circled the area and, as announced by "Doc" Monsarrat through a megaphone approached to receive prizes and decorations from the hand of Mrs. George R. Carter. Mrs. Carter tied ribbons about the whips of successful drivers, handed pennants to the prize-winners in vehicles and automobiles and had a graceful word and congratulatory smile for those who received the pretty favors. Monsarrat amused the crowd much with his talk through the megaphone. He announced that the reason a prize was because of its beautiful contents. Monsarrat was not far from the fact. He announced the sons of E. J. Lord, little winners, as "the sons of the Lord."

JAPANESE CELEBRATING

The Japanese are celebrating today with great eclat. The Japanese school children, and various societies marched to the naval wharves and there were received aboard the fleet.

A number of conveyances carrying bananas and other refreshments, were sent to the wharves at the estates distributed to the men of the fleet. There were Japanese Christmas trees, on which were various presents for the sailors. The wharves and the streets were densely crowded with Japanese.

Let your will govern your action. Put your valuables where they will be safe and relieve yourself of a source of worry. Private boxes \$4.00 a year at Henry Waterhouse Trust Co.
