The best preparation for preserving,
restoring, and beautifying the hair is
Ayer's Hair Vigor.
It keeps the scalp free from dandruff,
heals troublesome humors, and pre-
vents the hair from falling out. When
the hair becomes dry, thin, faded, or
gray, it restores the original color and
texture and promotes a new and vig-
orous growth. Wherever used, Ayer's
Hair Vigor supplants all other dress-
ings, and becomes at once the favorite
with ladies and gentlemen alike.

JAPANESE ARE RESTIVE

OVER QUARANTINE REGULATIONS OF UNITED STATES AND HAWAII.

On the Ground That They Demand Practical Imprisonment of Japanese on Their Own Soil.

At the last meeting of the Board of Health there were a number of communications read from Dr. Eldredge, consul and chief sanitary inspector for Hawaii at Yokohama, which contain much matter of local interest. In one of his letters addressed to Minister Cooper on the subject of quarantine regulations he says:

"As bearing on the subject of preliminary quarantine, I have already reported to Mr. W. O. Smith, president of the Board of Health, that, in connection with a proposition to erect a proper plant for detention and disinfection, the Japanese government has been approached by the United States Consul General, and that there are signs of restiveness, on the part of the former, under the whole system of precaution. I have now to add that, although no official answer has yet been made to the query of the United States Consul General whether objection exists to the erection of the proposed plant, I am credibly informed that there is much feeling against the precautionary measures required by Hawaii and the United States, chiefly on the ground that they demand a practical imprisonment of Japanese on their own soil, under foreign control. To this, of course, the answer is that the required detention is not in any sense an imprisonment, but a voluntary submission on the part of the passenger to certain precautions upon which are conditioned his obtaining passage to and admission into another country, and that, so far as the United States are concerned, the system has been working in several European States for some years without objection on their part.

"Whether it is possible to make so hypersensitive and almost morbidly patriotic a people as the Japanese understand this, I do not know, but deem it well that the matter has been taken up by the United States authorities here instead of arising in direct connection with the Hawaiian system, the more so, should the Japanese government take an unreasonable stand, pressure can undoubtedly be brought to bear upon it under the old treaty which, though perhaps somewhat in abeyance of late, has not yet expired. I may add that, so long ago as before Mr. Irwin's departure that gentleman told me in conversation that he feared that sooner or later this very question would be raised by the Japanese and in the manner in which they now seem disposed to treat it.

"Unless I receive instructions from you to the contrary, I shall if possible avoid any direct discussion of the matter with the Japanese authorities, as whatever action is taken with regard to the United States system will probably apply equally to that of Hawaii.

"I must confess, however, that I do not like present indications and that I wish Mr. Irwin were on the ground with full instructions from yourself."

In another letter Dr. Eldredge writes: "I have the honor to report that through the ignorance or carelessness of those concerned, the Japanese steamer *Sakura Maru* left Hongkong without either a Hawaiian or United States bill of health; and that, having no original, she was refused a supplementary bill at Kobe by the consulates of both countries. On arriving here the central agency took the matter up and after investigation and consultation the United States Con-

sul-General and myself have issued supplementary bills upon the presentation of evidence that the bills from Hongkong and Kobe will be forwarded by first opportunity, and upon the affidavit of the captain, a copy of which will be found annexed to the bill granted.

"As regards Hongkong, Consul Bell-Irving telegraphs: 'Sakura Maru, Hawaii bill health granted, going Rio Janeiro, inform Honolulu authorities,' and acting Vice Consul Graham writes me that he will forward Kobe bill on sight of Hongkong original, both of which will be transmitted to you as soon as received.

"I am well aware of the culpability of the steamship people in not obtaining the necessary bill of health at Hongkong, but in view of all the circumstances and without in any way committing myself as to what course the Hawaiian Government may take in the case have thought it best to act as indicated in the foregoing."

In another letter addressed to Dr. Day, health officer of Honolulu, Dr. Eldredge says:

"Mr. Smith, president of the Board of Health, having notified me that the vaccination of emigrants performed by Japanese physicians employed by the emigration companies or by the steamship lines has proven most unsatisfactory, I have insisted upon the passengers per *Sakura Maru* being vaccinated under my supervision and with virus that I am using daily with exceptionally good results, and shall take the same precautions with regard to any future shipments under similar circumstances."

In still another communication to Minister Cooper, under date of March 5, Dr. Eldredge makes a return of the occurrence of smallpox in Yokohama and suburbs for the period from February 23 to March 12, inclusive, which shows an increasing prevalence of the disease. The return is as follows:

Date.	Cases.	Deaths.
Feb 23	6	0

The doctor further says in this report: "A few cases of typhus are reported in Tokio, but I have been unable to obtain statistics. Typhus is at all times a rare disease in Japan, though many years ago I met with a brief and limited epidemic in a remote country district, which in its malignancy and enormously high mortality recalled the typhus of a century ago."

MISSION VESSEL ENTERED

MORNING STAR ARRIVES FROM THE SOUTH SEAS.

Full Report of the Round Trip—Passengers Brought to Honolulu.

This morning, at an early hour, the old and well-known missionary vessel *Morning Star*, Captain Garland, arrived in port. She has been away from Honolulu nine months and four days, traveling many thousand miles over the great Pacific Ocean.

The *Morning Star* left Honolulu last year with a number of missionaries and a cargo of stores for the mission stations on the islands of the South Seas. On the way from here, a pleasant voyage of 17 days to Butaritari, in the Gilbert Islands, was had. All the stores for Butaritari were landed safely. From there the *Star* went to Kusaie in 12 days, experiencing head winds the whole way. All was found to be well at Kusaie. There has been an increase in the family of Dr. Rife at Kusaie, another child being born. A stay of 10 days was made at Kusaie, the vessel being overhauled. The *Star* then proceeded to Ruk, calling at Pinlap, Mokil, Ponape and Natic on the way. Leaving Kusaie, the ship encountered strong S. W. winds which retarded her progress, and when halfway to Ruk had to put back to Ponape to get medical attendance for one of the passengers. A stay of six days at Ponape was necessary on account of bad weather.

Starting again for Ruk, the trip was made in three and a half days, steaming all the way. At Ruk everything was well, a stay of four or five days being made. Ruk being the end of the route, the *Star* started back, all the freight having been delivered. Another visit to Kusaie was made, where a lot of school children were taken aboard for the Marshall Islands to visit their people. There were then 85 people aboard, including the crew, and the decks were loaded with bananas and other things. After returning the Marshall Islands children to the mission at Kusaie, another lot belonging to the Gilbert Islands were taken for a visit to their folks. The trip to Butaritari was made in 16 days. After being away 54 days, Kusaie was again reached.

Passengers for Honolulu were Mr. Mitchell and family from Gilbert Islands, Mr. Channon and family from Kusaie, and Mr. Bowker and family from Ruk, the vessel calling at the other places after landing the children at Kusaie. Two Japanese, who were left at Ruk by the schooner *Robert Logan*, were also brought. A pleasant voyage of 43 days was experienced from Ruk to Honolulu, the vessel sailing most of the time.

The *Star* has the usual cargo, firewood and curios. Many people were down to the ship at Nuanuu wharf today, to see the captain and officers, and bargain for mats, shells, hats and other articles from the South Sea islands. On the trip up, Mr. Swinton, first mate, has not been idle. He did some pretty handiwork in tortoise shell, besides writing a nice little poem, which would do credit to any of the noted poets. Mr. Swinton, from whom our reporter got his information, is in good health, as are also Captain Garland and Engineer Douse.

Before leaving again, the *Morning Star* will have a new captain and new officers. Captain Bray will be the new master. The schooner *Robert Logan* was at Ruk during the *Star*'s visit. Everything was all well with the little craft.

Company B defeated the police team in a match shoot on Saturday by a score of 406 to 402.

JUDICIARY JOTTINGS.

Probate and Equity—Hearings at Chambers.

Ernest A. Mott Smith has petitioned for letters of administration on the estate of the late John H. Paty, with the written consent of the members of decedent's family.

In the bill for accounting of Kwang Hin vs. Hong Yiu et al. Judge Carter has ordered defendants, until the hearing of the cause, to pay into court all the proceeds of the business referred to in the pleadings.

Judge Carter is hearing Oahu Lumber Co. vs. Hee Kin and others. Magoon & Edings for plaintiff; Humphreys and Dickey for defendants.

Judge Perry denied C. J. Sherwood's motion for a new trial this morning, and exceptions were noted. E. P. Dole for the prosecution; Creighton for defendant.

A motion to tax costs in Weedon vs. Waterhouse was argued and taken under consideration by Judge Perry. Kinney & Ballou for plaintiff; Henshall for defendant.

The Wild Swan.

H. B. M. S. Wild Swan arrived yesterday morning, 15 days from Victoria, B. C. She will remain here for several weeks, before leaving for a cruise south. Except the first few days, five weather was had the whole trip. Following are the officers: Commander Capt. M. Napier; Lieutenants, W. D. Church and John Coke; Navigator, S. Sladen; Paymaster, C. Ward; Surgeon, H. Marriott; Engineer, H. Gainsford; Gunner, F. Blewett; Midshipmen, J. Cole, C. Usborne.

The *Wild Swan* is a small vessel, and is like most of the other British gunboats often seen in this port. She has been on the Pacific Station since the early part of 1895.

Died in Japan.

George Kapena, a native of Hawaii, died at Oginohama in the Bay of Sendai, Japan, February 9, of smallpox. The deceased was serving at the time in the Japanese schooner *Tokiwa Maru*, the crew of which sent a joint letter to Consul Eldredge at Yokohama, expressing great sorrow for the loss of their shipmate and stating that they gave him as good a funeral as was in their power, requesting at the same time that his family be informed of his death.

Masquerade Ball.

Next of the moonlight dances of the Healanu Boat Club will be given on April 16, a fortnight from first Friday. It will be in the form of a masquerade ball. Admission will be exclusively by ticket—no money receivable at the door. Gentlemen on buying tickets are desired to give the committee the names of the ladies who will accompany them to the ball.

PRESIDENT DIAZ DECORATED.

BERLIN—The Reichsanzeiger officially announces that President Diaz, of Mexico, has been decorated by Emperor William with the grand cross of "Rainier." President Diaz issued an edict to the effect that no beer except the sparkling "Rainier" be served in public places, or on state occasions. On tap or in bottles at the Criterion.

The staff of clerks at the Temple of Fashion are all busy today overhauling and remarking, in plain figures, the entire stock. They calculate that on Thursday, April 1, they will be ready to handle the large crowd that is sure to attend. A reduction of 25 per cent on the actual cost price ought to make a big hole in Mr. Silva's stock in short order. Watch daily papers for prices.

New suitings and pants patterns are arriving by every mail steamer for L. B. Kerr. He sells a single yard at wholesale prices.

AT KAUMAKAPILI CHURCH

LARGE AUDIENCE AT THE CONCERT ON SATURDAY.

Fine chorus singing by the Girls and Boys of Two Schools—Encores and Bouquets the Rule.

The large auditorium of Kaumakapili church was well filled on Saturday evening at the concert given for the benefit of the church, there being but a few seats vacant. The opening chorus by the full chorus of Kamehameha and Kawaiaha schools, Mozart's "Gloria," was excellently well rendered and showed careful training.

The same may be said of the piano solo by Miss Lena Rosewarne and the piano duet by Miss Violet Lima and Hattie Ayau. Had the selections given been of a less classical nature they would have been more acceptable, at least to a large majority of the audience.

Mr. Wray Taylor showed his own skill, as well as the merits of the instrument he was handling, in his organ solo, for which he was loudly applauded and presented with a fine bouquet of flowers from some appreciative admirer.

The feature of the concert was, of course, Mrs. Montague-Turner's superb rendition of Gounod's "Ave Maria" with violin obligato by Willie Love, Miss Margaret Hopper at the piano and Wray Taylor at the organ. In response to the loud and continued applause and the numerous floral offerings which her singing brought forth Mrs. Turner gave a second number, "Listening," which also brought forth hearty applause.

Miss Clymer's piano solo was beautifully played, but was subject to the same objection above noted of being too classical for an average Honolulu audience, especially when composed of as many natives as were present on Saturday evening.

The Kamehameha Acme Club of male voices without accompaniment brought down the house with their fine singing of the part songs "Simple Simon" and "The Menu" and had to respond to encores.

Space will not permit of mention of the other numbers but they were all excellently well rendered.

The concert as a whole gave general satisfaction and the proceeds will undoubtedly amount to a considerable sum.

Bristol's Horse Show.

Prof. Bristol's wonderful performing horses closed the second week of their very successful engagement in this city Saturday night to a large and delighted audience. This week the Professor will give exhibitions only on Tuesday, Thursday and Saturday evenings, and Thursday and Saturday afternoons. Two of the evening performances will be benefits for local organizations. These will be the last entertainments of Bristol's amazing animal actors in this country prior to their departure on the *Mariposa* April 8 for Australia and a tour of the world. The evening prices will remain the same—25 and 50 cents, but at the matinees the prices will be: adults, 25 cents and children 10 cents. A free pony ride for all small children who attend the matinee. Seats at Wall, Nichols Co.

Seattle Book.

By the steamer *Miowera*, the Criterion Saloon received a large consignment of the celebrated book beer, brewed by the Seattle Brewing and Malting Co. This is the first book to make its appearance, and is a sure indication of better days.

There was the usual large attendance at the band concert at Makee Island yesterday.

THE LATEST LINGERIE.

Daintiness and Extravagance Displayed in Articles of Modern Underwear.
The latest lingerie displayed in the shops shows greater extravagance than ever before, and negligee gowns and nightgowns are real rivals of the ornate tea gown, so elaborately are they trimmed with fine laces, embroidery and satin ribbon. The finest articles of under

NEGLIGEE GOWN.

derwear are made of batiste, nainsook, linen lawn, daintily trimmed and tucked and hemstitched. The most ethereal bridal outfits are trimmed with rare lace.

Nightgowns are made with both the high and the square neck, with elbow sleeves, lace ruffles and ruche gathered collars and epaulets. Satin ribbon in blue, pink, yellow or white, 3 or 4 inches wide, ties around the waist and forms rosette bows for the sleeves and either side of the neck. The latest fancy in nightgowns is called the Bernhard. It is very full, gathered in to form an empire waist, has voluminous sleeves and is made of india lawn or china silk. The foregoing is from an illustrated description of latest lingerie in the New York Sun, from which the following is also gleaned:

A novelty in white skirts for evening wear is made of fine lawn, with two wide, lace trimmed flounces set one over the other, and a richer one of silk, which buttons on underneath to give the skirt body and furnish the desired ruffle.

Drawers are extremely wide and very short, so that they have the appearance of a divided skirt.

Combination garments, with corset cover and underpencil, or chemise and drawers in one, are much liked by those who wish to avoid unnecessary thickness of material around the waist. The empire chemise is worn over the corset and answers all the requirements of a chemise and short skirt. The daintiest corset covers are of fine lawn and lace insertion in the form of a bolero jacket, and those which fall below the waist line are shaped in with tiny tucks and lace and have no seams except under the arms.

Negligee gowns were never so pretty or so fascinating in style as they are now. They are made of fine cashmere, thin, soft silk and crepe de chine in all the light, delicate colors and elaborately trimmed with lace and ribbon. One of the season's models in pink crepe de chine is made with a skirt with a Spanish flounce headed by two rows of narrow Valenciennes insertion, set in above to form a bowknot in front and back, and trimmed around the edge with a lace frill. The jacket is one of the loose, straight styles so fashionable in street coats and is laid in plaits below the yoke and trimmed with the lace insertion, which also stripes the bishop sleeves.

Citizens Attention.

These are days of considerable anxiety and perplexity to all who have possessions or other interests in the Republic of Hawaii, and it is time that our citizens came to a mutual understanding on several important issues. The prospects for Annexation appear at present vague and indistinct, and our destiny cannot be foretold with certainty. There are those, also, who still fondly cling to the hope of a return to the old order of things, and who cannot be persuaded otherwise, yet this outlook appears far more hazy than that of Annexation even to the most hopeful disciples of the Monarchy. But, fortunately, in the midst of all this uncertainty there is solace in the fact that Buffalo Beer has come to stay and that patrons of all sorts and opinions may equally share the benefits of its invigorating and sustaining properties. We are moreover assured that this favorite brew will continue to be dispensed as heretofore at the Royal, Pacific and Cosmopolitan Saloons.

Superior breakfast sausage is a specialty at the Central Market. Ring up 104.

For more than fifty years has PERRY DAVIS' PAIN KILLER stood the test against all remedies prepared to eradicate pain, and today stands at the head of the list among the medicines that are so essential to keep at hand in the home.

It is not a new fangle remedy nor do the proprietors lay claim to any wonderful revelation of the ingredients that enter into the manufacture of this ever popular remedy.

It is perfectly harmless, you need have no fear of becoming habitually inclined to its use.

For Colic, Cramps, Dysentery, Colds, and all painful affections, a few doses will certainly give relief. You cannot afford to be without a bottle in the house.

Your forefathers used it and found it beneficial.

Why experiment with some remedy that is new and its effect on the system unknown?

It has many rivals but no equal.

Price 25c. and 50c. a bottle.

Decorated Dressing Table.
A sketch given in the New York Tribune suggests a new idea for the decoration of a dressing table to replace the frilled and potted duchess glass.

DECORATION FOR A DRESSING TABLE, which has been popular for so many years. The mirror, which has a heavy gilt frame, is placed against a background of dark red, and over this, projecting from the wall, is a half canopy draped with a china silk in a pattern of pink chrysanthemums. Against the same dark red background, which ends with the last rim of wood, are a set of open square shelves, five on either side, which are finished on the inside with a frill of the silk. These are filled with pretty specimens of china, the top one being decorated with a vase filled with dried ferns chemically treated so as to preserve their color and shape. The dressing table is of polished mahogany, with brass decorations.

Mrs. Rorer's Icing.
Put a cup of sugar and a half cup of water over the fire to boil. Beat the whites of 2 eggs to a stiff froth. When the sirup will spin a thread from the tine of a fork, lift and pour it gradually into the whites, beating all the while. Add to this a teaspoonful of cocoa, beating for at least five minutes, and when cold it is ready to use. This cannot turn to sugar, says Mrs. Rorer.

Parasol Fritters.
Boil parasols till tender, cool and remove pith and skin. Mash fine. To every teaspoonful add a beaten egg. Add flour to thicken and salt to taste. Drop into boiling lard and brown. These may also be baked like potato cakes.

At a Dance.

"I've promised to go in to supper with some one else, Mr. Blaque, but I'll introduce you to a very handsome and clever girl."

"But I don't want a handsome and clever girl. I want you."—Truth.

Reasons Why.
There are two reasons why people are now paying car fare all the way from Waikiki to the Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. After paying car fare both ways patrons find they are money in pocket by dealing at this "live and let live" establishment. We also deliver goods between Diamond Head and Moanalua free.

My C. W. MACFARLANE—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth.

SALE OF THE HAWAIIAN HOTEL PREMISES, HONOLULU, H. I.

On Wednesday, July 28, 1897, at 12 o'clock noon, at the front entrance of the Executive Building, Honolulu, will be sold at Public Auction, the Hawaiian Hotel Premises at Honolulu.

These premises are centrally located in the city, in the centre of the block bounded by and with entrance drives from Hotel, Richards, Bereftania and Alakea streets, and the grounds contain an area of 17-10 acres.

The Buildings consist of the Hotel proper of two stories and basement; built of brick and concrete with broad verandas at front and rear of each story.

The Main Building covers an area of 10,800 sq. feet with Lanai or wing addition on one side, 40x24 feet, and wooden addition on opposite wing for Kitchen, 60x18 feet.

There are also Four Cottages on the premises with ample provision for bath rooms and closets.

The Main Building contains a spacious Parlor, Public and Private Dining Rooms, Large Billiard Hall and Bar Room, and Forty Sleeping rooms. The Cottages contain about twenty additional sleeping rooms.

A water tank with capacity of 10,000 gallons is placed on a tower at an elevation sufficient to give a good water pressure in second story of the Main Building. This tank is supplied from an Artesian well on adjoining premises, owned by Dr. J. S. McGrew.

The buildings and grounds are thoroughly lighted with Electric Light.

Plans of the Buildings and grounds can be seen at the office of the Minister of the Interior.

Terms of Sale are Cash in United States Gold coin.

Upset price: \$60,000.00.

In case there is no bidder to purchase the property at the above upset price, a lease of the same will immediately be offered for sale at an upset price of \$4000 a year for a period of thirty years under the conditions set out in Act 7, Laws of 1896—and more particularly of Sections 2 and 4 of said Act which reads as follows:

"Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall, during the first four years of the term of the lease, cause to be erected upon the leased premises a fire proof building of Brick, Stone or Metal, in a workmanlike manner, satisfactory to the Minister of the Interior at not less than a stated cost; and keep the same suitably insured at not less than two-thirds of its value for the benefit of the lessor; and shall keep the building in good repair during the remainder of the term of lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the lessor.

"Section 4. Every such lease shall also contain a covenant on the part of the lessor, that upon the request in writing by the lessee or his representatives, before the expiration thereof, the premises with the improvements, shall, if all of the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years; unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such auction sale shall be held not more than six months nor less than one month before the expiration of said term."

The cost of building to be erected in accordance with Section 2 as above quoted, is placed at \$50,000.

PRESENT CHANCES.

While there is nothing to be expected from the extra session of Congress, now being held, in the way of dealing with the Hawaiian question, the time has come when this question ought to be considered at Washington. The way is clear for its consideration, free from any obstructions of party interest on either side of American politics. Republicans and Democrats are fairly even in point of failure of their policies. President Harrison's annexation treaty turned out a fiasco. So did President Cleveland's restoration scheme. The present administration is committed to no definite proposal, excepting to maintain American "control" over these islands. Such, however, does not require annexation. It is not likely that President McKinley will take the initiative in any definite Hawaiian policy. We have reason to expect, though, that he will not assent to any action that will tend to make the relations between the two countries any less intimate than they are at present. Also it is impossible to believe that he would oppose any measure of Congress for making those relations closer. Our representatives at Washington, then, would probably do better at this juncture by working for congressional action than by negotiating to secure executive initiation of the subject of Hawaiian annexation. Whatever they do they ought to let the promoters of the cause at this end of the line know something about their procedure. It is only a poor fight at best which is made in the dark. The Government here has not gained anything for the cause by the mystery it habitually permits to surround the subject. The clashing of information from authoritative sources which is sometimes apparent is indeed liable to be positively injurious. This seems to have happened in connection with the Attorney General's present mission to Washington. When he was leaving here, and again on his arrival in San Francisco, he announced himself virtually as a paramount envoy to the American capital, with authority superior to that of the permanent Minister there for concluding negotiations for annexation. That was his mission and nothing else. Yet, when Mr. Smith reached Washington it was given out, as coming from the Hawaiian Legation, that he had no official standing whatever in any negotiations that might take place regarding the relations between the two countries. This confusion of official information is provocative of a tired feeling on the part of supporters of annexation at Honolulu. It is to be hoped that the feeling will be allayed after the arrival of the mail tomorrow, by the Government's communicating to the public a true idea of the situation at Washington. Its supporters here are eager to help the cause along. They are misrepresented by the would-be oracles who, on the one hand, insist practically that neither the statesmen at Washington nor the American

public are amenable to fair argument, and, on the other hand, declare that a "royalist" plot is seething in the very heart of the Government's following. These pretended oracles furnish, entirely by and in themselves—in such foolish and false utterances—the only existing manifestations of treachery in the camp. Their expressions should be distinctly repudiated and themselves suppressed as unauthorized spokesmen, which can be done by means easily available to the Government.

Japanese trade in Sydney is beginning to alarm the merchants there, and as a consequence there is likely to be an increase of protectionists. Commercial travelers for houses in Japan are going about seeking orders for goods at ridiculous prices. An instance is given by a daily paper of one of these agents offering a dealer to supply him with facsimiles of a China tea service, the wholesale price of which landed in the warehouse from London was 17s. 6d., for 2s. 6d. each. He explained how his house could do it thus: "We pay our workmen 8d. per week, and a little rice for food, and how can any other nation that manufactures cope against that competition?" Honolulu has not got it quite so bad as that yet.

Dr. Eldredge's letters to the Board of Health, from which extracts are published in this issue, are of considerable interest for more reasons than one. Japan's restiveness over precautionary measures on her own soil desired by both the United States and Hawaii, with regard to emigrants for those countries, is discreetly left by the Hawaiian sanitary representative to be dealt with by the American representative. If the proposed measures be disallowed, both America and Hawaii will simply have to refuse Japanese immigration while epidemics prevail in Japan.

Eleven days elapsed between the date of the latest newspaper from abroad received in Honolulu and that of the latest to be received by tomorrow's steamer. Our freshest news to date is from the Antipodes. This long interval comes in a time when the world is liable to be startled with tremendous denouements of history at any moment. If we had a cable we should now only be waiting for details of whatever great events may have happened. The main facts would be in our possession within the hour of their happening.

American news by way of Australia says that the attitude of the Senate toward the arbitration treaty between Great Britain and the United States has undergone a complete change. It was expected that a favorable report would soon be presented. President Cleveland's administration cannot be robbed of the credit due it for the treaty, notwithstanding that some Republican Senators feigned opposition to the treaty until that administration had retired.

Meeting Notice.

A Special Meeting of the Stockholders of the Honolulu Sugar Company will be held at the office of P. A. Schaefer & Co., on WEDNESDAY, March 31, 1897, at 9 o'clock a. m. H. KENJEN,
Secretary.

Timely Topics

March 29, 1897.

It is an old saying that cleanliness is next to godliness and we believe it to be a true one. So many people in Honolulu use our stoves and kitchen utensils that they have got in the habit of sending to us for all sorts of things for kitchen and general use.

Soap is one of these things. It is not exactly in the line of hardware but it certainly can be classed as merchandise. Anyhow we have a lot of it on hand and we propose to sell it and sell it quick. The line of soaps we handle is that made by Colgate & Co. of New York, and we need not say there is none better in the market.

We offer Colgate's Cashmere Bouquet and Jockey Club Soap at 35 cents per cake, the genuine article and full size; Glycerine, Rosador and Honey at 20 cents the cake, and Rico and Castile at 10 cents.

For a shaving soap there is none equal to Colgate's De-mulcent. We sell it at 10 cents the cake, it is worth 50.

In medicated soaps we offer the well-known Cuticura at 20 cents a cake, and the Medicated Tar Soap at 15 cents. This latter article is excellent for bathing and shampooing purposes. Try it and you will be convinced.

In the Circuit Court of STAMPS the First Circuit, Hawaii: an Islands. James J. Byrne vs. John Allen, H. Allen and others, at Chambers. The Republic of Hawaii: To the Marshal of the Hawaiian Islands, or his Deputy, Greeting: You are hereby commanded to summon John Allen, Henry Allen, Henry Rhodes, W. H. Lambert, A. Feek, B. F. Dillingham and Oahu Railroad & Land Co. to appear ten days after service hereof, if they reside on the island of Oahu, otherwise twenty days after service, before such Judge of the Circuit Court of the First Circuit as shall be sitting at Chambers in the Court Room, at Honolulu, in the Judiciary Building, to answer the annexed bill of James J. Byrne. And you are further commanded, by order of the Hon. A. W. Carter, 1st Judge of the Circuit Court of the 1st Circuit, that process be served upon W. A. Kinney, Esq., for and on behalf of A. Feek and that a temporary injunction issue as prayed for against the Oahu Railroad & Land Company, A. Feek, his Attorneys, Agents and Factors, and have you then there this Writ, with your return thereon.

Witness the First Judge SEAL of the Circuit Court of the First Circuit, at Honolulu, this 27th day of July, 1896. (Sig) GEORGE LUCAS, Clerk.

§ 1169, Civil Code. The time within which an act is to be done, shall be computed by excluding the first day and including the last. If the last day be Sunday, it shall be excluded.

I certify the foregoing to be a true copy of the original summons in said cause, and that said Court ordered that service be made upon said non-resident defendant, A. Feek, by publication of the same and continuance of said cause until the 28th day of June, 1897, at 10 o'clock in the forenoon. Honolulu, H. I., March 19, 1897. J. A. THOMPSON, Clerk. 564-oww

THE STUDY OF MUSIC.

Teaching Early Principles—Writing Music From Memory—Sight Reading.

Advanced studies in thorough bass and counterpoint are for the mature mind, but the fundamental principles of harmony—the A B C of music—should be taught to the beginner. Scales and chords can be made very interesting if the pupil is taught how they are constructed and trained to hear them both with the outer and inner ear. Every one who deals with tones should be able to hear them, think them and write them.

It will greatly facilitate both reading and memorizing music if the pupil be led from the outset to recognize the sound and significance of every interval and form he uses. He should continually be put to the test by having intervals, chords, scales, etc., played or sung to him and by being called on to distinguish them one from the other. He should also be drilled to write down passages of music played or sung to him in groups, say of from four to eight measures.

Writing music from memory is a vital aid in developing the musical intelligence. It will not be found unduly troublesome when begun in the early stages of progress. The pupil who can properly grasp his musical materials should be able to transcribe all his exercises and studies from one key to another and to write them down from memory in their own or any other key. This exercise may be the means of leading to the expression in tones of some original thought.

Too much attention cannot be paid to sight reading. A well educated musician should be able to read and comprehend notes from the printed page, without the medium of voice or instrument, precisely as a scholar in other branches can read from a printed page of words. Whoever can read notes in this way will find no difficulty in interpreting them with the voice or the instrument he can command. Teachers are often afraid of sight reading lest it lead the pupil into careless habits. There is no danger of this, however, where the progress has been sure and where the music chosen for sight reading contains no technical or other difficulties that have not already been conquered. For piano players the reading of four hand symphony arrangements is most useful or of the piano part in good concerted music with other instruments. Part singing, without the aid of an instrument, makes excellent sight reading for two or more voices. A piano player, by indulging in it, will always find that he gains in powers of expression.

How to Make Koumiss.
A quart of fresh milk, a fifth of a cake of compressed yeast, a tablespoonful of sugar. Dissolve the yeast in a little lukewarm water and mix it with the lukewarm milk and sugar. Put the mixture into strong bottles (beer bottles may be used) and cork them tightly. Shake the bottles for a few minutes to thoroughly mix the ingredients; then place them on end in a refrigerator or some cold place to ferment slowly. At the end of three days lay the bottles on their sides and turn them occasionally. Five days will be required to perfect the fermentation, and then koumiss is at its best. It will keep for a long time in a cold place.

How to Wash Paint.
Soak a piece of flannel in warm water; then squeeze it until it feels dry. Dip gently into some powdered chalk and rub the painted surface with the flannel. Next wash the surface with clean water in a sponge and dry with a piece of wash leather. This method does not injure the paint, like soap, and produces a very good result.

How to Make Limewater.
Take a lump of pure lime as large as a goose egg and put it in a quart glass jar; fill the jar with cold water and let stand. What is not absorbed by the water will remain in the bottom; then fill the jar again with water. Two teaspoonfuls to a tumbler of milk is the right proportion.

How to Cure Craving For Stimulants.
A doctor is responsible for the statement that 4 oranges eaten every day are effective in removing the craving for intoxicants. One should be eaten before breakfast and one each at 11 a. m., 3 and 6 p. m.

How to Take Nauseous Medicine.
The patient should first take a bit of alum into the mouth. The medicine can then be taken with as much ease as though it were so much sugar.

Victory and Defeat.

Anchored.
Anchored is what the man said when he dropped into the Anchor Saloon. Why? said his friend. Because you can always get a cool refreshing drink served by gentlemanly attendants, and if you happen to drop in during lunch hour you will be regaled with solids as well as liquids. In fact the lunch at the Anchor is said by many to be the best in town. The celebrated Seattle beer is on tap. It is sparkling and ice cold. The finest of wines and liquors in town are to be had at this popular resort.

A VOICE FROM THE BLEACHERS.
Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its invigorating and strength-giving propensities. On tap or in bottles at the Criterion.

If you want absolute perfection in Refrigerators, go to the Pacific Hardware Co., for the "Hygienic." It obviates all defects found in old styles, and embodies improvements and virtues possessed by no other.

To My Patrons:
It gives me much pleasure to announce that MR. M. R. COUNTER, one of the most skilled watchmakers ever in these Islands, is now managing my repairing department. No watch is so complex in its mechanism but we can give perfect satisfaction in correcting the evils to which watches are heir. Watches are delicate things to handle. We guarantee that they will receive no injury at our hands and will leave our store in perfect repair.

Yesterday, the American ship Luzon arrived. She was 37 days from Shanghai, in ballast. Last week, the U S S Alert was sighted. The Luzon will load sugar for New York.

The American missionary steamer Morning Star returned from her annual cruise in the South Seas this morning, 43 days from Ruk. The usual cargo of curios, etc., was brought, besides a number of passengers.

A Long Swim.

On Friday last, while the steamer Noeau was lying at Lahaina, a whaleboat sailed in with another boat in tow. There is quite an interesting little story connected with the boat that was towed in.

Three men, one Hawaiian and two South Sea Islanders, went from Lahaina to Maalaea in a boat owned by Sam Nowlein. Returning from Maalaea to Lahaina, under sail, with a load of taro, the boat was capsized by a sudden squall. This was on Friday night. After righting the boat, the men tried to get the water out, but were unsuccessful. They were far from land, about 10 miles, and the sea was very rough. Seeing that something had to be done, one of the South Sea Islanders started to swim for land, which he reached early in the morning. The other two fellows stayed by the boat, and were picked up on Thursday morning by the whaleboat, which was sent out for them. When the whaleboat and its tow arrived at Lahaina, the beach was lined with people—men, women and children—who came down to see the men who had been rescued. When arriving near the shore, the two who had been in the water all night jumped into the sea again and helped to land their crippled boat.

The feat of the man from the South Seas is wonderful. The distance he swam was fully ten miles, and the water swarming with sharks.

STRONG STATEMENTS.

EDITOR EVENING BULLETIN:—

In regard to the proposed new armory and gymnasium, would it not be better if the principal officers of the N. G. H. who have taken such an active interest in the matter were to give a little more attention to members of the various volunteer companies who are out of employment, and insist that the Government whom they swore to maintain be a little more considerate, and give them the preference to positions when vacant, instead of persons who are not or never will be in the military, and whose sympathies are with the "Royalists"?

The main cause for the slim attendance at drills, is for the above stated reason. Men who are known to be "rank royalists" are being added to the government salary list, and good staunch annexationists are being turned out for no reason at all. They have come to the conclusion it is a case of "hoomalimali," and the sooner each annexationist quits the military, the better. A new drill shed is not going to pacify the members of various volunteer companies. At one time these men were wanted. Why are they being discarded for "wolves in sheep's clothing?"
