TO-MORROW'S DOINGS.

Legislature, 10. Meeting Stock Exchange, at 11.

THE LEGISLATURE.

Twelve weeks ago the Legislature met and has been in session ever since. It was composed of twenty-eight representatives, twenty nobles and four Ministers, in all fifty-two.

Of the nobles, one is a confirmed invalid and unable to attend, one (Kapena) is a Minister, and one is President. So that there have been forty-nine working members.

The session began with all fresh and eager; the representatives appeared in earnest and determined to work, and the Ministers were confident and haughty.

Of the representatives, a majority were elected on their declarations of independence and zeal for the public good. Soon the Ministers measured their men, and with the aid of offices judiciously bestowed, and the influences operated by means of Mr. Gibson's free eating house, fourteen of the representatives were secured by the Government as firm adherents. For various reasons one half of the nobles have supported the Ministry, and the other half have been independent. So the Ministers by their own votes have held a majority in the House.

And it has been a steady determined fight. The opposition out numbered and out voted have maintained a continuous warfare against corruption and misgovernment. With right on their side, and conscious of the support of the great body of the people they have contended for constitutional Government, and the preservation of the integrity of the throne.

Frauds, corruption, nepotism and illegal acts have been unearthed and condemned; hypocrisy and shams have been exposed; and purity in the administration of public affairs has been demanded with a spirit which has not been dismayed by defeat.

The end has not yet come, but we already see a disorganized Ministerial party led on by an old broken down man, with discomfort and disappointment depicted on every wrinkle of his distracted countenance; while the opposition with relentless energy comes to its task each day with the same spirit of determination. This opposition which has contended against great odds, has gained step by step, and although it has yet much to accomplish, there is no question as to the final result. It must and will conquer.

HON. GODFREY RHODES.

The country owes much to the Honorable Godfrey Rhodes, President of the Legislative Assembly. He is too well-known to the whole community of the Islands to need any eulogy at our hands, but his manly and patriotic course as speaker of the House has been such, at this time of public trial, that all friends of the country are under obligations to him. His impartiality and integrity have been above reproach; a man of deep feelings and warm impulses, there has been much to tax his patience and try his soul, but he has commanded the respect of all. He is fearless in his performance of duty, and loyal to the core. With full knowledge of the baseness and treachery of the leader of the Ministry he has guarded the purity of the proceedings of the Assembly with the greatest vigilance.

Able, loyal and ever at his post, he is a worthy servant of the people and an honor to the high post he occupies. It were well if Hawaii had more such men in her councils.

SNEAKS!

Of all contemptible men a sneak is the most despicable.

The Cabinet Ministers are sneaks. They have been rebuked by His Majesty for their extravagance; and they reply, it is not our fault; you knew all about it yourself.

There is honor even among thieves, but the Minister of Foreign Affairs and the Attorney General can discount that honorable fraternity. The expenditure of the Japanese immigration fund to pay up back expenses of the City of Paris is so utterly inexcusable, that a scape goat must be found. Accordingly, the organ makes the statement that Mr. Gulick alone is responsible, and Mr. Neumann and Mr. Gibson have both stated in private conversation that it was all Gulick's fault, and that they knew nothing about it. Mr. Gibson and Mr. Neumann you are sneaks! The Cabinet is responsible for the acts of the Ministers, and your plea of ignorance is too thin.

MR. GIBSON

Shows himself ever ready to throw blame on some one else, and by evasion and prevarication to avoid the responsibility of his own acts. Last Saturday, however, was the first time that he has attempted to shift responsibility upon the shoulders of His Majesty. He stood up in his character of head of the Cabinet, and stated that the Cabinet were not at fault on account of the excessive appropriation bill, because the King had seen and approved of the Bill before it was presented to the House.

What has the King to do with the making up of the Appropriation Bill? Mr. Gibson would have us understand that the King wanted salaries raised; that the King wanted two more secretaries in the Foreign Office; that it was the King that dictated this that and the other, and he the poor irresponsible head of the Cabinet had to do as he was told. Probably it was by orders of the King also that the salaries of Kaulukou and Aholo, and all the other District Judges were raised, in excess of the Ministerial estimate, and that the Ministers voted solid for such increase.

It is no use, Mr. Gibson, for you to try to sneak out of responsibility, and avoid the very duty which the constitution places upon you. The constitution exempts the King from responsibility, and specially says that "the Ministers are responsible," and you cannot evade responsibility by trying to saddle it off on the King or any one else.

MR. J. S. WALKER.

Mr. J. S. Walker, Auditor General, voted yesterday with the Ministers against the report of censure for their illegal appropriation of money.

The wrong doing was so clear and so inexcusable, that there remains no possible defense for Mr. Walker's action.

He has shown himself to be weak, debased, and dangerous. With the history of his course during the past two years this community can never trust him again in office. By his kindly ways, friendliness, and family connections he will still preserve friends in social life, but as a public officer all confidence in him has gone.

So far as the public interests are concerned he is more dangerous in his office than an open enemy. The office of Auditor was created for the express purpose of preventing any illegal disbursement of the public funds; to be a check on all the disbursing officers of the Government. But he has not only permitted the grossest breaches of the law to be made, but votes to cover them over, and this in defiance of the law and in the face of the community.

A distorted idea of loyalty to his decrepit friend Mr. Gibson, seems in his mind to justify any dereliction in public duty however flagrant.

PROVE IT.

The Advertiser states this morning that in 1878 a vote of want of confidence in the Ministry was defeated by 26 to 19, and that they were censured by 24 to 17. The first statement is correct. The second is incorrect. No vote of censure was passed, and none was attempted.

THE LEGISLATURE

MONDAY, JULY 21—Continued.

On re-assembling after recess Mr. Bishop, chairman of the committee on education, reported on petitions praying for English schools on Lanai and at Makawao, and recommended their reference to the Board of Education. Adopted.

Minister Gibson submitted additional matter relating to the leper settlement, moving it be printed. Carried.

Mr. Hitchcock, from the Select Committee on immigration, submitted a report, recommending that Portuguese immigration be suspended and Japanese be encouraged, and that an appropriation of \$300,000 be made for immigration purpose, which would cover present obligations and leave \$160,000 for the service in the current period of two years.

Mr. W. O. Smith moved the report be taken up with the Appropriation Bill. While the House was manifestly in favor of Japanese immigration, it would not be wise to confine the country to that source of supply in case it should fail.

Minister Gibson seconded the motion, which carried.

Minister Neumann, in answer to Mr. Smith, promised a report on criminal expenses on Wednesday.

Minister Gulick, in answer to Mr. Frank Brown, promised reports regarding case of public lands in the course of the week.

Minister Neumann introduced a bill to amend Section 4, Chapter 36, of the Penal Code, relating to common nuisances. It deals with street obstruction, awnings, etc., and enacts that telephone or telegraph wires shall not be lining less than twenty feet from the ground.

Mr. Smith moved that the Minister of the Interior state to the House by what means he proposes to make good to the several districts of the Kingdom the sum of \$147,905.87 of road tax now supposed to be in the Treasury. Inasmuch as there is nothing in the Appropriation Bill now before the House to provide for the paying to the several districts their respective proportion of the same, and provision is only made for the disbursement of the road tax collected during the coming biennial period. Carried.

ORDER OF THE DAY.

Consideration of the Appropriation Bill in Committee of the Whole.

Mr. Pilipo supposed that in consequence of the King's message the Assembly should go back to the beginning of the Bill.

Minister Kapena said he proposed to go on from where they left off, and on the third reading to reconsider the items passed.

Mr. Dole called for revised Appropriation Bill. Does the Minister of Finance propose to make us wade through work that will have to be done over again? That would be folly. He would therefore move that this matter be postponed until the revised Appropriation Bill be brought in.

Mr. W. O. Smith said that whatever trifling there was previously there was no trifling last Friday. He had not His Majesty's message of that day before him, but if he remembered rightly it recommended that the Assembly should make reductions to be recommended by his

Minister of Finance. Now, where are they? We must have them of the Ministry will stand before this House more condemned than ever. They were here to do men's work or it was all child's play and a farce.

Minister Kapena said they were ready to go to work, but could not accomplish anything with this talk, talk, talk. The revised estimates were here now. After a tedious discussion of a point of order relating to the mode of procedure, several motions being before the House, Mr. Wilder said he understood the main motion to be to have the reduced estimates read and printed, and he accordingly moved the previous question, which, together with the motion was carried.

Minister Kapena then read the estimates with amendments, as follows:

Table with columns: Original Estimate, Reduced Estimate. Items include His Majesty's Privy Purse, His Majesty's Chamberlain, Salary First Associate Justice, etc.

Mr. W. O. Smith, having asked in surprise if the appropriation for roads and bridges was struck out entirely, was informed by the Minister that the service in question had been provided for in the Loan Act introduced the other day.

Further consideration of the Appropriation Bill was deferred until Wednesday.

Second reading of a bill to create a Board of Police Commissioners was, on motion of Mr. W. O. Smith, laid on table for further consideration.

Second reading of a bill for the appointment of Road Supervisors in chief was, after some discussion ordered to be read a third time on Thursday.

The House adjourned at 4:30 until 10 A. M. on Tuesday.

TUESDAY, JULY 22.

The House met at 10 a.m. After prayer by the Chaplain, the minutes of the preceding day were read and adopted.

Mr. Aholo presented the report of the select committee on the Act to amend Section 33 of Chapter 44 of Session Laws of 1882. The committee thought the law should have a trial for two years longer. They had made certain amendments to the section proposed to be amended by the member for Hilo. The committee submitted a bill to take the place of the other one, which was read.

Mr. Aholo presented the report of the select committee on an Act introduced by the Minister of the Interior, authorizing that Minister to grant a license to one Taylor to sell larger beer in Kapiolani Park. The committee recommended the indefinite postponement of the bill, and their report was adopted.

Mr. Aholo presented the report of the select committee on Mr. Hitchcock's bill to amend the Act passed on the 10th August, 1882, respecting the sale of intoxicating liquors. They were of the opinion that the proposed law could not be carried out, and therefore submitted a new

bill prepared by themselves. This bill provides that no holder of a license shall sell liquor to minors or women. On motion the bill was read a second time by its title and ordered to be printed and made order of the day in Committee of the Whole on Tuesday next.

Minister Gulick read his answer to a resolution asking for information regarding the sale of public land at the corner of Queen and Fort streets. This parcel of land was sold to Messrs. Hackfeld & Co. under the administration of Mr. Wilder.

Mr. Wilder gave explanations of the transaction, showing that his motive was to prevent a wrong to the firm in question.

Mr. Dole did not endorse Mr. Wilder's action, which he said was contrary to law, and he felt sure the land would have brought more at public auction than it did at private sale.

Minister Gulick also presented answer to resolution of Mr. W. O. Smith asking for statement of leases of public lands from April 1st, 1882, to date, submitting said statement. On motion of Mr. Smith the report was received and ordered to be printed.

Mr. Hitchcock presented the report of the Select Committee on public buildings, which recommended the following appropriations: Court House on Hawaii, \$6,500; Court House on Maui, 500; Court House on Lanai, 100; Court House on Kauai, 100.

Mr. Kalua moved the suspension of the rules for the reception of petitions, which being carried he read the petition of the Secretary of the Board to investigate the genealogy of Hawaiian chiefs, asking that his salary, due for the three months from January 1st, to March 31st, 1884, and refused payment by the Minister of the Interior, be paid by appropriation of the House.

Mr. Smith moved the petition lie on the table until the report of the Board of Genealogy be received.

Mr. Nawahi moved that the consideration of the bill be indefinitely postponed.

After some hot discussion by Messrs. Keau and Kalua, Mr. Smith's motion was put and carried.

Mr. Kalua moved a resolution that the Attorney General be requested to state to the Assembly if the lease of certain water rights to Claus Spreckels for thirty years at \$500 per annum, is a good and binding lease according to law or not.

Mr. Keau moved that, as the Attorney General was not in the House, the resolution lie on the table, but afterward withdrew his motion and the resolution passed.

Mr. Hitchcock presented a petition of residents of Hamakua asking for the passage of an Act annexed, to appoint District Boards of Road Commissioners of five members each, to have full powers over the roads and bridges in their respective districts throughout the Islands.

The petition and accompanying draft of bill were referred to the committee on commerce.

Mr. Aholo presented the petition of Niagara, public dispenser at Lahaina, asking for an increase of salary.

Mr. Isenberg, by special leave, gave notice of an act to repeal the act relating to the custody of public moneys.

The house adjourned at noon till 2 o'clock, p. m.

CLEVELAND AND HENDRICKS

Are the Democratic nominations of President and vice President of the United States. The Daily Aha of June 11th says: The scene in the Democratic National Convention this morning when Cleveland was declared nominated for President was the grandest ever witnessed in a political convention. Indeed, the occasion was an anomalous one.

The nomination of a candidate on a second ballot under the operation of the two-thirds rule is unprecedented, and in itself bears evidence of the substantial harmony which prevails throughout the party. Of course there was a small minority which contended to the last for other candidates. Of course there were individual delegates who thought their own favorite the only man who could carry the country. But when, in a great convention numbering

over eight hundred members, representing every section of the Union and all its varied interests, nearly seven hundred of them—seven eighths of the entire assemblage—unite on a second ballot in designating one man as their choice, it is an indication of popularity of which any man living may well feel proud. More than that, it indicates that the great party here represented is united in its preference for the man now placed at the head of the ticket. The result of the second ballot was as follows; whole number of votes cast, 800; necessary to a choice, 547.

For the benefit of St. Andrews Cathedral Fair fund, will take place in Music Hall on Saturday evening. Wodehouse, Messrs Atkinson, Brown and Holdsworth. Miss Michiels and Mr. Hasselmann will also sing solos, the latter, with cornet obligato by Mr. Michiels. The box plan will open at J. E. EDITOR BULLETIN. Dear Sir:—Listening with a great deal of interest to the able sermon of the Rev. Mr. Cruzan on the subject of Gambling and Lotteries, I was much impressed with the masterly manner in which he handled the subject. But, while I agree most cordially with the Rev. speaker on all the main points of his argument, I think there are some things that he might have touched upon with considerable force, which would have been particularly applicable to this community at the present time; I refer to the practice of dice throwing. In nearly every place in Honolulu where cigars or iced drinks are sold, it is the custom to keep a dice box, for those who wish to throw and see who is to pay for the drinks or cigars, and it is a common sight to see boys of all ages from ten years upwards, engaged in this practice. Then again, there is another practice which is getting to be all too common among our boys, that of matching coins. It seems to me that these things are the ones which really need the closest watching, as being the small beginnings which eventually lead to the more flagrant vices of the gambling den.

AN ALARMINING DISEASE AFFLICTING A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and, in fact, the entire glandular system, and the afflicted drags out a miserable existence until death gives relief from suffering.

Market Place, Pocklington, York, October 2nd, 1882. Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and am thankful to say have derived more benefit from it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they would soon find out for themselves.

St. Mary-street, Peterborough, November 29th, 1881. Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of it I fell quite cured.

Hensingham, Whitehaven, Oct. 16th, '82. Mr. A. J. White.—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.—I remain, yours respectfully, (Signed) JOHN H. LIGHTFOOT, 15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesburg, W.Va., informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

September 8th, 1883. Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Preston, Sept. 21st 1883. My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it." The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.—I am dear Sir, yours faithfully, (Signed) W. BOWKER, To. A. J. White, Esp. 765 1y 1.

A TRAP TO CATCH A THIEF. A STRANGE STORY.

I continued to gaze a door slowly opened into the room, and I noticed some one enter. But the light was not sufficiently strong for me to discover more than that it was a man. The figure moved towards the bag, and bending over it took therefrom something of a bright yellow color. With this it approached the fire and placed it in some vessel near at hand, and in a short time removed, the contents being poured into another vessel.

"What could it all mean? I felt as if in a dream, the thing was so strange. Suddenly I remembered the mirror. It was no dream, it was a reality. I was witnessing a sight which at that very time was taking place in the opposite house. No sooner had I come to this conclusion than I jumped out of bed and looked out of the window.

The blinds of the house facing were up, but whether this had happened by accident or not I cannot say.

"At this moment a sudden gust of wind more violent than any before rattled my window loudly as it passed, and apparently my neighbor's too, for he turned round and glanced in the direction of the window, to see, perhaps for the first time, that the blinds were up. This discovery, however, did not cause him much alarm, for he walked leisurely forwards and proceeded to unfasten the cord, most likely thinking that from his high position his actions could not be seen. The blinds quickly descended, knocking off in their passage the man's beard. To a detective this circumstance was full of importance. Who was this man, I asked myself? Why was he wearing a false beard? What was he doing? What was the yellow substance he was dealing with? I felt satisfied that if he were not the man I wanted, my opposite neighbour should be inquired about, as my long experience taught me people were not in the habit of watering false beard without some motive.

"Accordingly I determined at once to talk affairs over with the superintendent. He was considerably astonished at my story, but concurred that the matter was one to be cleared up, and we therefore concerted measures with that object in view. He took two men and sent them round to the back of the house, while he and I proceeded to the front. On reaching the door I was astonished to find that the room where the incidents I have previously mentioned occurred was all dark, but a strong light was burning in a lower one. We knocked at the door, and repeated the operation before we obtained a reply. At length someone from within inquired who was there, and on being told "The police," opened the door without the slightest hesitation.

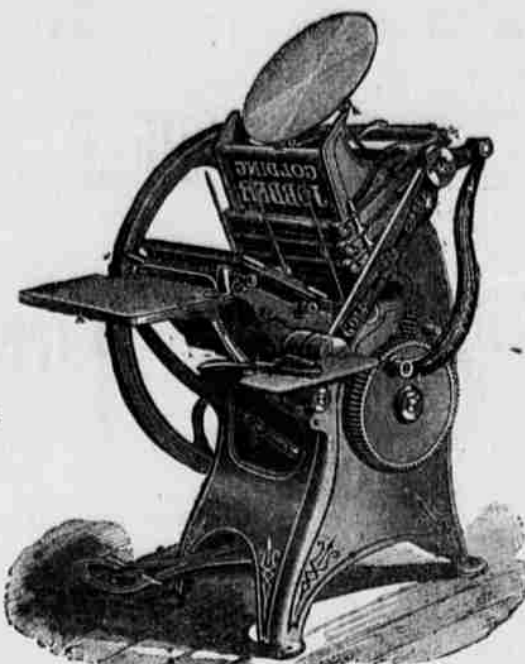

"We were ushered upstairs, and shown into a very handsomely furnished sitting-room, where our guide had preceded us, and he now turned round to inquire our business. The moment we entered the room we were both startled to find that the man before us was none other than the individual we had met at the railway station. Surely there must be some mistake. This respectable old gentleman could not be engaged in any nefarious practices. We stood for
