## Minutes of Meeting

### Kalua County Attorney, Kahalelio is Deputy.

The matter of the greatest interest to the public that was done by the Board of Supervisors was the acceptance of the resignation of County Attorney D. H. Case and the appointment of J. W. Kalua in his stead.

As Deputy County Attorney W. F. Crockett held his position from Mr. Case his commission expired with the resignation of his chief.

County Attorney Kalua appointed D. H. Kahalelio as Deputy in place of W. F. Crockett and Harry C. Mossman as clerk to the County Attorney and assistant Prosecuting Attorney.

The minutes of the Board are as follows:

Wailuku, August 13, 1908.

#### MORNING SESSION

The Board of Supervisors was called to order at 9 A. M. Chairman W. Henning presiding.

Roll Call. Present: W. Henning, W. P. Haia, S. E. Kaine, T. T. Meyer and W. F. Pogue.

The minutes of the July meeting were read.

Mr. Meyer moved that the same be approved as read. Seconded by Mr. Haia and carried.

Communication of W. F. Frear Governor of Hawaii acknowledging receipt of communication in re Support of Militia was read, and the same was ordered placed on file.

Communication of Marston Campbell Superintendent of Public Works in the Wailuku Town Hall was read and the same was ordered placed on file. The Clerk was instructed to acknowledge receipt of same. Thanking Mr. Campbell on behalf of the citizens of Maui for the action he has taken.

Communication of Col. John W. Jones in re Support of Militia was read and action on the same was deferred.

Communication of Edgar Morton Deputy Sheriff of Makawao in re payment for uniform cloth was read, and the same was ordered placed on file.

A notice from the Land Registration Court in re hearing on land on Vineyard Street was read and the same was referred to the County Engineer and the County Attorney, and the notice was ordered placed on file.

Communication of Wm. K. Kaluakini Secretary 3rd. Precinct Club 3rd. Representative District transmitting Resolution of said club in petition to discharge some officers at Lahaina was read. The petition was also read, and action on the matter was deferred.

## Shanghai Situation

### Attorney Douthitt Tells of Handicap.

Honolulu, August 18.—Asked regarding the situation at Shanghai with regard to members of his profession and other Americans, E. A. Douthitt, the returned attorney, said this afternoon:

"Conditions over there are not suitable for Americans and there are a good many reasons for that. One is that Americans have lost prestige there, and of course the action of Judge Wilfley in disbaring American lawyers has naturally had its effect on the Chinese. In other words, the confidence of the Chinese population is destroyed altogether so far as Americans are concerned.

"British lawyers have control of the situation there and the best American lawyers can hope to gain is the smaller business, the larger affairs being handled by the British practitioners.

"Conditions as described are not only due to the recent loss of prestige by American lawyers but are of long standing. American merchants there have never attempted to cater to the Oriental trade. It is common talk in the Orient that, instead of shipping their goods thither properly packed, they act as if they thought any old thing would do. In consequence the Chinese have considerably lost faith in American merchandise. Shanghai is essentially a British community.

"All of the British barristers practice before Judge Wilfley and the only attorneys who are subjected to examination are Americans, other lawyers being admitted on motion on presentation of their credentials. If an American lawyer has been admitted to the United States courts of China he is allowed to practice in the British courts. But if not admitted to practice in his own country's courts of course he cannot be admitted to practice in the British Supreme Court, a court of original jurisdiction.

"The Mixed Court is only for cases in which Chinese are defendants. It is presided over by a Chinese magistrate and a foreign assessor who may be American, British or German. Where any foreigner is defendant he has to be sued in his own consulate.

"At present the only American attorneys practicing in the United States courts for China are Jennigan & Fessenden, W. H. Heen and W. S. Fleming, the last two formerly of Honolulu.

"Americans do not stick by their own but mostly employ British lawyers. The Standard Oil and Pacific Mail Companies have American attorneys, but most of the business en-

## Kahului is Planning

### Will Build more Wharves at Thriving Port.

Superintendent J. N. S. Williams of the Kahului Railroad Company has returned from Honolulu where he was in consultation with Superintendent of Public Works Marston Campbell relative to many improvements planned for the waterfront of Kahului. With the building of the breakwater Kahului has assumed second place in the commerce of the Territory and many improvements are being made and many planned.

One of the most important matters taken up was in connection with the new wharves which are being projected for Kahului. All propositions of this kind are at present tentative waiting on the approval of the Harbor lines which have been submitted to the Secretary of War through Captain Otwell and which were forwarded to Washington on August 1. When they have been approved the actual work in forcing ahead the harbor improvements will be commenced.

In the meantime Mr. Williams is going ahead with plans for the improvements in order that no time may be lost. While with Mr. Campbell plans for wharves and wharf sheds, similar to those which are now being constructed in Honolulu were talked over and Mr. Williams brought away with him a blue print showing the type of construction of the new shed which is being erected on the Sorenson wharf, which exemplifies the work of this kind which has been picked out as most fitting for the local conditions.

Another matter of primary interest which was taken up was that of the Kahului water supply. At present if a serious fire should break out in the town there would not be enough water to do more than urge it ahead. With the increasing importance of Kahului as a seaport and the large sums of money which are being invested there and which will be invested there, some first class system of fire protection is required.

For this the first requisite is water. The present water supply goes in a four inch pipe from Wailuku and when this city is drawing on the main there is practically nothing left for the town below. Superintendent Campbell told Mr. Williams that he would recommend to the coming Legislature that money be appropriated for a reinforced concrete reservoir with a capacity of 300,000 gallons. This will be located on the sandhills between Kahului and Wailuku and will be filled during the night when Wailuku is not drawing on the supply. Larger mains probably eight inch, instead of the present four inch pipe, which is practically useless on account of friction, will also be recommended. With this to fall back on for a supply Kahului should be well off.

Some years ago an appropriation for such a reservoir was obtained from the Legislature, but was never expended being allowed to lapse for some reason which is hard to understand.

Enterprises that are started over there with American brains and capital have a certain number of British directors and employ British lawyers. This course is no doubt with a view to repairing the lack of confidence among the Chinese.

## Tangled Testimony

### Inquest Jury Will Visit Scene Today.

Honolulu, August 18.—With the witnesses tangled in their testimony and unable to tell whether the accident occurred on one side of the street or the other, the coroner's jury empaneled in the case of Lau Kai Foy, the Chinese boy killed in an auto accident Saturday afternoon, adjourned until 5 o'clock this afternoon to visit the scene of the tragedy. This is done so that the witnesses may point out just exactly what occurred when Oscar White's auto and the bicycle on which the boy was riding came together.

The two main witnesses, besides Mr. White, were Lum Kwai Foon and Robert Hobron Jr. The former, who was propelling the bicycle with Lau Kai Foy riding on the handlebars, is a small Chinese, slight of build and quite young. He stated that he was wheeling up River street about four or five steps away from the Waikiki sidewalk when the auto and the bicycle collided. His testimony from that point was hazy, and when he said that the auto was between the sidewalk and the bicycle as it was struck, and could not remember on which side of the auto the deceased had fallen, it was decided to take his further testimony directly on the scene. The boy said he could see the auto, but had to look up and over the shoulders of the boy in front of him.

Robert Hobron said that the accident took place just at the intersection of Beretania avenue and River street, but after stating that the auto was right close to the bridge at one time and then that it was close to the Waikiki sidewalk of River street, he was also withdrawn from the witness stand, and his complete testimony will be taken on the scene this afternoon, at which time Mr. White's auto will be present, so that the exact distance can be determined.

Mr. White in giving his testimony said that he was coming down the right side of Beretania and turning into River street toward the Ewa side of that thoroughfare when he saw the bicycle coming up. He tooted his horn twice and then, noticing that the bicycle was doubly loaded, and wishing to warn the bicyclist, who was concealed behind the boy on the handlebars, he called out loudly. When the boy saw the auto he swerved first to his right and then to his left, the auto at the time swinging toward the Ewa side of River street. Then the bicycle and auto came together, the bike striking the front right wheel of the machine, whereupon the boy on the handlebars plunged headlong to the street. Mr. White testified that at the moment of contact his machine was going perhaps three miles an hour and was brought to a standstill almost immediately.

Dr. McDonald, who made the autopsy, stated that the boy's skull was badly fractured.

The inquest was conducted by Deputy Sheriff Jarrett, with Deputy County Attorney Milverton assisting in the examination of witness. In addition, E. C. Peters was present in the interest of the deceased's father, Lau Tong, and Judge Perry to represent the interests of Mr. White.—Advertiser.

A wireless to the Maui News announces that the jury found Mr. White blameless.

The Cantata at the K. P. Hall this evening will be a rare musical treat.

SATURDAY, AUGUST 22, 1908

**A Futile Tour.** Link McCandless is touring the island of Maui in the midst of his expected campaign as a candidate for Delegate to Congress this fall and is making many extravagant declarations to the electorate in the hope of winning them over to his cause.

That he is an able and impressive speaker is admitted and it is said that he is as fluent a speaker in the Hawaiian tongue as he is in English.

It is reported from the other side of East Maui that he is roasting the Governor and Land Commissioner Pratt and urging the people to vote for the Democratic candidates on the ground that the only hope of their getting lands is through the Democratic party.

He says that it will be but a short time until the electorate will be so overwhelmingly Chinese, Japanese and Italian that those who now control the elections will not have a voice in choosing the officers nor shaping the government of the Territory. He has maps of each island showing the amount of land that is still owned by the government and statistics showing the disposition and on what terms the government has made of all of the lands it has disposed of.

It is said that he paints in lurid colors the awful conditions confronting the people and points to himself as the Moses that will lead them from the wilderness.

All of this is doubtless good campaign material and we can hardly take issue with him for using such methods for his personal interests.

But let us see what will be the result of sending a Democratic Delegate to Congress be.

In the first place there is hardly the remotest chance for the election of Bryan and the betting on the issue in the great money centers is ten to one on Taft. The republican party is united and under the republican administration there has been a long period of unprecedented prosperity which will add much to the certainty of the election of the Republican nominee.

The republican party stands for a sound protective tariff that will mean continued prosperity for the Islands and all living within its borders.

The democratic party is divided and it is certain that Hearst's Independence League will take many thousands of votes from the democratic nominee.

The awful financial conditions that existed during the administration of Cleveland in 1893 to 1896 inclusive are fresh in the minds of a great majority of those who will cast their votes this fall and it is not possible that they will vote for a renewal of conditions where untold thousands of able bodied working men were walking the streets and public roads begging for work at any wage.

Not a single democratic state or territory has fared so well as Hawaii has and just why we should turn down Kahio after what has been accomplished in Washington and support an untried neophyte is more than can be explained.

There seems to us no good reason why any member of the republican party should vote against the satisfactory conditions that exist and have existed for years under republican rule for the unknown conditions that will be in vogue if the democrats get control. The only criterion we have by which to judge what the conditions will be is the history of what the conditions were when the democrats did have control in the past and that is none to their credit.

With a few exceptions the men who are at the head of the democratic party on this island are not of a class to inspire confidence and until a greater number of responsible men take an interest in the local party there is no hope that the democratic party could accomplish anything for the good of the community.

## Club Chooses Candidates

### Portuguese are Active Republican Workers.

The Portuguese Republican Club of the 13th Precinct, held their meeting at the Paia Chapel, Saturday night, August 15th 1908, for the election of delegates to the Territorial and County Conventions. The meeting was called to order by the President, Mr. A. J. Gomes at 7:45 P. M. The minutes of the previous meeting were read by the Secretary J. Dolim, and were duly adopted as read.

Following the reading of the minutes, the president called on Mr. M. S. Jardim to speak. Mr. Jardim explained that this meeting was far the most important we had so far, and recommended the members to elect good honest men as delegates to the Convention.

Mr. Deponte was next called to speak by the President. Mr. Deponte recommended the members to support their delegates at the election which will take place at Hamakua. Mr. J. M. Medeiros recommended the election of men who will be for the good of our club, wishing that they be supported by the members.

Mr. Deponte nominated Mr. M. S. Jardim for delegate to the Territorial Convention. The motion was seconded by Mr. M. Nunes, Messrs. M. S. Deponte, J. Andrade, and M. G. Anjo, were also nominated for the delegation, but the latter three declined in favor of Mr. M. S. Jardim. Mr. Deponte then moved that the nomination be closed. It was seconded and carried and Mr. M. S. Jardim was chosen as candidate for delegate to the Territorial Convention from the Portuguese Republican Club of the 13th Precinct. Mr. Jardim thanked the members of the club, wishing to be supported and promising to do his best for the good of this club.

The following were nominated candidates for delegates to the County Convention, M. S. Deponte, J. Dolim, J. Andrade, J. M. Medeiros, A. J. Gomes, M. G. Anjo, J. M. Feiteira, J. S. Souza, and J. M. Ambrase.

It was suggested by the President that all the voters who were present, be asked to sign the roll. When this had been accomplished, the President instructed them to vote for five delegates only. The slips were passed by the Judges of Election, and resulted in electing the following by the highest number of votes.

M. S. Deponte, M. G. Anjo, J. M. Medeiros, A. J. Gomes and J. S. Souza.

The chair then declared the above men elected as candidates for delegates to the County Convention from the Portuguese Republican Club of the 13th Precinct.

Mr. Anjo thanked the members of the club, after the election and made a short address based on education, and recommended that it would be a very nice thing for the members to ask Mr. Baldwin for a hall. Mr. A. J. Gomes appointed Messrs. M. S. Jardim, M. S. Deponte, and Mr. Anjo to wait on Mr. Baldwin about the latter. The meeting then adjourned.

ten months time. Kanaio church was first restored at a cost of over \$800.00. Ulupalakua Church has been built, costing up to the present time about \$1,400.00, and Keawakapu repairs amount to the same figure. The first two churches are held by the Hawaiian Board as trustee, while the property of Keawakapu belongs to the American Board of Missions. The total amount of money spent in this one district of Maui for repairs and building is \$3,000.00, all of which, excepting the generous help of \$850.00 from one Maui man, was raised by the Hawaiian people, many of whom have deprived themselves of new clothing and necessary improvements on their houses that these long neglected churches might be repaired.

With the exception of a small sum at Ulupalakua, there is no debt on these three churches.

## Cantata and Dance at K. P. Hall To-night.

A cantata will be given at the Knights of Pythias Hall this evening by young ladies of central Maui under the auspices of the Catholic Ladies Aid Society. A dance will follow the musical program and an enjoyable evening is assured all who attend.

Tickets are selling rapidly and a large attendance is expected. Special trains will be run leaving Paia at 7 p. m. Spreckelsville at 7.15 p. m. Punne at 7.15 p. m. and Kahului at 7.30 p. m. arriving at K. P. Hall at 7.45 p. m. returning after the dance. Excursion rates will be charged.

## Threatened Murder But Backed Water.

Honolulu, August 15.—Holding his right hand aloft in a voluntary swear, Dan Smith abjectly told Judge Andrade this morning that he would be the best boy in the world from now on.

It was all too easy, this confession and these promises of Danny. When some of the preliminary questions of the case were being put to him, he suddenly said, very nervously indeed: "I won't never do it no more!" Attorney Brown had just read words of dire meaning, black and awful threats in which large knives and gushing gore figured, which words he (Dan) had written to Okana, the wife of his bosom.

"I won't never do it no more!" promised Dan. "You won't?" asked the Judge. "No; an' I won't take another drink!" He held aloft his right hand very high. "I swear it, Judge, I swear it." The Court instructed Okana to report if the prisoner broke his word, told him he was a bad boy, and let him have a little probation.

## Church Is Rededicated

### Keawakapu Church Now in Excellent Repaired.

Keawakapu Church, for many years in sad need of repairs, has been made to look like new during the last few weeks, and last Sunday, August 16th was rededicated with appropriate exercises.

A little over a year ago, the members of the church made the first attempt to raise funds. In two months over \$430.00 was raised to which \$200.00 was added by a generous friend on Maui. All of this money was deposited with the Maui Aid Association, which in October of last year put an entirely new roof, ceiling and bell tower on the church.

For the last two months carpenters and masons have been at work laying a new floor, making benches, trimming up the stone walls inside and out with cement, painting and whitewashing, so that at a total expense of almost \$1,400.00

the church has been put into splendid condition.

Of this \$1,400.00 the Hawaiian people in Makana and vicinity have raised \$1200.

At the services of rededication over 150 people were present. The oldest member of the church, Mr. J. Kapohakimohewa gave an interesting history of the church organization at Keawakapu since 1825, when the church was first established in a grass house near the present site of the stone structure. Rev. M. Lutere, pastor of the church, led his people in a dedicatory service, which had been prepared and printed in Hawaiian by Rev. R. B. Dodge. Rev. George M. Kataulalona, pastor of Honokohau and Kahakulua, offered the dedicatory prayer after the keys had been presented by contractor Poeopoe to the pastor of the church. A special hymn for the occasion was written by Mr. David Kapohakimohewa. Rev. Mr. Dodge preached the sermon.

An interesting part of the morning's program was the reception of one new member and the baptism of nine little children.

Keawakapu is the third church that has been repaired or built in Honouaunala, Maui, in less than fif-

California Paper Denies Policy Against Our Fruit.

HONOLULU, August 15.—Mr. Thomas' complaint about the treatment of his pineapples at San Francisco, his deductions on the subject and the stirring up of the matter by the Advertiser, is bringing many official and non-official protests and disclaimers. The California Fruit Grower in its issue of August 1, says, under the heading, Hawaiian Shippers Needlessly Excited:

Recently California Fruit Grower received from the Hawaii Promotion Committee, Honolulu, marked copies of the Pacific Commercial Advertiser, published at Honolulu. One of these called attention to a scare head news article, asking in large capitals, "Is California Hostile to Our Pineapples?" and a second copy of the paper has a double-headed editorial dissertation on "The Fumigation Conspiracy," as the editor calls it, written on the strength of the pineapple story. Both articles are full of inexcusable errors, and false statements which might easily have been verified, and as they were printed are bordering on the ridiculous. However, Hawaiians evidently are taking the matter seriously and it is possible that some others uninformed in regard to the real conditions might be prone to do likewise, so we are taking occasion to call attention to the errors made in the articles referred to.

The foundation for the whole matter was in the fact that the California State Commissioner of Horticulture in commendable zeal to prevent the introduction of fruit pests of any kind into this State and in obedience to the law on the matter, through his quarantine deputy at San Francisco, refused to release at that port a consignment of pineapples which had been insufficiently fumigated at point of shipment, and were found to contain living pests. With this small germ of fact some reporter probably anxious to make a name for himself evolved nearly a column and a half story in which it was stated that the California Board of Horticulture is acting in a high-handed and unjust manner, and that "The plan of fumigating pineapples before shipping them to San Francisco, instead of their arrival there, is not working out as satisfactorily to the pineapple growers as was expected, . . . that pineapples found ineffectively fumigated on their arrival at San Francisco, are to be rejected, and not to be fumigated by the Board of Horticulture, nor to be allowed to be fumigated there by agents of the shippers, . . . are to be turned back to the transportation company to be reshipped to Honolulu. . . . Within the past few months there has been a complete reversal of policy in a number of respects in the California State Board of Horticulture. There have been indications, too, of a policy of active hostility to fresh fruits from other countries. The bananas from Central America have been antagonized in various ways on the theory, apparently, that being a fresh fruit, they come into injurious competition with the fresh fruits of California. The suggestion has been made that perhaps the same spirit is at work against the pineapples of Hawaii, as being a fresh fruit that interferes with the fresh fruit products of California."

Without, it is plainly evident, taking pains to ascertain how much truth there might be in the statements in the news article, in his editorial, the editor asks: "Are we not justified in calling this a conspiracy to shut out Hawaiian fresh fruit?" and suggests that "it is time for patriotic merchants and planters of these islands to consider whether the millions which are annually spent by them in the San Francisco market for natural and manufactured products, cannot be diverted, in large part, to the markets of the Northwest."

Andrews Wants Big Money for Land.

Lorrin Andrews of Hilo still has the idea that he can win out from Uncle Sam. Some time ago a proposition was made to him by the Federal Government for a right-of-way through a certain small tract of land which he holds under lease. At first he placed the value of the right-of-way at a very nominal figure, but later raised it to several hundred dollars.

As the United States Government, through its attorney here, Mr. Brokens, thought that the price asked was exorbitant, condemnation proceedings were begun and the right-of-way was forcibly taken.

Now, in answer to the condemnation proceedings, Andrews has filed a damage suit for \$1,000, claiming that he or his property is injured to that amount by the condemnation of the bit of land. What will be done by the Federal authorities is not known as yet.

Now for the facts of the matter in reference to fumigation of pineapples from Hawaii. The following ruling was passed by the quarantine department of this State and sent to all steamship companies and growers in the Hawaiian Islands:

"After June 1, 1908, all shipments of pineapples from the Hawaiian Islands destined for California consumption, and which are infested with Mealy bugs (Pseudococcus species) and Scale Insects (Diaspis bromeliae) must be fumigated with hydrocyanic acid gas or some other effective means must be employed to destroy the pests before the fruit leaves Honolulu and other shipping points in the Territory of Hawaii.

"All shipments will be carefully inspected on arrival here, and if the pests infesting the fruit are found to be dead, the shipments will be released, but if the pests are alive, the shipments will be ordered fumigated, which will be done by the owner or his agent and the shipment will be held in quarantine by this department until we are satisfied that the pests are dead, when the fruit will be released."

"This ruling has been followed out to the letter. A few lots were held for fumigation and these were released when the pests were dead. No pineapples have been destroyed or returned to the point from which they were shipped, without permission to fumigate at San Francisco, nor have the officials there ever refused the consignees the privilege of re-fumigating the fruit; in fact, they have diligently urged them to do so with dispatch, and they have even gone to the trouble of lending such agents tarpaulins and chemicals, so that no hardship would be experienced.

As to the charge of there being a conspiracy in California against Hawaiian fruits to which the State Horticultural Commissioner and his staff are parties, it is utterly ridiculous. There is absolutely no foundation in fact for the supposition that our present State Commissioner or anyone else is engaged in an attempt to exclude Hawaiian pineapples or bananas from the United States on the ground that they come in competition with California fruits. Our fruit growers do advocate a protective tariff on foreign (not Hawaiian) banana importations, as this fruit undeniably does come in strong and active competition with the fruit not only of California, but of other States and with the Hawaiian fruit as well. That this Central American fruit should be admitted into the United States free of duty is openly contended against and the contention does not in any manner partake of the nature of a conspiracy.

The suggestion that the commercial interests of Hawaii adopt retaliatory measures against San Francisco is manifestly entirely unwarlike in view of the facts in the case.—Advertiser.

Planters will Support The Measure.

Honolulu, August 14.—The Hawaiian Planters Association will support the Territorial Board of Immigration in its effort to secure European immigrants for the Territory from the mainland centers, where the great bulk of the better class of Europeans arrive.

This was practically settled at a meeting of the Association held this forenoon, when the trustees are said to have considered the project which the Immigration Board has had on hand for some time.

Secretary W. O. Smith of the Association stated over the phone this noon. "The Planters' Association this morning took action approving the plan of the Immigration Board. The planters will assist in whatever the Board does. While the details are not yet complete, the planters approved the endeavor of the Board of Immigration to get more people here."

This is interpreted to mean that the Immigration Board may now go ahead with its plans assured that funds for the project will be supplied in reasonable quantity by the sugar planters.

As is well known, the Immigration Board some time ago engaged the services of Mr. Trenor to visit the Territory and go over the field with a view to making recommendations regarding European immigration. Mr. Trenor came to the Islands very highly recommended by the Federal officers engaged in the important work of distributing the immigrants throughout the country, preventing the congestion in the cities and putting the people where they are needed, and where they can make a good living. Former Commissioner Powderly is in charge of this Bureau, with headquarters in New York.

Mr. Trenor has gone over the field and made his report. The next thing for the Immigration Board to discover was whether it could obtain the funds. Getting immigrants from New York will be expensive. The sugar planters have now gone on record as approving the movement. As the same association spent over a quarter of a million of dollars in transporting Europeans direct, there seems little doubt that they will be liberal in this matter, and the Immigration Board will have the funds to make a fair test.

Widowed in Dream; Husband is Stricken.

San Francisco, August 6.—Mrs. Samuel P. Middleton, wife of a retired real estate man, residing at 2517 Post Street, was told in a dream Monday night that she would soon be a widow. Wednesday evening her husband was found in a dying condition from apoplexy in Golden Gate Park, and shortly after midnight he died at the Central Emergency Hospital.

"While I was sleeping," said Mrs. Middleton, "a tall man stood before me and announced that I would soon be a widow. 'Not yet!' I shrieked, and then awoke.

"I said nothing of my dream to my husband when he went to take his accustomed walk about 9 o'clock in the morning, but when he did not return at the lunch hour I became alarmed and was not at all surprised when I received the message to come to the hospital."

Middleton was 68 years of age.

Later news shows that Middleton did not die of apoplexy, as at first thought, but that he died of chloroform poisoning, self-administered. The physicians at the Emergency Hospital at first were without any clue. A reporter from the San Francisco "Call" stole a note from Middleton's pockets, which would have given a clue. Dr. Terry of the Emergency Hospital says that if the note had not been stolen he would at once have used a stomach pump and that the man's life might have been saved. The authorities announce their intention of prosecuting the reporter.

Government Money in Local Banks, Says Frear.

Honolulu, August 17.—That Governor Frear will make a recommendation to the next Legislature that Government funds be deposited in the local banks instead of lying idle in the Government vaults, is practically certain, although the Chief Executive stated this morning that he did not care to make any definite statement as to the exact content of his recommendation. In fact, he said, it had not been formulated as yet.

"Yes, I have taken this matter into consideration," stated the Governor and I shall make recommendation to the next Legislature on the subject. I have taken a deep interest in this, and have studied the laws in other places regarding the depositing of Government funds in home banks. I had these laws looked up several months ago, and I can see no reason why the Government funds should not be deposited in local banks. It does not seem necessary that large sums of money should be allowed to accumulate downstairs in the vaults, when the Government might as well be drawing down interest on it. I think that the best manner of following out this plan would be to let the Government official in charge of the money, the Treasurer, deposit it in amounts and at such times as he sees fit. There have been times when vast sums of money have laid idle in the vaults here when they might as well be out at interest."

Governor Frear was conservative in tone on the subject, notwithstanding the radical words he used, and he would make no statement concerning the exact nature of his proposed recommendation to the Legislature. However, it is pretty positive that his recommendation will be favorable to the depository law that has long been urged.

Drunken Brawl Ends in Death of one Participant.

Waimea, Kauai, August 15.—One man dead and two others under the charge of manslaughter is the result of a general fight which took place at Camp IV, Makaweli last Sunday.

It seems that there was a little feast taking place which was attended by quite a number of the Portuguese residents of the camp. Besides the more substantial part of the spread there appears to have been a considerable amount of fluid refreshments of a fiery kind. The bottled cheer excited discussions and the difference of opinions brought forth by the latter occasioned a fight that ended in a general melee. During this a man by the name of Innocencio Cavoco received a kick in the abdomen that caused a rupture of the intestine and finally his death.

At the coroner's inquest, held the following day, these details were brought out and the same day two of the participants in the fight were arrested and brought to Waimea where their trial since has been going on. There are quite a number of witnesses and the trial is proceeding but slowly owing to the fact that both questions and testimony have to pass through an interpreter.

The two men, Joe Ruff and Manuel Abeka, who are charged with manslaughter on Innocencio Cavoco, have been committed to the Grand Jury by the District Magistrate of Waimea.

EXALTED.

Sweet Singer—"D'Hammer says he has a high place in the next show he goes out with."

Comedian—"Well, I should say it is high. He sits up in the flies and tears up paper for the snowstorm scene."

"Are you willing to take your chances in the matrimonial game?"

"No."

"Why?"

"There are no chances in it."

Ministers Disagree

Sunday Observance Under Discussion.

Rev. Dr. Oramel H. Gulick contributes the following to The Friend: In The Friend of July, over the signature of Dr. Seudder he gives his views upon Sunday baseball, in the following language:

"A stroll in God's open air, a horse back ride, a drive, a refreshing swim, a game of golf itself the acme of quiet exercise, baseball, who will dare to set a limit and declare one to be a sin and the others innocent? We live in a day when honest men will endure no befogging of issues. The church can no longer say 'this or that is tabu' unless there is a clear moral distinction between the thing forbidden and those tolerated. Sunday has two reasons for being, both fundamental. The first is the need for rest. The second is the necessity for social worship. If a man is confined closely within doors six days every week, the physical demand for rest will force him to take outdoor recreation on Sunday."

It is a matter of deep regret to me that Dr. Seudder should feel himself called upon to use the columns of The Friend for setting forth the views indicated in the above quotation. I do not think them to be in accord with the commands of God as given in the Old Testament, or in harmony with the teachings of the New Testament. They are subversive of the teachings of those who so effectually planted the Gospel seed upon these islands. It is especially unfitting that The Friend, established and maintained by the Board of the Hawaiian Evangelical Association for the conserving and upbuilding of the Gospel Kingdom, should be thus used for the pulling down rather than for the unbuilding. The manner of observance of the Sabbath is one of the vital questions of the hour, vital to Christian living, and to Christian civilization.

In a later sentence of the above article Dr. Seudder says: "Innocent Sunday recreations will appeal to members of all the above groups. And the Church does not oppose them. We remember to have heard no voice publicly raised against them in Honolulu."

That the Doctor's memory may never again permit him to repeat this assertion, is the hope of ORAMEL H. GULICK.

July 20th, 1908.

In a later sentence of the above article is this good-natured rejoinder:

It were well worth the effort of a hundred editorials to evoke such a splendid little bunch of hot shot as that contained in the communication from Fellow Editor Oramel H. Gulick on another page. At a recent meeting of our Editorial Board one of the most ardent of our number suggested that The Friend would improve with more matter in a lighter or livelier vein. "All the rest said 'Amen.' For liveliness Mr. Gulick's communication fills the bill. It also gives the occasion for saying a bit more on the Sunday question.

That little editorial of last month which gets such a basting could hardly be expected to cover the whole ground. It had but one objective, namely to show that while the Church does not [and should not] bother itself with laying down rules as to how individuals must act on Sunday in contradistinction with with other days, it is tremendously interested together with labor organizations and men lovers generally in demanding that business shall not rob the world of Sunday rest. It goes without saying that the Church also enthusiastically backs the State in safeguarding the right of worship on Sunday. One reason why the Church does not to any man. "It is wrong in God's sight to do this or that on a week day," is because the Church cannot agree upon the acts to be pronounced

wrong. If John Knox and John Calvin were to visit Honolulu the flesh and engage in a game of bowls on Oahu College lawn so fine Sabbath afternoon, doubt Mr. Gulick would give them a sou' rap in the columns of The Friend and the board of editors at large would hugely enjoy the fun. The record reads that when these ty reforming worthies met in Euro they played bowls together on Sunday. The Puritan Sabbath has prevailed during a small section Church history and over a portion only of the world. We believe of this sort of Sabbath in its more liberal form has meant vastly more for mankind than any other that this world has ever known. I would gladly see all men so situated, economically that they could afford to spend Sunday partly in social worship and put the remainder of the day into the cultivation, both themselves and in others, of the best and noblest. In the ideal day nature and art and music, giving to others, quiet kindly recreations and all manner of social ministries will have their place. It will be a day richer far more humanly and for the individual than anything ever dreamed about by the Puritans. We believe that this sort of week rest day is even now in process of evolution. Men will tire of the amusement craze even as they do of the all day prosy preaching of former time. There will be swinging to extremes but God is in His work and His Son as Lord of the Sabbath will bring all men to his largeness of views in its use.

Hence the Church of today wisely leaves the whole question of Sabbath observance to the individual man's communion with his God. But what it exclaims with Paul, "All things are lawful," it adds with him "all things are not expedient."

It exposes the inexpediency of spending the weekly day of rest in mere physical relaxation to the neglect of all else that goes to make up manhood. It places over against the right of the individual to seek self pleasure on Sunday the privilege of safe-guarding to the community the priceless boon of social worship. To man who devotes all Sunday to golfing, automobiling, baseballing, reading, nature communing or any other aloneness is giving his vote in the most effective manner possible to support the proposition, "The Church and all public worship of God should be abolished." If a man believes his inmost soul that the Church is human necessity, a bulwark to the home and to the nation, he must order to be honest connect himself with it, attend its worship and his part to make it the ideal Church which the world needs. In order to do this he must be unselfish enough to adjust his Sunday activities accordingly. Now all this realm ideal considerations the Church must should and does urge. It will not attempt to legislate for the individual. It will not say because it has no right to do so. "This is wrong on Sunday," but it will, if it be within men to such an ideal use of the privileges of the day of rest and worship, that the individual man should be healthier in body, larger in spirit, fuller of God and truer to the social whole and that society shall reap more completely its great possibility—a family of loving, serving brothers.

WHY does the Doctor prescribe PRIMO BEER to restore the vitality of the patient, instead of Malt Tonic? Because it is more easily assimilated by a weak digestive system; often it is the only form of nourishment that the patient can retain. Some people class beer as a spirituous liquor. PRIMO BEER contains only 2 1/2% of alcohol. It is the Malt Barley and Hops that are a food and tonic for sick and well. PRIMO BEER FOR HEALTH.

Puunene Store Opens. Many Gather on the Opening Evening. On Thursday the 20th inst. the new Puunene Store at Kahului was opened to the public. In the evening special excursion trains were run from Wailuku and Puunene and on Friday evening from Paia and Spreckelsville the division of the two sections being made to facilitate the handling of the large attendance. Good music was furnished by the Spreckelsville band. This store is one of the largest retail stores on the Islands and has all modern conveniences being lightest by acetylene gas, having everything departmentized with courteous heads to all departments, the collection of ladies wearing apparel and particularly the hand made laces are worthy of special notice. The glass ware, jewelry bronzes and groceries compare very favorably with the large department stores on the coast. A comfortable retiring room has been fitted up complete for the ladies. The store is under the management of the popular Mr. W. A. Sparks, well known through long residence on Maui, with Mr. E. Russel as assistant and W. A. Engle as chief accountant. Altogether this is one of if not the finest department stores on the Islands and the Hawaiian Commercial & Sugar Co. is to be congratulated on their new venture. As this name implies they are not confined to the raising of sugar alone, but have extensive mercantile interests, with

At 4:55 P. M., Mr. Kaue moved to adjourn to 9:30 A. M. tomorrow. Seconded by Mr. Haia and carried.

### Immigration Men to have New York Base.

J. D. Trenor, the immigration expert, who has been some time in these islands looking into conditions, has been definitely engaged by the Immigration Board to establish offices in New York, as headquarters for turning some part of the tide of European immigration this way.

This is a part of the general plan which the Planters' Association approves of, and will be willing to aid financially.

Mr. Trenor has had many years' experience with this question from the other end, being on the continent as a representative of the government in this very matter of immigration, and also in other capacities, though always connected with the immigration business.

He came here directly from Europe, being brought in by the Immigration Board to look into conditions in the islands. The inspection here complete, he will be ready for operations at the fountain of immigrants, Ellis Island.

### Lane Webster's Death Accidental.

Honolulu, August 17.—S. S. Mikahala brought details yesterday of the death of Lane Webster on Molokai on Friday. Death was accidental.

Accompanied by the Gilman brothers, Lionel Steiner and Genoves, Webster was out shooting.

Atherton Gilman's gun was discharged accidentally as his feet went from under him on a slippery trail, Webster receiving the shot in his right calf.

Atherton Gilman galloped nine miles for a doctor who arrived at the J. F. Brown ranch house about 9 P. M. as Webster was sinking.

The remains arrived yesterday in the Mikahala and services were held yesterday afternoon at Central Union Punahou College classmates being the pallbearers. The casket was deposited among flowers by Harry Lucas, president of the '09 class, Richard Catlin, James Winne, Huron Ashford, Guy Rothwell, Charles Davis, Fred Withington and Theodore Cooke. The services were conducted by Rev. D. D. Scudder, and a choir, conducted by Stanley Livingston, rendered "Nearer, My God to Thee." The casket was deposited in a vault in Nuanu cemetery.—Star.

### Kahului Has Hilo Beaten.

It is not generally known that the business of Kahului harbor greatly exceeds that of Hilo harbor, yet such has been proven the case in the reports of the Pilots and Harbormasters from those places.

Captain Parker of Kahului, Maui, has sent his annual report to Superintendent of Public Works Marston Campbell, and it shows that 44 steamers, with a total tonnage of 214,032 tons, have arrived and departed from that anchorage during the past year ending June 30. Nine sailing vessels, with a tonnage of 11,753 tons, have been entered at Kahului. The total earnings of the harbor for the year was \$3,894.20.

The report of John Fitzgerald, pilot and harbormaster for Hilo, shows that 33 steamers and an equal number of sailing vessels entered the harbor during the past year. The receipts that came into the hands of the harbormaster amount to \$489.82 and the pilotage fees to \$1815.25.

### Try to Murder Their Teacher.

Vienna, July 25.—An extraordinary occurrence is reported from Kotzman in Bukovina, where sixty boys at the grammar school, dissatisfied with the result of the examinations, resolved to take revenge by lynching the head master, M. Spornarowski. Armed with revolvers, knives and cudgels they attacked the head master's house, which is in a lonely spot outside the town. They burst the door open, smashed the windows and wrecked the furniture. Fortunately the head master and his family escaped through a window into the garden and fled.

Five of the ringleaders and several other boys aged between 14 and 17, were arrested by the police, who seized various weapons and revolutionary pamphlets. Other arrests will probably follow. The remainder of the boys who took part will be dismissed and debarred from all schools in Austria.
