CANDIDATE SHERMAN SERIOUSLY ILL

PACIFIC QUEEN HERE AND WILL RECEIVE TODAY

T. K. K. Co's MAGNIFICENT NEW S. S. TENYO MARU, CAPTAIN GOING, ARRIVES 8 DAYS AND 5 HOURS FROM YOKOHAMA. ANNOUNCING APPROACH BY WIRELESS AND TALKING WITH THE BATTLESHIPS—OPEN FOR INSPECTION THIS AFTERNOON.

Eight days and five hours from Yokohama, on her maiden trans-Pacific trip without a stop of her turbines or without a hitch of any kind, the Toyo Kisen Kaisha's magnificent new, fifteen-thousand-ton, triple-screw, turbine steamship Tenyo Maru, Captain Philip H. Going, commander, this morning docked at the Hackfeld wharf and landed twenty-four passengers for Honolulu and started the discharge of 700 tons of general Oriental freight.

The Tenyo announced her approach by wireless last evening to the Naval station when about 120 miles out and her operator, Mr. J. M. Owada, the great vessel's radiotelegraph director, a Tokyo expert in wireless, kept sparking all night, talking with the United States Naval station here, the U. S. cruiser St. Louis, in the harbor, Barber's Point station of the Wireless Telegraph Company, the Matson Navigation S. S. Company's Lurline, in this port, and the United States battleships Maine and Alabama which left here yesterday morning for Guam and home to Hampton Roads, via Suez.

The battleships were passed by the Tenyo and the Maine ethergraphed congratulations to the Tenyo on her successful maiden trip, the Tenyo wretches back a "bon voyage." At the Kahuku station the operator in charge could hear the others talking, but himself, the station lacking power as yet, could not talk back.

As the Tenyo was gliding to the wharf this morning, where hundreds were on hand to meet her, Mr. Owada was talking with the operator on the St. Louis, exchanging news of the world and receiving compliments on the Japanese boat's passage.

The wireless system used aboard the Tenyo is that in use by the Department of Communication of the Imperial Japanese Government and her operator, as are other Japanese officers of the Tenyo, is a naval reserve man. The system used was invented by Messrs. Okuka Asano and M. Saito, engineers of the Department of Communication, I. J. G. Mr. Asano represented the Japanese Department of Communication at the International Wireless Telegraph Conference at Berlin two years ago.

The Tenyo has a system installed which will convey messages about 150 miles. It is a one-kilowatt plant.

The passengers, up to 120 miles out, sent messages ashore to Tokyo, Yokohama and other Japanese ports, receiving answers. On the next trip of the Tenyo a daily wireless paper will be

published, or rather the paper printed aboard will contain wireless news of the world as long as the vessel is in touch by ether. When the long-distance station at Kahuku, this island, is complete, the Tenyo will be able to keep in touch with the world continuously.

Seventy-five cents is charged for messages of five words, each additional word being fifteen cents.

Chief Engineer Seaver of the Tenyo is indeed satisfied with the behavior of the big turbine on the way over. He was ordered from headquarters to keep her on an average of 17 knots.

During the best day's run, when 426 knots were logged in 23 hours and 25 minutes, the average for the period was about 18.62 knots per hour.

Captain Going is justly proud of his immense and magnificent charge.

Her purser is G. Lucy Goodrich, the man with the right name for the ship, who is as well known and as popular in this city as he is with the travelers across the Pacific. Freight Clerk A. S. Edwards is another much liked man, known here, and other officers are: Chief Officer H. Hinokuma, long with the company and a splendid officer; Chief Engineer A. H. Seaver, than whom it would be difficult to find a more careful or better trained man in all the oceans; Surgeon N. P. Crooks, who is also librarian, and Assistant Freight Clerk W. R. Reid.

Mrs. Kirkpatrick, formerly of the Hongkong Maru, is Chief Stewardess.

Taking the place of those disembarking here, the Tenyo Maru will take on about a score of stop-over passengers hence to San Francisco. She will therefore have 158 cabin passengers to land on the coast. For Honolulu she brought 99 Japanese, one Chinese and 14 Hindus, steerage. She found one stowaway aboard after leaving Yokohama.

This afternoon there will be a grand reception aboard the Tenyo, when the ship will be thrown open to the Honolulu public for inspection between 1 and 5 o'clock. The Hawaiian band will give a concert and Hawaiian stringed instruments will also take part. The reception given at Yokohama was a stupendous affair and for a day the vessel was alive with thousands who swarmed over her. Black hands were painted on the partitions throughout the ship, pointing out the route through the vessel that should be taken by visitors in order that they might not lose their way and to keep the crowd from running into itself.

GREETING FROM AUSTRALASIA

THE IMMIGRATION LEAGUE OF AUSTRALASIA SENDS A MESSAGE OF REJOICING AT THE COMING VISIT OF THE AMERICAN FLEET—WILL BE FIRST MEETING OF TWO PEOPLES FROM SAME GRAND OLD STOCK.

The Immigration League of Australasia, Bull's Chambers, 14 Moore street, Sydney, May 29, 1908.

Sir.—A letter published by you some time ago from this voluntary organization of citizens, who are actuated by feelings of good will and friendship towards America, has resulted in such a stream of letters expressing great sympathy with this small attempt to make Americans and Australasians more known to one another, that it will take some time to answer them all, therefore, Sir, permit me to reply, in the first place, through the columns of your widely read journal.

Our previous letter was to say how glad we were to hear that our invitation for your fleet to visit us was received by you with such feelings of pleasure.

Now we have the satisfaction of knowing that your great fleet is actually coming and will arrive on our coasts in August.

It will be a great day for Australia. It will be the first meeting of two peoples sprung in the main from the same grand old stock, and representing countries where the same language is spoken, where religious toleration and liberty of speech are the right of everyone, and where all men are equal.

It seems impossible that people with so much in common, origin, birth, speech, freedom of thought in all matters, can mingle without being drawn to one another.

And in addition to all these known interests of years standing, does not the fact stand out clear cut and final that we are both bordering on that Pacific Ocean, which only a short time back was a silent lake, but is now habitable to be turned at any moment into a sea of carnage and slaughter by the sudden uprise of an oriental power. Australia has spoken strongly on this Asiatic question. She won't have them in her territory at any price.

The Pacific slopes of Canada have

There will, of course, be no such crush here, but there will, nevertheless, be a great gathering. Kaul's Glee Club will play and there will be refreshments. Then the visitors will have an opportunity of roaming through luxurious parlors, saloons, lounging rooms, retreats, bridal and party suites, reception and smoking rooms and dining and social halls, great rooms where birdseye maple, silk, stained glass, German silver, crystal, satin, oak, Brunsels and other rich materials are the furnishings, where the feet sink silent in the heaviness of the carpets and where the body longs to sample every sofa, couch, pillow, lounge and tapestry, such charm is there in the tissue and the fabric, in the color scheme and the luxury of it all.

All the esthetic elegance of Orient and Occident are blended in the artistic murals, panels and furnishings. But the public may see for itself this afternoon. To describe it all would be to upset Aladdin's lamp and set a dreamland ablaze.

She sails at 3 o'clock tomorrow afternoon.

spoken equally strongly. And we know the feelings of the great American Republic. Let the English speaking peoples bordering on the Pacific bear these things in mind, and they will see that apart from all other considerations, this great question of reserving for themselves the right to say who shall enter their territories and who shall not, must tend to draw them closer together.

Your fleet will be the most impressive array of the modern fighting machine that Australia has ever seen.

We trust that in addition to binding the peoples together, one great result of the visit will be to fill the minds of Australasians with a desire to go and do likewise and have a navy of their own.

Finally, we hear that thousands of American farmers are crossing into Canada and we feel that we would like some of them to come to Australia instead. We have the finest climate in the world, where men can work and stock graze in the open all the year round. We have fertile lands awaiting the plough, we have country for dairying and fruit-growing that cannot be beaten. And Australia is the great mineral country. There is gold, silver, copper, lead and tin everywhere, and our mineral wealth has only been scratched. There are abundant opportunities both for the capitalist and the prospector.

Again, since we have gone in for high tariff, there is plenty of room for the enterprising manufacturer, and American business men should look closely to the chances for starting new industries in this continent.

Again reminding you that the Immigration League of Australasia, 14 Moore street, Sydney, will be always glad to hear from American citizens and supply more detailed information about Australia and New Zealand.

I am, etc.

VENOUR NATHAN,
Hon. Secretary.

CHAIRMEN MAY TALK

THE HOOKUP TO THE FLEET WILL BE HELD MONDAY AFTER ARRIVAL.

The executive committee and some of the chairmen of the different sub-committees met this afternoon in the rooms of the Chamber of Commerce, those present being G. R. Carter, L. T. Peck, G. W. Smith, J. P. Cooke, J. F. Morgan, F. L. Waldron, J. A. McCandless, H. P. Wood, W. F. Dillingham, Alexander Young, W. C. Woodon, J. W. Jones.

The matter of allowing the chairmen of the sub-committees to become members of the executive committee was taken up and freely discussed, but no action except to extend a cordial reception to the chairmen at the daily meetings, with a vote but no vote, was taken today. J. P. Cooke, who had made the motion to admit them, withdrew his motion.

W. F. Dillingham for the committee reported that his committee was working hard to complete the work before it, and that they intended to have the hookup on the Monday after the fleet arrived.

July 16 and 24 were appointed the days for the display of fire works. The Aloha postal card was adopted, and the sum of \$110 was appropriated for the printing of 20,000 of them.

The chairman was asked to interview Captain Ross relative to the

TWO DUTCH SLOOPS WILLENSTAD, Island of Curacao, June 15.—Two Dutch sloops, the Marion and the Carmita, plying between Aruba, a Dutch island near the coast of Venezuela, and Curacao, have been detained by a Venezuelan coast guard vessel on the high seas off La Vela de Coro, a seaport of the Gulf of Coro. The sloops were stopped by shots from the Venezuelan vessels and all letters outside of mail bags were retained. It is rumored that the Venezuelan consul's action in denouncing this government as being hostile to Venezuela has been approved by President Castro.

SULTAN'S TROOPS REVOLT.

TANGIER, June 15.—The details of the revolt of 4000 of the troops of Sultan Abd-El-Aziz' army at Kasr-El-Kebir have been received. The sultan's troops were going from Tangier to Rabat and upon the arrival of 100 of Mulai Hafid's horsemen the soldiers, despite the protests of their officers, mutinied and proclaimed Mulai Hafid as sultan. The officers were made prisoners.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JUNE 13, 1908.
 Honolulu, June 15, 1908.

GENERAL SUMMARY.

The mean temperatures were higher than those of the preceding week at all stations on Molokai, Kauai, and Oahu, excepting no change at Honolulu; at all on Hawaii, excepting Pepeekeo, and at all in the Koolau and Hamakualoa districts of Maui, with no change in the Hana district. The excesses at the majority of stations on Hawaii ranged from 1.0 deg. to 2.3 deg. There was but one station on each of Maui, Oahu and Molokai, where the excess equaled or slightly exceeded 1.0 degree. The greatest deficiency at any station was 1.0 deg.

The rainfall for the week was light generally over the section. The amounts, in inches, in the several districts were: Hawaii—Kohala 1.00 to 1.14, Hamakua 0.21 and 0.22, Hilo 1.28 to 2.44 in the central and southern portions and 0.69 to 0.89 in the northern portion, Puna 1.73, Kau 0.00 to 0.19 in the easter ad 1.85 in the southern portions, and Kona 1.22 to 1.30, excepting 0.04 in the extreme northwestern portion; Maui—Koolau 1.76 to 1.89, in the Hamakualoa, Hana and Hamakualopoko 0.36 to 0.94, and 0.00 to trace in the remaining districts; Oahu—Koolauloa 0.17, Koolaulopoko 0.31 to 0.49, excepting 0.00 in the extreme southern portion, Honolulu 0.01 at the lower altitudes and Ewa 0.01; Kauai—Koolau 0.67, Puna 0.16 to 0.33, and Kona 0.18 to 0.71, excepting 0.00 at Elele; and Molokai 0.34 in the southeastern portion, and 0.00 in the west-central part.

More rain is still greatly needed in some portions of the several islands.

At stations having a record of ten or more years the total rainfall was below the average for the week at all stations on Oahu, at all but

"IN THE PRESENCE OF MORE THAN TEN THOUSAND, I NOMINATE FOR THE PRESIDENCY THAT PERFECT TYPE OF AMERICAN MANHOOD, THAT PEERLESS REPRESENTATIVE OF THE NOBLEST IDEALS IN OUR NATIONAL LIFE, WILLIAM H. TAFT, OF OHIO."

Representative Theodore E. Burton, once which calls for the earnest attention and condemnation of every man who truly loves the Republic.

Against all these abuses and in the work for restoring old ideals of honesty and equality, as well as for higher standards of civic duty, one man has stood preeminent, and that man is Theodore Roosevelt. Against corruption in every form he has set his face with grim determination, prompt and fearless in action and with that intelligent leadership which has assured the establishment of a better era in which the strong and the weak alike must submit themselves to the impartial execution of the law. There was need of a strong, courageous spirit to restrain those destructive forces which have asserted themselves in this time of growth and plenty. The story of his achievements will make up one of the brightest pages in the history of this or any age and will prove that today, as in any critical hour of social unrest or of danger, the man will appear who can grapple with the emergency.

THE PLACE APPROPRIATE.
It is especially appropriate that this gathering should be held in this marvelous city of Chicago, whence the steel bands of commerce reach out in every direction, over plain and river and mountain, to almost boundless distance, bringing the richest treasures of a continent to lay them at your feet. Here it was that the righteous uprising against slavery and Bourbonism, sprung from the nation's conscience, raised its first triumphant voice when Abraham Lincoln was nominated. And here, again, with notes of thunderous acclaim, enraptured throngs greeted the naming of Garfield, of Blaine, of Harrison, and of Roosevelt.

OHIO'S MAN.
Again Ohio presents a candidate to the National Republican Convention. In seven stubbornly contested presidential campaigns, sons of her sacred soil have led the embattled Republican hosts to victory. The Buckeye State has assuredly contributed her share of statesmen and generals for the upbuilding of the Nation. But that of which we are prouder still is her stalwart citizenship—the mightiest bulwark of the Republic in every commonwealth—made up of America's free yeomen, ever ready to respond to the tocsin of alarm in days of peril, or to crush corruption when ever it raises its menacing head. From this citizenship Ohio, in the supreme emergency of the Civil War, sent forth more than two hundred thousand soldiers for our country's defense, a formidable array easily surpassing in numbers the world-conquering legions of imperial Caesar, and even larger than any army ever mustered by Britain for the tented field. But transcendent above all is the fact that Ohio is one of a matchless union of States linked together in everlasting bonds of amity and constituting an empire wonderful in power and almost immeasurable in extent. Each sovereign State alone would occupy but a subordinate place in the great current of the world's events, but when represented by one of forty-six bright stars on a field of stainless blue, every one forms part of an emblem of union and of strength more beautiful far than the most brilliant constellation in the heavens.

His Eminent Preparation.
No one has ever yet assumed the presidential chair who had received a more ideal preparation for the duties of that great office. As Judge in State and Federal courts, as Solicitor General, as Governor of the Philippines, as Secretary of War, which has included the work of Colonial Secretary and Director of National Public Works, he has received his training and has always shown himself master of the situation and competent to make more honorable and beloved the American name. There have been no years of inaction in his career. He has been continuously engaged in weighty tasks and each successive service has been characterized by an increasing influence upon most vital questions.

THE ROOSEVELT IDEALS.
The most perplexing questions of today arise from the bountiful development of our material wealth. Such a development can not occur without the creation of inequalities and dangers to the social fabric. The most strenuously deny that the American business man or the American citizen cherishes lower standards than the citizens of any other country. The American people are by no means depraved. But by reason of their busy absorption in varied pursuits and of the glamour which attends success in great undertakings, questionable methods have been able to engulf them. Rich rewards have too frequently been gained by some who are none too scrupulous. Monopoly, dishonesty and fraud have assumed a prominence

recognize his severity in dealing with wrongdoing. While no honest enterprise need fear him, no dishonest scheme could hope to hide its face from the light or to escape punishment.

SKILL AS PACIFICATOR.

More than any other of our public men he has had to do with our outlying dependencies and colonial relations. It was he who took in charge the prosecution of that colossal enterprise on the Isthmus, the canal uniting the lesser and the greater oceans, and under his directing hand the completion of this most stupendous of public works is no longer a vague and distant hope, but an imminent reality. With his ever-ready skill as a pacificator, he restored tranquility in the fertile Island of Cuba, so often distracted by civil strife. In the far-off Philippines, under a blazing tropical sky, he found a people of many races and tribes, degraded by centuries of misrule and oppression; and there too he not only established the rule of law and local control in place of confusion and bloody strife, but showed the way to self-government, and a new recognition of the rights of man. For people and races, like individuals, under the inspiration of a friendly guide, may lift their faces heavenward and seek to climb the great world's altar stairs to nobler heights of liberty and opportunity. It is to his lasting honor that his desire was not to be known as "Taft, the Pro-Consul," but as "Taft, the Father of the Philippines," who brought to them the light of modern civilization.

FAMILIAR WITH ORIENT.
Secretary Taft has exceptional familiarity with conditions in the distant Orient—in Japan, in China. We may rest assured that our traditional friendship with Japan will continue. Moreover, the future promises that the stumbling millions of China will awake from the lethargy of ages, and she then will realize that the morning dawn of fresher life and wider outlook comes to her across the broad Pacific from free America, her true friend and helper. We covet no portion of her territory. We desire from her, as from all nations, increased good will and that mutual respect which knows neither bluster nor cringing on either side. Thus in this new era of larger relations, Secretary Taft, with his comprehension of national and international subjects, would furnish a certainty of peace and sustained prestige. Under him, at home and everywhere, this mighty people would have an assured confidence in the secure development and progress of the country and would rest safe in the reliance that a Chief Executive was at the helm who, in peace or in war, would guide the destinies of the nation with a strong hand and with a gentle, patriotic heart.

And so today, in the presence of more than ten thousand and with the inspiring thought of the well-nigh ten thousand times ten thousand who dwell within our borders, I nominate for the presidency that perfect type of American manhood, that peerless representative of the noblest ideals in our national life, William H. Taft, of Ohio.

Why 'VUDOR' PORCH SHADES Are Needed

You need Vudor Porch Shades to get the most out of your porch.
To make it a spot where you can rest or work on the hottest days—outdoors, yet free from the sun's glare and heat.

You can do this with Vudor Porch Shades; you can add to the house another room, cool and shady, where you may enjoy every refreshing breeze, in secluded comfort.

Vudor Porch Shades are very durable, and will last many seasons. Another good feature about them is the peculiar fact that those sitting on the porch can see out, but passersby cannot see in. In other words, you have complete privacy, and can use the porch or veranda the same as an inside room, with infinitely more comfort on hot days.

Vudor Porch Shades are just the thing for "boxing in" porches or balconies that are to be used as outdoor sleeping or living apartments.

Vudor Porch Shades are made of thin, flat strips of Linden Wood, closely bound by strong Seine Twine, in a lock-stitch weave.

They are artistically stained in soft, pleasing colors. These colors are

weather-proof, and will not fade or crack off.
The shades can be instantly raised, or lowered (operating on the principle of a theatre curtain) and are easily and readily put up.

HUGHES A STAYER.

Governor Hughes, the latest mail news of the convention prior to the nomination shows, cuddled the Presidential bee in his bonnet to the very last desperate moment. Evidently the great man, for undoubtedly he is a great man, had been spoiled temporarily by all the encomium and eulogy heaped upon his head by the magazines and newspapers for the past six months, as well as the large degree of expectation abroad on his behalf since he announced or admitted his candidacy. He carried his persistency in standing to be placed in nomination to the extent of readiness to sacrifice New York's claim on second place if anyone else but he were nominated for first. Congressman Parsons sent a pointed telegram to him on June 15, three days before the nomination, saying in part:

Every one concedes that Taft's nomination on the first ballot is a certainty. We desire to know when the state delegation meets at 11 o'clock tomorrow what your decision is, so that the New York county delegates can discharge their duty to their constituents. In loyalty to your presidential candidacy we naturally decline to urge any New Yorkers for vice president, despite requests from other states. Your decision about the presidency therefore directly affects crystallization of sentiment upon a New York candidate for vice president, except that we have reluctantly felt compelled to assured delegates that your determination not to accept it yourself is irrevocable.

Governor Hughes reply was short but conclusive, being:

Your telegram received. My position in regard to the presidential nomination remains the same. After careful consideration of all circumstances, I do not find that any such exigency exists as would justify me in deciding the withdrawal of my name. CHARLES E. HUGHES.

An illustration of the prevalence of the divorce habit is found in the case of the late Oliver Belmont, the retired capitalist. His widow was the divorced wife of the elder W. K. Vanderbilt and mother of W. K. Vanderbilt Jr. and Harold Vanderbilt. At his death his first wife was Mrs. George Rives.

The Star presents its readers today with the speech of Representative Burton of Ohio in nominating Secretary Taft for President of the United States. Had the advance copy furnished to this paper by the Associated Press come in time, the speech would have appeared along with the cabled report of the nomination on Thursday last. It contains an eloquent summing up of the qualifications of Mr. Taft for the Presidency.

An article reprinted in this issue from Shipping Illustrated of New York, on the coastwise law suspension bill of Delegate Kalaniana'ole, is striking in more than one respect. In the first place for the vigor with which the principle of the bill is maintained and the attitude of its opponents denounced. Secondly, the article is very remarkable from its source, an influential organ of American shipping interests. This, however, but adds to the force of the gratifying fact, to which the article itself calls attention, that the bill had no more earnest advocates in the House than such champions of American shipping as Littlefield of Maine and others.

While some of Mr. Osborne's views on the automobile are open to discussion, there ought to be only one mind of the community in agreeing to his plea for dustless roads. How a consummation so devoutly to be wished can be attained is a matter for technical discussion, but there should be no delay on the part of the authorities in tackling the problem. Besides the ill effects of the diffusion of dust, which is worse from automobiles than any other kind of vehicle, mentioned by our correspondent there is not the least doubt that to this cause a great deal of the frequent epidemics of bronchial, thoracic and nasal disorders must be attributed.

Many valuable discoveries have been born of accident. That accident sometimes corrects the errors of designers is exemplified in the case of the Cunard steamer Mauretania's breaking two ocean records at the first of this month. When she left on that voyage to New York it was reported that one of her four propellers was disabled. Nevertheless on the trip the Mauretania maintained an average speed of 24.85 knots and made a new westward record for one day of 635 knots. The London Daily Express of June 10 stated that thenceforth the Mauretania would be a three-propeller vessel, her then latest voyage having proved that the turbine engines run better with three than with four propellers.

People who bestow flowers on favorites or friends at entertainments or school commencements ought to be careful in fastening their cards upon the favors. At least until the average boy learns the trick of properly handling (handing as friend A. M. P. would add parenthetically) delicate packages. Attempts to suppress the news of serious accidents which are frequently made in Honolulu are anything but creditable to their authors. The public has a right to expect the facts of any misadventure happening to a member of the community, more especially when it occurs to one lawfully enjoying the use of the public highway. Newspapers are jeered at for "getting things wrong," yet have to fight with ordinarily good citizens to get things right. Even hospital authorities and physicians occasionally join the "conspiracy of silence" which ought only to be expected of burglars, bank wreckers and other enemies of society. As a rule, though, be it said the Honolulu doctors are exceedingly polite, often in self-sacrificing degree, in responding to requests from the press for information regarding the victims of accident, as well as of illness, under their care. Another reason why the facts of accidents should be readily given to the press by those in best position so to do is that, here in Honolulu at least, the press is most considerate of private feelings and always ready to consider reasonable grounds for withholding publicity of a matter. Scarcely a day passes, indeed, that the newspaperman does not voluntarily ignore accidents that have no serious aspects, especially where it is evident that nobody is to blame. This paper the other day cordially granted a request to make no mention of an automobile accident shown to have been clearly unavoidable, in which there was no speeding, nobody was hurt except by slight shock and the automobilist was obeying an urgent call of humanity. When a woman is run over—or a man for that matter—and the result is rumored to be probably or possibly fatal, the case is very different.

GIRL ATHLETE A FINE JUMPER

CHICAGO MISS BEATS THE RECORD—PROMISES TO DO MUCH BETTER.

CHICAGO, June 6.—Armour Square has a young girl on its track team who bids fair to become one of the most remarkable girl athletes the country has ever seen. Miss Teresa Fitzgerald, who is only 15 years of age, has a mark of 4 feet 7 inches in the high jump, which is an inch and a half higher than the world's mark claimed by a student of Ypsilanti Normal.

In the track meet held recently at the Michigan town Miss Della Colvin of Pontiac, Mich., went 4 feet 5 1/2 inches, and this was said to be a record.

Last season, however, in this city, Miss Fitzgerald bettered that height by an inch and a half, and can top it already this year without training. The remarkable feature of Miss Fitzgerald's performance lies in the fact that she is only 5 feet 3 inches in height. Miss Colvin of Ypsilanti Normal is nine inches taller.

Miss Fitzgerald goes over the bar like a man, and in jumping form resembles Irving K. Baxter, former inter-collegiate champion.

A POINT OF VANTAGE.

"Of course, the railways owe the public a great deal," said Mr. Dustin Stax; "but you must also remember that the public is indebted to the railways."

"Yes," answered the critical citizen; "but the railways are in a position to collect."—Washington Star.

FREAK NAMES FOR DANCE FIGURES

CHICAGO CONVENTION LEARNS OF SOME STRANGE COTILLON IDEAS.

CHICAGO, June 8.—"Clean hall." That's not a tip for a bouncer to get busy. Not at all. It's the name of a chaste and elegant new cotillon figure. This is only one of a bunch of strenuous terpsichorean ideas which are creating a flutter among delegates to the twenty-fifth annual convention of the American National Association of Masters of Dancing, which began today.

"Stung" is the title of another charming figure. "We have Hooks" is the label of a new Delisartian maze that it is believed will throw hooks into the waits in no time.

The art of dancing has reached the Rooseveltian era, and the snare drum, bass, cymbals, cricket and sand shuffle promise to rule the wax floors of America next year.

Rather more soothing numbers will be the "Battle of Flowers," "Tete-a-Tete" and the "Kaleidoscope."

PAYMENT OF WATER RATES.

As provided for in Chapter 45 of the Revised Laws of Hawaii, 1905, all persons holding water privileges or those paying water rates are hereby notified that the water rates for the Six (6) months ending December 31, 1908, will be due and payable on the First day of July, 1908.

On all such rates remaining unpaid on July 15, 1908, an additional charge of 10 per cent. will be made.

All privileges upon which rates remain unpaid on August 15, 1908, are subject to immediate shut off without further notice.

Rates are payable at the office of the HONOLULU WATER WORKS, Capitol Building.

AUTOMOBILE EVILS

Honolulu, June 23, 1908.

EDITOR STAR:—The automobile may be an exigency of the times, nevertheless when we consider the smell, smoke, noise, speed and its dust and mud distributing capacity, and death dealing power, we have to admit no greater, or more objectionable equipment was ever devised by man. And it's a fact, that they are fast destroying the beauty of this city, as well as the pleasure of living here. But they are here, and doubtless have come to stay; though our flowers, trees, houses and ourselves are to be covered with dust an inch thick.

But is there no way to prevent this unpleasantness? In California, I understand, to overcome this evil they make dustless roads, which entirely overcome this trouble. And if dustless roads can be made there why not here? Indeed, I think we should make an effort to do this at whatever cost.

As to the cost I believe as these machines are, among other things, great road destroyers, they should be taxed accordingly. That is, if they destroy a road a hundred times more than a carriage then they should pay a hundred times more taxes. For with the exception of narrow wheel dray or truck, which ought to be ruled off our roads, nothing can equal the automobile for destroying roads. And if this cannot be done, I believe it were better to increase the taxes, objectionable as that may be, then to have to endure the present state of things. For is it not a shame that this beautiful city, the boast of the Pacific, should be spoiled in this way, when at no great cost it could be prevented?

One word about the speed limit. I want to say it's my opinion that a speed of fifteen miles an hour is entirely too fast for these machines to run in the most populous parts of the city, say on Fort street and nearby streets, whatever it may be for the outside streets.

Very truly,
GEORGE OSBORNE.

WRONGLY BLAMED

A strange mixture of facts was indulged in, according to Attorney Frank Thompson, in charging him with having run into a hack while driving his automobile last night. In the first place the lawyer was not driving in his own machine, but was riding in a machine which he had hired. Secondly, the machine did not run into the hack at all but when two blocks away from the horse it was seen that the animal was frightened at something and had run up on the sidewalk. The machine went past and did not come anywhere near touching the horse or vehicle, and after this the animal threw itself.

BARTNETT'S PLAN TO BETRAY GOULD

PROPOSED TO SELL W. P. STOCK TO HARRIMAN IS TESTIMONY OF BROWN.

SAN FRANCISCO, June 16.—That Walter J. Barnett, accused of the embezzlement of the Colton securities from the vaults of the California safe deposit and trust company, was a traitor to the extent of planning to deliver a partial control of the Western Pacific Railroad into the hands of E. H. Harriman to save himself from prosecution was the sensational testimony brought out during the progress of his trial yesterday.

J. Dalzell Brown in closing his direct testimony declared that his former colleague proposed to him after the failure of the California safe deposit and trust company to sell 8,000 or 9,000 shares of Western Pacific stock to Harriman and through this means to secure enough money to replace the Colton estate securities which had been stolen before their loss was discovered. Brown was prohibited from testifying in detail concerning the progress of the plans to dispose of this stock, but enough was told to make it plain that such a deal probably would have been consummated but for the sudden arrest of the principals.

DECLINES MONEY

A very peculiar suit in equity was filed in the Circuit Court this morning by Goo Hoy vs. Charles Lucas. It appears that the plaintiff borrowed certain money from Lucas some time ago, giving a mortgage as security. He wishes to pay the debt, now standing at \$546.81, and have the mortgage released, but Lucas would rather have the mortgage than the money and refuses to give a release. The suit is brought asking that the court force Lucas to take the money due him and release the mortgage.

From a Paris newspaper is taken the following conversation in a police court: The president, addressing the prisoner, said sternly, "It appears from your record that you have been thirty-seven times previously convicted." To which the prisoner answered sententiously, "Man is not perfect."

The Hawaiian band played, there were hundreds of people on the wharf and the usual demonstration forthcame.

The Best Cough Drops Are Drops of Ayer's Cherry Pectoral.

Sixty years ago physicians first used Ayer's Cherry Pectoral, and ever since then it has been the standard cough remedy all over the world. Thousands of families, in Europe, Asia, Africa, and America, keep a bottle of it in the house ready for an emergency.

Ayer's Cherry Pectoral controls the spasmodic efforts of coughing, relieves the congestion in the throat, quiets the inflammation in the bronchial tubes, and prevents the lungs from becoming involved. There are many substitutes and imitations. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind. Put up in large and small bottles.

Edward Rice relates that when Herr von Bulow was in Boston Napier Lowthion, musical director at the Boston theater, introduced him, saying: "Herr von Bulow, this is Mr. Rice, a Boston man, who knows nothing about music whatever, but who has written two operas." "So?" said von Bulow, interrogatively. "We had also in Europe a shentiman vat knows nothing about music, and had written already plenty operas—Mozart Verdi."

According to news received in the Coast files yesterday, it is doubtful if the yawl Gwendolyn II will be entered in the coming transpacific yacht race which starts on July 1 from San Pedro. News also was received that it was very uncertain if Lady Maud would be entered as the necessary money to place her in commission was not forthcoming.

At the present time it looks very doubtful if there will be any more boxing matches until the fleet arrives. Jack Scully in talking about it yesterday remarked that he did not think that he would be able to have any matches on July 4 as there were no men available who were good enough to be billed for a main event.

Hon. S. M. Damon, who has done so much for the community in providing them all kinds of sport at Moanalua, is having constructed around the golf links a turf road which will be used as a bridle path for the use of equestrians. When it is completed it will be a little over a mile and a half long, and the many people who ride will be able to have a place where they can gallop to their heart's content.

The regular weekly shoot of the Hawaiian Gun Club will be held tomorrow afternoon on the Kakaako traps at five o'clock.

The different owners of first-class yachts are looking forward to the race next Sunday for the Beckley Cup on the outside course. The only thing that they hope for is a clear day with plenty of wind. Nearly every yacht will carry a number of friends on board as guests, and a jolly day is looked forward to. The race will start at ten o'clock sharp and with any sort of luck the winning yacht should finish not later than four o'clock.

There will be plenty of sport next Sunday all over town, and large crowds are expected to be on hand at all of the ball games.

The Chinese Aloha Club will give a large dance on the eve of July 4 at K. of P. hall, at which time one of the fairest crowns of the year is expected to be on hand. Instead of being a "huff times" dance it will be a good time dance.

The baseball games next Saturday afternoon at the league grounds ought to be worth going a long way to see, as the most interesting games of the

season are scheduled to be played. The Kams and the Saints will line up in the first game, while the second will be between the Heads and the White Sox. To pick the winner in both games is a very hard thing to do, but if form and past performances count for anything, the Heads and the Saints should be returned the winners. All four teams realize that they will have to play very fast ball to win, but they will be ready to do that, as practice will be the order of events every afternoon this week, and when they go on the field Saturday the public will no doubt be treated to first class ball. The championship of the first series will be in doubt until after the close of Saturday's games, and each team realizes that they will have to play good ball to win out.

Makaala and Welakaha will meet on Thursday afternoon at Kapiolani Park in a quarter of a mile race. This is the last race that Makaala will be seen in until fleet week, as Maui will have a chance to see this fast horse in action on the 4th of July and other days.

If enough men can be persuaded to turn out on Saturday afternoon at Makiki field, a game of cricket will be played.

The game on Sunday afternoon at the league grounds between the Paradise and Mercantile teams in the Newspaper League ought to be very close and interesting, as the result of this game will make a good deal of difference in the race for the championship of the league.

Advices from Savannah state that preparations have gone so far for the Grand Prize race of the Automobile Club of America as to prove that the event will be held on the twenty-eight-mile course, which is to be made ready at once. The city authorities and the Automobile Club will at once start preparations for the event, and ten miles of roadway will be constructed. The people of Savannah are wildly enthusiastic about the matter, and the hospitality of the Savannahians is being demonstrated by their ready acknowledgment of the suggestion that every possible room in the city be placed at the disposal of the visitors. According to men who are on the inside, it will be possible to care for over 25,000 people without any trouble. Among the foreign cars that have promised one or more entries are the Isotta, Panhard and Benz.

SEOUL GOVERNOR CHARGES SEDITION

BRITISH SUBJECT IS PROSECUTED BY JAPANESE FOR INCITING REVOLT IN KOREA.

SEOUL, June 15.—Y. Miura, the Japanese resident governor of Seoul, appeared as the prosecutor of E. T. Bethel, a British subject, in a British court appointed under order of the privy council. Bethel is charged with spreading sedition by the medium of a newspaper published in the Korean vernacular, and of which he is the proprietor.

The court consists of Judge F. St. Bourne and Prosecuting Attorney M. Wilkinson, both of whom were specially sent from Shanghai by the British government at the suggestion of Ambassador McDonald at Tokyo.

The prosecution said that it would prove that the publications in Bethel's vernacular newspaper were largely responsible for all the disturbances in Korea. M. Miura asserted that the Korean government exists only subject to the direction of Japan. He further said that he believed that there were 20,000 troops now in Korea and that half the country was disturbed. Consequently the publications were creating a false impression regarding the real intentions of the Japanese government, increasing the difficulties of that nation and causing much bloodshed.

C. M. Cross, a lawyer from Kobe, who is defending Bethel, asked for a jury trial, while Judge St. Bourne refused. Cross contended that no Japanese control existed over Korea, that the Korean emperor was supreme in domestic affairs, and that therefore Governor Miura could not prosecute Bethel. The first day of the trial was taken up with both opening statements of the case.

FRENCHMEN EAT COMRADE'S FLESH

AWFUL FATE OF A PARISIAN HUNTING PARTY IN THE CANADIAN WILDS.

MONTREAL, Que., June 15.—Last September Joseph Gussel and A. M. Bernard of Paris, France, arrived in Montreal, and after spending some days there went to Quebec and announced their intention of going on a hunting trip northwest of Lake St. John, 200 miles up country. They engaged the services of August T. Lemieux, a well known hunting guide of Mississauga, Lake John.

That the three lives were lost in the far north of Quebec and that two of the men ate portions of the third, while one of the two remaining partially devoured his companion and later died himself, appears from information in possession of the authorities. The partial remains of two of the men have been found, and the provincial detective department has officially announced that it has given up further efforts to find the third man, believing that he perished months ago.

Senate Changes At Next Term

TERMS OF THIRTY-ONE EXPIRE AND SEVERAL WILL FAIL OF RE-ELECTION—PLATT AND TELLER WILL NOT TRY FOR WHAT WOULD BE HOPELESS ANYWAY—FORAKER HAS TO RECKON WITH OFFENDED TAFT FORCES.

(Star Mail Correspondence.)

WASHINGTON, D. C., June 12.—Several familiar figures will drop out of the United States Senate after the next short session, for on March 4, 1909, the terms of 31 Senators expire, and several among this number will not be re-elected. There are others among them very much in doubt. Senator Platt of New York, Senator Teller of Colorado and Senator Stephenson of Wisconsin are not candidates for re-election; neither Platt nor Teller could be re-elected if they were candidates. Senator Fulton of Oregon was defeated at the primary election in his state, and were it not for the fact that Gov. Chamberlain, democrat, had received the popular vote on June 1, Fulton would be in the list of those sure to retire.

In addition to these men are Foraker of Ohio, Ankey of Washington, Hansbrough of North Dakota, Kittredge of South Dakota, Newlands of Nevada and Smoot of Utah all in more or less dire straits, and all likely to be left at home, though all have a fighting chance. Teller of Colorado will be succeeded by a republican, but this republican gain would be offset by the election of Chamberlain in Oregon, if the program mapped out by the primary outfit in that state is carried through. In the other cases cited, except in Nevada, it is probable that seats now held by republicans will be filled by republicans, and those filled by democrats will continue to be held by men of that party. Therefore there is little prospect that the complexion of the Senate will be changed one year hence, certainly not more than one or two votes.

PLATT IS DONE.
Tom Platt has long been in the down and out class. His faction is no longer powerful in New York, and the probabilities are that his seat will be filled by some man who is capable of performing the duties of Senator in an honorable manner. Platt himself is not physically capable of properly filling his office, and his retention in the Senate is a discredit to his state and to the Senate as well.

Senator Teller of Colorado has outlived his usefulness as a public official, and it is natural that he should, for he is fast approaching the four score milestone. In the Senate he is a misfit. For the past few years he has felt it his duty to scold the Senate on every possible occasion, and he has never allowed an opportunity to slip by. Teller is of the past; he is out of touch with the times, but, more than all else, his party has lost control of Colorado. Having had long political experience, he had the good judgment to announce that he would not be a candidate for re-election. He will be missed, because the Senate has come to look forward to his scoldings as a regular part of every day's proceedings; but aside from this his absence will not be noted. Teller, in his day, was a good old statesman, but "he's done broken down." Since the acquisition of the Philippine Islands, he has never been able to see anything but damnation overtaking the country.

The successor to the brilliant Spooner of Wisconsin, Senator Isaac Stephenson, announced that he wanted but the one short term in the Senate. Therefore, his retirement is looked for.

FORAKER'S NEMESIS.
The Taft people have determined to retire Joseph Benson Foraker from the United States Senate, and if possible annihilate his faction in Ohio. For a time it had been decided not to oppose Foraker for re-election, but this determination was based on Foraker's promise to "be good." Foraker simply cannot be good for any length of time, but periodically breaks forth in an attack upon Taft. That is why the Taft people have determined to punish him good and plenty. The only way to make him feel their strength is to prevent his re-election to the Senate, and from the way the Taft people have gained control of everything else they wanted, the prospect is rather favorable to their control of the Ohio legislature. If so, it will be exit "Firearm Joe."

THE DAKOTAS.
The reform wave struck no part of the country harder than it did the two Dakotas. Those states are most enthusiastic supporters of the policies of the present administration. In consequence, the old machines, which

HAWAII'S HURTFUL HANDICAP

(Shipping Illustrated, New York, June 6.)

It seems almost incredible in this enlightened age that the United States should have a law on its statute books that says to its citizens and others: "If you take passage on any steamer other than one flying the American flag, you must pay a fine of \$200." Especially is this law outrageous when it is impossible to take passage on an American steamer. Such a law does exist, as well as the condition referred to, as regards the passenger traffic between the Hawaiian Islands and the United States. This law became operative when Hawaii voluntarily became a part of the United States, that territory then coming under the provisions of the statutes enacted for the "protection of coastwise shipping." The matter was the subject of a spirited debate in the House of Representatives on May 23, and a bill seeking not to remedy but to ameliorate the rank injustice caused by the present law was passed in the House by a vote of 163 to 45. Whether or not it will become law remains to be seen. This bill, to put it briefly, provides that for the next six years passengers can travel between the ports of Hawaiian Territory and the ports of the United States without incurring the \$200 penalty, the act, however, ceasing to be effective when a new line of at least three American steamers has been established between Hawaii and this country. Certainly this measure is objectionable only on the score of its moderation, and it is surprising that the vote in its favor was not unanimous, but Representatives Kahn, Needham and Hayes, all of California, opposed it energetically, as if it were intended to drive every American steamer from the Northern Pacific. Their arguments also appealed to 46 of their colleagues who voted against it. On the other hand, it is particularly significant to know that strong advocates of ship subsidies like Representatives Littlefield, of Maine, and Humphrey, of Washington, together with the Hawaiian Delegate, Mr. Kalaianaoale, and Representative Webb, of North Carolina, supported it with all the vigor at their command. Representative Littlefield leading ably in the good work. It is a rousing majority.

key, whose chance of re-election is not any too good.

POSTLE SMOOT.
Senator Smoot of Utah may or may not be returned to the Senate. Some who supported him during his long fight did so with the understanding that he would not be a candidate for re-election. Others who support him did so with the understanding that Smoot, if he continued in politics, would relinquish his office as apostle of the Mormon church. Smoot is a candidate for re-election, and he has no intention of giving up the job of apostle. He would rather be apostle than Senator, but he believes he can continue to be both. Whether or not he is re-elected, depends largely upon how much of a row is raised in Utah over his alleged failure to keep faith. If the legislature is dominated by the Mormons, Smoot can probably come back, but if re-elected, he may have another contest on his hands when he reaches Washington.

DEVAUCHELLE FREE
After a very short trial before Judge Robinson yesterday Eugene Devauchelle, a former member of the police department under the present administration, was found not guilty on a charge of accepting a bribe. It was asserted by the chief witness for the prosecution that the money was given Devauchelle in Harry Juen's saloon on a Sunday. The latter was placed on the stand and swore that his saloon was not open on the day mentioned, which knocked out the case in short order. The jury was only out for a few minutes.

LYDIA E. PINKHAM

No other medicine has been so successful in relieving the suffering of women or received so many genuine testimonials as has Lydia E. Pinkham's Vegetable Compound. In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have. In the Pinkham Laboratory at Lynn, Mass., any woman any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations. Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless. The reason why Lydia E. Pinkham's Vegetable Compound is so successful is because it contains ingredients which act directly upon the feminine organism, restoring it to a healthy normal condition. Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

THE LUMLEYS SCORE SUCCESS

The New York dramatic success, "The Climbers," was presented by the Lumley-Buhler Co. last night at the Orpheum theatre, before a large and enthusiastic audience. Never before has Honolulu had the chance to see a more finished production, and if the other plays that are to be produced here during the stay of the company are as good as last night's presentation a full house will greet every change of bill.

To say which member of the cast last night was the best is impossible, as every one played in a way that can only be expected when a company is composed of finished artists who know their parts.

Between acts Harry Taylor and Miss Helen Brandon entertained the audience with vaudeville numbers

which were well received. "The Climbers" will be presented two nights more and at tomorrow matinee, on Thursday giving way to the popular drama, "Soldiers of Fortune."

The following were in the cast last night:

- Richard Sterling, Mr. Richard Buhler
- Edward Warden
- Mr. Frank E. Montgomery
- Frederick Mason, Mr. Chester Stevens
- Godesby
- Mr. Thomas Lowell
- Jenny Trotter, Mr. Elmer Ballard
- Dr. Stienert, Mr. Leo Linhard
- Jordan
- Mr. Michael Hooly
- Mrs. Blanche Sterling
- Miss Mae Keane

ZIEGLER COMMANDS

Once more C. W. Ziegler will be in command of the First Regiment of the National Guard. He was elected to the position last night at a meeting of the Regimental officers and will be commissioned as soon as Governor Frear returns from his trip to Hawaii and Maui. The election was unanimous. Colonel Ziegler has been a member of the local National Guard for many years and before that was a member of the Second Regiment of the same organization in California. He served as Lieutenant-Colonel under Colonel Jones and when the latter was made adjutant-general was elected colonel, resigning after a few days to make room for Colonel Sam Johnson.

Posse With Bloodhounds Tracks Man To Hiding Place and Killing Follows.

BAKERSFIELD, Cal., June 15.—E. F. Thornburg, awaiting trial on a charge of forgery, was shot and mortally wounded last night by Deputy Sheriff Al Tibbet while being pursued by Tibbet and Under Sheriff Baker. Thornburg had made his escape the night before from the county hospital, where he was taken because of a feigned illness, and he made his way direct to the Preston ranch, five miles distant, where his wife is staying. A posse, securing two bloodhounds, spent the afternoon in scouring the country in that vicinity and the fugitive was found in the brush about a mile from the house.

ELINOR GLYN HITS NEWSPAPER MEN

NOVELIST RESENTS PUBLICITY GIVEN HER VISIT TO DANCE HALLS OF RAWHIDE.

RENO, Nev., June 15.—Declaring that the newspapermen of the west have no regard for the tender feelings of a woman and that they send out stories that are unfit to print, Elinor Glyn, whose recent visit to the tenderloin of Rawhide gained her more notoriety, "roasts" the journalists of this state in a letter to a Reno interview. She says their tendencies are to use the "nasty" occurrences in their reports.

So shocked was Mrs. Glyn at the tendencies of newspapermen of Nevada that she used six pages to express herself. Admitting that what was said was true, Mrs. Glyn only complained of the unethical policy of the writers.

"All novelists and those who shape the world's news should stand together," Mrs. Glyn says. "There was nothing in my trip to Rawhide which merited the publicity it received. True, Mr. Baker and some of my friends took me through the dance halls and gambling houses, but what we saw did not degrade us. The scene was the same as in many large cities, though more animated. And the wagers we laid were nothing. Women do that sort of thing at Monte Carlo."

CHICAGO CONVENTION IS NO MAGNET FOR METCALF.

Secretary Will Hurry Home to Join Family in California Mountains.

WASHINGTON, June 15.—Secretary Metcalf called on the president today before leaving for California. He will not stop at Chicago for the convention. He said that he was not and would not be a candidate for the senatorship or for any other office. Secretary Metcalf probably will return about the middle of September. After visiting his home at Oakland he will join Mrs. Metcalf and son, Victor, who are in the California mountains.

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice—

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World

For the Day Just Ended—

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

The case of Mrs. Colto, charged with illicit liquor selling will come up tomorrow morning before Judge Robinson. Arrangements have been made that the defendant shall plead guilty and sentence will be suspended for 12 months. The case is an old one which was tried once before Judge Lindsay and resulted in a disagreement of the jury after a ten-day trial.

The Clangline was to land the party at Hana early this morning and a quick drive was to be made in hacks through the rubber plantations to Nahihua, where saddle horses were to be ready. There the thirty-five mile ride over the beautiful ditch trail starts. At Kalina autos will be ready to make the run to Makawao, where the party will have dinner and rest for a short time before leaving Olinda on horseback. It is expected to reach Olinda at 1 o'clock tonight. Then the trip back will be made and Wednesday will be spent at Waipuku, Kahului, Paia and the other Baldwin properties.

The party will get back to Honolulu on the Clangline, arriving at about 4 o'clock Thursday morning. The forenoon will be taken up with official business in the governor's office with the exception of a few moments which will be given up to meeting the members of the Planters' Association. The Secretary will take lunch at the University Club with the heads of the various Federal departments who are located here. At 2 p. m. Garfield will deliver an address to the members of the Chamber of Commerce and at 4:30 will witness a

dress parade at Fort Shafter. The evening will be spent at the "Hawaiian Night" given by the University club. Friday will be Pearl Harbor Day. The frogmen will leave this city at 9 o'clock and will not return till late in the day. In the evening the meeting under the auspices of the Republican Territorial Committee at Aala Park will take place, starting at 8 o'clock. After the gathering is dispersed Secretary Garfield and Gov. Frear will go to the cruiser St. Louis, spending the night on board and sailing for Kauai Saturday morning at 5 o'clock. The St. Louis will skirt around the pull side of Kauai, past Hanalei, landing the party at Waimea at 9 o'clock that afternoon. Then the Kauai people will have full charge. The St. Louis will sail for the Coast Monday morning from Waimea, coming past this city and meeting a launch which will put off to carry mail and bring in Governor Frear.

DOUBTS CONTRACT

SINGLE STATES HE IS SURPRISING IF MUNDON CAN SHOW THE DOCUMENT.

R. V. Shingle, president of the Waterhouse Trust Co., and treasurer of the Hawaiian Mahogany Co., when asked this morning if he had anything to say about the suit that is being brought against the Lumber Company by George Mundon, replied:

"All I have to say is that if Mundon has a contract in black and white, it is a great surprise to everyone connected with the company. The directors and myself are very much surprised to hear that he intends to bring suit, as I do not think it is possible that he has a contract signed by any official of the company."

FIVE INDICTMENTS

The Territorial Grand jury reported yesterday afternoon, returning five indictments, all of which were placed on the secret file. None are of any great importance. No report was made in regard to any outside matters. The present grand jury will not be discharged till August 15 when Judge Robinson will order a new venire drawn which will report for duty on the first Monday in September.

DISCREDITABLE AUTOMOBILING

An automobile accident which has caused a great deal of indignation occurred Saturday afternoon on the Walkiki road near the Roe residence. Miss Mabel Phillips, of this city, was riding on horseback when a runaway came along and hit her horse from behind. Luckily the young lady is a good horsewoman and kept control of the animal and was not thrown. The machine was occupied by two men, who did not wait for a moment to find out what damage had been done, but hurried away. The machine carried no number but is said to be a Ford of a pattern manufactured a couple of years ago.

The police were notified and came within an ace of catching the occupants of the car later in the afternoon, but just missed connections. If they can be found arrests will be made. The horse was badly cut on the left leg and will be under the charge of a veterinarian for some time.

INJURY NOT FATAL

Mrs. Gleasche, who was badly hurt in an automobile accident on King street just beyond Thomas Square yesterday, is reported to be out of danger. Drs. Hodges, Todd and Wynson held a consultation this morning and agreed that she was getting along even better than they had expected, when the character of injuries was considered. These are very painful and serious, but will not prove fatal.

MARAMA IN PORT

C-A. R. M. S. S. Marama, Captain Gibb, from Sydney, Brisbane and Fiji, this morning, at 8 o'clock, docked at the Bishop wharf with several passengers and miscellaneous freight for this port. She sails at 5 o'clock this afternoon for Vancouver and Victoria. The first few days out were rough, otherwise the vessel enjoyed splendid weather.

Madame Arral, the famous Australian singer, was among the arrivals, with her suite and six trunks. Miss Bella Bartley, who has many friends here, was another arrival.

The Marama's cargo consists of 500 carcasses of frozen mutton, five crates of frozen rabbits, 2000 bags of sulphate of ammonia, 70 cases of whiskey, 31 cases of gin, 78 cases of jam, 8 bags of grass seed and 21 packages of sundries.

SINGER ARRIVES

Bianche Arral, the world famous grand opera artist who will give a recital at the Opera House next Tuesday night, was an arriving passenger this morning in the Marama from the Colonies.

"In all my life," she says, "I have seen no place to compare with this land. As I looked this morning on the view that greeted me, I was more than glad to think I would be able to enjoy at least one month of rest in this earthly paradise.

"I want to enjoy it all I can in the short time that is at my disposal, but you know that a professional woman has very little time that she can call her own. I have heard and read so much about the Paradise of the Pacific that I am anxious to see it for myself, so I can tell all my friends about it after I leave.

"I have been making a tour of Australia that has taken nearly two years, and I am now bound for London and dear Paris. I will give my first recital here next week, and will possibly give another one before I leave.

"I expect to give several numbers from the different grand operas, but will try and sing at least two or three numbers from La Traviata next Tuesday night as it is one of my favorite French operas.

"I have enjoyed every moment of my trip around the world and will be very glad to get home again, but I must see something of this country before I leave or I would never go home contented."

Mme Arral is accompanied by her husband who is also very much impressed with Hawaii, although he said he did not like the drizzling rain.

Mme Arral comes here with a reputation of repeated successes from the capitals of the world and is ranked as one of the first by the most noted critics of Europe, some of them declaring that she is equal to Melba and Calve. Honolulu will give her a rousing welcome on her opening night here.

Where Do You Spend Your Holiday?

REDUCED RATES FOR THE SUMMER AT THE VOLCANO HOUSE

For three months, beginning June 30th, a special ticket will be issued covering a stay of nine days at the Volcano House, and transportation to and from that resort; per S. S. "MAUNA KEA."
