BY AUTHORITY.

SANITARY REGULATIONS OF
THE BOARD OF HEALTH FOR
ALL VILLAGES AND POPU-
LOUS LOCALITIES IN THE
TERRITORY OF HAWAII,
OUTSIDE OF THE SANITARY
DISTRICT OF HONOLULU.

The following regulations shall apply to, and be enforced in all vil-
lages and populous localities in the
Territory of Hawaii outside of the
Sanitary District of Honolulu:

REGARDING BUILDINGS AND YARDS—RAIN WATER.

Sec. (1). Where the space be-
tween buildings is less than fifteen
feet the water from the roofs of the
buildings shall be conducted in
water tight leaders and made to dis-
charge into suitable drains leading
onto street or alley gutters and if
any building is so situated that the
water from the roofs of said build-
ing will run under the building and
not drain off the same rule shall
apply. This regulation shall not
apply to buildings where the amount
of water discharged from the roofs
will not be detrimental to the pub-
lic health or public sanitation.

AIR SPACE BETWEEN BUILD- INGS.

Sec. (2). No building, flush with
a street or streets bounding the lot
on which it is to stand, shall here-
after be erected within five feet of
any other boundary line of said lot,
unless the nature and location of
such building and the purposes for
which it is to be constructed and
adapted, do not require said vacant
space for the preservation of public
health and public sanitation. There
shall be a clear air space of ten feet
between all buildings, except such
as are flush with a street or streets
bounding the lot on which they
stand, unless the nature and loca-
tion of such buildings and the pur-
poses for which they are to be con-
structed and adapted, do not re-
quire said vacant space for the pre-
servation of the public health and
public sanitation. The word "build-
ings" in this paragraph shall be con-
strued to mean and include sheds,
lean-tos, privies, outhouses and all
other structures of similar charac-
ter.

LIGHT AND VENTILATION OF DWELLINGS.

Sec. (3). Each and every room
intended for use for human habita-
tion shall be provided with at least
eight square feet of window area
having unobstructed access into the
open air for each 100 square feet of
floor space in said room and free
access shall at all times be had to
the same by the occupants of the
room; and at least one-half of such
window space shall be movable and
available for ventilation.

AIR SPACE UNDER BUILD- INGS.

Sec. (4). Every building shall
have on an average at least twenty
inches of clear space for the circula-
tion of air between the floor tim-
bers and the ground, and shall have
sufficient openings for ventilation in
the outer walls to admit a free cir-
culation of air; but, in case this air
space cannot be secured without
reaching "ground water level" then
there shall be no air space, but the
floor shall be of concrete or masonry.

YARDS, AREAS, COURTS, ETC.

Sec. (5). Yards, areas, courts, al-
leyways and other open spaces with-
in or between buildings, where
water is used for washing of any
kind, shall be properly graded and
cemented, or paved so as to be
water proof, and drained into trap-
ped drains properly connected with
sewer of cesspool where practicable
or drained away 50 feet from any
dwelling and no permanent wooden
floor or grating shall be maintained
over the same.

WATER TIGHT FLOORS.

Sec. (6). All houses, structures,
rooms or parts thereof, in which
water is used, or intended to be
used, in such quantity as to render
the floor or floors thereof constantly
damp, shall have such floor or
floors, made absolutely water proof,
with proper drainage into trapped
leaders conveying the water away

into cesspool or sewer where prac-
ticable or drained away 50 feet from
any dwelling; and the water proof-
ing of all such floors shall be done
in a manner satisfactory to the
Board of Health.

Sec. (7). No building or struc-
ture shall be used as a residence or
place of human habitation or abode
which is situated upon land where
there is standing water within eight-
een inches of the surface of the
ground; nor shall any building or
structure be so used that is placed
on land that has been made by fill-
ing in with dangerous and insanitary
refuse or garbage or any sub-
stance dangerous to the public
health.

REGARDING PRIVY VAULTS AND CESSPOOLS.

Sec. (8). No privy vault, sink or
cesspool shall hereafter be located
or constructed within fifty feet of
any stream, lake, pond, well or
spring of water, nor within two feet
of the line of any lot; nor shall it be
made more than eighteen or less
than six feet deep, or placed in such
a position that it is not easily acces-
sible for emptying and cleaning.

Sec. (9). When necessary for the
preservation of the public health
the sides and bottom of any privy-
vault, sink or cesspool, shall be
made either wholly or in part water
tight, so as to prevent any satura-
tion of the ground about the said
vault, sink or cesspool, and shall be
provided with suitable ventilating
arrangement.

Sec. (10). No structure or cover
shall be put upon or over any privy-
vault, sink or cesspool, until it has
been inspected by the proper agent
of the Board of Health and approved
as meeting the requirements of
these regulations and of public
health.

Sec. (11). Any privy-vault, sink,
or cesspool, already constructed
which has become a nuisance, or in
any way dangerous to life or detri-
mental to health, shall be re-
moved, reconstructed, or altered to
meet the requirements of these re-
gulations and of public health,
as directed by the Board of Health
or its Agent.

Sec. (12). The Board of Health
or its Agent may cause the empty-
ing or disinfecting of any privy-
vault, sink or cesspool that is dan-
gerous to the public health, at the
expense of the owner or occupant of
the premises, after 48 hours notice
and failure to comply therewith.

Sec. (13). No privy vault or ces-
spool shall be excavated or main-
tained within ten feet of any dwelling
house or inhabited building or cook-
house or place where cooking is
done.

Sec. (14). All waste, soil, sewer
or drain pipes shall be of cast iron,
lead or vitrified clay. If of iron or
lead the joints shall be caulked with
molten lead, if of vitrified clay, they
shall have tight cement joints all
points to be smooth in the inside;
open drains may be of water tight
masonry.

Sec. (15). All cesspools or privy-
vaults when abandoned and the use
thereof discontinued shall be at
once disinfected and filled with
earth, sand, ashes, or other such
clean material. In no case shall
material dangerous to the public
health be used in filling such privy-
vault or cesspool.

SANITARY REGULATIONS FOR STABLES.

Sec. (16). The floors of the stalls
shall be made water tight and may
be made of the following materials:
Tongue and grooved planks, cement,
asphaltum or broken [concrete] rock to
the depth of six inches covered with
clay well tamped.

Sec. (17). All stalls shall be con-
structed with a slant of at least
three and one-half inches from
front to rear.

Sec. (18). The water tight floor-
ing of the stalls may be covered
with suitable material, provided
such material shall not be allowed
to become saturated with animal
discharges and remain until insanitary.

Sec. (19). Liquid discharges
from animals shall be conducted
into a drain or ditch to a cesspool
or sewer where practicable and said
drain or ditch shall be flushed and
kept clean.

Sec. (20). All manure from
stables shall be removed at least
once in each week.

Sec. (21). These regulations shall

FRIDAY, JAN. 18, 1901.

RUFFIANISM AT WEST POINT

Now that Hawaii is entitled to have a cadet at West Point the doings at that military school is of some interest to us. A great commotion has been caused by the death of a cadet, who, it is claimed, died from the results of injuries received by him through being hazed and made to fight with another cadet, his superior in skill and years.

Hazing is a very ungentlemanly pastime, consisting of offering personal indignities towards the youngsters who enter the school. It is a remnant of the dark ages, and is not tolerated in any military school in Europe. Congress has ordered an investigation and a commission of officers high in rank is now taking evidence in the case which has stirred up the matter. The intelligent press, as a whole, writes strongly against hazing, but, to our surprise, we notice a journal of the high standing of the San Francisco Argonaut defending the custom and seriously claiming that it cannot be stopped. We never expected to see such arrant rot printed in the Argonaut as the following paragraph:

"There is one side to the matter of hazing at West Point that we have not seen discussed. It is this: A high spirited and hot-tempered cadet, newly arrived from pistol-carrying districts, might strenuously object to the physical indignities of hazing. Young men who incline to a soldier's life are apt to be high spirited. Such a cadet might consider that tamely submitting to physical indignities would be unworthy of a soldier. So believing, he might, in accordance with the customs of his native State, use a weapon if he had one. Very likely he might be 'heeled.' In the sudden access of passion he might shoot or stab his immediate assailant. It goes without saying that he might be shot or stabbed in return—in a fight, the other fellow is always doing something, too. Thus it could result that two cadets might die sudden and bloody deaths, the hazer and the hazed. Such a tragedy would so shock the adolescent cadet mind that hazing would probably stop for eight or ten years, and then gradually be resumed. But we can think of no other way in which the cadets could be made to discontinue hazing."

For, indeed, must the discipline be at West Point if the officer in charge can stop hazing only when one of the cadets should be killed while exercising the glorious privilege of heaping insults and indignities upon the head of a junior cadet. In Germany, Austria, France or all the other countries where gentlemen only are admitted into the military school, and where no backwoods Senator or Congressman has anything to say about the material from which the cadets are to be selected, hazing would be stopped in double quick time or the military career, even of a whole class of cadets, ruined forever.

The victim might refuse to give away the name of his torturer although ordered to do so, and he would be expelled for insubordination. An appeal to the honor of the guilty cadet would be made to save his comrade from expulsion. Should he fail to respond the class would be commanded to deliver him up or take the consequences, and a failure to do so would mean the expulsion of the whole class, and every cadet expelled would find it a serious matter in after-life to have allowed himself to be swayed by a Don Quixotic interpretation of boyish honor.

We presume that the Argonaut, which, by the way, always opposes prize fighting and rough football, will admit that the officers in the European armies are as brave, capable and gentlemanly as any of those graduated from West Point. And yet they have neither hazed nor been hazed.

We suppose that the expelling of a cadet from West Point for hazing would be resented by the Congressman who nominated him and by the ward-heeler who fathered the boy and got him to West Point for political services rendered the Congressman.

TOPICS OF THE DAY.

If buhach powder contains enough poison to kill an adult when taken internally the fumes from it must certainly be unhealthy. The mosquitoes faint from the smoke arising from the burning and many people inhale the poisonous smoke while crusading against the humming, stinging little pest. The Board of Health should see that the buhach tins are marked poison and sold under the regulation relating to sale of poisons. As it took ten days for the powder (probably aided by some other agency) to get in its deadly work on a Japanese woman, it cannot be classed as a virulent poison. At the same time, every precaution should be taken before it becomes the fashion among people suicidally inclined to indulge in mosquito powder as a food.

Mr. George A. Davis' name is prominently mentioned as a successor to Judge Humphreys. A better choice could not be made and we have no doubt that Mr. Davis would be heartily endorsed by the Bench, the Bar and the community in general. Mr. Davis is a learned and able jurist. He has proven himself a fair and honest judge while temporarily acting as Circuit Judge, and when on the Bench there is no sign of the temper which occasionally has caused mild clashes between Mr. Davis and his brother attorneys. That Mr. Davis is a Republican should be no drawback he can't help it.

In the manager's report of the Associated Charities it is suggested that a Scandinavian benevolent society should be organized on the same plan as the Portuguese societies which are not alone self-supporting, but are conducted on a most excellent system of mutual help. We do not think the plan is feasible. There are very few Scandinavians in Honolulu and the fraternal feeling among them is not very pronounced. Many Scandinavians come here as sailors. Some leave their ships here and we believe that it must be from that class that applications for help are received by the associated charities. The Scandinavians who have resided here for some years are nearly all fairly well to do, although none of them are in very affluent circumstances. We fully believe in the advantage to be gained from societies by countrymen for countrymen, but the principle will not work among the Scandinavians. We have not yet known of an instance where Swedes, Norwegians and Danes could pull together without friction.

The establishment of a Merchants'

Association is a move in the right direction. Honolulu is on the eve of becoming a municipality and it is high time for merchants, wholesale dealers, importers, retailers and shop keepers to take an active interest in the government of the city. It will be of importance to them whether Honolulu is to be a wide open town, and whether the issuing of licenses by the city authorities shall be optional or mandatory. The Chamber of Commerce is an ornamental body but we have never yet discovered its usefulness. The chamber as a chamber has never made itself felt in the Legislatures of the country, and its influence has virtually been nil. Its scope of work seems to have been confined to passing the hat around for subscription to sufferers from some accident abroad, or for the erection of an ugly statue for some deceased hero, in Backwoodville or some other obscure city. The Chamber of Commerce is too aristocratic and too impractical to carry any weight. The Merchants' Association will look after the interests of the merchants and the city in a plain practical manner, and its influence will soon be felt.

We publish the minutes of Wednesday's meeting of the Independent's charter commission because garbled reports of the meeting have appeared in the Bulletin and Advertiser. It is correct that the advisability of having the Portuguese colony represented on the commission was advocated but no names were mentioned nor any motion to elect a Portuguese made. If absent reporters wish to report the meetings of the commission they should get their information from some member who is responsible for what he says or does.

The forty negroes who were sent to Spreckelsville by the Helene de-

lined to mix with "black trash" from Porto Rico and they were accommodated with the staterooms and the saloon on the steamer. The Inter Island Steamship Company will now have to make alterations on their vessels to accommodate the different races who are so particular as to the company in which they find themselves. The Porto Ricans will not be herded with Chinese, the negroes will not play in the same yard with the Porto Ricans, and the white and Hawaiian travelers will not share staterooms with negroes. The plantation dudes from the South will probably take a few reefs in their sails after they have worked in the canefields for a month or two.

Complaints reach us from Leleco in regard to the insanitary condition of a cesspool on the Cross premises, makai of King street. The attention of the Board of Health has been called to the nuisance, but for reasons unknown nothing has been done and the cesspool is still leaking into the neighboring premises causing a frightful stench in the district. A while ago W. C. Achi was prosecuted, even prosecuted, by the Board of Health because a cesspool on his premises was not according to rules the way did not interfere with the neighboring premises, but the nuisance on the Cross premises seems to be privileged as far as the Board of Health is concerned.

The road from King street bridge to Liliha street is in a most scandalous condition. The Rapid Transit has torn the road up and traffic is interfered with in an unpardonable degree. In violation of its charter the Rapid Transit Co. is also laying its rails on River street thereby blocking that thoroughfare. Superintendent McCand-

less resides at Waikiki and takes of course no interest in the conditions of the roads at Palama, nor does he feel called upon to stop the illegal act of the Rapid Transit Co. Why should he, as long as the Waikiki road is not interfered with and the Rapid Transit only breaks up the road for one block at a time while laying rails in McCandless' direction.

We think it would be a great improvement if the mounted police were furnished with a lariat as part of their equipment and taught how to use it, and at the same time the gungaiulu McClellan saddle be replaced by neat serviceable Mexican saddle. One of the principal duties of the mounted officers is to stop runaways and we know of no better method than the using the lasso. We were witnessing a runaway a few days ago. A horse without-bridle but with part of the harness on came tearing along King street with a mounted officer in pursuit. The officer was up to the runaway and could have stopped it if there had been a bridle on the horse or if he had been equipped with a lasso and a saddle with a pommel on. As it were the horse kept running until another officer appeared from the opposite direction and succeeding in stopping the runaway before any damage was done. The usefulness of the officers should be the main point in their equipment, the handsome appearance of the men is of smaller moment. The High Sheriff can do the "pretty" act for the whole department.

LOCAL AND GENERAL NEWS.

THE INDEPENDENT 50 cent per month

A slight earthquake occurred in Honolulu on Wednesday morning. There is no scientific record of the shock.

The match race at Waiulus tomorrow will be interesting. Gay's and Gibson's horses are both fast and the race will be for blood besides for \$250 a side.

Among the through passengers by the China were A. E. Buck U. S. minister to Japan who with his family will visit his home in the States on a leave of absence. Mr. Buck called this morning on the governor and the secretary of the Territory and on his friend Judge Estee. Other passengers were Archdeacon and Mrs. Wolfe of Foochow who are going to England on a visit, and Mr. Jeremiah Curtin, a well-known author and linguist. Mr. Curtin is best known as the translator of the historical works of Sienkiwicz, the great Polish author.

Independent Charter Commission.

The meeting of the above named commission last Wednesday evening was presided over by R. N. Boyd, vice chairman, in the absence of the chairman. After the minutes of the previous meeting had been read and approved, the chairman entered and declined to take the chair, he being unwell.

Reports of committees were called for, and J. K. Kaulia, as chairman of the committee to select a name to fill the vacancy occasioned by the resignation of John Cassidy and the declination of J. F. Eckardt to serve, presented a report signed by himself and J. C. Quinn, recommending the name of Edgar Cayless. W. F. Erving moved that the report be adopted. F. J. Testa moved that it be laid on the table. He spoke on the advisability of having a Portuguese on the commission. Mr. Quinn hinted that he would bring in later on a motion to do away with those members who have not yet seen fit to attend a meeting, whereby Mr. Testa's idea may take form. Mr. Testa withdrew his motion with the consent of his seconder, and the original motion was put and carried.

J. C. Quinn moved that the names of those members who do not attend meetings be stricken off from the rolls. Mr. Testa thought it was too sweeping and ambiguous, he amended it by making it apply to those members who have not yet attended a single meeting since organization. The motion was put and carried as amended.

The meeting then adjourned till Monday evening.

Officers Collide.

At about 6 o'clock this morning two mounted patrolmen coming in opposite direction had a serious collision at the corner of Merchant and Alakea streets. Officer Maitland who was to report for duty was coming down Alakea street at a great speed while officer Shirbin who had just come off duty was riding leisurely along Merchant street. At the corner Maitland rode into the other officer and both men were unseated and thrown violently to the ground. Shirbin escaped unhurt but Maitland, who was thrown more violently struck the curb and was rendered unconscious. The head was cut and he was bleeding profusely. He was at once taken to the Queen's hospital for treatment.

Call and see copies of the Old Masters at the Fort St. Art Department

The Mauna Loa sailed for Maui and Hawaii this morning.

Judge Wilcox disposed of a large calendar this morning.

The Zealandia will arrive here on the 25th inst. and will sail for the Coast on the 31st inst.

The Moana will probably be placed again on the run between the Colonies and British Columbia.

Roy Chamberlain, the new collector of Internal Revenue, will arrive here on February 4.

Attorney Edgar Cayless has been elected a member of the Independents' charter commission.

The China arrived last evening from the Orient and will leave for San Francisco this afternoon at 5 o'clock.

On motion of Mr. Paul Neumann, attorney J. M. Vivas was on Tuesday last admitted to practice in the U. S. District Court by Judge Estee.

Frank Andrade has been admitted to practice law in the court of the Territory as well as in the U. S. District Court. He will be associated with Lorrin Andrews.

J. Lovette Rockwell, the singer, left for Manila in the City of Peking on a business venture in which several Honolulu people are interested.

The territorial government offices and public schools were closed yesterday. Gov. Dole and his cabinet also took a vacation for the purpose of celebrating the anniversary of the day, they so often have regretted.

A complaint has been made in the U. S. District Court against shipping master McCarthy, who it is alleged has held in his possession unlawfully certain clothing belonging to one H. M. Sibby, a sailor. McCarthy was fined by Judge a few months ago for a similar offense.

D. Kahanu, one of the best known old Hawaiians, celebrated his 78th birthday Tuesday. Kahanu was for many years a partner in the saw and taro business with the late J. I. Dowsett [Kimo Pelekane] and was a privy councillor under the monarchy. The old gentleman is hale and hearty although nearly blind, probably the reason why he recently married a young wife. Cupid is supposed to be blind.

The Republican charter commission held a meeting last Tuesday evening which was poorly attended, probably owing to the Republicans feeling that it would do them good to listen to the harangue of Francis Murphy against sideboards [at Republican headquarters]. Treasurer Gilman stated that he had seen the right parties and the commission could go ahead without worrying over the expenses. And they are going ahead.

An inquest was held last evening over the little Chinese girl who was knocked down by a hack on Wednesday afternoon, an who died yesterday morning from her injuries. The evidence showed that the driver was not to blame and that the sad occurrence was an accident pure and simple. The jury was composed as follows: Henry Giles, Sam Kapey, F. M. McIntyre, N. Brennan, H. Roth and W. E. Bivans. A verdict will be rendered this afternoon.

A number of well known people leave by the China this afternoon. Among them are Miss Kathleen Cartwright, Paul Neumann and his daughter, Mrs. Hasson, Mrs. A. A. Wilder, Mrs. Wakefield and the Misses Wakefield, Mr. and Mrs. M. S. Grinbaum, Mr and Mrs. W. P. Pierce, and Miss Pierce, L. C. Branson, recently of the Republic, A. E. Minville, who brought the Porto Ricans here, B. M. Thomas, special treasury agent, Attorney McClanahan and family, Assistant Postmaster Louis T. Kenake and others.

BY AUTHORITY.

SANITARY REGULATIONS OF
THE BOARD OF HEALTH FOR
ALL VILLAGES AND POPU-
LOUS LOCALITIES IN THE
TERRITORY OF HAWAII,
OUTSIDE OF THE SANITARY
DISTRICT OF HONOLULU.

The following regulations shall apply to, and be enforced in all vil-
lages and populous localities in the
Territory of Hawaii outside of the
Sanitary District of Honolulu:

REGARDING BUILDINGS AND YARDS—RAIN WATER.

Sec. (1). Where the space be-
tween buildings is less than fifteen
feet the water from the roofs of the
buildings shall be conducted in
water tight leaders and made to dis-
charge into suitable drains leading
onto street or alley gutters and if
any building is so situated that the
water from the roofs of said build-
ing will run under the building and
not drain off the same rule shall
apply. This regulation shall not
apply to buildings where the amount
of water discharged from the roofs
will not be detrimental to the pub-
lic health or public sanitation.

AIR SPACE BETWEEN BUILD- INGS.

Sec. (2). No building, flush with
a street or streets bounding the lot
on which it is to stand, shall here-
after be erected within five feet of
any other boundary line of said lot,
unless the nature and location of
such building and the purposes for
which it is to be constructed and
adapted, do not require said vacant
space for the preservation of public
health and public sanitation. There
shall be a clear air space of ten feet
between all buildings, except such
as are flush with a street or streets
bounding the lot on which they
stand, unless the nature and loca-
tion of such buildings and the pur-
poses for which they are to be con-
structed and adapted, do not re-
quire said vacant space for the pre-
servation of the public health and
public sanitation. The word "build-
ings" in this paragraph shall be con-
strued to mean and include sheds,
leantos, privies, outhouses and all
other structures of similar charac-
ter.

LIGHT AND VENTILATION OF DWELLINGS.

Sec. (3). Each and every room
intended for use for human habita-
tion shall be provided with at least
eight square feet of window area
having unobstructed access into the
open air for each 100 square feet of
floor space in said room and free
access shall at all times be had to
the same by the occupants of the
room; and at least one-half of such
window space shall be movable and
available for ventilation.

AIR SPACE UNDER BUILD- INGS.

Sec. (4). Every building shall
have on an average at least twenty
inches of clear space for the circula-
tion of air between the floor tim-
bers and the ground, and shall have
sufficient openings for ventilation in
the outer walls to admit a free cir-
culation of air; but, in case this air
space cannot be secured without
reaching "ground water level" then
there shall be no air space, but the
floor shall be of concrete or masonry.

YARDS, AREAS, COURTS, ETC.

Sec. (5). Yards, areas, courts, al-
leyways and other open spaces with-
in or between buildings, where
water is used for washing of any
kind, shall be properly graded and
cemented, or paved so as to be
water proof, and drained into trap-
ped drains properly connected with
sewer of cesspool where practicable
or drained away 50 feet from any
dwelling and no permanent wooden
floor or grating shall be maintained
over the same.

WATER TIGHT FLOORS.

Sec. (6). All houses, structures,
rooms or parts thereof, in which
water is used, or intended to be
used, in such quantity as to render
the floor or floors thereof constantly
damp, shall have such floor or
floors, made absolutely water proof,
with proper drainage into trapped
leaders conveying the water away

into cesspool or sewer where prac-
ticable or drained away 50 feet from
any dwelling; and the water proof-
ing of all such floors shall be done
in a manner satisfactory to the
Board of Health.

Sec. (7). No building or struc-
ture shall be used as a residence or
place of human habitation or abode
which is situated upon land where
there is standing water within eight-
een inches of the surface of the
ground; nor shall any building or
structure be so used that is placed
on land that has been made by fill-
ing in with dangerous and insanitary
refuse or garbage or any sub-
stance dangerous to the public
health.

REGARDING PRIVY VAULTS AND CESSPOOLS.

Sec. (8). No privy vault, sink or
cesspool shall hereafter be located
or constructed within fifty feet of
any stream, lake, pond, well or
spring of water, nor within two feet
of the line of any lot; nor shall it be
made more than eighteen or less
than six feet deep, or placed in such
a position that it is not easily ac-
cessible for emptying and cleaning.

Sec. (9). When necessary for the
preservation of the public health
the sides and bottom of any privy-
vault, sink or cesspool, shall be
made either wholly or in part water
tight, so as to prevent any satura-
tion of the ground about the said
vault, sink or cesspool, and shall be
provided with suitable ventilating
arrangement.

Sec. (10). No structure or cover
shall be put upon or over any privy-
vault, sink or cesspool, until it has
been inspected by the proper agent
of the Board of Health and approv-
ed as meeting the requirements of
these regulations and of public
health.

Sec. (11). Any privy-vault, sink,
or cesspool, already constructed
which has become a nuisance, or in
any way dangerous to life or de-
trimental to health, shall be re-
moved, reconstructed, or altered to
meet the requirements of these
regulations and of public health,
as directed by the Board of Health
or its Agent.

Sec. (12). The Board of Health
or its Agent may cause the empty-
ing or disinfecting of any privy-
vault, sink or cesspool that is dan-
gerous to the public health, at the
expense of the owner or occupant of
the premises, after 48 hours notice
and failure to comply therewith.

Sec. (13). No privy vault or ces-
spool shall be excavated or main-
tained within ten feet of any dwelling
house or inhabited building or cook-
house or place where cooking is
done.

Sec. (14). All waste, soil, sewer
or drain pipes shall be of cast iron,
lead or vitrified clay. If of iron or
lead the joints shall be caulked with
molten lead, if of vitrified clay, they
shall have tight cement joints all
points to be smooth in the inside;
open drains may be of water tight
masonry.

Sec. (15). All cesspools or privy-
vaults when abandoned and the use
thereof discontinued shall be at
once disinfected and filled with
earth, sand, ashes, or other such
clean material. In no case shall
material dangerous to the public
health be used in filling such privy-
vault or cesspool.

SANITARY REGULATIONS FOR STABLES.

Sec. (16). The floors of the stalls
shall be made water tight and may
be made of the following materials:
Tongue and grooved plank, cement,
asphaltum or broken [concrete] rock to
the depth of six inches covered with
clay well tamped.

Sec. (17). All stalls shall be con-
structed with a shut of at least
three and one-half inches from
front to rear.

Sec. (18). The water tight floor-
ing of the stalls may be covered
with suitable material, provided
such material shall not be allowed
to become saturated with animal
discharges and remain until insanitary.

Sec. (19). Liquid discharges
from animals shall be conducted
into a drain or ditch to a cesspool
or sewer where practicable and said
drain or ditch shall be flushed and
kept clean.

Sec. (20). All manure from
stables shall be removed at least
once in each week.

Sec. (21). These regulations shall

FRIDAY, JAN. 18, 1901.

RUFFIANISM AT WEST POINT

Now that Hawaii is entitled to have a cadet at West Point the doings at that military school is of some interest to us. A great commotion has been caused by the death of a cadet, who, it is claimed, died from the results of injuries received by him through being hazed and made to fight with another cadet, his superior in skill and years.

Hazing is a very ungentlemanly pastime, consisting of offering personal indignities towards the youngsters who enter the school. It is a remnant of the dark ages, and is not tolerated in any military school in Europe. Congress has ordered an investigation and a commission of officers high in rank is now taking evidence in the case which has stirred up the matter. The intelligent press, as a whole, writes strongly against hazing, but, to our surprise, we notice a journal of the high standing of the San Francisco Argonaut defending the custom and seriously claiming that it cannot be stopped. We never expected to see such arrant rot printed in the Argonaut as the following paragraph:

"There is one side to the matter of hazing at West Point that we have not seen discussed. It is this: A high spirited and hot-tempered cadet, newly arrived from pistol-carrying districts, might strenuously object to the physical indignities of hazing. Young men who incline to a soldier's life are apt to be high spirited. Such a cadet might consider that tamely submitting to physical indignities would be unworthy of a soldier. So believing, he might, in accordance with the customs of his native State, use a weapon if he had one. Very likely he might be 'heeled.' In the sudden access of passion he might shoot or stab his immediate assailant. It goes without saying that he might be shot or stabbed in return—in a fight, the other fellow is always doing something, too. Thus it could result that two cadets might die sudden and bloody deaths, the hazer and the hazed. Such a tragedy would so shock the adolescent cadet mind that hazing would probably stop for eight or ten years, and then gradually be resumed. But we can think of no other way in which the cadets could be made to discontinue hazing."

For, indeed, must the discipline be at West Point if the officer in charge can stop hazing only when one of the cadets should be killed while exercising the glorious privilege of heaping insults and indignities upon the head of a junior cadet. In Germany, Austria, France or all the other countries where gentlemen only are admitted into the military school, and where no backwoods Senator or Congressman has anything to say about the material from which the cadets are to be selected, hazing would be stopped in double quick time or the military career, even of a whole class of cadets, ruined forever.

The victim might refuse to give away the name of his torturer although ordered to do so, and he would be expelled for insubordination. An appeal to the honor of the guilty cadet would be made to save his comrades from expulsion. Should he fail to respond the class would be commanded to deliver him up or take the consequences, and a failure to do so would mean the expulsion of the whole class, and every cadet expelled would find it a serious matter in after-life to have allowed himself to be swayed by a Don Quixotic interpretation of boyish honor.

We presume that the Argonaut, which, by the way, always opposes prize fighting and rough football, will admit that the officers in the European armies are as brave, capable and gentlemanly as any of those graduated from West Point. And yet they have neither hazed nor been hazed.

We suppose that the expelling of a cadet from West Point for hazing would be resented by the Congressman who nominated him and by the ward-heeler who fathered the boy and got him to West Point for political services rendered the Congressman.

TOPICS OF THE DAY.

If buhach powder contains enough poison to kill an adult when taken internally the fumes from it must certainly be unhealthy. The mosquitoes faint from the smoke arising from the burning and many people inhale the poisonous smoke while crusading against the humming, stinging little pest. The Board of Health should see that the buhach tins are marked poison and sold under the regulation relating to sale of poisons. As it took ten days for the powder (probably aided by some other agency) to get in its deadly work on a Japanese woman, it cannot be classed as a virulent poison. At the same time, every precaution should be taken before it becomes the fashion among people suicidally inclined to indulge in mosquito powder as a food.

Mr. George A. Davis' name is prominently mentioned as a successor to Judge Humphreys. A better choice could not be made and we have no doubt that Mr. Davis would be heartily endorsed by the Bench, the Bar and the community in general. Mr. Davis is a learned and able jurist. He has proven himself a fair and honest judge while temporarily acting as Circuit Judge, and when on the Bench there is no sign of the temper which occasionally has caused mild clashes between Mr. Davis and his brother attorneys. That Mr. Davis is a Republican should be no drawback. He can't help it.

In the manager's report of the Associated Charities it is suggested that a Scandinavian benevolent society should be organized on the same plan as the Portuguese societies which are not alone self-supporting, but are conducted on a most excellent system of mutual help. We do not think the plan is feasible. There are very few Scandinavians in Honolulu and the fraternal feeling among them is not very pronounced. Many Scandinavians come here as sailors. Some leave their ships here and we believe that it must be from that class that applications for help are received by the associated charities. The Scandinavians who have resided here for some years are nearly all fairly well to do, although none of them are in very affluent circumstances. We fully believe in the advantage to be gained from societies by countrymen for countrymen, but the principle will not work among the Scandinavians. We have not yet known of an instance where Swedes, Norwegians and Danes could pull together without friction.

The establishment of a Merchants'

Association is a move in the right direction. Honolulu is on the eve of becoming a municipality and it is high time for merchants, wholesale dealers, importers, retailers and shop keepers to take an active interest in the government of the city. It will be of importance to them whether Honolulu is to be a wide open town, and whether the issuing of licenses by the city authorities shall be optional or mandatory. The Chamber of Commerce is an ornamental body but we have never yet discovered its usefulness. The chamber as a chamber has never made itself felt in the Legislatures of the country, and its influence has virtually been nil. Its scope of work seems to have been confined to passing the hat around for subscription to sufferers from some accident abroad, or for the erection of an ugly statue for some deceased hero, in Backwoodsville or some other obscure city. The Chamber of Commerce is too aristocratic and too impractical to carry any weight. The Merchants' Association will look after the interests of the merchants and the city in a plain practical manner, and its influence will soon be felt.

We publish the minutes of Wednesday's meeting of the Independent's charter commission because garbled reports of the meeting have appeared in the Bulletin and Advertiser. It is correct that the advisability of having the Portuguese colony represented on the commission was advocated but no names were mentioned nor any motion to elect a Portuguese made. If absentee reporters wish to report the meetings of the commission they should get their information from some member who is responsible for what he says or does.

The forty negroes who were sent to Spreckelsville by the Helene de-

lined to mix with "black trash" from Porto Rico and they were accommodated with the staterooms and the saloon on the steamer. The Inter Island Steamship Company will now have to make alterations on their vessels to accommodate the different races who are so particular as to the company in which they find themselves. The Porto Ricans will not be herded with Chinese, the negroes will not play in the same yard with the Porto Ricans, and the white and Hawaiian travelers will not share staterooms with negroes. The plantation dudes from the South will probably take a few reefs in their sails after they have worked in the canefields for a month or two.

Complaints reach us from Laleo in regard to the insanitary condition of a cesspool on the Cross premises, makai of King street. The attention of the Board of Health has been called to the nuisance, but for reasons unknown nothing has been done and the cesspool is still leaking into the neighboring premises causing a frightful stench in the district. A while ago W. C. Achi was prosecuted, even persecuted, by the Board of Health because a cesspool on his premises was not according to rules. Achi abated the nuisance which by the way did not interfere with the neighboring premises, but the nuisance on the Cross premises seems to be privileged as far as the Board of Health is concerned.

The road from King street bridge to Liliha street is in a most scandalous condition. The Rapid Transit has torn the road up and traffic is interfered with in an unpardonable degree. In violation of its charter the Rapid Transit Co. is also laying its rails on River street thereby blocking that thoroughfare. Superintendent McCand-

less resides at Waikiki and takes of course no interest in the conditions of the roads at Palama, nor does he feel called upon to stop the illegal act of the Rapid Transit Co. Why should he, as long as the Waikiki road is not interfered with and the Rapid Transit only breaks up the road for one block at a time while laying rails in McCandless' direction.

We think it would be a great improvement if the mounted police were furnished with a lariat as part of their equipment and taught how to use it, and at the same time the gunnaily McClellan saddle be replaced by neat serviceable Mexican saddle. One of the principal duties of the mounted officers is to stop runaways and we know of no better method than the using the lasso. We were witnessing a runaway a few days ago. A horse without-bridle but with part of the harness on came tearing along King street with a mounted officer in pursuit. The officer was up to the runaway and could have stopped it if there had been a bridle on the horse or if he had been equipped with a lasso and a saddle with a pommel on. As it were the horse kept running until another officer appeared from the opposite direction and succeeding in stopping the runaway before any damage was done. The usefulness of the officers should be the main point in their equipment, the handsome appearance of the men is of smaller moment. The High Sheriff can do the "pretty" act for the whole department.

L. B. Kerr & Co., Ltd
QUEEN STREET.

LOCAL AND GENERAL NEWS.

The Mauna Loa sailed for Maui and Hawaii this morning.

Judge Wilcox disposed of a large calendar this morning.

The Zealandia will arrive here on the 25th inst. and will sail for the Coast on the 31st inst.

The Moana will probably be placed again on the run between the Colonies and British Columbia.

Roy Chamberlain, the new collector of Internal Revenue, will arrive here on February 4.

Attorney Edgar Cypless has been elected a member of the Independents' charter commission.

The China arrived last evening from the Orient and will leave for San Francisco this afternoon at 5 o'clock.

On motion of Mr. Paul Neumann, attorney J. M. Vivas was on Tuesday last admitted to practice in the U. S. District Court by Judge Estee.

Frank Andrade has been admitted to practice law in the court of the Territory as well as in the U. S. District Court. He will be associated with Lorrin Andrews.

J. Lovette Rockwell, the singer, left for Manila in the City of Peking on a business venture in which several Honolulu people are interested.

The territorial government offices and public schools were closed yesterday. Gov. Dole and his cabinet also took a vacation for the purpose of celebrating the anniversary of the day, they so often have regretted.

A complaint has been made in the U. S. District Court against shipping master McCarthy, who it is alleged has held in his possession unlawfully certain clothing belonging to one H. M. Sibby, a sailor. McCarthy was fined by Judge a few months ago for a similar offense.

D. Kahanu, one of the best known old Hawaiians, celebrated his 78th birthday Tuesday. Kahanu was for many years a partner in the saw and taro business with the late J. I. Dowsett [Kimo Pelekane] and was a privy councillor under the monarchy. The old gentleman is hale and hearty although nearly blind, probably the reason why he recently married a young wife. Cupid is supposed to be blind.

The Republican charter commission held a meeting last Tuesday evening which was poorly attended, probably owing to the Republicans feeling that it would do them good to listen to the harangue of Francis Murphy against sideboards [at Republican headquarters]. Treasurer Gilman stated that he had seen the right parties and the commission could go ahead without worrying over the expenses. And they are going ahead.

An inquest was held last evening over the little Chinese girl who was knocked down by a hack on Wednesday afternoon, and who died yesterday morning from her injuries. The evidence showed that the driver was not to blame and that the sad occurrence was an accident pure and simple. The jury was composed as follows: Henry Giles, Sam Kuby, F. M. McIntyre, N. Braham, H. Roth and W. E. Bivans. A verdict will be rendered this afternoon.

A number of well known people leave by the China this afternoon. Among them are Miss Kathleen Cartwright, Paul Neumann and his daughter, Mrs. Hasson, Mrs. A. A. Wilder, Mrs. Wakefield and the Misses Wakefield, Mr. and Mrs. M. S. Grinbaum, Mr. and Mrs. W. P. Pierce, and Miss Pierce, L. C. Branson, recently of the Republican, A. E. Minville, who brought the Porto Ricans here, B. M. Thomas, special treasury agent, Attorney McClanahan and family, Assistant Postmaster Louis T. Kenake and others.

THE INDEPENDENT 50 cent. per month

A slight earthquake occurred in Honolulu on Wednesday morning. There is no scientific record of the shock.

The match race at Waialua tomorrow will be interesting. Gay's and Gibson's horses are both fast and the race will be for blood besides for \$250 a side.

Among the through passengers by the China were A. E. Buck U. S. minister to Japan who with his family will visit his home in the States on a leave of absence. Mr. Buck called this morning on the governor and the secretary of the Territory and on his friend Judge Estee. Other passengers were Archdeacon and Mrs. Wolfe of Fooehow who are going to England on a visit, and Mr. Jeremiah Curtin, a well-known author and linguist. Mr. Curtin is best known as the translator of the historical works of Sienkiwicz, the great Polish author.

Independent Charter Commission.

The meeting of the above named commission last Wednesday evening was presided over by R. N. Boyd, vice chairman, in the absence of the chairman. After the minutes of the previous meeting had been read and approved, the chairman entered and declined to take the chair, he being unwell.

Reports of committees were called for, and J. K. Kaulia, as chairman of the committee to select a name to fill the vacancy occasioned by the resignation of John Cassidy and the designation of J. F. Eckardt to serve, presented a report signed by himself and J. C. Quinn, recommending the name of Edgar Cypless. W. F. Erving moved that the report be adopted. F. J. Testa moved that it be laid on the table. He spoke on the advisability of having a Portuguese on the commission. Mr. Quinn hinted that he would bring in later on a motion to do away with those members who have not yet seen fit to attend a meeting, whereby Mr. Testa's idea may take form. Mr. Testa withdrew his motion with the consent of his seconder, and the original motion was put and carried.

J. C. Quinn moved that the names of those members who do not attend meetings be stricken off from the rolls. Mr. Testa thought it was too sweeping and ambiguous, he amended it by making it apply to those members who have not yet attended a single meeting since organization. The motion was put and carried as amended.

The meeting then adjourned till Monday evening.

Officers Collide.

At about 6 o'clock this morning two mounted patrolmen coming in opposite direction had a serious collision at the corner of Merchant and Alakea streets. Officer Maitland who was to report for duty was coming down Alakea street at a great speed while officer Shirbin who had just come off duty was riding leisurely along Merchant street. At the corner Maitland rode into the other officer and both men were unseated and thrown violently to the ground. Shirbin escaped unhurt but Maitland, who was thrown more violently struck the curb and was rendered unconscious. The head was cut and he was bleeding profusely. He was at once taken to the Queen's hospital for treatment.

AMENDMENT TO REGULATIONS REGARDING THE INTER- MENT OF THE DEAD IN THE DISTRICT OF HONOLULU, ISLAND OF OAHU.

At a meeting of the Board of
Health held on the 11th day of
January, 1901, the regulations re-
garding the interment of the dead
in the District of Honolulu was
amended by adding thereto the
words, "and not to the owners of
such plots, to the jeopardy of the
public health," so that said regula-
tions shall read as follows:

"Resolved, That no permit for in-
terments shall be granted within the
city limits except to those already
possessing burial plots, and not to
the owners of such plots, to the
jeopardy of the public health."

CHAS. WILCOX,
Secretary Board of Health,
Honolulu, January 11th, 1901.
