THE NEW DICTIONARY.

Among a series of resolutions adopted by the recent meeting of the Teachers' Association is the following:—"We cordially approve of the action of the Board of Education in securing the preparation of an English-Hawaiian Dictionary, and would respectfully recommend that it be put to press as speedily as possible, preferably in San Francisco, where there are facilities for such work not to be found in Honolulu." With portions of this resolution we cordially agree; from others we as cordially dissent. The action of the Board of Education in securing the preparation of an English-Hawaiian Dictionary certainly deserves approval, for the need of such a dictionary is much felt by teachers and others. And because the need is so much felt we endorse the recommendation "that it be put to press as speedily as possible." Here our approval ends. "Preferable in San Francisco" we cannot endorse, because we believe in encouraging home industry. In San Francisco a greater number of printers can be put on any given job, and so complete it in a shorter time. Barring this one thing, we do not admit that "there are facilities" for plain book work there "not to be found in Honolulu;" and we presume there is no intention of getting up an illustrated or otherwise ornamental English-Hawaiian Dictionary. There are printing establishments in Honolulu with as good and suitable type, as good paper, as good presses, and as skillful workmen as can be found in any office in San Francisco. Even in the matter of time, it is questionable if there would be any gain, considering that the proof would have to be sent here to be read. Then why should this English-Hawaiian Dictionary be printed abroad in preference to being done at home?

EDITORIAL NOTES.

A correspondent makes some just remarks upon reflections cast upon the Government regarding the state of the roads. Notwithstanding the bad condition of some thoroughfares, old residents say the roads as a whole were never better. Besides the splendid carriage road recently completed to the Pali, extensive improvements, such as the reconstruction of Queen street, have been effected under the present administration.

If some of the stories that come from the Franco-Chinese war are true, the French can beat their antagonists at barbarism, whatever else. Lately an account was given of a French war correspondent who

was butchered by his compatriots for disobeying regulations regarding correspondence. At various times wholesale slaughter of defenceless Chinese has been reported. Recently a letter from a private soldier has been published in Paris, stating that General Negrier, after defeating 10,000 Chinese regulars, handed over 200 prisoners to the best French riflemen for targets in ball practice, and that all of them were killed. The Paris newspapers have demanded a prompt and categorical denial of the statement.

Mr. Squires, we think, overrates the extent to which the finances of the country are in the power of the Chinese. The Chinaman can get hold of no more gold than he can earn in work or trade, unless he steals it, and so much he has a right to hoard or send away, as he pleases. So long as he keeps the proceeds to himself the country loses as much wealth in the rice and bananas he ships as their value in gold. A pound of feathers is just as heavy as a pound of lead, and a dollar's worth of bananas is worth as much as a dollar's worth of gold. Two alternative courses are now before this country for establishing a gold standard, with a subsidiary silver coinage. One is to give a certain amount of silver more than its actual value by making it scarce. We have previously expressed an opinion as to the result of such financial legerdemain, and are now content to await the issue of the experiment if it be continued. The other is to account the silver coin worth only the amount of gold it can purchase. In either case the Chinese factor is not material to the question. Whether it is wise to allow the Chinese to inhabit this country, and share its natural wealth on equal terms with the native and other races, is another question altogether.

OUR FINANCIAL DIFFICULTY: THE CAUSES AND A REMEDY.

(BY Z. Y. SQUIRES.) (Concluded.)

If the Chinaman is allowed to remain here and continue in business with the same privileges as formerly, he will in the near future compel foreigners to close out at a loss every business enterprise now under their control. The power has been granted, and now lies in his hands, to check and retard the future prosperity of business men here and seal the fate of the unforeseeing native race at his leisure. A few remarks on our financial situation published by myself in July last may be interesting to some of your readers. On page 22 and 23 can be found the following, written at the time our sages supposed to represent the people were sitting in council, deliberating upon the future prospects of securing free coffee and the prosperity of the nation.

"Judging from the disgraceful proceedings now transpiring in our Legislative Hall, it is very evident the Anglo-Saxon and native race will be benefited to no great extent this session; so far I have discovered no effort having been made by the Government or Opposition party to relieve us from our political division or financial embarrassment. The only law of note was passed and received His Majesty's signature July 16, evidently intending to replenish the Hawaiian Treasury with American gold, that will be received from the people for duties and taxes; which will supply Mongolians with a sufficient amount of gold, so they in future may be able to wholly control our mercantile pursuits, and hereafter purchase their goods in the Chinese Empire. This act will allow the sugar planter to pay the most of his shipped men with Hawaiian silver that he has declared to be only worth 85 cents on the dollar. After Dec. 1st, 1884, the planter and his agent will be able to purchase silver here with his gold or certificates at a discount from the merchants, who will daily receive it in small amounts for their goods instead of American gold, which will speedily find its way into the hands of the Chinese. After our silver certificates are converted into gold by the holder, the gold will mostly disappear from circulation, there not being a sufficient quantity to supply the demand. Our business men, except planters and their agents, will eventually pay higher rates for gold or exchange than at present, and in order to continue in business and pay for their goods in gold, will be obliged to purchase it from the holder at such a high premium that in a short time after the law takes effect it will derange his mental faculties, so he will weep and dream of gold, but he

can weep and dream in vain, and at last awake from his lethargic state of inactivity, grasping desperately for the reins of prosperity that have already been secured by these Mongolians. I can safely say, and shall be sustained, that it is the opinion of a very considerable number of our community that we have none too much silver now in circulation in the Kingdom in order to facilitate the speedy transaction of business. If the outstanding certificates now in circulation are redeemed in gold by the Treasury, the certificates and gold will both eventually disappear from circulation, leaving the country less \$1,400,000 in circulation than we had before our certificates were cancelled and our depreciated currency converted into gold."

Sir, we are now compelled reluctantly to accept the situation. In conclusion, I will say that the time has not yet arrived to successfully return to a gold standard and keep those shining coins within our dominions. In order to accomplish the object and successfully carry out the law, we must remove by separation the well-organized, concentrated powers now known to exist, as having the strongest affinities for our precious American gold.

Z. Y. SQUIRES.

Honolulu, Dec. 22nd, 1884.

LATEST FOREIGN NEWS.

Secretary Frelinghuysen, in a letter to the Senate on treaty matters, argues that the Hawaiian treaty will not lower prices for Louisiana sugar.

Terrible earthquakes signalized the close of the old year in Spain. It is estimated that two thousand persons perished between Christmas and Dec. 31st. The loss of property is enormous. In some places hurricanes added to the devastation. A Madrid despatch of the 31st tells of further violent shocks on the previous day at Vilez Malaga, a city of 13,000 people a few miles from Malaga. The people fled from the city altogether and encamped outside. The town of Albuquerque is wholly destroyed, and all the churches in Malaga are damaged.

It is reported in Paris that the transport steamer Brenhot, conveying French reinforcements to Tonquin, has been attacked and sunk by a Chinese cruiser, between Singapore and Saigon.

General Wolseley was expected to have completed the concentration of his army at Korti the first week of January, and to have begun his march through the desert upon Shendi on the 7th of January. He expected to make the distance, 200 miles, in 16 days. Simultaneously a movement will be made from Suakim against Osman Digna. Out of 1,200 marines and sailors at Suakim, there were only 100 effective men, and fresh troops were to have been sent there.

General Grant's property is threatened with being all sold off to satisfy the recent judgment obtained against him by Vanderbilt, and an appeal for relief to the great soldier is being made by patriotic friends in Washington and throughout the country. Shipbuilding has fallen off in Great Britain nearly half a million tons the past year, causing distress among thousands of workmen.

The London Telegraph has very good words for the Nicaraguan Canal, saying it will be of untold advantage to mankind, and hoping Lord Granville will not quarrel with America over the long-forgotten Clayton-Bulwer treaty, to which few Englishmen attach very great importance.

Gold has been discovered in Pennsylvania. Recent marine arrivals in the United States bring news of war being imminent between Brazil and the Argentine Republic.

Miss Fortescue, the pretty actress, who in England recently obtained \$50,000 from Lord Garmoyle for breach of promise of marriage, has again become engaged to Harry Quilter, the bank clerk and musical critic, whom she jilted for the son of Earl Cairns. Quilter has been a faithful and persistent suitor and renewed his offer of marriage to Miss Fortescue last summer, long before it was certain she would even get a farthing from Lord Cairns. It is understood, however, that he is perfectly willing to accept the damages as his bride's dowry.

An infamous trade that has recently arisen between France and South America has been exposed by the energetic action of the Austrian

Vice-Consul at Marseilles. He ascertained that a vessel just leaving Marseilles for Buenos Ayres had among the passengers a number of women and young girls going in charge of a procuress as recruits to houses of ill fame at Buenos Ayres. The Vice-Consul stretched his authority a little and compelled eight of the girls who were natives of Austria, to be put on shore. He is now harboring these girls in an institution at Marseilles and will send them to their parents or parishes in Austria at the earliest opportunity.

A passenger train was recently blown bodily off the track of the Denver and Rio Grande Railway, but nobody was seriously hurt.

It was reported, Dec. 17th, that Louis Kossuth, the Hungarian patriot, was dead.

William Henry Channing, a Unitarian preacher and writer of note, is dead.

MORE public interest was shown in Mrs. Hampson's services last evening than on any previous occasion. The audience completely filled the ground floor of the church, so that over six hundred persons must have been present. This afternoon the evangelist addresses a meeting of ladies in Fort Street Church.

BENSON, Smith & Co. have secured a wide reputation for their celebrated Maile cologne, and it is not to be wondered at. They have also prepared another perfume, "Lei Aloha Bouquet," put up in very handsome blue bottles, and it is bound to have as large a sale as the Maile. There are three prices, 25, 50 and 75 cents, and we advise everyone to try a bottle, for it is a splendidly prepared perfume.

In the Police Court this morning, Sam Richards, for disorderly conduct, was sentenced to forty-eight hours' imprisonment. Aiona, for selling opium, was fined \$100 and imprisonment at hard labor for three months. Yin Chin Kee, for same offence, was fined \$100 and two months' imprisonment at hard labor. Carlos Navanete, for assault and battery on his wife, was fined \$9 and ordered to file a bond in the sum of \$50 to keep the peace for one year. Abdel Mahomed, for violating express laws, was fined \$5 and costs.

YESTERDAY afternoon the Bishop of Honolulu and Mrs. Willis gave a children's party at their residence, Iolani College, Nuuanu Valley. About 150 little ones assembled and during the afternoon strolled round the grounds and played games until 5 o'clock, when all sat down to a very sumptuous tea, laid out in the dining hall which was most beautifully decorated with ferns, flags and evergreens. After full justice had been done the many good things, more games took place until about half-past six o'clock, when a very fine magic lantern was shown in the schoolroom by the masters of the school, the Bishop explaining the various pictures. H. R. H. Princess Likelike and quite a number of ladies were present during the afternoon and evening. The occasion is one that will be long remembered by those who participated.

AN ALARMING DISEASE AFFLICTING A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas, and, in fact, the entire glandular system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions, he will be able to determine whether he himself is one of the afflicted:—Have I distress, pain, or difficulty in breathing after eating? Is there a dull, heavy feeling attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the gums and teeth in the morning, accompanied by a disagreeable taste? Is the tongue coated? Is there pain in the side and back? Is there a fullness about the right side as if the liver were enlarging? Is there costiveness? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the kidneys scanty and highly coloured, with a deposit after standing? Does food ferment, soon after eating, accompanied by flatulence or a belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dread disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold, sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against this latter agonizing disorder. The origin of this malady is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incipient stage. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure and even when it has obtained a strong hold the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors, A. J. White Limited, 17, Farringdon Road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

A SKILFUL SURGICAL OPERATION.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow, the hands and feet become cold and sticky—a cold perspiration. The sufferer feels tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Often times there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes closed, or nearly so. Although this disease is indeed alarming, sufferers with the above named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon-road, London, E. C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary-street, Peterborough, November 29th, 1881.

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the syrup, I found relief, and after taking two bottles of it I feel quite cured.

I am, Sir, yours truly, Mr. A. J. White. William Brent.

September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues: one customer describes it as a "God-send to dyspeptic people." I always recommend it with confidence.

Faithfully yours, (Signed) Vincent A. Willis, Chemist-Dentist, Merthyr Tydvil, To Mr. A. J. White,

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Spanish Town, Jamaica, West Indies, Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men" and I have no reason to doubt the truthfulness of the statement. I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial.

I am dear Sir, yours faithfully, (Signed) Carey B. Berry, A. J. White, Esq., Baptist Missionary.

Preston, Sept. 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.

The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully, in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am dear Sir, yours faithfully, (Signed) W. Bowker, To A. J. White, Esq.,

Hensingham, Whitehaven, Oct. 16, 1882.

Mr. A. J. White.—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.—I remain, yours respectfully, (Signed) JOHN H. LIGHTFOOT. 15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesburg, Wills, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly, (Signed) N. WEBB, Chemist, Caline. Mr. White.

September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "God-send to dyspeptic people." I always recommend it with confidence.

Faithfully yours, (Signed) VINCENT A. WILLIS, Chemist-Dentist, Merthyr Tydvil, To Mr. A. J. White,

DIARIES FOR 1885

J. M. OAT, JR. & CO'S

Stallions at Marshfield!

"BAZAAR."

(Thoroughbred.)

By Jack Malone, he by Lexington. 1st dam, Ivy Leaf, by imported Australian; 2nd dam, Bay Flower, by Lexington; 3rd dam, Bay Leaf, by imported Yorkshire; 4th dam, Imported Maria Black, by Philo da Patah, etc.

Bazaar was bred at the great Woodburn Farm, near Lexington, Ky., by the late R. A. Alexander, and was sold to W. L. Pritchard, of Sacramento, Cal., for \$5,000. He stands 15 1/2 hands, weighs 1,065 lbs., and is a bright chestnut color. During his racing career he sired many a favorite, and won many a hatful of money for his owners, and proved himself one of the greatest of horses over a distance, most of his races being at two and four miles. He has already sired several colts in California that are winners, among which are Lizzie Dunbar, Young Bazaar, Sophia, and another called the Bazaar Minerva Colt, he being out of Minerva by imported Leamington, the sire of Parole and Iroquois. Lizzie Dunbar greatly distinguished herself last year in her two-year-old form by defeating one of the largest fields of two-year-olds that ever started in California, among which were the two beautiful fillies brought here last Spring by Mr. Agnew, distance here last Spring by Mr. Agnew, distance 5/8 mile; time, 1:04 1/2, the fastest time on record for two-year-olds at the distance. This year she has won several important events, and has proved herself to be a crack three-year-old.

Bazaar has now been brought back to Honolulu, and will remain here the balance of this year, and breeders, horse owners and stock raisers should avail themselves of the opportunity to obtain his services while they have the chance. Terms, \$40. Payable at time of service.

The imported Clydesdale Stallion Donald Dinnie, Jr. will stand at the same time and place at \$30 for the season. He was bred in Canada, sired by imported Donald Dinnie, and out of an imported Clydesdale mare. He is a beautiful dapple grey, 16 hands high, and weighs 1,400 lbs.; is very active, and as fine a large horse as could be found anywhere.

Also, the fine large imported Kentucky Jack Sampson. This is one of the largest Jacks that we could find in California, and is an animal of immense bone; is a very sure breeder, and should be liberally patronized, as he is one of the very best animals of his kind. Terms, \$30 for the season.

The public are cordially invited to call and inspect the above animals.
