

LIQUOR DEALERS ARE ON QUI VIVE

Retailers Have Put Up Cool Thousand Dollars.

TO FIGHT HARTMAN CASE IF IT GOES UP HIGHER

Cunningham Thanked For What He D.d -- Wholesalers Accused of Injuring On Business of Retailers.

The case of Joseph Hartman which came up in the Police Court yesterday forenoon and afternoon, has aroused the retail liquor dealers from their seeming lethargy and has made them see that there is danger lurking in every corner for them when it is a question of inroads on their business.

There is supposed to be a sharp line drawn between the retailers and the wholesalers of the city and the former make the claim that their business is suffering on account of the actions of the latter. They say that they pay yearly licenses of \$1000 while the wholesalers pay only \$250 and that the are entitled to some protection. They further claim that the wholesalers are daily doing them an injury by selling at retail when their licenses only call for wholesale business.

They have felt right along that there has been a violation of the law on the part of some of the wholesale dealers but nothing has been done about it. It has also been believed that this sort of thing has been hurting the trade at the retail places but nothing has been said. It took a man like William Cunningham to bring the matter to a focus and the retailers of the city are all very thankful to him for what he did in the Hartman case.

A meeting of the retailers was held yesterday afternoon and, at that time, \$1000 was pledged for the prosecution of the case against Hartman in the Circuit Court in case it should be appealed.

When seen by a Bulletin reporter this forenoon, one of the retailers said: "We are willing to put up any amount of money within reason for the prosecution of Hartman. He is a new man in the liquor business and is perhaps not so much to blame as the other wholesalers of the city, some of whom have been selling liquor at retail prices for years. However, a principle is involved. We have not been very aggressive in this matter but now that a case has come up, we intend to stand behind the thing and see that we get our rights. There is no doubt whatever that we lose thousands of dollars every year through the wholesale dealers, who do not stick to the letter of their licenses. We are going to fight through to the very end and we expect to win."

It might be said in this connection that Kamana, the hack driver who told such impossible stories on the witness stand in the Police Court yesterday forenoon, has made a clean breast of the whole affair to the police authorities. It was on the strength of this that his case was nolle pros'd in the Police Court this forenoon. He was charged with perjury.

WOULD FORECLOSE MORTGAGE.

S. M. Damon, H. E. Wally and S. E. Damon, doing business under the firm name of Bishop & Co., bankers, have brought suit for foreclosure of mortgage against Mary Buckle, spinster. It is stated in the complaint that on June 25th, 1898, the defendant secured a note from J. H. Fisher, calling for the sum of \$1,500 with interest at 7 1/2 per cent, payable annually. The plaintiff says that there is now due them the sum of \$1,100 with interest and that the same remaining due and unpaid, they now call for a foreclosure of the mortgage on the property which lies on the southeast side of Fort street between

Hotel and Beretania streets. This property is in one of the most important parts of the city and is near to the Pacific Club.

Habeas Corpus Decision.

Judge Estee has caused the attorneys in the Mankichi habeas corpus case to be notified to appear in the United States District Court at 10 o'clock tomorrow morning for the reading of his decision.

United States Deputy Marshal E. R. Hendry has released the schooner Alice Kimball from attachment under the James T. Taylor and W. G. Scott defendants, settled with Charles Divilva, plaintiff, of paying him \$400. Hence the release.

TRIAL WILL LAST DAYS

JUDGE GEAR SENTENCES AN FONG FOR ASSAULT

Two Jurors Trying Civil Cases Today --Last Criminal Case Will Come Up Tomorrow.

Judge Little opened court at 9 o'clock this morning, when the empanelling of a jury began for trying the ejectment suit of Gulstan F. Ropert (Bishop of Panopolis), trustee of John K. Sumner vs. Solomon Kuali, Kikukuli Kaula and Ho Hee.

T. McCants Stewart and Holmes & Stanley for plaintiff; Kinney, Hallou & McClanahan and Magoon & Thompson for defendants.

Judge Little got off a bon mot that made a ripple of merriment pass over the courtroom. E. S. Holt was being examined on his qualification to sit as a juror. Counsel for plaintiff had been informed that he was related to one of the parties, but the juror did not know of any such relationship. Mr. Stanley went over to the desk and held a whispered interview with Clerk Thompson and coming back whispered to Mr. Stewart, who was conducting the inquiry on that side. Mr. Stewart then informed the court that they were told that Mr. Holt's brother was married to a sister of Mr. Weed, one of the witnesses.

Counsel on neither side were ready to object to the juror on the score of such distant relationship, but Judge Little's eye twinkled as he decided laconically:

"Family compact. Step aside."

W. A. Baldwin, manager of Kahuku Plantation Co., was excused because an ejectment suit was pending between the wife of C. K. Booth, interested in this case, and the corporation employing him.

The following jurors were mutually found satisfactory, after twelve had been excused for cause and upon challenges: T. E. Krone, G. Nawaakoa, J. K. Hanaka, W. M. Buchanan, O. Cox, E. K. Hanapi, J. S. Walker, M. P. Robinson, J. A. McCandless, J. A. Legros, W. E. Rowell and B. Naukana.

This afternoon the court, jury and counsel visit the premises in dispute.

Counsel anticipate that the trial will occupy several days. The Registry and Survey departments will be heavily drawn upon for documentary evidence.

Judge Gear waited for the remnant of the panel to be dismissed by Judge Little, so that he could obtain a jury for the trial of Middleditch vs. I. Harbottle.

F. J. Russell appeared for H. G. Middleditch; Andrews, Peters & Andrade for Isaac K. Harbottle and Mary K. Harbottle.

After but one challenge, the following jury was accepted: E. S. Holt, S. M. Damon, A. Fernandez, W. A. Baldwin, Frank Harvey, George Kekoaoua, P. C. Jones, Joe Zablan, D. K. Hoopili, H. F. Bertelmann, J. B. Atherton and A. W. Pearson.

Tomorrow the last criminal case of the term will be called by Judge Gear. It is that of Nakamura, charged with manslaughter. This is the Japanese accused of knocking a countrywoman in the head, causing her almost instant death, in a Liliha street house the first of August.

Ah Fong, convicted on second trial of assault and battery, was sentenced this morning by Judge Gear to pay a fine of \$10 and \$18.50 costs.

UNCLE SAM WILL ACT

London, Sept. 2.—"The United States Government has replied in a sympathetic and friendly tone," says a dispatch to the Times from Tokio, dated Saturday, "to Japan's remonstrance regarding medical inspection of Japanese in Hawaii, promising that investigation shall be followed by suitable measures."

If there is a doubt in the minds of any in the city that the vanilla bean will not grow in the Islands, a call should be made at the Department of Agriculture and Forestry to see a sample of what Allan Herbert has succeeded in growing at his place in Kailua. On one vine alone there were 102 pods. This is not a very good showing, but it is proof that the bean can be grown in the Islands and that, with proper care, there will be much more of a production than Allan Herbert has succeeded in securing. He simply stuck his seeds into the ground and allowed them to grow, giving them no particular attention.

Attorney General Knox READY TO DECIDE BUT Hankey Asks for Time

New York, Sept. 2.—A special to the Tribune from Washington says: For more than three hours today Attorney General Knox listened to a recital of the most amazing story of official corruption and private immorality in Hawaii. The story was brought out in the defense set up by Judge Abram S. Humphreys of the Territorial Circuit Court at Honolulu against the charges made by the Bar Association of the Hawaiian Islands, for the purpose of inducing the President to remove him from the bench.

Judge Humphreys, with the assistance of Duane Fox of this city, presented a condensed form of his defense in a brief consisting of fifty-five pages of closely printed matter. In this brief he answered every charge against him, and then makes what purport to be astounding revelations concerning the protection thrown around vice in Honolulu by the high officials of the Dole government, men appointed to office by Governor Dole and kept in place and power by the Governor in spite of what Judge Humphreys declares the Governor must know of their direct connection with and responsibility for the abominable practices that are licensed in the Hawaiian capital.

Aggravations on this point made against these officials by Judge Humphreys cannot be pressed in American newspapers, though they are set forth in bold and plain language in a charge delivered from the bench to the Grand Jury by Judge Humphreys last February, and were repeated in milder form in the instructions given to the Grand

Jury last April by Judge Morris M. Estee, United States Judge for this Territory of Hawaii.

The object of Judge Humphreys in setting up this astonishing defense apparently is twofold—first, to show the animus back of the movement to have him removed from the bench, and, secondly, to show that the Dole government is not a model of purity and morality, in spite of the fact that, for the most part, its members are descendants from the original missionaries who carried Christianity and civilization to the Islands.

At the close of the sensational hearing today Attorney General Knox signified his readiness to make a report and recommendation to the President immediately, but at the earnest solicitation of F. W. Hankey, who represents the accusers of Judge Humphreys, the Attorney General gave the prosecution five days in which to prepare a reply to the Judge's remarkable brief.

The charges against Judge Humphreys are, in the main, that he has displayed prejudice and too great severity on the bench. Another charge is that he controls and runs a partisan newspaper, the Honolulu Republican, and that through this publication Judge Humphreys attempts to control the politics of the island. He does not deny the ownership of a substantial part of the stock of the newspaper, nor that before he was appointed to the bench by President McKinley he took part in the management of the property, but he does flatly deny that since

he has been on the bench he has had any part in the management of the paper. On the contrary, he is armed with affidavits from the responsible editors declaring that Judge Humphreys has had nothing whatever to do with the paper since he went on the bench, and he also produces correspondence showing that ever since he donned the judicial ermine he has been trying to sell all of his stock.

To the charge of partiality and too great a degree of severity in his department on the bench toward lawyers and fugitive Judge Humphreys replies that in this respect he has been actuated only by a high sense of the dignity of an American court, and boldly declares that he has no apologies to make for his action in fining certain lawyers for contempt of court and imprisoning others for greater degrees of the same offense.

His attorney, Duane Fox, avows that the only mistake made by Humphreys is his persistent attempt to conduct in Hawaii a genuine American court of justice. Heretofore, he says, the methods of the courts in the Islands have been loose and irregular, and the people there, not even excepting the lawyers are not yet prepared to submit to the rigid rules of dignity and decorum that prevail in the American courts. In conclusion Judge Humphreys asserts that the movement to oust him from the bench never would have been started if he had not attempted to break up by American legal processes the Hawaiian government system of licensing and protecting vice.

JAPAN MUCH STIRRED

HONOLULU INCIDENT IS SEVERELY CRITICISED

Discrimination Against Japanese Ladies Rouses the Press--Lesson to Be Drawn From the Affair.

Yokohama, Aug. 21 (via Victoria, B. C. Sept. 3).—To stay that a hornet's nest has been stirred up in Japan would be mildly express the news of the alleged outrageous treatment of Japanese ladies on the Nippon Maru by the quarantine officers of Hawaii. Nothing in the course of all the relations between America and Japan has aroused so much press indignation or

such strong popular feeling. Whatever else this nation may be, it is an eminently self respecting nation, and the enormities recently passed upon it by western people have accentuated the feeling to an extraordinary degree.

That which cuts the deepest is the discrimination which was made between foreign ladies and L. E. Japanese, and the incident thus shows clearly what difficulties are before the American Government should this people be discriminated against in the framing of immigration laws. Any such measure would also destroy the extraordinarily friendly relations which have always existed between the two Governments.

CITATION FOR CONTEMPT.

George A. Davis obtained from Judge Gear this morning an order returnable before the Circuit Court on Thursday at 12 o'clock, commanding Sylvano de Nobrega to appear and show cause why he does not pay the weekly allowance to his wife ordered by the Court, together with \$2000 costs, or be committed for contempt.

In addition to the coupons to be cut from the first page of the Bulletin, new subscribers are to be given receipts with coupons attached, entitling them to votes as follows:

One month 40 votes
Three months 150 votes
Six months 350 votes
One year 750 votes
Weekly Edition, 1 year, 100 votes

These coupons are detachable and must be torn from the subscription receipts and deposited in the ballot box the same as the first page coupons. It will be seen that for \$3. the subscription price of the Evening Bulletin for one year, 750 votes are allowed to a new subscriber, whereas the same amount of money would buy only 160 votes if spent for single copies of the Bulletin on the street. The sum of \$4

will buy eighty votes if spent for eighty single copies of the Bulletin with the newspapers or at the business office. This amount of money, if exchanged for a receipt for a six months' subscription to the Bulletin, will secure 350 votes. One dollar for one year's subscription to the weekly edition entitles the subscriber to 100 votes.

The prize offered by the Bulletin is on exhibition in the window of H. P. Wichman, 517 Fort street, and will be presented to the player receiving the greatest number of votes at the close of the contest Oct. 15.

Votes deposited at this office will be included among the scattering until the contestant has received a total of 10. From that time the names will be published.

The fire is in Government forest now but is back-burning and coming down the slope threatening homesteads above Ookala and Kukana plantations.

FORTUNATE SPANIARD

VICTIM OF HIS THRUSTS WITH A KNIFE SUICIDES

Will Have His Case Nolle Pros'd In the District Court of Ewa --Stabbing Occurred on May 4.

On Saturday, May 24, a Spaniard, Juan Colon by name, was badly cut on the body and one of his arms by a countryman, whose name the wounded man gave as Manteo Fernandez. Both were laborers on the Oahu plantation. Juan was found bleeding badly, and when Deputy Sheriff Fernandez of Ewa found out the name of the man who committed the assault, he set out after him with a posse.

It was quite a while before the officers succeeded in locating the runaway Spaniard, but they finally found him in a cannelfield on the plantation. He was arrested and brought to Oahu jail for safe-keeping by Deputy Sheriff Fernandez, the idea being to leave him there until his alleged victim should have had time to recover from his wounds.

A couple of weeks ago Juan was able to leave the hospital at Ewa and plans were being made to have him appear against his alleged assailant. Just at about this time Juan got into some trouble with his wife, which culminated on Sunday, September 1. The next morning the man was found dead in his room.

There were no appearances of violence and it appeared for all the world as if the man had died from natural causes. However, Deputy Sheriff Fernandez was not satisfied, and he sent the stomach of the deceased to Honolulu for examination. The result was the finding of enough poison to warrant the return of a verdict by a coroner's jury of seven white men of Ewa, of death by suicide.

Deputy Sheriff Fernandez was in the city today and he stated that it was his intention to take the alleged assailant of the suicide out of jail, return him to Ewa and, in the District Court of that district, have his case nolle pros'd.

Spreckelsville Cane Fire

(By Wireless Telegraph.)
Wailuku, Sept. 11.—Fire broke out in the cane fields about Spreckelsville Camp 5 last night and before it was got under control, fifteen acres of cane was burned.

It was a fierce fire while it lasted and the prompt work of plantation laborers and members of the police force from Wailuku coupled with the fact of there being little or no wind prevented an extensive blaze.

The origin of the fire has not been determined but a crazy Japanese has been arrested on suspicion.

The cane will be promptly cut and sent to the mill, so the loss will be comparatively small.

TO SAVE THE FORESTS

Denver, Aug. 28.—At today's sessions of the American Forestry Association a number of papers were read and discussed. "The Hydrography of Colorado," was the subject of a paper by A. J. Fellows of Denver. He said that the work of the division had demonstrated that the flow of the streams of the arid region taking the year throughout would furnish more than enough water for practical use.

A paper by F. H. Newell hydrographer of the Geological Survey, explained the benefits to the water supply of the forest reserves. He said:

Full development of the resources of the state and especially in the arid west rests upon a complete utilization of the water for irrigation, and power as well as domestic supply. The conservation of waters and the protection from pollution, both natural and artificial, rests largely upon the proper treatment of the forests at the headwaters of the streams. There can be no question as to the beneficial influence of these forests although the extent of this influence may be and still is open to investigation and discussion. The forests with the accumulation of vegetation upon the ground, serve to break the force of the rain and regulate the run off; excessive soil erosion is to a large extent prevented and the waters drained from the forests are as a rule free from suspended mineral matter. The Government has set about the protection of the forests upon the headwater streams of the west and Congress has under consideration legislation tending to promote the construction of large reservoirs within or adjacent to the forest reserves. There are to be found upon the headwaters of the streams many valleys whose outlets can be closed by a dam of moderate height, holding back the water from melting snow or from occasional streams. These natural reservoir sites are being surveyed and their capacity and cost ascertained. The amount of water available for storage is also being measured and facts recorded so as to make it possible to know definitely the benefits to be derived from the construction of these hydraulic works.

One of the sources of anxiety and uncertainty in regard to these reservoirs is the matter of silt or sediment. The flood waters roll along sand, gravel and even boulders depositing them wherever the current is checked. These floods, entering the artificial reservoirs, are brought to a halt and silt is cut away by the underbrush and humus burned, the driving storms soon attack and move the loose earth and disintegrated rock, starting it on its journey down the slopes to be finally caught in the reservoir below. Thus it happens that it is of first importance for the prolonged life of the reservoir that every care should be taken to perpetuate the forest cover upon the catchment area, wherever this can assist in holding the soil.

Prof. R. H. Forbes of Tucson, Ariz., read a paper on "The Open Range and the Irrigation Farmer," in which he related some of the injuries upon the cattle and agricultural industries of overstocking the ranges and suggested remedial legislation.

Willenstad, Island of Curacao, August 31.—The exequators of all Consuls in Venezuela have been withdrawn. Colon, Colombia, August 21.—Quiet prevails on the isthmus. The recent Liberal concentration in this vicinity seems to have disappeared. Whatever their numbers, the Liberals are poorly armed and without leaders, lack of organization for concerted action, and have run away themselves of no opportunity to damage the Government. Rumors are afloat, but the consensus of the best informed, conservative opinion, discredited serious hostilities or anything more than a continuation of the Liberal guerrilla system of engagements with the Government's forces.

The general situation in Colombia is divisible under three heads—the isthmus revolutions, the progress made throughout the rest of the country and the situation on the Venezuelan and Ecuadorian frontiers. The revolution is progressing in the rest of the country with varying success. The Liberals hold various towns and districts but decline to meet the Government punitive expeditions.

One thing is certain, all the governmental systems of communication are interrupted or delayed, and are unreliable, and hence it is impossible to secure reliable news on the coast of frontier happenings. It is difficult to draw a line of distinction between the troops of one country and the revolutionists of the other.

Various indications lead to the belief that there will be no actual warfare between Colombia and Venezuela.

THEIR LAST RACE

Batemans Point, R. I., Sept. 4.—A breeze of eight knots came up at noon today. The yachts Columbia and Constitution started on a race, the result of which was expected to aid in settling the question as to which shall defend the America's cup in the coming series for the cup with Shamrock II. The Constitution came down the harbor under three lower sails and club topsail. She was followed by the Columbia with jib topsail set, to get out to the start on time.

At 12:40 the committee hoisted the course signal for a fifteen-mile boat to windward and return, the course being south-southwest with the turning mark anchored about four miles east of Block Island. The Columbia crossed the line first in a fine position on the weather of the Constitution, but the latter, instead of following the old boat over the line, wore around and headed for the line on the port tack, crossing over a minute after the Columbia. The starting times, as seen from shore: Columbia, 1:00:31. Constitution, 1:01:50.

PORTO RICANS THE BEST

WASHINGTON OFFICIALS ON OUR PLANTATION LABOR

Are Told That All Immigration Efforts Will Now Be Centered on Porto Rico--Other Work.

Washington, Aug. 30.—Washington officials who are cognizant of the shipments of laborers to Hawaii that have been going on for probably a year, state that the Hawaiian sugar planters have discovered that Porto Ricans are the best suited to work on the plantations, and will hereafter spend their money and efforts in securing this kind of labor.

The Hawaiian sugar planters have been in sore straits for labor for several years, and the value of the plantations has decreased by reason of the inability to procure sufficient labor. About a year ago the Sugar Planters' Association of the Islands employed men to send labor to the islands from this country. One of the principal employes was stationed in New York for the purpose of picking up immigrants who had managed to gain admission to this country.

In the course of a year this agent has sent to Hawaii 1500 to 2000 laborers, mostly Portuguese, of which there are many in the island. The trouble about Europeans, however, is that when they arrive in Hawaii they find somebody else paying more than the Sugar Planters' Association has agreed to pay, and jump their agreements, notwithstanding they have been sent to the islands at immense expense. The total expenses to the Sugar Planters' Association has been considerably beyond \$100 per head, all railroad, steamship and other expenses being paid from New York or wherever the laborers were secured.

While the Portuguese, Italians and other classes have been procured in New York, the sugar planters have been steadily getting Porto Ricans. The experience of the last year has taught the planters that the Porto Ricans are most satisfactory and will remain with more willingness at their positions. Hereafter none but Porto Ricans are to be sent to Hawaii for work on the plantations. The climate there agrees with them, and as soon as they can be strengthened they become valuable. The trouble up to this time has been that starvation in Porto Rico among the poorest classes has left them in a sadly depleted condition, and for two or three months after arriving in Hawaii they are really unfit for work. The sugar planters, during that interval, feed them carefully and give them free medical treatment. When they are able to do work and remain faithful to their agreements they prove satisfactory.

DE WET WILL SHOOT

London, Sept. 3.—A dispatch to the Daily Mail from Cape Town says General De Wet has issued a proclamation declaring that he will shoot all British troops found in Orange River Colony after September 15.

A Cape Town special says: It is reported that Commandant Myburg has issued an order directing that all armed colonials captured after September 15 are to be shot.

Captain Wells, with a patrol of twenty-five men from Oudshoorn, was taken in ambush near Melingspoort. He and two men escaped, three others were killed and four wounded, and the rest, who surrendered and took the oath of neutrality, were released.

There is no Family Medicine so favorably known as PAIN-KILLER. For sixty years it has been used by Missionaries in all parts of the world, not only to counteract the climatic influences on their families, but for the cure of all diseases of the bowels, and for wounds, burns, bruises, etc. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c and 50c.

Nicely furnished rooms, Popular House, 1249 Fort St., \$1.50 per week up.

The Whole Story in one letter about

Pain-Killer

From Capt. F. Lyle, Police Station No. 3, Montreal:—We frequently use PERRY DAVIS' PAIN-KILLER for pains in the stomach, rheumatism, stiffness, frost bites, etc. It cures, cramps, and all afflictions which befall men in our position. I have no hesitation in saying that PAIN-KILLER is the best remedy to have near at hand.

Used Internally and Externally. Two Sizes, 25c. and 50c. bottles.

FOREIGN CONQUEST TO SAVE THE GOVERNMENT

New York, Aug. 23.—A revolutionary force of 2000 men has pushed its way over the border from Colombia into Venezuela, says the Colon correspondent of the Herald. This force, the correspondent hears, is to aid in the overthrow of President Castro. When, it is said, his downfall is accomplished a similar plan will be followed in Nicaragua.

Trouble is imminent on both the eastern and the southern boundaries of Colombia. Troops have been rushed in both directions, and the frontiers of Venezuela and of Ecuador are lined with armed men, ready to advance at a moment's notice.

No secret is made of the threatening attitude of the Colombian authorities. They assert that the revolution here has been enabled to continue only by the aid of the Liberal Governments of the neighboring republics, and that to insure peace at home it has become necessary to inaugurate a war of foreign conquest.

It is assumed here that Ecuador would join with Venezuela in any movement against Colombia—the two Liberal Governments standing united against the conservative element in control here, and making counter-charges of interference with their aims and of fomenting revolution.

There seems little doubt that the charges on both sides are well founded. The Liberals of one republic have lent a helping hand to their struggling brethren in adjacent territory and the Conservatives have retaliated in kind. Colombia has, however, been the chief sufferer, as her revolution has already lasted nearly two years. It is estimated that from 25,000 to 40,000 lives have already been sacrificed, and the end is not yet, as the smouldering embers of revolt are coming into flame in a dozen sections simultaneously and the Liberals do not hesitate to announce that they are preparing to deal a final blow.

The Conservatives retaliate by declaring that they have vanquished every army that has been collected, and that there only remains a few bushwhackers who carry on a spasmodic guerrilla warfare, attacking colonial guards, fleeing from larger bodies, robbing exposed stores and ranches and pillaging wayfarers.

SIMPLICITY OF SCIENCE.

Science is always simple. It's only quackery that juggles with jargon. Medical treatment of the past dealt with "simples," the pure vegetable remedies provided by nature. Sagwa is compounded of simples. It is purely vegetable. It is scientific, because it is based on the known curative properties of the herbs, roots, barks and gums which it contains. It is the most efficient blood purifier and blood builder known. Ninety per cent of diseases are curable by the prompt and proper use of Sagwa. It expels from the blood all corrupting and corroding elements and builds up a new body with new blood. There is no substitute for Kiekapoo Indian Sagwa. WAS AN OVERSIGHT

THAT UNION MUSICIANS WERE NOT GIVEN A SHOW

To Furnish Music for Labor Day Ball — Prof. W. E. Sharpe Hopes Better Things Next Year.

Now that the bills for the Labor Day celebration have all been settled and the men who took part in the festivities are down to work again at the old stands, a friendly complaint is registered by union musicians. In starting out it might be said that the people concerned do not place any blame on the labor unions but look upon the whole thing as an oversight.

The story arises out of the fact that the labor men employed Berger's orchestra to furnish music for the Labor Day ball. There are union men among the very best musicians of the city—men who are always in demand when functions of various kinds take place.

Among the number is Prof. W. E. Sharpe who belongs, with other musicians of the city, to the National League of Musicians of the United States. When spoken of about the matter Mr. Sharpe said he was not at all angry about it, only he thought it rather peculiar that, belonging as he does to the union and directly connected with the other big labor unions of the United States, he was not even given a chance to put in a bid on the music. Mr. Sharpe said, among other things:

"I think the whole thing was an oversight. I pay my little dollar every month, like all the other labor men of the city, toward the support of the strikers on the Mainland, and it made me feel a little sore that I was not given a chance to furnish the music for the Labor Day ball. I could have secured a half dozen men who belong to the union and then I could have gone on the outside for other men. I feel that I should at least have been spoken to about the matter. However, as I said before, I believe the whole thing was an oversight and that when the next Labor Day comes along, we union musicians will surely be given the preference."

DROVE GEN BOTHA

London, Sept. 4.—A dispatch from Cape Town says:

The forces of Colonel Scobell and Doran have driven General Botha into the Mortimer division. Nearly all of General Botha's horses are in an exhausted condition and fully one-quarter of his command is dismounted.

General Botha, unfortunately for the British, captured L-rty remnants. The Boer invaders are threatening Zuurbruk Pass, Cape Colony, which commands Swellendam. This place is well defended, however, and it is not likely that the Boers will attempt to enter the town.

WEDNESDAY, SEPTEMBER 11, 1901.

Hankey is the only man in Washington on the defensive. Humphreys offered no defense. He doesn't have to.

The Boer war is developing its amusing phase. No sooner has Kitchener plastered the country with proclamations than De Wet sets his proclamation bureau at work spreading the information that he will shoot all British troops found in Orange Free State after a specified date.

If there is one thing for which various Boards of Health have been roundly condemned, it is the exercise of a prerogative, always seriously criticized and often questioned in the courts, of making regulations supposed to have the force of law.

HONESTY WITH LABOR.

The season of strikes and threatened strikes has brought out one product of honest dealing that deserves a wider spread publicity than it has thus far received.

One Matthew C. D. Borden came upon the scene just as the scheme was about to be carried out. He made a forceful fight against any such direct antagonism of labor, pointing out the utter uselessness of such methods.

WERE HAPPILY MATED

Captain Samuel Johnson of the N. G. H. and Miss Pearl Cameron were married at the home of the bride's aunt, Mrs. E. Williams, on Chaplain lane, last evening, the Rev. J. P. Erdman officiating.

The house and yard were very beautifully decorated for the occasion. Out in front were strings of Japanese lanterns, casting a warm glow over the whole place. The lanais were decorated with flags and festoons of ferns and mauls were everywhere.

The reception and drawing rooms were thrown into one. In the makai Walkiki corner of the former was an archway of green, dotted with pink and white and surmounted by two hearts of pink and white carnations, linked together. At the entrance to this archway was a white pillow destined as a kneeling place for the bride and groom while the solemn marriage service was being performed.

Throughout the remainder of the rooms were decorations in flowers and greens and in the maika Ewa corner was an organ. The dining room, also decorated, was used as a place for the many beautiful presents sent by friends of the bride and groom.

The guests were received by Mrs. Cameron, mother of the bride, Mrs. Williams and Mrs. Warren. At 8:30 o'clock, Wray Taylor began the bridal march, from Lohengrin on the organ with Joe Rosen playing on the violin. Immediately two attendants marched through the drawing room door to ward the bridal arch, carrying streamers of pink and white ribbons. Next came Miss Johnson, followed by Mr. Cameron, upon whose arm was leaning the bride, his daughter.

Ralph Raymond, the best man, approached from another doorway. Following him was the groom. As he advanced to the appointed place with his bride, the Rev. J. P. Erdman came from the back of the bower and the ceremony was performed.

After the ceremony came the usual congratulations and then there was a pleasant time for the remainder of the evening, some of the guests dancing and others enjoying the cool of the lanais. In all, there must have been over a hundred people present.

SCALE BUG MUST MOVE

After five years of wandering about in the air of the islands, the Spanish rustlike Scaphytopa, a most useful bug plus Citreus, or scale-bug of the citrus trees, and dooms them to an ignominious death, has made its appearance again. It was found first at a place on Haleakala, Maui, by Prof. Koehle where it was attacking the Aspidosiphon on the leaves of the citrus trees. It was next found by the same entomologist on the orange and other citrus trees on the farm of J. H. Coney, outside of Lihue, Kauai.

The Professor sent specimens of this fungus to the islands from Australia, Mexico and Japan at various times during the past eight years, and he has thought that, from its non-appearance it had failed to live here. However, he was mistaken, and now the growers of orange trees and the like may be thankful for the fungus, which will now assure them of the very best of results. The scale-bug is troubled by the scale-bug.

Speaking upon the fungus this morning, Prof. Koehle said: "Authorities on the subject say that the fungus is to be found in only one place in the world, but this is a mistake for I have found it in Australia, Mexico, Japan and other places. There is a perfect belt of it around the world. Why it has not thrived in Hawaii previous to this, I cannot say but now that it has made its appearance, I believe it is here to stay. The fungus is to be found as far south as New South Wales and as far north as Southern Japan."

"It was last year that I found the fungus on the kon trees at Olinda, Maui, but they were attacking another kind of scale from the one that does such damage to the citrus trees of the islands. When I found them on the orange trees on Mr. Coney's ranch outside of Lihue, I was very happy for I saw the dawn of the protecting era of the citrus trees of Hawaii. The fungus had done such good work previous to my arrival at the ranch that all of the trees at the maika part were free from the destructive scale."

"I am now raising a lot of this fungus artificially and am having great success at it. However, I have not yet arrived at the stage where I can send quantities out to various parties who might apply for it."

VENTURA BESTS CHINA IN RACE TO FRISCO WAR IS AT AN END, FIGHTING CONTINUES

New York, Sept. 4.—Commenting on recent South African proclamations, the London correspondent of the Tribune says: British faith in the efficiency of proclamations is severely tested as the time limit set by Lord Kitchener and Mr. Chamberlain approaches. The war, which was declared by Lord Roberts to be practically over on the eve of the general elections, will be technically at an end in eleven days.

CONFER FOR PEACE

New York, Sept. 4.—A conference at which conditions of peace in the great steel strike are being discussed is being held at the office of the United States Steel Corporation. The participants in the discussion include President Charles M. Schwab of the United States Steel Corporation; Samuel Gompers, president of the American Federation of Labor; John Mitchell, president of the United Mine Workers; Prof. Jenks of the Industrial Commission; Secretary R. M. Easley of the Civic Federation, and Harry White, secretary of the Garment Workers' Association.

SCHLEY'S FOOL FRIENDS

Washington, Sept. 1.—The consensus of opinion here is that Rear Admiral Schley's friends and attorneys are injuring his case by doing too much talking and are misrepresenting the views of the man they honestly desire to favor. Naval men here do not believe that Schley is opposed to Rear Admiral Howland acting as one of the judges at the inquiry. They say Schley has the highest confidence in the honor of the men who are officers in the American Navy.

BUCKEYE CLUB MEETS.

An enthusiastic meeting of the Buckeye Club was held in the Castle Home last evening. The Sons and Daughters of Ohio turned out in good style. Prominent among those present were Judge C. W. Gustin and Dr. C. H. Humphreys of Dayton, O., who came here recently from Samoa on their way home to the Mainland.

NEW MAP OF OAHU.

Compiled from Government Surveys and Charts, Maps of Sugar Plantations, Railways, and Other Reliable Sources. This map is 18x24 inches, with artistic colorings and neat mountings, making it a very useful as well as ornamental wall map. The price of the map is \$10.00. Copies can be obtained from JAS. T. TAYLOR, 3rd Judd Building, Honolulu, T. H., or HAWAIIAN NEWS CO., LTD.

MORE WAILAUA RUMORS.

The statement was made in the Bulletin office this morning that notice had been given Wailaia shareholders that no dividend might be expected from the plantation before 1903. Regarding this E. D. Tenny, a director in the company, was communicated with and he denied that any such statement had been made as far as he knew. At the last meeting of the board of directors he knew of no action taken that would lead to such a notice being sent out.

BOERS ARE AGAIN IN CAPE COLONY

London, August 31.—Some interesting sidelights are thrown on the South African war by advices published today. A dispatch from Cape Town to the Daily Mail indicates that Schepers's commando has now moved to the southwest and invaded part of Cape Colony previously undisturbed by the Boers, while more severe restrictions have been imposed with the object of preventing communication between Cape Town and the newly disturbed areas.

The Cologne Gazette's correspondent in Cape Town declares that the entire territory of Cape Colony is a "seething mass of disorder." He says also that the Boers are receiving support from all sides. Edgar Wallace, writing to the Daily Mail, expresses a decided opinion that Lord Kitchener's banishment proclamation will not result in the surrender of that much-severely-penalized area.

In the early part of August a correspondent of the Morning Post had a long talk with Lord Kitchener, from which he gathered "that it is not Lord Kitchener, out the Government, that is to blame for many of the present evils." Lord Kitchener, it seems, complained that the home Government continually worried him about trivial details, "merely to reply to Parliamentary heckling," and that this compelled him to express a strict censorship over telegrams, although, personally, he objected to the present system. He said he thought correspondents ought to be given greater liberty and made responsible for their statements.

DID THEIR OWN WORK.

On account of the strike at San Francisco the crew of the Hongkong Maru were forced to do the discharging and loading of the vessel. The work was well done and the vessel has the largest freight for the Orient she has ever carried, a round 5,000 tons. She sailed from San Francisco just two minutes ahead of time and was able to do this by taking just enough coal to get her here.

THOMAS SQUARE CONCERT.

The band will play the following selections at a concert to be given in Thomas Square this evening, beginning at 7:30 o'clock: Part I. Overture—Light Cavalry. Suppe Intermezzo—Russian. Franke Grand Selection—Lucia. Donizetti Songs—(a) Ko Leo. Miss J. Kellias. (c) Ka Inuwal. Mrs. N. Alapai. Part II. Cornet Solo—Old Falls at Home. Charles Kreuter. Entre Act—Endoria. Andre Waltz—Weather Sails. Depret Polka—Rosely. Anger The Star Spangled Banner.

KOW TOW AND SUICIDE.

New York, Aug. 31.—A special to the Sun from Paris says: Referring to bowing and head knocking ceremonies to be observed when Prince Chun's mission appears before Emperor Wilhelm, a Chinese informant says that he does not know in China. They will do so on this occasion if Emperor William insists, but will commit suicide immediately afterward.

NEW FUNERAL CAR.

Foreman J. A. Hughes is building a new funeral car at the carpshops of the O. R. & L. Co. It will have three compartments for bodies opening out on the side of the car, into which the coffins will be placed in the same manner as with a hearse.

INTERESTING MEETING TODAY.

Varied interest attaches to the weekly meeting of the Board of Health this afternoon. The first matter will be the visit of a deputation of plumbers to ask the Board to adopt a regulation preventing any sanitary plumbing except by plumbers who have passed an examination and whose employers have filed a bond on the work to be done.

Second Jury Convicts.

The second trial of Ah Fong for assault and battery, immediately succeeding the mistrial, resulted in a verdict of guilty after the jury had been out 45 minutes. The mistrial will have cost several hundred dollars for the jury alone, adding hotel and restaurant charges to the usual fees.

MECHANICAL STOKER.

Chicago, Aug. 28.—If the experiments that are about to be made by the Chicago and Alton and the Chicago and Eastern Illinois Railroads are successful the status of locomotive fire-brick may be greatly changed. Each of these lines is equipping the engine with an automatic stoker, or firing machine. The device practically takes the place of a fireman in shovelling coal into the firebox and distributing it. These automatic firing machines are the invention of a practical railroad engine driver. They consist of funnel-shaped troughs, into which coal is shoveled. In the funnels are screws that gradually force the coal into the fire box and distribute it evenly over the fires. The funnels may be easily enlarged so that coal will go into them from the tank of the engine. By their use it is said that the work of a fireman in this line may be entirely dispensed with. Railroad men are divided as to the result of the devices in eventually displacing the firemen from the engines. Many maintain that two men will always be required on an engine.

FAILURE OF CORN AND STRIKE MAKE STOCK MARKET SHAKY

New York, Aug. 24.—The stock market is under the control of very conflicting influences, owing to developments, such as the strike and corn crop failure, which were entirely beyond human foresight, the bull movement received a setback from which it has not yet fully recovered. Prices soared to skyrocket altitudes in — and June, and the recessions which have since followed have not brought securities down to near the bargain level, not a few favorite stocks still being quoted at very high figures from the investment point of view. Values continue under the influence of the community of interest idea, which makes railroad securities safer and more profitable investments than heretofore. Unquestionably the execution of these ideas has had a most important bearing upon values. No force equal to it has been witnessed in a decade, but it is time to call a halt to see — these expectations have not been exaggerated. It will at least be some time to wait for a period that we may learn more as to the stability and working of these arrangements. Nothing will be lost by allowing time for these vast experiments to demonstrate their staying powers. At present stocks are largely concentrated in a few hands whose relations are to close and interwoven that harmonious action are imperative for the good of all. Let these stocks, however, once be fairly scattered and the community of interest plans will be severely threatened by new forces and new rivalries that are now necessarily repressed. Much satisfaction is now obtained from the continued gain in railroad earnings, and the expectations of increased dividends which such reports naturally stimulate. It should not be overlooked, however, that these gains are derived more from the increase in rates than the increase in volume. Fortunately (and it is necessary) there is plenty in sight, hence conditions are particularly favorable for a maintenance of rates, and in event of lessened business activity we will be much less exposed to disastrous rate wars than formerly. It is folly to underrate the value of the community of interest idea. It marks a new era, and a new level in railroad stocks; but that is no reason why we should perpetually entertain exaggerated ideas of its value, and the sooner we find its real and permanent worth the better for all concerned. At present nothing but pure expectancy is sustaining certain stocks at a 3 to 3 1/2 per cent basis. When they come down to a 4 to 4 1/2 basis they will be nearer their true level.
The course of the money market from now on will be interesting. The surplus reserve last Saturday stood at \$18,421,900, compared with \$20,557,050 a year ago. The demand for stock purposes will soon assert itself, and we may look for a period of declining reserves until the end of October. The reduction of the coin crop will have little effect upon the demand for money, the higher prices for corn and the abundance of wheat offsetting the lessened inquiries from that source. General business promises to be fairly active; though it is questionable if it will exceed last year's in volume. The loss from corn damage and the strike will inevitably cause some diminution of business in spots, even if the

PACIFIC UNION OIL CO.

Located in the Famous Coalinga Oil Fields of California.
Proven oil lands, completely surrounded by as rich oil-producing wells as there are in the State, yielding from 50 to 250 barrels per day.
Contract prices for oil at the Coalinga wells, 70 cents per barrel.
With twenty-five producing wells of 100 barrels each per day, you can make your own calculation as to profits.
The oil industry of California is in its infancy yet many fortunes have been made by judicious and lucky investments in oil stock. Many more will be made in the near future.
The average advance on original sales of oil stock in twenty leading companies in California has been from \$1 to \$108 per share.
Oil lands have advanced from \$1.25 to \$1,000 and \$2,000 per acre.
When the Pacific Union Oil Company has a number of producing wells on its property, its stock will have the same show for even a greater advance, as some oil stock has advanced from \$1 to \$1,500 per share.
The Pacific Union Oil Company has no salaried officers, and is controlled by well-known gentlemen of integrity, who will see that the money derived from the sale of stock will be legitimately applied to the development of its property.
For further information, apply to J. H. FISHER & CO., Stock and Bond Brokers, and Hawaiian agents for the sale of a limited amount of Pacific Union Oil Company stock, Stangenwald building, Market street.

The trial of Joseph Hartman for sell-
ing liquor at retail under a wholesale
license, was continued in the Police
Court yesterday afternoon. Defen-
dant was found guilty and sentenced to
pay a fine of \$250 and costs. It has
not yet been decided whether the case
will be appealed. Sameona, the native
who was put on the stand by the
prosecution and who told a different
story altogether from the one he gave
Deputy Sheriff Chillingworth, previous
to the trial, was arrested after the
trial on the charge of perjury. He
was released in the evening on furnis-
hing bail in the sum of \$250.

Edgar Cayless has succeeded in
raising thirty-two of the largest bar-
lett pears of any that have ever been
seen in the Islands. They were grown
at his place on Pihiki street, which is
a very few feet above the level of the
sea. Wray Taylor has one of W.
pears on show at the Department of
Agriculture and Forestry.

Captain E. F. Cameron has been ap-
pointed agent and surveyor for the
American Record of Shipping in this
Territory.

BY AUTHORITY NOTICE.

SHIRT WAIST COLLARS

STYLE AND COMFORT
COMBINED : : :

Be Advised and Try One

"MY DEAR" said the
room, "Why do you
insist on turning in
the neck of your shirt waist like
that? It isn't at all artistic."
"Because, John, it's so hot here,"
said the bride, "And, besides, low
neck is all the style in the East
now."—Two good reasons; true
ones, too; but we wonder if that
bride had been introduced to the
SHIRT WAIST COLLAR.
Made of dainty laces and ribbons,
it can be worn with any shirt
waist, adding prettily to the appear-
ance of that garment, and taking
away the unfinished look which it
has when the neck band is merely
folded in. They don't cost much
either. A dollar will enable you
to try the experiment.
