

December 27, 1941

My dear Congressman:

I am deeply grateful to you for your fine letter of December 17 concerning my recent trip to Honolulu and the report I made thereon. I feel very sure that the frank course and the bold course is usually the right course and that is the thinking I applied to this situation.

I also feel very great confidence that the report by the Board of Inquiry headed by Justice Roberts will cover the case justly and impartially and give us all the information that can be given out without supplying information to the enemy.

Yours sincerely,

Honorable John D. Dingell  
U. S. House of Representatives  
Washington, D. C.
