PUBLIC SCHOOLS OPEN TO-DAY

THE PEDAGOG AND THE PUPIL

EVERYWHERE THROUGHOUT THE TERRITORY THE NEW YEAR OF SCHOOL WORK BEGINS—IT IS EXPECTED THAT THE ENROLLMENT WILL BE THE LARGEST EVER KNOWN—LARGE CROWDS AT MOST OF THE CITY SCHOOLS—PRIVATE INSTITUTIONS.

This was the pedagog's busy day for the schools reopened and there was something doing every minute. Oddly enough there were none of the children creeping like snails unwillingly to school for they appeared so utterly eager to get to school and to be registered that at every place of learning in the city the principals were overwhelmed with work in sorting out and placing their charges. Until this work is concluded, probably by this evening, it will be manifestly impossible to get at any figures to show the relationship between the attendance this year and last.

Up at the Royal School this morning Rev. Canon Mackintosh was perhaps the busiest man in town. The school was simply besieged by eager parents and scarcely less eager children of every race and color in our polyglot population. From a mere cursory glance the Japanese seemed to predominate in the applicants for places, but there were many Hawaiians and Portuguese with more than a few Chinese and half-Chi-

nese. There seemed to be a marked scarcity of haoles. Canon Mackintosh sat in his office rapidly reducing order out of chaos, listing the applicants as they came in and telling them the rooms to which they should report. It could not but be remarked that the knowledge of English among the children, many of them very young, was excellent. Whatever they may speak at home English was the medium of conversation at the school amongst all the races. True there were peculiar twists to phrases and clauses which a stranger to the argot might have had difficulty in understanding at first, but generally speaking there was little need of translation. The youngsters were all well behaved and barring the eagerness to get placed in line for the principal's room they were very orderly indeed.

"Yes, we are going to be crowded," said Principal Scott, of the High School. "Every room both in the High

(Continued on page five.)

POLO MEN INJURED

A bad collision occurred at the polo grounds this morning, which will result in Fred Baldwin of the Maui team being unable to participate in the game tomorrow with Oahu. Harry Baldwin was also injured but he will probably be able to play. The Maui team was at practice. Harry and Fred Baldwin were riding toward each other and in some way they collided. Both horses were knocked down and their riders thrown. Fred Baldwin sustained a bad contusion of the left shoulder, and injury that will prevent his playing, while Harry Baldwin sustained a contusion of the left leg. The latter will be able to play. The men were removed to the Hawaiian Hotel where Dr. Judd attended them.

TWO SAILING VESSELS ARRIVED.
The bark Seaking arrived this morning 45 days from Newcastle with a cargo of coal for Lahaina. She anchored off port and will proceed to Lahaina. The bark Kalutan arrived today from San Francisco in 19 days.

GLEE CLUB AT ZOO.
The Kawaihau Glee Club will play and sing at the Kaimuki Zoo Sunday afternoons from 2:30 until 6 p. m. Just the music to please and satisfy you.

SCHOOL BOOKS—SCHOOL BOOKS.
With each purchase of School Text Books, we give away choice of bottle ink, lead pencils, rulers and pencil tablets. We have the largest assortment of School Text Books in Honolulu. Wall, Nichols Company.

Mistakes Impossible

A complete system of identification in practical use in connection with our safe deposit vaults, so that it is impossible for an unauthorized person to obtain access to any deposit.

HAWAIIAN TRUST CO. LTD.
Fort Street, Honolulu

POLO TOMORROW

The return polo game between Maui and Oahu will be played at Moanalua tomorrow afternoon. An impression has been abroad that it was fixed for Thursday but this is an error.

RECEPTION TO THE CONDOR.
The Germans of the city are arranging for a reception to the officers and crew of the Condor Saturday night at the Young Hotel.

BISHOP TRUST ACCOUNTS.
The accounts of the trustees of the C. R. Bishop trust were approved this morning by Judge Robinson, a master's report by M. T. Simonton being filed showing the accounts to be correct.

TWO HOLT DEMUR.
Demurrers to the petition for sale of lands of the R. W. Holt estate have been filed by Owen J. and Chris J. Holt. One of the grounds is that the court has no jurisdiction, as there are no debts of the estate.

LULU DIVORCED.
Judge Robinson this morning signed a decree in accordance with his recent decision, awarding a divorce to the cross-complainant in the case of Lulu Johnson vs. Charles Johnson. The latter gets the custody of the six children.

Automobiles can be hired day or night at Club Stables, Fort Street.

K. Yamamoto wholesale dealer in Japanese provisions and general merchandise. Special attention to plantation orders. Hotel street near Nuuanu. Telephone Main 399.

NOTABLE NEW GOODS.
The S. S. Alameda brought some striking novelties for Sachs' Dry Goods Co., which are now on display at the big store. Ladies' Shirt Waist Suits in white linen and white soft Serge Suits are features which will be appreciated.

UTILIZE

(To Make Use Of)
This is what I should do with that wall space that I have. How well it would look to have it filled in with a nice set of GLOBE-WERNICKE book-cases; and it would certainly keep my books in better shape. I think I will take ten minutes and go and see them at

The J. A. M. Johnson Co., LIMITED
521. Fort Street.
Phone Main 143. P. O. Box 514.
Specialists in Modern Office and Store Methods.

TREATY SIGNED TO-DAY

(Associated Press Cable to The Star).

PORTSMOUTH, N. H., September 5.—The treaty of peace was signed here today by the representatives of Japan and Russia. The draft does not differ from the previous announcement of the various points agreed upon by the emissaries. There was little ceremony attending the signing of the treaty. There is general rejoicing over the successful result of the deliberations.

JEFFRIES REDUCES HIS PRICE

SAN FRANCISCO, September 5.—Champion James J. Jeffries today decided to accept \$1,000 to referee the Brit-Nelson contest at Colma on September 9.

MORE DYING OF YELLOW FEVER.

NEW ORLEANS, La., September 5.—There have been 15 new cases of yellow fever and two deaths from that malady during the last 24 hours.

MORE CHOLERA REPORTED IN BERLIN.

BERLIN, September 5.—The report on the cholera situation here shows that there has been one death during the last 24 hours, making the total number of cases 77 and total number of deaths 24.

NEW CHINESE MINISTER AT PARIS.

PARIS, September 5.—Liou Shun, the first secretary of the Chinese Legation here, succeeds Soueng Paok as Chinese Minister to France.

FATAL RAILROAD COLLISION IN COLORADO.

DENVER, Colorado, September 5.—Three persons were killed and 31 injured today in a collision at Brush, Colorado, between passenger and freight trains on the Burlington-Missouri Railroad.

WHAT THE TEAM MANAGERS SAY

The Elks having won the first series and the H. A. C.'s the second, the question of the championship is still undecided and as previously arranged, the two winning teams will have to play off for the premier honors. This will be done by playing the best two games out of three. A meeting of the League was called this morning for Thursday afternoon next when the dates of the three games will be decided upon, although, of course, only two may be played. It seems to be the general opinion that the games will be fixed for Sundays.

"They fairly outplayed us and that is about all that can be said," remarked Manager Richardson of the Elks. "It's true that they played in luck and we played out of luck but that does not rob them of any credit for the victory. Joy's pitching was immense, about the best that has been seen for a long while. I have no doubt that we will catch our stride again and win the championship in the play off. Yesterday's was a great game and it speaks well for the quality of ball that Honolulu puts up."

"I think that we fairly beat the Elks," said Manager Williams of the Honolulu team this morning. "We outplayed them all along the line and the result did not seem to me to be in doubt at any time. Joy played the game of his life, somehow he always plays his best when up against the Elks. Yes, I think that we shall win in the games that are to come. There was only one unpleasant feature of yesterday's game and that was the manner in which one of our players was treated by some persons in the grand stand. A number of insults were hurled at him and he was naturally much offended. I do not blame either the Elks or any Elk supporters for this but some steps should be taken to protect the players from that sort of thing."

BIG CALENDAR IN POLICE COURT

DRUNKS PREDOMINATED IN THE LIST—A GERMAN SAILOR WHO COULD NOT GET ANY WORK!

There was a large number of cases on the police court calendar today and Judge Whitney was kept busy for several hours this morning disposing of the calendar. Fifty cases were before him for disposition. Intoxication was the largest number, there being nineteen in all. Most of these were fined \$5 and costs each, while others forfeited bail.

A number of Chinese charged with gambling had their cases continued until this afternoon. J. J. Burke and R. Magee, sailors, were charged with assault and battery

OUTBREAK IN SAVAI

VOLCANIC ACTION MORE SERIOUS THAN WAS THOUGHT BY THE OFFICERS OF THE CONDOR—NEWLY FORMED MOUNTAINS OF PRODIGIOUS SIZE CARRIED BODILY, THOUGH SLOWLY BY THE LAVA FLOWING OUT AT THEIR BASE.

The volcanic outbreak on the island of Savai, in the Samoan group news of which was brought by the German war ship Condor seems a great deal more extensive and important than the officers of the Condor were led to believe.

The following is a description of it as seen by Ernest George Neill and George Furlong, who went to the scene of activity shortly before the Sierra arrived at Pago Pago.

The outbreak is situated some 10 miles almost, direct south of Matautu and it is situated at the head of a valley on a mountain slope. At the commencement the crater was nothing more than a high crack of the earth's crust with only one active place; but later on the activity developed in another some 50 yards distant from the former; these fires are situated north and south. The activity of this volcano is phenomenal as in a single fortnight it has created a new mountain with four peaks one of which will soon reach a 1000 feet above sea level. The quantity of material ejected is

beyond all comprehension, and its mode of action very different to the ordinary method of volcanoes.

The lava has flowed out from the first; but not over the mountain sides, but invisibly through tunnels at the base of the newly formed mountain, and before getting away from the vicinity of the outbreak it has been covered with unimaginable quantities of unsmelted rocks, slag, cinders, ash, etc.

Then as the lava underneath has increased in quantity and flowed down the valley, the mountains on top of it have moved also, and no doubt this dry mass of stuff moving bodily along, was the chief cause of the terror of the people.

To give some idea of the gigantic power at work, one has but to mention that some of these moving mountains which have been thrown out of the crater, have reached points several miles from the mouth. Fancy a traveling mountain range four or five miles long and in many places one-quarter

(Continued on page eight)

"POPPYCOCK," SAYS JACK

SECRETARY OF THE TERRITORY AND CHAIRMAN OF THE BOARD OF IMMIGRATION DECLARES THAT THE WORK OF THE BOARD IS PROGRESSING SATISFACTORILY—PLANTERS' ASSOCIATION TO HOLD A MEETING ON SEPTEMBER ELEVENTH.

"It's all poppycock," said Secretary Atkinson, chairman of the Board of Immigration, and I am confident that things are coming out fine. From reports received so far I believe that the work of the board is destined to be a great success.

"Such work as the board is doing cannot be accomplished in a day, but we are making progress. It takes time to get men together and to arrange plans. You can say that I am as confident as ever that we shall succeed, that I do not recognize any crisis at all and that the board will go ahead with its programme. It will attract here the right kind of settlers and laborers. It is entirely wrong to say that the Board is up against a prospect of failure."

A Planters' Association meeting has been called for September 11, at which it is understood that the matter will be discussed. Reports have already come in from many plantations on propositions submitted for offers to attract laborers, and these will be discussed at the meeting on September 11. The Board of Immigration will probably receive reports from the planters after the meeting of the latter, and all that the board will go ahead with its programme. It will attract here the right kind of settlers and laborers. It is entirely wrong to say that the Board is up against a prospect of failure."

UNNECESSARY EXPENSE.
Acute attacks of colic, cholera morbus and dysentery come off without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases. Sold by all dealers, Benson, Smith & Co., agents for Hawaii.

A SURE WINNER.
It's pretty hard telling which nine will win the great ball game, but there's no doubt that the Criterion is a winner every time in the matter of choice wet goods.

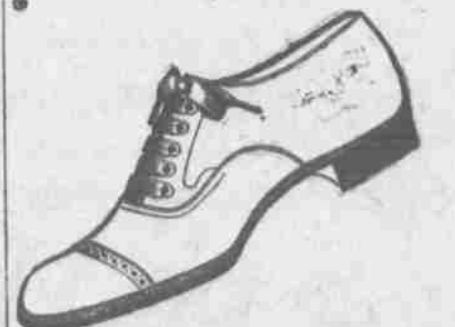

Lutted's Hawaiian Poi in Pound Cans for sale by all druggists and grocers.

SCHOOL CHILDREN ARE HAPPY.
Because Arleigh & Co., are giving presents with every 25c purchase. The only store that sells school text-books.

11	2:29	1:6	2:23	7:24	5:02	5:45

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

METEOROLOGY OF SEPTEMBER.

The following data, covering a period of 29 years, have been compiled from the weather bureau and McKibbin records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years but must not be construed as a forecast of the weather conditions for the coming month.

Month September for 29 years.

TEMPERATURE. (1890-1904.)

Mean or normal temperature, 78°.

The warmest month was that of 1891 with an average of 80°.

The coldest month was that of 1895, with an average of 77°.

The highest temperature was 88° on September 9 and 16, 1890; September 29, 1891; September 14, 1892; September 10, 1896; September 12, 1900.

The lowest temperature was 65° on September 15, 1890.

PRECIPITATION ((rain) (1877-1894 and 1904.)

Average for the month, 1.24 inches.

Average number of days with .01 of an inch or more, 14.

The greatest monthly precipitation was 2.95 inches in 1888.

The least monthly precipitation was 0.36 inches in 1883.

The greatest amount of precipitation recorded in any 24 consecutive hours was 1.27 inches on September 8, 1888.

CLOUDS AND WEATHER. (1890-1904.)

Average number of clear days, 12; partly cloudy days, 15; cloudy days, 2.

WIND.

The prevailing winds have been from the northeast.

The average hourly velocity of the wind during September 1904 was 4.5 miles an hour.

The highest velocity of the wind during September, 1904, was 29 miles from the northeast on the 2nd.

Station: Honolulu, T. H.

Date of issue: August 30, 1905.

ALEX. McC. ASHLEY.

Section Director, Weather Bureau.

BUGS AT HOME

Are not the kind of company we are very much inclined to be hospitable with, in fact we are very much desirous to find the best methods, WITHOUT OFFENDING THEM, in politely informing them their absence is preferable to their company. Now the most positive and permanent means that we can highly recommend, is to procure a bottle of our

Rough-on-Bugs

and thoroughly spray into the different parts of the house, where the bug is inclined to romp and make it his favorite place to lounge about and annoy you.

Rough-on-Bugs....

plays no favorites and it will put out of business any and all kinds of bugs, germs and insects.

In its death dealing operations it will not destroy any article of dress or furniture, and is simply used by inserting the nozzle, which accompanies every bottle, and spray as before mentioned. This bug destroyer has been a good friend to a great many people for a long time, but no friend to the bug.

ELKS SHUT OUT BY THE H. A. C'S

LARGE ATTENDANCE AT THE BIG GAME YESTERDAY ENJOYS FINE BALL.

The interest taken in yesterday's baseball game between the Elks and the H. A. C's was intense enough to crowd the grand stand and the result of the game was a complete overthrow of the Elks by a score of 4 to 0. The Elks were completely outplayed not registering a solitary hit throughout the game a fact which reflected a great deal of credit on Pitcher Joy of the Honolulu. A great deal of money changed hands on the game, the betting being generally at evens.

The first game, between the Mailes and the Kams, was very poor, the Kams winning a hollow victory by 15 to 4.

Following is the standing of the teams:

Clubs	P.	W.	L.	Pct.
Elks	16	12	4	.750
H. A. C.	16	9	7	.562
Punahou	16	7	9	.437

ENCHEW LIGHT LITERATURE.

The Japanese are serious-minded people and their literary habits show. They take life seriously and devote their time to the reading of what would be called in America solid books. The recent report of the librarian of the imperial library at Tokyo shows he was heart and soul in sympathy that there is little demand for light literature in the capital, for fiction of the problem kind contrary to the experience of most of the libraries in England France and America. The Japanese mind runs to science, mathematics, medicine language and to what may be termed the graver forms of literature. More than 40 per cent of the works taken out of the imperial library are of this character. The Japanese are very fond of history, in the making of which the are extensively engaged at present in the eastern war. Engineering, military and naval science receive much attention. The interest in these subjects has been greatly stimulated by the war.—Philadelphia Ledger.

A Lesson From Louisiana

The yellow fever epidemic at New Orleans is not affecting sugar shipments much, according to Willett & Gray's latest circular. Since it has become generally recognized that the disease is transmitted by mosquitoes and not by germs, sugar from an infected district is regarded as harmless and it is being freely received in most places. The circular says:

"Yellow Fever.—New Orleans, August 14, 1905.—There has been virtually no change in the quarantine situation since my letter to you of the 7th. The refineries here are experiencing no trouble in the shipment of their product and it is confidently expected that sugar shipments from New Orleans throughout the summer months will not be interfered with. In fact the Stegomyia Fasciata, or mosquito theory, has been so thoroughly disseminated throughout the Southern States as being the only means of contamination, that all enlightened communities have now accepted this theory, and with the exception of quarantining against passengers, baggage, household effects, tropical fruits and a few other such articles, heavy freights, such as sugar, etc., are moving without interruption. The exceptions to this rule are a few interior towns who still adhere to the old germ theory and some of these towns will consume 100 barrels of sugar per week."

There is a lesson for Honolulu in these remarks. It emphasizes the importance of our anti-mosquito crusade.

The situation which has thus been relieved by the application of common sense and modern scientific knowledge may be realized from the following description by the Sugar Planters' Journal in its issue of August 12: "With the reported breaking out of yellow fever in Louisiana, almost impenetrable quarantine lines have been drawn by the fever-free parishes, and a panicky condition generally prevails that is already working great hardship to the country districts at large. Existence of antipathy on the part of some of the parishes to receive passengers from almost any point, whether infected or otherwise, and the disposition to even refuse to honor certificates held by parties from infected districts showing the holders to have spent the required time in detention camps, has set up a chaotic condition that called for the issuance of a proclamation this week by the state board of health, which is to be seen elsewhere in this paper.

"It behooves no section of the state more than it does the sugar district to see that the quarantine restrictions as pointed out by Dr. Souchon are not exceeded by overzealous parish and town health authorities, for no industry is more dependent than that of sugar on the procurement of outside artisans and laborers for the effecting of factory improvements and the conduct of the sugar campaign.

"A great deal of sugar-house work is now under way, and in order to have same completed in time for the coming crop it is imperative that as little inconvenience as possible be felt in the handling of machinery shipments and its erection. Fortunately, receiving of freight shipments is not interfered with to any extent in the sugar-producing parishes, and this sensible view of the situation seems likely to undergo no change."

Congress For Gregorian Chant

At Strasburg, in Alsace, there was held from August 6 to 19 an International Congress for Gregorian Chant under the direction of Professor Wagner, of Freiburg, Switzerland, thus realizing the design of Pius X.'s Motu Proprio of November, 1903. While this congress was held under exclusively Roman Catholic auspices, invitation to take part in it was extended to all who take either a direct or indirect interest in Church music, clergy-men, choir-masters, organists, choristers and laymen, that they might be "strengthened in the esteem and love, in the understanding and practice of Gregorian chant and in bringing about uniformity in its execution and accompaniment." There were papers and discussions each day from nine to twelve, practice and exposition in the afternoons, with a daily solemn pontifical High Mass, at which only Gregorian melodies were permitted. There were also two church concerts in the Strasburg cathedral, the one presenting ancient, the other modern, treatment, organ and vocal, of Gregorian motifs of every style. Cards of admission to the congress could be had for the merely nominal fee of five marks; single day tickets were also provided.

Opening Of The Public Schools

This is the day when the public schools open for the year. In every part of the territory, children of every nationality represented in our cosmopolitan population, have found their way to the school houses which a deep seated American appreciation of education has erected in even the most out of the way places.

The school system of Hawaii dates from a very early period in the beginnings of its advance in civilization. It was one of the first works of the New England missionaries to establish schools. The language had not been fully reduced to writing before schools began to be established in which reading and writing the language was taught, and it was a surprisingly short time before practically the whole population was in daily attendance at school learning this new and wonderful art by which friends could communicate with one another though separated by the greatest distances possible in the Islands.

There is something most fascinating and inspiring in those early missionary accounts of the eagerness with which the Hawaiian people took up the study of reading and writing and the elements of other branches of school instruction. The reproductive possibilities of instruction when once the spirit of desire is enkindled is one of the marvellous lessons of this period. The Missionaries and their regular assistants could not begin to provide instruction directly for the thousands of Hawaiians who desired it. But such was the eagerness of that desire, that no sooner did one learn, even the rudiments and beginnings of reading and writing, than he became an instructor to those who still lacked his knowledge. In an incredibly short time the ability to read and write, at least in some sort, had become so widespread as to be general. Of course such a system of instruction is crude and faulty. It could have no justification except necessity.

But crude as it was, it was a beginning. The early missionaries spared no pains to improve it. The system of instruction and the systematization of instruction, progressed quite as rapidly as, if not more rapidly than, the nation did in other elements of civilization and progress. Some very capable men have been at the head of the school system of Hawaii since the school system has been a governmental affair, and at no time has there even been one at the head of the department who was not sincere and anxious to do all that he could.

For years the Hawaiian school system, whatever its other deficiencies may have been has had that fundamental requisite of a popular

school system—universality. It has reached out to all the pupils of school age in the territory. School houses have not always been as well designed as they should be or as well supplied with appliances. The teachers have not always been the best, though they have always been the best attainable under the circumstances. But the school house and the school teacher have always been there, and no youth in these islands for many a year has needed to grow up in ignorance for the want of opportunity for instruction in the fundamentals.

There has been great progress in late years. Under Superintendent Atkinson the department was brought to a higher educational plane than it had ever been before. Under him the spirit of progression was domiciled in the department. The rejuvenated Lahaina school, teaching the hand as well as the head, and through the hand and head, the heart, the Industrial school for boys at Waialea, and the similar one for girls in Palama, and the new Normal school building now practically complete, are monuments to his far-sightedness, his broad-mindedness and his capacity for organization and coordination.

The school system brought to an excellent state of working possibilities is set in motion today for another year of work and effort, and there is every reason to believe, progress. Superintendent Davis has the intimate knowledge that comes from experience, of what is needed in the schools, and it is believed the will and the capacity to supply it. There is every reason to believe that the work of the schools this year will prove the most effective in the history of the schools of the islands.

Among the passengers going through on the Sierra today was a young gentleman named R. E. Morse. That name seems so familiar.

How well Secretary Taft has impressed his ideas respecting the Philippines and what should be done with and for them on those in his party, is shown by the fact that Lafe Young, the Iowa newspaperman, who is with the party, one of the staunchest "standpatters," one of the most uncompromising opponents of tariff revision, one of the very buttresses of the Tariff wall, writes thus to his paper: "It is hoped by the examination of witnesses in Manila and

WHOLE TERM HAS LAPSED

FIRST CIRCUIT COURT TERM UNDER THE COUNTY SYSTEM IS OPENED THIS MORNING BY JUDGE LINDSAY—HUMPHREYS SAYS THE TERM HAS LAPSED BY REASON OF FAILURE TO OPEN IT YESTERDAY.

The first term of the circuit court here under the county system opened this morning with Judge Lindsay presiding. Deputy Attorney General Peters appeared with County Attorney E. A. Douthitt for the prosecution. Almost at the start a sweeping attack was made on the jurisdiction of the court to do anything at all, on the ground that the whole term had lapsed because it was not opened yesterday. A. S. Humphreys announced in the case of the Territory against Ah On that he would have such a contention to advance. The statute provides that the term shall open on the first Monday in September and it was not so opened, yesterday being passed as a legal holiday. It will be claimed that the failure to open the term on the day specified makes the term lapse. Other attorneys later made the same point, and there will be considerable argument over it.

Judge Lindsay was to have charged the Grand Jury, but there were not enough jurors. Of those summoned the following were excused: J. Love, C. H. Atherton, J. R. Aheon, N. Fernandez, J. Richards, Chris Willis, H. Weinrich.

Judge Lindsay issued a special venire for twelve more jurors, returnable at ten o'clock tomorrow morning, at which time he expects to swear in and charge the Grand Jury. He then retired and Judge Robinson took the bench and proceeded to call the criminal calendar.

The four charges of embezzlement against former land commissioner Edward S. Boyd were not passed by Douthitt. The defendant is serving a term of ten years for embezzlement in a case that was tried. The five similar charges against E. Vivian Richardson were passed. The county attorney answered ready, but A. G. M. Robertson for the defense stated that he had been waiting three months for a bill of particulars. It was promised within twenty-four hours, and the cases were passed.

Next Monday was fixed upon as the day for beginning jury trials, and on that day the criminal hearing will begin with the case of Morimoto, charged with having a che fa ticket in possession. J. W. Cathcart appears for the defense. Enough cases were set in order to follow to take up the rest of the month.

In the Takada murder case Judge Robinson made an order again appointing ex-Justice A. Perry and H. G. Middleitch as counsel for defense. They defended him last term by appointment and had the indictment quashed. Perry immediately made an objection to the jurisdiction of the court, on the ground that there was no term, and Hogan followed with the same proposition in behalf of his defendants.

Hitting made a kick against a prospective writ for Frank Fisher, charged with selling liquor without a license and with keeping a disorderly house. He also kicked against delay in an equity suit which he said he had had on the calendar for six years, expressing a hope that Robinson's taking up criminal cases would not delay it. The Fisher cases were set for September 21. As to the equity case Robinson said he thought there must have been neglect to prosecute if six years had elapsed without its being tried.

Judge Robinson this morning gave a decision dismissing the libel suit brought by A. V. Gear against the Advertiser for \$10,000 damages. The decision is an order sustaining a demurrer filed by J. J. Dunne, counsel for defendant. The alleged libel was in charging that Gear was renting property in Iwilei to be used for houses of ill fame, but the decision holds that the article published did not charge that Gear knowingly did so, hence was not libellous.

The language complained of was as follows: "So Gearville is in the midst of things again. The premises mainly used for housing the Japanese social evil at Iwilei were leased for the Fidelity Insurance Co. by A. V. Gear, president, also president of the Bulletin. Evidently, since this expose became inevitable, Mr. Gear's availability as a candidate for Superintendent of Public Instruction has become impaired. At least nothing more has been heard of it."

Judge Robinson says in his decision that it is only necessary to consider two of the grounds of the demurrer, these being sufficient. They consist mainly in the claim that the language of the article is not libellous per se. The judge says:

"As the article complained of does not associate the plaintiff with the so-called 'Japanese social evil,' personally, but merely in his representative capacity as an officer and agent of the Fidelity Insurance Company, I think it safe to assume that the language employed, as read and understood by a person of ordinary intelligence, would not tend to injure or defame plaintiff in his fame, reputation or good name or to bring him into public scandal, disgrace, abhorrence, odium, contempt or ridicule, unless it also tends to impute to him the commission of a crime or some public offense involving moral turpitude."

Judge Robinson says that the plaintiff relies upon section 3162 of the revised statutes of Hawaii as showing that the article in question charged Gear with the commission of a public offense, but as to whether the article makes such a charge or not he says:

"It will be observed that the portion of the section referred to uses the word 'knowingly' in defining the public offense thereby created and by such use makes the fact of knowledge on the part of the owner or lessee or agent of the use or purpose for which such house or place is let or permitted to be kept or maintained an essential ingredient and element of the offense. * * *

"Applying the rule stated to the case at bar I am constrained to hold that the language complained of is not libellous per se. It is nowhere charged that the plaintiff knowingly let or permitted the premises in question to be used for the housing of the Japanese social evil, assuming that that expression possesses the meaning claimed for it by plaintiff in his innuendo.

"It is ordered that the demurrer of the defendant to the complaint of the plaintiff be and the same is hereby sustained without leave to amend, and this action is hereby dismissed. Dated, Honolulu, September 5th, 1905.

A. J. ROBINSON, Third Judge, First Circuit Court."

Mrs. Lieutenant Burroughs wife of an officer of the 12th Cavalry, fell and broke one of her ankles just after the vessel left Manila.

On August 21 Sergeant Major John F. O. Koch of the engineer corps died of heart failure. He had served thirty years in the army and was going home to retire.

SHERIDAN STAYS A SHORT TIME HERE

TRANSPORT ARRIVED YESTERDAY FROM THE FAR EAST AFTER AN UNEVENTFUL TRIP.

The transport Sheridan makes a short stay in port on her present homeward trip to San Francisco from Manila. She arrived here yesterday afternoon at 4 o'clock from Manila via Nagasaki. The vessel experienced good weather during the trip. At Nagasaki several Japanese cruisers torpedo boat destroyers and gunboats were in port. There are aboard the vessel nearly 1,200 soldiers, the majority of them being from the engineer corps and the 12th Cavalry. Col. Henry Wygant of the 2nd Infantry is the ranking line officer on the vessel and is in command of the troops. She brought no passengers for Honolulu.

The body of the late Captain Barry the U. S. quartermaster at Nagasaki is being taken home. He died from the effects of injuries sustained in a train wreck in Japan, during a typhoon.

Captain Frank Morrow is the quartermaster of the vessel. The Sheridan will sail at 4 p. m. today for San Francisco.

BUCKLAND LEAVING. Chief Clerk C. R. Buckland of the Secretary's office leaves this afternoon on the Sierra, accompanied by Misses Hazel and Vivian Buckland for a vacation trip to San Francisco. Buckland invites an inspection of his accounts to ascertain how many Sundays he has worked or been paid for, and says he hopes it will begin, as in the case of Sam Johnson, about the

time Diamond Head Charlie loses sight of the Sierra's smoke.

SIERRA WILL TAKE WELL KNOWN PEOPLE

VESSEL ARRIVES THIS MORNING FROM THE COLONIES WITH A SMALL SIZED CROWD.

With a small list of passengers from the Colonies the S. S. Sierra arrived this morning on time. She left Sydney August 21 Auckland August 24 and Pago Pago August 29. Fine weather was experienced throughout the trip, the steaming time to this port being 15 days, and 30 hours.

In the list of passengers is Lieutenant Commander Bittler, U. S. N., who has been in Pago Pago on duty.

Professor Bottomly is a musician who is en route to San Francisco.

Miss N. Butler and Elsie Moore are actresses who are going to the mainland to appear in American theatres.

Five passengers stopped over at Honolulu among them being Mr. and Mrs. William Brush. He is a capitalist who has been visiting in Australia.

L. De L. Ward arrived. The vessel will take a fair sized crowd of passengers from Honolulu for San Francisco. J. Sutherland Ross, the passenger agent of the Oceanic S. S. Company will return to San Francisco.

H. H. Henton is booked to depart. Miss Abbie Dow will return to attend school in her case.

E. D. Lowrey will also depart for the Mainland.

Miss Agnes Lyle is to leave for San Francisco by the steamer.

Chief Clerk C. R. Buckland, of the Secretary's office will depart for a vacation to the mainland, accompanied by his daughters.

W. T. Rawlins former deputy high sheriff, will depart on business to the mainland.

The Sierra is scheduled to sail at 3 p. m. today from the Oceanic wharf for San Francisco.

PEDAGOG AND PUPIL

(Continued from page one.)

and Grammar Schools will be full up. Let's see, we have forty-one new applications for the Grammar to the High.

I cannot say nearer than that we will have between 400 and 500 pupils until we get things straightened out."

As he hits the lofty condition of dignified High Schoolers there was none of the noise and bustle about the High School that there was in the Junior places. When a young person has reached the eminence of the High School there is little left in life worth reaching for further and well the new entrants know the proper respect to pay those who have just passed through the freshman class and are one step higher. So it is that awe and not noise characterized the High School's opening today.

It may be worth noting that despite the orders of the legislature, the schools did not display the national flag today. Perhaps the new flags have not yet arrived.

The Kamehameha Schools opened this morning with an attendance of 130 big boys, 80 girls and 60 in the preparatory school, a full complement. Work was organized for the coming term and recitations will not commence until tomorrow. It is expected that more are going to join during the week.

Oahu College will not open until Monday next.

Superintendent Davis said this morning that there was a prospect of large attendance at the various schools.

"We shall not receive returns from the schools until this afternoon," he stated "but the figures showing attendance will be available when the enrollment ceases this afternoon. The openings are being carried on as usual, with enrollments of pupils of all classes."

ARRIVING. Tuesday, September 5.

Am. bark Kaulani, Dabel, 19 days from San Francisco at 1:30 p. m.

Am. bark Sea King, Krebs, 45 days from Newcastle arrived off port at 9:30 a. m.

DEPARTING. Tuesday, September 5.

Am. bktn. S. G. Wilder, Jackson, for San Francisco at 1:15 p. m.

SMALL BLAZE AT THE MOANA. An alarm of fire was turned in from the Moana Hotel, Walkiki, shortly after half past twelve this afternoon. A fire had been discovered in some rubbish just behind the kitchen and while it seemed easy enough to handle, the alarm was sent in a precautionary way. The small blaze was extinguished by the hotel hands without difficulty and the firemen arrived to find that there was nothing for them to do. Had the fire occurred at night it might quite possibly have resulted seriously.

A. E. Mist, of Alexander & Baldwin, left today by the steamer Mauna Loa for a trip to the volcano.

HALEIWA. \$613,000

The Haleiwa Hotel, Honolulu's famous country resort, on the line of the Oahu Railway, contains every modern improvement and affords its guests an opportunity to enjoy all amusements—golf, tennis, billiards, fresh and salt water bathing, shooting, fishing, riding and driving. Tickets, including railway fare and one full day's room and board, are sold at the Honolulu Station and Trent & Company for \$5. For departure of trains, consult time table.

On Sundays, the Haleiwa Limited, a two hour train, leaves at 8:22 a. m.; returning, arrives in Honolulu at 10 p. m.

THE JOHN H. ESTATE. By C. A. Brown, Mgr. The Lessees offer a reward of \$10.00 for convicting evidence.

Removal Notice. Dr. H. V. Murray has removed to his new offices in Hawaiian Hotel cottage on Alieka street opposite Pacific Club.

BY AUTHORITY. All holders of Republic of Hawaii 5 per cent bonds of the issue of 1896 are hereby notified that the principal and accrued interest to October 4th, 1905, of the following bonds of said issue will be paid on and after October 4th, 1905, at the office of the Treasurer of the Territory of Hawaii. And that interest will cease on October 4th, 1905, on all the bonds hereby called in for payment: viz.

THOUGHT HAWAII LED THE WORLD

THE EMBARRASSING MISTAKE MADE BY AN AUSTRALIAN EDUCATOR—HE SAW EMPTY LIQUOR CASES OUTSIDE THE EDUCATION DEPARTMENT AND HE EVOLVED A UNIQUE THEORY AS TO WHAT HAD BEEN DONE WITH THE CONTENTS.

"Goodness Gracious!" ejaculated the prominent educator from Australia when he passed through by the main hall of the Judiciary building to pay his respects to the Department of Public Instruction.

"Goodness Gracious!" he said again as he adjusted his pince-nez and read the inscriptions on a big pile of boxes outside "Scotch whiskey, Dewar's—and excellent whiskey too." "Bushmills, Irish—yes, and that's very good too I've been told, though we don't use it much down in the colonies." "Cyrus Noble—Don't know about that I'm sure though from its immediate juxtaposition to the other brands I've no doubt it is excellent." "Canadian Club"—Ah, another fine distillation if current report and the word of experts is to be believed Burgundy, too, and again more Scotch! Well, well! the department of Public Instruction of Hawaii is certainly progressive.

"Do you know, I think the idea an excellent one. Teach the young idea that if it must drink, it should drink good brands. True, this must seem like an advertisement for certain lines of liquor but why not? We advise

May Ask Dole to Hold Special Term

CITIZENS OF HAWAII THREATENED WITH GRAVE COMPLICATIONS IN ENFORCEMENT OF LAW AS A RESULT OF QUESTIONS AS TO THE POWERS OF CIRCUIT JUDGES TO NATURALIZE ALIENS—MANY VOTERS HERE AFFECTED.

"The naturalization question raised in the Mori Takizo case at Honokaa is the most serious question that has been raised here for a long time," said Deputy Attorney General Prosser this morning. Prosser has just returned from Honokaa, where he argued the case. As a result of the question referred to, of whether or not the circuit judges have a right to naturalize aliens Judge Parsons postponed all his trials for a month. He took the matter under advisement. It is said that it will be impossible to get a jury in East Hawaii if the naturalizations by circuit judges are held to be invalid, and a special term of the federal court in Honokaa may be the only solution.

Mori Takizo is under indictment for murder in the first degree. During the proceedings his attorney, Carl S. Smith, objected to the panel of the jury and to the indictment, on the ground that there were aliens on the trial jury and had been aliens on the Grand Jury which brought the indictment. Eleven of the trial jury are Portuguese who were naturalized by circuit judges on Hawaii, and many of the Grand Jury were men who had been similarly naturalized. The matter was argued by Prosser and Smith last Thursday and Judge Parsons took it under advisement for a month.

The question is one which has been discussed here before. Former Circuit Judge Gear refused to naturalize aliens, holding that he had no right to do so, and Judge Mathewman of Kona has followed this view. He has created a lot of excitement by refusing to accept as jurors any persons naturalized in the alleged illegal way, greatly to the indignation of numerous men who voted as citizens by virtue of their supposed naturalizations.

"There are not enough qualified citizens in East Hawaii to get a jury from," said Prosser, "if it be held that the persons naturalized by circuit judges are not citizens. There are enough Hawaiians who are citizens, but they do not speak English and

cannot serve as jurors. It will be impossible to get a jury in this part of the Territory if Judge Parsons holds that circuit judges have no authority to naturalize."

A large proportion of leading citizens of Hawaii, English, German and Portuguese, have been naturalized since annexation, or think they have, by circuit judges. Mathewman is excluding them all from his juries and Parsons is now to decide whether they are or are not citizens of the United States.

A decision in favor of defendants contentions in the Honokaa case will leave all authority to make citizens here vested in United States Judge Dole. It is said that in this event there will be petitions for him to hold a special term at Honokaa, to enable the men without a country to get in under the flag they think they belong to now. The Organic Act provides that the federal judge may hold special terms at such times and places as he chooses, and the citizenship matter is one which, according to the attorneys, must be straightened out before the ordinary enforcement of law can proceed.

In Honolulu also there are many supposed citizens who will be affected by the decision. During the last campaign alone about two hundred aliens were naturalized by circuit judges here. It may be found necessary for all of them to go through the process again, before Judge Dole.

The circuit judges' authority is claimed under an old federal statute which provides that powers to naturalize shall be vested in territorial district courts. It is claimed, however, that there are vital points of difference between such courts and the circuit courts of Hawaii.

The steamer Kauai will arrive tomorrow from the Mikahala's run to Kauai ports. The Kauai will also go out on the Kauai run this week.

WHY SAGHALIEN WAS WANTED

RICHNESS OF THE ISLAND OVER WHICH THE RUSSIAN AND JAPANESE PEACE ENVOYS HELD DISCUSSION AT PORTSMOUTH—VALUABLE COAL DEPOSITS, OIL AND FISHERIES WORTH \$1,500,000 A YEAR.

As big as Belgium and Holland put together, very nearly as big as Ireland, and fully twice as big as Greece, Sakhalin Island, taken by Japan a few weeks ago, will add about 25,000 square miles of territory to the Mikado's empire.

Japanese enterprise, then, will have plenty of room to knock about in, but square miles aren't anything, even when you can count them by the tens of thousands, and unfortunately Sakhalin's climate is nothing to boast of.

Another thing, equally discouraging as far as it goes, you can't farm to advantage on Sakhalin. Only here and there is the soil at all fertile, and even then you must content yourself with raising market truck and expect to get malaria while weeding your garden.

Cold, untillable, but big—is that the whole story? If it were then we should certainly be at a loss to know why the peace envoys at Portsmouth are haggling over the question of who is to own Sakhalin.

Besides, there is coal—not easily mined, but abundant. At Duoy the toughest criminals have worked chained to their barrows, and each year they spent in the mines has counted as a year and a half toward hastening their discharge.

According to C. S. Patonoff the oil regions of Sakhalin are richer than those of America. Subterranean lakes—some of them with an area of 8,000 square feet—lie so close to the surface that natural gushers can be easily established.

As coal couldn't be got for love or money from England or Japan Admiral Rungtwhisky (as the Dogger Bank fishermen still call him) was to supply his armada with oil fuel from Sakhalin.

Meanwhile another sort of game will fall to the Japanese—in the north a fine menagerie at large, composed of bear, foxes, sable, antelope and reindeer; in the south an occasional tiger; on the coast a remunerative profusion of seal, sea lions and dolphins; not to mention a species of plebeian whale little prized by blubber hunters.

But the chief source of wealth in the Sakhalin of today is the fisheries. The rivers teem with salmon, the waters along the coast with herring. In a single year Sakhalin yielded \$1,500,000 worth of fish, and this in spite of the most discouraging conditions.

As long as the island remained a sort of Siberian back yard, into which exiles were constantly to be thrown, it was bad policy to encourage fleets of fishing boats to come prowling along the shore. The boats might thin out the population. But when once the penal colonies are withdrawn, and Japan takes control, the Sakhalin fisheries will have a chance at normal progress.

Now the moment you began to talk about fish the Japanese prick up their ears. No fish, no rice; no rice, no Japs. Every year Sakhalin sends a million dollars' worth of fish fertilizer to the Japanese rice fields. This fertilizer, sea herring, is so indispensable to rice growing that when the war cut off the Japanese fishermen from the Sakhalin coast two Japanese towns, Hokkaido and Otau, petitioned the mikado to send troops to seize the island, or, if that could not be done, to permit the two indignant towns to fit out an expedition of their own.

The director general of prisons asked permission to organize an army of Japanese jailbirds for service in Sakhalin. Such overtures as these met with governmental discouragement, but the seizure of Sakhalin by trained troops was undertaken as soon as practicable. Nor did Japan fail to perceive that Sakhalin in the grip of a foreign power would constitute a standing menace to Japanese agriculture. It was the case of Korea over again, only with herring substituted for grain as the vital point.—Washington Star.

THE SWIMMING AMBITION.

Most of us ought to see very readily that man is undoubtedly a land animal, without fitness for any considerable stay in the water or for navigating the air. Notwithstanding the obvious truth of this, men have been persistently trying to invade the respective domains of the bird and the fish. Unless there may be some kind of basis of truth hidden away in the mythological story of the disaster to Phaeton in his sky-sealing, man seems to have begun his invasion of the fish kingdom before he tried the air.

BOODLER CONFESSES.

SACRAMENTO, Cal., September 5.—Ex-State Senator Harry Bunker has made a full confession implicating his fellow defendants in the bribery scandal. He has also implicated men whose names are not disclosed.

At the last session of the California legislature four senators were expelled for receiving bribes from loan and savings companies under investigation. Emmons and French have already been tried. Bunkers, who has just confessed, was formerly an engineer in the Pacific Mail line.

JEFFRIES PUTS BLOCK IN WAY OF BIG MATCH.

SAN FRANCISCO, September 5.—James J. Jeffries has demanded \$2000 to referee the Britt-Nelson fight and there is a probability of a hitch in the match.

Britt and Battling Nelson are scheduled to fight on the afternoon of September 9 at Colma. The contest is for 45 rounds and may settle for all time the question of the lightweight championship. Jeffries was chosen as a referee after many others had been discussed, and to all intents and purposes had fully and unconditionally accepted.

MORE TROUBLE IN KISHINEFF.

KISHINEFF, September 5.—Troops today attacked a Jewish funeral procession. Many were shot and wounded and 50 were arrested without explanation and great alarm is felt.

BOYCOTT SUBSIDING.

WASHINGTON, September 5.—American Consul Rodgers at Shanghai has cabled that the Chinese boycott movement is subsiding.

YELLOW FEVER SPREADS.

JACKSON, Miss., September 5.—The yellow fever is spreading along the Gulf coast.

LABOR DAY AT PEARL HARBOR

TRADES AND LABOR PICNIC THOUGH ENJOYABLE WAS NOT LARGELY ATTENDED.

Beautiful as the day was and in spite of careful arrangements for the comfort and entertainment of a large crowd the Trades and Labor picnic yesterday afternoon at Pearl Harbor peninsula was by no means largely attended. An efficient committee went down early in the day to attend to the arrangements. It comprised the following:

Chairman of the day, M. Heffernan; door manager, T. O'Brien; committee of arrangements, L. Toomey, F. Larsen, J. Henwick; finance committee, T. Cahalan, F. Crozier, C. Golden; reception committee, F. McLaughlin, F. Schmidt, W. P. O'Brien; games committee, J. E. Langren, L. Hackett, F. Sackowitz.

The first train for the guests left for the Peninsula at 2:15 but there was more than room enough on it for all that wanted to go. Later trains took additional quotas but at no time was the attendance as large as the occasion warranted.

Those who did attend, however, enjoyed themselves to their hearts' content. An excellent orchestra provided music for the dancing in the pavilion and there were refreshments of all kinds provided in lavish quantities. Games were arranged for the younger of the picnickers and those who liked boating had ample opportunity for exploring the beautiful waters of the lochs. Nearly all waited for the last train after having spent a thoroughly enjoyable day.

LUCKY.
"We are pretty lucky down here," said the South American president who was reading the news from Russia. "How?" "In having revolutions instead of strikes or mutinies."

Want ads in The Star bring quick results. Three lines three times for 25 cents.

PRESIDENT HORNE AND KAMEHAMEHA

THE FRIEND DESCRIBES HIS RECENT STRENUOUS TRAVELS AND THE RESULTS HE ATTAINED.

President Horne has come near breaking the local record for strenuousness during the past few weeks. Leaving Honolulu on the Alameda July 19 with five teachers to engage, he pushed across sea and land, making one or two brief stops until Boston was reached. There he stayed but three short days, rounded up his little company, then speeded back, and arrived at home August 21 on the Siberia, having covered an average of 350 miles per day for all the 33 of his entire trip. He brings to the faculty of the schools W. D. Barlow, graduate of Amherst Agricultural College, as assistant in Agriculture, Miss Elizabeth Yoch for English, and Edwin Hall, Harvard '04, of this city, will be Assistant Registrar. Miss Pope having a year's leave of absence, Miss Lemmon will preside at the Girls' School in which Miss Carrie E. Church has come to take a permanent position. Miss Knight and Miss Robinson are back again in their former places. Applications for admission exceed vacancies and a royal good year is anticipated. President Horne's administration is proving a notable success.—The Friend.

CREW GOING HOME.

Twenty-three members of the crew of the American ship A. J. Ropes are aboard the transport Sheridan, returning to America. The Ropes were wrecked on the rocks in the Loo Choo channel on July 17, during a gale. She managed to get to the Japan coast where a tug picked her up. The repairs on her, she was dismantled, will cost \$35,000. The Ropes took a cargo of Kahului sugar to Delaware Breakwater, two seasons ago.

BORN.

DAVIES—In Honolulu, September 4, 1905, to the wife of George P. Davies, a daughter.

WEEKLY CROP BULLETIN

For the Week Ending September 2, 1905. Honolulu, T. H., September 4, 1905. GENERAL SUMMARY.

Partly cloudy conditions have prevailed, with occasional strong trade winds and temperatures slightly lower than during the preceding week. The rainfall has been abundant in all sections of Hawaii except portions of the Kau district, and in windward sections of all the other islands. Dry weather continues in leeward Maui, leeward Oahu and eastern Kauai.

Conditions on the whole have been quite favorable for the growth of cane although in some windward sections more sunshine would have been beneficial and the ground has been too moist for proper cultivation, much hoeing also having been necessary to keep down the weeds. In portions of the Kau district of Hawaii, a continuance of dry weather and hot winds has been very hard on young cane. Planting for the 1907 crop continues, and a few of the mills are still grinding 1905 cane. The harvesting of the summer crop of pineapples is rapidly drawing to a close, and fruit buds for the winter crop are showing up nicely. Young pineapple plants are growing well in all sections. Coffee trees are reported as in good condition in all sections, but would now be benefited by a few sunny days in Kona, Hawaii, where continued cloudy and showery weather is retarding the ripening of the berries. The prevalence of showery conditions has been very beneficial for pastures, which continue to improve in most sections although some leeward pastures are still very dry. Second crop rice is doing nicely. Young sisal in central Maui is growing rapidly on account of the moist conditions which have obtained in that locality.

ISLAND OF HAWAII.

Kaunani—6.48 inches of rain during week; land too wet for cultivation, but the crops are doing well; stripping cane.—J. E. Gambleton.

Hilo—Frequent showers during week; all vegetation growing rapidly.—L. C. Lyman.

Papaikou—Good growing weather for all crops, but too much moisture for weed killing; fertilizing, weeding, cultivating and stripping cane.—John T. Mohr.

Pepeekeo—Wet, dull weather, with falling temperature; cane growing well weeding, hoeing and fertilizing cane.—James Webster.

Honouliuli—Heavy rain, making cultivating heavy; trashing, hoeing and cultivating cane.—W. K. Andrews.

Laupahoehoe—Rainy all week; light winds and smooth seas.—E. W. Barnard.

Ookala—Warm days continue, with rain every night; growing crops doing well; weeding and hoeing cane.—W. G. Walker.

Panauhau—Continual showers throughout week; cane crops healthy and growing well; stripping cane for next year's crop.—H. Glass.

Honokaa—Weather warm and showery; growing cane crops doing well.—C. H. Bragg.

Niihau—Weather favorable for growth but less rain and more warmth in our uplands would be better for cane; soil temperature is kept down; hoeing, cultivating and stripping cane.—Robert Hall.

Kohala Mission—Frequent showers and warm weather are doing much to push the growth of cane in the fields. Dr. B. D. Bond.

Puuwaa—A little rain fell during the latter part of the week, thereby improving the land after the drought.—Robert Hind.

Honokahau—Very heavy rains during week; pastures in fine condition.—F. R. Greenwell.

Kealahou—Very wet weather during week; a few fine days would be beneficial to crops and live stock.—Robert Wallace.

Kau—Strong winds and nice showers; good rains at lower levels also.—F. H. Hayselden.

Naihehu—Very little rain since last adyeles, but pastures and crops continue to look well; weather is quite warm.—G. G. Kinney.

Pihala—Another dry and windy week, with disastrous effect on young cane.—H. D. Harrison.

Kapoho—Week characterized by heavy rainfall and considerable wind, with rough seas.—H. J. Lyman.

ISLAND OF MAUI.

Kipahulu—Weather continues showery and warm, and cane is growing well under the favorable conditions; equal winds on night of 28th.—Andrew Gross.

Hana—Fine growing weather throughout week, with sufficient rain; cane doing well; cultivating and weeding cane.—N. Omsted.

Naihehu—Cloudy weather nearly all week, with 5.91 inches of rain.—C. O. Jacobs.

Hualo—Heavy rains have fallen during week, more especially at the higher elevations; good supply of water in all streams, and all plantation irrigation ditches full.—W. F. Pogue.

Peahi—Weather has been very stormy all week, with plenty of rain and very little sun.—George Groves.

Haiku—Weather conditions have been very favorable for our growing crops; harvesting of summer crop of pineapples continues, and the winter crop is developing rapidly; sisal is growing finely under the moist conditions; pastures in good condition; plantain irrigation ditches running full capacity.—D. D. Baldwin.

Pala—Continued warm weather, with frequent showers.—J. J. Jones.

Kahului—Warm sunny days and cool nights; no rain.—R. W. Filler.

Puunene—Warm weather, with light showers during latter part of week; ditches full, and only two pumps running.—J. N. S. Williams.

Waikuku—Cool, cloudy weather all week, with sufficient water at water

days previous to the time therein appointed for hearing.
Filed at Honolulu, Oahu, August 21, A. D. 1905.

LEGAL NOTICES.

A CHEAP FAKER AT WORK.
There appears this morning a story which is attributed to officers of the transport Sheridan to the effect that Miss Alice Roosevelt had plunged aboard the S. S. Manchuria shortly after the vessel left Honolulu. The plunge was alleged to have been taken in a spirit of bravado in order to induce Representative N. Longworth to jump into the tank with his clothes on. Longworth has alleged to have jumped in after Miss Roosevelt.

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii.—At Chambers.—In Probate.
In the Matter of the Estate of Louis Bunnell, Deceased.
Order for Notice of Hearing Petition for Probate of Will.

A Document purporting to be the Last Will and Testament of Louis Bunnell, deceased, having on the 21st day of August, A. D. 1905, been presented to said Probate Court, and a Petition for the Probate thereof, and for the Issuance of Letters Testamentary to J. Alexander Lyle having been filed by said J. Alexander Lyle:
It is hereby ordered, That Monday, the 25th day of September, A. D. 1905, at 10 o'clock a. m. of said day, at the Court Room of said Court, at Honolulu, Oahu, be and the same hereby is appointed the time and place for proving said Will and hearing said application.

It is further ordered, That notice thereof be given, by publication, once a week, for three successive weeks, in the Hawaiian Star, a newspaper published in Honolulu, Oahu, the last publication to be not less than ten

Average daily excess (+) or deficiency (-) of this month as compared with mean of 16 years—1.2. Accumulated excess (+) or deficiency (-) since January 1.—394. Average daily excess (+) or deficiency (-) since January 1.—1.6. Precipitation.—Total this month, 2.20. Greatest precipitation in 24 hours, 1.04, date, 8th and 9th. Total precipitation in this month in 1877, 6.53; 1878, 1.22; 1879, 1.73; 1880, 0.84; 1881, 2.17; 1882, 1.72; 1883, 2.12; 1884, 1.09; 1885, 2.01; 1886, 1.71; 1887, 1.32; 1888, 4.47; 1889, 3.20; 1890, 1.12; 1891, 0.92; 1892, 1.63; 1893, 3.70; 1894, 0.16; 1895, 2.20. Average of this month for 19 years, 1.54. Excess (+) or deficiency (-) of this month as compared with average of 19 years, +0.66. Accumulated excess (+) or deficiency (-) since January 1.—40.33. Wind.—Prevailing direction, NE, (67%); total movement, 6,653 miles; average hourly velocity, 8.3; maximum velocity (for five minutes) 38 miles per hour, from the northeast on the 29th. Weather.—Number of clear days, 5; partly cloudy, 21; cloudy, 5, on which .01 inches, or more, of precipitation occurred 19. Miscellaneous Phenomena (dates of): Auroras, none; halos, solar, 24th, 25th 26th; lunar, none; hail, none; sleet, none; fog, none; thunderstorms, none. Note.—Rainfall to 1894, incl., from McKibbin record; all other data to 1904, incl., from record of Territorial Meteorologist; 1905 data from U. S. Weather Bureau records. ALEX. McC. ASHLEY, Section Director, Weather Bureau.

ISLANDERS IN GERMANY. We have received a letter from Mr. I. W. Mist who is still in Dresden busily occupied in his artistic work. This is principally in miniature painting, which is pronounced by the most qualified to judge as excellent. He would be glad to get some orders from his island friends. In his letter Mr. Mist describes the baptismal service which took place on Wednesday, July 12, at St. John's church, Dresden, when Heinrich Alexander, the infant son of Mr. and Mrs. Fred W. Glade, formerly of Kekaha, Kauai, and Honolulu, was received into the church, the pastor, the Reverend John Butterworth, officiating.—Anglican Church Chronicle.

by a large circle of friends. Mr. Cooper's health requires their departure.

OUTBREAK IN SAVAI

(Continued from page one.)

of a mile wide and at several points 200 feet high and then you get some idea of the magnitude of the forces at work. There are probably 5 or 6, if not more, of these shifting mountains, carried upon the bosom of the molten lava, which is underneath.
Of course they are not all as large as the first one described; but together they represent millions upon millions of tons of ejected matter. The larger ones which are now travelling very slowly will probably soon come to a standstill, as the lava which is carrying them is solidifying at the extreme ends and is beginning to hinder their forward progress. This hardening of the lava at no very great distance from the central furnace will probably be the means of saving much fertile country from being overrun and devastated.
After making minute investigations we were able to assure the native population of their comparative safety, and that although some more valuable ground might yet be destroyed, it is not at all likely that life would be endangered. This has given much relief and encouragement, and the Samoan people, who had held their "Fono" and decided to desert their town and ground have abandoned their resolutions and are quietly settling down again.

TWO MANDAMUSSES

The Supreme Court was to have resumed sessions today and heard the set of cases growing out of the dispute over the election of Kaneall, as supervisors of Kauai, but owing to the failure of Judge Hardy and County Attorney Willard to arrive he matter was postponed to tomorrow. Chief Justice Frear will sit with Circuit Judges De Bolt Lindsay, Associate Justices Hartwell and Wilder both being away. There are two writs of mandamus against Hardy, one preventing him from hearing a quo warranto proceeding to cones Kaneall's sea and the other directing him to approve Kaneall's bond.

SUPERVISORS TO MEET.

The Board of Supervisors will meet this evening at 7:30 and from all appearances will have a long and tedious session. All of last month's bills will be up for approval and the appropriations will also have to be gone over. While the work is all of the routine order it will nevertheless take some considerable time.

NEW KIND OF VOTING CONTEST

JAPANESE NEWSPAPER ELECTING THIRTY JAPS WHO ARE TO ATTEND A BANQUET.

Hawaii Shingo, the local Japanese newspaper, is running a voting contest of a new kind, having applied the American voting contest scheme in a way that has made quite a stir in the local Japanese colony. The Shingo is having a contest to elect thirty representative Japanese to be entertained at a dinner by the paper, in honor of the reaching of No. 3,000 in its list of issues.
No. 3,000 will come out on September 26, and it was announced that the paper would entertain thirty Japanese at dinner that day, the thirty to be selected by subscribers, three to be from each of ten different trades or professions. The result is a coupon contest that is creating quite a furor, and there are candidates galore for the honor of sitting at the banquet table.
The banquet is to be given on the evening of the 26th. All the proceeds of the competition are to be devoted to the banquet, and judging by the number of coupons Editor Shiezawa is counting every day, the dinner will be a local rival to the Hyde dinner at Sherry's and those who are to attend ought to be selected according to capacities to eat and drink.

CHINESE ARMY NO PLACE FOR AMERICANS

REPORTED THAT MEN WHO GO TO INSTRUCT THAT ARMY FIND THINGS FAR FROM PLEASANT.

There is a report on the transport Sheridan that Second Lieutenant Morton Russell and First Lieutenant Henry I. Harris both of whom have resigned from the United States army, had accepted commissions in the Chinese army the former as major and the latter as a colonel. Harris was to receive a salary of \$7,000 a year and Russell a salary of \$5,000. Both of these officers have seen service during the Philippines and are certainly well qualified to drill Chinese into efficient soldiers.
On the other hand those who are acquainted with the general situation say that there is no truth in the report. Both of the officers are reported to have received offers from the Chinese government but an investigation of the conditions caused them to decide that they did not care to enlist under the Yellow Dragon banner.
Officers enlisted under such conditions do not rank with Chinese officers of a corresponding grade and are classed some thing like a contract surgeon in the American army is. The salary is very small and furthermore, the officers are not guaranteed positions beyond a limited period of years.

SHIPPING INTELLIGENCE

DEPARTING.
Per stmr. Mauna Loa, September 5, for Maui and Hawaii ports: Judge Matthewman, Mrs. Wainhole and child, Miss Fisher, Mrs. Crook, T. T. Meyer, Fred Wright and wife, C. D. Lufkin and wife, Rev. R. B. CHINESE ARMY

NO PLACE FOR AMERICANS

REPORTED THAT MEN WHO GO TO INSTRUCT THAT ARMY FIND THINGS FAR FROM PLEASANT.

There is a report on the transport Sheridan that Second Lieutenant Morton Russell and First Lieutenant Henry I. Harris both of whom have resigned from the United States army, had accepted commissions in the Chinese army the former as major and the latter as a colonel. Harris was to receive a salary of \$7,000 a year and Russell a salary of \$5,000. Both of these officers have seen service during the Philippines and are certainly well qualified to drill Chinese into efficient soldiers.
On the other hand those who are acquainted with the general situation say that there is no truth in the report. Both of the officers are reported to have received offers from the Chinese government but an investigation of the conditions caused them to decide that they did not care to enlist under the Yellow Dragon banner.
Officers enlisted under such conditions do not rank with Chinese officers of a corresponding grade and are classed some thing like a contract surgeon in the American army is. The salary is very small and furthermore, the officers are not guaranteed positions beyond a limited period of years.

CHAMBERS CASES TO LINDSAY.

Judge Robinson has made an order re-assigning to Judge Lindsay all chambers and equity matters pending in his court, and Lindsay will devote the rest of this month to such cases. The Parker ranch case is to come up before Lindsay and will probably occupy most of the time.
