## 6 (Supply)

- (a) Provisions (number of days supply on hand):
  - (1) Fresh and Frozen: 30 days
  - (2) Dry 45 days
- (b) Fuel (number and supply on hand:) 15 days
- (c) Materials:
  - (1) Construction:
    - a. There has been an acute shortage of light building material.
    - b. Some material however, is being secured from unused Army prefabs.
  - (2) Spare parts (equipment and automotive)
    - a. With the recent increase of public works funds, many critical spare parts can now be ordered to eliminate the present shortage.
  - (3) Other:
    - a. Other miscellaneous materials are available in sufficient quantities.
- (d) Unfilled requisitions on hand are as follows:
  - (1) Requisitions numbers 1905-47 and 1906-47 for jeep spare parts and dated 2 June 1947 are still unfilled.
  - (2) Requisitions number 65/696-48 dated 20 May 1948 for kerosene ranges is still unfilled.

(a) Provisions (number of days supply on hand):

- (1) Fresh and Frozen: 30 days
- (2) Dry 45 days

(b) Fuel (number of days supply on hand): 10 days

(c) Materials:

(1) Construction:

a. Supplies of light construction material are temporarily adequate. This material has been secured primarily from unused army prefabricated structures.

(2) Spare Parts (equipment and automotive):

a. Stocks of automotive spare parts are now on order. Prior shortage of funds for purchase of this material has been alleviated by the allocation of non-appropriated funds from the Treasury of DepHiComTerPacIs. Until receipt of newly ordered stock the supply of many items of spares remains inadequate.

(3) Other:

16 Jan 1949

Saipan

a. GSK items and other miscellaneous items are on hand in usually sufficient quantities.

(d) Unfilled requisitions on hand are as follows:

- (1) Requisition number 65/686-48 dated June 1948 for a passenger carrying bus has not been filled.
