## "We Are Out For European Labor" Says Giffard

### Atkinson Holds Axe To Use, If Necessary, For Federal Appointee

PREPARED TO FIGHT FOR LABOR SCHEME

The emigration of Japanese from Hawaii to the mainland and the proposition of the immigration of Portuguese or other European settlers are matters that are coming closer and closer together in the area of local problems. The two ideas find a center in the executive, if no where else, and Governor Atkinson is feeling the centrifugal force of the contending interests of the present time to a great degree. Governor Atkinson, it is said, is ready for the struggle that is to come, that has already started, and he has very plainly said so on previous occasions, as for example at the last meeting of the Territorial Board of Immigration when he surprised everybody by coming out with the declaration that the sugar planters must come to time in the matter of offering proper inducements to settlers from the Azores before the Immigration Board would take a step toward getting the desired 1000 Portuguese agricultural families here from the Azores Islands.

Since that meeting little or nothing has been accomplished toward an understanding between the sugar planters and the Governor and Governor Atkinson has not modified his declaration, nor has he taken one step backward from the stand he took at the immigration meeting, except to say that he did not intend to convey the impression of opposition to all plantations offering households or less than one acre.

As to the connection between the matter of the immigration of Portuguese and the emigration of Japanese: As Atkinson is interested in the one, so is he interested in the other proposition. If it be true, as the Japanese emigration agents contend, that the planters are doing all in their power to prevent the emigration of Japanese laborers, then it may be inferred that they are the less likely to come to the Governor's terms in the matter of offering inducements to laborer-settlers from Europe.

Atkinson will have little or nothing to say in regard to the present situation, except to admit that he is deeply interested in the progress of the present emigration contest, wherein the emigration agents are being prosecuted for alleged violation of the emigration agent license law.

In regard to the Portuguese immigration affair he will have nothing to say beyond the assertion that there have been no developments. He realizes that he is in a position that is by no means that of championing the cause of the planters. If cheap labor be considered a cause of the sugar men, but he is determined to stay by the proposition that settlers must be encouraged, and as far as he, as Governor, is concerned,

cerned, every Japanese may leave the country, for the more Japanese who leave the country, the greater opportunity is there for the realization of the idea that the Governor is giving his full support, namely, that of getting European or other white labor here to build up a working class independent of the employers. The Governor has already irrevocably identified himself with this idea and his friends declare, unqualifiedly, that the Governor will leave no stone unturned to see the scheme realized.

From the best of authority it was learned this morning that the Governor, although he remains quiet, to all appearances, has taken up the immigration and emigration matters with the utmost preparedness. He wants to get hold of the books of the various plantation agencies. He wants to see to whom certain money has been paid for legal services. More particularly he wants access to the books of the sugar concerns to whom was paid a certain sum of two thousand dollars for legal or advisory services.

Of course the Governor has no power to demand the books of the plantation agencies, or of any of them. The only way this could be effected would be through the United States District Attorney taking such action in the matter as would necessarily call for the production of the books.

Governor Atkinson is in close touch with President Roosevelt in this affair and stands ready at any moment to notify the President by cable in case he should see fit to recommend any immediate change among Federal agencies in this city. This information comes from one close to the Governor and whose word need not be questioned.

Said one closely identified with the proceedings, this morning: "Governor Atkinson feels that the planters are against him in this labor question. He is deeply interested in this Japanese emigration matter, for the reason that he has cause to believe that the planters have in their employ someone whose position, in view of present developments, should not be identified with the interests of the planters. If it becomes necessary, he will not hesitate to recommend a change."

It is known that the Governor has been giving the matter of Japanese emigration and the prosecution of Japanese emigrant agents his personal attention, that he has been personally investigating the matter. This investigation includes the emigration matter from the making of the law up to the present time.

Judge George D. Gear, attorney for the Japanese emigration agents, was seen this morning by a Bulletin reporter. "Captain Truebridge of the Olympia is here," said the Judge, "if he wants to tell you anything, he may I have nothing to say in the matter except that we are naturally doing

### Planters Earnestly At Work

William M. Giffard of Wm. G. Irwin & Co., stated this afternoon that a committee of the sugar planters was earnestly at work in the matter of reaching an understanding as to Portuguese immigration.

"The planters are out for European immigration," said Mr. Giffard, "and what we have to do now is to frame plans in conformity with the ability of the plantations as well as with the requirements of Federal and Territorial law.

"This matter is one that requires the most careful consideration. It is not a question that can be settled in a few weeks. We have been at work on the matter for several weeks past.

"Newspaper talk is not going to help the business at all. It would be better to wait until there is something settled."

When perfected, the planters' plans will be presented to the Territorial Board of Immigration for approval.

### Fight For Adopted Daughter

A habeas corpus case of a most unusual kind was instituted this afternoon before Judge Lindsay by Kiochi Shimizu, the adopted father of Akayo, a 13-year-old girl, against Masubaro Sasahara, her natural father, asking that the respondent be made to deliver the girl back to him.

The petition, which is prepared by R. W. Breckons, shows the facts of the case as follows: Akayo, the girl, was born in Japan in 1883. In 1890 Kiochi adopted her with the consent of her parents and in full compliance with the laws of Japan, and his control over her was recognized until January 1, 1906. Masubaro, the father of the girl, obtained a divorce from her mother, and married another woman, with whom he came to Hawaii many years ago.

In 1904 Kiochi came to Hawaii with his adopted daughter and settled on the island of Hawaii on January 1. Kiochi let Akayo go from Hawaii to visit her father, who was living at Ewa, and who had requested that she be allowed to visit him, as he was going to Japan and wanted to see her before he left and promising to let her return to Kiochi. The faithless father then retained the girl in his custody and even refused to let Kiochi see her.

Kiochi shows in his petition that he has become attached to the girl. He is unmarried, has no children, and is, although he is not wealthy, still in possession of sufficient means to see that she gets a good education. The father on the other hand, and his new wife, have several children and have not the means to support and educate Akayo as well as Kiochi could do it.

### Anti-Gambling Bill For Territories As Passed By House

HAWAII HAS NO PART IN ITS ORIGIN

The latest copies of the Congressional Record received here contain the bill to prohibit gambling in the Territories, which, if it becomes law, will have great effect in Hawaii, as it will cause the energies of the Federal authorities to be directed against the gambling evil. The bill, which is both short and sweeping, passed the House February 19, and is thought by United States Marshal Hendry to be sure to pass the Senate. "Then there will be a lot of work for us to do," said Hendry.

The bill reads as follows: "Be it enacted, etc. That any person in any of the Territories of the United States who deals, plays, or carries on, opens, or causes to be opened, or conducts, either as owner or employee, whether for hire or not, any game of faro, monte, roulette, lansquet, rouge et noir, rondo, tan, fan tan, poker, seven and a half, twenty-one, chuck-a-luck, or any banking or percentage game, or any other kind of a game played with cards, dice, or any device, for money, checks, credit, or any other representation of value, is guilty of a misdemeanor, and shall be punished by a fine of not more than \$5,000 and by imprisonment for not more than one year, or either.

"Sec. 2. That this Act shall take effect within sixty days after its passage."

The Record contains a lengthy and quite animated debate which preceded the passage of the bill in the House. Although the passage of it will have great effect on Hawaii, it is quite evident from the debate, that Hawaii had nothing whatever to do with its origin, as, although practically all the other Territories were named in it, no reference whatever was made to this Territory.

This is further corroborated from the fact that Congressman Littlefield, (Continued on Page 5.)

Judge De Bolt in rendering his decision not only granted Gear's motion to set his former judgment aside, but went him one better in reference to the motion for a new trial, by discharging the defendant altogether.

The Court held, as it did in its famous decision in the Chun Hoon habeas corpus case, that the defendant was entitled to an indictment, and that the Court therefore had no jurisdiction to try him. Under these circumstances, (Continued on Page 5.)

Judge Gear this morning conducted a short, decisive and eminently successful campaign before both Judge De Bolt and Judge Lindsay, by which he succeeded in wresting two of his clients from the grasp of the prosecution. One of these cases was that of Chew Hing, who was found guilty by a jury of aiding and maintaining a lottery and was sentenced to pay a fine of \$500 by Judge De Bolt. The unusual size of the fine created considerable comment at the time it was imposed.

This morning Gear appeared before Judge De Bolt with a motion for a new trial for Chew Hing. He showed that first of all the Court's instructions had not been filed in the time required, which in itself was held to be

grounds for a new trial; secondly that his plea had never been taken when his case was heard in the Circuit Court; and thirdly that although Chew Hing had been given a trial by jury, he had not been prosecuted under any presentment or indictment by a Grand Jury, and that for this reason the Court had no jurisdiction to try him.

NO JURISDICTION, SAYS DE BOLT, BECAUSE THERE WAS NO INDICTMENT AGAINST MR. CHEW HING.

### AUTO GETS STUCK BY ACCIDENT ON WAHIAWA PLAINS

Clerk Frank Hatch returned this morning after a most disastrous automobile trip which he, Owen McCarthy and ladies took in McCarthy's car around the island. Hatch says that the party started from Honolulu early around the Pali at 8 a. m. Sunday. Near Kahuku a bolt in the differential gear broke and got mixed up with the other machinery, thereby impeding the working of the machine so that Hialewa

was not reached before 8 p. m. All that night until 1:30 a. m., Hatch and McCarthy were busy repairing the machine. The next day was spent in the same profitable manner.

Finally the machine seemed to be all right, a new bolt had been placed in the old one's position, and at 6:30 p. m. a start was made for Honolulu. Still the tribulations of the party were not over. On the way to Wahiawa another bolt repeated the performance of its predecessor with similar results and the car came to a standstill. Hatch gallantly volunteered to go for assistance, and enjoyed a moonlight walk of several miles to Wahiawa, where he telephoned for assistance. This came in the shape of an auto from town in which the party went home, leaving its own machine behind.

## WEEKLY CROP REPORT

TEMPERATURES ABOVE  
NORMAL LAST WEEK

HARVESTING OF WINTER PINE-APPLES PRACTICALLY COMPLETE—YOUNG RICE IS GROWING WELL.

For the Week Ending March 3. Local Office, U. S. Weather Bureau, Honolulu, T. H., March 5, 1906.

GENERAL SUMMARY.

Temperatures during the past week have been uniformly above the normal, and have been accompanied by steady and rather high trade winds. Good showers have fallen in windward Hawaii, windward Maui and portions of windward Kauai, and heavy showers in most other sections of the group.

Young cane has been much refreshed by the rain, which has not, however, been sufficient in amount to increase materially the supply of water for fluming purposes in windward sections. The harvesting and grinding of mature cane continues, and considerable plowing and some planting are being done. Pastures, especially in leeward districts and at the lower elevations, need rain. The harvesting of winter pineapples is practically completed in Oahu, a fine yield of superior quality having been secured. Pineapple growers are also busy expanding their plantations. Young rice is growing well in all sections, and sial is in good condition. While the showers of the past week have been of great benefit, a general and heavy rain is still needed.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunana—A good rain has fallen and all vegetation has been much benefited by it; water sources have been very little affected, however, as the dry soil has absorbed all of the moisture; we are stripping cane and plowing land.—J. E. Gamallesson.

Ponahawai—All vegetation has been much benefited by the recent rain but more rain is needed.—J. E. Gamallesson.

Hilo—We have had some nice showers, which have freshened up vegetation generally; the days have been warm, but the nights cool.—L. C. Lyman.

Papaikou—During the past week we have had light showers, which will do a vast amount of good; crops are already brightening up somewhat; we are plowing land and stripping cane.—J. T. Moir.

Pepeekeo—The weather has been showery during the past week; we are cutting and grinding cane, plowing and harvesting land, and planting.—Jas. Webster.

Hakala—During the past week the weather has been all that could be desired; good rains on five days have given us sufficient water in all streams for fluming; we are hoeing, fertilizing, stripping and harvesting cane, plowing land, and planting.—J. M. Ross.

Papaaloa—The showery and warm weather of the past week has been favorable for young cane; we are cultivating, harvesting and grinding cane.—C. McLennan.

Laupahoehoe—Strong trade winds all week have been attended by showers amounting in all to 2.65 inches, but the water supply is still short.—E. W. Barnard.

Ookala—Good showers, which were needed by the growing crops, fell on the 27th ultimo; the harvesting of cane continues.—W. G. Walker.

Paualoa—The week has been one of high east winds, with some rain; growing cane looks well, and coffee is ripening more freely.—C. R. Blacow.

Pauahau—Strong trade winds have prevailed all week, with variable temperatures and some rain; we are harvesting cane, plowing land and planting.—H. Glass.

Niuli—Strong winds continued during the week, attended by more or less cloudy weather and 1.08 inches of rain; we are hoeing, stripping, reaping and grinding cane and plowing land.—Robt. Hall.

Kohala—Warm, sunny days and occasional showers have been fine for growing crops, which are looking well; we are harvesting cane and planting.—W. O. Taylor.

Kohala Mission—The weather has been partly cloudy, with occasional showers and moderate temperatures.—Dr. B. Bond.

Frankia Ranch—The rains of the past week have benefited pastures; very high northeast winds prevailed during the latter portion of the week.—A. Mason.

Kamuela—Strong northeast winds have prevailed, with occasional light showers.—Mrs. E. W. Hay.

Honokahau—The weather has been comparatively dry during the past week, and pastures are much in need of rain; coffee is looking very well.—F. R. Greenwell.

Kealahou—The weather has been partly cloudy, with warm days and occasional light showers.—Rev. S. H. Davis.

Kealahou—Light showers occurred on February 27 and March 1.—Robert Wallace.

Kau—High winds during the past week have been attended by occasional showers amounting to .90 inch; pastures are looking better.—F. H. Hayden.

Nanahu—The weather continues dry and windy, and rain is very much needed.—G. G. Kinney.

Kapoho—The moderately heavy rainfall of the past week has started cane and pastures.—H. J. Lyman.

ISLAND OF MAUI.

Hana—The recent drought has been broken by light showers and the harvesting of cane has been resumed, but more rain is needed.—N. Omsted.

Nahuku—The showery weather of the past week has been very favorable for the planting of rubber seeds; all vegetation shows a marked improvement.—C. O. Jacobs.

Huelo—Light showers have been of

daily occurrence but have not materially increased the supply of water in the irrigation ditches; all vegetation is starting, especially fruit trees; orange trees are in blossom, and mango and chia apple trees are purple with new growth; stock is in good condition.—W. F. Pogue.

Peshi—The needed rains have at last arrived, and truck planting is being rushed by the small farmers; everything is growing rapidly.—Geo. Groves.

Hailu—Temperatures have been rather moderate, but gentle rains and a fair amount of sunshine have had a favorable effect on 1 vegetation; the rains have also refreshed the pastures and have slightly increased the supply of water in the irrigation ditches.—D. D. Baldwin.

Paia—There has been a little rain this week which has increased the water in the irrigation ditches, but all local pumps are still at work.—J. J. Jones.

Makawao—The weather has been warm and dry, with strong easterly winds all week; farm crops need rain, and stock generally is feeling the effect of short pasturage; in the Kula section of the district the soil is still moist and planting of crops is progressing; pastures and stock are in fair condition.—E. H. Bailey.

Punene—Light showers have fallen on the flats and more rain at ditch heads; the weather has been fine for harvesting; strong trade winds prevailed all week.—J. N. S. Williams.

Waikuku—The days have been warm and sunny, but the nights have continued cool; several frosts in the west Maui mountains have given an ample supply of water for cane, taro and rice; 1907 cane is in splendid condition and making good growth; rice is doing well.—Bro. Frank.

Kihel—We have had warmer days and cooler nights, with steady trade winds which have brought rain at the ditch heads and increased the supply of surface water, although pumping is still necessary; we are fertilizing and harvesting cane and plowing land.—Jas. Scott.

Kaanapali—During the past week the weather has been clear, with strong trade winds; all growing cane is looking well, and pastures are in fair condition.—Wm. Robb.

ISLAND OF OAHU.

Ahulmani—During the past week we have had moderate temperatures and occasional light showers; pastures and crops are in fine condition; we could not wish for better weather.—H. R. Macfarlane.

Waimanalo—During the past week both the days and nights have been warm, with occasional light showers.—A. Irvine.

Palolo—Rather dry weather has continued during the past week; the transplanting of rice is finished, and young rice is growing well; pastures are rather short and show the need of rain.—F. L. Webster.

Honolulu—The past week has been dry, with temperatures considerably above the normal.—Local Office, U. S. Weather Bureau.

Sisal—Light showers early in week were followed by warm and dry weather; sisal is looking well.—Wm. Weirich, Jr.

Waianae—We have had another week of warm, dry weather, with high winds; rain is badly needed all over this district.—F. Meyer.

Wahiawa—The past week has been one of sunny days and occasional light showers, with heavy morning and evening dews; we are just finishing the harvesting of a very satisfactory winter crop of pineapples, although there will be some scattering fruit for fifteen or twenty days yet; the fruit has been exceptionally large this winter; we are hoeing, and preparing lands and plants for planting; pastures look fairly well, but would be benefited by more rain.—E. K. Ellsworth.

Kahuku—The weather has been quite warm, with moderate trade winds and light showers; pumps are running again; we are plowing land for the 1908 cane crop and have commenced to harvest Laie cane.—R. T. Christophersen.

ISLAND OF KAULA.

Makawili—The weather has been clear and warm during the past week, with a few very light showers.—Hawaiian Sugar Co.

Elele—The weather has been warm and dry all week except for a few light showers at night; the ground is becoming rather parched.—McBryde Sugar Co.

Koloa—Moderate winds have prevailed during the past week, with light showers amounting to 1.07 inches; we are weeding and fertilizing cane.—P. McLane.

Lihue—Moderate temperatures have prevailed during the past week, with light showers at night and trade winds.—F. Weber.

Kealia—A few light showers have fallen, but otherwise the week has been very dry; the days have been cooler and the nights much warmer, with steady trade winds.—W. Jarvis.

Kilauea—Several good showers during the past week have improved the condition of growing cane.—L. B. Boreiko.

Hanalei—We have had occasional light showers during the past week, but upland pastures need more rain and lowland pastures are in poor condition; rice is doing well.—E. G. K. Deverill.

## HATCH HELD UP BECAUSE OF AUTO ACCIDENTS

Judge Dole had to hold court Monday without the valuable assistance of Clerk Frank Hatch owing to unforeseen disasters, which overtook that genial gentleman somewhere on the other side of the island. Sunday morning at about 5 o'clock Hatch, together with Owen McCarthy of the Hawaiian Office Specialty Co., started for Haleiwa, with ladies, in McCarthy's automobile, a large car which was formerly the property of Dr. Baldwin. Since then the sacred precincts of the court have known Hatch no more. Monday morning he failed to turn up with usual punctuality, so inquiry was made along the highways and byways for his whereabouts.

People returning from Haleiwa hotel brought the news of the party. It appears that at 5 o'clock Sunday night it had turned up at Haleiwa. It had taken the auto, on account of dire calamities, twelve hours to make the trip across the pail, and the party was much the worse for wear. One legal light who had seen Hatch, said that his usually so immaculate attire was so smeared with oil that it looked as if he had been under the machine during the whole trip. Yesterday a message from Haleiwa reported that the party was still there—busy repairing the machine.

## SCHOONER FOSTER, OUTWARD BOUND STRIKES THE REEF

The American schooner Mary E. Foster, loaded with sugar and bound for the Coast, grounded at 3 o'clock yesterday afternoon on the coral reef on the Ewa side of the channel. At 10 o'clock last night she was floated by the tugs, the tide having risen.

The Foster, it is said, was crowded for passage by the dredger Pacific working on the reef. In attempting to clear she fouled the reef. The powerful tug Fearless parted two lines endeavoring to liberate the schooner. Fortunately for the Foster there was little or no wind and very little swell.

Collector of Customs Stackable sent word to Captain Roberts of the U. S. Revenue cutter Manning that a vessel was in distress. At 8 o'clock the Manning went to lend aid, if necessary, and stood by during the evening.

Captain Niblack of the U. S. S. Iroquois went to the scene in the Iroquois cutter and investigated the Foster's position. He was ready to help the schooner if occasion required.

The Fooling Suey was to have followed the Mary E. Foster out of the harbor, but the mix-up in the channel delayed her.

The schooner's people may institute action against the dredger company on the ground that the dredger failed to give clear passage to the Foster. In order that the Doric might enter the harbor, the dredger disconnected with the pipe line.

MRS. HOBRON DIES AT THE AGE OF 81

Mrs. Frances E. Hobron, widow of the late Captain T. H. Hobron, died at 4 o'clock yesterday afternoon after a long illness. She was 81 years, 2 months and 20 days of age. She had lived here since 1823. Her husband was one of the pioneers in the sugar industry, having established a plantation at Grove Ranch, Makawao, Maui.

FILES DEMURRER

Another leaf was added to the already voluminous volume of documents in the matter of E. M. Brown, who is attempting to have the custody of his little daughter taken from his former wife, Christina U. Brown. Mrs. Brown today filed a demurrer to the amended petition of Brown for the appointment as guardian of the child, on the grounds that it does not set forth sufficient facts to entitle the petitioner for the relief prayed for, and that it is uncertain and vague.

ANTI-GAMBLING BILL

(Continued from Page 1) the father of the bill, when his attention was called to a statement made by the Advertiser in the matter, stated that he did not know the Advertiser, but that Hawaii certainly had nothing to do with the origin of the bill.

In the debate Littlefield answered the questions put to him as to whether the Territories did not already have laws regulating gambling, by stating that New Mexico and Arizona had laws simply licensing gambling. The passage of the bill would put a stop to that.

The bill met with great opposition from Smith of Arizona, who objected to having the Congressman from Maine handling the affairs of his people for them. In the course of his speech he said as follows:

"Now, in my opinion, this bill is brought here under suspension of rules, which prevents all amendments for the simple purpose of getting votes in favor of joint Statehood if the question shall be submitted to the people of Arizona. The purpose to make it to the interest of the gambling fraternity to flee to the joint State with New Mexico, and thus avoid this act of Congress and take chances with the Legislature of the new State.

"The motive behind this bill is to lead all this vote and influence in favor of the miserable joint state bill in case the Foraker amendment passes Congress. Whether the gentleman from Maine has that purpose in mind or not, I am not here to say, but I have no doubt in the world that the purpose is behind the bill."

After some further debate in which several letters from people in the Territories favoring the passage of the bill in order to wipe out gambling were read, the bill was finally passed.

NO NEW WARSHIPS.

Washington, Feb. 21.—Because of the decided feeling of hostility that exists in Congress just now toward the navy—or, rather, toward the Navy Department—it is practically certain that nothing will be done this year in the way of authorizing new warships. One additional battleship would have been provided for, in all probability, thus following out the recommendation of the President, but for the extraordinary quarrel that has been going on among the bureau chiefs of the department for nearly a year over the two battleships authorized last March.

# ENERGINE

Lihue, Kauai, H. T., February 9, 1906.

Messrs. E. O. Hall & Son, Honolulu.

Gentlemen:—Yours of February 9th to hand, inquiring how I liked the fuel "Engerine." I would say that this fuel after eight months use has given me entire satisfaction, and has proved to be all that is claimed for it. My average per gallon of "Engerine" is twenty-five miles, with gasoline it was about fifteen miles. The best run I have made with "Engerine" was twenty-nine miles to a gallon, this run was made under very favorable conditions. What pleases me most, is the increased power which "Engerine" gives, hills that my runabout would only take on the low speed with gasoline, now takes them on high speed with no trouble. The spark plug has been in service for the past six months and has never given me one moment of trouble. I took it out the other day to show a gentleman from Honolulu, and he was surprised at its perfect condition. I cheerfully recommend the above fuel to all users of autos.

Yours very truly,

## DORIC HAS MACHINERY ABOARD FOR JAPAN

The S. S. Doric arrived from Oriental ports at 8:30 last evening and docked at the Hackfeld wharf. She was delayed several hours by rough weather. She sailed from San Francisco on February 27. The Doric carries 4500 tons of freight, including a lot of machinery for Japan and 75,000 feet of lumber for Manila.

Among her passengers is Admiral Dayton, U. S. N., who has been assigned to the U. S. S. Rainbow. This will be his flagship in Asiatic waters. Flag Lieutenant Tompkins accompanies the Admiral.

A large number of the Doric passengers stop over in Honolulu for a couple of weeks. Mr. and Mrs. Nathan Bill, Miss Beatrice Bill, Miss Caroline Burns and Miss Louise Freeman of Massachusetts are among the stop-overs.

The Doric resumed her voyage to the Orient early this afternoon.
