BIG SENSATION IN COURT

CITY LAWYER IMPRISONED FOR CONTEMPT.

Regular Cyclone in Circuit Chambers This Morning—Attorney and a Judge.

There was quite the breeziest breeze in the circuit court this morning of the season, the year, or the decade. In fact, in a life time, such a scene may not be repeated.

As a result of it, Attorney George A. Davis was sentenced to pay a fine of \$50 on one charge of contempt of court and to imprisonment for ten days on a second charge, a most remarkable tirade delivered immediately following the first sentence.

Leaving the court room the lawyer lifted his hat and said: "I will spend the ten days in jail. Ta-ta, Judge, Merry Christmas to you; I know I will have a pleasant time of it."

Early in the forenoon a motion of defendant to strike out an affidavit of Lawyer Davis in the case of F. E. Porter vs. Hawaiian Pork Packing Company, came before the supreme court. This document, which was treated in the columns of this paper at the time, preferred serious charges against the attorneys on the opposite side and against the court. At the hearing this morning the motion was referred by the supreme bench back to Judge Perry.

At 11 o'clock Mr. Davis presented the regular bill of exceptions and the affidavit, and moved that the bill be allowed. When he had finished Attorney Silliman arose and moved that Mr. Davis be adjudged guilty of conduct unbecoming a practitioner and a gentleman in the methods used in uttering and giving publicity to the scandalous affidavit, and that he be disbarred from practicing before the courts of Hawaii.

Judge Perry asked Mr. Davis to explain the affidavit and his meaning of several clauses therein, which reflected upon the court and opposing attorneys. In a speech Mr. Davis said he meant just what he had said. The former ruling of the court was made from bias and prejudice, and an undue exercise of arbitrary power by the court. The speech was reeking with very uncomplimentary epithets, largely personal.

At the conclusion of the speech Judge Perry fined Mr. Davis \$50 for contempt as shown by the affidavit, and ordered the bill of exceptions and the affidavit stricken from the files of the court.

At this juncture Mr. Davis rose and made the speech of his life. It was eloquent in the extreme, but bristled with personalities and charges against the judge. Attorneys were awed by the tirade, and twice were the bailiffs in the court almost upon their feet to make an arrest.

At its conclusion Judge Perry asked the attorney if he had any reason to show why he should not be adjudged guilty of a second contempt of court. "None," shouted the attorney, "sentence me to imprisonment, or to death, Judge Perry, and let a humane world judge between us, who is right and who is wrong. This is not the first time we have met. For two years you have hounded me. At the last term you overruled all of my motions through malice and hatred. You took me in here today to inflict your malice upon me. Now do your worst. I knew before I came in here what would happen."

"I take no notice of your threats, Mr. Davis. You are guilty, however, of the most flagrant contempt, and I sentence you to be imprisoned for ten days," added Judge Perry.

In the brief space of the hearing a great deal was said. Every minute was one of excitement. Judge Perry spoke several times, but was interrupted by the angered attorney at the end of every sentence.

HEAVY SEAS AT KAHULUI

STRONGEST SWELL EXPERIENCED FOR YEARS.

Terrific Energy That Carries Its Destructive Floods Around the Sheltered End of the Island.

"It will be five years next March," said Captain Cameron of the Claudine, "since the conditions now prevailing at Kahului and the whole northern coast of Maui have prevailed before. A north northwest wind is blowing hard. It is simply impossible to land at Kahului. In coming out after I had gone in to see if a landing were possible, the steamer was going slow, but the waves broke clear over her. There was no foot to them. They rose up vertical like a stone wall.

"The tremendous swell has such force and energy that its extends clear around the western end of Maui, tearing up the railroad track at the Kaanapali landing. This part of Maui is thoroughly protected by Molokai from gales from the direction of the present prevailing wind, but the swell has acquired such energy that it has become a southwest swell of tremendous force at Kaanapali, and a serious one at Lahaina."

The Mauna Loa transferred her Lahaina passengers and mail to the Kani which is waiting there for smoother weather. The Claudine left the mail she got at Maunaloa bay for Lahaina, with the Kani also. The Kahului mail and passengers were taken on board at Maunaloa bay, which port was left at 8 o'clock last night.

The Hamakua coast is calm with a northerly swell. The Kau coast is very calm. The channel between here and Molokai has a very heavy swell. The wind in the Kauai channel is north, the prevailing weather on Kauai is good.

DAM GIVES WAY ON MAUI

RESERVOIR AT KAILUA FLOODS THE VALLEY.

Much Damage Done—Snow on Haleakala—North Storm Raging at Kahului—Claudine Unable to Land.

MAUI, December 23.—Owing to an unprecedented fall of rain during one night, 7 inches it is reported, the big reservoir of the Spreckelsville plantation at Kailua, near the head of their ditch, overflowed and washing away a part of the dam, literally flooded the valley and lands below. Much damage was done to Henry Birch's two patches, not only the crops, but the soil itself being taken out to sea. The cause of the trouble was said to have been carelessness in not having the dam watched.

A light fall of snow occurred at Haleakala last Tuesday, and very cold weather is being experienced. Mr. L. von Tempsky reported 29 degrees at the Haleakala ranch mountain house a week or so ago, which is the coldest yet known this year. Sixty-two degrees has been the lowest at the sea shore.

A north storm is on, and the breakers are running high all along the coast. The Claudine poked her nose in towards Kahului this morning, but seeing it was no use turned and went on her way to Honolulu.

The Kinau is to take the mail and passengers from Maunaloa bay at 2 p. m., and the Island has to rush its mail through a half day earlier.

LAHAINA, December 23.—The Claudine arrived here today at 12:30 p. m. The wind is so boisterous that she could not stop at Kahului. She goes at 4 p. m. to Maunaloa bay for the Kahului passengers and freight.

SANTA CLAUS.

Entertains a Large Gathering at Central Union Church.

Santa Claus had a big audience awaiting him at Central Union church last night when the jingle of his sleigh bells announced his coming. Some of the smaller tots were a little frightened at the strange appearance of the tall man with long white whiskers and hair, and fleece lined and fur trimmed garments, especially when he began looking through his field glass to see if there were any bad little boys or girls there who did not deserve presents. But there weren't any there, and pretty soon Santa Claus had made friends with everybody, and the big Christmas tree was yielding up presents for every pupil of the Sunday school.

Then about twenty of the stalwart young men became participants in the Santa Claus, and were kept busy for half an hour serving ice cream and cake to everybody. Santa Claus in this grand distribution disposed of about thirty gallons of ice cream and 100 loaves of cake.

Colonel de la Vergne was master of ceremonies for the evening, introducing the guest of honor, Santa Claus, B. L. Marx.

TRIED THE SAME OLD GAME

ANOTHER AUSTRALIA SAILOR HAS OPIUM.

Tries to Run Over the Customs Gate Guard—Fined \$200—Vessel Seems Loaded.

A sailor named Falkner was fined \$200 in the police court this morning for having opium in possession. He will pay the fine.

Falkner is employed on the steamer Australia. Early last evening he attempted to pass the guard at the gate to the Oceanic dock, but was stopped. While a search of his person was being made he struck the guard and attempted to run through the gate. He reckoned without his host, however, for in a trice the guard had the smuggler on his back and was going through his clothes.

Two tins of opium were found concealed in the man's sleeves. He was forthwith arrested and sent to the station house.

This is the third time since the Australia has been in port that her crew have attempted to run the customs guards with opium. Each time, however, the guards have gotten the best of it. It would seem that the local liner on her present trip is plentifully supplied with the taboo drug. A sharp lookout will be kept on her during Christmas.

The court, after hearing the testimony of the prosecution in the cause of the Republic of Hawaii vs. Ah Mo, for nuisance, in keeping a savage dog, instructed the jury to render a verdict of not guilty.

KAWAIAHO CLOSING.

Santa Claus' Vision Presented Last Evening.

The chapel at Kawaiaho seminary was filled to overflowing last evening with pupils and friends of the school on the occasion of the cantata presented as a Christmas closing program. Guests were met at the door by their friends among the pupils or teachers. It was an invitation affair, and most of those attending had acquaintances in the school.

The selection was Santa Claus' Vision, a beautiful juvenile cantata with short songs and recitations. All of the smaller and most of the larger pupils took part. The cantata was perhaps written for an hour, but really lasted nearly an hour and a half. It was begun at 7:30 and was not finished until nearly 9:00.

When the program was finished, the guests were entertained in various ways for a half hour. On a table in one of the front rooms was a beautiful display of lauhala mats, fancy wall pockets, etc., made by the young ladies. The reception closed at 9:30.

BAD DIGESTION, BAD HEART.
Poor digestion often causes irregularity of the heart's action. This irregularity may be mistaken for real organic heart disease. The symptoms are much the same. There is however a vast difference between the two; organic heart disease is often incurable; apparent heart disease is curable if good digestion be restored.

A case in point is quoted from the New Era, of Greensburg, Ind. Mrs. Ellen Colson, Newport, Ind., a woman 43 years old, had suffered for four years with distressing stomach trouble. The gases generated by the indigestion pressed on the heart, and caused an irregularity of its action. She had much pain in her stomach and heart, and was subject to frequent and severe choking spells which were most severe at night. Doctors were tried; the patient became worse, despondent, and feared impending death.

A Case of Heart Failure.
She was much frightened but noticed that at intervals in which her stomach did not annoy her, her heart's action became normal. Reasoning correctly that her digestion was alone at fault she procured the proper medicine to treat that trouble and with immediate good results. Her appetite came back, the choking spells became less frequent and finally ceased. Her weight, which had been greatly reduced was restored and she now weighs more than for years. Her blood soon became pure and her cheeks rosy.

The case is of general interest because the disease is a very common one. That others may know the means of cure we give the name of the medicine used—Dr. Williams' Pink Pills for Pale People. These pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves.

CHRISTMAS CONCERT.
The band will present the following selections at Makoe Island tomorrow afternoon at 3:00 o'clock:

ABOUT CATARRH.
It is caused by a cold or succession of colds combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hood's Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the disagreeable sensations.

HOOD'S PILLS cure all liver ills. Mailed for 25c by C. I. Hood & Co., Lowell, Mass.

SATURDAY, DECEMBER 24, 1898.

THE GREAT BIRTHDAY.

Christmas is a world wide feast. Wherever Christianity has spread there the festival is held. Christmas pays no regard to nationality. It pays no regard to the sects of Christianity. The German and the French, the Spaniard and the American, the Britisher and the Russian, the Protestant and the Roman Catholic, the Greek church and the Episcopalian, the Baptist and the Methodist, all celebrate Christmas, all think of the birth of the Savior of the World, the Prince of Peace, whose doctrines and words we honor and revere, and very often straightway go and do the direct opposite.

It is a solemn thought that tomorrow in so many tongues, under so many forms of religious worship, the event, that happened nearly 1900 years ago, and which turned the course of the western world from its low materialism to its present lofty spiritualistic ideals, should be celebrated. It is a moment when the whole world is kin.

But if we with due solemnity perform our religious duties and think perchance of the prayers learned long ago at the mother's knee, but often and often neglected; we also make it a season of rejoicing, a season of opening the heart to the better emotions of the human nature.

Family after family meet together on Christmas day at the festal board. As the years roll by gaps come in the family circle, but those who are away are remembered, and those who have left for the long journey which we all must take, sooner or later are thought of.

To the young, Christmas is a season of the keenest enjoyment. Its pretty legend of Santa Claus is very real to the little tots, its Christmas trees, its holiday fun, its presents, make it a period ardently wished for and fondly looked back upon.

To the old, Christmas is a season of hallowed memories of Christmases that have passed, of bright faces and curly heads that have become silvered and careworn, but it is also a season when the old live again in the young, when they can rejuvenate themselves in the pleasure which they can afford to others, when children and grandchildren can be made happy and merry, and have stamped upon their little hearts the lessons of kindness and love which make the world rise above the sordid ends and ideals that are apt to choke them in the future.

It is a fortunate thing for the world that such a season occurs. It calls forth the best attributes of our nature, and though here and there a curmudgeon of a Scrooge may be found, let us hope that like Scrooge he may be converted and brought to see the error of his ways, that he may come to believe in Santa Claus and the many beautiful legends and tales that cluster round the festal season and join the Star heartily when it wishes its friends and its foes

A MERRY CHRISTMAS, EVERY ONE.

HARBOR IMPROVEMENT.

The plans laid down for the relief of the present congestion in the harbor facilities seem rather short-sighted. The harbor is small enough in all conscience and to take away from its size by building wharves into it does not seem the wisest thing in the world. Of course the relief can be only temporary, and the main fact still remains to be grappled with, and that is to enlarge rather than to narrow.

What are needed are as many slips as possible. These of course take time and money to make, but with our constantly growing commerce there must be money spent in improvements of this sort. And the improvements should be on a definite plan looking to the future expansion of our shipping trade.

Of course it may be, and is necessary to give relief at once, but it is going to cost double the money in the end, for what is done by encroaching on the harbor now will have to be undone in the near future. What is proposed to be done must be thoroughly understood to be a makeshift, and not a true improvement.

It should be kept in mind that the size of freight carriers is increasing

every year. What used to be carried in half a dozen sailing ships is now carried in one steamer. Honolulu is going to be a wayport of the great Pacific trade, and she must gird herself up to prepare for it.

MANY HAPPY RETURNS.

The "Father of Annexation," as his friends like to call Dr. McGrew, celebrates his seventy-sixth birthday today. A strong personality is the worthy doctor, and a man worth knowing. In his youth he served his country in the field and won honor in the army. In his maturer years he served his country abroad, and steadily advocated that the Hawaiian Islands should not only be in the sphere of American influence, but should become part and parcel of the Republic.

In this faith the doctor never faltered, he preached his doctrines when many ears were deaf to what he urged. He worked for his cause in season and out of season. When The Star was started the doctor was the responsible editor, and though others took up the work he was ever ready to give his support.

It is not always given to men to see the result of their labors, but to Dr. McGrew it has been given. He now lives once more under the flag he fought to preserve and he knows that his efforts did much to bring about the condition of affairs that now exists. He has lived to see an American army pass through Honolulu harbor on its way to expand American territory, and may he live many a long year more to see the prosperity of the place increase, and his own fortune increase and be honored among us ever, as "The Father of Annexation." The Star says, "Many returns of the day, doctor."

THE WAIALUA MURDER.

Chester Doyle went to Waialua yesterday to investigate further the murder of the Japanese woman there, last week. He secured some additional important evidence. The case has been set for trial Wednesday morning. Robertson and Wilder have been retained for the defense.

COWES ESTATE.

YOU AND YOUR WORK.

We are all the time hearing men, and women, too, talk like this. "My work is too much for me; it worries me and wears me out; it upsets me so I can hardly eat, drink or sleep;" and so on. Once in a while, no doubt, that is so; but, commonly, it is not, their work that is too much for them, but their poor health, their weakness. They are out of sorts in any one or more of a hundred ways. Condensed, the idea is this: Bad Digestion, Thin Blood, Loss of Strength and, perhaps, Flesh. Tendency to fret and worry over small things, Lack of Courage to attend to details and face risks, etc. In two words, low vitality. What is needed is a short course of

WAMPOLE'S PREPARATION,

of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and Extracts of Malt and Wild Cherry Bark. Palatable as honey, it drives out disease germs and makes the blood rich, red and full of constructive elements. You grow warm, strong and elastic; and soon find you are enough, and to spare, for any business. Unlike worthless relics of a dead medicinal past, the preparation does not boast of its age; out of its excellence. The sick who use it breathe with the march of progress, and get well. You cannot be too good in it. Sold by chemists.

The cleanest, brightest, safest and really
the long run, the cheapest and best light
for use in the family residence, is the incan-

safer. A few days ago a prominent gen-
tleman of Honolulu came rushing down to
the office of the Electric Company and said:
"Give me figures for wiring my house, and I
want it done at once; no more lamps for me.
Last night a lamp tipped over and it came
so near setting fire to the house and burning
my children and I take no more risks."
This is the sentiment of quite a number in

houses fitted with the perfect light.
Just think it over and make up your mind

CLIPPER LINE TO HILO

SEATTLE STILL WANTS ISLAND TRADE.

Schooner Alton Loading to Sail to the Big Island—May be the First of a Fleet.

SEATTLE, December 12.—There is every likelihood that the departure of the schooner Alton for Hilo this week means the initial voyage of a line of sailing vessels plying regularly between Seattle and that port. Attorney John P. Fay, owner of the Alton, will follow his craft by steamer from San Francisco in a couple of weeks to arrange for her return cargo, and while he is in California will arrange to charter another sailing vessel of 1,000 tons, to leave here for Hawaii early in the year.

Mr. Fay said yesterday that he had every confidence in the future trade with the Hawaiian Islands from this port, if it was properly attended to, and that he believed the only safe method was to start with sailing vessels, which made the cost of operating relatively small. He owns all the cargo of the Alton, and will pursue the same course with future shipments to Hawaii, for the reason that there is not money enough in freights now to make the business profitable.

"I have already secured enough cargo to fill a 900 ton vessel," he said, "and am already negotiating for a vessel in San Francisco to take it to Hilo. After my visit to the Islands, if I can see a future in it, I shall put on a couple of sailing vessels to run between here and there regularly."

The Alton will go to Whatcom, probably next Thursday, and on 200,000 shingles, and 1,000 boxes of apples, whence she will depart for Hilo. She will take on a return cargo for San Francisco, and from there will bring 200 tons of salt and other supplies for next year's fishing cruise in the Bering sea. She will arrive here about March 1st, and with her sister schooner, the Lizzie Sorenson, will then at once proceed north after salmon.

The master of the Alton is Captain F. Edward. He is a young man, but is recognized as a most proficient skipper. He was formerly in command of the bark Mistletoe, running out from Nova Scotia.

WAS FINED \$250.

Smuggler of Steamer Australia in the Police Court.

Hansen, a sailor of the steamship Australia, was fined \$250 in the police court yesterday morning for having opium in possession. He was charged by officials of the custom house and pleaded guilty. At the time of the arrest the man had \$175 on his person. He secured the balance of the money from comrades aboard ship and paid his fine.

Shortly after dark Thursday night Hansen and four other men tried to run over the guard at the gate to the Oceanic dock and reach the city. It is supposed that all had opium, Vichaves, the guard, grappled with Hansen, and, at the appearance of Inspector McCauley with a drawn revolver, the other men ran back to the ship. Nineteen half pound tins of opium were found concealed in Hansen's shirt. Ten more tins were found on the wharf.

WATER NOTICE.

All such rates remaining unpaid for 15 days after they are due will be subject to an additional 10 per cent.

All privileges upon which rates remain unpaid February 15, 1899 (30 days after becoming delinquent), are liable to suspension without further notice.

Rates are payable at the office of the Water Work in the Kapuwa Building.

Tribune Bicycles.

(From the Scientific American.)
"Many assumed bicycle manufacturers simply buy parts and do their own assembling. But for the production of the absolutely high grade American bicycle, a factory is required which will turn out practically all of the parts of the wheel manufactured, for unless such is done one concern cannot be answerable for the perfection of the whole machine.
"We select as the representative of such a factory the works of the Black Manufacturing Company, of Erie, Pa., a company which produce the highest grade of wheel and which put it on the market purely on its merits without the adventitious advertisement of paid riders. The wheel made by this company, the Tribune bicycle, embodies the best possible practice and is correspondingly free from all structural variations or unproved merit."
