CONVICTS MADE HAPPY WHERE CAN THE MOANA BE?

GIVEN THEIR LIBERTY BY THE TWO COUNCILS.

Thomas B. Walker is Now a Free Man—Captain Anderson of the Henrietta is Pardoned.

Thomas B. Walker, the stone mason, who took a shot at John Emueluta, with a rifle last spring, was pardoned by the Council of State yesterday afternoon. Walker was sentenced to one year's imprisonment at hard labor in Onahu prison. He had but three months to serve.

Yakama Kekua, a native in the police service at Wailuku, Maui, who served a term of two years for forgery in the early 80's, was pardoned and his citizenship rights restored. Kekua has lived a straightforward life since leaving the prison.

Jeromiuo Moemoe, who was sentenced to six years imprisonment about three years ago, for complicity in a burglary near Smith's bridge, Honolulu, was granted a pardon. Moemoe is a native of Philippines. His pardon was recommended by the prison authorities on Hawaii. Sheriff Andrews, Judge Hitechock and Gardner K. Wilder, who as deputy attorney general, secured Moemoe's conviction.

Naone, a 16 year old Hawaiian lad, sentenced to four years for larceny, was given his pardon. He was a very unruly prisoner until four years ago, when he took a sudden turn for the good. Jailor Low recommended the boy's pardon.

Captain W. B. Anderson of the Schooner Henrietta, who was sent to prison for importing opium, and fined \$500, is a happy man as a result of the Council's action. Captain Anderson is the last of the Henrietta's prisoners to receive clemency.

Probably the most deserving of all the prisoners pardoned was David Elin a Hawaiian, who is serving a sentence for assault. There was some doubt as to his guilt at the time of the conviction. Elin has been a trusty at the police station. Marshal Brown, Warden Law and Prison Inspectors Lowrey and Magoon heartily recommended the pardon.

The Attorney General mentioned that C. B. Parsons, assassin, had asked for pardon and that the prison board was unanimously against interference.

No action at all was taken on the application for commutation to life sentences of the two Lahaina Japanese now under sentence of death for killing a woman, and whose motions for new trials are now pending before the Supreme Court.

There was no vote on the plea of Ah Wai, a Chinese chicken thief, who has several months yet to serve for chicken stealing, and who wants to be liberated on condition that he leave the country.

WILL URGE THE PLAY GROUNDS.
Research Club is Deeply Interested in the Palama Improvement.

C. F. Peterson and Andrew Adams were selected at the Research club meeting at the Birnie home last evening to present a practical plan for the opening up of public play grounds in Palama. The club will foster this improvement, but will not place itself under financial obligation. It will be the endeavor of the committee to confer with the government people upon the matter at an early date.

A. A. Hanson's paper on stock speculation brought forth a lively discussion. It seemed to be almost the unanimous opinion that the speculation as carried on in Honolulu was legitimate.

C. F. Peterson told the club in an entertaining way of a visit he and "Jack" Atkinson made to "Henry George, Jr., Republic" near Freeville, N. Y., last year. The Republic consists of less than one hundred acres of land, and is inhabited by about one hundred boys and girls, whose ages range from 8 to 20 years. The Republic is conducted on a real basis, it being governed by its own citizens.

Mr. Elisha Bery of this place says he never had anything do him so much good and give such quick relief from rheumatism as Chamberlain's Pain Balm. He was bothered greatly with shooting pains from hip to knee until he used this liniment, which afforded his prompt relief. R. F. Baker, druggist, St. Paris, Ohio. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

WHERE CAN THE MOANA BE?

SURELY HELD BACK TO WAIT FOR THE ENGLISH MAILS.

She is Nearly Three Days Late Now—English Mails are Invariably Late in the Winter Time.

"Where is the Moana?" This query has been put at Postmaster General Ott and his subordinates at intervals of every five minutes since Thursday, when the big liner was due. The postoffice authorities and the steamship agents are no wiser concerning the Moana's whereabouts than the citizen who is anxious to secure the latest news concerning annexation or the person who is eager to receive an epistle from some friend abroad.

However, they have surmised that the delay has been caused by the Moana waiting for the arrival of the English mails. The through steamers to Australia leaving San Francisco and Vancouver have contracts to carry the English mails. The agents of the steamship lines advertise that they will await the arrival of the English mails.

In 1887 the Alameda was obliged to wait seven days in San Francisco for the mails. The delay was caused, as is usually the case, by the rough weather in the Atlantic and the snow blockades along the line of the Union Pacific and Central Pacific. In 1887 the railroad blockade was something fearful and the mail authorities decided that it would be safer to have the mails carried over the southern route. When once the Alameda did put to sea her boilers were taxed to the utmost, and she arrived at her destination but a day or so late.

When the Australia carried the English mails to Australia she was held back one winter for five days.

Last year the Zealandia was two days late in January, the Monawa was one day late in February, the Alameda one day late in March, the Maniposa was two days late in April and the Monawa was several hours behind time in May. It was not until June that the Australia boats began to come in on schedule time. The delay was invariably caused by the English mails.

The belated Moana may be expected at any hour now.

WILL INSPECT THE REGIMENT.
Acting President Cooper will review the First Regiment at Makiki park at 10:20 o'clock on Monday morning. Major George C. Potter of the general staff will act as chief inspector. He will be assisted by the following officers: Major C. B. Cooper, Regimental Surgeon; Captain J. W. Pratt, general staff; Captain A. Gartenberg, regimental ordnance officer; Captain W. G. Ashley, regimental quartermaster; Captain John Schaefer, regimental adjutant; Lieutenant L. T. Kenake, adjutant First Battalion; Lieutenant Ed Towse, adjutant Second Battalion.

RAILROADS IN JAPAN.
According to the latest Japanese handbook the first railroad in Japan was constructed and opened for traffic in 1872. This was from Yokonama to Tokyo, and was 18 miles long. In 1896 there were 2,118 miles of railroad; 580 miles belonging to the government and 1,537 miles to private companies, and there were 1,512 miles under construction, which must, in a great measure be completed by this date. Certainly the Japanese show practical signs of material progress.

A BIT OF A FIRE.
The brush and grass on Kaena Point is burning and the reflection of the fire could be clearly seen from this city last night. It was discernible half way across the Kaula channel and the captains of the Mikahala and the James Makee both ran close in last night, believing it to be a ship on fire. Captain Tulliet says that the fire was winding around the mountain like a large serpent. The blaze was probably started from the Japanese camp on the railroad grade. As there is nothing in that vicinity to burn except rocks and lautana, no serious harm can be done.

STILL IN ABEYANCE.
There was a brief session of the directory of the Annexation club yesterday afternoon. It was agreed to defer the question of sending a native delegation to Washington until next week.

THE POLITICAL PARDONS IS OPEN TO CONVICTION

AN ARGUMENT FOR HARMONY IN THE STATE.

The Minister of Finance Would Extend the Right Hand of Fellowship—Ena and Robertson Speak.

For some little time past the President and his Cabinet have given earnest consideration to the political prisoners on parole. The proposition of pardoning all providing outlays of fealty would be forthcoming has met with favor.

Just before the convening of the Council of State, yesterday afternoon, Robert W. Wilcox, one of the leaders of the 1895 revolution, who was sentenced to imprisonment and a heavy fine, placed his application for pardon in the hands of Attorney General Smith. Wilcox asked for the restoration of his citizenship rights and he agreed to take an oath of allegiance to the government. The Attorney General stated that as the application had not received the consideration of the Cabinet he could not bring it before the Council.

Councillor A. G. M. Robertson asked if the Ministry would object to hearing the opinion of the Councillors as to the political prisoners on parole. As for himself he was decidedly in favor of pardoning all and remitting the fines. Their offense had passed away and the prisoners were greatly embarrassed in their business affairs with fines hanging over their heads which he understood would never be collected.

Acting President Cooper announced that the matter had been considered by the Executive Council. The government did not feel warranted in applying for a pardon.

Minister of Finance S. M. Damon took the floor and made a sincere appeal for the political prisoners, insisting that it was for the sake of harmony. "I feel myself," said Minister Damon, "that the time has arrived when we ought to hold out the right hand of fellowship to anyone who has been in opposition to us in the past, and who shows a desire, even as it has been expressed at the very last moment, to recognize the Republic.

"It seems to me that we should forget the past and look ahead to the brighter future. The most of these men are Hawaiians, and now looking at it in a purely political spirit, it seems to me that it is our golden opportunity to say to the Hawaiians: 'You have been an opposition to us; we respect your feelings; we respect you more because you have seen fit to come forward and recognize the Republic and forget the past.'

"It has been no easy affair for the Hawaiian, nor is not today for them, to recognize the change in affairs. Foreigners are accustomed to a Republic, but the Hawaiian has been brought up for generations to look up to his chief and his sovereign. And he does feel a dread of the power of the foreigner coming in here. He feels as though he was to be brushed to one side, and I believe this is an opportunity for us now to say to him: 'The door is open; we are ready to forget the past.'

"Whether we are to be annexed to the Great Republic in a very short time or in a longer time, we should be ready to welcome those who are in opposition to us. If we are not ready now after a lapse of practically five years, my opinion is that that time will never come. Five years is time enough to make up our minds whether we are going to call the past quits and start in again. It seems to me that the Republic is too well established to harbor this. We want to go ahead and progress in this country. This question of the voting population being in the minority cannot hold on forever. If we are a Republic we want to have a common country and a common ground to work upon; and to say that a part of this community is to be kept outside the pale seems to me a great mistake and I have always urged this in the past."

"Every time we have taken an advance step and allowed those who are ready to come in and join us we have never lost ground. It has always been a help to us to take that step and I maintain that it is the proper step for us to take at this time."

At the conclusion of Minister Damon's informal remarks, Councillor John Ena asked for recognition. "I fully agree with the views expressed by Minister Damon. I believe that the time has arrived to wipe the past out. To wait until they petition the government might take years. It seems to me that it would be an act of kindness to extend the hand of fellowship to those people by the Executive Council and the Council of State, and say to them: 'You are free men, do as you please.' I firmly believe that it would add strength to the government to adopt that policy. It would make those people feel their obligation and our kindness, and lead them to act in accord with us."

Councillor Wilder stated that this matter was new business and could not be brought before the Council. He had hoped the Executive would bring up the matter. Until it did he would not express his opinion.

It is now quite probable that the Executive will bring up the matter of pardoning all the political prisoners at the next session of the Council of State.

IS OPEN TO CONVICTION

H. S. RAND SEEKS INFORMATION ON ANNEXATION.

A Son-in-Law of United States Senator Gear, Who is Now Visiting in the Islands, has This to Say.

H. S. Rand, a son-in-law of Senator Gear of Iowa, who is spending the winter here with his wife and son, is a little inclined to be skeptical as to the advantages of annexation to the United States, but he is open to conviction, and is making a study of the question with a view to forming an opinion. Mr. Rand is a wideawake American, who takes a great deal of interest in politics at home. He is outspoken in his opinions, but not stubborn, and is honestly endeavoring to secure light on the annexation question.

"Last summer during our state, county and city political conventions," he said, "I was surprised to find how much interest was being taken in annexation. Whenever a crowd gathered, the mere mention of Hawaii was invariably a signal for the people to get up on their feet and cheer themselves hoarse. Had Congress been in session at that time it would have been forced by public opinion to have annexed the Islands.

"Now people say they must have time to consider the matter, so that the Islanders here must not expect a hasty action on the part of Congress. At the time I left home, two months ago, my father-in-law, Senator Gear, said that he had not yet had time to study the Hawaiian question sufficiently, so that he could not express an opinion on the subject."

Mr. Rand sailed yesterday for a trip through the coffee fields and to the Volcano. His friends predict that when he returns he will have been convinced that the Islands are a very valuable possession.

DESERVING OF CHARITY.

THE GROWTH OF ENGLISH

ENORMOUS EXTENSION OF THE LANGUAGE.

Statistics Showing the Increase which Has Taken Place During the Present Century—Leading Language.

We all know, says the St. Louis Globe-Democrat, that the English language has been growing at a remarkable rate during this century, and that it has been spreading over the whole globe. But few however really comprehend how rapid this growth has been.

Concurrent with the growth of the language there has been an equal, if not greater, increase in knowledge. Three hundred years ago one man could know all there was to be known. Today one man can know thoroughly only one small branch of one science.

More than any other cause, the progress of modern invention and science has brought about an enormous extension of the language. Thousands of technical words and expressions now in common use would never have been coined but for the innumerable parts of the never ending list of new inventions in mechanics and discoveries in science.

The earliest English dictionary published was Dr. Bullokar's, which appeared in 1616. It is a little bit of a book with some 200 pages, and having about 5,000 headings. This is the beginning of works of reference in the English language. One page which illustrates the march of progress is that which has meteor, metropolitan, mimic, mineral, etc., on it. Mineral is defined by Dr. Bullokar as "anything dug out of the ground."

When Dr. Johnson wrote his celebrated dictionary, it took fifteen large pages to cover the same space. The best work of the present day—the Century Dictionary and Cyclopaedia—requires forty-seven pages to cover this alphabetical range, which shows how enormous has been the increase of the past 280 years.

In Bullokar's work there is but one micro word, microcosmus. In Dr. Johnson's work, written a century and a half later, the micro words have increased so as to cover one column. Microscope, which was not in Dr. Bullokar's work, appears for the first time in Dr. Johnson's. In the Century Dictionary and Cyclopaedia these micro words cover six pages. Another word which may be quoted as a very good illustration is take. The Bullokar work omitted it entirely. The Century devotes to it exactly four pages, and in the course illustrating its various uses the latter work contains 286 quotations.

Comparisons of this description will be interesting to every one to whom they may be possible. Unfortunately but very few public libraries contain any of those old reference books. Publications in those days were few and far between, and but few examples of the old time presswork are now extant.

MARSHAL'S SALE.

Bad!

It is news to you, perhaps, that baking powder can be bad for the insides. Good baking powder, however, is not bad for the insides.

True, it costs more than baking powder at 25 cents or 30 cents a pound; but it does better work, and more work for the money, than "cheap" baking powder does, and it does no harm.

GARDENING ON THE YUKON

DR. JACKSON'S REPORTS ON THE CROPS IN ALASKA.

Enough Vegetables Could be Raised to Supply the Settlers—Need of an Experiment Station.

Reports have been transmitted to the Speaker of the House of the commissioners who were sent last summer to Alaska to report on its agricultural possibilities. The investigations of two of these have been previously published in the Star. The preliminary report of Dr. Sheldon Jackson of the bureau of education on the agricultural conditions in the Yukon valley has not been published.

"While Alaska will never be an agricultural country in the same sense in which that term is understood in the Mississippi valley," says Dr. Johnson, "yet it has agricultural capacities much in advance of the public sentiment of the country.

"At Koserefski, 338 miles from the mouth of the river, and at Anvik, 355 miles, I found gardens kept by the Roman Catholic Mission at the former place, and the Protestant Episcopal Mission at the latter place, at which were grown the following vegetables: Potatoes, turnips, cauliflower, radishes, lettuce, cabbage, carrots and beets and peas. I saw potatoes about seven or eight inches long and three inches in diameter; turnips weighing fully ten pounds. In the same region the following berries were growing: Wild whortleberries, salmon berries, bearberries, blueberries, blackberries, red berries, currants both red and black, crowberries, cranberries, raspberries, strawberries and juniper berries. A species of redtop grass abounds the entire length of the Yukon valley, ranging from three to six feet high.

"At Circle City, 1,322 miles from the mouth of the river, and Fort Cudahay, 1,322 miles from the mouth of the river, on the edge of the Canadian boundary, I found a few good gardens generally kept by the commercial companies. At Fort Cudahay, peas, beans, beets, radishes, lettuce, cabbage seemed to be thriving in the gardens. At Circle City lettuce, radishes, onions, turnips and peas for early use are sowed on the roofs of the houses, the log cabins being covered with dirt roofs, and the warmth of the houses probably conveying heat to the soil on the roofs. Eight miles from Circle City a good garden has been established by a gentleman to supply the miners with fresh vegetables. Six miles below Circle City, Mr. R. Wilson, who furnishes cord wood for the river steamers, is accustomed when an opening is made in the woods sufficiently large to let the sun reach the ground, to loosen the soil between the roots and stumps, and sow turnip seed. In 1896 he marketed 3,000 pounds of turnips, receiving 15 cents a pound for the same.

"A large vegetable garden has been established on the Canadian side opposite Dawson, the capital of the Klondike mining region.

"These general observations go to show that, with the establishment of an experiment station and the intelligent gardening, sufficient vegetables could be raised in the Yukon valley for home consumption."

REPORT ON THE CONGRESSIONAL LIBRARY.

Librarian Young has forwarded to Congress his annual report on the Congressional Library, the first ever made. In addition to speaking in a very commendatory manner of Mr. A. R. Spofford, for many years the librarian, the report advocates a circulating library, and earnestly recommends that the library be opened it once to night readers. The amount of copyright fees for the year beginning July 1, 1896, was \$55,376, the amount for May and June last being estimated at \$9,100. Expenses of the library were \$61,604.26. Of this sum, \$54,620.47 was for salaries, \$5,983.02 for the purchase of books, and the sum of \$1,003.77 for contingent expenses. The library, as transferred, contained 787,715 volumes of books and 218,340 pamphlets. But these figures are estimated. On November 1 the number of books in the hands of readers was 2,320, of which 1,446 were charged to Senators and Members no longer in Congress and to others entitled to take out books. Most of the 1,446 books are regarded as lost. They were given out during a period covering thirty years. The daily average of books in the hands of readers is placed at 3,000. The percentage of the books lost in the last thirty years is about five in each thousand. It was impossible, the librarian says, to give an exact count of the books, because of the haste to have the library ready for use at the opening of congress.

ROADS.

Giving advice to the Southern States the Philadelphia Press says: "To attract immigration the South must improve its roads."

In this respect the present government has done more than any of its predecessors, and yet there is much left to be done.

On Hawaii a system of main road has been carried out which nearly encircles the Island.

On Maui the same policy is being carried out. Roads through the Kula have been made, there is now a driving road from Wailuku to Lahaina.

The Koolau of Maui only needs roads to make it support a large population. The soil is rich, and there are thousands of acres of it.

The government, in estimating the financial needs of the country, cannot be too lavish upon country roads which open up lands for settlement and cultivation.

The position of a large number of people upon the question of pardoning the political prisoners is as follows. Personally they have a perfectly friendly feeling towards them.

Personally they have a perfectly friendly feeling towards them, and they are perfectly willing to endorse the sentiments of the Representative Robertson, John Ema and Minister Damon.

the government by supporting the anti-annexationist movement with approval and coin. That is the view taken by many quiet thinking men.

YOU AND YOUR WORK. We are all the time hearing men, and women, too, talk like this. "My work is too much for me; it worries me and wears me out; it upsets me so I can hardly eat, drink or sleep; and so on. Once in a while, no doubt, that is so; but, commonly, it is not, their work that is too much for them, but their poor health, their weakness.

December 30, 1897.

Our attention is naturally drawn to the next holiday event, which will be the races on March 17th, and horsemen and others are brushing up their harness and getting everything in order to make a good appearance on that day.

Come to think of it, we can fit you up with a "Racine," or the celebrated Whitman Riding Bit, while being easy to the horse's mouth are so arranged that a horse with a strong mouth is under full control.

To complete your outfit get one of our Linen or Momic Lap Robes. Your choice from \$1 to \$2.50.

We have imported some Metal Feed Boxes because we knew they would sell on sight. They can easily be attached to the manger or to a post, and will pay for themselves in a very short time, as the horse cannot waste his feed and it prevents slobbering.

Your outfit is not complete without a Whip, and we have some good ones. Also Sponges, Curry Combs, Ivory Rings, and every article necessary to complete a well equipped stable.

We haven't said much about prices, but if you have ever dealt with us past experience will tell you that they are low. The fact is we put prices down to the point that keeps our goods moving all the time.

Prompt Payment of a Big Sum

December 4th Rouse, Hazard & Co. mailed their attorney at Chicago a draft for \$17,500.00, payable to the Western Wheel Works, that being the amount which had been in litigation between the two companies for several years. The ability of Rouse, Hazard & Co. to forward this large sum just at this season of the year, when the pay rolls and other expenses of bicycle manufacturers are very large, and receipts very small, is certainly a most convincing evidence of the solvency of one of the oldest bicycle concerns in the United States. Of the manufacturers and jobbers of bicycles who were in business when Rouse, Hazard & Co. entered that line, more than eighteen years ago, the number that still exist can be counted on the fingers of one hand. Rouse, Hazard & Co. report that their present prospects are the brightest of any time during all the years they have been in business. They now have bona fide orders from gilt edged concerns for a larger number of machines than they ever had orders for at any one time.

The next Australia will bring us a full line of these wheels. They will have more than their share of up-to-date features, and will make up the most elegant line of 1898 wheels that will be seen here this year. We shall also receive a line of Kensington's. It will pay you to wait.

COMMISSIONER'S SALE OF VALUABLE BEACH LAND PROPERTY, SITUATE IN WAIKIKI, HONOLULU, ISLAND OF OAHU.

In compliance with an order of the Hon. W. L. Stanley, Second Judge of the Circuit Court of the First Judicial Circuit, dated December 30, 1897, and filed in the Clerk's Office of the Judiciary Department in a cause entitled M. P. Robinson and others versus Caroline J. Robinson, et al., undersigned as Commissioner thereunto duly appointed, will expose for sale at public auction on MONDAY, January 31, 1898, at 12 o'clock noon, at the mauka entrance to the Judiciary Building, the property known as the Robinson Beach Premises, situate on the Waikiki Bench, Waikiki side of the premises now occupied by Marshal A. M. Brown.

The property at present occupied as a dwelling by Mr. S. C. Allen, commands a fine ocean view, and has three or four cottages so grouped together as to form one large dwelling. The apartments consist of one large sitting room, four spacious bedrooms and one large lanai, with kitchen and bath room attached, also a stable and barn. The property has all the conveniences of a homestead. Beautiful shade and hnu trees abound on the lawn.

The lot measures 150 feet parallel with the mauka road, and has a depth of 300 feet from the mauka gate towards the beach, also about 150 feet sea beach frontage. Area, one acre, more or less.

Title fee simple. Terms of sale as cash, in U. S. gold. Deeds at expense of the purchaser. Sale to be subject to confirmation by the Court. For further particulars apply to the undersigned at his office in the Judiciary Building.

HENRY SMITH,
Commissioner.

The ship A. J. Fuller sailed from New York on December 6th, and is the next vessel expected here in the Brewer line.

The British bark Iredale, having completed her cargo, has hauled into the stream, ready to sail for San Francisco on Monday.

The S. S. Moana has not yet put in an appearance, but there is no anxiety on that account. She is confidently expected in the morning.

The Encore is receiving sugar from the Makahala and James Makee this morning, and expects to get enough the first of the week to get away for the Coast about the middle of the week.

The Hawaiian bark Andrew Welch arrived this morning from San Francisco, after a pleasant voyage of 16 days. She brings 1400 tons of general cargo to Brewer & Co., 220 hogs and 6 horses. J. D. Avery, Jr., C. T. Green and H. M. Freck were the only passengers.

Reports received from Kona this morning say that sugar is piling up there at a great rate. The Kona loaded at Makaweli and ought to be in this afternoon. The Hull is loading at Hamanaula, and Captain Haglund sent word that he would surely be here in the morning.

The John D. Spreckels will get away for San Francisco some time on Monday, with a cargo of about 7000 bags of sugar. She will have all in today except about 1000 bags, which she will get on Monday from the Mikahala. Captain Christiansen is anxious to overhaul the barkentine Irmgard and try conclusions with her.

The little schooner Moi Waihine arrived this morning with the first lot of Hamakua sugar, consisting of 2134 bags. She reports the weather still very rough on the Hawaii coast. The Helene managed to effect a landing at Paauhau last Thursday, after lying outside for a week, and was slowly discharging freight when the Moi Waihine sailed. There is plenty of sugar on the Hamakua coast.

The Spokane discharged 150,000 feet of lumber yesterday from her deck, which Captain Jamison thinks is about the best day's work done in port for a long time. The captain is anxious to get away for the Sound in order to take advantage of the big rates. He does not expect to return here next trip, but will probably be sent out to Japan or to Australia, where lumber is greatly in demand.

After a day or two of comparative calm, the bad weather has again set in on the Kona coast, and bids fair to be worse than before. The James Makee and Mikahala took advantage of the calm streak to get cargoes at Kilauea and Hanamaulu, arriving here this morning. The James Makee lay for a week off Hanamaulu, and could not effect a landing at Kapaa until last Thursday, when she managed to land her freight and get part of a load of sugar by sundown. The next morning it was again too rough to get in at Kapaa, and she had to finish loading at Hanamaulu, securing in all 2304 bags of sugar and 500 rice. The Mikahala could get but 1290 bags of sugar at Kilauea when the weather became too rough to work any more. She then proceeded to Hanamaulu, where she took in 4000 more and came home.

The American barkentine Arago, now in port, has had a most successful year, and Captain Greenleaf is justly proud of the performance of his vessel. On October 15, 1896, he crossed the Columbia river bar, lumber laden, for Nagasaki, going thence to Kona, then to San Francisco, Grey's Harbor, South Africa, Westport and here, landing during that time three cargoes. The actual time at sea was about 210 days, and the distance covered 28,000, making an average of 130 miles per day. As 100 miles per day is considered good average sailing, it may be seen that the Arago did fast work. The voyage from Grey's Harbor to South Africa was made in 86 days, and thence to Westport in 35 days. Captain Greenleaf says that he would have arrived here 15 days sooner had it not been for the accident which cost him his fore top gallant mast. As it was he came up in 49 days. The Arago will finish discharging coal today, and next week will commence loading sugar for San Francisco. Captain Greenleaf hopes to have his cargo in before the middle of February.

ARRIVALS.

SCROFULA

It is Foul Blood's Advertisement

But it is Soon Cured by Hood's Sarsaparilla.

Yes, Scrofula, if anything, may be called the advertisement of foul blood. It is the scourge of the world—offensive, painful, debilitating, stubborn and well nigh unendurable.

Outward applications do not cure, they only drive the difficulty to new quarters. Emollients may palliate, they cannot abolish the evil. There is but one sure way out, and that is to eliminate the taint from the blood.

There is one remedy that can effect this, and it is the only one that, so far as we know, has almost invariably succeeded—even where the system has been poisoned by long years of taint, and the ravages to be repaired are tremendous. That remedy is Hood's Sarsaparilla. Read this:

"My daughter was afflicted with impure blood. There were running sores all over her body and they caused her much suffering. We tried medicines that were recommended as blood purifiers, but could not see that they did any good. A friend told me about Hood's Sarsaparilla and I began giving the girl this medicine. The result was that she was perfectly cured after taking a few bottles. She has had no symptoms of scrofula since that time." MARIETTA M. SMITH, South Middleboro, Mass.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Insist upon Hood's; take no substitute.

Ayer's Sarsaparilla.

Cleanse your blood with Ayer's Sarsaparilla—the most thoroughly reliable alternative ever compounded. For scrofula, boils, ulcers, sores, carbuncles, pimples, blotches, and all disorders originating in vitiated blood, this medicine is a specific. Ayer's Sarsaparilla is equally beneficial as a remedy for catarrh, rheumatism, and rheumatic gout. As a Tonic, it assists the process of digestion, stimulates the sluggish liver, strengthens the nerves, and builds up the body when debilitated by excessive fatigue or wasting illness. Physicians everywhere consider Ayer's Sarsaparilla the best. It is a skillfully-prepared combination of the most powerful alteratives and tonics. No other blood-purifier gives equal satisfaction or is so universally in demand.

TO FIGHT A MUSICAL DUEL.

There is to a duel in this town, says a recent San Francisco dispatch. Instead of swords and pistols there will be batons and horsehair bows. The seconds will be second violins and bass viols and sounding brass, and the green sward, where the duellists meet, a theater or concert hall, all because two musicians have fallen out.

Frank Kuba, a Bohemian violinist, quite prominent in musical circles, wants to meet in combat Fritz Scheel, the conductor of fashionable symphony concerts, and settle their troubles by personal combat.

Kuba, in his challenge to Scheel, which is addressed to the president of the Opheus Musical club, says: "I challenge Scheel to carry out a musical duel between me and him which shall be arranged on some afternoon as a matinee, and to accomplish a certain program, each to lead about four or so of his own compositions under his own baton and under the auspices of the club."

Kuba admits that swords would suit him better as weapons.

WHEN YOU HAVE A BAD COLD.

You want the best medicine that can be obtained, and that is Chamberlain's Cough Remedy.

You want a remedy that will not only give quick relief but effect a permanent cure.

You want a remedy that will relieve the lungs and keep expectoration easy.

You want a remedy that will counteract any tendency toward pneumonia.

You want a remedy that is pleasant and safe to take.

Chamberlain's Cough Remedy is the only medicine in use that meets all of these requirements. This remedy is famous for its cures of bad colds throughout the United States and in many foreign countries. It has many rivals, but for the speedy and permanent cure of bad colds, stands without a peer and its splendid qualities are everywhere admired and praised. For sale by all druggists and dealers. Crazy Competition

is the ruination of all business enterprise. People cut prices to get trade because they can't get it any other way. A good mechanic can command and get a fair price for honest work. My standard of work and prices are the same as they have been for the five years I have been in business here.

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

SAVED HIS BOY

MR. ROBERT McLEOD SPEAKS OF THE VALUE OF PINK PILLS.

His Little Son Was Paralyzed on One Side, and Doctor's Treatment Seemed to Do Him No Good—Dr. Williams' Pink Pills were Resorted To and Effected a Thorough Cure.

From the Galt Reporter: The town of Galt has very seldom given a testimony to the cure of any disease. Why this is so it is doubtful to say, but the probable reason is that the people are averse to anything of that kind. The majority of the townspeople are Scotch, and therefore have implanted within their natures that reservation with regard to private matters which is characteristic of them. It was so of Mr. Robert McLeod, a gentleman who is well known throughout the town and district, until it was brought to his conviction that what he knew with regard to the curing properties of Dr. Williams' Pink Pills in the interests of the public weal should be made known. Then it was that he told the following story.

"Yes, I believe that had it not been for Pink Pills my little boy would not have been living today. You see, it was this way: Willie, who is ten years of age, was taken with an illness that subsequently developed into paralysis of the left side. I had him undergo the best medical treatment within my reach, but nothing seemed to benefit him. The medicine he took did not seem to have any effect on him for good. He got so bad that a pin could be run into his left hand to the bone without his feeling it in the least. If he attempted to walk he could only get over the ground by dragging his left foot behind him; he had no power in it whatever. One night I was feeling pretty blue about him. I felt that he was going to be an invalid all his life, and I viewed things in their worst light. On this particular night I put my hat on with the intention of going out to take a quiet walk, but just as I got to the door I saw lying on the step a pamphlet. I picked it up listlessly, and saw that it was an advertising book of the Dr. Williams' Medicine Co. With this thought possessing my mind I at once went down to Mr. Ferrah's drug store and purchased a box of the pills, and within half an hour one of them was inside of Willie's stomach. From that day he began to get better. By the time he had taken two boxes the color had come back into his hand and arm and by the time he had taken a half dozen boxes he was permanently cured. I subsequently sent him to stay for a few months with friends in the country and now he is better than he ever was before in his life, and as hearty and strong as any boy in the town. Yes, sir, I believe Pink Pills are a wonderful medicine."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every package you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People. Sold by all dealers in medicine.

There are many kinds and conditions of preparations for the teeth but ALOHA TOOTH POWDER is the only one sold by druggists or dentists that is JUST AS good as
ALOHA - TOOTH - POWDER
Nothing else approaches it for cleansing the teeth or arresting decay. If used in time the expense of dentists bills will be greatly reduced, as secretions between the teeth sometimes result in hours in the dentists chair.
ALOHA TOOTH WASH
used every morning and the powder at night will keep GUMS and TEETH in a healthy condition. They have a delightful aromatic flavor which leaves the mouth refreshed.
