Home Rule Convention

One hundred and forty-two delegates, many representatives and senators of the local legislature, and many naive listeners of the Home Rule cause who could be packed into the two rooms of the lower Nuanuanu street, listened to the speech of Delegate H. W. Wilcox this morning and punctuated it with cheers and laughter as the vicissitudes of the Home Rule cause were narrated by the missionaries held up to ridicule by the speaker. Loudest was the applause and the stamping of feet when the recommendation came to call the party the Home Rule party, now and hereafter, banishing the taint of Republican suggestion and signing under Home Rule banners.

President Kalaupokalani and Delegate Wilcox occupied chairs upon a low platform, while Prince Jonan Kalaupokalani and Mrs. Wilcox were on either side in chairs close to the platform. John Emmeth, Akina, Speaker of the House of Representatives, and others, more or less prominent in local legislation, were seated in close proximity. The heat and closeness was overpowering and, while Wilcox was speaking, the crowd, with the exception of the delegates, four of whom were of the gentler, if not fairer sex, stood up and crowded round to hear his pearls of rhetoric. A table was provided for secretary Nakookoo, once sergeant-at-arms of the lower house, and the press were there accorded privileges.

A recess was taken during the morning, and at twelve o'clock it was announced that the afternoon session, to be held at two o'clock, would be convened in the Orpheum on account of the heat and closeness of the hall. This was received with cheers.

President Kalaupokalani made the opening speech after a prayer by Ohi, in which he ran over the things to be taken up during the convention. First, the seating of delegates; second, the listening to Wilcox; third, the electing of a vice-president in place of the late officer Kaula; fourth, the appointing of those to fill places left vacant on the executive committee from various causes, and fifth, the hearing of the reports of the sub-committees of the executive committee. An interval of fifteen minutes was taken after Kalaupokalani's speech. Prince Cupid stated that his name would positively not be put up for delegate. Kalaupokalani will be in constant attendance at the meeting, his interest in politics and the general welfare of his race being well known, but he will not take any active part.

Representative Mahoe, from the ranks of the delegates, announced the number of accepted and certified delegates as one hundred and forty-two, one hundred and twenty-four of which were from Oahu. After some wrangling his report was passed and the announcement made that Wilcox would make a speech. This was the signal for all to crowd around and for some minutes there was temporary confusion, soon restored. Indeed the whole proceedings were very orderly. Many of the delegates as well as the general crowd, eagerly drank in the words of the speaker and applause with commendatory explanations frequently marked the energetic phraseology and delivery of the delegate.

Wilcox spoke fluently, his speech being translated as follows:

"Aloha nui to all of you. We are now in the family of the great United States, not by our own desire. They took us as a lion takes a lamb. Of course, as you all know, I was elected as your delegate to Congress. It was a hard struggle to win, but we conquered in the end. That position I held until March, 1913.

"When we first lost our country and when the monarchy was overthrown and the United States landed troops on our shores, America did not want us to become annexed. It was through the missionaries that we lost our country and our monarchy. During the time the Hul Kalaupokalani and the Aloha Aina societies were started and John Richardson, William Auld, J. K. Kaula and D. Kalaupokalani went as delegates to the United States to look after our rights.

"Then came the war with Spain and the United States grabbed our islands. Three commissions from the States and two from here were all in favor of annexation. Well, the missionaries managed to get nearly all the land and now they want the rest.

"All the old folk clubbed together to

send a delegate to look after the rights of the people, and I went there as your delegate not to be roasted by the missionaries. Robert M. Boyd contributed \$400 towards this fund, Prince Kalaupokalani contributed some as did the old folks. When I got to Washington I found everything was already cut and dried before my arrival.

"I was asked concerning the property qualification for voting which I preferred, the property or educational as a necessary qualification. I replied that as I knew all the natives could read and write. Through me no taxes are necessary for voting, you do not have to pay them now as formerly.

"The missionaries have tried to take away your votes, but God would not allow them to fulfill the wishes of their black hearts. God willed it that I should go to the United States as your representative as the United States wanted. Keep to your vote, one little vote is worth everything. There will be millions of dollars spent by the United States in improvements at Pearl Harbor and other improvements. What good will all that do you unless you have a vote.

"We are now recognized and known as a part of the United States. I can truthfully say that I have no enemies in Congress, we have no enemies in Congress. The only place where I have heard any prejudice expressed against the Hawaiian race is right here in Hawaii, where the missionaries are all the time sending tales to the United States that we are nobodies and any cannibals.

"The fire during the plague robbed the poor people of their belongings, and now the missionaries are wanting to rob the United States of their money. They wanted me to help them and I did so, as I knew that it was for the good of our people, the relieving of our poor.

"All the time the missionaries in Congress try to spoil my efforts and my friends there got tired of these constant attempts to hinder me and my attempts and often dropped the whole affair.

"What the missionaries want is a hooie, a white man. You can all see that a prejudice exists right here in Hawaii against the native. On the 4th of July night there were no natives asked to receive the guests. The governor's own council was not asked. Why? Because some of them were natives.

"The Advertiser is like a pig pen. It is the pig pen of Hawaii. Like hogs they do not recognize anything good. They were cast in front of them they would take no notice of it or of anything valuable. Everything that is dirty or foul comes from this pig pen. (Laughter). They wanted to appoint a new delegate and this man was to be Thurston, the chief of the pig pen. All this because I have native blood. They want to always see a white skin before a black.

"Hawaii had a delegate. The Philippines have none. There they are still fighting. The president is trying to arrange two delegates to be sent from there.

"In Congress the missionaries have friends posted to try and upset and thwart our plans all the time. It is true that I advised you to call the party the Home Rule party and I was because I was so advised by my friends in Congress, and we have more friends with the Republicans than with the Democrats.

"But, from now on, let it be the Home Rule party. I make no accusations against either the Republicans nor the Democrats, but we want our own. If the Republican party wins next time in the election for president, why the country will be Republicans, or in the other case Democrats, but we will still be Home Rules.

"When I was sick at Washington, Cayless helped me while George Carter fought on the other side. I was very pleased with the president and his wife. They treated me finely. There was no pikia there, only this pig pen paper trying to make trouble all the time. I was sick, and if God had not been with me, all you would have seen would have been my coffin returning, but God did not want the missionaries to laugh over my dead body, so he let me come back to you.

"The president has nothing to say, he or his ministers; what Congress says or does makes the law.

"I asked for a training ship here because I know that only natives would be put on board of her. I may fall in these things, but if I lose I will fight

PARTY DISLOYALTY IN HAWAII

KEEN ANALYSIS OF POLITICAL SITUATION IN THE TERRITORY.

CHICAGO RECORD-HERALD ON PARTY DISCIPLINE.

Says Gov. Dole's Civil Service Ideas Have Bred Treason in the Party. And Comforted his Enemies.

The Chicago Record-Herald which has always displayed a keen interest and a discriminating knowledge of Hawaii, especially since Frank Noyes assumed the management of the paper, publishes the following regarding the political situation here.

"Impossible as it was two years ago to formulate political party conditions in terms of American politics, conditions now at the beginning of the legislative and congressional campaigns are more chaotic than they were then. Two years ago American party names were new things to the vast majority of the electorate of the territory and the political principles which go with the names were newer and stranger still. This was true not alone of the natives, but it was true of a large part of the white residents of the islands, many of whom were born here, and others had lived here so many years that they had lost touch with American politics.

"But it was supposed that one campaign would align voters into party ranks, and give some of that party fealty and discipline which is the basis of every campaign in America. Party organizations were indeed effected and the campaign was fought on nominally party lines, but there was created no party fealty, no idolatry of party, no bonds that kept men in one party or the other. To the native Hawaiian, party names meant nothing, and it is in the nature of the Hawaiian to want to be on the winning side. To the Portuguese, American party names meant nothing, and party principles were practically unknown to them. And in varying degrees the same thing was true of all the other elements of the electorate. There was only one element in the electorate which had any bond of solidarity, the native Hawaiian element, but even this factor was directed into a channel which had in it the seeds of mortality. In the nature of things, the Home Rule party could not be permanent. This party was successful in electing the delegate to Congress and a majority in the legislature, but it had not a single one of the hopes that had been raised among the rank and file of the party. The Hawaiians could not understand why having a majority of the legislature, they could not dictate appointments in the governmental service and they had no other members of the legislature believed that they had the right to tell Governor Dole whom he should nominate for the various departments, and they attempted to tell him. They were totally unable to understand why they had not this right, and why the right was not acknowledged.

"The first effect of this total defeat of their hopes was an apparent likelihood that the Home Rule party would crumble to pieces and disintegrate, and many sagacious men predicted that such would be the case. It probably would have been had not another factor intervened. This factor was the Republican party itself. The Republican party in Hawaii is a name and an organization with very little party fealty or discipline. It has been made the prey of personal ambitions and personal intrigues, which succeed in the legislative and congressional elections could not give. Unsuccessful in this, it has so disorganized the party that success in the fall campaign seems doubtful.

"That it should have been able to disorganize the party in this way, is due to the attitude and character of Governor Dole. A man of the highest ideals and probity, a careful and capable administrator, he is utterly lacking as a party organizer and in capacity for practical politics, using that term in no sinister sense. In a community where faction, intrigue, and personal following takes the place of party organization and party fealty, he has tried to carry out an ideal of civil service which finds no response in public sentiment. With the overthrow of the monarchy and the establishment of the provisional government and the republic of Hawaii, there was constantly an issue, a line of cleavage, which divided the country into two parties. Every man was either a supporter of the new order, or he was not. Faction and intrigue were stifled in the greater and more vital necessity of supporting the new order, or risking the danger of reaction and anarchy. To create an organization with definite principles based on support of the administration, to have taken the place of factional strife and personal following, compared

NEW CIRCUIT JUDGE DRAWN INTO THE FUNNEL

BAR ASSOCIATION SPECIAL MEETING.

Lawyers Will Make a Recommendation to the President—Candidates Who May Succeed Judge Humphreys.

The executive committee of the Hawaiian Bar Association held a meeting yesterday and decided to call a special meeting of the Association, to decide upon a recommendation to President Roosevelt in the matter of a successor to Judge Humphreys as circuit judge. The meeting will be held in about ten days, in accordance with the by-laws, which provide for ten days' notice of such a meeting.

Several candidates for the position have come forward and between now and the date of the meeting there will be a good deal of work done by the aspirants and their friends. Among the new candidates are Judge W. Austin Whiting and Attorney E. C. Peters. Whiting was an Associate Justice under the old government and later a partner of W. J. Robinson, now third circuit judge. Peters is a well known young attorney, having been one of the firm of Andrews, Peters and Andrade. He is now with Magoon.

Among the other candidates talked of are District Magistrate Dickey and possibly Edgar Cayless is still in the field. Frank Thompson declares that he would not accept the office. McCants Stewart is authority for the statement that Cayless has decided that he would not take the position now.

J. T. De Bolt, who was mentioned for the place last time, says that he is not a candidate in any active sense, though it is thought that he would accept the place if offered it. "I think that in such a case more than in any other, the office should seek the man. This should be the rule in all cases, but if there is any class of offices where it is especially proper, judicial offices are of this class. I have not heard anything about the candidacy for the position of circuit judge, and shall not do anything about it."

Discussion of the proposition among lawyers is generally accompanied by complaints about the inadequacy of the salary. It is declared that the pay of \$3,000 a year is not enough to keep a good man even if one is willing to take it, and the Bar Association may go on record as asking that the salary be increased. Many lawyers are to be judges for a term, for the sake of the honor, but it is thought that there will always be difficulty in getting men to remain in the positions at \$250 a month.

MONEY PAID OVER

UNCLE SAM PAYS FOR PEARL HARBOR LANDS.

Admiral Merry May Compromise Honolulu Plantation Case When He Arrives in Washington.

The United States government, by Attorney J. J. Dunne, this morning paid over the money in settlement of two of the Pearl Harbor land condemnation suits, the Dowsett estate case and the John H. Estie case. With the exception of the Honolulu Plantation case all the suits are now practically settled and it is announced that the Honolulu Plantation case may be compromised by Admiral Merry's efforts at Washington.

The Dowsett estate today accepted a check of \$2,400 in payment for its leasehold interest in 4.83 acres of the land in question, and the sum of \$2,000 was paid to the John H. Estie for its title to 25 acres of land on Ford Island, wanted by the government. The Oahu Sugar Company's leasehold in this piece has been turned over for \$1 consideration.

In the matter of the Bishop Estate compromise an obstacle arose in the matter of stamp duties on deeds. The deeds were accepted by Dunne and this morning were offered for record, but Registrar Thrum refused to register them because the stamps required by the Territorial law were not affixed. Dunne holds that the stamps are not legally required, the government being exempt from taxation, while Attorney General Dole thinks the Bishop estate should put the stamps on the deed. The stamps amount to \$265.

All of the other cases, with the exception of the Honolulu Plantation case in which both sides are appealing from a verdict of a title over \$102,000, have been practically settled. In the latter case there is a prospect of a settlement. "It is the expectation and hope of Admiral Merry," said Dunne, "that on reaching Washington he may be able with the assistance of the Honolulu Plantation company to affect a settlement satisfactory to all."

TWO LAND DISPUTES

The trial of the case of Henry Smith vs. Mary S. B. Rose and Sanford B. Dole, governor, began this morning before Judge Robinson. The governor is charged with conspiracy and fraud in this case. Judge Robinson intimated that the charges were not being sustained. The suit involves a small piece of land on Fort street, near Vineyard, needed for the street widening, and the difficulty grew out of a dispute as to whether Henry Smith was an abutting property owner.

E. C. Peters appeared for Smith this morning and Deputy Attorney General John W. Catheart for the governor, who in this case, is really Superintendent of Public Works. J. H. Boyd, Boyd made the arguments which were carried out by the governor's signature to deeds exchanging land for the property of Mrs. Rose, admitting that of Henry Smith. H. A. Bigelow appeared for Mrs. Rose. The only witness called today was Henry Smith, who testified as to land boundaries.

CHOLERA IN JAPAN. DISEASE MAKES ITS APPEARANCE THERE. United States Sanitary Authorities enforcing Quarantine on Those from Infected Prefectures Going to Hawaii.

YOKOHAMA, June 27.—Owing to the prevalence of cholera in Saga Prefecture the United States sanitary authorities will allow no one to go to Hawaii and America from that prefecture or passing there en route without undergoing five days disinfection at Yokohama. This step is also applicable to any person coming from any way of Tokyo, as the disease has made its appearance in the capital. The British steamer Hunan was detained at Kobe on June 26 owing to the discovery of a cholera case on board. The patient, who was found on board the British steamer Kansu at Moji on June 25, has since been removed to the infectious diseases hospital in Ryugan island. The vessel has been disinfected and ordered to remain in detention for five days. An employee of a restaurant at Atagoshita, Shiba, Tokyo, was attacked by cholera on June 25 and died while being conveyed to a hospital. Two sufferers were also discovered in the locality the same evening. The police authorities are strictly enforcing sanitary measures.

A case occurred at Kobe on June 26 and the patient was at once sent to hospital for treatment. A man was attacked by the disease at Miyano-maru Yamaguchi Prefecture, on the morning of June 26. Another case was discovered in the town of Saga the same day. The cholera in Karatsu, Saga Prefecture, is reported to have been stamped out and the hospital for the epidemic has been closed. There are four sufferers under treatment in the suburbs.

NEW JAPANESE PRINCE. YOKOHAMA, June 27.—The 18th birthday of the Crown Prince fell on Wednesday, June 25. It is considered a matter of curious coincidence and good augury that Her Highness gave birth to a prince on her birthday. The Crown Prince will return to Tokyo from Hayama on the 29th inst to see his youngest-born son whose birth took place on the 25th. The Emperor will name his second grandson on the 1st prox, and receive him in audience on the 1st prox. The first imperial grandson, who is bringing up the first imperial grandson, will also take charge of the newly-born prince. The Emperor yesterday sent a dagger to his second grandson. It is said that the infant prince is in excellent health and weighs 815 momme—65 momme heavier than the average baby. The Foreign Representatives in Tokyo have visited the palaces of the Emperor and Crown Prince to present their congratulations on the birth of the imperial grandson.

ABOARD THE ALBATROSS. Scientists Start on a Land Trip—Steamer to Leave for Hawaii. Dr. Gilbert and his assistant scientists aboard the Albatross left this morning for an expedition on Oahu, besides laden with a landing net, haversacks and knapsacks, containing presumably various instruments of lethyological research and perhaps a luncheon. The boat is expected to leave today or tomorrow for a three weeks' cruise in the course of which important dredging operations will be made. Repairs have been made to the boilers of the Fish Commission ship by the Honolulu Iron Works and the boat will steam away as soon as these are declared completed. The repairs were of a comparatively slight nature. The newly enlisted man who decided that naval life was not so sweet as he had imagined it, and attempted to make his escape, has been recaptured after a desertion of a little over a week and returned aboard by the police. The reward will be taken out of his wages besides whatever punishment may be prescribed by Captain Thomas. The Albatross will make for the Hawaii coast and may make interesting discoveries along the lines of soundings, which have hitherto not been very carefully exploited.

ORIGIN OF THE 'RIKSHA. The Kobe Chronicle says: With reference to a paragraph, an old resident, who arrived in Yokohama in the sixties, kindly sends us the following: "For several years after the institution of the jinrikisha, it was generally understood among foreigners in Yokohama that Mr. Goble, 'half cobbler, half missionary,' was its inventor. Mr. Goble, though a rough-looking sort of man, was regarded by the foreign residents of the port as an honest, consistent missionary. I believe it was he who built the first missionary chapel in Yokohama, and as long as it lasted it was known as 'Goble's church.' He was in the habit of taking long rambles in the country and doing a little peddling business, and if my memory serves me rightly he gave a commission to a blacksmith either in Kawasaki (on the Tokaido between Yokohama and Tokyo) or in Fujisawa to construct the first jinrikisha. The vehicle took at once with the Japanese, but not so among the foreigners, with whom it was some time before it became a popular means of locomotion. Mr. Goble was an American citizen."

WORLD'S FAIR. Secretary Cooper has called a meeting of the Louisiana Purchase Exposition Committee for 11 o'clock Friday morning at the Chamber of Commerce for complete organization. The nominations for membership from Hawaii are Abe Louissou, John D. Paris and J. T. Moir; from Maui, A. N. Kepoikal, D. D. Baldwin and R. C. Searle.

THE SAME OLD STORY. J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. U. S. A. For sale by all dealers. TUESDAY, JULY 8, 1902.

OUR GREATEST NEED.

As the Star stated yesterday the first thing which has to be considered is a delegate. So much depends upon him. We require a delegate who is of the same party as the majority in Congress. Therefore our delegate must be a Republican.

The Home Rule which the delegate and his party represent, is not even true Home Rule. It ticked on to its name the addition of the dominant party in Congress, and proceeded to call itself Home Rule Republican. It was purely a name and the party continued to thwart the Republican nominees most earnestly.

When Delegate Wilcox first went to Washington there was a kindly disposition to help him. Any one who has followed his career in that city will have noticed how he was gradually dropped. A true Republican would not have been dropped.

At the outset of the present campaign the Home Rulers have made another bad break. They have been told something about mainland politics and the calculations of the great parties. They have run off with the idea that the elections in November will run Democratic.

It is very unwise at this stage of the game for Home Rule leaders to throw themselves into the Democratic arms as their mouthpieces have urged them to do, and as they are perfectly willing to do. It is not the business of the Republicans to teach the Home Rule leaders wisdom, indeed it would be a hopeless task.

It would be better for the Home Rulers, however unwise it might be, to become out and out Democrats, because these men would understand where they stood, and the parties would recognize them. Now they are neither "fish, flesh, fowl nor good red herring." They are as ready to call themselves Home Rule Democrats as they are to call themselves Home Rule Republicans.

There are quite a number of private schools situated in various parts of the islands. As there is no penalty in the law preventing any one from starting a private school, it has not been the habit of the Board of Education to issue permits. St. Louis College never required a permit, nor did the Convent of the Sacred Heart, nor St. Anne's in Koolau, nor the Roman Catholic school at Waiolunui, nor the private school at Naalehu.

Snakes can no longer be imported as a luxury. The agitation to keep them out has been successful. But even in this Delegate Wilcox did not help us out. It was outside effort, and not the delegate's effort which got the order passed.

large amount of time to consider, and a very great deal of thought to adapt it to the peculiar needs of our heterogeneous population. We want no more paste and scissor bills to which we were treated during the last legislature. We want digested measures and not the haphazard gleanings of men without judgment, and with only the veriest veneer of legislative ability.

EDUCATION.

The opening of the Summer school yesterday with an attendance of over eighty pupils shows what can be done if proper organization and management, where classes have been formed for actual work for nearly two months are brought into play. This is the third year of the true Summer months' time. The attendance is perfectly voluntary, and those who present themselves choose such courses as they feel will do them the most good.

As far as professional work in this direction is concerned, there are likely to be good results and continued improvement. Manual training, the rudiments of agriculture, practical work in the school gardens, are going hand in hand with the ordinary primary education. But with all this we are but on the threshold of our future work.

The statistics for 1901 show that 22 Chambers of Commerce gave \$15,462 in cash to 44 commercial schools, which work entirely under their own management. Six chambers paid one-third of the deficits in 12 commercial schools with independent management; the amount is not stated. Forty-eight Chambers of Commerce voted the sum of \$13,030 to 102 commercial schools, which were more or less controlled by these chambers.

We have a commercial department attached to the High School, but it is in its crude beginning and is terribly hampered by want of proper funds and adequate house room and furniture. But we should have a commercial beginning in many of our schools. If the commercial organizations of Hawaii took a leaf out of the German book, there would be a wonderful impetus in a desired direction.

There are quite a number of private schools situated in various parts of the islands. As there is no penalty in the law preventing any one from starting a private school, it has not been the habit of the Board of Education to issue permits. St. Louis College never required a permit, nor did the Convent of the Sacred Heart, nor St. Anne's in Koolau, nor the Roman Catholic school at Waiolunui, nor the private school at Naalehu.

Snakes can no longer be imported as a luxury. The agitation to keep them out has been successful. But even in this Delegate Wilcox did not help us out. It was outside effort, and not the delegate's effort which got the order passed.

The resignation of Judge Humphreys from the bench is by no means a matter of surprise to those who know the inner workings of affairs. His position upon the bench was not to his taste, and he has long desired to come forth

A Bad Skin

Prick your skin with a needle. You will see it is full of blood, full all the time. But what kind of blood? Rich and pure? Or thin and impure? Pure blood makes the skin clear, smooth, healthy. Impure blood covers the skin with pimples, sores, boils, eczema, eruptions, tetter, salt-rheum.

Mr. Frank Hewitt, of Kalgoorlie, W. A., sends his photograph and tells what cured him. "When a boy my skin broke out in bad sores about my hands. After trying a great many remedies in vain, I took Ayer's Sarsaparilla and was quickly cured. Recently I was troubled again with severe boils, but one bottle of the same old remedy completely cured me. It's the greatest blood-purifying medicine in the world."

THE NEW SENTENCE BIG PASSENGER LIST

SCHNACK AND JUAN ARE FINED.

Humphreys Roasts Them For Renovating a Woman Who Took Possession of Property They Claimed.

Harry Juen and J. H. Schnack got off with a fine of \$100 each yesterday afternoon, when their case, remanded from the Supreme Court for re-sentence, came up before Humphreys. The \$100, at least, represents all the punishment entered up by the clerk of the court, but in addition the two defendants had to listen to a torrid roast from the bench.

W. A. Kinney made a lengthy plea for leniency, based on the new evidence set forth in the affidavits filed yesterday. He contended that there was much in the affidavits which would have influenced the court and jury had it gone in on the trial of the case. The affidavits showed that the title under which Juen and Schnack claimed possession were over eleven years old and had never been questioned in spite of two mortgages and a deed.

"The evidence showed that the aged woman Kamaki, who testified that she was over 30 years of age and nearly a hundred," said Humphreys, "was sitting on the floor of her house, accompanied only by a girl of 18. The two defendants entered and demanded that she leave. She refused and they forcibly ejected her, carrying her into the yard. She was elderly and infirm, stooped and bowed with the weight of years, but neither this nor her sex protected her. There is no doubt in the mind of the court that if two men did that with a white woman under the same circumstances they would be dealt with by the neighbors."

"The statement that stones were thrown into the window of the house to frighten away the defendants" is not in any way connected with Kamaki. No one who saw her on the witness stand with hardly strength to raise her hand and take the oath, will believe that she had any part in throwing stones."

Humphreys said there was need for more respect for the law in the community. He acknowledged that the two defendants had always been men holding respectable positions and having the esteem and respect of the community, and then proceeded to impose the limit fine of \$100 and costs. The age of the defendant Schnack and the mental perturbation that must have been experienced while waiting for sentence since the Supreme Court had held that there could be no imprisonment without hard labor, were taken into consideration. The court, however, remarked that it did not in any desire to qualify its characterization of the offense as a cowardly assault, which the complaining witness, by reason of her age and sex, was unable to resist.

FOR MAKING SWIPES.

Charles Fern and Kahananui pleaded guilty before Judge Estee yesterday to making swipes in violation of the internal revenue laws. Judge Estee fined them \$50 and costs each.

The case of Waimanalo Sugar Co. vs. the schooner Malolo is in prospect of settlement and the parties were given ten days in which to file the required stipulation and discontinuance.

The arguments in the Lorenzen case were concluded yesterday and the attorneys have three and five days in which to file briefs.

The bankruptcy petition of Toyoyiro Murata of Kauai was denied by Judge Estee, because the petitioner was unable to state the amount of his debts, who his creditors are or where they live.

BISHOP WILLIS.

Bishop and Mrs. Willis have arrived in Tonga. He writes under date of June 21 asking that Ah Sang, a former Chinese pupil of Iolani College, join him in the work. Ah Sang will probably leave for Tonga on the return trip of the Ventura. Bishop Willis writes that the weather in Tonga is like a cold January in Honolulu.

NIPPON MARU ARRIVES.

The Nippon Maru arrived yesterday afternoon from the Orient and Manila. She has a large crowd of through passengers for Honolulu, among them being J. K. Brown, Jr., and R. C. Brown. The Nippon Maru brought 400 tons of freight for Honolulu. She will sail at 5 p. m. today for San Francisco.

MARCUS EXPEDITION TO LEAVE.

The schooner Julia E. Whalen will probably sail tomorrow for Marcus Island, with the expedition, sent out by the local company to take possession of the island for the purpose of working the guano fields. The island is believed to be in the possession of Japanese and it is expected that the aid of an American warship will have to be sought to eject the squatters.

INVESTIGATING THE CONSUL.

The investigation of the charges of opium smuggling brought against Yang Wei Pin, the Chinese consul, by the Bow Wong Wui, is nearly completed, and, within a few days, the report will be forwarded to the Treasury Department at Washington.

NIPPON MARU HAS MANY PEOPLE ABOARD.

Brought Ten Cabin Passengers For Honolulu—She Will Sail for San Francisco at 5 p. m. Today

The Nippon Maru arrived yesterday afternoon from the Orient and Manila. The vessel had a good trip. She left Yokohama June 25. Nothing was sighted on the trip across and the weather was pleasant. The vessel remained in Manila for six days, it being her first visit to that port. She was detained unnecessarily. Purser Goodrich states, on account of the poor facilities for discharging cargo.

The Nippon brought 400 tons of general cargo for Honolulu. She has a large list of through passengers and also brought ten cabin passengers for this place. Forty Chinese returned on the Nippon to Honolulu, the largest number of Celestials, that has come to this port from the Orient in many months.

Among the passengers for this port are W. M. Abernathy, wife and daughter who will stop at Honolulu and return to the Mainland on the Peru. He is a wealthy Kansas City furniture dealer and the party have been doing the Orient. They went out on the Nippon Maru the last trip. Traveling with the same party are Dr. Fritz Schick and Gustave Schick, Austrian tourists. They will also stop over at Honolulu.

B. H. Huntington is the president of the Dime Savings Bank of New York which has deposits amounting to \$7,000,000.

J. K. Brown, Jr., and R. C. Brown returned to Honolulu, after an extended absence in the Orient.

Lieutenant Postnikov is a Russian naval officer who is going to tour America, en route to his home.

A. W. Hastings is the cashier of the customs department at Manila. He is going to the mainland for a vacation.

M. Krausz is from Cape Colony. He is going to Durban, after touring America and England.

Mr. Dempster is an iron master of Manchester, England. He is accompanied by his wife and daughter. They have been touring India, and various Asiatic countries.

J. H. Beach was chief accountant of the quartermaster's department at Manila.

Robert L. Bontellier is a Philadelphia capitalist who has been visiting Japan. He is accompanied by his family.

A. L. Young is an iron and steel dealer of San Francisco.

Miss Ellen C. Parsons is a missionary who is returning from China.

Dr. W. W. Daniel will stop over at Honolulu. He was formerly in this city practicing dentistry and went to Manila. He was not satisfied with the prospects and did not locate in that place.

The Nippon Maru will sail at 5 p. m. today for San Francisco.

SPORTS FOR THE FAIR.

An attempt will be made to organize an inter-island baseball championship series to be held during the time of the Merchants' Fair in Honolulu on July 2 and 3. President of the League is C. H. Chingworth. He thinks that he can find teams from Wailuku, Hilo and Lihue ready to make the trip and decide the vexed question of which is really the best nine on the islands. The Honolulu nine holding the highest percentage in the league on July 28 will likely be chosen as the representative of Oahu.

ALBATROSS SAILS TODAY.

The fishing steamer Albatross will sail tomorrow on a cruise about the island of Hawaii.

KAHULUI RAILROAD.

The new track of the Kahului railroad, between Wailuku and Kahului, has been completed, and trains have been running on it for the past week. The new track runs some distance from the beach road, and the new crossing is much safer than the former one.—Maui News.

CANE AND SMILES.

The plantation managers of Hamakua are now wearing broad smiles, as they have growing in their fields some of the finest cane on the island.—Hilo Tribune.

EXCURSION COMING.

AUCKLAND, June 18.—The local agents, Messrs. Henderson and Macfarlane, have just issued a handsome little brochure in connection with the excursion to Honolulu by the splendid mail steamer Sierra, leaving Auckland on Friday, July 18, and reaching Honolulu on July 29. The brochure, which has been excellently turned out at the Herald works, is filled with most interesting information regarding the voyage to Honolulu and the sights to be witnessed in the "Paradise of the Pacific." Excursionists leaving by the Sierra will have a stay of three weeks at Honolulu, which will give them ample time to visit all parts of the islands of the group, including the famous active volcano of Kilauea, and the great extinct volcano of Haleakala. The climate is as near perfection as possible, and the scenery magnificent. The Sierra has made a name for herself among the traveling public during the time she has been running as a most comfortable seaboat, and has a high rate of speed, whilst her appointments and the attendance to the wants of the passengers leave nothing to be desired by the most fastidious.

TWAIN TABU IN RUSSIA

HIS TEARS AT THE TOMB OF ADAM DID IT.

The Russian Orthodox Church Thinks He Wept at the Wrong Place—Hence He is Heretical.

LONDON, June 27.—Mark Twain's story of his weeping at the tomb of Adam, in "The Innocents Abroad," is said to be mainly responsible for the exclusion of his book from Russia. Adam is a very important figure in the tradition of the Russian orthodox church, and his memory is not to be flouted with impunity. The Russians do not believe that he was buried where Mark Twain shed his celebrated tears, and, therefore, since Twain wept at the wrong spot, his account of the incident is, in a sense, heretical, and calculated to weaken the faith of those believers in the accepted Russian version of Adam's postmortem experiences. The procurator of the Holy Synod has given special attention to the matter, and he has decided that there was no occasion for Mr. Twain to weep at the time and place in question. There are other features of the American author's writings which show that his scriptural exegesis lacks foundation. The objection to him is solely based on his attitude as a theologian.

Following is an extract from the passage referred to:

"The tomb of Adam! How touching it was here in a land of strangers, far away from home and friends and all who cared for me, thus to discover the grave of a blood relation. True, a distant one, but still a relation. The unerring instinct of nature thrilled its recognition. The fountain of my filial affection was stirred to its profoundest depths, and I gave way to tumultuous emotion. I leaned upon a pillar and burst into tears. I deem it no shame to have wept over the grave of my poor dead relative. Let him who would sneer at my emotion close this volume here, for he will find little to his taste in my journeyings through the Holy Land. Noble old man—he did not live to see me—he did not live to see his child. And I—alas, I did not live to see him. Weighed down by sorrow and disappointment, he died before I was born—six thousand brief summers before I was born. But let up try to bear it with fortitude. Let us trust that he is better off where he is. Let us take comfort in the thought that his loss is our eternal gain."

FIRE CLAIMS BILL.

The item in the general deficiency bill for the payment of the fire claims is as follows:

Amendment reported by Mr. Foraker, from the Committee on Pacific Islands and Porto Rico, to the bill (H. R. 1) making appropriations to supply deficiencies in the appropriations for the fiscal year ending June thirtieth, nineteen hundred and two, and for prior years, and for other purposes, viz: Insert the following: "To pay in part the judgments rendered under an act of the legislative assembly of the Territory of Hawaii by the fire claims commission of that Territory for property destroyed in the suppression of the bubonic plague in said Territory in the years eighteen hundred and ninety-nine and nineteen hundred, one million dollars. And the governor and secretary of said Territory are hereby authorized to issue the bonds of that Territory in such sum, not exceeding five hundred thousand dollars, as, together with the money hereby appropriated, may be sufficient to pay all of said judgments. Said bonds shall be payable in gold coin of the United States of America of the present standard weight, and interest shall bear interest at the rate of four per centum per annum, payable semi-annually, and be redeemable in not less than five years and payable in not more than fifteen years from the date of issuance. The principal and interest of all bonds shall be exempt from any and all taxes, and the payment thereof shall constitute a charge on the revenues of the Territory of Hawaii. Said bonds shall be sold at not less than their face value, and the proceeds thereof shall be applied to the payment of the judgments aforesaid and to no other purpose, and they shall be of such form and denominations and be issued and sold under such rules and regulations as the Secretary of the Interior shall prescribe. Under no circumstances shall any such judgment claimant, or anyone claiming through him, be required to pay, nor shall any attorney or agent be entitled to charge, demand, or receive, directly or indirectly, more than ten per centum upon the amount recovered as compensation for services or labor of any kind or character in the prosecution or establishment of the claim; and in cases of contracts or agreements providing for payment of less than ten per centum, the payment shall not be increased above the percentage so agreed upon. Before any such judgment shall be paid hereunder, the governor of said Territory must certify that the same is genuine and was duly rendered in pursuance of the act of the legislative assembly of the Territory; and the payment of said judgments shall be in full satisfaction and discharge of any and all claims or demands against said Territory or the United States on account of any property destroyed in the said suppression of the bubonic plague."

AT FLOATING TARGETS.

National Guard Fires Over the Water.

The National Guard on the Fourth of July had its first practice with field pieces, at targets over the water. The practice was at targets on the ocean beyond the reef, and a showing of excellent marksmanship was made. The targets were placed on floats anchored in deep water, from thirteen to fifteen hundred feet distant. The guns used were the twelve pounder. The targets were riddled with bullets and one of the floats was sunk in short order. This is the first time that the National Guard here has made any attempt to shoot over the water. It is the intention hereafter to keep up the practice at shooting over the water.

"The results of this first practice were very satisfactory," said Colonel Jones. "The targets were all fairly riddled with shots, and one of the floats was sunk. This shows good marksmanship, and is creditable to the men. It was the first time we had done any practice over the water."

COUNTY GOVERNMENT.

There seems to be a strong undercurrent of feeling on the matter of passing a county government bill at the next session of the legislature, and this will doubtless be the star bill of the session. It is to be sincerely hoped that if such a measure does pass, a proper bill will be prepared beforehand, otherwise Gov. Dole should stand ready with a veto.—Maui News.

HOME RULE CONVENTION.

(Continued from Page 1)
again as Morgan fought for twenty years for the canal bill.
"The missionaries work against us all the time. If Christ should come down and say something that was good the missionaries would say it was not."
"Before I left, Mitchell of Oregon asked for a commission to be sent down here to look into the rights of the crown lands. Senator Hoare of Massachusetts was also in favor of this. The commission will see if the overthrowing of the queen was wrong. If it was then the United States will try and make amends by paying her the cash. I hope the queen will get this money, but I do not say she will. We should always wait until the tree bears fruit and we talk about the fruit. Of course she will not be reinstated. But will get her equivalent in crown lands or money. The hard-hearted missionaries are against her. I suppose if she gets the money you will say that the missionaries did it!" Cries of "Amen, amen, you did!"
"No, God did it, I was but his speaker. I want all the delegates to tell everyone to stick by the Home Rule party. Now the missionaries do it all and we have little to say. Let the axes show the vote. I want a two-thirds vote in the next legislature, then we can put our bills through.
"Last year the other side had all the money, we had only the heart. Let us all retain this heart. If they offer you any money take it, but vote for the Home Rule. Let us have all the senators Home Rule if we can. So much the better.
"If the president wants to retain Dole, why let him do it. We have the power in the house. Dole is only like a statue. Of course everything is not entirely satisfactory in the house, but I am willing to return and try hard to do what I can. If we win the next legislature, let us try and push things through. Let us do it in forty days. There are only four hundred dollars for the legislators any way. We do not want any extra session.
"Among the business law. We want forty or fifty acres, not twenty, no man can go rancating on twenty acres, it is hardly big enough for a rat. What do we want forty acres for? To drink milk. We are Americans now and we want to drink milk with the rest of the Americans.
"In the United States the negroes are slaves. They are not like us or the Indians who are treated as white men. They are an inferior race, a low class composed of the worst people who go to crime-rings. We do not wish to mix with such a class and we are not contented with them except by only a few missionaries.
"I know there is friction in our party, and that by means of money, and at four o'clock the party that are rubbing together. I am going to be here in February to see if that bag of money with which they are going to bribe us is here. After we succeed then we'll be happy. They think they can push us all down because they are rich and we are poor.
"After I get the homestead act through to give you all a piece of land, see that you do not sell or mortgage it. Keep it for yourselves.
"I have spoken much about this homestead act in Washington, and I was advised to see that the local legislature altered conditions to conform with those on the mainland.
"Taylor of Colorado said that he would help us if we always had a native delegate to Congress. That is a gentleman's place, and people should behave themselves there as gentlemen. There is no plikia there, it is all here.
"I invite the committee to go with me on a tour from Kaula to Hawaii, so that I can tell the people what I have done. I want you all to give my respects to the country who mainly helped me to win. There is no nation like us. Ninety per cent of us are able to read and write, while in other nations only forty per cent can do so.
"I am sure that Christ will be with us and rule us in the next legislature. Already I have sent to West Point young Lyman and young Hoia. I want a native boy there, and some day, I may or may not be living then, we shall see a native admiral on the Pacific coast." (Great applause).
The meeting then adjourned until 2 o'clock at the Orpheum. It is certain that Wilcox will be nominated delegate this afternoon and it is doubtful if any other name will be presented for candidacy.

The Stage Manager Orpheum Theater Of Los Angeles, Endorses an Hawaiian Product

Taroena Food Co., Honolulu. Gentlemen, I wish to say that I have been troubled with dyspepsia for years, and at times could retain nothing on my stomach. Although I have tried a great many medicines advertised to cure dyspepsia they did me no good. A friend told me to try Taroena and it benefited me at once and I was completely cured in a month's time. I hope any one troubled with this complaint will try your food. It is a certain cure for dyspepsia for mine was a very hopeless case.
