## EMMELUTH WOULD FIGHT BOTH BILLS ARE SIGNED

### THE HOUSE HAS A LIVELY MORNING.

#### Hoogs and the Ex-Leader in a Tilt over Cooper's Veto—House Tables All The Messages.

Representatives Hoogs and Emmeluth enlivened the proceedings of the House this morning with the hottest words of the entire session. "Hon. John" began one of his periodical roasts of the executive and was vigorously called down by Hoogs. For a few minutes the two members dropped all titles and legislative courtesies and said what they thought of one another in very plain language, and Emmeluth became so ruffled that he spoke of swinging on Hoogs' jaw, if certain remarks were repeated on the street.

The row was over a motion to concur in the Acting Governor's veto of the appropriation of \$20,000 for a site for the hospital for incurables. Kumalae made a motion to do so and Emmeluth proceeded to object. He attacked Cooper's statement that the proposed appropriation was illegal and said that there were no laws under which it could be declared illegal, until Congress made some. It was "a slap in the face of the people" for the executive department to continue, as it was doing, to dispose of public lands.

"You agree that the land can't be disposed of," interrupted Hoogs. "What's the use of wasting the time of this house with talk? If you have a spite against Cooper go and see him and have it out with him yourself. It is agreed that the appropriation is illegal and that settles it."

The sudden interruption started the ex-leader of Home Rulers. He declared that the remarks of Hoogs were an insult. "He has twice attacked me in language which if he used it on the street, I would put him on the jaw for," said Emmeluth.

"Let that go," said Hoogs, "but what's the use of wasting our time with Emmeluth's talk against the governor? If Emmeluth has anything against Cooper, let him go and settle it with Cooper. He was sent here by the people to represent the people and not to work out personal spites, and he seems to have forgotten all about the people and represented himself."

Emmeluth said that if he had not represented the people better than Hoogs he would quit, and Hoogs remarked that if he had not succeeded in accomplishing anything better than Emmeluth had, he would vacate his seat and let some one else try.

When the storm had subsided Emmeluth tried a new objection. He said the motion to concur in the veto was in order because the house had no need to do anything of the kind.

"It's just to show the House's confidence in the Acting Governor," shouted Hoogs, who seemed to have been roused to fighting by the motion to concur in extending the session for 14 days.

"It's anything to put the Home Rulers on record as endorsing Cooper," retorted Emmeluth, while the voice of Hoogs could be heard intimating that the plibbers' trust was being well looked after.

The house finally took a vote on the question, and Emmeluth was found to be alone, but for Kamihō and Pendergast. All the other members voted to sustain the Acting Governor's veto.

Motions to adjourn followed and Maekaku wanted to know what had happened to the committee that was to notify the Senate that the House was ready to adjourn. A message from Superintendent of Public Works Boyd was read, asking that the unpaid bills in his department be provided for, and then all the messages were tabled.

On motion of Emmeluth a recess was taken to two p. m., the object being, it was understood, to discuss what shall be done in the matter of the extension of the session.

"This house is not to decide whether it shall sit or not," said Speaker Akina, in answer to a member who didn't want any more session. "The governor calls us in session and it is the duty of members to sit when he calls them."

**OFFICER AFTER FUJIHARA.**  
Deputy Sheriff William Koolau came on the Iwailani this week from Honokaa in search of Fujihara, the escaped Japanese murderer. Koolau had reason to suspect that the murderer might have secreted himself on the Iwailani, so came on to Honolulu to make sure that the man had not escaped that way. Koolau returned to Honokaa this morning by the Iwailani.

**COLLEGE HILLS.**  
The Electric Car line is being rapidly constructed through College Hills and is to be in operation by September 1st. The private water supply will be laid through every block by July 1st.

## BOTH BILLS ARE SIGNED

### APPROPRIATION MEASURES ARE LAWS NOW.

#### Acting Governor Cooper Approves Everything But One Item—Messages Sent to the Legislature This Morning.

Two short messages from Acting Governor to the Legislature this morning disposed of the two appropriation bills. Cooper announced that he had signed both bills vetoing only a single item, that of \$20,000 for a site for the hospital for incurables, and a proclamation extending the session and another long message offering new appropriations for consideration during the extension, which is for 14 days, up to August 2.

The message regarding the salary bill was as follows:

"Hon. J. A. Akina, Speaker of the House of Representatives.  
"Sir:  
"I have the honor to inform you that I have this day signed Act 3, entitled 'An Act Making Special Appropriations for Salaries and Pay Rolls During the Two Years Which Will End With the Thirtieth Day of June, A. D. 1902.'  
"I have the honor to be,  
"Very respectfully yours,  
"HENRY E. COOPER,  
"Acting Governor."

The message dealing with matters to be considered in the 14 days' extension was as follows:

A message to the Legislature of the Territory of Hawaii:  
"A consideration of Act 4, entitled 'An Act Making Special Appropriations for the Departmental Use of the Territory During the Two Years Which Will End With the Thirtieth Day of June, A. D. 1902,' fails to show items for the 'Payment of Unpaid Bills' submitted by the message of June 7th, with the exception of the bills incurred on account of bubonic plague and unpaid bills of the Board of Health.  
"I therefore submit for your consideration 'Estimates for the Payment of Unpaid Bills,' with the recommendation that they be inserted in an appropriation bill to be paid from current receipts.  
"I also recommend the insertion of the items contained in the 'Estimates of Appropriations, Current Receipts,' which appear to be necessary for the proper conduct of the affairs of the respective departments.  
"I also recommend a further appropriation so as to enable the Fire Claims Commission to continue its labors for such time as it may seem necessary to reach a satisfactory conclusion.  
"I also recommend the passage of an appropriation bill making special appropriations for the use of the Territory during the succeeding biennial period out of any moneys which may be received by the Treasury from the Loan authorized by Act 71 of the Session Laws of 1896. The unissued bonds authorized by said act amount to \$799,000. I submit the following estimates for your consideration:  
Executive Chamber,  
July 18, 1901.  
The new items proposed by the Acting Governor in addition to those on the list of unpaid bills, are the following:  
Current Receipts—Attorney General's Department.  
Salary Physician, Receiving Station and Prison.....\$ 2,400  
Coroner's Inquests.....3,000  
**PUBLIC WORKS.**  
Public Grounds, general.....6,000  
Loan Fund appropriations were recommended as follows:  
**DEPARTMENT OF PUBLIC WORKS.**  
Sewerage Honolulu.....\$ 53,200  
Nuuanu Stream District.....8,000  
Material.....17,000  
Incidentals.....15,000  
House Connections.....15,000  
Outfall Sewer Incidentals.....11,400  
Sewerage Hilo.....50,000  
**HARBOR IMPROVEMENTS HONOLULU.**  
Youman's Slip.....29,000  
Kawa Slip.....20,400  
Youman's Wharf.....42,000  
Kawa Wharf.....110,000  
Extension Hilo wharf.....20,000  
Mooring Hilo.....5,000  
Filtration System Honolulu.....60,000  
New Building Insane Asylum.....20,000  
Garbage Crematory.....15,000  
Palama Reservoir & Waterpipe Addition Honolulu Pipe System 120,000  
Fire Hydrants, Honolulu.....6,000  
Walluku and Kahului Water Works.....3,000  
**PUBLIC INSTRUCTION.**  
District of Hilo.....8,900  
Kohala.....2,400  
Kona.....3,000  
Puna.....8,900  
Lahaina.....600  
Walluku.....700  
Hana.....4,000  
Oahu.....13,600  
Honolulu.....70,000  
Total loan appropriations.....\$794,400

## PROF. JENKINS AT WORK

### SUCCESSOR TO DR. DAVID STARR JORDAN.

#### Looking for Other New Fish Specimens—Was Here Before—Tells of His Work and Intentions of Government.

Prof. O. P. Jenkins, who holds the chair of physiology in Stanford University, arrived by the Ventura yesterday to take up the fisheries work where Dr. David Starr Jordan left off. He lost no time in beginning operations, being at the fish market at an early hour this morning, looking over the pile of wriggling swimmers for anything that might be new or unusual. Quite a number of fish were purchased and will be taken out to the headquarters of the commission at the Moana hotel where they will be examined.

Prof. Jenkins is a small man, of 45, and is a good talker. He is one of the best informed men in the United States, perhaps, on this particular line of work. In 1889 he was in the Islands and made quite an extensive investigation of the fishes and their habits. At that time he held a chair in the Pauss University, Indiana. On his visit at that time he discovered and classified nearly one hundred new varieties of fish found in these waters. Subsequently he published several papers on Hawaiian fishes and has others in course of preparation.

"I will take up the work here where Mr. Jordan left off. For the present I am contenting myself with finding out just what Jordan has done. It seems to me, from what I have observed during his short stay here, that there will be little else to be done. His reports, I believe, have already been published in the Honolulu papers. I will continue to look for unclassified specimens and expect to find some that have heretofore been unknown. During my stay at the fish market I found and classified nearly 100 new fishes. These waters teem with species that are not known, and the work of classifying them is no small matter."

As he made the last remark the Professor placed his hand on the head of a baby shark that, although it looked much like any other shark, was differently colored, and unusual. He took the specimen for further examination.

"It will be three years before our work here will have been completed, so you see that people here may not look for any startling results. After I get through the artists will be taken to turn at it, then the statisticians will come in and finally the whole work will have to be 'written up' as you newspapermen say.

"The object of the United States in collecting this information is not only for general scientific purposes but with the object of increasing the value of fisheries as far as lies in the power of the government. I am informed that Japanese and other fishermen are in the habit of using fine nets here and that they catch the young of fish in large quantities, thus destroying a future supply. It is safe to say that a stop will be put to this practice. Not only will the government endeavor to preserve the fish supply but it will stock the waters with edible fish as far as possible. As I said before it may be three years before this part of the work is taken up, but that is an important culmination of our present endeavors and objects."

Prof. Jenkins referred interestingly to the growth of Honolulu since he was last here. Were it not for some of the old landmarks he would not have recognized the city as being the same. He will return to California in the last of August as he will have to resume his duties at Stanford early in September.

**NO STRIKE WHATEVER.**  
In an article in a late issue of the Examiner, given in full, it was stated that R. I. Wisler, chairman of the Executive Committee of the Iron Trades Unions of San Francisco had received a letter assuring it that the machinists strike at the Honolulu Iron Works was not ended. In regard to this James A. Kennedy of the Honolulu Iron Works says that George E. Roe from whom the communication purports to come, and who is spoken of as Secretary of the Machinists' Union, never was a member of the local union and has been working in the machine shop of the Iron Works for two weeks or more. E. L. Miller who was the secretary has left the city. The shop is now a "free shop," the question of union or non-union not entering into the question of employment. There is no strike. The shop is running with a full force of men.

**BELGIAN KING FROM ORIENT.**  
The freight liner Belgian King from the Orient arrived this morning en route to San Diego. The vessel has about 1150 tons of freight for this port. The work of fumigating the cargo in here being done by the quarantine officials for the first time here. This will take about 10 hours. She brought several passengers for this port as Mr. Costa and relative who have been making a tour of Japan.

**Cuts and bruises are healed by Chamberlain's Pain Balm in about one third the time any other treatment would require because of its antiseptic qualities which cause the parts to heal without maturation. For sale to be had without charge. Smith & Company, general agents Hawaiian Islands.**

**PACIFIC HEIGHTS RAILWAY.**  
No grader scenic view to be had than Pacific Heights Railway. Take the Pacific Heights Electric Railway and have a pleasant outing. Round trip fare only 10 cents.

**ICE HOUSE DELICACIES.**  
Camarinos California Fruit Market is the place for ice house delicacies. Everything the California market affords at this season of the year can be found at Camarinos.

## EXTENSION NOT WANTED

### LAWMAKERS WHO REFUSE TO SIT.

#### 'Extra Session or Nothing' Their Cry and They Decline to Accept Cooper's Fourteen Day Extension.

The legislature is on strike. The Home Rulers did not want an extension of the session. This morning the proclamation of the Acting Governor extending the session for 14 days was received with disappointment. The members want to go home.

At a caucus held after the House took a recess this morning it was the opinion of many that the right thing to do was to adjourn sine die, in spite of the governor's call for two weeks more session. This is the plan adopted by the Simon-pure Home Rule element.

"An extra session or nothing" is the slogan. The action of Cooper in signing both appropriation bills and then giving an extension of the session for fifteen days for passage of bills to pay unsettled accounts and to make loan bill appropriations, throws the responsibility on the legislature if such bills are not passed. The Home Rulers and their political capital less than ever, for the executive has approved all their appropriations and gives them a chance to make more under a loan act which is believed to be all right.

The unpaid bills matter was "indefinitely postponed" in the Senate some time ago. This is supposed to finally dispose of it there. In the House this morning Acting Governor Cooper's message was tabled entirely. The members do not want to take them up.

An immediate adjournment sine die is now the desire of a considerable element. It is stated that today's caucus decided that a motion to that effect would be brought before the House this afternoon, the programme being to notify the Senate in the regular way that the House is ready to adjourn sine die and to have both houses take the adjournment tomorrow. In both houses there are members who have openly declared that they will not sit any more anyhow, and some representatives will refuse to take an extra session.

The Home Rulers are very confident that they can force an extra session, and their efforts are directed to doing so. It is hoped that a refusal to sit in special session longer for the purpose which Cooper has declared necessary will compel the executive to call an extra session before many months.

**KAPIOLANI SUITS GOING ON**

**MOTION TO RE-TRY CLEGHORN CASE.**

Trial of Another Suit Begun—Attorney Poepeo Fails to Produce \$480 and is Given More Time.

Motion for a new trial was filed this morning in the case of the Kapiolani Estate against A. S. Cleghorn. The motion is on the ground that the verdict of the jury was contrary to the law and the evidence, and on the further ground of errors during the trial of the case.

Judge Gear took up the case of the same corporation against the Kaneohe Ranch Company. It is one of a number that all vary similar to the Cleghorn case. A jury was called and the taking of testimony was begun.

The Kapiolani Estate cases promise to take up most of the present special term of the court. The next two cases to follow the one begun this morning are suits of the Cleghorn vs. Cleghorn. The matter of Poepeo's sale of land belonging to Malama, a minor came up before Judge Gear at 10 o'clock. Poepeo had not the \$480 he was ordered to pay into court by 10 o'clock this morning. He pleaded for further time and admitted that his testimony was true, to the effect that he had the money in bank, was untrue. Judge Gear allowed him until next Monday to bring the cash into court.

In the cases of S. Andrews vs. Wahine and Andrews vs. Keikena, motions have been made by Attorney L. Weaver to have the cases replaced on the calendar. They were stricken off when the calendar was called, as Weaver did not appear. He states in the motion just filed that he had received no notice of the opening of the special term of the Circuit Court, and consequently was not present to answer for his client.

**LOOKING FOR FUJIHARA.**  
A watch is being kept by the police in Honolulu for Fujihara, the murderer of a chance that he may have escaped from Hawaii to this city. An officer from Hilo came down on the Kinau Sunday to watch that boat and returned again Tuesday. Other boats have come down from Hawaii, however, since the escape of the man. It is reported that the Japanese of Hawaii are united in an effort to spirit Fujihara through Honolulu and back to Japan.

**THE WEATHER.**  
Weather Bureau, Honolulu, 1 p. m.  
Wind light northeast; weather partly cloudy, with likelihood with valley showers at night.  
Morning minimum temperature, 70; midday maximum temperature, 84; barometer, 9 a. m., 29.03 rising (corrected for gravity); rainfall, 24 hours ending 9 a. m., .34; dew point, 9 a. m., 65; humidity, 9 a. m., 82 per cent.

**CURTIS J. LYONS, Observer.**

**HOUSE THIS AFTERNOON.**  
When the House met at 2 this afternoon a motion was made to reconsider the morning action, and raise the messages received today from the table. This had Republican support and a good deal of Home Rule support. "If we can't carry it," said a Home Rule leader who objected to the idea of quitting and not coming home, "the session is ended altogether."

The House was adjourned this afternoon at 2:30 o'clock without doing anything. The Home Rulers will hold a caucus this evening to decide what action to take tomorrow on the Acting Governor's message.

**DIFFERENCE OF TEN DEGREES.**  
The difference in temperature between Honolulu town and Pacific Heights is now 10 degrees Fahrenheit and the difference in humidity from 15 to 20 degrees. This makes Pacific Heights the long looked for ideal site for residence purposes.

The Customs Tariff Act of 1897 with alphabetical schedule, revised up to July 1st, 1900—an indispensable book for all importers, just received and for sale by the Golden Rule Bazaar.

## GOV. COOPER'S ONLY VETO

### AN APPROPRIATION HELD TO BE ILLEGAL.

#### Hospital for Incurables Approved But The Method of Getting a Site Held Contrary to Law.

Acting Governor Cooper's only veto was contained in the following message to the legislature.

"I have the honor to inform you that I have this day signed Act 4, entitled 'An Act making special appropriations for the departmental use of the territory during the two years which will end with the thirtieth day of June, A. D. 1902, with the exception of the item for the purchase of land for a site for a Hospital for Incurables, \$20,000, which I do not approve. The reasons for my disapproval will be found in a message upon this subject.  
"The Acting Governor's message vetoing the \$20,000 for a hospital for incurables was as follows:  
"I am unable to approve of the item 'For the purchase of land for a Site for a Hospital for Incurables, \$20,000,' inserted in Act 4 entitled 'An Act Making Special Appropriation for the Departmental Use of the Territory during the Two Years which will End with the Thirtieth Day of June, A. D. 1902.'  
"My reasons for disapproval of this item, although I approve of the object sought to be obtained by the Legislature, are that the clause incident to such item reading 'Such transfer and conveyance of public land is hereby authorized without further consideration, upon condition that whenever such parcel of land shall cease to be used for the purpose for three consecutive years the same shall revert to the Government is practically a grant of land without consideration, which is contrary to the Land Laws of the Territory.  
"Section 73 of the Organic Act provides that the laws of Hawaii relating to public lands and settlement of boundaries, and the issuance of patents on land-commission awards, except as changed by this act, shall continue in force until Congress shall otherwise provide. It is not therefore in the power of the Legislature to change the existing laws governing the disposition of public lands; consequently I believe this item is without lawful authority.  
"I return herewith the Act above referred to for your re-consideration upon this item."  
"HENRY E. COOPER,"  
Executive Chamber,  
July 18, 1901.

**SESSION EXTENDED**

**MOTION TO RE-TRY CLEGHORN CASE.**

Trial of Another Suit Begun—Attorney Poepeo Fails to Produce \$480 and is Given More Time.

Motion for a new trial was filed this morning in the case of the Kapiolani Estate against A. S. Cleghorn. The motion is on the ground that the verdict of the jury was contrary to the law and the evidence, and on the further ground of errors during the trial of the case.

Judge Gear took up the case of the same corporation against the Kaneohe Ranch Company. It is one of a number that all vary similar to the Cleghorn case. A jury was called and the taking of testimony was begun.

The Kapiolani Estate cases promise to take up most of the present special term of the court. The next two cases to follow the one begun this morning are suits of the Cleghorn vs. Cleghorn. The matter of Poepeo's sale of land belonging to Malama, a minor came up before Judge Gear at 10 o'clock. Poepeo had not the \$480 he was ordered to pay into court by 10 o'clock this morning. He pleaded for further time and admitted that his testimony was true, to the effect that he had the money in bank, was untrue. Judge Gear allowed him until next Monday to bring the cash into court.

In the cases of S. Andrews vs. Wahine and Andrews vs. Keikena, motions have been made by Attorney L. Weaver to have the cases replaced on the calendar. ## SEISMOGRAPH A SUCCESS

### THAT IS TO SAY, IT RECORDS DISTURBANCES.

#### Not Particular, However, Whether it is an Earthquake or a Blast in a Rock Quarry.

President Smith of Oahu college is authority for the statement that the seismograph recently set up at Punahou by Mr. Miller for the detection of earthquakes and other subterranean disturbances has proved a success and that good results are to be expected from it. This opinion is supported by Prof. W. D. Alexander, head of the United States survey department, and by Frank Hawick, curator of Oahu college grounds and a sort of all-round genius. Since the departure of Mr. Miller the latter has had charge of the instrument.

Now these gentlemen say the seismograph is working perfectly, and so it is; but the trouble is that it records only pronounced disturbances and runs in blasting operations in Manoa valley and elsewhere and calls them earthquakes. The seismograph is therefore not a George Washington in an important regard.

The seismograph is a complicated instrument, and yet is very simple. While results depend upon a needle and a crooked line it describes upon a film, there is a series of delicate appliances behind this that performs an important work. The "receiver," so called, catches earth tremors and sets the needle in motion. From that point the action is much like that of a Morse telegraph instrument although not so strong. The film when marked by the needle shows a line varying in regularity according to the violence of the disturbance. A slight tremor would show a line slightly out of gear while a heavy shock would produce proportionately large curv

DEVoured BY THE SUN

THE HOTTEST CHICAGO DAY ON RECORD. Thermometer goes to 102.1 degrees—One Hundred People Prostrated—Eight Driven to Suicide—Sudden Change.

CHICAGO, July 16.—Chicago broke all its traditional heat records today. The thermometer reached higher than before in the twenty-nine years' history of the official Weather Bureau, and the city sizzled and burned under the oppressive heat. One hundred and two people were driven to suicide, and many others were crazed with heat and committed suicide. The casualty records will go down in history to tell the story of one of the most miserable days known to this city by the lakes.

All during the afternoon there came little or no relief. The temperature fell naturally hour by hour, and yet at 7 o'clock it stood at 96 degrees. This also breaks all records for the twenty-nine years for this hour of the day, when official observations are made. At 7:30 o'clock great relief came, and within fifteen minutes the thermometer fell thirty degrees. From 96 it dropped to 66. Fifteen minutes later it was back to 70 and by midnight it was up to 74.

A shift of the wind from the west to a position from off the lake brought the change. The hot wave is not broken and tomorrow is expected to be almost if not quite as hot as today. The lake alone can afford relief. After today's terrible experience the city and its people are in no condition to withstand a repetition of the awful heat.

OAHU PRISON IS FULL

U. S. MARSHAL NOTIFIED TO HOLD OFF. No More Federal Prisoners Can be Received Until Some of the Present Cases are Disposed of.

If the United States Marshal Hendry has any more arrests to make he will have to look elsewhere than the Oahu jail to incarcerate the prisoners. It will be impossible for the prison to accommodate any more men. Notice to this effect was served on Marshal Hendry yesterday.

There are 42 United States prisoners in Oahu Jail now, as a result of the water front troubles and the Chinese deportation cases. Most of the members of three different crews are held as witnesses, the cases of the captains and officers of the Sea King, Emily Reed and St. James being on the calendar for trial.

There are 128 prisoners in the jail altogether. The jail has room for 200, but there are not enough guards to look after them. Chinese cases multiply with every steamer that comes here from the Orient. Those who return without registration certificates are at once arrested by Hendry.

The United States Marshal has not decided yet what to do in the matter. Yesterday morning the jailors consented to receive two more Chinese, who were arrested for deportation, but no more can be taken in. Three Chinese children were released in care of their guardian yesterday morning to make room.

Judge Estee yesterday stated that he would in future hear Chinese cases only every other day. They are nearly all logn cases and threaten to occupy the time to the exclusion of other matters.

A COMMISSIONER'S REPORT.

Marine Hospital Service Investigates The Subject of Leprosy. WASHINGTON, July 16.—A commission from the Marine Hospital Service, appointed to investigate leprosy consisting of Drs. J. H. White, George F. Vaughn and M. J. Rosenau, has completed its inquiry and is now preparing its report. It has located about 900 cases of the disease in the United States. Leprosy, while contagious is not necessarily infectious. As long as the afflicted regards the ordinary sanitary precautions, including cleanliness, and has wholesome food, the board says the danger of communicating the disease to others is reduced to a minimum, and is not one-hundredth as great as the spread of consumption. It is not a generally known fact, but it is nevertheless true, that leprosy is not an absolutely incurable disease. The causes of leprosy rest principally in the direction of bad sanitation, poor and unwholesome food, abstinence from bathing and overcrowding of the population such as occurs in our large cities. The consumption of fish as food is dangerous in this connection when such food is not wholesome.

WHAT DID HE EXPECT?

A gentleman took a house—a London suburb which proved to be of the usual modern jerry-built order of architecture, so much so that one day the rain came through the roof and regularly swamped the place. The gentleman was naturally angry and when the landlord called for his rent the tenant exclaimed indignantly: "I say, it is too bad, the other night the rain came through my roof and gave me a regular shower bath. You really ought to do something."

"Ought to do something," growled the landlord, who was a very surly individual. "What are you complaining of? Do you expect me to provide you with soap and towels too?"—London Spare Moments. Fine Job Printing, Star Office.

**MUCH NEEDED.**

That Consumptive Hospital, which has so long been talked of and which has never materialized beyond the present make shift Hospital for Incurables, is always showing that it is very badly needed. The Queen's Hospital will not take in consumptive patients, and upon medical and hygienic grounds it is perfectly justified in refusing. The question is what can be done for such unfortunates. In course of time, no doubt, we shall be properly equipped with all such institutions, the trouble is we are not so equipped now.

The case of Philip R. Whelan, is only one in point. He could find no proper place here to stay in and left by the Sierra for the mainland. He will be able to go to some sanitarium in the mountains where he will get the care while his disease requires. But the case of Mr. Whelan is only the case of many scores of people who are suffering from the same disease, and not all of them have the means of departing from these shores. There have been cases where the unfortunate sufferer has hardly been able to find a place to die in. These the Hospital for Incurables meets now.

Though a frightful scourge of the human race at the present time, consumption or tuberculosis is curable if taken in the earlier stages. Establishments in the Black Forest in Germany and elsewhere have been remarkably successful in the number of absolute cures. These are obtained not by medicines or drugs, but by a hygienic method of life and a careful consideration of diet.

We have here to consider two classes of institution. One, such as the Hospital for Incurables, which we already have in embryo, and which should bear out its name, only admitting those who come within its walls practically to die. The other should be an institution where tuberculous patients might go to be cured. The latter need not be supported at public expense, but should be, as such institutions are in various parts of the world, a private venture. For the latter a site should certainly be found in the districts of either North or South Kona, whose climate is peculiarly adapted to give relief to sufferers suffering from tuberculous disease, and under proper conditions to cure them.

We are a young country and our period of reorganization which is now on, will probably preclude any great advance upon lines such as these. But the time will come when we shall fully realize the necessity of meeting hygienic conditions in the same way that other communities have met them. Meanwhile it is wise to keep constantly before our minds the fact that such cases as that of Mr. Whelan are constantly before us, and that we shall have many more in the future.

**MUST WAIT.**

Those people who thought that a vote of the Legislature was sufficient to unseat Governor Dole, will now be satisfied that they had their trouble for their pains. In certain minds there was no doubt as to the success of the plan. In point of fact the Legislature did nothing, awaiting the return of its emissary, and was much surprised that its request received a non-committal verbal answer.

Delegate Wilcox's interview which appeared in the San Francisco Chronicle of the eleventh, showed very clearly that the effort to oust Governor Dole was a dead failure. The Governor will finish his term of office, and then, and not till then will there be an opportunity to look out for another governor. This may be displeasing to the member from the Fifth with the anarchistic proclivities, but he will have to satisfy with it. Perhaps if he were to go to the White House himself he might get matters changed.

The Chief Executive of a great nation is not going to take part in the petty quarrels of any of the subdivisions of that nation. The people of the sections must work out their own salvation. That is what self-government means. Our people have so long been accustomed to look to the "government" for everything, that it was but natural upon annexation that they should look to the Chief Executive the moment they cut their fingers as it were.

The same line of argument may be used with regard to Judge Humphreys. There is however a difference. The bar is distinctly a profession. It is governed by certain rules. If a man transgress those rules he can be clearly shown to be in the wrong. It is not a case of difference of opinion, it is a case of fact. If Judge Humphreys has transgressed the legal rules, he has laid himself open to the censure of his superior officers, or even to removal. But all depends upon the statement of facts.

The affairs of Hawaii look very big indeed to some of us, but viewed from the distance of Washington they are infinitesimally small. Hawaiian affairs cannot occupy so large a space as the Philippines, or Cuba and then there are all the State and Territorial interests. We have an organic act, and we have been launched upon our course. If we do not make a good course of it, it is our own fault. Nobody is going to bother much about us. This is the mes-

some Delegate Wilcox will bring us, and a good section of our body politic had better take it to heart.

**ANOTHER INDUSTRY.**

Everything that tends to giving us fresh industries is to the advantage of the Territory. Some years ago two were started in Waikuku of which one proved a success and the other a failure. The success was taro flour, or taroena which is now largely sold in the United States, and is used on the Islands. The failure was in desiccated bananas. It was supposed that they would prove profitable merchandise but somehow or other they never "caught on," and the manufacture or desiccation of them has, so The Star understands, been given up long ago.

There is however another method of preparing bananas for market which might be profitable. This is dried banana meal. This finds a ready market on account of its great nutritive power. At the present time as far as the State Department has been able to find out through its consular corps, Jamaica merchants are the only persons engaged in the trade. The consuls urge the Southern States to go into the industry. But why should not we do so. There is any quantity of good banana land all over the group. Our market for fresh bananas is limited, and through lack of proper means of transport many places which could produce thousands of bunches, produce none at all. This is especially true of the Island of Hawaii.

If banana growers could harvest their fruit and then immediately turn it into a product which would keep, it would revolutionize the banana industry on the Islands. Banana meal is used for enriching milk for invalids and also in demand for imparting a pleasant flavor to soups, meat stews, etc.

A large part of the product of Jamaica goes to Europe, but there is no reason why there should not be a demand for it on the west coast of the mainland and in Canada, while there should be an outlet in the far East. We are all the time complaining about our minor industries, here is one. If further information is wanted it is easy to write to the Department of State and request it. The editor of the daily consular reports, Frank Emory, will at once put machinery at work which would bring a complete report from Jamaica, stating how the banana meal is made.

The brick manufactory is doing well. The tests made yesterday seem to have been thoroughly satisfactory. With good bricks at \$16 per thousand, instead of \$22 per thousand, the price of the imported article, the price of building ought to be considerably lessened. Varied industries are surely coming along.

The small farmers at Wahiawa are doing well. A considerable quantity of vegetables has found its way into our markets, and been much appreciated by the city house wives. Now it is stated that the melon crop of the colony has been sold on the vines for \$100 per acre. If small farming is carried on within reach of a market, it is undoubtedly profitable. It is a pleasure to see progress in this direction.

Each returning June and July brings back to our shores the boys and girls who have been abroad at the universities, the colleges and the seminaries of the mainland. From Berkeley and Stanford to Harvard and Yale there is a string of Hawaiian born youths and maidens who are studying at the various institutions of learning. The desire for higher education is growing very much in this community, and for one who desired a university career ten or a dozen years ago there are now a dozen who aspire to have such an opportunity. It speaks well for the rising generation of the Territory.

The Chinese trouble does not seem to be getting any less. The Boxer movement is increasing instead of decreasing and the Dowager and Prince Tuan are apparently once more in alliance against the "foreign devil." That the terms of the agreement between the powers and China will be carried out, seems very unlikely now. The Russians have all they want to do in Manchuria. It takes fifty thousand troops to guard the railway, and the population is extremely hostile. How safe the people in the embassies in Peking may be remains to be seen. There may yet be another revolutionary upheaval in China, and this is just the time of year for such a movement.

The following figures, taken from a German paper, show that Germany's share in the traffic of the Suez Canal has increased considerably at the cost of England. England's share is still large, but is growing smaller from year to year, and during the last ten years has fallen off 15 per cent. Since 1896, England's trade has dropped off about 227 vessels, of 286,359 registered tons, while Germany's has increased 140 vessels, of 926,650 tons. In 1896, England had 66.9 per cent of the total trade, and in 1900 only 56.7 per cent. Germany's share, on the other hand, increased from 9.3 per cent to 15 per cent. For a number of years, the largest ships using the canal have sailed under the German flag; further, Germany has, on the average, larger ships than England, for while the average size of the German vessels is 4,431 registered tons, the average size of British vessels is only 4,018 tons. Twenty years ago, only 15 German vessels passed the canal, and now the number has reached 462.

### TIDES UNUSUALLY HIGH NOW.

Professor Curtis J. Lyons the weather observer states that the tides now prevailing are the highest he has ever seen here. The unusual height is not, he says, due to the ordinary rise and fall of the tides but the fact that the mean sea level is higher than usual by fully half a foot. This condition is rare and does not occur except at long intervals.

## SENATE WANTS TO THINK

TAKES A DAY OFF FOR THAT PURPOSE.

Senators Don't Know What to Do With the Acting Governor's Messages and the Proposed New Appropriations.

Four messages were submitted by the Governor to the Senate this morning. In them the salaries bill was approved; the expense bill was approved with the exception of the item for the incurable hospital; the third message explained the reasons for turning over this item; the fourth message submitted new items to be considered.

A proclamation was then read extending the session for fourteen days, or until August 3, in order that the new appropriations, as suggested might be passed upon.

A notice from the House, dated two days ago, of its appointment of a committee to notify the Governor that the Legislature was ready to adjourn was read. As this notice was prepared prior to the messages of the Acting Governor no attention was paid to it.

Mr. Achi moved, inasmuch as there was only one item vetoed—that of a site for the incurable hospital, \$20,000—the veto be approved and the bill as amended pass. Cecil Brown supported the motion. The motion passed, without a dissenting vote, Kanuha and Nu Kapaahu not voting.

Cecil Brown here took the floor on the subject of the extension of the session. He was unable to see how the Senate could take up any bill in an extended session. It might be done if brought in and passed by the House. The Senate had indefinitely postponed every item mentioned by the Governor in his message and they could not be taken up again.

Several members protested on the ground that the session had been regularly and legally extended, and that it was not within the power of the Senate to adjourn sine die. Mr. White then modified his motion to provide that the message of the Acting Governor, submitting recommendations for additional appropriations, be indefinitely postponed.

During his speech Senator White charged that Secretary Cooper was to blame for the non-payment of the items submitted in that they had not been referred before to the Legislature. Senator Achi denied this charge, and said that a part of the items were submitted to the Legislature in ample time for action. He blamed the Senate and House for not disposing of the bills, and moved that the \$34,000 of back bills in the public works department be referred to the Judiciary committee.

Senator Crabbe believed that the rules could be suspended and Senator Brown's loan bill could be brought in again by the Judiciary committee.

During the argument there was a suggestion that the Senate wait on the action of the House. Cecil Brown, Crabbe and Paris endorsed this view. Achi also favored it but believed that the current accounts items could be taken up.

Senator White moved to adjourn to 10 a. m. tomorrow to give members time to think over the matter. This motion carried.

### CHARLOCK IS SECRETARY

BOARD OF HEALTH HOLDS A SHORT MEETING.

Complaints About the Hawaiian Soda Works—Robert Henderson the New Registrar of Births.

C. H. Charlock, former registrar of births, was appointed secretary of the Board of Health yesterday to succeed Wilcox. Charlock has been acting as secretary since the discharge of Wilcox about a month ago, and has proved his competency for the position. His appointment was unanimous.

Robert Henderson, formerly of the customs service, was appointed to take Charlock's old position.

A vigorous kick was received from property owners on Emma street, near the Hawaiian Soda Works, complaining that the company's place is in a grossly insanitary condition. The matter was referred to the city sanitary officer for investigation.

It was voted to issue a physician's license to Dr. Alexander Atherton, he having been favorably reported by the medical examination board. He is a '01 graduate of Johns Hopkins.

Dr. H. E. Meyers, city dispensary physician, was granted two months' leave of absence for a vacation, his place to be taken by Dr. Peterson.

The board gave permission to Melinda James of the Kalihli isper detention station to go to Molokai as an assistant to the Mother Superior, taking the place of one of the assistants who is ill.

Inasmuch as both vessels took about the same course it is the opinion now that the J. B. Brown struck the same weather which dismasted the St. James. It is regarded as very probable that the Brown fared worse than the other boat. She is now 63 days out which is 8 days behind the bark. Ordinarily there should not be such a discrepancy in their arrival. The only explanation which can be offered is that the Brown caught the storm and was injured more than the other boat and her progress has therefore been much slower. She ought to be sighted at any time. She belongs to the California Shipping Co.

## A FALSE IMPERSONATION

TWO CASES AGAINST CHINESE CALLED TODAY.

Acting-Governor Cooper Was Too Busy With Appropriation Bill to Attend Court This Morning.

When the case of Yee Wo charged with false impersonation was called in Judge Wilcox's court this morning High Sheriff Brown asked for a continuance. "Acting Governor Cooper," explained the Sheriff, "is now busy with the Appropriation bill. He expects to get back to the legislature so that by 2 o'clock this afternoon the legislators will have time in which to disperse and he can attend court."

"Well," observed the court, "I did not know there was any assurance that they would get through. However we will grant the continuance."

Yee Wo was charged by Acting Governor Cooper with having falsely represented himself to be another Chinese named Ung Sang. By securing a copy of the original registration paper of Ung Sang the defendant was alleged to have impersonated Ung Sang and taken away before the territorial officers that he was the original Ung.

There was another case of similar character against Yang Kong Hung and this was continued until 2 o'clock this afternoon at the request of Sheriff Brown. The other case against Yee Wo was finally continued until Monday at the request of the defendant.

## DIVERS SEEK RARE BUCKLE

IS MADE OF BUTTONS SECURED IN HAWAII.

Owner Collected the Materials During A Long Residence Here—Lost Overboard in Southern California.

TERMINAL ISLAND, Cal., July 16.—Unusual excitement was caused at the island Saturday by the arrival of several Japanese divers from White's Point. They had been summoned to search for a rare ornament, the property of Mrs. Martin Smith, which had been dropped from the end of the Brighton Beach wharf while the lady and friends were fishing. The ornament is in the form of a belt buckle, made of gold military buttons, that were secured by Mrs. Smith in the course of a long stay in Hawaii. The buttons are representative of various periods in the official life of the island, they having been worn by officers under King Kalakaua and other rulers. There is probably not in existence another buckle anything like this, and it was of particular value to the owner on account of its associations.

For a long time the divers were at work and one of them went down several times, but the lost article could not be found and is still at the bottom of the sea. Much interest in the search was shown by the people at the island, and a large crowd gathered to watch the work of the divers, which, in itself was well worth seeing.

Mr. and Mrs. Smith are here for the season, having come down from Los Angeles several weeks ago and taken the Holabird cottage at Brighton Beach.

SAY SAMOANS ARE LAZY. Reports from Samoa by some missionaries who returned on the Mariposa this trip are not very encouraging for the future of those islands. According to the statements of the missionaries the Samoan is willing and ready enough to embrace Christianity, but when the missionaries seek to extend their influence by teaching the natives the useful arts of husbandry the native kicks or rather he lies down and balks. The Samoans are, the missionaries claim, very lazy and do not wish to work any more than is absolutely necessary. During the four years of missionary service in Samoa the returning preachers found conversion of the natives to Christianity quite an easy job but when it came to converting the natives to industry the labor was very difficult.

Note Heads, Bill Heads, statements and Fine Commercial Printing at the Star Office.

## NEW ADVERTISEMENTS BY AUTHORITY

### PROCLAMATION.

Believing it to be for the best interests of the people that further appropriation bills should be passed at the present session of the Legislature.

I, HENRY E. COOPER, Acting Governor of the Territory of Hawaii, by virtue of the authority in me vested by law, do hereby extend such session for the period of fourteen days, up to and including the third day of August, A. D. One Thousand Nine Hundred and One, for the purpose of the consideration of such appropriation bills.

In Testimony Whereof, I have hereunto subscribed my name (Seal) and caused the Seal of the Territory of Hawaii to be affixed.

Done at the Capitol of Honolulu, this eighteenth day of July, A. D. 1901.

HENRY E. COOPER.

### Attention Co. "A."

A High Jinks will take place in the Company Rooms at the Drill Shed Thursday evening, July 18, at 7:30 p. m. Members are ordered to appear in uniform.

H. KLEMMER, Captain Commanding.

### HER MOTHER'S GIRL.

A bright, handsome girl on the borderland between childhood and womanhood, is at once a source of pride and anxiety to her mother. Being intelligent and dutiful she is her mother's pride. But she has grown fast and is still growing. Nature makes stern demands upon the slender body. The skin is dull, the eyes lustreless, the cheeks and neck are sunken, the appetite is capricious, and the movements languid. The trouble is impurity and sluggishness of the blood. It needs the life-giving elements from which alone the body derives all its vigor and health.

### WAMPOLE'S PREPARATION

of the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Extracts of Malt and Wild Cherry, has saved many such girls. It contains all the flesh-forming and strengthening qualities of the oil without its loathsome taste. The most sensitive and feeble can take it as they take syrup, and digest it perfectly. Taken before meals it creates an appetite, stops the emaciating process, puts flesh on the thin and bony body, and ruddy cheeks soon tell the story of pure blood, good digestion and recovered health. It is a scientific modern combination of the best of curatives made palatable as honey. Taken in time it prevents consumption; taken in time it cures. Dr. J. L. Carrick says: "I have had remarkable success with it in the treatment of Consumption, Chronic Bronchitis, Catarrh and Scrofulous Affections, and consider it a marvelous success in medicine." To give it a trial is to believe in it always thereafter. Effective from the first dose. "You cannot be disappointed in it." Sold by chemists here.

## NEW ADVERTISEMENTS

ATTORNEY DAVIS IN PLIKIA

PLAYS BATTLE-DOOR AND SHUT-TLE-CKOCK.

Wanted Judge Wilcox to Try Some Cases When Complaints Had Come From Circuit Court.

Local business was exceptionally lively with Attorney George A. Davis yesterday. In fact he found the circuit and district courts were playing battle-door and shuttle-cock with him and for a while he was in danger of punishment for contempt from both Judge Gear and Judge Wilcox. The trouble arose over the trial of the conspiracy cases against a number of Chinese who were charged with entering into a conspiracy to interfere with another Chinese conducting his wash business.

Originally when the conspiracy complaints were made out Davis sought the Circuit Court Judge Gear for the documents. The warrants were signed by Judge Gear but by stipulation later it was agreed by Davis for the prosecution and Lorrin Andrews for the defense that the cases should be transferred to the district court and be tried by Judge Wilcox.

This morning Mr. Davis was in Judge Wilcox's court with the copy of the stipulation and various papers of the case which he presented to the court with the explanation of the agreement by which the cases were to be tried in the lower court. Judge Wilcox was not responsive however, and he created consternation for Mr. Davis by refusing absolutely to have anything to do with the cases. In fact, the court resented what it considered was an implication that it did not know enough law to handle the cases.

"The circuit court judges have jurisdiction in these cases," said Judge Wilcox, "and you can let Judge Gear try them. You agreed to this stipulation and they were transferred here without my being consulted. You seemed to think that this court did not know enough law to try these cases, for in the first place, when you wanted warrants you went to the circuit court. You said that there were some law points which you wished settled. Now you can let the circuit judge try those law points." This court is willing to stand considerable but it does not propose to be insulted.

"But your honor it was according to this stipulation that the cases were transferred here," said Mr. Davis "and I have filed the documents with you, there was no thought to insult this court."

"No sir, you have not filed them. You have simply left them here for me to examine at my leisure. I have to try the calendar of this court and not that of the circuit court."

Judge Wilcox was very indignant over the treatment he had received but Mr. Davis persisted in the matter and a little later attempted to call the attention of the court to the stipulation. Judge Wilcox ordered him to take his seat and from the tone of the court's voice it was evident that he was in no humor to stand trifling. The matter was left undisposed of however and the indications were that Judge Wilcox would have nothing to do with the cases.

As a result of his troubles before Wilcox, Davis was in a hurry to get keeping an appointment he had before Judge Gear. Gear had only time to begin to ask for an explanation, when the lawyer broke out with a story of his troubles. He declared that he had been insulted by Judge Wilcox in court and that he never would have consented to Wilcox and didn't think Gear had any right to send it there anyhow.

Judge Gear remarked that he had stated on Saturday that he had no authority to remand the case to Wilcox, but that it had been done by stipulation. Davis appeared to be highly indignant over his adventure in the District Court. "I no sooner get out of one scrape than I am into another," he remarked, and Judge Gear said nothing more about contempt.

DR. JORDAN'S WORK.

Tells of New Fishes He Has Found in the Islands.

Dr. David Starr Jordan left by the Sierra for California, having completed the first of his Home Island survey for the express purpose of investigating the fisheries of the group and gathering as far as possible specimens that might be wholly new. Of his work he said:

"During the time the Fish Commission has been here it has captured 235 kinds of fish. Color notes have been made of twenty of these, so far. Of the different fish we have caught, seventy are new to science. Thirty-five of these were found in the waters of Honolulu and twenty of Hilo. Something like fifteen were found to be common to both places. The work of making laws for the protection of the fishing industry of the Hawaiian Islands will also devote to a large extent upon the report of our commission. Unfortunately, we have been deprived of the assistance of Dr. Everman, who was an invalid during his entire visit. However, the rest of us feel that we know the conditions and the needs of things sufficiently well to be able, under his guidance, to frame such laws as will benefit the fishing industry of this Territory.

"As to the transplanting of foreign fish into these waters, I doubt if it can be done successfully. The fresh water streams are so small and their channels are so precipitous, that I feel safe in saying it would not be worth the while. There are certain forms of edible mollusks that would, I think, do well in the waters of the Hawaiian Islands, and an attempt may be made to introduce them here.

WATCH AND CHAIN STOLEN.

Chief Engineer H. J. Platts of the steamer Iwailua was robbed of a watch and chain week before last while the vessel was at Waipio Gulch. The steamer took a number of Porto Ricans down to Hawaii and the chief thinks that some of these people entered his cabin and stole his property while he slept.

TRADE COMBINE.

LONDON, July 10.—"Contrary to the opinion expressed in Vienna," says a Berlin dispatch to the Daily Express, "it is held that there is no possibility of a general European trade combination against the United States. Germany's trade relations with the United States being too extensive to permit her to assume an attitude of hostility."

ST. PETERSBURG, July 9.—It is semi-officially denied here that the visit to St. Petersburg of Count von Bulow, the German Imperial Chancellor, if made, has anything to do with anti-American commercial negotiations.

HANAN & SONS

Sole Agents

The trade on these goods increases every day.

We can't seem to get the styles fast enough, invoices are piling in every day, and still we seem to be short.

We have just opened Hanan's Emperor a double sole black kid, Comfortable Bal.

M. McInerny

EXTREME CASE.

"Young Mr. Dingle tells me that he is extremely fond of the poetry of Sir Walter Scott," remarked Wintergreen to Tenderhook. "Yes, I know; but he carries his fondness too far," replied the latter. "In what way?" "Well, he's a chicken fancier, as per haps you know."

"And he has named his best egg producer The Last Minstrel." "Queer name for a hen." "I should articulate! But that's Dingle exactly. Gave his hen that name so that he could have the lay of The Last Minstrel every morning for breakfast."—Pittsburg Commercial Gazette.

LEGAL LOOPHOLES.

Hypnotism and psychic suggestion are two handy excuses for those who want to escape responsibility for their acts.—Atlanta Constitution.

THE BEST REMEDY FOR STOMACH AND BOWEL TROUBLES.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form. No family should be without it. I keep it in my house at all times." For sale by all dealers, Benson, Smith & Co., general agents, Hawaiian Islands.

NEW ADVERTISEMENTS.

Table listing advertisements and their page numbers: Oahu College, Iwakami & Co., Company A, Morgan, The Lace House, Sayegusa Shoten, Honolulu Chapter, Executive Proclamation.

NEWS IN A NUTSHELL.

Paragraphs that Give Condensed Notes of the Day.

Company A will hold a high jinks this evening. Sayegusa Shoten has moved to 1129 Nuuanu street. Honolulu Chapter will hold a regular meeting this evening.

The Lace House has received a new stock of taffeta ribbons. On the 27th, Morgan will sell a residence on the Waikiki Beach. Jonathan Shaw has been appointed business agent for the Oahu College.

Iwakami & Co. give notice that Eddie Woneham is no longer in their employ. The proclamation calling the extra session of the Legislature appears in this issue.

U. Sekomoto, Hotel street, has just received a large assortment of ready-made clothing. A concert will be given by the band at the Hawaiian Hotel this evening at the usual hour.

The wireless telegraph company has moved its office to Fort street near the First National bank. Olive Branch of Rebekahs, Odd Fellows, will have installation of officers and a social this evening.

The inquest on the case of the Chinaman murdered in Manoa valley will begin at the station house at 3 o'clock this afternoon. It will likely not be finished until tomorrow. Judge Wilcox fined J. W. Hall \$10 this morning for assault and battery on J. E. Duff. Hall slashed the face of Duff during the course of a dispute over some money transaction.

C. V. E. Dove is surveying on King street for the new switches of the Hawaiian Tramways Company. It is the intention of the company to put on a five minutes service between Palama and Waikiki.

According to news received by last mail, it was learned that Doctor George Herbert has greatly improved in health during his vacation. His many friends will be pleased to hear that he will be home again to resume his practice on August 1.

BRICKS STAND THE TEST

AN INTERESTING EXPERIMENT MADE.

A Large Number of People Go to the Honolulu Iron Works to See Some Scientific Tests Made.

The tests made yesterday at the Honolulu Iron Works of the brick manufactured by the Honolulu Clay Company were of such an interesting character as to attract the presence of quite a gathering of men. Many of them are directly or indirectly interested in building and building material. But others were attracted by the scientific nature of the tests and experiments. Among those present were: O. G. Traphagen, E. A. P. Newcomb, Captain Charles F. Pond, U. S. N., Captain White, U. S. N., Major Robinson, U. S. N., F. J. Lowrey, C. M. Cooke, W. R. Castle, Father Sylvester, M. L. Smith, H. L. Kerr, F. J. Amweg, F. L. Lickleton and W. J. Dyer.

The apparatus for making the tests provided by the Honolulu Iron Works was of the best kind well adapted for the purpose and easily operated. This fact added much interest to the tests. The first test was one to determine whether the brick would stand a pressure of 1800 pounds to the square inch. This test was withstood by the brick and in turn pressure tests of 2100 and 2500 pounds to the square inch were made. These tests were all successful. Taking the smallest result, the first test, it shows that these brick will stand a pressure of 129 1/2 tons to the square foot before crushing which is over ten times the loadline per square foot that is allowed in designing structures, ten to fifteen tons per square foot being the allowable loading.

The manufacturers of these brick, the Honolulu Clay Company were much gratified at the results of these tests, though they were not unexpected.

Fancy Ribbons

Substantial Savings.

A lot of pretty corded stripe ribbons await you this week at just about half regular prices. Crisply new, correctly stylish and variously assorted—that all but describes them. We mustn't forget to add they are all silk. If you have a ribbon want now is a good time to fill it.

WHITNEY & MARSH, LTD

PACIFIC HEIGHTS

Magnificent View, Refreshing Breezes, Easy of Access, An Unsurpassed Residence Site

These lots are on the Pauoa side of Pacific Heights. They face on Pauoa Road, now being widened and macadamized, and adjoin the Pacific Heights Electric Railway.

A Chance for Investors:

Any one with money to invest looking for something that will bring good returns on sums invested, has here a fine opportunity. Houses built on these lots will find ready rental at strong rates by good tenants.

Attractions Offered in this Site to Homeseekers:

LOCATION. They are located on high ground at an elevation of from 200 to 500 feet, affording unsurpassed scenic and marine views. ELECTRIC RAILWAY AND LIGHTING. The Electric Railway makes access most easy, and power for lights may be had at most reasonable rates. WATER. Water will be supplied at the rate of \$15 per year for each lot, from our Pacific Heights Water System. This is less than city rates. SPECIAL INDUCEMENTS TO BUILDERS. To all who will build in the erection of houses within 60 days, we will make special inducements in the matter of transportation of building material over our railway. LOW PRICES, GOOD TERMS. Prices of lots range from \$400 to \$750 each, according to size and location. One-fourth cash only is asked. Balance in installments at terms to suit purchasers. HEALTHFUL AND COOL. The air is always cool and bracing. We recommend this property as being especially desirable and attractive to sons seeking a choice location for a home at a moderate cost.

For Further Particulars Apply to BRUCE WARING & CO., Progress Block, Fort Street
