

## No Fraud At Hana Declares Raymond

### Men Voted By Proxy Were Honestly Voted—Will Go To Convention With Case if Necessary—Paia a Raw Deal

That the Hana election was irregular, but no fraud, is the admission and contention of Dr. J. H. Raymond, the successful candidate as delegate from Maui to the democratic national convention. Dr. Raymond states that it is a fact that 35 votes were cast by proxy at Hana, which is against the party rules, and he has a certified list of the names of the persons whose names were thus voted. There is no question, he declares, that the proxies were voted in accordance to the wishes of the persons giving them. The same democrats had previously signed the petition for his nomination, in almost every case, is also declared.

On the other hand Dr. Raymond asserts that the 41 ballots cast at Paia were irregular in that there is no record of any precinct club existing there, nor of any election being held there. The returns from Paia however, showed 41 to 0 in favor of almost all of the McCandless faction candidates. The democratic territorial central committee, according to reports from Honolulu, will investigate the alleged irregularities in the Maui voting. Dr. Raymond says that such investigation cannot unseat him, and that the local county committee must grant him a certificate of election. In any event Dr. Raymond will be present at the St. Louis convention prepared to make his fight before the national committee on credentials, should it be necessary. He expects to leave for the coast next week, where he will join his family and make a several months tour of the eastern states before returning home.

## Live Stock Will Be Big Feature Of Fair

### Much Interest In High Bred Animals On Maui Presages Fine Exhibits—Other Islands May Compete

The live stock exhibit at the Maui County Fair, next Fall is going to be one of the surprises of the big event except to those who have been closely in touch with what has been going on in this line on Maui for the past several years. In the beef cattle class it is quite certain that all of the principal ranches of Maui will have some fine specimens to show, because there has been some big improvements in this class of cattle in the past few years. Paul Isenberg, of Honolulu has also indicated his intention of bringing some of his high grade bulls over for competition, and it is possible that other island breeders will also be represented. In the dairy cattle line it is also probable that a good showing will be made. James Lindsay, of Hailu, Dr. J. C. Fitzgerald, and Harold Rice, all have some superior animals of this type to show.

Hogs will also be a feature. D. T. Fleming, of the Honolulu ranch has a fine Berkshire boar or two, while Dr. W. D. Baldwin and Harold Rice, are enthusiasts over their Hampshire. Sam Baldwin also has some fine Duroc Jerseys which may be shown.

Horses will doubtless form an interesting class. L. von Tempky has some fine colts, and half a dozen other ranches, which have been specializing in horse breeding will probably have entries worth looking at.

The recently organized poultry association is also planning to show what Maui can do in the way of fine fowls.

## Fight In Court Begun For Japanese Child

Application for writ of habeas corpus was filed in the second circuit court last week by Yataro Hashimoto with view of recovering possession of Matsuyo Hashimoto, a minor female child of the petitioner, now in the custody of Genosuke Okamoto, of Honolulu. The petition alleges that the girl is being illegally held by the Honolulu man, and is being trained as a geisha dancer with a view to his profit. It is understood that the defendant claims that the child was legally adopted, and that the father therefore has no just claim to her.

In the court yesterday morning, a motion of the defendant, through his attorney Eugene Murphy, for \$35 as traveling and transportation costs to enable him to attend the hearing, was allowed by Judge Edings. The plaintiff in the case is represented by Attorney E. R. Bevins.

## Maui Horses To Be Feature Of Meet

### Denervo To Brush With Welcome Boy Once More — Frank Baldwin To Enter Pony Dandy

That Maui is to play an important part in the race meet to be held in Honolulu on Kamehameha Day is indicated from reports coming up from the metropolis. The meet is to cover two days, Saturday, June 10, and Monday, June 12. The Advertiser has the following to say as to what is expected of Maui horsemen in the event: The races for Hawaiian-bred, Japanese-owned horses are attracting much attention among Japanese, both here and on Maui, and the gray mare which won the Japanese race at Spreckels Park on New Year's Day, will be sent to Honolulu for the coming meeting, and will number among her opponents a couple of smart Warming colts from Wailuku.

That Frank Baldwin is interesting himself in the coming meet is evidenced by the fact that he intends entering his fast pony Dandy in the polo pony race. Dandy will, in all probability be ridden by Sam Baldwin. Dandy is by Royal F.

It is doubtful if the 2:15 class harness race will be placed on the program, as the only entry in sight at present is John T. Silva's Harold D. Word comes from Maui that Maui Boy will not be entered and Luke Rogers is said to have changed his mind about entering his bay pacer.

A wireless has been received from Maui that Denervo will be entered in the free-for-all harness race. Angus McPhee, owner of the Maui crack, has been appealing for half-mile heats, or if mile heats, only two in three, instead of three in five. The association refused to acquiesce and now McPhee declares that he will race his horse here next June, whether or no.

**Denervo vs. Welcome Boy**  
Denervo and Welcome Boy have met six times in local tracks, twice at Kapiolani park and four times at Spreckels park, Kahului. Denervo has won four races and the Hollinger pacer two. In July, 1914, Welcome Boy defeated Denervo in the Maui free-for-all, after the McPhee horse had stepped a sensational first heat in 2:12½. Last July Denervo turned the tables on his conqueror at Kahului but on New Year's Day, on the same track, Welcome Boy easily defeated the son of Demonio.

McPhee, by the way, would appear to be branching out in the racing game, for report has it that he has purchased three runners on the Coast, which will arrive by the next boat and which will be entered at the coming meeting.

## Opening Of Series Set For May 14th

### Three Teams Will Make Up League—Athletic Association Makes Final Arrangements

The opening game of the Maui baseball season will be played on the Wailuku grounds on Sunday, May 14. The game will be between the new 1st Battalion, N. G. H. team and the Paia team, present holder of the famous Raymond Cup.

At the meeting of the Maui Athletic Association last Tuesday night, the Puunene team, under management of M. G. Paschoal, made its formal entry, and the entries were declared closed. This makes it again a three-team league, since Lahaina was apparently not able to get up steam enough to set in this year, as had been hoped. The association fixed the dates of the first three games of the series, and the others will follow in the same sequence. Following the game between the National Guard and Paia, on May 14, the 1st Battalion will meet Puunene on the 21st, and Paia and Puunene will play on the 28th.

At Tuesday evening's meeting, G. R. Cummings was made grounds manager for the season, and Manuel Olmos was elected official umpire. The handling of the gates is to be under a new plan, this season, each team manager to be put in charge for one month. It is believed that the rivalry between the managers to keep expenses down and boost receipts will be watched with interest. George Cummings takes the first try under the new plan.

## STABLE MANURE VALUABLE

Estimates of the value of stable manure on the farm indicate that in eastern Pennsylvania the manure produced by one adult horse or cow nets the farmer on an average \$15.80 per year, while in southern Michigan the manure of one such animal nets the farmer \$8.22.

## Deputy Suspended On Serious Charge

### Sheriff Crowell Trying to Locate Japanese Witness Who Has Disappeared—Ferreira Says Its a Frame-up

As a result of informal charges preferred against Deputy Sheriff John Ferreira, of Wailuku, County Sheriff Clem Crowell has suspended the officer, pending what he says is to be a full investigation of the matter. The complaint which has been lodged with the Sheriff is that Ferreira retained some \$10 or \$15 taken from a Japanese prisoner named Enzo, who was recently released from custody after serving several months for larceny. After complaining about the loss of his money, the Japanese has disappeared, and is believed he is now on Hawaii. An effort is to be made to locate him and bring him back.

William Keanu, a plantation officer from Camp 1, it is said has confessed full knowledge of the facts in the case, and to have accepted a part of the money withheld from Enzo. Ferreira denies any wrongdoing in the matter, declaring the case a frame up against him. He has produced a receipt which he claims fully covers the money claimed to have been illegally taken.

## Harold W. Rice Buys The Ferreira Ranch

### Pays \$41,000 at Public Sale For Valuable Makawao Property — Place Will Probably Be Highly Developed

The sale of the ranch lands in Makawao, of John Ferreira estate, was yesterday approved by Judge Edings in the second circuit court. The property was sold at auction last Saturday morning, on order of the court, to Harold W. Rice at his bid of \$41,000. There were no other bidders, although it had been expected that a small hui of Portuguese residents of Makawao would try to secure the property.

The ranch consists of some 1000 acres of land, and the upset price was fixed at \$40,000. The price paid does not include live stock now upon the property. The trustee, W. T. Robinson was authorized to sell the property for the reasons that for some time it has not been paying a fair return on its valuation. The sum realized, which is generally considered a very fair one, is to be reinvested for the benefit of the estate by approval of the court.

It is understood that Mr. Rice, who already owns a considerable acreage of land in Makawao, expects to develop the property by the introduction of high grade live stock, for which it is well adapted.

## Heavy Rains Help Farming Interests

The heavy rains which have fallen almost all over Maui for the past two days, have come at a most opportune time, and have been of immense value to the plantations in particular. The central Maui plantations, which have been short of water for the past few weeks, have received a thorough drenching, and relieved the pumps. During the past week it had been necessary to turn irrigation water upon the mature cane to keep it from drying up before it could be harvested. The rain, by releasing a large number of men from irrigation work, has made possible the pushing of new plantings, which have been somewhat behind.

Reports from the Makawao and Hailu districts and Kula indicate that the rain has been of much benefit to the farmers in those sections. The rainfall at Wailuku on Thursday totaled 4.19 inches, according to the official record kept by Brother Frank.

## TRUSTEE APPOINTED TO HANDLE ACCIDENT BOARD AWARD

Judge Edings yesterday granted an application of the industrial accident board for the county of Maui for the appointment of trustee to administer the sum of \$1500 to be paid by the Wailuku Sugar Company for the benefit of the widow and children of Manuel Nunes Vieira. John Vasconcellos was appointed such trustee, with bond fixed at \$1500. The money is to be paid as compensation for the death of Vieira, a water tender of the sugar company, who was killed some months ago when a rock rolled down from the mountain while he was at work, crushing his skull.

## Kalama Has War Shock Off Molokai

### Almost Bumps Submarine, But Is Relieved When Crew Laughs — Disconcerting Experience He Says

Almost ramming a submarine, which appeared suddenly from beneath the waves and directly in his course but a few lengths ahead, was the exciting experience of Chairman Sam Kalama, of the Board of Supervisors, while on his way to Molokai yesterday morning. Mr. Kalama, was making the trip in Dave Fleming's sampan from the Honolulu ranch, accompanied by a Japanese boatman. A heavy rain was falling, and a choppy sea was running. Suddenly the gray body of the submarine appeared dead ahead to the intense astonishment of Kalama and his crew, who at first took it to be a whale.

Sam says that for a little bit he thought he was in the war zone, and that his sampan was a neutral merchantman. Then the hull of the submarine opened, and the crew of real American bluejackets came out and gave him the laugh, which dispelled his illusion.

Another submarine also made its appearance. They proved to be two of the "K" class undersea fighters from Pearl Harbor, which were out on a practice cruise. Kalama returned to Wailuku this morning.

## High Freight Rates Boost Lumber Prices

### Freight Charters Year Ago \$5.50 Are Now \$15 or \$16.— Price of Lumber Lowest on Maui

A 200 per cent advance in the freight rates for lumber from the Puget Sound ports together with a general advance in the price of this article at the mills, accounts for the recent sharp advances noted in the Islands in the past few months. And the end is not yet. Merchantable Northwest lumber which six months ago sold in Kahului at about \$25 per thousand, is now listed at \$28.50; and the same lumber in Honolulu is selling at \$32.50. The Star-Bulletin, after investigating the situation has the following to say on the subject:

"At present charter rates for lumber schooners, Honolulu lumber firms not owning vessels are losing money when they sell Douglas fir at \$32.50 a thousand feet.

"This condition, it was learned today, has resulted from the scarcity of bottoms for lumber from the Northwest to this port. At this time last year charter rates were \$5.50 a thousand feet. They are now between \$15 and \$16.

"Last month the retail price of Douglas fir was raised from \$30 to \$32.50 by the City Mill Company, one of the largest of the local lumber firms not owning lumber bottoms. This variety of lumber had been selling at \$30 for the last year or two.

## Island Electric Bill Now Up To President

The Island Electric Company's franchise extension bill passed the United States senate on Tuesday, according to the cable message received by Delegate Kahanana'ole from Jack R. Desha, his private secretary in Washington.

The bill was introduced in the house of representatives by Delegate Kubio. It will now go to the President for his approval and signature.

Under the terms of the measure the Wailuku electric company is given authority to extend its lighting and power system into the adjoining district of Makawao.

## ELKS' SMOKER WAS PLEASANT AFFAIR

The smoker given last Saturday evening at the C. D. Lufkin beach place by the Maui Elks, as a farewell to F. W. Jennings, who leaves in a few weeks for Klamath Falls, Oregon, was a most pleasant affair. The evening was spent with games and music, a number of cabaret numbers being rendered by two vaudeville singers who had been appearing at the local playhouses.

Besides the guest of honor there were present—D. F. Balch, E. R. Bevins, Jack Bergstrom, Thomas Dunn, C. D. Lufkin, F. C. Looney, W. J. Cooper, E. J. Walker, F. T. Fantom, F. P. Rosecrans, C. Hansen, D. T. Carey, Dan Quill, Leon T. Brinsar, W. Seabry, Harry Geaner, and Hugh Howell.

## REVOLT IN IRELAND BRINGS MARTIAL LAW

### Censorship Blocks News --- German-American Crisis Still Aque---Mexicans Assert Ability To Handle Villa --- Laborers To Get More Money

HONOLULU, April 28—Police officer, Fred Wright injured Wednesday night when his motorcycle collided with mail carrier's automobile. Little hope of his recovery. Skull is badly fractured, and operation does little to relieve his condition.

Japanese editors pleased with action taken by planters' association. Announcement that wages will be raised pleases laborers.

Kapaa homesteads will get railroad after long delay. Hans Isenberg, on behalf of the Lihue plantation, agrees to the Governor's conditions. Unless history repeats itself, Kanai pilikia is over.

LONDON, April 28—Irish revolt breeding, and martial law prevails. Rebellion hatched in Dublin sweeps westward and southward but premier Asquith announces government is in control. Censorship closes all avenues of information. Unionist and Nationalist leaders in commons denounce the dissatisfaction, while troops are being rushed to meet situation.

WASHINGTON, April 28—Secretary Lansing announced yesterday that information supplied to British government by the United States was instrumental in capture of Roger Casement and the blocking of his plans to land arms in Ireland.

LONDON, April 28—Germans pave way for another drive in Verdun sector. Terrific attacks by Teutons against other western fronts all repulsed by French. Curtain of fire is deadly to enemy.

On eastern front Russians repulsed Germans and Grand Duke Nicholas continues to advance.

WASHINGTON, April 28—General Obregon declares that Carranzistas can master Villa bandits. Is confident that he can convince General Scott of his government's power. Denies friction exists with General Carranza. General Scott and Obregon will probably confer in the Juarez customhouse tomorrow.

Ray of hope again shows in submarine controversy. Ambassador Gerard goes to front to confer with Emperor Wilhelm, presumably in response to kaiser's invitation. Influential German papers discuss crisis. One says unscrupulous use of submarines is not desirable, and another says all Americans are hypocrites and not neutrals.

SAN FRANCISCO, April 28—Coast guard cutter McCulloch, with 2 sick men on board arrived yesterday. Left Thetis 2 miles from shore. Was towing Thetis from Honolulu. The Thetis went most of the way to the coast on her own steam.

WASHINGTON, April 28—Congress may alter immigration bill. Protest of Japan is heeded by state department.

NEW YORK, April 28—Conrad Auffmasser, German reservist arrived today from Cristobal, in Canal Zone, and was placed under arrest. Is suspected of spying on American fortifications.

LONDON, April 28—President of the local government board would send all unmarried men from 18 to 40 to front.

LONDON, April 27—Irish rebellion breeding fast, though British government is taking drastic measures to put it down. Martial law proclaimed throughout Ireland. Known that fighting has taken place since yesterday in streets of Dublin, though heavy cordon of troops are thrown across city and more troops have been sent to patrol all districts where there is evidence of an outbreak. Premier Asquith announced today the rebels are holding important buildings of Dublin. General Sir John Maxwell commander of British forces in Egypt, is leaving today to take general charge of the situation, with plenary powers for all Ireland, and is given sufficient authority to take any drastic steps he may see fit.

BERLIN, April 27—United States Ambassador Gerard will leave Berlin tonight for German military headquarters where the kaiser is. The German chancellor is expected in Berlin tomorrow from headquarters where he held conference with kaiser, together with Admiral von Holtendorff and others. The Chancellor is expected to begin tomorrow work on note in reply to late demands by United States.

WASHINGTON, April 27—Secretary Lansing today sent to the British government another demand that British release the 37 Germans and Austrians and one Turk seized by a British cruiser from the American steamer China, off Shanghai, two months ago. He declared reply to first demands not satisfactory.

President Wilson signed Kitchin free sugar repeal bill this morning. Measure becomes immediately effective.

HONOLULU, April 27—Sugar \$129.20. Judge Stuart, in the Steven case hits at "slave" labor. Jurist takes a series of wallops at planters' agents, the Governor, and the territorial law. Will send a copy of his opinions to the President. Hawaiian statute passed to protect Islands labor from raids of Alaskan packers comes in for criticism.

BERLIN, April 27—British submarine E22 sunk by German naval vessels. Two of crew captured.

LONDON, April 27—Loss of E22 conceded by British government. Norwegian bark Carmanian destroyed by gun fire of German submarine. Chased bark and sank her with shells.

HONOLULU, April 27—Planters will increase wages of all workers in near future. They believe profits now being made through high prices received for sugar should be shared by laborers fairly. Plan being worked out along equitable lines.

Military spirit in Hawaii makes good impression. Major Michael Lemihan of 2nd Infantry tells Ad Club of National Guard needs. Confirms report of increase of regular army here, to strength of a complete division.

CHICAGO, April 27—Duke Kahanamoku defeated Perry Encigery, last night at 50yard dash, time 20.05.

HONOLULU, April 27—Duke writes to island friends, too much traveling makes it impossible to get into training thus accounting for loss of so many races.

WASHINGTON, April 27—Relation between United States and Germany near breaking point. Reports from Vienna say Teutonic papers make gloomy comments. Washington insists that merchantmen shall have right to be armed for their own defense and that no ship shall be attacked until fully warned of intention. President has not given up hope that some honorable way may be found to avert breaking diplomatic relations.

*A NATION'S UNREST*

To the man in Hawaii who holds a fat bunch of dividend paying sugar stocks, and even to the laborers on the sugar plantations, the future naturally has a most rosy tint. The same is doubtless true of the small proportion of the people of the mainland whose interests are directly connected with the shipping lines or munition plants. For these the steady soaring of the cost of living has little personal significance. But what of the great mass of the people not directly in touch with the industries which are profiting so enormously from the great European struggle? The very prosperity of the few, which has a bearing on the cost of all commodities either directly or indirectly through added cost of transportation, or the scarcity occasioned by the insatiate demands of war, makes it harder for the majority to live. We are beginning to see it here in Hawaii, and the pinch is becoming much more acute over a great part of the mainland.

Nor is the outlook for the next few years bright. The conditions just outlined must of necessity cause discontent and unrest, and the efforts at readjustment are almost certain to be fraught with serious disturbance. The prospect of a general strike of the railroad workers of the country, and of the seamen manning American owned shipping is already causing uneasiness that is being felt here in the Islands, as well as on the coast. And the adjustment of this threatened trouble will only relieve, but not cure the general ailment.

Short-sighted prophets have heralded the frightful losses of Europe as America's gain; but such gain as we may derive is likely to be most dearly bought. The world is too small—too closely knit together—for one part to be injured and the rest not to suffer also.

\*\*\*\*\*

The attempt which is being made by some 125 homesteaders on the island of Hawaii to establish a co-operative sugar mill at Laupahoehoe will be watched with much interest all over the territory. Besides some 2500 acres of land now held by these small farmers, the territory has been asked to open 1500 acres of cane lands now under lease to the Laupahoehoe Sugar Company. This will give the new association some 4000 acres to draw from. It is proposed to build a 6000-ton mill, and the homesteaders are to be incorporated under the co-operation law passed by the last legislature. This law in effect limits the holders of stock to the farmers themselves, by limiting the voting power to members of the association, and not in accordance with the amount of stock held. It will be the first company of importance to attempt to do business strictly on a co-operative basis, and hence its progress will doubtless receive more than usual attention. Co-operative societies have been very successful in different parts of the world, and the idea is spreading rapidly. Someday it is safe to assert they will succeed in Hawaii, but whether that time has arrived is still to be demonstrated.

\*\*\*\*\*

The unreliability of the dyes used in the manufacture of almost every class of colored fabrics has become a matter of much concern in recent months. Just how serious this is is indicated by the advertisement of the leading cleaning and dyeing establishment of the Islands in this issue. Not only are colored goods of uncertain quality nowadays, since the European war has shut off the supply of dyestuffs, but the prices in many cases are out of all proportion to the true value of the articles. It would not seem that this should be a matter of so much concern here in Hawaii as in many other places. Time was when local people by preference wore white clothing much more than at present. Why should they not revert to this custom, which certainly has much to recommend it, aside from the factor of economy? People on the mainland may be forced to adopt uncolored clothing, if the war keeps on a while longer, but the prospect should not be alarming to us. White goods are the sensible thing here, and if the dye famine can help to bring them into more general use it will not be a matter of regret.

\*\*\*\*\*

Has the Governor experienced a change of heart with regard to the merits of his suit against the Rapid Transit company? The suit has not yet been decided by the supreme court, but he is now busily at work on a "compromise" franchise scheme which apparently takes no note of the elaborately worked up case against the corporation. Incidentally, the territory was supposed to have a few hundred thousand dollars at stake on the results of this action in the courts. From this distance it looks as though the orderly sequence of procedure has become twisted.

\*\*\*\*\*

Why is a democrat? is naively indicated in the following lament of the official McCandless-Democratic organ of Honolulu, as follows: "President Wilson's acts, so far as Hawaii is concerned, have seriously disheartened the best element in local Democracy. Apparently he thinks that Democratic patronage should be used by him in conciliating the Republican party. He hasn't changed the sentiments of the members of that party by his actions, and he will find when it comes to election they will be against him to a man."

\*\*\*\*\*

An example which Maui officials might well follow is the vigorous activity of the Hawaii county attorney, police, and sanitary officers, in an effort to stop the practice of spitting on sidewalks and in public places. The town of Hilo is to be placarded, and the law against this filthy and dangerous custom is to be strictly enforced, it is said. That a man's free right to expectorate when and where he pleases should be questioned, would probably be something of a novelty in Wailuku.

\*\*\*\*\*

It is reported that the new Matson liner, now being built at the Union Iron Works, San Francisco, is to be named "Maui." Captain Matson is said to favor this name, and he will probably also favor having it bestowed by a Maui girl, which of course would be highly appropriate.

## OUR ISLAND CONTEMPORARIES

### VISIT OF PROMOTERS

Kaui has been inspected by and has inspected the Hawaii Promotion Committee.

We have heard at first hands what the committee is trying and hoping to accomplish, what the other islands have been and are doing for the committee and what the committee expects of Kaui.

We like the committee over here. They are about as well rounded-out specimens of jolly optimism as have struck the beach in moons; and their visit, taken together with unprecedentedly high sugar, has left us in fine humor.

Just how much good the committee accomplished on its tour we are unable to say at present; but the visit has certainly resulted in a better understanding at both ends of the line—and that is a great deal. Kaui is not, nor has it ever been, opposed to the campaign for tourists, although some members of the committee seem positive that such was the question—and that may have been mistaken for opposition.

And there is a reason for that apathy, I. e.: Not one person in a thousand on Kaui, perhaps, is either directly or indirectly seriously affected, or likely to be, by tourist traffic. When we have more men interested in hotels, garages, resorts and the like we will have more boosters for tourists.

However, conditions here are changing rapidly and what may be true now may not obtain a year hence.—Garden Island.

The Hawaii case (of the murderer, Molina) serves again to direct attention to one growing evil in the territory—the carrying of concealed weapons. Something should be done in the way of sternly repressive measures against this practice. The Spanish murderer was fined \$15 and allowed to go. In every case where a man is caught with a deadly weapon lurking about him, the police might well make enough investigation to find out whether he is a desperado or a man of some balance.

As the Star-Bulletin has said before, sooner or later Hawaii has got to take away these weapons from irresponsible hands, and long ago ordinary intelligence in police affairs should have taught the various county governments to stop the indiscriminate sale of knives and firearms. How many murders must teach the lesson?—Star-Bulletin.

### GRAVE ROBBERS ON KAUI

The grave of the late Ah Chock, the wealthy merchant of Kapala who died a year ago, was opened by some person or persons unknown between Thursday night and Sunday. The police have been working on the matter but have thus far discovered no clue.

The circumstances indicate that the persons opening the grave thought that jewelry, and perhaps other valuables, had been buried with the body of Ah Chock, and the miscreants were after taking it away. It is learned that nothing was there, however, so the would-be thieves were wholly unrewarded.

Grave-robbing is an unusual thing in the islands, and there is a law against such acts.

Ah Chock was the founder of numerous business concerns in and about Kapala, and when he died was worth quite a little money.—Garden Island.

### A NEW YORK WRINKLE

Every school child of school age attending the Ninole School will be required to obtain a certificate from the teacher whenever such child wants to be excused from school for a day or so and the police are warned to ask for such a certificate whenever he sees any child not attending school on school days. By such a method it is expected to lessen our absenteeism from school if the police officer cooperates with the teachers and officers every school child who does not show his excuse certificate from the school to attend school regularly. This method is working very well in Honolulu and we see no reason why it should not work at Ninole.—Kohala Midget.

The more Baby Weeks we have, the less baby weeklings there will be.—The Service.

If the Federal Wireless Company does enter into competition in sending inter-island news, it will be a dreadful crime. No competition wanted here! Positive immoral for a man to take any but an Inter-Island Steamer from Hilo, or Kahului to Honolulu.—Kohala Midget.

Kawahae-by-the-rippling-tide is the great finishing port of this end of the island; every night the graceful sampans slide into the harbor, with their scent of fish and gasoline blending romantically in the still moonlight.—Kohala Midget.

### WEEKLY MARKET LETTER.

There has been no change in the condition of the egg market during the past week. The demand is fairly good prices steady. Duck eggs have dropped 1c.

The demand for poultry in good condition is good, especially for roasting chickens.

The island supply of cabbages is still short. Sweet corn is beginning to arrive in larger quantities, and a few watermelons are coming in. Some Bermuda onions are being received but the crop this year will be small. Tomatoes, cucumbers and string beans are getting more plentiful each week.

Some very good alligator pears received from Kona this week. Chinese bananas are still a drug on the market but are not quite so plentiful as they were about two weeks ago. Large Mexican limes are selling well at good prices. The rough skinned Japanese limes is a poor seller and should not be planted except for home use.

The Division has been able to dispose of large quantities of beef and veal lately at good prices. Some of the meat has been rather poor and consequently brought a lower price. Shippers should not kill poor stock. When shipping veal do not quarter the carcass but leave it in halves. There has been very slow sale for pork during the last two weeks, and shippers are advised not to send any more until the present supply is sold. There is good sale for live turtle at about 2c a pound. The Division could probably use a dozen of these a week. Any farmer having sheep for sale would do well to notify the Division as we often have calls for sheep.

The Division expects to receive another large shipment of Sudan grass seed on the 25th, which can be sold at \$15.00 per 100 pounds or 20c a pound in smaller quantities. This grass is gaining favor with stockmen all over the islands.

### WASEDAS FAILED TO ARRIVE

The Waseda University baseball team, which was expected to arrive from Honolulu on Wednesday for games with a local picked nine tomorrow and Sunday, did not come. Local Japanese, who had been interested in the plan, had guaranteed expenses for the visitors from Japan, but word comes that the team, although not winning enough to be noticeable, are still drawing down some gate receipts in Honolulu, and hence cannot be persuaded to leave.

### COMPANY A ENJOYS SMOKER

A smoker given by Major H. B. Penhallow and the officers of Company A (old Company D) to the men of the company at the Wailuku armory on Wednesday evening, was a thoroughly enjoyable occasion. Games and music, with a few speeches thrown in with the refreshments, kept everybody in happy frame of mind. Former Major Pal was present as an invited guest, and made a short address. There were about 40 men of the company present.

### WOULD CHANGE DATE

OF CARNIVAL

James D. Dougherty, an ex-director of the Mid-Pacific Carnival, in an address before the Rotary Club, last week, advocated holding the Mid-Pacific Carnival on June 11, instead of on February 22, as at present. He argues that the islands do not need this stimulus to bring tourists here during the winter months, but do need it during the summer, when the impression prevails that the islands are not a fit place to visit on account of excessive heat.

### THE MAILS

Mails are due to arrive in Honolulu from San Francisco—Per Lurline, May 2; Ventura, May 8; Wilhelmina, May 9.  
From Yokohama—Per U. S. T. Sherman, May 5.  
From Vancouver—Per Niagara, May 17.  
From Australia—Per Sonoma, May 2.  
Mails are due to leave Honolulu as follows:  
For San Francisco—Per Sonoma, May 2; Matsonia, May 3; U. S. T. Sherman, May 5; China, May 6.  
For Yokohama—Per U. S. T. Logan, May 13.  
For Vancouver—Per Makura, May 26.  
For Australia—Per Ventura, May 8.

Motor oil made from asphalt-base crude gives best lubrication with least carbon. Such is the testimony of motorists and experts alike. As Lieut. Bryan, U.S.N., puts it: "Oils made from the asphalt-base crudes have shown themselves to be much better adapted to motor cylinders, as far as their carbon-forming proclivities are concerned, than are paraffine-base Pennsylvania oils." Zerolene is scientifically refined from selected California crude—**asphalt-base**—not only made from the right crude but made right. Dealers everywhere and at service stations and agencies of the Standard Oil Company.

WELLER AND VASCONCELLOS AMUSEMENT ENTERPRISES

"Carmen" Is Big Feature.

Theda Bara In "Clemenceau Case"

The Paramount masterpieces continue to pack the houses under this management. For this week they announce such stars as Geraldine Farrar and Theda Bara, also a feature after the style of the Spoilers, featuring Mr. Richard Travers. This powerful picture "The Man Trail" possesses a virile plot, in addition to its romantic interest. It deals with the fortunes of John Peabody, an athletic young city man who goes to his uncle's lumber camp seeking work. "Wolf John," the uncle, thinks his nephew is effeminate but when Peabody subduces a crowd of drunken lumberjacks, the uncle revises his opinion and makes the youth his partner.

"Dull" Bart, foreman of the camp, Peabody's rival suitor for the affections of the prettiest girl in the community, joins a rival lumber concern and plots to defeat and eventually kill Peabody. A gun battle ensues in which Peabody is wounded. Later in a terrific hand-to-hand encounter John slays his rival. The filming is good and the scenes are well enacted. The "Man Trail" will be shown at the Wailuku Orpheum Saturday and Kahului Monday.

"Carmen" as presented in the films by Geraldine Farrar, comes to Maui for a limited engagement. The seat sale has now commenced and there is every indication that a new record will be announced during the run of this sensational offering. The "Carmen" of the films differs slightly from the usual operatic offering inasmuch as there is added a number of spectacular scenes made possible only through the camera.

One of the most thrilling of the many thrillers offered in this photo-play is the scene in which Don Jose, following the death of Carmen, rides off into the mountains on horseback and commits suicide by leaping from a cliff. This scene was enacted at Ausable chasm in the Adirondacks with Arthur Jarvis of Brooklyn "doubling" for the daring jumping feat. The leap was made from a cliff 80 feet high and Jarvis suffered a broken leg in the fall.

Horse and rider turned one whole somersault in the air. A few seconds after the splash the horse came to the surface and began to swim to shore; a few seconds later the rider appeared, pale and somewhat weak. After treatment he was rushed to New York City to a hospital, where he shortly recovered.

This is but one example of the many unusual scenes that have made Geraldine Farrar's "Carmen" the talk of the photo-play world during the last year.

Theda Bara Again

The sensation of the film world—Theda Bara—comes to Maui in her latest international success, "The Clemenceau Case," and is said to be even better in this offering than she was in her last remarkable presentation of "A Fool There Was." Miss Bara, at the present time, enjoys a position of prominence as a film artist that is second to none.

"The Clemenceau Case" is equally as sensational as the picturization of Kipling's now famous poem. Theda Bara in that offering appeared as the "vampire woman." In "The Clemenceau Case" she is again seen in a "vampire" role. It is in these roles that Miss Bara has established herself and become the most sensational actress appearing on the screen at the present time.

William E. Shay, one of the leading male film stars and number of other prominent members of the Fox stars will appear.

Book your seats now for these fine productions. Look in another column for dates.

"Neal of the Navy" was concluded last Monday and another serial will open at the Kahului Lyceum Saturday and be shown at the Wailuku Orpheum Monday, entitled, "The Red Circle."

Ruth Roland, the girl who looks like Mary Pickford, and Frank Mayo are the featured stars, and from reports promise well.

This will be the opening episode of this serial which is woven around a scientific effort to wipe out hereditary crime. Maui serial fans should find in this offering one of the best of its kind brought here.

### AT THE VALLEY ISLE

The Mutual de Luxe master pictures are still drawing big crowds at the Valley Isle Theatre. The Mysteries of the Richmond Castle, a 4-reel feature, and Lieut. Daring, 3-reel feature were the chief attractions last Saturday evening at the popular movie house. Adventures of Florence, featuring Flo la Badie, the enchanting heroine of the Million Dollar Mystery, attracted many last Monday evening. This Friday evening the chief attraction will be the "Battle in the Clouds," a photo-play actually taken 2000 feet above the sea, and is declared the most sensational scene ever filmed. Various stars of the first magnitude have been appearing at the Valley Isle and tomorrow night (Saturday) will be no exception to the rule. "The Ghost of the White Lady," a masterpiece of a photo-play in 4 reels featuring Rita Sacchetto, the famous international actress and dancer, and rival of Gaby Deslys, the queen of the light fantastic toe. The Bond of Passion, a stirring photo-play and a great moral and educational picture.

A big benefit for St. Anthony's Catholic Church, Wailuku, will be one of the big events which is scheduled for the near future.

Hilo's Fair Has Made Good Start

Will Be Held on New Kuhio Bay Wharf—Plans For Civic Convention Also Taking Shape

(Special to Maui News)

Hilo, April 18.—Now that the invitations to attend the Fifth Civic Convention have been sent out and the acceptances are pouring in by every mail, the directors feel confident that there will be a big gathering of delegates in Hilo on September 21, 22, 23, 24 and 25 this year.

Valuable suggestions have been received from the heads of many civic organizations and these are being taken up by the directors. Chairman William McKay is working hard on the proposition of the subjects to be handled at the convention and he has several schemes that will be announced in the near future.

The number of delegates which every organization is invited to send to the convention is unlimited, and the more people who attend the big gathering, the more pleased the people of Hilo will be.

Matters relating to the Second Hawaii County Fair, which is to be held at the same time as the Civic Convention are going ahead well, and now that it has been decided to hold the Fair on the Kuhio Bay Wharf, intending exhibitors are getting even more interested in the show. They now feel that they will be able to send far more exhibits and to have them displayed in better shape than if a smaller place was chosen as the location of the Fair.

Dr. Elliot, chairman of the County Fair committee, has made up the lists of exhibits that will be asked for. The lists are comprehensive and cover pretty well everything that is grown, manufactured or bred. There will also be exhibits of any nature that will interest office and business men, as it is planned to have displays of all kinds of short cuts to efficiency in business life.

Judging from the interest shown in the coming Fair and Convention, there should be a huge crowd of county folk and visitors from the other islands in Hilo on the morning of September 21. Civic bodies need not worry about there being any limitation as to delegates, as there is none. Hilo wants to see the largest gathering of island folk possible on September 21, and Hilo knows exactly how the visitors will be welcomed and entertained.

WAILUKU TOWN HALL WILL BE REPAIRED

The Waialua Town Hall is to be repaired, including a new shingle roof and a coat of paint, and is to be in other ways put in thoroughly good condition. This was decided upon by the board of supervisors at its meeting last Saturday. Furthermore the board made provision for caring for this assembly place in the future, by appointing District Overseer Wm. Bal as custodian. The hall is to be kept thoroughly clean, and closed when not in use, and may only be used upon permit in writing, a record of which shall be kept by the custodian. No charge is to be made for the hall for public meetings or eleemosynary purposes, but for other purposes a charge of \$2.50 per day shall be charged to cover cost of lights and janitor service.

New Postmaster For Lahaina May 1

After hanging fire for about 3 years, the long threatened change in Lahaina postmasters is now evidently at hand. T. J. Flavin, postoffice inspector, who is on Maui this week inspecting the Waialua office and other offices in central Maui, brought with him the commission of Arthur V. Lloyd, who was appointed postmaster of the Lahaina office some time ago, and on Sunday Lloyd is to be formally introduced and will take charge as of May 1.

Arthur Waal, who is succeeded, has the distinction of being the oldest federal official in the territory in length of service. He was first appointed postmaster at Lahaina during the time of the republic, by President Dole, and he was subsequently regularly reappointed by Presidents McKinley, Roosevelt, and Taft. His retirement at this time is a matter of general regret to his wide circle of friends and acquaintances all over the territory.

Mr. Lloyd, the new appointee, is at present a luna for the Waialua Sugar Company, at Waikapu.

KILLED FOR 50 CENTS

Sudden death followed a controversy between two Koreans last week at Paauhau, when Tak Chong Nam stabbed Tak Kung Wai to the heart with a large pocket knife. The fifty cents at issue was a gambling debt.

LIMIT FIXED ON ROAD WORK

For the next two months the several districts are to be limited to the following monthly amounts that may be expended on roads: Waialua, \$2500; Hana, \$1000; Lahaina, \$1500; Lanai, \$75; Molokai, \$1000; East Makawao, \$1000; West Makawao, \$1000.

ONE RESULT OF THE EUROPEAN WAR

has been a shortage of good imported dyes and of a great many of the better class of fabrics. Our market has therefore been flooded with inferior goods which are not durable.

We are jealous of our reputation for perfect Dry Cleaning and Dyeing and so deem it advisable to announce to all that for the above reasons we must refuse to be held responsible for results in the case of spotted or dyed goods.
