Washington, Sept. 17.—The memorandum sent to the Spanish Minister at Washington by the Spanish Minister, proposing a reciprocal treaty by which Spain should remove the duty on breadstuffs, provided that the United States would remove the duty on sugar and molasses, has been considered fully by the customs officials of the Treasury Department and rejected.

Boston, Sept. 17.—Business was entirely suspended throughout the city today. The literary portion of the celebration was held in Old South Church at 9 o'clock. Governors of States and Mayors of cities, invited guests of the city, occupied the platform extending the entire length of the church. Mayor Prince delivered the oration. The delivery occupied two hours, and at the conclusion the Mayor and guests were taken in carriages and escorted into the line of the procession, which was the finest and most complete by far ever witnessed here.

It was three hours and fifteen minutes in all, a given point. The blocks which were used in the procession, the old frigate Constitution occupied a place and attracted much attention. In the evening the multitudes turned their way to the parade grounds in the common to hear a concert by Gilmore's band. The entire ground was made as bright as day by three electric lights, whose combined power of eight thousand candles gave, without doubt, the most brilliant illumination ever witnessed in this country.

Before the concert was ended the crowd had swelled to enormous proportions, and probably included over one hundred thousand people. Yet, with all this vast assemblage, there seemed to be no decrease in the crowd on the various streets near the common and through the route of the grand evening demonstration, which was the most fitting closing of the varied exercises commencing on Boston's two hundred and fifth birthday.

New York, Sept. 20.—The Tribune says: President Diaz has made a bold effort to satisfy three American companies which are seeking Mexican railroad grants by tendering important privileges to each. Should his offers be ratified by the Mexican Congress and turned to account by the grantees, there will be within a few years a railroad from the Mexican capital to the Pacific coast and trunk lines to Texas and Arizona, where each will connect with the American system. Such facilities for traffic would add largely to our trade with Mexico, while they would increase the wealth and promote the tranquility of that country.

New York, Sept. 22.—The Herald says: Colonel Gordon, who has been a very sensible adviser of the Chinese Government, and who is very anxious to prevent the outbreak of a war between China and Russia, has hit upon a happy idea. Remembering the favorable impression which General Grant made upon the Chinese statesmen whom he met during his tour around the world, and also that there has long been a friendly feeling in Russia toward America, he proposes that the two Powers shall submit their differences to the arbitration of General Grant. They might easily do a great deal worse, and could not do better. The General would be an entirely impartial arbitrator. He is known as a lover of peace. He would have neither personal nor national interest to warp his judgment, and his decision would be respected by both parties to the dispute. To ask him to become arbitrator would be, it strikes the Herald, the happiest way of a quarrel by which neither of the two Powers, if they go to war, can hope to gain anything except crippling losses.

Russia, Sept. 15.—The Albanians continue resolutely to oppose the cession of Dulegion, and are hastening thither en masse. It is asserted that they have resolved to kill Riza Pasha, who is at Kalkral with only 150 men. The Albanians have forwarded a fresh threatening address to the Porte.

The French ironclads ranged themselves alongside the English ironclads, their bands struck up "God Save the Queen," and the English replied with the "Marseillaise." The arrival of the French ships caused universal satisfaction, and it is believed that action will now be taken.

The Albanian League at Scutari has decided to despatch additional forces to Tuzi, to threaten the invasion of Montenegro from that side. They were leaving Scutari on Monday, and the Turkish Governor made no effort to prevent them.

Cape Town, Sept. 15.—The Basuto Chief Lebododi made an unsuccessful attack on the mounted Cape rifles at Matieteng on the 13th inst.

Lehododi's force numbers 600. It was routed and pursued several miles. A number of his men and many cattle were captured. The Colonial only had one man wounded. The Basutos, it is said, refuse all terms and war is inevitable.

LONDON, September 19.—Sir William Harcourt is determined to stop the imprisonment of children, and promises fresh legislation. Troubles are arising in the Lancashire cotton trade. The masters having refused an advance of wages, 50,000 operatives have given notice of a strike. The masters, who are closely associated, yesterday decided to refuse arbitration and to resist. They also resolved to put all works on half-time to prevent their operatives from aiding the strikers. It is thought the masters ought to consent to arbitration, but that in case of a fight they will win.

Charles S. Reed, the noted agriculturist, declared yesterday that England could never compete with America in wheat, but that America could not grow barley nor rye as well as England. The farmers' prospects are improving, but a reorganization of the land system is needed in England as well as in Ireland, to bring agriculture to the same perfection as other industries.

LONDON, September 20.—The Standard says: "With reference to the American fishery dispute reported from New York, and the alleged violence shown by Newfoundland fishermen toward the American vessel Moro Castle in Conception bay, we may state that her Majesty's ships Iris, Comet and Flamingo have been ordered to the fisheries ground."

New York, September 19.—The London correspondent of the Tribune telegraphs: The conditions of Ireland occupies the first place in home affairs, though the agitation is not general on account of the excellent harvest. The professional agitators are still working, and may have more effect in the winter. While fatal outrages are extinct, out-cropping and cattle-butching still go on, the achievements of the Kerry and Conemara patriots rivalling, in this respect,

those of the Albanians and Montenegrins. Parnell starts on a regular campaign at Cork today. It is hoped that he will uphold a practical plan for settling the land trouble. The Irish members, as a rule, have been wonderfully moderate, and express confidence in Gladstone, Bright and Foster. They confine their misgivings to the Liberal "whips." Redpath has caused some sensation by a speech showing how Ireland could maintain a military revolt against England. His remarks on this head were more sensible than encouraging. Redpath himself telegraphs me, asking the Tribune to contradict the statement that he advocated insurrection and pledged American support to an armed rising. He said just the opposite, as a moderate long argument against the use of force. He said that Irish-Americans would support peaceful agitation, for peasant proprietorship. I may say that England's politicians expect that the Government will tackle Irish grievances next session like workmen with their coats off. While giving encouragement to peasant proprietorship, their plan will include fifty of tenancy. Irishmen will chiefly support the former plan at next year's Parliamentary session. The battle will be fought over this question. Rev. Mr. Kane's proposal for a Vigilance Committee to hang a priest or an agitator for every Protestant that is murdered has brought on him the censure of the Bishop of Down.

DUBLIN, September 20.—Parnell addressed a great meeting of tenant farmers at Ennis on Sunday, and set forth the line of policy which he wished to see carried out, in order to secure an early settlement of the land question. The main features of the programme are unanimity of action among the Irish members, independence of English political parties, refusal to pay more than what the tenant considers fair rent, and social excommunication of any person taking a farm from which another has been evicted for non-payment of rent.

New York, September 14.—A Herald Washington correspondent writes that the statement cable from Rome and London that Chile, Peru and Bolivia had accepted the mediation of the United States in the settlement of the pending difficulties is not credited at the State Department, and is believed to be untrue at the Chilean legation.

CINCINNATI, September 15.—Captain Stone is said to have stated privately that he intends to drive Mand S on Thursday for all there is in her, and to lower the record to such a point that St. Julien will not be able to touch it for this year, at least. It is said that he believes Mand can make the circuit in 2:08, if the conditions are favorable.

New York, September 12.—The World says: The Chinese Embassy, his Excellency Chin Lan Pin; the Ambassador Chin Tung Ling; Secretary Shin Ize Tun; Assistant Secretary Ho Shen Chi, Ting Tang, Len Seong and Chen Moh, and accompanied by Captain Felix M. March, arrived in this city from Washington, thinking that by coming here they would avoid the annoyance of the hot summer in the capital. Here, however, they have met with other annoyances, by reason of which they will shorten their visit. When they arrived they took quarters at the Fifth Avenue Hotel, but desiring to live more privately, hired the house No. 21 West Thirty first street, where they have been subjected to public insult, and even assaulted by the dwellers in the Twenty-ninth precinct, who crowd around their carriages whenever they venture abroad, and have behaved so outrageously that some of the members of the Embassy have determined not to leave the house until they return to Washington.

It is not generally known that a Republic of Ireland exists on paper, and that it enjoys the privilege of a national debt. A movement is on foot in the United States towards giving greater stability to the Republic, and adding largely to its independence. Patriotic Irish servant-girls are the principal investors in the bonds which the founders of that State issue for the purpose of raising what they call "skirmishing funds." One of these bonds is now before us. It has a close resemblance to a United States greenback note of ten dollars. The chief difference is that instead of the portraits of two distinguished American statesmen being represented on the face of it, the portraits are those of Wolfe Tone and Davis. A small cross at the top gives a religious sanction to the document. The inscription runs as follows: "The national debt of the Republic of Ireland is indebted to in the sum of ten dollars, redeemable with interest at the rate of 6 per cent. per annum six months from the acknowledgment of the independence of the Irish nation, or at the option of the Republic convertible into 6 per cent. interest-bearing Government stock, payable in six years from that date." The undertaking is signed by Nicholas Scanlan as "Agent of the Republic," and by C. B. Sullivan as "Register." An eagle grasping a sword, and triumphing apparently over a defeated foe, figures in the middle. A good many bonds must be in circulation, seeing that the register number of this one is 11-029.

As the French ironclads ranged themselves alongside the English ironclads, their bands struck up "God Save the Queen," and the English replied with the "Marseillaise." The arrival of the French ships caused universal satisfaction, and it is believed that action will now be taken.
