ESTEE'S VIEW STILL THE SAME

PEARL HARBOR VERDICT TOO HIGH, BUT RETRIAL IS REFUSED.

WILL NOT SET ASIDE TWO VERDICTS OF JURIES.

Honolulu Plantation Case Now Goes to the Ninth Circuit Court of Appeals.

Judge Estee this morning overruled the motion for a new trial of the case of the United States against the Honolulu Plantation Company.

This case has been twice tried before a jury the object being to fix the value of the defendant's leasehold interest in the 500 acres of land described in the complaint.

The verdict in the first case was \$105,000 and it was deemed excessive by the court, who for that reason granted a new trial unless the defendant would accept a diminished amount, namely, \$75,000.

The second trial was therefore had, resulting in the verdict of \$103,525 as before stated. This amount the court also believes to be excessive above the sum of \$75,000.

I have made an examination of the very lengthy assignment of errors of law alleged to have occurred at the trial of the case, and have read with much care, the elaborate brief of the counsel for complainant in addition to the brief of defendant's counsel.

The motion for a new trial is therefore denied.

Honolulu, May 13, 1902. The case will now be appealed to the Ninth Circuit Court of Appeals, which may fix the damages or order a third trial, with or without a jury.

A THING OF BEAUTY. Is a joy forever, but wall paper cannot be kept beautiful many years.

HIS UNCLEAN HANDS

PAIN AND THE SUN KWONG MAU SUITE.

Judge Humphreys Hears a Motion to Strike Out a Large Part of Rapid Transit's Answer.

Pain's unclean hands were the subject of discussion in court again this morning when the Walkiki right of way suit of the Sun Kwong Mau Company against the Rapid Transit company and others came up before Judge Humphreys.

Breckons argued in favor of the motion to strike out the alleged impertinent matter. He claimed that the statements of the defendants that the plaintiff were not the real movers in the suit were not proper matter in the answer.

McClanahan contended that the proper remedy was a suit at law for damages. "If we are right in claiming that this is the proper remedy," he said, "then the underlying motion in this case is more clear."

The facts set forth, which the court is asked to strike from the answer, show that the conduct of the plaintiffs is tainted, that they come into court in bad faith.

TRIED TO KILL HER

Sato, a Japanese woman, appeared at the police station this morning, following a revolver with which she said, a Japanese man named Hirona had tried to kill her.

According to the statement of the plaintiff Hirona went to the woman's room at the corner of Smith and Puuhai street today and demanded that she give him \$50.

Before Hirona could carry the threat into execution, Tokanaga had seized the revolver and wrenched it away from the Japanese. Hirona decamped, Officer Tomoe also was placed in the hands of a posse consisting of one officer, a constable and two soldiers.

LUCAS WAS DISMISSED. Judge Wilcox today dismissed A. Lucas, a young man who was charged with assault and battery on J. Namanu, one of Pain's street car drivers.

BUFOED FOR THE COURT. The transport Buford will sail some time tomorrow afternoon for San Francisco. She is taking on 800 tons of coal at this port.

A HURRY-UP GRAND JURY

JUDGE ROBINSON CHARGES THE JURORS TO HASTEN WITH THEIR WORK.

TREASURY IS DEPLETED AND SHOULD BE SAVED.

No Need to Make the Customary Inspection of Institutions Where There Are no Complaints Made.

Judge Robinson this morning delivered the charge to the grand jury for the May term of the circuit court. It was Robinson's first charge, this being the first term at which he has been the presiding judge of the court.

The origin, growth and development of the grand jury system, its purposes, objects and accomplishments, have been sufficiently explained in the able and comprehensive charges to previous grand juries.

After discussion of the law relating to infamous crimes the court continued: "It may therefore be safely assumed that all crimes committed within the jurisdiction of this court punishable by imprisonment, whether with or without hard labor, for a term exceeding one year, whether with or without fine, are infamous crimes and that person charged with having committed such crimes shall be held to answer only upon presentment or indictment of a grand jury."

"While admonishing you to be thorough and efficient in the discharge of your duties, I charge you that the present depleted condition of the territorial treasury, which is a fact doubtless known to each and all of you, should urge you to be prompt and exacting in your investigations and deliberations."

"The people of the Territory of Hawaii, and the complaining witnesses as well, have a remedy, adequate, complete and speedy at a vastly less expense to the Territory, in the summary jurisdiction exercised by the District Courts under our laws in the hearing and determination of criminal offenses not included in the definitions of capital and otherwise infamous crimes, and in case of mismanagement of a public institution, persons having knowledge of such mismanagement would not hesitate, in these days of enlightenment and zeal for the public good, to call it to your attention without delay."

"No member of the grand jury can be excused, except by the order of the court, if any member of the grand jury is absent at any time, or delinquent, it will be the duty of the foreman to present the fact to the court. You may select one of your number as clerk to keep the minutes of your proceedings, but only such minutes need be kept as will enable you to make your final report to the court, which report you will present upon the conclusion of your labors."

"The jury began work at once in the throne room. William H. Tell, who has been bailiff of the court of claims and was recommended by the members of that court, was appointed bailiff."

SEMI-WEEKLY STAR. Honolulu people who are going abroad can have the Semi-Weekly Star mailed to any address for the small sum of twenty-five cents a month.

THE WEATHER. Weather Bureau, Punahou, 1 p. m. Wind, light east-north-east; cloudy and hazy, with occasional valley showers.

SUIT AGAINST PRATT

APPEAL FROM THE RULING OF DICKEY.

The Seizure for Taxes of Goods, That Were Being Auctioned—Williams Boys' Trials Again.

An appeal to the circuit court has been taken in the case of Uyema Yoshimasa vs. Tax Collector J. W. Pratt, an action for damages on account of the tax collector's seizure of goods sold to the Jap in a recent auction in Bailey's cycleery.

In the trial before Dickey A. A. Wilder, J. R. Gall, E. B. McClanahan, H. B. Penhallow and Pratt were witnesses. They told of the sale in the cycleery, by Morgan, a delinquent tax collector, of the goods to the Jap, and the plaintiff admitted that the owner of the goods before they were auctioned owed \$59.10 taxes delinquent.

Judge Robinson this morning began the trial of Bob and Edgar Williams, who were up for burglary at the last term of court, on charges of larceny in kind and larceny of a watch.

PORTUGUESE CHILD LOST AT HANAPEPE. Went to Swimming Last Thursday and Got Over His Depth—Drowned Before His Companions.

There was another drowning at Kaula last week, the victim being a Portuguese boy about 7 years of age. The boy's name was Clements and he was a brother of an engineer who works for the Kaula plantations.

A FILIPINO MAID. A Filipino servant girl in attendance on one of the officer's wives aboard the Buford attracted considerable attention this morning on the streets as she followed her mistress. The facial characteristics of the girl were not unlike those of a Japanese and her costume was a quaint mixture of native dress affected by American influences.

A GOOD APPETIZER. A ride up Pacific Heights is a good appetizer.

CURTIS J. LYONS, Observer. Nahaia, a native was brought from Kaula to Honolulu this morning by an officer to be taken to the insane asylum.

WHOOPIING COUGH. A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it.

W. B. CORSETS. L. R. Kerr & Co., Ltd., have secured for the future the sole right for Honolulu for the celebrated W. B. Corset. This is the most perfect fitting Corset known to the trade and at popular prices from 50c. upwards.

YACHTS TO REGISTER

OWNERS OF PLEASURE CRAFT MUST OBEY LAW.

All Craft of Five Tons and Over Required to Register According to Law.

The government authorities are preparing to descend upon the owners of the larger yachts unless they immediately conform with the legal regulations and register their boats.

The officers of the Hawaii Yacht Club are somewhat inclined to feel glad over the probable enforcement of the rule. The issuance of the Club's manual, the arrangement of the handbooks and consequent filing of the taxes accurately, besides the completion of club records, have all been seriously interfered with by the owners of the yachts.

The vessels in the yacht club coming under the new limit are Hawaii, Helelani, Gladys, Mary L., Helene, La Paloma, Leeway, Annie M., and Clytie. The Marion, recently bought for trading purposes on Molokai, is no longer a member of the fleet but is liable to registration fees and taxes.

COMMODORE HOBSON does not think that the yachts are liable to registration unless over fifteen tons and then not unless they are used for freighting purposes. "I do not think," said the Commodore of the yacht club this morning, "that there are over a hundred yachts with registered tonnage in the United States. Some few of them have their tonnage registered in an inconspicuous place on the coaming of the hatchway for example, but they are not obliged to do so except for purposes of securing pilotage. I do not believe that there is any law that requires registration of our pleasure craft. Such is not the case in San Francisco."

Other water front authorities place the limit for registration at fifteen instead of five tons without entering into the question of whether the craft are used commercially or for pleasure only. This would let out all of the yachts, with perhaps the exception of the La Paloma. The Gladys, Commodore Hobson's favorite, registers only eight and one-half tons. Secretary P. L. Weaver of the club is the one who has been notified by the authorities of the necessity of registering the yachts.

HORSE TRAINER INJURED. Alec Harris, the horse breaker and trainer, was hurt in a runaway this morning on Queen street, his left leg being broken. Harris was driving in a small cart, when his horse, which was quite fractious, began kicking and plunging near the Judiciary grounds. The horse jerked the shafts loose from the cart, but Harris pluckily held on and was jerked over onto the ground. The horse ran away dragging Harris several hundred yards, the injured man finally being picked up near the corner of Richard street with his left leg broken. He was taken to the Queen's Hospital. The fracture is thought to have been caused by the horse kicking Harris.

BIG FLOOD ON MAUI

MAALAEA STREAM BECOMES A TORRENT.

Washes Out the Maalaea Road, Carries Horses and Carriages Along and Causes Much Damage.

A big flood occurred yesterday and last night on Maui in the Maalaea Bay district. Considerable damage was done, but so far as is now known, no lives were lost.

News of the flood was brought this morning by the steamer Mauna Loa which arrived from her regular Maui and Hawaii run. The flood was due to a cloud burst, which occurred in the mountains. The storm began Sunday night and continued without cessation all of yesterday and during part of last night.

Within a few hours the dry bed of Maalaea stream was filled with water which increased at an alarming rate. During the afternoon a number of hawks were caught on the road between Maalaea and Waikua and Waikua and swept away by the rushing waters. The occupants of the rigs escaped with difficulty. Several hawks were swept along a distance of several miles, and broken into pieces, the horses being rescued from drowning after much trouble. The road was washed out for a considerable distance, and it will be some weeks before it can be repaired.

While a number of passengers boarded the steamer at Maalaea, the majority of them were people who resided on the eastern side of the stream. Few passengers who came from Waikua and other parts on that side of Maalaea stream were able to get across the torrent. W. H. Cornwell and Mr. Chapman were the few daring ones who plunged into the water and made their way across. Nine other passengers saw the rushing waters, and then decided that it was not so important after all for them to get to Honolulu and with one accord, they returned to their homes.

When the Mauna Loa left Maalaea last night, the flood was still in progress with evidences of the storm continuing. Purser Simerson did not get any idea of the damage done by the flood but it is thought to have been considerable. Houses are thought to have been undermined and flooded, and much grain has been done to crop growing within the radius of the rushing water. The mail was gotten to the steamer as usual however, several daring carriers successfully getting it across the river.

HAVE TO BE FUMIGATED. In future, outward bound sailing vessels will have to resume fumigating before receiving a clean bill of health. The bark Alden Bess is the first boat to be affected by the new order. She was to have sailed today but the recent order from the Quarantine officer will necessitate her being delayed until Thursday. She sails for San Francisco with sugar.

KAHULUI. Arriving, May 12, Am. bark Nuuanu, Josephyn, from Honolulu.

SEÑOR BUENOCAMINO.

If Senor Felipo Buenocamino really did say what he is reported to have said, and there is no reason to suppose he was misquoted, he may have some tall explaining to do when he gets to Washington. Talk of "conquering" the Philippines is not in consonance with our claims to sovereignty in the Philippines. We are there by right of the Treaty of Paris by which Spain transferred the sovereignty of the Archipelago to the United States, and not by right of conquest nor for any purpose of conquest. What the late member of Aguinaldo's cabinet, now a member of the Philippine Civil Service Commission is quoted as saying is:

"I approve fully the policy of General Chaffee and General Smith in the Philippines. The people of the United States do not understand the situation in the Islands, and the treatment of the Filipinos may seem cruel to them, but it is the only way by which they can ever be conquered."

This will be rich material indeed for the anti-imperialists, and all enemies of the administration. "The Filipinos are to be conquered; that is what the army and the navy are there for, is it? That is the policy of General Chaffee and General Smith, is it?" will at once be the argumentative query of the anti-imperialists. "The people of the United States do not understand the situation in the Islands? The treatment of the Filipinos may seem cruel to them, but it is the only way by which they can ever be conquered? The 'water-cure' is not cruelty, but conquest? Gen. Smith's alleged 'kill-all-over-ten' order, is merely beneficent pacification reduced to the simple terms that the Filipinos can understand? They can understand it in that form, even if the people of the United States can not."

How such newspapers as the Springfield Republican, the New York Evening Post and the Chicago Record-Herald can ring the changes on such sentiments, General Funston was silenced for making speeches much more euphemistic than this.

However, Senor Buenocamino has probably spoken his views as he sees things and candor is often refreshing, even when it is embarrassing.

SUM OF NEWSPAPER WISDOM.

Congressman Little of Maine, one of the strongest and most candid of New England's representatives at Washington made this remark in private conversation the other day: "The newspapers are right. If it were not for the newspapers, the jobs which would go through Congress are terrible to contemplate. If there were no newspapers at all I don't believe I would be willing to trust myself alone in the House of Representatives for fifteen minutes."

This is an exaggeration, quite as much as the more common one of brushing aside a newspaper story with the remark: "This is only a newspaper sensation." The paramount value of a public journal is the ability to give events as they happen from day to day. Occasionally a revelation running in its details back for years has sensational features from the way the narrative is made up; but as a general proposition the power of the press lies in its ability and courage in giving a truthful story of the day's doings. The temptation to be "yellow" arises from mistaken notions of the function of a newspaper. To be smart, melodramatic and lurid seems to be the ideal of some editors, but in the long run such publications do not carry moral influence enough to direct public opinion. To give the news and to tell the truth about it, as Samuel Bowles used to say, is the sum of newspaper wisdom.

AN ITINERANT BOARD.

The Board of Health is now holding meetings at other places than its appointed offices. It seems to have reached the stage Aguinaldo and Kruger were in before their final collapse, when they had moving capitals. The Board of Health office appears now to be at Dr. Sloggett's office or his residence or any other place except the office provided for it at public expense. The moving capital stage is not a reassuring one to any cause. The Board of Health is not inspiring the confidence of the public by going on circuit or adopting itinerant methods.

The Board of Health has permanent offices provided for it by the public. Its records are there. Its conveniences for holding meetings are there. There is where the public expects to find it, and expects it to hold its meetings, and transact its business. The moment it abandons its regular quarters and begins holding meetings elsewhere, that moment the inquiry naturally arises, Why does it do so? Is there some special reason, and if so what? And since there is no answer to the very natural inquiry, rumor and gossip immediately take upon themselves the task of supplying an answer. And then the board wonders why it has a clamor about its head.

The Board of Health is a public body, to which have been intrusted grave responsibilities and great powers. But as a public body it is expected to transact its business in an open public way, not

that it may not go into executive session for good reason appealing to its members, but that it is not expected to make its meetings and meeting places a game of hide and seek. Openness and candor are in no way incompatible with effectiveness and the necessary preservation of confidence in an administrative body among its members and employees. But secretiveness in public bodies is fatal to public confidence.

Let the Board of Health get back to its offices and hold its meetings there; abandon its moving capital, and it will find the public responding more generously to its confidences. An itinerant policy is very apt to give rise to the belief that either the Board is "rattled" or is trying to "rattle" the public.

Some "mere man" has made a discovery, which he could not keep to himself. He finds that the Australian ballot law was adopted in Colorado before the state gave the suffrage to women. This law provides that the voting booths must be so constructed that the voter's legs may be seen below the knees."

The Pathfinder at work in coast and geodetic survey in the Philippines shows not only how extensive Uncle Sam's dominions are, but how persistently he keeps at scientific work.

Judge Robinson's charge to the grand jury this morning was an extremely sensible one. Grand juries have very wide and extensive rights, searching powers and serious duties. But as Judge Robinson pointed out, they don't all have to be exercised at once. The purpose of the grand jury is to properly set in motion the remedies of the law for the punishment of crime, the preservation of the peace and the protection of the public in all its relations. For this reason the rights and powers of the grand jury are given. They are a means to an end, and not the end itself. And therefore if the end is attained without them, if there are no wrongs needing redress, there is no occasion to exercise all these powers, simply because the powers exist. They will not be forfeited for non-use when no occasion for using them exists. The state of the public treasury is ample warrant for a grand jury at the present juncture to waste no time on investigations which are not specially called for.

Judge Robinson's charge is not a rebuke or a dissent from previous charges to grand juries. It is simply an application of common sense to present conditions. The truth is, the grand jury is a new implement in our island jurisprudence, and as with all new implements the tendency is to experiment and find out all the things it can be used for. We ought to have become accustomed to it sufficiently by this time to use it discreetly and with as little unnecessary public expense as possible.

Plans have been made for the improvement of the large area of land in the rear of the Yale law school. The space will be laid out as an old-fashioned garden with lawns, walks, shrubs, seats, and places of minor sports for the students, the whole to be harmonized with the grounds of the Graduates club next door. Grounds has been broken for the new building of the Graduates club, and the university treasurer has taken a mortgage for \$40,000 on the property. Ground is soon to be broken for the Lamson auditorium on Wall street.

There is to be an abrupt transition from the old to the ultra-modern in the case of the property at 41 Maiden lane, New York, which had not changed hands for 70 years till it was sold the other day to a purchaser who intends to erect a huge sky-scraper on the premises. In the early part of the century the old building was used for a jewelry and bric-a-brac store.

The sale, recently noted, of a copy of the first edition of Browning's "Pauline" in New York for \$720, has brought out the statement that only 13 copies are now known to be in existence, so that it is one of the rarest books of the nineteenth century. No first editions of modern books have commanded such a price, with the exception of Poe's "Tamerlane," "Al Araaf," and "Murders in the Rue Morgue," which have brought, respectively, \$250, \$1300 and \$1600. It is useless to try to explain the first edition mania to those who don't feel it. Those who do would cheerfully go without their dinners to get possession of a very ordinary and badly-printed book which had no points of superiority except that it is rare. The craze may be no more violent than in past years, but there are a good many more collectors who have money to throw away on their hobbies.

A syndicate comprising English capitalists has been formed to promote the sale of "the silks," composed of 50 per cent wood pulp and 50 per cent artificial silk. Samples are being submitted to the wholesale neckwear manufacturers, and considerable experimenting is taking place. In point of price this material shows advantage over conventional fabrics. Its luster, feel and general appearance closely resemble genuine silk.

Lord Londonderry, the British post-master-general, states that lack of money alone prevents the inauguration of a system of underground wires to the north of England. Such an installation would cost \$3,500,000, and with the war draining its coffers he was reluctant to ask the treasury for the money.

Weak Nerves

Are you ever nervous? Do you lie awake nights, suffer from dependency, and often feel discouraged? It's a terrible life to lead. Don't suffer in this way any more. Get strong and well.

Follow the advice of Mrs. Thomas Pritchard, of Adelaide, South Australia. She sends us her photograph and says: "I had a terrible illness which left my nerves all unstrung. I had severe headaches, indigestion, sleeplessness, and my nerves were just as weak as they could be. I then tried Ayer's Sarsaparilla and I began to improve at once. My appetite returned, my digestion improved, and my nerves became strong and steady."

AYER'S Sarsaparilla

There are many imitation "Sarsaparillas." Be sure you get Ayer's. Use Ayer's Pills with the Sarsaparilla. These are purely vegetable pills. They cure constipation, biliousness, sick headache.

TENNIS TOURNAMENT

The finals in the Tennis tournament, gentlemen's singles, ended yesterday afternoon on the Pacific Tennis Club's courts with a magnificent game between Roth and Elston. Roth winning 6-2, 7-5, 1-6, 6-4. Both men were in excellent form. Roth showed his superiority, and won the play by his work at the nets. In the development of tennis, net work has become the winning tactics. It brings the man who plays it close to the net, where with his reach on either side he can reach the ball just as it passes over the net enabling him to return it out of the reach of his opponent. Of course it is not possible to get every ball from this position; but it is now considered the winning tactic. The defense to this style of play is, in a measure at least, "lobbing," returning the ball over the head of the player at the nets. There was much of this in yesterday's game. Elston gave some wonderful examples of skill in this style of work. But on the whole, the net work won. It is an exhausting style of play, however, and Roth was obliged to abandon it at times to recuperate. The game was witnessed by a large number of spectators. Roth will meet Atherton this afternoon. Atherton has held the championship for two years, and if he wins today, the trophy is permanently his. Atherton has been in steady and consistent practice, and the game ought to be a battle of the giants. Last fall Roth won from Atherton, but the latter was not then in as good form as he is now. The entries for the championship doubles close at 5 o'clock this afternoon at Pearson & Potter's, and the games begin tomorrow afternoon, there being play on both the Beretania and the Pacific courts. There is more interest being displayed in doubles this year than ever before. A number of teams have been practicing. Brock and Adams have held the championship for the past three years. But a number of other players think they can wrest the championship from them this time. Brock and Adams are not the strongest players in singles, but they have played so long together that their team work is most effective, and team work counts. Among the teams which will enter are Nowell and Cunha who have been playing a strong game; Elston and King, this being King's first year, but he is showing fine form. In the Pacific Tennis club tournament last fall, Roth and Walter Dillingham were the champions, and if they can win through the tournament to the finals they may have a chance of doing it again. Isaac Dillingham and S. G. Wilder are playing together this year for the first time and are putting up a strong game. Among other teams that will enter are C. H. Cooke and W. H. Habbitt; Hitchcock and John Waterhouse; and Grimwood and Walter Macfarlane. The drawings for the entries in the gentlemen's doubles will be held tonight.

Table of tennis match results including winners like Roth, Elston, and Dillingham.

CATHOLIC MEETING

PROTEST AGAINST FATHER WENDELIN'S REMOVAL.

Committee Appointed to Seek a Conference with the Board of Health Before Further Action is Taken.

The Rev. Father Wendelin Mottiers appears to be between two fires while the present situation lasts. He has no right as a priest, it is stated, to abandon his post unless he is recalled by the Bishop. The Bishop will not recall him, and the Board of Health has revoked his permit to remain, at the same time quoting penal laws covering the offense of remaining without a permit.

Father Wendelin will not leave, unless forcibly removed, in my opinion, said Father Valentine this morning. "I would not leave under the circumstances unless recalled by the Bishop, and the Bishop will not recall Father Wendelin. I hope the matter will be settled before June 10 in some way. "Everything the Board has done in the matter has been in secret, and that is one of the things we object to. It gives people a chance to say there are charges the Board does not want to make public. I went to the last meeting expecting that the matter would come up, but nothing was said. Then there was a secret discussion one day and I got back to the mission to find a letter addressed to the Bishop, giving the Board's latest decision. The public knows about the case. Why should the Board always insist upon acting in secret?"

Father Valentine was asked about a reported communication in which the Board stated its reasons for asking Father Wendelin's removal, but stated that no such communication had been received. "There is nothing from the Board," he said, "except the first letter, signed by the secretary, asking the recall of Father Wendelin. In the interests of harmony, charges were asked for, but there were none brought. An employee of a business house who worked 15 years on a salary would have a right to ask why, if he were suddenly removed. How much more has a priest, who has worked at a sacrifice of self for 15 years, in a place like the Levee, a right to ask the right to know why he is asked to leave? Nothing has been heard against him during the other 15 years, and the Board seems to have made no effort to find out about his work. When the committee went to investigate the cases of Reynolds and Dr. Oliver, they ignored Father Wendelin. Though he is almost the only white man there and certainly is in a position to be the best informant, they asked of him no aid, and without saying anything to him, they returned to Honolulu and passed a resolution asking his removal. This, too, was in secret. That is not a fair and proper way of doing business."

Chairman Quinn of the Catholic meeting which took up the matter of Father Wendelin on Monday evening, yesterday appointed the following committee to take charge of the matter: Senator Clarence Crabbe, Lorrin Andrews, Col. C. J. McCarthy, Frank E. Thompson, John A. Hughes, W. S. Fleming, W. H. Armitan, T. McCants Stewart and M. A. Goncalves. The committee met last night at the office of Attorney Thompson and elected Thompson chairman. It was decided that a conference with the Board of Health should be sought before any further action is taken to call a public mass meeting or circulate petitions addressed to the governor. F. E. Thompson, J. A. Hughes, M. A. Goncalves and Lorrin Andrews were appointed a conference committee. At the meeting of the Catholic Benevolent Union, the following committee was appointed to act with the other committee: W. F. Erving, Dr. Jennings, M. J. Carroll, J. J. Cregan, Julius Asch, Thomas McTigue, M. G. Cordera, A. E. Murphy, Charles McGonagle, W. F. Erving, Dr. Jennings and Julius Asch were appointed as a sub-committee to confer with the sub-committee of the first committee. The Concordia Society will hold a meeting this evening to discuss the matter. The meeting at the Catholic Cathedral last night was devoted to general discussion of the controversy. J. E. Eckhardt presided and speeches were made by Clem Quinn, Thomas J. Dillon, A. E. Murphy, Rev. Father Valentine and Adams.

CORRECT TIME BALL

SURVEYOR WALL HOPES TO ERECT ONE.

Daily Whistle at One Thirty Has Been Missing Lately and Local Time Pieces Are Out.

The regulation whistle at 1:30 announcing corrected time of noon at Greenwell has been missing the last few days and the sea captains wishing to correct their chronometers have been telephoning the survey department. Also the time of the town has gradually become demoralized until the seven o'clock, noon and afternoon whistles have gradually crept farther and farther apart until instead of being simultaneous they have tooted at intervals of almost three minutes apart.

The one thirty whistle blows from the planing mill of Lucas Brothers as a general thing, but the electric wire that carries the corrected time from the survey chronometer to the mill has been out of order and the repairers have experienced considerable difficulty in locating the break. Surveyor Wall announces that the whistle will start in again tomorrow unless something again happens to break the connection. "We are hoping," said Mr. Wall yesterday, "to secure enough from our appropriation to erect a time ball. This we hope to locate on the cupola of the Hackfeld Building where it will be convenient for the skippers of vessels who are anxious to correct their chronometers. They, the captains, have not always been satisfied with the whistle as a time keeper. They realize how much time is lost in getting up steam once in a while and a few seconds may make quite a variation in working out long distance and at sea. With the ball there can be no mistake. It is readily distinguishable and will be kept hoisted all the morning, ready to trip at the exact second by electric contact. It will of course cost something to install the new arrangement but we must keep up with the progress of the times and Honolulu is rapidly growing in importance as a seaport town. Our town clock, aluding to the one in the Judiciary building, has been a splendid time keeper and varies less than a minute a month, a record that many watches cannot boast."

KILLED BY A BULL KING LEAR'S FEARFUL CURSE

ROBERT LISHMAN MEETS A TRAGIC DEATH. Is Tossed Over a Fence by Animal, Breaking His Neck—Was an Old Kamaaina.

Robert Lishman, a well known contractor and builder, and an old kamaaina of this city, met death in a tragic manner yesterday afternoon by being tossed over a fence by a Jersey bull which he was attempting to thrash with a whip.

The bull is kept in a paddock on the Lishman premises at Makiki and during the afternoon attempted to gore George Lishman. The father went out with a whip intending to lash the brute into better subjection. As the bull saw Mr. Lishman approaching it started to walk off but when the man turned to start to climb the fence the brute charged with lowered horns and reached its victim as he was stooping to get between the rails.

Robert Lishman was a little over 71 years of age having been born at Horsely, Northumberland, England on April 17, 1831. He has been a resident of Hawaii for thirty one years coming here from Australia at the request of Kamehameha V to superintend the construction of the Judiciary building.

Besides his widow Mr. Lishman leaves William, Thomas, Percy and George Lishman; Jane Moore, the widow of Robert Moore, Mrs. Isabel Creighton, Margaret Lishman, Mrs. Ross of Hakala and Daisy Lishman. A son, John died many years ago of a fall from his horse. The forty-eighth anniversary of Mr. and Mrs. Lishman was held last month.

Mrs. Creighton being the vice-principal and Miss Daisy Lishman a teacher at the Kaabamunui school the latter will be closed today and the day after tomorrow. Mr. Lishman is said to have been a Mason in England but never affiliated with Hawaiian masonry.

ON THE BUFORD. Among the passengers on the U. S. Army Transport Buford which arrived from Manila yesterday afternoon are Senator Felipe Buencamino, formerly Secretary of War in Aguinaldo's cabinet, now a member of the Philippine Civil Service Commission, who is en route to Washington to discuss the Philippine situation with President Roosevelt and Secretary Root.

SOCIAL SCIENCE CLUB. Frederick Warde addressed the Social Science Club last evening at the residence of Chief Justice and Mrs. Frear on "The Effect of the Drama on Civilization." Mr. Warde's thesis was that the drama was one of the most powerful influences in literature, and therefore its effects on civilization were important.

GOV. DOLE ALL RIGHT. New England has been vindicated. For a year or more the enemies of Gov. Dole of Hawaii have been endeavoring to effect his downfall. His vindication is complete; the "carpet baggers" have been thwarted; the old regime will not be disturbed.—Baltimore Sun.

JURY FAILED IN CUBA. Cuba confesses that the jury system is not adapted to the genius of her people. Juries are Anglo-Saxon peculiarities, and cannot be imposed on the Latins.

BUILDERS AND TRADERS. With the complete organization of the Builders' and Traders' Exchange, having a wider scope than the Master Builders' Association the latter organization has dissolved, merging in the former. The final action on this point was taken at a meeting held yesterday afternoon. The funds and membership of the association became a part of the Exchange. The resolution completing the action was as follows:

"Moved that the Master Builders' Association of the Territory of Hawaii, having merged its identity and interests in the Builders and Traders' Exchange, do now disband, all assets to be turned over to the Builders and Traders' Exchange."

MAY HOLD STOCKER. Attorney General Dole yesterday rendered an opinion, in answer to a question from Acting Governor Cooper, to the effect that the proposed amendment of the charter of the Oahu Railway and Land Company, to allow the company to hold in other corporations, is within the law.

WHEELER ON GUAM

OBSERVATIONS MADE BY "FIGHTING JOE." What He Saw of the Island and Its Nine Thousand Inhabitants While He Was Visiting.

The report of Brigadier-General Joseph Wheeler, U. S. A., on the conditions in Guam, made after his travels over the island after he left the Philippines, contains the following observations:

"I can not learn that the island of Guam has ever been surveyed, but its area may be stated at about 150 square miles, one-half of which, it is estimated, is susceptible of cultivation. Nearly all of the land is still virgin soil, my information being that only about 1 per cent is now under cultivation.

"The population is about 9,000 souls, nearly all of whom reside in the towns. Those who own ranches also have rude houses on them, where the family spends a portion of its time.

"The land which is regarded as arable is very fertile, producing coconuts, oranges, lemons, cacao, rice, corn, tobacco, sugar cane, beans, tomatoes, etc., the coconut trees having an appearance of thrift and bearing power superior to those I have seen in any other part of the Tropics.

"Deer and wild goats are found in abundance, and for years formed the principal meat food of the Europeans (Spaniards). Cows and pigs are also reared. Potatoes, maize, and rice are cultivated, the latter only to a limited extent.

"The only industry of any consequence in the island of Guam is the production and exportation of copra, or dried coconut.

"The price received by natives for copra from traders buying it on the island ranges from \$3 to \$4, Mexican, per hundredweight. These merchants receive about double the above price for the product in Japan. In England copra sells for \$75 per ton, gold.

"The people are very cordial and friendly. At every town we entered we were met by the leading men of the place, at two places with United States flags flying. White flags were hung and other efforts were made by the natives to manifest regard for the Americans. I saw a few people who I was informed were pure Chamorros, and they impressed me very favorably. Their features were regular, their forms erect, and they were in all respects fine physical specimens.

"There is very little money on the island. Wages are very low. The teacher at Umata had a nice school of little children and his pay was only 3 pesos, equal to about \$1.50, gold, per month. I understand that the pay has been, or is about to be, increased to \$5, Mexican, per month.

HAWAIIAN Engineering & Construction Co. Rooms 508, 509, 510 Stangenwald Building. All classes of Engineering work solicited. Examinations, Surveys and Reports made for any class of Waterworks, Steam and Electrical Construction.

are no dry and rainy seasons. It rains nearly every day. The enormous evaporation of the Pacific is condensed in passing over the islands, so that, with winds from every quarter rain is abundant at all periods of the year.

LAUGHED TILL SHE DIED. LOUISVILLE, Ky., May 1.—Miss Catherine Maude Rice, a pretty girl, laughed herself to death. She was visiting some friends when one of them told a funny story. The physician said lesion of the brain was produced by her laughter.

AT NOTRE DAME. Improvements are to be made in the appearance of the campus and grounds surrounding Notre Dame university. A \$10,000 contract for the dredging of the two lakes has been let, and the work is progressing rapidly.

AMERICAN ARTISTS. The society of American artists has recently elected the following officers: President, John La Farge; vice-president, Kenyon Cox; secretary, Henry Prellwitz; treasurer, Samuel Isham; member of board of control, H. Bolton Jones.

SCIATIC RHEUMATISM CURED AFTER FOURTEEN YEARS OF SUFFERING. "I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal., U.S.A. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned."

The Globe-Wernicke Elastic Book Case is a system of units. It is always complete but never bulky—small enough to fit on a shelf or large enough for ten thousand books—never too large or too small, but always just right.

Each unit has a dust-proof glass door, edged with felt. In operation it swings upwards and rests into a space over the books where it is out of the way.

Captain Samuel Johnson will entertain his victorious Company F at a banquet either Thursday or Friday evening of this week in celebration of the capture of the first prize in the competitive drill last Saturday afternoon.

BUILT COOK OBELISK

LATE ROBERT LISMAN WAS CONSTRUCTOR. Was Taken on British Sloop Scout From Honolulu to Kealakekua Bay to Attend to Making Monument.

The unfortunate death of Robert Lisman yesterday will arouse a great deal of interest away from Honolulu. For, indirectly, the British people have good reason to regard him with more than passing notice. He is the man who erected the monument to the memory of Captain Cook at Kealakekua Bay, Hawaii.

Mr. Lisman was a mason and his services were engaged by the British to construct the monument to the discoverer of these islands. The monument was erected about twenty years ago. After that time, the British transited Venus party was here, taking chronological observations. One of the stations was at Kailua, another at Honolulu and a third on Kauai.

Mr. Lisman was taken on the sloop Scout from Honolulu over to Kealakekua Bay by the British and there took charge of the construction of the Cook monument. The obelisk was constructed of concrete. At that time, the station and chain were not set up, Mr. Lisman had nothing to do with that work. They were later put up by Lieutenant Robinson of the British sloop of war Tench.

William G. Brash of the Wilder & S. Company, remembers the circumstances well. He was running as purser on the old Klaua. He was also on the vessel at the time she encountered the famous submarine flow off Keel point. The Klaua spoke the sloop Tench as she lay by the British and there took the sloop reached Keel point however, the flow had subsided. Mr. Brash thinks that the Venus expedition was under command of a Captain Topman. After completing the monument to Captain Cook, Mr. Lisman returned to Honolulu.

PING PONG

The steamer's ropes were hardly down. When I called up to tourist Brown: "What's the news from London town?" And he answered with a frown: "Ping-Pong! Ping-Pong!" "How about the Parliament? Are the Liberals content? Is Chamberlain as eloquent?" And he thundered (violent): "Ping-Pong! Ping-Pong!" "Tut! tut!" says I. "there's something more: News of important, I'm sure; How about the wily Boer?" And the dock took up his roar: "Ping-Pong! Ping-Pong!" The name was ringing through my brain, but still I thought I'd try again: "How about King Edward's reign?" And he shrieked (almost profane): "Ping-Pong! Ping-Pong!" "That's all the news" (he frowned severe) "From Kentish town to Wandsworth pier; It's all you see and all you hear:— And then Brown whooped it in my ear: "Ping-Pong! Ping-Pong!"
