## BEAUTIFUL IF BIZARRE

### The Biggest And Best Street Parade Ever Made By Honolulu Mystic Shriners

The annual parade of the nobles and novices of Aloha Temple of the Order of the Mystic Shrine which took place this afternoon was the most successful ever held. There was a tremendous crowd on the streets to witness the discomfiture of the candidates many of whom were dressed in curious costumes and placarded with local hits which caused laughter all along the line.

The parade started from the Knights of Pythias hall practically on time and was greeted with laughter and cheers as it came down Fort street, then turning into King and up to the Executive building. Some of the candidates seemed to actually enjoy their predicament, while others would rather have been anywhere but in the line.

Featuring the occasion were the two animals imported from the Coast. The elephant and camel were indeed natural and caused great joy among the children who were present in large numbers and many of whom had never seen these foreign beasts outside of their school books. The other stunts were many and good.

Harry Denison, of the railroad company, whose hobby has been the quick handling of freight from the warehouses to the steamers, was in line, pushing a patent automatic sugar conveyor, with placards announcing, "I'm building a warehouse," and "All My Work."

J. F. Child, the manager of the grocery department of T. H. Davies & Co., found himself in a strange predicament, as he was selected to advertise the grocery business of Hackfeld & Co. He carried a couple of Chinese baskets appropriately filled and wore signs telling everyone that H. Hackfeld & Co. had the best groceries in town and that it was the only place to buy and get good returns for the money.

Roscoe Perkins, the local photographer, was there with the goods. A toy automobile, representing the small one in which he is seen around the streets, was furnished for him, labeled, "This Auto Is One-Mule Power." He also carried signs notifying people that "A Deposit Is Required Before Sitting."

"Billy" Campbell of Hilo and A. H. Junglausa were the observed of all observers. The shapely forms in the costume of circus riders clad in tights made a great hit, as they rode through

the streets mounted on monster neighborhood steeds. It was stated that the trip across the hot sand was one which could not be accomplished on horseback, however, and their time of trouble comes during the afternoon.

Another feature of the parade which called forth plenty of fun was the trouble of R. H. Hemrose, of the local custom house. The recent addition to his family evidently suggested the baby carriage which he was wheeling and which contained a most beautiful rag baby. The carriage was labeled, "Ain't it awful, Mabel," while Hemrose bore on his back that saying of a proud papa, "Ask Me About It."

The following candidates were as follows: Harry Denison, John Kidwell, R. H. Hemrose, J. L. Young, John Deter, R. C. Lydecker, A. J. Spitzer, J. F. Child, C. E. Wright, E. N. Holmes, A. Menefoglio, Roscoe Perkins, W. D. Lowell, T. M. Church, John Clark, Jorgen Jorgenson, D. Capliss, D. W. Anderson, A. H. Junglausa, C. L. Bosson, A. C. Wall, Henry Beckley, P. I. Cleghorn, Bernard Wagner, J. A. Young, Captain Sanders, W. J. Clark, W. H. Campbell.

George Filmer, Past Potentate of Islam Temple of San Francisco, and Dr. Grossman, Past Potentate of Aloha Temple, were the guests of honor. Seated in a superbly decorated carriage they rode through the line with a spirited team of novices in the place of horses. Everywhere they were cheered as they passed. The candidates were most statefully dressed, hula skirts being the costumes for the occasion and some appearing to be quite at home in this garb.

The nobles of the local temple, in the customary full dress, with the fez of Shrinedom, marched in their usual dignity, each carrying a Japanese parasol, adding a touch of gaiety to the solemnity of the black clothes.

After the parade the nobles and their victims went into the K. of P. hall, where all was in readiness for the initiation. The walls of the hall are decorated with cartoons, drawn for the occasion by Tom Sharp, which are sure to be the objects of much rivalry among the members who will wish them for souvenirs. C. G. Bockus of the Bulletin appears in customary guise, with a tennis racket in one hand and the other vainly trying to drive away a most ferocious look-

## BIG BUGS TO COAST

P. M. S. S. Mongolia is not likely to sail for San Francisco before 10 o'clock tomorrow morning, according to the statement of her agents here, H. Hackfeld & Co.

When she does sail she will take away one of the most distinguished and significant lot of people which has ever gone out of here.

In the first place Queen Lilinokalani sails for San Francisco en route to Washington, where, it is said, she will press her claims in regard to reimbursement for loss of lands.

Prince Jonah Kūhiō Kalanianoʻole, Hawaii's re-elected delegate to Congress, will also be a passenger.

A number of contractors who came down here with the purpose of making soundings in Pearl Harbor with a view to bidding on the work of dredging will be returned to the mainland in the Mongolia to get in their bids at Washington in time for the opening of the bids on the first of December. With these gentlemen there goes to the United States mainland W. H. Hoogs of this city who is interested in the Pearl Harbor bids.

Sybil, the psychic, whose real name is Mrs. Minnie Deems, who came down here in the Siberia, returns to the coast.

Captain Holmes and Captain Madson are home-returns and, as will be observed by a perusal of the passenger list elsewhere published, numerous others of importance and interest to the community intend tomorrow to take their departure.

The Republican Committee of the County of Hawaii endorsed Attorney W. H. Smith for Circuit Judge of the Fourth Circuit on Monday evening. Mr. Smith had no knowledge that such courtesy was contemplated.—Hawaii Herald.

ing call, which seems bound to interfere with the game.

R. W. Breckons, with a "vile cigar" in one hand, appears very carefully cartooned, while below is a small, but very black whiskered individual, who carries a scroll in one hand bearing the following legend:

"Mr. Bonaparte, this is a BAD, BAD, MAN. Please tie him up won't you? Yours in the Faith.—THWING."

James S. McCandless, in habitual grin in another cartoon, is giving his good advice to those around him in the well known adage, "Smile, damn you, smile." Potentate E. C. Brown, fully equipped with the instruments of torture which are in readiness for this afternoon, is cartooned in the very best of humor, awaiting the time for the sacrifices to commence with a lean and hungry looking goat standing at his side and a brisk fire ready for the first novice to venture his way.

The order of parade was as follows: Hawaiian band, Illustrious Potentate Edward C. Brown, followed by the Chief Rabbi, Assistant Rabbi, High Priest, Oriental Guide, Marshal, Director, Alchemists, Standard Bearer, Camel, Assistant Director, Past Potentates, Elephant, Assistant Director, Nobles by twos, Ceremonial Masters, Arab Patrol, Policemen, Novices and more Policemen, Fire Extinguishers.

#### BREAD AND PASTRY.

The Alexander Young Cafe serves bread and pastry that cannot be equaled in Honolulu. Home-made, clean, delicious.

#### CHILDREN IN THE HOME.

Small children are always a source of anxiety to parents. Coughs, colds, croup and whooping cough attack the little ones and serious illness results almost before they are aware of it. One trial of Chamberlain's Cough Remedy for these troubles will prove its efficiency and give it a place in the home ever after. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

#### SACHS' DOLL CONTEST.

There will be a Doll Contest at Sachs' beginning this Saturday. See dolls in Millinery Window.

The place to have your Typewriters and machines repaired is at Wall, Nichols Co., Ltd. Fort and Merchant streets. Telephone 10.

## HARR'S REPORT ON BRECKONS

INDICATIONS THAT THE FEDERAL INVESTIGATOR SUSTAINS THE DISTRICT ATTORNEY AGAINST CHARGES BROUGHT BY REV. E. W. THWING—INVESTIGATION COMPLETE BUT HARR DECLINES TO MAKE ANY STATEMENT REGARDING HIS CONCLUSIONS.

While Special Attorney Harr, sent to this city to investigate the charges made against U. S. District Attorney Breckons by E. W. Thwing, refuses to make any statement in regard to his report for publication the general opinion, and one which has the strongest of backing is that the charges have been found to be groundless. In cases where the matters have looked on the surface as though there might be some foundation in fact it is stated by witnesses whom Mr. Harr has interviewed that the matters have been settled.

One man, whom Thwing quoted in a very strong manner as saying that he believed Breckons was crooked, told a Star reporter this morning that he had been seen by Mr. Harr and questioned. He was very indignant over the matter. He mentioned a certain statement which Thwing quoted him as making in the charges and said that he had given Mr. Harr a written letter stating that the words so attributed to him were a complete fabrication from beginning to end.

Other witnesses whom Mr. Harr had seen turned out to have given no testimony of any kind against Mr. Breckons, but to have simply made statements to the effect that if certain things which the charges accused Mr. Breckons of were true he should be removed. This idea was changed in the charges to say that the men in question believed that the charges were true.

The statement made by Thwing to reporters in which he asserted that the Governor's office leaked, is given as an instance of the manner in which Mr. Thwing brought accusations. In this case, upon his belief, which turned out to be entirely incorrect, he accused Chief Clerk Conkling, Secretary Mott-Smith, Governor Frear, or some subordinate of an offense which would certainly have caused the removal of any clerk in the office and of much trouble for any official.

Mr. Breckons absolutely refuses to say anything. He states that the matter is in the hands of the department and that he has nothing to talk of till he has heard from Washington. When seen this morning Mr. Harr said: "No, I am unable to give you any information in regard to my report. I have finished the investigation and leave on the steamer tomorrow. My report is not yet written. I shall probably spend a week or so in San Francisco where this work will be done and the report will then be forwarded to Washington, as I shall not go directly there myself."

"You wish to know about that article in the Advertiser this morning? In regard to its truth. I cannot say, as I have not been in Washington enough of late to know what feeling exists. About the local feeling, and the idea expressed that the sentiment in this city is entirely against Mr. Breckons? No I cannot say that I have found that to be the case in this city. There is naturally a division of opinion and the feeling has not appeared to me to be by any means unanimous against Mr. Breckons."

The street talk this morning was as spoken of above, in a very widely spread report to the effect that Breckons was exonerated completely in the opinion of the investigator. Some of the charges were so ridiculous as to be dropped from consideration without delay. If the truth of the fact that Breckons smokes cigarettes would mean that he should be removed there would be a general cleaning up of the heads of practically all the Territorial departments.

One charge was that in the Whitin divorce suit Breckons, who represented the husband, and E. A. Douthitt, who represented the wife, were in collusion. The libel was brought by the wife on charges of habitual intemperance. Those who knew the couple, and they were very well known in this city, were perfectly aware of the truth of this charge and of many others which might have been made. There was not the slightest necessity of collusion, for on the showing made by the libellant a divorce was certain to be granted by the judge sitting in the case.

Again it was charged that Douthitt, when County Attorney, stole propped criminal cases at the request of Breckons. This is characterized by both Douthitt and his deputies at that time as an unqualified malicious and false statement. Many of the other charges have been absolutely unsupported by witnesses here while many of the matters called in question were acted on only after consultation with Washington, a fact which Rev. E. W. Thwing was not and probably is not cognizant of, as the records and private correspondence of the District Attorney's office were not open to his perusal.

## VOLUNTEERS TAKE HOLD OF PROSECUTION

(Associated Press Cable to The Star.)

SAN FRANCISCO, November 14.—Francis J. Heney, prosecuting the cases of graft against Schmitz and Ruef, who was shot in court yesterday afternoon by Morris Haas, a Jewish saloonkeeper exposed at the first Ruef trial as an ex-convict and later barred as a jurymen, is improving and it is not expected that any serious complications will ensue.

#### CAN'T FIND THE BULLET.

This morning the doctors attending Heney took two X-ray photographs of the head of the wounded prosecutor with a view to locating the bullet, but it was impossible to locate the leaden pellet which yesterday was thought to have passed under the right ear, although it did not penetrate the brain.

#### TRIAL PROCEEDS MONDAY.

The trial of Abe Ruef, on charges of graft, in spite of the shooting of Prosecutor Heney, will proceed on Monday morning.

#### VOLUNTEER ASSISTANCE.

Leading attorneys of this city, sympathizing with Prosecutor Heney, today volunteered to assist the prosecution of the graft cases in every possible way.

#### ROOSEVELT SENDS SYMPATHY.

President Roosevelt today telegraphed his sympathy to Prosecutor Heney in regard to his sensational shooting in court of yesterday.

#### RENEWED DETERMINATION.

The graft cases will be prosecuted with renewed determination, in spite of the shooting of Heney in court yesterday afternoon.

# THE WILL OF LATE MRS. S. PARKER

The will of Mrs. Abigail Campbell Parker, who died two weeks ago in this city, was filed for probate yesterday. Col. Samuel Parker, the husband of the deceased, is left an annuity for life consisting of \$3000, which shall be stopped at any time that he may become a bankrupt, but will be renewed if he shall be discharged from bankruptcy. The annuity will cease if he shall assign or encumber in any way.

The main part of the estate is left in trust to the Hawaiian Trust Company and the two daughters, Muriel and Beatrice Campbell, the Tantalus and Peninsular residences to be maintained till the death of the last grandchild or on a written agreement by all the children and grandchildren that they do not wish them longer as residences. Upon the death of the last of the children the estate, subject to such trusts as are indicated, is to be divided evenly among the grandchildren.

In the meantime the income from the estate is to be divided in five parts. One of these goes to Princess Kawananakoa and to her children till the last of them shall die, one-fifth each to Muriel and Mary Beatrice Campbell and the remaining fifth to the children of Alice Macfarlane until the death of the last surviving child of the testatrix.

Numerous bequests of jewelry are made to the children and considerable jewelry is left to Princess Kawananakoa. The daughter Muriel is given the Emma street home, and Mary Beatrice is given furniture, silverware, horses and carriages belonging to the deceased, with the exception of that in the Peninsular and Tantalus homes.

The inventory of the estate set out in the petition gives the real estate as \$41,985.32; cash, \$500.98; bills receivable, \$64,390; open accounts, \$70,979.37; personal property, \$6636.71; bonds, \$191,607.06. Among the bonds are included bonds of the Kohala Ditch Company.

# WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED NOVEMBER 7, 1908.

Honolulu, November 9, 1908.

## GENERAL SUMMARY.

Lower mean temperatures than during the preceding week were reported from all stations on Oahu and Molokai and generally from Maui and Kauai, with changes generally between 1.2 deg. and 3.3 deg. On Hawaii the mean temperatures were generally slightly higher, the greatest changes occurring in the Kona, northern Kau and the southern portions of the Puna and Hamakua districts, and ranged from 1.1 deg. to 2.4 deg.

The rainfall was light and below the average at all stations in the section. The deficiencies, in inches, as compared with the average of ten or more years, in the several districts were: Hawaii—Kohala 0.52 to 0.76, Hamakua 0.45 to 1.24, Hilo 0.07 to 1.77, Kau 1.04 to 1.52, Kona 0.73; Maui—Hamakualoa 0.94; Oahu 0.63 to 0.95; and Kauai—Waimea 0.58 and Kona and Koolau 1.24 to 1.29.

The greatest amounts of rainfall were reported from the Koolau and Hamakualoa districts of Maui, and ranged from 1.74 to 3.83

There was less rainfall than during the preceding week at all stations on Kauai, and at one-half of the stations on Hawaii. There was more rain than during the previous week at the majority of stations on Oahu and Maui. The differences in the several districts were: Hawaii—0.20 to +0.15, Hamakua—0.70 to +0.86, Hilo—1.45 to +1.59, Puna +0.67 to +1.57, Kau—0.15 to +0.32, and Kona—0.30 to 0.32; Maui—Koolau +0.80 to +3.08, Hamakualoa—0.12, Hamakualapoko +0.58, and Wailuku +0.30 to +0.37; Oahu—Koolauapoko +0.25 to +0.68, and the remaining districts 0.00 to +0.07; Kauai—Koolau, Puna and Kona—1.21 to +1.35, and Waimea—0.34 and +0.35; and Molokai +0.04.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temperature.	Rainfall.
Hawaii	71.8 deg.	1.03 inches.
Maui	72.0 deg.	1.20 inches.
Oahu	73.9 deg.	0.24 inch.
Kauai	71.9 deg.	0.13 inch.
Molokai	75.8 deg.	0.09 inch.

Entire Group..... 72.4 deg. 0.78 inch.

At the local office of the U. S. Weather Bureau in Honolulu generally clear weather obtained, with .06 inch of rainfall on the 7th, .82 less than the normal for the week, and .06 more than during the preceding week. The maximum temperature was 82 deg., and mean 74.6 deg., 1.0 deg. below the normal, and 0.6 deg. lower than last week's. North-easterly winds prevailed, with an average hourly velocity of 7.6 miles. The mean daily relative humidity ranged from 64 per cent to 72 per cent, with a mean of 66.4 per cent for the week. The mean daily barometer ranged from .03 to .09 inch above the normal, and the mean for the week—30.03 inches—was 0.07 above normal.

## BOXER BILL PAPKE GOES TO PRISON

SAN FRANCISCO, November 7.—Billy Papke, his manager, Tom Jones, "Bad Bill" Aldridge and several friends took a holiday yesterday and visited the prison at San Quentin. When Papke's presence was noised about among the prisoners they showed a deal of interest in the champion and many eager eyes looked admiringly at the middle weight champion.

Papke passed around among the prisoners and his kindly, genial manner made a great hit with them. After returning from San Quentin Billy took a walk around the hills of San Rafael and last night he reported that he had picked up a couple of pounds during the day.

Papke reports that the San Rafael climate is agreeable to him and is loud in his praise of Shannon's as a training quarters. He is a great pedestrian and the fine roads and hills of Marin county afford the champion a great field in which to indulge his favorite pastime.

The "Thunderbolt" said yesterday that he would not begin active training until Monday. "I will box Sunday, of course," said he "if there is a sufficient number of fight fans on hand to justify it. The bouts, of course, will be merely in the nature of

light exhibition, as I will not tear right into the real hard grind until later in my training."

Papke need have little worry about the San Francisco fans wishing to see him. There is more curiosity expressed among the followers of pugilism about the conqueror of Ketchel than about any fighter who has trained here for a long time.

The very convincing manner in which Papke disposed of Ketchel in Los Angeles makes him a great figure in the eyes of pugilistic fans, and all indications seem to lead to the conclusion that when Papke dons the mitts with his sparring partners for a workout at Shannon's Sunday afternoon the capacity of the gymnasium will be fully tested.

It has been a long time since a fighter with the pleasing personality that Papke possesses has been seen here. Billy is simply brimful of good humor and boyish enthusiasm and all the fans that have seen him so far have taken very kindly to the champion. The more the fans see of Papke the more they are certain to like him, for he is a modest, good natured chap with none of the fads and fancies which some other fighters affect and which lessen their popularity in the eyes of the followers of the game.

Punahou, yesterday afternoon played another tie game, neither side scoring.

There will be a grand ball at Lustana Hall tonight, corner Alapai and Luaniolo streets, given by the A Patria baseball team of the Luso league. Music will be furnished by Ernest Kaal.

Seaton, who arrived in town in the Alameda yesterday, and is walking around the world, expecting to leave here in the Aorangi, will talk on his trip and give an Indian club exhibition at the Y. M. C. A. this evening.

The Kalihl Athletic Club base ball team will play the Walleles again tomorrow afternoon at 2:30 at Kapoian Park. The Walleles are now picking up players who have played in other teams and expect to beat the Kalihls. Louis Soares of the H. A. C. team is now catching for them. These two teams are now playing for a cup, best two out of three games. The Kalihls won the first game last Sunday. It is understood Barney Joy will be in the box for the Waterfalls.

The first eleven of the High School and Punahou this afternoon give a second show of intercollegiate football. The game will start at 3:30 on the Alexander field. The line-up will be:

Funahou. Position. High School  
Hoogs. L.E. Achien, Ingalls

## GARAGE GOSSIP

(From Pacific Weekly.)

There is some talk of a hill-climbing contest between a Stearns and a Kissel Kar.

A Buick and a Chalmers-Detroit car had a brush the other night on the Walkiki road over which several dollars changed hands. Tom Quinn was joshing Willie Myers about his new car and out of that the race developed. Henry Lewis drove the Chalmers-Detroit car and got to the winning point first. Tom says that he was stung. He drove the Buick.

The von Hamm-Young Co. will shortly receive a Cadillac "30" demonstrator, and a carload of these popular cars will follow. This car lists at \$1,400 and is the highest grade machine manufactured at the price.

Chauffeur Behn has purchased a seven-passenger Stoddard-Dayton from the von Hamm-Young Co.

E. H. Lewis of the Auto-Livery Co. expects to receive two swell Franklin cars to be used in the rent service, at the latter part of this month.

E. H. Lewis of the Auto-Livery Co. is sending two cars to Hilo where he will shortly install the first rent service on the island of Hawaii.

Proprietor Peter of the Territorial Messenger Service has made an interesting proposition to the Automobile Club. For a small monthly remuneration he offers to police the principal streets of the town and su-

## COUPONS

"A good trade has a golden bottom." Boys, try to recollect.

Apologies of Queen Lilikalan's mortgage of splendid estate for \$10,000, we could but think of the hymn: "I was a wandering child, I would not be controlled" (advised).

If Sheriff Henry had been measured, and fitted by Merchant street Martin he could not fit the Prison niche better than he does. And we all know what fine fits Mr. Martin makes; and we can but hope, too, he gives fits, whenever his patrons do not walk up and pay their little L. O. U. S.

But as the tailor has never intimated a word on the subject of bills, we suppose they all do (and nothing due) and that is why his bank account grows so fast.

Whenever we visit the Prison, so far as the coolness and the perfect air of cleanliness are concerned, we really feel that we would like to stop there longer time much longer (not a full term) than we do or can. We have not, as yet, tried the menu; but whenever we have looked into the kitchen, it far and beyond beats any restaurant, even the Union Grill, in order and nicety of appointment; and, as for the hospital corner, why the windows and all were really pretty; and why shouldn't they be, now? L. O. Boyd was in charge and we told him, he had made an entire success of the room to our mind and was in his right place, and so we gave Sheriff Henry credit, for his usual discernment in assigning prisoners to their right vocation, so far as may be, under the limited conditions. It is a great gift in any position to have the grace (the wit) not to cause friction.

Now, we are reminded of that mighty and wise King Edward VII whose natal day has but just been hailed with delight and salves of praise around the entire globe; his majesty seems not only to have a sixth sense at all crises but, really, second sight, mentally.

What a grasp of intellect that can not only adjust, and keep perfect balance, in his own extensive domains, "on which the sun never sets," but can also mediate and settle wars—make and keep peace, for his neighboring nations.

With all his multitudinous calls, royalty can still find time to patronize the drama and art and science in every form—even commanding men of fame and note to come to him, that he may, personally, show to them marked love and kindness! What a wonderful king and what a sweet dear queen! Oh, my, it all makes me draw a long breath when I read of their doings—and I might write of them all the night and not tell the half in my mind, of them. And so, as we say, we are glad of Henry's reappointment for four years longer. We shall not grow many Henrys of his make (fit) in Hawaii.

A batch has been perfected and brought to finish in letting Hughes "slip up" on the Senate, but it must be all for the best in some way. If we have uncommon faith we are glad, for we do see good come out of seeming evil often and that is because mortals can see only a little way, on a long line, recollect.

Almighty God only can see to the end as He orders all things or permits them to be, at all rates. It is only the "peace of God" that can keep one equable and poised under trials of any sort; and, while pastors and people talk much about the "peace of God" on Sundays and Saints' days, very few, comparatively, seem to carry it about with them.

Chas. Atherton for instance, (Mr. Steiner never frets), Mr. Bowen, Westervelt, Dr. Cofer, Sinclair, Moore, (Sanford and Mrs.) Prof. Alexander, Thrum, Artist Wilder, Hitchcock, Fr. Stephen, Bp. Libert, Fr. Clement, Pratt, Mossman, Engineer Brown, A. Waterhouse, Carden, Camp, Humphris, Wood, (2), Henry Smith, Rev. Potwine and dozens of others; take the "care-taker" of C. U., Townsend, caretaker of the dead, Axtell and the rest, all tell of "peace," so it seems to us. And we must have and try strive to keep this "peace of God."

Now, there's dear Dr. Scudder, oh yes! he wants all creation to come in and take a seat, and yet when we went

burbs, removing therefrom broken glass, horseshoe nails, scrap metal and other objects likely to endanger tires. Reports made by "phone or personally to Peter of the presence of obstacles dangerous to tires in any street will result in a boy being immediately dispatched with orders to remove same. Peter is prepared to use eight boys and an auto-cycle to the work, should his proposition be taken up and the auto-cycle would make a circuit of the principal streets every morning between the hours of 8 and 11. The scheme seems to be an excellent one and is very likely to be availed of by the club, for it would appear to solve the vexing problem of how to keep the roads clear of tire enemies at a moderate cost.

The Associated Garage received by the S. S. Alameda yesterday a Chalmers-Detroit "40" for Dr. Dinegar, and a "30" car of the same make for stock purposes.

in to hear Mr. Jackson, had to look hard for a seat.  
St. Mary's packed at 9 in the morning—and so there you are.

Mr. Webb sharpened our old Palace knife until it is almost akin to a Damascus blade. It might "cut a hair;" we haven't tried only bread and (beer) meat we would say.

But, we have tried and swallowed May's fresh raisins, and easy to swallow.

### AN INQUIRY ANSWERED.

A gentleman at Bembest, Rhodesia, writes to inquire where Chamberlain's Cough Remedy can be procured. He says he has learned of the good effects resulting from its use, and as children in that locality are often subject to coughs, he desired to give it a trial. This remedy may be procured from any store or chemist. For coughs, colds and croup there is nothing better, and as it contains no injurious substance it can be given to the smallest child with perfect security. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

## THE SHOOTING OF HENEY.

The shooting of Prosecutor Henev in San Francisco probably seals the fate of Abe Ruef, Schmidt and possibly some of the higher ups against whom Henev and his associates have waged their fight for so many months. It puts San Francisco in the limelight again before all the nation. The extraordinary graft exposures came soon after the terrible earthquake and fire, and then began a battle which, true to the traditions of western strenuousness, is probably the most strenuous of all the recent American municipal fights of the kind,—and there have been many.

It is contrary to the theory of the law and justice that the shooting of Henev in a courtroom should have any influence on the verdict of juries as to the guilt or innocence of graft defendants, but the practical effect will be none the less strong. San Francisco has been torn by the graft warfare to the limit of endurance. Business and social relations have been disrupted and names long held in honor have been dragged in the dust. During recent months a rising tide of popular resentment against some of the methods of the prosecutors,—the use of immunity contracts and seeming grinding of private axes,—has greatly weakened the prosecution. Henev and associates have repeatedly charged that they were shadowed by thugs, that the court itself was full of armed desperate men ready to do anything in the aid of the cause of the desperate higher-ups, but the other side, through some of the daily papers and nearly all of the weeklies ridiculed such statements with withering effect. Even the dynamiting of the house of a principal witness didn't turn the tide. But the attempt to assassinate Henev in court will do it. It will shut the ridicule down, as the assassination of McKinley by Szolgosch abruptly stopped the floodgates of abuse of the Republican administration years ago. It will be remembered then that the Hearst papers were boycotted and by many people held responsible for the assassination, because of the terrible severity with which they had denounced McKinley. Hearst's San Francisco paper,—Henev's bitterest assailant,—seems to be in something like the same unfortunate position once again. The more intelligent people know of course that there is nothing that could have happened to aid the graft prosecution more than this shooting. But in the public mind there will be an ineradicable impression that the deed was aimed against the prosecution, not against Henev, hence the man who shot at Henev yesterday has really hit Ruef, Schmidt and the higher-ups.

## GOLD BRICK GRAIN.

Some time ago mainland farmers were excited over the "discovery" of a variety of wheat growing wild in Alaska, which was extensively advertised as capable of yielding at the rate of 200 bushels to the acre "under ordinary soil conditions" and even better "under extra conditions." The Bureau of Plant Industry, Department of Agriculture, investigated the "Alaska" wheat and found it somewhat of "a gold brick" character. An official statement says:

This type of wheat has been known for many years both in this country and in Europe. It has been tried at several State experiment stations in the western part of the United States during the past fifteen years, but nowhere have the yields been high enough to merit attention. The wheat has been grown to a very limited extent on certain heavy undrained soils in France for many years. In such locations it is said to yield rather better than ordinary wheat, but as it is one of the poorest wheats known for making flour it is never grown where ordinary varieties of wheat will thrive.

By this investigation and prompt action to suppress a fraud on the farmers the Department of Agriculture furnishes evidence of one of the ways in which it returns value to the country for what its maintenance costs.

The Hetchy Hetchy water supply project, which San Francisco adopted in a special election last Thursday, involves an expenditure estimated at \$40,000,000 for securing a water supply for the city. The preliminary proposal was for bonds for six hundred thousand, with which to acquire rights, but the whole plan involves engineering and other work placed at forty millions, which means, as the Argonaut points out, that the total will be a great deal more than that, for public enterprises of this sort, seldom reach completion within the financial limits of the estimates.

Bread will probably be dearer the world over the coming year. World experts predict, however, higher prices of all commodities, which means that the industrious will have more money to buy bread. There is a shortage in the European wheat crop this year, estimated all the way from 18 to 38 million bushels. The American farmer is profiting by an enhanced European demand, the wheat exports for fifteen weeks ending October 8 having been 57,764,789 bushels, against 53,745,814 bushels in the corresponding period last year. Corn exports for the eight weeks stated were only one-twentieth part of what they were for the same period last year. Probably this signifies increased prosperity in the American animal industry, as a large proportion of the corn crop annually goes to fatten meat stock for market.

## TAXES PILE UP LARGE

THE HALF YEARLY COLLECTION TO LAST NIGHT TOTALS MORE THAN \$241,000.

The amount of taxes collected by Tax Assessor Wilder up to last night total \$241,329.30 or \$20,000 more than

was collected up to the night of November 15 last year. In fact the figures to be obtained in the tax office show that up to the night of November 13 last year there was but \$159,563.68 collected, that is the collections for the corresponding number of days in the months of November were \$85,000 more this year than last.

The tax office will be open till 9 o'clock tonight, this being the last opportunity to pay taxes for the second half of the year without the addition of the ten per cent penalty.

Grand Ball at Lusitana Hall tonight. Music furnished by Ernest Kaal. Tickets 50 cents, admit gent. and ladies.

## TEXT OF ROOSEVELT'S THANKSGIVING PROCLAMATION

By the President of the United States of America  
 A PROCLAMATION.

Once again the season is at hand when, according to the ancient custom of our people, it becomes the duty of the President to appoint a day of prayer and of Thanksgiving to God.

Year by year this nation grows in strength and worldly power. During the century and a quarter that has elapsed since our entry into the circle of independent peoples we have grown and prospered in material things to a degree never known before, and not now known in any other country. The thirteen colonies which struggled along the seacoast of the Atlantic and were hemmed in but a few miles west of tidewater by the Indian-haunted wilderness have been transformed into the mightiest republic which the world has ever seen. Its domains stretch across the continent from one to the other of the two greatest oceans, and it exercises dominion alike in the arctic and tropic realms. The growth in wealth and population has suppressed even the growth in territory. Nowhere else in the world is the average of individual comfort and material well-being as high as in our fortunate land.

For the very reason that in material well-being we have thus abounded we owe it to the Almighty to show equal progress in moral and spiritual things. With a nation, as with the individuals who make up a nation, material well-being is an indispensable foundation. But the foundation avails nothing by itself. That life is wasted, and worse than wasted, which is spent in piling, heap upon heap, those things which minister merely to the pleasure of the body and to the power that rests only on wealth. Upon material well-being as a foundation must be raised the structure of the lofty life of the spirit if this nation is properly to fulfill its great mission and to accomplish all that we so ardently hope and desire. The things of the body are good; the things of the intellect better; but best of all are the things of the soul; for, in the nation as in the individual, in the long run it is character that counts. Let us, therefore, as a people set our faces resolutely against evil, and with broad charity, with kindness and good will toward all men, but with unflinching determination to smite down wrong, strive with all the strength that is given us for righteousness in public and in private life.

Now, therefore, I, Theodore Roosevelt, President of the United States, do set apart Thursday, the 26th day of November next, as a day of general thanksgiving and prayer, and on that day I recommend that the people shall cease from their daily work, and, in their homes or in their churches, meet devoutly to thank the Almighty for the many and great blessings they have received in the past, and to pray that they may be given the strength so to order their lives as to deserve a continuation of these blessings in the future.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this thirty-first day of October in the year of our Lord one thousand nine hundred and eight and of the independence of the United States the one hundred and thirty-third.  
 THEODORE ROOSEVELT.

By the President:  
 Alvey A. Adee,  
 Acting Secretary of State.

## MAINLAND PRESS ON HAWAII

The fiscal year ending June was well combined to make the experience record for Hawaii, both in respect to the most awe-inspiring and tremendous amount of domestic merchandise imported from the United States (if it is permissible to dissociate the two countries) and that shipped from the islands here. The value of the products sent to Hawaii from this country was \$14,638,117, which was about three millions more than in the year ending in 1906, while the shipments from the island lumped from \$26,850,463 in the twelve months ending two years ago to \$41,595,708 for the past fiscal year. This is a happy showing and one which promises a good future for the islands. While the two principal products which Hawaiians send here are pineapples and sugar, they take from us every thing from a toothpick to a steam engine.—Brooklyn Standard Union.

The most severe earthquake that has occurred in the Hawaiian Islands since 1868 was witnessed by Dr. J. H. Dawson, a scientific man, now living at Upland, Cal., who returned on the steamer Alameda, accompanied by his wife and party. Dr. Dawson was making an excursion into the crater of the volcano on September 19th and had descended to the base of the mountain when the temblor took place. "The lava had risen in the inner crater," said Dr. Dawson, "and threatened to overflow the wall. We had been camping near the edge of the Halemaumau or Lake of Fire, the immense hollow in the corner of the old crater inside the mountain. This is like a great well, with almost perpendicular walls, 900 feet in circumference and 250 feet deep. The sound of the boiling lava, like the intensified roar of the sea in a storm, and the frequent loud explosions, the seething fire alternating from deep, dull red to white and violet lightning-like flashes and the huge masses of molten lava thrown hundreds of feet into the air.

"The lava had risen in the inner crater," said Dr. Dawson, "and threatened to overflow the wall. We had been camping near the edge of the Halemaumau or Lake of Fire, the immense hollow in the corner of the old crater inside the mountain. This is like a great well, with almost perpendicular walls, 900 feet in circumference and 250 feet deep. The sound of the boiling lava, like the intensified roar of the sea in a storm, and the frequent loud explosions, the seething fire alternating from deep, dull red to white and violet lightning-like flashes and the huge masses of molten lava thrown hundreds of feet into the air.

"The vastness of the spectacle in the inner lava lake will remain a wonderful memory and one having seen it can readily understand the natives' reverence for it. Here, in this mountain, the natives believed there dwelt the goddess of fire, Pele, and even to this day in spite of the belief in Christianity, which is general in the islands now, they sacrifice living animals in the boiling crater to the deity of their ancestors. In former times living human beings were offered up as sacrifices.—Oroville (Cal.) Register.

TIES FROM HAWAII

A sawmill, which will undoubtedly be one of the largest in the world for cutting railroad ties, is being constructed on the island of Hawaii by a company which has a contract to furnish 1,000,000 ties a year to an American railroad. It is expected that the mill, which is located near the Kilauea volcano, will turn out 100,000 feet of ties per day. Four ties will be sawed at a time, while additional saws will take the surplus timber and convert it into lumber.—Jackson (Mich.) Patriot.

Prof. C. H. Hitchcock has gone to Hawaii to complete his book upon the Hawaiian volcanoes. Kilauea was never in better condition for study. The great pit is filling up, and when the hydrostatic pressure of the column is too great to be maintained in its place the lava will escape into some unseen subterranean cavern.—Washington Times.

Americans in Hawaii are expressing alarm at the birth rate of the Japanese in the islands. According to statistics compiled by the Territorial board of health for the year ended June 30, the number of Japanese births was 2,445, while only 126 American children were born during the same period. The total number of births was 4,593, including 674 native Hawaiians, 338 Chinese, and 591 Portuguese, the Orient furnishing more than 50 per cent of the increase. These orientals, by virtue of their birth on American soil, will be American citizens. As more than half the population of Hawaii is Japanese at the present time, their rapid birth rate means that in about a quarter of a century or less, Hawaii will be practically a Japanese province under the American flag.—Washington Post.

Wireless communication is now kept up between San Francisco and Hawaii, a distance of 2,200 miles, for hours at a time. Hawaii seemed a long way off when annexed but it has become a familiar part of Uncle Sam's territory.—Oshaloosa (La.) Herald.

We take pleasure in extending hearty thanks to Prof. E. V. Wilcox, Director of the Experiment Station at Honolulu, Hawaii, for a package of Bulletins relating to horticultural affairs in that distant and interesting section within the jurisdiction of the United States. They are confined chiefly to tropical productions; the banana, the mango, etc., but are not less welcome on that account. Such fruits have been, and are still, among our large importations, year after year, and it is well that they can be raised within our own limits. The extension of the authority of the United States which has been so wisely done is among the great advancements of modern times. That the influence brought to bear on these new peoples in Hawaii and the Philippines has been for good no one who has looked into affairs can doubt. Already there are great improvements and they cannot fail to be still greater, with wise management such as we have had. So we welcome the extension of our experiment station work, and bid these new peoples God speed in all the arts of peace and in their material improvement and advancement in all that elevates humanity.—National Stockman.

Max Eckart, a kamaaina of Wailuku and formerly a Honolulu watchmaker, returned last Tuesday from a visit of several months to his old home in Germany. He is in excellent health and has gained thirty-one pounds in weight.

MYSTIC MIXTURE  
ON MAUNA KEA

Inter-island Steam Navigation S. S. Mauna Kea this morning arrived from Hilo and way ports. Among her passengers there was quite a combination of mystics. There were numerous generals and lieutenant-commanders and colonels and majors and captains and ensigns of the always militant Salvation Army, a number of priests of the Roman Catholic church, and several novitiates who this evening are to undergo initiation into the mysteries of the Shriners—poor things!

## HARRIS AND JOHNSON.

Mr. and Mrs. Frank B. McStocker and W. W. Harris return to Hilo tomorrow. The Hilo office of the Hawaii Mahogany Lumber Company is closed, the management of its affairs now being in the hands of Sam Johnson at Pahoa. Mr. Harris will go to the mainland for the company, to be away for several months, while Mr. McStocker will return to his old headquarters in Honolulu.—Hawaii Herald.

Mrs. Awana, wife of T. Awana of Makawao, died of dropsy last Wednesday, aged 55 years. She had been a leader among Hawaiians for many years, active in church and Sunday school. Besides a husband she leaves ten children: Mrs. George Groves of Peahi, Mrs. Niles Gmsted of Hana, Mrs. A. F. Taves of Makawao, Mrs. A. J. Taite of Makawao, Mrs. A. E. Carter of Honolulu, Misses Mikahala, Grace and Hannah Awana, and two young sons.

A coroner's jury found that Lum Quan, a Chinese aged 39 whose body was found in the Kilauea reservoir on Paia plantation, died of heart disease. It is supposed his heart stopped action as he was about to take a drink of water. He was an opium fiend and somewhat demented.

"I Am Glad To Write My Endorsement Of The Great Remedy Pe-ru-na. I Do So Most Heartily."  
Julia Marlowe.

ANY remedy that benefits digestion strengthens the nerves. The nerve centers require nutrition. If the digestion is impaired, the nerve centers become anemic, and indigestion is the result.

Peruna is not a nerve nor a stimulant. It benefits the nerves by benefiting digestion.

Peruna frees the stomach of catarrhal congestions and normal digestion is the result.

In other words, Peruna goes to the bottom of the whole difficulty, when the disagreeable symptoms disappear.

Mrs. J. C. Jamison, 61 Marchant street, Watsonville, Cal., writes:

"I was troubled with my stomach for six years. I tried many kinds of medicine, also was treated by three doctors. They said that I had nervous dyspepsia. I was put on a liquid diet for three months.

# SOCIAL EVENTS OF THE WEEK

## "THE FIRST LADY IN THE LAND"

Honolulu will have a musical treat next month which should draw all in the city who care to hear talent of the highest class. Through the energy of Manager W. D. Adams of the Hawaiian Opera House, Miss Katherine Goodson, without doubt the best known pianiste of all Europe, will appear here in one concert which will take place while the Canadian-Australian steamer Makura is in port. This should be on December 8. Miss Goodson has just completed a most successful tour through Australia and New Zealand and should be well received by local music lovers.

The subscription sale of seats will commence on Monday morning at the Bergstrom Music Company. The prices will be as follows: Orchestra, \$2.50; balcony, \$2; gallery, \$1. The tremendous crowd which turned out to hear Kubelik, the wonderful violinist, should be on hand again when Miss Goodson plays.

Past Potentate George Filmer of Islam Temple, San Francisco, has been lavishly entertained while here. Among those who have done honor to the Shriner have been Dr. Grossman, Dr. Cooper, James S. McCandless and E. C. Brown. During the coming week this will be continued. On Monday Mr. Filmer will be the guest of ex-Past Potentate Maudie Phillips at lunch and on Tuesday will be the guest of honor at a dinner given by James S. McCandless.

Mrs. William Jarvis entertained last evening at cards in honor of Miss Lydia McStocker of Honolulu, a niece of Admiral Whiting. Miss McStocker and her mother have been guests of Admiral and Mrs. Whiting for several weeks and have inspired an unceasing procession of pleasure affairs. For a few days Miss McStocker is a guest of Mrs. Jarvis, a friend since school-days, and about a score of young folk of the smart set were asked to meet the visitor last evening and to enjoy a session at the card tables. Mrs. Jarvis' drawing room was beautifully decorated with great clusters of white and yellow chrysanthemums and the dining room was exceedingly attractive with red flowers and greens. Pleasing features of the evening were the piano numbers by Eugene Blanchard, who was most generous with his talents.

Mrs. McStocker and her daughter are to leave for the Island home on Wednesday of next week. Admiral and Mrs. Whiting have been entertaining another niece, Miss Magoon, for some weeks and she has been sharing in the round of complimentary festivities. Mrs. McStocker and her daughter were guests for three weeks in the big house party entertained by Mr. and Mrs. Curtis at their home in Hollister and were also house guests for a very apy visit in the Captain Saunders home in Mill Valley—Oakland Enquirer.

R. A. Perry and wife, who have been stopping at the Moana, will return to San Francisco by the Mongolia.

RENO (Nev.), October 28.—Mrs. Carmen V. Boyd, who secured a divorce in Reno three months ago from her husband, formerly Vice-Consul in China, is to be married again, this time to Henry P. Benson of Fallon, Nev., who secured a marriage license here yesterday. Benson is a wealthy mining man of this State.

The Manchuria brought in a number of distinguished foreigners, some of them merely globe trotters, others on business inclined, and a number government officials en route to or from their posts. Mr. and Mrs. A. A. Wilder of Honolulu are at the St. Francis. Mr. Wilder owns a line of steamers. They are social leaders on the island and their beautiful tropical villa, is the scene of many a gay party for it is seldom a week passes that the Wilders are not entertaining for some distinguished arrival from the States or Europe.—S. F. Call.

Among the Moana guests to leave on the Mongolia for the Coast will be Mr. and Mrs. J. M. Hale, of San Francisco. Mrs. Hale returned from a trip to the Volcano on Saturday, reporting the crater as a most marvelous sight.

Captain and Mrs. Briant Wells, Twenty-ninth United States Infantry, who sailed from here a month ago for Manila, sent word en route of their pleasurable stay at Honolulu and their friends now hear of their safe arrival at their destination. They were accompanied on the trip by Mrs. Jennings of Salt Lake, who is Mrs. Wells' mother, and the three Wells children. Captain and Mrs. Wells reached here a few months ago from Trip McKinley in response to a sad call from their home city, Salt Lake, on account of a death in each family. Both the Wells and Jennings families are well known socially and their homes are among the most attractive in Salt Lake. A number of army friends on this station saw them off the day they sailed, by transport.—S. F. Call.

Among the guests at the Moana Hotel is H. A. Reed of London, who is on his way around the world on a pleasure trip.

WASHINGTON, D. C., Nov. 4.—No woman ever called upon to fill the difficult and exacting position of mistress of the White House was better prepared and equipped for her task than is Mrs. Helen H. Taft, the wife of President-elect Taft. She is a woman of culture and refinement and of many accomplishments, possesses unusual tact, social finish and, above all, a large measure of sound common sense. For a number of years she has lived in Washington as one of the most distinguished women of the official circles and the training which she received during that time will, undoubtedly, prove a great value to her as mistress of the White House.

Personally Mrs. Taft is quite as attractive as she is from an intellectual point of view. She is fair, slender and girlish looking and no one would suspect from her appearance that she has a son old enough to be in college. She is frank and vivacious, unpretentious, and yet possessed of marked dignity of bearing and the self-poise so necessary to a woman in her exalted position. She is always cordial, a rare accomplishment among society women and possesses an excellent memory for persons and names, an invaluable gift for the wife of a political leader.

The new mistress of the White House was Helen Herron, daughter of the law partner of the late President Hayes, when she married William H. Taft in Cincinnati, in 1886. She was a bright and talented girl with a perfect passion for music. In addition to a good education she received an excellent training in music and through all her later life music has ever been her favorite recreation. She is not only an accomplished pianist, but possesses a thorough knowledge of the theory of music and an extensive acquaintance with the best works of musical literature. But, notwithstanding her great love of music and her ardent devotion to it, she has never allowed it to be-

come an all-absorbing passion, or even a fad to the extent of interfering with her duties to her husband and her family. Although, probably, better equipped for a high social position than most women holding important positions in American society, Mrs. Taft is by no means a typical "society woman." For that she is too intelligent, sensible and well balanced. Ever since her husband entered official life in Washington and even before that, when he was still holding a judgeship in Ohio, Mrs. Taft has made it her study and aim to fill to the best of her ability the position in society to which she was entitled by virtue of her husband's official rank. Her natural talent and the intellectual training of her girlhood days made the task easier for her and her inborn tact helped her to avoid the pitfalls so disastrous to inexperienced and but indifferently equipped women in official society. Nowhere is the raw mistress of the White House seen to greater advantage than in her home circle, the supreme test for the sterling qualities of any woman, no matter what her position in society. She is devoted to her husband and her children, takes interest in everything pertaining to her domestic establishment and is considered a model house-keeper. She does not consider it below her dignity to attend to her household duties and devotes great personal care to the proper conduct of her domestic establishment. No woman in Washington society ever knew better than Mrs. Taft to add a wholesome and refreshing domestic charm to her social entertainments. No matter how formal the function may be, Mrs. Taft as the hostess makes all her guests feel that they are received at her home, not in a hotel parlor or a public hall. She knows better than most women the secret of making her guests feel at ease, without vul-

garizing the tone dominant at her hospitable board.

Mrs. Taft is an accomplished musician and has great love for her art, but she never obtrudes the subject of music in conversation nor does she ever bore her guests with inane accounts of the petty tribulations to which every woman at the head of a large domestic establishment is more or less exposed. Of her family and her own affairs she speaks with well-bred discretion and sparingly, while she shows remarkable skill and tact in drawing out her visitors by manifesting sympathetic interest in their affairs. Her home, wherever she may be, is always filled with that intangible charm which springs from the intellectuality, refinement and exquisite artistic taste of the hostess. Mrs. Taft, like her daughter Helen, now studying at Bryn Mawr, is an Episcopalian, but she is broadminded enough not to allow religious differences of a serious nature to arise between her and her husband, who belongs to the Unitarian church, although he frequently attends services at the Episcopal church with his wife.

W. H. Burr of Minneapolis and H. L. McLaurin, of Denver, who are going around the world will take the next boat for Australia. Mr. McLaurin was in this city about a year ago and has been renewing old acquaintances. They are stopping at the Moana.

C. B. Wells of Walluku, is in the city and will leave for the Coast tomorrow. He goes to Minneapolis where he will meet his wife and family in time for Thanksgiving.

Harry Wilder, who has been away on the Coast for several months, is expected to return on the Manchuria, which is due from San Francisco on Monday.

While Honolulu society people will welcome the presence of Captain Moor N. Falls, who will take charge of the quartermasters' department in this city, it will be very sorry to see Captain Humphrey leave. "Sep" and his brother, who was here before him, have both been very popular socially in Honolulu.

Some of those living near the old Alameda residence at Walkiki are not over and above pleased at the coming of the engineers. A number of enlisted men who have been quartered there have rather waked the place from its quiet seclusion of old.

Mrs. W. L. Howard was among the passengers to return to this city by the transport Sheridan.

Judge and Mrs. Arthur Wilder returned from the Coast yesterday morning by the Alameda.

Miss Thora Oss, of this city, was an arrival from the Coast yesterday and looks as though her vacation trip had been a pleasant one.

Lieut. A. M. Pardee, of Fort Shafter, after a two months trip on the mainland, where he earned high honors in the shooting line, came back to this city on the Sheridan.

Lieut. Epley, who was at Camp McKinley with the Tenth Infantry two years ago, is now stationed at Angel Island, in San Francisco Bay.

The dance given on Saturday night by the Outrigger Club at the Moana was a great success. Local people almost invariably take up things of this kind, and willingly will pay for tickets when the object is a good one. The

result was that though only a small crowd was expected and the parlor was used for dancing, there were more than the space could comfortably accommodate. That meant that some waited till later for their fun and the last car for town, which went at 1 o'clock, was well filled with a jolly but tired crowd.

Mrs. R. J. Buchly, the wife of the local violinist whose recent concert proved to be so delightful to local music lovers returned from an extended visit to the Coast by the Alameda.

Mrs. Callum, the wife of Dr. McCallum, formerly at Fort Shafter, left San Francisco for a visit to her home in Kansas City a week ago. Local people will be glad to hear that Dr. McCallum is much better.

The dance for the youngsters under sixteen at the Seaside was a very pretty feature and one which may well be remembered for another time. Many of the older people stayed there to watch the boys and girls who will soon be the moving spirit in the city, enjoying themselves. The scene was a very pretty one. Among those at the Moana dance were:

Captain and Mrs. Wadhams, Mrs. E. D. Tenney, Dr. and Mrs. Langhorne, Mr. and Mrs. Brainerd Smith, Mr. and Mrs. A. Gartley, Mr. and Mrs. W. M. Graham, Dr. and Mrs. Angus, Mr. and Mrs. Frank Halstead, Mr. and Mrs. George Davies, Captain and Mrs. C. W. Parks, Miss Frear, Mrs. A. E. Murphy, Judge and Mrs. Kingsbury, Mr. W. R. Castle, Miss Beatrice Castle, Mr. Sherwood Lowrey, Mr. W. W. Williamson, Dr. Victor Collins, Misses Spalding, Mrs. Mary Gunn, Mrs. Fred Smith, Paymaster and Mrs. Hornberger, Miss McCall, Miss Restarick, Miss North, Miss Patterson, Miss Alice Cooper, Miss Bell McCarriston, Miss Sara Lucas, Miss Hattie Lucas, Miss Ethel Angus, Mrs. Harvey Murray, Miss Elizabeth Wood, Miss Florence Wood, Miss Robertson, Miss Grace Robertson, Miss Center, Miss McStocker, Miss Catton, Miss Nellie McLain, Mr. and Mrs. Fred Waldron, Miss Skelly, Mrs. Lord, Mrs. Dougherty, Mr. and Mrs. J. Morton Riggs, Mrs. Alexander G. Hawes Jr., Mr. J. Balch, Mr. W. W. Williamson, General Soper, Mr. Bruce Cartwright Jr., Mr. H. Lucas, Mr. Guy Macfarlane, Captain Harry Knapp and the officers of cruiser Charleston and many others.

The marriage of Miss Gertrude Hyde-Smith and Baldwin Wood took place on Nov. 2 at 5 o'clock at the home of Mrs. Hyde-Smith in Filmore street, San Francisco. The ceremony was performed by Rev. Father Ramm of the cathedral in the presence of a small company of relatives and friends. An improvised altar was formed of white chrysanthemums and woodwardia fern. The chrysanthemums were built into large white pillars against a background of green and great clusters of autumn foliage. The chrysanthemums were used with the tall ferns in the railway, and in the reception room a touch of color was introduced in an arrangement of pink haddias. The bride wore an empire gown of white satin finished with point lace and the conventional veil caught with a wreath of orange blossoms. She carried a shower bouquet of white orchids, and her only ornament was a diamond crescent pin, the gift of the bridegroom. Miss Helen Dean, maid of honor and only attendant for the bride, wore a gown of apricot satin and carried an armful of yellow chrysanthemums. Thomas Eastland acted as best man. The two little flowergirls were Eleanor Welty and Frances Lent. They wore dainty frocks of white silk and carried baskets of Cecil Brunner roses.

Mrs. W. S. Wood, mother of the bridegroom, wore a handsome gown of white satin embellished with black lace, while her daughter, Mrs. Cullen Welty, wore gray satin with black lace. Mrs. Hyde-Smith wore an attractive costume of white net and rare lace. About 60 friends attended the pretty ceremony, which was followed by a wedding supper for the same number of guests. The wedding was simple in detail, but was one of the interesting events of the season, owing to the social prominence of the couple. The bride is a granddaughter of the Hyde family, for whom Hyde street was named, and she is a niece of Mrs. Alexander Gareau.

There will be a great and good time at the Moana on the evening of Wednesday, November 25, one which should even outshine the festivities of the fleet weeks. Upon that date, Thanksgiving Eve, the local Lodge of Elks will be in full command and will give a dance which should be long remembered here. The invitations have not yet been issued but with the reputation which the Elks have for entertaining it is safe to say that all who receive invitations will avail themselves of the opportunity for a good time.

Captain Babcock, of the transport Sheridan, was the host of a jolly party of ten at dinner at the Moana on Thursday night. Of all the transport officers coming to this port, there is none more popular than Captain Babcock and when he returns to the regular service next July he will be greatly missed.

The Myrtle Boat Club will be in supreme command at the Moana Hotel on the evening of December 5. A chowder and dance will form the main features of the entertainment and a large crowd is sure to be on hand. The Myrtles, in their long career as the

foremost boat club in this Territory, have always been able to hold up their end and will never fail at this late date.

The monthly receptions by Governor and Mrs. Frear, which have been so delightful, have been few of late on account of the many absences of the Governor, but with his return from Washington it is to be hoped that they will be again one of the pleasant features of Honolulu social life.

About twenty of the younger set of the city were the guests of Mrs. B. F. Dillingham yesterday afternoon at a tea given in honor of Miss Julia Damon, who will soon join the ranks of the married folk of the city as the bride of Harold Giffard. The Dillinghams' beautiful home at Punahou was charmingly arranged for the occasion and Mrs. Dillingham was as usual the most perfect of hostesses.

D. C. Sternstein entertained a party of seven at dinner at the Moana on Thursday night.

On Tuesday afternoon Miss Damon was also the center of attraction among her friends. She was the guest of honor at a linen chowder given for her by Miss Margaret Peterson, one of the season's most charming debutantes. Each of the girls of the younger set who came brought some remembrance for the bride in the form of linen, carefully wrapped up. Then all sat in a circle and chatted gaily while Miss Damon opened the parcels. Some beautiful and useful presents were received in this manner which will be a great source of pleasure to Miss Damon after her marriage to Mr. Giffard on November 28. Among those present were Miss Irene Fisher, Miss Marion Waterhouse, Miss Margaret Waterhouse, Miss Sara Lucas, Mrs. Fred Damon, the Misses Hopper, Miss Margaret Castle, Miss Beatrice Castle, Miss Katherine Goodale, Miss Jane Winne, Miss Margaret Cooke, Miss Katherine Smith.

Walter F. Dillingham leaves tomorrow on the Mongolia on a trip to Washington. He expects to return to this city in time for the Christmas holidays.

A jolly horseback ride up Tantalus was enjoyed by a number of officers from the cruiser Charleston and a number of young girls of the social set on Tuesday night. A stop was made at the Cooper residence on the mountain where light refreshments were served. The moonlight night made the occasion one which was particularly enjoyed.

Miss Agnes Walker of this city, who has been visiting on the Coast for some months past, is spending a couple of weeks at Watsonville, California, as the guest of Miss Helen Wilder.

The Misses Wool, of Los Angeles, among the most charming of the younger people who have been seen at the local festivities of late return to Los Angeles by the Mongolia. These young ladies and their charming mother have made very many friends during their stay in this city and wish for a second visit in the near future have been expressed by very many.

## TOWN TALK

By THE MAN ABOUT TOWN.

There's been a lot of mouth-movement about the Shriners' Parade, but I want to acquaint you with the Shriners' Procession. There are varied kinds of Shriners and the word may be taken complementarily or otherwise as the procession passes.

First comes the band of brass. Improving as they pass, followed by a legion gay of jolly fellows in array, sucking straws and chewing hay for the sins of yesterday. Pallid people with pink pills for imaginary ills; Then a host of men with bills going at a pace that kills. Butchers, bakers, undertakers, gamblers, dentists and muck-rakers, verily a varied throng.

As they quickly move along. All that's good and all that's bad, All that's gay and all that's sad, Represented in a bunch, Just to give the town a hunch Of the kind of folks it takes To make a town that's any shakes.

Here, without the cap and bells, Walks a man who always tells All he ever thought he knew, All he thinks he's going to do; Then a chap with pensive frown Who owns half the little town, Followed by a sporty guy With a glass-pane in his eye, Elbowing a silent saint From whom never comes complaint And who's closely followed by An ugly limp with evil eye, In whose ever-moving wake Comes a living stomach-ache.

Some in glory daily shine, Some would sour pickle-brine, And all the kinds that go between Are in line and plainly seen. If you see your double there, Offer up a silent prayer That, unless you're genuine, You may ne'er be ushered in To initiative hall.

Where you have to tell it all, As it is, for what I've wrote, I may have to ride the goat.

Before Dr. Cofer left this city on Wednesday he had a unique little experience which he will probably remember for some little time to come and it is doubtful if he will attempt paternal reproach in the direction of Jack Lucas again. Now this is not intended as a slam at Dr. Cofer, whose services here have been appreciated by all who have seen the work of his department. There always was one thing noticeable in his regard, however, that trait which comes to so many who are long in the service, the belief that a Federal official can do no wrong and that anyone who ventures to criticize him is one who should be watched for symptoms of anarchy, etc.

Jack Lucas is probably as public spirited a man as we have in Honolulu and when Dr. Cofer told him in the presence of a couple of witnesses that he was not a good citizen it was going too far for the Federal man's personal or official capacity and he found out all about it. The trouble arose through Cofer's referring to the fight made in the Federal Grand Jury over the building of the Leprosarium on Molokai by "Pake" Pease, so-called on account of the fact that he will employ nothing but Chinese labor on the Government work under his charge. Lucas was one of the chief witnesses and through information which he brought to light the graft of fifty cents per day which the Chinese at the Leprosarium pay to the City Mill Company for obtaining them work, was shown up. A fact none too creditable to those in charge.

Now Cofer and Pease eat from the same pot bowl, or at least they did, and on the morning that Cofer was leaving he met Lucas in front of Fitzpatrick's cigar store on Fort street and brought up the subject, telling Jack that he should be ashamed of himself for the way in which he had abused poor Mr. Pease, the long suffering Oriental laborer. He, also, as has been stated before, said that Jack was not a good citizen.

Dr. Cofer got all he wanted in return. It is an old story that you "can't beat the Irish." It is also pretty nearly true and Jack told some truths to the Marine Hospital man in connection with his branch of the Federal service which were unwelcome and also a few pointed and personal remarks which also hit home. I rather think that Jack is a good man for both Pease and Cofer to leave alone.

Police chief (to subordinate)—How do the figures for gambling arrests look?

Subordinate—Pretty fair, but they might be bigger.

Chief—Isn't there a game of billiards or pool on somewhere or other outside of a club we wouldn't like to raid?

Subordinate—To be sure there is.

Chief—Raid it at once.

Subordinate (one day later)—I have arrested fifteen youths for playing pool and billiards for money prizes, and have convicted them of gambling. I now propose to watch for the next shoot of the Honolulu Gun Club, it is

quite clear that shooting at targets for prizes is just as much gambling as playing pool or billiards. I soon hope to have a lot more arrested to swell the statistics which show what good work the department is doing.

XXXX

The suspiciousness of the good, the readiness of he who is himself above reproach to see evil in others is an old story. The old saying "to the pure all things are pure" is very often just the reverse of the truth. "To the pure almost everybody's rotten." I am led to these gloomy remarks by reading a Washington interview evidently emanating from one Wilbur Crafts, regarding District Attorney Breckons. Breckons, to get down to facts, is being investigated for having called the Rev. E. W. Thwing a hypocrite. This was his real crime. The fight was quickly taken up by such organizations as Mr. Thwing is able to influence on the mainland, the principal ally being Rev. Crafts, head of a Congressional Reform Bureau and of a national association devoted to the noble American purpose of stopping the use of opium in China. The Rev. Crafts is about five thousand miles away from here and of course knows not what he is talking about. But that doesn't prevent him from being as positive as if armed with a Q. E. D. of the one certain science.

He rushes into letter and print to tell what a bad man we have in office here and he apparently cares not how damagingly he speaks or writes. "This all reform." 'Tis one more sample of the weakness that develops in most reform movements. Why it should be I don't know, but there is some mysterious microbe of uncharity, evil thinking, slander and even unscrupulous misrepresentation, that creeps into the crannies of very, very many "reformers" otherwise capable of being useful, and drives public support from them. At heart humanity wouldn't stand for fighting even the devil unfairly. I think that if ever the story is made public of the manner in which efforts were made to work up a case against Breckons, it will be a hard blow to some of the misled allies who supported the scheme. To return to the test, 'tis an old story. The weakness of most reformers is an unconquerable tendency to think everybody else is "rotten."

XXXX

Of course Mr. Crafts is a man of high character and much ability, and thinks he is engaged in doing good when he is really only weakening his own effectiveness. It's like when he visited here four or five years ago. Somebody told him Hawaiians were going to blaze by the opium route. Being an evil report, the story didn't, in his estimation, need any investigation, and he entered the arena quickly to reform the Hawaiians, with the result that he was severely told to let them alone, that they were not getting the opium habit and didn't want to be labelled and slandered by such charges. And as a local reformer his influence was gone.

SAVING RUEF FROM A POSSIBLE MOB

The Defendant in San Francisco Graft Trial Taken to Jail for Protection.

HENEY PASSES GOOD NIGHT.

Cuban Election Today—Battleship Fleet Manuevers—Taft and Bryan's Movements.

SAN FRANCISCO, November 14.—

Henev is being treated at the Lane hospital. His condition last night was reported to be favorable and he was resting easily.

Abe Ruef has been taken to jail for protection against a possible avenging mob. His trial has been postponed until Monday.

The shooting of Henev occurred during a recess in the Ruef trial while the jury was out of the courtroom. Haas, after being taken in custody, said that Henev had ruined him by exposing his past and that he has brooded over the disclosure constantly ever since.

RUEF'S GUN MEN IN COURT.

The trial in which Francis J. Henev was engaged at the time of his attempted assassination was that of Abe Ruef, the San Francisco boss, charged with bribing Supervisor John J. Furey, paying him \$1,000 to vote in favor of the United Railway overhead trolley franchise.

The San Francisco newspapers of November 7 report the presence of a large number of gun-men and rowdies at the opening of the trial. "Butch" Bell, who had been arrested at the first Ruef trial for bringing a loaded gun to the courtroom, was there; "Bunco"

Kelly, another undesirable, and others are named in the reports.

"It was a typical graft courtroom yesterday," reports the Chronicle of the 7th, "reminiscent in every way of the former trials that have been marked by disgraceful tactics on the part of higher up graft defendants to impede justice, influence and bribe jurors and threaten court officials, jurors and spectators. The familiar faces of the bullies formed the setting and the atmosphere reeked with rowdiness held in check. That the present trial is to be marked by attempts to prevent justice through the maneuvers of this band of hirelings seems practically certain. There were no outbreaks yesterday, however, and no outward signs of an impending disturbance."

MANILA, November 14.—The Atlantic battleship fleet will conclude its target practice and maneuvers on the twenty-fourth.

THE GENTLE SEX

IN THE MAGAZINES

Of late there has been such in the magazines about the ternal feminine. One writer says: "Do women dress to please men?" and then explains that "while doubtless the first modification of the merely useful garb we call fashion was induced by the instinctive feminine desire to please the male eye, rivalry with her own sex has subordinated this aim." Accepting the Genee account of the fall of man, and the realistic nature of the joke about the Easter hat, this explanation is unexceptional. Another writer publishes the scientific theory that the character of women is adventitious. "Man," says he, "has always insisted that woman shall be better than he is." And then he adds: "Purity, constancy, reserve, and devotion are the qualities in woman which please and flatter the jealous male; and when woman responds to these demands, both really and seemingly, without any consciousness of what she is doing, she acts in the manner which makes her most pleasant to men." Pleasant reading for the men. For generations bachelors, young and old, have been assured very positively that it is the influence of good women that keeps mankind from damnation. (Probably our man of science has escaped this experience.) Now the bachelors may retort, "But Professor So-and-So says that it is we who keep them pure, constant, reserved and devoted." However, it would become our scientist to make peace with the gentler sex, not by saying that their efforts to please men are unconscious, but by writing an article on the adventitious character of men. —Harper's Weekly.

## Merchants Defensive

PROTEST OF RETAIL TRADE  
AGAINST POSTAL SAVINGS BANK  
AND PARCELS POST SYSTEMS.

After considering data furnished by  
Postmaster J. G. Pratt in a letter to  
President Geo. W. Smith, the Hono-  
lulu Merchants' Association decided to  
oppose the postal savings bank and  
parcels post extension propositions.  
The following information is extracted  
from the local postmaster's letter:  
Domestic money orders issued at Ho-  
nolulu postoffice in 1908 (fiscal year  
ending June 30) numbered 23,493 and  
amounted to \$196,238.57, as compared  
with 21,479 and \$401,307.65 in 1906.  
International orders, 1908 8923,  
amounting to \$226,075.10, as compared  
with 6056 and \$139,275.25 in 1906.  
Surplus money order funds received  
from all other postoffices in Hawaii in  
1908 amounted to \$2,528,423.25, as com-  
pared with \$2,077,144.96 in 1906.  
Money orders paid at this office  
were 57,052 amounting to \$1,457,927.71  
as compared with 56,250 and \$1,576-  
351.25 in 1906.  
Transmitted to U. S. treasury in 1908  
money order funds amounting to \$1-  
678,100 as compared with \$1,044,349.70  
in 1906.  
Money orders issued by all offices in  
Hawaii in 1908 were 40,405 amounting  
to \$1,168,173.97 as compared with 22-  
485 and \$609,827.57 in 1906. To Japan  
the number of orders was 39,080  
amounting to \$1,157,950.42 in 1908 as  
compared with 22,135 and \$604,085.57  
in 1906.  
Parcels post packages received in  
1908 numbered 5206, duties collected  
thereon being \$3,558.50, as compared  
with 2948 and \$2,478.75 in 1906. Pack-  
ages dispatched were 989 in 1906 and  
1861 in 1908.  
In 1908 there were 198,940 registered  
articles handled against 167,173 in 1906.  
Letters dispatched in 1908 numbered  
6,223,465, an increase of 1,163,493 over  
1907. Newspapers, circulars, etc. dis-  
patched were 3,776,027 in 1907 and 3-  
720,786 in 1908.  
James Wakefield, Robert F. Lange  
and Frank Hustace, the committee of  
the Merchants' Association whose find-  
ings were adopted, argued that domes-  
tic postal savings banks would not  
materially check the drain of remit-  
tances to Japan, the higher interest in  
that country, the provision the Japa-  
nese make for relatives at home and  
the patriotic motive being all opposed  
to the attraction of domestic postal  
banks. Another reason against the  
proposition is that the private savings  
banks in Hawaii are adequate, offer  
higher interest than the government  
would pay and ought not to be subjected  
to the thus unnecessary competition  
of postal savings banks.  
On the parcels post proposition they  
say:  
"The establishment of a domestic

parcels post system, with low rates of  
postage and a considerable increase in  
weight limit, would no doubt be ad-  
vantageous to a small section of the  
community, particularly to large main-  
land corporations conducting what are  
known as catalogue business, and large  
department stores.  
"These corporations with the assist-  
ance of a Federal parcels post system  
could enter so far into competition  
with the small but responsible local  
traders in all branches of business, as  
to make it exceedingly difficult for the  
local traders to remain in business at  
a profit to themselves.  
"This condition would be readily  
reached without any corresponding  
benefit to the purchasing public."  
In conclusion they consider the pro-  
posed bill to establish a parcels post  
system in the United States so danger-  
ous to the interests of all retail dealers  
in this Territory that they recommend  
the directors to address each member  
of the Association individually on the  
matter, so as to "secure a vigorous and  
unanimous opposition to any such a  
proposal becoming established on the  
statutes of the United States."

## ALLOTMENTS FOR THE MILITIA

WASHINGTON, D. C., October 28.—  
The War Department has announced  
allotments to all states and territories,  
on account of militia organizations, of  
the \$2,000,000 appropriated by the act  
of May 27, 1908.  
The allotments are based on the en-  
listed strength reported by officers of  
the regular army at the last annual in-  
spection.
