LATE FOREIGN NEWS.

SAN FRANCISCO, Oct. 21.

[By I. I. S. N. Co.'s S. S. Keauhou.]

THE ORIENTAL WAR.

Chinese advices are that a severe battle has been fought on the lower portion of the Yalu river. The Japanese crossed the river and attacked the Chinese, but after fierce fighting the Japanese were repulsed. Both sides lost heavily. The Chinese do not claim conclusive victory, but declare that they still maintain their position.

Forty thousand Japanese troops, under command of Count Oyama, have left Hiroshima on 35 transports. Their destination is known only to the authorities.

A large force of Tong Haks is said to be threatening Seoul, the capital of Corea.

Four vessels of the Chinese southern squadron have arrived at Wei-Hai-Wei. It is reported that two Chinese ironclads and one cruiser have reached the same place after repairing at Port Arthur. Other Chinese warships, requiring more extensive repairs, will be detained at Port Arthur some time.

Another Chinese fleet, completely refitted, has sailed from Chee Foo.

The Japanese warships are cruising about Ping Yang inlet.

Count Ito, the Japanese Premier, explained the causes of the war in Parliament, showing it was inevitable and forced by China's perfidy. The Diet was much impressed and is unanimously supporting the war and voting all the money required.

Coreans are in rebellion at different points against Japanese rule. Japanese and Corean troops have been sent to suppress the rebels.

The Japanese Minister of War has issued a notification, calling attention to Japan's affiliation with the Geneva convention in 1886, and admonishing the army that the enemy, however cruel and vindictive he may be, is to be treated according to the rules of civilization.

Subscriptions to the Japanese war loan aggregated, on September 25, 77,000,000 yen, 10,000 being applied for at above par. The call was for only 30,000,000.

General Count Ovama, Minister of War, has been relieved from the duties of his office and appointed commander-in-chief of the second army organized for service against China.

From Seoul it is stated that, while the mass of Coreans are indifferent to the struggle in the north, the majority of the higher class in the districts formerly occupied by the Chinese are inclined to the side of China. Thus far their attempts to annoy the Japanese have only succeeded in preventing the dissemination of the king's proclamation in favor of his new allies. On the other hand the influence of Japanese occupation has made a favorable impression in behalf of Japan amongst the middle class. The orderly conduct of the troops, their respect for private property, and the promptness of their payment for all supplies have rapidly won the favor of the populace.

Japanese plans for political and social reforms, put in operation after the dismissal of the Ming ministry, are now virtually suspended, owing to the difficulty of securing united action on the part of the new government. Important improvements in national administration have, however, been secured, and several iniquitous laws have been abolished.

Fumiravi Siras, a Tokio millionaire merchant, is in New York, his supposed errand being to raise a loan for the Japanese Government.

UNITED STATES.

Hereafter address labels may be pasted on the message side of an envelope as well as on the address side of a postal card.

A train on the Kansas and Arkansas valley branch, Missouri Pacific, was switched off the track and held up by a gang of masked men near Wagoner, Indian Territory. All the cars except the sleeper were shot full of holes, not a whole window remaining. Jack McHara, advance agent of a minstrel show, was shot in the forehead. But little money was obtained. Express companies refuse to take money shipments into the territory, on account of the railroads having been for months infested with robbers.

The New York World has a report from Logansport, Ind., relating the suspicious conduct of two men armed with revolvers, at a political meeting. They were suspected of a design to assassinate ex-President Harrison, who was making a speech. The police who chased the men without catching them say they were only pickpockets.

The crew of the American schooner Alice T. Boardman has reached England by the British steamer Durham City. The Alice T. Boardman, waterlogged and abandoned, was picked up by the fishing schooner Hattie M. Graham and towed to Gloucester, Mass. There was a letter on board saying the crew had been taken off by the Durham City.

McKinley is talking in Louisiana and Reed in Illinois.

Judge Patrick Divver of New York has been compelled to resign from Tammany hall. It is reported he has also resigned his police justiceship. Pat had added to previous bad breaks by getting into a barroom brawl.

Budd Reeve is stumping North Dakota for Congress, his person robed in an American flag and on his shoulder perching an American eagle. He is preceded by a Scotch collie dog, carrying an inscription that reads: "This dog is no politician, but he knows better than to fuse with animals antagonistic to his nature."

The Franklin sugar refinery, controlled by the trust, at Philadelphia has been shut down. Spreckels' refinery has been closed two weeks. The McCahan refinery, claiming to be independent, is running one-third time.

It is not believed in Washington that Miss Pollard can collect the judgment against Col. Breckinridge, as he is not known to have any property on which to levy.

Indians are growing bolder in Arizona since the withdrawal of troops from Fort Bowie. They fired on a cattleman, one shot passing through his left lung and breaking his shoulder blade. His pack animal was killed.

Mrs. Flower, wife of the Governor of New York, has been severely bitten in the chin by a pet bulldog.

Nothing has yet been heard on Puget Sound about the missing ship Ivanhoe. There are twenty people on board, including Mrs. Brace, Mrs. Irene Mullen, and Fred J. Grant, editor of the Seattle Post-Intelligencer.

Investors are running on the discretionary pool offices at Pittsburg. These concerns taking small sums from farmers and workingmen for speculation hold, it is estimated, between $3,000,000 and $4,000,000, representing 50,000 investors. One office was raided by the police.

The Atlanta Constitution demands that President Cleveland speak a word to show that he is not a traitor to the Democratic party in New York.

Four brothers named Hunter propose to start from New York, fully armed and equipped, to avenge the murder of their brother, who was shot at Medicine Lodge, Montana, August 12.

Several ex-police officers of New York have been held in bail of $5000 to $7500 for taking bribes, as a result of Dr. Parkhurst's crusade.

Alix, 2:03¾, and Directum, 2:05½, met at Mystic Park, Mass., yesterday for a purse of $11,000, and Alix won. After Alix had won two heats, in 2:09 and 2:11¾, Directum was withdrawn, having cut his leg in the second heat.

There is a deficit in the U. S. treasury for the first twenty days of October of $7,702,142. The deficit for the fiscal year amounts to $26,781,152.

London financial papers, reported by cable to the N. Y. World, predict a crisis in the United States from the outflow of gold.

Vice-President Stevenson is spouting democracy in Illinois.

EUROPE.

THE CZAR DYING.

The Berlin National Zeitung publishes a despatch from St. Petersburg saying that, according to special information from Livadia, the Czar during the previous 18 hours had been seized with a series of convulsions. The attacks were accompanied by several hours of unconsciousness. It was added that his death could not be long delayed.

A despatch was received at Biarritz the night of the 19th from the Czar himself by the Princess Tourowski, better known to the public as the Princess Dolgorouki, morganatic wife of the late Czar. It was as follows: "I feel very weak, but I still hope to recover. Alexander."

It is stated, as on the best authority, in St. Petersburg that the Czarina is very ill, and her son, the Grand Duke George, dying. Also that the Czar, before his illness entered upon its final stages, had a solemn interview with the Czarowitz, in which he indicated the policy he desired him to pursue, and also insisted upon his marriage to Princess Alix, who was summoned to Livadia to receive the dying blessing of the Czar. It is improbable that Princess Alix will reach Livadia in time to be married to the Czarowitz before the Czar's death.

News received in Vienna is that the Czarina, who had watched constantly at her husband's bedside, has had a stroke of apoplexy. The Grand Duchess Xenia, her elder daughter, has broken down under the nervous strain.

There is great anxiety in Germany over the results of the impending death of the Czar. His heir's views on European policy are shrouded in uncertainty. The opinion in well-informed circles is that it would be a great mistake to regard the Czarowitz as the enemy of Germany.

The Paris Temps says there is not a corner in France where prayers have not been offered for the recovery of the Czar. It speaks of him as the life-long ally of France.

At a council of the French ministry, yesterday, Premier Dupuy said he had a telegram stating there was a slight improvement in the Czar's condition.

Prince Cantacuzene, Russian Minister to the United States, has been interviewed at Washington. He said Russia has enjoyed stability and progress under the present Emperor. The reason was that he tried no new and liberal policies unsuited to Russia. His father had surrendered much to the liberal sentiment, only to be compelled to take back part of what he yielded. The Minister said both the Czar and the Grand Duke Nicholas, his successor, were friendly to America. That the Czarowitz was unfriendly to America was an invention of the Jews.

GENERAL ITEMS.

Comment is made by a Berlin correspondent on "the feverish activity of Emperor William," which "was never better exemplified than during last week." He flitted from place to place attending a variety of functions, the rapidity of his movements being astonishing.

Chancellor Caprivi and the Prussian Premier, Count Eulenburg, are at variance respecting the anti-socialist measures. Eulenburg, who is said to have the countenance of the Emperor, goes in for very comprehensive enactments, including the raising of the franchise.

Funds are being subscribed in Berlin for distributing Prof. Behring's anti-diphtheria serum cure to diphtheria patients. The municipal authorities have voted 6000 marks to provide the four principal hospitals with the remedy.

Ex-Empress Frederick attended, at the castle of Rumpenheim, the accouchement of her daughter, the Princess Frederick Charles of Hesse, who was delivered of a son—another greatgrandchild of Queen Victoria.

The Catholic press is attacking the Prussian Government for consenting to a national celebration on Dec. 9 in honor of the three hundredth anniversary of the birth of Gustavus Adolphus of Sweden.

An explosion of fire damp occurred in the Anina colliery, Austria. Fifteen dead and twenty wounded were brought to the surface, but it was feared there were other dead and wounded in the mine.

OTHER LANDS.

One thousand girls have struck in City of Mexico cigarette factories on account of the introduction of cigarette machines. The girls smashed the windows of one factory and would have captured the place but for the intervention of the police.

Several heirs to the throne of Afghanistan have appeared, in view of the death of the Ameer, which, if it has not occurred, is deemed not far off. It is feared that serious troubles will ensue in Cabul on the event. The English settlement consists of about a dozen persons, four of whom are ladies. Recollections of former massacres in the blood-stained city loom up. It is thought probable that the Government of India will support the claim of Yakoob Khan, now a state prisoner in India, to the throne. The attitude of Russia with reference to China will suggest the importance of putting a strong man in the place. Yakoob Khan is a general of proved ability. Among other great patriotic services he seized the city of Cabul and placed his father upon the throne. For this he was treated with the basest ingratitude by his father, the Ameer Shere Ali Khan. Yakoob Khan was imprisoned for five years in a horrible dungeon and treated with the greatest cruelty, and he was only released upon the advance of the British army into Afghan territory in 1878.

It is reported there is considerable feeling in Salvador against Americans. The Ezetas have considerable of a following there still, and their friends hate the United States for the trouble Antonio had to get his release in San Francisco. It is reported likely that all the Central American governments will abrogate their extradition treaties with the United States. British influence is charged with aiding to create this anti-American feeling.

October 31, 1894.

The first election under the Republic passed off as quietly as an ordinary funeral and Mr. Klemme, the strongest in the opposition, once more proved himself a man whose destiny is to get left by a very small majority. The count showed the regular candidates to be stronger in every particular than their opponents; it showed also that it was the wish of the voters that the "regulars" are to make the laws for the masses. The result is a rousing victory for the party in power, inasmuch as not one of the opposition secured enough votes to carry him to victory. As an object lesson the result will have its effects upon political dabblers; it shows that the Populists, non-Partisans or the Farmers' Alliance are not equal in political generalship to the working members of the A. U. P. The defeat is crushing, but no man, or set of men, can go down a sliding board forever without getting a splinter somewhere in their anatomy. The A. U. P. had every point covered so well that Mr. Klemme was really the only one of the opposition who had a chance to be elected and his nose was so close that he should not feel badly over his defeat.

A reservoir on the slopes of Punchbowl will be of untold advantage to the people whose homes are in that locality, property will increase in value there for the reason that water will be plentiful. If the government could be induced to put Improved Stone Filters in the pipes the health of the consumers would be better. All water used for drinking or cooking purposes should be filtered. Even artesian water is not safe. Boil it and you will find a thousand particles floating around; filter it through an Improved Stone Filter and every one of them will disappear.

If you have a cabinet in your parlor on which there is a vacant space till it with Rookwood. We have a few choice bits in our *makai* window that are not duplicated anywhere in the world. The assortment is made up of *Vahses, Vases, Vasses* and *Vaces, Flower Holders, Ink Stands, Tobacco Boxes, Chocolate Pots*, and a half dozen other things both useful and ornamental.

The Hanchin Tap Water Filter at a dollar fills an aching void in the wants of the cook. Handsomely nickel-plated and effective.

French Cook Knives are the best knives obtainable for the kitchen. Made of the finest quality of steel and hardened so that the edge will not turn up when it strikes a bone—75 cents and a dollar.

In the matter of Sewing Machines, we hold that the Wertheim Triplex is the most serviceable in the market because it makes three distinct stitches. For ruffles on the babies' clothing you want a single stich. The Wertheim makes it.

For good hand sewing on the boys' knickerbockers you want a lock stich. The Wertheim gives it.

For all sorts of sewing on all sorts of clothing you make your selection of stitches and the Wertheim will do the work.

The War

between China and Japan will cause prices for their silk fabrics to go higher; no country can fight and weave silk at the same time. The price has already advanced and the papers state that the war is likely to be "on" for two or three years. It behooves the careful buyer to purchase now. We had an immense stock of Japanese Goods ordered before war was declared, consequently we can continue to sell at the old prices as long as our present stock holds out, and then the War will force prices up. Our last consignment consists of Silk Dress Goods, both figured and plain; Morning Gowns for Ladies and Gents, Silk Kimonos, Smoking Jackets, Silk Pajamas, Japanese and China Ware, Screens, Lamp Shades, Lunch Baskets, etc., etc.

Where people make a mistake is in supposing that good pictures are necessarily expensive.

We are selling pictures every day, fit to grace any house, the prices of which would astonish those not acquainted with the fact.

It is not necessary to get a first proof etching or engraving in order to have a work of art. The method of reproduction now in vogue, makes it possible for people of moderate means as well as their wealthier neighbor, to gratify their taste for the beautiful.

Great range for the display of taste, in the selection of subjects, is afforded by our keeping pictures in sheet form and mouldings from which to select the frames.

One need never be at a loss to know what to give as a present, at any time or for any purpose, for there is nothing better than a picture.

MUCH ADO ABOUT NOTHING.

All About the Evening Papers' Suspension on Election Day.

It was hardly worth while for the electric power house employees to rush into print about the suspension of the evening papers on election day. The intention of the manager of this paper up till 10 or 11 o'clock Saturday was to issue a paper on Monday. About then a telephone message was received from the power house, asking if the BULLETIN was to be issued. A large press was running at the time, making hearing difficult, but the impression gained at this end was that the works wished to shut down on Monday, but would supply power if requested for printing the paper. A consultation with the Star management resulted in a decision to publish both papers. The electric works were so notified. Later the Star had a discussion with the works and another consultation was held, under the impression that the works desired to close down for cleaning and overhauling the machinery. As on former election days, it was recollected, with courts closed and business generally suspended, there was never much news to gather, the conference decided to suspend publication and give all hands a holiday. The motive was double—to accommodate the electric people, who were the first to broach the subject, and to take advantage of a very dull day for news to obtain rest and recreation for writers and printers who have but little respite from toil year in and year out. That is all there is about it.

Every mother should know that croup could be prevented. The first symptom of true croup is hoarseness. This is followed by a peculiar rough cough. W. O. Smith, for the Republic of Hawaii, has filed a demurrer in each case to the suits of F. Harrison and F. Harrison and A. V. Gear, on the ground that the complaint in either case does not contain sufficient cause of action.

NEW STEAMER ARRIVED.

Captain Godfrey Brings an Addition to the I. I. S N. Co.'s Fleet.

The Keauhou, the new steamer of the I. I. S. N. Co., arrived early this morning, and anchored in the stream for about an hour, till the Customs officers had gone through her. The steamer then came alongside the Mikahala wharf, where a crowd of people boarded her. Captain W. B. Godfrey brought the steamer down from San Francisco in 9 days 18 hours. The Keauhou left San Francisco on Sunday, Oct. 21, at 10 o'clock in the morning, and for the first two days rough weather was experienced, necessitating a slowing down of the engines. If it had not been for the weather encountered during these two days, the steamer would have made the passage in nine days. The Keauhou behaved splendidly throughout and Captain Godfrey speaks highly of her sea going qualities. She brought quite a quantity of freight in her hold but no passengers, as the steamer did not have a license to carry such. Her principal officers for the passage from San Francisco were: Captain, W. B. Godfrey, president of the company; chief officer, Mr. Carson; chief engineer, Chas. Wall; assistant engineer, Mr. Thiron.

This new addition to the Inter-Island Steam Navigation Company's fleet was the centre of attraction on the city front to-day, crowds of people of all classes inspecting her.

The Keauhou is of 220 tons and was built after the model of the steamer Waialeale belonging to the same company. She is the same size with the exception of the beam, the Keauhou being 18 inches wider, and is minus a bowsprit. Her engines were constructed by the Fulton Engineering and Shipbuilding Works of San Francisco, Cal., and are larger than those of the C. R. Bishop. The new comer is an eight knot boat, and it is the general opinion of the city front people that she is a daisy. She has accommodations for six saloon passengers and any amount of deck room. Her freight is consigned to different firms in town and will be all out to-morrow.

Controller Eckels of the U. S. treasury, speaking at a banquet in Chicago, said the clouds were lifting and the country would soon be more prosperous than before the depression. Henry W. Yates, president of the Nebraska National Bank of Omaha, declared at the banquet that he had been a lifelong Democrat, but that the business interests of the country compelled him to cast his lot with the Republican party from this time on.

"Many of the citizens of Rainsville, Indiana, are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds and croup in children that few mothers who know its worth are willing to be without it. For sale by all dealers. LADIES' COLUMN.

We have a counter arranged this week devoted to WHITE COTTON DRESS GOODS, every piece of which we expect to sell before the week is out. They do not come under the head of Quick Sales and Small Profits, they will be SOLD AT JUST WHAT THEY COST US, not one cent more or one cent less. We want the room for more goods coming; we have made great purchases for the fall and winter trade. So from time to time different lines of goods will be pushed just as these White Cotton Dress Goods are at ACTUAL COST PRICE. And speaking about Quick Sales and Small Profits, as a fair sample of the difference it has made in prices generally we will just mention LADIES' BLACK STOCKINGS. Those that we have always sold for $3 per dozen, we are now selling for $2.25 per DOZEN, while those that were formerly $5 per dozen are now only $4 per dozen. The same thing applies to MEN'S SOCKS. The $3 per dozen ones are now $2.25 per dozen. We simply mention these few things, because they show a fair proportion of the discounts made throughout the entire stock

Do not forget to save your checks, you may be the one we send to the Volcano

A POINTER!

The rainy season is coming, and if you want to shed water like a duck you must be provided with a Rain Coat. I have just received a new invoice of Ladies' English Macintoshes—in fact, I shall make a leader of these goods for the next few weeks and at such prices that I expect to see every lady in Honolulu properly clad for rainy weather.

White Shoes

will not be worn in muddy weather. The reason is apparent and doesn't need explanation.

Tan Shoes

will probably take the place of the white ones for the next few months, and to match these I have an elegant line of Tan Stockings in numerous shades.

Hats.

Oh, yes, Trimmed or Untrimmed? Untrimmed! All right. Just pick out the shape. They are all new and the very latest. After you have selected one that suits your peculiar style of beauty I will introduce you to our expert milliner, who will help you select the trimming and I guarantee to finish you a hat that you won't be ashamed of.

Belts.

Nothing looks so pretty around a lady's waist (except an arm) as one of our Belts. I have both Silk and Leather with new designs of Buckles. If you don't believe me come and try one on (not the arm but the Belt).

As usual,

PRIZES!

PRIZES!

PRIZES!

Beginning on November 1, 1894, I intend giving my Customers a chance to win a Prize and not only One Prize but Four.

On next THURSDAY, November 1st, every Man, Woman or Child who buys $1.00 worth of goods at my Store (Temple of Fashion) will be presented with a Coupon Ticket, and on December 24th, the person holding the largest number of Tickets will be entitled to the First Prize, and this Prize will be the

Finest Silk Dress Pattern

in our Store. To the person holding the second largest number of Tickets

An Elegant French Cashmere Dress Pattern

will be given. The Third Prize will be an

Ostrich Feather Fan

Valued at $10;

and the Fourth Prize will be a Fine Pair of

LADIES' SHOES

Valued at $6.00.

The people of Honolulu have patronized the TEMPLE OF FASHION liberally since its removal to the new quarters at 519 Fort street, and the Managers appreciate this—hence these Prizes. There are probably one hundred ladies in Honolulu who will buy enough Dry Goods between November 1st and December 24th to win one of the above Prizes. Our stock is new and has been carefully selected for the Winter Holiday Trade—especially is this true of our Dress Patterns.

We have been to an infinite amount of trouble but succeeded in getting the latest shades and most beautiful designs; this applies to our Silks and Cashmeres. Our Ginghams, Lawns, White Muslins and French Lawns are the equal (both in price and quality) of those sold by any house in Honolulu; also Black Satins and Silks a specialty. Christmas Goods, Toys, etc., in endless variety. Gloves that fit like the paper on the wall.

And remember that, for every $1.00 worth of Goods you buy you get a Coupon.

All these Prizes will be shown in our window next week.

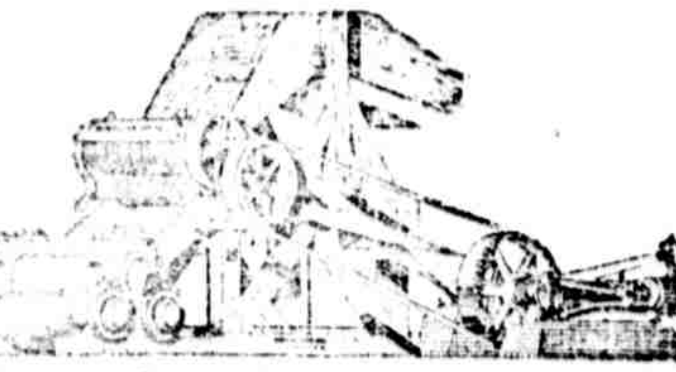
National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.



Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 300½ tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given entire satisfaction, having shredded during that time about seventy thousand tons of cane and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

NEW DEAL IN HAWAII.

The Planters Want to Have a Protectorate Instead of Annexation.

The movement to annex Hawaii to this country appears to be dying out on its native heath, says the San Francisco Chronicle of October 21. This is what various sugar men say who have arrived in the city by the last two or three steamers. One gentleman who is close to the centers of influence and authority at Honolulu said yesterday that if a treaty of annexation should be proffered Hawaii by the United States Government the coming Hawaiian Senate would reject it.

The change of policy thus indicated seems to have been brought about by the increased fear of the sugar planters that annexation would deprive them of the cheap labor upon which they rely for the assurance of their big dividends. They do not see how Chinese and contract labor could be had with the United States laws opposed to them, and without such labor, they say, the investments they have made in cane plantations would be worthless. What they want is an American protectorate which shall not only put them beyond danger from the policy of foreign powers, but will maintain their domestic peace.

The Senate, in which so much confidence is placed by the sugar men, is not yet in existence, nor have candidates for it—so far as the latest advices show—been named. It is certain, however, that the upper house will be in the hands of the planters, as they control seven of the eight islands of the Hawaiian group. These islands, in their political significance, are to the Hawaiian sugarmen what "rotten boroughs" used to be to the landed magnates of Great Britain.

"There are germs of trouble in this state of things," said a well-informed Hawaiian yesterday. "The effect of planters' rule has thus far been to bring an enormous number of Chinese and Japanese to the country, many of whom have gone into business and the trades, thus making the lot of the common white man hard. Now these white men all turned out to bear arms for annexation in the belief that, through union with America, Hawaii would become a country in which a white laborer or mechanic could make a living. To find now that their hopes are to be dashed by the very men whom they protected last year from the vengeance of the Queen, is something they do not relish, and which they may finally resist. I should not be surprised to see a union of these men with the native party, which contains nearly 90 percent of the total voting force under the old regime, with the object of getting the islands annexed in spite of the sugar oligarchy. It would be odd to see the ex-Royalists fighting for annexation against the element which pretended to be for it in 1893, but stranger things come to pass in politics."

STEALING SCHOOL PROPERTY.

Youngsters Are Seized With a Criminal Mania.

Different government schools in and about town have suffered depredations from young rascals during the past few weeks. Officer Wm. Maxwell has had a hard time trying to discover the juvenile criminals. A little while ago the Pohukaina Girls School was entered by Portuguese boys, and articles belonging to the teachers and the school were taken. The boys were caught after a while and on their returning the stolen articles they were reprimanded and discharged. Last Sunday a raid was made on the Beretania street school, when the school clock and other things were taken. The young thieves, however, were detected by two scholars who attend that school and who informed on them. Deputy Marshal Brown swore out a warrant, and the boys were arrested this morning. Two Portuguese boys, Manuel and Joe Silva, were charged with larceny in the fourth degree, and another boy, evidently no more than seven years of age, was held for investigation. It appears that the "kid" was the sentry, keeping watch outside while the others worked on the inside.

WRECK OF A HACK.

The Driver Gives His Account of the Accident.

A hack driven by Jim Mace and owned by Jim Carty was found on Punchbowl street near James Campbell's residence about 3 o'clock this morning. The vehicle presented a dilapidated appearance, the top being smashed into kindling wood, although the body seemed to be all right. The horse with harness attached was found grazing in Mrs. Reimenschneider's premises. The driver had evidently abandoned the outfit and retired to his home, as it was there he was found this morning. Mace looked as if he had shared in the catastrophe that befell the rig, as his face and neck were swollen. His story told the boss is as follows: He was coming down Punchbowl street last night with the intention of putting up for the night. Near the place where the accident occurred he met another carriage going in the opposite direction. His animal became frightened and jumped, causing the hack to capsize into the gulch on the Waikiki side of the street. He managed to get the horse loose from the vehicle with the assistance of natives.

The damage to the outfit will amount to about $100. Hack Inspector Macy will investigate the matter, and, if the accident is found due to carelessness on the driver's part, Mace will lose his license.

WOOD!

There is probably less coal used here in private families than in any city to which that article is exported. The reason is plain—wood is cheaper and of better quality. Nature provides Hawaii nei with the wonderful and rapid growing algeroba and it supplies the fuel for the people. Anyone who has ever visited the neighborhood of Waialae has been attracted by the forests of trees of this description. People who have gone there to inspect Mr. Isenberg's ranch have marveled at the care and attention given the cutting of trees for the market. As the supply cuts some of the ice in regulating the price of a commodity so the thousands of trees on Waialae Ranch act as a factor in putting down the price of wood. Mr. Isenberg sells wood cheaper than anybody else and delivers it free in any part of Honolulu. Ring up either telephone and get a cord.

If you've had any trouble with your milk try some from the Waialae stock for a month.

LUCOL

IS THE

BEST PAINT OIL!

Save Half the Amount of Your Oil Bill Through Saving in Pigment.

Every painter should use LUCOL instead of Linseed Oil, because:

1. LUCOL is more *durable* than Linseed Oil.
2. LUCOL is more *economical* than Linseed Oil.

PROOF THAT LUCOL IS MORE DURABLE.

Six years of actual use in exterior house painting in California (the most trying climate for paints), in the burning heat of the Arizona Desert, the Arctic cold of Alaska, and on the Atlantic coast, have fully and practically shown that LUCOL always outwears Linseed Oil under the same conditions. All the acid works in San Francisco have discarded Linseed Oil for LUCOL.

ILLUSTRATE THIS YOURSELF.

Put strong ammonia on Linseed and Lucol paints. The Linseed paints are destroyed in a few minutes; the Lucol paints are practically unaffected.

PROOF THAT LUCOL IS MORE ECONOMICAL.

Break up 1⅛ lbs. paste white lead in one pint of LUCOL, and the same quantity in one pint of Linseed Oil. Spread the paints on similar dark surfaces for comparison. The Lucol paint spreads as far as and covers much better than the Linseed paint. To get equally good covering with the Linseed paint you have to use 2¼ lbs. of white lead to one pint of Linseed Oil. This means a saving of ⅞ lb. of paste lead to each pint of LUCOL used, or 6 lbs. to every gallon, equivalent to your saving more than half the first cost of the LUCOL.

LUCOL is not in competition with cheap Linseed Oil substitutes.

A Dependent Electorate.

EDITOR BULLETIN:—

I have bought a copy of Godfrey's Directory containing the list of voters registered for the first election under our Republic. I find by actual count out of the 1916 names therein contained about one fourth (say 450) are either members of the Government or drawing salaries or wages from it exclusive of laborers under the Road Supervisor or other branches of the Government. Of these more than a quarter return their occupations as "soldier," exclusive of those labelled as officers, and more than one-third of them, whom a grateful government supplies with board, lodging, clothes and washing free, are classified as being able to vote for Senators. That is they must have proved to be drawing pay amounting to $50 a month or over or have private incomes, making with their pay that amount or over. Think of it, Mr. Editor! What is the country coming to when the administration in power (whether now or at a future time), directly controls more than one-fourth of the electorate through their salaries. It is not as in the States where all officials are elected and so directly responsible to the people. Here they are all appointed and removable by the Executive. Every office here is a presidential one, either directly or indirectly, down to the man who handles a pick and shovel on the road. What opportunities of corruption when we get a Government not so scrupulously honest and impartial as the present. And again think of one hundred and twenty men living in ease on the fat of the land as drones, not performing one useful piece of work for the country, over one-third of whom have Senatorial voters' incomes, when so many Portuguese and Hawaiians can hardly find bread for their families or work to make even a bare subsistence. Let economy and retrenchment be the watchword, and let the savings effected be spent on public works so that the laborer and mechanic may get a share of the expenditure.

REPUBLICAN.

The Miowera.

R. M. S. Miowera sailed from Plymouth, England, for Sydney via Cape Town, on the 2d September, and is due at Sydney on October 14 She is to leave Sydney on the 20th instead of the 18th, which is the schedule time, for Vancouver, but will arrive here on time nevertheless. On the arrival of the Miowera the Warrimoo will be laid up for a month in order that her fore cabin accommodation may be altered and her after hold insulated for the carriage of 11,000 carcases of sheep, and for that of fruit and other tropical products in a chilled state. She will also be supplied with important auxiliaries in the engine room and with a fine winch boiler. The passenger accommodation of the Miowera has been entirely altered and the Warrimoo will also be remodelled to a corresponding degree. On the completion of the latter's alterations she will take the place of the Arawa, which will be removed from this route.—*Victoria Colonist.*

It was rumored about town early Monday morning that the Japanese steamer Nanshan had brought news of the arrest of C Afong, the well-known Chinese merchant, in China. Afong, it is said, was arrested for selling rice to the Japanese, the price paid being $15 a bag. Mr. Afong had not been tried. The report is not believed by Mr. Afong's most intimate friends, and probably emanated from enemies.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia is quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine had to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.
