## VICTORIA'S LONG REIGN

### BRITISH RESIDENTS WILL CELE- BRATE THE DIAMOND JUBILEE.

Address to the Queen—One Day's  
Rejoicing—Religious Services Sug-  
gested—Memorial Hospital.

There was a very gratifying  
response to the call of a meeting  
of British residents, at the Ar-  
lington Hotel yesterday evening,  
to consider what steps should be  
taken for the proper celebration  
of Queen Victoria's Diamond  
Jubilee. Punctuality was well  
observed, too, it not having been  
taken for granted, as sometimes  
happens, that 7:30 means half an  
hour later. The parlor of the  
hotel and the front dining room  
were thrown together for the as-  
sembly, yet many persons had to  
find accommodation on the veran-  
das where they could be within  
sight and hearing of the chair-  
man's table.

Among those present were the  
following: Sir Robert Herron,  
Thos Rain Walker, F M Swanzy,  
Alex Young, John Phillips, Rev.  
Alex Mackintosh, Alatau T. Atkin-  
son, Robert Lishman, James Lyle,  
W F Wilson, Thos Lindsay, Tom  
May, Douglas Collins, John  
Lucas, D Logan, Thos Black, G C  
Kenyon, E B Thomas, W C Ros,  
J C Cook, D McRae, T McMillan,  
T R Robinson, Arthur Harrison,  
W Horace Wright, Thos Nott, R  
A Jordan, Geo Harris, R S Scrim-  
geour, Clive Davies, C G Ballen-  
tyne, J A Dower, Frank Auer-  
bach, Chas Lucas, J A Kennedy, Wm  
White, J W Luning, W J Gallagher,  
Clarence L Crabbe, Chas Girdler,  
Fred Leslie, W F Reynolds, C M  
V Forster, J Catton, David  
Haughes, W McKay, H Herbert,  
B F Beardmore, H Armitage,  
Thos Krouse, J W Bailey, C B  
Reynolds, R French, John Roth-  
well, R L Auerbach, Ernest Ross,  
W Lishman, W Thompson, W W  
Wright, Harry Roberts and many  
others.

Thos. Rain Walker, British  
Vice Consul, was called to the  
chair by acclamation, and W. F.  
Wilson was elected secretary.

Mr. Walker, in opening the  
meeting, said he had never in  
more than a quarter century's  
residence here seen so many  
British people assembled. Usual-  
ly in references to their sovereign  
it was enough to say "The Queen"  
to awaken enthusiasm. [Ap-  
plause.] Such an event as they  
were now called to celebrate had  
never happened before. God had  
granted their illustrious sovereign  
a longer reign than any in the  
history of the Empire. A friend  
told him that day that he had seen  
the coronation of the Queen.  
There were few living who could  
say that. The first time the  
speaker saw Queen Victoria she  
was riding with the old Duke of  
Wellington, who has been dead  
now for a long time. Moreover,  
the Queen's longest reign had  
been the best in all history.  
Kings were not in it by the side  
of Queen Victoria. [Loud ap-  
plause.] They should do the  
best they could to make  
their children remember  
Queen Victoria's longest reign.  
There was none to be compared  
with her since Alfred the Great.  
The chairman then conveyed a  
message of regret from Com-  
missioner Hawes that a previous en-  
gagement had prevented his at-  
tendance, and the secretary read a  
note from W. G. Irwin of similar  
purport in his case.

Mr. Swanzy being called upon  
made a few remarks introducing a  
plan of action. He said that the  
great event must be celebrated  
well. It had been the subject of  
a great deal of thought with some  
friends and discussed in many  
homes. He submitted a program  
for the celebration to facilitate  
the business of the meeting. 1.  
An address to the Queen to be  
engrossed. 2. On whatever day  
is chosen some sports—field or  
aquatic or both—should be held,

and in the evening a dance  
and fireworks. 2. A perma-  
nent memorial to be  
erected, its character to be de-  
cided by that meeting. A very  
considerable amount of money  
would be required to carry out  
the ambitious ideas some of their  
friends entertained.

Mr. Young was heartily in  
sympathy with the object, and he  
approved of the memorandum  
read by Mr. Swanzy. It would  
be just as much as they could  
well carry out.

Mr. Phillips said he did not  
know much about sports, but he  
would say that before going into  
anything at all it would be well  
to find out just how much money  
they should have. Sports would  
take some money. A permanent  
memorial would take a large sum  
of money, and if they could not  
have the sports as well, let the  
sports go. He never saw so many  
British together here before, and  
he thought while their hearts were  
open was the time to tap their  
pockets.

Rev. A. Mackintosh, now that  
the part of the program called  
"permanent" had come up, had a  
little to say. Following the exam-  
ple of their future king he would  
suggest a hospital for consump-  
tives or incurables. If they should  
only make the beginning of such  
a hospital they should be doing  
something permanent. Let it be  
said that in this country the  
British led the way. He thought  
they could get a decent sum of  
money to begin with. The Queen's  
Hospital trustees, so long as it  
did not touch their pockets, he  
believed would help them in the  
way of grounds. The doctors of  
that institution would give their  
services until other arrangements  
were made. They could keep  
their pockets tapped for maintain-  
ing the proposed hospital. The  
scheme need not interfere with  
sports.

Mr. Gallagher suggested a com-  
mittee to carry out the celebration  
of the holiday, so as to deal with  
one item of the memorandum at a  
time. This was later adopted, as  
will be seen.

Mr. Atkinson suggested sepa-  
rate finance committees for the  
holiday celebration and the perma-  
nent memorial.

Mr. Swanzy informed the meet-  
ing of the plan adopted in 1887,  
for raising funds to celebrate the  
fiftieth year of the Queen's reign.  
There were separate columns for  
the holiday and a fund for the  
British Benevolent Society. They  
got a permanent fund of about  
\$3000, the interest of which was  
now being used by the society. If  
they could not do all they antici-  
pated, they must drop something  
out. One committee should be  
enough and would avoid friction.

The proceedings yesterday  
drifted at times into desultory  
water, but through the skillful  
direction of the chair definite re-  
sults were reached as hereinafter  
recorded. The resolutions are  
given in their natural order, fol-  
lowed by notes of the discussions  
thereon.

It was moved by G. C. Kenyon,  
seconded by Clive Davies, and un-  
animously agreed to:

"That the British Community  
in Honolulu take suitable steps for  
celebrating Queen Victoria's Dia-  
mond Jubilee, and that an Execu-  
tive Committee be appointed by  
the chair to draw up a programme  
for the day's celebration and to  
carry out same. Such Committee  
to have power to appoint sub-  
committees from their own num-  
ber and also to fix the day on  
which the celebration shall take  
place, after consulting with the  
British Commissioner. The Com-  
mittee to report to a further meet-  
ing of British residents."

The executive committee was  
elected as follows: H Armitage,  
George Angus, B F Beardmore,  
C Crozier, A R Hatfield, George  
Harris Jr, Fred Harrison, H Her-  
bert, Dr Murray, W H Pain, W  
Roe, R S Scrimgeour, W L Stan-  
ley, T M Starkey, H E Walker, E  
H Woodhouse, Fred Whitney, H  
Wright, W W Wright, R L Auer-  
bach, O St J Gilbert, C Girdler, J  
W Podmore, W F Reynolds, T R  
Robinson, W C Sproull, E B  
Thomas, Thomas Wright, Alatau

Atkinson, T Black, George Dall,  
T C Davies, Ed Giffard, George  
Harris, A St M Mackintosh, H  
Miet, W McBryde, R C Montegale,  
J M Monsarrat, T McMillan,  
Ernest Ross, D Shanks, W G  
Singlehurst, John S Walker, Sam  
P Woods, J Lucas, C G Ballen-  
tyne, J C Cook, E W Jordan, M  
B Macfarlane, J H Soper, Wray  
Taylor and Douglas Col-  
lins. This committee will ap-  
point its own sub-committees to  
attend to such matters as sports,  
flags, fireworks, salutes, dancing,  
etc.

It was moved by W. F. Rey-  
nolds, seconded by Clive Davies,  
and carried:

"That a Committee consisting  
of Sir R. Herron, W. G. Irwin, D.  
Logan, T. May, F. M. Swanzy and  
W. F. Wilson be appointed to  
draw up an address to H. M.  
Queen Victoria congratulating her  
on the completion of the 60th year  
of her glorious reign over the British  
Empire."

It was moved, seconded and car-  
ried:

"That a fund be formed for the  
purpose of establishing a hospital,  
mainly for incurables of any  
nationality, as a permanent mem-  
orial of the completion of the 60th  
year of the reign of Queen Victo-  
ria, the control of such fund and  
hospital to be at all times in the  
hands of British subjects and  
such hospital to be known as the  
"Queen Victoria Memorial Hospi-  
tal."

It was moved and passed:

"That a Finance Committee,  
with power to add to their num-  
ber, be named by the chairman of  
the meeting; such Committee  
amongst its other duties to can-  
vass: 1st, for subscriptions for  
the general celebration and for the  
address to the Queen; 2ndly, for  
funds to be devoted to the Perma-  
nent Memorial. This Commit-  
tee to report to the Executive  
Committee the amount available  
for the general celebration, and  
also to report to a further meeting  
of British residents the amount of  
donations secured for the Perma-  
nent Memorial."

The finance committee was  
chosen as follows: F M Swanzy,  
Robert Catton, J M Dowsett, C M  
V Forster, J A Kennedy, William  
Lishman, H E McIntyre, E C  
Macfarlane, J Rothwell, Alexan-  
der Young, James Campbell, W M  
Giffard, Dr Herbert, T R Key-  
worth, L B Kerr, T Lucas, Tom  
May and Dr McKibbin.

Mr. Davies, in seconding the  
resolution for a celebration com-  
mittee, desired to bring before the  
meeting one thing that had not  
been mentioned. One special  
feature in England would be re-  
ligious services. There would be  
a procession to St. Paul's Cathed-  
ral to thanksgiving services in  
front of the edifice held there on  
account of her Majesty's physical  
disability from mounting the  
steps. The feeling on the occasion  
should be not only of congratula-  
tions to themselves for living un-  
der such a ruler, but of thanks to  
God that a sovereign so great and  
good as Victoria had been per-  
mitted to reign longer than any of  
her predecessors. Mr. Davies  
spoke with a felicity of diction  
that gave great pleasure to all  
who heard him, and was heartily  
applauded as he concluded.

Mr. Mackintosh expressed his  
gratification that a layman should  
have taken the matter up so elo-  
quently.

The chairman hoped that St.  
Andrew's Cathedral would be  
available as the center of thank-  
sgivings.

Mr. Starkey gave an opportu-  
nity to have it stated that the meet-  
ing was not considering the cele-  
bration of the Queen's birthday.

The chairman, in a reference to  
the permanent memorial item,  
said there were at least four differ-  
ent schemes proposed. One had  
been heard. He suggested ample  
discussion before decision.

Mr. Mackintosh would like to  
concentrate attention on the one  
idea of a hospital for consump-  
tives, but did not want it settled  
hastily.

Mr. Young said people would  
want to know what the object was

## THE BOARD OF HEALTH

### CASE OF DIPHTHERIA REPORTED BY DR. HOWARD AND WOOD.

Dr. Monsarrat's Report on Tubercu-  
losis—Dr. Day May Accompany a  
United States Expert to Japan.

At the meeting of the Board of  
Health yesterday afternoon there  
were present Attorney-General  
Smith, Dr. Day, Dr. Wood, C. A.  
Brown and D. Kelipio, members,  
Agent Reynolds, Secretary Wilcox  
and Dr. Monsarrat.

A letter was read from Henry  
E. Cooper tendering his resigna-  
tion as president of the Board.  
On motion it was accepted and  
W. O. Smith was duly elected to  
fill the vacancy.

The minutes of the preceding  
meeting were read and approved.

President Smith detailed the  
substance of several conversations  
he had had with Dr. Wyman, the  
Surgeon-General of the United  
States, while in Washington rela-  
tive to having a joint inspection  
of passengers at Oriental ports by  
officers who would represent both  
the United States and Hawaii.  
This would save a good deal of  
time and expense to all concerned.

Dr. Wyman at first could not see  
why the certificates of United  
States officials could not be  
accepted by Hawaiian authorities  
but, upon being shown the large  
number of vessels coming to Ho-  
nolulu which did not go to San  
Francisco, looked upon the idea  
of joint action in a more favorable  
light. Joint action was necessa-  
ry, according to Mr. Smith's ideas,  
to protect Hawaii from the  
dangers of infection through  
cabin passengers, who were book-  
ed through from Oriental ports to  
San Francisco. These people  
went ashore at all the ports en-  
route, made purchases in stores  
and mingled with all sorts of peo-  
ple in the hotels. It was no use  
inspecting steerage passengers if  
those in the cabins were free to  
come and go as they pleased. The  
day before he left Washington he  
had received a letter from Dr.  
Wyman giving him the gratifying  
intelligence that the United States  
medical authorities would detail  
an expert officer of the Marine Hos-  
pital Service to visit Yokohama and  
Hongkong and report on the  
feasibility of joint inspection.

Mr. Smith then gave the Board  
a description of the quarantine  
station at Angel Island, San  
Francisco, and suggested the  
adoption of several improvements  
on our present appliances for  
fumigation which he had noticed  
there.

Coming down to local matters,  
Mr. Smith referred to the present  
outbreak of smallpox at the quar-  
antine station. The situation as  
he had looked into it clearly de-  
monstrated that our system of  
quarantine is insufficient. We  
have got to do something more to  
guard against smallpox, the  
plague and kindred evils. In the  
present instance it was possible  
that Dr. Graham, the Hawaiian  
inspector at Kobe, did not do his  
work thoroughly. If he did and  
there is no reason to believe  
otherwise, then either the ship or  
the crew were infected or it might  
be that the infection was conceal-  
ed in some of the clothing that be-  
longed to either passengers or  
crew. It was of the utmost im-  
portance that we should know  
that our health officers in the  
Orient are doing their work  
thoroughly. He would in this  
connection offer the suggestion  
that Dr. Day be selected to ac-  
company the United States medi-  
cal official on his trip to Japan  
and China. The expense would  
be very little and the possible  
benefits great. The matter had  
been brought up in the Executive  
Council and was favorably viewed.

He would not ask the members to  
act on the proposition now but  
would bring it up at a future  
meeting.

Branching off to the subject of  
vaccine virus Mr. Smith said he  
had conferred with Dr. Wyman  
and others as to the use of Japan  
virus. He had endeavored to  
warn them against its use, the  
making of the virus being farmed  
out by contract by Japanese offi-  
cials. He had told of the good  
results from New Zealand virus  
and advocated its use in prefer-  
ence to that made anywhere else.

Mr. Smith then followed with  
details of an interview he had had  
with Dr. Hidenhaur, the quaran-  
tine officer at New York, and Dr.  
Salmon of the Bureau of Animal  
Industry at Washington. From  
the latter official he had learned  
much about the treatment of tub-  
erculosis in cattle in the United  
States and that the authorities  
generally will not pay damages  
for condemned cattle but only for  
those in which a post mortem ex-  
amination showed a mistake had  
been made in the condemnation.

Getting back to San Francisco  
again, the Attorney-General next  
told of meeting the agents of the  
Pacific Mail and Occidental and  
Oriental steamship lines and of a  
conference he had had with them  
on quarantine matters. The in-  
terests of these companies was  
identical with that of Hawaii in  
taking precautions against the  
cholera and the plague, both of  
which might be expected in Japan  
as the summer came on. The  
agents had no particular com-  
plaints to make against Ha-  
waiian officials, but they thought  
that Dr. Eldredge of Yokohama  
was somewhat of an alarmist.

Dr. Monsarrat's report from the  
slaughter houses was read and  
approved.

Inspector Kelipio reported the  
arrival and inspection of 40,000  
fish at the market during the last  
week.

Dr. Myers reported 68 exami-  
nations under the Act to Mitigate.

The quarterly report of the  
Maulalani hospital was read and  
approved, also the report of the  
Maternity Home and the payment  
of the usual subsidy ordered.

Dr. Oliver presented a long re-  
port on the Leper Settlement for  
the quarter ending March 31st.

Dr. Howard in person reported  
to the Board the case of a three-  
year-old child which had died  
while under an operation at 10  
o'clock in the morning at the  
hands of Dr. Wood and himself.  
The child had been ailing for two  
or three days but had received  
no medical attention until  
brought to Dr. Wood's office. It  
was decided that an operation  
must be performed on the spot to  
save the child's life, but that it  
had died almost immediately up-  
on the tube being placed in its  
throat. The child had every  
symptom of diphtheria in an ad-  
vanced stage. He had saved some  
of the secretions from the child's  
throat and submitted them for  
bacteriological examination to  
Dr. Alvarez.

Dr. Alvarez said that under the  
microscope the germs in the se-  
cretions showed every charac-  
teristic of diphtheria germs  
and his present opinion was that  
they were such. He was cultivat-  
ing a number of the germs but  
the process would not be com-  
plete before 3 o'clock today. At  
that time he could tell positively  
and would report to the Board.

President Smith gave orders to  
Agent Reynolds to fumigate the  
house in which the child had  
lived and take all necessary pre-  
cautions, as well as to ascertain  
who had been about the child.

Dr. Howard agreed to visit the  
house daily for a few days and  
keep a good lookout for other  
cases.

The usual letter from Super-  
intendent Meyer of the Leper  
Settlement. His suggestion that  
an old kokua be allowed to pass  
the remainder of his days at the  
settlement was agreed to. The  
man was 85 years old and  
had been 14 years a kokua.  
He also reported the escape and  
subsequent recapture of two pri-  
soners confined in the settlement  
jail for larceny.

Sheriff Carter sent over three  
samples of water taken from the  
Nawiliwili stream, asserting that  
it was so contaminated by the

molasses and refuse from the Li-  
 hue mill that it was unfit to drink.  
 The Board after looking at and  
 smelling the contents of the three  
 "square faces" submitted rather  
 agreed with Sheriff Carter but  
 thought the proper way was to  
 submit the matter to Dr. Watt,  
 the government physician at that  
 place, and have him examine into  
 and report on the condition of the  
 water and it was so ordered.

President Smith gave the Board  
 some reminiscences of complaints  
 from the same cause some years  
 ago, when the water got so bad  
 that even the little fishes turned  
 up their little toes and died in  
 preference to drinking it.

It was decided that the expenses  
 for salaries, etc., of Drs. Shaw and  
 Monsarrat in examination for tub-  
 erculosis in cattle should be taken  
 from the appropriation known as  
 the General Expense Pay Roll as  
 long as it lasted. President Smith  
 said the Board must be careful  
 about expenses, as there was only  
 \$800 left in the general fund to  
 last till January 1.

Dr. Monsarrat reported verbal-  
 ly that the inspectors had already  
 found three head of cattle affected  
 with tuberculosis. He wished to  
 know if he was to condemn them  
 all or one at a time. The Board  
 decided that the three head should  
 be segregated from the herd and  
 one of them killed. If the post-  
 mortem demonstrated that the  
 inspectors were right in their  
 diagnosis they could then go  
 ahead with the others one at a  
 time. The inspectors were to  
 ascertain the value of each animal  
 killed and also put their own ap-  
 praisal down. In all cases care-  
 ful records of the proceedings  
 were to be kept.

President Smith said the Board  
 was liable to put in an appearance  
 at any time. What would be done  
 about cabin passengers? He was  
 informed that matter had been  
 already settled by a resolution  
 passed in his absence. They would  
 not be allowed to land until the full  
 period of 18 days had passed from  
 the time of leaving the last infected  
 port.

The attention of the Board  
 was drawn to the fact that no re-  
 ports had been received from Drs.  
 Howard and Hildebrand on the  
 vaccination of school children.  
 The Board concluded it would  
 like to know something about it  
 and the secretary was instructed  
 to notify the two physicians to  
 send in reports.

The matter of vaccinating child-  
 ren in the Kindergarten schools  
 was also brought up but not acted  
 on.

A letter from B. F. Dillingham  
 in relation to the proposed ceme-  
 tery at Halaia was read but  
 action deferred until the  
 required land has been secured  
 by the government.

President Smith then said:  
 "There are two or three little  
 matters I would like to bring up  
 in executive session," and, turn-  
 ing his head toward the re-  
 porters, continued, "You fellows  
 will have to leave." Upon a  
 general demurrer being put in by  
 the reporters Mr. Smith continued:  
 "You fellows wouldn't kick if you  
 saw how newspapermen were fired  
 out of the executive sessions of  
 the United States Senate." As  
 the principal matter to be brought  
 up in secret session had been al-  
 ready published in the EVENING  
 BULLETIN the writer did not feel  
 very bad over being fired out.

 At least we think we've got 'em.  
 For to the hour of going to press  
 No more had hit the bottom.

"Isn't he a funny insect?" said  
 Wallie, looking at the centipede  
 as it walked across the door.  
 "Awful funny. Looks like a parade,  
 doesn't he?" said Mollie. "Yes,"  
 replied Wallie. "He must have  
 been well drilled to march so  
 well."

"At least," said the one who  
 was arguing with him, "you must  
 admit that the average of longev-  
 ity is on the increase." "Of  
 course," said the confirmed pes-  
 simist. "The people are getting so  
 blamed poor that they can't hire  
 doctors."

"I don't believe it is good for  
 John to carry a cold lunch, do  
 you, doctor?" "What does he  
 carry?" "Five hardboiled eggs  
 and a mince pie." "That's all  
 right." "Don't you think it hurts  
 him to carry a lunch to school?"  
 "No. Carrying it home is where  
 the hurt comes in."

**THE CRETAN QUESTION.**

Mode of Peaceful Settlement that May Be Adopted.

On the 15th inst. the London Times published the following dispatch from its Athens correspondent: The nub of the situation is the presence of Colonel Vassos and his army in Crete. The powers insist on withdrawal, but neither King George nor the Government cares to comply.

It is believed, however, that the difficulty may be surmounted in the following way: The first step would be the withdrawal of the Turkish forces from Crete. This would not only remove the suspicions of the Cretans, but would make it possible for Colonel Vassos and the army to return from Crete with a certain amount of prestige. The prior retirement of the Turkish army would be more offensive to the Sultan than the simultaneous withdrawal of both armies, inasmuch as he has intrusted Crete to the powers, and the arrangement to be reached would be one concerning him and them exclusively.

The order for the recall of the Greek army from the frontier would immediately follow. Greece having thus abandoned her contumacious attitude the powers might intrust her with a mandate to occupy Crete in the name of the Sultan, as when Austria received a mandate from Europe to occupy Bosnia and Herzegovina.

Thus legally empowered, Greece could send an army under a commander to Crete to occupy the interior of the island, while the international occupation supports might continue until these measures had been taken for the repatriation, or possibly the emigration of the Mohammedan refugees. Eventually the Greek occupancy would become general, the powers having in the meantime decided upon the form of a new Constitution, with such guarantees as might be demanded by Europe for the protection of the Mohammedan minority, which would be readily accorded by Greece.

**Citizens Attention.**

These are days of considerable anxiety and perplexity to all who have possessions or other interests in the Republic of Hawaii, and it is time that our citizens came to a mutual understanding on several important issues. The prospects for Annexation appear at present vague and indistinct, and our destiny cannot be foretold with certainty. There are those, also, who still fondly cling to the hope of a return to the old order of things, and who cannot be persuaded otherwise, yet this outlook appears far more hazy than that of Annexation even to the most hopeful disciples of the Monarchy. But, fortunately, in the midst of all this uncertainty there is solace in the fact that Buffalo Deer has come to stay and that patrons of all sorts and opinions may equally share the benefits of its invigorating and sustaining properties. We are moreover assured that this favorite

Mr. C. W. MACFARLANE:—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. ## JAPAN'S ACTION.

In addition to the information forwarded by the Hawaiian Government's medical inspector in Japan regarding the stoppage of emigration to Hawaii, this Government has received advices of the same tenor from its Consul at Tokio. Minister Irwin was absent from the capital. There was great excitement in Japan over the arrival of the steamer Shinshu from Honolulu with her hundreds of passengers refused a landing on Hawaiian territory. A report was published on April 12, with evidently official foundation, that two war vessels were to be dispatched forthwith to Honolulu. On the following day, however, it was announced that the report was premature, and the tone of the press indicated that it was doubtful if war vessels would be sent at all for the present. The Yokohama English press are helping to warm up public opinion against Hawaii, calling the action of this Government illegal. One significant statement is made, as indicating the class of some of the Japanese sent here. Referring to those who came by the last steamer, the Kinai, most of whom have been sent home by her, it is said that they came mostly from Kumamoto Prefecture, and that fact is a source of apprehension to the Japanese Foreign Office, "for," as one paper puts it, "they being excitable and hot-headed may not quietly submit to rejection at the hands of the Hawaiian Customs." As a matter of fact, they did not quite quietly submit last Saturday, but they went aboard the steamer all the same. To show what a lot of trouble has been wasted off—with danger of infection besides—by the action of the board here, it may be stated, from papers received, that the steamer Hakusan was, prior to the interdiction on emigration, destined to sail for Honolulu with another crowd in the steerage. Also, that "the Kobe quarantine station is crowded with two thousand emigrants either sent back from Hawaii or were about to start for that place." After the return of the Shinshu, emigration agents, posted off with complaints to the Government, were agreeably surprised on arrival at Tokio to find that the Government was thoroughly alive to the occasion and had ordered two war vessels to Honolulu. This order was countermanded later. Probably the Japanese Government concluded, upon cooler counsels, that a naval demonstration in Hawaiian waters would make a sensation at a capital a little east of Hawaii which might produce a surprising counter diversion in this neighborhood.

According to the Yomiuri, a vernacular paper of Japan, "Mr. Hoshi, the Japanese Minister at Washington, in compliance with the instructions of the Home Government, has carried out inquiries as to the attitude of the American people and Government on the question of Hawaiian annexation, and that he has discovered, so far as he can judge, that incorporation is improbable." It is often the case that diplomats are purposely kept more in the dark than other people about matters in which their own countries are either not directly interested or have an interest that is not in harmony with the policy of the Government to which they are accredited.

## THAT SECRET SESSION.

Very much of Rumor and Very Little Fact Brought Out.

The little matters that Attorney-General Smith had considered in the secret session of the Board of Health yesterday afternoon were the reports mentioned in yesterday's BULLETIN, which reflected severely on the manner in which quarantine regulations were being observed at the Castle premises. For all that was said and done in the meeting it might just as well have been public, for at least two of the reporters that were fired out knew more about the affair than the members, with one exception.

C. A. Brown told the Board what he knew of the way the quarantine was being conducted, some things he had observed himself and some that he had heard. He had seen Minister Cooper out in the road once on his wheel and wanted to know why this was thus. He also told of other matters in the nature of personal grievances. It was settled that when Dr. Wood paid his daily visit to the premises he should interview those in quarantine on the matters brought up. This Dr. Wood did last night with the following results:

That each and every person questioned denied most positively having been outside the quarantine grounds with the exception of Minister Cooper who explained that he was learning to ride a wheel and that in coming down the path leading to the road he had too much steam on for a novice and had gone into the road in order to turn round without accident. That he saw no person in the road at the time, but supposed from what he had since heard that C. A. Brown had been watching him.

It is positively denied by those in quarantine and by the guards that any outsider has entered the grounds since the visit of Mr. Reynolds, the agent of the Board of Health, with the exception of Dr. Wood.

It is positively denied that anyone of the party has shaken hands with any outsider, more especially President Dole, the nearest approach to anything of the kind being the throwing of some cigars to Chester Doyle over the hedge by Bert Peterson.

It is denied that Minister Cooper has held any levees on Sunday or other days. Persons passing along the road have passed the time of day with those inside and have occasionally stopped and entered into conversation but it has always been at such a distance that the transmission of contagion would be impossible.

The above is the substance of the report made by Dr. Wood to the Attorney-General last night after his return.

This morning C. A. Brown received a package and a very scurrilous letter, supposed to be from some party or parties in the quarantined premises, which has been laid before the Attorney-General and will likely lead to more trouble and investigation.

Costs nothing to find out whether Schilling's Best tea, coffee and baking powder are good enough for you.

## Have You An Account?

This is a serious question, one at which some folks take offense, yet salesmen are under the necessity of asking it. Some folks deal near home, settle infrequently, never investigate to see whether they pay more than they should and too often allow their accounts to go long over due. If you don't care what the family expenses are it's a poor way to do if you want to leave your children in affluent circumstances when you are gone. Now it is quite an advantage to have an open account at a well-known house, who can execute your order promptly. Often persons say they don't want an account and will pay in a few days. But we cannot keep memoranda of charges; it isn't safe or good business. The stock found in ordinary stores is usually stale, uninviting and inferior, while the stock in our store is turned so frequently and so carefully watched that it is at all times fresh. THE NATIONAL FEED BOX is a perfect device for slow feeding in the stables or on the road and is a boon both to the horse and his owner. It is the best device yet invented for feeding all kinds of grain, chopped food, bran mash, water or medicine.

It is made of steel, practically indestructible. The follower slides on a malleable iron rod, riveted to the box, our latest invention. Finely galvanized. Easily Cleaned. Pure and Odorless. Light and Portable. The only box for campaigning. Used and approved by owners and drivers of the fastest horses in the world. Especially adapted to the use of fire and police departments, stock farms, and public and private stables.

Owners and drivers of horses entered for the 11th of June races should see that their animals are provided with these feed boxes. They will be sure winners if they do. Betting men should not invest a dollar on a horse that has not been fed from the NATIONAL FEED BOX. They will be sure losers if they do.

Horsemen generally and every man, woman or child who owns a horse is invited to call and see them at

## Bubbles or Medals.

"Best sarsaparilla." When you think of it how contradictory that term is. For there can be only one best in anything—one best sarsaparilla, as there is one highest mountain, one longest river, one deepest ocean. And that best sarsaparilla is—Ayer's. There's the rub! You can measure mountain height and ocean depth, but how test sarsaparilla? You could if you were chemists. But then do you need to test it? The World's Fair Committee tested it—and thoroughly. They went behind the label on the bottle. What did this sarsaparilla test result in? Every make of sarsaparilla shut out of the Fair, except Ayer's. So it was that Ayer's was the only sarsaparilla admitted to the World's Fair. The committee found it the best. They had no room for anything that was not the best. And as the best, Ayer's Sarsaparilla received the medal and awards due its merits. Remember the word "best" is a bubble any breath can blow; but there are pins to prick such bubbles. Those others are blowing more "best sarsaparilla" bubbles since the World's Fair pricked the old ones. True, but Ayer's Sarsaparilla has the medal. The pin that scratches the medal proves it gold. The pin that pricks the bubble proves it wind. We point to medals, not bubbles, when we say: The best sarsaparilla is Ayer's.

## ARRIVAL OF THE DORIC

## SPECIAL MEETING OF THE BOARD OF HEALTH.

Japanese Government Has Stopped All Emigration to These Islands Pending Investigations.

The Occidental liner Doric made her appearance off port shortly after 6 o'clock this morning. She was boarded by Dr. Day, the port physician, shortly afterward, and was found to have a clean bill of health. There was no sickness of any kind on board. The vessel was allowed to come up to the wharf in strict quarantine, pending action by the Board of Health. The Doric had over sixty through passengers in her cabins, besides five for this port and 551 Chinese in the steerage.

A special meeting of the Board of Health was convened shortly after the vessel docked. Dr. Eldredge reported that smallpox in Yokohama and throughout the Empire was rapidly decreasing. For the two weeks previous to the departure of the Doric there were only 27 cases in Yokohama as against 123 for the two weeks before. Dr. Eldredge also informed the Board that the Japanese Government had peremptorily stopped all immigration to Hawaii until an investigation could be made into the circumstances attending the return of immigrants on the Shin-shiu maru and Sakura maru.

In view of the fact that many of the Doric's through passengers had boarded the vessel at Yokohama, the Board decided that none of them could be allowed to land here. The five passengers for this port were allowed to land, after being fumigated on condition that they report daily to Dr. Day as long as required. Their effects will also be fumigated before being given to them.

Through Dr. Day Captain Smith of the Doric offered to remain in port until tomorrow if his passengers were allowed to land but the Board could not see its way to granting the request. The vessel will consequently sail at 6 o'clock this evening. Mail must be deposited in the post-office one hour previously.

The Sunlight is  
Glistening on  
Those "Orange Rims,"

but unfortunately for us it is not glistening on them in this country, as our shipment of STEARNS wheels was put on the "W. H. Dimond," so is not due here for a week. Our COLUMBIAS also are still out of wheeling range, as they got to S. F. the day before the steamer sailed, and no more freight would be received, but they will come along soon, and in the meantime we want you to know that we received 97 RAMBLERS by yesterday's steamer, and can fit you out with either a '96 or '97 wheel, and we know we can suit you. The 1896 RAMBLER is the bargain of the year and the chance to buy a well known high grade wheel for \$75 and \$80 will not last long, as we are informed by the makers that this is the last lot of '96 wheels they can furnish, for, as they write, "our sales have been phenomenal, and you took the last '96 wheels we had in stock."

WE RENT BICYCLES by the hour, day, week or month, and we rent high grade new wheels, such as RAMBLERS, STEARNS, and COLUMBIAS, so if you want a short ride or a long ride, want to ride single or want to ride double, drop in and see how nicely we can fit you out. You will get just as good a ride as if you telephoned us, and we will send your wheel to your door. Your chance to buy a '96 RAMBLER cheap will only last a few days, don't miss it.

## ALL MIXED UP.

The Tramp Printer Didn't Do a Thing to the Woodville Blower.

When the editor of the Woodville Blower got sick and had to leave town for a week, he got Randolph Horton Tucker to get out the paper. Now, Mr. Tucker was not an expert editor, but he could write nice little verses and sweet smelling society items and said he could manage the office first rate. He wanted to show a little extra enterprise, so he made a big spread on local news and wrote up the notices for the advertisers in fine style. When his copy was all in, he went home light hearted and happy.

But alas and alack! The tramp printer, who was the foreman, printer and pressman and who had not been fully sober for a month, got the news and business notices all mixed in making up, and when The Blower appeared items like the following greeted the astonished citizens:

"Go to Smith's for fresh Jersey butter. Guaranteed to be strictly all wool."

"Wanted to exchange a fine dun colored, Shorthorn piano, perfectly gentle, for an upright cow in good tune."

"Stabbs & Tabbs, dealers in green hides, rags, scrap iron, etc. Meals at all hours."

"Reward of \$10 will be paid for the arrest and detention of one of the most desirable residence lots in town. When last heard from, was working on a steamboat in Alabama."

"Get your meals at the Saide House. Fresh steak and hash every 30 days, made of the finest corrugated steel and warranted to last a lifetime."

"Some very artistic fresco work has just been done on the interior of Judge Hamp Rollins, who was again elected justice of the peace last week."

The effect of this breezy issue of The Blower was such as to cause Mr. Randolph Tucker to abandon journalism and seek the more congenial calling of book agent in another state.—Atlanta Constitution.

Where Thackeray Wrote "Vanity Fair."

Thackeray next removed to 13 Young street, Kensington (rechristened now 16). His family came over from Paris to keep house for him. His London friend, Mr. James T. Fields, has given an amusing account of his first visit to it, when Thackeray playfully told him to go down on his knees, as "Vanity Fair" was written there. My first glimpse of the structure was before this time, on his taking possession and when that famous book was still in embryo. On turning to the left, coming from a walk along the parks, out of High street into Young street, and suddenly catching sight of the two bulging half towers which flank the central doorway, he thought the house had the air of a feudal castle, and exclaimed, "I'll have a flagstaff put over the coping of the wall, and I'll hoist a standard up when I'm at home!"—Eyre Crowe, A. R. A., in Scribner's.

## A Big Snake.

One of the snake stories of antiquity is told of the Roman army under Regulus during the first Punic war. Its course was stopped near a small stream in Africa by a serpent 60 feet long, and the doughty Romans, though not afraid of the Carthaginians, were dismayed by this African "serpentine," which exceeded in size any thing they had ever seen. Military engines were brought up, and the snake was destroyed. Its skin was sent to Rome and preserved there in a temple for over 400 years.

## Orange Juice.

Singers consume large quantities of oranges, the juice of this fruit being considered specially good for the voice. It is known that it will assuage the thirst for liquor, one method of reform in some of the inebriate asylums being the free consumption of oranges whenever the desire for intoxicants is felt.

## A VOICE FROM THE BLEACHERS.

Local interest in the cricket games as reflected from the "bleachers" is increasing. During Saturday's games the "bleachers" were particularly vociferous and kept the players under a running fire of good natured banter. One small boy brought down the crowd by advising the batsman to "go buy a case of Rainier Beer and get some life in you." The crowd applauded the remark, knowing that Rainier Beer is celebrated for its invigorating and strength-giving propensities. On tap or in bottles at the Criterion.

**Fire and Life Insurance Agents****How Servants Caps Should Be Made.**

The sweeping cap is made of gingham and it is not beautiful. It is circular in shape and entirely covers the hair of the wearer. It is purely utilitarian. It is made of material heavy enough to prevent the dust from filtering through.

The waitress' cap may be either square or triangular. In either case a point lies directly above the middle of the forehead of the wearer.

The nurses' caps are round, not unlike the sweepers' in shape. They make up for their simplicity of form by their elaborate material.

**How to Make Deviled Sardines.**

Take some good sized sardines and remove the skin and bones, pound them in a mortar, with a little butter or oil, some chopped parsley and tarragon leaves, a half pound of cloves, a blade of mace and a few chives. Season plentifully with cayenne and a little salt and serve either on hot fried toast or in tiny molds previously lined with a layer of fried bread crumbs sprinkled with warm butter. Fresh oysters are delicious deviled in the same way.

**How to Clean Lamp Wicks.**

When lamp wicks become hard, work badly and emit an offensive odor, boil them in strong soap suds, rinse and wipe dry.

When you wish to extinguish a light, turn it down quite low; then with a light breath from the top of the chimney put it out. Thus you will avoid danger and a disagreeable odor.

**How to Select Shades of Green.**

This color never should be chosen without being seen by artificial light. Pale olive and other shades of green are much used for wall papers, furniture stuff and draperies, but some of the colors that are beautiful in the sunlight are a gloomy brown shade at night.

**How to Wash Oilcloth.**

After washing oilcloth and linoleum be sure to dry it properly. If left damp, it will speedily rot and finally become totally spoiled. It is a great mistake to use too much water for washing it. The cloth should be wrung out and passed over the surface.

**He Knew What He Was About.**

Among the stories told to the deserved credit of such lawyers as have no scruples against distorting and concealing the truth in order to shield persons whom they know or have every reason to believe to be guilty the following is entitled to a good place:

An attorney had occasion to defend a man who was justly accused of counterfeiting paper money, and he manipulated the case with such skill that he secured the acquittal of the prisoner. When the lawyer and his client were alone together again, the counterfeiter overwhelmed the lawyer with thanks.

"And now," said he, putting his hand in his pocket.

"And now," the lawyer took up the sentence, "I will have my fee, and I will take it in hard currency, not in bills, if you please."—Youth's Companion.

**Reasons Why.**

There are two reasons why people are now paying car fare all the way from Waikiki to the

Palama Grocery and back. Reason 1. It is the only place on the Islands where the celebrated Salvation Army tea is sold. Reason 2. ### MARINE NEWS NOTES

#### THE STEAMSHIP DORIC FROM THE ORIENT.

A Dull Day Along the Docks—The Ship Susquehanna Now Due—Passengers.

The Kenilworth began loading this morning.

The steamer Likelike sails at 5 p.m., with chief officer Sachs in command.

The S S Doric's time from Yokohama was 9 days 9 hours and 35 minutes.

The steamers Mauna Loa and Noeau are chalked up to sail at 10 a.m. tomorrow.

A spare propeller for the steamer Mauna Loa was landed from the Archer this morning.

Tomorrow, high tide large 10:08 p.m.; high tide small 10:10 a.m.; low tide large 2:08 p.m.; low tide small 4:25 a.m.

The outgoing mail per S S Doric closes at 5 p.m. today. The steamer leaves for San Francisco about 6 p.m.

The S S Doric brought a rumor that two Japanese warships were on their way to this port. The general opinion is that there is "nothing in it."

The inward cargo of the Alden Besse will be all out in a couple of days. The Besse will load as quickly as possible and set sail for San Francisco.

The big American ship Susquehanna is about 44 days out from Japan. She is eagerly looked for by people on the waterfront. The big vessel is coming here to load for New York.

Guy Kelly the popular young purser of the Inter-Island Steamship Co has been taken down sick and is now confined to his bed. It is to be hoped he will soon recover.

The S S Doric, Harry Smith commander, arrived from the Orient at daylight this morning. She left Yokohama April 13. For Honolulu there were five cabin passengers and 551 Chinese, and 1676 packages of merchandise.

#### Indian Ocean Sharks.

Although the waters of the Indian ocean are filled with voracious sharks, the inhabitants of the numerous islands near Ceylon swim about in the water with impunity, the sharks refusing to molest them, while a stranger would be instantly devoured.—Exchange.

#### Battle With Wreckers.

Philadelphia, April 7.—The Norwegian steamer Nuergly, which arrived here tonight from Port Antonio, Jamaica, landed at this port Captain Oscar Elleffen and nine men, part of the crew of the Norwegian bark Prince Frederick, which struck on a coral reef about 120 miles west-northwest from Jamaica.

The vessel was boarded by half-clad savage wreckers, who threatened the lives of the unfortunate crew. For four days and nights Captain Elleffen and his crew stuck to the wreck and repelled the savages at the point of a pistol but were finally compelled to give in and allow the wreckers one-half the plunder.

#### PASSENGERS ARRIVED.

From China and Japan, per S S Doric, April 22—Mrs J H Pettie, Miss E W Pettie, Miss C H Pettie, Miss F E Griswold, Miss N Stewart and 551 Chinese.

#### Original Bock.

The Warrimoo that is expected here April 16 from Victoria will bring a large consignment of Original Bock Beer for the Anchor Saloon. While there has been Bock Beer on the Honolulu market, it does not begin to compare with the consignment that the Anchor will have on tap after the arrival of the Warrimoo. The reason for this is that the Bock that has already arrived is too fresh. The Bock Beer in the States is made at the first of the year and kept till May 1. The consignment to arrive is some of the original beer and is guaranteed to be better than any Bock ever imported. Wait for it. It will be on tap at the Anchor after the arrival of the Warrimoo.

#### BANKRUPTCY CLAIM OPPOSED.

Other Matters on File in the Judiciary Office.

Cecil Brown, a creditor of E. R. Hendry, bankrupt, has filed an objection to the claim of Mrs. E. R. Hendry on the grounds that it is illegal, based on no valuable consideration, fictitious, etc.

The Hawaiian Pork and Packing Co. has filed a joinder in demurrer in the suit of E. C. Winston against it.

Henry Smith has filed his final account as trustee for John Sumner Ellis, a minor, with a petition for discharge. He shows receipts of \$1359.38, and payments of \$889.53, leaving a balance of \$469.79. The ward claims to be now of age.

Judge Carter has approved the account of Raymond Reeves, guardian of the Hawaiian minors, ordering his discharge as to Rose Keola nee Machado and Julia Machado, who have come of age, but to retain the property of Henry and Mary Ann Machado, still in their minority, and file a new bond therefor in \$1500. There is \$1158.55 due five children. The estate is valued at \$5000, consisting of real estate in Honolulu.

Adjudication now is on the report of D. P. Kellett Jr. as master.

Judge Carter yesterday afternoon decided in favor of the respondents—"the new company"—in the Chinese theater controversy for possession. A contract made by Loo Chit Sam as a director of the old company was produced which settled the matter with the Court. Mr. Castle for petitioners noted an appeal. Mr. Magoon for respondents, with two policemen, acted on the decision last night by taking possession of the Theatopian temple on the spicy marshes of Aala.

#### Surprised Him.

A surprise party was tendered to A. H. Jackson at his home on Punchbowl street last Saturday evening. Dancing was indulged in until eleven o'clock, after which refreshments were served on the lawn. Those present were Miss Fair, Miss Horn, Miss Brown, Miss Rose, Hilary Morse, Fred Angus, Mr. Matthews and a number of others.

### VICTORIA'S LONG REIGN.

Continued from 1st Page.

to be when asked to subscribe toward the memorial. He therefore moved the resolution for a hospital for incurables. In arguing that it should not be limited to British, he told of a case in his knowledge not far from the place of meeting, of a man badly needing the shelter of such a hospital. Such cases ought to be taken into consideration. If the resolution was adopted he would put his name down for \$2500. [Applause.]

The chairman told of the great interest taken in the matter by a lady resident, who had formerly had much experience as a hospital nurse.

Mr. Tinker wanted to know if it would be a free hospital. If so, might it not conflict with the Queen's Hospital?

Mr. Thomas—It is for incurables; there will be no competition. [Laughter.]

Mr. McMillan urged that the directors should be exclusively British. This would never be a British country, and there was danger that the hospital, under certain circumstances, might lose its name.

Mr. Roe raised a roar of laughter by remarking that "this is a British country run with the assistance of Americans."

The chairman spoke in warm terms of Mr. Young's munificence.

At the conclusion of business about 9:30, a vote of thanks was carried with applause for Mr. Walker's able services in the chair. Mr. Krouse was also cordially thanked on motion for the use of the rooms for the meeting. The first stanza of "God Save the Queen" was sung, as the meeting adjourned subject to the call of the chair.

#### NO TRUTH IN THE REPORT.

Colonel Fisher and Major Jones announce the Battalion Vacation scheme.

Major J. W. Jones called on the BULLETIN this morning and asked to be put on record as saying that there was absolutely no foundation for the report in the morning paper that the officers of the Regiment were talking over the matter of giving each battalion of the First Regiment a vacation of three months alternately. The matter had never been discussed by any officer in his hearing.

Colonel Fisher was seen later and corroborated Major Jones. He said that such an idea if carried out would do away with all discipline and destroy the utility of the regiment. No such orders would ever be given as long as he was at the head of military affairs.

Major McLeod said he had heard nothing of any such proposition.

#### Isolation of the Plague.

Health Officer Doty of New York received a report recently from the agent appointed in Bombay to look after the plague arriving at the Suez canal from India. The report says:

"From Bombay I learn of the apparently marvelous manner in which the bubonic plague isolates itself. The natives live mostly in a large building, divided into flats. Each flat consists of a set of rooms divided by a passage or corridor, at the end of which is a common lavatory. It has been known, over and over again, that several persons suffering from the plague have been confined in one room of a flat, and yet not one other individual living in the same flat has caught the disease. Finally I may mention that Rogers Pasha, inspector-general of the sanitary department of Egypt, has just returned from Bombay, having made a thorough study of the sanitary condition of that city. He is of the opinion that the Egyptian authorities have every chance of being able to prevent the introduction of the disease."

Sister—Why don't you marry her? Brother—I'd like to, but unfortunately she has an impediment in her speech. Sister—What is it? Brother—She can't say "Yes."

The Comedian (on the defensive)—But you know there are only seven real jokes in the world, it is said. The Soubrette—I know; what puzzles me is that you have never happened upon any of them.
