KUHIO ADVISES HIGH TARIFF SUPPORT SUGAR MAKES ANOTHER SHARP ADVANCE

For Six Delegates And Protection

Editor Evening Bulletin:—In regard to the April convention to select delegates to the National Republican Convention, I want to advise the election of six delegates, of which the two included in the call should be designated as first. The other Territories are each proceeding to elect six delegates, and a strong effort will be made to seat them; should the convention decide to seat six, Hawaii would need to be prepared with her six delegates ready on the scene. I have talked with many of the friends of Hawaii in Congress, and am convinced that our delegation should not be instructed for any particular candidate. I do, however, strongly advise that the delegation be definitely instructed to vote only for such candidate or candidates as most strongly stand for the American protective principle. There is tariff revision ahead of us, and that will then be the all-important thing for Hawaii. It would therefore seem to be obviously the part of consistent fairness and sound policy for Hawaii to openly throw what little influence she has with the strongest advocates of Protection within the party, so that we can consistently ask for their friendly interest in the days of tariff revision. Very truly yours, J. KALANIANA'OLE, Delegate to Congress.

PEARL HARBOR IS GAINING FRIENDS

March 5, 1908. Much credit is due Mr. Bates for the generalship he displayed in handling the measure, both in his sub-committee and in the meeting of the whole Naval Committee. Captain Hobson, Mr. Thomas, Mr. Lousenslager and others of the committee also gave us valuable help. Mr. Lilley was not able to be present at the meeting. The tide of sentiment in the committee was turned, primarily by the vigorous and persistent work of our friends in the House and in the committee. Congress is deciding this class of questions for itself this year. The threatened conflict in the Naval Committee between the respective advocates of floating docks and a graving dock was so shaped up that it was turned to our advantage in the first round. The advocates of the bill for two steel docks started in to oppose the Bates bill, fearing it would defeat their own; when assured by our supporters that it was not the intention to oppose their measure they withdrew opposition and the favorable report was ordered on the Pearl Harbor bill. The committee then voted to report the bill for two floating steel docks. If this measure is passed, one of the floating docks will be sent to Pearl Harbor at least until reporting of the bill. (Continued on Page 4.)

RAISER OF MONEY ORDER ON TRAIL

Samuel Lohiau is Charged With Getting \$30 on a \$3 Bill. The trial of Samuel Lohiau, one of the schoolboys accused of raising a \$3 money order to \$30 and cashing it, began before Judge Dole this morning. Another boy named Lono was the principal witness for the Government. He is the boy whose credit the money order was sent. On the stand he told the story of the crime. According to his story, Lohiau was the prime mover in the scheme to defraud the Government, being the one who suggested raising the order to \$30 and who actually carried out the plan. The whole thing was done at the Hilo Boarding School, where the boys were both students. Before raising the order he said Lohiau practised on other paper for about five minutes. After the money order had been raised, Lohiau told Lono to go and cash it, which he did. Heavy sentences were handed out by Judge Dole this afternoon to the two Hilo distillers who had their place of operation on the Alifan premises in Nuanuu valley. Hishimoto, the principal, was sentenced to pay a fine of \$100, a \$500 penalty, the costs of court, and to spend six months in jail. Kofu's sentence was the same, except that he must go to jail for only four months. Secretary E. A. Mott-Smith returned this morning on the Claudine. He is pretty well worn out and is glad to be back again. U. S. Deputy Marshal F. L. Winter was among the arrivals today on the steamer Claudine. F. T. Baldwin came down on the steamer Claudine today.

No Instructions For Delegates

NEW YORK, N. Y., March 19.—The Democrats have resolved on uninstructed delegates to the National convention at Denver. Strong New York influences are operating against Bryan.

AMBASSADOR O'CONNOR DEAD

CONSTANTINOPLE, Turkey, Mar. 19.—British Ambassador O'Connor is dead.

FORTY SAILORS WITHOUT WORK

Forty men "on the beach," and not a thing in sight! Forty sailors without jobs, and not a cent in their pockets! This is about the standing of affairs on the waterfront at the present time. There are not very many vessels in port, and there doesn't seem to be much show for the penniless seafaring men to get work very soon. These men who are now "up against it" are mostly recruited from the ranks of the men who came in here from the Atlantic Coast on the Edward Seawall and the Astral. They got their discharge here, expecting to be able to pick up another berth without any trouble, but now that their money is gone, they have found that it is a pretty hard matter for a sailor to get a job at the present time. It is claimed that the Astral, which is taking Japs before the mast, is the cause of a great deal of the disturbance among the men. Many of them figured that they would be able to ship on her return trip around the Horn. But Captain Dunham says otherwise. He claims that he would rather have a Japanese crew any time than a white set of sailors, saying that the latter are always making trouble. When they get on board ship, he says,

they think they are the owners, and they act as much so as possible. It is different with the Japs. They are obedient, and are fairly good sailors. Immigration Inspector Brown sent the "pedigree" of the Japanese sailors who are under advisement by Captain Dunham to Shipping Commissioner Ainly, and among the list of twenty-four there are only seven who are sailors. The others are laborers, farmers, carpenters, and there are two whose names are not known. Shipping Commissioner Ainly says that Captain Dunham is making a mistake by taking on Japanese sailors. They may not be allowed to land when they arrive on the Atlantic Coast. The Astral will be ready to go to sea in a day or so. Japanese have been employed mending sails and making other arrangements on the ship for going to sea.

SUPERVISORS MEETING AT NOON

The Board of Supervisors held a short meeting this noon, the purpose being to pass some payrolls without taking the trouble of having an evening meeting. All the members were present.

4-25 MOTT-SMITH BACK FROM MAUI TRIP

Says Governor's Party Has Been Riding Hard Lately

Secretary Mott-Smith returned unexpectedly this morning from Maui, where he has been with the Governor and his party on the trip around that island to look at lands. He returns, he says, to represent the Territorial Government on the preliminary cruise of the steamer Mauna Kea about Niha. The party since they left Honolulu, Secretary Mott-Smith says, has been very busy, and especially so since Saturday morning. By the time the Governor returns, on the Kinau next Saturday, he will have made almost a complete circuit of the island, except two comparatively short stretches, and will have visited parts of the island where no Territorial Governor has ever gone before. Last Friday the party visited the pineapple canner at Hamakua and looked over the pineapple land in that section. The same day they went over again to Anaoa and looked over the 350 acres of cane land owned by the Government, which H. P. Baldwin is anxious to acquire by exchange. Saturday morning the party left Worth Alken's house at Makawao, where they had been staying, and

present with the exception of Harvey and Fern. Archer asked that Ewa be allowed the use of one of the Honolulu road rollers in the place of that belonging to Ewa, which would have to be repaired. Dwight did not think that Honolulu could spare a roller. Archer answered that two were used on Beretania street where only one was needed. If Ewa did not get a roller the work in that district would have to stop. Sam Johnson said he thought a roller could be spared, as it was a case of emergency, but he wanted the roller's crew to stay with it. Arrangements were made accordingly. The following bills were passed: Ewa road district, \$884.85. Road Department, \$4161.97. Road Department, Alewa Heights, \$231.25. Garbage Department, \$410.

The refusal of the Stockton City Council to grant the Southern Pacific request angers merchants. Fine Job Printing at the Bulletin.

Durao Case Dismissed

The Durao criminal libel case, which has stirred the local Portuguese colony to the highest pitch of excitement, was ended in the Police Court this morning, the result being the dismissal of the defendant on technical grounds. The case against A. Liberdade, the newspaper in which Durao's article charging Mott-Smith with being an anarchist appeared, will be nolle prossed tomorrow. The outcome of the case was the result of a brilliant technical defense presented by E. C. Peters, who appeared as counsel for the defendant. Correa, who conducted the case of the prosecution, was unable, on account of Peters' objections, to connect Durao with the writing or publishing of the article which appeared over his name in the A Liberdade. Yesterday afternoon Camille Pereira, the manager of the A Liberdade, was called as a witness by the prosecution. He was asked who wrote the article, but Peters instructed him not to answer on the grounds that he might incriminate himself by doing so. Upon this Correa closed his case, but he was allowed to re-open it this morning, when he called George Pereira, a son of the manager, to the stand. (Continued on Page 3.)

No Real Opposition Was Found by Wood

A strong faith that Congress will give Hawaii what she asks in the way of appropriations for Pearl Harbor and for defenses was expressed by Secretary Wood at the meeting of the Chamber of Commerce yesterday afternoon. Here he submitted a lengthy report outlining in detail the work done by him during his trip to Washington, parts of which follow:

On Monday, December 9th, I presented my letter of introduction from Admiral Vero to Captain Barnett, formerly secretary of the Naval Board, who had just been given the position of superintendent of the Naval Observatory. I found in Captain Barnett a warm friend of Hawaii and a zealous advocate of the early improvement of Pearl Harbor.

The same afternoon, I met Captain Pillsbury, the new secretary of the Naval Board, at his office in the Mills building. One meeting led to another, the Captain being most anxious to fully inform himself as to Pearl Harbor and the island of Oahu generally.

Upon assuming the duties of his new office, I do not think that Captain Pillsbury was specially interested in Hawaii, but being a close student of what Army and Navy men now consider one of the gravest of problems—the defense of the Pacific—it was not long before this able man became deeply interested in the plans for the improvement of Pearl Harbor and no member of the Naval Board took a deeper interest in the matter. The rooms of the Naval Board were always open to your representative, and I had the pleasure of meeting Admiral Dewey and other prominent Naval officers many times. The Admiral is an earnest advocate of the immediate improvement of Pearl Harbor, believing the work to be of vital importance to the nation.

At the first convenient opportunity, I called upon Secretary Metcalf, who I had been informed, was opposed to Pearl Harbor legislation. Presuming on an acquaintance of several years standing, I told the Secretary the object of my mission and asked if the work the Honolulu Chamber of Commerce was doing would be considered objectionable by the Department. Mr. Metcalf at once replied, "No, on the contrary, we will welcome your assistance, for in our opinion the improvements planned for Pearl Harbor should be undertaken at once and pushed to completion, not because there is any likelihood of war but because the trend of affairs in the Pacific demands that the work be done."

Upon receipt of the cablegram from President Morgan, stating that the Chamber stood ready to make the borings necessary to determine the cost of the improvement of the entrance to Pearl Harbor, I immediately called upon Admiral Dewey, who, after consultation with the members of the Naval Board, expressed approval of the plan and commended in the warmest terms of praise the action of our Chamber of Commerce in offering to do what they could not attempt without a special Act of Congress.

I also took the cablegram to General MacKenzie, Chief of Engineers, who expressed the greatest pleasure possible at the offer. The information was badly needed, he said, yet as was the case with the Navy Department, there was no fund at his command to obtain it.

I do not believe that the Chamber ever made a better investment than the expenditure at Pearl Harbor. I called, by appointment, upon President Roosevelt, who expressed the greatest interest in Pearl Harbor matters, spoke of the many letters he had received from different Chambers of Commerce all over the country, urging favorable legislation and expressed his appreciation of what he termed the right conception of existing conditions shown. It was indeed this action of friendly Chambers of Commerce that induced the President to write that three and a half page letter to different Senators and Congressmen in regard to the matter, one of the strongest arguments in favor of the development of Pearl Harbor that has ever been written.

President Roosevelt said to a representative of the San Diego Chamber of Commerce: "I am deeply interested in San Diego harbor and favor its improvement, but Pearl Harbor first, and I want to express to you my appreciation of the broad spirit displayed by the San Diego Chamber of Commerce in regard to the matter, as is evidenced by their letter of recent date now on my desk."

We also know that the President, realizing keenly the defenseless condition of the Western Coast of the United States, the great need of providing for the protection of the Pacific entrance to the Panama Canal, the safe guarding of our commerce, which can only be assured by the establishment of an adequate Naval Station at Pearl Harbor and the rendering of the island of Oahu impregnable to attack, never loses an opportunity to speak of these matters to visiting Senators and Congressmen, and is apparently pleased to be able to say that the leading commercial bodies of the country

East, as well as West, are strongly in favor of the movement.

I think it can be safely said that there is no opposition at Washington to the plans for the improvement of Pearl Harbor. Some Congressmen, it is true, may not fully grasp the situation, and others, as a matter of policy, may deem it unwise to authorize any such expenditure at the present time, but I believe that the bills, reported by the House Committee on Naval Affairs, will be given right of way by the Speaker and that they will pass by a strong non-partisan vote, which will mean the ultimate expenditure of many millions of dollars in and around Oahu, and in addition to doubling the accommodations at Fort Shafter, already provided for. There will be a large artillery post on the Honolulu side of the entrance to Pearl Harbor and a regiment, if not two regiments, of troops, located on the Government reservation at Lihouea, the many advantages of this exceptionally fine location being fully appreciated by General Bell, chief of staff. Thus will be ushered in a new era in the history of Hawaii.

Aside from hearing the report of Secretary Wood, there was very little done at the meeting. The Pacific Mail proposal was taken up again by L. A. Thurston, F. L. Waldron, one of the committee on the proposal, stated that he had seen the agents of the Pacific Mail here, who said that they have communicated with the main office about the matter. Until further information was received nothing could be done.

Four Ships May Win

PRESIDENT'S BATTLESHIP PROGRAM IS GAINING FRIENDS

Washington, March 19.—It is probable that the administration program for four battleships will be adopted, and that the recommendation of the House Naval Committee for eight submarines will be rescinded.

It was a great blow to the President when the House Committee cut the naval bill to two battleships and eight submarines. The disclosures of graft in connection with the General Electric Boat Company, the aggressive fight being made by Representative Lilley, and the denunciations as to the money paid to various interests to favor submarines as against battleships, has caused a revulsion of feeling.

After talking with the President today, Representative Hobson said:

"I am confident the House will vote for four battleships. While the committee formerly recommended only two, the majority of the members really desire four. They were held down by warnings from certain sources that there must be retrenchment. 'I expect to see at least sixty Democrats vote for four battleships, and the only Republicans who will vote against this number are those well known as political enemies of the President and opposing everything he wants, whether it relates to trusts or the navy.' Andrew Carnegie and R. Fulton Cutting of New York headed a petition presented in the House today by Representative Sulzer of New York protesting against the expenditure by the United States of \$60,000,000 for the construction of battleships.

A RELIABLE REMEDY FOR THE Whisky and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount or quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Orzine. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.

Orzine is prepared in two forms: No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient; No. 2 for those who take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.

Treatise on how to cure drunkenness free on request. The Orzine Co., Washington, D. C. The price of either form is \$1 a box, making the cost of the complete cure less than one-tenth what it is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed package on receipt of price.

Orzine is for sale by Honolulu Drug Co., Ltd.

Schmitz Out, Was Cheered

FORMER MAYOR SEEMS TO FEEL THAT HE IS STILL POPULAR

SAN FRANCISCO, Cal., March 11. Former Mayor Eugene E. Schmitz walked out into the sunshine from the Criminal Court building yesterday practically a free man.

For the first time since last June he put his foot on the sidewalk without the shadow of a guard at his side. For the first time in nine months he was free to go where he desired unrestricted.

At the entrance to the Criminal Court building an auto was waiting. Near it for a minute or two after he had regained his liberty, Schmitz stood on the sidewalk accepting the congratulations of his friends and attorneys. From where he stood he could see the picturesque ruin of the City Hall over which he had ruled before his downfall.

Cheered by City Employees

Over in that direction the news of the former Mayor's liberation had leaped as if by magic. Employees of the city and men who had known the Mayor when he was a power stood about the pile of ruins and at the doors of the wooden shacks clustered about its base in which some of the business of the city is now done. They were waiting for a glimpse of the man who had been Mayor. Nine months almost he had been in prison and few of them had seen his face. But they remembered, and as the auto carrying Schmitz flashed past they waved their hats, saluted and sometimes cheered.

Schmitz took it as an ovation, a sort of little triumph, and grinned all the way to his home on McAllister street, where his wife threw herself into his arms.

Schmitz was admitted to bail in a sum that would ransom a king. T. H. Williams and Wm. J. Dinger are his sureties.

Today Schmitz is again the master of his own movements. If he desired to go to his lawyers' offices it is not necessary for him to secure the permission of the court. If he should desire to go to the theater he can do so without being unceremoniously brought back to the insubstantial prison at Ingleside.

It is true forty-three indictments still hang over his head, but four of these are charges of extortion similar to the one dismissed yesterday, and will be wiped from the records of the court as soon as they appear upon the calendar.

A wireless message sent by Admiral Evans, commander of the Battleship Fleet, is received by the Mare Island station.

PROMINENT JAPANESE OF HAWAII

DR. M. OYAMA,
Secretary Japanese Medical Association.
Dr. M. Oyama is the president of the Japanese Charity Hospital, having been elected December 19, 1907. When the plague broke out amongst the Japanese in Ala April 25th, and was finally checked June 2d of last year, he was one of the Japanese physicians who gallantly responded to a call for assistance.
Dr. Oyama came to these islands in 1902 and is well liked by his fellow-countrymen. He was born in the Prefecture of Kumamoto in 1877 (Meiji 10 nen), where he entered the Fifth Medical College, Principal Yoshida, of that place, and graduated with honor. He served as a physician in the army and was very popular with the men. From there he entered the First Medical College of Chiba, Principal Nagao, near Tokio, from which he graduated (Meiji 31 nen) at the age of 21. Since then he has been practicing his profession and acting as consulting hospital physician and as medical examiner of various insurance companies.
Dr. Oyama is married and is a member of the Japanese Medical Association.

Dreadnoughts Provisions For Japan For Fleet

THREE OF THEM UNDER WAY. THEY WILL BE BUILT SPEEDILY
VICTORIA, B. C., Feb. 28. — Advice received from Tokyo in today's mail state that despite the announcement made in the Japanese Diet that no new warships would be built this year, two large battleships exceeding the Dreadnought in displacement and armament, will shortly be laid down, one at Kure, the other at Yokosuka. Material is now being assembled at those yards. Ocean-going torpedo boat destroyers of unusually large size are also being built.
Admiral Baron Saito, in the naval section of the budget committee, shortly before the steamer Montezuma sailed, reported that new fortifications were contemplated and two Korean ports were now being fortified. Extensive fortifications are being built at Ching Hai Wan and Port Lazaroff. He reported that repairs had been almost completed on five of the warships captured from Russia. The armament was entirely renewed. The heaviest guns mounted on the ships were originally six inches of 45-caliber, being replaced with 10-inch guns of 50-caliber. Investigations were under way to test the suitability of the 13.1-2 inch gun favored in England.
The Progressist party is criticising the sums voted for increased armaments and a strong attack was made by Mr. Oishi, the leader, on the large number of Japanese troops still maintained in Manchuria. In reply, Viscount Terauchi, Minister of War, said:
"The Japanese Government has no idea of resting content with the present condition of Manchuria, but hopes to see further substantial developments in its material resources."
HOLD WILFLEY'S FATE
Washington, D. C., March 9. — The special committee appointed by Speaker Cannon to determine whether there is sufficient ground for the impeachment of L. R. Wilfley, Judge of the United States Court for China at Shanghai, accused of misconduct in office by Lorin Andrews and other American lawyers resident there, today heard arguments and took the case under advisement. Representative Waldo of New York made the opening argument against Judge Wilfley, urging impeachment. Wilfley followed in his own behalf. He contended general and specific denials of wrongdoing.

PROHIBITION DRUNKS
Bangor, Me., March 3.—The annual report of Chief of Police Bowen, issued today, shows the number of arrests made for drunkenness in Bangor during the year to be 2513. This is the largest number of arrests for this offense in one year in the history of the city, the next highest number being 2385 made the year previous.
King Edward suppresses Emperor William's letter; Rosebery declares the nation is making itself ridiculous.

MALLET WINS FROM INDIGO

Hot Favorite Follows Polo Pony All The Way

Indigo, the two-to-one favorite, was not in it for a minute yesterday afternoon at Kapiolani Park. Mallet, the little polo pony, was the whole show. The other day Indigo beat Mallet so badly that it was hard to find a backer who was willing even to take a 2-to-1 bet on E. H. Lewis's game little horse. Consequently the surprise was great when Mallet leaped into the lead after the first twenty-five yards, and kept the distance the rest of the quarter-mile run.

The race was run on a straight-away course on account of the fact that the track was muddy at the last turn. Mallet was good all the way, never weakening, with Henry Lewis up. Lewis rides his horse well, and seems to use good judgment. Otopio was on Indigo, and he used the whip freely.

"Pull the polo pony," was the cry that went up when it was seen that the two horses were off together. And the cry was echoed by a dozen similar before the horses crossed the finish line. There were a great many sports who had taken the bad end of a 2-to-1 bet on Mallet, just for a gambler's chance, they said, and their money looked mighty good by the time the race was over.

The time caught at the finish was 26 seconds, but the race was probably faster than this. Mallet led the lead by a good length at the finish.

George Ward wanted to race Mallet three-eighths of a mile right after the first race, but Lewis wouldn't stand for it, naming next Wednesday. A \$50 forfeit was posted for a race on this day. Saturday afternoon Candy Boy and Mallet will hook up. This will be their third race, each having a win to his credit.

SCHOOL TEAMS ARE WIDE-AWAKE

Doping Out Prospects For Coming Season--Grounds

Although the season is as yet quite a little ways off, already interest is being awakened in interscholastic baseball. This year will probably see a larger number of teams in the field than in any other previous season.

The Normals, who have entered a baseball team but once in the history of interscholastic baseball, are thinking seriously of playing this year. A number of fellows who formerly played on the teams of other schools are now studying at the Normal and a fair chance for the championship is theirs. Among the men Normal has to pick from is Toomey, an ex-first baseman from Kamehameha. Toomey did some excellent work last year and while the Kams came out at the tail end of the list, he was not to blame for it.

Punahou will have as strong a team this year as they had last; possibly stronger, as they have a few unknown quantities in the shape of new pupils at their school. The Debra boys are there yet, and their work will go a long way toward making the team a success.

The Kams are of the opinion that their part in the games will not be as it was last year. Lots will do his best to have his team come out ahead, and he will have effective help in Kamalopili, who played as clean a game as did any other man in any of the other teams.

High School wants first place this year. Their success in interscholastic boys' basketball has inflated them to such an extent that nothing but the championship will satisfy them. Blanchard will coach again and some good plays are expected from this popular team. Almost all of last year's team is back at school and the Highs have a surprise in store for their opponents in the shape of a new man—one who has made good before this.

Whether Alliolani will enter a team is largely a matter of conjecture. They played a good set of soccer games and should have some good baseball players. Coach Anderson could put them in shape to hold their own against the rest of the league.

School athletics have taken a pretty thorough hold of the scholars and some good games may be looked for. Some of the games last year played by the members of the school league were as good as many played by the major league, and in all likelihood the same will prove true this year.

Some talk has been going the rounds of trying for the League grounds on which to play off the series. Whether or not the place could be secured is not known. Should it be found impossible, the Punahou and Kamehameha diamonds will have to be used. Neither the High School or the Normal own baseball fields. Makiki, the place where the school soccer games were played, has also been mentioned as a possible place for the games. However, it is as yet too early to worry about the grounds, and the teams are being chosen by school fans with as much interest as local fans showed when the All-Hawaii team was being picked.

LITTLE INTEREST IN BASEBALL NOW

Only Two Clubs Are Practising--Diamond Gossip

This appears to be a dull year for the "big" baseball teams in Honolulu. It is hard for the managers to get the men out to practise. Ball-players seem to have fallen into a sort of apathy, which, if they do not recover before the season opens, will prove a knock-out blow to the year's schedules. As yet there are only two teams that have done any practise, and one of them, the St. Louis aggregation, has only been out a couple of times. They practise once a week, which is not enough to get a player loosened up in the early part of the season.

Early season practise should be gone at easily, but, above all, steadily. There is a great deal of harm done among the ranks of the young ball-players all over the country in the first part of the season, simply because when practise is indulged in, the players work too hard, use their arms too much, and consequently weaken them. A half-hour's work each and every day is a thousand times better than two or three hours work every other day.

There are a number of stars in the lesser leagues here who could break into faster company if they so desired. V. Ayau is a quick, sure man around the shortstop territory, as is also Sing Chong, the Chinese athlete. Both of these men would be gobbled up by the big teams in a minute if they evinced a desire to make a try at it. Then again there are Tahu and Makaanui. Tahu is a third baseman who has a corking good whip over to the initial station. He is "wanted" by the big fellows. Makaanui's fame lies chiefly through his terrific swatting abilities. It is said also that he is a fend on the bases, and can go some. A good hitter, whose batting is regular, can always win a home.

The Diamond Head athletic team has been doing most of the practising this year, although as yet they have only been out twice a week. It will not be long, however, before they will get down to the genuine article in the way of work. Although it has not been decided this early in the season, it is probable that the first practise game of the Diamonds will be played with the St. Louis ball-tossers. There is no reason why the teams this year should not furnish faster ball than has ever been seen here before, for they have had the advantage of seeing how the real "profess" cavort on the diamond.

When Otopio passed through the crowd last Saturday, after winning in a walk from Mallet, the enthusiasts lifted their hats and cheered. Yesterday it was noted that a murmur was heard nor a movement seen when the native jockey silently led his blanketed horse down the road. Fickle Fortune!

From the finish line it didn't look as if Indigo was in the lead at all during the race yesterday, but Starter Harris says the pretty bay held the best position the first few jumps.

Backers of Indigo still feel sure that their horse is the better, and they are anxious for another race. They will have to wait until Wednesday next.

"Dicky" Davis was in town the other day. He says there are some fast ponies over his way, and the fourth of July meet will be a great one in Hilo.

E. H. Lewis says that business will not allow him to race his horse any more after next Wednesday.

Racing is certainly picking up. There are two matches set for this week and one for next.

Charlie Bellina has a pedigreed stallion which he recently brought down from the Coast.

The judges yesterday were A. H. Jungclaus, Mark Houghtailing and Lester Petrie.

There is some talk of getting up a swimming tournament in the near future.

There is some talk of matching trotting horses in the near future.

WOOD TELLS OF PROMOTION WORK

Secretary Wood has prepared the following report which he will submit at the meeting of the Promotion Committee this afternoon:

During the past three months we have sent out 7500 postal circulars, special; 6000 Primers; 600 Christmas edition "Paradise of the Pacific"; 1200 "Picturesque Honolulu"; 500 special edition local papers; 150 maps "Cross Roads of the Pacific"; 14,000 general folders; 2700 letters, special and general.

By the last steamer to the South, we forwarded the regular quarterly supply of our folders to all principal points in Australia and New Zealand.

By the S. S. China, due to sail the 23rd, we will forward our regular quarterly supply of folders to Hong Kong, Yokohama, Manila, Bombay, Calcutta, Constantinople, Colombo.

From Hongkong we cover China and Siam, and with Yokohama, as a distributing point, we reach the leading cities of Japan. Largely as a direct result of our persistent work in the Orient, the number of stop-overs has perceptibly increased and bids fair to become an important item in the tourist business of Honolulu.

Since the first of the year we have received requests for our printed matter from upwards of one thousand railway agents, west of Chicago, principally from the northwest.

Mr. Leon Collier, the tourist agent from Boston, who passed through on the Siberia this week, with a party of sixteen, for a Round-the-world-tour, states that the outlook for the season of 1908-9 is unusually bright. His firm is already making bookings for the Fall business and from this on they will pay more attention to travel to Hawaii.

The Ash-round-the-world party of sixty people, including two newspaper representatives and an interpreter, is due to arrive here on the Mongolia the 23rd. Thomas Cook & Son are sending a special conductor who will arrive by the China to meet this party here.

Following is the table of contents of the new edition of Mr. Jared G. Smith's pamphlet on Agriculture in Hawaii, which will soon be ready for distribution:

Agriculture in Hawaii. Contents: The Climate of Hawaii; The Soil; Commercial Fruits—Pineapple, Bananas (The Chinese Bananas), The Jamaica or Bluefields, Mangoes, Citrus Fruits, Grapes, Avocado, Coconut; Flowers; Bees; Stock and Poultry; Dairying, Poultry Raising, Stock Raising; Silk; Field Crops and Industries—Sugar, Coffee, Rice, Sisal, Rubber, Ray and Forage, Vanilla, Tobacco, Corn; Vegetables; Advantages and Disadvantages.

To the pamphlet will be added a chapter on our land laws by Mr. James W. Pratt, Commissioner of Public Lands.

GIRL ATHLETES AT KAMEHAMEHA BOLD TRACK MEET

And now come the Kamehameha girls! Enthused with the success of their school brothers the girls are training for their own track meet, which will probably take place the latter part of this month. Misses Kurney, Scholtz and Holloway are now picked as winners, but a mouse dropped among the starters would probably develop great speed in several "unknowns." The event is looked forward to with great interest.

The St. Louis team practised first at Aala Park, but they are now turning out at the Kakaako League grounds. Barney Joy will probably be behind the bat for the college nine and Johnny Williams in the box, but this has not, of course, been definitely decided as yet.

What's the matter with the Kamehameha baseball team this year? So far as can be learned they have not even met and organized this year. Fern and Amoy are two of their men who have been out practising with the Diamond Heads.

COMMUNICATION

Sporting Editor Bulletin:—From information received it seems that Dr. Hand made a mistake relative to the status of the Kamehameha track team, entered for Saturday's sport events and, instead of calling on Principal Horne, or any one else, relative to the matter, he sought publicity by sending a wireless to one of the papers. Dr. Hand called on President Horne, after the publication of his note, and that authority plainly and tersely showed the sporting medico the error of his doings, and placed him in the straight and narrow way. The "Kamehameha Track Team" is all right, and the entries will all be there to make good. Rah, rah, Kamehameha!

(Signed) FAIR PLAY.

SPORTIVE SPLURGES

There will be a meeting of the Kalaianalele Baseball League at the home of President Vierra one week from tonight, when all the business for the season of 1907 will be closed up. The members of the league will also consider a suitable method of presenting the championship trophy cup to the Chinese Athletic Club, which came out with flying colors after the hardest fight in the history of the club. Several resolutions will be adopted. President Vierra is sending out the notices today.

Stanford University, March 10.—The Varsity baseball team today defeated the team from St. Vincent's College of Los Angeles by a score of 3 to 1 in the best game seen on the campus this season. Witmer was effective throughout the game while Ybarra of the Southern team was weak at critical moments.

The prizes for the winning athletes Saturday will be distributed by the following ladies: Mrs. W. F. Frear, Miss Virginia Frear, Mrs. Knudsen, Miss Ruth Knudsen, Mrs. Brainerd Smith, Miss Dorothy Smith, Mrs. F. J. Lowrey, Miss Alice Moore. Mrs. Frear will crown the victors with leis.

Kite-flying is being boosted as a sport. "Sky-day" will be an annual affair if the idea makes a hit.

Sorenson & Lylo have just completed a new cat-boat for Dr. Sanford. It is a pretty little craft, and will be able to cut through the
