Pure Blood

is the source of good health.

Ayer's Sarsaparilla

Makes pure blood, strengthens the nerves, sharpens the appetite, removes that tired feeling, and makes life worth living. Thousands of people have testified to the healing virtue of Ayer's Sarsaparilla. Their letters come in every post. There's no attempt at theory. They all assert the great fact, "Ayer's Sarsaparilla cured me."

Weak, Weary Women

who have been bed ridden, vexed with a scrofulous taint, emaciated, afflicted with diseases common to their sex, write gratefully of a perfect cure. If you wish to profit by their experience, and become healthy and strong, take the great strength giver and blood-purifier

AYER'S Sarsaparilla

Beware of imitations. The name—Ayer's Sarsaparilla—is prominent on the wrapper and blown in the glass of each bottle.

STAMP COLLECTION SOLD

HOW DR. C. H. WETMORE HELPED
"OUT THE HILO CHURCH."

Donated His Valuable Collection of
Hawaiian and Other Stamps—Purchased by Chas. Hustace Jr.

Within the past few days there has been a sale of valuable Hawaiian stamps made in this city, the like of which may never occur again unless T. G. Thrum, W. M. Giffard, C. A. Brown, F. L. Stolz and Chas. Hustace Jr. should dispose of their almost unrivaled collections.

Desiring to help in the furnishing of the new foreign church recently erected at Hilo, of which city he is one of the oldest and most respected residents, Dr. Charles H. Wetmore donated a small collection of stamps which he has had in his own possession since 1872 (although some of the rarer stamps have been owned by members of his family since the early '50s), to the committee who had charge of the raising of funds for the church, with instructions to sell it and use the money as they saw fit. The good old doctor, he is now in his 77th year, had very little idea what his stamps were worth although he knew some of them were very rare and valuable. He was doubtless as much pleased as the church committee was when they received a sum of money for them which was far in advance of their expectations.

Knowing that there would be no market for such stamps in Hilo, the committee sent them to James A. Kennedy, bookkeeper of the Honolulu Iron Works, with instructions to dispose of them to the best advantage, either in this city or San Francisco. The stamps were contained in a little old-fashioned album, smelling musty with age, and there were probably not more than 300 of them all told. But among them was one page of old Hawaiian stamps, which in the hands of many collectors would have been priceless, money could not have purchased them. Mr. Kennedy had heard enough about rare Hawaiian stamps to have this little collection passed on by experts before selling it, and he accordingly asked Messrs. T. G. Thrum, W. M. Giffard, Chas. Hustace Jr. and others to take a look at it. They examined the rare stamps with magnifying glasses and other means used by advanced collectors to test stamps and pronounced them unmistakably genuine, and what is more splendid specimens. E. Stanley Gibbons, the great London dealer, also saw the stamps and made an offer for them on the spot, which was taken under advisement. Chas. Hustace Jr. had made two or three offers for the stamps which had not been accepted. He was considering the advisability of making another and larger offer when he was notified by Mr. Kennedy that he had received directions to dispose of the stamps forthwith to the highest bidder. Mr. Hustace made up his mind that the stamps should not go out of the country, as he needed several of them to fill out his already large collection of Hawaiian stamps. Without knowing what others had offered he named a figure which was at once accepted by Mr. Kennedy. What that was the BULLETIN is not permitted to state, but it cannot be expressed with less than four figures.

Hearing of the purchase, a representative of this paper, who used to be a stamp fiend and has not yet entirely gotten over it, called on Mr. Hustace and asked to be allowed to see the stamps purchased. He readily consented and opened up the book at the Hawaiian page. The reporter's

eyes bulged out, for he knew enough about stamps to know that Mr. Hustace had struck a small bonanza in his purchase.

"There," said the stamp collector, pointing to two stamps, "is what I purchased the collection for. I consider those two stamps worth more than what I paid for the whole. I just needed them for my collection, but never dreamed of being able to get them."

One of the stamps was a 5 cent of the original issue of 1852 and the other a 13 cent variety of the same issue, both absolutely perfect specimens. These two stamps were catalogued by the Scott Stamp and Coin Company of New York last year at \$700 and \$450 respectively. This year no price is given in the catalogue, as they are no longer obtainable except by a chance such as the present.

"These two stamps," said Mr. Hustace, "are to be seen in very few collections anywhere. Mr. Thrum has got them and two or three others here but I am told the others are not such fine specimens as these; they certainly can be no finer."

"Here is another stamp that I have been after for a long time," he continued, pointing to a 13 cent vermilion with Kamehameha III head, surcharged with a large figure 5 in ms., "there has always been more or less doubt about the genuineness of this stamp thus surcharged but it has been cleared up lately. It has been catalogued by dealers and then left out for a time. It has lately been restored to the list again and is now priced at \$30. It has been proven conclusively, to my mind at least, that these stamps were used in the Hilo office at a time when they ran out of 5 cent stamps. The figure 5 was written in ink on the thirteen cent stamp. Now look at this stamp. You will observe that it is plainly postmarked San Fra. and that the postmark is over and not under the written figure 5. This shows conclusively that the letter which carried that stamp was sent from Hilo by some sailing vessel and postmarked on arrival at San Francisco. There is no doubt that it has been used for postage and is genuine. There are only a few of these stamps known to be in existence but I have never seen any with the post mark on. The postmark on this stamp not only proves the genuineness of this particular stamp but it goes to clear up the doubt about those with no postmark on by showing that such a stamp has actually been used."

Among the four pages filled with Hawaiian stamps in this little album were a number of the old numerals, now valued at prices ranging from \$8 to \$20. Among them the reporter noticed a 1 cent blue and a 1 cent black with plain borders, one 5 cent blue on blue paper with plain border, one light blue 2 cent on white paper and eight 2 cent black on colored paper, all of these being fine specimens. There are four 2 cent rose of the 1862 issue lithographed, one of which is a remarkably fine specimen, and a dark blue 5 cent Kamehameha V. head on blue paper, the above being only a few of the choicest varieties.

In the collection are probably 200 foreign stamps, whose value Mr. Hustace has not yet had time to ascertain.

"There is one thing that pleases me about these stamps more than anything else" said Mr. Hustace, taking up the subject of the Hawaiian stamps again, "it is their undoubted genuineness. The sum I paid for these stamps was a considerable one and I should not have felt like paying it out if there had been the slightest doubt about the two stamps of the original issue of 1852. I consider it extremely fortunate that the valuable expert opinion of E. Stanley Gibbons was obtained on them, as well as that of the best philatelic talent here. Had there been any doubt at the time of the purchase, there certainly can be none now, as I have since had the following letter placed in my hands by Mr. Kennedy:

HILO, HAWAII, Feb. 17, 1897.

The person who purchased the book of letter stamps recently at Honolulu will find full descriptions of Hawaiian letter stamps in Thrum's 1878 Hawaiian Annual on pages 44, 5, 6 and 7. Also in Thrum's 1894 Annual on pages 99, 100, 102, 106, 7 and 8, and on intervening and following pages. Two cent stamps with a large figure 2 cancelled diagonally somewhat as I have marked above were thus cancelled by Rev. E. Bond, postmaster at Kohala, Hawaii, in former days. The 13 cent letter stamp was sent to my late wife's friends in Massachusetts sometime in the eighteen fifties. Mrs. Wetmore found them there on envelopes in 1872. I think the 5 on one or two of them was put on them with pen to show that the Hawaiian postage was cancelled.

The letter stamp with some of the letters of the word San Francisco on it was, with one other, considered worthless by H. M. Whitney, Esq., until he saw this one last year. He then said it was evidently put on a letter at Hilo and forwarded from Hilo to the Coast and therefore a genuine and valuable cancelled stamp. It is evidently one of the stamps gathered in New England in 1872.

CHAS. H. WETMORE, M.D.

After perusing this letter Mr. Hustace invited H. M. Whitney to again examine the stamps. He did so and has corroborated the statements made in Dr. Wetmore's letter. Mr. Whitney was the first postmaster general of Hawaii and served in that capacity for a number of years. He is a recognized authority on the early issues of Hawaiian stamps connected with the Hawaiian postal service in its early days.

ANTARCTIC EXPEDITION.

Proposed to Start in a Whaling Ship
in September.

At a meeting of the South Australian branch of the Geographical Society held at Adelaide a few days ago, C. E. Borchgrevink made a statement with regard to his proposed expedition to the Antarctic. He states that he intends to ask for the support of the geographical societies of the various colonies, and hopes to obtain a small subsidy from the Government. He also intends to invite subscriptions, and deliver several lectures on the subject. He has been advised by the Acting Premier, Mr. Holder, to proceed to Hobart and lay the matter before the Australian Premiers. He proposes to either rent or buy a whaler, and to leave London at the latest at the end of September, and to take 12 followers with him, including scientific men, who should be landed with the necessary huts, dogs, sledges and provisions. He hopes to reach the south magnetic pole, and states that it would be of great importance to navigation to make observations there. He expects to be away about a year, but will take provisions for two years.

The president of the branch society has promised him every support possible.

INCRIMINATING EVIDENCE.

A Scrap of Paper Found with the Australian Murderer.

A London dispatch to the Australian Star says:

When Butler was searched at San Francisco a scrap of paper was found in his valise which stated that Captain Lee Weller's will was in the possession of Mr. Donaldson, solicitor, of London.

Mr. Donaldson has been interviewed on the subject. He says he possesses the will of Captain Lee Weller. It was made in 1880. He also says that the last letter he received from Lee Weller was from Sydney under date October 26. In this letter Lee Weller wrote to Mr. Donaldson: "I leave Sydney with a man tomorrow to prospect for gold, first at Glenbrook, than at Lithgow and Bathurst."

THE DOMINION CAPITOL

DAMAGED BY FIRE A QUARTER
OF A MILLION.

Believed to Have Been the Work of
an Incendiary—Aid from
Montreal.

OTTAWA, February 12. — The Dominion Parliament buildings in this city narrowly escaped destruction by the fire which started yesterday afternoon and burned until after midnight. The loss is in the neighborhood of a quarter of a million dollars. The fire is supposed to have been of incendiary origin.

The fire was fierce when discovered in the afternoon on the top floor of the west block of the Parliament buildings, south of the Mackenzie tower, and quickly the department fire brigade was brought into requisition. Several pieces of hose were laid and a rush was made for the hydrants, when it was discovered that they were all frozen. An alarm from the city was then sounded and the city fire brigade turned out.

In the meantime the fire was spreading, eating its way along the roof toward the south. Then streams were put on from the thirty hydrants, when the department hose burst and the city department hose had to be depended upon altogether.

By this time the fire had so increased that it was bursting out through the windows, through the roof and along the edge between the roof and the walls. It ate along with terrific rapidity, and soon the roof of the Mackenzie wing was one mass of flames and smoke.

The general alarm was struck and the whole fire brigade turned out and was soon at active work. Streams were poured upon the flames from all directions. The fire continued to spread, however, and soon the tower on the southwest corner fell. The center tower was next destroyed, and the flames, continuing to eat their way, reached the next large tower, commenced to lick that, and finally had it completely engulfed in ruin.

The local Fire Department for hours was powerless to subdue the flames and an appeal was sent to Montreal for help, but before the extra engines arrived the fire was under control.

The spectacle of the blazing buildings was a grand one, and the vicinity was crowded with thousands of people.

The old western department building, where the fire was fiercest, was damaged \$100,000 by the fire. The upper floors with the mansard roof were completely burned out, but the main offices on the second and third floors are all safe, the fire not having gotten through the concrete floors.

Much damage was done by water, but no important departmental documents were destroyed.

The offices destroyed are those of the Public Works, Department of Marine and Fisheries and Mounted Police. Lack of pressure, bad hose, frozen hydrants and a variety of causes contributed to the poor work of the Fire Brigade.

The construction of a modern building in place of the one wrecked will cost not less than \$250,000.

In 1858 Ottawa was selected as the seat of the Canadian Government. Canada then consisted of the two provinces of Ontario and Quebec. The Dominion of Canada came into existence in 1867. Ottawa is a city of only about 40,000 inhabitants, but its Government buildings would have done honor to any capital. They were noble examples of Italian-Gothic architecture, and had few rivals in beauty on the continent. They formed three sides of a quadrangle and were situated on an eminence

150 feet above the Ottawa river. Covering an area of nearly four acres, their cost was \$4,000,000. They were substantial and yet extremely ornamental in appearance. The arches of the doors and windows were of red sandstone, and the columns and arches of the legislative chambers of marble. The roofs were rendered attractive by means of variously colored slates, and the towers and pinnacles were adorned with iron trellis-work. The interior decorations of the edifices were also very rich and tasteful, including the Vice-regal canopy and throne, a marble statue and portrait of Queen Victoria, and full-length likenesses of George III and Queen Charlotte by Sir Joshua Reynolds. The library of the Government was a very handsome and valuable portion of this structure, and contained more than 100,000 volumes.

Warren Goodale's Funeral.

A large number of the older residents of the city attended the funeral of the late Warren Goodale at Central Union church yesterday afternoon. The religious services were conducted by Rev. D. P. Birnie, Rev. S. E. Bishop and Rev. O. H. Gulick. A special quartette, composed of Mrs. A. F. Judd, Mrs. Walbridge, Albert Judd and W. Forbes, furnished the music. During the services Rev. S. E. Bishop made an address in eulogy of his late friend.

After the services at the church were ended the Masons took charge of the remains and escorted them to the Nuanu cemetery, headed by the government band and a platoon of police, where the usual Masonic ceremonies were carried out. The body was placed in the Paty vault to await the arrival of the deceased's son from Hawaii as to its future disposition.

Death of a Governor.

Sir J. B. Thurston and family arrived at Sydney in the Miowera on February 3. He was suffering from a complication of diseases and on the advice of his physician proceeded for Melbourne by steamer, as being better for him than the railway journey. He was going to Melbourne for special treatment, but he died on the voyage. Sir J. B. Thurston was Governor of Fiji, also British Commissioner for the Western Pacific, and regarded as an unusually able administrator. His loss is a great one to the British Government, as well as to the Polynesian communities of which he was the virtual ruler.

At the Hawaiian Hotel.

The Government band will give a concert at the Hawaiian hotel this evening, of which the following is the program:

PART I.

March—National Fanfares..... Sousa
Overture—Jubal..... Flotow
Polka—Cairo..... Lee
Selection—Nabucco..... Verdi

PART II.

Cornet Solo—The Specialty..... Hazel
Mr. Charles Kreuter.
Medley—Plantation Songs..... Coterno
Waltz—Fantasia..... Coote
Galop—The Planters..... Fricke
Hawaii Poniol.

Lace Sale Continues.

The big lace sale at Jordan's No. 10 store is still on. No such prices were ever quoted in Honolulu before, and the Honolulu ladies are daily laying in a supply. Goods that formerly sold at \$1 are offered at 25c.; those that sold for 50c. reduced to 5c. and 10c. In fact, a clean cut of 75 per cent all along the lace line has been made. Call and make your own selection. They are all on one large table in the middle of the store.

Art muslins and printed Lappel muslin, Victoria Lawns, India Linens and Persian Lawns are some of the goods that arrived per late steamers and will be sold at the very lowest prices for cash at Kerr's.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G. & F. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler, \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

E. O. Hall & Son LIMITED.

HOW DYNAMITE IS MADE.

The Deadly Explosive Composed of Nitroglycerin and Earth.

The best quality of dynamite is a mixture of 75 per cent of nitroglycerin and 25 per cent of kieselguhr—a siliceous earth with a highly absorbent power, capable of taking up two or three times its own weight of nitroglycerin without becoming pasty. The object of the mixture is to diminish the susceptibility of nitroglycerin to slight shocks, and to facilitate the carrying of it without destroying its explosive force. Dynamite is in appearance not unlike brown sugar. While moist it is squeezed into cartridges, which are prepared of parchment paper, and the firing is done by fulminate of silver in copper capsules, provided with patent exploders. Its disruptive force is estimated at about eight times that of gunpowder, and it has the peculiarity of taking effect in a downward direction. Nitroglycerin, which is a light yellow, oily liquid, is nitric acid 1 part and sulphuric acid 2 parts, to which is added ordinary glycerin and the mixture well washed with pure water. It has a sweet, aromatic, pungent taste and the peculiar property of causing a headache when placed in a small quantity on the tongue or wrist. It was first used in bombs dropped from balloons in the Franco-German war (1870-1).

How "Dog Days" Derived Their Name.

The dog days last, properly speaking, from the 9d of July to the 11th of August. The popular theory is that they are so called because dogs then go mad; but the notion is etymologically false, besides being untrue in fact. Dogs, strange to say, are rather less liable to rabies than at other times. "Dog days" is really a translation of the Latin dies caniculares—the 20 days before and the 20 days after the heliacal rising (i. e., appearance in the morning just before the sun) of the star Sirius, whom the Romans called "Canicula," or little dog. The ancients attributed a most malevolent influence to this star—our "dog star,"—and sacrificed a brown dog to it to appease its rage.

How Mountains Were Formed.

Mountains may have arisen from three causes: 1. From the corrugation of the earth's crust, due to the effects of secular contraction. 2. From the accumulation of materials poured out of volcanic orifices. 3. From the insulation of elevated masses of ground, owing to the removal by denudation of the materials connecting them, and to the consequent formation of valleys. Mountains formed in the volcanic way are almost always conical, and are either solitary, as Etna, or occur in linear groups, like the volcanoes of Java. Those formed by denudation are of minor dimensions, and rather deserve the name of hills. Mountain chains, on the other hand, which are the dominant features of the earth's surface, though they may have lines of volcanic vents along their crests, are not formed essentially of volcanic material, but of the sedimentary and crystalline crust which has been ridged up into vast folds. Mountain chains must, therefore, be regarded as evidence of the shrinkage of the earth's mass. They may be the result of one movement of a long succession of movements.

How to Make Hat Flowers.

Flowers made of tuffeta silk are one of the season's most popular garniture for all kinds of headgear. They are very effective, and may be made at home at comparatively small cost, and equal in every respect to those bought at a high priced milliner's. A double ruffle of the silk is joined and gathered in the center, something after the fashion of a rosette. The centers must be purchased and should be of the same shade as those of the natural flower. Poppies, roses and larger flowers develop most satisfactorily, the smaller blossoms requiring professional construction.

Amibiguous Sympathy.

Elder—Why, Jock, I heard that ye were drowned.
Jock—Na. That was na me, it was ma brither.
Elder—Eh, mon, wha' a pity; wha' a most awfu' pity!—Judy.

M. M. WATSON; DISCHARGED.

The case of M. M. Watson, who was charged with stealing a keg of beer from the Seattle Brewing and Malting Company, was dismissed by Judge Glasgow yesterday afternoon. The judge held that if the prisoner was bright enough to discriminate in favor of pure Rainier Beer he deserved release. On tap or in bottles at the Criterion.

Art muslins and printed Lappel muslin, Victoria Lawns, India Linens and Persian Lawns are some of the goods that arrived per late steamers and will be sold at the very lowest prices for cash at Kerr's.

W.W. DIMOND'S

Bargains in crockery come, not from over-buying, through breaking sets for customers. Odd pieces have less commercial value, to us, than full sets, but to the purchaser there is no difference.

We have a vast number of broken tea sets, odd cups and saucers, breakfast, dinner and tea plates and glassware. These have been massed together to form the foundation for a bargain week. The prices are a third off cost and for cash there will be discount; that means that the goods will go to everyone for the same average price, for the reason that with the reduction and discount, the prices will be too low to admit of loss of interest accumulating on time accounts.

This sale will last one week beginning Monday, February 22. The opportunity to secure this class of goods at such low prices will not occur again in a twelve month, and ladies who wish to fill up the vacant spaces in their pantries should avail themselves of it.

J. T. WATERHOUSE

We are expecting a large invoice of China from the factories in France and England. The goods will be of the same fine quality that we have always carried in stock.

To make room for the new and get rid of the old we offer at less than cost odd pieces in French and English China. These comprise Teas, Coffees, Breakfast or Dinner Plates, Vegetable Dishes and every thing else in China used on the table. They are not in full sets but in odd pieces. This is the first odd piece sale we have held and you get a great benefit if you take advantage of the opportunity presented. There are not many pieces, and the first customer gets a bargain.

CHILDREN'S CLOTHING.

Scoop Bonnets For Little Girls—Simplicity of Costume Most Desirable.

All fancy wool goods of bright and light colors are employed for children's wear, also taffeta, foulard, serge and satin mervellous. Then there are batistes, plain and printed muslins and embroidered lawns. Mohairs must not be omitted from the list of juvenile fabrics, for many pretty as well as serviceable gowns are made of this brilliant and durable material.

Very small children are dressed much alike without regard to sex. Sometimes the frocks worn by boys are a little less full, the blouse is longer, and less trimming is used, but it is quite permissible to clothe tiny boys and girls in the same

GIRL'S COSTUME.

way, except in the matter of headgear. Scoop bonnets are confined to little girls' wear, boys having sailor hats or caps or some other simple form. The scoop bonnet has been very happily revived. It is picturesque, and it shades the eyes and face from the sun and protects them from the wind. It is trimmed profusely with lace or gimpure over silk or of silk, the brim being of lighter material, ruffled and puffed. These elaborate ones are adorned with large silk or ribbon bows or clusters of ostrich tips, but plainer bonnets are composed of batiste or muslin and are quite as becoming to the little wearers as the more costly ones and much more suitable. Simplicity of material and style and exquisitely fine finish are the most perfect taste for very little children's garments. It is a great pity that climate and convention require them to be clothed at all, they are so graceful and beautiful; but, since they must be covered, let the covering distract the eye from their natural loveliness as little as possible.

A sketch is given of a costume for a girl of 14 years. It is of Scotch plaid, with a light ground. The skirt is trimmed with a narrow drapery of blue velvet, held in place by bows of velvet. The full bodice is crossed in front and mounted on a yoke of white gimpure, which is low at the shoulders. The full sleeves, of plaid, are of elbow length and terminate in a frill of gimpure. A blue velvet ribbon outlines the yoke and is gathered into a ruche across the shoulders. The belt and collar are also of velvet. JUDIC CHOLLET.

BY AUTHORITY.

Tenders For Hospital Building.

Tenders will be received up to 12 o'clock noon of March 3, 1897, at the Office of the Board of Health, Honolulu, for the erection and material of a Hospital Building at Hilo, Hawaii. Plans and specifications will be on view at the Office of the Board of Health, Honolulu, and at the Sheriff's Office, Hilo, Hawaii, on and after February 25, 1897.

The lowest or any tender will not necessarily be accepted.
C. B. REYNOLDS,
Executive Officer Board of Health.
Hilo, February 17, 1897. 541 3L.

572 Evening Bulletin,

DANIEL LOGAN, Editor.

THURSDAY, FEB. 25, 1897.

THE FINANCES.

Although in conformity to our system of biennial sessions of the Legislature the departmental reports of this country presented to the people's representatives are of that period, yet the bureau report to the departments and the departments to the President of the single year. Some of the reports are filed away in manuscript, but accessible to representatives of the press, but the more important ones are printed. Lately the BULLETIN gave a comprehensive summary of the Attorney General's report for 1896 from the manuscript. Now the Minister of Finance has issued his report for last year in printed form. This is well, for it is the most interesting, as well as important, of public documents. Some few excerpts therefrom are here given, but the whole pamphlet is a mine of matter for a year's discussion.

Minister Damon is enabled to introduce his facts and figures in the following cheering terms: "The past year has been one of exceptional and increased revenue; and the expenditures from the appropriations have been kept within due proportion for the period lapsed." There was cash on hand the last day of 1895, according to the current account balance sheet for 1896, of \$22,496.30. On the last day of 1896 it was \$93,627.26. Receipts were: Customs, \$656,895.82; Postal, \$77,488.94; Internal revenue, \$1,240,937.12; total, \$1,975,321.88. Expenditures were: General expenses, \$1,651,631.33; Interest on all loans, \$236,459.59; matured Bonds paid, \$16,100; total, \$1,904,190.92. The Minister says that the current expenditures cover every claim that has been presented to the Treasury during the past year; and in addition thereto there has been charged to current revenue the sum of \$29,539.14 for interest due the Postal Savings Bank in 1894, which was credited in error to current receipts in the year 1895. He states that the principal sources of revenue for the support of the Government wherein an increase has been recorded are the Customs Bureau, the Honolulu Water Works, the Postal Bureau, Taxes and Land. The customs revenue shows an increase of \$109,746.78 over the previous year.

After giving an exhibit in detail of the imports and exports of the country, a trade of \$22,679,791.53—the largest in the history of the country—the Minister of Finance begins a discussion of trade relations with the United States in these words: "From the foregoing facts and figures it will be observed that almost our entire commercial business is carried on with the United States. When we consider, too, the large Asiatic population now in the country and that our total export and import trade with China and

Japan only amounts to \$579,553.—77, we can furnish no stronger arguments of the desire of our people to maintain almost exclusive trade relations with the United States."

It is a peculiar coincidence that the legislative buildings of Pennsylvania and Canada should have been attacked by fire within a few days of each other. The State capitol at Harrisburg was totally destroyed, while the Dominion structure was damaged a quarter of a million dollars. Both were extremely beautiful works of architecture. Although the Pennsylvania State House was more than sixty years old, it was determined, at latest accounts, to have it replaced with a building of the same style, so admired was it. Some interruption of the public business of Canada will be caused by its fire, because parliament was summoned to assemble in a few weeks. That the replacing of the ruined parts will bring ordinary public improvements to a standstill is absurd, if the pecuniary consideration is what is meant in a local comment made on the mishap. The probable destruction of some plans and estimates, etc., in the public works department may, however, cause some delay in different undertakings.

Federation of the Australian colonies is advancing toward practical results. At a meeting of Premiers in January it was agreed to hold elections for a federal convention the first week in March. Western Australia, however, could not get ready in time. Another meeting was called for Hobart on February 2, but Premier Reid of New South Wales delayed business by staying away. He is denounced by the Australian Star of Sydney for his attitude toward the movement. There is reason to believe that, notwithstanding the contemptuous posing of such politicians, the scheme of launching a great Anglo-Saxon commonwealth under the Southern Cross will before many years be consummated. United, the young lions of the Pacific need fear no aggression from the Orient or elsewhere.

Replying to arguments against an item of \$196,000 for special mail facilities from Boston to New Orleans, in the Postoffice appropriation bill before the House, Congressman Pearson, Republican, of North Carolina called attention to the fact that the bill appropriated \$80,000 for expediting the mails to the islands of the Pacific. Were not the Democrats and Republicans of the South and even the Populists, he asked, entitled to as much consideration as the residents of the South Sea islands? When the matter was put to a vote, a motion to strike out the item for the Boston and New Orleans service was lost—46 to 107. This is well, because if that item were struck out the Southerners might have jumped on the Oceanic mail item with both feet.

When a note on Japan's reputed cable intentions was written the other day for these columns, the following from the San Francisco Chronicle had not been seen:

Japan is now making estimates on the cost of a cable via Honolulu to San Francisco. It would be something of a joke on American enterprise if the little brown men should start the work while Congress is wasting time in futile debate, but such an outcome is by no means unlikely. With a great war indemnity in hand, the diversion of a part of it to such use would be quite in line with the progressive commercial spirit of Japan, to say nothing of the reputed plans of her Government concerning Hawaii.

Having been defeated in the Legislature, woman's suffrage is to be submitted, at the discretion

ROYAL Baking Powder never cakes

or spoils, and if used as directed always makes delicious, pure, wholesome, perfect food.

Other baking powders will not hold their leavening strength until re-

This Is the Best

quired for use. They may work one day but fail the next. Such powders are a vexation, and waste good flour, eggs and butter. ROYAL works uniformly. The last spoonful in the can is as good as the first.

ROYAL BAKING POWDER CO., NEW-YORK.

of the council, to the people of Arizona territory. The "fad" certainly seems to be gaining ground on all sides. New Zealand has adopted it, and, the other day, a woman suffrage bill passed second reading—it was said as a joke—in the British House of Commons.

It is reported to have been discovered at Washington that, since the international patrol of Behring Sea was inaugurated, the United States vessels have done nine-tenths of the duty. John Bull is therefore to have his elbow nudged to make him do his share of the work.

Information for Tourists.

A passenger by the last Colonial steamer was met on the dock by a Milesian American friend, who resides in Honolulu. As the pair waited to have the newcomer's grip sack scrawled over with chalk marks by the Customs Inspector at the gate the stranger remarked to his friend "Do you 'ave much rain 'ere?" RAINIER me boy, gallons of it, just come up to the Anchor Saloon where they keep it always, clear and cool. We'll just be in time for lunch too and that's the only place in town where they serve it up in proper style with a glass of RAINIER BEER to equilibrialize the solids—They went!

SPANIARDS HIGHLY EXCITED. The Londo cable item today has the following: "The Cuban resolutions in the United States Senate would be regarded here as a little more than a useful safety valve for the Jingo sentiment did not the Madrid telegrams show the highly inflammable state of the Spanish populace. It suggests that they drink Rainier Beer and keep cool. On tap or in bottles at the Criterion."

A 6-roomed cottage, stables and servant's quarters, situate on Wilder avenue. Large grounds well laid out and planted with fruit and ornamental trees; one full set of furniture and cooking stove can remain in the house if wanted. Apply to A. V. Gear, 210 King street.

Goods For Every Day In the YEAR

Are the kind of goods we handle. Whilst the holidays have made great gaps in some lines, most of our lines will still be found very complete, notably that of Watches. It takes a good many sales to make an impression in our stock, we carry so many.

Watches for \$3

For men and boys, and

Watches for \$300

For those with a longer purse and an inclination for something out of the ordinary.

We want to add you to our list of pleased watch customers, no matter how little or how much you have to spend for the purpose. We have the goods, and our many years of experience will be gladly given to aid you in selecting one which will be best for you.

H. F. Wichman

If a man's dinner is right, and he rises from the table conscious that his wife has used the same judgment as to price that she did in the selection of the articles disposed of there can be no indigestion to follow. Our goods are of the kind which bring health, happiness and a fat purse.

Table delicacies are a fad with us—they are bought because we know the average Honoluluite is fond of good things for the stomach. Our prices are below the average and special inducements are offered to cash purchasers. Our latest importations include the best goods obtainable in the English markets.

Copeland's English Peas; Cod's Roe, Mackerel in Mustard Sauce and Cambridge Sausages in tins are so well put up that it would be difficult to detect the difference between them and the same articles direct from the market.

"Teyssonneau" is a long name to put before Pate but the combination makes the best tid-bit ever placed before a gourmet. These are goods that anyone may eat without fear of indigestion following. They are put up in the best factories in Europe and come to us in elegant condition.

LOCAL AND GENERAL.

Co. A will have drill this evening.

Since June 1 last Queensland has exported 69,380 tons of sugar.

Some great conveniences are advertised by the Hawaiian Hardware Co.

About fifty men and boys participated in the bicycle parade last night.

The regular meeting of the Board of Education comes off this afternoon.

Parishioners of St. Andrew's cathedral will meet this evening to elect officers.

If you wish to inspect laces at prices that are right, call at the Temple of Fashion.

The annual meeting of the Oahu Railway & Land Co. will be held on Saturday.

Sucilia Bernardo was arrested this afternoon for assaulting and battering one Jesuina Cosa.

Damask and white table linen 56 inches wide, 3 yards for one dollar at the Temple of Fashion.

Mrs. Dr. Herbert has returned from a visit to Mrs. Clarence Macfarlane at Pearl City peninsula.

The Government band will play at the Hawaiian hotel this evening at 7:30. Program in another column.

That picture in King Bros' window which has attracted so much attention is not the portrait of anyone here.

The charge of riding a bicycle without a light on which Cupid Kalaniana'ole was arrested last night was nolle pro'd this morning.

Mr. Steward returned with another lot of swine from the Coast in the barkentine S. N. Castle today. The grunTERS are for the Hawaiian Pork Packing Co.

Cupid Kalaniana'ole was arrested at the start of the parade for not having a light on his bicycle. There were several without lights at the finish, but they were not arrested.

Fred. Harrison, contractor for the new Campbell block, has begun demolishing the old buildings on the site. In consequence he has firewood for sale, of course "to burn."

The 10c. counter at the Temple of Fashion is still the popular fad among Honolulu ladies. Tomorrow a new line of goods will be placed on this table. The old price, 10c., will prevail.

Mr. Johnstone and wife, formerly in the French Boss candy business in this city, returned from a five months' sojourn in California in the S. N. Castle today. Mr. Johnstone will go into the candy trade again with C. V. Sturdevant.

The Dimond divorce case is ended. Mr. Dimond gets a divorce and the custody of the child under Judge Carter's decision. The case will go to the Supreme Court on exceptions to the rulings of the Court on points of law.

February 6, an engineer of long experience writes the Pacific Hardware Co., as follows: "I received your circulars concerning Vacuum Oil and as I have used them since, having the power of selecting my own oil, I can only echo the facts which they express."

There was tremendous excitement at Sydney over the news of Butler's arrest, which appeared in long cablegrams from London the morning after the event. Newspaper extras were issued and had an immense sale. The murderer was expected to be brought back by the Monowai.

W. T. Stead, the famous London journalist and founder of the Review of Reviews, is in Australia. Shortly after his arrival at Melbourne it was discovered that there were cases of small-pox in the steerage of the steamer that brought him. The cabin passengers had landed before the discovery was made, but Mr. Stead and others voluntarily surrendered themselves to the Board of Health.

"Money talks."

So do money-back

tea coffee soda baking powder flavoring extracts and spices.

Schilling's Best.

Kamehameha Lodge of Perfection will meet this evening.

A Chinaman with chefa tickets in possession was arrested this morning.

Patrons of Herr Nolte's lunch room were treated to delicious curried chicken yesterday.

The funeral of Warren Goodale yesterday afternoon drew out quite a large number of people.

A printed catalogue of the bound volumes of the Historical Society's library has been issued.

Two more Chinese chefa fiends were arrested this afternoon, but bailed out shortly afterward by friends at \$25 a head.

Fred Harrison is making short work of tearing down the old Campbell building, formerly occupied by B. F. Ehlers & Co.

Electric light poles on Fort street are being replaced by others high enough to carry the wires out of the reach of the telephone wires.

A recent arrival from the Coast says that Mr. Van Camp, well known in this city, was in San Francisco, but was trying to get to Guatemala.

Judge Wilcox occupied the bench of the District Court just long enough this morning to postpone the embezzlement case of W. J. Coelho to March 4.

In the police court this morning Judge de la Vergne fined Ah Ten \$50 for opium in possession, and Ah Yit and Chun Kwai \$25 each for peddling chefa tickets.

The three Chinese, whose trial for assaulting a policeman occupied most of Judge de la Vergne's time yesterday, were discharged at the conclusion of the evidence introduced.

The St. Andrew's Sewing Society will hold their annual sale in the Sunday schoolroom, Saturday afternoon and evening of this week. There will be plain sewing, fancy work, pillows, flowers, ice cream and coffee for sale. The ladies having the affair in hand are satisfied their efforts will attract a large attendance and ready sales will be made.

The banker "passes in his checks," the cashier "goes to his last account," the mugwump "joins the great majority," the cobbler "breathes his last," the saloon-keeper "seeks the spirit land," the gambler "shuffles off," the stableman "kicks the bucket," the spiritualistic medium "gives up the ghost," the accountant "goes to his long reckoning," but, according to the newspapers, very few people simply "die."

JUDICIARY JOTTINGS.

Term and Chambers Business—The Plantation Charter.

Judge Carter granted a decree of divorce to W. W. against Carrie Dimond immediately after argument yesterday afternoon.

J. A. King, Minister of the Interior, has made return to the alternative writ of mandamus obtained by J. F. Hackfeld. He alleges that the "document, purporting to be the articles of association of the Oahu Sugar Company, Limited, is not in form and in accordance with law," and states that this is the reason he has refused to file said articles.

Luiza da Gloria Marcellino, administratrix of the estate of Antonio Marcellino, deceased, has filed her first and final account, showing receipts of \$1427.97 and payments of \$271.01. An inventory shows personal property, mostly cash in savings bank, of \$1256.96, and it is stated that the real estate is accounted for in the inventory of the guardian of decedent's minor children.

Judge Carter has approved the accounts and ordered the discharge of M. A. Gonsalves, guardian of the Camara minors. The sum of \$589.36 has been distributed to the minors.

Wong Chat is being tried by Judge Carter without a jury for larceny second degree, in stealing a watch valued at \$15 from John Cunha. Deputy Attorney-General Dole for the prosecution; W. A. Henshall for the defendant.

Meeting Notice.

Kamehameha Lodge of Perfection, No. 1, A & A. S. E., will hold a Regular Meeting at 7:30 o'clock THIS EVENING, at Masonic Temple. C. L. CRABBE, Secretary.

Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. You want the best. It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you?

When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market fifty years. Your grandfather used Ayer's. It is a reputable medicine. There are many sarsaparillas. But only one Ayer's. IT CURES.

WATER IN HOT WEATHER.

Dangers From the Use of Ice Water - Moderately Hard Water Favored.

Ice water—that is, water in which ice is constantly melting—should be drunk with caution and an understanding of its true dangers. These, as pointed out by a writer in the New York Times, are, first, the sudden flooding of the stomach with a large quantity of icy fluid when the body is oppressed with heat. The half pint or more of ice water drunk rapidly cannot fail to cause a chill. Second, when the fluid is taken profusely, it may drive the blood to the brain and through the capillaries in such excess as to occasion congestion. The third and more remote danger from the use of ice water is from infected ice. Freezing does not always destroy poisonous germs, as boiling does. Pure water placed in an icebox, in a covered pitcher or stoppered carafe, will become cool enough to drink in a short time. Some of the improved refrigerators contain a porcelain water tank for maintaining a continuous supply of cool drinking water. Water in a porous earthen jar, placed in a draft of air, will rapidly cool to a pleasant temperature. Such porous jars are now sold in the oriental stores in all our large cities. Cool water slowly drunk may be taken freely and at comparatively short intervals. Small bits of ice can be eaten without injury. A sharp pain at the back of the neck, at the base of the brain, or at the supraorbital spaces, above the eyes, indicates a chill of the nerves, and warns against further eating of ice or drinking of ice water. It is like eating ices and sherbets. The safety lies in the length of time occupied in consuming the fluid.

Not only in ice, but in water, must we look for sewage contamination. Sometimes the purest in appearance is dangerous from this cause. The simplest test is that of Heisch—put a teaspoonful of pure loaf sugar in a clear, glass stoppered bottle; add about half a pint of the water to be tested; close the bottle, shake it to dissolve the sugar, and place it in a sunny window for two days. If there is any milky or cloudy appearance, the water may be considered impure; if it remains clear, it may be used without anxiety.

Filtering will remove solid impurities from water, but to overcome poisonous conditions only boiling will suffice. As some persons consider boiled water insipid, it may be aerated by rapidly pouring it from one pitcher to another in an atmosphere free from dust. The Japanese or Chinese water coolers protect drinking water from all contamination by dust or the air and also keep cracked ice unmelting for a long time. The manufactured ice now in general use is free from germs of disease and may be used safely with distilled or filtered water.

Of the well and spring waters, the soft contain potash and soda. The hard waters contain lime, magnesia, the phosphates and sulphates; they are apt to disturb the digestive organs. By boiling hard water the objectionable elements can be precipitated and the pure water may then be poured from the sediment. From a sanitary point of view, pure, moderately hard waters are brighter, clearer and cooler than soft waters and less apt to absorb organic life or contagion of any sort. The lime in small quantity is wholesome. Government commissions in Europe have decided on moderately hard water as favoring longevity, according to the authority quoted.

C. W. MACFARLANE,

Sole Agent, Honolulu.

Neat pamphlet free on application. P. O. Box 292, Telephone 26.

HONOLULU, April 21, 1896.

Mr. C. W. MACFARLANE.—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth.

THE PEACEMAKER'S TALE.

He Was Doing His Best, but Was In the Midst of the Row.

He had been down the week before to tell his lawyer about a neighborhood war. The families on either side of him were fighting each other, and during active hostilities the atmosphere of his back yard was filled with flying missiles, endangering the lives, limbs and comfort of his own family, though they observed a strict neutrality. The lawyer advised the arrest of the offending parties, but his client did not wish to place himself between the upper and nether millstones, and it was decided to try diplomacy. Now he had come to report.

"I guess things is shaping all right, but this here thing of being a diplomat is mighty tough work. First I writ both of 'em a state paper profferin my good offices to mediate between them, just as you told me. Robbins wrote back as he was agreeable, but Tompkins kicked my special envoy half way 'cross the street and told him to communicate to me that any further interference would be treated as a violation of internephorial law. I come pretty near issuing a war proclamation at this pint, but you told me fur to stick to diplomacy."

"What next?" "I recognized them both as belligerents at one and the same time. Robbins sent a special message of thanks, but Tompkins insisted that he had been a belligerent all the time. My next move was fur to request that they submit their differences to a board of arbitration. Robbins was willin' ag'in, but Tompkins balked. Then I swung my ultimatum on 'em. I worked hard on the document, telling about humanity, Christianity, civilization and reform and how my own family had been battered up with old boots, clubs, potatoes and broken crockery, though said family was at peace with both combatants. Then I give 'em a week fur to fight to a finish or settle terms of peace. In case of failure to comply I would call in the police. Both has agreed to wind up the war within the specified time. Tompkins says if he can't subjugate Robbins in a week the campaign might as well be brought to an end. I've boarded up my back winders and will do my observin through a port hole." - Detroit Free Press.

A Story With a Moral. CHAPTER I.

She was a woman whose age might safely be pronounced "uncertain," and as she stood at the counter figuring a half dozen pieces of dress goods by turn it was evident that she was in the throes of uncertainty concerning some question of becomingness or what not.

"Is it for yourself or a young lady?" asked Roggs, the clerk, desiring to facilitate the sale.

The lady's hands dropped to her side, and as in a moment she walked away with a curt "Sorry to have troubled you," Roggs was left to ruminiate on the instability of the feminine mind as he waited for another customer.

CHAPTER II.

Once more there was a woman of uncertain antiquity at a dress goods counter. It was a virtual repetition of the scene in the last chapter, except that this time the salesman and nattily dressed Toggs was the salesman.

"Is the dress for yourself or an old lady?" asked Mr. Toggs, with innocent urbanity, and directly the young man might have been seen dexterously handling the yard measure.

CHAPTER III.

Our two heroes are now middle aged. Toggs is a partner in the great firm in which he once held a humble clerkship. He dines on terrapin and quail on toast, while Roggs, in a shiny backed coat and shabby shoes, walks the streets, wondering why he never had any luck. - New York Sun.

Definitions.

Jeanette—This is what you might call a sardine sandwich. Harold—Oh, no! This is a tongue sandwich with the tongue on the outside. - Life.

Subscription Price, \$2.00 per Month.

A. V. GEAR, 210 King St, Honolulu

MADE A SPEEDY VOYAGE

AMERICAN BARKENTINE S. N. CASTLE FROM HAY CITY.

S. S. Miowera In Port—Bark J. C. Glade Returned—Various Other Marine Notes of Today.

S S Miowera sails at 4 p. m.

The bark Routenbeck has moved into the stream. The schooner Fred E Sander is unloading sulphur at the Railroad wharf.

About 58 tons of general freight was brought from the Colonies for this port.

Tomorrow, high tide large 0:26 a m; high tide small 1:0 p m; low tide large 4:17 p m; low tide small 6:20 a m.

The Noeau sails at 10 a. m. tomorrow for Lahaina and Hamakua, and the James Makee at 3 p. m. for Kapaa.

The American schooner Jessie Minor is waiting for orders. She may load sugar, if not she will return to the Coast in ballast.

The barkentine Planter is taking in stone ballast at Brewer's wharf. It is uncertain when she is to sail or where her destination.

Another deserter is reported from the May Flint today. The same fellow was only taken out of jail yesterday for jumping the ship.

Lloyd's Register Shipbuilding Returns show that 99.3 per cent of the steam tonnage of Great Britain for 1896 was built of steel. No steamer of more than 212 tons was built of iron.

This morning the schooner Moi Wahine arrived from Hamakua with No. 1 sugar for the barkentine Irmgard. The Irmgard has been waiting to load a long while, this being her first instalment. The schooner Ka Moi may be in with another load today or tomorrow.

This forenoon the American barkentine S N Castle entered port, after a fine passage of 11 1/2 days from San Francisco. Seven hundred tons of general cargo and a deck load of hogs were brought. There were four passengers. Captain Hubbard reports pleasant weather and any amount of fair wind.

The steamer James Makee came in this morning from the Garden Isle, where the weather has been rather bad for shipping lately. The Makee has been lying at Hanamaulu for about a week, but succeeded in getting into Kapaa yesterday morning, where she took a load of sugar. A mill roller was brought down from Kapaa.

The bark Rosalie, which arrived in distress yesterday, is lying at Sorenson's wharf. Captain Nissen said he thought he would have to discharge the lumber, and then go on the ways to repair. There was about four feet of water in the hold this morning. The pump is kept going off and on most of the day.

Mrs Elijah Carson, who has crossed the Atlantic ocean 250 times, and who seldom missed a trip of the Cunard steamship Lucania since she was built, died last week, at Anamosa, Ill. She is said to have left Captain McKay, of the Lucania, \$5000, and large amounts to the other officers and crew of that vessel.

The North German Lloyd steamship Friedrich der Grosse, which is described as the biggest steamer, the biggest cargo carrier, the highest vessel out of water, and the biggest vessel ever to go into any dock in the Colonies, was lately successfully drydocked at Cockatoo, Sydney. The graving dock at Cockatoo is 638 feet long, while the Friedrich der Grosse is 525 feet, so that Sydney is well in advance of the times in docking facilities.

After going aground in the channel yesterday, the bark J C Glade had more bad luck. She had sailed about three miles from port bound to Kahului, when something aloft gave way, causing the upper topsail yard to drop on the lower yard, doing considerable damage. The standard of the lower main topsail yard was bent, so that the yard could not be braced around. With the damage done, it was thought best to turn back to port, which was done. The vessel is now lying in the stream in the harbor.

The large pontoon dock at North Shields, England, was open-

ed for business on January 7. The dock is capable of lifting vessels of up to 475 feet long, 52 feet beam, 21 feet draft, and weighing 6500 tons. It is fitted with large electric pumps and, it is asserted, will lift ships faster than any other dock in the world. It is reported that, when the dock is in full working order, the largest steamers will be docked and lifted clear of the water in half an hour, while the ordinary sized cargo steamers will be raised in from 15 to 20 minutes.

Following is the report of Parser Humphries: The R M S Miowera, Chas W Hay commander, arrived at 3:45 a. m., February 25. Left Sydney 6:20 p. m., 10th; passed Hunter Island midnight, 14th; and arrived in Sava 10 a. m., 16th. Left same date 2:25 p. m.; cleared Fiji Group 4 a. m. next morning. Experienced light N E winds to the Equator, when the full force of the NE trades were encountered, these trades increasing to a fresh gale which continued till noon, 24th, necessitating ship being kept at a reduced speed, a very high sea being the feature of this usually enjoyable run. The admirable seagoing qualities of the ship prevented any damage being done. The Miowera brings a light passenger list, this being the slack trip of the year—passenger traffic from the Colonies commences in March. The only passenger for Honolulu is Mr Tibbs, who is returning after a trip to England and other countries.

PASSENGERS ARRIVED.

From San Francisco, per bktn S N Castle, Feb 25—Geo Steward, Mr Johnstone and wife and Benj Ingall.

From the Colonies, per S S Miowera, Feb 25—Mr Tibbs.

SHIPPING INTELLIGENCE.

Reward of Bravery.

Some time ago the ship Dalgona bound from Liverpool to Sydney, put back to Liverpool owing to a serious fire having broken out on board. The extreme danger which existed for one and a half hours of the vessel and all on board being destroyed by the explosion of enough gunpowder to have wrecked London was averted by the cool courage of the officers. This has been fittingly recognized, the Australian Star says, as the following report received by the mail will show:

"Captain Kitchen, Mr. John Healy (chief officer) and Mr. W. Rind, of the ship Dalgona, were presented by the underwriters at Lloyds with the corporation medal in recognition of their heroic efforts in saving the ship from destruction. They threw overboard 10 tons of gunpowder when the ship was on fire and so close were the flames that smoke was coming up from between the kegs. The Royal Humane Society also gave their silver medal to Captain Kitchen. The vessel resumed her passage on November 28. There is evidently a Jonah on board, as she was spoken on December 6 in the Bay of Biscay with her foretopgallantmast gone.

GERMAN SHIP POTOSI.

The Great Vessel Said to Be a Smart Sailer.

The Weekly Commercial News of San Francisco, of Feb. 11, says: From private advices received yesterday it is learned that the German five-masted ship Potosi, the largest sailing ship afloat, left Hamburg November 17, for Valparaiso, and arrived there January 14, making the passage in 58 days, the quickest on record, being two days lower than the record the captain had previously made, and almost steamer time. Captain Hilgendorf, her commander, will get quite a premium from the owners. The Potosi is not alone the largest, but probably the fastest sailing ship in the world. Her log shows that a number of times she made 16 1/2 knots an hour. Her commander is never known to have made a slow passage. In 1895 he was in command of the ship Parsifal, bound from Cardiff, with a coal cargo to a nitrate port. Off Cape Horn, he carried on until the vessel capsized and all hands were saved by a vessel that happened to be in sight. His coal cargo then had no shifting boards, which the British law now requires. When the captain arrived home the vessel's owners, who carry no insurance, to teach him a lesson gave him command of what sailors call, a slow wood box. He made a record passage in her and then Captain Hilgendorf was given command of a new iron ship, and late of the largest carrier and quickest sailer in the world.

Citizens Attention.

These are days of considerable anxiety and perplexity to all who have possessions or other interests in the Republic of Hawaii, and it is time that our citizens came to a mutual understanding on several important issues. The prospects for Annexation appear at present vague and indistinct, and our destiny cannot be foretold with certainty. There are those, also, who still fondly cling to the hope of a return to the old order of things, and who cannot be persuaded otherwise, yet this outlook appears far more hazy than that of Annexation even to the most hopeful disciples of the Monarchy. But, fortunately, in the midst of all this uncertainty there is solace in the fact that Buffalo Beer has come to stay and that patrons of all sorts and opinions may equally share the benefits of its invigorating and sustaining properties. We are moreover assured that this favorite brew will continue to be dispensed as heretofore at the Royal, Pacific and Cosmopolitan Saloons.

How Lead Pencils are Made.

Lead pencils are made altogether by machinery. The best quality of cedar is cut into proper lengths, shaped the exact size of the pencil, then split and grooved to admit the lead. The 'lead' is not lead at all, but plumbago, or almost pure carbon, the only admixture being a little oxide of iron. It is ground by machinery, and, with a little mixture of glue, or some other substance to render it strongly adhesive, is molded into the shape required. It is then placed in the grooves, already prepared, while a special device spreads glue over its surface and that of the wood, and thus completes the pencil, which is then passed on to be painted or varnished, dried, and packed. The colored pencils are made of ochre, colored chalk, or other materials.—St. Louis 'Globe-Democrat.'

Island Butter.

There is butter and there is butter but there is no butter that arrives in Honolulu so sweet and fresh as the Mikilua and Waiialele Butter. Its rapid transit by rail direct from the dairy to the Palama Grocery's large ice box so conveniently situated opposite the railway depot enables us to handle it to the best advantage. No wonder we are doing such a large butter business, when we are selling this fine butter at 35c. per lb. Palama Grocery, opposite Railway Depot, King street. Telephone 755.

King Bros. have just received a new lot of tissue paper, window poles, sash rods, artists' materials, picture frames, etc.
