Weakened Vitality IMPOVERISHED BLOOD.

Read what Ayer's Sarsaparilla did for the Rev. Z. P. Wilds, a well-known city missionary in New York and brother of the late eminent Judge Wilds:

"I was for many years a sufferer from boils and other eruptions of a like nature, caused by the impoverished state of my blood. My appetite was poor and my system a good deal run down. Knowing the value of Ayer's Sarsaparilla, by observation of the good it had done to others, I began taking it. My

Appetite Improved

almost from the first dose; then my general health improved, and now it is excellent. I feel a hundred per cent. stronger, and I attribute this result to Ayer's Sarsaparilla, which I recommend with all confidence as the best blood medicine ever devised."

MONEY FOR GOOD IDEAS

WOMEN MAKE LITTLE FORTUNES IN SIMPLE WAYS.

Paper and Cardboard Transmuted Into Currency by Active Brains and Clever Fingers.

How many little attractive trifles are imported to Honolulu every holiday season, which "take" on sight and contribute to the adverse "balance of trade," although equally "catchy" notions might be made at home—say, by the industrious women connected with the Woman's Exchange? An exchange gives the following account of fortunes made out of unconsidered "nothings," which the BULLETIN in reprinting hopes may stimulate Hawaiian ingenuity and promote the turning of many an honest penny:

Fortunes are made in many peculiar ways nowadays, and women make them as well as men. One woman, by a lucky chance, made a fortune out of a butterfly two winters ago; another woman, hardly less fortunate, made her fortune out of an eggshell and a bottle of ink. Still another clever woman evolved a suburban home, a trip to Europe and various other pleasant things out of a piece of yellow felt, a bit of silesia, and a circle of strong cardboard. These things do not happen every day, but they do happen once in a while, and right here in Chicago, although neither the butterfly nor the eggshell fortunes began here.

The butterfly was made of paper, and the woman who was inspired to make it did so purely as a bit of pleasant fancy work. She wanted something new to hang upon the curtains in her parlor. The result was so pretty that she offered it for sale at a fancy store. Everybody who saw that butterfly admired it and wanted a similar insect. The woman who had made it applied for a patent, hired assistants, and started in to make butterflies for the Christmas trade. When the new year came in she had several thousands of dollars to her credit. Of the army of imitators who all wanted to make butterflies, too, some made considerable sums of money out of articles as nearly like the original as possible. The gay little insects, altered and varied in countless ways, are in the market still, and they sell well, too. The woman to whose credit they should be placed only realized a small share of the profit which should have been hers, the applied-for patent notwithstanding, and she has never made another article which charmed the popular fancy in this way. But the butterfly, while the fad lasted, was a brilliant success.

The eggshell idea was evolved into a small doll, with the painted shell for a face, and a dainty cap for a setting. So taking was the little oddity that its maker experimented further, and curates, grandmothers, babies, clowns, all manner of capped and bonneted creations were added to the first eggshell trifle. Afterward they were improved upon and turned into pen wipers, jewel cases, pin cushions and countless other small articles of fancy work. The idea spread, fashion took it up and the eggshell dolls were immensely popular. As in the butterfly case, the originator of them received but a small share of the money which she should have done, but she earned a small fortune, nevertheless, and enjoyed the making of it. The eggshaped doll afterward passed into the brownie doll, but it was the same old idea. It is still to be seen constantly in the fancy stores, and bids fair to last for years. This brilliant idea was the result of a mere accident also.

The yellow silesia, felt, and cardboard made the sunflowers which were so popular some five years ago. Every store in town was flooded with them for months,

and the lucky inventor of them made a pleasant sum of money. The sunflowers did not last as long as either of the other articles mentioned, but they made several women comfortably rich for a season or two. In this case the originator of the idea made a fair profit, despite her imitators and the fact that the flowers were unpatented.

Nor were these instances the only examples of their kind. Right at the present moment a down East woman is getting rich with the proceeds of the countless "brownie" articles which she places on the market. So well has she done that she is able to have the various little appliances manufactured at wholesale, and her goods are absolutely perfect. Every article, however small, is protected by a patent as fast as it appears, and this one woman supplies nearly every fancy store in New York and Chicago, to say nothing of the exchanges for women's work in these and several other large cities, with her fancies in this line. They all sell well and rapidly, and their maker is fast growing rich.

THE CAMPBELL BLOCK.

Fred Harrison is the Lucky Contractor This Time.

Bids for the erection of the new two-story building on Fort street for James Campbell were opened yesterday and the award was made this morning. E. B. Thomas was the lowest bidder and Peter High the highest, but Fred Harrison was the one selected to do the work. The bids put in are given below:

E. B. Thomas	\$16,790 00
J. F. Bowler	17,434 00
Patzig & Mutch	18,900 00
Fred Harrison	19,000 00
Arthur Harrison	20,000 00
F. Redward	22,375 00
G. W. Lincoln	24,260 00
Peter High	24,550 00

POLICE COURT MASTERS.

Peculiar Developments in a Portuguese Larceny Case.

In the police court yesterday afternoon the larceny case against Mary Estrella, a Portuguese girl formerly in the employ of Mrs. Wm. Larsen, who was accused of abstracting \$20 from the purse of her employer, was dismissed on motion of defendant's counsel after the testimony of the prosecution was all in. Miss Santos, or Minnie Weir as she is sometimes known, gave testimony in the case of such a nature that she was arrested and charged with the offense while the other girl was discharged.

Paho and Kauai, two native vagrants, were given six months each, and four others who pleaded guilty of a similar offense, had their sentences suspended.

At this morning's session a couple of drunks were given the usual fine.

The charges of assault and battery against B. Joy and larceny against Kamelia Holt were both nolle pro's.

The balance of the session was taken up with the examination of Moepono on a charge of suborning witnesses and the case is still on.

Ladies Attention.

Yesterday was the opening day of the big lace sale at Jordan's No. 10 Fort street store. To clear out his immense stock a reduction of 75 per cent. was made throughout. That the ladies appreciated Mr. Jordan's effort is evinced from the fact that one third of the entire stock was disposed of yesterday. When laces that formerly sold at one dollar the yard are reduced to 25c. it is quite natural that they would soon sell. Goods that sold for 50c. are reduced to 5c. and 10c. This sale will continue for this week only. If you want a real bona fide bargain drop in and inspect this stock of laces and you won't go away without making a purchase.

MORE ABOUT BASEBALL

AUSTRALIAN BALL TOSSERS WILL BE HERE IN MARCH.

Nothing Done Toward Getting Up a Game Here—The Association is Blamed.

The interview with a prominent local ball player given in yesterday's BULLETIN has been generally endorsed by players and prominent patrons of the game alike, and it is the general opinion that the Hawaiian Baseball Association and the delegates of the various clubs should get down to business and do their part toward making this season a successful one. It would seem that pecuniary interests alone would impel them to take every means to make the season a success and yet so far nothing has been done.

Here is a matter in point. President Hart of the Chicago League Baseball Club has publicly announced in the press of the United States that a team of Australian baseball players will sail from Sydney by the March boat for San Francisco. They are to be under the management of Harry Musgrove, who successfully managed the Australian cricketers on their trip around the globe last year, and want to play games with clubs throughout the United States. Their intention is to make a tour of the world. Mr. Musgrove is already in the States making dates for his team, and passed through this city on the Alameda.

The March boat from the Colonies is the Monowai, due here on April 1. The ball players will be here in all probability a full day or in any event long enough to give an exhibition game, of which they would be only too glad to take advantage for a little practice. If those who have the management of baseball matters here were alive to their own interests they would have arranged for a game with the Australians, and it is not yet too late to do so. A ball game between the nine from the Antipodes and a team composed of the strongest players in our own clubs would fill every nook and cranny of the Recreation grounds and be a big financial success, and yet the BULLETIN doubts if it has even been thought of by the local managers. If a little more enterprise and business management was injected into local baseball matters there would no longer be any question about baseball being a paying institution. The BULLETIN will have more to say on this subject later on.

WARREN GOODALE DEAD.

Expires Suddenly on Nuuanu Street from Heart Disease.

Warren Goodale, lately residing at Papeaiku, Hawaii, and one of the best known of the older residents of these islands, expired suddenly on the corner of Nuuanu and Kuukini streets while waiting for a street car last night. The deceased had been spending the evening at the residence of P. C. Jones, having come down from Hawaii expressly to be present at the reunion of the Hawaiian Society, Sons of the American Revolution, but left to return to his hotel as soon as the literary program had finished. As he was standing on the corner waiting for the car he was seen by Olaf Sorenson to suddenly reel and fall to the ground. The car had come along by this time and the driver went to Mr. Jones' house for assistance. Drs. Wood and Pratt, with Mr. Jones, at once left the house and removed the unfortunate man to the residence of Chief Justice Judd, where a medical examination showed that life was extinct. He had died suddenly and without warning. The body was afterward taken in charge by Undertaker H. H. Williams for embalming.

Mr. Goodale had been a resident of these islands for nearly fifty years. He was a native of Marlborough, Mass., and was born July 2, 1826. While on a visit to the United States during the war he raised a company of volunteers in his native State and took part in the closing scenes about Richmond. He was by profession a surveyor. In 1849 he was appointed Marshal of the Kingdom by Kamehameha III. and as such had charge of the old fort, but did not hold the office long. After his return from the United States at the close of the war he was made Collector-General of Customs, which office he filled acceptably for a number of years. He was an old and esteemed member of Hawaiian Lodge No. 21, F. and A. M., the G. A. R., Sons of the American Revolution, the Historical and other societies, and was highly esteemed by those who knew him. Some years ago Mr. Goodale was bookkeeper for a plantation on Maui, but failing health caused him to resign and take a tour abroad. After his return he went to live with his son, W. W. Goodale, manager of the Onomea Sugar Co. at Papeaiku.

Mr. Goodale was married about 1854 to Miss Ellen R. Warren of Massachusetts. They had three sons and two daughters, viz.: W. W., named above; Charles W. and David, of Butte, Montana, and Mary E. and Ellen, of Massachusetts. Mrs. Goodale died about 35 years ago.

The funeral will take place tomorrow afternoon at 3 o'clock from Central Union church to Nuuanu cemetery. The body will be taken in charge of the Free Masons at the church. The Government has tendered the services of the band and an escort of police. At the cemetery the body will be placed in the receiving vault, until instructions are received for its final disposition from Mr. W. W. Goodale, who is expected in town by the return of the Kinau that sailed for Hawaii this morning.

SPANIARDS HIGHLY EXCITED.

The Londo cable item today has the following: "The Cuban resolutions in the United States Senate would be regarded here as a little more than a useful safety valve for the jingo sentiment did not the Madrid telegrams show the highly inflammable state of the Spanish populace. It suggests that they drink Rainier Beer and keep cool. On tap or in bottles at the Criterion."

IN THE HIGHER COURTS

MINISTER OF INTERIOR TO SHOW CASE IN THREE DAYS.

Work of the Foreign Jury—Judgment in Ejectment—New Case Filed.

Judgment has been entered in the jury waived ejectment case of James E. Dowsett and others vs. Kanoho and others, for 12,000 square feet of land at Kakaako, with costs of \$56 but no damages. Plaintiffs had claimed \$2000 damages for wrongful occupation.

J. F. Colburn has filed a discontinuance of assumpsit suit against C. W. Spitz.

Judge Perry has signed a decree granting Minnie Schuman a divorce against E. G. Schuman, with \$500 alimony, \$250 for the child, \$50 as attorney's fee and \$50 a month, further, for the support of the child. The mother to have custody of the child until she be old enough to go to school, and then the father to have the right to send her abroad for education.

Judge Carter granted an alternative writ of mandamus, at the suit of J. F. Hackfeld, commanding the Minister of the Interior to file the incorporation papers of the Oahu Sugar Company in his office, or to show cause to the contrary within three days after the service of the order. The order was duly served today.

Henry Holmes, trustee, has entered an assumpsit suit against Irene I. Brown and C. A. Brown, for \$2000 upon a promissory note, with interest thereon from May 1, 1896, at 7 per cent, also for \$1155 interest on eight promissory notes of the foregoing date. The summons is for the May term of the Circuit Court.

The jury in the case of C. J. Sherwood, unlawful liquor selling, returned a verdict of guilty, three jurors dissenting. Notice of motion for new trial was given.

Ab Sing is on trial before Judge Perry for conducting the fa gambling, the following jury being in the box: O. C. Swain, H. M. von Holt, Thomas Wall, A. E. Weirick, C. B. Dement, G. W. R. King, W. R. Sims, F. J. Turner, H. E. Waity, W. M. Templeton, D. W. McNicoll and C. W. Dickey. Dole for prosecution; Davis for defense.

Rebuttal by libellant has been reached in the Dimond divorce case, this the ninth day of trial.

Chinese in Europe.

Chinese are making their way in large numbers into European countries, where they engage for farm labor. A correspondent of the Country Gentleman writes that coolies may now be found by the thousand in the provinces of Silesia, East Prussia, Posen and Pomerania, where they work for 20 cents a day.

"Not Enough."

A lady asked a naughty editor how to make "not enough" out of the word "enough," and he told her that it was done by transposing the letters into words like this: Take the third, second and first of the word "enough" for the first word, and the sixth, fourth and fifth for the second word and you have two words that signify something that is not enough for any young lady.

1895 Rambler, \$75.00

Trusting that you may be interested in cycling, we take the liberty of stating to you a few facts about our wheels:

We need not trouble you with needless description of the World Famed "RAMBLER" Bicycle, which by its easy running, appearance, strength and lasting qualities has won for the makers a name world renowned.

The "RAMBLERS" are equipped with the great G.&J. Detachable Tire, which since its introduction to Honolulu has proved, by the numbers in use, the most successful and necessary adjustment to a bicycle.

We take great pleasure in recommending to our friends the "RAMBLER" and trust that in furnishing one to any person they will never have occasion to regret.

Our terms are such that a bicycle is no longer a luxury, but a necessity in actual saving of time and money. We would ask you to but call and get our figures.

1896 Rambler, \$95.00

As is customary nearing the close of each year, the makers in order to get ready for the ensuing year, offer the present 1896 wheels at reduced prices. We are now prepared to give our customers the benefit of these reductions as long as our stock holds out. For those wishing an up to date wheel of the highest grade, one which we can guarantee to the fullest extent, we would offer the "RAMBLER." As to improvements for the coming season we would say we anticipate none. Such changes which may be made will, as has been the past two years, be changes immaterial to the improvement of the wheel in general.

Kindly give this some thought or call your friends' attention to it and oblige.

Yours truly,

HOW TO CARE FOR CLOTHING.

Hints About Closet-Packing Away Un-used Articles.

If in a freshly whitewashed closet it is necessary to hang dark clothing, tack against the wall an old piece of sheeting or calico as a protection for the clothes against the line, which would otherwise rub on them. The closet upon which the hooks are screwed should be about 4 1/2 or 5 feet from the floor, and your closet shelf about 3 inches above the eave. This is a convenient distance and prevents reaching and straining when things are to be put on or taken off the shelf. The capacity of a closet is increased by screwing to the underside of the shelf a row of double hooks shaped like the letter T. Another excellent plan is to run a rod across the closet lengthwise and then fasten to this a number of movable hooks of galvanized wire. These hooks are excellent, as the clothing can be hung loosely on them, and they can be pushed along the rod to make room in the same way that clothing stores arrange dresses and coats. The yokes which many clothing houses send along with coats and wraps are the best things for keeping cloaks and wraps in shape. Any housekeeper can make herself a supply of these by taking pieces of barrel hoops about 19 or 13 inches long and winding about them pieces of old cambric or muslin.

Woolen will not serve, as it invites the attention of moths. Suspend the yokes by a loop made at the center with stout cord, wire or cloth.

Closet floors need special attention. Wide cracks in them collect dust and lint or afford lodgment to moths and other troublesome insects. These should be carefully filled with putty or plaster of paris. A good substitute for these is newspaper shredded finely and made into a paste with gum tragacanth or a little hot water and glue.

Camphor, tar balls, tarrad paper and cedar chests have proved inadequate as moth exterminators. It seems to be decided that the only safe thing is to thoroughly beat all dust out of the clothes, give them a thorough sunning, wrap them first in a piece of old muslin, then tightly inclose the bundle in newspaper. Printer's ink is very distasteful to insect force.

A wise plan is to label these parcels, as the uniformity of appearance may lead to mistakes. Tack a set of paper on the inside of closet doors and on the lids of boxes and trunks. As each garment is laid away write its name on the paper. By this plan the closet, the shelf and the package which holds a desired garment can be recognized at a glance.

W. W. DIMOND'S

Bargains in crockery come, not from over-buying, through breaking sets for customers. Odd pieces have less commercial value, to us, than full sets, but to the purchaser there is no difference.

We have a vast number of broken tea sets, odd cups and saucers, breakfast dinner and tea plates and glassware. These have been massed together to form the foundation for a bargain week. The prices are a third off cost and for cash there will be discount; that means that the goods will go to everyone for the same average price, for the reason that with the reduction and discount, the prices will be too low to admit of loss of interest accumulating on time accounts.

This sale will last one week beginning Monday, February 22. The opportunity to secure this class of goods at such low prices will not occur again in a twelve month, and ladies who wish to fill up the vacant spaces in their pantries should avail themselves of it.

We are expecting a large invoice of China from the factories in France and England. The goods will be of the same fine quality that we have always carried in stock.

To make room for the new and get rid of the old we offer at less than cost odd pieces in French and English China. These comprise Teas, Coffees, Breakfast or Dinner Plates, Vegetable Dishes and every thing else in China used on the table. They are not in full sets but in odd pieces. This is the first odd piece sale we have held and you get a great benefit if you take advantage of the opportunity presented. There are not many pieces, and the first customer gets a bargain.

Correcting Children.
An exchange tells of a method resorted to by Indian mothers to keep babies from crying. At the first attempt to cry on the part of the infant the mother places her hand over its mouth and pinches its nose so that it cannot breathe. Naturally it stops crying, and in an instant it is allowed to breathe freely again. This operation, repeated persistently whenever the baby begins a crying spell, soon persuades the child that it is its own act—the effort to cry—which produces the uncomfortable choking fit. It soon decides that the game is not worth the candle and stops its wails. Now, it is too much to expect the American mother will resort to this heroic measure to persuade her infant that crying is unnecessary, but will she perhaps see the moral in the proceeding? Herbert Spencer points the same in his essay on education, when he advises parents to follow the methods of nature in their correction of their children. A child touches a hot stove, and his finger is burned. He does it again, and again his finger is burned. Every time he tries it the punishment is ready. Probably the second attempt convinces him, and never again while he lives does he voluntarily try the temperature of a piece of heated iron on his exposed skin. It is not the violent spasmodic punishment that means correction of a child's faults. Retribution may be small and comparatively insignificant if it is absolutely sure to follow transgression. It is the persistent, relentless and not to be escaped character of the consequences of his misdemeanor that impresses the childish mind and finally convinces him. All of which is with apologies to Mr. Spencer, who has said it infinitely better in his essay, to which all mothers who have not read it are earnestly referred by a writer in the New York Times.

Royal Arcanum.
Bro. G. H. Jackson, Iowa's grand reagent, is eminent commander of Ivanhoe commandery, K. T., of Council Bluffs. He is also a noble of the Mystic Shrine and P. G. R., Order Eastern Star.

Of Massachusetts councils in good standing last year 100 made a net increase, 26 a net loss and 19 were stationary.

New Jersey brothers can now look forward with assurance of another, the fourth, representative to the supreme council at its twentieth anniversary in Boston in May, 1897, by the passing of the 15,000 membership necessary.

Pennsylvania council, Philadelphia, presents a gold label button to each candidate initiated in the council.

Supreme Guide J. A. Carter of Ohio was recently elected one of the councilmen of Geneva.

Too much cannot be said of the great lack of interest shown by proposers of candidates in getting them to the examiner after having recommended them.

The whole list of supreme council officers and committeemen were re-elected by the supreme council, except Cox of Missouri, chairman of committee on council work, who was defeated by Isaac W. Caulfield of New York city by a vote of 43 to 37. Mr. Caulfield is secretary of New York council, No. 348, which numbers nearly 2,100 members.

Red Men.
Pennsylvania probably leads the procession this great sun with a net gain of 2,106 members. This is a better record than any other society in the state has made.

Jacob N. Delahy, the present grand junior Sagamore of Maryland, won the 25 fathoms prize given by Great Senior Sagamore Charles A. Rotan for the Maryland Red Man who should present the greatest number of palefaces for adoption last great sun. He proposed 61 accepted candidates.

It is expected that before the end of hot moon the order will be organized in every state and territory in the Union.

The great council of Maryland adopted a resolution at its last great sun council requesting all its tribes to display the American flag on all public holidays and in all their parades.

The committee on ways and means to build a wigwam for the great council of Pennsylvania report in favor of a building to cost 50,000 fathoms, 10,000 shares of stock to be issued at 5 fathoms each.

NOBLE MAN GONE.

Warren Goodale, whose sudden death at an advanced age is elsewhere reported, was an oldtimer of more than average intellectual caliber. He took an intense interest in the affairs of his adopted country, and was particularly solicitous for the rights of the native people. Although of American revolutionary lineage and a soldier in the defense of the Union, Mr. Goodale never could become reconciled to the violent measures taken in Hawaii on behalf of political reform. He declined also to adhere to the Republic of Hawaii, because he had got tired of new constitutions, having had experience of three in his long residence here. Mr. Goodale was an earnest student of history including constitutional, and wielded a more than ordinarily keen pen. As showing how alive he was to what was going on in the world around, it may be mentioned that he was the first resident of these islands to order and receive "The American Commonwealth," the great work of James Bryce, member of the British Parliament. Mr. Goodale was a man of fine presence, physically, and his demeanor was illuminated with rare geniality. He was devoted in his friendships, which were highly valued by their objects. Taken all in all, it will be long before we look again on one like Warren Goodale, a "gentleman of the old school," who has been cut down by the grim reaper as a shock of corn fully ripe.

How clever women may keep themselves in pin money, besides saving something for sugar stocks, is illustrated in an article elsewhere.

WHICH DITCH?

It is surely owing to fatal defects in the scheme, as a whole, that the United States Congress will have nothing to do with the Nicaragua canal. What the work completed would save to America an immense commerce in time and trouble rounding the Horn, there is not the least doubt, would more than meet an interest guarantee on the whole cost. It is safe to say, also, that the stimulus the canal would give to American commerce, both interstate and foreign, would be equally valuable to the saving in question by existing commerce. Moreover, the value of the work, in enhancing the efficiency of the American navy, must be simply incalculable. In the meantime the Frenchmen are industriously digging away at Panama, and before many years they will have that canal opened. Then the United States will have to maneuver to secure her own interests in the only American inter-oceanic thoroughfare, short of the ancient route, that will be seen for another century. Nicaragua or Panama, the canal that is to be will make a material difference in the status of Hawaii in the Pacific. What concerns the people of these islands now is whether the United States will continue to "monkey" with the Hawaiian question, until too late for her own stake in the Pacific besides the best interests of this mid-ocean commonwealth, as she would appear to be doing in the matter of inter-oceanic communication.

It is to be hoped the Siberian railway will bring joy to the captive as well as gold to the capitalist.

Japan, according to latest advices, is figuring on a transpacific cable. It will be landed on Hawaii and then maybe Japan will begin figuring on something else.

An injustice would seem to have been done to those twelve Hawaiian jurors, who were ignominiously discharged for the term because they acquitted a countryman tried for illicit liquor selling. Upon the evidence of practically the same policemen and informers, foreign juries have since that disagreeable episode acquitted one of their "peers" twice, while a second foreigner has only been convicted, on a similar charge, by the bare two thirds majority allowed by the statute.

Salinas' Beet Factory.

Active work on the Salinas beet factory has already commenced. Plans are being prepared by draughtsmen and the allotment of machinery has been made. It will consist of a quadruple mill, with four sets of diffusions, each 250 tons daily capacity, and can be operated in part or in whole, as the rush of beets demands. It will have an aggregate capacity of 3000 tons daily and it is expected that it will reach that limit soon after its initial run. The people of the Salinas Valley have pledged themselves to raise sugar beets for the next three years. Twenty thousand acres of land that has heretofore been used for wheat and other cereals will now be devoted to beet culture.

Splendid Tribute

THE SAN FRANCISCO BOARD OF HEALTH
URGES THE USE OF THE

Royal Baking Powder.

The magnificent tribute of the San Francisco Board of Health to the great purity and wholesomeness of the Royal Baking Powder greatly disturbs the manufacturers of the lower grade powders. Their envious publications, however, cannot break the force of this unsolicited and unbiased high medical endorsement. Attached is a certified copy of their original report, with the signatures of the members of the Board in fac-simile.

We, the members of The Board of Health of the City and County of San Francisco, cordially approve and recommend the Royal Baking Powder. It is absolutely pure and healthful, composed of the best ingredients of the highest strength and character.

In our judgment it is impossible to make a purer or stronger Baking Powder than the "Royal."

Island Butter.

There is butter and there is butter but there is no butter that arrives in Honolulu so sweet and fresh as the Mikilua and Waianae Butter. Its rapid transit by rail direct from the dairy to the Palama Grocery's large ice box so conveniently situated opposite the railway depot enables us to handle it to the best advantage. No wonder we are doing such a large butter business, when we are selling this fine butter at 35c. per lb. Palama Grocery, opposite Railway Depot, King street. Telephone 755.

Information for Tourists.

A passenger by the last Colonial steamer was met on the dock by a Milesian American friend, who resides in Honolulu. As the pair waited to have the newcomer's gripsack scrawled over with shak marks by the Customs Inspector at the gate the stranger remarked to his friend "Do you 'ave much rain 'ere?" RAINIER me boy, gallons of it, just come up to the Anchor Saloon where they keep it always, clear and cool. We'll just be in time for lunch too and that's the only place in town where they serve it up in proper style with a glass of RAINIER BEER to equilibrialize the solids—They went!

M. M. WATSON DISCHARGED.

The case of M. M. Watson, who was charged with stealing a keg of beer from the Seattle Brewing and Maltng Company, was dismissed by Judge Glasgow yesterday afternoon. STOVES AND RANGES, ETC., ETC.

We are happy in being able to announce that we have at last received a fresh supply of the NEW PROCESS BLUE FLAME OIL STOVES, and several of our customers who have been awaiting their arrival are already using them. The merits of these stoves are too well known to need repetition. They burn with a clear blue flame, give out no smoke or smell, are clean, neat and economical and absolutely safe.

The GOLDEN ANVIL STEEL RANGE, handled by us, is as near perfect as can be made. We have much pleasure in announcing a reduction in price. They are now selling at \$50.

We have also received another big lot of the justly celebrated PANSY STOVES in three sizes, 6's, 7's and 8's. They are the best stove in the market for the money, handsome, durable and cheap, with all the latest improvements.

If you are in need of anything in the line of stoves or ranges we can surely suit you.

Watches for \$300

For those with a longer purse and an inclination for something out of the ordinary.

We want to add you to our list of pleased watch customers, no matter how little or how much you have to spend for the purpose. We have the goods, and our many years of experience will be gladly given to aid you in selecting one which will be best for you.

H. F. Wichman

If a man's dinner is right, and he rises from the table conscious that his wife has used the same judgment as to price that she did in the selection of the articles disposed of there can be no indigestion to follow. Our goods are of the kind which bring health, happiness and a fat purse.

Table delicacies are a fad with us—they are bought because we know the average Honoluluite is fond of good things for the stomach. Our prices are below the average and special inducements are offered to cash purchasers. Our latest importations include the best goods obtainable in the English markets.

Copeland's English Peas; Cod's Roe, Mackerel in Mustard Sauce and Cambridge Sausages in tins are so well put up that it would be difficult to detect the difference between them and the same articles direct from the market.

"Teyssonneau" is a long name to put before Pate but the combination makes the best tid bit ever placed before a gourmet. These are goods that anyone may eat without fear of indigestion following. They are put up in the best factories in Europe and come to us in elegant condition.

STEAMERS TO SIBERIA.

Vessels May Ply Between Vancouver and Vladivostok.

Vancouver, B. C., Feb. 8.—Dr. de Kannet, the eminent Russian lecturer, who is now here to give addresses on Siberia and its prospects, declares that with the opening of the trans-Siberian railroad there will speedily follow direct and rapid steam communication between Vladivostok and Vancouver. This would place British Columbia in an all-round-the-world route that could be traversed in forty days.

Dr. de Kannet expects the Canadian Pacific Railroad to join in the work of developing this great route by land and by sea. He predicts that, with the opening of the railway, there would come such vast gold development in Siberia as would make that country one of the greatest gold producers in the world. Even now, with but primitive appliances and methods, it produces in the neighborhood of \$29,000,000 in gold yearly.

Treatment of Oilcloths.
 A correspondent of the New York Sun confides the secret of cleaning an oilcloth and making it last a very long time: Cut into pieces half an ounce of beeswax, put in a saucer, cover entirely with turpentine, and place in the oven until melted. After washing the oilcloth thoroughly with a flannel, rub the whole surface lightly with a bit of flannel dipped in the melted wax and turpentine. Then rub with a dry cloth. A polish is produced, and the surface is lightly coated with the wax. When the floor requires to be cleaned, the wax is washed off, together with the dust or dirt that may have gathered, while the oilcloth is preserved.

Removing Old Wall Paper.
 During the house renovating, if an old wall paper is to be removed, before going to work close the doors and windows tightly, place an old boiler or tub in the room and fill it with boiling water. The steam will moisten the paper, and the work may be done quicker and more easily.

How to Make Artificial Fruits.
 The latest luncheon favors are reproductions in silk of the early radishes, the tempting hot-house cucumbers, big, luscious strawberries and all such fruits and vegetables as lend their color to decoration.

The primary object of their being is ornament, but secondarily they serve a practical use. As a prosaic matter of fact, they make pin cushions or emeries according to size, and can be carried away as permanent souvenirs. Each model is copied as closely after nature as possible. The shape is obtained by careful piecing together of the various sections of white silk.

The color is applied with the brush, and is made so realistic as to suggest a practical test of their quality. But the ideal interest they excite is due to color and effect. Radishes with their tender, green tops surmounting the red, carrots with their splendid orange, and cucumbers that show the peculiar vivid green of the hot-house growth are the favorites.

Lowly, but Honest.

"Jane, if any one calls, tell them I am not at home."
 "If you think I'm going to tell a lie for you, mum, you make a great mistake. You must tell them yourself."—St. Paul's.

How to Tell a Horse's Age.
 "The popular idea that the age of a horse can always be told by looking at his teeth," said a veterinary surgeon, "is not entirely correct. After the eighth year the horse has no more new teeth, so that the tooth method is useless for telling the age of a horse which is more than 8 years old. As soon as the set of teeth is complete, however, a wrinkle begins to appear on the upper edge of the lower eyelid, and a new wrinkle is added each year, so that to get at the age of a horse more than 8 years old you must figure the teeth plus the wrinkles."

How to Get Fish Bones From the Throat.
 With children in the house it is especially necessary to know how to remove fish bones or anything else that has lodged in the throat. The white of a raw egg will do this.

Why He Wouldn't Go.
 "Supposing," remarked the man who wears glasses and talks at random, "that we were to have a war"—
 "We're not going to have any such a thing," replied Koener.
 "But, supposing we should, what seems a misfortune would become an advantage. If we should have a war, I wouldn't go because I'm too nearsighted."
 "I wouldn't go either. I'm too farsighted."—Washington Star.

Honolulu, April 21, 1896.
 Mr. C. W. MACFARLANE:—It affords me pleasure to recommend, to any one whose hair is falling out, the use of DR. POTTIE'S HAIR OIL. My hair was coming out at such a rate as led me to believe that I would soon become bald. After using the oil for five weeks this ceased entirely; none whatever is now falling out. I consider it the best and only worthy remedy for this trouble and also recommend it as a stimulant to new growth.

THE WIDDER WHARTON.

Her Dan Was Gone, but There Seemed to Be Others.

A couple of miles west of Prairie City I was overtaken by a man on horse-back, who informed me that there had been an accident in the town by which a man had been killed, and that he was then on his way to break the sad news to the widow. She occupied a dugout about a mile farther on, and as we reached the place we found her sitting on an old box at the door and puffing away at her pipe. She gave us a nod and a look of inquiry, and the man with the mournful news cleared his throat and blew his nose and finally said:

"Mrs. Wharton, in the midst of life we are in death."

"What you drivin' at?" asked the woman as she gave him a sharp looking over.

"We are here today and gone tomorrow," he continued. "We cometh up as a flower and are cut down."

"Who's goin' tomorrow?" she demanded. "If you think I am, you've made a mistake. What's the matter with you, stranger—got cramps or sunthin'?"

"Mrs. Wharton, I am the bearer of news."

"Waal, what is it?"

"It's bad news."

"Let'er come and don't be beatin' all around the bush. Is taxes goin' to be higher?"

"No—not that."

"Got to give our lands back to the Injuns?"

"No."

"Judgment day comin' purty soon?"

"No. Widder Wharton, we know not what a day may bring forth."

"Waal?"

"We are a wife in the mornin' and a widder at night, and sich is life."

"Who's the widder?"

"Mrs. Wharton, our husbands go forth—go forth at the rising of the sun, and—"

"Look here, mister man," said the woman as she rose up and lifted a handy club from the ground; "hev you got anythin' in pertickler to say to me?"

"I hev, widder," he answered.

"Then spit'er out and don't act like a fool! What's happened?"

"Your husband is no more on this earth."

"Why ain't he?"

"'Cause he's dead. He fell agin the saw up at the mill this mornin' and was cut in two."

"Humph! You mean Dan?"

"Yes."

"Gone fur good?"

"Gone to a better land, I hope. Widder Wharton, may heaven gin you strength to bear up agin this awful blow."

"Y—e—um! See them critters over by that barn—"

We looked where she pointed and saw five men sitting in the shade of a haystack, each one with his face in his hands and his elbows on his knees.

"Who's them?" asked the messenger.

"Callers," she replied, "callers to see if I was a widder and on the marry, and at least five more will be along afore dark. I guess heaven will gin me strength to bear it, and I'm much obliged to you, and now I must go in and change my apron and put on my shoes 'and git ready for a rush."—New York Sunday Journal.

A Mystery of the Mills.

In the mail delivered at his West Philadelphia residence the other day William May, the well known ship chandler, discovered a most remarkable document. It was an invitation to his own wedding, which occurred in 1867, and where the massive has been during the intervening 29 years is a matter of no little mystery. It was addressed to a friend of former years, who then resided at 888 Wharton street. Considering its age, the envelope is in a very good state of preservation, although completely covered with hieroglyphics added by postal officials. The invitation card, while yellow with age, gives little evidence of its 29 years of strange existence.—Philadelphia Ledger.

Two thousand five hundred dozen Valenciennes Edgings and Insertions arrived per S. S. Warimoo for L. B. Kerr, and are being thrown away.

Of the Secretary Disc Plow one of the most successful plantation managers writes the Pacific Hardware Co.: "I have delayed writing you about the work of the Secretary Disc Plow, until I satisfied myself in regard to its proper working. . . . I am busy plowing a field with it now, and it is doing fine work, and I hope for good results from the thorough plowing it is receiving."

S S CHITTAGOONG INWARD

STEAMER KINAU DEPARTED FOR MAUI AND HAWAII.

Mark J C Glade to Load at Kahului—Foreign Skippers Go Pleasing—Along the Docks.

The British bark Northbrook is to sail for Puget Sound tomorrow. S S Chittagong is expected to sail at noon tomorrow for Japan and China.

The whaling bark Andrew Hicks continued her voyage to the Okhotsk Sea yesterday.

Every trans-Atlantic trip of the larger of the ocean liners costs from \$15,000 to \$20,000.

The Archer moved to railroad wharf to load Ewa sugar. She will be ready for sea in a day or two.

The bark Callao has moved to Fort street wharf from the stream to unload her cargo of Newcastle coal.

The Wilder steamer Kinau got off on time this morning. She had quite a list of volcano passengers.

Tomorrow, high tide large 11:14 p.m.; high tide small 9:10 a.m.; low tide large 2:0 p.m.; low tide small 5:5 a.m.

The schooner Robert Lewers is expected to begin loading sugar for San Francisco for H Hackfeld & Co next week.

Sails were bent on the German bark J C Glade today. She will go to Kahului to finish loading for New York. She has about 1,000 tons of sugar aboard now.

The steamer Kauai will go on the ways for a cleaning and painting this afternoon or tomorrow. The barkentine Geo. C Perkins and the schooner Transit may be hauled before leaving this port.

Captains of foreign vessels in port are having a picnic at Waikiki today. Some of the skippers are accompanied by their wives and families with baskets full of good things to eat. Quite a jolly crowd.

A San Francisco company purchased the whaling schooner Jane Gray and will send her to Alaska on an otter hunting expedition. Captain N. Hodgson will take her to either Sand Point or Sitka and there ship an Indian crew, after which a cruise as far north as Copper Island will be in order.

Bert Peterson and another young man came near taking an involuntary trip to the other islands. The twain had gone aboard the steamer Kinau to see some friends, but forgot to go ashore again until the gang plank was down. They managed to reach terra firma, though it was a narrow escape.

At an early hour this morning the S S Chittagong was sighted off port. She tied up later at Pacific Mail dock. Captain Corfield is commander of the ship, and Mr Murphy, formerly mate of the British bark Velocity, is chief officer. The run from Victoria was made in about 13 days. The first part of the voyage W S W and N W winds with heavy seas were had till the N E trades were struck, which continued to port. There were no passengers; but about 600 tons of freight were brought for Honolulu, and a large amount in transit. The Chittagong had a list to port, some of the freight having shifted during bad weather.

TEDDY HALE DEFEATED.

The Famous Cyclist Loses by Twenty Feet in a 100-Mile Race.

Cleveland, Ohio, Feb. 6.—Louis Gimm, the Cleveland long distance bicycle racer, defeated Teddy Hale, the Irish champion, in a 100 mile race at Central Armory to-night. For ninety-eight miles the riders "jockeyed" to tire each other and then let loose. Gimm took the lead, and although Hale managed to get abreast several times, he was each time forced to give way. In the last two laps Gimm increased his lead a little, finishing twenty feet or so ahead of Hale.

The official time was 4 hours and 56 seconds. The last mile was made in 2:39. This was considered a remarkable feat, considering the track being fifteen laps to the mile. The race was under L. A. W. auspices for \$250 a side and a percentage of the gate receipts.

Surpassed Naval Speed Records.

WASHINGTON, D. C., Feb. 10.—Torpedo-boat No. 6 surpassed all speed records in the American navy today on her official trial near Mayport. Commodore Dewey, chairman of the trial board, telegraphed the Navy Department as follows: "Made very satisfactory speed trial. Five runs over twelve mile course gave approximate speed 28 1/2 knots."

LONDON, Eng., Feb. 10.—Information has been received here that the British Niger expedition has captured the town of Bida, the capital of the Foulah tribe.

HOW TO CURE SEASICKNESS.

This Unpleasant Feature of an Ocean Voyage Obviated by Bromide.

The new American remedy is called "bromidization." This is a condition, not a theory. Bromidization must be begun several days before sailing, continued several days after, and sometimes through the voyage. In this case it defies both wind and weather. Bromide of sodium is preferred for the purpose to bromide of potassium, because of the sodium being milder and more acceptable to the stomach. A reliable physician, who has used the bromides extensively in his practice for years, asserts that the quantity necessary to ward off an attack of seasickness is not in the least harmful. Few adults will experience the slightest inconvenience from a 30 grain dose of the bromide of sodium three times a day.

The symptoms of bromidization, when taken in sufficient quantities to prevent seasickness, are a slight drowsiness and a heaviness of the limbs. The drowsy feeling quickly wears off when the mind becomes interested, and the languor of the limbs is merely a slight sensation of stiffness if the patient should rise abruptly from a sitting to a standing position. It is pleasant to know also that this bromidization does not interfere with the subject's relish for food. Seasickness does not come primarily from the stomach. The nausea and vomiting are dependent upon a functional disturbance of the central nervous system, and upon this theory is based the use of the bromides. Any method that will serve to obtund the sensorium, render it anaesthetic and unsusceptible to slight molecular changes, is a rational method for preventing seasickness. If the bromide of sodium is taken regularly, in time and in proper proportions, in nearly every instance the voyager will be exempt from sickness, but the prospective voyager should by all means consult a physician as to the proportions to be taken in his or her individual case.

Tendencies.

"Here," said the person who was familiar with tendencies, "I would make a suggestion. You have your character fall into a brown study. Brown is such a common color and so trying for the ordinary complexion, don't you know?"—Detroit Tribune.

Methodical.

"You have been living too high," said the physician. "You'll have to stop it." "I realize that," was the reply. "That's why I sent for you. Now I won't be able to afford it."—Washington Star.
