EIGHTEENTH YEAR WAILUKU, MAUI CO., HAWAII FRIDAY, AUGUST 17, 1917. NUMBER 910

Sh-h-h! Maui Has A Mystery!

Hold-up Man On Pali Asks Questions But Answers None - Carries A Big Automatic OFFICIALS CLAIM IGNORANCE Man Has Barrier Across Road And With Aid Of Policeman Halts All Who Pass

If you have been startled out of a year's growth, during the past week, by having a man hold you up at the point of a big gun, as you drove peacefully along the pali road between Wailuku and Lahaina, you have but experienced what hundreds of others have. No, it isn't a highway robbery as you found out—it's simply a mystery.

Possibly one or two persons on Maui know what it's all about but the vast majority do not. Even Sheriff Clem Crowell and County Attorney Bevin claim to be in the dark on the matter, notwithstanding the fact that the board of supervisors gave permission for the gate to be put across the road, and the Sheriff is supplying a policeman to help the inquisitive stranger to perform his task. The granting of the permission by the supervisors, does not even appear on record on the minutes of the body.

HAIKU FARMERS ASK FOR ROAD Land To Be Bought For Hospital - Management Of Pauwela Waterworks Changed

The supervisors, at their meeting last Friday, voted to grant a pension of \$40 per month to the widow of David Morton, late deputy sheriff of Makawao district.

Because of the difficulty in securing citizen labor, the supervisors have authorized the employment of alien laborers in order that the school building being built may be completed before the school terms opens.

The chairman of the board of supervisors has been authorized to purchase 250 barrels of road oil for use in the Hana district. The oil is to be shipped from the coast to Hana direct.

The supervisors voted to purchase from the Smith Estate, a strip of land 75 feet wide, immediately back of the Malulani hospital, for purpose of enlarging the hospital as proposed.

Wailuku Women Slow With Pledge Cards

If Wailuku is truly representative of the rest of the territory, it is patent that the women of the Islands, at least, do not take the food conservation campaign at all seriously.

Two weeks ago Postmaster Costa sent out 200 cards to women in this community, which when signed and returned would secure their registration under the federal food commission's banner, and pledging them to practice economy in the use of food products.

The time for the return of the cards ends tomorrow. Up to noon today but 40 of the 200 cards had been returned.

Former Maui Man In Presidio Camp

Stanley Richardson and Wife Both Preparing To Go To War Front - Is In First Training Camp

Friends of Stanley Richardson, formerly stenographer for the Maui Agricultural Company, will be interested in learning that he is a member of the first officers' training camp, in the Presidio, San Francisco, and will probably finish his 3-months course this week. Since leaving Maui several years ago, Mr. Richardson and his family have been living in Berkeley. He has had a lucrative business as a certified public accountant, which he has given up in order to join the army.

Mrs. Richardson has also been taking a nurse's training course at the University of California, and plans to take up active Red Cross work in France, should her husband be sent there.

THREE MEN HELD AS SLACKERS

Records Show Two Hana Men Are Within Age Limits - Both Have Families MAY BE IMPRISONED ONE YEAR

Ulupalakua Hawaiian Also Arrested On Like Charge - Waihee Man May Also Be Arrested

Charles Kama and Manuel D. Kaina, both alleged slackers, were arrested in Hana on Tuesday of the week by Sheriff Crowell, who brought the men to Wailuku the following day.

John M. Makaiwa, of Ulupalakua, also charged with having evaded the registration on July 31, was brought to Wailuku yesterday afternoon. All three men are being held pending action by the central registration board in Honolulu. Sheriff Crowell has already notified District Attorney Huber of the arrests.

According to the Sheriff both Kama and Kaina on the day of registration claimed to be over 31 years of age, and persisted in the stand taken even after members on the registration board and friends in the neighborhood who knew them had remonstrated with them.

Kama is about 25 years of age, the officers say, while Kaina, according to

MAUI HAS RED CROSS AUXILIARY

Branch Of American Red Cross Association Decided Upon For War Relief Work

ALLIED WAR RELIEF SUPPLANTED A. L. Castle Helps Organize New Branch At Meeting Held Last Sunday - Much Enthusiasm

In common with the rest of the United States, Maui has finally got in line behind the American Red Cross and hereafter all relief work done in this county will be done as an auxiliary of the national body.

The decision to take this step was made at a meeting at the Kahului Community House, last Sunday afternoon, which had been called by the ladies of the Hawaiian Allied War Relief Association, which was organized before the United States became involved for helping the allied armies in England and France and to relieve the suffering in stricken Belgium. The meeting was called to order by Frank F. Baldwin, and Senator A. L. Castle, who has been at the head of the relief work in Honolulu addressed the meeting, explaining the changes that have taken place since the United States became involved in the great conflict, and urging that the Maui people be

MAUI JAPANESE WOULD FORM NATIONAL GUARD COMPANY

Much interest is being taken on Maui in the announcement that a national guard company consisting of young Hawaiian-born Japanese is to be organized in Honolulu, and there is talk that an effort will be made to secure permission for a similar organization on this island. If this cannot be accomplished Japanese will probably ask to be enlisted in the existing companies.

MAUI WINS IN HARVEST HOME GAMES

Splendid Tennis Witnessed By Big Crowd At Puunene Club Courts Last Saturday

HANSEN IS HIGH SCORE BOWLER Claudine Held While Visitors End Day With Delightful Dance - One Of Most Pleasant Social Events

Once more, despite the fact that it scarcely seems courteous to take anything from guests, Maui athletes took everything in the line of sports from their Honolulu competitors in the big Harvest Home festival meet last Saturday. But the visitors, as usual were true sports and took their drubbing gracefully.

In the neighborhood of 500 persons crowded the Puunene Club grounds during the playing of the tennis doubles, and packed the seating space at the alleys while the bowling was in progress. The tennis was for the most part a-1, and was so close all through that excitement ran high from beginning to end. At the close Maui was but 11 points ahead, the score standing 135 to 125.

Owen Merrick, the sports editor of the Honolulu Star-Bulletin, who came up to attend the meet, makes the following comment on Maui players:

Six have been taken from Hawaii, and 40 far as reported, one from Kauai, Oahu has 68. The men are to be given further physical examination when they report, and unless found fit will be disqualified. During the 3 months of training prescribed, any deficiencies which develop, mentally or physically, may also cause the candidates to be discharged.

Betts, luna, Hawaiian Commercial & Sugar Co., Puunene; W. H. Young, civil engineer, Pioneer Mill Co., Lahaina; Will J. Cooper, editor and manager, Maui Publishing Company, Wailuku; Edward B. Booster Dinner May Contain Surprises

Committee Working On Program But Keep Plans Under Hats - Taking Full Responsibility Of Inviting Ladies

A unique program is being prepared for the Chamber of Commerce booster dinner to be given at the Maui Hotel next Tuesday evening. Just what the nature of this entertainment will be is still a secret with the committee which has the plans in hand, but there is a deal of preparation going on which indicates that there will be "plenty doing." Besides having a good time, the object of the dinner is to get together on some plan for Maui's part in the sixth civic convention, to be held in Honolulu September 16, 17, and 18.

Not the least interesting feature of the dinner is the fact that the chamber members are privileged, and expected to bring a lady or ladies with them. This is the committee's idea. If it doesn't prove a success the blame will be heaped on J. J. Walsh, D. H. Case, and Worth Aiken, who are responsible.

Tuesday Was Busy Day For Maui Port

Kahului harbor presented an unusually busy appearance on Tuesday with the Matson liner Manoa, the oil tanker J. A. Moffatt, the lumber schooner Blakeley, and the Inter-Island steamer Claudine all in port at one time.

The Moffatt arrived on Monday with fuel oil and gasoline for the Kahului Railroad Company. She got away on Wednesday for Honolulu to discharge the balance of her cargo. The Blakeley made port on Sunday from Puget Sound with northwest lumber for the railroad. Coincident with her coming the price of lumber was advanced 30 cents per thousand feet.

SOLD MILK WITHOUT LICENSE

John Telles, a dairyman of Wailuku who was arrested and fined \$5 last week for selling milk without a license, is having his herd of cows tested and his place cleaned up, after which he will probably be granted the necessary permit. It was because Telles has not had his cows tested for tuberculosis, that the board of health refused to endorse him for a license.

### Famous Old Church Is Re-Dedicated

Many Visitors Gather In Reconstructed Temple On Molokai For Interesting Ceremonies — Maui Well Represented

Fully 350 people attended the dedication services of the Kahuaha Church, Molokai, which were held Sunday, August 12th. The very heavy rain of Saturday, and another heavy shower just before church, interfered with the coming of good many people.

The church has been beautifully finished under the direction of H. R. Hitchcock who is in charge of the committee of the Maui Aid Association. The carpenter who did the work was William Keo who secured Molokai men largely from the local congregation to assist. The building cost over \$7000.00 to repair, but it was in a very bad shape and needed a great deal of attention. The walls were crumbling in places so that some buttresses had to be placed a few years ago to support the walls and they were now lined with a coating of cement, so the building should stand for a great number of years.

The dedication service was especially pleasing because of the large attendance of ministers from away, together with all the Molokai ministers, and the large Halawa choir, which is the most famous choir in the islands, under the leadership of David Kalaau, sang a number of beautiful anthems at the services.

Rev. J. L. Kopa of Kohala, Hawaii, preached an interesting sermon. Other ministers who took part were: Rev. John Kama, of Puna, Hawaii; Rev. S. Kamaipili, Rev. Henry P. Judd, and Rev. W. B. Coale. Rev. R. B. Dodge gave the financial statement of the church, showing the amount yet needed, and Rev. I. D. Inea offered the prayer of dedication and read responses on dedication. Judge John W. Kalaau gave an interesting history of the church which was erected about the year 1848, under the direction of Father Hitchcock, the first missionary of Molokai. At the Communion Service in the afternoon, at which other ministers took part besides those mentioned above including Rev. John P. Erdman and Rev. P. Judd, eight children were baptized and five young people joined the church.

On Monday morning five visitors addressed a Sunday School institute upon the Sunday School work of the church. This meeting was well attended and created a great deal of interest.

### 14 Maui Men For Officers Training Camp

Walker, lina, Hawaiian Commercial & Sugar Co., Kihohi; Ward B. Walker, Hamakua; F. E. McCall, teacher, Lahainaluna school, Lahaina; John H. Waiwale, policeman, Wailuku.

Most of the Maui men are, or were up to time of reorganization of the regiments, officers in the national guard. Young is major of the new Maui battalion.

Major Lincoln, who was on Maui last Saturday to select the men, stated that he was leaving out men who might qualify, for the reason that it is not the policy of the war department to hamper the sugar business of the islands, and Maui was offering more than her share.

### College Of Hawaii's Sugar Course Excels

Local Institution Beginning To Attract Attention Of Sugar Centers—Student Body Increasing—Faculty Changes

That Hawaii is destined to be the educational center of the world in the line of sugar technology, is the growing belief of many persons who have been watching the progress of this branch of the work of the College of Hawaii. Dr. A. L. Dean, president of the institution states that inquiries are coming from all sugar countries concerning the course of study. Experts declare that the institution has really an exceptionally fine course in this branch.

That next year will see a freshman class four or five times larger than that of any previous class, is the present indication. The college will open on September 19.

**Changes in Faculty**  
There will be several changes in the faculty this coming year. Professor John S. Donagho, professor of mathematics and astronomy, will be absent and his place will be filled by Professor J. S. Zolner who comes from Clark University at Worcester, Massachusetts.

Her place will be filled by a graduate of one of the Western Universities. There have been several applicants for this position and as yet it has not been determined who will take Miss Lee's place.

Leslie C. Clark has resigned and will be with Dr. J. Coons helping him with his work on Kauai. Mr. Clark was assistant professor of animal husbandry at the college. His position will be filled by a graduate of the University of Wisconsin.

### COOLNESS

There's nothing so cool as an oil stove for summer cooking. All the heat is concentrated on the cooking and not radiated about the kitchen.

Cooks everything any wood or coal range will cook, and cooks it better, because of the steady, evenly-distributed heat.

Use it all the year round—more convenient than a wood or coal stove, and more economical.

The long blue chimneys prevent all smoke and smell.

Hawaii Portuguese And A. A. C.s Now Tied For First Place—Portuguese Defeat For Second Time Strong Hawaii

Standing Of The Teams

Table with columns: Team, W, L, Pct. Hawaii: 4, 2, .667; A. A. C.s: 4, 2, .667; Portuguese: 4, 2, .667; Chinese: 1, 4, .200; Japanese: 1, 4, .200

As a result of last Sunday's games three teams are tied for first place in the league, while the Chinese and Japanese are trying to elbow each off the place at the foot of the column.

The first game last Sunday between the Japanese and the A. A. C. resulted in another defeat for the sons of Nippon by a score of 4 to 2. Sueda was in the box and did good work for the Japanese.

The second game was the more exciting one. It was between the Hawaii and Portuguese and the strong Hawaii team met defeat again. This is the second time that the Hawaii have lost this season and both times to the same team.

Baldwin, was somewhat wild and was replaced by Eaton towards the middle of the game.

Bal gave way to E. Rodrigues in the 7th who did some good work.

The Portuguese team put up a hard fight against the strong Hawaii and they deserved a well earned victory.

J. Rodrigues played good ball around the third sack, but made one costly error that gave the Hawaii three runs.

There was a large crowd at the grounds and cheers roared from the fans when favorites scored or made good plays.

Next Sunday the Hawaii and Japanese will meet in the first game while the Chinese and A. A. C.s will fight it out in the second game.

All who are missing these games will be sorry as this series is proving the most exciting one Maui ever had.

Umpire Cummings gave his decisions in his usual form while E. Bal acted as official scorer.

McCLUSKY TO BE PRINCIPAL OF KAUAI HIGH

Supervising Principal William McClusky has been appointed principal of the Kauai High School. He departed on Wednesday with his family for Hilo where they will visit for a week or two before going to the Garden Island.

Mr. McClusky will succeed W. C. Avery as head of the Lihue school, the Kauai man having accepted the position of statistician of the school department with headquarters in Honolulu. It was generally understood that McClusky was slated for this job, but the duties were not to his liking and he asked for a teaching position instead.

Mr. McClusky returned from Honolulu last Saturday where he conducted one of the departments at the teachers' summer school. He will be succeeded as supervising principal for Maui by George S. Raymond, now inspector general, whose position was changed by the last legislature to the new position of statistician. Mr. Avery will take the inspector generalship from the opening of school to the first of the year when the change of offices takes place under the law.

## PATRIOTISM AND PRICES

The draft registration board in Honolulu would seem to have gone out of its way to say hard things about the Hawaii board of supervisors because the members of the Big Island body took the stand that they could not legally pay for the clerk hire needed to make the registration tabulation. It isn't at all a nice thing, these days, to call persons slackers or German sympathizers, as has been done in this instance.

While it is probable the Hawaii supervisors might have dug up the asked-for \$1000, without seriously stretching their authority, still there is no reason why they should. If the work was worth doing it was worth paying for, and such payment should have been made by the federal government and not by the county or by individuals. The mistake was made back in Washington in adopting a system of having valuable work done for nothing, when possible, and of paying for it when not possible. The general registration board should have hired and paid for the needed clerks as soon as the supervisors turned down the request.

Nobody is kicking these days on paying taxes and the high cost of living brought on by the war, because we are a patriotic people and are anxious to do our bit in the great struggle in defense of democracy. It would obviously be impossible as it would be unjust to attempt to carry on the war on a voluntary or even on a no-profit basis.

President Wilson recognizes this. In an appeal to the business men of the country, last month, he said:

"A just price must, of course, be paid for every thing the Government buys. By a just price I mean a price which will sustain the industries concerned in a high state of efficiency, provide a living for those who conduct them, enable them to pay good wages, and make possible the expansions of their enterprises which will from time to time become necessary as the stupendous undertakings of this great war develop. We could not wisely or reasonably do less than pay such prices."

Is the man who demands a reasonable wage for services rendered to be thereby branded as less patriotic than the manufacturer who asks a fair profit on the product he furnishes?

## FOOD CONSERVATION AND THE BOOZE QUESTION

Booze in any of its forms must be classed as a luxury and not a necessity. A man doesn't need booze but he must have food or die.

The best arguments are always the practical ones. Sentiment may accomplish something, but its weight is uncertain and fluctuating. For years the prohibitionists have been fighting John Barleycorn with sentiment and with little success. But in recent years "practical" temperance workers have changed their tactics and have laid stress on the economic features of the liquor traffic—the losses occasioned through impaired efficiency. And now, with the nation in war and with a food famine threatening they have a weapon that threatens to add the finishing touches to the fight.

Here in the Islands has just been brought to light the fact that 164 tons of rice alone are used every month in the manufacture of liquor, not to speak of 40 or 50 tons of other grains. When little children are being urged to plant gardens in order to conserve the food supply it doesn't take an electric search-light to discover the point. Booze has properly received its death blow.

## THE FOOD PROBLEM—A MAN-SIZED JOB

According to the department of agriculture's Weekly News Letter, the patriotic efforts of farmers to increase the food supply has resulted in a serious glut in the poultry markets of the eastern and middle states. In spite of the high cost of feed, broiling chickens of prime quality sold in New York in June at 22 cents per pound against 27 cents for the year previous. The frozen poultry market is congested.

It is very evident that the new national food commission headed by Hoover, has its work cut out for it. The nation unquestionably needs more food production, but this production must be directed in some manner to give reasonable assurance to the farmer that his product will be salable or he will soon be forced to rely on his own judgment as heretofore, or go broke. Here in Hawaii farmers face about the same alternative. The problem is a real, man-sized one, but it must be solved if the nation is to attain a proper measure of efficiency.

## THE INJUSTICE OF SECRECY

In their anxiety to protect a few crooks in the teaching staff of the Island schools, the school commissioners have placed every honest teacher who attended the summer school under suspicion. The fact that one teacher was expelled and others were reprimanded for cheating in their examinations is admitted, but by the time gossiping tongues are through with the story there is probably scarce a teacher who took the examinations who will not have been smirched. The school board seems to be one of the slowest of the territorial departments to realize that wide open publicity is the only disinfectant that can keep clean a public body from the germs of scandal.

## SOCIALISM AS THE CURE

In connection with the agitation against the high price of fish, J. F. Child, the new executive of the food commission, has figured out that the fisherman who catches the fish gets out 63 cents of the consumer's dollar, the balance going to four or five middlemen. The surprising thing about this statement is that the fisherman gets so large a percentage. It has been frequently reported that the farmers of the United States receive on an average but 30 percent of the ultimate selling price, and the nation has not yet become sufficiently excited about the matter to change the system.

With a national control of foods now imminent there is promise of the government's taking over the distribution of foods for the purpose of reducing the cost of this service and prevent speculation. If we keep on we shall be adopting socialism with the socialists left out.

Don't forget the booster dinner at the Maui Hotel next Tuesday night.

## OUR ISLAND CONTEMPORARIES

### The Break Up Of The

#### Food Commission

The Territorial Food Commission seems to be well along in the process of disintegration. It seems to have been ill fated from the start. As originally constituted it was to consist of nine members;—three members at large, three from Oahu, and one each from the three outlying Islands, Hawaii, Maui, and Kauai. The first five or six of these were duly appointed, but for some unknown reason, the Governor declined to appoint the three representative of the outer Islands.

This incomplete Commission was unfortunate enough, at the start, to queer itself in the eyes of the Governor, by advising against the withdrawal of the National Guard forces from the plantations, on the ground that this would seriously cripple them, and thus detract from the agricultural resources of the Country, and from our contribution to the war. This is supposed to have antagonized the Governor so deeply that he has blocked everything since.

As a result, presumably, of this antagonism and of the friction consequent upon it, the chairman, Dr. Dean, has resigned, and then later, we understand, his successor Mr. Alfred Castle has done the same, while Mr. Ozawa has been removed by death; so that now the commission consists only of a small minority of the body as originally intended.

In the present economical situation the Food Commission is a very important factor and should be a live, harmonious body, in good working order. To this end all personal or other grievances should be forgotten, the Commission should be completed, with the right men in the right place, and then generously backed up with all the necessary power and authority, and that whole-hearted cooperation which is necessary to make it effective and successful.—Garden Island.

#### Fish Question Again

Reports are in circulation that the bait supply for local fishermen is being cornered and that, unless some prohibitive action be taken, the whole fishing industry will soon be at the mercy of two concerns. The waters surrounding Oahu are teeming with fish and there is no reason why fresh fish should not be plentiful and cheap. At the present time the price of fish seems wholly out of proportion to the possible supply and one reason advanced is that the price of bait prevents the fishermen from reaping their possible harvest of the deep. The food commission is investigating, and, if reports are even approximately cor-

rect, the investigation has not been begun too soon.—Advertiser.

#### Reducing Passenger Rates

The reduction in the passenger tariff from five cents to two cents a mile as outlined by the Hawaii Consolidated Railway, Ltd., yesterday, is a decided demonstration that the traveling public is one of its best sources of income. It is needless to say that the change will be both welcomed and appreciated.

Under the proposed new rates Hawaii will fare considerably better than most of the states on the mainland, and this, in itself, should be a big inducement to the public to utilize the trains when visiting outlying districts reached by the local railroad.—Hilo Tribune.

#### An Appreciation

When Death called yesterday for "Jim" Haley there was taken away one of the whitest men who ever came to Honolulu. Haley, although never in good health from the time he reached the Islands, rarely allowed a day to pass by when he did not perform some act of unselfish kindness for someone, often at a considerable sacrifice of his time, his strength and his money. His helping hand was forever stretched out to assist someone trying to do better, and more than one has been put on his feet morally and financially through the help of the man who died yesterday. His only enemies were crooks.—Advertiser.

#### Do Business In Business Manner

Before calling for the second Liberty loan, Secretary McAdoo will have time to study whether the newspapers should be the only line of business making direct contribution to his cause. The time is coming when official Washington will realize that successful conduct of the war calls for a studied presentation of the war program in the usual business medium of paid and controlled publicity. There is more need for this than for the censor.—Star-Bulletin.

#### County Fairs

The Island of Hawaii should have a County Fair at least every two years. The fairs are of great value from every viewpoint and, although a territorial fair is a good idea, the fact that some of them will not be held in Hilo will bar thousands of people from visiting the shows. There should be county fairs on each island every two years, at least, and a much larger territorial fair in Honolulu at intervals.—Hawaii Herald.

## On The Others Island

### New Fish Packing Plant For Honolulu

A second tuna cannery factory is to be constructed at once in Honolulu on land leased from the Bishop Estate for the purpose. The new company is known as the California-Hawaiian Packing Company, and is being financed by mainland capital. It is incorporated for \$100,000. It is stated by W. P. English, the manager, that the factory will be ready for operation within two months.

Reports are also current that still another company of fish packers of southern California is looking over the local field with a view to establishing a cannery here.

### Kauai Cannery Ends Its Season

The Hawaiian Canneries Company are closing their canning season this week after a run of about thirty-seven days. Their output this year was about forty thousand cases of cans.—Garden Island.

### Drops Dead On Auto Truck

HILO, August 8—Charles Manuel Baptiste, an employe of the electric company, died instantly from heart disease yesterday afternoon. He was sitting at the wheel of an auto truck which was being cranked by an assistant at the time. He leaves a wife.

### National Guard Shaken Up

The 12 companies forming the First Regiment, N. C. H., of Honolulu, have been reduced to 6, and two artillery companies abolished. This action was taken on account of the depleted condition of the regiment. Of the six companies to comprise the reorganized regiment, one is to be the new Japanese company still to be formed.

### Wedding Presents Hunting Owner

A barrel full of costly cut glass and bric-a-brac, evidently a collection of presents to some bride, have been held in Honolulu by the American-Hawaiian Steamship Company for the past year waiting for the owner to

turn up and claim it. But she doesn't turn. The barrel was shipped from New York. It bears the company's Honolulu mark, which accounts for its arriving in the Islands, but there is nothing else in way of marks on it.

Maui Wins In Harvest Home Games

(Continued from Page One.)

"Maui has some excellent players and with good courts, it is expected that the Valley Island racquet wielders will produce some stars who will go after the Hawaiian championship, Lindsay and Thomson showed to form in the doubles, and Burns and Burns also make a nice combination. Ray Rietow, who is well-known to local players, has improved his game, and in the match with Wilder and Davis, showed a combination of tennis which was more than worth while.

Following is the result of the tennis by games:

Tennis Summary table with columns for Hon. Maui Pts. and Pts. Lists matches like Castle and Barnes vs. Burns and Burns, 6-5, 6-3.

Also In Bowling In the bowling games there were some pretty runs, and also some not so good. Maui won the first game without difficulty, but the Honolulu rollers took a brace for the second game, and although Maui did better than in the first, succeeded in tumbling \$21 against Maui's 803.

Table of individual scores for Maui and Honolulu in bowling.

Lunch At Noon Dance At Night

The many visitors both from Honolulu and from Maui, who were the guests of the Hawaiian Commercial & Sugar Company for the day, were served to a sumptuous luncheon at noon time, served on the grounds of the club. In the evening the commodious club house dancing floor was thronged with dancers until midnight brought to a close a most enjoyable day for everyone.

Maui Has Red Cross Auxiliary

(Continued from Page One.)

come allied with the American Red Cross, as Honolulu and Hilo have already done.

Ladies Take Lead Mr. Castle's suggestions met with general approval, and following his address the women took charge of the meeting with Mrs. E. E. Boyum as temporary chairman and Mrs. Ben Williams as temporary secretary, and proceeded to form a permanent organization along the lines suggested.

The following permanent officers were elected: Mrs. F. F. Baldwin, president; Mrs. S. E. Taylor, vice-president; Mrs. H. D. Sloggett, secretary; Mrs. M. W. Rice, treasurer.

District Leaders Soon It was decided that the county shall be divided into districts, a leader over each to be appointed by the president. The work will be carried on in much the same manner as heretofore except on a larger scale, and of course, under instructions from the Red Cross. It is to consist in sewing and making such articles as are most needed at the front.

Men To Help Financially The men of the community are not included as active members in the new auxiliary, but they are not to be overlooked. They are to form a financial membership, the duties of which, it is said, will be quite important, if inconspicuous.

Warning Issued Senator Castle stated that everybody permitted to do work for the Red Cross should be vouched for in some manner, and aid accepted from no person not above suspicion. This for the reason that attempts have been made elsewhere to do injury by poisoning wound dressings, putting poisons in jellies and preserves, and by other such diabolical means attempting to undo the work of others in aiding American arms and in relieving distress.

Cheering The barber was finishing lathering a customer, and was talking volubly as usual.

"Yes, sir," he said; "we have to mind what we're about here. Every time we cut a customer's face we are fined a 'tanner,' and if we make an ugly rash it costs us a 'bob!'"

Then, picking up and brandishing a razor, he added: "But I don't care a hang to-day. I've just won a 'quid.'" —Tit-Bits.

Assisting Nature "Our young rubber-trees aren't growing very rapidly." "Why don't you go around and stretch 'em a little every morning?"—Louisville Courier-Journal.

Hole in Germany's Pocket

"Germany's claim that she imports nothing, buys only of herself, and so is growing rich from the war, is a dreadful fallacy." The speaker was Herbert C. Hoover chairman of the American Food Board.

"Germany," he went on, "is like the young man who wisely thought he'd grow his own garden-stuff. This young man had been digging for about an hour when his spade turned up a quarter. Ten minutes later he found another quarter. Then he found a dime. Then he found a quarter again."

"By gosh," he said, "I've struck a silver-mine," and, straightening up, he felt something cold slide down his leg. Another quarter lay at his feet. He grasped the truth: There was a hole in his pocket."—Washington Star.

Don't Ship Little Spuds Says Longley

Consumers Will Not Buy Island Produce Unless It Is Equal To Coast Product—Eggs Slump And Feed Advances—Pork Due For Jump

HONOLULU, Aug. 10.—Island eggs are dropping in price and feed is advancing. The consumers will not pay much more for island eggs than for so-called fresh imported eggs and the local producer must cut the cost of production in order to make a profit. Sentiment does not enter into the purchase of food supplies these days and the farmer must have a good product which he can sell at a profit very close to the price of the products with which he is competing. This applies to all kinds of island agricultural products. No farmer need expect to get as good or better price for inferior island produce than the best imported produce is being sold for in Honolulu.

The price of Maui red beans has fallen off a little but there is very little danger of them going lower. The crop this past season was very small and all of it should be used here in Hawaii instead of shipping part of it to the Coast as was done last year.

Most of the Irish potatoes received at the Division from the other islands have been very small and more or less wormy. Producers will save themselves as well as the Division and our customers a great deal of trouble by finding some use for such products at home. Feed for hogs or other live stock would be a good use for it. Do not use half grown, wormy or blighted potatoes for seed and expect to get a good crop. Save seed from a few of the best hills you have or better still get some certified potato seed from the Coast for your next planting. The Division will be glad to assist you in getting such seed.

Meat prices remain about the same as last week but the price of feed has advanced. Unless hog feeds get cheaper, another advance in pork can be looked for soon.—A. T. LONGLEY, Superintendent.

### Manoa To Be Put On Far East Run

Sudden Decision Is Hard Blow To Maui—May Come Back But No Assurance Given—No Reason Yet For Move

The Matson liner Manoa, which sailed from Kahului for San Francisco via Honolulu on Wednesday morning, has possibly paid her last visit to Maui. The news came as something of a shock a week ago, when a cable message was received in Honolulu from Capt. Matson to effect that the vessel would be sent to Manila after her return from her present voyage.

It is believed that Capt. Matson has either been asked by the government to dispatch the vessel to the Orient, or that the prospect of big freight rates has induced him to give the new route a try-out. From Castle & Cooke, Honolulu, the suggestion is given out that the Manoa may make but one round trip to Manila, during the off sugar season.

If the Manoa is taken permanently from the run it will be a serious blow to Maui which has come to depend upon the monthly trips of this vessel both for passengers and freight. Nothing has been said concerning placing a substitute ship on the run, though so far as is known there is no such ship available.

The Manoa arrived at Kahului last Monday morning, having first taken on 1000 tons of Pioneer sugar at Kanapali. She took from here 2100 tons of central Maui sugar and a quantity of pines.

### Sh-h-h! Maui Has A Mystery

(Continued from Page One.)

The man with the big 45 is one Richard Aylward. He is between 50 and 60 years of age, apparently, is in civilian dress, and the Honolulu directory says he has an office at 174 South King street. But it fails to give his business. He has some kind of a badge, it is said, which he shows when his authority is questioned, but whether the star reads "chicken inspector" or "Bluffen's Detective Agency," no one who has seen it seems to have been able to make out.

The man has a couple of army tents which he has pitched in a little gully beside the road, near the 7th mile post. The gate he has erected across the road insures that all automobiles or other vehicles must stop, and when they have stopped a general inquisition is instituted, the purpose of which seems to be far from clear. Those who are known to the policeman who assists in the work are allowed to pass with little ceremony. Others are given the third degree as to their business, etc.

All kinds of guesses are being indulged in to explain the unusual procedure, the most popular being that the inspector expects to catch a German anthrax spy with his pockets full of the dope, or that he is a draft registration board man lying for slackers. So far as is known he has made no arrests or seriously inconvenienced anyone.

A Japanese store was entered some ten days ago and a lot of cigars and cigarettes taken, and a number of other more or less serious thefts have been reported by others.

Baldwin requested the board to open a road mauka from the upper end of the Kuluaha homestead tract through the Aheong property to connect with the Kaupakalu-Makawao road. ### "SCAVANEUS" THE SLACKER KNOWN HERE

Gave Concert That Was Frost And Went Broke Left Debtors Behind—Planned To Come Back

The arrest in Honolulu last week of "Fritz Scavaneus," the "Danish" pianist, as a slacker, excited considerable interest on Maui where the musician gained some notoriety a few months ago by departing without paying his hotel bill and various other obligations. The fact that the velvet coated artist is not a Dane but an Englishman with the very ordinary cognomen of Wilfred James Singleton, was not the least interesting feature of the matter.

Singleton gave several recitals on Maui, the last under the auspices of the Maui Music Club being considerable of a frost, and the musician left for Honolulu flat broke, as he declared to his creditors.

Whether or not he had wind of his coming arrest and hoped to get out of sight for a while, Singleton made an effort to return to Maui a week ago last Monday. He even started as a member of the crew on the Raymond Ranch gasoline launch Makena which sailed from Honolulu that evening, but the boat's engine broke down off Diamond Head and was compelled to put back.

### Army Needs Truck Drivers Says Goodhue

HILO, August 11—Dr. E. S. Goodhue of this city, has received information from the secretary of the American Field Service that there is great need for auto-truck drivers for the transport service. The secretary, in part, says: "We want energetic, capable, young men of good health. Men of the draft age could go into this service."

"Ambulance drivers are not in so great a demand just now and we are only accepting them when they are below twenty-one years of age or over thirty-one years."

Dr. Goodhue adds that any young man wishing to serve in the capacity outlined above can apply to him for further information. That there will be an instant response to the call goes without saying. There are plenty of young men on this island who are capable drivers and who could be made very useful in France at the present time.

### TWO DIVORCES GRANTED ON DESERTION GROUNDS

On grounds of desertion, divorces were granted by Judge Edings to Usahiro Koshinamura from Yone Koshinamura; and to T. Nakano from Okada Tisuyo Nakano. The cases were both disposed of yesterday in chambers.

The August meeting of the Maui Industrial accident board will be held in the district court room, Wailuku, on next Tuesday, at 10:30 o'clock.

### This Year's Model

The fussy old gentlemen asked the chance traveling companion: "Have you any children, sir?"

"Yes, sir; a son."

"Does he smoke?"

"Ah, sir, he never so much as touched a cigaret."

"So much the better, sir; the use of tobacco is a poisonous habit. Does he frequent clubs?"

"He has never put his foot in one."

"Allow me to congratulate you. Does he never come home late?"

"Never. He goes to bed directly after dinner."

"A model young man, sir; a model young man. How old is he?"

"Just six months."—Philadelphia Record.

### He And She

"Are you fond of literature?" he asked. (We find the record of this conversation in The Publisher's Weekly.)

"Passionately," she replied.

"Then you must admire Sir Walter Scott," he exclaimed with sudden animation. "Is not his 'Lady of the Lake' exquisite in its flowing grace and poetic imagery?"

"It is perfectly lovely," she assented, clasping her hands in ecstasy. "I suppose I have read it a dozen times."

"And Scott's 'Marmion'?" he continued, "and 'Peveril of the Peak'?"

"I just dote upon them," she replied.

"And Scott's 'Emulsion'?" he continued hastily, a faint suspicious drawing upon him.
