NOT SO BAD.

Mr. Thurston has given out a caution from Washington against accepting newspaper reports of the contents of the pending annexation treaty. This caution comes in seasonably to prevent a cold chill from taking possession of all who have hoped almost against hope that some measure of local self-government would be granted Hawaii by "her great and good friend the United States," as we have become habituated to style our nearest, most intimate and, in times past, most generous neighbor. Such a treaty as that partly sketched in a Washington despatch in this issue would cause a decidedly cold wave to roll over the islands, changing anxious doubts into despair among all who believe in the primitive but undimmed American principle of no taxation without representation.

Let us take as much comfort as we can, while the best and the worst of the annexation scheme are as yet unrevealed, out of an item in the latest news received from Washington. It is intimated therein that no out-and-dried system of Hawaiian government is contained in the treaty, but the form is to be matter of discussion and deliberation in Congress after the treaty has been ratified by the Provisional Government of Hawaii. There is certainly a gleam of statesmanship in this careful mode of procedure. The

more thought and solicitation of intelligent Hawaiian opinion there are given in regard to this vitally important matter, the less easy will it be for the opponents of annexation on the other side of the Pacific to maintain the view—one that has taken a strong and deep hold over there—that the whole annexation proposal is the result of a deep-laid and long-planned conspiracy in both countries.

The individual claims of a few thousand civilized people to a voice in their own common affairs are just as great as those of a community numbered by hundreds of thousands or even millions. A scheme of government to afford equal rights and justice to the inhabitants of the Hawaiian Islands can no more be conceived in a hasty and slapdash manner than a scheme of government for such a country as Ireland, for instance. If the sole reliance for success of whatever scheme be proposed is to be night, then there is a possibility that the governing of these islands, through extra-territorial authority exclusively, will cost more than the people of the United States will consider the acquisition worth. As yet, however, it is not certain that the annexation treaty, whatever it contains, is passed or will pass. The opposition to the total destruction of insular autonomy in the United States is so strong as not to be despised. There is a possibility, in spite of the reports already published, that the opposition will have been powerful enough in the Senate to delay decision until the other side of the question should have been fully presented. There is still room to hope that Hawaii will not be wholly extinguished as a free commonwealth.

That Kohala Correspondent.

MESTER BULLETIN:— I read in the Gazette a letter from a Kohala correspondent who grows about the Post-office marm becous she has some good natured fellows (gals) here, who are ever willing to help her in distributing the mail. Now de fact am dis I tink, Mr. Bulletin, that this Barnacle who am scribbling for that Gazette am trying to get dat job, an war doing his best in a nusty way to make people believe his yarns, so that the big boss in Honolulu would get on the war path, give thet p. m. here de bounce so that this Barnacle, who has got the stummick ake for thet office would get the show. I also heard, thet the effluvia down thet gulch on account of thet boss have circumsounded B's place so that sometimes, if not often, the Big boss gives him "Hail Columbia the gem of the ocean" thet he gets skeered of losing the ink splinging job, thet he is arter, the ere P. O. dental cheer. I tink he'll get it in the neck and thet he better go to schule agin, and wade in thet gulch, and suck eggs. Hen's eggs is best but geese eggs makes thet fellow a jackus. I'm offie sorry for thet barnacle, and thet other fellow who writ for your peper gave it to his good.

Supposing we tell him to kip quiet, it would be better than scribbling so many yarns about dis deestric which am all nonsense an bosh. Good-bye, Barnacle. Ta-ta. *** Kohala, February 15, 1893.

COURT CHRONICLE.

Progress of the Term—Bankruptcy Averted. Judge Whiting, at Circuit Court term, charged the mixed jury after recess to-day, in the case of James I. Dowsett vs. Maukeala, ejectment.

Foreign jury cases will be begun to-morrow. Proceedings to have W. C. Achi declared a bankrupt have been discontinued.

Counsel for the creditors in a certain Chinese bankruptcy has been trying to force the bankrupt, under the rule of contempt, to reveal the location and the contents of his account books. The respondent says he was turned out of his store and had all his belongings seized, therefore should not be expected to know anything about where his books are at present.

WHALERS REFUSE DUTY.

United States Marines Sent to Arrest Them. Captain G. W. Porter, master of the whaling bark Wm. Bayliss, cruising outside, sent word ashore this morning that five of his sailors refused duty, and fearing trouble he wished them to be put in prison. Consul-General Severance sent some marines from one of the U. S. war vessels in port out for the men.

The mutinous sailors, whose names are, W. Driscoll, E. L. Mitchell, D. H. Stanton, Jas. Stony and Richard Manning, were brought ashore in irons and locked up in the Police Station, until they have changed their minds.

ANOTHER BRITISH WAR SHIP.

The Royal Arthur Ordered to the Pacific.

The British Admiralty has ordered the Royal Arthur, one of the swiftest and finest fighting ships in the British navy, to proceed at once from England to the Pacific and re-enforce the British squadron in those waters. The Admiralty, says the New York Times, has further ordered the big ironclad Temeraire to be despatched with all haste to the Esquimaux naval station in the Pacific. The Royal Arthur on her arrival in Pacific waters will take up the duties of flagship of the station, relieving the Warspite.

How much bearing the above orders have on the Hawaiian revolution has not been learned. For the first time, however, in her history, England, in ordering the Royal Arthur and Temeraire to the Pacific, has raised the squadron in those waters to the proportions of an ironclad fleet. The Royal Arthur is one of the ablest fighting vessels of the large cruiser class possessed by the British navy. She was launched as late as 1891, and though originally called the Centaur, was at the last moment and by orders of the Queen, christened the Royal Arthur.

For the past two years it has been obvious to American naval officers that Great Britain was gradually and steadily offsetting by addition to her squadrons on the east and west coasts of the United States, all new vessels of this country, and this she has been doing by placing in American waters warships a little stronger, and, if not faster, at least equal in speed to the new American vessels. But in sending out from England the Royal Arthur and Temeraire the Admiralty has made an advance which in naval circles at this port is deemed ominous. The necessity for such fine fighting ships in the distant waters of the Pacific is deemed to be an open admission of the watchfulness on the part of the British Government of the growing strength of the United States. Ten years ago the British navy was deemed well represented in American waters by wooden gunboats.

The Royal Arthur is a little smaller than the armored-cruiser Blake, the flagship of the British squadron on the East coast of the United States. In displacement she measures nearly 8000 tons. Her principal dimensions are: Length, 360 feet; beam, 60 feet; and draught, 23 feet 9 inches. The engines of the Royal Arthur are capable of developing 12,000 horsepower, giving to the ship a recorded speed of 19.5 knots per hour.

The battery of the Royal Arthur consists of one 9.2-inch twenty-two ton breech-loading-rifle mounted forward and twelve six-inch rapid-fire guns placed in broadside. In addition, there is a secondary battery made up of twelve six-pounder and five three-pounder rapid-fire guns and seven machine guns. The crew numbers 600 men.

At a speed of ten knots per hour the Royal Arthur can steam without recaling 10,000 miles. Her coal bunkers will hold 850 tons of coal. The commander of the ship will be Captain W. Forsyth. The Royal Arthur will fly the pennant of Rear Admiral Henry Frederick Stephenson, C. B. the new commander-in-chief of the Pacific squadron.

The Royal Arthur is at present at Portland, England. She can sail in the course of a fortnight and her steaming qualities will readily admit of her reaching Honolulu inside of forty days.—S. F. Chronicle.

American Relief Fund.

The annual meeting of the American Relief Fund was held this morning, Vice-President W. F. Allen in the chair. The election of officers resulted in the re-election of old the staff, namely:

President, Hon. C. R. Bishop; Vice-President, W. F. Allen; Secretary and Treasurer, Theo. F. Lansing.

Relief Committee—President Bishop, H. A. Parmelee, J. Emmeluth.

The Secretary reported having received yesterday a check for \$50 from Messrs. A. S. Hartwell and Henry Waterhouse, executors of the estate of J. H. Wood, being the amount bequeathed by that lamented gentleman in his will.

Messrs. Bruce Cartwright and F. L. Winter were appointed a committee to solicit subscribers to the Fund.

Free Trade Would be Enough.

"The United States should not annex Hawaii," said Allen W. Thurman at the Great Northern yesterday. "I believe the annexation of the island would be a mistake which Americans would regret. There is now sufficient territory in this country and the addition of Hawaii at this time would introduce complicated matters for consideration where there are more important ones to occupy attention. No, I would not be in favor of a protectorate. The only proper thing for us to do is to bind these islands to us by free trade with them. That's the kind of annexation and the only kind which would be beneficial to the United States."—Chicago Herald.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I would never get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

A SEALER'S DEFIANCE.

Sails Without Papers in Spite of Official Protests.

A strange schooner was sighted off port yesterday afternoon and anchored outside the Spar buoy. Late in the afternoon the captain, whose name could not be ascertained, came ashore to purchase provisions, namely, rice and sugar. Port Surveyor Sanders stationed men to watch that the vessel did not land any goods.

The captain completed his errand and left the wharf for the schooner shortly after 9 o'clock. Customs officer Chas. Clark was put on board by the tug Eleu with orders to detain the vessel if the captain tried to sail, as he had not made his entry at the Custom House. The captain stated that the Custom House was closed at noon, and he was not going to wait until the next day.

A captain of police and several officers went out in shore boats, and the Customs officer signaled for the tug, as the captain persisted in disobeying orders. When the tug came near and the Port Surveyor protested against the schooner's leaving, the captain told them to go to blazes, and at 11:30 o'clock she sailed. The vessel was the sealing schooner Matate, New Turner on her way to Hakodate, Japan, on a sealing cruise. She left San Francisco on Feb. 21.

The prolonged screaming of the tug whistle, summoning her crew after 10 o'clock last night, set the whole town besieging the telephones for information as to the cause of the alarm.

Fined for Carrying Firearms.

W. Wagner was tried in the District Court this morning on a charge of carrying a loaded revolver on the night of Feb. 17. Wagner, it will be remembered, was Stone's companion in the Pantheon Saloon, when Stone shot a native policeman under the arm. Witnesses testified to having taken a revolver from Wagner's hip pocket.

A. S. Hartwell for defendant moved for discharge on the ground that defendant was a member of the National Guard, and the prosecution must show he had no right to be armed. Motion was denied. Defendant was found guilty and sentenced to pay a fine of \$30. Appeal noted.

Saturday, Feb. 18, 1893.

It's a remarkable fact that there are men who would rather fight than come out winner in a newspaper prize contest. And the ugly feature in the whole business is the encouragement these belligerents receive from outsiders. For the past year or two New Orleans has been the rendezvous for "pugs" who wanted to contest in the arena. Honolulu has been singularly free from any such objectionable sport. During the past month these islands have been in a state of ferment over a little affair which took place about the middle of January, but we have not seen an instance where men directly interested, or effected by the change, thought it necessary to spoil each others faces. Outsiders who scarcely know what brought about the change believe that their first duty, after imbibing liquid with a keen edge, is to stand side by side at the bar and make themselves hoarse singing, "Yankee Doodle" and "Rule Britannia," and then get mad because the two airs don't harmonize. If the matter would end with the rival singers getting real mad no serious results would follow, but when a lot of bleachers in the outer circle sic the British bull dog on the North American cayuse some body's sure to get kicked. Unfortunately it seldom happens to be the bleacher in the outer circle.

The respective crews of the Garnet and Boston will remember the little episode in Chili where Boatswain's Mate Riggan lost his life. The row started not unlike the rumpus which took place here on Friday and it required private subscriptions from Mr. Riggan's friends to pay for the removal of his body to his former home. Besides, his death caused serious international complications. Just now the Hawaiians object to any new features appearing on the political horizon, nor are the people prepared to contribute toward the funeral expenses of foreigners who come down here and try to palm off "Rule Britannia," "Yankee Doodle" and "Sweet Violets" as late musical compositions.

Last week we mentioned the new glassware in red and white; they, are going out of the store with marvelous rapidity. We have never shown any thing half so beautiful for the money. There are more of them, perhaps a dozen sets left. If you want to add to the beauty of your table service take one home with you.

The southerly rain winds are over for the present and the roads and lawns are drying up; another fortnight, if care is not taken, the lawns will turn yellow with dry rot. Our rubber hose is the best and our reels the most substantial in the city. If you want your grounds to look like velvet carpet the means of making it so are at your command. You can have our assistance in the way of reel, hose or a lawn mower for the asking.

For trimming the grass at the walks you will find a pair of sheep shears the most convenient thing—a lawn mower will not do this part of the work. The shears are convenient too, for trimming the grass around the rose bushes.

The "Delusion" mouse trap is built on the same principle is the famous French rat trap; and are quite as effectual for the smaller game. The other day the buyer of a large commission house came in the store to buy a trap on an order. When we were showing them to him we found that a mouse had been caught in the trap without its having been set for him. They're economical in the matter of bait.

Arrival of the Powerful Japanese Cruiser Naniwa.

A Japanese warship was signaled this forenoon. Most people jumped to the conclusion that it was the Hi Yei, sister to the training ship Kon-go now in port.

A beautiful steel cruiser was the craft that appeared off the harbor entrance and saluted the Hawaiian flag.

The Naniwa left Yokohama, Japan, on Feb. 8th on a cruise, and had pleasant weather to port.

The following is a list of officers: Captain—Togo. Commander—Ishii.

Chief Engineer—Hara. Chief Paymaster—Takenouchi.

A sailor from one of the U. S. war vessels in port was arrested yesterday afternoon on the city front under the influence of liquor and taken to the Station for safe keeping. Before being taken in he threw some of his money into the sea. At the Station he resisted arrest, because, he said, it was Washington's birthday and this was a free country.

At sunset last evening was a fine sight at the city front. In hauling down the numerous flags on the warships in port, the Kon-go led, the rest in the following order: Boston, Alliance, Mohican and Garnet. The latter vessel's flags were badly tangled in the rigging, and it was ten minutes before men aloft had disentangled them from the forerigging.

SURELY NOT THIS.

Absolute Carpetbag Rule Threatened on Hawaii.

Perhaps It Is One of the Things Mr. Thurston Wants Disbelieved.

A Washington despatch of February 13 contains the following forecast of what the Hawaiian Islands are promised as an improvement (?) on the limited monarchy system:

An outline of the treaty that is likely to be submitted shows that the Secretary of State as well as the Hawaiians have thoroughly considered all the objections to annexation and done their best to meet them.

To begin with, the islands are not to have self-government, but are to be governed by a Governor and a Board of Commissioners to be selected by the President, by and with the advice and agreement of the Senate.

No privileges of citizenship are to be conferred in the treaty, and all contract laborers now on the islands, or who came to the islands as such, are not to be considered as residents of the United States nor entitled to the privileges of residents after annexation.

Special provisions are to be made for municipal as well as Territorial government, and except in these particulars the Territory is to be put on the same footing as the United States Territories. These clauses are of the utmost importance, for they take the franchise out of the hands of the natives and prevent Chinese, Japanese and Portuguese contract laborers coming into the United States.

The question of a judiciary is not yet settled, but the Commissioners seem satisfied in the belief that their own Supreme Judges, who are all first-class men, will be continued in office. The Administration will send the treaty to the Senate and leave the next House to carry out the details. The Provisional Government is to remain in power until that is done.

Another Marine Tragedy. Finding of the Body of a Sailor From the Bark Matilda.

The bark Matilda, Captain Svenson, lumber laden, arrived from Port Blakely on Tuesday and anchored in the stream. Later in the day she docked bow foremost at Allen & Robinson's wharf. In the evening some of the crew became boisterous, two of them—Godfrey and Stevens—being particularly wild. It appeared that they had been drinking liquor, and in the evening the two sailors aroused the mate of the vessel, and ordered him with the rest of the crew off the vessel.

Captain Svenson reported at the Police Station and Captain McGurn and three officers of the police force went down to the bark. As they were ascending the plank leading to the vessel the two sailors began firing chunks of wood at them. The mate, Mr. Conly, in the meantime had swam around the vessel and boarded her on the stern. Godfrey and Stevens were surprised and Godfrey was pinioned. Stevens escaped and nothing more was seen of him for the rest of the night.

Early yesterday morning the bay in the vicinity of the vessel was dragged, but nothing came to light. At 3 o'clock in the afternoon a diver from the Marine Railway went down and brought up the body of Stevens, which was found lying in the mud at the bottom of the bay. Parts of the face and arms were marked, as if bitten by crabs and small fishes. There was a wound in the back of the head. The body was conveyed to the Police Station, where Dr. Chas. Peterson held a post mortem examination.

A brief item inserted in the bulk of yesterday's edition of the Bulletin reported the finding of the body, which happened just as the paper went to press.

Deserter Wanted. Louis Elita, a Japanese seaman on the American bark Hesper, returned to that vessel lying near the Pacific Mail dock yesterday evening in an intoxicated condition. He told some of the crew that he was going to desert the ship. The others encouraged Elita, and told him that if he was not captured soon they would also leave the vessel. The Jap packed up his clothes and left the Hesper under cover of darkness and has not been seen since.

As Captain Sodergren was in fear that the Jap's protracted liberty would cause the loss of others of his crew, he hastened to the Police Station this morning and offered \$15 reward for his capture.

Tona, the Japanese detective, was immediately sent out for the deserter.

Elita was shipped at Tahiti when the Hesper called at that port to land the mutinous sailors, who murdered the second mate and attempted the life of the captain and mate.

WASHINGTON'S BIRTHDAY.

Fittingly Celebrated by the War Vessels in Port.

Admiral Skerrett and officers of the U. S. Flagship Mohican gave an "at home" on board that vessel from 2 to 6 o'clock yesterday afternoon.

Steam launches were kept busy throughout the afternoon conveying guests to and from the ship. Those who paid their respects to the Admiral were numerous, the old warship swarming with people. The flag-ship's band lent its music to the celebration of the event, and dancing was indulged in by nearly all present. The decks were gaily decorated with bunting and flags of all nationalities.

THE SPORTS. The sports were held on the deck of the Mohican. The first, a 15-minute go-as-you-please, was won by a Japanese sailor, Mohican second. The sack race prize was carried off by a Mohican lad, the potato-race by the Garnet, and the three-legged race by the Alliance.

The boat races in the harbor created great excitement. The wharves were lined with people of all nationalities who expected to see some fine races, and were not disappointed. The first race was between 6-oared boats, the entries being the Garnet, Mohican (2), Boston and Alliance. The Garnet boat assumed the lead at the start and maintained it to the finish, winning by about three lengths. The course was to and around a can buoy off the Marine Railway. Time, 19 minutes.

The second event was a ten-oared barge race between the Garnet, Alliance, Mohican and Kon-go. This was a most exciting race. The Kon-go by dint of heavy pulling secured the lead, the Alliance and Mohican closely following. Turning the can buoy the Mohican and Alliance barges shut out the Kon-go, and the boats fouled. The Garnet sneaked around and passed them all. On the homestretch the Alliance closed the gap, when the Garnet, seeing she would not get left, crossed her bow. The Alliance steered off and crossed the line first. Time: 19 minutes.

The third was a dinghy race, four oars, between the Garnet, Alliance and Mohican. The Britishers had a walk-over, never being tied throughout the race. Time: 18 minutes.

The fourth was an all-oars' race, the entries being, Garnet in 8-oared and 24-oared boats; Mohican and Boston 10-oared barges. The race was an exciting one and the efforts of the twenty-four Garnet men in the large barge created roars of laughter. The men cheered at intervals as the big thing plowed through the water. The Garnet's 8-oared boat won handily, followed by the Boston and Mohican boats. The big barge fouled a shore boat, and it was some time before the boats got clear. Time, 18 min.

As this was the last race the crews retired on board the Mohican, where they were entertained by the flag-ship's men.

While the boat races were going on a catamaran race was won by the Boston, the Mohican second.

The swimming race was won by the Kon-go. The course was from the Oceanic wharf to the Mohican.

The following program contains the events of the day, which owing to first-class management passed off without a hitch:

SCRIVEN'S

Patent Elastic Seam Drawers!

Scriven's Patent Elastic Seam Drawers!

We want to call the attention of our patrons to a novelty which, from the favor it has been received with, we believe has come to stay and become an indispensable article of gent's furnishing.

A glance at the cut above will show at once the superiority of goods made in this manner over those heretofore in vogue.

SCRIVEN'S PATENT ELASTIC SEAM DRAWERS ARE PROVIDED with an improvement consisting of an ELASTIC INSERTION at the inner and outer seams, which gives elasticity in movement and comfort in fit. The drawers are cut in figure outlines and afford the wearer all the advantages of knit goods, while retaining the superior comfort of woven fabric.

THE PATENT ELASTIC SEAM, which CONTAINS NO RUBBER, retains its springiness and wears longer than the other portion of the garment. It makes the drawers conform to the position of the wearer and avoids any strain, no matter what attitude the body assumes.

KOHALA HAPPENINGS.

Swearing in Support of the P. G. - Defense of a Postmistress.

Strenuous efforts are being made by certain parties in this district to induce persons to take the oath to support the P. G. The nuisance at Mahukona is particularly bad. What does the oath mean? Surely nothing more than an undertaking to go on as before. Oath or no oath all sensible people will obey the laws so long as the Provisional Government does not issue any very offensive regulations. Then why so anxious to secure signatures? Apropos of this: A singularly interesting spectacle presented itself at the Courthouse on Saturday last. Dramatic person: Police Judge, Interpreter, a Plantation manager, with 50 or 60 Portuguese supporters. Properties: Book of oaths, big drum, accordeon, and toy flag. The ceremony consisted of swearing a number of Portuguese, the plantation manager sitting on the verandah conveniently close to the door, apparently for the purpose of keeping his eye on the supernumeraries to see that they earned their pay. As less than half a dozen of these gentlemen were able to sign their names, or to understand very clearly what the show was about, the judge and interpreter certainly deserve the sympathy of all right-minded people in their endeavors to impart a ray of light into the darkened intellects of these sons of toil.

After this part of the show was over some of the P. G.'s new supporters were to be seen wending their way home looking pleased at having a holiday but still puzzled. The proprietor of the drum accompanied by a few choice spirits marched to the saloon, where they freely spent the twenty dollars given them for that purpose, and which had, but a few hours before, been innocently reposing in the office safe of Kohala's missionary plantation.

From being unable to read or write these worthy citizens, later on, became unable even to speak, or in fact to do anything but lie on the floor, which feat they accomplished without difficulty in the telephone office, that haven being at a convenient distance, about ten yards, from the house of entertainment, and also out of the way of the police.

We do not know what became of the drum and the flag. We hope they were not spoiled - they would do for the next lot. Truly edifying all this, is it not? So brilliant a scheme for adding to the glory and strengthening the hands of the Provisional Government never was conceived by dull Kohala brains. No orders from headquarters in Honolulu without a doubt. Which headquarters are not altogether unrelated to the proprietors, etc., of that truthful sheet, the Daily Advertiser.

There was a large congregation at St. Augustine's church on Sunday last, where the Rev. A. R. Price, chaplain of H. B. M. S. Garnet, who is on a visit to Mr. Sneyd-Kynnersley, conducted the service.

The Gazette's correspondent is dissatisfied with the postmistress here for procuring assistance in sorting the mail. Many people are somewhat impatient to get their letters, and small wonder when we have to wait six or seven hours after they are landed at Mahukona (10 miles away) before they reach our P. O. It is to accommodate the general public that Miss Low employs outside help. Everyone must bear witness that the duties of the P. O. have never been discharged more conscientiously or more courteously than they are at present.

Road repairs are being carried on with much energy, three gangs being at work.

Weather has been dry and hot during the last week, with heavy dews at night.

An Alluring Sort of Place.

Chicago is honored to-day by the presence of a small party of gentlemen from the middle of the Pacific ocean who come as the precursors of an interminable line of envoys, representatives, problems and interests the front of which is even now, to the prophetic eye of the statesman, peering over the western verge.

The gentlemen came with a very pretty little empire in their pockets and they are met half way by a public welcome which presages the passing of the empire into Uncle Sam's watchful keeping under some form of bond or other to be determined upon later. Messrs. Thurston et al. are Mme. Hawaii's card politely handed to Uncle Sam's door.

To persons who resolutely decline to weigh the problem of statesmanship involved, Hawaii is an alluring sort of place where it's forever sunny and there is a cool, wide veranda for every palm grove and a weird, volcanic magnificence in the background - the kind of place one could easily wish to know more about. - Chicago News, Feb. 2.

Good Place for Young Men.

Mr. E. L. Bonner, the Montana millionaire, expressed these opinions on the Hawaiian annexation problem yesterday: "If it is really true that Hawaii is to be annexed to the United States, and I was a young man, I would not go to that island as soon as I was certain of it, and I did not have money enough to pay my way I would risk going on some kind of a vessel as a common hand. There are more chances for a young man on that island as a part of the United States than in any State or Territory we now possess, to prosper and grow wealthy." - New York Advertiser.

A hale old man, Mr. Jas. Wilson, of Allens Springs, Ill., who is over 60 years of age, says: "I have in my time tried a great many medicines, some of excellent quality; but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is truly a wonderful medicine." For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

The following choice bit of word painting occurs in Hawthorne's Marble Faun:

"Women be they of what earthly rank they may, however gifted with intellect or genius, or endowed with aerial beauty, have always some little handicraft ready to fill the tiny gap of every vacant moment. A needle is familiar to the fingers of them all. A quill, no doubt, plus it on occasion the woman poet can use it as adroitly as her pen; the woman's eye, that has discovered a new star, turns from its glory to send the polished little instrument gleaming along the hem of her kerchief, or to darn a casual fray in her dress. And they have greatly the advantage of us in this respect. The slender thread of silk or cotton keeps them united with the small, familiar, gentle interests of life, the continually operating influences of which do so much for the health of the character, and carry off what would otherwise be a dangerous accumulation of morbid sensibility. A vast deal of human sympathy runs along this electric line, stretching from the throne to the wicker chair of the humblest seamstress, and keeping her hand low in a species of communion with their kindred beings." Housewives, while you ply the needle, have you ever reflected on the vicissitudes of life? See to it that your husband's providence for the future welfare of their families by at once applying for a Policy in the EQUITABLE LIFE ASSURANCE SOCIETY of the United States. No more suitable gift could be offered to you.
