THE DAILY BULLETIN.

Pledged to neither Sect nor Party, But Established for the Benefit of All.

WEDNESDAY, NOV. 9, 1892.

Mr. Thurston can see now how much support the Constitutional principle of which he and the Advertiser are the alleged discoverers receives at the hands of his friends. As soon as they saw a decent way of evading the dilemma he had got them into with his stubborn crochets, they did so. And this shows their good sense.

The Liberal-cum-Bush-cum-Ashford section now see how much their Reform friends value them and their assistance. And they are proportionately wrathful. "Promises like pie-crusts are made to be broken," is the motto that the Reform party have adopted toward them, in their opinion, and they now say with the villain in the drama, "R-r-r-venge! R-r-r-venge is sweet!"

The Advertiser, as usual, has had to eat its words and take back its scurrilous attacks on the new Attorney-General. How fully and completely it does so may be seen in its issue this morning. Of course if it had known that Mr. Brown might have any chance of becoming Attorney-General it would never have abused him. But that is the Advertiser's usual course. When it thinks a man has few or no friends or power it goes for him with red-hot spite and venom, and when it discovers that he has succeeded in gaining either it lickspittles and crawls to him at the behest of its mercenary supporters.

There exists in the breasts of many members of the Legislature considerable dissatisfaction with the present Cabinet. This arises from many causes and is found in almost every political section into which the House is divided. Whether this will lead to a vote of want of confidence being brought in against the Ministry remains to be seen. It seems, however, to be the intention in any case to push forward the work of the Session and get the Appropriation Bill passed and finally adjourn at as early a date as possible. Some rumors are heard that efforts will be made to effect this before the end of the present month. If this is so the members to be elected to fill the vacant seats will not have an opportunity of warming their seats this session.

The Legislature both yesterday and to-day showed a commendable degree of diligence in endeavoring to overtake work which has been in abeyance owing to the votes of want of confidence. This augurs well for the future. No doubt members have begun to see that they have been wasting their own time as well as that of the country. One thing, however, deserves special mention. That is the evident desire of the members that the Public servant or the Public creditor shall not be kept out of his just dues by the future discussion of any so-called constitutional principle. The bill for the payment of salaries, etc., has been extended to Dec. 31st, 1892, if the Appropriation Bill is not passed sooner. The bill, after discussion as to whether it should sanction payments on the old rates or on the proposed rates agreed to by the House on the second reading, was finally passed to engrossment to be read a third time tomorrow. Business men will then have an opportunity of getting their money, which they would have got on the first of the month if it had not been for the deliberate obstruction of Messrs. Thurston & Co.

THE CABINET'S FORMATION.

The Advertiser says this morning that the Ministry was "selected in accord with strictly constitutional methods." This is quite true, but not in the sense that the Advertiser intends it to be understood. A little history of what actually took place in the formation of the Cabinet will explain the situation. Last week Mr. Cecil Brown was called on to form a Cabinet, and he submitted to Her Majesty the names of those whom he desired to choose. Amongst these was the name of the Hon. G. N. Wilcox. On Mr. Wilcox's return from Kaimi he was asked if he was willing to join that Cabinet as submitted to Her Majesty. He assented and was sent for by Her Majesty, as also were each of the others forming the Cabinet separately asked as to their willingness to join such a Cabinet. No Premier was appointed by Her Majesty nor was any precedence given by her to any member of the Cabinet. The Cabinet, in consultation amongst themselves, however, finally selected Mr. Wilcox as their leader. It will therefore be seen that the Advertiser's claim that the alleged principle of Messrs. Thurston & Co. has been upheld is not correct, yet the Ministry has been formed in a strictly constitutional manner and on strict constitutional principles, and while it does its duty, it should be supported no matter in what way it was formed.

THE BEST PLASTER.—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

Watts—It is a wonder to me that no one has come forward with the claim that the Chinese were the inventors of the pneumatic tire. They have been credited with almost everything else. Potts—Well, the pneumatic tyre was the invention of the Greeks. Don't you remember Eolus, who bound the winds in a bag for Ulysses?

Poet—"I have a little poem here, sir, that has been indited—" "Well, sir, I would be glad to see it convicted, but I can't try it."

CANING OF THE EDITOR.

The Evidence of Captain Houdlette is Taken Before Departure.

George E. Harrison was partly tried in the Police Court this morning on a charge of "assault and battery with a weapon obviously and imminently dangerous to life, on E. E. Carey on Nov. 7, contrary to Sec. 8, Chap. 9 of the Penal Code as amended." Defendant pleaded not guilty. Captain H. C. Houdlette of the S. S. Australia took the stand and testified, looking at a clipping from the half-white paper "The Liberal," that some of the statements were true and some were false. A woman had sent him a letter in San Francisco claiming to be Harrison's wife, and later she had seen him twice. She asked the Captain to help her against defendant, he replying that he could not. Harrison spoke to him about it in Honolulu, and he told him what he had just stated. Witness told Dr. Soule on the Australia about it. May have told Dr. Miner but he thought that was after the publication of the articles in The Liberal. The part of the article about trying to run a bluff was false, as defendant did not look like a gore-hunter, and he (the witness) did not run away from him when he spoke to him about it.

Carey talked to the witness on Friday or Saturday and wanted points, but was refused. Witness had never said anything to any lady in town that he was sure the woman met in San Francisco was defendant's wife.

The case was continued until tomorrow. A. S. Hartwell for prosecution; A. P. Peterson for defendant.

An Irishman who was in Paris went to call on a friend living there, and on ringing the bell the door was opened by a maid. The Irishman had some knowledge of French, and so asked "Is Mr. So-and-so in?" in that language. It happened, however, that the girl spoke English well, so she said, "Ah, you are English." "How did yez find that out," he replied in the richest Tipperary brogue. "Oh," she said, "you are Irish." "Now how is this," returned the man, "be me Frinch I'm English, and be me English I'm Irish."

"German Syrup"

A Farmer at "We are six in family. We live in a place where we are subject to violent Colds and Lung Troubles. I have used German Syrup for six years successfully for Sore Throat, Cough, Cold, Hoarseness, Pains in the Chest and Lungs, and spitting-up of Blood. I have tried many different kinds of cough Syrups in my time, but let me say to anyone wanting such a medicine—German Syrup is the best. That has been my experience. If you use it once, you will go back to it whenever you need it. It gives total relief and is a quick cure. My advice to everyone suffering with Lung Troubles is—Try it. You will soon be convinced. In all the families where your German Syrup is used we have no trouble with the Lungs at all. It is the medicine for this country." John Franklin Jones.

MEETING NOTICE.

THE ANNUAL MEETING OF STOCK-HOLDERS of E. O. Hall & Son, I.O., will be held TO-MORROW, Nov. 10, 1892, at 4 o'clock P. M., at the office of the company. E. O. WHITE, Secretary.

Hawaiian Hardware Co., Ltd

Monday, Nov. 7, 1892.

What with putting in a ministry to live from two weeks down to less than three hours the political situation is, to say the least, peculiar; nor is the condition of affairs likely to change while party principles are to take precedence over the wishes, not to say demands, of a majority of people outside the legislative hall. Honolulu is overloaded with newspaper correspondents and every move and word by a politician is looked upon by those people with certain significance and after it revolves in the gigantic brain of the newspaper man with spice and ginger added with each revolution it goes on to the coast a statement of very large untruths. The fact of the inability of the politicians to harmonize and decide upon a cabinet is sufficient reason for impairing the nation's credit abroad. Much worse is it, when the facts are distorted in the columns of the foreign journals. In the United States the press can neither be gagged nor muzzled, and the only way to protect the credit of the islands, to settle the unrest that exists in the minds of the business men abroad and at home, is to decide on a cabinet—get them in office and permit them to remain long enough to become acquainted with the clerks in their respective departments. To leave a heavy for a lighter subject let's talk about bread boards. Every cook and housekeeper wants a bread board and they usually want a good one. The one you've yearned for is here waiting for your request to send it to your house—fine wooden wood and guaranteed not to warp or shrink; chronometer balance and adjusted to heat and cold. Do you want one? Last week we should have mentioned pocket knives but other things took their place in the hardware news column. Besides the most delicate little knives in mother of pearl handles for ladies we have them for men in any walk in life; from Cholmondeley who confines the use of his pen-knife to trimming his finger nails to the sailor in the fo'castle who uses a knife for cutting his tobacco. In knives for use in weeding out corns we can show you something rather better than the usual run. Local sportsmen report seeing a very large Snow goose in various parts of Oahu. During the moonlight nights every fellow who owns a gun has been out chasing the bird, and its presence here has been used as an excuse by lots of men who wanted to stay out late when they didn't have "the lodge" as an excuse to fall back on. To the hunters who enjoy a day's shooting we invite attention to our stock of smokeless powder cartridges received by the S. S. Australia.

The Road Board has made a good sidewalk beyond King street bridge, but it is of no use to pedestrians when anything is going on in the Chinese theater. Chinese hackmen then tie their nags up on the path, so that foot passengers have to take the middle of the road. Inspector Maey could have caught several of the offenders last night, but he was probably on duty at the Opera House. The regular police should in such a case keep the sidewalk clear.

A Chinaman from Ahuimanu was arrested this morning on a charge of cruelty to animals preferred against him by Dr. Emerson. The alleged cruelty to animals is John's allowing the head of a chicken to hang downward on a horse. He was coming into town presumably to sell the fowl when the doctor saw its predicament. The Chinaman and chicken were brought to the station, where the latter was given corn and other refreshments by "Doctor" Hopkins, but to no avail, as it lay on the ground as if dead.

A rough-and-tumble fight occurred last night near the famous Bay View Resort on King street, near the Railway Station, between Tom McGiffen and R. Waialeale. The latter was slightly under the weather and was mowed down in no time. The cause of the trouble could not be ascertained, but Mac was heard to articulate on arising, "Do you mind me now, and don't call me a liar again." They were arrested and taken to the station. This morning they were discharged. McGiffen is doorkeeper at the Chinese Theater.

THE LEGISLATURE.

119TH DAY.

WEDNESDAY, NOV. 9, 1892.

Morning Session.

The Assembly convened at 10 o'clock for prayer, after which the minutes of the previous meeting were read.

Rep. Smith moved to amend the record just read by inserting the titles of the various bills, and petitions. Reference by number simply was liable to error.

President Walker said that the desired addition would be made by the Clerk.

Under suspension of the rules the following petitions were presented.

By Rep. Kapahu from Kau that a schoolhouse be erected at Wailau, Hawaii. To Committee on Education.

Noble Pua, from residents of the Loper Settlement, containing 600 signatures, that Capt. W. H. Tell be retained as Superintendent of the Loper Settlement. To Sanitary Committee.

Noble Williams, from the Printing Committee, reported Bill 194, the first portion of the Appropriation Bill, printed, as also the report of the Special Committee on Water Works. Ordered to be distributed.

Rep. Smith, from the Judiciary Committee, reported on Bills 94 and 100, relative to the licensing of drivers of tractors. The Committee do not consider the proposed measure necessary. The drivers are engaged by a company able to pay for all damages occurring. The committee recommend that the bills be tabled. Adopted.

Rep. Kapahu presented a minority report from the Sanitary Committee on the bill to elect members of the Board of Health, and recommending that the majority and this minority report be tabled for consideration. Adopted. The same member presented another minority report from the same committee that the vaccination bills and majority report be considered with this minority report. Adopted.

The Minister of Finance under suspension of the rules gave notice of and read for the first and second times a bill to provide for the payment of salaries and wages of Government employees and expenses of the Supreme and Circuit Courts until and including the 30th day of November, 1892.

Noble Marsden moved that the bill be referred to a committee. If the salaries were paid in accord with the old exorbitant rates it would not be in consonance with the present condition of the finances of the country. A committee could apportion the amounts in accord with the present Appropriation Bill.

Rep. Smith considered that if there was any attempt to pay according to the lately passed appropriations it would make confusion worse confounded. He favored paying salaries at the old rates.

Noble Marsden said that a committee could find out whether it was practicable or not to pay under the old or new rates.

Rep. Kanehili favored the bill but amended to have it reach to Dec. 31, 1892.

The Attorney-General did not consider that there was any need of referring to a committee.

Rep. Kamaoia favored reference to a committee so that the salaries might be paid in accord with the 1st Section of the new Appropriation Bill. If not so paid then the Government would not reap the benefit intended by the reductions over which much time had been spent to obtain.

Rep. Inoua favored the idea of paying according to the old rates. The new Appropriation Bill was not yet law and a committee could not make it law. Simplest and easiest way was to pay in accord with old rates.

Rep. Bush said he was in favor of assisting the Government in its attempt to assist the employees. The old Appropriation Bill was no longer law, its functions having ended March 31st last. He favored payments in accord with the new bill. The time should also be extended and he favored the amendment to Dec. 31st.

On motion, the bill was declared by President Walker to have been changed in title to read, "to Dec. 31, 1892, unless no appropriations are made before that time."

The bill also passed to engrossment and for third reading to-morrow.

President Walker appointed Nobles Kauhane and Maile on the Education Committee and Noble Hopkins to be chairman of the Military Committee.

Rep. Smith, from the Judiciary Committee, presented the following reports:

Bill 106, relating to the repeal of the bill letting of hire of carts, vehicles, etc., and applying to the re-obtaining of a license by driver thereof on charging his employers. The committee do not favor the bill as presented and recommend the tabling thereof. Report adopted.

Bill 99, relating to collisions at sea. The committee do not see any necessity for this bill becoming law, they recommend that it be tabled. Adopted.

Petition 408, from one D. W. P. Thompson of Hawaii, that the sum of \$25 deposited by him as a candidate in an election, be returned. The committee state that no declaration was made until after the ballots containing petitioner's name had been printed and forwarded, therefore they do not recommend the return of the amount. Report adopted.

Bill 162, relating to the use of vulgar and obscene language. Committee present a substitute bill which they recommend to pass as an amendment to Section 3 of the Penal Code and that the Bill 162 be tabled. The report was tabled to be considered with the bills.

Bill 110, to abolish the office of Fire Marshal and to have the duties thereof performed by the Chief Engineer. The committee favor the passage of the bill. Report tabled for consideration with bill.

Bill 108, to confer on the Board of Representatives of the Fire Department a greater control of the funds of the Department. The committee consider that in certain possible cases the Chief Engineer should be permitted to have a control of the expenditures. With this amendment they favored the bill. Report tabled for future consideration.

Bill 172, relating to the voting of seamen engaged in coasting service. The bill was in opposition to Articles 59 and 61 of the Constitution and the object desired cannot be obtained as set forth in the Bill; they recommend the bill be tabled. Report adopted.

Bill 145, to allow members of the Legislature to take office as representatives in the diplomatic or consular service. The committee cannot agree with the provisions of the bill and recommend that it be tabled. Adopted.

Bill 161, a proposed amendment to Article 41 of the Constitution, that Cabinet Ministers be elected by the Legislature. The committee do not deem the desired change advisable and recommend that the bill be tabled. Report adopted.

Bill 146, to amend Article 54 of the Constitution and to the effect that any member of the Legislature, while in session, arrested or imprisoned or caught in flagrante delicto may be permitted to take his seat on the parole of five members of the Assembly. The committee recommend that the bill be tabled. Report adopted.

Bill 144, to amend Article 59 of the Constitution relative to the reduction of the income qualification of voters for Noble from \$900 to \$300 per annum. Rep. Smith presented a minority report on this subject adverse to the proposition in the bill. The report was tabled to await a majority report.

Rep. Smith from the Sanitary Committee reported on petition 165 relative to questions propounded touching the practice of Government physicians, and to the effect that they had received answers thereto from the President of the Board of Health. On motion the report and answers were ordered to be translated and printed.

At 11:35, on motion, the Assembly took recess until 1:30 p. m.

Prison Reform.

EDITOR BULLETIN:—The management of Oahu Prison is under the control of the Marshal of the Kingdom, and I think that it is efficiently administered with exceptions given below.

Capt. A. N. Tripp is the Governor of said prison (vulgarily called jailor), and administers sentences impartially to all prisoners no matter what may be their nationality, race or color. This community has, however, a Board called—I believe—Prison Commissioners, who are supposed (or alleged) to undertake the supervision of the treatment of prisoners of all classes. Now, a Chinaman arrested, fined and imprisoned for, say, an "opium transaction" has little if any fault to find with his treatment in the Hawaiian Bastille, receiving as he does his natural food on which he was raised and reared. Of the Hawaiians I may say that in these disastrous times Oahu Prison is a popular and well patronized hotel for them as a *deserted resort* from "missionary skin wages."

I think as a citizen of this country, one who has lived here fourteen years, a voter for Nobles and Representatives, that (so-called) foreigners should be treated on the same generous scale, and while the governor of the said prison is willing and eager to remit as far as lies in his power the penalties and consequences of the white man's transgressions (against law and order), still it is surely right and logical that they should be placed on an equal footing with those who are generally held to be inadequate to cope with them in all that conduces to the welfare, help, comfort, and advancement of society.

The white man, no matter his nationality, is (generally speaking) a credit to this nation, he saves large disbursements on account of salaries and should receive some adequate compensation for his involuntary services.

For instance, as shoemakers, druggists, hospital assistants, cook stewards, tailors, and gardeners, etc., all saving large sums of money to the government, should be in some way remunerated for their skilled labor, and when we take into "our too often dull brains" the treatment of discharged prisoners in the British Empire, and her generous daughter, the Great Republic, I am forced to write that partiality is palpably shown in the treatment of those condemned to "duration vile"—for an indefinite period—for crimes and misdemeanors they may never have committed; is partial and I think disgraceful.

I would say this, if a foreigner of education is unfortunately to be the guest of Her Majesty, give him at least his natural food, and on his discharge give him an honorarium for any valuable services rendered, give him his light (electric lights are now cheap) say till 9 p. m. He will improve his mind if so inclined, and such favors prevail in the prisons of Europe. When he leaves your "institution of correction" for so-called wrong doing, probably he will be restored to society—a valuable and good citizen.

Lastly, a prisoner committed for an indictable offence, such as murder, arson, or highway robbery, is treated harder than those convicted of the same offences. A man wherever the grand old Saxon is spoken is innocent, surely, till convicted, all the world over.

A RECENT GUEST.
Honolulu, Nov. 7, 1892.

A Ramie Fiber Cleanser.

An ingeniously constructed digester for cleansing ramie has been exhibited to experts and its operation pronounced very satisfactory in preparing the material for the spinner. The process is a chemical one, the crude ramie being placed in this apparatus and subjected to the action of a chemical solution under heat. The pump forces the solution through the heater into the digester, thus diffusing it through the mass of material, this action dissolving the epidermis, or outer bark, and at the same time dissolves the resinous gums in which the fibre is encased—a treatment which, followed by drying, renders the fibre fit for the market, in its unbleached condition. In connection with the foregoing process and its results, is an apparatus for instantaneously bleaching the fibre by chemical means. The methods thus brought forward, and accomplished, as is claimed, by such apparatus, are not unlike those for producing chemical pulp in a paper mill. The quality of the fibre is not injured, while the ramie is degummed and the outer scale removed at the same operation.—N. Y. Sun.

Mr. W. M. Terry, who has been in the drug business at Elkton, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I have ever sold." There is good reason for this. No other will cure a cold so quickly; no other is so certain a preventive and cure for croup; no other affords so much relief in cases of whooping cough. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

Visitor—"Is this an old homestead or a modern imitation of antiquity?"
Tenant—"Oh, it's new, brand new. The roof leaks in forty places."

THE PIN PUZZLE

There is a new Puzzle out. This innocent-looking brain tormentor is called the Pin Puzzle, and anybody can make one for himself with a bit of paper and pencil and six pins. Here is the diagram:

The object is to stick six pins on six of the black dots in such a manner that no two pins shall be on the same line, either horizontal, vertical or diagonal. Although it may be difficult to work out this Puzzle, still there is no difficulty in understanding or appreciating the Poetics issued by the EQUITABLE LIFE ASSURANCE SOCIETY. They are clear, business-like, concise and simple.
