SHOULD ENGAGE ATTENTION.

A work that should engage the attention of the Government, as soon as the demands of what may be justly considered more pressing public requirements are satisfied, is the improvement of the streets in that portion of Honolulu which was devastated by the great fire of two years ago. The clean sweep of all buildings by that fire presented an unexpected opportunity of opening new and needed streets and of widening old ones. The opportunity was seized by the Government of the day, and new thoroughfares were marked out, on which no buildings were allowed to be erected, and previously existing streets were widened before the rebuilding of that part of the town commenced, so that the lines of buildings as they now stand mark the changes in the roadways then made.

Excepting on Bethel and Nuuanu streets and a small portion of Hotel street, nothing has been done in the way of street improvement in the whole of the burnt district, during the two years which have elapsed since the great fire. The widened streets still have the unsightly and inconvenient elevations on the sides where the widenings were made, and the new streets are simply avenues between lines of buildings, in some places containing dangerous pits and in others strewn with obstacles which render them almost impassable.

Now we come back to the point at which we started, and reiterate that the improvement of these streets, so long neglected, should receive attention as soon as possible, and here it may be added that comparatively little money and labor are required to effect a marked improvement. The removal of stumps and other obstructions, the filling of pits, and a little grading, with the earth thrown from the sides to the centres, are about all that can be reasonably expected in the present condition of the national finances, and would constitute the "marked improvement" which may be accomplished with "comparatively little money and labor."

CLIMATE AND PROVIDENCE.

In the last number of "The Paradise of the Pacific" is an article by Mr. Marques, on the "climate of the Hawaiian Islands," in which our mild and equable climate is justly extolled. The concluding paragraph contains a virtual promise to produce in some future issue of that paper "official figures," which, "together with meteorological tables, will show that in the whole world there is no other climate, not only equal, but even approaching to ours."

We shall look intently for the appearance of the "official figures" and the "meteorological tables" which can make such a splendid showing in favor of our climate, and hope they will not be delayed beyond the next number of "The Paradise of the Pacific." In the meantime we hope to be excused for entertaining grave doubts of the existence of "official figures" and "meteorological tables" to prove any such conclusion. We have not to go beyond this Pacific ocean, not to mention the "whole world," to find thousands of islands where no "official figures" or "meteorological tables" are kept. If the "figures" and "tables" are not, how can anything be proven by them?

Our climate, on the whole, is superlatively splendid. Everybody admits it. There is no doubt about it. Indeed, it is so good that it

cannot be made better by trying to prove that there is no other equal, or even approaching equality to it—a thing which cannot be proven, and an assumption which we do not and cannot believe. Anyhow, our scepticism is likely to endure until the promised "official figures" and "meteorological tables" have been gathered up from every continent, island, and islet of the globe, to convince us of our error and compel us to believe the extreme and absurd assertion "that in the whole world there is no other climate, not only equal, but even approaching to ours."

In a preceding paragraph of the article from which we have quoted, Mr. Marques refers to the vital statistics of our Board of Health. He says, and we believe truly, that those statistics, "when read in their proper light," proclaim the healthiness of our climate. The high rate of mortality, as shown by those statistics, is due, he holds, to the high percentage of "mortality among the native race." Correct. Therefore, concludes Mr. Marques, the high death rate as shown by the Board of Health statistics is "not because of disease or any vital reason, but simply because this" (native) "race is doomed, and Providence has decreed that they must be extinct ere long." A remarkable dogma, as full of sense and reason as the dogma of infallibility and the divine rights of kings!

Most savage races when brought in close contact with western civilization seem to decline and gradually disappear. But what has Providence to do with it? We have hitherto imagined that the declination was due mainly to the adoption of the vices of civilization, but it now appears to be all the work of Providence, at least so far as the Hawaiian race is concerned, for "Providence has decreed that the native race must be extinct ere long!"

We wonder how Mr. Marques discovered the intentions and decrees of an unsearchable Providence! He may be right. But we no more believe it than we do that he is able to prove by "official figures" and "meteorological tables" that no climate in "the whole world" equals that of the Hawaiian Islands. To blame on Providence the destructive work that is being done by the agents of the devil is rather an unfair proceeding. We cannot understand why Providence should decree the extinction "ere long" of the simple Hawaiian in favor of the "heathen Chinese," and do not pin our faith to that creed.

Late Foreign News.

By the arrival of the Zealandia this morning we received nine days later news.

Following is a Summary:

AMERICA.
Boston, April 24.—The steamer Catalonia, loaded with John L. Sullivan, passed in by Hull early this morning. On the arrival of the steamer the pugilist was taken aboard a tugboat and brought to the city, and was driven uptown amid the cheers and salutations of hundreds who had congregated on the wharf.

John L. Sullivan has issued a challenge to any man in the world in a sixteen-foot ring, London prize-ring or Marquis of Queensbury rules, for \$10,000 a side, Kilrain or Mitchell preferred.

Jacksonville (Fla.), April 24.—Reports of yellow fever at Plant City prove to be exaggerated. The disease undoubtedly existed there all last summer, but in a mild form. The village has a population of 300. Since last October there have been ninety cases of illness and only twelve deaths. All unacclimated persons have moved away, and energetic measures are being adopted to stamp out the disease.

Kansas City, April 24.—Judge Samuel D. Lecompte died to-day at the age of 74. He served as Chief Justice of the Territory of Kansas from 1854 until the admission of the Territory into the Union. He presided over the first Constitutional Convention held at Lecompton.

Chicago, April 26.—An explosion that pitched seventy people into the air, throwing one man fifty feet, wrecked seventeen large plate-glass windows, ruined \$35,000 worth of clothing, damaged a building \$150,000 and caused a stampede of hundreds of people from the upper stories of tall buildings, occurred in a basement at the corner of State and Jackson streets this afternoon. Strange to say, no one was killed, although two or three are perhaps fatally injured.

Washington, April 28th.—Surgeon-General Hamilton to-day officially published the full text of the reports on file in the Marine Hospital Bureau, which proves the statement of last Saturday that inspection at Wicanopy, Plant City and Barlow, Florida, reveals the recent

existence of yellow fever there, and that several other points in southern and western portions of the State are looked upon with suspicion.

Chicago, April 26.—The Times' Nashville special of the 25th says Miss Mollie Green is the heroine of a thrilling scene in Perry county, Tennessee. Miss Mollie is eighteen years old and teaches school on Cypress Creek. The children a few days ago were busy with their lessons, when a sluggy dog, foaming at the mouth, snapping and biting, dashed in at the door and made toward the children. The brave little woman sprang between the children and the intruder. She kicked at it, her skirts protecting her, and by the aid of the heavy rule kept it at bay until all the children had fled. The infuriated animal repeatedly sprang at her throat, but she was agile and resolutely held her ground. When all the little ones were gone she reached the door, which she pulled to after her, and fell fainting outside. The children in the meantime ran to the nearest houses, an eighth of a mile distant. The men turned out and killed the dog, which had been terrorizing the neighborhood for two days. The grateful parents of the children took up a subscription and gave the young woman a fine saddle horse. Her clothes were literally torn to ribbons during her severe encounter.

Washington, April 28th.—Last night there came near being a fight in the room of the Committee on Manufactures which is investigating trusts. In the testimony which he gave before that Commission some days ago, State Senator S. Emery of Pennsylvania said some very hard things about the Standard Oil Company.

Last night, Mr. Archibald, who is also from Pennsylvania, was on the stand. He took occasion to deny all that Emery had said, and in as many words repeatedly declared that he had lied. Emery was present and reciprocated by saying that Archibald was a liar. Things grew hotter and hotter, and it looked as if a slugging match was inevitable. The Committee adjourned quickly, but the two angry men kept it up. Finally, Mr. Bacon of New York, the Chairman of the Committee, said to them: "Look here, if you want to fight go out in the corridor and have it out; you can't fight here." The two men left the room, but indulged in no gore after being put out.

Auction Sale of fancy goods at G. W. Macfarlane & Co.'s at 7:30 o'clock.
Two-mile skating race at the Yosemite Skating Rink.

THE EVENING SALE.
Quite a large number of people visited Messrs. G. W. Macfarlane & Co.'s sale rooms yesterday and to-day to see the new goods which are advertised for sale at auction this evening. The display is very attractive, and as many of the goods will be sold without reserve, it will doubtless be a rare opportunity for bargains. The sale will commence at 7:30 o'clock sharp.

CARD OF THANKS.
The British Benevolent Society desire to express their thanks to the several ladies and gentlemen who so kindly gave their time and talents upon the occasion of the concert given at the Hawaiian Opera House on the evening of the 28th of April last, which resulted in a net return to the society of \$233.67.

ACCIDENT TO MR. C. JONES.
Mr. George Jones, of Kahuku Ranch, Hawaii, had a rather narrow escape from a severe accident on the 5th instant. In handling a loaded pistol, it was discharged, and the ball entered his left side—passed for three inches outside of the ribs, and lodged. It was extracted in a short time by Dr. Raymond, the resident physician of Kan. The accident has in no way interfered with his regular attention to business, with the exception that horse-riding is tabooed by the Doctor for the present.

EVENING AUCTION SALE.
Messrs G. W. Macfarlane & Co. announce another Evening Auction Sale of fancy goods for this Saturday evening at their sales rooms upstairs, on which occasion will be offered for sale a new line of French and London goods, just received per bar Thomas Bell. The goods comprise latest designs in parlor furniture, travelling rugs, new designs in bric-a-brac, fancy tea-sets, ladies' and gents' dressing gowns, bed quilts in silk and satin, all satin pillows, fancy glass ware, ladies' hats and caps, dry goods, carpets and rugs, and a choice selection of ladies' fans; also a few pieces of the choicest Dresden ware. The sale will commence at 7:30 o'clock, and Mr. L. J. Levey will officiate as auctioneer. The goods will be ready for exhibition on Saturday morning.

SENSATIONAL SEIZURE.
Quite a sensational arrest and seizure of contraband goods took place last night. The cook of the bark Ferris S. Thompson was seen by the watchman to come over the ship's side with a bag which he put into a hack, and then went on board the ship again. While he was gone on board, the watchman notified Port Surveyor Geo. Markham, who in company with Custom's Officer A. Gillilan, were making their rounds.

Examining the bag, they found that it contained a five gallon demijohn of whiskey. Securing this they went on board the vessel to arrest the cook; they found him in the galley wrapped up in the American flag and defying the authorities to arrest him. The officers not knowing what complications might arise from arresting a foreigner with his body wrapped in a national flag, repaired to the residence of Police Justice Dayton and procured a warrant, returned to the ship reinforced with two regular police officers. They found the cook locked in the pantry, the door of which they forced open; the man was still wrapped up in the flag and was defiant; in consequence a lively tussle ensued in which kicks and blows were freely exchanged. They however succeeded in making the arrest and safely lodged their prisoner with the evidence of his guilt in the Station House. The cook's name is Jose Casselas.

Late Foreign News.
At 8:10 o'clock on Monday morning, April 30, the following telegram was received by Messrs. Goodall, Perkins & Co., from their agents at Port Hartford, regarding the wreck of the Queen of the Pacific:
Queen laying on bottom off the wharf. Send Monarch at once. Sprung a leak and full of water. Particulars soon.

The tug Wizard was immediately ordered to Port Hartford to succor the wrecked steamer.

The Queen of the Pacific, which left this port at 2 o'clock Sunday afternoon, reached Port Hartford at 5 o'clock yesterday morning, half full of water, from a leak caused by striking upon a rock about fifteen miles from the last mentioned port. She was surrounded by life boats containing women and children, most of the male passengers remaining on board. She proceeded slowly to the wharf, where those still aboard leaped ashore and the steamer slowly sank to the bottom. The passengers, 113 in number, none of whom were lost, were taken to the Hotel Maree, at Port Hartford, to await the arrival of the Santa Rosa, which left here yesterday afternoon, to carry them to their several destinations.

New York, April 27.—In commemoration of the anniversary of the birthday of General Grant an elaborate banquet was given at Delmonico's to-night. As was most fitting, arrangements for the affair were made by the old comrade of the dead General and President, General W. T. Sherman. About 150 persons were present. The walls of the banquet-room were almost concealed with flags and bunting, and at the head of the room were three oil paintings, representing the dead soldier in his military uniform and in civilian's dress. The seat at General Sherman's table which was to have been occupied by the late Roscoe Conkling was vacant, and on the chair was hung a heavy wreath of laurel. Each table was presided over by some distinguished soldier, statesman or man of affairs, and on either side of the presiding officer were seated six or seven others.

May 3.—A lot of liquor confiscated by the United States at Juneau, Alaska, was sold by the Marshal at Portland, yesterday.

A Board of trade is to be permanently organized at Albany next Monday evening.

Peter Burgess went insane, and was found perched in a tall tree, with a Democratic primary election ticket and a Salvation Army paper in his pocket.

The Washington Territory Republican delegates to Chicago are 5 to 1 against Blaine.

Chicago, May 3.—A Burlington freight train was badly wrecked at a late hour to-night near the stockyards. The circumstances point to the belief that it was the work of the strikers or sympathizers. The engine and two cars had passed when some unknown miscreant threw the switch, and the next fifteen cars were immediately derailed and piled up in a hopeless wreck in a ditch. As the switch was thrown a man near the rear of the train threw a tie on the track, wrecking the next three cars. At the same time a car of "dope" material of a highly inflammable nature, used for oiling wheels, which was in the centre of the train, was set on fire. The fire engines responded to the alarm and the flames were confined to the original car. The wrecked train was strewn along the track for nearly half a mile.

Chicago, May 3.—A special from Washington says: With significant unanimity all of to-day's Washington papers announce that Senator Voorhees has gone to Indiana on law business. One newspaper stated that he left on Tuesday evening immediately after his encounter with Senator Ingalls. I learn to-night that Senator Voorhees is in seclusion at a private hotel in this city and has been there forty-eight hours. He has no idea of leaving

New Shades in Dress Goods,
At
The Arcade—EGAN & CO.

the city, and that announcement in the press was made at the request of his friends to explain his continued absence from the Senate. It is stated that the Senator is very ill.
San Diego, May 4.—A fire has just broken out near the central part of the city, a high wind is blowing and the flames are rapidly spreading. The entire city is threatened. The losses already amount to over one-quarter of a million dollars.
Later.—The fire is not so serious as at first reported. The flames are now being subdued, and the loss will prove to be much less than at first supposed.
New York, May 4.—Six thousand immigrants were landed at Castle Garden to-day. This beats the record.

EUROPEAN.
Berlin, April 24.—This morning's bulletin says: The Emperor passed a very good night. His fever is quite insignificant and his general condition is somewhat better.

The "North German Gazette" says that the Emperor's condition shows clearly a perceptible tendency toward a slowly progressive improvement. His fever has diminished regularly during the last few days. His temperature to-day was 38 degrees Celsius. His physicians hope for further abatement in view of the recent symptoms developed, and they find especial reason for hope in the return of his appetite.

The fact that the Emperor has hitherto taken a fair quantity of nourishment is solely due to the urgent recommendation of his physicians. Good results followed the observation of their advice. His Majesty's present disposition to take solid food is a satisfactory symptom. Dr. Kruse will not leave the castle for the present.

A bulletin issued at 7:40 p. m., says that the Emperor became feverish this afternoon, but the fever abated somewhat toward evening, and his general condition is comparatively satisfactory.

Later.—The Emperor's condition has changed for the worse and creates alarm.

Paris, April 24.—Panama Canal shares have gone ballooning and De Lesseps' friends are jubilant. Speculators bought freely on the Bourse yesterday, driving the shares up 31 francs. Everybody has agreed that the Chamber of Deputies will to sanction the issue of the lottery loan to complete the work. Yesterday the Committee of initiative, to which the proposal was referred, ordered its reporter to make a report in favor of the De Lesseps bill.

Yesterday M. Maret tabled the favorable report in the Chamber. It advises that the canal company be authorized to raise 350,000,000 francs on the lottery plan, with the Government approval.

London, April 27.—The statement that the Pope has issued a decree condemning the "plan of campaign" in Ireland is confirmed. His Holiness says he does so because he is convinced that the plan of campaign is illegal. He says he is also convinced that land courts will reduce all unfair rents. Another circumstance that influenced him, he says, is the fact that funds are extorted from contributors to the plan. The Pope condemns boycotting as a practice contrary to justice and charity. He makes no mention of the National League.

Dublin, April 27.—The Freeman's Journal urges the people to exercise calmness and patience, and to receive Papal decrees with profound respect and loyalty to Rome. It declares that boycotting is rare.

London, April 27.—The Nationalist members of Parliament are somewhat agitated over the Pope's decree, and are eagerly conferring as to what steps are necessary in view of its appearance.

Paris, April 27.—General Boulanger gave his political banquet at the Cafe Riche this evening. There was a crowd of about 1000 persons outside the cafe at 6 p. m. General Boulanger and Count Dillon arrived at 7 o'clock, when the crowd had swollen to an enormous size, entirely stopping traffic, and there were frequent cries of "Vive Boulanger!" and "A bas Ferry?" At 11 p. m. there were about 4000 persons outside the cafe. General Boulanger, responding to M. Naquet's toast to the former's health, wished to utter a most emphatic protest against the charge that he aspired to a dictatorship. Moreover, if the question were raised in the Chamber, he would vote to abolish the Presidency.

The Boulangerist demonstration at Nancy was renewed to-night. The people refused to disperse and were charged upon by mounted gendarmes. Finally the attention of the crowd was diverted by a large fire, and they moved off with shouts of applause "Vive Boulanger!"
