SENATE THROWS OUT QUEEN'S BILL

RUSSIAN VICTORIES UNCORROBORATED

REPORT THAT CUBACKS CAPTURED 100 JAPANESE AT TALLEN-WAI DOES NOT SEEM PROBABLE UNLESS JAPS INFLICTED MUCH HEAVIER LOSS ON THE ENEMY—THE JAPANESE DETERMINED TO TAKE PORT ARTHUR, AND QUICKLY.

Press dispatches this afternoon are strangely silent regarding the various Russian victories and repulses of the Japs reported by the morning cables. The silence is likely to be the calm before the storm of battle however. That the Japanese are straining every nerve to strike the objectives of operations is certain. Port Arthur is at the present time the most important position for them to either siege or besiege.

and in order to cope with these the Japanese navy will have to be able to muster in full strength. The siege of Port Arthur has therefore become absolutely imperative. The report that 100 Japanese had been captured at Tallyn-wai and 100 of them had been captured by the Cubacks does not seem very probable. To assure an enemy the soldiers have to be at very close quarters. The tactics during the four war showed the saber to be practically an obsolete weapon. It does not seem probable that the Japanese forces with high powered rifles would have permitted the Cubacks to come close enough to have captured them. One fact seems very likely if the Japanese were captured by the Cubacks it was not done until after a much greater loss had been inflicted upon the attacking party.

Goto The Transition Period Escape Caught

JAPANESE LIFE TIMER WHO WAS ORIGINAL OF THE FAMOUS TRANSITION PERIOD CASES, CAUGHT IN HONOLULU LAST NIGHT—HE MANAGED TO ELUDE POLICE FOR NEARLY THREE YEARS.

Goto was the only one of the transition period defendants who succeeded in retaining his liberty, has been recaptured. He was caught by former special officer Tanaka and will be at once put to work serving out his sentence. The case of Goto was very interesting. He was the first of the prisoners under sentence to be brought before Judge Reed on his own motion. It was claimed that as the defendant had been convicted by a majority verdict during the transition period he was entitled to discharge as the Constitution had followed the flag, when the islands had been annexed by treaty. The court released the prisoner. Goto had been sentenced to life imprisonment for rape. The police had not at that time caught onto the idea of having officers lie in wait outside of the court room with new warrants to arrest such released criminals as Goto succeeded in evading. His friends are said to have hidden him.

court room. This action was taken by the authorities in order to hold the prisoners until the cases could be settled by an appeal to the supreme court at Washington. The Court Mankicht was taken to the United States Supreme Court. That tribunal decided in favor of the Territorial government. The result was that the various prisoners who had been released by Judge Reed did not secure their liberty and had to go back to serve out their original sentences. Goto was the single exception. He was able to remain out of sight of the police for nearly three years. Instead of going to Japan he managed to hold with safety, remain in the Hawaiian Islands. He has been working about the various islands. Recently he was on the island of Kauai. Goto was captured last night. There is no record to be followed in his case. He is regarded simply as an escaped prisoner by the authorities and will be at once set to work serving his sentence.

THE EMILY F. WHITNEY

A special dispatch to the Marine Exchange late Saturday afternoon told of a mishap to the American ship Emily F. Whitney. The vessel had to put into Sydney in distress. The extent of the damage was not stated.

expected to sail from Newcastle for these islands February 6 but was evidently delayed. It is thought she was bound from Sydney to Newcastle and had to put back to the former port as the result of a gale. She might have sprung a leak.

GENOA CRUISERS ALMOST DUE

Those two cruisers purchased by Japan at Genoa are expected to join the Japanese navy the latter part of this month. The Japanese are losing no time in getting them around from the Mediterranean Sea to Asiatic waters. The British naval reserve officers who have charge of this work are acting with the utmost dispatch and it is expected the two boats will reach the Sasebo Navy Yard before next month. The Japanese were making preparations to give the naval reserve men an elaborate entertainment on the arrival of the two vessels.

According to the last advices the two vessels are not traveling together. The Nishin left Perim on January 20 and the Kasuga left Aden on the same date.

Russia has evidently abandoned the idea of taking these vessels. Several warships were reported to be following the two cruisers. This fleet consisted of the Oshalya, Dmitri, Donskoi and Aurora and a number of destroyers. This is evidently the Russian fleet that is reported this morning from Aden to be anchored in the Red Sea. This fleet is evidently awaiting the arrival of the Baltic fleet before proceeding to the Far East.

It is not surprising that the Russian Government should have decided to get its Black Sea fleet past the Dardanelles and around to the Far East. This is a most powerful fleet both in view of heavy tonnage as well as numbers. The press dispatches announced that it numbered 22 vessels. The majority of the fleet consists of torpedo boats and torpedo boat destroyers, but in addition there are some powerful ships. There are no less than six battleships and two strong cruisers.

The Russian Black Sea squadron comprises the Tchesma, 10,180 tons; the Ekaterina II, 10,180 tons; Sinop, 10,180 tons; Dvenadst Apostolov, 8,876 tons; Kmaz Potemkin Tavrichesky, 12,480 tons; Gheorgi Pobledonostz, 10,300 tons; Tri Svitliia, 12,480 tons; Rosslav, 8,880 tons, or a total of 83,585 tons.

The British armored cruiser King Alfred, 14,700 tons, passed the Suez Canal January 13, en route to the Pacific.

The French armored cruiser Sully, 10,014 tons, passed the Suez Canal January 13, en route to the Pacific.

MATSUMOTO IS FOUND GUILTY

CLAIMED THAT HIS REVOLVER WENT OFF ACCIDENTALLY BUT JURY THOUGHT OTHERWISE.

Matsumoto was found guilty in Judge Robinson's court this forenoon of an assault on a Chinaman and was fined \$500.

The assault consisted in inflicting a wound on the Chinaman with a revolver. The circumstances of the case were somewhat peculiar, and the explanation of the Japanese still more so. The Japanese claimed that he had the revolver in his trunk, and that while taking his clothes out of the trunk and shaking them the revolver was discharged and the contents hit the Chinaman. The shot occurred on Beretania street near Nuuanu, about three months ago.

St. America Maori had arrived safely at Yokohama last Friday. The steamship left Honolulu January 11. She is to be utilized as an auxiliary cruiser and transport by the Japanese Government.

THE RAINSTORM

It is feared that the rain of yesterday may have done much damage over on the Koolau side of the island. Yesterday the Public Works Department was in communication with Koolau by telephone, but today it is unable to get that side of the island.

The rain on this side is not thought to have done any great amount of damage. The rain was not nearly as hard as on Saturday, a week ago and last Wednesday night. For the twenty-four hours ending at 9 o'clock this morning the rainfall was 1.43 inches, for the two days preceding that hour it was 1.5.

UNLUCKY FOR BRIDES.

The Police have a custom at weddings which demands that every male guest must dance with the bride. A big wedding was celebrated at Jersey City recently, and the bride danced for eight hours without a rest, but at the end of that time she fell to the floor unconscious, and it is not known whether she will live or not.

NEW BRIDGE

The Public Works Department is preparing plans for permanent bridges on the Waikiki road near Kapiolani Park, and on the Waialae road at Moiliili. A temporary wooden bridge has been placed on the Waikiki road. At Moiliili, the old bridge is being shored to be used. This bridge is built of concrete. The damage to it consists in the foundation having been washed out from under one end of it, allowing it to drop and cracking the bridge in the center. There is a big crack in the center of it three feet wide.

HELENE HOPKINS FARMHOUSE.

The steamer Helene arrived this morning from Hilo, and Hamskus, Jones and Kaitia, who brought nearly 1,000 sacks of sugar. Good weather was experienced this trip. The vessel made a special trip to Hilo in being to Honolulu the passengers that the steamer Mauna Loa had been unable to take off last Thursday owing to the heavy weather. Dr. Cooper and Jared K. Smith were among those who returned.

NEWCASTLE BOATS ARRIVE.

Two vessels from Newcastle arrived yesterday. They were the barkentine James L. Tuft 51 days out and the schooner W. H. Talbot 47 days out.

They had 1,000 tons and 1200 tons of coal respectively. The Tuft did not experience bad weather until in the vicinity of the Hawaiian Islands. The schooner Talbot met disagreeable weather throughout the voyage. She stood over by Tahiti. One of her sails was split off Molokai. The second mate of the Tuft was removed to the Queen's Hospital suffering from inflammatory rheumatism.

AORANGI ARRIVED SATURDAY.

The S. S. Aorangi arrived Saturday afternoon from Vancouver and Victoria. She landed some passengers at Honolulu and also discharged freight. She sailed at 8:30 p. m. for Suva, Brisbane and Sydney.

LIKELIKE IS LAUNCHED.

The Wilder S. S. Company's new steamer the Likelike was launched Saturday at the Union Iron Works San Francisco. The vessel is to be placed on the Molokai run. Her dimensions are as follows: length, 134 feet; beam, thirty feet; depth of hold, twelve feet six inches. She will have a carrying capacity of more than 400 tons dead weight. Her contract calls for a speed of nine and one-half knots when the vessel is half loaded at sea. The cost of the Likelike is about \$90,000.

ROUGH WEATHER ON KAULAI.

Rough weather has prevailed about Kaulai. Purser Wright of the steamer Mikahala reports that the Eleele freight could not be landed owing to the bad weather. The Mikahala went out on the run of the W. G. Hall. The bark Star of Bengal had 18000 bags of sugar loaded at Makawell and the ship Henry Villard 9,050 bags at Eleele.

SIERRA IS DUE TOMORROW.

The S. S. Sierra is due tomorrow morning from Sydney, Auckland, Pago Pago and Fanning Island. She will sail in the afternoon for San Francisco.

GAELIC DUE ON WEDNESDAY.

The S. S. Gaelic is due here Wednesday morning from San Francisco. She will have eight days later mail and files of the mainland papers. It is expected that the Japanese naval reserves in Hawaii will depart for home in the vessel.

How often you hear the remark: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

IN GOOD COMPANY

Many dollars are turned away annually by The Star in rejecting offensive and improper advertisements offered for insertion in its columns.

This is a cogent reason why The Star's advertising columns are so generally used and so widely read.

Want ads the Star bring quick results. Three lines three times for 25 cents.

Twenty-five cents pays for a Want ad in the Star. A bargain.

A QUANTRELL RELIC.
The Kansas State Historical Society has what is asserted to be the thigh bone of W. C. Quantrell, the notorious guerrilla leader, who led the massacre of Lawrence in 1862. They were left with the late Judge F. G. Adams, secretary of the society, in 1888, and have been preserved in secrecy, until now the death of Quantrell's mother permits the society to register them and put them on exhibition. They were presented to the society by W. W. Scott of Canal Dover, O., with the consent of Mrs. Quantrell on condition that they should not be exhibited until after her death. Miss Zu Adams a daughter of Judge Adams, who has been employed by the society since its beginning, says that in 1888 Mr. Scott appeared in her father's office with the bones. He said he and Mrs. Quantrell and two men who were with Quantrell when he was killed went to his grave and exhumed the body.

BRITAIN'S QUESTIONS.
Associated Press, Morning Service.
COPENHAGEN, February 14.—In replying to an inquiry of Great Britain, Denmark answered that she was prepared to preserve the neutrality of her seaports. It is believed that the British Government apprehends the danger of Russia's occupying the Danish possessions in the event of complications with Great Britain over the Russo-Japanese war.

HAY PROTECTS CHINA.
Associated Press, Morning Service.
WASHINGTON, February 14.—Secretary Hay has issued a note requesting the combatants to conduct hostilities with all possible respect for the rights of China. The note is approved by the powers and is acceptable to Japan and Russia. This is a victory for American diplomacy.

FORCIBLE PLEA FOR ST. ANDREWS

Bishop Restarick made a forcible plea at yesterday morning's service in St. Andrew's Cathedral in support of the movement to enlarge the Episcopal cathedral and improve the premises upon which it stands.

And now to the practical part at present before us. It is proposed to build as soon as we have the money in sight, two additional bays to the nave, i. e. making it longer by two additional arches. After a year's careful enquiry and many consultations it is found that this can be accomplished as it is estimated for about \$22,000.00 and it is hoped that this will include the ventilation of the whole structure.

Now is the time to begin. I ask you dear friends, during Lent to pray for this. If you pray aright you will work and make sacrifices. Let us all look forward to a great united offering on Easter Day. You will receive soon by mail a letter, a suggested prayer and a pledge which latter will read: "I hope to be able to give—" Read all the papers carefully. Enter into the spirit of this, our enterprises. If any of you know people who are not now resident here but who will be interested write to them and enclose copies of the letter and pledge which you can obtain of any of the clergy. I want your cooperation that every one may be doing something to the end which we all have at heart.

I know that money is not as plentiful as it has been at times here in the past. But we must not stop because of that. Let this Lent be a time of real sacrifice; enter into the spirit of the season. Deny yourself for the object which is so dear to all of us, and then see if in the doing and in the result, God will not open the windows of heaven and pour His blessings upon us.

ALEXIEFF GOES NORTH.
Associated Press, Morning Service.
SHANGHAI, February 15.—It is reported that Viceroy Alexieff has gone to Harbin.

The Manchurian city of Harbin is an important strategic point of the disputed territory. It is an inland city, situated at about an equal distance from Port Arthur and Vladivostok. It is to this city that the main line of the Siberian railways extends across the vast eastern dominions of the Czar and from Harbin the railway system is split up. One line runs to Vladivostok and another to Port Arthur.

JAPAN'S HUMANE CONDUCT.
WASHINGTON, February 13.—To Consul Saito, Honolulu. Request was made to the Japanese Consul Kato at Chemulpo, Korea, through the British Consul at the same port, to place 34 wounded Russians under the care of some charitable Japanese, which the Imperial Government has willingly granted and the men have been placed in a Japanese hospital there, to be treated by Japanese doctors.

THE BALTIC FLEET AND THE WAR.

The honors of the war, so far, have evidently gone to Japan. How that will affect the future no one can tell. Up to the present the struggle has been on the sea, and there undoubtedly Japan has made a success.

They did destroy the Turkish fleet at Navarino, but they had the French and British fleets to help them. This was at the beginning of last century. In 1853 they destroyed thirteen Turkish ships in the harbor of Linope.

It may safely be predicted that the Japanese will keep the Russian fleet bottled up in Port Arthur, and that if it comes out they will destroy it. They have ample time to clear the Chinese waters of the Russian ships before the Baltic fleet arrives.

The Baltic fleet episode shows that Russia is unprepared, in spite of all the reported preparations. It further shows that the naval generalship is wanting. If a crushing naval blow was to be given to Japan, there should have been a combination of these fleets long ago.

Upon land the Russians may do better, but even that is problematical. The Japanese has shown himself a good soldier, not only in the Chinese war, but also in the recent allied expedition to Peking. More-over the Japanese is educated and the bulk of the Russian army is densely ignorant, and in modern warfare the soldier ought to be educated.

All these things tend to give an advantage to the Japanese. To them can be added the patriotism of the little brown men, and their splendid discipline. The Russians have patriotism too, and they have fanaticisms which has been so valuable an attribute of troops from the time of Mahomet to that of the Mahdi and the Mad Mullah.

There remains the question whether these two nations will fight the quarrel out alone, or whether the main European nations will be drawn into the struggle. That would make the struggle a world one, and would change the map of Europe as well as the map of Asia.

THE STORM.

The recent storm is certainly phenomenal. It seems, however, to have been largely confined to the Islands of Oahu and Maui, as far as the enormous mass of rain is concerned. The sea was rough throughout the group and it was hard to effect landings at many places, while at others it was impossible to communicate with the shore.

People who think the last great storm was in 1886 mean the last great storm on Oahu. At the time of the Chinese New Year of 1890 or 91 there was a tremendous storm which centered its energies upon the Island of Kauai, as the present storm centered upon Oahu.

Much has been said and written of the dwindling population of France, but there seems to be some amendment. The Journal Officiel has recently published a report on the population of France during the year 1902. The births were 845,378 and the death 781,484 an excess of 63,894 births over deaths, against 72,398 in 1901.

The gentleman in Puna who wanted a school teacher removed, and then announced that he was a candidate was a thorough home ruler. He wanted every thing in sight. Mr. Wilson, whom he wished to have removed, has been teacher at Kalapuna for fully ten years. The objection to him is that he is a Republican.

The schooner Ada has not returned and is now overdue. She went to save a wreck. Possibly she is herself a wreck. Presently another vessel will have to be sent down to look after the two wrecks and she might be wrecked herself.

Thus it will be seen that other storms of almost similar character have occurred more recently than 1886. But as far as Oahu is concerned the present one is the greatest since that date. The loss in roads and bridges will seriously embarrass the government. With an empty treasury it is difficult to say how this extraordinary expense will be met.

Midway Island is not a pleasant place to live at. The light has had to be discontinued because the supply of oil has run out. Some of these days the island will be completely weather bound and the provisions will run low.

After reporting no hope of Senator Hanna's recovery, the telegrams said on Saturday that he was rallying and might eventually pull through. Today they are killing him again. Wonderful telegrams.

Neutrality proclamations are being reported daily, but there seems a hesitancy upon the part of some nations to declare themselves.

The Star has shown its usual energy in giving the latest news, and where necessary has published extras, but has avoided taking in the public by unnecessary publications, containing no fresh telegrams.

The morning's war news is very contradictory. Now is the time that the merry correspondent three or four hundred miles from the seat of war manipulates victories for both sides, gets up atrocities ad libitum and tells weird tales of 400 Japs subdued by Cosacks.

The Chinese do not propose to have raiders coming over their frontier and have placed a force of regulars upon the frontier line. At present it would only be raiders or straggling parties that would cross in search of plunder. Later it may be a Russian army.

KAWAILANI FORFEITURE HOLDS

The schooner Kawailani is forfeited. Okoleha is a dangerous cargo to carry. The drastic internal revenue laws are found to be full proof. United States District Attorney Breckons received a cablegram this morning from Marshall Woodworth, the United States District Attorney for the Northern District of California, announcing that the Circuit Court of Appeals had affirmed Judge Estee's decision in the case of the United States against the schooner Kawailani. May 24, 1902, Internal Revenue Collector Chamberlain searched the schooner Kawailani and found a few gallons of okoleha aboard her, and thereupon seized the schooner under the statute and regulations providing for the forfeiture of any vessel, vessel or means of conveyance on which shall be found illicit liquor contrary to the statutes. Hong Quon and L. Apama came forward as the owners of the vessel, and defended the suit brought in the United States Court to enforce the forfeiture by District Attorney Breckons. They claimed that they knew nothing about the carrying of the okoleha, and that if it was carried, it was against their positive orders to their employees. Judge Estee decided under the statute that the vessel was forfeited, and an appeal was taken to the Circuit Court of Appeals. Pending the decision of the appeal, the schooner was released on bonds of \$1250, that being the agreed value of the vessel. Now that the decision has been affirmed, the owners of the vessel will have to pay the \$1250 bond and the accrued costs. "The importance of this decision," said District Attorney Breckons, "lies in the fact that it absolutely establishes the rule in these islands in regard to the conveyance of illicit liquors. The means of conveyance, no matter what it is, whether a hand cart, a truck or a vessel, is liable to forfeiture, if it is used for the conveyance of illicit liquors. "The decision, as well as the judgment it affirmed," said Internal Revenue Collector Chamberlain, "keeps the okoleha distilling down to pretty small compass. There will doubtless always be a little of it, up in the valleys and the mountains, but so long as they can't transport it to a larger market, it will obviously be confined to the demand of the immediate locality. Ever since we seized this schooner, other vessels engaged in inter-island traffic have been very careful."

BYAN UNKIND.

Asked by an interviewer to give his views on the fiscal question, Mr. Byan (United States Arr.) answered: "The English must on a question of this sort come to their own decision." This is a little unkind, when he might so easily have decided for us.—London Punch.

THE UNPRINTED NEWS.

We have often thought that there would be a great field for a newspaper in any of our large cities, whose policy and province it would be honestly to print only the suppressed news of the other papers. One page of it could be profitably set aside for corrections, details and explanations of the articles that were printed in the other papers, but were either incorrect, false or obscure.

That is one side of the shield of journalism. The other, which has already been indicated, is its kindness—its unknown and unappreciated kindness—to public men and women. Many a statesman walks the streets of Washington today a monument to the charity and goodwill of the newspaper correspondents. Occasionally some narrow-minded public man, in the seclusion and safety of his own apartments speaks contemptuously of the newspaper fraternity. Would it surprise you to know that his fame has been made by what the correspondents have written of him? Or that his reputation has been saved by what they indulgently had not written about him?—Collier's Weekly.

Siberian Railway Will Give Poor Service

According to the statements of Alexs Krausse, a writer of authority on Asia, the Siberian Railroad is likely not to prove a very hopeful asset to Russia in the present conflict. In fact the transportation of troops and supplies over that line is apt to prove a bigger task than the railroad can fulfil.

In his recent great work entitled "Russia in Asia," Mr. Krausse says: "The utility of a single line for the conveyance of large bodies of men over ever restricted areas is well known to be extremely limited, and the liability of communications being broken very great. In the case of a trunk line traversing upwards of 4000 miles, the shortcomings are largely increased, and the possibility of Russia's being able to convey an army, with all its impediments, across Northern Asia by means of a railway, cheaply constructed of indifferent materials and badly equipped, is one which must be regarded as largely a matter of trust in Providence."

"The lay mind is so accustomed to regard a railway as being the natural and easy means of conveying anything which it is called upon to convey, that it does not pause to consider the special requirements involved in the dealing with large bodies of troops. Military men, however, who have had occasion to take part in mobilization experi-

ments, know better, and I have no hesitation in asserting, that even with the Trans-Manchurian railway in full working order, it would take as long to convey an army from European Russia to the Pacific across Siberia as it does now to take them over the same distance by sea.

"It is one thing to run a tri-weekly train service, at the rate of fourteen miles an hour, with frequent interruptions and breakdowns; but quite another to maintain a constant succession of military trains, which, on a system traversing the entire width of Asia, would necessitate a quantity of engines and rolling stocks, such as is not today to be found in the entire continent.

"For all of which reasons, I consider it safe to opine that however hopeful the views of Russian experts as to the future of the Siberian railway may be, its influence on the dominating power of Russia over the Pacific seaboard is being greatly exaggerated.

"The future prospects of the Siberian railway, gauged from a disinterested standpoint, are however, entirely distinct from the aims of its designers, and it is no secret that the principal object of the urgent haste made to complete the undertaking is to strengthen, not so much the Russian power of defence on the Chinese frontier, as its capacity for aggression."

ANDREWS LEAVES ON TUESDAY

GOES TO WASHINGTON TO ARGUE THE FISHERIES CASE IN THE SUPREME COURT.

Attorney General Lorrin Andrews will sail by the S. S. Sierra tomorrow, en route to Washington, to argue the fisheries case in the Supreme Court of the United States. He received a cablegram from the Supreme Court stating that this case would probably come up for hearing the first week in March, though it was not peremptorily set for that time.

This suit is one of the most important to the Territory, as it involves, as a test case, all the private fishing rights in the waters of the ocean adjacent to these islands, which existed by ancient Hawaiian custom. These rights are variously estimated, one estimate going up into the millions.

These cases arise under the Organic Act, which provides that all persons claiming such rights must bring suit in the Circuit Courts of the Territory before June 14, 1902, to have their rights established, and that when established the Territory must proceed by condemnation to acquire the title, and that thereafter these rights should be open to all citizens of the United States.

Seventy or more suits to establish title were brought in the Circuit Court of Oahu, and other cases on other islands. In the case of S. M. Damon against the Territory, Judge Humphreys decided in favor of the Territory, and as this case was believed to embrace all the questions of law involved in the other cases, stipulations were entered into by which the others were to be continued until this one had been decided, and that they would abide the decision of this case. This case is now for hearing, and the Attorney General goes to argue it.

ELEU WAS NOT SOLD.

The tug Eleu was not sold today. She was offered at auction at Brewer's wharf at an upset price of \$5,000, but there were no bidders so she was withdrawn.

BIDDER MUST GIVE BONDS

SALE OF KOHALA DITCH FRANCHISE IS POSTPONED FOR A WEEK AND A CONDITION REQUIRING BONDS FOR THE PERFORMANCE OF THE WORK, HAS BEEN ADDED.

The sale of the Kohala Ditch franchise which has been advertised to take place next Friday has been postponed for a week, and an additional condition of sale has been made. These changes have been made at the direction of the Governor, word having been received from him by Commissioner of Public Lands Pratt this morning.

The additional condition inserted in one requiring a bond from the successful bidder that the requirements of work to be accomplished during the several periods of time allowed for the construction of the ditch will be complied with. Under the terms of the franchise as it has been advertised, a speculator, or some one opposed to the construction of the ditch, might become the successful bidder. If a speculator, he would have a whole year in which to dispose of his franchise at an initial payment to the government of \$500, and by paying another \$500 he would have another year. If an obstructionist, he could delay the work two years at a cost of \$1000.

"The terms were made as low as possible, and as liberal as possible," said Land Commissioner Pratt, "so as to encourage the enterprise. The main thing the Territory is interested in is having the work undertaken and completed, on terms which while giving encouragement to capital, will protect

the interests of the public. That is why the initial payments were made small. Of course, forfeiture of the franchise, follows failure to keep the conditions. After the advertisement had been published I saw that with nothing but forfeiture of the franchise as a penalty for failure to begin the work promptly or carry it on according to conditions, the door was opened to speculators or obstructionists. I talked the matter over with the Governor when I was in Hawaii, and after I returned here I wrote my views in a letter to the Governor which he received in Kau. His instructions to postpone the sale a week and to add the condition of a bond was the result. He himself will return here next Friday, and the whole matter will be more fully considered.

"The new condition is that the successful bidder must give a bond conditioned that he will perform the required work within the required time. This condition will not make it a whit more expensive to the bona fide bidder who intends and has the ability to construct and operate the ditch. But it will make it more expensive for the mere speculator or the obstructionist, and will therefore tend to keep out speculators and obstructionists.

"Of course the forfeiture of the franchise will follow the failure to keep the conditions, and the penalty of the bond will be required besides."

DOYLE BACK FROM KAUAI

SAYS SHERIFF CONEY DID GOOD WORK IN GLENNAN MURDER CASE—GAMBLERS ROUNDED UP.

Chester Doyle returned yesterday morning from Kauai where he has been passing some days partially on pleasure and business. Fortunately for the Kauai officers Doyle happened to be in Lihue at the time the Kauai police were trying to get some clue to the man who assassinated G. H. Glennan by blowing him up with dynamite. The perpetrator was caught in Ewa. Matsumoto was his name.

Possibly fearing that the Kauai police might lose some credit for the arrest of the man, Deputy Sheriff Rice who came from Kauai after Matsumoto, deliberately misrepresented certain facts regarding the arrest of the man, and claimed that the fellow had been arrested in connection with an embezzlement and not with the Glennan murder. If the desire of Mr. Rice was to deprive others of any credit for making the arrest, his attempts have proved fruitless, for so far as any credit in this murder case is concerned, the Kauai police are entitled to very little. The fact that the suspected murderer had come to Oahu was related to the Kauai officers by Japanese who went down from Honolulu, and the much desired man was caught by Special Officer Nakamura of the Honolulu force. Rice escorted the prisoner from Honolulu to Kauai, a work that any school boy might have performed.

"Sheriff Coney," said Doyle this morning, "has worked very hard on this case. It was a very fortunate thing that the perpetrator of the crime was apprehended, for had he gone uncaught the fact might have led to the formation of a regular band of assassins. Sheriff Coney has also rounded up many gamblers on Kauai, and this will, no doubt, serve to deter the criminal Japanese from further depredations on that island.

"The murderer confessed to me shortly after he was brought from Honolulu. In order that there might be no question regarding this confession and its admission as evidence, I caused Sheriff Coney and several others to come as witnesses and again had the man to confess. His rights in the matter and the fact that the confession must be voluntary were explained to him by me. While the man claims that he is the only one concerned in the murder, I am satisfied that he is trying to shield others. I do not believe that he committed that crime unassisted. I think that three or four others are concerned in the murder."

MEN WHO WANT TO SERVE JAPAN

WHAT RECOMMENDATIONS THE MEN WHO APPLIED TO THE CONSUL GAVE.

The following is from the Hawaii Shippo, in regard to the efforts of others than Japanese to enter the service of Japan. It was published under the heading "Want to Join us in Bear hunting."

There are a large number of white people here we understand, who are very anxious to join the Japanese army or navy and take hand nitching the Moscovites of the ways of the civilized world. So far three of them have applied to the Japanese Consulate and inquired as to the official procedure in this regard. Every one of them was told by the consul that it was impossible for him to satisfy the applicant's desire as the regulation of either the army or the navy would allow no foreigner to enlist. The first applicant was an American. By way of illustrating his fitness for such service he volunteered a statement that he was a bomb maker by trade and, if he was allowed to enlist, he could easily raise three hundred more like him to cast a lot with him. He would certainly be welcomed by Nihilists if he had gone to Russia, and he might have served better for the cause of Japan in that way than to join her army or navy. The second applicant was a German. He was a veteran soldier of a considerable experience, at least so he testified. For a number of years he had served the Fatherland as an artillery officer, before he came to this country some ten years ago. The last ambitious man was an American who had only a short time ago been honorably discharged from his army service at the Philippine Islands.

DR. KOBAYASHI MARRIED.

Dr. S. Kobayashi was married last Saturday evening at the residence of Dr. I. Mori, corner Beretania and Alakea streets. The bride is Miss Shimura who was betrothed to him in Japan, and came here by the China last week, accompanied by Dr. Mori, who returned from a visit to his fatherland. The wedding was private. A reception will be held next Wednesday evening at Mochizuki, Waikiki, to which a large number of invitations have been issued. Dr. Kobayashi is well known as a physician both among the Japanese and foreign residents.

STRUCK BY LIGHTNING.

LAHAINA, February 12—The wireless telegraph pole was struck by lightning this week and the top portion demolished, putting this station out of service, until the pole can be repaired, which is impossible under the present state of the weather. The operator's life was in danger at times, during the storm, and the falling of the spar.

A great many people want long, heavy hair, but how to get it, that is what puzzles them. The fact is, the hair needs a little help now and then. The roots require feeding.

Ayer's Hair Vigor

When the hair is starved, it stops growing, loses its lustre, falls out, turns gray, Ayer's Hair Vigor is a hair-help. It makes the hair grow, stops it from falling, and completely cures dandruff.

If your hair is fading or turning gray, begin at once with Ayer's Hair Vigor. It will positively restore color to your gray hair, all the full, rich color it had in early life. As a hair-dressing you will certainly like it, for it keeps the hair soft and glossy and prevents it from splitting at the ends. Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

BY AUTHORITY

PUBLIC LANDS NOTICE.

On Friday, February 19th, 1904, at 12 o'clock noon, at the front entrance to the Judiciary Building, Honolulu, T. H., there will be offered for sale at Public Auction a License for a period of fifty (50) years, for the privilege of entering upon certain public lands on the Island of Hawaii, Territory of Hawaii, to confine, conserve, collect, impound, divert and sell all the Running Natural Surface Water, and power produced therefrom, (subject to existing vested rights of private parties in such water, and to the rights of the United States therein), upon and from all the said public lands situated on the Island of Hawaii, in the Territory of Hawaii, within the following area, to wit:

Boundary. Bounded on the North by the sea, on the East by Waipio Valley, on the South by Waipio Valley, the Puukapu-Launahoehoe boundary until such boundary line reaches an elevation of 4,200 feet, from which point the contour line of 4,200 feet elevation shall form the balance of the South boundary, and on the West by the Honokane-Awini boundary as shown by green border on the sketch plan subjoined to license, the whole of such area being hereafter called the Kohala-Hamakua Water Shed.

Stated Annual Fee \$500.00. Upset, 2 1/2 per cent of Gross Revenue, but in no event, after expiration of 2 years from date of license, shall the revenue received by the Government through this clause amount to less than \$2500 per annum.

Any bid other than on percentage of Gross Revenue will be rejected. Upon fall of the hammer the successful bidder will signify his acceptance of the license and of all the terms thereof by his written endorsement thereon, and the payment of the first Five Hundred (\$500) Dollar fee.

For full particulars, in regard to conditions of said license, apply at the office of Commissioner of Public Lands Honolulu, or at the office of Sub-Agent of Public Lands, Hilo.

JAS. W. PRATT, Commissioner of Public Lands. Honolulu, T. H., Jan. 23, 1904.

LAHAINA AND PUBLIC SCHOOLS

HOW THE LAHAINA PEOPLE FEEL IN CONNECTION WITH SUPERINTENDENT ATKINSON'S VISIT.

LAHAINA, February 12.—Superintendent A. T. Atkinson of the Department of Public Instruction visited Lahaina during the week, looking into matters concerning Lahainaluna school and the pending water suit in which the said school is vitally interested.

During his stay in Lahaina, a meeting of the citizens, and those who are interested in the educational welfare of the country, was held at the court house. The Superintendent addressed the meeting and entered into the plans suggested by which Lahainaluna will become one of the leading industrial schools of the Territory.

It was suggested at the meeting that a new school room at the Lahaina government institution was urgently needed, and Mr. Atkinson stated that it was the intention of his department to proceed to erect the same as soon as possible after his arrival at Honolulu. The attendance at the Lahaina school, of which Henry Dickenson is principal, has outgrown its present accommodation, and the addition will be greatly appreciated by the parents of the pupils of the school. Numerous suggestions were made. The meeting passed a vote of thanks and appreciation, to the Superintendent, and heartily endorsed the plans laid out by him, and the energy with which the same are being carried out, all looking to the advancement of education interest on this island.

SEARLE-KING.

LAHAINA, February 12.—The wedding of Miss Celia King and William Searle took place today, notwithstanding the inclemency of the weather. A large circle of friends and relatives were present to wish the popular couple well. The bride is the daughter of William King of Waialua, and the groom is the son of R. C. Searle of Honolulu. The ceremony took place at the Church of the Holy Innocents, and a reception at the town residence of the groom's father. A splendid wedding feast was prepared and all the guests partook of the bounty. Later on a dance was held at the Lahaina Court House, which had been very tastefully decorated for the event. The merry occasion lasted until midnight, when the large throng wended home, having launched the happy couple safely on the sea of marital bliss.

VALENTINE SOCIAL.

Everything passed off delightfully at the joint Valentine social of the Y. W. C. A. and Y. M. C. A., held at the Y. M. C. A. hall Saturday evening.

The following program was presented: Piano solo, Miss Grace Jeffreys; recitation, "A Naughty Little Girl," Miss Esther Waller; vocal solo, "Sunday Night," Mrs. J. G. Pratt; piano solo, "Minuet" by Paderewski, Miss Christine Waller; reading, "The Shipwreck" and "So Was I," Miss Edythe Crockett; vocal solo, "Hearts," Miss Gertrude Hall.

Mrs. Brown for the Y. W. C. A. and Mr. Brown for the Y. M. C. A. were assisted by the following decorating committee: Misses Edna Perkins, Mary Kelson, Ray Chambaud, Elizabeth Dutoit, Edith Longmore, Missy Nott, Mabel Barlow, Emma Harrison, Sadie Willock, Carrie Crews, Carlotta Stewart, Mrs. Rice, Mrs. Tarlton, Messrs. Allen, Martin, Dunlop, Foss, Fred Young, Will Young, Hottle.

ROUGH WEATHER.

WAILUKU, February 12.—Owing to the very stormy weather which has prevailed on Maui during the week, the Claudine was not able to discharge her Maui freight on Wednesday morning. She therefore proceeded to Hana on the same day, carrying with her what freight she had for Central Maui consignees. She returned yesterday morning, but as the weather was still very inclement she was not fully discharged. This morning the Claudine was still at Kahuku.

WINE CARDS NO EVIDENCE.

Judge Dickey recently handed down a decision in a suit for indebtedness, in which he held that no claim could be recovered at law for liquors sold by the glass at a hotel. An appeal was noted. The defendant in whose favor the verdict was given, had repeatedly admitted the debt but the court evidently did not consider wine cards as good for anything.

Associated Press, Morning Service. TOYKO, February 15.—The date for the movement of the main bodies of troops is undisclosed. It is believed, after the naval operations have been finished everything in a military way will proceed like clockwork.

GILMAN'S PLAYHOUSE BURNED.

The playhouse of the children of J. A. Gilman in Makiki was destroyed by fire Saturday evening.

ROBBER A JAPANESE.

The room of a Japanese servant employed by Inspector Binkhage was entered by burglars on Friday night and a trunk carried away. The trunk was broken open near Swamy's place and \$4.50 in cash stolen. A certificate of deposit for \$100 was left behind.

POLITICS ON THE ISLAND OF MAUI

DEMOCRATS AND HOME BUILDERS SAID TO HAVE COMBINED ON THE LEGISLATIVE TICKET.

WAILUKU, February 12.—It is already an absolute certainty that the Democrats will join hands with the Home Builders at the next election and run as their best interest to work against the Republican candidates. It was stated by a prominent member of the Democratic-Home Rule party, that this was the course to be pursued, as without their co-operation the Republican party can be sure of victory at every election. It is stated that Senator Kaine and T. H. Lyons are slated for the Senate at the coming campaign, and that Attorney Calkins will run for the House of Representatives. This has not been confirmed, and will not be until the regular convention meets, when the campaign is over as usual. Kokeke, supervisor of the County of Maui, is also slated for the House of Representatives. There is however a feeling of doubt, as to whether or not Representative Beckley will receive a renomination from the Home Rule party, in view of his speech in Honolulu during the Oyster election campaign. Regarding the Republican candidates nothing definite is known; they are holding back and awaiting developments, although there is no question but that the Republicans feel that they would have to make a strenuous effort for victory, by reason of the County Act having been declared illegal by the Supreme Court. This has caused quite a feeling against the Republicans among the more ignorant class of voters.

WEATHER OR NOT.

Pugilistic Competitors Keep Hard at Work, Rain or Shine.

Preparations will go on, rain or shine, for the big boxing tournament on Saturday night at the Orpheum. Training is made a little unpleasant, at least the outdoor end of it, by the rainy weather, but every morning Dave Barry, who is hard, ruddy faced and buoyant of step, goes swinging out to Waikiki and back again, keeping himself in strict training to the last ounce. Particularly too every day Murphy goes through his appointed dose of work, making things interesting for his trainer and those who occasionally drop in at training quarters and think they would like to spar a round or two.

Both men are pursuing the same tactics of hardening the jaw and neck, evidently in anticipation of a wagn reception at each others hands. It is freely predicted by the local experts that the men are practically invulnerable in their upper works and that if a knock out blow is delivered or a decision given it will be on account of body blows.

The box office will open on Thursday morning at the Orpheum.

CLAIMS A CURE FOR LEPROSY

DR. MILTON E. RICE OF HILO TO BE GIVEN OPPORTUNITY TO EXPERIMENT.

HILO, February 12.—While Governor Carter and Dr. E. B. Cooper were in the city a decision was reached with reference to the matter of treating leprosy which may be of far-reaching importance. Dr. Milton E. Rice of this city has been studying this disease and believes that he may have found a cure. After canvassing the subject in all its bearing it was decided to give his claims an official trial.

Dr. Cooper, President of the Board of Health made the following announcement regarding it: "Dr. Rice claims to have a cure for leprosy. No one can have a greater interest in these claims than the members of the Board of Health, and Dr. Rice may rest assured that if there is merit in his claims he will have the hearty backing of the Board in every way."

"We have arranged for a committee, composed of physicians outside of the Board of Health employ, in Hilo, consisting of Dr. Grace, Dr. Hayes and Dr. McDonald, bacteriologist for the Board of Health. The Territorial bacteriologist will be up at an early date to examine certain suspects with the committee, and should any of them prove to be lepers arrangements will be made for Dr. Rice to treat them at the detention hospital in Waiakani, where they will be kept under surveillance. An ample opportunity will be given for a trial as to whether his claims of a cure are well founded."

"It is not intended to make this a lecture by any means, but the claims made by Dr. Rice and the firm belief of a large number of Hawaiians that a cure can be effected by him is such as to demand the attention of the Executive and the Board of Health. Three options were presented to Dr. Rice: First, accommodations would be provided for himself and family at the settlement where every facility would be afforded to treat the disease in any stage that he might wish to select for experiment."

"Secondly, that the same accommodations would be provided for himself and family at the Kaili camp detention hospital and cases sent there for his treatment."

"Thirdly, to permit him to have three or four cases at the Hilo detention camp."

"Dr. Rice chose the latter. The gentlemen comprising the committee above named, with Dr. Grace as chairman, will keep track of the progress of the treatment. Notes will be kept of the progress of the cases under treatment until a satisfactory determination of the matter is arrived at. "I am recommending this course as

STORM WRECKS MANY BUILDINGS

LEPER SETTLEMENT AGAIN VISITED BY STORM YESTERDAY—GENERAL DAMAGE CAUSED.

The Leper Settlement has been again visited by a big storm. According to reports brought this morning by Purser Birmingham of the steamer Lehua which arrived from her regular run, the storm that visited the settlement yesterday was worse and more destructive than that earlier in the week. Jack, McVeigh, the superintendent of the Leper Settlement, reported over the telephone to Mr. Birmingham who was at Kuanakakai that houses had been blown down, many roofs ripped off, and other damage done at the settlement yesterday. The Kalaupapa part of the Settlement appears to have suffered more than Kalaupapa. Superintendent McVeigh said that the damage was considerable.

The Lehua was unable to make all of her Maui ports owing to bad weather. She went to all Launi ports however. She also made Mokolai ports. The vessel goes out tonight at 5 o'clock to Mokolai ports. She will make a trip to Kuanakakai for cattle for the Leper Settlement and then return to Kuanakakai for cattle for Honolulu.

SPOILS REPUTATION.

MUCH BROKEN UP.
There is a family at Mexico, Mo., which is all broken up. The husband and father was just recovering from a badly broken arm when he fell on the ice and drew a compound fracture of the leg, the wife is going to undergo an operation for appendicitis in a few days and their son is in bed with a broken arm.

AN UNPLEASANT THOUGHT.
I cannot bear to think upon
The fact that winter's coming on
I love to coast and hitch and slide
But there are other things besides:
The dentist, dancing-school and sums
Begin when chilly weather comes,
And worse than all, I cannot bear
To put on winter underwear.
I love the cold, I love the snow,
But woolen things do itch me so!

THE STORM ON MAUI.
WAILUKU, February 12.—Thunder, lightning and rain has been the order of things on Maui during the whole of the past week. More rain fell during the week than has been recorded for a long time, the stream has run high, and quite a little damage has been done by the Kona wind.

On last Saturday, the wind suddenly veered to the south, and shortly afterwards there was a heavy downpour of rain. It continued all day Sunday. Although it seemed to have cleared up on Monday, the downpour was still heavier on Tuesday. On Wednesday the south wind came with full force and with a continuous downpour of rain, the weather was anything but pleasant. Yesterday the Kona was stronger than ever, carrying off with it part of the steeple of the Kahamumu church. From morning till night the downpour was heavy and steady. As a result business is practically at a standstill and there is very little travelling on the island. It is stated that this condition of the weather exists on all parts of Maui. The Ino stream rose very high, and flooded a few farms owned by Japanese on its banks, completely damaging their crops. Work on the plantations was stopped temporarily, allowing the mills to run only. Today it is still raining quite heavily, and it is a matter of conjecture as to when it will stop. The roads leading up to the country are in a fearful condition, and it is probable that it will be so, for some little time yet. The plantations have all the water desired, but most likely it is more than they care for.

WAS NOT INJURED.
The new organ of the Waikiki chapel was not injured by the rain as has been reported. The organ was recently placed in the chapel at a cost of about \$1,000. It was reported to have been ruined, but Mrs. E. C. Macfarlane visited the chapel yesterday afternoon and found that no damage at all had been done to the organ.

MRS. HENRY J. BURNS, 1137 Folsom Street, San Francisco, says:

"About a year ago I was all run down. Doctors didn't seem to know what ailed me. The medicines did me no good and I was rapidly going into decline and had given up hope. A friend advised me to use BRO. BENJAMIN'S HERBALO. I was skeptical but was persuaded to try a bottle. I had no faith in it. But after using 2 bottles I felt different and felt encouraged to continue the use of it. I have used in all about 11 bottles and have gained over 40 pounds in weight and only have a slight cough which is getting better every day. In my opinion BRO. BENJAMIN'S HERBALO is the greatest tonic in the world and I cheerfully give this testimonial."

BILLY BANKS, the great minstrel singer, says: "I consider BRO. BENJAMIN'S HERBALO a wonderful remedy. After ten years of constant work in the theatrical business enduring all the annoyances and privations that go with that life—such as bad hotels, bad cooking, long train rides, draughty theaters, ill ventilated dressing rooms, etc., I finally succumbed. My health failed and my voice gave out. Competent medical authorities assured me my singing days were over and my health was in such a precarious state they held out very little hope for my full recovery. I used their medicines and many others without avail. I finally tried BRO. BENJAMIN'S HERBALO. From the first it seemed to rejuvenate me and I am now fully restored to health and I am now singing as well as I ever did. All the members of my company have it with them and get the most amazing results from the use of it. I also consider BRO. BENJAMIN'S COUGH CURE the best THROAT REMEDY IN THE WORLD. At the least symptoms of hoarseness I use it and it never fails me. I take pleasure in testifying to the efficacy of your wonderful Remedies."

MY MEDICINE WILL CURE YOU

I want you to try it. It has cured thousands. It will cure you. It is non-alcoholic. IT CONTAINS ONLY THE LIFE-GIVING VITALITY OF THE GREEN HERBS THEMSELVES AS THEY GROW IN NATURE'S GARDEN. NO MINERAL POISONS.

It Is Known As Bro. Benjamin's HERBALO

I have spent a life time in perfecting this remedy and have now what I honestly believe the most perfect and wonderful medicine in the world. It seems to reach all cases. Thousands are cured of Stomach troubles. Thousands are cured of Blood impurities. Thousands are cured of Liver diseases. Thousands are cured of Kidney and Bladder disorders, and all by that most wonderful of all Remedies. BRO. BENJAMIN'S HERBALO—I want all classes of people to try it! Rich or Poor. I want the Ministers. I want the Physicians. I want the public officials. I want the people to try it and then write me. There is hope for the despondent. There is help for the weary. My medicine will cure you.

Paragraphs That Give Condensed News of the Day.

THE WEATHER

Weather Bureau, Honolulu, Feb. 16.
 Wind, light, southerly; air, cloudy, with light rain. Morning minimum temperature, 65; midday maximum temperature, 73; barometer, 9 a. m., 29.94, rising, corrected for gravity; rain, fall, 24 hours ending 9 a. m., 1.43; absolute moisture, 9 a. m., 7.7 grains per cubic foot; humidity, 9 a. m., 88 per cent.

R. C. LYDECKER,
 Territorial Meteorologist.

The bar was breaking yesterday. The bell buoy has been sighted. Waituku wants the Republican Territorial convention.

The Sierra tomorrow will take a number of passengers from Honolulu. There will be a meeting of the Woman's Guild of St. Clement's Church tomorrow afternoon at 2 o'clock, in the Parish House.

The Symphony club held rehearsal Saturday night with Gerard Barton as leader. Friedenthal was present and played two selections.

Rev. H. E. Banham, formerly pastor of the Foreign church, Waimea, Kauai, has accepted a call from Reno, Nevada, and will sail for the coast by the next steamer.

The Charley Wilson matter occupied the greater part of the time of the Republican Central Committee at its meeting Saturday evening. Apparently no conclusion was reached. Wilson is out and Sam Johnson is in.

In Association football Saturday afternoon the Pacific and the Punahou tied. Each made two goals, one in each half, though the Punahou will probably protest the last goal made by the Pacific on the claim that it was the result of off-side play.

In the Medical Record, New York, of December 19, is a paper on "Leprosy in Hawaii," by James T. Wayson, M. D., Honolulu, T. H. Incidentally, the author favors Federal management of the settlement on the ground of better equipment and resources for combating the disease.

A meeting of the Honolulu Engineering Association will be held in Castle & Cooke's hall this evening. A. C. Alexander will contribute a paper on "Ether Waves." E. Kopke will read one on "The Fuel Question in Sugar Baking," and there will be a further discussion on the paper presented by O. R. Williams in January.

Dr. Mary Roberts Smith of Stanford University will deliver a lecture on "Drunkennes and Race Progress" under the auspices of the Young Men's Research Club tomorrow evening at Pauahi Hall, Oahu College. The lecture is free and the Research club invites the public to attend. The lecture is on an interesting theme and Dr. Smith's reputation as an investigator and lecturer ought to fill the hall.

CELEBRATING THEIR NEW YEAR

CHINESE USHER IN THE DAY WITH DISCHARGE OF FIRE-CRACKERS.

The Chinese new year celebration was begun today. The event was marked by quite a discharge of fireworks. Many people declared that the advent of this new year was heralded with greater noise than usual. The effects of the hard times however were apparent. The usual idea in entertaining was observed, the various organizations kept open house as did numerous stores but the financial depression was evident. Many stores that had previously kept open did not entertain this year. The general run of the Chinese did not moreover appear to be as flush as formerly and there was not nearly so much back riding and entertainment of this character as usual.

Willie Crawford was out early with his good luck dragon which visited the various stores and wished the proprietors good luck.

The members of the Chinese Reform Association celebrated the new year, this morning at their rooms on King street at the rear of the Sun Chung Kwok Bo. There were over 200 people present. Refreshments were served between 10:30 and 11:30 a. m. Speeches were made by C. K. Ai, Dr. K. L. W. C. Akana. The following cablegram expressing good wishes was received from the Portland Reform Association: "PORTLAND, Ore., February 15.—Kwok Bo, Honolulu. We wish you all happy new year. Chinese Reform Association."

A similar answer was sent to the Portland organization.

The Chinese United Society entertained from 12 to 1 p. m. today.

The consul will celebrate tomorrow as that is the official new years day for the Chinese.

HONORING LATE LEADER

FIFTY-NINTH BIRTHDAY OF THE LATE R. W. WILCOX BEING HONORED BY HOME RULERS.

The memory of the late Robert W. Wilcox is being honored by Home Rulers and former friends and acquaintances today. The former native leader would have been 49 years of age today had he lived.

The celebration at noon began with a luncheon in Palama. This feast will be held for an hour or so. Speeches are being made. The idea is to enable the Fifth District to observe the birthday of the late Home Rule leader. At 5 o'clock this afternoon members of the party will march to the cemetery and strew flowers on the grave of deceased. In addition to the Home Rule members there will be numbers from the Hui Pauwai Aloha, Hui Lei and Hui Kalaniana. Other native societies will also participate.

Tonight there will be a luncheon at the residence of Mrs. Wilcox on Hackfeld street.

OREGONIAN DELAYED.

WAILUKU, February 13—The steamer Oregonian has been delayed at Kahului during the week, on account of the stormy weather prevailing. She has been lying outside of the harbor for the last few days, pending good weather for her to come in.

It continues to rain very hard on Maui, but the Kona wind has abated. The road between Wailuku and Lahaina was for a while impassible, the Iao Stables having to transport the mails on horseback. A portion of the Kahului road is flooded with water, and between Kahului and Spreckelsville the mud is so thick as to make it a matter almost next to impossibility to traverse it.

It Knocks All FILTERS Are Germ Proof

NOXALL JR.

To be in good health you must drink pure water. Today you are taking greater chances than ever of impairing your health by the use of unfiltered water. Avoid typhoid, which always follows heavy rain storms. Almost all cases of the disease are directly traceable to the use of unfiltered water.

Take no more chances and get a "NOXALL". You make no mistake for they pay for themselves in a very short time. Doctor's bills are usually high. With Rubber or screw attachments, can be fitted to any faucet.
