Tenders for School Houses. The Board of Education will receive...

THE ADVERTISER CALENDAR. October, 1890. Table with columns for days of the week and dates.

EVENTS OF TO-DAY. LEGISLATIVE ASSEMBLY—At 10 A. M. RECEPTION—At Y. M. C. A. Hall at 7:30 P. M.

THE DAILY Pacific Commercial Advertiser.

Be just and fear not: Let all the ends thou aim'st at be Thy Country's, thy God's, and Truth's.

TUESDAY, OCT. 21, 1890.

COMMENTING ON the interesting commercial article which we inserted yesterday, Bradstreet says: "The renewal of the reciprocity treaty with the United States gave a notable impetus to Hawaiian commerce and industry, according to Consul-General Severance, of Honolulu. The year 1889 was, as a result, one of marked prosperity. An increased amount of American capital went into the sugar-cane growing industry, and the introduction of steam and street railways and electric lights (the plants for which were made in the United States) has also attracted additional American capital. This country continues to monopolize the bulk of the foreign trade of Hawaii. This is particularly true as regards exports. In the matter of imports the showing is less satisfactory, the Hawaiians buying less in proportion from us than we do from them. The total exports in 1889 were valued at \$13,874,341, of which 91.35 per cent. went to the United States. The imports were about \$6,504,000, of which 79.10 per cent. came from the United States. Exports exceeded imports, it may be seen, by \$9,501,451. The exports of sugar, the principal item of Hawaiian trade, aggregated 242,165,835 pounds, or 121,000 tons. The exports of rice fell off, owing to the large home consumption by Chinese and Japanese laborers. Arrivals of immigrants exceeded departures by 1,358 during the year, while the departures of Chinese were 1,059 in excess of arrivals."

THE LABOR BILLS.

Several bills have been introduced into the Legislature on this subject, which have been referred to the Committee on Commerce. Two reports have been made, each accompanied by a bill which has been offered as a substitute for those before the committee. These bills differ in only two or three material points. The bill read by the minority omits the photograph requirement, and adds a proviso whereby the Hawaiian Government is authorized to take charge of all immigration in place of leaving it with the planter, as provided by the majority bill. The provisions of these bills are in brief as follows: 1st. The Minister of Foreign Affairs with the concurrence of the Board of Immigration has authority to issue entry permits for agricultural laborers, upon condition that such laborers shall remain not over five years, engaging in no labor outside of agricultural; continue in such work, and deposit with the Board sixty dollars for return passage. Any person furnishing labor to one of such immigrants who runs away is liable to a fine. Any such laborer who vio-

lates any of the terms or conditions of such entry permit shall be liable to arrest and fine and imprisonment. In order to more thoroughly carry out the law, and especially to insure the deportation of such laborers, the Government may enter into contract with any person to carry the laws into effect. It is also provided whenever a labor convention is made with China, the provisions of the act are to be suspended. There are other provisions of minor importance looking to the effectual carrying out of the act.

It is expected that this matter will come up in the Legislature today, or at least in a day or two. It would be an injustice and an injury to the country if longer delayed. The opposition expressed by some members of the community to any relaxation of the Chinese Exclusion Act, has no doubt been largely in misinformation on a lack of information. "Bread-winner" and others who have written with almost angry disapproval, ought to know that at the present rate of wages for field labor, which by the way neither "Bread-winner" nor any other mechanic will undertake, and with the loss sure to come with the removal of the sugar duties in the United States, much plantation work will cease. There will not even be a continuance of the present plantations and several of the rice plantations will of necessity go out of business. In other words, unless the cost of field labor comes down very materially indeed our great industries will be so crippled that the mechanic will come in for his share of the loss and suffer severely, because that the mere wage earner always suffers first in times of business depression. An honest attempt has been made in all of the bills to protect the mechanic, but unless he is willing to run some risk which will come with the introduction of cheaper field labor he must make up his mind to hard times arising from no work for him. The mechanic is supported to-day from the great industry of the country. Now this industry is threatened from two sources, removal of sugar duties and enormous increase in rough field labor. If relief is not furnished this industry will be crippled and that means business depression which will hurt all classes and the mechanic particularly and first.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

The Asiatic Problem.

MR. EDITOR: This evening's Bulletin contains a timely editorial on the Asiatic problem, closing with a proposition which must meet with the hearty approval of every consistent person interested in the matter.

Let the planters meet representatives of those who feel the burden of Asiatic competition, and discuss the matters at issue on this labor question. There can be but one result if the planter is as far to us as we have tried to be toward him in our past agitation for a recognition of our rights.

It would be a misfortune to the community at large for the Legislature to pass any bill regulating the incoming of Asiatic laborers unless there be a companion bill defining the status of those already here, who have not entered into business, or who are not now actually employed as mechanics. The limit on these must be drawn now, for if it is not so done those now in the Islands are sufficient to reduce the working class to the necessity of emigration, or subject them to a condition which their manhood and civilization would urge them to spurn and resist.

Now as to that spectre "Class Legislation," which seems to loom up whenever this question is mentioned, would it not be more in keeping with the spirit of the constitution to apply this term to those acts passed by a Legislature which benefit a very small proportion of the voting element of the Kingdom, while in result they are disastrous to the life, liberty and pursuit of happiness of the vast majority of those who by the terms of the Constitution are alike entitled to its privileges and protection.

Give us equality under the law for all who take upon themselves the obligations of citizenship.

If our present Constitution does not vouchsafe this to the people who have supported and defended it in the past, if its provisions are of a nature to imperil rather than protect the interests of those having a claim to its suffrage, let us know it at once. The bill now before the House, even if declared legal by the Supreme Court, would not meet the emergency in a manner calculated to relieve the working classes.

I hope the suggestion of the Bul-

letin will be acted on and that some measure may be brought forward that will meet the various interests of those concerned in this problem. Honolulu, Oct. 20th. J. E.

Horner's Banking Bill.

MR. EDITOR: If from any cause it should prove impossible to negotiate home or foreign loans, and our savings bank dries up, how shall we then proceed to raise the money to meet our appropriations, is the question. In that case there would be but one way open to us, and that would be to rely upon ourselves, as other nations have done in emergencies of a like nature, viz: MAKE OUR OWN MONEY. All nations claim and exercise that right, and Hawaii should be no exception, and the only important question to be answered in this connection is, how can we make a money and have it always worth 100 cents to the dollar in United States gold coin for home use? There are two ways. First, to make it of gold whose intrinsic value equals that of United States gold coin, and make it a full legal tender. Second, to make it of any convenient material, and issue it by loaning it upon durable security, such as Government bonds at 90 per cent of their gold value, upon bullion and upon improved real estate at one-half of its value in United States gold coin as a backing for its redemption.

This latter way of issuing money upon security is not a new idea in the world, but I believe it to be a modern one, and we need go no further back in the world's financial history than the United States, nor to any other country, for a creditable example of this wise course, viz: of issuing money only upon security, as this bank bill provides.

J. M. HORNER. (To be Continued.)

Educational Matters.

MR. EDITOR: I am greatly pleased to note that the law to allow children passing a satisfactory examination to leave school after the age of 13, has been passed to its second reading.

The law to arbitrarily reduce the school age from 15 to 13 was wrong.

This law is right. No child should be allowed to quit school until it is well grounded in reading, writing, the fundamental rules of arithmetic, etc.

Under the law now in force, I think that the majority who leave school at 15 are not so grounded, and why?

1st. Because they do not study at home, and learn as little as possible while in school.

2d. Because their parents, being ignorant and not knowing the value of education, are perfectly indifferent and care nothing whether the children advance or not.

3rd. Because the parents look on compulsory education as a hardship and evade it on every opportunity, changing residence frequently to get into districts where enforcement of the law is slack to escape it.

Now I say that the law now introduced will remedy these evils. If parents know that they can have full use of their children at 13 if they can pass the required examination, they will have a direct interest in making them study. Truancy will be reduced to a minimum. The present sums spent on truant officers can be largely saved.

Parents will see to it that their children go to school regularly and that they learn their lessons. They will make them study at home. As is known by some of your readers, I have earnestly favored the passage of this law for years, and I hope sincerely that it will pass. C. H. DUCKER. Hamakua, Oct. 16.

Alvan Clark is completing a lens for a Los Angeles observatory that will beat the Lick telescope. It will cost \$60,000 to \$70,000. Through this glass the moon will look as if only 100 miles away, and if there are any cities or large buildings on its surface their presence will be revealed through its aid. The glass, it is thought, will also settle the question as to the supposed signals of light which the inhabitants of Mars are understood to be making to the people on the earth.

In a case before a Tennessee Justice one of the lawyers made fun of the other's grammar. The court at once arose and said: "Mr. Perkins, if you air one of them what thinks grammar runs this court you're barking up the wrong tree. If I hear any more such remarks I'll fine you \$10."—Detroit Free Press.

"Please send me some more money," writes a young man from the seaside. "Life is very costly here. Even the waves go broke as soon as they touch the shore."

The Scientific American advises people who wish to clean their gilded frames to wash them with beer. This may explain why so many people habitually wash their frames.

THE LEGISLATIVE ASSEMBLY.

One Hundred and Seventh Day. MONDAY, Oct. 20.

The House met at 10 A. M. Prayer by chaplain. Minutes of preceding day read and approved.

Rep. Brown presented a petition from the district of Koolau containing the following prayers: 1. That a resident physician be appointed for the district; 2. That the native school at Kahama be closed and an English school be opened in said place; 3. That \$20,000 be set apart for roads, bridges and landings of said district.

The petition was referred to Committee on Miscellaneous Petitions.

The House proceeded to the order of the day. Third reading of the Appropriation Bill. Consideration of the Bowler claims.

Rep. Brown—If the item is to go in the Appropriation Bill as the committee recommends, I cannot vote for it. I think Mr. Bowler has some claim for work on the electric light plant. It was done on Government property, it is now not for by the Government. It may have been the system of the contract given Mr. Bowler was not exactly right. The benefit having been received by the Government, Mr. Bowler should be paid, but I cannot agree to any interest. I was a member of the committee last Legislature to which this item was referred. The majority of the committee were against it. Mr. Smith and myself and the other members did not think the contract was according to law, and we recommended the insertion of an item in the Appropriation Bill to pay Mr. Bowler if he gained suit against the Government. The House refused to insert any item. I think the Palace wall claim should be paid, but I cannot swallow the immigration claim. The work in the first two claims should be paid. The last one should not pay the immigration claim.

Noble Baldwin—These claims have been before different Legislatures, at least two of them have and they were reported against. The South Sea Island claim has not been brought before any previous Legislature, and we should act strictly in a manner that should be for the good of the country. I feel very strongly that the Ministers should authorize or wink at contracts like this only in extreme emergency. They are difficult questions for us to settle. The claimant is a workman and has sympathy. It would be reported better if Mr. Bowler had not been in attendance at this House during the past three months instead of being at work. Ministers of this Government are bound by law, and they should not act outside of the law. They were the custodians of the public treasury. Subjects were also bound by the law. If a man made a contract with him to build a house, he would look into his ability to pay for the work. Any citizen who enters into a contract with the Government should look at the law and see what it is, and what backing he has. Emergencies do arise where the Ministers enter into such contracts outside of the law and the Legislature should find out whether the work was a public necessity. I take this view that if the contract is good for the country, it should be paid for, if not it should be before the Legislature. These questions come up and we should be ready to meet them. The hon. noble then went into the status of the three claims. The electric light claim should not be paid without the House intending to make a present to His Majesty. Although I have my doubts about the Palace wall claim, I think some of it should be paid. With regard to the South Sea Islanders claim, it is not before the Legislature. I don't know Mr. Bowler's reasons for not presenting it then. I cannot see how a view to the payment of this claim can be entertained. It would be a shame for Mr. Bowler to pay this claim and return to the laborers. There is a principle involved in the whole thing of the utmost importance, and we must not allow our sympathies to be carried away towards the individual. Noble first touched on the Makiki claims and then the Custom House building.

Rep. Rickard—This is one of the cases in which we are called upon to administer. If one of the other hand we are to protect the Government against unjust claims, and on the other to see that individuals get justice. I am not influenced by any partiality or friendship to Mr. Bowler. I think the petitioner is justly entitled to the following amounts: Electric light work, \$1612.08; palace wall, \$7000; interest bringing the two items up to \$8639.84; immigration contract, \$3975; which he moved to be inserted in the appropriation bill on condition that Mr. Bowler give a receipt in full for all claims against the Government.

Noble Macfarlane said that notwithstanding the decision of the court Mr. Bowler had a claim in this House. It must be well known by this time to the House that all the items in the claims have been well substantiated. He held this case was identical with the Volcano road item.

At noon the House took a recess.

Annual Meeting.

THE ANNUAL MEETING OF THE Stockholders of the Honokaa Sugar Co. will be held on WEDNESDAY, the 23d inst., at 10 o'clock A. M., at the office of F. A. Schaefer & Co. H. RENJES, Secretary.

Annual Meeting.

THE ANNUAL MEETING OF THE Stockholders of the Pacific Sugar Mill will be held on THURSDAY, the 23d inst., at 10 o'clock A. M., at the office of F. A. Schaefer & Co. H. RENJES, Secretary.

THE ARLINGTON.

Hotel St., - - Honolulu, J. H. FISHER, Prop.

Board and Lodging per week (according to location of room), \$10.00 to \$12.00. Transient, per day, 50c. Tax on Board, per week, 2.00. Single Meals, 50c.

Visitors will find this one of the most comfortable and convenient houses in the city; the rooms being large, light, and airy.

REMOVAL.

HAVING LEASED THE STORES in the brick building known as the Lincoln Block, nearly opposite the old stand, having discovered that portion of my stock damaged by the late fire, and being in receipt of new goods per last steamer, and more on the way, I am prepared to fill all orders as before. Thanking the public for the liberal patronage bestowed on me for the past seven years, I hope, by careful and prompt attention to all orders to merit a continuance of the same. At the new stand I shall be pleased to see all my old customers, and as many new ones as may find it to their advantage to call. Island orders solicited and faithfully executed. CHAS. HUSTACE. Telephone No. 1. P. O. Box 372. 84-2w.

ANDERSON & LUNDY, Dentists.

ARTIFICIAL TEETH from one to an entire set inserted on gold, silver, allumina, and rubber bases. Crown and bridge work a specialty. To persons wearing rubber plates which are a constant source of irritation to the mouth and throat, we would recommend our Prophylactic Metal Plate. All operations performed in accordance with the latest improvements in dental science. Teeth extracted without pain by the use of Nitrous Oxide Gas. Hotel street, Tregloan premises. 55-1y.

With regard to the electric lights, he wished the Government would sell them, so as to get a little money to pay the King's debts. Mr. Bowler is perfectly right. If he cannot get redress in the courts, the Legislature is the court for him to consult.

Rep. Rosa—With regard to the electric light, the House agrees to the item without interest. He would support that. The Palace wall item is in question, as it is an illegal contract. The Reform party had better be silent on illegal contracts. He spoke at some length on the Madras claim, and then on the item for the return of the South Sea laborers. The committee, he said, had based their conclusions on facts. He read the evidence of His Ex. C. N. Spencer, as taken by the committee, with regard to the number of laborers ready to go. Noble Widemann said that Mr. Justice Dole filed a decision that the Bowler contract was illegal, and he, no doubt, would have declared the Thurston claim of the Wilder S. S. Co. illegal. Both claims stand on the same basis as far as this House is concerned. Both claims are to be considered before this House, which has assumed jurisdiction. Mr. Bowler has waited two years, and he ought now to be paid.

Noble Baldwin—Most of us admit that the Bowler contract with Minister Aholo was illegal. I see nothing illegal about the contract for the Volcano road. Those people took their chances of getting their money. The law was not broken in the case of the Fred Harrison contract for the Custom House. This item in regard to the laborers eclipses anything done by the late Ministry. The country will blame us if we concede this amount, for the country has had no benefit from it. Noble Widemann considered the contract in the Volcano road so illegal that if he were to support it he would shoot himself the next moment.

Rep. R. W. Wilcox moved the previous question but withdrew it. Minister Cummins thought enough had been said on the matter. He supported the report of the committee.

Noble J. M. Horner moved the ayes and noes be called. Noble Phillips withdrew his motion for the \$49,218.84. Rep. White renewed the motion. The motion to insert \$49,218.84 was lost on the following division: Ayes—Pua, Cummins, Marques, R. W. Wilcox, Bush, Nawahi, Baker, White, Cockett, Kamae—10. Noes—Cummins, G. Brown, Spencer, Widemann, Berger, Macfarlane, Muller, McCarthy, Phillips, Crabbe, J. M. Horner, Hind, Parker, Marsden, Baldwin, W. Y. Horner, Walbridge, Anderson, von Tempsky, G. N. Wilcox, Kanoa, C. Brown, Lucas, Rosa, Kanhi, A. Horner, Rickard, Paehaole, Kanehili, Halstead, Knudsen, Rice, A. S. Wilcox—33.

Rep. White moved the ayes and noes be called on the item as reported by the committee. President Walker said the ayes and noes could only be called once, but it was the wish of the House he had no objection.

The motion to insert the item at \$34,839.84, the recommendation of the committee was carried on the following division: Ayes—Cummins, Spencer, Widemann, Berger, Muller, Pua, McCarthy, Phillips, Crabbe, Parker, Kanoa, Cummings, Marques, Lucas, R. W. Wilcox, Rosa, Bush, Kanhi, Nawahi, Baker, Paehaole, White, Kanehili, Cockett, Kamae—25. Noes—G. Brown, Macfarlane, J. M. Horner, Hind, Marsden, Baldwin, W. Y. Horner, Walbridge, Anderson, von Tempsky, G. N. Wilcox, C. Brown, A. Horner, Rickard, Kahookano, Apiki, Halstead, Knudsen, Rice, A. S. Wilcox—20.

Noble Muller moved the vote be reconsidered. Lost. The House adjourned at 3:50.

Felix McCurley has been found. Nothing like advertising.

The Pacific Sugar Mill will hold its annual meeting at 10 a. m. Thursday.

The steamer W. G. Hall is due this afternoon from Maui and Hawaii.

The Bowler claims passed by the House yesterday at \$34,839.84, by a vote of 25 to 20.

Claims against Walker & Redward up to Oct. 18th should be sent to their office by the 23th.

At noon to day the Board of Education will receive tenders for school-house at Kaula, School street.

Admiral Brown was listening very attentively to the debate on the Bowler claims in the House yesterday afternoon.

At 10 o'clock to-morrow morning the annual meeting of the Honokaa Sugar Company will be held at Messrs. F. A. Schaefer & Co.'s office.

Business is increasing so on the Oahu Railway that the company will after Saturday, the 25th, run three trains five days in the week and four on Saturdays.

Mr. W. B. Oleson of Kamehameha School says he is not the Mr. Oleson who has been doing Halekaka, as mentioned by our Maui correspondent in Monday's issue.

Mr. W. S. Malthy will give another grand bicycle exhibition at Pearl City next Saturday the 25th inst. The train leaves at 2:30 p. m. Only 50 cents for the round trip.

The annual business meeting of the W. C. T. U. will be held this afternoon at 2:30 o'clock in the parlors of the Central Union Church. A full attendance of members is requested.

There was a large attendance at the band concert at Emma Square last evening. "The International Congress" was well played by the band, and the songs "That is Love" and "Banana Peddler" were loudly applauded.

The foreign jury will be required to attend in the Supreme Court at 10 o'clock this morning. The order of the cases is: The King vs. Arthur Johnstone, libel; The King vs. James Qual, opium importing; The King vs. Lau Yuen, receiving stolen goods.

Mr. W. H. Hamilton writes that he would like to bring down the Hess Opera Company for a season of three weeks on a guarantee of \$12,000—six hundred subscribers at \$20. Mr. Hamilton has been written to and told that the company will not be required this year, and that the guarantee is simply out of the question.

The Hawaiian Baseball Association held a meeting yesterday to consider a proposition from Mr. Frank Hoogs. It was decided to let him have the use of the new grounds in which to play seven games of baseball. Two local teams will be made up to play against the professional team which Mr. Hoogs proposes to bring here in November or December.

This evening the Y. M. C. A. will give a social entertainment in the large hall, as a welcome to Capt. I. Bray and Messrs. Breed, Campbell, Alexander and Dodge who came with him from San Francisco on the Robt. W. Logan. A brief programme will be rendered and the remainder of the evening will be spent socially. Members and their friends are expected to be present.

Strong Insurance Companies.

The Finance Chronicle and Insurance Circular of Sept. 1890, states that the Royal Insurance Company of Liverpool has the largest reserve and capital of any English insurance company, amounting on that date to over \$11,500,000. Hon. J. S. Walker is agent here for this strong and reliable company. Next highest in the list is the Liverpool, London & Globe, of which Bishop & Co. are agents, with a combined reserve and capital a trifle under \$11,000,000.

WILLIAMS, DIMOND & CO.'S CIRCULAR.

Per Steamer Australia, San Francisco, October 9, 1890.

Cuba basis has remained unchanged since 15th ult. at 6c. until to-day sales were made in New York at 5 15-16 for 96 deg., which is present basis.

TARIFF BILL.—This has been passed and signed by the President, and became a law on the 6th inst. with the following sugar schedule to take effect April 1st, 1891. All sugar not above No. 16 D. S. in color free, all above that 5 10 of one cent per pound duty, with an additional 1-10 of a cent on sugar from countries where an export bounty is paid, with the Aldrich reciprocity amendment to take effect January 1st, 1892, instead of July 1st, 1891. It is also provided that between March 1st and April 1st, 1891, sugar not exceeding 16 D. S. may be refined in bond without paying duty.

EASTERN AND FOREIGN MARKETS since our last has remained quiet but steady, with a weaker tendency, prices having declined since 20th ult. from 12s 7 1/2 to 12s 7 1/2 on the 8th inst.

Receipts at New York for the week ending 31st inst. 22,009 tons, meltings 23,719 tons.

Total stock in four ports, 65,201 tons, against 97,825 tons same date last year. Total stock in all principal countries at eleven dates, 379,077 tons, against 400,000 tons same dates last year.

The meltings for September exceeded those of same date by 25,400 tons, which shows that the lower price of refined is largely increasing the consumption.

Our latest telegram from New York, 9th inst., quotes beets at 12s, with an improved demand. Crops estimated about same as last year, while the Cuba crop is estimated as the largest grown.

Trust certificates have fluctuated, quoted on the 20th ult. at 75 1/2, 24th 80 1/2, since which they have declined to 76 1/2, now quoted at 77 1/2.

RICE.—Hawaiian quoted at 5 1/2 c, 60 days, while the Chinese merchants have reduced their price 15c. per 100 lbs., owing to the reduction of duty 25c. per 100 lbs.

FLOUR.—G. E. extra, \$1.50 f. o. b.; El Dorado, \$3.50, ditto; crown, \$4.45, ditto.

BARLEY.—No. 1 feed, \$1.42 1/2 @ \$1.45, f. o. b., firm.

BRAN.—\$19 @ \$19.50, f. o. b.

MIDDINGS.—\$25.50 @ \$26, f. o. b.

OATS.—Feed, choice, \$1.70 @ \$1.72 1/2; surprise, \$1.85, f. o. b.

WHEAT.—\$1.37 1/2 @ \$1.40, f. o. b.

HAY.—Compressed choice wheat, \$18 @ \$19; oat, \$10.50 @ \$11.

LIME.—\$1.45, f. o. b.

CHARCOAL.—Market quiet under free arrivals, although this week it shows a better tone, and inquiries are being made for tonnage which is held at 42s. 6d. orders, for iron, with 41s. 3d. bid.

EXCHANGES.—New York, regular, 7 1/2 c; telegraphic, 15c; London, 60 days, bankers @ \$4.82 3/4.

JUST PUBLISHED!

A NEW HAWAIIAN GUIDE BOOK.

THE HAWAIIAN GAZETTE CO. Has Just Published AN ILLUSTRATED TOURISTS' GUIDE Through the Hawaiian Islands

Copyrighted in Hawaii and the U. S.

Price, 60 cents per Copy.

Per Island mail, postpaid, 64 Cents; Foreign mail, postpaid, 75 Cents.

The Book has 176 pages of text, besides 20 Full Page Illustrations of Island Scenery, with a description of the Pearl Harbor Railway enterprise, and surrounding country.

It has also FOUR MAPS of the larger islands, prepared expressly for it.

The GUIDE gives a full description of each of the principal Islands and Settlements in this Group, and will prove an invaluable hand-book for tourists, and for residents to send to their friends abroad.

Some of the illustrations in the new book are very fine specimens of the Photoint process of engraving, and accurately represent the scenes portrayed.

Published by the HAWAIIAN GAZETTE PUBLISHING CO., 46 Merchant St., Honolulu, H. I.

THE AGE OF MARVELS.

Some of the Grand Things Accomplished Within Fifty Years.

In view of the almost incredible progress of the last two generations it is not the best judgment which pronounces the past electric system of transportation the dream of an inventive maniac. There is a freshness about the proposition that we shall yet send letters across the continent between the dawn of successive days that takes the average breath away, and the suggestion that passengers are to be rushed through space at the rate of two hundred miles per hour is apt to alarm the apprehensive. But the proposition is not beyond the limits of possibility for all that. A few days ago an experimental train upon a railroad in this State made a run of ninety odd miles in about sixty minutes, some portion of the journey being at the rate of nearly two miles per minute. If steam can accomplish such marvelous results as this, why may not that greater power, electricity, eclipse this stupendous record? The truth is that we live in a phenomenal age. All the ancient faiths concerning the development of material things are being rudely jostled by the pushing shoulders of a visionary that we shall converse with persons a thousand miles away. Marked progress has been made toward solving the problem of aerial navigation, and although it is yet impossible to predict the ultimate outcome, it is not insanity to believe that air-ships may yet run counter to the winds. The turning of a key illuminates a populous city, and new explosives shatter in an instant obstacles which were deemed immovable. There are improvements to the telegraph which would have astounded Morse had he lived to see them.—Philadelphia Inquirer.

ROSSINI'S LITTLE JOKE.

It Relieved a Friend at the Expense of a Music Publisher.

M. Brandus, head of the Paris music house, recalls a joke perpetrated on his firm in 1886. A musician named Carafa, who was always "broke," went to borrow money from Rossini, who was frequently in the same plight. The composer said: "I'm sorry I can't lend you any money, but I'll write some music for you, and if you will take it to Brandus he'll give you some money for it." Carafa gladly accepted the proposition, and in a wonderfully short time Rossini had filled several pages with notes. The piece he entitled "Sweet Memories of L'Africaine," by Rossini." Carafa hurried to the Rue Richelieu to lay it before Brandus, who, on seeing the manuscript, was surprised, for Rossini and Meyerbeer, composer of "L'Africaine," were bitter enemies. The publisher's joy over receiving an improvisation on "L'Africaine" from such a source was great, for the composition would be sure of having a large sale, and he gladly paid the impecunious Carafa the sum of 1,000 francs. Soon after Carafa had left with the money and the publisher's excitement over the purchase had cooled, it occurred to him to try the music. He found it a series of vilely discordant combinations, a certain amount of fiendish ingenuity having been exerted in producing the hideous ensemble. These were Rossini's "sweet reminiscences" of his enemy, Meyerbeer's, "L'Africaine." Brandus never sought to recover the 1,000 francs. He preferred to lose them rather than have Rossini's joke get abroad.—Brooklyn Eagle.

—Bishop Wilberforce had rather a liking for a game of billiards. One day, in a country house where he was staying, he had lost a game to his host, and with the game his temper, the result being that he broke the cue over his knee. Instantly recollecting himself, he apologized effusively to his host, who replied, "I beg your Lordship not to think of the matter! I am glad it occurred, as I was always desirous to see what a Bishop was like when he felt inclined to swear."—Leeds Mercury.
