No. 3437

WILL NOT CUT RATES

OCEANIC COMPANY WILL LEAVE STEAMSHIP FARES AS THEY ARE NOW.

Associated Press Cable to the Star.

SAN FRANCISCO, March 26.—The Oceanic Steamship Company will not cut rates to Honolulu from San Francisco. The report from Honolulu to the effect that the company contemplated making a rate of \$35 during a part of the year, is denied.

QUEEN COMING

Associated Press Cable to the Star.

SAN FRANCISCO, March 26.—Ex-Queen Liliuokalani of Hawaii leaves today for her island home in the steamship Ventura.

CUBA DISSATISFIED

Associated Press Cable to the Star.

HAVANA, March 26.—The public here is suspicious of the United States in the matter of reciprocity treaty, and there is considerable dissatisfaction with the treaty.

TO CONFORM TO ORGANIC ACT

SENATE JUDICIARY COMMITTEE REPORTED FAVORABLY ON BILL THAT AMENDS EXISTING LAWS.

Two reports were made by the Senate Judiciary Committee this morning. Both reported favorably on the passage of two Senate bills. These measures were Bills No. 117 and No. 118.

Senate Bill No. 117 seeks to amend existing law on corporations to conform to the Organic Act, and other laws. The amendment to Section 2618 of the Civil Laws relates to the sale or assignment by way of collateral of stocks and provides for the transfer of title. The amendment to Section 2924 places the power of compelling the production of the books and papers with a circuit judge instead of a court of chancery. The amendment to Section 2927 provides that the Treasurer shall not grant any charter which in its terms may or shall constitute a monopoly or grant perpetual charters except for certain purposes. Several other amendments related to details of the laws governing corporations.

Senate Bill No. 118 seeks to amend various sections relating to the carrying on of business in the Territory by foreign corporations and incorporated companies. Both reports were adopted.

SOME NEW BILLS

Several new bills were introduced in the House this morning. Vida introduced an act to provide for the purchase of the Pahoa Water Works and to appropriate money therefor. Kellinot gave notice of an act to provide for a Territorial Secret Service Bureau and an act to provide regulations for electric poles in Wailuku. Pulua introduced a resolution to set aside 25 acres in North Kona and 10 acres in South Kona, for cemeteries.

FOR THE PRINCES. The House this morning adopted a joint resolution to turn over to Prince Kuhio Kalaniana'ole and Prince David Kawananakoa the set of silver tableware presented to Kalakaua by the President of France many years ago. The resolution was introduced by Kellinot.

FIRE FUNDS ON THE WAY

SPECIAL AGENT McLENNAN LEFT WASHINGTON TODAY WITH MILLION DOLLARS TO PAY CLAIMS.

Associated Press Cable to the Star.

WASHINGTON, D. C., March 25.—Special Agent McLennan of the Treasury Department started today for Honolulu to distribute the million dollars appropriated at the last session of Congress to defray most of the claims growing out of the bubonic plague fire in Honolulu January, 1900.

Special Agent McLennan will take with him the million dollars in gold with which the claims are to be paid. It will be necessary for him to confer with Governor Dole regarding the issue of bonds for \$326,000, which the Territory of Hawaii is to issue to meet the remainder of the awards not covered by the appropriation of Congress.

The departure of Mr. McLennan has been delayed owing to the failure of the Hawaiian Legislature to appropriate funds with which to defray the expenses of the removal of the money from Washington to Honolulu and other expenses connected with the trip of the agent. Mr. McLennan is connected with the Treasury Department.

TO AMEND THE ORGANIC ACT

KUPIHEA THIS MORNING INTRODUCED IN THE HOUSE A JOINT RESOLUTION TO SWEEP ASIDE ALL OF THE GOVERNOR'S POWER OF APPOINTMENT AS DEFINED BY THE ORGANIC ACT.

It proposed election, with woman suffrage, of officials whom the Organic act says shall be appointed.

Kupieha began a speech about it but Beckley ruled him out of order, on the ground that the resolution was of no effect.

BARCELONA UNIVERSITY CLOSED. BARCELONA, March 14. Owing to the persistent demonstrations by students against Senor Salazar, the Minister of Public Instruction, the university has been closed.

KAISER'S VISIT TO ROME. ROME, March 14. The press announces that Emperor William of Germany will reach Rome May 2 and leave May 6th.

MET ROUGH WEATHER. The steamer Lehua met very rough weather on her run to windward. Molokai ports this week. Only perishable goods could be landed at Kalaupapa. It was with great difficulty that the doctors and passengers were landed at Kalaupapa. The landing was very rough at Pelekunu. The Lehua sailed for Molokai, Maui and Lanai ports last evening.

SUED FOR DIVORCE. Mary N. Duncan has brought suit against Adam L. Duncan for divorce. The parties were married in 1898, in Honolulu, and the plaintiff alleges failure to provide. She says her husband is a police officer. The court granted her a restraining order, prohibiting Duncan from interfering with home property which the plaintiff claims.

WILL NOT PLAY. Kupieha will not play with the House county committee, of which he was made a member, any more. He thinks the legislature has no power to enact county government without enacting city government as well, and doesn't propose to countenance doing so.

THE WRAY TAYLOR SUIT. The papers in the case of the Territory against Wray Taylor have been returned unserved. The Territory sues Taylor for \$1,016 in the capacity of trustee of 4,812 Chinese, this being the capacity in which Attorney General Andrews holds that the Territory has the Chinese fund in possession.

This is the season when death stalks through the land in the form of pneumonia. The surest defense against this disease is Chamberlain's Cough Remedy. It always cures and cures quickly. All dealers, Benson, Smith & Co., general agents, sell it.

NEW STYLE SHIRT WAISTS. The new style Knickerbocker shirt waists at Sachs' are attracting many buyers this week. The waists are the latest of New York's fashion creations. All sizes and handsome materials.

The third reading of the Winston franchise bill caused considerable discussion. It was stated that since the last action on the measure some things had arisen which might not admit of the bill being passed as it now stood. It was said that B. P. Dillingham, the Oahu Railway objected to the new company running its tracks across the tracks of the railroad company on the extension of Queen street was private property at the present, as it belonged to the Oahu railroad company. The government had not condemned the property, and it could not therefore go ahead and grant a franchise to any concern to run over it until the property was first acquired by the Territory. There was considerable discussion. The matter was finally compromised by referring it back to the committee.

The Senate took a recess until 2 p. m.

For Tents, Awnings, Storm Curtains, Hammocks, and all kinds of canvas goods. Telephone us and we will be pleased to submit samples and quote estimates.

THE PRICE OF SUGAR. By cable to the Planters' Association. From Williams, Diamond & Co. SAN FRANCISCO, March 25.—The New York price of 96° test centrifugals this day is 3.65 cents a pound; London bests, 88 analysis 8 pence, 2 1/2 shillings. The last quotation for bests was March 23, 8 shilling 3 pence, for sugar, March 21, 3.70 cents a pound.

CHINESE FUND COMMITTEE. The House Chinese fund investigating committee has been given further time. The committee is waiting to take the testimony of Governor Dole.

MUSIC HAD NO SOOTHING CHARM

ON MEMBERS HOUSE NEARLY EVERY BODY GOT SAVAGE BECAUSE SENATE CUT ITEMS.

The band played "Don't Be Cross, It Cannot Be" as the House came to order this morning and those who were fondly hoping for a business session think now that Kappmeister Berger is a prophet. Most of the morning was occupied with a freak resolution and a speech by Pulua in favor of amendment of the Organic Act.

There was war in the House when the amended emergency appropriations bill came from the Senate, with several House items stricken out and others cut down. Fernandez declared a Hakama item raised to \$10,000 was a fraud. Kumalae declared that the Senate was trying to dictate to the House, while Vida had a vigorous complaint against unfair treatment of the Fifth District. Vida said that the Fourth District had \$90,000 and the Senate was striking out the few Fifth District items asked by the House.

Kumalae moved that the House do not concur in the Senate amendments and the motion carried, all voting in his favor except Harris, Kanihu and Pulua. A motion to appoint a conference committee was carried.

Under suspension of the rules Pulea introduced a petition presenting the fire claims of Mrs. Amana, and it was referred to the Finance Committee. Kealauna introduced a petition to make Lahaina the county seat on Maui. It was referred to the county bill committee.

A letter was received from Treasurer Kopekai, as follows: "There is a deposit this 25th day of March, 1903, in the vault of the Treasury of the Territory of Hawaii the following silver and gold certificates of deposit cancelled and withdrawn from circulation, and I beg leave to submit the matter of destroying the same to your Honorable body: Gold certificates, \$5, 314,913; \$10, 323,900; \$20, 309,960; \$50, 279,320; \$100, 890; silver certificates, \$5, 112,313; \$10, 144,640; \$20, 107,350; \$50, 110; \$100, 106,390; total \$208,182."

The matter was referred to the Finance committee.

Kopekai sent in a communication stating that items of unpaid bills and expenses for the rest of the period in his department, amounting to \$6,000 had been left out of the emergency appropriation bill. He had called the Governor's attention to the matter, but it was not mentioned in the Governor's message, said the Treasurer.

The House took up and passed on first reading the bills sent from the Senate.

SENATE STRUCK SNAG TODAY. CONSIDERABLE DOUBT AROSE ON RIGHT TO GRANT WINSTON ELECTRIC FRANCHISE.

Senator Diekey introduced a joint resolution this morning in the Senate authorizing the Treasurer to destroy all the cancelled gold and silver certificates at present in the Territorial Treasury, in the presence of the President of the Senate and the Speaker of the House of Representatives. The resolution was adopted.

Senator Kalaokalani wanted to smoke so he introduced a resolution granting permission to the Senators to smoke during the remainder of the session. The motion caused considerable amusement and, after some good natured discussion, was voted down.

Senator McCandless wanted to establish a department of secret services in the territory. He introduced such measure this morning. The bill was referred to the printing committee.

A report of considerable length was handed in by the committee on Public Expenditures regarding the proposed banking bill. The committee reported against the measure and said that in the opinion of the members of the committee, the present laws were good enough. Under the proposed bill it was sought to give the banking institutions more power. The report will be considered with the bill.

The committee on Miscellaneous Petitions reported against the bill exempting the Kona-Kau railroad from the payment of taxes for a period of ten years. The report was tabled, to be considered with the bill.

The Ways and Means committee reported favorably on Senate Bill No. 110 but added a few amendments. This law regulates taxation. One amendment recommended that the property assessment value be fixed at ten times the annual rental. Senator Paris did not concur in the last amendment. The report will be considered with the bill.

The committee recommended favorably on the bill amending the oleomargarine bill.

The third reading of the Winston franchise bill caused considerable discussion. It was stated that since the last action on the measure some things had arisen which might not admit of the bill being passed as it now stood. It was said that B. P. Dillingham, the Oahu Railway objected to the new company running its tracks across the tracks of the railroad company on the extension of Queen street was private property at the present, as it belonged to the Oahu railroad company. The government had not condemned the property, and it could not therefore go ahead and grant a franchise to any concern to run over it until the property was first acquired by the Territory. There was considerable discussion. The matter was finally compromised by referring it back to the committee.

The Senate took a recess until 2 p. m.

POPULAR LINER FULL WITH PASSENGERS—BROUGHT SIX DAYS MAIL FROM COAST YESTERDAY.

The S. S. Coptic, arrived from San Francisco with six days later mail and heavy cargo yesterday afternoon. Captain Rinder her regular commander came back in her.

The vessel experienced good weather during the trip. On March 21 at 2 a. m. she started the British ship Hutton Hall bound from Liverpool to San Francisco. The British ship was passed in Lat. 34 North Long. 151 West.

The Coptic is loaded down to her masts with general cargo. She has a full passenger list, only three passengers stopping over at this port. Probably the most marked thing about the Coptic this trip, is the presence of such a large number of handsome women. The officers declare that the women passengers are the handsomest lot of people that have traveled on the liner in many trips.

Miss Bertha Runkle the author of the successful historical novel "The Helmet of Navarre" is a passenger for Kobe. She is going to attend the Oaki Exposition. With her is Miss K. M. Ball an artist.

MANY BEAUTIES ON THE COPTIC

POPULAR LINER FULL WITH PASSENGERS—BROUGHT SIX DAYS MAIL FROM COAST YESTERDAY.

The S. S. Coptic, arrived from San Francisco with six days later mail and heavy cargo yesterday afternoon. Captain Rinder her regular commander came back in her.

The vessel experienced good weather during the trip. On March 21 at 2 a. m. she started the British ship Hutton Hall bound from Liverpool to San Francisco. The British ship was passed in Lat. 34 North Long. 151 West.

The Coptic is loaded down to her masts with general cargo. She has a full passenger list, only three passengers stopping over at this port. Probably the most marked thing about the Coptic this trip, is the presence of such a large number of handsome women. The officers declare that the women passengers are the handsomest lot of people that have traveled on the liner in many trips.

Miss Bertha Runkle the author of the successful historical novel "The Helmet of Navarre" is a passenger for Kobe. She is going to attend the Oaki Exposition. With her is Miss K. M. Ball an artist.

A Corbin and wife, Mrs. L. A. Stanley, Miss G. M. Wetmore and Miss L. A. Wetmore are a party of tourists who are going to Yokohama. They had planned originally to stop over here for the America Maru but decided to continue on the Coptic.

J. P. Righelto is going to Siberia to attend to a salmon cannery in that country.

W. C. Bunker is a San Francisco newspaperman who is going out to Hong Kong. He is accompanied by his wife.

Surgeon O. Diehl is going out to join the battleship Oregon.

James Mahall and H. S. Rankine are going out to Yokohama to inspect the branch of the Inter-National Banking company at that place. They will visit other banking branches of the concern in the Orient.

C. W. Clifton is a tea man who is going out to Amoy.

John Derby who was at one time purser on the Nippon Maru is a passenger for Hong Kong. He will be purser on one of the vessels of the China Mutual Navigation Company which is to inaugurate its service this month. Dr. L. Barkan is going out to be the surgeon on the same vessel with Mr. Derby.

J. Liddell wife and four children are going to Tien Tsin. He is the agent of the O. and O. line at that place.

Bishop S. C. Partridge is the Episcopal bishop of Kioto, Japan. He goes as far as Kobe with the Coptic. He is accompanied by his wife.

The Coptic will take a number of cabin passengers from this place for various Oriental ports. She sails at 4 p. m. today for the Orient.

HOT AFTER THE HOUSE

SENATOR CECIL BROWN INTRODUCED WARM RESOLUTION CALLING HOUSE TO TIME.

Senator Cecil Brown went after the House, without gloves this morning in the upper house. He introduced a resolution calling on the House to explain its action in apparently shelving a large number of Senatorial measures. His resolution was as follows:

"Whereas the Senate of the Territory of Hawaii has passed some sixty acts in the territory. He introduced such measure this morning. The bill was referred to the printing committee.

A report of considerable length was handed in by the committee on Public Expenditures regarding the proposed banking bill. The committee reported against the measure and said that in the opinion of the members of the committee, the present laws were good enough. Under the proposed bill it was sought to give the banking institutions more power. The report will be considered with the bill.

The committee on Miscellaneous Petitions reported against the bill exempting the Kona-Kau railroad from the payment of taxes for a period of ten years. The report was tabled, to be considered with the bill.

The Ways and Means committee reported favorably on Senate Bill No. 110 but added a few amendments. This law regulates taxation. One amendment recommended that the property assessment value be fixed at ten times the annual rental. Senator Paris did not concur in the last amendment. The report will be considered with the bill.

The committee recommended favorably on the bill amending the oleomargarine bill.

The third reading of the Winston franchise bill caused considerable discussion. It was stated that since the last action on the measure some things had arisen which might not admit of the bill being passed as it now stood. It was said that B. P. Dillingham, the Oahu Railway objected to the new company running its tracks across the tracks of the railroad company on the extension of Queen street was private property at the present, as it belonged to the Oahu railroad company. The government had not condemned the property, and it could not therefore go ahead and grant a franchise to any concern to run over it until the property was first acquired by the Territory. There was considerable discussion. The matter was finally compromised by referring it back to the committee.

The Senate took a recess until 2 p. m.

MORGAN BUYS TOBACCO LANDS

SAID TO HAVE MADE BIG PURCHASES THAT CONTROLS THE FINEST CIGAR TOBACCO RAISED

TAMPA (Fla.), March 12.—Advice from Havana says that while in Cuba recently, J. Pierpont Morgan, representing the American Tobacco Company, closed negotiations for the purchase of all lands in the Vuelta Abajo district upon which is grown the finest grade of leaf tobacco and it making the finest grades of Havana cigars.

The purpose of the purchase is to secure all of this tobacco exclusively for the use of the factories of the American Cigar Company, which is a branch of the American Tobacco Company. If these intentions are carried out independent clear Havana factories in Tampa, Key West, New Orleans, New York and other cities will have to look elsewhere for their fine grade leaf tobacco, nearly all of them being supplied now from the fields reported bought by Morgan. The transaction involved several millions, and negotiations had to be conducted with a number of owners of the lands.

AMERICAN TRACT SOCIETY'S WORK

REPORT AT THE ANNUAL MEETING SHOWS AN IMMENSE VOLUME OF BUSINESS DONE.

WASHINGTON, March 15.—The annual meeting of the American Tract Society was held this evening in the Metropolitan Presbyterian Church. Rev. George N. Luebeck, pastor, Justice Brewer of the United States Supreme Court, president, Rev. Judson Swift, field secretary at New York, gave a brief report, and General O. O. Howard delivered an eloquent address.

During the year publications have been issued in English, German, Italian, Bohemian, Polish, Spanish, Hungarian, Bengali, Urdu and other languages, and the number of distinct publications reach nearly 9000, of which over 2,000 are volumes. The whole number of tracts and periodicals reaches nearly 800,000,000, which does not include the millions of tracts and volumes issued at missionary stations in foreign lands. The number of periodicals printed and distributed in the past twelve months aggregate 1, 778,000, and the number of languages or dialects published is 155.

The total distribution of Christian literature in the Spanish language for the year aggregate 2,000,000 pages, the greater part of which has been sent in the mission stations in the islands. This includes a publication of a Sunday-school paper in Spanish, the first of its kind ever issued. Good work also has been done in the Army and Navy.

By means of colporteur wagons Christian literature is placed in the Mormon homes for the express purpose of reaching the children. In the foreign field, grants of cash have been made through the local tract or publishing societies to aid in providing a native Christian literature at the mission stations in Europe, Africa, Asia and the islands of the sea. The demand for Christian literature in the mission stations throughout the world is greater than it has been for three-quarters of a century. The call for the society publications and for additional colporteurs is increasing and pressing and an earnest appeal is made for funds.

FIRST PIOUS FUND PAYMENT. WASHINGTON, March 15.—The State Department has received from the Mexican Government \$43,000 being the first installment of interest which is to be paid in perpetuity on account of the Pious fund claims under the arrangement made by The Hague Arbitration Board in October last. On July 25 there will be due \$1,430,552, representing the interest which has accrued from the date of the Mexican claims commission down to the date of the award.

PROTECTION AGAINST THIEVES. Why not protect your home and perhaps your life by buying a handy burglar alarm. Whittan and Co., Sole agents, King and Fort streets.

MONEY SAVED IS MONEY EARNED. Yes, remarked one of Honolulu's old residents I never have saved a cent out of my salary until I joined the Pioneer Building and Loan Association and now this comfortable home you see is the result of money earned by Pioneer Building and Loan savings. The interest earned for 1902 was 11 1/2 per cent. Pioneer Building & Loan Association, Judd Building, Merchant Street. J. L. McLean, President; A. V. Gear, Secretary.

CARTER AND HIS NEW DEAL

WILL TREAT THE FEES FOR CHINESE CERTIFICATES AS GOVERNMENT REALIZATIONS.

Secretary George R. Carter has inaugurated a new system in the office of Secretary of the Territory, in the matter of issuance of Chinese certificates. Hereafter the fees received for such work will be turned in as government realizations, instead of being kept as a perquisite of the office.

The system in the past has been to consider the certificate business as apart from the public business of the office, and it has been supposed to be done outside of office hours. The fees charged have been retained as perquisites of the office, the secretary keeping part and the clerks part. Carter has abolished this system, and will make the issuance of certificates a part of the regular duties of the office, and turn in all the fees received as government realizations.

The certificates given out are for parents of infants, showing the Hawaiian birth of the latter and for occasional copies of old records of naturalization. Both are much valued by the Chinese as an aid in showing possible claims to American citizenship. In the future the certificates showing birth here on American soil may prove of the highest value to some of the Chinese. The citizenship records also are of much value. "There was one case of a Chinese who left here without sufficient papers," said Secretary Carter, "and who was arrested in Tucson, Arizona, as unlawfully in the United States and it cost him about a thousand dollars and a term in jail before he could prove that he ought not to be deported."

Carter is preparing new forms for the certificates. One of them is labelled "Certificate of naturalization" and it is claimed that this is more or less misleading, as the secretary's office has no power to issue certificates of naturalization, but merely copies of the records of former naturalizations under the monarchy and republic of Hawaii.

Under the new system it is also proposed to require more exacting proof of naturalization and birth. The secretary will take testimony and receive such affidavits as are necessary and satisfy himself of the genuineness of the claims before certificates are issued.

Under the schedule of fees as decided upon, the certificates, with the various necessary affidavits, will cost the Chinese about \$5 each. The amount will be turned in to the public treasury and the expense of issuing the certificates will be charged to incidentals.

TO BE LIGHTED BY BACTERIA

NEW YORK, March 15.—A cable to the Sun from Vienna says: Professor Hans Molisch of Prague believes he has discovered a use for bacteria. He has communicated to the Vienna Academy of Science the specifications of a mining lamp, in which bacteria supply the light. The lamp consists of a glass jar, in which there is a lining of saltpetre and gelatine, previously inoculated with bacteria. The latter develop innumerable in two days, causing the jar to become illuminated with a bluish green light. This lasts brilliantly for several days, gradually dimming until it disappears in about a fortnight or three weeks.

Molisch says that the light is suitable for mines and powder magazines because it is cold and not dangerous. Faces can be recognized by this light for a distance of two yards, and a large type can be read by it.

THE AMERICAN'S CARGO.
SAN FRANCISCO, March 18.—The large freight steamer American, Captain Nichols, sailing Monday for Puget sound, Honolulu and New York, was principally laden with freight for Honolulu, a notable consignment being 10,000 cases of coal oil. Other large shipments were made for the islands. At Honolulu the American is to take aboard a large cargo of sugar for New York.

IMPROVING A LINER.
SAN FRANCISCO, March 18. Following its custom, the Toyo Kisen Kaisha has begun an overhauling of its liner while in port, in this instance the steamer being the America Maru. An expensive inlaid oak floor is being placed in the dining saloon, and artisans are employed elsewhere in the vessel making notable improvements. The America Maru is the last of the company's three vessels coming here to receive a thorough overhauling, though all are comparatively new steamers and apparently in no need of alterations.

MORE MAIL TOMORROW.
Two days mail is due on the S. S. Alameda tomorrow from San Francisco.

GENERAL WOOD SOON TO SAIL.
WASHINGTON, March 17. General Wood will leave here Thursday of next week to embark on the steamer leaving Boston on the 28th inst. for Naples. He will be accompanied by Colonel H. L. Scott, Seventh Cavalry, and Lieutenant F. R. McCoy, Tenth Cavalry. It is expected that the party will arrive in Manila about the middle of June. General Wood will take command of the Department of Mindanao until he is advanced to the command of the Division of the Philippines.

RESPECT FOR GEORGE HONS.
The Supreme court paid its respects to the late George Hons yesterday, by the adoption of the following resolutions, offered by W. O. Smith:
"Whereas, it has pleased Almighty God to remove by death George Hons, Esquire, a member of the bar of this court,

"Resolved, that deeply deploring our loss we desire to place on record our kindly remembrance of our departed friend and brother, and to tender to the family of the deceased our sincere sympathy, and that the court be moved to enter these resolutions upon the records of the court."

COURT NOTES.
Julie J. Swanzy has asked that she be appointed administratrix to distribute 40 shares of stock of the Hawaiian Tramways Company left by C. H. Judd and hitherto not administered.
A jury has been waived in the case of Robert Fuller vs. Honolulu Rapid Transit Company.
Maleka Miner and Edward Miner have been granted leave to adopt Kahuha Kaimoo. Judge De Bolt approved the decree.

HARRISON RENOMINATED.
CHICAGO, March 16.—Mayor Carter H. Harrison was renominated for a fourth term in the Democratic City Convention here today. The remainder of the slate agreed upon at a caucus of Democratic leaders yesterday was as follows: For City Treasurer Ernest Hummel; City Clerk J. B. Boehm; City Attorney John E. Owens.

Important Reasons

Why Herring-Hall-Marvin Safe Co.'s Safes and Locks are the Best?

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning, and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, THERE IS NOT A SINGLE INSTANCE ON RECORD WHEREIN ONE OF THEM EVER FAILED TO PRESERVE ITS CONTENTS PERFECTLY. They make safes for county treasurers, county recorders, county clerks, jewelers, Hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.

DISTRIBUTION OF OUR POPULATION

THE CENSUS BULLETIN SHOWS A GROWING PROPORTION IN THE PACIFIC OCEAN REGION.

WASHINGTON, March 25.—The Census Bureau today issued a bulletin of the geographical distribution of population of the United States. It shows that almost 90 per cent of the total population lives in the country draining to the Atlantic ocean; over 50 per cent in that draining to the Gulf of Mexico; 44 per cent in the drainage area of the Mississippi river; almost 2 per cent in the area drained by the Great Lakes; 4 per cent on the Pacific Coast; half of 1 per cent in the Great Basin. These areas are not distinct, but overlap.

The proportion living within the region draining to the Atlantic ocean is steadily diminishing, while the part draining to the Gulf of Mexico is becoming relatively more populous, as is the case, in a still more marked degree, in the Great Basin and the Pacific ocean region.

Of the foreign born, 80 per cent live in the region draining to the Atlantic ocean; 5.4 per cent in the region draining to the Gulf of Mexico, and 15 per cent in that draining to the Great Lakes. The proportion in the region draining to the Pacific Coast is 61 per cent. Out of every 1000 persons, 500 are found in the region draining to the Atlantic ocean and 814 per cent are in the lands draining to the Gulf of Mexico, the proportion in the West and on the Pacific Coast being trifling.

SABIN WILL RETURN TO SAN FRANCISCO

ANNOUNCES TO TELEPHONE COMPANIES OF CHICAGO THAT HE MUST RESIGN.

CHICAGO, March 25.—John I. Sabin, president of the Chicago Telephone and Central Union Telephone companies, today announced to the directors of those corporations his unwillingness to serve in an executive or other capacity any longer than is positively necessary. President Sabin indicated his desire to resign his office in San Francisco, saying his business interests there made it imperative that a change be made.

The directors asked Sabin to continue here officially for a few weeks or months until matters were so arranged that the affairs of the president's office could be turned over to the keeping of a new man with the least possible delay. Under these circumstances Sabin agreed to remain temporarily. He came to Chicago slightly over two years ago with the understanding that he would direct the affairs of the Chicago Telephone Company during a period covered upon which he prominently connected with the Pacific States Telephone Company, and it was his record in the management and expansion of that company's affairs that induced the chief stockholders in the Chicago corporation to seek the San Francisco man's services. It is said that under his management both telephone corporations have flourished. The gross receipts of the Chicago Telephone Company during the year 1900 was \$2,777,297.75 and during the year 1901 \$3,750,854. In the same year the dividends were \$390,000 and \$1,075,000 respectively.

CLEVELAND COMING WEST.

NEW YORK, March 25.—A dispatch from the San Francisco N. Y. says: "Former President Grover Cleveland will leave in a few weeks for an extended visit to the West. He will probably make his first stop in St. Louis on April 29, when the World's Fair grounds there will be dedicated. When seen this morning in regard to his proposed trip, Cleveland said: 'I am going to take a trip through the Western States, but haven't made any arrangements yet. Why, it is at least six weeks off.' Former President Cleveland will be 66 years old tomorrow. He will spend the date at home with his family. The ex-President is in excellent health."

PASSED HOUSE BILLS.

At the afternoon session of the Senate yesterday the electric franchise bill for the Hilo Electric Company was taken up and passed its second reading. It will come up today for final passage. Senator Diekey introduced his bill providing for repealing the laws regarding the importation of foreign goods to Hawaii also a bill relating to the protection of birds Senator Baldwin introduced his bill providing for bonds for public officers.

House Bill No. 28, reducing the penalty for concealing the death of an infant to one year failed to pass, the vote being six to six.

The House bill reducing the penalty for larceny passed third reading unanimously.

The House bill reducing the penalty for assault and battery passed.

The House bill fixing the penalty for receiving stolen goods passed unanimously.

The House bill relating to felonious branding of cattle passed unanimously.

The bill relating to embezzlement passed unanimously.

The burglary act and the bill repealing the opium law passed unanimously.

The Senate bill prohibiting the sale of liquor to miners or to inebriates passed unanimously.

At the night session much progress was made on the County Bill. The section providing for auction sale of awa licenses was stricken out and a clause making the license fee \$25 substituted. The license fee of \$4 for hunters was raised to \$10, as was the fee for lodging and tentment houses from \$2 to \$10. The auction license fee for West Hawaii and Kauai was reduced to \$25.

It was also decided that all taxes should be paid in the country. Another change requires all fees received by territorial or county officials to be paid into the Treasury. Rheumatic pains will soon wear out the strongest constitution. If relief is possible, Chamberlain's Pain Balm will afford it. This balm has been a boon to thousands of sufferers. One application gives relief. Try it. All dealers, Benson, Smith & Company, general agents, sell it.

ROAD BOARDS AND JURORS

Pulaa this morning introduced in the House a resolution asking the following questions of Superintendent of Public Works Cooper:

"How many members of the road boards are qualified citizens? If they are not all qualified citizens, who and where are they located? Why are such men appointed to office, and if they were not appointed by said present Superintendent, why were they allowed to remain in office?"

"Why are not repairs made in the main road leading from Hamakua to the Waimea homestead in Hawaii by the road board of Hamakua? Is it because such majority members of the Hamakua road board are interested in the landings at Hamakua and against the transportation of freight from Kawaihae that the mentioned road is not repaired, or is it from lack of funds, or with a view of boycotting?"

The resolution was adopted. Pulaa also introduced a resolution asking Congress to amend the Organic Act to make all persons who can speak and write either English or Hawaiian qualified jurors. He made a long speech in favor of Hawaiian and the resolution was adopted.

FOUND A TYPHOID! PROPHYLACTIC

If you are going away and have some real estate or personal property that will need attention during your absence—or some valuable papers that you would like to leave in safe hands—make use of our trust department. Henry Waterhouse Trust Company, Ltd., corner Fort and Merchant Sts.

NEW YORK, March 13.—A cablegram to the Sun from London says: Lord Lister has communicated to the Royal Society a paper by Dr. Allan MacFayden, director of the Jenner Institute of Preventive Medicine, setting forth an efficient prophylactic and curative treatment for typhoid fever. MacFayden has found that by crushing the microscopic cells of typhoid bacillus in liquid air the intercellular juices can be obtained apart from their living organism, and these juices are highly toxic. By injecting them in small, repeated doses into a living animal its blood serum is rendered a powerfully anti-toxic bactericidal—that is to say, it becomes an antidote alike to living typhoid bacteria and to any poison that may be extracted therefrom. MacFayden explains the application of the serum to animals and the details of his various experiments, which showed that the serum is a curative of typhoid as well as a protective against infection.

LEIVINGSTON'S

COPTIC STUCK IN THE MUD

Was Drawing 24 1/2 Feet But Could Not Be Shoved Along Side Pacific Mail Wharf Yesterday.

The urgent need for dredging the harbor was shown in a very striking manner yesterday when the S. S. Coptic from San Francisco tried to dock at the Pacific Mail wharf.

The vessel was drawing 24 1/2 feet aft and 24 feet forward. Although the harbor is supposed to be dredged to a depth of 30 feet, it was impossible to get the vessel within ten feet of the wharf. She got stuck on the bottom, hard and fast, and although the winch was used and the tug Fearless showed against the vessel, the big liner could not be gotten an inch closer to the wharf.

IMPORTING LEAD FOR BULLETS.

For the last few months the Oriental bound steamships have been carrying consignments of lead. Practically every vessel that passed through this place from San Francisco has a hundred or more tons of lead aboard. A very significant feature of this occurrence is the fact that practically all of this lead goes to Shanghai.

The Coptic has 225 tons of lead aboard now all going to Shanghai. The question is to whom does this lead ultimately go? There is every reason to believe that it goes to the Chinese government and is used by that government in making of bullets.

The fact that the Chinese government has an immense arsenal at Shanghai and that all of the lead that is shipped out to China goes to that port, is very significant. There is no doubt but the material is being used by the Chinese government in manufacturing bullets. The anti-foreign sentiment that is uppermost in China today, is backed secretly by the government at Peking. Although the treaty with the Powers forbade the importation into China of any munitions of war for a period of years, this agreement is being constantly violated.

In the instance of this shipment of lead is a glaring instance of this violation. The stuff, so it is claimed by the people conversant with affairs in the Orient, is not shipped directly to the arsenal government, but is ultimately turned over to that institution and the manufacture of bullets is steadily progressing. The Coptic is not the only vessel that has been carrying lead. All of the other boats have had similar cargoes.

A MAMMOTH PROJECT

NEW YORK, March 15.—The Mail and Express says a committee of forty men, prominent in the affairs of this city and nation, was today appointed to call an international convention, including all the peoples of North America, for the formulation of plans for a huge continental system of canals for the purpose of navigation and reclamation of desert regions. It is proposed to organize a continental association "to promote the construction of a continental system of deep water ways and the canalization of the rivers of the continent which discharge their waters into the Atlantic and Pacific oceans, or the Gulf of Mexico, and the creation of a continental system of water power for use in production and distribution and of reservoirs for the irrigation of arid and arable lands of the continent."

The men designated to constitute the committee are: Andrew H. Green, Ethan Allen, Frederick W. Seward, Silas B. Dutcher, J. Edward Swanstrom, Hugh Kelley, Edward Lauterbach, Peter S. Logan, Darwin R. James, John C. Kelley, Miles M. O'Brien, John C. McGuire, C. C. Shayne, Paul Dana, William Hyatt Farington, Dumont Clark, Edward Simmons, Ludwig Nissen, Gardner D. Matthews, Henry Lewis, John Dewitt Warner, F. P. O'Leary, Lyman J. Gage, A. D. Juillard, Clarence W. Seamans, James N. Jarvis, A. B. Fitch, Charles S. Fairchild, George F. Seward, Charles T. Barney, Max Nathan, Henry Morgenthau, Robert C. Ogden, Louis Stern, Oscar S. Straus, George A. Seargent and Francis W. Glen.

The meeting at which this step was taken was held in the office of Andrew H. Green on Broadway, and was attended by 300 men of distinction in the commercial life of this city. Ethan Allen delivered an address, in which he showed clearly what an enterprise like that proposed by means of an international movement would mean. "Ten billion dollars," he said, "will construct a continental system of deep-sea canals, and the canalization of our rivers, as above mentioned, and at the same time create a water power equal to 50,000,000 horse-power or 700,000,000 man power."

The Law West Of The Pecos

EL PASO (Tex.), March 17.—News reached here of the death of Roy Bean, known as "The Law West of the Pecos," at his home in Langtry. "Squire" Bean was a noted character and for years had been the subject of anecdotes and newspaper sketches.

West of the Pecos river in Texas there were no limitations to Judge Bean's jurisdiction, and he did not let mere statutes influence him in his desire to make the punishment fit the crime. There is an anecdote told of him when he sat as Coroner and held an inquest on the body of a man who had met a violent death by falling from the great railway bridge that spans the Pecos river. An examination showed that the man had a revolver and forty dollars in cash in his pockets when he was killed. After swearing in a jury and looking over the effects of the dead man, Judge Bean said: "Gentlemen of the jury, there ain't no doubt how this man came to his death; that's all plain; but what I would like to know is why in the name of thunder he carried that gun. Now, gentlemen, it's against the law to carry a concealed and loaded gun in the State of Texas, and jist because this gentleman took it into his head to get killed I don't mean to let him offend the peace and dignity of Texas. I fine him \$40." This is an example of Judge Bean's efficient administration.

In May, 1901, the Judge went through a Pullman car while the west-bound Southern Pacific train was stopping at Langtry, and with a large revolver in his hand, collected from an Eastern tourist 35 cents which the latter owed him.

The tourist had bought some beer at the "Judge's" saloon; but neglected to pay for it. Going through the sleepers Bean peered into each passenger's face until he found his man, when he said to the fellow: "Thirty-five cents, or I press the button." Upon being handed a dollar bill he gave the tourist his correct change, and as he left the car remarked to the passengers: "That's the kind of an hombre I am. I am 'The law west of the Pecos.'"

The other passengers were badly frightened, believing that Bean was a train robber, who meant to hold them up.

ALICE ROOSEVELT SAILS AWAY. NEW YORK, March 14. Miss Alice Roosevelt, daughter of the President, sailed on the steamer Como today for Porto Rico, where she will be the guest of Miss Elizabeth Hunt, daughter of Governor Hunt.

Want ads in Star cost but 25 cents.

HOW THE CANAL BILL PASSED

REPORT OF THE PROCEEDINGS IN THE SENATE WHEN THE IMPORTANT MEASURE PASSED.

WASHINGTON, March 17.—Without doing an "act" or making a "stunt" or without changing a single punctuation mark the Senate today voted to ratify the treaty with the republic of Colombia for the construction of an isthmian canal. The vote for ratification was 11 in the affirmative to 5 in the negative.

The Senate was in executive session when the result was announced, so only the Senators themselves and a few confidential employees were present. All the Senators announced themselves as gratified to have the long struggle terminated, but none of them manifested any appreciation by cheers or hand-clapping. On the contrary, all of them seemed more concerned about getting away from the chamber than anything else so that by the time the Senate had adjourned, which it did almost immediately after the result was announced, most of the Senators had left their seats and some of them had donned their hats and overcoats.

The day was given up almost entirely to general debate on the treaty, and in addition to the speeches made under the general agreement by Senators Morgan and Quinn, there were many short addresses and a rather long speech by Senator Daniel of Virginia. The only party vote of the day was taken on the substitute for article four, which was agreed on by the Democrats in caucus and had reference to the acquisition of territory in Central and South America by the United States. There were a number of speeches on this amendment, but it was voted down by an almost two-thirds majority, the floor falling an eye to 23 votes. When the Senate adjourned at 1 o'clock there was a general belief that the business of the session would be completed in time to permit final adjournment tomorrow. Some, however, placed the date twenty-four hours later.

The Senate met at 11 o'clock and went into executive session after the journal was read and approved. Immediately after the door was closed the Panama canal treaty was laid before the Senate. There was again a good attendance of Senators in anticipation of the final vote on the treaty. The proceedings opened with a speech by Senator Morgan, devoted especially to the question of the defense of the canal. He criticized sharply the action of the Senate in refusing yesterday to so amend the treaty as to insure American control.

When Morgan concluded Senator Money offered a substitute, which disavows any intention on the part of the United States to increase its territory at the expense of South or Central America. The substitute offered by Senator Money was agreed upon by the Democratic caucus and, without mentioning South or Central America, it reiterates the American doctrine of non-interference with the affairs of all the American republics, with the view of reassuring Mexico on that point, and pledges this country to attempt no acquisition of Colombian territory. This is one of the amendments on which the Democrats agreed to act as a unit, and consideration of it was begun early in the day with the view of concentrating most of the debate upon it.

Speeches were made in support of the Money amendment by Senator Bacon, Teller, Daniel Morgan, Bailey and others. They contended for an impartial recognition of all American republics, arising that under the language of the fourth article of the treaty Mexico would be left as the only American republic to which the avowal of non-interference could be held as non-applicable. Senators Spooner and Hoar replied, contending that there was practically no difference between the language of the amendment and that of the article as it stands. Senator Money's amendment was defeated 51 to 27—a strict party vote.

Senator Daniel then offered an amendment providing that the treaty should not take effect until it had been approved by Congress. Mr. Daniel spoke in advocacy of this provision.

The fact soon developed that Senator Daniel had offered his amendment for the purpose of making a general speech upon the treaty and when the fifteen minutes allowed to him for his speech on his own amendment had expired and the amendment was voted down, Senator Morgan presented four or five of his amendments, which were each in turn defeated, but upon all of which Senator Daniel continued to speak. All told, he spoke for about an hour. His speech was an arraignment of the Republican policy in pressing the treaty with what he asserted was undue haste. He referred to the enormous expenditure that would be re-

CONFIDENCE

said Lord Chatham, "is a plant of slow growth." People believe in things that they see, and in a broad sense they are right. What is sometimes called blind faith is not faith at all. There must be reason and fact to form a foundation for trust. In regard to a medicine or remedy, for example, people ask, "Has it cured others?" Have cases like mine been relieved by it? Is it in harmony with the truths of modern science, and has it a record above suspicion? If so, it is worthy of confidence; and if I am ever attacked by any of the maladies for which it is commended I shall resort to it in full belief in its power to help me." On these lines

WAMPOLE'S PREPARATION

has won its high reputation among medical men, and the people of all civilized countries. They trust it for the same reason that they trust in the familiar laws of nature or in the action of common things. This effective remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It quickly eradicates the poisonous, disease-breeding acids and other toxic matters from the system; regulates and promotes the normal action of the organs, gives vigorous appetite and digestion, and is infallible in Prostration—following Fevers, etc.—Scrofula, Influenza, Asthma, Wasting Diseases, Throat and Lung Troubles, etc. Dr. W. A. Young, of Canada, says: "Your tasteless preparation of cod liver oil has given me uniformly satisfactory results, my patients having been of all ages." It is a product of the skill and science of to-day and is successful after the old style modes of treatment have been applied to in vain. Sold by all chemists.

PYGMALION AND GALATEA

Pygmalion and Galatia will be the Waldorf's program at the Orpheum Theatre to-night. Gilbert's brilliant comedy is offering in its humor and an everlasting masterpiece of satire. No more enjoyable entertainment could be offered than this and judging by the high standard set by the Waldorf Company a thoroughly good performance may be safely predicted. Seats are on sale at the Orpheum Theatre during the day.

PART II. Selection—"Old Folks at Home"; Dalby Huen Dance—"Popcorn" (new); Lath Waltz—"Andalusian Love Dream"; Friedmann March—"The Invincible Eagle"; Sousa "Star Spangled Banner."

PEAT BOGS. A new map shows that the peat bogs of Ireland cover 1861 square miles, mostly in Counties Donegal, Mayo and Galway. Their average depth is 25 feet.

M'BRYDE COMPANY MEETING

ANNUAL MEETING OF STOCKHOLDERS OF BIG KAUAI PLANTATION—REPORTS ON THE WHOLE CONSIDERED VERY GRATIFYING—AN INCREASING PRODUCTION WITH DECREASING COST.

The annual meeting of the stockholders of the McBryde Sugar Company was held this morning in the Assembly room over Castle & Cooke's offices. The reports made are considered very gratifying.

Officers for the year were elected as follows: President, D. F. R. Isenberg; vice president, B. F. Dillingham; treasurer, F. M. Swazy; secretary, T. Clive Davies; auditor, Donald M. Ross; directors, A. M. McBryde, Albert Wilcox, R. W. T. Purvis, J. M. Lydgate and T. R. Keyworth. The only change from last year is the retirement from the directorship of W. D. McBryde, and the election in his place of T. R. Keyworth formerly auditor, and the choice of Donald M. Ross as auditor. This change was made on motion of W. A. Kinney, as representing the wishes of the directors and of W. D. McBryde, who felt that it was only due to the staunch fidelity of the agents to the company that they should be given larger representation in the board.

The following are the principal parts of Manager William Stodart's and Treasurer Swazy's reports:

Manager Stodart says: The past season has been rather unfavorable for cane on this island owing to several severe spells of cold and inclement weather particularly in the spring.

Pump No. 1 in Hanapepe valley has pumped 120 days during the period in question; Pump No. 2 in Lawai valley 122 days, and Pump No. 3 in Hanapepe valley 128 days, averaging about 4 1-5th months pumping in all.

The remaining months of the year the plantation was able to run on reservoir water and the mountain streams.

A discharge pipe from the Lawai pump has been run up on East Lawai where most of the planting was done this past year, thus enabling the pump to deliver water to lands on either side of the valley; this pipe line also serves to syphon storage water across the valley in either direction.

Discharges at lower levels from Pumps No. 1 and No. 3 with connecting ditches and flumes have been installed, reducing the lift (when certain fields are being irrigated) at Pump No. 1 by 50 feet and at Pump No. 3 by 65 feet.

As reported last year we then had a reservoir capacity of 48 1/2 million gallons with a water area of 115 acres. With Reservoir No. 8 now nearing completion, we will have a reservoir capacity of about 800 million gallons and a water area of 154.45 acres. In the spring and fall very large bodies of water went to sea for want of means to store them.

At this date we have 4,200 acres in cultivation and purpose taking in for this year an additional area of about 800 acres which will make the total area in cane this fall about 5,000 acres. In addition to this amount the plantation holds 1,500 to 2,000 acres available for cane.

Of the area now in cane, 1,000 acres were brought in this last year, 750 acres of which were reached by crossing the Lawai valley.

There was some considerable hesitation about taking this step particularly on the question of putting a railroad across Lawai valley. The proposition involved the building of three large reservoirs, an expensive piece of railroad work, some 8 miles of ditches, over 400 feet of tunnel, considerable fluming and stone clearing and otherwise the expense of bringing into cultivation over 1,000 acres of virgin soil.

To accomplish this necessitated encroaching upon the reserve of lands held by the Company beyond the original plans of the Directors, but the result has more than justified the step, utilizing at it has a fine expanse of good land, subject to frequent trade wind showers and bringing into use the waters of the Kekee and Aipo gulches hitherto going to waste and connecting up the rest of the plantation with the Koloa lands where the McBryde Sugar Company has been for some years cultivating over 450 acres of good land and giving the Koloa Sugar Company 2-5ths of the sugar for grinding the same. Beginning with next crop this cane will all come to our own mill.

The crop for 1902 yielded 8,235 tons 1,700 lbs., of which 929.10 tons were ground at the mill of the Koloa Sugar Company for which service it was paid out of the yield 371 tons 1,280 lbs.

The crop of 1903 now being harvested and consisting of 1074.19 acres of plant; 434.36 acres of long ratoons and 560.36 acres of short ratoons, is estimated at 12,000 tons. At this writing some 5,300 tons of this yield has been harvested and as it has thus far overrun the estimate, it may be taken for granted that the 12,000 tons will be realized.

The crop of 1904 consists of 1,475 acres of plant, 455 acres of long ratoons, and 470 acres of short ratoons—total area 2,400 acres which at this date is estimated to yield 13,500 tons.

The crop of 1905 and now being planted will consist of about 1,200 acres of plant, 1,200 acres of long ratoons, and probably about 300 acres of short ratoons. With a large percentage of long ratoons available for the first time in this crop, it should show a material increase over the preceding crops where short ratoons have of necessity (pending the development of an extensive acreage) figured so largely.

YIELD OF CANE.

We have thus far on this crop harvested 441.31 acres of plant cane. The yields tabulated are as follows:

Table with columns: Field, Section, Area in Acres, Total Sugar, Tons Sugar per Acre, Tons Cane per Acre, Tons Cane to One Ton Sugar, Avgs. Density, Avgs. Purity. Rows 13-14 and Totals & Avgs.

The fertilization of these fields, representing in value about \$17.50 per acre is substantially short of the standards adopted on most pumping plantations.

Ratoons do as well with us as plant cane and an experiment with a field of 26 acres of second ratoons shows results fully equal to those from first ratoons. On the strength of this showing and similar experiments on neighboring plantations, we will put 500 acres into second ratoons this year.

Since last report we have strengthened and added to the pumps running our centrifugals, put in an automatic cane un-loader, two additional crystallizers and two new concrete waste molasses cisterns of a combined capacity of 350,000 gallons. These improvements with certain other minor changes, coupled with increased facilities for bringing the cane to the mill, have cut the expense of manufacture this season nearly to two-thirds of what it was last season. The expense of manufacture in Janu-

M'BRYDE COMPANY MEETING

(Continued from page six.)

ary was \$3,025 including .157c. per ton for general superintendence, and in February \$2,004 including .153c. per ton for general superintendence, and excluding cost of bags and twine. A further reduction in this line may be expected as we increase our daily output. The average extraction of the mill this season to March 5th with 17% dilution is 93.63.

An experiment with dilution increased to 30% gave 95% extraction.

Our mill as it now stands is more than satisfactory. It is doing most effective and economical work in every respect. Appended hereto are the mill reports for last season and this season to March 5th.

All but 1,639 tons of the crop of 1902 were shipped direct from the plantation to San Francisco. Of the crop now coming off all but 2,000 tons will go the same way. We have been able to effect a great saving by these direct shipments.

An experimental direct shipment of supplies from San Francisco to Elele by one of the packets now running from San Francisco to Makaweli is now about due.

The supply of water for the camps has been increased and improved; wagon roads have been built, materially reducing transportation expenses; and large numbers of trees consisting principally of iron wood, plum and hau trees have been planted.

The Ranch department, running about 1,000 head of stock, has cleared the pasture lands of lantana at a cost of \$2,500.00 and plowed up a hundred acres to increase the feed.

Our operating expenses for the year, exclusive of Interest, Bond Expenses, and Depreciation were \$584,001.24.

More economy and greater efficiency has been brought about in every department and every effort is being made to still further improve.

With a continuance of normal labor conditions we particularly hope to make substantial savings per ton of sugar this year over last in the harvesting and manufacturing departments.

The necessity for further permanent improvements has dropped and the size of our crops has increased so that the plantation is at last self supporting. In other words we now are and from now on should be able to at least pay for every outlay out of our own income including charges for interest and permanent improvements.

Treasurer Swanzy makes the following statements, among others, in his report:

On the 1st day of July, 1900, the Company bonded its property and assets for \$750,000 and issued therefor 750 bonds of the par value each of \$1,000, bearing interest at the rate of six per cent (6%) per annum and payable in ten years from date, with the privilege however, on the part of the company, of redeeming the whole or any part of said bonds, after five years upon any interest bearing date; in other words, from and after the 1st of July, 1905, the Company, twice a year when interest is due and payable on said bonds, can redeem the whole or any part of them at par upon due notice. Of this issue of Bonds \$700,000 were sold at the moderate discount of \$2,857.55, the remaining \$50,000 being utilized for payment of the Company's note of 27 June, 1899, in favor of B. F. Dillingham, Esq.

On the 25th day of April, 1902, the Company authorized a second issue of 6% bonds to the amount of \$2,000,000, payable in 1912 and due in 1922, \$750,000, of which were to be held by the Trustee, the First National Bank of Hawaii (and are now so held), to redeem the first issue of \$750,000. Of the balance of the second issue, to wit, \$1,250,000, 106 bonds together with 49 of the above 6.80c shares of the Treasury stock have been sold for \$105,000, and about 40 contracted to be sold, leaving 1,100 bonds still owned by the Company and which have been hypothecated to Theo. H. Davies & Co., Ltd., the agents of the Company, to secure an overdraft with them, which on this date amounted to \$959,527.59.

The placing of this balance of bonds still owned by the Company, or a large proportion of them, would place the Company at once upon a sure and safe financial footing, by postponing the payment of the principal of the debt owing by the Company for a long term of years, during which it would have abundant time to accumulate a reserve and otherwise at its leisure finance its affairs. No great effort is, however, being made at present to float these bonds, because of the financial depression which has existed throughout the Territory and the lack of favor with which Hawaiian securities have been of late regarded on the Mainland, due chiefly to the depressed condition of the sugar market. It is expected that the great improvement in the sugar market which experts declare to be imminent will render it practicable to place all of these bonds and thereby wipe out the floating debt, and put the financial affairs of the Company in good shape.

MRS. GERTZ WILL FILE A BRIEF

The Endless Case Crops Up Again Yesterday in the Supreme Court.

Mrs. Anna Gertz was on deck again in the Supreme Court yesterday, when her case was called. She announced herself ready to argue against Magoon to the crack of doom if the court was ready to listen but the court wasn't. Magoon has gone to Hilo, and Mrs. Gertz informed the court that she thought she ought to have judgment by default, whatever that would mean in her case. Chief Justice Frear caught hopefully at a suggestion of a brief and inquired if the persistent plaintiff was willing to submit her case on briefs, and Mrs. Gertz said she was. Light-foot appeared for Magoon and was told that he could file another brief if he thought it advisable.

The calendar for the session was called, but only a small proportion of the cases were answered ready. These will be heard in their order. The case of the Territory against Kimura, murder, was stricken from the calendar, the bill of exceptions not having been filed yet.

IRISH LAND BILLS.

Associated Press Cable, Morning Service.
LONDON, March 25.—The Irish land bill provides that \$60,000,000 be granted to enable tenants to buy their farms, the tenants to pay 3 1/4 per cent interest to the Government. The scheme involves, ultimately, between \$500,000,000 and \$750,000,000. Three commissioners will supervise the operations of the law, which will become effective on November 12. There is great interest in the measure and it is conceded that it will pass. Press and party comment is favorable.

SUGAR FACTORY FOR PHOENIX.

Associated Press Cable, Morning Service.
PHOENIX, A. T., March 25.—A big factory is to be built here.

TIDAL WAVE ON SOUND.

Associated Press Cable, Morning Service.

REASONABLE PRICES.

Same Old Stand Union Street

WOULD LIKE TO COME.

WASHINGTON, March 25.—President Roosevelt thus far has not received an invitation to visit the Hawaiian Islands while on his western trip. It was said at the White House today that while an opportunity to visit the Islands would please the President, it would be impossible for him to do so on his approaching trip without disarranging the entire schedule. That it was said, is absolutely impracticable. President Roosevelt hopes at some future time to gratify the desire of the Hawaiians and his own wishes to visit the islands.

Better than a plaster. A piece of plaster (impregnated with Chamberlain's Pain Balm) and bound to the affected parts is superior to any plaster when treated with lime juice, or saline if the skin is chafed, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. All Dealers, Henson, Smith & Company, general agents, Seattle.

NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

THE WEATHER.
Weather Bureau, Honolulu, 1 p. m. Wind light N. W. to W.; weather clear to cloudy; will be fair tonight. Morning minimum temperature, 58; midday maximum temperature, 75; barometer, 9 a. m., 29.94 steady (corrected for gravity); rainfall, 24 hours ending 9 a. m., 0; dew point, 9 a. m., 52; humidity 9 a. m., 52 per cent.
CURTIS J. LYONS, Observer.

The S. S. Coptic sails at 4 p. m. today for the Orient.

President C. B. Cooper, of the Board of Health has gone to Hilo.

The S. S. Alameda is expected tomorrow morning, from San Francisco.

The steamer Mauna Loa goes out on her regular run tomorrow at noon.

Hong Lee was fined \$6 this morning by Judge Wilcox for cruelty to animals.

No advices have been received at the Naval station regarding the appointment of the new commandant.

One solitary drunk was in Judge Wilcox's court this morning. The defendant was fined \$5 and costs.

The list of officers of the German Benevolent Society appears on Page 5.

The S. S. Gaelic is expected Saturday morning from the Orient. She will sail Saturday afternoon for San Francisco with mail.

The bark Alden Besse sails tomorrow morning for San Francisco with 20,000 sacks of sugar. She will carry five passengers.

A Lindsay Jr., who was sent to San Francisco with requisition papers for Wray Taylor is booked to return on the Alameda tomorrow.

The whaler Gayhead came off the port yesterday afternoon but drifted away again before Captain Fisher could get aboard. She will probably come up again today.

There was a big crowd at the post office last night waiting for the mail that arrived by the Coptic. Even as late as 11 o'clock there were still a good many people there.

The building at the corner of Punch-bowl and King streets, which the Board of Health ordered destroyed, and which the owner refused to destroy is now occupied as a small grocery store.

The five native boys charged with stealing coal on the water front by the 15th market were committed to the circuit court this morning by Judge Wilcox to answer to charges of larceny in the second degree.

The S. S. Nevada sailed from off the port last night for Kahului. She was detained sailing, owing to the presence of Captain Weedon her master and several other officers, being required at the salvage trial of Sprackles against the Nevada. Mate Follis took the vessel to Kahului as Weedon remained behind.

A CURE FOR HEART FAILURE

A BOSTON DOCTOR CLAIMS TO HAVE FOUND A REMEDY—MUST BE GIVEN PROMPTLY.

NEW YORK, March 15. Heart failure may at least be dealt with effectively. A man or woman stricken suddenly, collapsing without apparent reason, may be saved if promptly treated with the proper remedy. At least such is the theory of Dr. George Crile, announced to the Boston Medical Society. He has been conducting some special experiments bearing upon the question of the sudden collapse of persons not suffering with heart disease (especially during surgical operations) and claims to have found a specific which will restore the circulation of the blood and bring the sufferer back to perfect normal health in the substance called adrenalin, which is nothing but the secretions of the glands over the kidneys, extracted chemically.

The discovery of Dr. Crile is coincident with the announcement of Dr. Sargous of Philadelphia, that it is through the action of this secretion that the blood absorbs the oxygen from the air and transfers it to the tissues of the body.

Dr. Crile announces the efficacy of adrenalin in restoring the circulation of blood when for some reason it has ceased to flow through the veins and arteries as it should. But Dr. Crile is revolutionary also in his study of "shocks" and "collapse," two forms of sudden death hitherto attributed to heart failure. Dr. Crile has reached the conclusion that the vaso-motor center becomes exhausted in a complete shock. If, then, the shock be only a breakdown of the vaso-motor center, the stimulants usually administered must be considered. Strychnine was found of no value in forty-eight experiments. In fact, it was found that the after-effects of strychnine were to make the shock still greater. Nitro-glycerin was only temporary in its effect.

Dr. Crile then experimented with the saline solution, of which so much has been said and written, and found that it was purely a mechanical aid to circulation, and, while temporarily increasing the blood pressure, it finally causes death by interfering with respiration. On the other hand, it was found that in the normal animal in any degree of shock, adrenalin caused a marked, even an enormous, rise in the blood pressure. A dying patient has been kept alive for nine hours by a continuous administering of adrenalin. Thus it appears that in adrenalin Dr. Crile has found a substance which will prevent many a patient about to die from shock beneath the surgeon's knife from so dying, and give surgeons a chance to overcome the momentary lack of vitality.

NEW ADVERTISEMENT

Election of Officers.

GERMAN BENEVOLENT SOCIETY.
At the annual meeting of the German Benevolent Society the following officers were elected to serve during the ensuing year, viz:
President.....F. A. Schaefer.
Vice-President.....H. A. Isenberg.
Treasurer.....F. Franzius.
Secretary.....J. F. Eckhardt.
Auditor.....H. J. Nolte.
Trustee.....H. Schultzze.
F. FRANZIUS, Acting Secretary.
Honolulu, March 26, 1903.

and restore the vital spark of one who would have otherwise died.

Dr. Crile also conducted some experiments dealing with what he terms "collapse" where there is a sudden fall of blood pressure from hemorrhage, from injuries to the vaso-motor center, or from failure of the heart to act. Here stimulants may be of some value, electric burning or the use of a saline solution. But suppose the animal is apparently dead, the heart suspended in operation. Blood pressure must then be controlled.

SCIENCE TO THE AID OF DEAF MUTES

INVENTION OF A YOUNG ELECTRICAL ENGINEER WHICH ENABLES THEM TO HEAR.

NEW YORK, March 15.—The Sun says: Science has made it possible for even deaf mutes to hear. The fact was demonstrated this afternoon at the laboratory of Miller Reese Hutchinson, a young electrical engineer in this city, in the presence of a few physicians. The Duke of Newcastle, who is visiting here, and fifteen or twenty men and women prominent in fashionable society of New York were also present. The company was called together to witness the test of "Acousticon," an invention of Hutchinson's, upon several inmates of the New York institution for the instruction of the deaf and dumb.

"Acousticon" is a device involving all the important principles of the telephone, plus the additions which Hutchinson's invention give it. The effect of it is to give such intensity to the sound waves that they will penetrate ears that have never before heard sound.

An instrument carried to the ears of several inmates of the deaf mute institution this afternoon the first sounds they had ever heard. The expression on the faces of some of the deaf mutes, when they heard, was so patently joyous that many of the women present looked on with moist eyes.

Hutchinson is a native of Mobile, Ala. He has been at work on his invention for several years. Last year he went to England and showed what his machine could do in several institutions for the deaf and dumb in London. Queen Alexandra saw one of the tests and asked the inventor to give another at Buckingham Palace. He did so, and the Queen gave him a gold medal.

HOW THE CANAL BILL PASSED

(Continued from page five.)

quired to construct the canal and charged recklessness in rushing into such an enterprise as he declared was being done.

After Senator Daniel had closed several other senators on both sides of the chamber addressed the Senate in fifteen minute speeches for and against the treaty. Among those who spoke against it was Senator Morgan, who devoted himself especially to the question of the necessity for adequate defenses of the canal which, he said, could be assured only by the United States. He asserted that Senators were not thinking for themselves, but were following blindly in the lead of the Secretary of State. Indeed, he declared Senators were practically surrendering their own offices in order to maintain a reputation for party allegiance.

Senator Platt of Connecticut was also among the speakers. He was one of the very few Senators, if not the only Senator, to announce his entire satisfaction with the treaty. He referred to the fact that a number of Republican Senators had said that if they had had the making of the treaty they would have changed some features of it, and declared that he deemed the treaty the best that could have been made, and said that so far as he was concerned he would not have changed it in any respect. He criticized the Democratic Senators for using undue minuteness in the efforts to find defects in the agreement.

When, at 4:45 p. m., it became apparent that the fifteen-minute speeches had been concluded, Senator Morgan surprised the Senate by refraining from presenting any more individual amendments and by presenting all of the fifty which he had prepared in one block, submitting them with portions of the text of the treaty which he had not changed as a substitute for the whole agreement. He did not demand a roll call, and the substitute was voted down viva voce almost unanimously.

It was now a few minutes past 5 o'clock, and Senator Morgan took the floor to make the last of his long series of speeches in opposition to the treaty. In accordance with the unanimous agreement, he spoke for an hour, and in order to confine himself to the time and to make the points he desired to make, he had prepared his speech in advance. He read deliberately, but in a firm voice, often digressing in order to emphasize a point. He stopped speaking at the expiration of his allotted time, whereupon Senator Cullom, chairman of the Committee on Foreign Relations, took the floor. He also read his speech from manuscript, presenting a carefully prepared and businesslike summary of the reasons for ratifying the treaty and for constructing the canal. Senator Cullom occupied only about three-fourths of the hour allotted to him, and when he had concluded the question as to whether the treaty should be ratified was promptly put before the Senate. The hands of the ancient clock in the rear of the Senate chamber indicated 5:50 o'clock when the

AUCTION SALE OF RARE WOODS.
ON FRIDAY, MAR. 27, AT 12 O'CLOCK NOON.

At the Government Stables, King street, and when that sale is finished then at Thomas Square, I will sell at Public Auction, by order of the Superintendent of Public Works, all of the rare woods recently cut down in Thomas Square, consisting of Miu, Kamani, Silver Oak and many other varieties. Much of this wood is well suited for calabashes and decorative purposes.

Beattie 1494 Fort Street near School street, I will sell at Public Auction all of the household furniture consisting of Parlor chairs, cane chairs, and rockers, rugs, center tables, lace curtains, poles and shades, pictures, hanging lamp, handsome oak bedroom set, iron beds, nets, sheets, blankets, pillow slips, feather pillows, extension table, glassware, crockery, oil stove, kitchen utensils, ice box, meat safe, etc., etc.

JAS. F. MORGAN, AUCTIONEER.

AUCTION SALE OF Brick Building.
ON FRIDAY, APR. 3, AT 12 O'CLOCK NOON.

I will sell at Public Auction by order of the Board of Trustees, the brick building known as the Odd Fellows Hall, situated on Fort street, near King street, together with the adjoining wooden buildings.

Terms Cash. U. S. Gold Coin. Thirty days time for removal of building.

JAS. F. MORGAN, AUCTIONEER.

roll call began. All the Senators in the city occupied their seats, and all were prompt in responding when their names were called. The vote resulted in the ratification of the treaty by 13 to 5. The result was no surprise, for all had predicted that when the offered amendments had been disposed of the treaty would be approved by an overwhelming majority, such proved to be the case. Indeed, the roll call had proceeded for some time before a single voice was heard in the negative, the first opposition vote being that of Senator Daniel of Virginia. After another long lapse Senator Daniel was joined by his colleague, Senator Martin, and after them came the two Alabama Senators, Messrs. Morgan and Pettus. Senator Teller of Colorado also voted in opposition, and his was the last vote on that side of the question. When Senator Frye, who occupied the chair, announced the result there was no demonstration, and at 7 p. m. the Senate had adjourned for the day. Before this result was reached, however, it had been decided to meet again tomorrow at 11 o'clock for the purpose of taking up the Cuban treaty and with a hope of concluding its consideration, in order that the Senate might adjourn finally tomorrow.

The Panama canal treaty between the United States and Colombia, which was ratified today, was signed at Washington on January 22, 1903. It was negotiated by Secretary Hay on the part of the United States and Thomas Herran, Charge d'Affaires, on the part of Colombia, who signed the document. On January 23 it was sent to the President and by him sent to the Senate on the same date. It was referred to the Committee on Foreign Relations on the same day and reported back on February 8th. The treaty was discussed at some length during the last Congress. On March 5th, the day the special session of the Senate convened, the treaty was again referred to the Committee on Foreign Relations, and on March 9th was again reported to the Senate, since which time it has been under discussion. Neither in committee nor by the Senate was the treaty amended and it was ratified as first negotiated.
