NAVAL RESERVE SHIP AT HONOLULU

BOSTON BANDITS DEAL OUT DEATH

(Special Cable to The Star.)

BOSTON, July 23.—A police posse, which was all night giving chase to the desperadoes who yesterday at Jamaica Plains killed the watchman of a saloon they were attempting to rob and fatally wounded two others and slightly wounded eight others who joined the chase, this morning overtook the outlaws near Forest Hill Cemetery and opened fire. One of the bandits was riddled with bullets, but two others managed to effect their escape, running amuck and killing a citizen and wounding ten others in responding to the fire of the police who continued the chase.

LEADERS CONFERRING

(Associated Press Cable to The Star.)

OYSTER BAY, July 23.—President Roosevelt, Republican Presidential Nominee W. H. Taft and Secretary Root are holding a conference here today.

ROYAL SALUTE GIVEN

QUEBEC, July 23.—The Prince of Wales today opened the great historical pageant in this city in celebration of the tercentennial of the landing of Champlain at the site of the present city. The prince later visited U. S. S. New Hampshire, here in his honor, and was given a royal salute by the United States warship.

NEW WORLDERS WIN

LONDON, July 23.—In the two-hundred-meter dash, Kerr of Toronto, Canada, won the decision today. In the four-hundred-meter dash Carpenter, American, won, but the race was declared void on account of interference. Much indignation was manifested on this account. In the standing high-jump the American, Ewry of the New York Athletic Club, was awarded the decision.

BRYAN QUILTS DESK

LINCOLN, July 23.—William Jennings Bryan, Democratic nominee for the Presidency and editor of The Commoner, today gave notice of his retirement from the editorial chair during the campaign.

ARBITRATION STANDS

WASHINGTON, D. C., July 23.—The emperor of Japan has ratified the United States-Japanese arbitration treaty.

HILO ATTORNEY IS HAULED OVER COALS

CHIEF OBJECT OF ADMINISTRATION PROCEEDINGS IN ESTATE MATTER HAS BEEN THE ACCUMULATION OF ATTORNEY'S FEES, SAYS THE SUPREME COURT IN DECISION RENDERED THIS MORNING—ADVICE NOT IN INTEREST OF CLIENT.

The Supreme Court handed down an interesting decision this morning in the matter of the estate of David Kamaiiali, deceased, in which Attorney J. S. Ferry of Hilo is hauled over the coals. The case comes from Hilo and is over property left to two minor children, amounting in value to \$1500.

HAWAIIANS FOR AMERICAN NAVY

BIG FLEET INTELLIGENCE OFFICERS RECOMMEND NAVAL TRAINING SHIP FOR HONOLULU AND BELIEVE HAWAIIAN-AMERICANS AND PORTUGUESE-AMERICANS OFFER SPLENDID MATERIAL—MIGHT ORGANIZE TO SHOW THEIR DESIRE.

Aboard vessels of the big fleet which yesterday resumed its world voyage, heading hence for Auckland, New Zealand, there are men of the government intelligence system who make careful reports to Washington relative to all things of import concerning the fleet and the places visited and conditions of peoples and things thereat.

Embodied in the recommendations going to Washington from here will be one of great interest to Hawaiians and others in these islands, for it is suggested that Honolulu is an ideal place for the stationing of a Naval training ship and that there are here hundreds of Hawaiian-Americans, Portuguese-American and other young men who would make most excellent material for the United States navy, a large proportion of whom have apparently no very definite aim in life.

Should there be a move here, say the coming together of a few hundred young men desiring to join the navy, the declaration of their intentions would materially assist in the movement for a training ship in these waters. They might organize here and make it known that they are ready to join the navy. Any amount of literature on the subject can be obtained free by addressing the Bureau of Navigation, Washington.

The Navy is advertising for men and this is what is contained in one of the calls for men:

"There is plenty of work for the ambitious young American in the United States Navy. The Navy is a liberal teacher, whose first care is to help every young man find out what he can do best—then to help him learn how to do it.

"Life in the Navy is healthful and interesting. There are lessons, drills and work; there are also hours free for recreation, sports and study. The training you get makes you an all-round, efficient man—smart, quick and practical. This country is proud of the men on board its warships.

"Whether you stay, with the Navy or go back to civil life, you are better equipped to make your way than before you entered the service. If you know a trade, you get higher wages to begin with and quicker advancement. In the Navy the apprentice has the chance to make himself master of his trade. There are many opportunities for men who will go good work in the Navy—new ships building every year.

"The navy particularly wants young men who are ambitious to build a future for themselves in the Service. You may get one or two friends to go in with you and be together."

Intelligence officers aboard the battleships of the big fleet studied conditions while here and heartily recommend this port as a station for a naval training ship. There are available vessels not now assigned, any one of which could be and may be sent here as a result of the recommendations which have gone forward.

Hobron Roasts Skipper Harris

BALLAST SHOULD HAVE BEEN TAKEN OUT OF CUP RACER—CAPTAIN HAD NO EXPERIENCE EXCEPT ON FREIGHT-CARRYING SCHOONER—EX-HAWAII YACHTSMAN FORETOLD EXACT ORDER OF THE FINISH.

T. W. Hobron, the local yachtsman, and former owner of the "Gladys," who is now on the Coast, was a wonder at picking the winners of the trans-pacific race. He wrote a letter to T. V. King, of this city, who is one of the hul which bought the "Gladys," in which he made his prediction of the finish and also gave his reasons for saying that he thought the Hawaii would lose.

Besides this Mr. Hobron gives his opinion in regard to the Hawaii, which should certainly be of interest here, after the race and the comments which have appeared on its result. The following extracts from the letter, which arrived by the Matson steamer "Lurline," before the racers came in, tell the story:

"It would seem to me, from the showing at the start, the order of their arrival off Diamond Head would be, Lurline, Gwendolyn, Lady Maud, Hawaii. Harris made rather a poor start when he had such a quick working boat as the Hawaii to handle. Of course, he may understand the game, but if I were going into a running race like this, all inside ballast possible would come out. The boat with least displacement off the wind will be fastest. She does not require stability, for all heavy pressure is directly fore and aft. From all accounts she is slow and sluggish, and must be carrying excessive ballast. A skipper from a beamy freight-carrying schooner, always used to sailing on her bottom,

cannot understand that a modern yacht's lines are such, she sails fastest when heeled down to her rail. Then she gets the big leverage that the deep outside keel gives.

"Bacon, designer of the Gladys, said she would be best when heeled down to her rail. Then her diagonals become longest and easiest. This is not so with old types like La Paloma and the Lurline, for their hollow lines forward cause a big lump near the fore rigging that hinders rapid progress through the water."

SAILORS' PARTY.

About seventy sailors intercepted an ice cream freezer from the Young Cafe and held a party on the dock.

WELL NAMED.

Chamberlain's Cough, Cholera and Diarrhoea Remedy is just what its name implies. For pains in the stomach, cramp colic or diarrhoea, it has no equal. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

THE SOLE AGENCY.

Through his agents in Japan, K. Yamamoto, wholesale merchant, secured the sole agency for Tengu Brand Japanese Rice. The sale of this well known brand is daily increasing. Phone 399. Hotel street near Nuuanu.

Fine Job Printing, Star Office.

CASH FOR FORESTS

FEDERAL GOVERNMENT GIVES \$1,000 TO PLANT MOUNTAIN TREES IN HAWAII.

Forester Hosmer was in good humor this morning as the result of a letter received by him from the Federal Bureau of Forestry. He has been notified of the fact that the Federal department has set aside \$2,000 to be utilized in this Territory for the planting of forest trees at high altitudes on the mountain slopes.

In speaking of the matter Mr. Hosmer stated that the appropriation had been made last year but that the Comptroller of the Treasury had decided that it could not be used in Hawaii. While Governor Frear was in Washington during the spring, he and Mr. Hosmer took the matter up and as the result of their work the Comptroller has reversed his decision.

Pine, fir and spruce trees will be planted and the slopes of Mauna Kea, back of Waimea, and of Haleakala will be utilized for the work. The planting will be experimental and will be done in small patches of a few acres each. If it should prove to be successful larger areas will then be utilized. The experiment will be tried at various elevations and will be made thorough in every way.

TWO PLAYS TONIGHT

There are two choice plays on at the Opera House this evening, Lady Fortune and Second Thoughts, both of which are creating a great deal of pleasant anticipation. The players in each are well known and their special talents are often discussed as responsible for much real entertainment to theatergoers in this community.

Dr. and Mrs. Humphris, whom Ella Wheeler Wilcox thought were the two cleverest amateurs this side of the Rockies, are the main attractions in Lady Fortune, while Miss Grace, Miss de l'Artigue and Edmund Arnold are the spirits of Second Thoughts. Miss de l'Artigue's beautiful hair is all her own, so don't strain the opera glasses.

The sale of seats for these Kiloheua Art League plays tonight has been very good and a large house is promised. There are still many good seats left in the gallery which ought to be taken by school children, as the Art League plays are always educational. The rehearsal last night went very smoothly. Mr. Harvey has been a great find for the League. Lady Fortune and Second Thoughts will both be the better for his guidance. The bill will be repeated Saturday night.

CRUISER COMING

Six hundred miles out, Kahuku last evening heard the U. S. S. Milwaukee wireless to Honolulu.

At the Naval station it is reported that the Milwaukee is expected here Saturday from the Coast.

The Milwaukee is a protected cruiser of fourteen guns, commanded by Commander Charles A. Gove and is a vessel of the third division, second squadron of the Pacific fleet.

Consul General Saito has been ordered home to Japan and will leave with Mrs. Saito on August 8. It is supposed he will be appointed head of the immigration section of the Foreign office.

Fine Job Printing, Star Office.

SPERRY ASKED TO CALL MEN BACK AT MIDNIGHT

The orders of Admiral Sperry ending all shore leave at one o'clock in the morning, were, it is stated, in response to a request from Honolulu. The request received by the admiral was that he call his men in at midnight while they were here, but he extended the time an hour. The letter sent to the admiral put the request on the ground that the men should not be allowed out after midnight, as they would be a menace to Hawaiians if out all night. According to reports of the fleet the letter did not at all please the admiral. It is regarded by some members of the fleet committees here as responsible for the cutting short of the visit and the unusually strict limits on shore leave and paying off here.

A FINE AD

The following is one of a number of similar expressions made by local business men: "Honolulu, July 23, 1908. "HAWAIIAN STAR, Honolulu. "Dear Sirs:—We take pleasure in letting you know that on the first day that the fleet men were ashore a large number of them called at our store to make purchases of Regal shoes and many of them mentioned having on their way down, seen our advertisement in The Star's fleet edition distributed in San Francisco. This was repeated from day to day while the fleet was here. We feel that the Regal Ad in the fleet edition was one of the best paying Ads we ever had. Yours very truly, "REGAL SHOE STORE."

POLICE FIZZLE

ARRESTS WITHOUT PROPER EVIDENCE AND POOR PROSECUTION OF WOMEN.

A lot of valuable time was wasted in police court this morning because of lack of evidence and lack of prosecution in the matter of charges against a bevy of Japanese women from the region of the gas-tanks.

Frank Thompson defended and Lyle Dickey was down for the prosecution which did not come off unless the proving of the fact that a woman had sat in the doorway of a room of a house that once had a poor reputation was prosecution.

Judge Andrade declared that there was no evidence and discharged the first woman arraigned.

Then Dickey started in on a line of ten, one by one.

Officer Townsend, Chief of Detectives Kalakela, Board of Health Agent M. I. Silva and others testified to old conditions, but threw no certain light on alleged recent or present conditions in the district which has of late occasioned talk.

The women were charged with violation of the moral code, but absolutely nothing was shown in the evidence of any violation.

Thompson, summing up, drew the

UMPIRES CHOSEN

F. E. Steere, one of the best short stops that the Pittsburg National League team has ever had, has been chosen to act as umpire with Charley Albright in the future games this year. They will take turns during the game in calling balls and strikes.

The choice of these two men has been very satisfactory to every one interested in the great national game.

MID-SEASON TRIMMED HATS.

These swell hats now being shown at Sachs include all the prevalent style ideas of Eastern and European cities.

Best cup of coffee in the city at New England Bakery.

Court's attention to the law which required proof and suggested that it was a question of fact and not a matter of possibility; it was a matter of substantiation, not of appearances.

M. I. Silva testified "by the registry card," a system to which Attorney Thompson referred as being a graft that had been abolished about six months ago.

The defendants were not even properly charged and the trouble of the police, who had made the arrests, apparently, at inauspicious moments, was in vain.

A High-Class SHOE

RUSSIAN BUDGET OVER A BILLION

Large expenditures for military purposes have been proposed by the Russian government, and thus far they have received the approval of the Duma apparently without any friction whatever. On Tuesday the Duma adopted a bill authorizing the expenditure of \$46,000,000 for army supplies and material. On the same day it gave its tentative approval of the War Office programme for the expenditure of \$100,000,000 more for the same purpose in 1909-11. Prior to that it had authorized the approval of an expenditure of more than \$300,000,000 to assure the defense of the Far Eastern possessions of the empire. Criticism has been expressed of the double-headed and triple-headed authority existing in the army, and it has been met with the announcement that the Emperor contemplates making reforms. This general statement seems to have been satisfactory to the Duma, for it passed on Thursday a budget amounting to \$112,500,000 practically without a change. A noteworthy indication of the change of spirit in the present Duma, as compared with the former ones, is that the opposition has refrained from criticizing the existing system of taxation.—Bradstreet's.

THE LOG-BOOK

The following affects the List of Light and Fog Signals, Pacific Coast, 1907.
HAWAII.
 Honolulu Harbor Channel Light, No. 4, page 68, No. 323 (List of Lights, Buoys, and Daymarks, Twelfth Light-House Subdistrict, 1908, page 18.)—Located in about 25 feet of water, about 70 feet to eastward of the eastern edge of the 35-foot dredged channel into Honolulu Harbor, southerly side of the Island of Oahu, abreast of and about 540 feet ESE 3-4 E from Light No. 3.
 The structure supporting this light, carried away July 21, 1908, and the light extinguished, will be rebuilt and the light reestablished as soon as practicable.
 A 2d-class nun buoy, numbered 4, will temporarily mark the position of the beacon.
 By order of the Light-House Board.
 STANFORD E. MOSES,
 Lieutenant Commander, U. S. Navy,
 Assistant to the Inspector, 12th Light-House District.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JULY 4, 1908.
GENERAL SUMMARY.
 Honolulu, July 6, 1908.
 The mean temperatures reported were higher than those of the previous week 0.4 deg. to 1.2 deg. on Hawaii, excepting in the southern portion of the Kau district; 0.2 deg. to 1.7 deg. higher on Oahu; 0.2 deg. to 3.3 deg. higher on Maui, and 1.3 deg. higher on Molokai, and 0.1 deg. lower on Kauai.
 The rainfall for the week was below the average of ten or more years at all stations having such records in the section from which reports were received. The deficiencies, in inches, on Hawaii ranged from 0.21 to 0.81, 0.12 to 0.36 on Oahu, and 0.11 on Kauai.
 All stations report less rainfall than during the previous week, excepting no change at Pahala, Hawaii, and Kihai, Maui. The greatest deficiencies occurred in the Hilo and Puna districts of Hawaii, and varied from 1.13 to 1.37 inches, and 1.32 inches in the Hana district of Maui. The deficiencies in the remaining districts were: Hawaii—Kau and Hamakua 0.00 to 0.28 inch, excepting 0.80 inch in the southwestern part of the Hilo district; Maui—Kula and Lahaina 0.00 to 0.12 inch; Oahu—0.06 to 0.53 inch; Kauai—0.02 to 0.63, and Molokai 0.27.
 The greatest amounts of rainfall reported were from the Hilo district of Hawaii, and ranged from 1.17 to 1.70 inches. The greatest amount reported from the remainder of the stations was 0.53 inch.
 No rainfall occurred at two stations in the Kau district of Hawaii; at two on the leeward side of Maui; at two in the Koolau district of Oahu and a trace in the Ewa district, and at two in the Kona district of Kauai.
 Due to an alteration in mail schedule reports from 36 stations are missing.
 The weekly average of temperature and rainfall for Oahu was:
 Temperature. Rainfall.
 Oahu 77.1 deg. 0.02 inch.

At the local office of the U. S. Weather Bureau in Honolulu partly cloudy weather generally obtained, with .01 inch of rainfall on the 4th, 0.22 below the weekly normal, and .25 less than during the preceding week. The maximum temperature was 82 deg., minimum 72 deg. and mean 76.3 deg., 1.6 deg. lower than the normal and 1.0 deg. higher than last week's. The mean daily relative humidity, varied from 61 per cent to 72 per cent, and was 65.3 per cent. for the week. Northeast winds obtained, with an average hourly velocity of 7.7 miles. The mean daily barometer ranged from .06 to .09 inch above the normal, and the mean for the week, 30.08 inches, was .07 inch above the normal.

U. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month July for 33 years.
TEMPERATURE.
 (18 years 1890-1907.)
 Mean or normal temperature, 78 deg.
 The warmest month was that of 1900, with an average of 79 deg. The coldest month was that of 1894, with an average of 76 deg. The highest temperature was 88 deg., on the 18th, 1900. The lowest temperature was 63 deg., on the 1st, 1899.
PRECIPITATION.
 (Rain 21 years, 1877-94, 1905-7.)
 Average for the month, 1.43 inches.
 Average number of days with .01 of an inch or more, 14.
 The greatest monthly precipitation was 6.03 inches in 1880. The least monthly precipitation was 0.34 inches in 1882. The greatest amount of precipitation recorded in any 24 consecutive hours was 3.17 inches on the 12th, 1880.
RELATIVE HUMIDITY.*
 Average 9 a. m., 66 per cent; average 9 p. m., 72 per cent (1893-1904.)
 Average 8 a. m., 66 per cent; average 8 p. m., 70 per cent (1905-7.)
CLOUDS AND WEATHER.
 (18 years, 1890-1907.)
 Average number of clear days, 17; partly cloudy days, 17; cloudy days, 1.
WIND.
 (Direction, 23 years; velocity, 3 years.)
 The prevailing winds are from the NE, (1875-94, 1905-7.) The average hourly velocity of the wind is 8.4 miles (1905-7.) The highest velocity of the wind was 27 miles from the NE., on the 6th, 1905 (1905-7.)
 Station: Honolulu, T. H.
 Date of issue: June 29, 1908.
 *9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

POLICE TO SPEAK PURE ENGLISH

TASK A CHICAGO SERGEANT HAS
RESOLVED TO TACKLE IN DEAD EARNEST.

CHICAGO, July 6.—"Say, sarge, I piped this tad breezin' along Lake street an' the minute I slanted his map I knowed he'd been mugged an' done his ten-year bit in—"

"Officer, will you be so obliging as to massage your verbiage?"
"Wot? Well, as I was sayin' before you chirped, I told this staw it was the hoodle-hoodle wagon for his, an' he said that if I nabbed him he'd get hunk with me, an' I—"

"Officer, officer, prithee, pause and grant me the modest boon for which I yearn. It becomes me not to descend to a comprehension of the raw condition of your speech vent. But if I mistake it not, you wish to impart to me the information that you have trespassed on the liberty of a gentleman whose autobiography is blackened by ten years' incarceration. Is that not your drift?"
"Say, are we driffin' or are we sinkin'?" Who learned you them funny noises, sarge?"

This is merely a sample-copy dialogue from the Oak Park police station. Oh, things are getting lively in that dear suburb! Sergt. Edward Downs began a course on "Good English in Easy Doses" for the benefit of his men today. He joined the Speech Arts association during its convention in Oak Park last week and his life aim just now is to glue together the split infinitive and to sandpaper the slang eruption.

His policemen are taking it philosophically. Whenever he chides them for a verbal misstep they humbly ponder the error and resolve to have their speech manicured. Treatises on grammar are to be borrowed from the local high school and the squadron promises to become a hall of culture and a temple of uplifting and educative influence. Smart city lawyers will no longer be able to visit the simple suburban justice court and overwhelm the local police with soaring oratory. Neither will the Oak Park resident be able to carp at the satutations of the suburban watch.

"The sarge is sappy over culturine," confided one promising scholar.—Daily News.

WHIST MEN RALLY IN NEW YORK
Players Gather to Take Part in Eighteenth Annual Tourney.

NEW YORK, July 6.—Whist players from all over the country have arrived in town to take part in the eighteenth annual congress of the American Whist league, which begins this morning and will last a full week. The whist players are full of serious purpose, and the program does not contemplate much sight-seeing for even the out-of-town members of the league. It calls for whist playing morning, afternoon and night.
The league is made up of over 100

CZAROVITCH OF RUSSIA.

CONGRATULATES U. S. ON VISIT

JAPANESE PAPER REFERS TO THE AMITY EXISTING BETWEEN THE TWO COUNTRIES.

TOKIO, Japan, July 6.—The Kokumin Shimbu heartily congratulates Japan upon the forthcoming visit of the American battleship squadron and upon recent diplomatic events. It says that these, even if taken singly, would prove the falsity of the wild rumors recently set afloat. Japan and America, the paper maintains, have never disagreed as to the necessity of maintaining the peace and welfare of each country and of faithfully and mutually respecting their territorial rights and interests.

Because of America's traditional policy with respect to Japan it is most apparent, continues the editorial, that the visiting fleet is itself a messenger of peace and that its sojourn in Japanese waters will be a powerful reminder of the ever-increasing friendship of the two countries. It mentions with appreciation America's prompt consent to the exhibition in Tokio and its willingness to appropriate a large sum for participation in the fair.

The Kokumin Shimbu further points out that America led the powers in opening Japan to the world and that recently it has concluded commercial, arbitration and trade mark treaties with this country. These facts, it maintains, establish American-Japanese relations on a permanent basis, as they virtually constitute an unwritten alliance.

TRY THIS FOR CHRONIC DIARRHOEA.

Many sufferers from chronic diarrhoea have obtained prompt relief by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Some of the worst cases of this disease have been permanently cured by it after other treatment and skilled physicians had failed. Try it and you are certain to be pleased with the result. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

The membership runs into thousands. It is expected that at least 500 will sit down to play today. A long list of prizes has been provided for the winners during the week. A simple high-score pin of the league is much sought after by whist players, who will travel hundreds of miles to capture one. The reward for skillful playing most sought after is the Hamilton club trophy, a silver cup, which was last won by the Grand Rapids (Mich.) club.

Though the winner of all the league prizes will be confined to the members, provision has been made for playing by nonmembers who desire to meet worthy opponents in whist warfare. The officers of the league are David Muhlfeld of Albany, president; E. Cooper of Shelburne, Tenn., vice-president; B. G. Comstock and E. A. Montgomery of Milwaukee, treasurer and secretary.

LAND COMMISSION

An Advisory Land Commission was appointed yesterday afternoon by Governor Frear, which will have the task of looking over the land laws of the Territory and suggesting such changes as they believe advisable. Governor Frear states that he will take the report of the committee, as well as any minority report which may be made, with him to Washington for presentation to Congress, when he makes his trip this fall.

The personnel of the commission is as follows: A. Lewis, of the firm of Smith & Lewis; W. A. Kinney, of the firm of Kinney, Prosser & Marx; S. M. Kanakani, of the Government Survey office; Joseph P. Cooke, of the firm of Alexander & Baldwin; William B. Thomas, the pineapple planter, and Carl S. Smith, the Hilo attorney.

STORIES ABOUT WORDS.

"It is time," observes a writer in the London Chronicle, "that the term suffragette was abandoned, as the suffragist movement has taken its serious place in politics. The word is not worth preserving. It is used as a term of reproach and does not enrich the language. Women do not want the vote in order to maintain a distinction, but in order to obliterate it. They want to be suffragists and citizens just as men are. Therefore, we have no place for such a mongrel word as 'suffragette' in our political vocabulary. The latest addition to political terminology is more useful. It is 'platforma.' It was invented by John M. Robertson, M. P., and is intended to describe something rather indefinite in

the way of political pledges—something which is partly a formula which politicians should adopt and at the same time is supposed to have a place in the party platform."

Old-fashioned etymologists used to say that the word "ogre" commemorated the sufferings of Europe during the ninth and tenth centuries at the hands of the ravaging "Oigours," or Huns. This derivation, however, is not abandoned. "Ogre" which reached the French language by way of Italian and Spanish, is really Orens, the Latin hell, afterward the god of the underworld. In Romanesque folklore this god became a shaggy, black, man-devouring monster, with a particular taste for lost babes in the wood.

"Banai" is the only Japanese word that most Americans know. According to a contributor to Notes and Queries, it is only about fifteen or sixteen years old. Its birthplace was the imperial university of Tokyo. It was invented by Dr. Shigeno, one of the highest authorities on Japanese literature, in response to a request for an equivalent to the English "Hurrah." As a brief way of expressing congratulations "banzai" has traveled all over the world.

"SMART" ENGLISH.

The speech of the smart man and woman sufficiently betrays the modern attitude. To speak good English is middle class. Not only in such obvious forms as "ain't" and the clipping of the final "g" is this evident, but also in the choice of words and phrases. The modern vocabulary is very small, and the greater part of it is composed of slang.—Mrs. Humphrey in Black and White.

RUSSIAN JEW THE SENIOR WRANGLER.

For the first time in the history of the University of Cambridge the senior wranglership has been carried off by a student who is a foreigner, a Russian and a Jew. Mr. Brodetsky, who has been bracketed senior wrangler along with Mr. Ibbotson, belongs to a Russian family driven out of that country owing to the persecution of the Jews. His father lives in Mile End in the east of London, and Brodetsky received his entire education in this country at Jewish schools until he went to Cambridge. It is true that in the struggle for the senior wranglership Mr. Ibbotson of Birmingham and he are equal, but Mr. Brodetsky has achieved a very remarkable feat by attaining this position after only two years' residence at Cambridge. He entered Trinity College in October, 1905, while Mr. Ibbotson and nearly all the other competitors for the distinction, went to the university a year earlier. Mr. Brodetsky's success is, therefore, a very striking one, and has only been approached in recent years by Prof. Jeans of Princeton University, America, who, after only two years' residence, was placed as second wrangler.

POSTAL SAVINGS ARE \$50,000,000.

Deposits With Government in Japan Show 25 Per Cent Increase.

TOKIO, Japan, July 6.—The postal savings banks deposits of this country now amount to more than 100,000,000 yen (\$50,000,000), representing over 1,200,000 depositors. As compared with 1907 the increase in deposits is already 25 per cent.

Letters to THE HAWAIIAN STAR should not be addressed to any individual connected with the office, but simply to THE HAWAIIAN STAR, or to the Editorial or Business Departments, according to tenor or purpose.

GEORGE F. HENSHALL MANAGER

THURSDAY JULY 23, 1908

NAVY MEN WARNED AGAINST HONOLULU.

The Atlantic fleet programme of staying here to days was cut some time ago to seven days; on arrival of the fleet here the announcement was made of orders for leaving after six days, and while here the men of the fleet generally were under the most limited peace time orders of shore leave ever known here. These are some of the evidences of an undercurrent of feeling against Honolulu which existed very strongly in the fleet. There can be no doubt that it has been corrected. From Admiral Sperry down, the expressions of the members of the fleet after their six days' stay show a friendly disposition towards the community, a feeling that it is a good safe place to stay in, and among very many, regrets that the visit was so short. All this, in its general effect upon naval men, should operate to give us a longer visit of the Pacific fleet, and relieve our city of the imputation of being a place in which it is unsafe to allow sailors shore leave after midnight.

According to fleet men whose word is not to be disputed, the request for suspension of shore leave at midnight came from Honolulu. A letter was sent from Honolulu to Admiral Sperry, formally asking that no sailors be allowed on shore after midnight. The admiral made it one o'clock. The letter contained other things. It appealed to the admiral on the grounds of protection to Hawaiians, etc., from these American sailors. It probably accounts for the sense of hostility towards our city, now, we hope, happily removed. Frank Leslie's Weekly had the following remarks from the admiral in response apparently to this letter, though Honolulu was not mentioned except by broad implication: "I'll wait three or four days before I answer that letter. I don't want to say anything savage. I want to be polite."

The official response to this letter is found in orders cutting down the stay of the fleet here; in paying the men very little here, and in so curtailing shore leave that, as the figures show, a majority of the 12,000 or more men here had but twelve hours on shore, in one visit. It seems to The Star that Honolulu should be able to manage her affairs better than this. Our city wants naval visits, wants naval men freely allowed to enjoy shore leave here, and, we believe, this is a good place for them, morally and otherwise. If it is not, the task to make it such is a local one. But to write to the admiral of an American fleet asking him to be careful how he let his men ashore here lest they harm our community, that is giving our community a blow it surely doesn't deserve.

Some months ago Sheriff Iaukea announced that he would not run for Sheriff again, a statement which he has lately confirmed. The decision caused regret among those who realized how nearly ideal his administration had been, and he may be quite sure that the popular strength he has rolled up will make it difficult, should he take part as a candidate in any of the contests of the future, to run a man successfully against him. Sheriff Iaukea is an honor to his race and his party, and has earned respect even for the enemies he has made.—Advertiser.

We do not think many people in Honolulu can subscribe to this. As far as running for office is concerned, Sheriff Iaukea up to a short time ago was understood to be out for a nomination for mayor or possibly delegate to Congress. He has now announced that he will not run for any office. As for the "popular strength," the absurdity of any man running for office with that Iwilei note as a burden would be equalled only by the folly of the whole note transaction.

STANDING BY THE UNIFORM.

At Avalon, Santa Catalina Island, a discrimination was made in a dance hall against jacksies in uniform, the management refusing to admit them except in civilian clothes, with the following striking result:

Immediately word of the affair was passed to Commander Bauer, who was at the Hotel Metropole. Descending to the steps of the hostelry, Commander Bauer declared to the reserves and others gathered about him that if the people of Avalon were ashamed of the uniform worn by the boys in blue they were of necessity ashamed of the Stars and Stripes and of the officers of the Navy and Reserves, and that if the dance hall was too good for the enlisted men it was also too good for the officers.

A cheer went up from his hearers, and the officers, when informed of the occurrence, immediately left the dancing pavilion, returning to the ship, where quick consultation was held. It was decided to cancel all the orders for supplies for the gunboat previously left with Avalon merchants and to hoist anchor and get away from the island as soon as possible.

The bugler was ordered to sound the assembly call, and in twenty minutes' time, it is said, although almost the entire ship's crew was ashore at the time, the men were aboard and at their posts, and at 12 o'clock the anchor came up and the ship got under way.

During the week while the fleet was here The Star had a special

cable service giving extra news of interest to the navy, and other cable news, for the benefit of the fleet visitors. This, added to a special edition giving much historic and other information about the islands, which was distributed free on the fleet at San Francisco just before it sailed for Honolulu, gave The Star some part in helping to make the visit here a success.

Probably Bryan has now ordered a lot more phonographs, in order to make speeches into them about that \$29,000,000 fine.

Recalling some of Grover Cleveland's utterances brings out a striking resemblance in sentiment to some of those which Roosevelt is most fond of making. Cleveland's sentences were usually more polished, but the following by the late president is strikingly suggestive of Roosevelt's recently oft-repeated remarks about using the Big Stick on both sides of various disputes:

"Communism, is a hateful thing and a menace to peace and organized government; but the communism of combined wealth and capital, the outgrowth of overweening cupidity and selfishness, which insidiously undermines the justice and integrity of free institutions, is not less dangerous than the communism of oppressed poverty and toil, which, exasperated by injustice and discontent, attacks with wild disorder the citadel of rule."

ODD THINGS ABOUT FISHES.

Fishes have been put to many queer uses while still alive; but probably the strangest was that suggested to the War Department by an inventor. The propulsion of submarine torpedoes was the subject under discussion, and he proposed that a shark be imprisoned in a tube at the rear end of the projectile, its movements to be controlled by the active application of electricity. In case the shark attempted to swim away it was to be given an electric shock, and in this way kept on its course until the torpedo had reached its target.

Another remarkable use to which a fish has been put is as a barometer. The loach is very susceptible to atmospheric changes, and when retained in an aquarium is likely to throw itself out at the approach of or during any remarkable change of wind or weather, or, if in a pond or stream, will sometimes jump on the bank. It has been kept alive in aquaria as a living barometer from the supposition that certain movements indicate particular changes that are about to occur in the weather. In Russia the dead body of Cottus gobio, the miller's thumb, is used as a weathercock. Hung by a single thread, it will point to the direction whence the wind blows.—Sunday Magazine.

WHEN RILEY AND CARMAN MET.

James Whitcomb Riley and Bilis Carman, though comrades of long standing in art, did not meet till comparatively recently. It was in Washington, and the Canadian poet, whose head is fully six feet four inches above ground, was walking down Pennsylvania avenue with a friend.

Observing Riley approach, and knowing that the two poets had never met, the Washingtonian took occasion to introduce them.

Struggling with suppressed emotion, the laureate of childhood dropped his eyes to the pavement, gradually permitted his glance to travel upward, as though analyzing a new species of skyscraper, and with an expression of inimitable drollery ejaculated, "Well, by Jimminy! Your parents must have trained you on a trellis."

WALKING HOME.

"You actors travel so much," remarked the lady in the wayside cottage. "I have heard that home ties worry a great many of you."

"Yes," replied the impecunious thespian as he pulled a splinter from his shoe, "and railroad ties worry the rest."

Aids' Digestion

The good people of Germany drink Beer as we do water—but they drink more of it, and drink it from childhood to old age. And you never find one of them suffering from "nerves" or dyspepsia. The reason is that good beer is the best tonic and aid to digestion that you can use. And therein lies the real virtue of

holders of McCabe, Hamilton & Renny
Co., Ltd., will be held at the office of
the company, No. 20 Queen street, Ho-
nolulu, Tuesday, July 28th, 1908, at
10 a. m.
Honolulu, July 20, 1908.
CHAS. BON,
Secretary.

HARD LUCK.
To the young man of to-day
Fate is oft unkind;
His mustache is down in front,
His necktie up behind.

GOT RATTLED.
Tired Thomas—"After givin' me
sumthin' 't eat, dat ole farmer asked
me 't turn de grindstone for him."
Lazy Lewis—"Wot did youse do?"
Tired Thomas—"Nawthin' I was so
rattled I didn't know which way 't
turn."

**MONEY HARVEST
FROM LICENSES**

NEARLY EIGHTY-SIX THOUSAND DOLLARS PAID INTO THE TREAS-
URER'S OFFICE IN FEES SINCE FIRST OF THIS MONTH—HALF-
YEARLY LIQUOR LICENSES YIELD TWENTY-FIVE THOUSAND—
OTHER ISLANDS TO HEAR FROM.

While some of the other Territorial
departments have been having a rather
easy time since the fleet has been here
there has been no vacation in the office
of Territorial Treasurer Campbell,
Starting with July 1 all the annual
licenses have to be issued and when
it is recognized that there are over
ten thousand of these to be handled it
can be seen there is a great amount of
work to be done.
Up to this time, since the first of
the month, 3340 licenses have been
issued. Of these the greatest number
came under the head of merchandise
permits of which there were \$88, out of
a total of about 2000. Three hun-
dred and sixty-seven drivers' licenses
were issued and 640 tobacco and cigar
merchants have also obtained permis-
sion to carry on their businesses after
paying the yearly fees.
The total amount collected for li-
censes in the past twenty-two days by
the treasurer is \$85,716 of which the
liquor licenses, which are for only six
months, brought in \$25,047. This sum
was from the dealers on this island
alone, the returns from the other
islands not having come in as yet.
The licenses which have been given
out up to date are only those which
have been applied for voluntarily and
the hard work will come later, when
the deputies will make their trips
around all the hamlets and villages,
collecting from all who have failed to
present themselves to the treasurer of
their own accord.
The following table shows the num-
ber of licenses, their character and the
amount collected up to this time:

4 Alcohol	200 00
2 Awa	550 00
3 Auction License	630 00
6 Banking	3,750 00
5 Billiard	1,350 00
44 Beef Butchers, sell	440 00
32 Beef Butcher, Slaughter and sell	760 00
6 Boat	28 00
9 Boatman	9 00
183 Barber	1,830 00
1 Brewery	250 00
1 Car License Tax	400 00
2 Custom House Broker	100 00
1 Collection Agency	25 00
85 Dray and Wagon	212 50
367 Driver	367 00
9 Dyeing or Cleaning, etc.	225 00
2 Employment Agency	50 00
5 Foreign Corporation	1,500 00
57 Farrier and Horse-shoe	255 00
28 Fishing Boat	140 00
1 Garage	50 00
278 Hack and Passenger Ve- hicle	1,326 00
198 Hotel and Restaurant	9,900 00
1 Kerosene Storage	200 00
55 Lodging and Tenement House	110 00
10 Laundry	250 00
7 Livestock Stable	175 00
52 Milk	130 00
828 Merchandise	29,950 00
1 Merchandise Broker	100 00
32 Merchandise Peddler	1,600 00
97 Notary Public	470 00
9 Pork Butcher, Sell	9 00
38 Pork Butcher, Slaughter and Sell	780 00
29 Peddling Cake	725 00
41 Public Show	750 00
6 Poisonous Drug	300 00
20 Second Hand Dealer and Trader	750 00
4 Stock and Share	400 00
1 Steam Laundry	50 00
640 Tobacco, Cigar, etc.	6,400 00
4 Trust Company	1,000 00
65 Liquor Licenses, 6 mo. payment (County Oahu only)	25,047 50
4 Social Club Tax	800 00
Total Licenses issued 3340	
to.....	\$ 85,716 00

**THE FLEET
DEPARTURE**

PROMPTLY ON TIME THE GREAT
ARMADA GETS UNDER WAY FOR
AUCKLAND.

From the high places and the water-
front thousands of people viewed the
departure of the Atlantic fleet at 5
o'clock yesterday afternoon. Especial-
ly were the wharves on the outer har-
bor crowded, the masses of men, woman
and children there being one of the
highlights of the occasion from the U. S.
S. Froquois when going out to serenade
the departing ships of war.
As stated in yesterday's Star the
Connecticut, flagship of Admiral Spen-
er, commander-in-chief, was the first
of the five battleships then in the
harbor to go outside for the departing
formation. She left the Oceanic dock
at 2:30. It was nearly 5 o'clock when
the Wisconsin, last to have coaled, left
the Naval docks and went out to pre-
liminary position among the rest of
the fleet, extending, irregularly group-
ed in the four divisions, from oppo-
site Kalia to the opening of the Mo-
loka channel of Diamond Head. At
this time the one farthest out was
swinging to adjust compasses, an exer-
cise that each ship took at convenience
after the shore rating of chronometers.
Representative members of the re-
ception committee and of the daily
press embarked with the Hawaiian
band on the U. S. naval station boat
Iroquois, which under command of
Boatswain Kinney steamed out from
the Naval docks at 5:15 for a second
excursion among the departing
battleships. L. Tenney Peck, W. O.
Smith, Cpl. J. H. Fisher and J. Oswald
Luttrell were of the party, and to Mr.
Peck was left the general direction of
the cruise. A course was taken which
brought the Iroquois within ordinary
hailing distance of nearly every bat-
tleship. Some of the officers and
correspondents were recognized and
goodbys shouted at them by natural
voice and speaking trumpet. As the
Kentucky was approached Captain
Berger was asked to have the band
play "My Old Kentucky Home," which
was done in the style that had brought
a high compliment to the band when
it did the same thing on the fleet's
arrival—the captain of the Kentucky
having called his bandmen to the rail
and told them that that was the way
to play the tune. Now the appreciation
of the Kentucky's crew was uttered in
a rousing cheer. Cheers were exchanged
with all the ships as passed, the
flagship Connecticut giving the loud-

**BREAKFAST FOODS
BEING TESTED**

Young Men From Northwestern Uni-
versity School Called Poison
Squad In Jest.
EAT ON BEHALF OF SCIENCE.
Men Under Rule of Prof. John H. Long
Also See the Effect of Preserva-
tives on Stomach.

CHICAGO, July 6.—Breakfast foods
at last are going to be classified and
each one placed where it belongs.
Foods which long have been the butt
of jokesmiths are now being eaten
consistently and regularly along with
other staple articles by six students of
Northwestern university medical
school. The six are facetiously dubbed
the "poison squad" and they are having
the time of their lives. Wheatina,
Cornina, Flakina and all the rest of
the cereals are also having the time
of their lives. Perhaps they will all
weather through; perhaps they won't.
Mixed in with the breakfast foods
are articles of diet in which are used
such dyes and preservatives as are still
permitted under the federal pure-food
laws and rulings of the department of
agriculture. The object of the dietary
experiment is to ascertain, more clearly
than is now known, just what effect
the preservatives have when taken in-
to the human system. If it is found
to be harmful the department of agri-
culture will make further restrictions
regarding their use.
The experiments are under the direc-
tion of Prof. John H. Long, who is a
member of a commission appointed
last February by President Roosevelt
to make an investigation along this
line.
Four of the students who are under-
going the tests are: Aurel Goodwin,
Oscar Lang, Francis Henderson and
Carl Huber.
They are quartered on the labora-
tory floor of the building at 2431 Dear-
born street. Their meals are cooked
there by a former steamboat chef, and
according to the campus rumor they
get all the delicacies the market af-
fords. Except for the requirement
that they eat and sleep in the labora-
tory and eat or drink nothing outside,
the young men are free to do as they
please.
Preservatives which manufacturers
are still allowed to use in small quan-
tities are benzoate of soda, which ap-
pears commonly in tomato catsup,
jellies, fruit flavorings and cider; and
sulfurous acid, which is utilized in
preserving dried fruits and in wines
and molasses.

**GARMEN TO BE
PLAYED TONIGHT**

At the Orpheum tonight the Lumley
Company will present Olga Nether-
sole's version of the romantic play,
"Carmen." The play is replete with
bright dialogue, delightful comedy
and startling situations. Special sceney
has been set up by Marshall and
Clemons. New costumes from Madame
John of San Francisco will be shown
for the first time. To Miss Mae Kenne
is allotted the title role of the play.
The San Francisco Bulletin, speaking
of Miss Keane's performance of this
role, said in part:
"Miss Keane's performance of 'Car-
men' at the American Theater last
evening was in the opinion of the writer
as good as that distinguished English
actress, Miss Netherole, who made
the play famous."
Frank E. Montgomery will essay
the romantic role of Don Jose Ehen-
zoa, corporal; Richard Buhler, Lucas
Mendez. The cast is a long one and
will require the full strength of the
company. Seats are now on sale.

A FAMOUS ORANGE PUNCH.

Visitors to New Orleans, and es-
pecially those who have refreshed
themselves at Mme. Bigue's quaint old
restaurant near the French Market,
frequently tell the most wonderful
stories about the delectable "orange
and cherry drink" that Madame used
to prepare for them with her own
hands. Although the fact was not gen-
erally known, this beverage was really
that delightful old Creole concoction
properly known as "Orange Punch,"
and this is the manner in which it may
be prepared:
Dissolve a pound of loaf sugar in
two quarts of boiling water; add a
glassful of rum and half that quantity
of brandy. When these ingredients
have blended, add the juice of six
oranges, with the grated peel of three.
Let the mixture infuse for fully an
hour, then set it aside to cool. Just
before serving add a glassful of cherry
blossom and thoroughly chill with
cracked ice.
PAINTING CANVAS SHOES.
White canvas shoes may be turned
into pretty slippers by painting them
with a Dresden design in small flowers.
This idea turns comparatively plain
shoes into very ornate slippers suitable
to wear in the evening with light de-
collette dresses. Needless to say, it
is necessary to have some artistic tal-
ent in the family before this can be
accomplished.
After the shoes are finished they will
look like cretonne which is so popular
this year for anything from a wash-
bag to a lingerie hat.
When a girl tries to dodge a kiss she
always manages to do it in a way that
enables her to catch it square on her
lips—Chicago Daily News.

**THE KILTIES
TO PARADE**

The musical event of the season will
take place at the Opera House tomor-
row afternoon and evening when the
"Kilties" will give two concerts. A
cable received from the office of the
Canadian-Australian Steamship Com-
pany at Victoria states that instruc-
tions were given the captain of the
Marama to arrive in Honolulu on Fri-
day noon to enable the "Kilties" to
give two concerts on the afternoon and
evening of that day, so those who were
in doubt as to this, need have no fur-
ther hesitancy in the matter.
The "Kilties" will parade from the
steamer to the Opera House. This ex-

cellent organization is recognized
throughout the United States and Can-
ada as the peer of all bands. A num-
ber of high class vocalists and dancers
will take part in the entertainment.
The Detroit Free Press, speaking of
the "Kilties," said: "That unique and
picturesque organization, The Kilties,
known to fame as Canada's greatest
concert band, delighted enthusiastic
contingents of hearers. The director
is Albert Cook. He has a finished style,
perfect control of his men, and they
respond to his every whim of leader-
ship with almost automatic precision.
The Kilties offer 'Annie Laurie'
with many encores and the audi-
ence cheered the singers to the pro-
verbial echo. Seats are selling at Wall,
Nichols Co. store.

The Best Cough Drops Are Drops of Ayer's Cherry Pectoral.

Sixty years ago physicians first used Ayer's Cherry Pectoral, and ever since then it has been the standard cough remedy all over the world. Thousands of families, in Europe, Asia, Africa, and America, keep a bottle of it in the house ready for an emergency.

Ayer's Cherry Pectoral

controls the spasmodic efforts of coughing, relieves the congestion in the throat, quiets the inflammation in the bronchial tubes, and prevents the lungs from becoming involved.

There are many substitutes and imitations. Be sure you get Ayer's Cherry Pectoral. It contains no narcotic or poison of any kind.

Put up in large and small bottles.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

Water Question

never troubles you, so long as you can have plenty of pure, fresh water by simply turning on the faucet.

But, when there is a dry season, and no water to be had, the situation is unbearable.

Now is the time to put in a

Redwood Tank

It will be full of pure water when the shortage comes.

We have them in all sizes.

SPORTS

In one of the fastest and most exciting games of polo ever played in Honolulu, the local team went down to defeat at the hands of the Kaula team yesterday afternoon by the close score of 2-1-4-2. Every player on the local team did his best to land the victory for his team, but luck seemed against them. Every minute during the game they played as they never did before, but something was lacking.

The game started off with a rush and for a moment it looked as if Kaula would do as they did in the first game, but the Oahu team fought hard and the danger was over for a few seconds. A minute or so later it looked as if the home team would score, but the Rio brothers got in some excellent team work and carried the ball through the posts for the first score of the game.

The rest of the first period saw the ball go back and forth all over the field but no further scoring. In the second period it looked as if Oahu would score, as Angus was playing the game of his life, but Malina was watching very close, and saved the goal for his team by hitting clear a ball, which had been hit by Angus, to the center of the field where it was sent through the posts by Dole, making the score 1-1-2-0 for Kaula. During this period Fleming was fouled and the visitors lost half a point. The third period started with Walter Dillingham playing a very fast game, several of his shots going within a few feet of the goal, and probably would have counted, if Malina had not been watching very keenly for the ball. A little while afterward Fleming riding like mad carried the ball down to the Kaula's goal, missing it by only a few feet. If Oahu had made the goal they would have won the game, and Fleming would have been the hero of the day, but he failed and the period ended in another score for Kaula made by Malina, the score being Kaula 2-1-3, Oahu 0. In the fourth and last period Oahu took a brace and managed to score twice, the game ending with the ball near the Kaula goal. The teams lined up as they did in the first game.

Members of the Commercial Club are hosts at a luncheon tomorrow at the club in honor of the visiting yachtsmen as well as the captain and those who were on board the Hawaii.

Friday's midday event will be the main entertainment for the yachtsmen, although the Hawaii Yacht Club will be their hosts tonight. Many private parties have been given in their honor since their arrival and the visitors have expressed themselves as being perfectly satisfied that Honolulu's citizens are the most hospitable people on earth.

The following yachtsmen and local guests have been invited at today's luncheon: Captain Harris, Messrs. Ray Rietow, W. H. Stroud, J. N. Densham, of the Hawaii; Captain Sinclair, Messrs. Fyfe, Savage, Poole and Stewart, of the Laurine; Captain Wilbur Kyle, L. B. Harris, E. Swartz, J. Jessop, G. Lane, H. Bone, W. Simpson, G. D. Ledger, H. Bowles and J.

Tonight at the Seaside Hotel, the captains and crews of the four yachts in the recent race will be the guests of the Hawaii Yacht Club at a pot supper. A good time is expected by all.

Sailor Roberts can't understand why he was unable to throw his man the other night. Perhaps he will be able to do better against some man in the Pacific fleet in September.

The Chinese A. C. have written Captain Koyama of the Keio team asking for a game before his team leaves for Japan.

Kyle of the Lady Maud; Captain Lloyd Johnson, Messrs. W. Brannick, Thornton, D. Johnson, W. B. Jack, H. Henke, J. E. Russell and J. Redfern, of the Gwendolyn II; Messrs. H. E. Cooper, C. T. Wilder, Paul Isenberg, L. A. Thurston, Sam Parker and S. B. Dole, of the local committee.

Everyone is looking forward to the baseball games Saturday afternoon at the league grounds, when the Puna-Kelos and Kama-Santa Claras line up for the second time in the International series. All the teams are doing hard work at practice so as to play better ball than last week, and it is hoped that the games on Saturday will be the best ones played in the series.

Punahou will probably have the same line-up as they had last week, and the Kamas will have Reuter and Jones in their old places, while the rest of their team will be the same as before. The Kelos have been doing a lot of batting this week, as well as training their pitchers, and Punahou will have to play much better ball than last week if they wish to be winners. The largest crowd of the year is expected to be on hand as there will be no counter attractions to draw the crowds.

The trustees of the Honolulu Baseball League will meet tomorrow morning for the purpose of acting on the protest filed by the Kelo team against the decision made by Umpire Bower in their game against the Diamond Heads last Sunday. There is a good deal of feeling among the Japanese in town about the decision, and it is to be hoped for the sake of the sport that the decision can be reversed if Bower was wrong and the game played over.

Play in the golf tournament for the Melmerby cup will be resumed at the County club on Sunday. Last week only three matches were played, but as the tournament will not be over until August 2 every one will have a chance for the handsome trophy.

Charley Albright has been selected as one of the two umpires who will officiate in the future games this year. Eddie Fernandez and Pat Gleason have not decided as yet who the second one will be.

The cold morning bath is recommended for those who can stand the cold bath, though countless many cannot. To prepare for it one should first sponge the body with cold water and step into a few inches of water drawn from the warm water pipe. It will not be warm or cold early in the morning. Splash the water over the body and wash hastily, letting the tub fill gradually. If the salt bath is used do not throw the salt towel in the laundry. Let it collect the salt. In beauty bath houses each individual has a salt towel that is used countless times, because it gets thoroughly saturated and is more beneficial. A cold bath should not last longer than five minutes.

HEALTH AND BEAUTY

A scrawny, yellow neck and thin arms are blemishes so easily avoided that their possession becomes the evidence of criminal negligence.

A very fine nail polish is made of three parts of French chalk to one part of pulverized pumice stone. A very little of the polishing powder is sufficient to produce a nice luster to the nails.

Never get the idea that little things are trifling; they make just the difference between a woman who is beautiful because well-groomed looking and a beauty whose looks are ruined by carelessness.

For hair on the arms or shoulders, to one who does not care to go through the pain of electrical treatment, there is nothing better than the application of peroxide of hydrogen. This so bleaches the hairs that they are rendered invisible.

Steaming is not recommended for delicate skins. A better method of cleansing is provided by the application of alternate hot and cold cloths. This treatment should continue for ten minutes. Never use on the face a wash rag which is not scalded each day.

Bunions and corns are due to improperly fitting shoes. Have the shoes and stockings a trifle too long for the feet, so as to relieve the pressure on the toes. Soak the feet night and morning; wipe dry and rub with a mixture of one tablespoonful spirits of turpentine and lard (equal parts) or turpentine and sweet oil (one to three parts) until the soreness subsides. Dust between the toes with talcum powder and place a little cotton between the toes so as to absorb any moisture.

It is a mistake to begin massaging until the hair has been well brushed. Then start at the base of the skull and work toward the forehead till the entire scalp is in a gentle glow. Using the thumbs in a deep circular motion is an excellent way to get the scalp loose from the skull. Vary it with an up and down movement. Don't allow the fingers to move over the hair in a nondescript manner and think you are massaging. Instead make sure that the loose skin is moved over the scalp.

The cold morning bath is recommended for those who can stand the cold bath, though countless many cannot. To prepare for it one should first sponge the body with cold water and step into a few inches of water drawn from the warm water pipe. It will not be warm or cold early in the morning. Splash the water over the body and wash hastily, letting the tub fill gradually. If the salt bath is used do not throw the salt towel in the laundry. Let it collect the salt. In beauty bath houses each individual has a salt towel that is used countless times, because it gets thoroughly saturated and is more beneficial. A cold bath should not last longer than five minutes.

THE RAGTIME MUSE

WHEN TIM PAID UP.
Timothy Dodd, he was mighty penurious,
Always did hate hire the mischief to give.
Spending he thought was extremely injurious;
"Awful, he said, what it cost him to live,
Hung to a cent with the greatest tenacity,
Dollars he'd squeeze: till they spread at the rim,
Made them all yield to their fullest capacity,
Awfully funny it seems about Tim!

Anything like a square deal was a rarity;
He wouldn't waste things by paring his cheese.
Go to old Tim and solicit his charity
Any old time that you wanted to freeze.
All of his days he was haggling and dickerling;
If you broke even the chances were slim.
Now—it is mean, but I cannot help snickerling—
Awfully funny it seems about Tim!
Visitors Timothy welcomed but chillingly;
Still, there came one—undeniable Death.
I can imagine how very unwillingly
Timothy finally gave up his breath.
Never paid debts—we had all heard him boast of it.
Yet he paid his to that creditor grim,
Quite a good joke, and we all make the most of it.
Awfully funny it seems about Tim!
—Chicago Daily News.

IN THE NEAR FUTURE, MAYBE.
"There is no hope," said the stern-faced captain of the sinking ship.
"Then let us leave some message for the world we leave behind," suggested a sentimental passenger.
"Impossible," replied the captain.
"In these days of world-wide prohibition there isn't a bottle on board."
—Kansas City Times.

GREAT CAMPAIGN TAKING SHAPE

Taft and Bryan Are Both Getting Busy For the Contest.

BAD MEN IN BOSTON SUBURB

An Appeal Will Be Taken From the Appellate Court in Standard Oil Case.

HOT SPRINGS, Virginia, July 23.—Taft has left for Oyster Bay to consult with the President.

HARRISBURG, Pennsylvania, July 23.—The State Democratic Committee has elected a Guffeyite as its chairman, but has endorsed Bryan's candidacy.

FAIRVIEW, Nebraska, July 23.—Bryan made two addresses here yesterday.

THE WILD EAST.

BOSTON, July 23.—Two desperadoes at Jamaica Plains yesterday killed the watchman of a saloon they were attempting to rob, wounded two other persons fatally and eight slightly in the chase that followed the murder. Three hundred policemen are now pursuing the desperadoes.

BREAKING RECORDS.

LONDON, July 23.—Walker, of South Africa, won the one hundred meter race in the Olympic games yesterday. This proved to be the most important event of the day, the winner beating the American record for that distance. Queen Alexandra was present at the games yesterday.

GOVERNMENT NOT SATISFIED.

CHICAGO, July 23.—The government will take an appeal against the decision of the State Court of Appeals, which yesterday rendered a verdict reversing the decision of Judge Landis, who had ordered the Standard Oil Company to pay a fine of twenty-nine million dollars for rebating.

SOTHERN WILL FIGHT.

RENO, Nevada, July 23.—Edward H. Sothern will contest the action for divorce brought against him by his wife, Virginia Harned.

ARRIVAL OF PRINCE.

QUEBEC, Canada, July 23.—The Prince of Wales, who comes to take part in the celebration of the three hundredth anniversary of the landing of Champlain at the site of the present city of Quebec, arrived yesterday on board the British first-class cruiser Indomitable. The arriving warship was saluted by the ten warships representing that many nations lying in the stream, the royal salute being fired. On landing the prince was greeted by 50,000 people.

The Indomitable is one of the latest built cruisers of the British navy. She is of the Inflexible class, and has a normal displacement of 17,250. She has a speed of 27 knots, and carries eight 12-inch guns, twice as many as the U. S. S. Connecticut, while she is 106 feet longer than the American flagship.

CONSERVATION COMMISSION

In response to a request from Washington, Governor Frear has appointed a Territorial Conservation Commission. This board will be appointed by President Roosevelt, as the result of the Congress of Governors recently held at the White House. Gifford Pinchot, the National Forester, is the chairman of the National Commission and the local body will report to him. The members of the new body are as follows: A. Gartley, R. S. Hosmer, J. G. Smith, W. O. Smith and W. F. Dillingham.

A GOOD SUGGESTION.

Carry a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in your hand luggage when traveling. It cannot be obtained on board the train or steamship. You will then be protected against attacks of diarrhoea, which change of water and diet so often brings on. For sale by all dealers, Benson Smith & Co., agents for Hawaii.

REPLY TO ADMIRAL

Governor Frear sent the following letter in reply to Admiral Sperry's farewell message to him and the people of Honolulu:

Executive Chamber, Honolulu, Hawaii, July 22, 1908. Rear Admiral C. S. Sperry, Commander-in-Chief, United States Atlantic Fleet, Honolulu, Hawaii.

Sir: I have the honor to acknowledge the receipt of your letter of this date, expressing, on the departure of the United States Atlantic Fleet, the appreciation of the officers and men of the fleet for the hospitality extended to them during their visit and your special gratification at the treatment shown the enlisted men of the fleet.

I wish to express to you, for the people of this city and of the Territory, their sincere appreciation of this very kind expression from you. What little we have done has been done from the heart, and we feel that we have been more than repaid by the courtesy and kindness of yourself and the officers and men of the fleet. The presence of the fleet in these waters has done much to stir the pride and patriotism of the American citizens of this Territory and assist them in the important task that they have of building up American ideals in these islands, as well as to make closer the already close relations between the people of Hawaii and the American Navy.

Very respectfully,
W. F. FREAR,
Governor of Hawaii.

George R. Carter, chairman of the executive committee, also sent a parting letter to the commander-in-chief.

COLLARS TO GO WITH STOCKS.

Stocks, we all know, have come into fashion and are expected to stay, especially lace stocks with high frilly tops. A collar to connect the costume and the stock is now sometimes added, made of bands of ribbon and boned uprights. This fits over the stock and forms a sort of lattice work through which the lace of the former shows plainly. For instance, if one were wearing a dark blue waist and a white stock, the new ribbon lattice over the white would tone down the glaring whiteness of the lace and connect it with the waist.

These new collars are made of one-half inch ribbon, arranged in three rows and held in place by four uprights—two in the back and one on each side. The bones are covered with the ribbon used for the rest of the collar. The lower bow of ribbon which goes around the bottom of the collar is loosely tied in front, and both ends are fringed or tasseled with gold.

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound.

Lena V. Henry, of Norristown, Pa., writes to Mrs. Pinkham:

"I suffered untold misery from female troubles. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death. One day I read how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it. Before I had taken the first bottle I was better, and now I am entirely cured."

FACTS FOR SICK WOMEN.

Every woman suffering with any female trouble should take Lydia E. Pinkham's Vegetable Compound. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

WOMAN SUFFRAGE WORLD MOVEMENT

Dutch Committees Help Make Congress at Amsterdam a Great Success.

DR. A. H. JACOBS IS A POWER

Queen Wilhelmina Is Kept From Recognizing Conclave by Influence of Her Ministry.

(By Ida Husted Harper in Chicago Daily News.)

AMSTERDAM, June 23.—The committees of Dutch women who arranged for the international woman suffrage congress that closed this week deserve warm congratulations upon its success from every point of view, social, intellectual and political. The president of the National Suffrage Association of the Netherlands, Dr. Aletta H. Jacobs, is a woman of unusual power and although only now in middle life she has been a pioneer in women's progress here. She was herself the first woman physician and in order to enter the medical university and receive a degree she had to get permission from the government.

This was granted by the broad-minded prime minister, Thorbecke, and a short time ago, when she had completed twenty-five years of active practice, the women of Amsterdam and vicinity, irrespective of creed, party or social position, came together in mass meeting, formed processions, marched to the little park on the Heerengracht, where the statue of Thorbecke overlooks the wide canal, and decorated it with wreaths; after which they presented to the doctor a bronze Victory bearing a palm. Dr. Jacobs was the wife of C. V. Gerritsen, for a number of years and at his death, three years ago, a distinguished member of parliament. In 1904 he came with his wife to America to see to the placing of a portion of their magnificent collection of books, which they had sold to the Crerar library of Chicago.

WILHELMINA OBEYS HER MINISTRY.

It seems that there never was any hope of Queen Wilhelmina's recognizing the congress because there is at present a clerical ministry which is bitterly opposed to all of the present-day democratic tendencies and especially to any further extension of the franchise either to men or women.

"If there had been a liberal ministry the queen would have received representatives of the congress," we are told. "She must do exactly as her ministry say. What a vast difference between a European monarch and the president of the United States! We would like to see the cabinet ministers who could dictate like that to our Teddy. When a deputation of women waited upon Wilhelmina to present an invitation to the congress they were received by her private secretary, who said: 'I will call her majesty's attention to it; she sees only what I wish her to read.'"

"Well, he is equal to William Loeu, Jr." we Americans whispered among ourselves. Then we asked if the queen mother would not visit the congress.

NO CHANCE FOR APPROVAL.

"What! Give her approval to anything which the queen has not sanctioned. She would not dare to do it. It is beautiful the way she has completely effaced herself since her daughter ascended the throne. She has never expressed an idea or wish of her own."

After this information we concluded there were many more desirable jobs than that of mother to a queen; and it seems as if there could not be one less agreeable than to be the queen's husband.

"Won't Prince Henry come and let us look at him?" we inquired.

"We don't want him," was the answer. "We are so jealous of him that we don't wish to see him or hear a word from him."

"And if the queen should die then what would become of the poor man?" we asked.

"He would have to go back to his own country in a hurry," was the reply.

This makes one believe the story that Wilhelmina first proposed to Prince Henry's elder brother, but he said, "No, thank you," and took to the woods.

AMSTERDAM IN HOLLAND AND AMERICA.

There is no city in Europe that seems so "American" as Amsterdam, in spite of its quaint houses, numerous canals and extreme cleanliness. If the crowds of people on the streets were set down in any city in the United States they would not attract the slightest attention. There is not the least nationality as to their clothes or manners, and in personal appearance they look exactly like thousands of persons one sees in New York, or perhaps one should say the New Yorkers look like the Dutch, and maybe they are Dutch.

There is no other country in Europe where custom permits as much freedom and independence among women. They go and come and do as they like with no more comment or criticism than they would have in the United

States. Complete co-education prevails from the kindergarten through the postgraduate courses in the universities, and people come from all countries to study the general system of education. All of the professions except the clerical have been for many years open to women and they are engaged in all kinds of business. The laws, however, as in most other countries, are unjust to wives, but here, as elsewhere, the men for the most part are better than the laws.

NO VOTE FOR WOMEN, EASY FOR MEN.

Women in Holland have no suffrage, but any man may vote if he earns eleven florins (less than \$5) a week. If his wife and children earn this amount and he is a drunken loafer he still does the voting for the family. Far be it from the women of the United States, however, to throw any stones, for last winter the legislature of Maryland submitted an amendment to the male electorate, which probably has been adopted by this time, that any man may vote in that state whose wife owns \$500 worth of property, and at the same time this legislature refused even to consider the petition to include some form of suffrage for women in this amendment.

We were talking last evening with the councillor to the queen, one of the most eminent lawyers and statesmen of Holland, and he said it was only a question of a few years until the full franchise would be given to the women here. The women of Norway and Australia who are here officially representing their governments, which pay all their expenses, brought the greetings of the prime ministers and their hope that the aim of the alliance might be speedily fulfilled. The news we have received from home since we arrived is that our minister of state will soon deliver an address for the anti-suffrage association.

HOW AMERICA WAS DISAPPOINTING.

Delegates from a dozen national organizations told the congress of the rapid progress of the woman-suffrage movement in their various countries. All the message we had to bring from the United States was the defeat of a suffrage amendment in Oregon for the fourth time by a larger majority than ever before. But we did not give the message, for we entered into a compact among ourselves not to let it be known that Oregon had been taking a vote on this question. In her speech of welcome the president of the Dutch association greeted first of all the delegates from the United States, "mother of the woman-suffrage movement." This was followed by the president's

address of Mrs. Chapman Catt, a masterpiece of logic, eloquence and oratory, and at its close, as the vast audience stood cheering and waving handkerchiefs, many turned to us and said, "Are you not proud of your country?" "We are proud of our representatives here," we answered, "but we have no pride in our government."

LONDON GETS THE NEXT CONGRESS.

The next congress will be held in London early in May of 1909. One of the strongest delegations at the congress was that from Great Britain, twenty-five in number. Among them was Miss Chrystal Macmillan, holding two honors degrees from the University of Edinburgh. One does not know where to begin or where to end in describing these international meetings, and these letters come to a close with a notebook still full of unused memoranda. The last evening closed with a display of fireworks, and at the end, to the delighted surprise of all, the motto of the alliance—"Fas Suffragii"—"the Right of Suffrage"—flashed across the sky. With these words shining in the heavens and their brilliance reflected in the deep blue waters of the North sea, we bid good-by to the congress of the Women's International Alliance.

INFORMATION WANTED.

Short—"I can't pay you for a few weeks yet. I lost a lot of money recently in speculating."

Long—"Indeed! Whose was it?"

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World

For The Day Just Ended

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

New Process Gas Ranges

The "New Process" Gas Range is the range of universal favor—the most economical in the use of gas. Absolute satisfaction guaranteed.

LIVE WIRE ACCIDENT

JOHN THOMPSON SEVERELY BURNED WHILE REMOVING FLEET DECORATION.

In attempting to unfasten one of the flag guy ropes on hotel near Fort street this morning, John Thompson, one of the men employed by Colonel Jones, was burned on the right arm by coming in contact with a live wire. Thompson had safely climbed up one of the poles near Arceigh's store when the neighborhood was startled with a piercing shriek, and the next thing they saw or heard was Thompson falling to the empty roof below.

Sergeant Harry of the National Guard, who has charge of the taking down of the decorations, and another man in his employ, climbed up on the roof where Thompson lay unconscious. A rope was thrown up and fastened under Thompson's shoulders and he was lowered carefully to the street. He was taken over to Benson, Smith & Co.'s store across the street where he was treated temporarily, afterwards going to the office of Dr. Humphris, where his injured arm was dressed.

An eyewitness in explaining how the accident happened said that Thompson's foot had slipped in climbing up the pole, and in trying to save himself from falling to the street he caught hold of the wire which turned out to be one charged with the deadly current.

Fortunately Thompson had presence of mind enough to let go instead of holding on, which probably was the only thing that saved his life, as it was learned afterward that it was one of the main feed wires heavily charged with current.

After he had been treated at the doctor's office he went home and is resting easy at present, although his arm is badly burned.

PIONEER SHOWING

The Claudine, arriving from Maui this morning, brings fine news from the Pioneer Plantation, which completed its grinding for the season last night. The total crop from this plantation, the largest which it has ever produced, reached 27,113 tons. The first estimate of the crop which was made was 24,000 tons. This was afterwards increased to 26,000 and the final result, reaching 1,113 tons over the estimate, will surely gladden the stockholders and fatten their pocket books.

The grinding of the Hawaiian Commercial crop was also completed with the exception of the cane from Kihel. The cane from the Hawaiian Commercial lands alone has yielded over 50,000 tons, to which the Kihel sugar will be added. There also remains a considerable quantity of low grade sugar which will be run over and which will probably produce nearly 1000 more.

LURLINE SAILS ONE DAY LATE

The S. S. Lurline of the Matson Line will sail for San Francisco on Wednesday, July 29, at 10 a. m., instead of the 28th, as originally advertised. On account of the fleet festivities in San Francisco it was found impossible to get this boat unloaded with the usual dispatch, the result being that she left San Francisco three days behind time. The Lurline takes a full list of passengers to the Coast.

AUTO EXCURSION FOR YACHTSMEN

On Sunday the visiting yachtsmen will be the guests of the Chamber of Commerce, on an automobile trip around the island, stopping at several places on the way. The party will include about thirty guests and will leave the mauka entrance of the Young Hotel promptly at six o'clock making

their first stop at Haleiwa where breakfast will be served.

After breakfast the party will go directly to Wahiawa where they will be shown over the pineapple company's plant, and after a short rest the journey will be resumed to Pearl Harbor.

Luncheon will be served at the yacht club, and during the afternoon the party will be taken all over the harbor in launches. Six or seven automobiles will be used for the trip and a good time is expected.

HILLO ATTORNEY

(Continued from Page One.)

This property was sold by the administrator, a brother of the deceased, though there was personal property of enough value to pay the debts of the estate. Carl S. Smith, representing the heirs, protested against the confirmation of the sale on many grounds and obtained an order in his favor, which was appealed from.

In its decision on the subject the court says:

"We are unable to escape the conclusion that the chief object of the administration proceedings in this estate has been the accumulation of attorney's fees. When Kamapilihi died he left to his infant children, subject to his widow's dower, an unencumbered homestead and two pieces of income producing real estate. The widow sought legal advice apparently with regard to the collection of rents from the realty. The decedent's debts were small in amount and at that time no bills had been presented to the widow. The doctor's bill of \$36 was not presented until after a suggestion by the attorney. No debts are shown to have been due to the decedent or to have been collected by the administrator. Advice to the widow under the circumstances that her interests demanded an administration of the estate at an initial cost of \$50 for filing the petition was advice in the interest of the attorney and not of his client. The subsequent action of the attorney in making this charge as the basis for appearing on his own behalf, at an additional cost of \$30, to petition for the appointment of another administrator in the place of one unable to qualify, is also open to criticism. The attempted sale of the minors' real estate for the purpose of paying these and other anticipated fees was the culmination of a course of conduct of which we must express our unqualified disapproval.

"Upon all possible occasions this court has endeavored to give notice that it will not tolerate the practice of treating estates of deceased persons as fair game for the incurring of unnecessary or excessive legal expenditures. Notley v. Brown, 16 Haw. 575, 579. Few probate cases, however, reach this court and the responsibility must rest on the circuit judges for the conscientious administration of estates. In the present case as soon as a contest arose the circuit judge seems to have done what was possible to straighten out the state of affairs then existing, but it seems probable that if the matter had remained uncontested the little heritage of these infant Hawaiians would have been wasted under the guise of legal proceedings.

"The circuit judge left the question of costs in abeyance until the final determination of the case, so we make no order concerning them, but suggest that the final allowance of any costs or fees out of this estate should be subject to the most rigid scrutiny and to a strict showing of good faith. In the view which we have taken concerning the attempted sale of real estate the costs in that connection can in no event be charged against the estate. The order appealed from is affirmed."

CARD OF THANKS

"The thanks of the sub-committee on Entertainment is extended to the ladies and auto owners who were instrumental in making the Pearl Harbor outing such a grand success."

The above resolution was unanimously passed at the 20th meeting of the sub-committee on Entertainment this morning. In handing it in for publication the secretary stated that, if mere words could make the committeemen's thanks stronger, more would be said, but it was impossible to find language that would fully express their recognition of the handsome aid received.

MAIL IN FRIDAY

Remaining behind the Atlantic battleship fleet, the U. S. S. Minnesota, at anchorage outside the harbor, is waiting for mail for the fleet from the Coast by the American-Hawaiian S. S. Virginian which sailed from San Francisco on July 17 and is due here tomorrow morning, although there are those who expect her here today.

If the Virginian arrives here today it will be because she is being pushed; she is usually a seven-and-a-half-day boat.

The Minnesota expects to catch up with the other fifteen vessels of the fleet before they are very far advanced on the run to Auckland, New Zealand. Last night no wireless messages were received from the fleet. Tonight messages are expected.
