Cheaper Advertising Rates on Long Contracts

VOL. XI, No. 2199.

HONOLULU, TERRITORY OF HAWAII, WEDNESDAY, JULY 16, 1902

PRICE 5 CENTS.

STEAMERS WANT BANANA TRADE

Steamship People Are to Encourage Shipments to Coast.

TWO COMPANIES HAVE EXCELLENT FACILITIES

American-Hawaiian Steamship and Globe Navigation Prepare to Carry Fruits to San Francisco and Seattle.

Judging from the present looks of things, the banana planters on these islands will now be able to look forward to better and cheaper shipping facilities than they have heretofore enjoyed, and will consequently have easier access to the large markets on the Pacific Coast.

The American-Hawaiian Steamship Company intends to make a special offer for the carrying of bananas from this port to San Francisco. That company's steamers are constructed with what is known as flush decks, which leave a large space about eight feet high running between the upper and the regular decks throughout the whole length of the vessel and which will be offered for the carrying of bananas.

This space cannot be utilized for the carrying of sugar, as that would bring the vessel too deep in the water, and is therefore only used for the carrying of lighter freight. It is the company's object to encourage the production of bananas by Hawaiian growers and to give them a good chance to put their goods on the California markets. As a consequence, a very cheap rate for the carrying of this article will shortly be made by the company.

The steamers generally make two runs between this port and San Francisco in eight days, which would not be too long a passage for the safe transportation of these fruits.

The Globe Navigation Company is also in the field with an offer to carry bananas to the Coast. The local steamer of this company, the Tampeo, is provided with a cold storage plant sufficient to hold 1200 bunches of bananas and if sufficiently large shipments are made, the company will carry these fruits in their cold storage at the rate of thirty-five cents per bunch.

The Globe Navigation steamer will bring the bananas to Seattle, which is about a thousand miles further away from Hawaii's great competitor, the Central American states, than is San Francisco, and which therefore offers a good market for the Hawaiian grower.

It is calculated that the cities supplied through Seattle have an aggregate population of 300,000, and, besides these, there is the chance of supplying British Columbia and Alaska.

MATHEWS HAD THE BOOK.

L. S. Matthews, alias Solomon Matthews, was arrested this morning on a warrant sworn out by Louis K. McDeros, one of the prominent members of the Educational Club.

It appears that some time ago there was missing from the club rooms a set of twelve of Charles Dickens' more important works, and it was suspected that they were stolen. Not long ago, they turned up in the possession of Matthews, and the aged man is now charged with receiving stolen goods.

KEALIA FOLK DANCED

BIG BALL GIVEN IN HONOR OF MANAGER

People Present From All Parts of Island—Mr. Fairchild Given Fine Send-off Bound to Mainland.

Kealia, July 15.—Last Saturday night there took place in this active little town one of the greatest social events in the history of plantation life on this island, the occasion being a ball given in honor of Manager George H. Fairchild, who is about to leave for the Coast on a well earned vacation. Mr. Fairchild expects to be away until October, returning with his wife who is at present visiting friends on the mainland.

The spacious new sugar room, especially wired with arc and incandescent lights, was the scene of the festivities. This place had been transformed into a veritable garden of tropic beauty, ferns and palms galore being used in the decoration. The fragrant odor of the malle was very noticeable and the judicious use of bunting added to the general effect.

Kealia is famous for its hospitality and a "bid" to a dance there is synonymous with a good time. It is a far cry from Waimea to Kealia and yet carriage after carriage rolled up from all intervening points, a forty-mile drive being considered a mere bagatelle, the nature of the occasion being taken into account.

A band of musicians under the direction of Prof. Sanborn played music that was a welcome change from the usual native quintet work and the seductive strains of the Strauss waltz took the place of the fascinating hula for the nonce.

H. Sheldon, with the easy grace of a dancing master, proved an admirable master of ceremonies. Great credit should also be given J. W. Neal and Frank Smith who were indefatigable in their efforts to please. At midnight, a cold collation was served, after which dancing was resumed.

Visitors from far away points were entertained by the people of Kealia but the Lihue contingent didn't "get home 'till morning." In fact Old Sol, on rising, blushed on finding some still on "their way home."

ELKS' BAND CONTEST.

Elks of the city have received circulars announcing the open band contest to be held at the Elks' Grand Lodge convention in Salt Lake City, Utah, August 12, 13 and 14 of this year. The prizes will be as follows: Grand prize, \$1000; second prize, \$500, and third prize, \$250. The marching competition will be for a \$50 prize.

All Utah bands will be barred from both contests. The competing bands need not be composed of members of the order, but must accompany, or be attached to, organizations of lodge members attending the grand convention.

For the purpose of better adjudication, the elements of marching, uniform, appearance, etc., have been eliminated from the musical competition and placed under the head of "marching competition," for which a special additional prize of \$250 is offered.

MIKAHA FROM KAUALI.

The steamer Mikahala arrived in port from Kaula this morning at 7:40 o'clock. Purser Friel gives the following report: "The steamer Ke Au Hou was at Kilauea but could not get communication with purser. The barkentine W. B. Flint was at Makawell waiting to load sugar. A heavy swell was running at Waimea. Crossing the channel, strong trade winds with choppy seas were encountered. The following sugar was at Kaula ports ready for shipment: K, 8 M., 100 bags; V. K., 250; W., 750; M. A. K., 2450; G. & R., 150, and McB., 1370."

EUREKA FROM EUREKA.

The American barkentine Eureka, Captain Weller, arrived in port this morning after a trip of 14 days from Eureka. She had an uneventful voyage with pleasant weather and fair winds. She brings a cargo of 400,000 feet of lumber consigned to Allen & Robinson. The Eureka is at present lying at Allen & Robinson's wharf where she will discharge.

M. Gerard is interesting himself in the founding of a Shakespeare theater in Paris, where the bard's plays will be given in the English tongue by English actors.

MERCHANTS' FAIR PLANS SHAPING

Fine Program of Races Will Be a Great Attraction.

BUILDING PRACTICALLY READY FOR OCCUPANCY

Committee To Meet This Afternoon For Discussion of Various Matters—Opening On Saturday Night a Week.

Plans for the Merchants' Fair in connection with the agricultural exhibit are now rounding themselves into definite shape and the meetings of the committee of the Merchants' Association this afternoon, tomorrow and at intervals throughout the week will undoubtedly result in the carrying out of these plans in a manner that will give every assurance of success.

The building in front of the drill shed is now practically completed and under roof, and the committee made an inspection of it this morning in order to be able to make arrangements at a meeting this afternoon for the fair proper and to do something definite with regard to outside attractions in connection therewith.

The present plan of the committee is to try to arrange with the Jockey Club to hold the race meet at Kaula Park on Saturday afternoon, July 26, making these events the first run of the big undertaking. Should the committee be successful in this plan, the endeavor will be to get the business people of the city to suspend all work during the afternoon and to close up everything.

The formal opening of the Merchants' Fair will be on Saturday night, for which occasion an appropriate program will be prepared by the committee. Among the attractions will be a band concert and native music by a quintet club of native Hawaiians. The opening of the fair will be made a most brilliant occasion.

The committee of the Jockey Club has been considering carefully the question of race events and has prepared a tentative program which will be presented to the Jockey Club at a meeting to be held tomorrow night. Among the events will probably be the following:

- Three-eighths mile dash for polo ponies. Prize, \$50 cup.
- One-half mile dash for purse of \$100. Mollie Connors and Weller barred.
- One mile special trotting race for named horses. Prize, \$50 cup. The probable entries are: Allen's Nettie, H. Soule's Artie W. Lewis' Oak Grove, Kluegel's Luster, and Turk's Wistaria. Gentlemen's riding race for horses that have never raced before. Prize, \$50 cup.
- One mile pacing race for \$50 cup. The probable entries in this race will be: Dusty Roads, Creole, Grandpa and Paro Bank.
- One mile dash for police patrol horses. Prize, \$50 cup. In this race only police officers mounted on the steeds they use when on duty will be allowed to compete. The prospects are that, although the dash is announced for a mile, it will probably be reduced to three-quarters or one-half a mile, as it is thought a longer race will do too taxing on the horses, the nature of their daily work being taken into consideration.
- One mile pacing race for purse of \$50. The probable entries will be: Wait-a-Little, Violin, Frank Murphy, Los Angeles and Tony.
- Three-quarters mile running race for purse of \$100. Mollie Connors to carry 125 pounds. It is expected that Amario, Rose Alba and one of Tom Hollin's fast horses will be entered in this race.

The closing race will be a mile pacing event for a purse of \$50, and in which will probably be entered the following: Rycroft's Hoopa, Armitage's Billy, Livingston's Prince C, Prince John Kalaniana'ole's Waffer P, Schlier's Dick, Holt's Butcher Girl, and Dr. Mossarrat's Lucy D.

The entries will probably close on the 25th inst., the scratches to be made on the day of the races. A feature of the races will be the pacing events which will be one heat only. This will make the harness races very interesting, as there will be

no chance to catch up after the one mile has been completed.

Coming now to baseball, the people who come to Honolulu to attend the fair will see two good games. There has been a disappointment with reference to Hilo, the baseball team of that place having sent a positive refusal to the proposition of coming to Honolulu. However, there are hopes of getting a Maui team here.

The games will be on Monday and Tuesday. The first will be between two local teams and should a Maui team come to Honolulu the game on Tuesday will be between these players and a Honolulu team. If the Mauiites do not appear, the games on both days will be between local teams.

At the meeting called for this afternoon, the matter of plans for concerts during the afternoons and evenings will be considered. It is probable that a marquee will be erected on the lot for street side of the fair grounds for the accommodation of the band.

WILL ENJOY SHORT TRIP

SECRETARY COOPER GOING TO SAN FRANCISCO

Will Place His Son at Berkeley and Rest Himself --- Young Kennedy Accompanies Him.

Henry E. Cooper, Secretary of the Territory, will leave for San Francisco in the steamer Alameda on Wednesday next. As is generally known, the Secretary has been in poor health lately from an obstinate case of the grip. He has been advised to seek the benefit of a change of air, and has taken the occasion of seeing his son Alfred D. entered at the University of California. The lad has just graduated from the High School and will be accompanied on his entrance to Berkeley, by J. A. D. Kennedy, his classmate and a son of J. A. Kennedy.

Mr. Cooper informed a Bulletin reporter that he would return home on September 10. After playing his son in college he will have two weeks to himself. Asked jokingly if he was going to "do any politics," the Secretary answered: "None whatever. I am going away purely for a vacation, and mean to make the best possible use of it."

SOUGHT DEATH TO END TROUBLES

John Graham, a freight checker on the waterfront, attempted at noon today to put an abrupt end to the troubles of life. He is a single man, believed to be American, and rooms in Hopkins' house, Vineyard street. Word that Graham had taken cold poison with suicidal intent was received at the police station and Deputy Sheriff Chillingworth went to his lodgings, whence, finding the man still alive, he had him conveyed to the Queen's Hospital. Inquiry of Superintendent Eckardt at 1:30 elicited the opinion that Graham's case was not thought dangerous. Appearance indicated morphia. Deputy Sheriff Chillingworth ascertained that financial difficulty was the cause of the despondent fit in which the man sought death for relief.

PING-PONG POINTS

The members of the Elks lodge of the city who are taking a great deal of interest in the game of ping-pong, are losing patience over the long delay in the playing of C. S. Holloway and A. L. C. Atkinson, and they are now in favor of serving notice on these two players to the effect that, unless they play off their tournament in forty-eight hours they will be considered out of the running and those players coming next in standing will play off for the championship.

The enthusiasts want another tournament and this time they want it between members of the Elks Lodge and outsiders, the object being to prove once for all the supremacy of the local antlered herd. It is probable that steps will soon be taken to bring about the desired result.

In the Police Court yesterday afternoon Willie Dias was found not guilty of seducing Rose Dias and was discharged. However, the young lady was persistent and today Dias was again arrested but this time on the charge of fornication.

HER TRIP SLOW BUT VERY SURE

Training Ship Driven to Dutch Harbor by Bad Weather.

VOYAGE UNEVENTFUL AND ALL WELL ON BOARD

Officers and Men Greet Terra Firma After Long Spell at Sea --- Will Probably Not Stay Long.

The long delayed U. S. Navy training ship Mohican, whose non-arrival has given rise to so many various conjectures, finally put an end to all anxiety which has been felt in certain quarters for her safety, but putting in an appearance this morning, being signalled off Koko Head at about 9:30 a. m. She steamed in through the channel a few hours later and anchored in the stream.

The delay of the Mohican was, as had been expected by the Navy men here, due to a succession of unfavorable winds and bad weather, which, as the Mohican principally used her sails for motive power, caused considerable trouble for her crew.

The Mohican left Yokohama on May 26 and steered the usual sailing course for this season which runs in a line to the north of this group until a point almost due north of the group is reached, when a southerly course is taken.

During the first part of the voyage, the vessel enjoyed good weather with light winds. Soon, however, conditions changed and unfavorable southeasterly winds kept driving the vessel to the north. During this period the winds upon three different occasions rose in force so as to give the appearance of gales and the decks were almost constantly kept awash.

At last, as the southerly winds continued and there seemed to be no signs of the westerly winds which are generally supposed to be prevalent in these regions at this time of the year, it was decided to steer for Dutch Harbor which port was made on June 27. Here the Mohican stayed for a couple of days taking on board supplies and coal. She left Dutch Harbor June 29 and set her course for Honolulu. This part of the voyage was made partly under steam and, with the exception of one or two days of southeasterly weather, a very pleasant voyage was experienced.

The whole voyage of the Mohican was, with the exception of the rough weather and the stopping at Dutch Harbor, singularly uneventful.

During the gales, the fore royal mast was split but this was the only damage done. Only very few vessels were sighted. The Warren spoke the Mohican when the latter was a few days out of Yokohama. The Mohican was later on reported by the Warren. On June 7 in latitude 27 deg. N. and longitude 155.49 deg. W. the Mohican spoke a Dutch vessel which was on her way from Newcastle to San Francisco. The vessel displaying the letters, "H. S. F. C." Later on, a night or so before the arrival of the vessel at Dutch Harbor, the lights of a steamer were seen. She probably was one of the Empress liners.

The crew of the vessel was in good health during the whole trip, the only serious illness being a case of typhoid fever. The boys were, however, heartily tired of the long cruise and were glad to see the inviting shores of Oahu again.

The bumboats which swarmed out to the steamer as soon as she had dropped her mudhooks did a rushing business and were soon emptied of their cargoes of bananas, pineapples, etc., by the boys who thoroughly appreciated the tropical fruits after the monotonous diet of the cruise.

Among the crew are six Hawaiian lads who were taken on board when the vessel last touched this port. Lieutenant Commander H. S. Knapp, the executive officer of the Mohican, states that the boys have the making of excellent sailors in them. None has as yet gained promotion, although they might have been full A. B.'s by this time if they had worked a little harder.

The officers of the vessel all well, but complain a bit of the tropical heat which strikes them rather hard, coming as they do right out of a cold climate.

The following is a full list of the officers: Commander A. R. Conden, commanding officer; Lieut. Comdr. H. S. Knapp, executive officer; Lieut. H.

CROWN LANDS OMITTED

IN SENATE RESOLUTION TO INVESTIGATE HAWAII

Senator Hoar's Amendment Bearing on Claim of the Queen Stricken Out When Brought Up for Final Action.

The resolution that finally passed the Senate providing for an investigating commission to visit Hawaii this summer does not carry the amendment made by Senator Hoar, that special attention be given the claim of Queen Liliuokalani to the crown lands.

The Congressional Record of June 28 contains the following: Mr. Mitchell, I ask unanimous consent that the resolution submitted by me on the 13th instant may be now taken up and considered. I will state that when this resolution was before the Senate the other day the Senator from Rhode Island (Mr. Aldrich) made some criticisms regarding it. I have framed a substitute which meets the approval of the Senator from Rhode Island, and which, I think, will meet the approval of the Senate. I send the substitute to the desk and ask that it be read.

The President pro tempore, The resolution submitted by the Senator from Oregon on the 13th instant will be read. The Secretary read the resolution. The President pro tempore, Is there objection to the present consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution. Mr. Mitchell, I now ask that the substitute for the resolution, which I have sent to the desk, may be read.

The Secretary read as follows: Resolved, That the Committee on Pacific Islands and Porto Rico be, and is hereby, authorized and directed to investigate the general condition of the islands of Hawaii and the administration of the affairs thereof, and for the purposes aforesaid said committee, or a sub-committee thereof, appointed by the chairman, shall have power to send for persons and papers, to visit the islands, to administer oaths, to sit during the recess of Congress, and said committee shall report at the beginning of the next session of Congress the result of its investigations; the expenses of said investigation to be paid out of the contingent fund of the Senate.

The President pro tempore, Was the original resolution reported from the Committee to Audit and Control the Contingent Expenses of the Senate?

Mr. Cockrell, Yes; it was reported by the Senator from Nevada (Mr. Jones).

The President pro tempore, The question is on the amendment in the nature of a substitute for the resolution presented by the Senator from Oregon.

The amendment was agreed to. The resolution as amended was agreed to.

FEDERAL CASES ARE DISCONTINUED

Engineer Holland's Wages Occasion Varied Proceedings.

QUARANTINE ISLAND DISPUTE IS SETTLED

Label Against Steam Schooner Malolo Compromised---Doings in Circuit Court--Estate of Peter Whitmarsh.

Judge Estee this morning dissolved the injunction against execution granted to Wilder's Steamship Co. in the matter of the wages of W. H. Holland, and required the company to make a deposit of \$60. The hearing on order to show cause, directed to Captain Nicholson of the steamer Helene, was begun and continued until this afternoon. T. I. Dillon appeared for Holland; Kinney, Ballou & McClanahan for Wilder's Steamship Co.

In the case of G. B. McClellan vs. Dr. L. E. Cofer, the plaintiff filed a discontinuance, he to pay costs. This is the matter of title to Quarantine Island, which has been settled amicably. Waimanalo Sugar Co. vs. the steamship Malolo has been settled out of court, and a discontinuance will be filed before Judge Estee this afternoon. Wilder's Steamship Co. vs. W. H. Pain continued to occupy the attention of Judge Humphreys and a jury this forenoon.

Kamakua Whitmarsh petitions for letters of administration to herself on the estate of her late husband, Peter Whitmarsh, whose heirs are herself and Joseph Whitmarsh, a son of 17 years old by a former wife. The estate consists of three pieces of land in Kona, Hawaii, value and other particulars unknown; a life insurance policy for \$2000 and personal effects valued at \$200.

In the case of Brune vs. Dowsett, Judge Robinson has ordered that a commission issue to William F. Humphrey, San Francisco, to take the depositions of George H. Bahrs, Alfred E. Brune, Anna Adelheide Brune and C. Bosse, witnesses for plaintiffs.

ELECTORAL REGISTER

Secretary Cooper intends to issue a Great Register of Voters for the coming election. To this end he is sending out the form of affidavit on application to register used by the Honolulu board of registration at last election, with a request that the same form be used by all boards. Compliance with the request will result in complete personal data of the voters, which will be of great benefit for purposes of identification at the polls. The electoral rolls in vogue have none of such data beyond the names, so that the Great Register will be of inestimable utility.

A. C. Dowsett, Dr. E. Armitage, L. T. Kentwell, Miss Stella Love, Mr. and Mrs. T. B. Ballentyne, S. Kepoikal, Mr. and Mrs. H. C. Halvorsen, Miss Massey, Rev. J. K. Joseph and Rev. and Mrs. J. H. S. Kaleo were among the passengers for Maui in the Claudine yesterday.
Rev. G. L. Pearson, pastor of the Methodist church of the city, who left for Hilo in the Kinai last week, will occupy the pulpit in the Hilo Foreign church for three Sundays. During his absence his place here will probably be taken by Rev. W. D. Westervelt, Smith and Rice.
San Francisco, July 7.—Newt Jordan, one of the best known of the twenty San Francisco pilots, has resigned and will be succeeded by Captain Bert Williams, now on the American-Hawaiian Company's steamer Oregon and late of the four-mastered ship Frederick Billings.
The second game of baseball on Saturday next will be between the Honolulu and Custom House teams. The latter believe they can beat the Honolulu. Indeed, if they play as good ball as they did in the beginning of the season and the Honolulu do the kind of work they indulged in last Saturday, this result may be looked for.

SHOT AT PORTO RIGAN
On Friday morning last, somewhere between 2 and 3 o'clock, a Porto Rican, now known by the police and under surveillance, tried to rob the Herrick home on School street. The fellow got something to stand on, secured a hatchet out of the wood shed and using this to pry open one of the windows, was soon inside the house.
As it happened, the Porto Rican alighted in the room of Henry Herrick, a young man about 18 years of age. The latter heard the fellow come in the window and reaching for his revolver under his pillow, determined to shoot.
Herrick must have become a bit excited for, in place of remaining in bed and fring, he got up cautiously and walked to the door of his room. It was not until then that he turned and fired. His hand must have been shaking the wall near the floor and hardly on a direct line with the robber.
If the shot did not hit the Porto Rican, it nevertheless gave him one of the biggest scares ever had in his life. With a yell he made a break for the window and, tearing through flower pots and other articles on the outside of the window, was soon flying down the street, out of harm's way.
It is understood that when the police were questioning various Porto Rican prisoners the other day, the identity of the man who entered the Herrick premises was learned.

THE FIRE CLAIMS.
The Fire Claims Commission charges a sliding scale of fees for delivery of awards. It ranges from one-eighth to about one per cent. Attorneys representing many large claimants have fees running into the thousands. Claimants who subrogated their claims to insurance companies have their awards endorsed as subject to the claims of the insurers. The estimate frequently given by the Bulletin of about \$1,500,000 as the aggregate of awards is admittedly correct. Only a few awards were entered for exchange for warrants at the Auditor's office yesterday. Chairman MacFarlane declines to allow the awards to be made public from the books in custody of the Commission. This is probably the first case on record in modern times of secret judgments by a public court.

TROUBLE OF HEIRESS.
John M. Dowsett, trustee of the property of Anna Adelheide Brune nee Widemann, has filed an answer to the complaint of Ernest L. Heuter, also a trustee. He alleges that before the execution of the deed of trust to him he did not know that the engagement of marriage was a serious one, as Anna Adelheide Widemann had told him of a different engagement and he had information of still others. Also he says that she was imprudent, incurring debts far in excess of the income from \$25,000 left her for life by her father. He admits the execution of the trust deed to Heuter, but says it carries no conveyance of the property for which the legal title was in himself at the time.

HOLLAND'S WAGES.
The wages of W. H. Holland, first engineer of the steamer Helene, for which he has brought suit in the Federal court as reported yesterday, are withheld in obedience to a garnishee process out of the Honolulu district court. Wilder's Steamship Co. later in the day sued out a writ of injunction before Judge Estee to prevent the collection of the judgment by the local court's execution. This is a precaution to avoid having to pay the money twice. The Federal law protects the wages of seamen from attachment.

GULSTAN COUNCIL.
The following officers of the new Gulstan Council, Y. M. I., will be installed tonight at Waikiki, Maui: Father Lambert, chaplain; G. Z. Schrader, president; J. A. Vasconcelles, first vice-president; A. J. Rodrigues, second vice-president; J. Garcia, recording and corresponding secretary; A. J. Gomes, financial secretary and treasurer; A. Enos, marshal; C. R. CONSTITUTION IN FORGE

CAPE COLONY PARLIAMENT SOON TO BE IN SESSION

Imperial Government Refuses to Suspend Constitutional Rights—Confidence in People to Keep the Peace.

London, July 5.—The reply of the Colonial Secretary, Joseph Chamberlain, to the petition for the suspension of the constitution for Cape Colony was published in a Parliamentary paper this evening. It says there is no precedent for the suspension of the constitution of a responsibly governed colony. The suspension should be effected only by an act of the Imperial Parliament, and the Government believes such a step is not called for unless it is proven that the constitution is a positive danger to the colony's peace or that a great majority of whites desire that the authority be completely transferred to the Imperial Government. Such a desire could only be constitutionally expressed by a resolution of the Cape Parliament.

The Government was satisfied that the Cape Parliament would take the necessary steps to provide for the security of the colony and to discourage the racial and political controversy which was interfering with its prosperity and which can serve no good purpose among members of a community having common interests in the peace and prosperity of South Africa.

Sir John Gordon Sprigg, the Premier of Cape Colony, was interviewed today regarding the decision of the Imperial Government not to suspend the constitution of Cape Colony. He said: "If the petition had been granted it would have caused apprehension regarding the position of every self-governing colony, since it involved the whole question of free constitutional government. The decision will promote peace and reconciliation in South Africa. The suspension of the constitution would have had a reverse effect."

In the fight against the suspension of the constitution of Cape Colony, Sir John Gordon Sprigg had the tacit support of all the Colonial Premiers, who feared that the suspension might create a precedent most dangerous to their constituencies. It is said that before the Premier of Cape Colony attained his purpose unusually sharp passages occurred between Mr. Chamberlain and himself.

The decision of the British Cabinet not to suspend Cape Colony's constitution is taken to be a serious blow to Lord Milner's prestige. The latter openly opposed the Premier, and Sir John's victory is not likely to improve relations which were already strained.

Platt for Roosevelt and Against Hanna

Washington, July 7.—Senator Platt's announcement last night at Manhattan Beach that he would endorse President Roosevelt to succeed himself in 1904, and that if New York and Pennsylvania both should come out for Roosevelt it would decide the question, is regarded by politicians here as most important. It means more than the mere announcement of the New Yorker's friendliness toward Roosevelt. It means that Roosevelt and Platt have reached a clear understanding, and this has a direct bearing upon the conflict that is looked upon here as inevitable because of the rivalry between Roosevelt and Hanna.

No one in public life and familiar with the situation believes Hanna can escape being a candidate before the national convention in 1904, even if he tried, and few believe he will try. If Roosevelt in the meantime obtains the co-operation of such leaders as Platt and Quay in his behalf the fight is sure to be the most exciting in modern political annals.

Joe Chamberlain in the Hospital

London, July 7.—The Colonial Secretary, Joseph Chamberlain, was severely cut on the head today, as a result of a cab accident in Whitehall. The Secretary's hansom was passing through the Canadian arch, when the horses slipped and Mr. Chamberlain was precipitated forward with great violence. His head struck against the glass front of the cab. When he was extricated it was seen that Mr. Chamberlain's head was badly cut and bleeding freely.

RAVAGES OF CHOLERA

DEATH OF FILIPINOS INCREASING GREATLY

Greater Mortality Expected During Hot Months—One Hundred Victims on American Army.

Washington, July 7.—Not since 1852, when the native population of the Philippines was decimated by a virulent epidemic of Asiatic cholera, has there been such an attack of disease as is now ravaging the archipelago. Officers returning from the Philippines recently have expressed the fear that the mortality would approach the figures attained twenty years ago. Because the natives are ignorant of the simplest rules of hygiene and sanitation the epidemic is bound to increase during the hot weeks to come, and the only relief which can be looked for is the rainy season, which is due in August or September.

The natives are numb from fear of cholera, and with good reason, for the death rate among them is fully 85 per cent. The disease is plain Asiatic cholera in the virulent form it develops in the tropics, where the climatic conditions and lack of proper sanitation aggravate it.

The medical corps of the army and officers of the United States Marine Hospital Corps have co-operated with success in keeping the cholera confined to the Philippines. Private letters received here state that the work of medical inspection in Manila and elsewhere is greatly hampered by the natives themselves.

Reports from Colonel Heisemann, chief medical officer of the Philippines, covering the period up to May 15, are the last received here. They state that in Manila there have been 1905 cases with 800 deaths. There were twenty-three cases where Americans had been stricken, with thirteen deaths. Thirteen Europeans were stricken and ten deaths occurred.

In the entire Philippines there were 3210 cases and 2322 deaths.

American Athletes Victors in England

London, July 5.—The amateur athletic championship meeting at Stamford Bridge today was of unusual interest owing to the international flavor imparted to it by a number of American entries. Results:

Putting the weight—William Coe (American), 42 feet 10 1/2 inches; R. W. Edgren (American), 38 feet 8 inches. 100 yards—A. F. Duffey (American) won by a yard and a half. R. W. Wadley second, Dennis Murray third. Time, :16.

One-mile run—Binks (United Athletic Club) first, Hawtrey second, Barker third. Binks won by two yards. Time, 4:16 4-5. British amateur record, 4:12 yards hurdles—G. W. Smith, New Zealand, first; Trafford, second; Phillips, third. Time, :16.

High jump—S. S. Jones, New York Athletic Club, 6 feet 3 inches. First, P. O'Connor, 6 feet 2 inches. Second; O. Leahy, 6 feet 1 inch. third.

Hammer throw—T. F. Kiely, 142 feet 9 inches. First; Mal, 130 feet 2 inches. Second; Edgren, 121 feet 1 inch third.

Cuban Reciprocity at Next Session

Washington, July 3.—Chairman Payne of the House Committee on Ways and Means today conferred with President Roosevelt in regard to Cuban reciprocity. Upon leaving the executive quarters Payne, in response to questions on the subject, said he was satisfied that reciprocity with Cuba would be effected at the next session of Congress by an almost unanimous vote in both Houses. The method by which this will be attained, he said, would be by treaty. Under ordinary conditions, he said, a treaty is ratified by the Senate only, but in matters of this kind, involving questions of revenue under the Dingley law, the House under the constitution has equal jurisdiction with the Senate. The conferences of Payne with the President and his subsequent utterances effectually put an end to an extra session talk.

Restoration of peace in the Philippines has been declared. May it become a reality.

The winter of Hawaii's discontent starts in with water rates and winds up with the property and unjust income tax. After that the Legislature.

Sooner or later the Republicans will have to decide on whether it will be "anything to beat Wilcox" or an effort to elect their own candidate.

Japanese laborers leaving Hawaii for the Mainland are likely to be heard from at no distant day crying out for sufficient money to pay their way home.

Agulnaldo's fear of death at the hands of former associates is pretty good evidence of the kind of material Uncle Sam has to "civilize" in the Philippines.

With two lines of freighters bidding for fruit trade in Honolulu and Hilo's coast steamer giving Hawaii growers a chance, it ought to be possible for the small farmers to find a profitable business outside the realms of sugar.

One lone escaped convict is holding up Seattle and all its surrounding sheriff posses. Why don't some of the anti-imperialists invite this man to visit Boston or appear before a Congressional committee to tell his story of woe and of the difficulties he encounters in becoming a loyal American citizen.

THE MUNICIPAL ISSUE.

The political situation in Hawaii was never more complicated, kaleidoscopic or fraught with more possibilities for good or evil than it is today. The forces which believe in progressive government are divided into three camps, at present working toward the same end on different lines of party action.

Outside possible personalities found in the capacity of candidates to fulfill the duties of the office to which they aspire, the chief issue of the campaign will be county and municipal government. This is particularly true of the Republican party known to contain an ultra conservative element.

Chairman Robertson of the present Republican organization takes the stand that the position of the Republicans should be no less positive than that of the opposition, in so far as a demand is made for provision for county and municipal government by the next Legislature.

CUBAN PLANTERS SELL SUGAR AT A LOSS

Havana, June 29.—The Diario de la Marina says that nobody who knows the economic situation in Cuba can be surprised by the growing agitation among the planters, who are faced with ruin.

It cites the following case, the figures being taken from the books of one of the leading planters, of the sale of 10,000 sacks of centrifugal sugar, polarizing 96.5 degrees, the gross weight of which was 3,230,000 pounds. The tare was 30,000 pounds, leaving 3,200,000 pounds of sugar, worth, at three cents a pound, \$96,000 in New York.

At a large meeting of negroes today Senator Rendon denied that the negroes wanted to make trouble. All they wanted was justice. All Cubans, he added, should unite to offset the Americans.

Gen. Sanchez said that the police of Havana were composed of whites, yet more stealing was done by the police than anybody else. Honest negroes could not get admittance to the force.

One miner is killed for every 1,000,000 tons of coal raised.

DOOR OF ORIENT SHUT IN AMERICA'S FACE

By ALEXANDER RUSSELL WEBB BEY, Consul General of Turkey in New York.

It is the fashion for Americans to write and to speak most optimistically nowadays on the brilliant prospects of their trade with Oriental countries.

The acquisition of the Philippines and the unhooking of the door in China have turned the eyes of mercantile America eastward; and all the markets of Oriental lands are already looked upon as the certain reward of American business pluck and enterprise.

Ten years in the Philippines, long travel through China and India, and nine years' service in the employ of the Ottoman Empire qualify me to advise that the outlook is not as rosy as it seems.

The bar to American trade progress with the Eastern people is that the labor cost of the articles desired by them is greater in America than in the competing European countries.

It is idle to argue that the American workman's superior efficiency more than makes up all along the line for the wage difference. That may be so in the case of a few articles, but in general it is not true.

President Castro Routed and Flees Sir Chales Dilke On British Policy

Willemstad, Island of Curacao, July 7.—Three thousand Venezuelan Government troops under General Calixto Castro, the President's brother, were completely routed on July 3, between Barcelona and Agua, by the troops of the revolutionary army under the command of General Rolando.

After the battle the revolutionary army moved on Barcelona and surrounded that city. The inhabitants were panic-stricken, the shops were closed and the streets were barricaded.

President Castro of Venezuela left Caracas yesterday, not for Valencia, as had been announced previously, but for La Guaira, taking with him his private guard of 500 veteran soldiers and General Ferrera, his chief of staff.

President Returns To Former Home Oyster Bay, July 5.—President Roosevelt arrived here at 5:15 o'clock this afternoon and was given a very cordial greeting.

London, July 3.—When the vote for the Foreign Office came up in the House of Commons today the Government's foreign policy came in for considerable criticism.

Sir Charles Dilke (Advanced Radical) said he wanted to know if there had been any real negotiations with France looking to the settlement of the French shore (Newfoundland) dispute, and he further declared that British recognition of French rights to the Hinterland of Tripoli endangered the traditional friendship of Great Britain and Italy.

Rhodes Scholarship Are Postponed

London, July 5.—An unfortunate hitch has occurred in the arrangements regarding the Cecil Rhodes scholarships, owing to the illness of Lord Grey, who suffered a slight sunstroke in the Channel Islands this week. Serious complications were at first feared but Lord Grey will be well enough July 8 to go on to the continent, though perfect rest is enjoined. As Lord Grey is spokesman of Rhodes' executors, several meetings and informal discussions by the Colonial Premiers and others now in London regarding the best method of selecting candidates, etc., have been temporarily postponed.

LAND IN PHILIPPINES

FIVE ARBITRATORS TO DETERMINE PRICE

Final Note from United States is Handed By Major Porter to Pope's Secretary of State.

Rome, July 3.—Judge William H. Taft, civil Governor of the Philippine Islands, today received a long cable message from Secretary Root containing the department's final instructions concerning the note relating to the disposition of the friar lands in the islands, and this afternoon Major Porter delivered the note to Cardinal Rampolla, the Papal Secretary of State.

Major Porter delivered the note personally to Cardinal Rampolla, who conversed cordially with him at some length, expressing the hope that the negotiations would be concluded in time to allow Judge Taft to leave Rome July 23. The Pope read the original note, which was immediately magnified for the benefit of the Cardinals having charge of the matter.

The note proposes: The purchase of the land of the Dominican and Augustinian orders at a price to be determined upon by five arbitrators, two to be chosen by the United States, two by the Vatican and one by a neutral, say, the British Government of India.

The arbitrators to meet in Manila not later than January 1, 1903, examine witnesses and visit the lands.

The judgment of the majority to be accepted.

The price to be paid in Mexican dollars, one-third immediately, a third in nine months, and a third in eighteen months, with interest at 4 per cent. Payment is to be made to a person chosen by the Vatican.

The former Spanish crown lands now in possession of the American Government on which there are ecclesiastical buildings to be handed over to an ecclesiastical official appointed by the Vatican.

The ordinary courts to decide concerning the land retained by the church but claimed by the municipalities.

KITCHENER PRAISES THE CONDUCT OF THE BOERS

Pretoria, July 7.—Lord Kitchener's valedictory to the troops, dated June 25, after extolling the conduct of the British soldiers in the face of great hardships and difficulties and against dangerous and elusive antagonists, commends the kindly and humane spirit displayed in all ranks, and concludes as follows:

"This message would be incomplete were no reference made to the soldierly qualities displayed throughout the campaign by our quondam enemies and the admirable spirit displayed in carrying out the surrender. Many of those who contended until the end have expressed the hope that they may have, in the future, an opportunity to serve side by side with his majesty's forces."

London, July 7.—The Daily Mail's Pictorial correspondent wires: Louis Botha, in the course of conversation, said that after their visit to Europe, he, De Wet and Delarey intended going to America. Their object was to collect funds for the relief of Boers ruined by the war. Botha is arranging for an official history of the war from the Boer side, written by himself, De Wet and other leaders.

London, July 8.—General Buller, with the permission of the War Office, has sent to the press copies of his original dispatches from South Africa and of his famous helligram. These copies differ only in trifling details from the version previously published, and do not serve, according to the general belief, to place his attitude regarding Lady Smith in any better light.

King Edward Feed Poor of London

London, July 5.—A half-million of London's slum dwellers were King Edward's guests this afternoon. They were scattered in about 400 halls, schools and parks in varying numbers, the greater number of beneficiaries being at Stepney, where no less than 45,000 enjoyed a dinner such as they seldom partake of. At every gathering was read a message from the King signed by his private secretary to the poor, sent through the Lord Mayor of London, Sir Joseph C. Dimsdale.

Two Steamers Still Packed in the Ice

Seattle, July 5.—"Somewhere in that crush of ice lie the Portland and Jeanie, probably broken by the terrible pressure of wedged blocks of it, like an eggshell. The condition of the passengers and crew is by no means hopeless, however, for they may have been fortunate enough to make their way over the ice to Point Hope or Point Barrow. Even the farthest point north is not an impossibility with the ice drifting as it is. The ships may not be crushed, but as time goes on without sign of the vessels' hopes for their safety are more remote."

This is the conclusion reached by Dr. Henry Horn, surgeon of the cutter Thetis, after that vessel's unsuccessful cruise in search of the ice-bound Portland and Jeanie. The first authentic and detailed account of the Thetis' voyage arrived here today in a letter from Dr. Horn to a friend. Dr. Horn describes the ice as being unusually thick and of vast area. The Thetis attempted to make her way through openings at various points in the pack, but was unable to sight the two imprisoned vessels at any time.

Secretary Moody Shaking Up Navy

Washington, July 6.—Since he took the reins of administration from John D. Long Secretary Moody's handling of the Navy Department has been closely watched by officers in all branches of the service. The new chief of the Navy Department has ideas which are considered radical. Many of these ideas, and the changes in the department which will materialize if they are put into operation, have the hearty approval of the President. As yet, no sweeping changes have been ordered.

The greatest change which Mr. Moody has proposed caused a furor in naval circles a week ago, when each bureau chief received from him the outline of a general plan for the reorganization of his department into two divisions, one of which was to be that of personnel, controlling all officers and men and all ships in commission under the immediate direction of the Bureau of Navigation, and the other a division of material, consisting of all other bureaus under the direction of the Assistant Secretary.

Secretary Moody's recent orders that subscriptions to daily newspapers should be stopped in all offices of the Navy Department, including his own, and that high salaried but incompetent clerks should be reduced and competent ones promoted caused much comment, and his consideration of a plan to discontinue the privilege now held by naval officers of having their families attended by naval surgeons free of charge is also causing comment.

WOULD TRADE ISLANDS

New York, July 6.—A special to the Press from Montreal says: A report has been received here of a deal planned by Great Britain in which the United States is to play an important part unless negotiations fail. The report is that, in order to settle the Alaskan boundary question, an offer will be made to the United States of some of the British West Indies and that in return Canada shall be allowed the privilege of having a port at some point on the Alaskan coast. Dyea is the particular port which England desires most to obtain.

It is believed in London that the United States is eager to get hold of more of the West Indies for strategic purposes. Great Britain has so many islands in that part of the world that a few could be spared without injury to British interests, and British statesmen believe they have hit upon a good basis for a trade. They have sounded Secretary Hay in a general way, and a promise has been made by him that next autumn he will be in a position to discuss the whole Alaskan problem with a view to some definite action.

EMPEROR WINS FROM EMPEROR

Kiel, July 3.—Emperor William's guests on the Meteor during the return race from Eckenforde to this port included P. A. B. Widener, Allison Armour, Clement A. Griscom and C. F. Robinson, rear commodore of the New York Yacht Club; the Grand Duke of Saxony and Admiral Prince Henry of Prussia. Though the Meteor finished first, the Empress' yacht Iduna won the first prize on time allowance. The Meteor was second. The British schooner Cleely gave up the race.

A PAPAL ANNIVERSARY

FETE HELD AT VATICAN IN HONOR OF HIS HOLINESS

Twenty-fourth Anniversary of Coronation--American College Members Participate--Dinner to Poor of Rome.

Rome, July 6.—All the members of the American College at Rome, including Rev. Dr. Thomas Kennedy, rector of the college, and Fathers McCabe, McCourt and Mullin of Philadelphia, were present this evening at the fetes held at the Vatican in celebration of the twenty-fourth anniversary of the coronation of the Pope. The entire papal court and boards of members of all the Catholic societies represented in Rome assembled at 6 o'clock this evening in the great Belvedere court of the Vatican and paid homage to His Holiness. The court was beautifully adorned with tapestries and a profusion of plants and flowers.

The Pope occupied an especially constructed and richly decorated gallery. His Holiness entered the court by way of the lapidary museum and the nary. He was greeted with enthusiastic acclamations and the hand played the Pontifical march. A chorus, composed for the occasion, was sung by a choir of several hundred pupils from all the clerical schools in Rome, who filed by the Pope carrying banners. The Vatican officials, a number of ladies and the members of the diplomatic corps witnessed the scene from windows overlooking the court.

The fete was brought to a close by the Pope pronouncing a pontifical blessing, after which he was again acclaimed. A great flock of pigeons sent to Rome from all the chief towns in Italy were then released. The pigeons flew off to their homes, each one bearing an announcement that the ceremonies had taken place.

The Pope, who was delighted with the fete, was in excellent health, and his physician announced that he has improved both in health and spirits in the past year.

A dinner in celebration of the anniversary was given in the Vatican at noon today to 150 of the poor of Rome.

AGUINALDO MAY VISIT HIS BOSTON FRIENDS

Boston, July 6.—Aguinaldo is coming to the United States and his departure from Manila for San Francisco is expected at any time. He will come direct to Boston to join his former secretary, Sixto Lopez, and will then start out on a tour, delivering a series of lectures on the conditions existing in the islands as he sees them, and make a plea for the independence of his countrymen. In this campaign, as now planned, there will be no inflammatory speeches nor fiery eloquence. A simple, plain statement of facts will be made, and the people will be left to draw their own deductions. It is probable that his host in Boston will be Plake Warren, who has of late been sponsor for Lopez and his talented sister, Clemencia.

Since the superseding of civil for military rule in the Philippines, and the consequent release of Aguinaldo from his palace prison, there has been unusual activity among the anti-imperialists in Boston, and those in touch with the leaders in the anti-imperialist movement have felt that some startling bit of news was being held back for a more propitious time for announcement. The news of Aguinaldo's intended coming to the United States, however, came out today. Just what Aguinaldo and the anti-imperialists hope to accomplish at this time by the proposed lectures none of the leaders of the movement today would say.

New York to Build Battleship.

Washington July 7.—Secretary Moody today, after consultation with his bureau chiefs, gave orders that one of the battleships authorized at the last session of Congress be constructed at the New York Navy Yard.

SALE OF GOVERNMENT LOT NO. 27, BLOCK "B," HILO, HAWAII.

On Thursday, August 14th, 1902, at 12 o'clock noon, at the front entrance of the Executive building, will be sold at Public Auction, the lease of Government Lot No. 27, Block B, Hilo, Hawaii. Term—50 years.

Upset Rental—\$200.00 per annum payable quarterly in advance. This sale is upon the conditions provided for in Sections 2 and 3, of Act of the Laws of 1896, viz:

Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall during the first four years of the term of the lease cause to be erected upon the leased property a fireproof building of brick, stone or metal, in a workmanlike manner, satisfactory to the Superintendent of Public Works at not less than a stated cost and shall keep the same suitably insured at not less than two-thirds of its value, for the benefit of the lessor, and shall keep such building in good repair during the remainder of the term of the lease, reasonable use and wear thereof only excepted, and in case of damage or destruction of such building, by fire shall make good such loss or damage by the necessary repairs or reconstruction, or the surrender of the insurance to the lessor.

Section 3. Every such lease shall also contain a covenant on the part of the lessor that upon the request, in writing of the lessee or his representatives, before the expiration of the term thereof, the premises, with the improvements shall, if all the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years, unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such annual sale shall be held not more than six months nor less than one month before the expiration of such term.

The cost of the building to be erected in accordance with Section 2, above mentioned, to cost not less than \$2,000.00.

The material to be used for the erection of said building to be of brick, stone or metal.

Maps of this lot can be seen at the office of E. E. Richards, Hilo, Hawaii, and at the office of the Superintendent of Public Works.

Colombia May Block the Canal

Paris, July 3.—The officers of the Panama Canal Company are straining every point to bring sufficient pressure to bear on Colombia to secure title to the property and grant the United States a strip of land on each side of the canal, fearing that the sale of the project to the United States may fall through. It is stated on reliable authority that the greatest apprehension exists among the directors of the French company, who have more reason than ever to believe that Colombia will take advantage of the present conditions to make excessive and impossible demands.

Rockefeller Joins The Packers' Trust

Chicago, July 5.—A combination of gigantic companies controlling the packing industry of the United States has finally been made, with John D. Rockefeller as the central figure in the financial part of the negotiations. Final arrangements have been made for the consolidation of the Swift and Armour interests, which have recently gained control of other packing concerns throughout the country. The announcement was whispered today on La Salle street and caused no little surprise.
By a fire which broke out in their plant at the stockyards tonight Swift & Co. suffered a loss which is estimated by the officials of the company at \$500,000.

Indians Dazzle British Royalty

London, July 4.—The Prince of Wales, in behalf of King Edward, received the Indian Princes in London at the India Office tonight. The entertainment was one of the most brilliant ever witnessed in London. Members of the royal family were present and occupied a private box overlooking the main hall. The guests of the evening included all the royal representatives to the coronation of the King who are still in London, as well as the greater number of the English nobility and the notable personages of London. The decorations of the buildings were magnificent and cost, including the furniture and hangings, not far from £50,000.
The progress of King Edward continues satisfactory. Beginning July 5 only one bulletin a day concerning His Majesty's condition will be issued. This will be posted at 9 o'clock in the morning, and the arrangement will be continued until His Majesty is entirely convalescent.

American Transport Ashore.

Manila, July 3.—The United States transport Salamanca is ashore on the Zamboanga coast. She has three companies of the 25th Regiment on board. Assistance has been sent to her.
In 1890 the United States had 106 button factories, in 1900, 238, with a capital of \$4,210,000, using annually material worth \$2,803,000, turning out a product worth \$7,095,000.
Henry S. Bisbing, the painter of cows is the latest addition to the long list of American painters on the roll of the Legion of Honor of the French Government.
