OUTBURST OF SEDITION IN MANILA

SAW LAKE OF FIRE IN GRAND DISPLAY

The excursion on the Mauna Kea to the volcano which left Friday night and returned to this city at 8:30 this morning, was an unqualified success. While the trip up to Hilo was rather rough and seasickness bothered a good many, with that solitary exception there was not a person in the party who had a single complaint to make. The accommodations on the Mauna Kea proved to be all that could be asked and the bill of fare served was better than could be obtained at an a la carte meal in any of the local hotels. The credit for the fine meals is due mainly to Chief Steward Frank De Mello whose department both served and cooked the meals in the best of shape. The following bill of fare was served on the boat last night:

- Queen Olives
Water Cress and Radishes
Pickles
Caviar Sandwiches
Chicken Giblee a la Anglaise
Fried Sea Bass Bahama Sauce
Chicken a la Royal
Braised Tongue Brown Onion Sauce
Pineapple Fritters
Roast Prime Ribs of Beef and Mutton Caper Sauce
Salad Lobster with Mayonnaise
Snow Potatoes and Baked Sweet Potatoes
String Beans and Cauliflower with Cream Sauce
Manna Kea Pudding
Chocolate Ice Cream Macaroons and Lady Fingers
Assorted Pies, Grapes, Lemon and Rhubarb
Oranges Bananas Apricots
American Cheese and Assorted Crackers
Dates, Figs, Raisins and Assorted Nuts
Tea Coffee Chocolate Milk.

MAGNIFICENT SIGHT.
The sight seen at the crater of Kilauea was something which will long be remembered by all the party, which numbered one hundred and twenty-seven and was still further reinforced by additions from Hilo. The lake of molten lava was about six hundred feet long and four hundred feet wide, constantly changing, as in one place it would cool for a few minutes only to crack in line of flame and change into some new form. The cracks in the lava formed letters of flame and one of the officers of the battleship Maine claimed that he saw the name of his vessel plainly, being most evidently a greeting to Captain Harbor, who was one of the party. There was an island in the center of the lake at which the greatest part of the disturbance seemed to be located. Here a cone had formed which was apparently over thirty feet in height and which would spout forth molten lava at intervals of about a minute and a half.

Another interesting part of the lake was that toward the Volcano House. Here the action was not so violent but was incessant. Instead of spouting there was some force which seemed to be throwing out waves like a heavy surf. This would break against the

side of the crater, giving an effect which it is impossible to describe. While those who have been at the Volcano House for a week or more stated that the eruption was not as active as it had been before, it was so fine that a party of nine from Honolulu remained all night at the crater. They stated that at one time, between one and two a. m., there was a sudden burst which threw lava over one hundred and fifty feet in the air.

The Volcano House was crowded to its full capacity, nineteen of the visitors from Honolulu being lodged on sofas, cots and mattresses in the billiard room to make room for all. There was but one accident to mar the trip. That occurred to W. L. Eaton, of the Honolulu Bulletin, who wandered off the path instead of crossing a small ravine in the crater on a bridge. He fell into the crevasse, spraining his ankle badly. That he was not more severely hurt was a wonder, as he fell head first to the bottom, a distance of about fifteen feet.

Special cars were furnished for the trip by the Hilo Railroad, and the Volcano Stables had its hands full handling the big crowd, which filled bus after bus. Manager Wright was present in person, however, and put things through without a hitch. In every manner the trip was one of the best that could be experienced.

The following list of passengers returned from Hilo this morning, rather tired, perhaps, but all more than satisfied after the excursion.

- J. A. Kennedy, Rev. A. E. Cooper, Mrs. A. Cooper, P. Afferman, S. Higginbotham, Miss L. Cabral, J. v. McCluskey, C. F. Maxwell, Miss M. Weir, Mrs. M. Conkling, Miss H. Lemon, Miss B. Benner, Miss A. Phillips, Miss J. Center, Mrs. Fullbrook, Miss L. Carroll, Mrs. C. K. Wilder, Miss Feldman, Miss A. Wieden, Mrs. F. Harrison, Miss E. Harrison, Miss Ethel Harrison, Miss S. W. Breckons, Miss Breckons, and servant, F. Hatch, Mrs. Bierce, and son, Mrs. O. Canning, Capt. Otwell.

(Continued on Page 8.)

Hilo Entertains Secretary Garfield

Secretary Garfield, Governor Frear and party, upon arrival at Hilo were met by a committee of citizens and after a run to Rainbow Falls were escorted to Cafe Demosthenes where an elaborate luncheon had been prepared by the citizens of Hilo. E. N. Holmes of Hilo acted as toastmaster and was seated between Secretary Garfield and Governor Frear, Captain Harbor of the Maine, Captain Otwell, Commissioner Pratt, Lieut. Leahy and Dr. L. E. Cofer were seated near the Secretary.

Toastmaster Holmes called on Secretary Garfield for a few remarks. Mr. Garfield stated that in his office in Washington he thought he knew what Hawaii needed and supposed from the data on file at his office that he was in thorough touch with the situation, but on his arrival in Hawaii he found conditions entirely different, that he had much to learn, that his mission was for this purpose, to find out what the conditions in Hawaii were, what they needed and how the things they required could best be carried out. He looked forward to the time when Hawaii could come into close communion with the mainland and graduate from an island territory into a state.

Governor Frear was then called upon for a few remarks. He said that his governorship was in the kindergarten stage, that he had taken one trip to Washington to get better acquainted and this second was to supplement that education and he hoped soon to reach a higher plane so that the people could look to the governor

for assistance. His position was not looked upon for absolute dictation, but to aid and assist the people to carry out what they decided was for their best interests.

Attorney C. M. Le Blond of Hilo, the next speaker, delivered an eloquent address, dwelling upon the Abou Ben Adhem motto of the pre-eminence of the man who loves his fellow man.

Carl Smith delivered an address upon the land question which was frequently interrupted by questions from the Secretary of the Interior. Mr. Smith outlined the situation and at the close Mr. Garfield arose and said that he thought he fairly understood the situation and stated that the people of these islands must get together as a unit, decide upon their needs and send the results of their convention to Washington. Propositions must come from Hawaii and the people should get together as a unit in order to be effective.

Rev. S. L. Desha then spoke a few words of welcome in Hawaiian on behalf of the Hawaiians which was interpreted by W. O. Smith. Toasts were drunk to the President and to Secretary Garfield.

The menu was printed in handsome style, bearing in natural colors the American shield. It was worded as follows:

Luncheon tendered to citizens of Hilo to Secretary Garfield, June 20th, 1938.

Following the luncheon a public reception was held in Sprickels Hall, where the party were entertained by the citizens and ladies of Hilo.

A BIG DAMAGE SUIT IN SIGHT

A damage suit for \$200,000 will probably be filed in the Circuit Court at Hilo during the present week against the Hawaiian Mahogany Lumber Company by George Mondon of Kaula. Mondon claims that he was given a contract by the Mahogany Company for the pulling up of oak trees and handling them to the company's mill at Puna, but that, though he fulfilled part of his obligation and was ready to go ahead with the work, he was never given a chance, a new contract at a lower rate being signed up with Arlole Bros.

The matter appears to date back to the change of management of the Mahogany Company which took place near the first of the year, E. H. Cant, the general manager, being thrown out and replaced by W. W. Harris. It is stated in Hilo that Harris has removed practically every man whom Cant had at work and that considerable feeling has existed. The Mondon contract is alleged to have been made under the Cant regime, while Harris made that with Arlole Bros.

At the time that Cant was replaced he was under contract to act as general manager for the Mahogany Company for two years more and when Harris was placed over his head he threatened suit for breach of contract. Finding that he was firm in his stand, it is understood that he was paid the full salary for the entire term of his contract. He is now getting out of the Puna Rubber Company and is said to be doing very well.

Attorney Carl Smith, of Hilo, who is handling the matter for Mondon, made the following statement yesterday: "Unless a compromise is effected at once a damage suit against the Mahogany Company will be started this week in the local Circuit Court. It is hard to say what the damages asked will be, but the amount will not be under \$200,000. The company's directors held a meeting on the subject in Honolulu last Friday and called in W. W. Harris from this city to get his

views, but I have not heard of any result that was attained.

"The matter is a very simple one to be brought before a jury. Mondon has the contract in black and white to take out the trees and furnish them to the mill at Puna for 27 cents apiece. His principal asset at the time was a force of over 200 Japanese laborers who were then working for him on Kaula. He brought these men to Hawaii, where labor was very scarce, one hundred and ten coming in one shipment. When he had his men on the ground and ready to start, the work was delayed. The company was not ready for him to begin.

Things drifted along and Mondon's Japanese began to leave, a few at a time, for other work as he had nothing to keep them busy. Finally he entered a strenuous complaint and was given a little work, amounting to about \$150 a month. In the meantime another contract, to do practically the same work, though with small changes in the manner required, was given to Arlole Bros. Their contract calls for a price of sixteen cents per tree against twenty-seven cents for Mondon.

"As I say the contract is in black and white and is properly signed and legal in every way. Acting as Mondon's attorney I notified the Mahogany Company some time ago of the fact that my client had instructed me to proceed against them and unless some satisfactory answer is made at once suit will be commenced this week."

The following statement was made today on behalf of the directors of the Mahogany Lumber Company: "Mondon has been working as an employee of our company for several months past and has never spoken to Manager Harris of a contract till within the last two weeks. When he went to Hawaii it was under a written agreement with the directors that he was simply going to look over the ground and not to start on any contract. Harris has asked him to produce his contract which he claims to have, but he has failed to do so."

HALF FARE FOR FLEET

OFFER MADE BY THE RAPID TRANSIT CO. ACCEPTED BY EXECUTIVE COMMITTEE.

The Executive Committee met this afternoon at the regular time, the meeting lasting only fifteen minutes. Those present were G. R. Carter, L. T. Peek, J. P. Cooke, H. P. Baldwin and J. W. Jones.

L. T. Peek reported that the Rapid Transit Co. had decided to give half fare rates for the officers and men of the fleet without any cost to the committee. A motion was carried thanking the company for its generous offer. This action stayed off the proposition, reported in the first edition of The Star, of the Transportation Committee to ask for \$5000 to pay for free cars for the naval sailors.

G. R. Jones reported that the total amount for fire works would be \$93.13, leaving a balance of \$56.87 out of the appropriation of \$750.

The sum of \$1150 was voted the Comptroller's Committee for the hookups.

The sum of \$100 was voted to the accountant for his salary.

All chairmen of the sub-committees are requested to be present in the Chamber of Commerce rooms tomorrow afternoon at 1:30. The question of allowing them a vote at the executive meetings will be taken up tomorrow.

ELIGIBLE ON JULY 1

J. A. GILMAN MAY SUPPLANT CLARENCE COOKE—NO LICENSE FOR HALAHIWA COMING YEAR.

The exclusive news published in the Star on Saturday to the effect that Clarence H. Cooke would be appointed to the vacancy made by J. A. Gilman's resignation as Liquor Commissioner, was confirmed this morning in the Executive building, though as yet no commission has been issued to Cooke. This will probably be done upon the return of Governor Frear from his trip to Hawaii and Maui.

When in Hilo Gilman made the following statement in regard to his resignation:

"I resigned on account of the fact that I received sufficiently strong information to lead me to believe that the opinion which had been asked of Attorney-General Hemenway, in regard to my eligibility, would be favorable to Attorney Peters. It seemed best under the circumstances, if I was not on the Board properly, to withdraw."

While it is not at all certain that such is the case, it seems likely that Gilman will not remain off the Board for any great length of time. His statement to the effect that he resigned on account of the protest made by Attorney E. C. Peters, seeming to be the only reason for his withdrawal, it should be noticed, however, that the objection to his being on the Board will be void on July 1.

Gilman was objected to on the ground that he was a director of the Oahu Railway & Land Company, which holds a second class license at the Halahele Hotel. The company has made no application for a renewal of this license, and after July 1, when it expires, Gilman will once more be eligible to the Board. There is a general feeling among the liquor men of the city, that when this time arrives Cooke will resign and Gilman will be reappointed.

SPRAINS QUICKLY CURED.
Bathe the parts freely with Chamberlain's Pain Balm and give them absolute rest, and a quick cure is certain. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

All cemetery work will have our prompt attention. Hawaiian Iron Fence and Monument Works.

FILIPINOS SAY AMERICANS ARE DRUNKEN THIEVES

MANILA, P. I., June 22.—A most inflammatory circular against the Americans in these islands has just been discovered to have been distributed widely in this city and elsewhere.

The publication denounces all Americans as thieves, declares that they are drunkards and grafters and accuses them of having brought tyranny instead of liberty to the Philippines.

Pending an open revolution, when the Filipinos shall rise against the Americans, the circular goes on to urge a campaign of assassination against those of the Americans in authority in government circles. Great excitement prevails.

24 PAPER MAKERS FINED \$2,000 EACH

NEW YORK, June 22.—Twenty-four wrapping paper manufacturers have entered pleas of guilty to charges of maintaining an illegal combination of interests and have each been fined \$2,000.

MARRY IN ENGLAND

PARIS, June 22.—Anna Gould and Prince De Sagan left this city today for England where they will be married.

TAFT AT REUNION

NEW HAVEN, June 22.—Republican Nominee for President W. H. Taft this morning arrived here to attend a grand reunion of his Yale classmates.

BATTLERS GET AWAY

U. S. Battleships Maine and Alabama left port at 9 o'clock this morning en route to Guam, Manila, Singapore, Colombo, Aden, Suez, Ismailia, Naples, Gibraltar, Horta and Hampton Roads where they are due on October 22, but will probably arrive several days ahead of time.

They arrived here a day ahead and left a day ahead of schedule. The early arrival of the S. S. Nippon Maru, with mail from the Coast, enabled them to get away this morning, otherwise they would have waited for the mail. The Maine went out first, the Alabama following. They will be in touch by wireless for some time.

L. de L. Ward, accountant, has reopened an office above the Hawaii Photo & Art Co., Fort street.

MRS. EDDY TO HER FOLLOWERS

GIVES SCRIPTURAL EXPLANATION OF THE FAILURE TO HOLD ANNUAL MEETING.

BOSTON, June 12.—Mrs. Mary Baker Eddy, head of the Christian Science church, tonight issued a statement in explanation of the omission this year of the annual meeting of the executive committee of the First Church of Christ Scientist, in Boston, usually held on the Saturday before the June communion service, and which was to have been held tomorrow. The statement is inscribed "A word to the wise," and reads:

"My beloved brethren—When I asked you to dispense with the executive members' meeting the purpose of my request was sacred. It was to turn your sense of worship from the material to the spiritual, the personal to the impersonal, the denominational to the doctrinal, yet, from the human to the divine. Already you have advanced from the audible to the inaudible prayers; from the material to the spiritual communion; from drugs to deity; and you have been richly recompensed. Rejoice and be exceedingly glad, for so doth the divine love redeem your body from disease, your being from sensuality, your soul from sense, your life from death."

"Of this abounding and amazing spiritual understanding the prophet Isaiah said: 'And I will bring the blind by a way that they knew not; I will lead them in paths they have not known; I will make darkness light before them, and crooked things straight. These things will I do unto them, and not forsake them.'"

TOO FLIMSAY.

He—You don't seem to catch my ideas.

She—I'm sorry but I've broken my butterfly net—Baltimore American.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED JUNE 13, 1908. Honolulu, June 15, 1908.

GENERAL SUMMARY.

The mean temperatures were higher than those of the preceding week at all stations on Molokai, Kauai, and Oahu, excepting no change at Honolulu; at all on Hawaii, excepting Pepeekeo, and at all in the Koolau and Hamakua districts of Maui, with no change in the Hana district. The excesses at the majority of stations on Hawaii ranged from 1.0 deg. to 2.3 deg. There was but one station on each of Maui, Oahu and Molokai, where the excess equaled or slightly exceeded 1.0 degree. The greatest deficiency at any station was 1.0 deg.

The rainfall for the week was light generally over the section. The amounts, in inches, in the several districts were: Hawaii—Kohala 1.00 to 1.14, Hamakua 0.21 and 0.22, Hilo 1.28 to 2.44 in the central and southern portions and 0.69 to 0.89 in the northern portion, Puna 1.73, Kau 0.00 to 0.19 in the easter ad 1.86 in the southern portions, and Kona 1.22 to 1.30, excepting 0.04 in the extreme northwestern portion; Maui—Koolau 1.76 to 1.89, in the Hamakua, Hana and Hamakua-poko 0.36 to 0.94, and 0.00 to trace in the remaining districts; Oahu—Koolaula 0.17, Koolau-poko 0.31 to 0.49, excepting 0.00 in the extreme southern portion, Honolulu 0.01 at the lower altitudes and Ewa 0.01; Kauai—Koolau 0.67, Puna 0.16 to 0.33, and Kona 0.18 to 0.71, excepting 0.00 at Eleke; and Molokai 0.34 in the southeastern portion, and 0.00 in the west-central part.

More rain is still greatly needed in some portions of the several islands.

At stations having a record of ten or more years the total rainfall was below the average for the week at all stations on Oahu, at all but

SAYS KAISER'S IRE WAS STIRRED

REPORT THAT BERLIN VIEWED WITH DISAPPROVAL THE MEETING OF MONARCHS.

ST. PETERSBURG, June 11.—It was learned here today from a competent source that the recent meeting between King Edward and Emperor Nicholas at Reval and the rapprochement between Great Britain, Russia and France has been made the subject of grave representations on the part of Germany, which has met the threatened birth of a new "triple alliance" with a display of the "mailed fist."

After the announcement of the Reval meeting Russia was given to understand at Berlin that the conclusion of a formal entente between these three powers would be regarded as a measure hostile in tendency. The immediate result of the representations made in Berlin was the publication of an obviously inspired article in the Official Russia which, while speaking warmly in favor of the meeting between King Edward and Emperor Nicholas, declared that the suggestion of a new grouping of the powers at the present time was impossible.

BERLIN, June 11.—A rumor emanating from St. Petersburg that Germany represented to Russia that the conclusion of a formal alliance between Great Britain and Russia would be regarded as a threat of war does not receive credence here. The semi-official Nord Deutsche Zeitung, however, says that both monarchs, in the course of the toasts which were exchanged showed that their mutual goal was the maintenance of the world's peace.

PARIS, June 11. A special dispatch to the Matin from Reval says that Premier Stolypin declared that a Russo-British entente was necessary to the equilibrium of Europe. He added that it did not affect Russia's traditional friendship for Germany, being concerned purely in the situation in Persia, Afghanistan and Tibet, which made such an understanding imperative.

NOTHING ELSE ADEQUATE.

The professor had just finished a lengthy lecture on poisons and antidotes. "Supposing you were called to attend a patient who had swallowed ten grains of oxalic acid, what would you administer?" "The sacrament," shouted an Irish student from the rear of the hall.—London Opinion.

"My beloved brethren—When I asked you to dispense with the executive members' meeting the purpose of my request was sacred. It was to turn your sense of worship from the material to the spiritual, the personal to the impersonal, the denominational to the doctrinal, yet, from the human to the divine. Already you have advanced from the audible to the inaudible prayers; from the material to the spiritual communion; from drugs to deity; and you have been richly recompensed. Rejoice and be exceedingly glad, for so doth the divine love redeem your body from disease, your being from sensuality, your soul from sense, your life from death."

"Of this abounding and amazing spiritual understanding the prophet Isaiah said: 'And I will bring the blind by a way that they knew not; I will lead them in paths they have not known; I will make darkness light before them, and crooked things straight. These things will I do unto them, and not forsake them.'"

TOO FLIMSAY.

He—You don't seem to catch my ideas.

She—I'm sorry but I've broken my butterfly net—Baltimore American.

The Nippu Jiji Co., Ltd.,

Y. SOGA, Manager. Hotel Street near Nuuanu.

one on Kauai, and at all but four on Hawaii. The deficiencies, in inches, in the several districts of Hawaii were: Hamakua 0.34 to 0.37, Hilo 0.07 to 0.55, excepting excesses of 0.15 at Hilo and 0.36 at Honolulu. The deficiencies in the Kau and Kona varied from 0.12 to 0.22; and the excesses in the Kohala ranged from 0.45 to 0.49. On Oahu the deficiencies varied from 0.14 to 0.43 and on Kauai from 0.18 to 0.22, with an excess of .18 inch at Makaweli.

There was more rainfall than during the preceding week at all stations on Hawaii, excepting three,—the greatest differences occurring in the Hilo, the southern portion of the Kau and the central portion of the Kona districts, and were from +0.66 inch to +1.33 inches. At the remaining stations in the section the differences did not equal 1.00 inch, excepting a deficiency of 1.41 inches at Hana, Maui.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the Group:

	Temperature.	Rainfall.
Hawaii	71.2 deg.	1.11 inches.
Maui	73.6 deg.	0.62 incl.
Oahu	76.6 deg.	0.14 inch.
Kauai	75.0 deg.	0.34 inch.
Molokai	73.6 deg.	0.17 inch.
Entire Group	73.4 deg.	0.71 inch.

At the local office of the U. S. Weather Bureau in Honolulu partly cloudy weather obtained, with traces of rainfall on three dates, and 0.01 inch on the 10th, the same as last week's, and 0.26 less than the weekly normal. The maximum temperature was 81 deg. minimum 70 deg., and mean 76.0 deg., 0.6 deg. lower than the normal, and no change from the preceding week's. The mean daily relative humidity ranged from 53 per cent. to 70 per cent, and the mean for the week was 64.1 per cent. Easterly winds prevailed on the 8th, 9th and 13th and NELY on the remaining dates, and for the week, with an average hourly velocity of 7.1 miles.

U. S. DEPARTMENT OF AGRICULTURE, WEATHER BUREAU

The following data, covering a period of 33 years, have been compiled from the McKibbin and Weather Bureau records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.

Month, June for 33 years.

TEMPERATURE.

(18 years 1890-1907.)
Mean or normal temperature, 77 deg.
The warmest month was that of 1900, with an average of 78 deg.
The coldest month was that of 1905, with an average of 75 deg.
The highest temperature was 88 deg. on the 22nd, 1900.
The lowest temperature was 63 deg. on the 1st, 1891.

PRECIPITATION.

(Rain 21 years, 1877-94, 1905-7.)
Average for the month, 0.92 inches.
Average number of days with .01 of an inch or more, 14.
The greatest monthly precipitation was 2.40 inches in 1885.
The least monthly precipitation was 0.24 inches in 1877.
The greatest amount of precipitation recorded in any 24 consecutive hours was 0.81 inches on the 22nd, 1885.

RELATIVE HUMIDITY.*

Average 9 a. m., 67 per cent; average 9 p. m., 73 per cent (1893-1904.)
Average 8 a. m., 66 per cent; average 8 p. m., 71 per cent (1905-7.)

CLOUDS AND WEATHER.

(18 years, 1890-1907.)
Average number of clear days, 13; partly cloudy days, 15; cloudy days, 2.

WIND.

(Direction, 23 years; velocity, 3 years.)
The prevailing winds are from the NE, (1875-94, 1905-7.)
The average hourly velocity of the wind is 8.3 miles (1905-7.)
The highest velocity of the wind was 24 miles from the E., on the 27th, 1906, (1905-7.)

Station: Honolulu, T. H.

Date of issue: May 28, 1908.

*9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

WM. B. STOCKMAN, Section Director, Weather Bureau.

LIQUOR ON MAUI

PROTEST AGAINST SALOON AT MAKAWAO ON GROUND OF INJURY TO HAWAIIANS.

WAILUKU, June 20.—The Liquor License Commission held a meeting in the public room of the Masonic Temple Thursday as advertised and passed on the twenty-two applications for licenses.

There was but one protestant present and no written protests whatever.

David Fleming protested against a license being granted at Makawao on the ground that liquor is bad for Hawaiians and that the use of intoxicants there interfered with the labor question. The Board took the matter of granting licenses at Makawao under advisement and will render their decision some time within ten days. The matter of granting a saloon license at Paia was considered and refused.

All of the other licenses were granted as applied for.

The Board will hold its next meeting for the purpose of consideration applications on July 14.—Maui News.

THE MAUI WINERY.

W. F. Cole has returned from San Francisco with over thirty tons of machinery for the Kaupakalua Wine and Liquor Company and will place the same in the enlarged distillery and will manufacture wine and liquors. Mr. Cole has recently become the manager of the company and as he thoroughly understands this line of work will doubtless make the company one of the best dividend paying concerns in the islands.—Maui News.

TO STIR LIQUOR ISSUE AT DENVER

THE PROHIBITIONISTS SAY THAT BRYAN HAS FOUGHT THE TEMPERANCE ELEMENT.

MILWAUKEE (Wis.), July 11.—Claiming to expect great gains in the South, with a possible victory in all Southern prohibition States, State Chairman Alonzo Wilson of Illinois declared as the foundation of his expectation alleged opposition on the part of W. J. Bryan to prohibition. This declaration was made before the Wisconsin State Prohibition Convention, which convened here today.

"In 1906," said Mr. Wilson, "Mr. Bryan stumped Nebraska against a prohibition amendment to the Nebraska Constitution, and I have in my possession a copy of a letter from Mr. Bryan to Southern men who desired a plank for prohibition in the Democratic national platform, in which Mr. Bryan declared, if his wishes are followed, there will be no such plank in the platform. As Mr. Bryan is in control of the Democratic party his platform desires will undoubtedly control in the Democratic National Convention, and therefore no prohibition plank can be expected from that convention."

Mr. Wilson said this was the expectation of the Southern delegates who had been looking into the subject, and he said he was to leave for the South this evening to confer with some leading prohibition Democrats there about their support for the prohibition party if no prohibition plank was inserted in the Denver platform.

LINCOLN (Nebr.), June 11.—Referring tonight to a dispatch from Milwaukee concerning his attitude on the question of prohibition, Bryan said: "I have received many letters from prohibitionists and many from opponents of prohibition, and I have answered them all in the same way. I have told them that I did not regard the question as a national question. While it is an issue in a number of states, I do not expect it to be made an issue by either the Republican or Democratic National Convention. I have made it a rule not to discuss questions outside the platform, because the candidate has no right to inject issues which his platform excludes."

"In answer to questions about my own record on the subject I have stated that, so far as my personal habits go, I am a teetotaler, never having used liquor as a beverage; but in 1890 I voted against the State prohibition amendment because I thought the license system we have, with local option, was better suited to the conditions we have to meet in our State."

HILLO'S NEW TEMPLE

The work of preparing and excavating for the foundation of Hillo's new Masonic Temple is going on rapidly. The contract has been placed in the hands of D. L. Metzger who will soon have the work completed. When finished the Masonic Temple will be easily the finest business building in the Hawaii city, as it will be built of reinforced concrete. The structure will be two stories in height and will cost over \$10,000.

NOISELESS GUN PROVES SUCCESS

WEAPON DESIGNED TO BE USED IN KILLING CATTLE IN THE STOCKYARDS.

NEW YORK, June 11.—The first public demonstration of a noiseless firearm took place today before the board of managers of the Society for the Prevention of Cruelty to Animals, being given by Hiram Percy Maxim, the inventor of the weapon.

Maxim leveled an ordinary 32 caliber Winchester rifle, remodeled according to his device and loaded with ordinary ammunition, at two New York city directories placed together, elicited the trigger and drove a flat-nosed bullet six inches through solid paper without noise enough to be heard in the next room. When the managers heard the click and smothered "bang" of the escaping powder gas, no louder than the dropping of a ten penny nail on the floor, they were convinced that Maxim's new rifle is all that the inventor claimed.

Maxim designed this rifle pursuant to the urgent request of the society that he furnish it with a weapon for killing cattle in the slaughter-house in a more humane manner than the old method of knocking them on the head. This rifle can drive a bullet into the brain of a steer with the certainty of quick death and without noise enough to frighten other animals. It differs from the noiseless rifle which he perfected for army use and which is to be soon examined by the United States Army officers at his Hartford, Conn., workshops.

CURRENCY ACT NOW IN EFFECT

THE TREASURY ISSUES A CIRCULAR OF INFORMATION FOR THE BANKS.

WASHINGTON, June 12.—Secretary Cortelyou today made public a Treasury Department circular carrying into effect the new currency act. The Secretary calls attention to the fact that the act provides two methods of applying for national bank currency. Banks occupying contiguous territory may organize currency associations, providing there are at least ten banks in each association with minimum aggregate capital and surplus of at least \$5,000,000, while the individual banks must have an unimpaired capital and surplus of not less than 20 per cent. Any member of such association with outstanding circulating notes of not less than 40 per cent of its capital may obtain additional circulating notes under section 1 of the act.

National banks of the same standing as to capital and surplus, but not members of an association, may obtain additional circulation under section 3 of the act. In order that all national banks entitled to take out additional circulation may join currency associations, the Secretary of the Treasury reserves the right to add to and include in the territory of an association any contiguous territory containing national banks which would otherwise be excluded from or inconveniently located as to a national currency association. The names of the associations must be indicative of the locality and an association may not style itself "First National Currency Association."

The Treasury Department will furnish blanks upon which banks may file application for joining an association and prompt approval or disapproval is promised by the Treasury Department.

HOME RULE TICKET

HILLO, June 18.—At a meeting of the executive committee of the Home Rule party, Eugene Lyman To the chair, the following candidates for the coming election were selected:

Supervisors: John Manuia for North Hilo; Moses Dairon for South Hilo.
Territorial Senator: T. Benjamin Ah Leong, present road supervisor.
Sheriff: W. M. Koolani.
County Clerk: Wm. Edmunds.
County Attorney: Charles Williams.
County Auditor: C. K. Maguire.
County Treasurer: T. K. Lalakea.

In the general discussion that took place at the meeting it was agreed that Representative S. K. Kahana should be urged not to run again for the House and, in consideration of his withdrawal, he might be rewarded with the road supervisor's plum now in possession of Ah Leong.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.
This remedy has been in use for over thirty years and has proved itself to be the most successful remedy yet discovered for bowel complaints. It never fails. Sold by all dealers, Benson Smith & Co., Agents for Hawaii.

A DREADFUL WOMAN.

"That woman next door is really dreadful, John," said a young married woman to her husband. "She does nothing but talk the whole day long. She cannot get any work done, I'm sure."

"Oh," remarked the husband. "I thought she was a chatterbox. And to whom does she talk?"

"Why, my dear, to me, of course," was the reply. "She talks to me over the fence."—Philadelphia Ledger.

BE ON THE SAFE SIDE.

Your physician may be busy or out of town just at the time some member of your family has an attack of colic or diarrhoea. Such cases frequently prove fatal before a doctor can be summoned or medicine procured. No physician can prescribe a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has been in use for more than a third of a century and has never been known to fail. For sale by all dealers. Benson Smith & Co., Agents for Hawaii.

Why 'VUDOR' PORCH SHADES Are Needed

You need Vudor Porch Shades to get the most out of your porch. To make it a spot where you can rest or work on the hottest days—outdoors, yet free from the sun's glare and heat.

You can do this with Vudor Porch Shades; you can add to the house another room, cool and shady, where you may enjoy every refreshing breeze, in secluded comfort.

Vudor Porch Shades are very durable, and will last many seasons.

Another good feature about them is the peculiar fact that those sitting on the porch can see out, but passersby cannot see in. In other words, you have complete privacy, and can use the porch or veranda the same as an inside room, with infinitely more comfort on hot days.

Vudor Porch Shades are just the thing for "boxing in" porches or balconies that are to be used as outdoor sleeping or living apartments.

Vudor Porch Shades are made of weather-proof, and will not fade or crack off. The shades can be instantly raised, or lowered (operating on the principle of a theatre curtain) and are easily and pleasing colors. These colors are readily put up.

"She can look out, but you can't look in."

GEORGE F. HENSHALLMANAGER
MONDAY JUNE 22, 1908

GARFIELD AND LAND.

Secretary Garfield, as might have been expected, was not thrown
off his equipoise by the confusion of voices on the Hawaiian land
question which assailed his ears upon arrival. He asked at once for
specifications in place of the meaningless generalities thrown at him.
Further, he conveyed to his memorialists a fact that had been present-
ed here already but mainly to deaf ears—afflicted with the deafness
of the adder in that it was self-imposed. This fact is that the United
States Government has land difficulties of its own, some of which are
identical in nature with some that have given trouble here. The im-
portance of this hint to the situation in Hawaii is that the remedies
which have been devised here for the difficulties in question are the
very things alleged by certain local agitators as grievous defects in
our land laws.

Related to the fact just mentioned is the further fact that, within
the past two years, the United States land authorities have put on
record suggestions of amendments to the Federal land law exactly
in line with those provisions of the Hawaiian land law which have
been most vigorously assailed. This is with regard to the difficulty
of preventing fraudulent acquisitions of lands intended for settlement
by speculators. There are doubtless many parts of our land laws
which can be advantageously amended, but no amendment should be
made to follow the Federal law where that is known to be marked for
abandonment in favor of something like the Hawaiian law.—If Sec-
retary Garfield's visit should have no other effect, with regard to the
public lands, than to quiet the ignorant clamor that has long resounded
for adoption of the so-called "American system," it will not have been
in vain.

Secretary Garfield has asked for suggestions, with the advice that
our people first agree among themselves, "as a unit," touching what
is needed in land law reform. In this connection, The Star has re-
ceived from a Federal official some seemingly good suggestions. They
involve a following of the American homesteading method, but with
such limitations as will protect the land permanently for the people.
It is suggested, in the first place, that a beginning be made on the
matter of settling the lands on Oahu. Have maps made showing the
public lands on this island, other than reservations, undisposed of and
subject to immediate entry, also showing lands under lease and when
the leases expire. Next appoint a commission of which the Territorial
Land Commissioner and Surveyor shall be ex-officio members, to sub-
divide all available public lands into parcels of size sufficient to invite
homesteaders. Then open the lands for entry by citizens of the United
States by drawing of lots after the manner adopted in opening the
Indian reservation on the mainland for settlement. Have the opening
for entry advertised six months in advance of the drawing. All this
with such restrictions on ownership only as shall be needed to ensure
that there shall always be a succession upon the lands of bona fide set-
tlers.

Having made fair clipper time for the northward run and not
expected to be rushed, it may be anticipated that the Hawaii with the
trade wind behind will give a good account of herself in the race. She
was built for a winner and ought to land the cup.

While the Kauai Liquor Commissioners appear to have their unique
system, which permits of all kinds of liquor selling except that through
saloons, in good working order, they are confessedly helpless to pre-
vent the flooding of labor camps with strong drink shipped from Hon-
olulu. Some few lots have lately been confiscated on account of
bogus addresses, but anyone showing color of being a genuine con-
signee of goods from here can procure supplies. So it is likely that
the turning down of a retail license at Kalihiwai, presumably for vio-
lation of the restriction to sales by the bottle, will mean that the Hon-
olulu dealers will forthwith have a large increase of individual orders
from Kalihiwai.

It would be another heavy blow to Honolulu if the Japanese line
should stop its calls here. Although they afford no direct relief to
the transportation difficulty, they indirectly prevent an aggravation of
the situation besides giving positive service to our tourist business.
Stopover passengers to and from the Orient come and go by these
vessels, thus preventing, to the extent of that fact, the crowding out
of local passenger traffic offering both at San Francisco and Hon-
olulu to American steamships. For carrying tourists who have time
to remain here the interval between the calls of the Japanese liners
the service of these fine steamships is of great value to the islands.
The dropping out of Honolulu by the Toyo Kisen Kaisha boats, again,
would be of little advantage to the American lines, if not really a dis-
advantage, for their competition in direct commerce with the Coast
would, in some respects such as rushing silk to market, be even greater
than in the present traffic by way of Honolulu.

Bryan is under prohibition fire for opposing the placing of that
cause in the Democratic platform of 1900. Unless, therefore, the
Democrats do the unexpected by inserting a prohibition plank in this
year's platform, the likelihood is that the two great parties will break

about even on the prohibition issue. The margin of damage will if
anything be against the Republicans, as it will only be in doubtful
states needed by that party that there will be probability of the pro-
hibition vote throwing the balance of power to the Democrats. There
is little fear of the solid South, notwithstanding its tremendous swing
lately for prohibition by state legislation, sending prohibition delegates
to the electoral college. In the North—not so much in chance of suc-
cess of the prohibition ticket but in regard to the balance of power—
it is different. There the Republican party has held for all time past
more temperance sentiment by a long sight than the Democratic party,
so that with so much prohibition in the air as now the loss of that
element from old party ranks is greater on the Republican side. In
a doubtful state and a close contest it might prove fatal.

Two hundred thousand dollars, the indemnity China pays to Japan
for the seizure of the Tatsu Maru, is a trifle not to be mentioned along-
side of the enormous loss the Chinese merchants have in reprisals
inflicted on the commerce of Japan by means of a boycott. This is
counted in many millions of dollars. Japan played a losing game in
the harshness wherewith she exacted compensation of China for an
act purely of self-preservation against her rebels. The Tatsu Maru,
it will be remembered, was engaged in a lively traffic of carrying arms
for Chinese rebels. While the Government of China blandly conceded
the technical point and accepted the liability, her shrewd business
men, not only at Chinese ports but wherever a considerable colony
of Chinese existed at foreign ports on the Pacific, quietly set on foot
a boycott. And it hurt. Long before it had been felt in transpacific
commerce, where less under control than at home, Japan made a pathetic
appeal in diplomacy. All the world has taken notice of the vast
power China, through her commercial element, has been able to wield
for her own protection in this affair with Japan. The time, too, is
opportune, for Japan is not in position or condition at this moment
to make the patriotic action of China's sensitive merchants a casus belli.

**KOREANS PLAN
FOR THE FLEET**

THEY WILL THROW OPEN THEIR
COMPOUND FOR GAMES AND
SPORTS.

At a large mass meeting of Koreans
held in their compound last Wednes-
day evening, it was decided to unite
as far as possible with other national-
ities in Hawaii in extending a wel-
come to the fleet. A committee of five
was appointed to confer with the Su-
perintendent Rev. John W. Wadman
in order to carry out arrangements for
the same. The committee had a meet-
ing yesterday afternoon and decided
to throw open their compound on the
corner of Beretania avenue and Punch-
bowl streets to the boys of the fleet
during their stay in the city for games
of all kinds. Arches over the two large
gates will be erected in Korean style,
decorated with flags and bunting; the
trees will be hung with colored lanterns;
a tent erected in which Korean
ladies in pretty national costume will
serve light refreshments; hats and
balls and other sources of amusement
will be provided while free beds in the
larger dormitory will be at the ser-
vice of any of the men who wish to
be guests over night. A subcommittee
of three was appointed on finance in
order to solicit subscriptions among
their own fellow countrymen, the pur-
pose being that this is to be a welcome
to the fleet by the Koreans themselves
as they wish to show their apprecia-
tion of Uncle Sam for all the benefits
they enjoy in Hawaii. Fifty dollars
was subscribed on the spot.

The habeas corpus case of George
Wade, in the Federal court, has been
set for June 24.

**S. S. LURLINE
IS A BEAUTY**

Matson's splendid new S. S. Lurline,
Captain Weeden, entered this port
from San Francisco, via Hilo, yester-
day morning and today she is at the
railroad wharf, completing sugar car-
go.

The Lurline is strictly up-to-date and
has all the latest facilities for handling
cargo. She was built at Newport News
and brought a cargo of coal for the
Navy around the Horn to San Francisco,
making the run in 53 days. Her
engines are of the reciprocating, triple-
expansion type. The Massey wireless
system is installed.

Passenger accommodations are the
most comfortable and no better state-
rooms have been seen aboard any ves-
sel in this port. Her interior finishings
are in white and mahogany and most
elegant. She makes a luxurious travel-
er.

Following are the Lurline's officers:
Captain, H. F. Weeden; first officer, O.
Fredrickson; second officer, A. Keene;
third officer, W. Madison; chief engi-
nee, J. Barker; first assistant engineer,
J. McComb; second assistant engineer,
H. Rankin; third assistant engineer, J.
Butcher; purser, C. Warren; wireless
operator, A. Sparks; steward, J. Rob-
ertson.

ENTERTAINS OFFICERS.
Secretary Mot-Smith spent the larger
part of Saturday in company with
Captain Veeder of the Alabama and
Commander Gleaves, of the St. Louis.
A number of points of interest were
visited and lunch at the Pacific Club
was a part of the program. In the
afternoon, at the request of the two
officers, a call was made on Governor
Cleghorn, whom they had both known
and remembered from visits made
here years ago.

SPORTS

THE MAUI RACES

One of the largest crowds of the year was present at the baseball games Saturday afternoon at the league grounds and treated to one good and one poor game, although the first game between the Saints and the Heads was any one's game up to the last inning. The second game between the Puns and the Kama was a good game up to the sixth inning, but after that the White Sox had everything their own way, winning out by the score of 10-1. Sam Chillingworth and Fernandez were the bright stars for the Heads, while Warren and Hoogs did the best work for the Puns, although Hampton and Bruns also played first class ball. Kia made the first error he has made this year by letting an easy fly drop to the ground, when it looked as if he had it cinched. The summary of both games follows:

"They're off." When this familiar cry is heard at Kahului on July 4 it will be the signal for the opening of a good day's sport and it will give all a chance to witness some of the best races that have taken place for a long while at Kahului.

The riders and trainers are all working hard to have their charges in the best possible condition with hopes of annexing some of the liberal purses that are offered by the Association. Several new horses are expected to arrive per Claudine Saturday and with what we have here already there will be sufficient to fill all the races in good shape.

The track is in better and faster shape than ever. As the time for the entries to close is drawing near interest is growing every minute. The Association is almost out of debt and with your patronage this year it will start with a clean standing.

Next year we should be the center of racing and no doubt we will have the pleasure of the company of Oahu and Hawaii's best horses. They have all signified their willingness to attend but we have not been placed financially so we were able to invite them. But help us with your attendance this year and next year we will furnish you with more good, clean races. You will surely get your money's worth this year.

Remember the entries close with the Secretary June 3, 1908.—Maui News.

finished a la knock-out if either of the men had had more steam. The second event, a six-round go between Hart of the Maine and Davis of the St. Louis, was one of the best bouts seen here in many years, and at the end of the sixth round Mike Patton awarded the decision to Davis. Kahanalei (Wid Swan) was to have gone on with Hart but as he was not in condition he refused and his place was taken at the last minute by Davis, but the crowd was entirely satisfied with the change. Davis has not been in training for over two months and his work proved that he is in a class by himself. The main event of the evening between Dennis Tighe and Frank Murphy ended in the second round by the knock-out route. Murphy going down like a log and remaining some time after the count.

The next boxing events will be held on the night of July 14.

The Newspaper League games next Sunday will be the Advertiser vs. Bulletin and Paradise vs. Mercantile.

The yacht Hawaii after a trip of nineteen days arrived safely at San Pedro last night.

Only one game of baseball was played yesterday in town and that was between the Bollermakers and the Railroad men on the Kapolei Park grounds in the morning, the train men winning by the score of 3-2 after a good fast game.

Two speedometers were affixed to the close-coupled car of the Packard Motor Car Co., of New York, when Mr. Fredericks drove the car from Philadelphia to New York in two hours and forty-four minutes. In some of his drives Mr. Fredericks had attained a speed of seventy miles an hour, and a customer did not believe this possible. The Warner Instrument Co. fitted not only one, but two, of its autometers to the car, and the Packard then went out to do things and demonstrate its speed. In the open country, and outside the danger zone, where no one could be inconvenienced, the car flew along and attained a record-breaking speed of seventy miles per hour without trouble, both speedometers showing the same speed for mile after mile. No like test had ever been carried through and the customer purchased the car. The Warner Co. feels that the test proved the value of its goods, and the man who purchased the car has kept both autometers on it, placing one in position to satisfy the people in the rear seats and the other in the back.

Manager C. M. Hamilton, of the Isotta Import Co., will arrange, while in Italy, for the appearance in this country of four cars, in all probability, for the great race of the Automobile Club of America for the Grand Prize Cup. Mr. Hamilton has asked that cable information be given him regarding the choice of a course, as the cars will be built to fit the going. The Isotta Co. will place as many cars as possible in Italy in the Grand Prize race, and it is reported, will bring to this country Trucco, the leading Italian driver of today, to operate one of the cars.

Those who suffer pain from chronic ailments will find that Dr. Miller's Anti-Pain Pills relieve the suffering. After the first trial, they will wonder how they ever managed to get along without them. If first package fails to benefit, your money back. 25 doses, 25 cents. Never sold in bulk.

Independence Hall on Saturday night was taxed to its utmost capacity at the boxing matches that had been arranged by Jack Scully. Everything was run off smoothly, and it is to be hoped that Jack will give matches frequently in the future. The first bout of the evening, a four-round go between Young Sharkey and Wahlan, ended in a draw after four rounds of good fighting, although it could have been

ended in a knockout if either of the men had had more steam. LIQUOR ON KAUAI

PEACOCK'S COMPANY LICENSE IS HELD UP PENDING CIRCUIT COURT DECISION.

LIHUE, June 22.—The Kauai Liquor Commissioners held the meeting last Monday at which they had advertised that they would consider the several applications for renewals that had so far been presented.

Applicants were asked whether they still were willing to accept the restriction placed upon them a year ago, that of binding themselves not to solicit orders in the camps. C. W. Spitz was the first one to signify his willingness, explaining to the Board that he had instituted a system of written orders whereby could be proved that every order executed had been ordered over the signature of the consumer without solicitation. The balance of the applicants soon followed suit and would willingly accept the condition but they all expressed a wish that the Board would do something to stop the Honolulu firms who do a flourishing camp business on Kauai without swelling the county treasury with a penny for license from being their preferred competitors.

The Board declared its willingness to do so but failed to see how it was to be done. The only way by which it was thought possible to reach the offenders was through the pockets of the blind pigs on this island, through activity on the part of the police and the liquor inspector. A remarkable improvement had been observed within the last month or so during which time three fifty-two gallon casks besides a lot of whisky, sake and other cheer had been confiscated. The Honolulu dealers seemed to find that the profit on

TEN YEARS EACH FOR CRIME.

The Teller Became a Thief in Attempt to Assist a Fellow-Employee.

PITTSBURG, June 6.—For the embezzlement of \$1,105,000 from the Farmers' Deposit National Bank, Harry Reiber and John Young, former paying teller and auditor, respectively, were sentenced to serve ten years each in the penitentiary.

Questioned by Judge Young, Reiber stated that he was 49 years old and has three children. Young said he was 45 years old and married.

"I have nothing to say but that I am sorry to be here," said Young. "The affair started in a small way and I had first lost all of my own money."

"I took the money first to help Young meet his monthly balance," said Reiber. "I did not try to make any money at first. Later we speculated, and when we lost we tried only to make up the deficit."

District Attorney Dunkle said both men had made confessions and had made restitution as far as they were able.

Attorney Ferguson, representing Reiber, told the Court the shortage first started during the Leiter wheat deal in Chicago in 1897. Young began this speculation and lost \$10,000. In an effort to recover this loss the defalcation grew larger, and two years ago Young ceased stock operations and Reiber became an active partner in the effort to make up the deficit. Believing there was a chance to make up their losses in the stock of a lead and zinc company they invested heavily and lost again.

SHEATH GOWN THING OF BEAUTY

HOPE BOOTH DECLARES THAT, IF PROPERLY WORN, THE GARB IS ATTRACTIVE.

NEW YORK, June 12.—Hope Booth, the actress, who returned from Europe today on the steamship Kronprinz Wilhelm, brought with her from Paris fourteen sheath gowns, and she expressed great admiration for the new French fashion. Most of these dresses she will wear in Clyde Fitch's new play, "Hello, Central."

"I expect to wear at least two of these gowns on the street," Miss Booth says, "and if they attract more attention than those of the princess mode, so recently popular, I will be greatly surprised. There are always people, who go to extremes. Some of these foolish and daring persons went to Longchamps wearing tights instead of bloomers underneath the dress and naturally they made talk. I think the new style simply beautiful. There is only one of the gowns about which anything adverse might be said. That is the one in which there is a flare at the bottom.

"Is it a fair opportunity for criticism because a woman of good figure dons a gown which enables her to be seen at the best advantage? I think not. These dresses are made for slender women of good form. Stout women cannot wear them. The so-called sheath is necessary to proper grace of movement. It is a very pretty idea. Like any innovation, it can be abused. Those who abuse it now show bad taste; otherwise there is nothing naughty or wrong about it."

CRUISERS WILL TOW THE TORPEDO BOATS.

SANTA BARBARA, June 13.—Captain Charles E. Fox of the cruiser South Dakota, who was chairman of the board of inquiry which investigated the explosion on board the flagship Tennessee last week, has returned from San Pedro with the announcement that the practice cruise of the second division, Pacific squadron, to Magdalena bay has been abandoned. As a substitute the war ships will leave San Francisco on June 24th with the torpedo-boats in tow, proceed as far south as San Diego and return in ten days. The cruise will be a test for the towing powers of the cruisers, eight of which will start on Sunday on August 21 with torpedo-boats in tow. The vessels here will sail for San Francisco Saturday.

LO OR DIE.

When your heart fails, you die. It is failing when your breath is short after exercise, if you have dizzy spells, irregular pulse, fainting spells, pains in chest, etc. Don't neglect these symptoms, they develop very fast. Give your heart nourishment and strength with Dr. Miles' New Heart Cure, and save complications. If first bottle fails to benefit, money back.

PRINCE DAVID

At 4 o'clock on Saturday, when all was comparatively still and hushed, we went in to the Executive building (the old Palace) and in to the throne room, to see Prince David, lying there, with all "the trappings and the suits of woe" (royalty) spread out about him.

The poor Prince so young to go and leave his beloved Hawaii! The last time we had seen the Prince he was going "down the line," clad in hunting togs.

The Prince was at all times extremely quiet, thoughtful, unassuming to a degree and with the emphasized gentleness of his race.

Requisite in pace, O Prince.

The finest poinciana regia in Honolulu, the best-shaped crown, is to be seen from the back door, second floor, of the Elite. It is just now coming into bloom again and will, a glory, for weeks. Many other fine trees and plants are to be seen there, as also the top of Central Union church!

We are really glad to see the "shows" about the town, for they are an education in a way. If a man, or a company, is enterprising enough to fit up a decent, comfortable hall and let the public in to see some really artistic scenes and add, too, a little good music, for the small sum of ten cents, we can but hope they will be paid for their industry and courage.

A tired mother with her little ones can go in to one of these little theaters, and enjoy an hour, for even a baby will keep still if it can see pretty pictures on the move! It is better to give a boy five cents of an afternoon, to spend in one of the little shows, now in vogue, than to be always idling on the streets and roads. If it be a good picture-show, it opens the eyes of his understanding for the time, and he comes out of the nickel show a more intelligent lad, for the brief object-lesson he has had. But, they must be good pictures, understand.

N. B.—We are not a "silent partner" in any picture show be it said, please; but it does please and fairly delight us to see true endeavor of any honest sort. Go ahead, John Martin, with your coffee and crullers—never fear and don't mind a jeer, ever. A jeer never fears.

EDITORIAL TIMES.

Fine Job Printing, Star Office.

STRIKES BLOW AT ANARCHISM

USE OF AMERICAN MAILS WILL BE DENIED TO ALL SEDITIOUS LITERATURE.

WASHINGTON, June 5.—Postmaster-General Meyer has decided to strike still another blow at anarchists and anarchistic literature. Although seditious publications are placed under the ban wherever found in this country and forbidden in the mails, it is learned that the most rabid of foreign literature comes into the United States without much, if any trouble.

In order to meet this difficulty it has been decided by the Postmaster-General to require that publications containing articles of questionable character shall submit translations in English in order that it may be determined whether or not they are admissible to the mails of the country. While this order has not yet been issued and its exact provision cannot be given, it is looked for at an early date.

CHINA TO PAY BIG INDEMNITY.

HONGKONG, June 11.—It is reported that the negotiations with regard to the indemnity demanded from the Chinese Government by the owners of the Tatsu Maru, which was seized on February 7th by Chinese customs officials of Macao, have been concluded, the Viceroy of Canton agreeing to the payment of \$218,000.

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the European capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World

For the Day Just Ended

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

New Process Gas Ranges

The "New Process" Gas Range is the range of universal favor—the most economical in the use of gas. Absolute satisfaction guaranteed.
The entire line is on display in the household department and it will us give much pleasure to explain to you the advantages and superiority of the "New Process."

TRENT TRUST CO

GARFIELD IN WAIMEA

CARTER CAR BROKE DOWN AT HONOKAA—STORY OF TRIP TO KILAUEA CRATER.

Waimea Hawaii, June 22.

Partly arrived Waimea safely. Carter car stalled at Honokaa. The full party will proceed to Napoopoo and leave for Maui tonight all right.

A. L. C. ATKINSON.

The above wireless from Atkinson tells of the troubles which have been experienced on Hawaii in the automobile line. So long as the party stayed on board the steamers and trains everything went well, but the automobile part was a failure.

Sunday morning, when ready to leave the Volcano House for a trip through the Oiaa plantation and thence to Hilo, the trouble started. Two cars were being used, both steam machines, one belonging to J. B. Castle and the other to George R. Carter. The first named car held up well, but it took about three-quarters of an hour to even start the other.

The Castle car, which went on ahead, carried Secretary Garfield, W. O. Smith, Land Commissioner Pratt, Governor Freat. The Carter car took A. L. C. Atkinson, Judge Ballou, W. G. Smith and F. B. McStocker. The breakdowns experienced on the road made the party two hours late when Hilo was reached and after that reports kept coming in of the trouble and finally that an axle on the Carter car was broken. Apparently some other car was obtained for use and the party has gone ahead.

Upon reaching Hilo on the Mauna Kea, Secretary Garfield, Governor Freat and one or two others entered an automobile and were driven to the Demosthenes Hotel, where a short time was taken for rest, which was badly needed by Garfield as he had proved a rather poor sailor. Then came the luncheon, which is reported elsewhere.

Immediately after this the party went to Spreckels Hall, where a reception was held a twelfth many of the business men of Hilo and their ladies met the Governor and Secretary of the Interior. From the hall they were driven to a special train which was waiting to take the party to Glenwood. There were about sixteen members in the party on the train, including Attorney Carl S. Smith, of Hilo, who was invited by the Secretary to talk over land matters as he had, in his speech at the luncheon, shown more familiarity with the subject than the others.

Smith went far as Glenwood, talking with the Secretary all the way up and then returning to Hilo.

At Glenwood the autos, which had come up empty, were taken once more and a start was made for the Volcano House, which was reached without incident. A wash was quickly followed by dinner, and then horses were brought up for the trip to the crater. The sight was a most impressive one and the Secretary stayed at Halemau-mau for about two hours, continually expressing his appreciation of the scene.

At this point he expressed the view that Kilauea was such a wonderful curiosity that it should belong to the Government and that he would like very much to see it part of a National Reservation, like Yellowstone or Yosemite.

The trip back was easily made and a good night's rest was enjoyed by all. In the morning breakfast was ready at 6 o'clock and a short trip was made over the new volcano road to Kilauea-Iki, the machines returning to the Volcano House and leaving for Hilo, via Oiaa, shortly after 7 o'clock.

Some time was lost before reaching Hilo, through the breakdowns of the Carter automobile, and more in Hilo, where a tire exploded as soon as it was made. For 1515 reason it seemed doubtful if Waimea could be reached by Hilo, and it was decided to stop over at Honokaa at Pritchard's, if the longer trip was impossible.

From there a start was to be made this morning for Waimea, stopping at John McGuire's place at Huehne and the party was to be given a loan at Napoopoo this afternoon, before taking the Claudine for Tana.

On Maui the trip from Hana to Nahiku will be made in hacks and from that point the party will go on horseback over the beautiful ditch trail, then returning to Kahului, where they will spend a day in looking over the Hawaiian Commercial properties.

MIDWAY PROVES GREAT MAGNET

There was a good crowd at the opening of the Hawaiian Midway on Saturday evening and men and women alike enjoyed the special vaudeville exhibition and the graceful hula dances, dances that were in no way open to criticism. On July 3 and 4 the management promises even a better show than that given on Saturday, for there will be boxing as well as wrestling and besides hula dances and Hawaiian music there will be numerous new attractions. The stage is to be enlarged to 30 by 40 feet and additional seats are to be placed in the hall which is capable of holding 1000 spectators.

BRIBERY IS CHARGED

The trial of Eugene Devauchelle, on a charge of accepting a bribe while a police officer under the present administration, was commenced this morning. W. C. Aehl, representing the defendant, asked that the case be dismissed on the ground that the indictment was defective in that it had been signed by Deputy Attorney General Sutton, who had no standing, as the law provided for but two deputies, who had already been appointed Messrs. Larnach and Whitney. The motion was overruled by Judge Robinson.

Sheriff Hauka was placed on the stand and testified that he had appointed Devauchelle to the department and that he was a police officer at the time that the alleged crime was committed. The next witness was Tin Hoon, a Chinese butcher and gambler, who made a very good witness for the prosecution. He told of being present at the Kailih slaughter house with five others when arrested for gambling by Devauchelle. Then of the conversation with the accused, in which it was agreed that all would be released on the payment of a bribe of one dollar apiece. He went on to tell of how he came down on the same car with Devauchelle after he had collected the money, and had offered it on the car but had been told that there were too many people around.

His next testimony was in regard to the actual transfer of the money. He stated that he and Devauchelle both got off the car at the corner of King street and Beretania and went into his butcher shop. There, near the door which opened from his shop into a saloon, the six dollars were given to

Devauchelle. This practically completed the testimony of the main witness who was cross-examined by Achi without any particular interesting fact being brought out, with the exception that Tin Hoon acknowledged having lied to Chief of Detectives Taylor at first when the latter was investigating the case. He said that he had done this in response to instructions given him by Devauchelle.

Another Chinese witness was placed on the stand to support Tin Hoon's story, which ended the morning session.

AFONG SUIT ON TRIAL

The case of Carrie B. Riggs vs. Julia Afong et al was commenced this morning in the Circuit Court before Judge Lindsay. The matter comes up on a plea in bar in which all the respondents with the exception of Julia Afong, plead that a compromise has already been effected, whereby the present case has no standing in court. The reading of the plea in bar, which was done by Judge Perry, took up the morning session of court.

The following attorneys are representing the different parties to the suit: P. E. Thompson, D. L. Withington, C. H. Olson and Judge Perry.

PUBLIC ADDRESS BY MR. GARFIELD
