# ATKINSON GETS IT

## Atkinson Is U.S. Attorney Breckons Out

A. L. C. ATKINSON

Who has been named to succeed Breckons as United States District Attorney for the District of Hawaii

A. L. C. Atkinson has been appointed United States District Attorney to succeed Robert W. Breckons. This is the substance of a cable message received today in Honolulu, and although up to noon Mr. Breckons himself had not received any information of the kind, he admits that it is correct, as the message came from his own brother, Joe Breckons, in Washington.

Mr. Breckons is even more astonished at the sudden turn of affairs than anybody else—and nobody appears even to have dreamed of Atkinson receiving the appointment. "I have heard nothing whatever regarding the appointment of Mr. Atkinson," said Breckons late this morning, but it is undoubtedly correct, as the cable received comes from my brother, who is in Washington. The last word I had on the matter from Washington came a few days ago and stated that the matter

## LITTLE EXCITEMENT IN SENATE CHAMBER

### Kalama Declines To Vote On Eminent Domain Measure

SENATE

Seventh Day—Morning Session. Senator Coelho paid his compliments to the Judiciary Department for giving out the text of a communication, intended for the Senate, to a morning paper before presenting it to the legislators, when the communication from the Chief Justice was read in the Senate this morning.

Coelho insisted that insufficient respect was being shown the Senate when a message, intended for that body, was made public through the newspapers before it received its formal reading.

The matter came up immediately after the opening of the session this morning, when the Clerk read a message from the Chief Justice, calling attention to the fact that the reports asked for in Senate Resolution No. 11 had been furnished in the official report submitted to the Senate by him.

"Unless I am mistaken, that is the exact message that appeared in a morning paper," said Coelho. "I insist that this body is not being treated with proper respect."

Coelho then said that there was evidently a general misunderstanding on the part of the Chief Justice relative to the information which the Senate wanted, and that, to clarify matters, he would soon introduce a new resolution, couched in plainer terms.

Wharf Commission. House Joint Resolution No. 1, calling for the appointment of a special commission, consisting of three members, to examine and investigate the wharves and docks of the Territory, ascertain the wharfage fees being charged, and report on the feasibility of having the properties acquired by the Territory, passed its first reading.

Senator Coelho then introduced a petition from the employees of the leper settlement on Molokai, asking for increase in pay and other incidentals. As the communication was written in Hawaiian, it was handed to the Assistant Clerk for translation before being submitted to the Senate for consideration.

There was a little parrying of words when Senator Robinson introduced a resolution calling for the incorporation in the Appropriation Bill of \$14,106 for the Malulani Hospital on Maui. The Senator moved the adoption of his resolution immediately after it was read.

Knudsen Objects. In an instant Senator Knudsen was on his feet. "I object to the violation of our precedent, as moved by the Senator from Maui," said he. "He would put us on record as favoring that appropriation above all others

## TWO BILLS PASSED FINALLY BY HOUSE

### Routine Work Occupies Entire Attention of Members

HOUSE

Seventh Day—Morning Session.

The final passage of two bills, the one making an appropriation of \$20,000 for a visit of Congressmen, and the measure appropriating \$25,000 for Hawaii's exhibit at the Seattle Exposition; the introduction of a bill providing a road for the proposed legislation to turn over the water works to the counties; and the usual resolutions to spend money for various schools, jails, etc., wanted by the constituents of the various members; the first reading of three Senate bills and the second reading of the same number of House bills,—this constituted the work of the House this morning.

It was all routine in character and devoid of anything approaching sensationalism. There was not even a debate to enlighten proceedings. The House simply worked, that was all.

Kanlio's frame of mind is causing wonderment and some anxiety this session. Two years ago, and at all previous sessions of the Legislature, he was on his feet most of the time, talking loudly and volubly on every subject that came up, utterly refusing to be squelched, playing to the galleries, making the walls rock with the force and violence of his eloquence.

But it is a very subdued Kanlio who sits in the House this session. Rarely does he have anything to say, and when he does, it is said briefly and without violence. And he has voted yes on almost every matter that has been put to vote, whereas before when in doubt, and nearly all the rest of the time, he used to vote "aye." "Is he a different Kanlio, or is he merely biding his time?" is the question anxious members are asking themselves, and one another.

Entertainment Bill Passes. The measure appropriating \$20,000 to pay the expenses of a Congressional visit came up for third reading. This is House Bill 12. Castro moved that the bill pass, and the roll was called. The bill passed the House without a dissenting vote. Even the subdued Kanlio voted "ay."

House Bill 44, amending Act 108 of the Session Laws of 1907, passed third reading. This merely changes the time of the Maui Supervisors' meeting. Impressed by the gravity of the question at issue Alfonso at first voted Kanlio, but finally made up his mind to make the yes vote unanimous.

Carley made the mistake of voting no against the measure, although he is a Maui man, but it was in an absent-minded moment, and he asked leave to change his vote to "aye."

Exposition Bill Passes. House Bill 11, appropriating \$25,000 for Hawaii's exhibit at the Alaska-Yukon-Pacific Exposition, was taken up on third reading and passed unanimously.

County Water Works. The Governor in a special message has recommended that the water works be turned over to the counties. (Continued on Page 6)

## HIS RESIGNATION WAS NOT ASKED

FORMER U. S. DISTRICT ATTORNEY R. W. BRECKONS

WASHINGTON, D. C., Feb. 25.—President Roosevelt today nominated A. L. C. Atkinson as United States District Attorney of Hawaii in place of Robt. W. Breckons, resigned.

Breckons' administration has been under investigation, charges having been made that, among other things not to be commended, he defended cases in the Territorial courts while Federal Attorney.

The Department of Justice states that the resignation of Mr. Breckons was not requested and he gave no special reasons for resigning except that he wished to devote his attention to private practice.

## FAVORABLE REPORT ON SHIP SUBSIDY

WASHINGTON, D. C., Feb. 25.—The ocean mail subsidy bill providing a subsidy for mail steamship lines of the Pacific and Atlantic has been favorably reported to the House.

## Navy Yard Board

WASHINGTON, D. C., Feb. 26.—A joint Army and Navy Commission has been appointed to consider the navy yards required by the country for strategic purposes, and the maintenance of a naval fleet constantly in readiness for war.

## Magellan Wireless

VALPARAISO, Chile, Feb. 25.—The Chilean Government will construct a wireless telegraph tower in the Straits of Magellan to provide communication with this port.

## China Explains

PEKIN, China, Feb. 25.—The Regency of the Chinese Empire has sent a letter to President-elect Taft, explaining its attitude on vital questions.

NEARLY NINE TONS OF SUGAR PER ACRE

This Was High Average Of Ewa--Meeting Held Today

The Ewa plantation report for 1908, submitted to the stockholders today, showed in its profit and loss account, \$900,000 paid out in dividends during the year, net profit for the year \$1,029,582.80 and balance carried forward to next year, \$1,359,509.71.

Manager George F. Renton, in his report on crops and physical condition, says:

Crop of 1908.—This was harvested from the following areas: 647.36 acres plant cane, 592.72 acres long 1st ratoons, 946.69 acres long 2nd ratoons, 770.69 acres long 3rd ratoons, 103.01 acres long 4th ratoons, 548.70 acres short ratoons. Total 3,842.67 acres, which yielded 33,768.594 tons commercial sugar or an average of 8.79 tons sugar per acre. There are also ground at the Ewa Mill, for account of Apokaa Sugar Co., a crop of 77.31 acres, which produced 984.21 tons, thus making a total output of 34,752.804 tons sugar manufactured in 1908. Sucrose in cane stood higher than in 1907, so also did the purity of juice extracted.

Crop of 1909.—The areas to be planted this year are as follows: 542.01 acres plant cane, 493.13 acres long 1st ratoons, 1281.87 acres long 2nd ratoons, 215.54 acres long 3rd ratoons, 559.24 acres long 4th ratoons, 32.56 acres long 5th ratoons, 616.99 acres short ratoons. Total, 3722.44 acres. There will also be ground for Apokaa Sugar Co. 52.73 acres cane.

While the sucrose in cane and purity of juice from fields ground to date are fully as high as last year's, the cane is not, owing to the lower temperature of 1908, as heavy in growth. It is, therefore, not expected that the crop of 1909 will be as large as that of 1908, and the estimate for this year is placed at 30,000 tons. Grinding was begun on December 16th last and, at present writing, there have been manufactured 6750 tons sugar.

Crop of 1910.—This will consist of 1182.85 acres plant cane, 484.74 acres long 1st ratoons, 482.84 acres long 2nd ratoons, 294.24 acres long 3rd ratoons, 458.97 acres long 4th ratoons, 581.32 acres long 5th ratoons, 400.00 acres short ratoons (approximate). Total, 3684.96 acres, together with 94.70 acres from Apokaa Sugar Co.

It is probable that there will be more Short Ratoons than the amount given above. It is also probable that the area of Plant will be increased by low land at Waimanalo, of which 83 acres have been planted. It has not yet been decided whether this will be carried over to the Crop of 1911 or ground in 1910.

Taking it all around, the cane for next year looks very promising indeed. The planting was completed much earlier than usual and the fields cover some of the best lands on the plantation. In addition to these advantages, the increased water supply developed during 1908, should add materially to its yield and a good output is anticipated.

Mill.—Crop 1908. Grinding season was commenced on December 11th, 1907, and completed on August 31st, 1908. For reasons before given, a less quantity of cane was required to produce a ton of sugar than in the previous year and losses in manufacture (12%) were correspondingly less.

Labor. There were no labor troubles during the year and the supply was better than for a number of previous years. This enabled the plantation to harvest its crop in good season and finish its planting of a much larger area earlier than usual.

Permanent Improvements. The prices realized for sugar, which prevail during the greater portion of the year, caused the management to devote some of the profits to improvements. There was accordingly expended on this account the sum of \$165,587.21. Of this, the largest expenditures were for the development of water and clearing of land on the Waimanalo section of the plantation. The new pump station known as No. 10, erected this year at Waimanalo, contains a Riedler Pump of 8,000,000 gallons capacity in 24 hours. The boiler power is sufficient for 5,000,000 gallons more, and it is proposed to pump this quantity to the lower lands with a centrifugal pump driven by the Riedler engine. All the expense necessary for this extra amount is that for the centrifugal pump, and the pipe to carry the water a short distance north of the pumping plant. The expenditures of the station to December 31st, 1908, were \$62,612.86. The "new" land which may be taken in because of the extra water is approximately 175 acres, about one-half of which is already planted. The great benefit to

be derived from this station will be in delivering water to lands in the Waimanalo section east of pump, which have not been adequately supplied before.

There has been added to the mill pumping station an equipment costing \$16,443.54 and capable of delivering over 5,000,000 gallons water either to the irrigation canal, or, in case of breakdown of the other mill pumps, into the mill supply tank for vacuum condensers.

The installation of these two systems will enable the irrigation department to deliver all the water required by our fields during the warm summer months, a condition which the writer has not yet known to exist on the Ewa Plantation, and which must have an effect on future yields.

In the Mill Boiling House the expenditure for the year has been \$22,618.46. The improvements include enlargement of sugar room, alteration of twelve (12) water-drive centrifugal machines to belt-drive and engine for same, enlargement of No. 2 pan, and alteration of crushing apparatus so as to handle the crushers either as one 15-roller mill or as two nine-roller mills. While, perhaps, some of these mill improvements might have been postponed to later years, nevertheless the fact remains that 1908 was prosperous enough to warrant the expenditure in this line for several years to come, during which sugar prices will probably be lower. It was without saying that, unless something unforeseen arises, the yield of this estate, beginning with 1910, should be larger than it has been for a number of years past and with this as a basis of expectation, it is gratifying to know that the necessary improvements to produce this result have been installed and paid for and a substantial balance carried forward to the present year.

Forty additional dwellings for the working force of the estate have been added during the fiscal year at a cost of \$18,372.44. The expenditure on this account will go on until every married laborer has a separate house for his family.

The clearing of land in the Waimanalo section has been very expensive. Indeed, it would not have been profitable had not the general plantation equipment been large enough to take in this land without materially increasing that equipment, and had not the labor been performed between grinding seasons, when work was, to use a common expression, slack.

Projected Improvements. Beyond building additional houses for laborers, there are no improvements projected at present writing.

"SORE HEADS" SAY HEALTH INSPECTORS "Ins" Charge the "Outs" With Seeking Trouble

That the changes in the personnel of the Chief Sanitary Inspector's staff were made in the interest of harmony is the statement made by some of the chasers of disease germs.

Apparently, for some time there was a spirit of unrest in the department, some of the inspectors feeling that they had been slighted in the way of promotion, and others believing that incompetents were standing in their way. It was finally decided that a complete reorganization was necessary in order to make the corps efficient, and an investigation was therefore made.

According to the story that has leaked out, each inspector was given a chance to speak for himself and all who had any complaint, either against their superiors, or against the manner in which business was conducted, were given a hearing.

Some of those who are out, are avowedly after the scalps of some who are in, claiming that the action of the powers that be was induced by representations made by favored ones. Those against whom the ex-inspectors leveled their lances, say that the dismissed ones are sore and seeking revenge.

At yesterday's meeting of the Board of Health, nothing exciting came up, and the session was occupied almost entirely with routine. Dr. Holman of the Kalaupapa settlement tendered his resignation to take effect March 1, he having accepted an office under the Federal government at Molokai.

KAHUKU ENJOYED PROFITABLE YEAR

Larger Yield Is Expected For Season Of 1909

The annual meeting of the Kahuku Plantation stockholders was held Wednesday afternoon. Manager Adams reports as follows:

Crop of 1908.—The yield of sugar from the fields harvested for this crop was 6538 tons. This was less sugar than was expected. The shortage was principally in the yield from the short ratoons and the plant cane from fields 14 and 15. The short ratoons suffered while very young from the cold weather of the early months of 1907. Cultivating expenses incurred on these ratoons were greater than usual and the yield from them was below the average, so that the cost per ton of sugar from short ratoons was greater than the normal. The soil in fields 14 and 15 is thin and deficient in organic plant food. These fields have been cropped continuously for eight years owing to the limited area under the control of your company available for cane cultivation. These conditions are in the main responsible for the poor yields from these fields. The continuance of the present practice of abandoning the very poor portions of these fields where the cultivating and harvesting expenses are abnormally high and the yield below the average will result in a slightly reduced yield with greatly reduced expenses and no reduction in the revenue therefrom. The results from the crop as a whole were gratifying.

Crop of 1909.—The cane of this crop ripened unusually early and harvesting operations were commenced on November 21st. The cane area is as follows: Plant cane, 590.53 acres; long ratoons, 370 acres; short ratoons, 336.5 acres; a total of 1,297.03 acres. In addition, several outside planters will have cane for this crop, which should make a combined yield of at least 6700 tons of sugar.

Crop of 1910.—For this crop there were planted 383.5 acres. There is also an area of 631.38 acres of long ratoons and 354 acres of short ratoons, a total area of 1368.88 acres, or 71 acres greater than the area for the crop of 1909. Planting was finished on the 15th of July, which is unusually early. The long ratoons were brought under cultivation at an earlier date than usual and the short ratoons were all under cultivation on the 16th of December. This earlier growth under the favorable climatic conditions which have prevailed to the present writing should result in an increased average yield per acre of this crop.

Improvements.—Additions to the stock accounts were made during 1908 to the value of \$6307.95. This sum was devoted almost exclusively to the purchase of new mules and the erecting of a stable for housing these animals.

General.—Your company was unfortunate in losing a dwelling house by fire during the year. This building was uninsured. It should be replaced during 1909.

All of the machinery and equipment of the plantation continues to be kept in good repair, and is giving satisfactory results. There will probably be an unusual amount expended in repairs to rolling stock during 1909 since many wheels and axles need replacing.

Work was commenced several months since in improving the sanitary conditions of the place. This work will continue during 1909. There were fewer deaths from all causes during 1908 than during 1907.

The plantation is well supplied with laborers who appear to be satisfied with their surroundings and the conditions which obtain on the plantation.

An experimental plot of two acres was planted with pineapples during the year. Systematic tree planting was continued during the year on a larger scale than usual. Tree planting will be continued during 1909 also.

Referring to the retirement of Kahuku bonds Treasurer Cooke says: Bonds to the extent of \$75,000 were redeemed on September 30th, 1908, and a dividend of 1 per cent, per month was maintained throughout the year. At a meeting of the directors held on February 23, 1909, it was voted to redeem on March 31st, 1909, all the bonds still outstanding, amounting to \$125,000. This transforms a bonded into a floating indebtedness, which can be paid off at the option of the plantation. The

rate of interest is the same in both cases. It is not intended that the redemption of bonds should interfere with the present regular monthly dividend.

THURSDAY FEBRUARY 25, 1909

Now for the Federal Judgeship, when the unexpected is happening.

Think how the Japanese will scamper when Jack stamps his foot and looks ugly!

Ex-Governor Carter has been home nearly four whole days and now starts out to get into trouble on public questions!

Taking the Atcherley case as a sample, it is harder to keep out of the insane asylum than is generally supposed.

Brother Thwing will be impossible to hold if he ever comes back to Honolulu. May the city be saved such a visitation.

Turn over more work to the Counties. This suggestion from the Governor's message should be followed in every possible instance.

"Make a record with what you have" is the text that should be pasted in the hat of every man associated with the College of Hawaii.

Mr. Newell can see no benefit in destroying one industry that is the basis of general prosperity, before another is built up to take its place.

Possibly the next Federal Grand Jury will be asked to learn the identity of the attorney for the High-Wage Association and its organ, Yes? No?

The Governor has made his estimates come within the revenue but seems to take it for granted that the Legislature will not accept his figures.

Teachers of the public schools are allowed to remain under the old salary schedule in the Governor's estimates. That means more work for less money.

It is long since Hawaii has had a more welcome guest than Rev. C. F. Dole, and it is hoped that some opportunity will be given for the public to hear him.

They always say that a Legislature should be made up of lawyers. But the first thing the local Bar Association does is to appoint a special committee to watch the Legislature.

Make up your mind that the door of Hawaii is absolutely closed to the further importation of Oriental labor for years to come. Some of our people apparently don't realize this.

Superintendent Campbell is right. The city should have an artesian water service and one of the first things to be done is the installation of the high-lift pump purchased long ago and never used.

The campaign that calls for a general knocking of Hawaii's steamship service and American shipping is not one that attracts mainland support or promotes a commendable spirit among the people.

The sugar factors of this Territory should now join their forces and influence with the merchants, and demand that the steamship lines carrying the freights of the Territory shall make provision for accommodation of passengers. That's the way to improve the service.

The man who opposes immigration and a practical way of promoting it, should offer some other scheme for guaranteeing the progress of Hawaii. If he be a loyal citizen of the Territory, anyone can say "It isn't right" and propose nothing practical in place of that which attracts his criticism.

Returns from many sugar plantations are very favorable for the very favorable year just passed. But in figuring what the industry can stand it is necessary to take an average of the properties that would have to go out of business if subjected to extraordinary expense or unfavorable legislation.

The man who thinks that the door for Oriental immigration will be especially opened for Hawaii during the

Taft administration is worse than the lunatic lost in the woods. The door of the Far East is absolutely shut for these islands. Therefore the men of foresight and ability will devote their effort to measures that will secure another source of supply.

Governor Frear doubts the advisability of turning the Honolulu water works over to city control. Taking the present system, or lack of system, as an evidence of the superior management of the centralized government, the city would indeed be doing a mighty poor job if it could not carry out the needed improvements more quickly and at less expense.

### THE U. S. DISTRICT ATTORNEY.

The appointment of A. L. C. Atkinson as the United States District Attorney for the Territory is one that will doubtless be more pleasing to Mr. Atkinson than the glories of the Governorship, for which he was once in line.

As the prosecuting officer of the Government Mr. Atkinson will have a very serious responsibility as well as a large measure of power.

His appointment is distinctively "scal," as he is in every sense a citizen of Hawaii. This gives him additional opportunities to set a mark for the future. His administration of the office will prove whether the power of the Government can be as free from the influence of prejudice and purposes of revenge in the hands of one intimate with all and part of many personal alliances of Honolulu as when exercised by an outsider.

Mr. Atkinson has to prove himself in this position. He has not hitherto made a leading feature of court work in his legal practice. He has not figured in the open as associated with any of the more important litigation of the Territory. Hence he has to make good along entirely new lines.

In a general way, the significance of the appointment will be that the incoming President of the United States is desirous that the local representative of the Department of Justice shall be one whose attainments have been of a nature to suggest that he is not tied up too intimately with the larger financial and industrial interests of the Territory. It would not be surprising, in fact, if some antagonism were evidenced.

From a political standpoint the selection of Mr. Atkinson follows the most approved rules of procedure. When it is known whether he received the active support of the Governor, there will be more light thrown on the probable attitude toward this Territory of the future appointing authority.

### ATKINSON IS

(Continued from Page 1)  
had gone over until after the new Administration should have come in. So I don't understand how this all comes about."

"You did not send in your resignation?" Mr. Breckons was asked. "I will not say that," he replied. "I put the whole matter into the hands of the Wyoming delegation in Congress to handle as they saw fit." Which probably means that Mr. Breckons, to be on the safe side, sent in his resignation to the Wyoming delegation, probably undated, and that Senator Warren handed it in to the Department of Justice and that it was accepted.

"But I'm not worrying," Mr. Breckons added; "I'm resting easy. I have received the full text of the Haar report and it upholds me in all particulars and absolutely discredits all the Thwing charges. The concluding paragraph of the report highly commends me for my ability and my honesty and integrity, and I'm satisfied with that. The report also says that no man of any ability can afford to take this position at a salary of \$2000 a year without engaging in outside practice. And that is certainly true. If Mr. Atkinson or anybody else wants the job at that figure and under those conditions, he is welcome to it. I don't care for it." From which it may be inferred that while the senseless charges of

## Honokaa's Annual

Stockholders of the Honokaa plantation held their annual meeting today and heard very satisfactory reports on the condition of their property. Manager Gjerdrum in his review of the year says:

The weather conditions during the past year could hardly have been better, the average temperature was "normal" and although the average rainfall fell short, what rain we got was very evenly distributed. We had rain during 183 days last year against 134 days in 1907.

The grinding on the 1908 crop began the second week in December, 1907, and was finished during the first week of August. Having a good and fairly regular supply of water from the Hamakua Ditch Company, made it possible to get our upland cane harvested much earlier and cheaper than in previous years. The ratoons for 1910 on our upper, as well as lower, fields are therefore well advanced. The crop exceeded our estimate by 1657 tons sugar, the total output being 7657 tons.

The manager estimates that 76,500 tons of cane at 8.5 tons of cane per one ton sugar, will make the total sugar output for the 1909 crop 9000 tons.

On the crop for 1910 there is planted and reaped 3632 acres.

The young plant cane on the upper new lands is looking very promising and well advanced.

For the crop of 1911 it is intended to plant 100 acres new land, 1540 acres old land, 1260 acres ratoons (1909 plants), 100 acres outsiders, or a total of 3900 acres. Of this area 520 acres of the old land has been lying fallow, plowed twice, lupined and limed. Planting is already in constant progress.

Mill—The sugar factory did good work during the past season, average extraction 94.28 per cent. This season we have commenced grinding night and day, and have already manufactured about 3000 tons sugar. Owing to the rather wet weather during the latter part of December and January, the quality of the juice has been somewhat low; however, same is gradually improving and we believe the average tons of cane to make one ton sugar will be same as last year, 8.25.

We have built one more new reservoir, storing fifteen million gallons, at a cost of \$1500. We have now a storage capacity of about fifty million gallons of water.

To judge from the yield of some of the irrigated low land fields, which we have already partly harvested, we must say that irrigation is a success; to be able to give the cane water during a short dry spell has given exceedingly good results. Some of our low land irrigated fields will yield an average of between 50 and 60 tons cane per acre.

To enable us to take off the increased tonnage expected next year and which can be looked forward to in the future and especially so when all the lands below the level of the lower ditch are under irrigation will necessitate improvements in the mill.

Breckons, and he turned to the witnesses in the room and resumed his examination of them.

Mr. Atkinson was in his office receiving congratulations. He stated that he knew nothing of his appointment but he did not refuse the congratulations. One of the first visitors was Theodore Richards, to whom Mr. Atkinson said, "When duty calls friendship ceases." Another congratulator was Mr. Negro of the High-Wage Society and the future District Attorney asked him whether he wished for a room upstairs or downstairs in the High Henry Hotel.

The appointment of Atkinson comes as a surprise in the business section among many who had not figured on his wanting the place. It is assumed among the politicians that Taft had as much to do with the naming of Atkinson as Roosevelt. Taft has his own ideas about Hawaii and the people in it.

## ARMY, NAVY AND MARINE CORPS

Some idea of the vast strides that have been made in the service of security and information in the "New Army" is given by an excellent article on wireless telegraphy in the service by Lieutenant Paul Ward Beck, United States Army, chief signal officer of the Department of California, in the current issue of the Overland Monthly.

In his article Lieut. Beck explains the importance to the modern army of the intelligence department, and shows how wireless telegraphy, field "buzzer" lines, and other modern inventions have driven the picturesque "wig-wag" flag and torch to the oblivion surrounding the muzzle-loading rifle and the brass "Napoleon."

Lieut. Beck, probably the youngest officer in the service occupying so responsible a position, was born in the Army. His father is Brigadier General William H. Beck, U. S. A., retired, a gallant soldier who served through the Civil Indian, Spanish-American, and Philippine wars, and was twice brevetted for distinguished bravery on the field of action.

Lieut. Beck has spent his entire life in the service, having chased the famous Apache renegade, Geronimo, with his father's troop of the Tenth Cavalry when but a lad.

The article is illustrated with a series of excellent pictures depicting life in the Signal Corps and showing the clever inventions which have enabled companies of the Signal Corps to carry a complete wireless outfit with them in the field.

Town and County club's new home to be built at Stockton street and Union square avenue, San Francisco.

President Jordan says Stanford "frats" have depressing influence on university and must improve scholarship.

In Lemp divorce case laundress testifies that Lemp entertained women during wife's absence.

## QUIZZES AND EXAMS FOR BRICKLAYERS

### Cohen Presents Petition Aimed At Japanese Artizans

HOUSE.

Sixth Day—Afternoon Session.  
If Representative Joe Cohen succeeds in having enacted into a law the intent of a petition which he presented in the House yesterday, it will be necessary for bricklayers to take an examination before they are allowed to work on any government enterprise—and they will not pass if they are not citizens of the United States. The petition is anti-oriental in character. It was signed by 60 citizens. The essential part of it says "that the road department and other departments of the Territory of Hawaii have men-citizens doing all kinds of mason work who are unskilled and receive pay at the rate of \$1.75 per diem, whereas a mechanic in this and our line should receive not less than \$4 per diem. Now, therefore, we do respectfully petition your honorable body that a law be enacted at this session of the Legislature whereby it shall be obligatory for all workers in this line to take an examination touching upon their qualification, and upon satisfactory showing before an examining board, duly qualified, a certificate to this effect be issued, showing their competency, and, too, that they are citizens and voters, before they shall be allowed to work upon any government work within this Territory."

Speaker Holstein suggested that the petition should be referred to the Judiciary Committee. As Douthitt, the father of the pro-Japanese resolution labeled by Senator McCarthy a "Butt-in resolution," is chairman of the Judiciary Committee, this suggestion did not receive enthusiastic support from the member who presented the petition. Cohen protested vigorously and was backed up by Sheldon, who wanted the petition referred to the Miscellaneous Committee, which is less pro-Japanese in sentiment. After a somewhat heated debate the Speaker gave in, reserving the right, however, to refer the matter to the Judiciary Committee later.

A lengthy debate was caused by a resolution by Kalelopu that the Appropriation Bill be made the order of the day for next Monday, to be considered in Committee of the Whole. Rice opposed this, saying it was too early in the session to take this matter up, and besides, the bill and the Governor's message accompanying it still had to be printed.

Kalelopu protested vigorously at any delay. "Why, we're liable to have to stay here longer than 60 days, and get out of our time," he said. "We must get at this thing right away and get it off our hands." Kalelopu is in a deadly fear lest he be called upon to do something for the people for which he shall not get his per diem.

Finally after a long discussion and the announcement by Rice that he intended to move to have the water-works withdrawn from the Territorial government and turned over to the counties, the matter, on motion of Castro, went over to March 8.

Shortly after the noon recess the stentorian voice of the Sergeant-at-Arms at the door way proclaiming the arrival of a message from the Governor, and the entrance of the immaculate McBride, long-tailed coat, high hat and all, bearing the important document.

Smith Is Embarrassed.  
A communication from Henry Smith, clerk of the Judiciary Department, informed the House that he was embarrassed by the letter addressed to him, in accordance with a House resolution, asking him for an itemized statement of moneys spent in his department in order to get the information required it would be necessary for him to spend most of a day in the Auditor's office, and he wanted the clerk of the House to ask the Chief Justice to grant permission for his chief clerk to take the time for this.

A communication from Commissioner Pratt informed the House that during the 18 months preceding Dec. 31, 1908, his department had spent under "incidental appropriation" \$9,371.62.

Lack of money, is the reply of Land Commissioner Pratt to the "forthwith" resolution of Sheldon asking why he had not advertised homestead openings in the papers of the counties in which the lands were to be opened. Mr. Pratt, in a letter to the House, stated that prior to December last all homestead openings were advertised in local county papers together with Honolulu papers of general circulation. But during December the "incidental appropriation" became exhausted and advertising had to be reduced to the minimum requirement of two newspapers, one published in English and one in Hawaiian. As it was desired to reach the whole people of the Territory, the papers of largest circulation were selected.

A resolution was introduced by Makekua for the appropriation of \$10,000 for the establishment of a water works at Kahauia, South Kona.

To Spend Millions.  
The current expense bill, carrying \$3,248,226, was introduced by Rice and

referred to the Printing Committee. Senate Bill No. 28, an act to encourage diversified industries came down from the Senate, and passed its first reading.

A Proper Petition.  
A plaint from the bughouse was heard in the House when the clerk read a petition addressed to Hon. H. Lincoln Holstein, Speaker of the House of Representatives, and Hon. John H. Coney, chairman of the Committee of Health and Police, Gentlemen, and signed by fifteen employees of the insane asylum. They declared that they have to work long hours amid dangerous surroundings. The guards get \$50 per now, and think they ought to have \$65, while the nurses want an advance from \$40 to \$50 a month.

Hihio's First Bill.  
Hihio, of the third district, introduced a bill to provide a hospital in the district of Lanina, to be known as the Malu Ulu a Lele Hospital. The institution shall be maintained more especially for the benefit of indigent persons.

Kealawa in a resolution introduced by him, asks for a reinforced concrete fishmarket at Hakalau, Hawaii, and \$2500 for a similar building at 9 Miles, Olan.

Another resolution was introduced by Kealawa to appropriate \$1500 for a jailor's cottage at Kapoho, Puna. Still another Kealawa resolution calls for a \$1000 appropriation for a one-room schoolhouse at Kiloheana.

Makekua introduced a bill to amend the tax laws. The measure provides for a 10 per cent penalty for delinquency on personal and property taxes, both tax and penalty to bear interest after six months from the date of becoming due.

A Sliding Tax.  
A graduated property tax bill, imposing a sort of sliding scale tax on all property of every kind forming the basis of an enterprise for profit was introduced by Kinney. Only one-half of one per cent is to be assessed on property valued at \$5000; if the property taxed is worth more than \$5000 but less than \$10,000, 1 1/2 per cent tax shall be assessed against the \$5000 and 3-4 per cent against the value in excess of \$5000. The tax is gradually to increase as the amount of property increases in value, until the maximum of 2 per cent on any excess over \$100,000 is reached.

Initiative and Referendum.  
Furtado introduced his bill to "reserve to the people the right of initiative and referendum and providing the manner in which such right may be used as to legislation in the Territory, a county, municipality, district or precinct.

Committee Reports.  
The Miscellaneous Committee reported back Waiwale's bill, H. B. 44, amending Act 198, S. L. of 1907, with the recommendation that it pass. The same committee also reported favorably on Nakaleka's House Bill 35, raising the pay of Territorial laborers to \$1.50 a day.

The Health and Police Committee made a report on Nakaleka's House Resolution 54, providing for a \$1000 appropriation for a hearse for the leprous settlement. The committee recommended that the resolution be laid on the table to be taken up with the appropriation bill.

Second Reading.  
The following bills passed second reading and were referred to committees:  
House Bill 2, Affonso, to encourage the coffee industry—Agricultural Committee.

H. B. 3, Affonso, creating an income tax on all incomes in excess of \$2000—Finance Committee.  
H. B. 17, Douthitt, amending the municipal act—aimed at Japanese in residence districts—Judiciary Committee.

H. B. 40, Coney, relating to the Honolulu sewer system—Public Lands Committee.  
H. B. 52, Waiwale, providing for tenders for County supplies—Miscellaneous Committee.

H. B. 53, Sheldon, requiring the Secretary of the Territory to promulgate the new laws by publishing them in English and Hawaiian—Judiciary Committee.  
H. B. 31, Coney, defining the Judicial circuits of the Territory—Judiciary Committee.

H. B. 54, relating to inventories of government assets—Public Accounts Committee.  
H. B. 4, Affonso, to boost the salaries of the County Clerk of the County of Hawaii and the deputy sheriff of the District of Hamakua—Miscellaneous Committee.

H. B. 6, Affonso, dividing the County of Hawaii into two Senatorial districts—Judiciary Committee.  
H. B. 51, Long, creating a juvenile court—Judiciary Committee.

H. B. 49, Huddy, the administration leprosy bill providing for suspect hospitals on the various islands—Police and Health Committees.

## NEW PAPAIA VARIETY

A splendid papaia grown by Gerrit Wilder is on exhibition at the Promotion Committee rooms, and everyone interested in the development of our fruits should take a look at it. This fruit is a fine specimen of a variety bred and improved by selection according to Mr. Wilder's ideas. After Friday next Mr. Wilder will have 1000 packages of seeds of this variety for free distribution to any persons wishing to propagate them.

## ATCHERLEY TRIAL WITHOUT INCIDENT

### First Day's Hearing Consists Largely Of Resume

Yesterday afternoon the Atcherley case advanced another stage. The arresting officer, Police Court receiving clerk, and a bicycle patrolman all repeated their evidence as given in the District Court.

Dr. Wayson testified as to the shooting episodes and drew a diagram of his house, showing where the bullets struck. Magoon tried to prove that a person standing on the street could not land a bullet in the bedroom owing to the doctor's office being in the line of fire. Dr. Wayson explained that a man standing a little to one side could put a bullet through the bedroom with ease.

Dr. Emerson's evidence was not complete when the court adjourned at 4:30 o'clock. The doctor testified to the fact that Atcherley was in a low condition when he got to the station and that he made a request for drugs which he said he was used to. Dr. Emerson said that he gave him the drugs, including opium and cocaine, which had been brought to the police station in a package. Magoon objected to the drugs being put in evidence but was overruled.

## TWO BILLS PASSED

(Continued From Page 1)

Pursuant to this recommendation Magoon today introduced a bill to amend the County Act by adding a paragraph to that section defining the powers of counties. The paragraph added gives the counties power "to establish and maintain water and sewer works; to collect rates for water supplied to consumers; and for the use of sewers." The bill passed first reading by title and went to the Printing Committee.

Sheldon's Little Wants.  
Sheldon is a modest Representative, coming as he does from Kaula, but just once in a while he wants something and in his gentle and diffident way asks for it. He had a few little wants this morning, expressed in resolutions which he introduced: \$50,000 for a school house at Hanapepe, Kaula; \$1500 for a jail to go with the school house; \$2500 for a reinforced concrete jail at Waimea, Kaula; \$18,000 for the construction of the Waimea river embankment; \$5000 for the construction of a new filter at the intake of the Waimea water works.

Makekua introduced a resolution to appropriate \$1000 from the Loan Fund for the establishing of a water works system at Paupaua, Hawaii.

Kawewehi had a resolution to appropriate \$1500 for the construction of vaults in the Kailua court house.

The Committee on Public Lands and Improvements reported on House Bill No. 29, introduced by Kalelopu, "An Act to amend Act No. 99 of the Session Laws of 1905, entitled 'An Act providing for the construction of roads through and from public lands opened for settlement,'" recommending that the same pass.

The same committee, reporting on House Resolution 37, by Hihio, providing for the appropriation of \$15,000 for a sewer system for Lahaina, recommended the insertion of the item in the appropriation bill. A similar recommendation was made in regard to House Resolution 31, by Nawahine, to appropriate \$25,000 for the improvement of the Waialuku-Kahului water works.

Second Reading.  
The following bills were read the second time and referred to committees:  
H. B. 14, Castro, amending the divorce laws—Judiciary Committee.  
H. B. 30, Kalelopu, amending the Municipal Act, designed to strip Fern of much of his power and dignity—Judiciary Committee.

House Bill 5, Affonso, to protect purchasers of real estate from fraudulent conveyances.  
The Governor's message received yesterday, recommending an appropriation for a leprosy investigation laboratory, was read and referred to the Health and Police Committee.

Senate Bills.  
Senate Bill 4, Coelho, to provide for biennial reports to the Legislature of Hawaii by counties, passed its first reading by title.  
Senate Bill 17, requiring that all officers, clerks, assistants, police, laborers, etc., in the employ of the Government must be citizens except where this is impracticable, passed first reading by title, as did Senate Bill 34, to make certified copies of public archives receivable in evidence.

## LITTLE EXCITEMENT

(Continued From Page 1)  
That have been asked for, when in reality we know nothing about it. I insist that the resolution take the same course as others presented, namely: be tabled until the time comes to consider the Appropriation Bill."  
Robinson said that he wanted the resolution considered by the Health Committee, so, on motion, it was so referred.

Kalama Wouldn't Vote.  
Senate Bill No. 39, amending the law of eminent domain so as to include schools and recreation grounds in the list of institutions for which private property can be taken by the Government, also evoked a little discussion. It came up for its third reading, and Senator Kalama refused to vote, saying that it looked as though it were aimed at him.

"I own a piece of property adjoining the High School," said Kalama. "For some time the Government has been endeavoring to get possession of that land, and I have refused to enter into any negotiations. It looks very much as though the framers of that bill were aiming their measure at me."

Pleiades Brings Big General Cargo.  
The American-Hawaiian freighter Pleiades, Captain Armstrong, arrived yesterday afternoon from San Francisco and went direct to the railroad wharf, where she is discharging her cargo.

She brought 1161 tons of cargo for Honolulu, including 275 cases of powder for the United States Government and automobiles for von Hamm-Young Co., 3200 tons for Eleele, and 1800 tons for Hilo. Both the Eleele and Hilo freight will be unloaded here so that the Pleiades can get away for San Francisco next Saturday afternoon.

The Pleiades encountered headwinds and high seas, but was not bothered. She slowed along, and yesterday afternoon at 1:15 o'clock she was reported off Koko Head. She will sail for San Francisco Saturday afternoon.

Fine Fair Fight For Feathers Fixed

The news that Paddy Ryan will referee the Smith-Reilly bout on Saturday night sounds real good to the fight fans. Paddy is a very experienced man at the boxing game, and may be relied upon to give a fair decision in the coming scrap.

With Ryan in the ring, the spectators should be treated to a fine, clean and willing fight. Both lads are wound up thoroughly for the go, and have now eased off in their work. Neither Smith nor Reilly will do any boxing today, tomorrow, or Saturday—that is, during the daylight hours of Saturday, but both may be depended on to do some fine walloping during the evening.

When these two lads fought last time, it was announced that if both men were on their feet at the end of fifteen rounds the go must be called a draw. Well, we all know how it did end in a draw—if a decision had been given probably Smith would have got it on points.

This fight on Saturday night is going to be a hard one to pick the winner of. Both men seem to have a chance, and a good one at that. Smith, in the writer's opinion, seems to have a shade—only a shade—the best of the conditions in the coming fight.

In the last scrap Smith was handicapped by the fighting in clinches; his style is for long-distance scrapping all the time, and if he can keep Reilly at arm's length for ten rounds or so he should win. Anyhow, it is going to be a rattling good fight, and one worth putting your mother-in-law in hock to raise the necessary coin for a ticket.

The two preliminaries should be exciting, as four good men have been got together for the events. Soldier McCollough and Hines will box eight rounds at 140 pounds. Everyone knows the soldier and is aware of the way he bores in to fight all the time. He will stand a lot of punishment without giving in, and may be relied upon to make Hines extend himself to the utmost.

Hines is one of the regular army of boxers and is as clever as most of them. He knows the game from A to Z, and the only possible room for doubt in his case is in regard to condition. Hines, however, says he feels well and certainly looks it, but still it takes a lot of hard work to enable a man to box eight rounds with a man who is always rushing in for more.

The other preliminary, between Hans Nelson of Camp Very and Soldier Henley of Fort Shafter, will be a four-round affair. Nelson has been seen in action but little; his go with the Greek pugilist could hardly be used to form any opinion as to his fighting capabilities. He finished "Hercules" off so suddenly that no one had time to size him up—all eyes being on the unfortunate but proud descendant of Demosthenes. Nelson probably will put up a good scrap.

BONINE Scenes in Hawaii

The Great Floral Parade of Monday Last Scenes and Incidents of the Lincoln Centennial A Series of Beautiful Dances by Margaret and Helen Center The Volcano of Kilauea and Many Other Interesting Scenes in Hawaii. Admission, 25c and 50c. Reserved Seats, 75c, now on sale at the Bergstrom Music Store.

as he is a husky young giant, and seems to be able to use his hands a bit, too.

Henley of Fort Shafter is a very likely looking lad, whom the writer picked out some time ago as a coming man. He takes all that is coming to him and then walks in for more. He has had a lot of practice out at the Fort with McCollough and Dick Sullivan and has picked up a lot of the finer points of the game.

Jack McFadden announces the fact that he will fight the winner of the Smith-Reilly bout at any place and for any amount. Jack is the champion small man of Honolulu, and anyone who saw him knock Sailor Morch out knows that Jack has the punch in his left all the time.

Taking it altogether, the show on Saturday night should be a first-class one. All the principals are confident of winning, and as that is impossible, some lovely mixing should be indulged in before the ultimate winners are decided on.

Jack O'Brien Is To Fight S. Ketchel

The news that Jack O'Brien has been matched with Stanley Ketchel is causing a lot of comment among sports all over the world. O'Brien, the self-confessed faker of fights, was thought to be down and out. Two years ago O'Brien publicly branded himself as a crook as far as fights went. He would "lay down" or square the other man to quit, according to the way the money was being bet.

The Philadelphia boxer was a good man in his time, and if he had only fought straight, might have occupied the position that Mr. Burns has just vacated. If he had become world's champion, one thing is sure, and that is that he would have made strenuous efforts to "square" Johnson with \$10,000 or so, instead of standing up and taking the punishment that Tommy Burns did.

O'Brien is lucky indeed to get back into the fight game, but he had better keep away from San Francisco in future, as there is no aloha there for him. It is claimed that Ketchel will get \$8000 for his share of the purse, win, lose or draw. Willis Britt is the man who has arranged the fight, and it is to be hoped that it will be free of the kind of dirty work that O'Brien seemed to revel in in the past.

Of course, O'Brien may run straight now, after his hard experiences, but it is hard to say, although Joe Gans, after many a dirty bit of business, turned into the narrow path and kept there till Bat Nelson passed him out.

Ponies For The Lellehua Men Coming

Polo is coming rapidly into favor in Honolulu and districts. Out at Lellehua the Army officers are doing their best at the game with the limited number of ponies at their disposal.

At present there are only about eight polo ponies at the camp, and of course that small bunch cannot keep the game going strongly. In this climate the players must change ponies more frequently than in cooler countries, and as a matter of fact that is one of the reasons why polo has not caught on as well as it should in the past here.

It is a very expensive game to play, and the upkeep of a stable of polo ponies is a very serious item. Still there are plenty of well-to-do young fellows in these islands, and once the game is started in earnest by the Army men, no doubt many others will purchase ponies and start at the game.

An annual gymkhana will probably be one of the first fixtures of the combined clubs, and for real good exciting sport a gymkhana is hard to beat. The Army men are very keen on the sport, and no doubt Honolulu will be treated to some fine games of polo and pony racing in the near future.

The forty ponies for the Lellehua officers should arrive soon now, and then things will hum in the polo line here.

C. A. C. Protest Game Against Japs

The C. A. Cs. have protested the match which they lost to the Japanese team last Sunday. The C. A. Cs. claim that Soichi, the left-fielder, who did good work in the match, is not a proper member of the Japanese team.

It is a great pity that the C. A. C. has taken this stand, as it will not do them much good as far as the general public goes. It would be much better for them to take their defeat in good grace than to raise a howl afterward.

The Japanese were one man short and had to dig a man up out of the spectators. That is how Soichi got into the game, and although strictly speaking, the C. A. Cs. are perfectly within their rights in protesting the game, they show poor sportsmanship in doing so.

Saints Lose To Mauna Kea Team

Yesterday afternoon the Mauna Kea baseball team defeated the St. Elizabeth's by a score of 18 to 12. Ahana twirled for the winners and pitched good ball. The game was a fast one as the total scores indicate, and the fans enjoyed themselves very much.

The batting was good on both sides but the fielding was weak; this accounts for the large scores. The line-ups were:

Mauna Kea—Ton Yen, Kau Yen, K. C. Ahana, Young Nap, Sing Tai, Tin Yen, Chun Tuck, Tuck Foo, Ah Kim, Ah Young.

St. Elizabeth—Johnny, Ah Tin, Ah Hoy, Ah Book, Wing Kee, Lo Yin, Chun Yen, Jay Hoy and Andrew. Chin Sun, umpire; Hung Chup, scorer.

No. 157. TERRITORY OF HAWAII. COURT OF LAND REGISTRATION. TERRITORY OF HAWAII TO W. R. OASTLE, Trustee; FRED. MAKINO; LILIUOKALANI K. DOMINIS; TERRITORY OF HAWAII by C. R. HEMENWAY as ATTORNEY GENERAL and by MARSTON CAMPBELL as SUPERINTENDENT OF PUBLIC WORKS; CITY AND COUNTY OF HONOLULU by JOSEPH J. FERN as MAYOR and PRESIDENT OF THE BOARD OF SUPERVISORS; C. LIBBIE McABEE; K. SUGAKA, and to ALL whom it may concern:

Whereas, a petition has been presented to said Court by EDWARD HERRICK BROWN to register and confirm his title in the following-described land:

Beginning at a driven iron pipe filled with concrete on the proposed new North-west line of Manoa Valley Road, said point being 3869.4 feet North and 4294.5 feet East from Rocky Hill Trig. Station, and running, by true azimuths:—

- (1) 325° 02' 30", 9. feet, along land described in L. R. C. No. 209 to J. A. Magoon, to a cross on face of stone wall on present line of Manoa Valley Road; (2) 41° 19' 30", 200. feet, along Southeast side of stone wall along present line of Manoa Valley Road to a cross on a stone in wall; (3) 141° 15' 30", 227.8 feet, along stone wall along land of Liliuokalani; (4) 145° 09', 62. feet, along same; (5) 142° 35', 1100. feet, along same continuing up the hill to a driven 2-inch galvanized iron pipe on top of ridge; from this point Leahi Trig. Station bears 355° 30' 30" and Rocky Hill Trig. Station bears 53° 47'; (6) 225° 09', 164. feet up ridge along Government land; (7) 216° 36', 148. feet, along same;

(8) 197° 19', 65.8 feet, along same to a driven galvanized iron pipe; (9) 325° 02' 30", 1424.2 feet, down the hill along land described in L. M. C. No. 200 to J. A. Magoon to the initial point; Containing an area of 10.41 acres, being a portion of L. C. A. 11029, Apana 1 and 2, to J. Stevenson, on the Northwest side of the Manoa Valley Road, in Manoa Valley, City and County of Honolulu, Oahu.

You are hereby cited to appear at the Court of Land Registration, to be held at Honolulu, Island of Oahu, on the 19th day of March, A. D. 1909, at one o'clock and thirty minutes in the afternoon, to show cause, if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any decree entered thereon.

Witness, PHILIP L. WEAVER, Esquire, Judge of said Court, this 17th day of February, in the year nineteen hundred and nine. Attest with Seal of said Court. (Seal) W. L. HOWARD, Registrar. 4237—Feb. 18, 25; Mar. 4, 11.

BAND CONCERT.

There will be a moonlight public band concert this evening at 7:40, at Kakaako Mission.

- PART I. March—Manhattan Beach. Sousa Overture—Light Cavalry. Suppe Ballad—Alice Where Art Thou. Ashier Selection—Bohemian Girl. Balfe. PART II. Vocal—Hawaiian songs, ar. by Berger Selection—Morning Parade. Hume Waltz—City Life. Translatour Finale—Mokihana. Berger The Star Spangled Banner.

## LENTEN LECTURES AT CENTRAL UNION CHURCH

Letters have been received by the members of The Mens' League of Central Union Church from the chairman of the League, asking them to cooperate in extending the invitation to the men of Honolulu, to a series of Sunday Evening Lenten Lectures which will be given under the auspices of the Mens' League, beginning next Monday evening. The dates and topics follow:

A study of the Question—"Is Our Religion Real?" Feb. 28—"The Present Day Passion for the Real"; Mar. 7—"The Reality of Jesus"; Mar. 14—"Faith, A Real Experience"; Mar. 21—"How Make Prayer Real?"; Mar. 28—"The Reality of the Church"; April 4—"Realizing Immortality."

The suggestion to have this series come to the League from those who heard these addresses given a year ago at noon-day Lenten talks under the auspices of the Y. M. C. A., and it was voted at the last meeting of the League to support the series, if Dr. Scudder should repeat them this year as Sunday evening lectures.

With the special music which is to be given each evening this should prove a most attractive series of services.

## The Truth About Kidney Trouble (SEDIMENT)

Sediment that can be seen with the unaided eye is not usually an evidence of a serious stage of kidney disease. Neither is a smoky appearance of the eliminations. Both of these symptoms are often found in people who are otherwise well, and they commonly disappear with the exciting cause if the patient within a week or two of its discovery will diet, avoid colds and live carefully.

There are times in the lives of nearly all of us in which these symptoms have appeared and disappeared.

If, however, they persist it should be given thoughtful consideration in view of the declarations of medical writers that about the sixth month inflammation of the kidneys becomes chronic and is then incurable. The Text Books having no treatment that will allow inflammation of the kidneys, physicians prescribe a diet, and possibly an eliminant, and if early enough it is quite likely to be effective. But the new discovery, Fulton's Renal Compound, the success of which is due to the fact that it is the first thing that always kidney inflammation, is effective to aid nature to throw off the inflammation in about 87 per cent of the cases in all stages.

As the inflammation more readily yields in a few weeks of the formative period it is good judgment not to delay. If it has been unconsciously developing for some time and is in the chronic stage, there is nothing that will help at all except Fulton's Renal Compound, and even then the recovery will be slow.

Literature mailed free.

# Lizzie Ten Sue Kau Leads Bulletin Contest: Contest of Short Duration; Closes March 15

## TRIPLE VOTE OFFER CLOSES MARCH 10

Winning Contestants May Take Trip Whenever They Choose And Go Singly Or In Group

Miss Lizzie Ten Sue Kau is the lucky contestant today, in the Bulletin's free trip excursion which is drawing fast to a close and has only a few more days to run, before the trips will be awarded to the five successful contestants. Miss Ten Sue Kau was in sixth position yesterday and comes to the top of the list with 198,710 votes to her credit. If the contest were closed at this writing and the trips awarded to the contestants according to the accompanying score, they would go to Misses Ten Sue Kau, Marcos, Waihalo and Deverill and Miss Ten Sue Kau would have the privilege of selecting the fifth party to see Seattle, but there are two more weeks after this week, in which to collect votes and it goes without saying that there will be many chances taking place ere the goal is reached on March 15th, at which time the final count of the ballots will be made and the four contestants who have the highest scores "one from each district" will be awarded the trips and the highest individual score will choose the fifth, to accompany them on their journey. The contestants have the right to go in group, but if they prefer, they may go singly and at any time they choose.

The triple vote offer will aid materially, to those who desire to be winners in the end, and those who take advantage of this offer, will stand the best chance of winning; as votes count more now than ever again and the last five days of the contest, subscriptions will only count one third their present value.

**58,000 Votes!**  
Remember that five single one-year subscriptions will count you the same as a single five-year subscription and it will also count you a club of five-year subscriptions, which will net you 58,000 votes, providing they are NEW, and if they happen to be old subscriptions they will count you 39,000 votes. Subscribe for someone today, while the votes count triple, as the last five days of the contest subscriptions will only count you one-third their present value in votes—and votes are the necessary credentials by which to win a free trip to Seattle, which will be the mecca of the journey for five young women of your choice.

The last special offer which goes into effect today and continues until Wednesday, March 14th, will be warmly contested for, goes without saying and there is not a contestant who can afford to let this opportunity pass, as it is positively the last and best offer that will be given and it will practically decide the final results of the contest. Remember that this is positively the last offer of any description that will be given and will positively close on Wednesday March 10th, and the last five days of the contest only the regular scale of votes will be given and those who fail to take advantage of this special offer, will only receive one third the number of votes that are offered now. The contest closes March 15th, but the special triple vote offer closes on Wednesday March 10th, just five days prior to the final close.

**Positively the Last and Best.**  
The most magnificent offer yet made by the Bulletin, is made today. The offer becomes effective at once and continues until Wednesday March 10th. This is the offer: For each subscription turned in to the Bulletin office, between now and Wednesday March 10th, three votes will be given for one before or in other words the regular scale of voting will be tripled.

In addition to this offer, there will be a sub-contest started, in which a bonus ballot will be given to the contestants turning in the most NEW subscriptions during this last special offer.

10,000 free votes will be issued to each contestant turning in ten NEW six months' subscriptions before Wednesday March 10th. Two six months' subscriptions will count the same as one yearly subscription or a five year subscription; to the daily will count as one; you don't have to turn them all in at the same time in order to receive the special 10,000 ballot, but each subscription turned in singly will receive triple votes for same, and when you have completed your club of ten, you will receive the special ballot.

Please don't forget that the special triple offer closes Wednesday March

## Standing of Contestants

SUBSCRIBERS SENDING THEIR SUBSCRIPTIONS TO THE BULLETIN OFFICE MUST ALWAYS MENTION THE CONTESTANT'S NAME. NO VOTES WILL BE ISSUED UNLESS THE CONTESTANT'S NAME APPEARS ON SAME.

Miss Ethel E. Edwards	Kilauea, Kauai	54,806
Miss Rose Aea	Waimea, Kauai	38,912

Contestants may take the trip any time they choose. Contestants are not limited to the district in which they are entered, but are allowed to secure votes from any other District, County or State.

**CONTEST CLOSES MONDAY, MARCH 15TH, 8 O'CLOCK P. M. SHARP.**

## The Evening Bulletin Popular Voting Contest

Fill in the name of the young woman you wish to vote for and the district in which she lives. Bring or mail to Manager Contest Department, care of Evening Bulletin, Honolulu, T. H.

**THIS COUPON COUNTS AS ONE VOTE FOR**

Miss .....

District No. ....

**This coupon is not good after Wednesday, March 10th)**

10th and it will not be repeated, but positively closes on that date and the last five days of the contest, votes will only count single or one third their present value. You don't have to cast the ballots issued on subscriptions, until the close of the contest, but you should turn in all your subscriptions now and receive the votes for same and you will receive the triple vote for same, but don't wait for something better as this is positively the last and best that will be offered, and positively closes on March 10th.

There is not a great difference in the standing of the leading contestants at the present time and now that the triple vote offer is in effect, will necessitate the reexamination of the entire field and ask those who only gave you a small subscription, to increase their subscription and give you the benefit of the triple vote offer.

**Hawaii, Maui and Kauai Districts.**  
Contestants depending on the mail, to bring their subscriptions to this office, must have them show post mark not later than Wednesday March 10th, in order to receive the special triple vote count; if the mail shows post mark at the office in which it is posted, not later than March 10th, it will be allowed on the triple vote count. But any received after that date, up to the close, will only receive the single vote or one third their present value. Also bear in mind that all votes which have been issued and are being held by the contestants or any individual, MUST be deposited in the ballot box, in the Bulletin office before 8 o'clock P. M. Monday March 15th and any votes received after that hour, will not be allowed in the final count. The ballot box will be opened, by judges chosen from prominent business men of this city and when the Alarm clock sounds the final close, the judges will take charge of the ballots and as soon as those in the Bulletin

office at that time are waited upon, the ballot box will be opened and the final count will begin, but no votes will be received after the final count has begun.

**A Square Deal.**  
Some may believe that the Bulletin is not doing the fair thing by offering this big triple vote offer, but there has been so little difference in the number of subscriptions turned in by most of the contestants that there will be an even break for all, who take advantage of this splendid offer, and besides, it will make vote collecting much easier for all concerned, as friends will no doubt help you now, while votes count more than ever again and the contestants will not have to wait until the last minute to have their friends make good their promises.

**Those Who Have Promised Support.**  
Candidates have been promised support by most every person they have asked, and have been stood off by many, who have predicted something better in the way of votes. And now all should make good their promise before the 10th, as this is positively the last, and votes only count single the last week of the contest. Do not wait for anything better, for you won't get it. And it will be a disappointment to those depending on you for your votes. Subscribe before the 10th and you will receive more votes for your subscription than you will receive on the last five days.

Don't forget, all votes count triple until the 10th, and then they only count single from the 10th to the close, which is the 15th of March at 8 o'clock P. M.

## SPECIAL NOTICE

SUBSCRIBERS SENDING IN SUBSCRIPTIONS TO THE BULLETIN MUST ALWAYS MENTION THE

# WANTS

ONE CENT A WORD

**WANTED**  
Advertisements Under this Heading One Cent Per Word Each Day. No Advertisements Inserted for Less Than Ten Cents.

**NAME OF THE CONTESTANTS THEY WISH TO VOTE FOR, AS ALL BALLOTS ARE FILLED OUT IN FULL BEFORE LEAVING OFFICE. YOU CAN HOLD BACK THE BALLOTS AS LONG AS YOU WISH. Do It Now.**

Contest Closes March 15th, 8 P. M.  
Monday, March the fifteenth is the time set for the close of the contest and all votes and subscriptions MUST be in the Bulletin office on that date. The closing hour will be at 8 o'clock p. m. on March 15th, and those depending on the mails to bring their subscriptions to the Bulletin office MUST have all votes and subscriptions in the ballot box before 8 o'clock p. m. on that date. The judges for the final count of the ballots will be chosen from prominent business men of Honolulu; their names will be announced in due season. Each contestant will have the right to select a friend or relative to represent her and look after her interests during the final count of the ballots. An alarm clock will be used to signal the closing hour, which will be at 8 o'clock p. m. sharp, March 15th. When the alarm sounds the judges will take charge of the ballot box and when all in the office at that hour are waited upon, the box will be opened and the final count will commence. There will be no bidding for ballots, as there will positively be no money or subscriptions accepted after the ballot box is opened. No one will know how many votes each candidate has deposited, therefore, no one will know how many votes are required to win.

**REAL ESTATE REAL ESTATE EXCHANGE FOR SALE.**

**LOTS.**  
We have over 100 lots for sale in all parts of the city, improved and unimproved, business sites, residence sites and farming sites, for prices ranging from \$50 to \$30,000; some for cash sales, some for installment sales and some for exchange.

**HOMES.**  
We have over 60 homes for sale, located in every residence section of the city, and suburbs; all comfortable, some elegant, on various terms; some for spot cash, some on installment payments, some for exchange, and some for part cash and part mortgage on easy terms.

**HOUSES.**  
We can arrange to build houses on the installment plan on lots purchased from us by responsible parties.

**FOR EXCHANGE.**  
We have a number of good exchange bargains.

**TO LET.**  
We rent houses and may locate you.

**TO BUY.**  
We have eight or ten prospective buyers on our lists at present; perhaps you have just the place that would suit one of them. Come and see us.

**REAL ESTATE EXCHANGE.**  
A. V. GEAR, Manager.

# GOVERNOR FREAR'S MESSAGE ON APPROPRIATIONS

A MESSAGE FROM THE GOVERNOR,

Territory of Hawaii,  
Executive Chamber,  
Honolulu, T. H.,  
February 24, 1909.

To the Legislature:

I have the honor to submit herewith for your consideration estimates for appropriations out of general revenues for the biennial period ending June 30, 1911.

**FORM OF BILL.** The estimates are in the form of a single bill covering the items which at former sessions have been separated into two bills known as the salaries and expense bills. This is the usual practice elsewhere. In former bills it has not been found practicable to make a sharp line of division between the two classes of expenditures. It is a decided advantage both for convenience and for efficiency to consider together all appropriations for any branch of the public service.

In the bill submitted an attempt is made also at more complete and logical classification of items and at greater simplicity and uniformity in their wording. The appropriating clause at the beginning is shortened and made to conform more nearly to similar clauses in Acts of Congress, and the restricting clauses at the end are omitted, with the idea that these shall be put in the form of a separate, permanent bill carefully prepared to meet all contingencies, thus avoiding unnecessary repetition in a number of bills at each session and making such restrictions applicable to the usual minor appropriation bills to which they have not usually been attached.

**AMOUNT.** The estimates aggregate \$3,248,226.00, which is \$83,682.45 less than the estimated available revenues. This should be reduced rather than increased unless the revenue also is increased. There will probably be additional minor appropriations at the present session; there are always appropriations of considerable amount at the succeeding session for the same period; moreover, if one million out of the possible two million dollars of the public debt is refunded during the ensuing period, there must be set aside for sinking fund under existing laws \$51,825.13, which will be offset to the extent of only about \$15,000 in interest saved; further, if an additional loan is authorized for public improvements, allowance must be made for both sinking fund and interest; the aim should be also to maintain a working surplus.

The estimated expenditures have been brought within the estimated revenues by omitting offices, reducing salaries, combining services, and omitting or reducing items for other purposes. Many of these changes will not result in materially impairing the efficiency of the public service, but in some cases the estimates have been reduced or kept below the point required by true economy and expediency to maintain proper efficiency or keep pace with increasing needs. Indeed, the estimated requirements of the various departments have been reduced more than \$600,000.00.

**FURTHER NEEDS.** Many needs, some of which were presented in my first message to your honorable body, are not covered by the estimates. Without meaning to underrate the importance of others, I call your attention particularly to the estimate for the pay of teachers in the public schools, which has been left at the amount appropriated by the last legislature. A large increase is absolutely necessary to avoid the exclusion of a large number of pupils or a material reduction in salaries, which are already too small, or a large increase in the number of pupils per teacher, which is already too large. True economy requires also larger appropriations for repairs and maintenance of school buildings, as well as other public buildings.

Additional appropriations are needed also not merely to preserve the present status or meter, some of which are included in the estimate taken, but to meet new needs of an urgent character, some of which are set forth in the first message. Special attention is called to the items for medical inspection in the public schools, the prevention and cure of tuberculosis, the rat campaigns in Honolulu and Hilo, the hydrographic survey and the Hawaii experiment station; also the increases in items for the care of lepers covering hospitals as well as segregation. The reasons for these are set forth in the first message. I may add or repeat in regard to the hydrographic survey not only that this is needed for many reasons of vital importance to the growth and character of the population and industries of the Territory, but that this is a matter in which the Government at Washington desires to aid the Territory both by the expenditure of Federal money for this purpose and by the loan of the best experts for the direction and conduct of the work, provided the Territory will do its part. The Hawaii experiment station needs funds as much as recommended,—for investigations of vast consequence to the industries of Hawaii, especially in the matter of faddlers for live-stock, fungus and bacterial diseases affecting pineapples and other crops, the improvement and increase of the taro crop and other matters. Equally pressing are the needs of the board of agriculture and forestry for the preservation and extension of forests and for the protection of industries large and small against the introduction of new plant and animal pests and the depredations of those already here.

**INCREASE OF AVAILABLE FUNDS.** To provide adequate means for the most pressing needs will be one of your most difficult tasks. Many suggestions were made in the first message by which available funds might be increased,—by reducing expenditures for present work in various ways, by the enactment of new legislation which will render unnecessary

hereafter various expenditures hitherto made, and by increasing the revenue.

The suggested increase of the school tax and additional income tax would meet the additional needs of the public schools and the Hawaii Experiment Station and perhaps all the needs of the board of agriculture and forestry and the hydrographic survey as well as of the board of immigration, besides rendering possible new work in other lines, as, for instance, the improvement of marketing facilities for small producers, the establishment of a fish hatchery and other matters.

I wish to suggest for your careful consideration also the question whether there should not be a decidedly wider application of the principle that private persons should bear a material part of the cost of special services. There are many such services, much, if not the greater part, of the burden of which must necessarily be borne by the public at large, but the special benefits of which, entailing also in many instances special cost, are enjoyed by individuals. The idea is too prevalent that public services should be free and also that there should be flat rates. This is apt to result in extravagance, unfair distribution of burdens and demoralization. Many public works or services may well be made largely self-supporting, thereby lightening the burden upon the people at large and transferring it in part only to those who reap corresponding benefits, as, for instance, by assessing to adjoining property owners in larger degree the cost of street construction and improvement and the cost of water and sewer works. The Territory is obliged to maintain a great many landings throughout the Territory while it charges wharfage or other fees for very few of them; charges for the use of all of them could be collected inexpensively and the proceeds of each landing be applied to its maintenance. The requirement of meters at the expense of consumers of water from the public water works would involve only a trifling original cost but would probably result in greater economy in the use of water and consequently greater economy to both the consumer and the Government; there being less waste of water there would be less expense in pumping both in the water and in the sewer works. The taxation of jurors' fees is another example of a different nature among many that might be enumerated.

A saving to the Territory with perhaps not a corresponding increase of expense to the counties might be made by turning over more of the Territorial work to the counties. At present apparently the counties are better off financially than the Territory and this difference will tend constantly to grow larger. Some of the work of the Territory would more properly come within the functions of the counties and might well have been placed under the counties at the outset, as, for instance, the establishment and maintenance of local hospitals. In the estimates submitted herewith, there have been omitted, partly because of lack of funds and partly with this end in view, the usual items for assistance to private hospitals of a local character as well as to the Associated Charities. The Hilo and Wailuku hospitals have been included in the estimates because they are purely governmental hospitals in point of maintenance though not in character. The items for these also may well be omitted and the county act amended to confer upon the counties authority to establish and maintain hospitals. Such authority is already conferred upon the City and County of Honolulu. The appropriations for the Queen's Hospital, the Leahi Home and perhaps the Maternity Home might be continued on the theory that these are in the nature of territorial rather than local institutions. Possibly the same is true of the Associated Charities also and there are other worthy institutions such as that of the recently established Industrial Home of the Salvation Army which should receive support from the territorial or the county government, in so far as there is need of services of this nature it is probably more economical as well as more beneficial in results to aid private institutions than to establish and conduct public institutions. The estimates for the Hilo and Wailuku hospitals have been increased by practically the amounts of their receipts from pay patients with a view to having such receipts turned into the treasury instead of being expended as hitherto for the hospitals without a legislative appropriation. A bill is pending for a somewhat similar purpose with reference to the Lahaina and Wailuku schools. Again, the jails might well be passed over to the counties. These are naturally conducted in connection with the police system, which is already under the control of the counties. The control of the territorial prison, in the nature of a state penitentiary known as Oahu Prison, would naturally remain under the Territory. At the present time the counties receive the benefit of most of the prison labor, the value of which would go far to offset the cost of maintenance which is now borne by the Territory. Perhaps the district court houses also might well be turned over to the counties especially as their care usually is closely connected with that of the jails. Authority might be given also for turning over the various water works, other than the Honolulu water works, to the several counties, upon payment to the Territory of the appraised value of the works. In the present transition state the Honolulu water works should be retained by the territorial Government.

Savings to the counties might be effected by requiring street improvements and maintenance to be borne to a larger extent by owners of adjoining property and also by requiring street and road work, at least other than that of mere repairing, to be done by contract.

WALTER F. FREAR,  
Governor of Hawaii.

## YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. Will Young, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cures the cause of these distressing aches and pains and you will become well and strong again.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

Mr. and Mrs. HASHIMOTO MASSEURS, RHEUMATISM, BRUISES, SPRAINS, TIRE FEELING, and other ailments quickly RELIEVED.

in this fact. The MAYFLOWER that I am advertising is the Mayflower Quartz & Channel Mining Company of Nevada City, California. The price of the stock is 25 cents per share, and you cannot buy it for a cent less in Honolulu, or anywhere else on earth. If you think you can, just try it, and if you succeed in getting a single share I will confess that you are smart. Some people who have intelligence enough to read everything else right, except a stock quotation, have noticed a certain Mayflower stock quoted on the San Francisco Stock Exchange for 9 cents, more or less. And without looking to see that this "Mayflower" is located in Nevada State, over a thousand miles from our mine in Nevada County, California, they have joined the crowd of knockers and told people not to buy Mayflower of me at 25 cents, when it could be bought for 9 to 16 cents in San Francisco. If some of these smart knockers will just get busy and buy some of this stock and bring it to my office, I will sell it for them and double their money. That is, if they bring me the genuine thing and not the counterfeit. On the other hand, it behooves you people who think that I am presenting to you a square proposition, to get busy and take on a block of the genuine "Mayflower" at once. BUY MAYFLOWER STOCK. BUY IT NOW! "A rose by any other name would smell as sweet," but please remember that another Mine with the name "Mayflower" tacked on to it will not bring as much money as my Mine. When my Mayflower is listed on the Stock Exchange it will be for just one dollar, one silver plunk per share. Then you will feel like going out behind the barn and kicking yourself because you did not load up with some at 25 cents per share. It's just like finding money. You don't believe it, do you? Well, please drop into my office this week and show me where I am wrong, or let me prove to you that I am right. My latch-string is out. You are welcome. Come in and see me. Get busy. BUY MAYFLOWER STOCK. BUY IT NOW.

## SUPERVISORS TAKE MATTERS EASILY

### Meeting of Board Devoid Of Exciting Incident

Not even the Mayor's communication announcing that he had discovered an Ethiopian in the winter's fuel supply in connection with the road department, was sufficient to inject any great enthusiasm into the Supervisors at last night's meeting. The communication was referred to a committee and that ended it.

Aylett wanted a "legislative committee" appointed to represent the Supervisors just the same as the committees of the Chamber of Commerce and Merchants' Exchange (Merchants' Association). There seemed to be no objection to such a committee, so the Mayor duly named the same. He put his one faithful henchman on it, and then had to fall back on the Republican majority to fill up the list. Just Routine.

Supervisor Quinn, chairman of the Road Committee, presented payroll demands totaling \$1182. The Mayor declining to put the motion, adopting the report, or Quinn's subsequent motion that the Auditor be instructed to draw warrants in payment for the demands, Logan put the question, only McClellan voting "No."

Kane then presented three demands for the Fire and Electric Lights departments, totaling \$2237.50. The procedure followed on the previous report was repeated and the motions passed.

Police Salaries. Two salary demands for the Police Department, totaling \$3597.50, were presented and approved, the Auditor being instructed to draw warrants in payment.

Ahia, for the Committee on Public Expenditures, submitted seven salary demands totaling \$3632.50, which were approved.

Supervisor Cox, chairman of the Committee on Police, reported that, with reference to an ordinance to abate

the nuisance arising from street loafers, it had been ascertained that such a law was already on the books and that the Sheriff would see that it is enforced henceforth.

**Charges Crookedness.** A communication from the Mayor, announcing that he had received information, from a source which he considered reliable, that Haleakala, whose pay demand for work in Koolauoko Road District, signed by Solomon Peck, was approved, had not done any work for the city, but had been working for Peck personally.

The communication was referred to the Road Committee for investigation. Moving Pictures.

A communication from the chief of the Fire Department, inviting the Board to be present at an exhibition of motion pictures of the department by R. K. Bonine, was read and the invitation was accepted.

Supervisors Aylett, Ahia and McClellan were named a special Legislative Committee to represent the City and County during the session of the Legislature.

Logan moved that the lengthy reading of the tenders be dispensed with and that the bids be referred to the various committees with instructions to report back to the Board.

There seemed to be no doubt as to the legality of the proceeding, so the clerk was instructed to read through the tenders.

The Board adjourned until 7:30 o'clock next Tuesday evening.

**RATS Carry Disease**

germs into the home and are a positive menace to life, and also the greatest destroyers of property.
