VOL. XIII. No. 2424

HONOLULU, TERRITORY OF HAWAII, TUESDAY, APRIL 7, 1903

PRICE 5 CENTS

Sugar Market Manipulated Say the Experts To Keep Price of Raws Low

Senator H. P. Baldwin was asked today if he could give any reason for the steadily declining price of sugar. His answer was to the following effect:

"I do not know the quotation of beets today, but we have not lately been getting the price for our sugar that we should according to the price of beets."

"The only explanation I can give is that there are not many importers of sugar made in New York on the Cuban basis. The Trust buys a large part of its supplies in Cuba, in fact makes most of its purchases there, so that only a trifling portion is bought in New York. Hence we are not getting the price that we ought."

"You know that we have a contract with the American Refinery Company, whereby they pay us according to the Cuban basis for 96 degrees test. For our sugar of this standard we should be getting now, according to the parity with the beet sugar market, very nearly four cents a pound. Owing to some manipulation of the Cuban basis, which the Trust is able to manage through buying only small quantities of Cuban sugar in New York, the price is kept below what it should be according to the market for beets."

Mr. Baldwin referred the reporter to Alexander & Baldwin for figures showing the true parity between beets and the Cuban basis. When he was in New York two years ago he submitted a grievance of the Hawaiian planters under the contract to the American Refinery Company. While he did not care to have all the details of the difference published, he stated some general facts of the situation.

Under the contract the Hawaiian planters receive 1-32c for every degree over 96 that their sugar polarizes, while for every degree under that standard 1-16c is deducted. This is right so far as the contract goes. But it appears that much of the Cuban sugar bought in New York, and thus forming the basis of price for Hawaiian sugar, is below 96 degrees test. By some ledger-demon such low grade Cuban sugar is wrought up to the standard, and

though Hawaiian sugar may be one or more degrees higher in actual standard the price is made on a parity with the Cuban. If the price were fixed according to actual standards of the two sugars, Hawaiian would have the advantage which is not granted of a considerable fraction of a cent on the pound.

J. P. Cooke of Alexander & Baldwin, at Senator Baldwin's request, furnished the reporter with the following table showing what the price of 96 degrees cane centrifugal should be in parity with the given prices of beets in London. It shows that the Hawaiian planters are justly entitled today to 3.99 cents for their sugar under their contract with the Trust:

PLUMBING BILL HAS INNING IN THE SENATE HOUSE FURNISHES NEW WORK FOR COMMITTEES

The Long Memorial Bill Passed First Reading in Senate.

REPORT MADE ON THE HIGH SCHOOL FOR HILO

KALIHI SEWER RECEIVES ATTENTION—BROWN'S BILL FOR DIGEST OF SUPREME COURT.

SENATE.

Forty-second Day.

The House of Representatives communicated bills it had passed as follows:

Creating the city and county of Honolulu and providing a government thereof. Passed first reading.

To provide for the right of action for damages in the event of death caused by wrongful act, neglect or default. Passed first reading.

Hackmen's Bill Memorial.

A memorial was read from the Honolulu Trades and Labor Council, in support of the House bill restricting issuance of hackmen's licenses to citizens and persons understanding the English language. Referred to the Ways and Means Committee.

Hilo Mechanics' Memorial.

Senator Palmer Woods presented a set of resolutions passed by the Allied Trades of Hilo, and signed by 262 citizens of that town, praying that all employment on Government works in the Territory be restricted to citizens. On motion of Senator Cecil Brown, laid on the table to be considered with any bill relating to the subject.

Divorce Law Approved.

A communication from Secretary George R. Carter announced that the Governor had signed the Act relating to divorce, separation and annulment of marriage.

Hilo High School.

Senator Wilcox, from the Health and Education Committee, reported on the bill to provide a high school for the town of Hilo. They doubted if there were enough children on the island of Hawaii to constitute a high school on the scale proposed. There was an appropriation for such an institution in the estimates of \$25,000, which the committee regarded as excessive. They recommended \$6,000 for a 4-room school house and \$12,000 for salaries of teachers, a total of \$18,000. With these amendments they recommended the passage of the bill. Adopted, the bill to be read a third time on Thursday.

Senator Wilcox also presented a report of the same committee on items for school buildings on Maui, to be inserted in the Loan or Appropriation Bill. Laid on the table to be considered with the Loan Bill.

Kalihi Sewers.

Senator Wilcox, from the same committee, presented a report on Senator Achi's resolution to appropriate \$20,000 for sewers in Kalihi, connecting with Kamehameha Schools. They find that the building of said sewers would be a great benefit to the health of that locality. The Assistant Superintendent of Public Works estimated that the cost of construction would be \$21,443.20. It was understood by the committee that the Kamehameha Schools trustees would bear part of the expense. Therefore they recommended an appropriation of \$12,000 on condition.

GETTING NERVOUS ABOUT THE COUNTY BILL

Two days have passed by since the non-concurrence of the Senate in the amendments of the House to the Senate County Bill and yet no conference committee has been appointed. It is said on good authority that the Senate is waiting for the House to act. As a matter of fact, the Senate can put nothing up to the House, for the communication stating that the Senate had not concurred in the amendments did not come down until this morning, notwithstanding the fact that the action was taken in the Upper House on Saturday last. There was all day yesterday and yet the House received no communication.

There are but eighteen days remaining of the present session, and should the Governor see fit to veto the County Bill, it will be rushing it pretty close even now to get the measure back into the Houses and pass it over the veto. This matter of the veto is the Governor must, of course, be taken into consideration at all times, and echoes of the last session have not died away to such a degree of faintness at the present time that some, at least, of the members have forgotten what took place then.

Every legislator, whether he is in favor of the County Bill or not, has had one expression only when asked about the measure: "The County Bill must go through. We are willing to swallow the thing whole, mistakes and all, for the people all over the Islands are crying for it." Today, the expression has changed to this: "If the conference committee is not appointed pretty soon, we will have no County Bill."

Gathering of Ferns in The Forests Comes Up For Discussion.

JOHN CUMMINS' CLAIM FOR \$5000 PAID REPUBLIC

MANY BILLS GO TO COMMITTEES ON SECOND READING—GOVERNOR SIGNS DIVORCE LAW.

HOUSE.

Forty-second Day.

At the opening of the morning session today, a communication from Secretary Carter announced the signing by the Governor of Act 22, "An Act relating to divorce, separation and annulment of marriage."

Senate Does Not Concur.

Communications from the Senate announced:

1st. Non-concurrence in amendments made by the House to Senate Bill 1, the County Bill.

2nd. Non-concurrence in the amendment of the House to Senate Bill 66, "An Act relating to criminal practice and procedure."

Resolution by Mr. Nakaleka, adopted: \$5000 for a breakwater at Kalanipapa landing.

Resolution by Mr. Vida, referred to Committee on Public Expenditures: \$12,000 for the purpose of remunerating the Coney Estate for land taken by the government for the building of the Tantalus road, this island.

Resolution by Mr. Lewis, referred to the Judiciary Committee: \$5000 for salary of second judge, District Court.

Resolution by Mr. Lewis, referred to Judiciary Committee: \$2400 for salary of assistant clerk, messenger and interpreter Fourth Circuit for the biennial period.

Bills in Second Reading.

House bills in second reading:

To Public Health Committee—An Act creating the office of Transportation Commissioner, fixing his salary and defining his duties, and duties of common carriers, and providing penalties for violation thereof, and repealing all laws in conflict therewith.

To Judiciary Committee—An Act defining unlawful influencing of voters and providing penalties therefor.

To Police Committee—An Act relating to children remaining on streets after sunset, amending Act 29 of the Session Laws of 1896.

To Judiciary Committee—An Act to regulate the employment of labor on the public works, and on all works commonly known as "Hana Toia."

To same committee—An Act relating to district courts of the Territory of Hawaii.

To Public Expenditures Committee—An Act to provide for the publication of one volume of the reports of the decisions of the United States District Court for the Territory of Hawaii.

To Agriculture and Manufactures Committee—An Act to authorize and regulate the placing of electric wires and poles on the streets of Wailuku and elsewhere on Maui.

Oxnard Says Bounties Caused Over Production

NEW YORK, N. Y., April 7.—The American Beet Sugar Company held its annual meeting here today. The directorate was re-elected without change. Mr. Oxnard reporting on the beet sugar situation stated that the bounties had stimulated an immense overproduction in beet sugar throughout Europe.

Roosevelt in North Dakota

FARGO, N. D., April 7.—President Roosevelt's party reached this city at an early hour this morning, but the crowds were out by daylight to catch a glimpse of the train if not the President, who did not make his appearance till shortly before arrival at the station. The reception committee of the city met the President at the station and co-operated with the prominent North Dakota citizens who had accompanied the Presidential party from his first entrance into the State. Splendid receptions were given the President at Jamestown, Bismarck and Medora. Secretary Root joined the party today, and, with John Barroughs, will be with the President during his trip through Yellowstone Park under the guidance of Major Pitcher, the park superintendent.

Assuming Quieter Tone

SALONICA, April 7.—There has been a marked lull in the activity of the Albanians, due to severe reverses and the influence of Government agents. The spirit of rebellion is still rampant.

Montgomery Goes To Manila

ROME, Italy, April 7.—Father Montgomery of San Francisco has been named by the Pope as the Archbishop of Manila.

Alexander Suspends Laws

BELGRADE, Serbia, April 7.—King Alexander has suspended the constitution and temporarily dissolved Parliament. New officers have been appointed preliminary to annulling obnoxious laws.

SAN FRANCISCO, Cal., April 7.—The Union stock has been called in. Trust rumors are denied.

SAN FRANCISCO, Cal., April 6.—SUGAR: 96-degree Centrifugals, 3.51 cents. Previous quotation, 3.53.

TIME GIVEN B. H. WRIGHT

Attorney General Lorrin Andrews has signed a stipulation, which has been approved by Judge De Bolt, that Benjamin Haywood Wright is allowed until Monday, April 20, within which to prepare, present, serve and file his exceptions on appeal from conviction and sentence for embezzlement.

Judge Robinson has filed an interlocutory decree and decretal order in the partition suit of Harriet Baily, and D. T. Baily, her husband; Charles Lewis and Blanche Lewis, wife of Charles Lewis; Alexander Lewis and Alice Lewis, wife of Alexander Lewis, petitioners, vs. Elizabeth M. Cushingham, James D. Lewis and Annie Lewis, wife of James D. Lewis; Margaret B. Grieve and Louis Grieve, her husband; L. L. McCandless, James Auld, Harry Auld and Miriam Auld, wife of Harry Auld, and Cecil Brown Brown, trustee, respondents. The name of James Auld is struck out, owing to his interest terminating by death, and the several existing interests in the property are defined as follows: An undivided 9-64th interest, each, to Harriet Baily, Charles Lewis, Alexander Lewis, Elizabeth M. Cushingham, James D. Lewis,

MOONSHINERS CAUGH

Marshal E. R. Hendry received three warrants for the keepers of two illicit stills and one of an okolehola brewery. He sent Office Deputy Hardy to Hilo in the Kinu today to execute the warrants. These parties are already in the custody of Sheriff Andrews of Hawaii and Deputy Marshal Hardy will bring them to Honolulu on Saturday, when they will appear before Commissioner E. S. Gill. The reason for this action is that Commissioner Carl S. Smith of Hilo is temporarily absent on the Mainland.

Margaret B. Grieve and L. L. McCandless and 1-64th to Harry Auld. W. Austin Whiting is ordered to receive a commission to investigate and report on the possibility of allotting lands to those entitled to them in severalty. His former reports as commissioner are to be considered in connection with any report he may hereafter make. One piece of the estate is the lot at King and Bethel streets, rear of the postoffice.

Judge De Bolt is hearing Fowler of Leeds vs. Catton and Macfarlane on motion to set day.

BASEBALL ON MAUI

Wailuku, April 4.—Baseball is again being revived on Maui, several practice games having already been played at Wells' Park. The outlook for the coming league on Maui is very bright, and there will probably be four teams in the league—the Morning Stars, the Wailuku Ponios, the Kahului and a team from Lahaina. The arrangement of the league series of games is in the hands of a committee of the Maui Athletic Association, who will prepare the schedule of games to be played.

The Morning Stars will consist of practically the same team they had last year, with probably one or two exceptions, and it is stated that Ned Kruger will pitch the greater part of the season for the Stars, Jackson to pitch occasionally. The Wailuku Ponios consist of members from last year's Wailuku team as well as the Maui Alerts.

The Kahului team is practically very new in the field, but they have some very good players amongst them. The Lahaina team will be selected from the best players of the several local nines

in Lahaina. Two practice games have already been played between the Wailuku Ponios and the Morning Stars, both of which were won by the latter. The first score was 12 to 8, and the game last Sunday of five innings, resulted in a victory for the Morning Stars in a score of 4 to 0. Kruger pitched for the Stars, and it was there that he manifested his ability as a twirler. Another practice game will be played at Wells' Park tomorrow, and no doubt a very large crowd will turn out to witness these two teams, between whom the cup for the coming season will most likely rest. Charley Thompson will probably pitch for the Wailuku Ponios during the coming season.

The steamer Maui arrived from Hapona at about 10 o'clock this forenoon with 6500 bags of Papaaloo and 3780 bags of Kukaiuu sugar. The Maui was lying at Kukaiuu yesterday loading sugar but at 2 o'clock in the afternoon it became so rough that she had to leave.

Best assortment of Easter eggs in the city. New England Bakery.

DOC BOGLE'S DEPARTURE.

Dr. W. R. Bogle, the well known surgeon chiropodist, has taken passage in the Miowera, sailing tomorrow, for Vancouver. He goes to Walla Walla to visit his parents, whom he has not seen for five years.

"Doc," as he is familiarly called by his numerous friends in Honolulu, is something of a philosopher as well as an expert in his business. He says nearly all the ills we suffer from are children of the imagination. "If the physician can get the confidence of his patient, can practically control his mind to such an extent as to eliminate the element of fear, he can cure smallpox with bread pills. Worry, which is only another name for fear, kills more people than consumption, and worry is absolutely illogical,—worse than foolish. I long ago made this old saw my motto: 'For every evil under the sun, there is a remedy or there's none; if there is one, let us find it, if there is none, never mind it.'"

Dr. Bogle will be gone about two months, returning by way of San Francisco.

Referee Wm. T. Rawlins is hearing the bankruptcy matter of M. G. Silva in the Federal court room today. It has come out in the hearing that the alleged bankrupt is possessed of an estate worth about \$56,000, while his debts are scheduled at but \$22,000 or \$23,000.

The American Hawaiian steamship Nebraskan arrived off port at about 1:30 this afternoon. She brings two days later mail from San Francisco.

William C. Sproull, British, was made a citizen by Judge Estee this morning.

Our Easter Hats and Bonnets

These have completely captured the ladies. The styles are the latest. Some don't look particularly beautiful until you try them on—the shapes are so odd. They're the new Pattern Hats and Shirtwaist Hats.

CHILDREN'S TRIMMED HATS.
Assortment is so good that selection is easy. The styles are new and the hats inexpensive. We believe this is the kind you are looking for.

CHILDREN'S MUSLIN HATS.
Trimmed with Embroidery and Lace in all white and delicate colors. Prices from 75c upward.

CHILDREN'S NEW WASH HATS.
In colors, white, tan and red. Only 90c each.

Important Reasons

WHY HERRING-HALL-MARVIN SAFE CO.'S SAFES AND LOCKS ARE THE BEST

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent BOLT-WORK is superior to any in use, and does not require constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for County Treasurers, County Recorders, County Clerks, Jewelers, Hotels, Residences, Churches and Corporations. We have a Large Assortment of Safes on hand and will be pleased to show same.

BANKING AND PURE FOOD BILLS SECURE FAVORABLE SENATE VOTE

SENATE.

Forty-first Day.

Afternoon Session.

The Banking Bill. Senator Cecil Brown's banking bill was taken up for second reading, with the adverse report of the Committee on Public Expenditures. The merits underwent considerable discussion on the presentation of the report as reported in the Bulletin at the time. The committee's objection to the bill was chiefly that it opened the door to speculation.

Senator Achi now argued that a banking corporation should have the power to hold real estate. The reason Bishop & Co. did not incorporate was because, as a private partnership, they were enabled to acquire and hold real estate when it fell to them under foreclosure of mortgage.

Senator Cecil Brown maintained that banking companies everywhere else dealt in real estate. He knew what he was talking about, for he was in the business. If he did not know his own business he ought to be put out of it. He wanted this bill to pass second reading now and if, when it came to third reading, the Senators thought it no good let them pitch it out of the window. He knew exactly where the opposition to this bill came from. In the course of talk back and forth, the Senator said the existing law was framed by the late Judge Preston in 1884, at the time the speaker introduced the Spreckels banking bill, about which there was such a noise raised. "No, it did not pass," he echoed the remark of a member. The present law was partly modeled on that of the Australian Colonies and partly on the National Bank Act of the United States.

Senator McCandless argued that every possible guard should be provided against speculation by banks outside of their banking business.

Senator Achi contended that it was absurd to allow the banks to speculate in stocks, as they notoriously did, and prohibit their investing in real estate. He thought it would be a good thing to pass the provision in question, as it would make a boom in land all over the Territory and hasten the settlement of the country by small farmers.

President Crabbe, the case being disputed, declared that the amendment to permit banks to hold real as well as personal property had been put and carried.

Senator Dickey moved an amendment to strike out the real estate and trust features of the bill, saying this was intended to destroy the main principles of the bill. In the course of his argument he said he was opposed to giving large privileges to wealthy corporations. He did not like the idea of planting companies keeping stores, but the law allowed it.

Senator Cecil Brown urged that business should be allowed to advance here as it was elsewhere. The country should not be held back to old-fashioned methods that had been discarded in other progressive countries. The amendment was lost, 4 to 8.

Senator Cecil Brown, to meet the objections raised in discussion, moved an amendment that nothing in the bill should be construed to authorize a bank to engage in commercial, agricultural, common carrier or manufacturing business. Carried.

The bill passed second reading, to be read a third time on Wednesday.

Food and Drugs.

Senator Palmer Woods' bill to provide against the adulteration of food and drugs came up on third reading.

Senator Achi had the penalty section altered from No. 5 to No. 11.

Senator Dickey thought the minimum penalty of \$25 too large, the maximum being \$100. A druggist or merchant might inadvertently keep an article below standard for sale, having neglected to obtain an analysis.

Senator Achi doubted the advisability of making it too mild. Many children in Honolulu died from adulterated milk.

Senator Paris moved to make the minimum \$10 and the maximum \$200, which carried and made the section read:

"Whoever violates any of the provisions of this Act shall be guilty of a misdemeanor, and upon conviction shall be fined not exceeding one hundred nor less than ten dollars, or imprisoned at hard labor not exceeding one hundred nor less than thirty, or both."

The bill as amended passed on the call of the roll by the unanimous vote of the full Senate, every one of the fifteen members being present. Senator Woods was congratulated on the complete triumph of his measure.

Bills Committed.
The following bills came up on second reading and were referred by title to the committees named:

Relating to the settling, allowing and signing of decrees and exceptions in certain cases. Judiciary.

Relating to the military. Miscellaneous Petitions.

Relating to explosives. Miscellaneous Petitions.

For the safeguarding of electrical installation. Public Lands, etc.

Relating to construction, maintenance, etc., of a street railway in Honolulu. Ways and Means.

Amending the law relating to liquid explosives. Miscellaneous Petitions.

Repealing the P. G. law relating to inspection of explosives. Miscellaneous Petitions.

Third Readings.
The bill relating to partnerships passed third reading without amendment, unanimously.

The bill providing for the publication of Judge Estee's decisions in one volume passed third reading without a negative vote.

The bill to provide for a commission to investigate the claims of certain British subjects and others, for damages arising out of martial law in 1895 and 1896, passed third reading with the negative votes of Senators Kalanikaulani and Kaohi.

Tax Law Amendment.
The bill relating to internal taxes caused a debate, Senator Baldwin wishing to have it amended. It provides that any person indebted to another who has not paid his personal taxes becomes liable for such another's personal taxes "and must pay the same for such other person after service upon him by the assessor of a notice in writing stating the name of such person and the amount due, and every such person paying the personal tax of another may deduct the amount thereof from any indebtedness to such other person."

The minority report of Senator Paris, to keep the assessment of leaseholds at eight years' rental as at present, had been adopted on second reading against the majority's recommendation of ten years.

Senator Baldwin interrupted the Hawaiian interpretation to move that the bill be referred to the Revision Committee, for eliminating provisions in the present law from the bill and reporting it back to the Senate. Carried.

President Crabbe remarked he did not care what they did with it so long as they preserved the first section. That meant the collection of an additional \$100,000 on Oahu and comparatively as large amounts on the islands of Hawaii and Maui.

Senator Baldwin's amendment still pending was that personal property might be seized for the poll taxes and sold at three hours' notice.

Cleaning the Board.
On a motion to adjourn, Senator Cecil Brown said they might as well complete the unfinished business on the table.

The bill amending the animals quarantine law passed third reading.

The kerosene oil bill passed third reading.

The bill amending the law relating to the Honolulu fire department passed third reading unanimously, after Senator Achi had changed his vote twice to keep on the same side with Senator J. T. Brown, who voted no first and changed.

The bill relating to the Hilo fire department, passed third reading unanimously.

The bill relating to the protection of birds passed third reading, 15 to 0.

Pauoa Valley Springs.
The House bill providing for the purchase of Booth's springs in Pauoa valley passed first reading.

Hold Down Debt.

Senator McCandless presented a joint resolution that the total debt of the Territory of Hawaii, to be incurred by the issue of bonds during the ensuing biennial period, be limited to one million dollars. He argued that if a Loan Bill of \$2,000,000 were passed and bonds issued to meet its appropriations, there would be great waste and extravagance from undue haste in constructing the public works thus provided for. He repeated his argument in Hawaiian.

Senator Baldwin agreed heartily with the principle of the mover's remarks. One million dollars ought to be ample for the biennial period, but they were really providing for four years instead of two years on this occasion.

Senator Achi moved that the resolution be laid on the table.

Senator McCandless related a threat of three or four business men to the effect that if the Loan Bill, as submitted by the Governor, carried, they would carry a fight to Washington to induce the President to refuse assent to the bill.

Senator Brown—"He has nothing to do with it."

Senator Baldwin suggested, laughingly, an amendment that the appropriations for the Fifth Representative District be cut down to \$50,000.

Senator McCandless insisted on the eyes and noses being called, which was done with the result that fourteen Senators voted to lay the resolution on the table and one Senator against.

Adjourned at 4:20.

HILO LABOR ORGANIZING.

Hilo, April 4.—Tuesday evening at the meeting of the members of the proposed Allied Trades of Hilo, there were about one hundred and twenty-five present and considerable progress was made towards organization. A committee of twelve was appointed to draw up by-laws for the organization.

In the line of legislation two more bills were drawn up after the form of California statutes for the purpose of protecting Americans in fishing and other avenues of employment.

A committee consisting of A. H. Hancock and H. Kendall, were appointed to circulate petitions for signatures of merchants and others in behalf of the license legislation against the Asiatics.

PASSENGERS ARRIVED.

From the Orient, per S. S. Hongkong Maru, April 6.—Mrs. T. Saito, Master Saito and two servants; layover: S. D. Eldredge, Major J. Straker.

TUESDAY APRIL 7, 1903.

Macedonians intend to fight despite the proclamations of the Powers, and the Powers stand ready to assist in the crimes committed in the name of civilization.

Honolulu's joy at the arrival of the million dollars of fire claims coin should not take a form that will cause Agent McLenon to call all hands on deck to repell boarders.

Members of the House are to be congratulated on the prompt and business-like action in passing the Long Municipal bill, which it is hoped may be as effectively handled in the Senate.

Public spirit is the keynote of Mr. Horner's interesting statement of how the public schools of his former town were developed. County government should be framed to promote the same valuable asset in Hawaii.

Arthur Pennel, first charged with murder, then with being a defaulter and all after he is cold in the grave, recalls the many coroner's verdicts that place responsibility for railroad horrors on the engineer killed in the wreck.

Armstrong, shouting from the housetops—"Missionaries to arms, to arms! One Elkin, a paraphrased 'damn,' hired to pray, has dared to say what he thinks."

A few voices from the pit—"Crucify him, Crucify him!"

If Tom Johnson could depend solely on Ohio cities he might stand a show for the Governorship prize he longs to land. The country districts, however, have not reached the point where they can see the force of the "gol derned circus performances."

The latest phase of the Armstrong-Elkin contest is an admission by Elkin that Armstrong has hit him in the head with a brick but has thus far failed to answer the argument. Thus Elkin remains somewhat spattered but very much in the ring.

Former Legislatures, like the present have criticized in forceful terms the old custom of providing for public work through private funds. It is all such an old story that legislators ought to know by this time that it will go on forever unless there is a law to stop it.

Returning Hilo citizens are predicting that the County Bill will not pass. Hilo should not allow its pessimistic views toward contending railway promoters to establish the conclusion that the Republican Legislature will refuse to keep its promises.

With all due respect to the Oahu railway the demise of the Winston franchise is a public misfortune. The injury done the Oahu Railway would have been infinitesimal while the opening up to the Koolau district with railway communication would benefit the town as well as the country.

Golden Rule Jones who has again succeeded in being elected Mayor of Toledo, conducted his last campaign without a party or an organization. Jones has been an expert in political breaks from the start and stated publicly in his latest campaign that he did not want any organization to promote his interests. And he has proved that he didn't need it.

What better argument could the San Domingo revolutionists ask to set forth the necessity of a new government than the incident of a government warship aiming at a land battery and hitting a foreign consulate. It is doubtful if the real basis of the revolution is found in any better contention than disapproval of the inaccuracies of government gunners.

The Senate Committee on Agriculture would have heard no complaint from the taxpayers had the \$10,000 item for the Federal Experiment station appeared minus the clause "to be expended under the direction of the Board." When the Federal government can leave the expenditure of \$15,000 to the good judgment of the Department's local representative, Hawaii need have no fear that its \$10,000 need not be used to the best advantage.

A Melbourne dispatch says the "white Australia" policy has already cost £60,000 in sugar rebates alone, this amount being due planters who have worked their holdings with white labor

COUNTY GOVERNMENT

By JNO. M. HORNER.

There seems to be a hesitancy in the minds of some of changing our school system and modeling it after the public school system of California or some other republican public school system where the people have full control of their schools. I will endeavor to show some of the differences between the working of the school system of these islands under present methods, with which all are acquainted, and the working of the public school system of California under republican methods.

Under the first the people have nothing to say about schools, and under the latter it may be seen they have all to say. To show this plainly I narrate the school history developed on a piece of California territory from its first settlement by the white man in 1847 to the present time, having had a personal knowledge of it for thirty-four years.

The reader will excuse the personal reference to myself while narrating the following piece of history:

Mine was the first white family settled in the territory now known as Alameda county, in the State of California, in that part of it now known as Washington township. Alameda county now stands next to San Francisco county in wealth and population. At the time of my settlement it was entirely covered by large Spanish stock ranches except about 30,000 acres of what was known as San Jose Mission lands belonging to the Government of Mexico and in possession and control of the military authority of the United States. This was the only land open for settlement in that part of California at that time.

When I entered this land in the spring of 1847 I had no children of school age. By the time my children reached school age other settlers with children had gathered around. So we hired a teacher and opened school in a room of a neighbor's house. This school was continued for a time, then moved to a more central location and continued in a room of another neighbor's house. As settlers multiplied, it was found necessary to again move the school to another neighbor's house. After this a school house was built by two of the most philanthropic men of the township in a central point for all the children of the township, hired and paid a teacher, and made the school free for all the children of the settlement. This house answered as a church for all denominations and public gatherings as well as for schools for a few years. After the Territory of California was purchased from Mexico, it was admitted as a State into the Union and its territory divided into counties, townships, school and road districts, and a general law enacted for the purpose of organizing town and city governments. After this, school districts were set off and school houses built as fast as required.

Now Washington township, containing an area of 150 square miles, more or less—most of it mountainous, where no schools are required—is divided into fourteen school districts with a substantial school house in each. Some of them are large, two stories, divided into several rooms, with graded classes and different teachers in each. There is also one central high school building, where students are further advanced and prepared to enter the State University.

Besides the high and public school buildings above referred to, the township is blessed with Washington College, an imposing structure for a county government. After this, school districts were set off and school houses built as fast as required.

Now Washington township, containing an area of 150 square miles, more or less—most of it mountainous, where no schools are required—is divided into fourteen school districts with a substantial school house in each. Some of them are large, two stories, divided into several rooms, with graded classes and different teachers in each. There is also one central high school building, where students are further advanced and prepared to enter the State University.

Besides the high and public school buildings above referred to, the township is blessed with Washington College, an imposing structure for a county government.

During the past year, it has now to be decided whether the Federation will pay the bill or New South Wales and Queensland. The cash return of this Australian policy is largely on the wrong side of the book at present, but there is no doubting its value in the promotion of citizenship.

TEMPERANCE IN ALL THINGS.

[Anglican Church Chronicle.]

We personally and heartily dislike anything which looks like a sumptuary law, and still more so as a pastor, to appear to interfere with the household affairs of parishioners. But we consider it to be due interference, for the sake of the proper social life, which ought to reign amongst professed Christians and churchmen, when we declaim against what is commonly said to exist today among both men and women in Honolulu. In this climate it is had enough to waste the beautiful afternoons in unhealthy indoor amusements; but when expensive and elaborate meals are served, at which strong alcoholic beverages are dispensed, and that just after luncheon or before dinner, it is time to suggest a halt. Especially should this be so in those so-called hard times; when tradesmen are clamoring and anxious for their just dues and when there are so many pressing calls for every dollar that can be gathered in. It is a pity that the hospitable cup of tea in the afternoon should have been magnified into a feast of such immense proportion. We advise our brethren to sedulously abstain, not only in the Lenten season, but at all times, from these entertainments, even at the risk of losing the friendship of the givers of such.

THE APRIL SMART SET.

Justus Miles Forman's story, "Keralee," with which the April Smart Set opens, is a novelette both strong and distinctive. In it a quaint old Breton legend is made the theme, around which is woven a beautiful love tale, full of exquisite romance. "Keralee" is written with all Mr. Forman's charm, and is a notable contribution to the remarkable series of novelettes that have appeared in The Smart Set.

try district, creditable to its builders and also to the township. It was built by the people of the immediate neighborhood, and all the public school buildings were erected by the people residing in the school districts, each district building its own school houses. So far as my knowledge and information extends, not one penny was ever contributed towards the erection of any of these buildings by either the county, the State, the general Government or any outside party.

The people of each school district elect three trustees from among their own people—always those who take a lively interest in school matters.

These trustees work without pay, have charge of all school property in their district, superintend the building of all new school houses, all improvements about the house inside and out, hire and pay the teachers, etc. If some improvement is wanted, the trustees consult with some of the most influential citizens of the district respecting the contemplated improvement. If they are friendly, a public meeting is called, the contemplated improvement is laid before the meeting and discussed, every one having an opportunity to express his ideas. When all is done, a vote is taken. If "yes" is the vote then comes the question as to how each would prefer to pay his share of the improvement. One proposes to do the grading, another hauling the lumber, another the rock, others to assist in the mechanical labor, others prefer to pay their share in cash, etc. So in a short time the improvement is completed, and with the use of very little money.

How different, oh how different, here under present methods!

Now, if an improvement is wanted in the country for schools, it is plainly stated to the school board agent, he in turn refers it to the Territorial School Board. It, having no money for improvements not contemplated at the time its last estimates were made, the Board applies to the Cabinet. The Cabinet can only promise to place the demand in the next Appropriation Bill. So the Board makes its estimated requirements for school purposes the coming two years and hands it to the Cabinet. The Cabinet naturally scales it down before presenting it to the Legislature. The Legislature being of an economical strain, may again scale it down. So when the appropriation for schools is finally made it is so scrippeted that but a few of the demands made for school improvements can be complied with and another two years must roll away before even another attempt can be made for school improvements.

These are not fancy pictures, but solid facts that are inherent in our present school system, and happened in Hamakua Hawaii, only a few years ago, thus requiring in some cases as many years to get a school improvement made under present methods, as it would weeks under a first-class county government, and if East Hawaii is given an honest county government organization it will have over sixty capable men—three for each school—to care for the schools and school property in all parts of the county, all residing in the school district for which they were chosen. Now what do we have to care for schools and school property all over the country districts. Much more might be said. Our school system is to blame—not the officials.

NUT FOR LITTLE TO CRACK

Hilo, April 4.—Which way will the scale turn for Kajama Jitsuichi? He is an 8-year-old Japanese boy, bright and wide awake, and though the son of hard-working people has an ambitious twinkle in his oblique eyes that may some day scintillate in the Mikado's cabinet or the Executive Council. Kajama, at the time of his birth, was laid in the arms of his aunt, who ten days before had lost her own first born. The miniature kimono, etc., fitted the lad to a dot and when his mother and father offered him to "Auntie" to keep the tradition was closed.

That was eight years ago. Since that time both families have prospered and moved to Hilo. The father, through his attorneys, Smith & Parsons, has asked that a writ of habeas corpus issue, giving the custody of the boy back to himself and the boy's mother. Attorneys Wise & Ross, in behalf of the foster parents, are contesting the prayer of the real parents. Judge Little will be called upon to perform the Solomon act of awarding the child where it belongs.

There is no dispute as to identity. The mother and aunt seem to love the boy with equal fervor. Each has gone into hysterics upon the witness stand and either will feel the decision that deprives her of the custody of the boy, a blow that will end life's happiness. The boy has been well cared for. He has been educated and understands his situation. For himself he says he would prefer to remain with his foster parents.—Tribune.

HOUSE REELS OF RESOLUTIONS AND BILLS DIMOND GAS FRANCHISE GRANTED

HOUSE.

Forty-first Day.

Afternoon Session.

At the opening of the afternoon session of the House, the following report of the Public Expenditures Committee, signed by Messrs. Vida (chairman), Kupihea, Damien and Hala, was adopted: "Relating to Resolution 110 asking for \$56,900 for roads in the District of Kula and Makawao, your committee finds that these improvements are needed in these districts, but believes that the sum asked for is too large to be given for these improvements, not that the sum is impetunate, however, but because your committee wish the House to go through them and therefore recommends that the resolution be tabled to be taken up with the Appropriation Bill.

A Few by Vida.
Report of same committee on Resolution 109, asking for \$2,250 for roads in Waialua, adopted. The committee makes the same report as in the foregoing report.

Report by same committee on Resolution 108, asking for \$400 for a jail at Pahoa, Puna, adopted. "At present there is no jail at Pahoa and prisoners of this section of the District of Puna are forced to be taken for miles in order to have them locked up, but at the same time your committee feels that the District is too sparsely settled to require the expenditure of so much money and therefore recommends that it be tabled to be considered with the Appropriation Bill."

Report of same committee on Resolution 112, asking for \$5000 for repair of old government road from the part of Waipio valley to the Waianua valley, \$2000 for repair of government road from the beach of the Kohala side of Waipio valley to Papala falls, and \$10,000 for a new road from Papala falls crossing the stream to a road on the Waianua side of the Waipio valley and from there to Puaahuku, adopted. Same recommendation as in foregoing reports.

Report of same committee on Resolution 48, praying for \$10,000 for repairs on the volcano road, from the 21-mile post to the Volcano House, adopted: "Your committee strongly recommends that the same be granted."

Report of same committee on Resolution 95, asking for \$7000 for repair of roads in Iwalei, Oahu, adopted. The committee recommends consideration of the resolution with the Appropriation Bill.

Report of same committee on Resolution 59, asking for \$7000 for top dressing Kona-Kau main road, \$3000 for repairing road from Hilea to Waikoolona, \$10,000 for top dressing the volcano road from Pahala to the Volcano, \$3000 for a portable rock crusher of 2 1/2 tons, and \$1,000 for repairing old road from Waiohina to Kahuku, adopted: "These roads are growing worse every day the repairs are delayed and will mean the expenditure of greater sums than now asked to put them in condition again, and also that the Volcano road is a source of revenue to this Territory through tourist travel, still your committee would rather defer action on this resolution and be taken up with the Appropriation Bill and therefore recommends that such action be taken."

Report of same committee on Resolution 117, asking for \$20,000 for repairing, grading and macadamizing road from Mahukona to Pololu in Kohala, adopted: "Your committee finds that these improvements are very much needed, still your committee feels that it cannot take the responsibility of the expenditure of so much money and therefore recommends that this resolution be tabled to be considered with the Appropriation Bill."

Resolution by Mr. Nakaleka, adopted: "Whereas, lease 528 and 529 of two water rights at Koolau, Maui, aggregating \$5500 per annum as revenue to the Territory, and

Whereas, said leases were granted to H. P. Baldwin by Governor Dole's Executive Council at Honolulu, be it

Resolved that a special committee of three be appointed by the Chair to investigate and report to this House a copy of said leases.

Bill introduced by Mr. Jaeger and passed first reading: "An Act to authorize H. M. von Holt, his associates, successors and assigns to construct, maintain and operate a railroad in certain districts on the Island of Kauai, in the Territory of Hawaii.

To Assist Wireless.
Notice by Mr. Jaeger, rules suspended, bill read first time by title, passed and referred to the Printing Committee: "An Act to provide for the prompt and efficient transmission of messages by means of wireless telegraph between the Islands of Kauai, Oahu, Maui and Hawaii, and to encour-

age and assist the Inter-Island Telegraph Co., Ltd., in constructing and maintaining such a system of wireless telegraphy."

Park for Hilo.
Notice by Mr. Lewis, rules suspended, bill read first time by title, passed and referred to the Printing Committee: "An Act to create a public park at Hilo, Hawaii."

Notice by Mr. Vida, rules suspended, bill read first time by title, passed and referred to the Printing Committee: "An Act authorizing foreclosure and sale to enforce the lien of shipping companies and other common carriers."

Hilo Recreation Ground.
Bill introduced by Mr. Lewis, passed first reading by title and referred to the Printing Committee: "An Act to convert land at Ponahewa, Hilo, Island of Hawaii into free public recreation ground, and to maintain the same as such under the supervision of the Superintendent of Public Works."

Amend Divorce Law.
Notice by Mr. Palaau: "An Act amending the law relating to divorce, separation and marriage, setting forth divorce as a cause for granting a decree of divorce, separation and marriage."

Flag Staff and Statue.
Resolution by Mr. Nakaleka, laid on the table to be considered with the Appropriation Bill: \$3000 for a derrick at Waikolu, Molokai.

Resolution by Mr. Kaniho, laid on the table to be considered with the Appropriation Bill: \$500 for erecting a flag staff in the court yard at Kapaau, North Kohala, for purchasing a territorial flag. Included in the sum is the cost of bringing the statue of Kamehameha from Ahae to the court house grounds.

Notice by Mr. Kaniho: "An Act declaring null and void the marriage of parties, one of whom is segregated on account of leprosy."

Families of Deceased.
Notice by Mr. Andrade, rules suspended, bill read first time by title, passed and referred to the Printing Committee: "An Act to provide for the support of the families of deceased persons out of the estate of such deceased persons, and to set apart property exempt from execution for the use of the families of such deceased persons, and to apportion the property so set apart."

Complaint on Road Work.
Resolution by Mr. Wright, adopted: Whereas, There being many complaints preferred by residents and citizens of North Kona, Island of Hawaii, relative to the work done and performed on certain roads in the District of North Kona, namely, the Puhawaa and Puananahu roads, and

Whereas, the said road was first constructed under the supervision of the Department of Public Works with E. P. Low as supervisor, and

Whereas, the said E. P. Low, Supervisor of said roads, employed mostly Asiatic laborers instead of American citizens, such work was completed with exception of four miles, and

Whereas, the said remaining four miles was advertised for bids, which tender was awarded to W. W. Bruner, an expert civil engineer, and

Whereas, the said W. W. Bruner still continues the employment of Asiatic laborers in preference to American citizens on said roads which was awarded to him, and

Whereas, the action and the movements of said subordinate officers in employing such Asiatic laborers is and against the American principles and against the interests of this Territory, therefore be it

Resolved, that the Superintendent of Public Works be requested to furnish this Honorable House full information as to the number of laborers who had been employed on said roads and to further inform this House as to the number of Asiatic laborers employed on said works and the amount that the Territory has paid for each class of laborers.

Bills in Second Reading.
Second reading of House Bill 155, an Act relating to extraordinary legal remedies, amending and repealing certain provisions upon that subject. Referred to Judiciary Committee.

Second reading of House Bill 153, an Act relating to evidence, amending and repealing certain laws on that subject. To same committee.

Second reading of House Bill 152, an Act relating to execution, amending and repealing certain laws on that subject. To same committee.

Second Reading of House Bill 150, an Act reorganizing the Board of Health and defining its duties and powers. To same committee.

Second reading of House Bill 65, an Act relating to attending schools. To same committee.

Second reading of House Bill 117, an Act relating to attorneys-at-law, amending certain statutes on that subject. To same committee.

Second reading of Substitute Bill 5, an Act providing for the drawing, sum-

moning and empanelling of grand and trial jurors. Passed.

Second reading of House Bill 31, an Act to provide for and to regulate the sending of American youths to the United States to be educated. Referred to Committee on Education.

Gas Bill Passes.
Third reading of Senate Bill 23, an Act to authorize W. W. Dimond, his associates, successors and assigns, to manufacture and supply fuel and illuminating gas and its by-products, in Honolulu. Passed third reading by a vote of 27 to 1, Long voting no and Speaker Beckley and Mr. Oll being absent.

Third reading of House Bill 83, an Act to provide for a right of action for damages for death caused by wrongful act, neglect or default. Unanimous passage by 27 votes.

The following Act, read the third time, was on motion, referred to the committee of the whole: "An Act to amend Section 1, 2, 4, 8, 12 and 16 of Chapter 50 of the Session Laws of 1899, being an Act entitled 'An Act to facilitate the collection of debts from government beneficiaries.'"

House Bill 137, "An Act relating to attachments and garnishments," was read third time. The reading in Hawaiian was dispensed with and when it came to a vote, the bill was killed by a vote of 15 to 11.

At 4:45 o'clock the House adjourned until the usual hour this morning.

That meteors contain gold has been demonstrated before the Royal Society of New South Wales. This suggests that the thousands of tons of meteoric dust which fall upon the earth each year deposit gold everywhere.

Wary Willie—"Gee whiz! Dusty, how did you come to land a pile of grub like dat?" Dusty Rhodes—"I merely remarked to de loidy dat I could tell by de smell of her kitchen dat she didn't go to no cookin' school like de old girl next door."

A Reserve That Is a Reserve

The RESERVE FUND of the PHOENIX SAVINGS, BUILDING and LOAN ASSOCIATION is an additional cash capital paid in by the management. It is placed upon first mortgage under the California law, the same as your money. It is subject to the State authorities in case of loss, etc. These mortgages, for a lditional safety, are placed with the Mercantile Trust Company, the strongest trust company on the coast, and are non-negotiable. They hold them for the benefit of all, also to comply with the charter and by-laws of this Company, and the laws of the State of California. It is not a Reserve Fund made from the other stockholders. It is paid in in cash by the management; it cannot be withdrawn until all contracts are completed and have been paid to the other stockholders of this Company. This Reserve Fund eliminates every possibility of a loss to you.

Our directors are satisfied that this system of loaning is safe, or they would not put up this Reserve Fund, or any part of it, to guarantee against loss. We annex a complete list of the Directors and Managers and Reserve Fund stockholders of the Phoenix Saving, Building and Loan Association.

A limited amount only of Class A 60c stock—100 payments to pay to produce \$100—for sale. \$12 per month are the payments on a \$2000 certificate. Guaranteed withdrawal values on the above.

E. O. HALL & SON, L'd.

SENATE.

(Continued from Page 1.)

tion that Kamehameha Schools bear the balance of the expenditure, laid on the table to be considered with the Appropriation Bill.

Diamond Franchise Passed.

A communication from the House announced its passage on third reading of the Senate bill granting a franchise to W. W. Diamond and associates to manufacture and distribute gas for fuel for lighting purposes. The bill now goes to the Governor.

Refund of Taxes.

Senator Paris, from the Ways and Means Committee, presented a majority report on the resolution to reimburse the Hawaiian Fertilizer Co. in the sum of \$1,928.36 with interest, for moneys unlawfully collected. They found that the sum was collected under the mercantile license act, and all of it excepting \$152 was collected without authority of law. Therefore they recommended that \$1,776.36 without interest be appropriated for the purpose in question. The report was laid on the table to be considered with the Appropriation Bill.

Hawaiian Digest.

Senator Cecil Brown introduced his bill, which passed first reading, to provide for the publication of a digest of the reports of the Hawaiian Supreme Court.

The Sanitary Bill.

The bill defining the sanitary district of Honolulu and establishing rules and regulations for the plumbing and drainage of buildings and the construction of house sewers in said district.

Senator Isenberg moved an amendment to have the opening of sewers subject to a permit from the Superintendent of Public Works or his authorized representative, instead of the Inspector of Plumbing.

Senator Achi objected on grounds connected with the County Bill.

Senator McCandless argued against the change, holding it was better to have the work under supervision of the officer having immediate charge of sewer connections.

Senator Isenberg stated that the sewerage system was under the care of the Superintendent of Public Works. The authorities had discovered this mistake in the bill and he was requested to have the amendments made accordingly throughout the bill.

An alternative motion to recommend the bill was made, after which the amendment carried. Similar changes in the text were made wherever needed as the reading progressed.

Senator McCandless moved to strike out an amendment that Senator Achi had obtained on second reading with regard to plans for house plumbing, to the effect that only when the cost is more than \$300 shall approved plans be required. The present mover stated that for small houses the plumbing did not cost more than \$250, and the plumber should provide a plan free.

Senator Achi held that the change would be unwise. They could not make a law to compel any man to do work for which he should charge nothing. It would be unconstitutional. Plans for ordinary house plumbing were unnecessary, especially in the outlying suburbs. Look at the trouble to the poor man out in Kalaiki, and look at the expense.

The amendment was lost, and another by Senator Achi, reducing the limit to \$200, carried.

The section to remove caps and cowls from all ventilating pipes of old work, struck out on second reading, was restored on motion of Senator Dickey, who had been to school with the plumbers in the meantime.

HOUSE.

(Continued from Page 1.)

To Police Committee—An Act to create a Territorial department of secret service.

To Public Expenditures Committee—An Act to appropriate money for the purpose of supplying and placing fire hydrants in the streets of Waikanae and Kahului, Maui, and for purchasing hose, hose carts, and other equipments for volunteer fire company in the said town of Waikanae.

To Finance Committee—An Act to encourage a telephone system on the island of Hawaii.

To Judiciary Committee—An Act to amend Act 64 of the Session Laws of 1896, by adding a new section to be numbered Section 11A.

Senate bills in second reading:
To Public Health and Education Committee—An Act to amend Act 18 of the Laws of the Provisional Government and being section 868 of the Penal Laws, relating to the Board of Health.

To Judiciary Committee—An Act to regulate and define the pay of witnesses.

To same committee—An Act to prevent the furnishing of intoxicating liquors to inebriates or minors.

To same committee—An Act to amend and repeal certain miscellaneous laws relative to corporations.

To same committee—An Act relating to amendments of process, pleadings and proceedings, amending section 1145 of the Civil Code.

To same committee—An Act granting a franchise to construct, maintain and operate an electric railway in the District of Hilo, Hawaii.

To Reimburse Cummings.
One of the principal discussions of the morning developed at this stage of the proceedings. The bill providing for the reimbursing of John Adams Cummings in the sum of \$5,000 for money paid by him into the treasury of the Provisional Government during the trouble of 1895 in order that he might be permitted after thirty days' incarceration to step forth from Oahu jail, was brought up in second reading.

Mr. Kumalae took the floor and held it for a considerable length of time. He said that the bill should be passed and the money paid. Here was an old man who had gone into an enterprise to fight for the re-establishment on these shores of the monarchy of Hawaii. Certainly, this was a most praiseworthy object and God would not blame him for doing what he did. As the fortunes of war would have it, the other side triumphed and Mr. Cummings was thrown into prison. He was the only man who had paid any money for his release from jail, and the money which he paid should certainly be refunded.

Mr. Pulaa said he knew nothing whatever about the bill. He did not know if the money had been paid or not, and if it had been he could not tell whether Cummings should have paid it or not. He would like to see the bill go to a special committee in order that all the facts might be learned instead of having the bill passed in second reading without an inkling of what might be the result should it pass. Mr. Kanoho shared this same view.

Mr. Kumalae said that if it was proposed to send the bill to a committee, then the House might as well indefinitely postpone it right there. The session was fast drawing to a close, and if the bill was to have consideration after a presumed veto by the Governor, it would have to be acted on right away.

However, the majority of the members were for having the bill go to a special committee and the motion of Mr. Pulaa prevailed. Vice Speaker Knudsen appointed the following committee: Messrs. Pulaa, Greenwell and Kumalae.

Ferns and Water Supply.
There was quite a discussion over the House bill providing for the opening up of the forests to citizens for the gathering of ferns, maille, le-le and the like. Mr. Kanoho started the ball rolling by upholding the bill notwithstanding the fact that the committee had recommended indefinite postponement.

The cases of Wa Hui, Ah Kau and Tong Chong, all charged with assault and battery on Ah Shee, were continued in the Police Court this morning. J. P. Hitchell, charged with assault and battery on Kalei Hachi, was discharged as the complaining witness failed to appear against him.

The death of Mrs. Kulkahl took place at 3:30 in the afternoon last Saturday. Fred Weed, the undertaker, was called to take charge of the interment of the remains. He found, however, that the woman had died unattended, and consequently notified the Board of Health. Dr. Pratt, executive officer of the Board, in making the post mortem of the deceased on Saturday afternoon, found that despite the fact that the woman had only died a few hours previously, her body was already in a terrible state of decomposition.

These circumstances appeared so suspicious to Dr. Pratt that he called Deputy Sheriff Chillingworth to view the remains. The Deputy Sheriff, on seeing the revolting state of the body, immediately called a coroner's jury, which he picked from the audience present at the Orpheum that night.

The jury, while it did not find that any criminal action had caused the death of the deceased, was shocked to find what fearful neglect the poor aged woman had been suffering from during her long prostration from an incurable disease.

Dr. McDonald, who testified before the jury, stated that while the woman undoubtedly died from chronic nephritis, still her death was hastened by the fearful neglect of those around her.

Chas. Kulkahl testified that the deceased was his wife. She had been sick for nearly two years. She had been bedridden for about a year. She was a native of Puna and over seventy years of age. She had no medical attendance for about one year. Dr. Mitamura attended to her prior to that time. Witness gave the deceased a bath about a week ago, but did not notice anything the matter with her with the exception of bed sores. Kehoa took care of the woman while the witness was at Waikiki. He had been separated from the deceased for about twenty years. He would stay for a week at a time with the deceased and then return to his second wife. He left the deceased Monday and went to Waikiki.

SHIPPING INTELLIGENCE

DEAD WOMAN'S REMAINS SHOW AWFUL NEGLECT

CORONER'S JURY FINDS THAT AGED WOMAN DIES UNATTENDED AND IN TERRIBLE STATE.

Mrs. Kabanau Kulkahl, an aged woman who lived on School street near the river, died last Saturday afternoon at 3:30 o'clock under such revolting circumstances that a Coroner's inquest had to be held last Saturday night, despite the fact that the woman died from the effect of a disease from which she had for a long time been a sufferer.

The death of Mrs. Kulkahl took place at 3:30 in the afternoon last Saturday. Fred Weed, the undertaker, was called to take charge of the interment of the remains. He found, however, that the woman had died unattended, and consequently notified the Board of Health. Dr. Pratt, executive officer of the Board, in making the post mortem of the deceased on Saturday afternoon, found that despite the fact that the woman had only died a few hours previously, her body was already in a terrible state of decomposition.

These circumstances appeared so suspicious to Dr. Pratt that he called Deputy Sheriff Chillingworth to view the remains. The Deputy Sheriff, on seeing the revolting state of the body, immediately called a coroner's jury, which he picked from the audience present at the Orpheum that night.

The jury, while it did not find that any criminal action had caused the death of the deceased, was shocked to find what fearful neglect the poor aged woman had been suffering from during her long prostration from an incurable disease.

Dr. McDonald, who testified before the jury, stated that while the woman undoubtedly died from chronic nephritis, still her death was hastened by the fearful neglect of those around her.

Chas. Kulkahl testified that the deceased was his wife. She had been sick for nearly two years. She had been bedridden for about a year. She was a native of Puna and over seventy years of age. She had no medical attendance for about one year. Dr. Mitamura attended to her prior to that time. Witness gave the deceased a bath about a week ago, but did not notice anything the matter with her with the exception of bed sores. Kehoa took care of the woman while the witness was at Waikiki. He had been separated from the deceased for about twenty years. He would stay for a week at a time with the deceased and then return to his second wife. He left the deceased Monday and went to Waikiki.

Edward Kehoa, who testified before the jury, stated that while the deceased was his sister. She had been bathed Wednesday for the last time in her life. Nothing out of the way was noticed then.

The jury returned a verdict that Mrs. Kabanau Kulkahl came to her death in Honolulu on April 4, 1903, from chronic nephritis and steatitis. The members of the jury were: J. H. Wise, J. S. Fox, K. B. Porter, J. F. Doyle, F. K. Makino and G. E. Smith.

Mr. Chillingworth appealed to the members to protect the watersheds from the ravages which would come from the passage of the bill. Mr. Aylett moved the passage of the bill in second reading. Vice Speaker Knudsen called Mr. Jaeger to the chair and spoke against the bill, saying that under the old law the male and ferns were destroyed. By the law at present on the statute books and which it was being sought to repeal, an opportunity had been given for the mountain plants to grow up again. By passing the Act before the House, there would be destruction again. Mr. Pall made the walls of the legislative hall resound with his oratorical flights in favor of the bill, saying that it was foolish to contend that the water supply would be contaminated.

The bill finally passed second reading by an overwhelming vote, and at 12:10 o'clock a recess was taken until 2 p. m.

PASSENGERS BOOKED.
For Maui ports, per stmr. Claudine, April 7.—W. H. Cornwell and wife, A. C. Alexander, J. M. Coulson, W. O. Aiken, C. D. Larkin, J. K. Brown, A. Jackson, H. Dinklage, Miss L. Iokis, Awana, Capt. Penhallow, E. K. Bull, J. Schulmeister, F. J. Lindeman.

The cases of Wa Hui, Ah Kau and Tong Chong, all charged with assault and battery on Ah Shee, were continued in the Police Court this morning. J. P. Hitchell, charged with assault and battery on Kalei Hachi, was discharged as the complaining witness failed to appear against him.
