HONOLULU, HAWAII, MONDAY, MARCH 4, 1907.

No. 4661

THE LEGISLATURE

HOUSE MEMBERS TAKE OFF THEIR COATS

THE BODY GOES INTO COMMITTEE OF THE WHOLE TO HEAR HEADS OF DEPARTMENTS.

THE HOUSE. TENTH DAY. AFTERNOON SESSION.

The House reassembled at 2 o'clock and resolved itself into the Committee of the Whole with Representative Kalelopu in the chair. With commendable consideration the chairman advised the committee that they were at liberty to remove their coats and smoke.

Mr. Rawlins suggested that a box of cigars, distributed among the members would be a delicate attention on the part of the chairman. The cigars however were not forthcoming.

The heads of departments were called upon for the estimates of their expenses for the next two years.

W. L. C. Atkinson, Secretary of the Territory asked the following appropriations for the executive department for the period commencing July 1, 1907 and ending June 30, 1907 making \$29,000 in all.

\$6,000 for incidental expenses. Passed.
\$5,000 for printing, binding and indexing. Passed.
\$13,000 for expenses of elections. Passed.

\$5,000 for preserving and translating archives. Passed.

Representative Kaniho opposed an item in the archives appropriation for the translation of certain communications from chiefs to kings, suggesting that as there was little possibility of these documents ever being referred to, it would be an economy to burn them; Mr. Rawlins dissenting, argued that as a matter of patriotism and education the item should be approved.

HOUSE FAVORS TOURIST TRAFFIC

A RESOLUTION CALLING FOR \$25,000 FOR THE PURPOSE—RICH AND POOR EAT SALMON.

THE HOUSE. MORNING SESSION.

The Committee on Agriculture, Promotion and Immigration reporting on House Resolution No. 16, appropriating \$25,000 to encourage tourist travel to these islands, recommended the insertion of this item in the Appropriation bill. The report was tabled, to be considered with the Appropriation bill.

SALMON ON THE FREE LIST.

Salmon is the poor man's food, so says Representative J. A. Hughes; Mr. Rawlins says rich men eat it, too. These gentlemen, with Mr. Kaniho, also the poor man's friend, favored the removal of the license on the sale of salmon, as provided in House bill 27. Representative Kalelopu opposed the bill, claiming that Chinese and Japanese are the only beneficiaries. The bill passed, says 25, noes 4, absent 1.

The House came to order at 9 o'clock. After prayer by Chaplain Lono the clerk read the minutes of Saturday's proceedings, which were approved.

A communication was received from R. B. Hosmer stating that the employees of the Bureau of Agriculture and Forestry had been instructed to appear before the House committees whenever summoned.

GOVERNMENT PHYSICIAN.

A petition was received from the voters of Wailua, asking that the pay of the government physician of that district be increased from \$10 to \$50 a

CITY AND COUNTY OF HONOLULU

BILL FOR ITS INCORPORATION PASSED SECOND READING IN THE SENATE—OTHER BUSINESS.

IN THE SENATE. TENTH DAY. AFTERNOON SESSION.

Senator Coelho asked for a suspension of the rules in order to introduce a resolution calling for the appropriation of \$8,000 to be expended in fighting forest fires disbursement to be under direction of the Board of Agricultural. Referred to miscellaneous Committee.

The bill to incorporate City and County of Honolulu passed second reading and was referred to special county committee.

Under suspension of the rules Senator Lane introduced a bill providing the appointment by the tax assessors deputy collectors for each election district. Passed first reading and was referred to Ways and Means Committee.

Senator Dowsett from the Ways and Means Committee returned Senate bill No. 31 to the clerk and the same was ordered printed.

As the appropriation bill is made the order of the day for Thursday President Bishop said he hoped the Committees would all be ready.

Senate then adjourn.

WHY THE LIQUOR BILL IS DELAYED

THE SENATE BEGINS SERIOUS WORK ON APPROPRIATIONS—FAVORS HALF HOLIDAY.

IN THE SENATE. MORNING SESSION.

The prospects of a number of bills coming from the House this morning sent the senators into training for business. Aside from the shadow which preceded this overflow there was activity on the part of the introducers of some of the more important measures. Delay in acting on the liquor bill was explained by Senator McCarthy as being due to the fact that Senator Smith had a similar measure which he desired to introduce.

BILLS THAT HAVE PASSED.

A communication from the House contained the information that Senate Bills Nos. 2, 4, 14 had passed third reading in the House.

Other communications referred to House Bills No. 17, 25, 32, 33, 38 which passed third reading there and were transmitted to the Senate for action. The bills were read by title and passed first reading.

Petitions for and against the admission of J. Lor Wallace to the leper settlement were read and referred to the Health Committee.

SATURDAY HALF HOLIDAYS.

Senator Smith from the Judiciary Committee reported on House bill No. 30 as follows:

"The Judiciary Committee has had under consideration House bill No. 30, entitled 'An Act to amend section 122 of the Revised Laws of Hawaii,' and respectfully report in favor of the passage of the bill.

"Section 122 of the Revised Laws provides that eight hours shall constitute a day's labor for all mechanics, clerks, laborers and other employees upon any public works or in any public office of the Territory; but that this provision shall not apply to Saturdays or any holiday. The bill under consideration proposes to amend Section

U. S. ENGINEERS READY TO BUILD FORTIFICATIONS, LIGHTS AND BREAKWATER

Honolulu harbor's new front range light, to be erected at a cost of \$30,000, not far from the present light-house and further out and more in the direction of Ewa, will be started within a few days, within a couple of weeks at the latest. All that delays the beginning of construction is the absence of cement of the kind required for a careful job.

The commencement of this work will be the signal for the beginning of great operations in this Territory, under the department of United States engineers, at the head of which is Captain Otwell.

The building of the Hilo breakerwater, the erection of the Makapuu light-house, the widening of the channel of Honolulu harbor, involving the removal of the spit of land upon which the present lighthouse stands in this harbor, and the work of fortifying this is and will be under way, though all may not start as soon, at the time that the Honolulu range light edifice is in course of construction.

Captain Otwell, in charge of the United States engineers here, when seen today, stated that all these great works of improvement and fortification would be constructed contemporaneously, though he would not state when

the various operations would be begun, beyond asserting that the Honolulu range light would be started probably within a couple of weeks and that cement was awaited for this purpose.

The Honolulu range light will take from nine months to a year to build. The work will be done entirely by local labor and contract.

This light, before described, will add greatly to the beauty of Honolulu harbor and when the spit upon which the present lighthouse stands, is removed, the largest vessels will be able to turn to go out without the aid of tugs.

In regard to fortifications, Captain Otwell, who is in charge will say nothing beyond that above recorded, but everything is ready to receive the material to make Oahu well fortified island and the work of fortification, together with the other great improvements mentioned, will mean the expenditure of more money than would be coming to the Territory if it had been given seventy-five per cent refund of its Federal revenue for a year. But recently The Star exclusively announced the preparations for Diamond Head fortifications.

During this busy season and pending the construction of a light-house tender for these waters, a vessel may be sent here from the Sound to act as a light-house tender.

WILL PAY \$13,300 FOR SEMINARY SITE

CASTLE ESTATE WILL BUY KAWAIHAO LAND—SCHOOLS TO MOVE UP MANOA.

The Castle estate stands ready to pay \$13,300 for the site upon which now stands Kawaiha Seminary, King street, subject to the school being moved to Manoa Valley, for which change negotiations are now under way. The Hawaiian Board is contemplating the purchase of between 25 and 40 acres up Manoa valley for the bunching there of the schools under its jurisdiction namely the Mills Institute, the Kawaihae Seminary and the Japanese boarding school. The title to the land desired includes water rights and there is sufficient water on the place for irrigation for the agricultural department of the industrial school.

If this Manoa land is purchased the Castle estate purchases the site of the Kawaihae school and the buildings thereon would be moved up the valley to the new site or sold for removal from the present site.

The Hawaiian Board has \$18,000 in hand for the Manoa project and needs but \$6,000 more of which 5,000 has been promised.

COMMITTEES OF THE LEGISLATURE FAVOR MAKING A TRIP LATTER PART OF WEEK.

There will probably be a meeting of the House committee on health and public lands today for the purpose of arranging for those committees visiting the Leper Settlement.

It is likely that they will make the trip in about eleven days. It is planned now, to have the Lanai committee leave here by the steamer Mauna Loa on Friday, March 15, reaching Lanai the following day. The health committee will take the steamer Kinau on Saturday night, March 16, reach the Settlement the following morning. The Kinau will then proceed to Lanai after the House committee, stop back at Kalaupapaa, pick up the House health committee on Sunday night and reach Honolulu on Monday. It is possible however, that there may be some alteration in this plan.

FINE NORTH GERMAN LLOYD TRAINING SHIP WILL REMAINS HERE FOUR OR FIVE WEEKS.

DO NOT CROWD THE SEASON.

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside, a cold wave comes and influenza is prevalent. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and counteracts any tendency of a cold to result in pneumonia. For sale by Benson Smith & Co., agents for Hawaii.

THE DAKOTA ON THE ROCKS. TOKIO, March 4.—The Great Northern steamship Dakota is aground on the rocks in Tokio bay, about forty miles from Yokohama. The vessel is leaking. All the passengers and the mail have been removed from the stranded steamship. The agents report themselves hopeful of saving her.

The steamship Dakota is one of the largest steamships on the Pacific being 13,305 tons, as compared with the Manchuria of 8,750 tons, and was one on the Great Northern line expected to make a port of call of Honolulu within a short time. It is probable that the grounding of the mammoth liner has been due to fog, the portion of the Japanese coast where she is aground being especially dangerous on that account.

WOMEN SUFFER

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance. How many women do you know who are perfectly well and strong? The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, headache, dragging sensations, flatulency, nervousness, and sleeplessness. These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills. Miss J. F. Walsh, of 225 W. 36th St., New York City, writes:—'Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well.' Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for childbirth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system. Mrs. Pinkham's Standing Invitation to Women Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

LANAI COMMITTEE WILL VISIT LANAI

THIS WAS PRACTICALLY DECIDED ON AT THE HEARING ON SATURDAY EVENING.

Nothing of importance developed at the meeting of the Lanai Investigating Committee on Saturday evening. Mr. Gay was the only witness called upon.

The committee assembled at 7:30 Charles Gay, who was being examined when the committee adjourned on Friday night, was recalled and, continuing his testimony, stated that at the time the appraisers visited the island, he accompanied them in their tour of inspection, only, however, in the capacity of guide. He did not learn until some time after this that the appraisers had decided on a valuation for the government lands. He did not recall from whom he received this information, but he remembered that the figures given him by this informant were \$107,000. After a general description of the various methods by which he had endeavored to secure water, Mr. Gay suggested that it would be well for the committee to visit the island. W. T. Rawlins stated that this was the committee's intention.

Answering a question of Mr. Rawlins, Mr. Gay stated that, with the present irrigation facilities, Lanai lands were fit only for grazing purposes. He said also that the native population of Lanai were not restrained in any manner by him; that they were free to plant anywhere on his lands. His object is thus liberally treating these people was to retain them on the island, so that in the event of his being able to resume ranching on the scale formerly carried on by him he might find employes. He said he was especially friendly to Hawaiians, to whom he had always given preference in employing labor. Forestation, stated Mr. Gay, is the only salvation of the island, and this he thought, would be impracticable unless the thousands of goats now on Lanai were exterminated.

The committee then adjourned until Tuesday evening next at 7 o'clock.

ON REFINED CRUELTY. Our attention was called this morning, close to the Judiciary building, to a very small Chinese child of not more than seven years, who had upon her back a larger and stout body, so large that she could hardly keep on her feet under the strain and tug. These children are not always (or often) the sister of the baby, but servants adopted for menial work and, used as nurses, if there be an infant.

We have (directly) nothing to do as to any slavery (serfdom) carried on for centuries in the Orient, more than we have to do (directly) with the 'foot-binding'; but, in any smallest corner or domain of the United States, 'land of the free and home of the brave,' we have a very direct work, in the premises.

Prevention Of Cruelty

For the first time for a number of years serious and systematic work is being done to mitigate and prevent cruelty to animals.

She has gone about the work in a sensible fashion. She has first let it be known that the laws on the subject are to be enforced, has given warnings in many individual cases, but has not hesitated to proceed to arrest where it was evident that nothing but the iron hand would be effectual.

Then there are the essentially cruel, to whom nothing but the severities of the law appeal. There are the ignorantly cruel, some of whom can be taught by precept, but others will learn in no school but the experience of the police court.

But above and beyond the actual rescue of specific animals from cruelty through all these and other means, there is the educative influence which systematic attention to this work will give.

Miss Davison in this work ought to have the support of the whole community. It is a work that ought to be done. It is a work which she is doing with good sense and effectiveness.

An Important Point Involved

from the importation of noxious blights, plant diseases and entomological pests. Of the case he says:

"The case of Yamamoto v. Alexander Craw, now pending in the Circuit Court of the First Circuit, is one of moment to the agricultural interests of the Territory. The Board of Commissioners, under local statutory law in that regard, sought to prevent the importation into the Territory of soil, plants, fruit or vegetables infected with insects, blight, scale and diseases injurious or liable to become injurious to trees, plants, or other vegetation of value within the Territory.

Control Of The Judiciary

to provide for the dismissal of federal judges by the President, by and with the consent of the senate. It says:

When Representative DeArmond, of Missouri, introduced his bill to give the President the power, "by and with the consent of the Senate," to dismiss at will any Federal Judge, from the District Judges to the Justices of the Supreme Court, not much attention was paid to the matter, because it was regarded as a "freak" measure not intended to be taken seriously.

It appears, however, that nothing at this time is too radical, and inasmuch as Mr. DeArmond was formerly a Judge of high standing, and is now ranking Democratic member in the Judiciary Committee, the bill is being examined.

Judge DeArmond, being asked to explain what is to prevent some political President of the future or any good President of any time from retiring Judges with whose decisions he is displeased with from thus controlling the judiciary, gravely said:

"In the execution of all our laws we are apt to presume that men in high office will be governed by good motives rather than bad ones. And in this particular instance it is to be presumed that the President and the Senate will act for the public good and not abuse their power."

Samuel Johnson, as Carlyle noted, remarked with colossal calmness that the prevalence of illiterate writers would certainly debase the language; likewise it is to be feared that reckless talk from legislators and ex-Judges will confuse the popular mind on the art of government.

Good motives? Why, there is little doubt that most of the mischief in the world has been done by indiscreet and unwise men whose motives were good, but whose power was not properly confined. But is the judiciary to be the prey of "all the unsettled humors of the land" and is "liberty to pluck justice by the nose?" Where in the name of the Constitutional Convention and the instru-

dom and self-government did Judge DeArmond ever learn that "we are to presume" that all men in high office are to be governed by good motives, and that, therefore, unchecked power is to be given them?

If our Government is anything, it is a Government of checks and balances; of strict limitation and a careful distribution of powers; of the preservation of its rightful authority and independence to each of the "co-ordinate" branches of the Government—the executive, the legislative and the judicial.

If to the President—who is in this country the head of a party—and his party majority in the Senate should be given the power to control and subject the judiciary of the land to their wills and policies by holding the threat of dismissal over the Judges, we should be in evil plight. It is better that several Judges in the country who may be incompetent should remain than that the whole judiciary should be reduced to a precarious position. The power of impeachment is at hand, and if the proper authorities are so lax and cowardly that they will not exercise it at need, they should be prodded to do their duty.

WHO OWNS THOSE LETTERS? Particularly do we feel that the public own the letter or letters sent by the Governor of this Territory to the President of the United States which ended in the loss of the Island of Lanai. That letter is not private property it is public property, a public record, and the people have a right to know what arguments were used, what representations made which led the President so heartily to acquiesce in the wiping off of Lanai from the map so far as the people of this Territory are concerned. It is largely the people who would like to get through Lanai deals and what not who demand that the Legislature gallop through their duties at a John Gilpin rate.—The County Beacon.

Gave Very Interesting Decision

U. S. JUDGE DOLE DECIDED TODAY ON QUESTION OF SERVICE IN AN ADMIRALTY CASE.

United States Judge Dole gave an interesting decision this morning in the libel proceedings brought by Jacob Benjamin Dole Lawellill against George U. Hind and James Rolph, Jr., doing business under the firm name of Hind, Rolph and Company.

The libellant brought suit for damages on account of injuries received by him on February 16, 1905 on board the schooner Kona, through the alleged carelessness and negligence of the libellees who were alleged to be the owners of the schooner. Process was duly served on J. S. Low as attorney in fact for the firm.

Smith and A. Lewis Jr., as attorneys for the libellees, filed a motion to set aside the service of process made on Low, on the ground that neither he nor Hind, Rolph and Company were the proper persons on which such service should have been made and upon the further grounds that the court was without jurisdiction. Five contentions on which this motion was based were given. The first was that there was no provision under the admiralty for service of process on an agent of the defendant in case of partnership; that the Kona Schooner Company a corporation of the state of California, was the owner of the schooner; third that the firms of Hind, Rolph of Honolulu and San Francisco were separate and distinct firms; that the local procedure does not govern as to the practice in courts of admiralty and equity and the fifth ground was that service of process in admiralty cases is not governed by local statute.

In deciding the various points the court holds that legal summons had not been made on the grounds that service of process in admiralty can not be made on an agent of the defendant unless the defendant is a corporation and the court has not, therefore, secured jurisdiction of the case.

This finding granted the motion but the court entered into a further consideration of the other points offered. The decision holds that as the contention that the schooner Kona was not the property of the libellees, that the certificates of the San Francisco Customs House offered to prove this, are inadmissible as evidence as they were statements of the conclusions of the deputy collector of customs and not certificates of enrollment or certified copies thereof. The decision further holds that two firms with the same name and composed of the same persons and engaged in the same kind of business are in law, but one firm. J. J. Dineen and James L. Coke were attorneys for the libellant.

OLD HOTEL GONE.
The old Windsor Hotel was torn down this week. It is the intention of the owner, W. T. Robinson to build a neat cottage on the grounds. The old lumber will be used to build several small cottages on the rear lot.—Maui News.

WAILUKU NEARLY HAD FIRE.
The Wailuku court house narrowly escaped being set on fire last Thursday through the impending explosion of a coal oil lamp.

Salary of deputy high sheriff being an increase was referred.

SUPPORT OF PRISONERS.
For support of prisoners Hawaii, Maui and Kauai and pay of lunas was referred to committee. The vote on passage on Oahu was reconsidered and referred to committee.

Salary of superintendent of public instruction, school agent were referred Senator Smith asked for reconsideration. Senator Coelho moved a reconsideration of the resolution referring to the ways and means committee so that certain matters could go to other committees.

Senator Dowsett objected on the ground that it would be difficult to get the committees to act.

Senator Chillingworth said the ways and means committee had already reported.

A motion was made to refer all matters under the head of Board of Education, including those already referred to the Education committee carried.

BOARD OF HEALTH.
All items under Board of Health were referred to the Health committee.

Under suspension of the rules Senator Dowsett moved that all items under the Judiciary go to the Judiciary committee instead of the Ways and Means committee.

Senator Smith asked the mover to withdraw which he did.

Senator Lane wanted the salary of the auditor increased and asked reference to the ways and means committee. Salary for clerical assistance \$9,000 was also referred.

TAX ASSESSORS.
Senate bill 43 relating to appointment of tax assessors by the governor with consent of the Senate was referred to the Judiciary committee.

Senate bill No. 44 relating to exemption of certain lands went to ways and means committee.

HAWAII WATER WORKS.
Senator Makekahu asked for a suspension of rules to introduce a resolution bearing upon the date the water-works on Hawaii were established and the income and expense connected therewith the information to be furnished by the Superintendent of Public Works. Carried.

Senator Coelho announced that the Health Committee would visit Kailhi

This marriage was of special interest in Honolulu as the bride is the younger daughter of a lady born in Honolulu. Formerly Miss Ida Pfister, whose parents were among the early settlers of Hawaii, and whose relatives added much to the history of these islands. Thomas Brown and the God-know, the former as a legislator, Captain Chambré, the bride's father, won his wife in Honolulu when he came frey Rhodes, her uncles, were widely known.

Open Stock Dinner Ware Patterns

Before the advent of the "open-stock" idea in dinnerware one had to buy dinner sets of fixed composition as made up by the manufacturer.

When you broke a piece it took months to obtain one to match it—frequently it was an impossibility.

From an open-stock pattern you can nowadays build up a set from a small initial purchase or you can buy a complete set. And we can replace any breakage instantly—because we carry the patterns in bulk, not as sets. See the point?

Many new patterns recently added.
