PROGRESS.

The Life of the Land is Established in Righteousness

HONOLULU, MAY 7 1894

In The Convention.

The *Star* tries to give the impression that the Hawaiian delegates to the Constitutional Convention are very representative and very estimable. Out of the eighteen elected members only six are Hawaiians. Of these Mr. Kaubane is the best known. He is an ignorant person who doesn't understand a word of English and who always has been known as an obedient tool of the missionaries. The ex-reverend Josepa from Hana is a similar specimen of an ignorant Hawaiian who neither can speak nor understand English. He is at present a Deputy Sheriff a job that he received as a reward for joining the Annexation Club and being deservedly kicked out of the Church in Hana. Mr. Holsten is a rather bright young half white lawyer from Kohala, who has no political experience and D. Kahauleo is in government employ and belongs to the clique that worships the Christian—but reticent and unexplaining C. J. The last two "representative" Hawaiians, Mr. Kuniaka and J. W. K. Ima need no comment. If they represent the Hawaiian people the quicker the Hawaiian people ceases to exist the better for the world. By the way, to what party does Kalua belong at present?

It is estimated that 2,500 is the total of votes cast under the election lately pretended to have been held under the auspices of the p. g. oligarchy. This is a great fall off from the 14,830 voters who were registered at the last election held under the monarchy. And still greater is the falling off made to appear when it is remembered that fully 700 of the 2,500 are new arrivals and have no right to vote only by reason of being enrolled as p. g. guards; police or in the volunteer corps and having an *ex parte* privilege granted them by the powers that be. As Ben Battles would say, "it was a famous victory."

The fear of having Horner's little banking bill vented in the convention was the immediate cause of the political decease that honored family.

The Circuit Court opened its quarterly term this morning. The extreme lack of accommodations for which the different departments are becoming famous were especially noteworthy today. The Press is always totally ignored, no seats being found for its representatives. The people having business before are huddled together like sheep while the lawyers have to scramble around to find chairs. It is remarkable that our wealthy government is so poor that they cannot buy some second-hand chairs for the different courts, although they get highly indignant, if reports are not reported or reported incorrectly. It is about time that a change for the better took place.

In addressing a meeting at the Royal Colonial Institute Sir Saul Samuel, Agent-General for New South Wales, said it was a remarkable fact that the excess of New South Wales exports above imports sufficed to meet the payment of interest on the public and private debt of the colony without any draw on the gold country. The statement was received with cheers.

The Convention and the Loyalists.

The refusal of the large majority of the voters of Hawaii to take part in the recent election has been a sore disappointment to the provisional government. All the influence that could be brought to bear was used but in vain. The total number of voters registered does not reach 2,500 or about one-sixth of the total number of lawful voters. Out of those 2,500 at least 700 would have been barred from voting under a constitutional government on account of insufficient length of residence while a large majority of the balance is constituted of illiterate Portuguese, who would be barred from voting if any education qualification was made necessary. We have in a former issue shown the discrepancy between the alleged members of the annexation club, and the actually registered voters. In September Chairman A. C. Stocker publicly stated that 63 per cent. of the registered voters in Hawaii were members of the annexation club—what has become of them?

The convention it is supposed is now ready to meet. The *Advertiser* is using much space and much ink to tell the Hawaiians of the great love that the "best" whites have for them, and what a nice constitution these loving shopkeepers will make for the country. It has evidently not entered the mind of the *Advertiser* man, that it is very possible that the 12,000 voters who refused to take the oath prescribed also may refuse to "take" the constitution never mind how sugar coated, it may be fixed up by the self-appointed physicians to the Hawaiian. The loyal citizens in Hawaii will continue quiet and peaceful as long as their case is in the hands of the American Administration. When an official answer comes from Cleveland responding to the demands, requests and petitions which have been forwarded to him and received by the only then will Hawaiians take a hand in the politics of their country and decide what attitude to adopt and what policy to pursue. In the meantime the constitution makers can get together and amuse themselves by tuckering on a constitution and get the country entangled with Japan and other countries their work will be in vain their time will be lost and they will make themselves the laughing stocks of the world.

An Auspicious Inaugural.

The tragedy Francesca Di Rimini for tomorrow evening. With the fall company, 25 extras, new wardrobe and special scenery Baker's powerful tragedy "Francesca Di Rimini" should prove a potent drawing card for Dailey's Company to inaugurate the last half of a very pleasant and prosperous season. Once in a while one sees a play or a rendition of some role that by its uniform excellence make criticism inapt and renders re-view difficult. Such a state is looked forward to in "Rimini" as the previous efforts have been of an even tenor and this being one, if not the company's most pretentious efforts, the theatre patrons, particularly the higher class ones, together with the skeptics will be out in force to judge critically on what is today, the biggest success in the United States in blank verse. Mr. Vinton, who essays Launcioti, has received very flattering encomiums from the press for his interpretation of the hunch-back which character he has made a careful study. Mr. Snow will be Paola the mother, both characters bearing a strong resemblance to Damon, and Pythias Miss Nannary will have the title role and Mr. Connors, the Court-jester Pape. The sale is very large.

The Last Rites.

The universal esteem in which the late Doctor Tronseau was held by his fellow citizens of all classes was demonstrated yesterday at his funeral. Shortly after 3 o'clock in the afternoon the cortege started from the late doctor's residence where a large number of people had assembled and where the Reverend Father Leonore for many years an intimate friend of the deceased performed the last rites according to the Roman Catholic church. The provisional government had sent its band who under the leadership of Prof. Berger played a dirge while the coffin was carried to the hearse. The long train of carriages then started headed by the Hawaiian National band under the leadership of Prof. L. B. Rio. The interment took place at Makiki cemetery where what remained of Hawaii's best friend was laid in the grave, his coffin covered with the flag under which he lived for so many years and under which he passed away. The pall bearers were Prince David Kawanakoa, Hons S. Muel Parker, H. A. Widemann C. T. Gul'ek, Mr. F. A. Schaefer Italian Consul, Mr. H. F. Glade German Consul, and Messrs. Dayton, Godfrey Brown, E. K. Hart Nowlein, Bertelmann and Nawah. The flag at the government building was at half mast as also was the case on several private buildings. The floral offering were exquisite and a large number of ladies called during the day and assisted in decorating the casket, that contained doctor's remains. Among those who attended the funeral were James Campbell, W. O. Smith, president of the Board of Health Bruce Cartwright, C. L. Carter, Judge Cooper, nearly all the physicians in town and innumerable other well known citizens.

Partiality.

There have been many and just complaints against the manner in which the Custom House is being run under the present regime. Although new rules and regulations have been invented, the bureau has failed to catch any smuggler and not a tin of opium has been seized, since the imbeculate p. g. succeeded the alleged monarchical opium regime. But the powers that be, while sporting uniforms and brass-buttons on the water-front are always willing to annoy such passengers, shippers and sea-captains who they are aware don't smuggle, but who have fallen under the displeasure of the almighty boss. Captain Wm. Davies of the Mahimahi was subjected to such an annoyance on Saturday morning when his vessel returned from the circuit of Oahu. The Mahimahi was overhauled and thoroughly searched by the vigilant officers, who, of course, found nothing. At the same time the W. G. Hall, the Mokoli, the Iwalani and other coasters came into port, but none of them were looked at. Captain Davies naturally objects to such unwarranted partiality. To be picked out among all the islands vessel for a search, tends to throw suspicion on the captain, his vessel and his patrons and can only hurt his enterprise. Captain Davies has been here for many years and has never been suspected of doing anything crooked. At this late day it would hardly be likely that he would go into the smuggling business. If the Custom House authorities, instead of such petty annoyance to a well-known and esteemed seaman, would devote their time to watch and catch some of those vessels that bring the forbidden drug in by tons, they would be doing their duty more satisfactorily than now is the case.

The p. g. band will play at Euna square this evening.

CORRESPONDENCE.

[We do not hold ourselves responsible for the opinions or the attitudes of our correspondents.]

EDITOR HOLOMUA:

During the discussion on the items "Salary of Envoy at Washington," and "Salary of Secretary Legation at Washington," at the special session of the Councils last week, Minister Smith said, "he had been told by Mr. Armstrong, that the Minister from Hawaii was the poorest paid foreign representative there. The little country of Venezuela paid its Minister \$20,000 a year."

Little country of Venezuela is good! Great Scott!!! Is there a person in this Kingdom or in fact on this earth that has ever before seen, or heard, or read of "a public official," making such a public expose of his ignorance? "Armstrong told him so." It is to be presumed then, that Smith believes everything Armstrong tells him. Does Armstrong know anything more of geography than Smith? It is to be doubted, as he (Armstrong) has made an ass of his legal (?) and learned (?) (in geography) friend, Smith.

For the information of Messrs. Armstrong and Smith, and also for the purpose of preventing both of them from making asses of themselves in the future, the following may be of some service. I quote, Mr. Editor as follows: "Venezuela is the most northerly confederation of South America. It consists of eight States, an area of 566,159 square miles, and a population, in 1883 of 2,121,988!! The railways opened and under construction have a length of 370 miles. A large standing army is also maintained. The public revenue, 1889-90 was \$9,009,245. Venezuela is the third largest State in South America. It follows Brazil and the Argentine Republic."

The 8 islands comprising the Hawaiian Group have an area of 6,740 statute square miles. The estimated population of the Hawaiian isles, on July 1, 1892 was 96,975 (so says Throon's Annual). That little group of islands called the British Isles, which has an area of 121,115 square miles, (about a quarter the size of Venezuela) and a population in 1891 of 37,740,233, pays its Representative at Washington a salary of \$30,000 a year. The Representative of the United States of America at the Court of St. James, receives a salary of \$17,500, while the United States Minister to Venezuela is paid a salary of \$7,500. Poor Hawaii! Poor Smith, Armstrong and Thurston. Because Armstrong says so, does not prove, that that Representative receives \$20,000 a year.

For further information concerning the little country of Venezuela, the learned (?) gentlemen are respectfully referred to the "Common School Geography." They are also urged and advised to refer—in future—to some books of reference and read up the subject upon which they may wish to speak, before appearing in public; they would by that means save themselves from great humiliation.

The Advertiser who catches persons eye usually wins a customer. Many different styles of advertising have been adopted and with more or less success, by the believers in the use of printers ink. The manufacturers of Bars Soap, for instance occasionally buy paintings that have been on exhibition in the Paris Salon and have lithographs made from them for the purpose of bringing their product before the people. In addition to such side issues, Pear spends hundreds thousands of dollars annually among the newspapers and magazines. Some years ago the agents of certain article on sale in New York made a hit in advertising by having on Broadway during business hours two fatly dressed Negroes wearing very high collars, on the backs of which was printed "Use Smiths Pills." The idea was novel and the public caught on. Rising Sun Stove Polish has been kept before the public for years through persistent, and sometimes expensive advertising. Twenty odd years ago the manufacturers of this polish started half a dozen men across the ocean to paint signs on rocks and fences. The Aermotor Co., of Chicago have increased its sales more than five hundred per cent in two years by the use of printers ink. We believe we have been instrumental in increasing the sales of the Aermotor by keeping everlastingly at it in Hawaii.

We do not wish to say that advertising will sell any manufactured article; there is no use spending money in advertising "cheap and nasty" goods because the people will not be hoodwinked. If Haviland China was not the superior article it is, all our advertising of it would not have sold the thousands of pieces that we have. We simply call the attention of the people to it and its superior quality is apparent to the customer directly a piece of it is examined.

Printers ink has helped the sale of the James Locked Fence but it would not have done so if it had been as flimsy as the ordinary wire fence. First; the economy therein in building it recommends it to the plantation manager and then its durability clinches the sale. If the stays and washers cost as much as an ordinary redwood post our sales of the material would not have reached such enormous proportions.

Our average sale of the Pansy Iron Stove is about two a day the year round. If was not the best iron stove on the market we would not sell that many in six months. Advertising is the tip of the public the good points in the article sells it just as the good qualities of the Fischer Steel Range make it a desirable article for people who wish to economize in the use of fuel.

We buy only what has proven good after people in the United States or Europe have given it a trial; we profit by their experience if the articles are good we buy and sell them; if they are poor we steer clear of them. When we advertise an article it is to attract attention to it; the newspaper is the button we push, the salesman does the rest.

Persistent advertising coupled with the article being a superior one has sold thousands of the Francis Walcott Emory File. If it had been no better than an ordinary scythe stone we probably would not have sold twenty. When a man finds out that his table knives may be kept sharp at all times at an expense of fifty cents and a very little elbow grease he is quite willing to try the experiment.

ON THE DIAMOND.

The Champion Kamehamehas Win By Flukes.

The first game of the base-ball season of 1894 was played Saturday afternoon on the Recreation grounds between the Kamehameha, (champions) and Hawaii clubs. There was a small audience in attendance when it is remembered that this was the opening game, but it is to be hoped that the public will be more generous in their patronage in the weekly future. The fair sex were in the "great majority" of those who witnessed this first game and they felt more comfortable, and fully appreciated, on noticing, the extension of the wire netting in such manner as to fully protect their forms or features from contact with unruly fouls. The p. g. band as usual discoursed music at the wrong time and was more of a nuisance than a pleasurable adjunct.

The game was called promptly at 3:30 Captain Thompson of the Hawaii's winning the toss, sent the Kamehameha's to the bat, his men taking the field. When the two clubs were thus separated, it was easily seen that the "Kam's" men were the heaviest, but not less agile than the Hawaii's, only the weight was beneficial in the striker's box. The first inning ended up with a goose egg for both clubs. The second saw the "Kam's" present ed with 4 runs from errors of the Hawaii's, while the latter club scored 2 runs. The third inning was a duplication of the first, for both. The fourth, was a sort of success, at first, for the "Kam's" who scored three, but the Hawaii's held up the sinking hearts of their sympathizers by scoring 2 runs, making the score at this minor half of the game 7 for the "Kam's", 4 for Hawaii. The fifth only advanced the clubs an inning, without a score, as did the first part of the next, (the sixth) the "Kam's" The Hawaii's pulled one out of the tally bag which placed them at 5; "Kam's" 7. The seventh inning was an unremunerative one to K but the backers of the H's had a boisterous love feast over two runs obtained and which tied the score. The eighth and ninth innings were played well by both clubs the Hawaii's especially playing well in sending the K's to the field with a cypher score. The Hawaii's hopes were high for the winning run, when after two men out Willis a good runner was dancing off third, ready for a run home and Tommy Pryce at the bat Pryce struck a low one between third and short and stood in silent and smiling contemplation at Willis sporting for home. Reuvsy picked the ball up passed it to Lindsay and Pryce and the Hawaii's were goosed again. Pryce had a fixed idea that only one man was out, and he had a tired feeling which prevented his running as he should have done; he had no such fixed idea, but in a tired feeling when he learned that he had lost the game by his action. The tenth inning was opened by the "Kam's", first striker sending a ball into Holt's hands at left, but Holt had a tired feeling and dropped it. The "Kam's" then added four more to their score and the Hawaii's got nothing. The game ended in favor of the "Kam's" by a score of 11 to 7. The regular score will appear tomorrow.

Wind light from N. E. today; weather warm.

The tabulated statement of the returns of votes cast at the election for delegates in Maui shows a total of 431 for Kula; for Bad win 336; Joseph 233 W. F. Po-gue 237 and W. Y. Horner 245. Mr. Gonsalves of Honolulu received 25 in Waiaka no other votes being cast for him.

FOREIGN NEWS NOTES.

In the House of Commons, Mr. Denis Kilbride, anti-Farnelite member for South Kerry, moved the second reading of the Irish Land Tenure Bill, a measure to prevent Irish landlords from raising rents after tenants have effected improvements to their holdings. The second reading was agreed to by a majority of 89.

The London Times announces that the Colonial Conference to be held at Ottawa, Canada, in June, will be followed by another conference held in London upon the question of the united defence of England and the colonies. It denies the assertion that the Australian colonies are selfishly imposing upon Britain the cost of the Pacific cable and mail schemes. A refusal to co-operate, it adds, may deprive Great Britain, in case of need, of the resources to be obtained by union.

Drought in Germany, Austria, and France is causing alarm amongst the farmers.

The Convention of United States Mine Workers has ordered a general strike of miners, to take place on April 21st.

An University Extension Congress will be held in London in June. It will be presided over by the Duke of Devonshire. The Australasian Universities have been invited to send delegates to the congress. If they should be unable to send delegates they will be asked to appoint delegates here to represent them, and to forward statements with regard to the progress of the University Extension movement in the colonies.

The Tasmanian political crisis has been ended by the formation of the following ministry: Sir Edward Braddon, Premier, without a portfolio. Mr. P. O. Fysh, Treasurer, Mr. W.
