## WHITE LABORERS FOR EWA

### MANAGER LOWRIE TELLS OF HIS CALIFORNIA TRIP.

Twelve Families From Modesto to Cultivate Cane at Ewa Plantation on Shares—More May Follow.

W. J. Lowrie, manager of Ewa plantation, returned on the Moana and was soon up to his eyes in business connected with the plantation. Concerning one of the main objects of his journey, the securing of white labor for the plantation, he found time to say:

"This project has always been a hobby with me, but I could never do anything until we got annexation. White farmers were afraid of our unsettled conditions here and would not take any chances. Now it is different. Hawaii is part of the United States, and white laborers will be only too glad to come here if they can do as well as in California. I went to Modesto, the county town of Stanislaus county, on the river of that name, in the great San Joaquin valley. It is the hottest farming county in California and men work there all summer in the grain fields with the thermometer from 95 to 112 degrees. I went there to get men because they would be accustomed to the hot weather and because they have had a bad season there and I thought I should have less trouble in getting men to come. I have arranged for twelve families to come first. They will number about twenty-one all told and are to leave about October 1st. These men will be given a field of 140 acres to cultivate, the company first plowing and planting it. They will have free houses, garden patches, water, fuel, medical attendance and school facilities. We advance them wages at the rate of \$18 per month if they desire it.

"The output of this field will be ground separated and converted into sugar by the company and the colony will be credited with one-sixth of the refined product. It will be sold in conjunction with the other sugar of the plantation, and after the deduction of the pro-rata of expense of the transportation and other items involved in its marketing, the colonists will receive the proceeds of their share of the crop to be equally distributed among them, less the amount of wages advanced to them."

J. M. MILLER.

J. Martin Miller of the Chicago Inter Ocean, who came here to be present at the flag raising and to write up the Moana for New Zealand and Australia. He received instructions from his paper to proceed there at once. He will probably go from there to Manila.

## MOANA AND ALAMEDA HERE

### ON SCHEDULE TIME FROM THE ANTIPODES.

Moana Brings 205 Passengers for This Port and 80 Bound to the Colonies—A Stowaway.

The Oceanic Steamship Company's steamships Alameda and Moana met in this port this morning exactly on schedule time, starting from ports almost the antipodes of each other and over 7,000 miles apart.

The Moana, from San Francisco, arrived early, reaching her wharf before 7 o'clock. She carried to 255 passengers, 205 of whom were for this port, the largest number of persons not immigrants ever brought here on one vessel, at least for years. Of this number 95 were cabin passengers and 110 steerage.

There were four stowaways on the ship, one of whom proved obstreperous, created a disturbance, was locked up and will be returned to San Francisco on the Alameda.

Purser B. B. Rendall reports exceptionally fine weather all the way.

The Moana sails for Sydney and the Colonies at 3 p. m.

The Alameda, on the other hand, brought no passengers at all for this port, but will take a large number to the coast. She left Sydney August 29th, and experienced good weather all the way.

The Alameda sails at 5 p. m.

### NO MORE ENTERTAINING.

Tables and Benches at Executive Building to be Cleared Away.

Chairman George W. Smith of the committee to entertain visiting soldiers, said this morning that it had been decided not to entertain any more troops, unless the war should be renewed, in which case an effort would be made to do something for all troops going through to Manila.

It is not proposed to publicly entertain the soldiers of the garrison or any regiments which may be temporarily stationed here, as they are the recipients of more or less attention at the hands of the Red Cross, Y. M. C. A. and other local societies, during their entire stay here.

The tables and benches in the Executive building grounds will be cleared away either today or tomorrow.

### FAVOR ANNEXATION.

MANILA, September 6.—At a meeting yesterday of twenty leaders of the Filipinos of all sections called to discuss the policy of these islands, eighteen of them were emphatically in favor of outright annexation to the United States and two were in favor of a republic. The general native opinion is that it is best to adopt United States Consul Wildman's suggestion and offer liberal inducements to the independent factions to cooperate and to reward the services rendered.

## KHARTOUM IS IN RUINS

### POWER OF THE DERVISHES HAS BEEN BROKEN.

The Khalifa With the Remnant of His Forces Making for Kordofan—Popular Welcome the British.

LONDON, September 4.—The war office has received the following dispatch from General Kitchener, dated Saturday evening:

The remnant of the Khalifa's force has surrendered, and I now have a large number of prisoners on hand. Our cavalry and gunboats are still pursuing the Khalifa and his chiefs, who, with only about 140 fighting men, are apparently making for Kordofan.

The following telegram from the Sirdar, dated today (Sunday) at Omdurman and forwarded by camel post to Naas, was received this evening.

The camp has been moved outside Omdurman to the river banks. Our wounded are doing well and are now descending the river. The Austrian sisters, Theresa Grigolini, and all the European prisoners have been rescued. They are well.

The list of our casualties has not yet been received. The population of Omdurman manifests joy at the arrival of the expedition.

The left bank of the White Nile is so difficult of approach owing to the overflow and thick brush that the gunboats cannot effect a landing. I therefore can only rely upon the cavalry to capture the Khalifa.

"I visited Khartoum today. The town is a complete ruin, but the lower portions show some of the principal houses still standing. The people are naturally delighted to see us. So far as I can see at present Khartoum is the best position. Omdurman is very extensive, and the stretch there is unbearable. I have therefore moved the troops down to Khor Skambat, where we are now in a good camp on the river. All the British wounded will descend the river with this dispatch. There are no cases that cause grave anxiety.

Estimates of the Dervish loss vary from 7,000 to 15,000, but agree that it was enormous.

## DREYFUS AND POLITICS

### FRENCH PRESIDENCY INVOLVED IN THE CASE.

Brisson and Cavaignac Playing for the Great Honor—Mlle. Faure Will Work for Dreyfus' Release.

PARIS, September 3.—M. Cavaignac, minister of war, has resigned, due to a disagreement with his colleagues who desire a revision of the Dreyfus case; thus a revision of the case now seems assured.

PARIS, September 5.—The crisis in the Cabinet is not yet regarded as definitely settled. Both M. Brisson and M. Cavaignac are believed to be playing for the presidency of the republic and it is thought M. Brisson is growing jealous of M. Cavaignac's increasing popularity.

The latter owing to his superior social qualities, is supposed to stand the best chance, and it was with a view of securing the support of the army that he stood against revision. Opinions differ as to how the latest developments affect the situation.

There is a rumor tonight that General Zurlinden, the new minister of war, will advocate a mere annulling of the Dreyfus judgment and sentence as a safer way out of the imbroglio, than a re-trial involving all sorts of awkward revelations.

Madame Dreyfus has written a letter demanding a new trial for her husband.

Mlle. Faure, the president's daughter, will work for a new trial for the prisoner of Isle du Diabole.

The pain of a burn or scald is almost instantly relieved by applying Chamberlain's Pain Balm. It also heals the injured parts more quickly than any other treatment, and without the burn is very severe does not leave a scar. They have never been a cut price machine, the workmanship on the Singer will not admit of cut prices. A few dollars in the original cost between a good machine and a poor one counts for nothing. B. Bergerson, agent, Bethel street.

## HILO ROYALISTS HEARD

### ANOTHER PETITION PRESENTED TO THE COMMISSION.

Senator Cullom Cross Examines the Royalist Gentlemen from the Rainy City, Who Get Flustered.

Without any previous intimation of the kind to anyone, two Hawaiians from Hilo, presented themselves before the Commission at 10 o'clock this morning. They gave their names as Ewalike and Henry West, and stated their object to be the presentation of a petition asking for the restoration of the monarchy, with Queen Liliuokalani on the throne, if possible, otherwise Princess Kaiulani. The petition was in the usual form and set forth the reasons why the petitioners thought the queen should be restored. After the petition had been read, Senator Cullom took it in hand and cross examined the two petitioners on its contents. The document was signed by between two and three hundred natives, while in the body of it the claim was made that the majority of natives were in favor of restoration. They could not explain the discrepancy nor produce any proofs to back up the assertion made in the petition. After half an hour's hearing they were dismissed with the assurance that their petition would receive consideration.

Henry West and Ewalike, who presented this petition, were seen later and said: "We came here as delegates from Hilo to the Kalaiaima convention and we were among those who presented the memorial from that society yesterday afternoon. This petition from Hilo is a separate affair, we got it up on our own account and we alone are responsible for it. It expresses the feelings of the Hilo natives who still wish for the restoration of their queen. We procured between two and three hundred signatures to it and they are all genuine. The Commissioners were very kind to us, and while they did not give us any hopes of restoring our queen they promised to consider our petition."

### ROSA IN COURT.

Judge Stanley is hearing one of the assault and battery cases against Captain Milner, of the City of Columbia, this afternoon, and the court room is crowded.

### WELCOMED WITH SALUTES.

Arrival of American Commissioners at Porto Rico.

SAN JUAN DE PORTO RICO, September 6.—The United States troops transport Seneca, carrying Rear Admiral W. S. Schley and Brigadier General Gordon of the Porto Rico military commission, arrived this morning.

The United States cruiser New Orleans, which is lying in the harbor fired an admiral's salute of thirteen guns. The Spanish gunboat Isabel responded with thirteen guns, whereupon the New Orleans set the Spanish flag at the pole and saluted it with thirteen guns.

When the admiral's pennant was raised on board the New Orleans the marines paraded and the band played. Shortly before noon the Spanish Brigadier General Vallarino made an official visit to Admiral Schley and was saluted with seven guns.

### MORE TROOPS MAY COME.

WASHINGTON, September 5.—It was stated at the war department today that nothing definite had been determined as to the movement of troops now at San Francisco to Manila, which depended upon information which was expected to be received from General Merritt as to the necessity for such troops. Probably three regiments would be sent to Honolulu if they did not go to Manila. If General Merritt, on his return, reported that there was good camping grounds at Honolulu, the soldiers would be sent there if not needed at Manila.

### FROM GENERAL RIOS.

MADRID, September 6.—The minister of war has received a dispatch dated at Hilo from General Rios, the captain general of the Spanish possessions in the Philippines, and governor of the Visaya islands, as follows: "Our flotilla has visited the whole archipelago. There was no sign of the threatened rebellion in the Visayas."

### DEWEY PREPARED.

WASHINGTON, September 6.—Already the flagship Olympia and the gunboat Raleigh have been docked and cleaned at Hongkong, and the Boston arrived there last Saturday for the same purpose. Within the course of a few weeks, at the outside, Admiral Dewey's squadron will have been thoroughly renovated, and reinforced as he has been by the Monterey and the Monadnock, the admiral will be in shape to meet any who threaten to disturb his possessions in Manila.

### SCANDIA TO SAIL.

The transport Scandia will probably sail tomorrow afternoon. She expects to be ready by that time. She will carry only the twenty-five artillery men in command of Lieutenant Hayne to guard the \$1,000,000 of treasure she carries, and the men of the hospital corps.

## OREGON FOR THE PACIFIC

### BATTLESHIP TO BE SENT TO THESE WATERS.

Will be Accompanied by the Iowa—Both Ships are Now at the Brooklyn Navy Yard Preparing.

WASHINGTON, September 6.—It now appears certain that, as a result of recent developments in the international situation or because of a desire of the administration to be prepared for emergencies, the battleships Oregon and Iowa will leave within the next ten days for the Pacific coast. These vessels are now being put in the best possible shape at the Brooklyn navy yard.

Reports in circulation indicate that the vessels have been ordered to Manila, but it is believed these vessels will be attached to the Pacific station. There they will be in such a position that they will be able to defend the Pacific coast in case of attack by a foreign power or hasten to the Philippines to give support to Rear Admiral Dewey.

The battleships could easily make eleven knots in making the run from New York to the Pacific coast, and it is believed they could reach their destination in fifty-five days.

Should they start within the next ten days they will reach their destination early in November, before the peace commission concludes its labor. Of course during practically all of October they would be on the Pacific and could make a dash for the Philippines from any point along the Southern or Central American coasts, should the department determine that it were wise to send them.

Commander H. H. Bradford, chief of the bureau of equipment, who has charge of matters relating to supplying coal for naval ships, has collected a number of colliers at Hampton Roads, which carry about 17,000 tons of coal. Not all of these will be sent, but a sufficient number will accompany the vessels to insure a plentiful supply of fuel. The colliers are sent because the neutrality obligations of the South American states will prevent them giving coal to either American or Spanish ships.

### THOMAS RAIN WALKER.

Her Britannic Majesty's Vice Consul Returns From England.

The community will be glad to know that T. Rain Walker, the British vice consul at this port, is again in this city, and that he expects to remain for some time. He said on the arrival of the Moana this morning:

"I have enjoyed my visit to England, although it was saddened by the death of Mr. Davies, which was entirely unexpected. I expect to remain in Honolulu for many months. Mrs. Walker is visiting her mother in England and our daughter Beatrice is at school there. Mrs. Walker will probably come to Honolulu in the early part of next summer, if not sooner."

**THE PATRIOTIC HAWAIIANS**

PRESENT THEIR MEMORIAL TO THE COMMISSION.

Senator Cullom Tells the Delegates of the Kalalaina that They are Annexed Now and for All Time.

At 3 o'clock yesterday afternoon the thirty-two delegates of the Hawaiian Patriotic League who have been in convention for two or three days past at the hall in the rear of the Opera House, marched from their hall to the Executive building and presented the memorial, the substance of which was given in yesterday's Star. Senator Cullom ordered the doors thrown open and the delegates, including one woman, Mrs. Moama from Hana, Maui, were ushered into the room. They brought no interpreter, so the services of President Dole were again called on.

J. K. Kauiua introduced the delegates and R. H. Makekaha of Waihee, Maui, read the memorial in English. Mr. Makekaha's English, however, had such a decided Hawaiian accent that the Commissioners hardly grasped the full meaning of the words. When the reading was finished, Senator Cullom asked if anyone of the delegates of the Kalalaina had anything further to say, and no answer being made, said: "Your memorial will be taken possession of and considered by the Commission. Before you leave, however, it is due to you that I should say that that annexation has been settled. Hawaii has now become a part of the United States, and there is no sort of probability of any change in that regard. The Commission is glad to have seen you all. Your memorial will be placed on file, reported at Washington, and given proper consideration."

Made From Hawaiian Fruit.

The Guava, like the Mango, a fruit which furnishes food for many a people throughout all tropical countries, possesses medicinal virtues which are certainly beneficial. A famous English writer, in treating on the subject, stated that the Almighty might have made a better fruit, but if so it had not been discovered.

**Guava Cordial**  
Within our shores we grow a bountiful supply of these fruits, and as their value is well known the introduction of the name is sufficient to insure the endorsement of most all who have indulged in eating the fruit.

WEDNESDAY, SEPTEMBER 14, 1898.

The first move Sagasta made in the cortex was to ask for permission to alienate Spanish soil. Whether he got leave or not it would have been alienated all the same.

The Filipinos seem to be coming to their senses and to see that annexation to Uncle Sam will be better than a return to Spanish tyranny and misrule, or the anarchy which would follow an attempt at self government.

"All roads lead to Rome" used to be a trite aphorism, but all roads lead to Honolulu will be one of the aphorisms of the future. At the crossroads of the world, people of all nationalities will meet on our shores, and then speed thousands of miles north and south, east and west. There is a great future before us.

Interest is centering in the races for Regatta Day. There are eighteen events which will furnish considerable excitement to the on-lookers. The local boat clubs will meet again and have the chance of picking up trophies for their boat houses. There is always a big turn out for the day, as the races take place in the harbor and are reached more easily than the course at Pearl City.

The San Francisco Chronicle has a good article upon the rush to the Islands. It points out that there is no work to be obtained by the mechanic, that the professional field is overdone and that there is no room for the small trader. Should the small farmer gain a foothold, then there will be room, but it will be some time before that reform can be brought about. No doubt it will be, however.

The S. S. Moana brought down two hundred and five passengers for Honolulu. Quite a number of these are returning kamaainas, who have been spending the summer months in the more bracing climate of the mainland, but there are many who have come to see if they cannot better their fortunes, and unless these are provided with capital they are liable to be grievously disappointed. It is very little use coming to the Islands without a few thousand dollars as a nest egg.

The increase in the capital stock of Oahu plantation, and the extension of the operations in pumping, planting and machinery, goes to show that the conservative investors have full faith in the future of the sugar industry upon these Islands. The people who start plantations do not invest for speculative purposes, to sell out as soon as there is a slight rise; they go in for a permanent investment, and where they put their money they mean to keep it, looking very carefully to the fact that it is safely located, and will yield a good return. This is legitimate business, and those who buy stock in such schemes are doing a legitimate business also. There is nothing wild cat about Hawaiian investments, though there are people who try to make them appear so.

**CONTRASTS.**

There was a very marked contrast not only between the two memorials presented respectively by the Hawaiian National League and the Kalaialina Society, but between the actual personnel of the committees. The representatives of the Hawaiian National League, in the first place had their memorial ready, in the second place they were ready to explain any point that the members of the Commission desired. The Hawaiian National League produced a good document, it would be a credit to any society which presented it. It is respectfully worded and well reasoned. The framers accept the situation like sensible men and want to make the best terms they can for their race. In this they are perfectly justified and will have the support of many who would otherwise have had small sympathy for them. Their own showing is the best argument in their political favor. It is satisfactory to know that this delegation created a most favorable impression upon the members of the Commission.

The Kalaialina committee created no such favorable impression. The memorial was not ready when the committee appeared in the morning, and though promised at midday, it did not make its appearance till after 2. Instead of dealing with facts as they now stand, it dealt with dead and gone issues, showing that its framers failed to realize the logic of events, and that they were and are politically unfitted for the times. They have succeeded in doing as much injury to the Hawaiian cause as it was possible to do in the number of pages that they took to state their case. Fortunately for the Hawaiian the Commission will not judge him upon the sorry showing made by the Kalaialina people, for the Hawaiian National League will prove the pinch of salt that will save the national reputation.

One thing Senator Cullom drove firmly home in his reply to the Kalaialina, and that is that annexation was no ephemeral measure, but it had come to stay. Upon that basis, and that basis alone, can any argument be held. This the Kalaialina people have failed to realize.

The Commissioners have now before them a considerable number of "views" from different sections of the population, in the form of petitions, and they have obtained a vast amount of information by private inquiry. All this will be of value in framing the draft of the organic law of the future. Whatever that law may prove to be we shall have to be satisfied with, being sure that any modification will take considerable time to make. Whatever that law may prove also, we may rest assured that it will be stable, and stability is what these Islands need more than anything else in the world.

**FALL OF KHARTOUM.**

Gladstone did not live to see the Khartoum, which he lost to civilization, once more restored to the brotherhood of Christianity. Fifteen years ago Gordon was practically sacrificed by the vacillation of the British government, and some of the fairest of the provinces of Egypt were given over to the misrule of a fanatical barbarian. For that vacillation Gladstone was in a large measure responsible, and however great he proved himself as a statesman, that will ever remain as a blot upon his brilliant career.

The Mahdist episode is brought to a close far sooner than might have been expected, and Khartoum will rise from its ashes and again become the center of an immense and lucrative trade. Indeed the occupation of Khartoum will mean the continuance of the railroad far to the south, and if arrangements can be made with Germany, Cecil Rhodes' dream of a railroad from Alexandria to Cape Town will at last be realized.

Sir Herbert Kitchener deserves the highest credit for the manner in which he has carried through the campaign and the admirable manner in which he has handled the Egyptian contingent. But Kipling's lines should be remembered and it was "Sergeant What's His Name" who did the hard work with the black troops and made them what they are.

that we chiefly pride ourselves. These are in use on nearly every plantation on the Islands. Only within the last three weeks we have sold a number of the large plows to take the place of plows from other firms which had been returned as unsatisfactory.

The great advantage of the Perfect plow is that it requires less animals to draw it, and cuts an excellent furrow without digging down.

## AGUINALDO ARMING MEN

HE IS CONSOLIDATING REBEL PARTIES.

He has Not Given Up His Ambitions—Ohio and Valencia Have Sailed for San Francisco.

MANILA, September 5.—General Aguinaldo is recruiting troops, and his men are busily employed in constructing trenches. In explanation of this warlike attitude, the insurgent leader says he is preparing for resistance in case the island should be returned to Spanish rule. The general says he is willing to disarm the insurgent army if the United States guarantees permanent protection.

The rebels will hold a conference this week, delegates from each province having been appointed.

At General Aguinaldo's new headquarters at Malolos, the report is confirmed that the rebel leader has consolidated divers insurrectionary parties in the northeast provinces, thus giving him an additional force of 5,000 men and control over the entire northern of Luzon. The insurgents continue building intrenchments on the north side of the city. They also hold the water works in their possession, which fact carries with it a serious menace to the Americans, in view of the approaching dry season.

The insurgents have captured every Spanish position on the bay, with one exception, and are strengthening themselves everywhere in the interior. Aguinaldo desires to make a strong case before the meeting of the peace commission in Paris, and will hold his party together if possible. The task is fraught with difficulty, while each small leader has set himself up as a rival power.

MANILA, September 4.—According to advices from Iloilo Governor Rios, governor of the Vizcayas, is arresting and shooting suspected persons, including prominent natives of Manila. The obstructions on the railway from Manila to Calocan have been removed and the first train left yesterday. It is expected that traffic will be resumed to the Dagupan terminus tomorrow. The steamers Ohio and Valencia have sailed for San Francisco.

### EXODUS FROM MANILA.

Monastic Orders Anxious on Account of Their Property.

LONDON, September 7.—The exodus of Spanish families and priests from Manila continues. They all feel that Spanish rule at Luzon is at an end. The monastic orders, anxious to be safe on account of their large holdings of property in the interior, are endeavoring to dispose of it. They would welcome American or English authority.

Considerable anxiety exists regarding the 10,000 to 12,000 prisoners, including the Spanish troops and civilians, women and children, in the hands of the Filipinos. Some of them are undergoing humiliations and also hardships, and circumstances may rise which would endanger their lives. Efforts should be made by Spain and the United States conjointly to secure their ransom.

## Facts About Health

It is Easy to Keep Well if We Know How

Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such

### A Record of Cures

as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail.

"I had pimples on my face and a large boil on one hand. I began taking Hood's Sarsaparilla and after using three bottles I was cured." J. W. JOHNSON, 3 South Broderick St., San Francisco, Cal.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."  
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

**TWO HORRIBLE DISASTERS**

**BRIDGE OVER THE ST. LAWRENCE COLLAPSES.**

Trolley Cars at Cohoes, N. Y., Struck by a Special Train—Fifty Human Beings Killed.

HOGANSBURG, N. Y., September 6.—At about noon today two south spans of the International bridge of the New York and Ottawa railway, now under course of construction over the St. Lawrence river, three miles above the St. Regis Indian village, fell without warning. Eighty men at work on the bridge were thrown into the river sixty feet below. Over thirty were picked up and taken to Cornell hospital, and twenty-seven are now missing.

COHOES, N. Y., September 5.—An appalling disaster occurred in this city tonight. Shortly before 8 o'clock a trolley car of the Troy City railway was struck by the night special of the Delaware and Hudson at a crossing at the west end of the Hudson river bridge, which connects the city with Lansingburg, and its load of human freight was hurled into the air. Eighteen of the thirty-five passengers are dead, and at least ten of the remainder will die.

**TROUBLE IN CRETE.**  
Unexpected Mussulman Uprising Due to Race Hatred.

CANDIA, Island of Crete, September 6.—Candia is in a state of anarchy. A collision between the Mussulmans, who were demonstrating against European control, and the British authorities, who have been installing Christians as revenue officials, culminated today in bloody fighting between the Mussulmans and the British troops. Riots took place in various parts of the city and many have been killed.

When the outbreak was fiercest a warship stationed in the harbor began firing shells, with the result that a portion of the city is in flames. The greatest confusion and uproar prevail, and it is feared that the night will not pass without further pillage and destruction.

The trouble began with the attempt of the British military authorities to install Christian officials. They had appointed a council of internal control to administer the title revenues and a detachment of soldiers was stationed outside the office as a precaution.

A crowd of unarmed Mussulmans, who had been demonstrating against the Christians, attempted to force an entrance into the office.

The British soldiers fired and wounded several. The Mussulmans ran for their arms, and, returning, attacked the soldiers. Other Mussulmans spread rapidly through the Christian quarters shooting into windows and setting many houses and shops on fire.

It is reported that the British consul has been killed.

CANEA, September 6, via Paris.—Four warships have started for Candia. Special precautions are being taken here, and at Retimo troops are being held in readiness.

LONDON, September 6.—It has been known that the Mussulmans were discontented at the joint rule of the powers in Crete. This was largely due to the fact that they were confined in the towns, while the Christians were allowed the liberty of the island. But the rising of the Mussulmans was unexpected.

The Cretan fleet is under command of the French Admiral, Pottier, as the senior officer, and consists of British, French, Russian, Italian and Austrian ships, Germany having recently withdrawn from participation in the joint control or government of Crete.

The Turks set fire to the whole town of Candia.

### FOR SICK AT SANTIAGO.

**NEW YORK, September 6.**—With the exception of four cases there is nothing like yellow fever in Santiago City. With the departure of the convalescents on the Vigilancia only forty sick men of the First army corps remain at Santiago. Eleven of these are yellow fever patients at Siboney, and others are in the field hospitals or the military hospital in this city. They are all too sick to be moved now, but most of them are recovering and will be shipped north as soon as possible.

### THE FUTURE POPE.

Of Cardinal Angelo de Pietro, who is mentioned as a possible successor to Pope Leo XIII, it is told that he is the son of a shepherd of Enverons, Rome, and is already called the "Holy Man." He is just seventy years old, and was educated for the priesthood by the bishop of his diocese. When he was a simple priest, visiting a certain monastery, an old monk threw himself on his knees and kissed the buckle of Pietro's shoe. The young priest, much taken back, asked the reason for the demonstration. The monk, raising his eyes heavenward, said: "Father, when you are Pope I shall be dead, so I wish now to kiss your holy foot."
