New Enterprise!

Our Retail Department

having met with success, and wishing to accommodate our patrons in

Furnishing Their Kitchens With Complete Outfits,

we concluded to add to our already large stock of House Furnishing Goods

Ranges and Cook Stoves.

Looking carefully through the different works in the East, we find

The Michigan Stove Company

of Detroit, Michigan,

are the largest manufacturers of this class of goods in the world. They make the largest and best line that is particularly adapted to this country.

We secured the Agency for these Islands, and now have on the way a large shipment of the

Justly Celebrated Ranges and Stoves.

They will be here on the arrival of the barkentine Archer, which will probably be about the 20th of this month. Anyone contemplating buying a new range will do well to wait a few days and have the finest assortment to select from ever brought to this market, and at prices to suit the times.

Due notice will be given of their arrival.

ANOTHER RIOT AT LIHUE

DESPERATE FIGHT REPORTED TO HAVE TAKEN PLACE.

Death of the Chinese Wounded in Last Friday's Battle Said to Have Been the Cause—Meager Details.

Word was received by the steamer James Makee this morning of another riot at Lihue plantation on Kauai. It was caused, it is said, by the death of the Chinese who was wounded in the riot of last Friday. Aid of the police were summoned from Kapaa and Koloa, and from other accessible points, and it was reported that there had been considerable blood shed. When the Makee left Kapaa no particulars of the riot were obtainable. Mrs. Makee told Purser Christian that there had been a serious riot, and that all of the police in Kapaa had been summoned in post haste, but she knew nothing more. The telephone was tried, but the people at the Lihue end of the wire were evidently too busy to talk. It was generally known in Kapaa that the wounded Chinese had died on Monday night, and the report was that his death had made his fellows desperate.

A. G. M. Robertson has been detailed by Hackfeld & Co. to visit Lihue and look into the trouble with the Chinese there. From all reports the Chinese on the plantation seem to be an unusually hard lot. They were employed, under contract, as coolie laborers, but it appears that they are really Hongkong toughs, shipped out of the country by the authorities because they were dangerous. They fight with knives and hatchets, seem to care not a fig for their own lives and much less for the lives of others.

From the meager report brought down by the Makee it would appear that there has been a desperate battle between the whites and Chinese at Lihue. The Chinese were given a severe beating by the runas and sheriff's posse last Friday and it is not probable that they would renew the battle unless they were determined to overpower the whites.

The Ke Au Hou was to arrive in Waimea today and is expected here in the morning. She ought to bring full particulars of the trouble, and her arrival will be anxiously awaited.

SOLID FOR ANNEXATION.

Rudolph Spreckels Strongly in Favor of the Policy.

Rudolph Spreckels was interviewed in San Francisco by William Walsh, representing the San Francisco Bulletin, just previous to his coming to Hawaii. Mr. Spreckels spoke very encouragingly of Hawaii's future and announced himself emphatically in favor of annexation or closer political union of Hawaii and the United States. Mr. Spreckels also expressed his approval in the highest terms of President Dole's Republic and says that the supporters of this Government are the progressive and reliable people of Hawaii.

WAIKAEA BAR.

Mr. C. C. Kennedy is going to try to deepen the water on the bar at the mouth of the Waikaea river by planting jetties straight out parallel with the current of that stream as it enters the bay. As it is at present the force of the current is dissipated as it broadens into the waters of the bay, and it is hoped by confining the river water within jetties it will scour itself deep and remain so. This will be a great improvement.—Hilo Tribune.

Greater bargains than ever will be offered at L. B. Kerr's clearance sale tomorrow, last year's stock of dress goods will be cleared at any price. Remember the sale ends this week.

Typewriters Repaired.

Repairing typewriters is one of our specialties. We can do it right, with despatch, and guarantee our work.

Old typewriters taken in part payment for the Peerless. New and second hand machines on hand.

Have you decided on a typewriter yet? The Peerless fulfill every claim made for them. Only a few more left. Get yours to-day.

Hawaiian Cycle & Man'g. Co. opposite Lewers & Cooke.

WANTED A CHILD BRIDE

MANUEL RAMOS TRIES TO MARRY ANNIE GARCIA.

The Roman Catholic Clergy Refuse to Perform the Ceremony Either at Halawa or at the Cathedral.

Considerable excitement was created in the Catholic Cathedral last evening when Manuel Ramos, a colored boot-black employed at Roche's tonsorial parlors on Hotel street, appeared before Father Matthias with a part-Spanish girl leaning on his arm, and presented a marriage license.

The marriage ceremony had been arranged for and the hour set at 8, but before Manuel and his betrothed had arrived matters had been brought to light which gave the Catholic ministry the severest shock it has had for some years.

Here are the facts of the case as told to a Star reporter by Father Valentine:

Ramos, who is a rather burly negro, although small in stature, has been lavishing his attentions of late on Annie Garcia, a Spanish girl who resides with her parents on the mission grounds in Halawa. Ramos has been desirous of marrying the girl despite the fact that she cannot be more than 10 or 12 years of age. The father gave his consent, and the two approached Mrs. E. M. Nakuina on Monday for a license, which was granted upon the representation of the child's father that she was of age. The same evening the couple were to be married before Father Herman, but when he saw the child the ceremony was indefinitely postponed, as far as he was concerned. Father Herman saw at one glance that the girl could not be over 9 or 10 years of age. After censuring the father and lover for their conduct he dismissed them from the altar.

But Garcia and Ramos were not dismayed. They arranged for the wedding to occur last night in the Catholic Cathedral. Not caring for a repetition of Monday night's experience they resorted to shrewd scheming, all of which was nipped in the bud in the nick of time by Father Matthias.

Garcia had an elder daughter who was already married to a Spaniard. She was made to be Manuel Ramos' bride last evening, the plan being that after the priest had been deceived in the marriage service Ramos would return to the Spaniard's wife and take unto him to wife little Annie Garcia, still attending school and wearing short dresses.

Father Matthias was puzzled to know why Father Herman should not perform the ceremony and, upon inquiry, learned that Ramos had been before him on the night previous with Annie Garcia. This information was learned before the hour appointed for the ceremony to take place last evening. Had it not been known, there is every likelihood that Ramos and Garcia would have succeeded in their plans.

The step-mother of Annie Garcia, a native woman, has objected strenuously to the union of the two from the beginning. This morning about a half dozen relatives of the girl came up from Halawa to see Father Matthias and to protest against the marriage.

The matter has been reported to Deputy Marshal Hitchcock and he has placed Garcia, the father of the girl, in jail to await investigation. Ramos has not been arrested as yet. Garcia says that his daughter is 13 years old. She does not look to be one day over 9 years and her step-mother says that she is not.

BORN.

HOOGS—In this city, April 14, 1897, to the wife of Frank L. Hoogs, a daughter.

PETTY THIEVES BOTHER HIM.

For the past few weeks sneak thieves have effected an entrance into the Elite Ice Cream parlors sometime between midnight and morning. Parties would help themselves to ice cream, cakes and candies, never failing to carry away enough to last them for several days or so when they would return again. Mr. Steiner has been unable to trap the thieves so he has workmen engaged in placing iron bars in the windows today. Mr. Steiner believes that the same parties have been burglarizing his store and says that they are as cunning as mice.

BEDSPREADS.

We boldly announce that we have the best values in bedspreads; see our \$1.25 bedspread, hemmed, ready for use. N. S. Sachs, 520 Fort street.

MURDER ON MOLOKAI

CHINAMAN KILLED AND HIS WIFE LEFT FOR DEAD.

Three Hawaiians Arrested for the Crime—Death of a Lahaina Girl Caused by Railway Accident.

Lahaina, April 13. News has just reached here of a murder on Molokai. The story is as follows: A Chinaman named Leong Chin, who kept a store at Kamalo, retired to rest on Sunday night with his wife, who is also Chinese. About 12 o'clock that night the store was broken into by three men, who killed the Chinaman and wounded the woman so badly that they left her for dead. They then proceeded to carry away a lot of the goods. The woman has been able to tell the story, and three natives have been arrested. The preliminary hearing is going on today on Molokai.

One of the girls who was hurt on the cars last Wednesday died the following Friday. Accidental death was the verdict of the coroner's jury. The other girl is recovering.

One of the members of the Citizens' Guard of Lahaina has finished his official score of ten rounds for the Marshal's bars. He averaged 42.9. The news received by Marshal Brown regarding the Molokai murder was very meager. The Marshal states that a letter was mailed at Lahaina in time to catch the Kinau which arrived today. Only the barest information is given. 'All I know is that a Chinaman has been killed on Molokai,' said Marshal Brown this morning.

MR CAMARINOS VERY ILL.

P. G. Camarinos, proprietor of the California Fruit Market, returned from Hawaii this morning, very much worse in health than when he left Honolulu. His nervous system is all broken down and he needs an entire change of scene and rest, the doctor says. C. D. Camarinos, a brother, who recently came down from San Francisco to take charge of the business, has made arrangements to send the sick man home to Greece on a visit. Two nephews, who recently came from the coast, will accompany him on his long voyage.

BRITISHERS WILL MEET.

Thomas Rain Walker, the British vice consul; Alexander Young, T. May, F. M. Swanzy, Robert Catton and Jas. Campbell today issued a call for all Britishers to gather at the Arlington hotel parlors a week from tonight to discuss the plans for celebrating Queen Victoria's Diamond Jubilee in June.

CRACK SHOTS TO COMPETE.

Lieut. Ludewig, of Company F, N. G. H., was out at the rifle range this morning with the company's shooting team. A score of 417 points was made out of a possible 500. The final match between the three best shots of Companies E and F will take place next week. Each company has won a match.

KAENA RETURNS.

The steamer Kaena, of the inter island fleet, returned to Honolulu last evening with Marshal Brown and a squad of ten police on board. The Marshal spent ten days along the coast of Lanai and Kahoolawe looking for a schooner loaded with opium, which the custom officers had been notified would appear.

MATE BENNETT GOES FREE.

Mate R. Bennett of the J. A. Cummins, was discharged in the Police Court today on the charge of having opium in his possession. Judge De la Vergne, in rendering his decision, held that there was a lack of evidence to prove Bennett guilty.

John Radin, who was arrested at the same time on two separate charges for having opium unlawfully in his possession, was found guilty of one charge yesterday afternoon and a fine of \$250 and costs imposed. Radin will be tried on the second offense next Monday.

JAPANESE WERE FINED.

The six Japanese who invaded the Elite Ice Cream Parlors last evening and kicked up a row, were fined \$2 and costs each for drunkenness. Three of the number forfeited their bail by failing to appear in court.

SIGNS OF SPRING.

With Spring comes the ever welcome Bock Beer. By the Miowers the Criterion saloon received a large consignment of the celebrated Bock Beer brewed by the Seattle Brewing and Malting Company.

NEW EMPLOYMENT BUREAU

SECRETARY COLEMAN PROPOSES A CHANGE OF METHOD.

A Wrinkle to Be Taken from the Denver Methods of Helping the Young Men to Get Work—Good Idea.

An employment bureau, under the auspices of the Young Men's Christian Association promises to be one of the things in the near future in connection with that organization. Secretary Coleman is desirous of having such a bureau established and conducted as one of the most important departments of the association with some good live man at its head, who can devote a portion of his time to this work.

At the present time there is in existence an employment committee of the association. Applicants for positions are directed to one of the gentlemen on the committee. When the young man who is hunting for work has found a member of the committee, usually the chairman, he presents his references, which are read and returned, his name and address jotted down in a book, and he is informed that he will be sent for in case a position is found.

Many young men who have come to these shores in quest of work have been secured good positions by this committee. The time that is devoted to this work by the members of the committee, and especially by the chairman, amounts to a considerable tax upon busy men. They are not men of leisure but men of large business affairs and their time is valuable. It has suggested itself lately to the new secretary that if an employment department could be located in the association building it would relieve these men of much imposition on their time. The committee would be asked to still continue its duties and have general supervision of the department.

The aim would be to make the department the employment agency for not only Honolulu, but for the entire group of islands. Whenever a business man, merchant, mercantile or banking firm, plantation, stock ranch or steamship company is in need of a young man for any kind of labor they should be induced to notify the Y. M. C. A. employment bureau of such. In this way the worthy young man is given employment and the employer has been supplied with just the kind of a man he wants. Everybody would be benefited by such a bureau.

The employment departments in the Christian associations in the larger cities of the United States are operated in this way. In Denver, Col., last year, out of 2,945 applicants for work over 1,600 were supplied. This did not include the many young men who gave up jobs to accept more lucrative and promising positions which came into the association's employment department to be supplied. Maj. E. W. Halford, private secretary to President Harrison during his second term, is president of the Denver association.

DEATH OF A KAMAONA.

William Allsworth, a War Veteran, Goes to His Long Home.

The Hawaiian Herald says: Wm. Allsworth, well known throughout the group, died in this city on Sunday, April 4, 1897, aged 65 years. The deceased was born at Utica, New York, in 1832, and first came to these islands immediately after the close of the Mexican war, through which he had served in the United States navy. During the first few years of his residence in Honolulu he made several whaling voyages, but in the 50's he gave up this roving life and since then the greater part of his time was spent in Hawaii. For a number of years he engaged in detective work in Honolulu, where his services were confined to the securing of deserters from the many whaling ships that were to be found at that important port. Later on, the breaking out of the Civil War in the States, the soldier longings carried him back to his old home where, enlisting in the Northern army, he served with credit, and was with McClellan in his famous Peninsular campaign. During his later years deceased has been a great sufferer from asthma and other diseases.

COMPLIMENTARY TO CONSUL.

The representative Japanese residents of the city will celebrate the promotion of Mr. Shimamura from Japanese consul general to minister resident at a grand banquet to be given tomorrow evening at the Hawaiian hotel. About fifty will be in attendance. The Government band will give a concert in honor of the event.

THE PRESENT DRY SEASON

SUGAR PLANTATIONS SAVED BY ARTESIAN WATER.

Stockmen and Others Are Praying for a Heavy Rainfall—Cattle Are Suffering for Want of Forage and Water.

The present dry season on Oahu and other islands in the group has not been equalled for years. Ranchmen, fruitgrowers and gardeners will all be losers unless a good rainfall should put in an early appearance.

Out in the district of Waipuu, the feed is burning up. Charles Lucas says that he will be compelled to ship some of his cattle in order to save them. R. Lishman, who owns about one thousand acres in the district, says that he has never seen anything like it. Thus far his cattle have fared very well, but he is fearful lest his gardens and fruit patches shall prove a failure this year for the lack of water. He has an engine going night and day and the water from a windmill and various springs is utilized for the gardens and patches.

There are watermelons on the Lishman place which are beautiful specimens. Mr. Lishman said that they would now be in the market were it not for the dry season.

J. M. Monsarrat, whose place is also in Waipuu, says that the grass is rapidly burning up on his place.

W. H. Cornwell and C. A. Spreckels, just down from Maui, bring the information that the season has been a very dry one on that island. Mr. Cornwell says that the cattle have exhausted the water supply in the mountains and hills and have come down to the sea shore for drink. He is down here now to arrange for windmills. Mr. Cornwell says that he will surely suffer the loss of many head of cattle if relief does not come soon.

Distressing reports similar to these come from stockmen on Hawaii and Kauai. All are praying for a heavy rain.

Fortunately the sugar plantations have not been damaged as yet. Wind mills and artesian wells have saved the cane fields.

A LARGE SUGAR SHIPMENT.

Hilo Sugars Go to New York in a Deep Sea Vessel.

The ship Genista took the largest cargo of sugar that has ever been shipped from Hilo port. It consisted of 50,294 bags, making 6,190,468 pounds and valued at \$177,096.47, shipped by W. G. Irwin & Co. to American Sugar Refining Co., New York. The five mills contributed to the cargo as follows: Waialae Mill Co., 12,350 bags, 1,612,398 pounds, value \$46,176.96; Hilo Sugar Co., 12,025 bags, 1,483,765 pounds \$43,276.48; Pepeekeo Sugar Co., 12,090 bags, 1,594,998 pounds, \$39,254.44; Hakahu Plantation Co., 11,998 bags, 1,472,832 pounds, \$41,843.45; Hilo Portuguese Mill Co., 1,831 bags, 226,475, \$6,648.14.—Hilo Tribune.

BEST FOR WHEELMEN.

Careful wheelmen are never on the road without Reading's Russia Salve. It is the best thing extant for bruises, sprains and cuts. Sold by Hollister Drug Co.

VALUES NOT TO BE BEATEN.

There are no better values to be found on the islands than at L. B. Kerr's. For bedspreads and curtains we lead the way. Likewise for hosiery, gloves and ribbons. These are positive facts. What are you going to do about it?

ALL ALONG THE DOCKS SUGAR BOTTLES ARE GETTING VERY SCARCE. Quick Dispatch for the George Curtis and Iriquois—Kinau Arrives With a Big Load of Sugar.—Front Notes.

The Wilder and Inter Island Steamship Companies employ over 500 natives the year around. The barkentine W. H. Dimond will get away for San Francisco some time today, with a full load of sugar.

The Kinau arrived in port this morning, after a fine run from Hilo. Her cargo consists of 11,147 bags of sugar, 265 bags of potatoes, 20 bags of corn, 15 bags of coffee, 30 sacks of charcoal, 115 hogs, 202 sheep, two bears and 150 packages of sundries.

The Government dredge has finished cutting on the ledge at the Inter Island wharf and this morning is scraping up the debris. The chisel was sunk to a depth of twenty feet in some places. Just how much good has been accomplished cannot be determined until the debris is scraped up.

Recent advices from the Coast report the arrival at Gibraltar on March 30, of the Hawaiian schooner Americana, from Burrard's Inlet. The Americana has made but one visit to this port, under the command of Capt. Foster, about three years ago.

Table with arrivals and departures for ships like Kinau Clarke, James Makee, Tullet, etc.

"The Very Finest" Scotch whiskey is all that can be asked for by connoisseurs. To be had at the Royal Annex only. Fully guaranteed to be absolutely pure and of proper age.

THE SILENT CLUB. A Strange and Original Institution That Flourishes in Vienna. Vienna, among its many clubs, can boast of possessing a very strange and original one known as the Silent Club, which was instituted some time ago by half a dozen wags, all of whom were married men, who, to escape from the chatter of nagging and scolding wives and from all sound of the human voice, agreed to meet together once a week to enjoy an evening of absolute quiet and freedom from conversation.

According to a renowned restaurant owner, there are many ex-barnmaids high in the ranks of society. One wears with honor the coronet of a duchess; there are a score or more in the peerage. An artist whose pictures are sought for by connoisseurs once drew mild and bitter in Greenwich. A singer, upon whose liquid notes intrahall admiresses linger, in her younger days served the students of Oxford in the bar of the Miter.

Needless Wear. Many people wear themselves out needlessly; their conscience is a tyrant. An exaggerated sense of duty leads a person to anxious, ceaseless activity, to be constantly doing something, overpunctual, never idle a second of time, to scorn rest. They say they have no time to rest, they have so much to do, not thinking they are rapidly unfitting themselves for probably what would have been their best and greatest work in after years.—New York Ledger.

THE EVOLUTION Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. To get the true remedy see that it is manufactured by the California Fig Syrup Co. only. For sale by all leading druggists.

New Comers To the City—who are in doubt as to which grocer to patronize in order to secure the finest Groceries at a moderate price, should pay our establishment a visit, and investigate our qualities and prices. Large stock of foreign and domestic table delicacies. Courteous clerks. Prompt deliveries.

MAY FORSAKE SEATTLE
NIIPPON YUSEN KAISHA TO TOUCH AT SAN FRANCISCO.

Colonel Crocker Anticipates Early Negotiations Looking to a Traffic Agreement—Line Losing Money.

Colonel Crocker had just bid adieu to President Asano, of the Toyo Kisen Kaisha, who sailed on the Coptic, when he was found in his office in the railroad building, says a late Chronicle. The Japanese steamship official had signed the agreement, by the terms of which the Toyo Kisen Kaisha is to run its steamers to this port, and Mr. Asano had departed for the Orient, leaving his secretary, H. Kobayashi, here to arrange a few details with the Pacific Mail and the Occidental and Oriental Steamship Company respecting such matters as agencies, sailing schedules and the like. In commenting on the close of the negotiations Col. Crocker said: "I believe it will be fully eighteen months before the new Japanese steamers will be ready for service. I understand that the keels of the vessels have not yet been laid, and it takes time to build and finish a big passenger steamer. In the meantime, however, we may have another Japanese line of steamers running into this port. The Nippon Yusen Kaisha has lately been losing money through the maintenance of its steamer line to Seattle, according to recent advices, and is preparing to ask the Japanese Government to make an appropriation to meet the deficit. The Nippon Yusen Kaisha has merely a temporary traffic arrangement with the Great Northern Railway, and if it finds that it will continue to lose money by running its steamers to the Sound it will, in all probability, take steps looking to an arrangement whereby it may make San Francisco its port of entry.

"I will say that we have made no arrangement with the Toyo Kisen Kaisha that we would not make with any other line that can bring business to San Francisco, and we stand ready to offer equal terms to the Nippon Yusen Kaisha. The Nippon Yusen Kaisha is an old established line, with a big fleet of steamers, and it could put on a line of temporary steamers within three months, to be succeeded by new and better steamers in the future when the business and traffic warranted the investment. I have no doubt but that the news of the agreement effected by the Toyo Kisen Kaisha with our company, when it reaches Japan, will cause the officials of the Nippon Yusen Kaisha to take steps toward securing a similar arrangement. They will either undertake negotiations with our people here or take up the matter with our representative in Japan.

IN A JOSSHOUSE.
The Chinese Celebration of New Year's in San Francisco.

Theodore Wores, the artist, has a story of Chinese life in San Francisco in St. Nicholas, under the title of "Ah Gau's New Year's Celebration." Mr. Wores says: "The procession—for some queer reason the Chinese always seem to walk in single file—was headed by his father, carrying the baby brother proudly in his arms. The mother and sister carried baskets filled with offerings to the gods, while Ah Gau had contented himself with parading his finery only.

The interior of the joss-house was but dimly lighted, and when the eyes once became used to the mysterious and smoky atmosphere that filled the place strange and weird faces of gods and demons showed through the darkness and gazed solemnly down from rich altars upon the visitors. A priest, seated at the entrance, had a supply of painted candles, sticks of incense made of sandalwood and packets of papers containing printed prayers.

Having bought a supply of these helps to worship, Ah Gau and his family had entered the inner room of the pagan gods. In the presence of these images, with hideous, painted faces dimly looming out of the darkness and mystery of the incense laden atmosphere, most American boys of Ah Gau's age would have been terror-stricken. He, on the contrary, seemed to be quite at ease among these strange things and went near to the uncanny idols with quite an air of familiarity. He boldly walked up to a large drum standing in one corner, and, seizing a drumstick, pounded on it with all his might for the purpose of drawing the attention of the gods to the worshippers.

He then had joined with the family in placing a large number of lighted candles and smoking incense sticks upon the altar, after which they had bent themselves in prayer before the principal image in the temple. A number of offerings—cakes, fruits and various articles of food, as well as rice wine—were next piled up before this deity. Their devotions ended with the burning of a lot of printed prayers in a little brick furnace erected in a corner of the joss-house for that purpose. As they left a pack of firecrackers was set off, and then, thoroughly satisfied with themselves and with minds at rest, they had gone homeward.

FEED THE NERVES
Upon pure, rich blood and you need not fear nervous prostration. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

HOOD'S PILLS are the favorite family cathartic, easy to take, easy to operate. Hobron Drug Co., wholesale agents.

SHEW BACKBONE.

The community would like very much to hear from the Board of Health with regard to its intended policy in the event of another ship load of "students" arriving with a clean bill of health. With the expensive and dangerous lesson, to which allusion was made yesterday, before them, our people do not feel very kindly towards the tramp steamers that may come along. Even regular liners have to be watched with the greatest care, for was it not the "Belgie" that introduced the cholera here?

Tramp steamers have every thing to gain and nothing to lose in circumstances of this kind. They carry their immigrants at the lowest figure possible and calculate to get rid of them in a certain definite time. If they can do this they make money, if they cannot do this they lose money, and every day they are detained they lose more. Once it is understood that ships landing immigrants are under any circumstances going to be put in quarantine for eighteen days outside the reef and there will be less desire on the part of unprincipled speculators to flood the country with the very undesirable class of "students" which they have been pouring in. The game will not be worth the candle.

Apparently the Press here is agreed upon the point that this class of immigrants is not desirable, that the country is being peacefully invaded, but it makes no further suggestion. It lifts up a pitiful howl and stops there. This is no manner of facing the question. The hands of the Government should be strengthened by the knowledge that it has the whole people at the back of it. When we are being driven towards a wall, it is time to cease quarreling among ourselves and to present a united front towards a common foe.

The influx of uncontracted Japanese is as much a danger to the Hawaiians as it is to the Portuguese and other Europeans on the Islands. Indeed, the Hawaiian will feel the pressure first. An unskilled labor must feel the pressure. It was only a few weeks ago that in speaking of this matter The Star pointed out that the "students" were perfectly willing to work for a time for nothing. Since then several cases of the kind have come under notice. It is first for nothing, then for a small wage, anything to oust present occupants out of their places. To get the thin end of the wedge in is their object.

To meet the position requires a firm front. The Government has taken a good stand in investigating the cases of those who are trying to come in and sending those back who do not fulfill the conditions required. This action has been criticized, but it has been now proven to be the proper line of action and one which will receive the support of those interested in the future of the islands. Had it not been for the care taken in this matter, smallpox would now have been spread over the islands.

The next firm step required must come from the Board of Health, and the community has a right to have an authoritative statement of policy from that body. Let us know what the Board proposes to do. Don't let there be a hasty scramble at the last moment and a snap judgment. Other vessels are on the way; it is known that the bill of health of tramp steamers, in nine cases out of ten, is worthless. Prepare to meet the issue.

Lastly, what is the Foreign Office doing? The public ought to know what steps, if any, have been taken for abrogating or modifying the treaty with Japan. To go on as we are, even with the care shown by the customs authorities, will only result in some more crooked method of getting round the difficulty than the present rather crude one of giving each man fifty dollars, which he returns to his backer as soon as he gets on shore. The Eastern mind is gifted in methods of over-reaching, and it will race its brains until it finds a loop-hole.

There are thus three positions which the community must insist upon the Government taking. First, firm stand at the customs. This has been done. Second, firm stand with regard to quarantine and suspected vessels entering port. This policy has to be out-

lined. Third, change in the treaty. Of this no word has come before the public. The public holds the Ministry responsible for these, and it must act with determination and force.

CIVIL SERVICE.

Civil service reform in the United States will have a large influence upon the future elections in the United States. When it no longer means a question of the "outs" turning out the "ins," a considerable element of selfishness will be eliminated from the voting population, and the votes will be cast more for principal than for mere party, with the hope of either directly or indirectly participating in the spoils.

From an exchange it is gathered that the Civil Service Commission reported 178,717 positions in the civil branch of the United States Government. Of these 87,107 are now in the classified service. Of the 91,610 remaining unclassified, 66,725 are fourth class postmasterhips. This leaves very little in the way of pickings for the army of six hundred thousand office seekers.

It is noticeable that the Republican papers are, in very many cases, strongly in favor of the classified service plan. Of course, there can be no doubt of the benefit to the nation at large of a thoroughly organized civil service, in which the members enter young and, by diligence and good conduct, gradually rise to the highest positions. Political heads there must be, but the detail work can best be done by men who devote their entire energies to mastering it and who look to no greater height than the careful management of a section of the public offices. Such men are no use as politicians, but they are invaluable in supplying politicians with every detail of information that they require and can conduct their business for them most efficiently.

The gold product of the world is not likely to decrease for some time. Not only has there been a great find in the southern part of California, while Africa and West Australia mines are booming, but Peru is having her mining resources developed. According to the "Panama Star," a German engineer has been engaged in examining the gold resources of the country. He says that "the gold bearing zone extends for one thousand square leagues." The account of rich veins makes one's mouth water. In a vein ninety-eight feet long, a thread of pure gold was found three feet deep and six inches thick. He claims that the gold producer of Peru will be far superior to the output of Africa or Australia. It needs something to put Peru on her legs again. After the war with Chili, the country was completely exhausted, and its inhabitants ruined. Nearly the whole of the jewelry of the best families was sold and scattered to the ends of the earth. Well governed Peru would be a great agricultural as well as a mining state. The trouble with all these South American Republics is the instability of their Governments and their vicious quarrels with one another.

Professor Jordan, of Stanford University, and head of the United States Fur Seal Commission, says the only way to preserve the seal herd is to prohibit pelagic sealing totally. The new Administration has taken the matter in hand and Great Britain will be asked to join the United States, but if that Government refuses to cooperate then the United States will act alone. It is proposed to brand the female seals at the rookeries and thus destroy the value of their skins. A curious thing indeed, to brand wild animals. But one sees many strange things as the world grows older.

Some one has been discussing the probable economic outcome of the pending European war. Money rates would at once advance. In neutral countries labor and capital would be diverted from productive enterprises to the furnishing of war munitions. In Europe itself there would be an enormous falling off of productive enterprise and the United States would reap a golden harvest by selling food stuffs and munitions. Vast fortunes would be made from speculations in wheat, iron and coal. Freight rates would go up and so would the price of ships. But, when the end of the war comes, the waste of wealth, the waste of human life, the disorganization of trade will then be felt, and not in one place only, but all over the world.

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Let your goods be known to all men and women through the medium of a good advertisement.

Timely Topics.

APRIL 12, 1897.

Inasmuch as the Hawaiian Jockey Club has decided to hold a meeting on the 11th and 12th of June, it is quite natural that we should wish to call attention to the

National Feed Box.

This box is a perfect device for slow feeding in the stable or on the road. It is a boon to the horse, in that it cures him of the habit of bolting, slobbering and scattering his food, and to the owner in that it saves from 25 to 35 per cent in feed bills, and prevents doctors bills for indigestion, colic, and other stomach troubles. It feeds all kinds of grain, corn in the ear, chopped feed, or bran mash.

This box is made of steel, and is practically indestructible. The follower slides on a Malleable Iron Rod riveted to the box.

A feature is the ease with which it can be cleaned. It is perfectly odorless and healthy, light and portable. The owners and drivers of the fastest horses in the world use and approve of it, as well as the heads of many Fire and Police Departments.

No stable should be without it, as it pays for itself in a few weeks.

Indian Curry

is to the people of the East, What Catsup or Worcester-shire Sauce is to those of the West.

Anyone who has traveled in Japan, China or the East Indies knows that there is no more palatable dish prepared than curry and rice, or the many other ways in which it is brought into use by residents of those countries.

The demand is so great that inferior preparations are placed on the market and sold to the uninitiated as the real article.

"While the palate is still hot with a curry, an un-flavored dish seems insipid."

No one has ever disputed the fact that the people of the East know how to, and do, live on the best the land affords.

In the lower Fort street window of our store is a display of the

Genuine Indian Curry Powder

that is prepared by us strictly according to the original receipt, and when the Pacific Club, Hotel and commissary department use it and no other, we have no hesitancy in selling it and recommending it to the public as the STRICTLY PURE Curry Powder. A trial is all that is required.

ANDREW BROWN,
Sup't. Honolulu Water Works.
Approved:
J. A. KING,
Minister of the Interior,
Honolulu, H. I., April 6th, 1897.

SALE OF THE HAWAIIAN HOTEL PREMISES, HONOLULU, H. I.

On WEDNESDAY, July 23rd, 1897, at 12 o'clock noon, at the front entrance of the Executive Building, Honolulu, will be sold at Public Auction, the Hawaiian Hotel Premises at Honolulu.

These premises are centrally located in the City, in the center of the block bounded by and with entrance drives from Hotel, Richards, Beretania and Alakea streets, and the grounds contain an area of 17-10 acres.

The Buildings consist of the Hotel proper, of two stories, and basement, built of brick and concrete, with broad verandas at front and rear of each story.

The main building covers an area of 10,800 square feet with lanai or wing addition on one side, 40x24 feet and wooden addition on opposite wing, for kitchen, 60x18 feet.

There are also four Cottages on the premises with ample provision for bath rooms and closets.

The main building contains a spacious Parlor, Public and Private Dining Rooms, Large Billiard Hall and Bar Room, and forty Sleeping Rooms. The Cottages contain about twenty additional Sleeping Rooms.

A water tank with capacity of 10,000 gallons is placed on a tower at an elevation sufficient to give a good water pressure in second story of the main building. This tank is supplied from an artesian well on adjoining premises, owned by Dr. J. S. McGrew.

The buildings and grounds are thoroughly lighted with Electric Light.

Plans of the buildings and grounds can be seen at the office of the Minister of the Interior.

Terms of Sale are Cash—in United States Gold Coin.

Upset price: \$60,000.00.

In case there is no bidder to purchase the property at the above upset price, a Lease of the same will immediately be offered for sale at an upset price of \$4,000 a year, for a period of thirty years under the conditions set out in Act 7, Laws of 1896, and more particularly of Sections 2 and 4 of said Act, which reads as follows:

"Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall, during the first four years of the term of the lease, cause to be erected upon the leased premises a fire proof building of Brick, Stone or Metal, in a workman like manner, satisfactory to the Minister of the Interior at not less than a stated cost; and keep the same suitably insured at not less than two-thirds of its value for the benefit of the lessor; and shall keep the building in good repair during the remainder of the term of lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the lessor.

"Section 4. Every such lease shall also contain a covenant on the part of the lessor, that upon the request in writing by the lessee or his representatives, before the expiration thereof, the premises with the improvements, shall, if all of the conditions to be performed by the lessee, have been satisfactorily performed, be put up at Auction for a lease for a term of not over twenty years; unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such auction sale shall be held not more than six months nor more than one month before the expiration of said term.

The cost of building to be erected in accordance with Section 2 as above quoted, is placed at \$50,000.

J. A. KING,
Minister of the Interior,
Interior Office, March 27, 1897.

EX-SECRETARY FOSTER SAYS ANNEXATION IS A DUTY.

There Are No Political or Administrative Difficulties in the Way—Growing Interests in the Pacific.

General John W. Foster, ex-Secretary of State, recently delivered a lecture at Washington on the Hawaiian Islands before the National Geographical Society. The distinguished speaker declared in no uncertain words that the annexation of Hawaii is a plain duty confronting the American people. Mr. Foster stated that there were no political difficulties in the way, saying:

"To my mind annexation presents no political or administrative difficulties. During the discussion four years ago it was suggested by certain writers of standing in the legal profession that there was no authority given in the Constitution of the United States to annex territory not contiguous. When the purchase of Louisiana was first suggested, Mr. Jefferson, a strict constructionist, thought it could not be accomplished except by amendment of the Constitution, but when the opportune moment arrived he heartily approved the treaty, and nothing further was heard of the constitutional amendment. The objection now advanced does not seem to have had any weight with the executive or with Congress when Alaska was acquired, nor will it with enlightened statesmen today. The islands should be admitted, not as a state, but as a part of the territory of the United States, to be organized in such manner as Congress in its wisdom may determine. We have already three forms of territorial government under authority of Congress—in the District of Columbia, in the organized territories and in Alaska. One of these may be applied to Hawaii or a new one instituted. Under whatever form of government, doubtless the native Hawaiians and those of American and European origin would be granted the right of suffrage under proper conditions, and to the Asiatics would be applied the existing prohibitive laws of the United States as to naturalization and immigration, which would lead them to gradually return to their own countries.

"I do not regard the suggestion of a protectorate as practicable. We cannot assume it without becoming responsible for the government of the islands, and we should not become responsible for the government unless we can exercise a control in its creation and management. Such a system would bring no end of complications with foreign powers and in domestic affairs. We must either annex the islands, or leave them free to make such other alliance as they may choose, or as destiny may determine.

"As a rule I do not believe in the extension of our territory beyond our present ocean limits. I think we should develop within our own domain a great English-speaking nation, controlled by the principles marked out for us by the fathers of the Republic. But it is precisely because I want to see a great and powerful nation—much greater and more powerful than the one we now have—developed on this continent that I had the opportunity now offered of securing this outpost of our Pacific frontier, and thus protecting for all time our future mighty commerce and rapidly growing interests on that coast from the encroachments of the great powers striving for ascendancy in that quarter of the globe."

At the elite. Hot Cross Buns at the Elite Ice Cream Parlors, delivered on Good Friday. Leave your orders in time.

Bottles. Ancient bottles of glass, stone and metal have been found in many parts of Europe, Asia and Africa. Perfume bottles of glass have been discovered in great numbers in the tombs of wealthy ladies of Egypt. Many bottles, tumblers and other drinking vessels have been dug from the ruins of Pompeii. The most common bottle of the ancients, however, was of leather, the skin of a calf, goat or ox being taken off the carcass with as few cuts as possible and made into a receptacle for holding water or wine. The largest glass bottle ever blown was made at Leith, in Scotland, in 1747-8. Its capacity was two hogheads.

HALF AND HALF.

The Royal, Pacific and Cosmopolitan saloons are now serving half and half for their customers. Two glasses are sold for a quarter. They still supply Pabst and Buffalo beers at the same price.

They All

There are fads in medicine as well as in other things," said a busy druggist, "but the most remarkable thing about Hood's Sarsaparilla is that customers who try other remedies all come back to Hood's, and this is why the enormous sales of this medicine keep up while others

Come

and in a short time go out of sight entirely, to be heard from no more."

"Why is it?" "O, simply because Hood's Sarsaparilla has more real curative merit than any medicine I ever sold."

This is of daily occurrence in almost every drug store. Hood's Sarsaparilla is the standard remedy which has cured more sickness, relieved more distress and made more happiness by bringing people

Back to

health than any other medicine. Its wonderful cures of the worst cases of scrofula, running sores, ulcers, salt rheum, etc.; of dyspepsia and other troubles where a first class tonic and aid to digestion was needed; of catarrh, rheumatism, malaria and other troubles arising from or promoted by impure blood, have made

Hood's Sarsaparilla

The standard—the One True Blood Purifier. Hood's Pills are the only pills to take with Hood's Sarsaparilla. **Hobron Drug Company** WHOLESALE AGENTS.

Paints & Compounds
Roofing, Pile Covering and Building Papers,

FOR SALE BY
WM. G. IRWIN & Co., LIMITED.
Sole Agents for the Hawaiian Islands

The building papers are 1, 2, 3, and 4 ply. They come in rolls, each roll containing 1000 square feet. They are water proof, acid and alkali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

HONOLULU, July 29th, 1895.
MESSRS. W. G. IRWIN & Co., LTD.

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.
J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

BLUE EYED BABY'S DUPE

SACRAMENTO REAL ESTATE MAN IS BLACKMAILED.

Attorney E. M. Morgan, Who Profited by the Deception, Said to Be Hiding in Honolulu.

Attorney E. M. Morgan, an erstwhile resident of San Francisco, is believed to have arrived in this city on the last Australia as a fugitive from justice, and is in hiding here. He is wanted by the police in San Francisco for blackmailing Edwin K. Alsip, a well known real estate man of Sacramento, out of several thousand dollars. The plan by which Morgan obtained funds from Alsip was bold, but so cunningly executed that the real estate man played the dupe for months before he discovered that he was being bled without cause. Now he is anxious to bring Morgan to justice, and is straining every nerve to do so.

The game to which Alsip so readily fell a victim was the oldest known in the annals of blackmailing. It concerned a pretty stenographer, a Miss Howell, with whom Alsip is now constrained to confess he did have intimate relations; a blue-eyed and flax-haired Scandinavian baby, born at the City and County Hospital San Francisco to a poor servant girl by the name of Lindstrom; an obdurate attorney, in the person of Morgan, the conspirator, and several lesser conspirators, most of whom lent a hand unconsciously to the fraud. In short, Alsip was led to believe that the blue-eyed baby belonged to Miss Howell, and that he was the father, and he was induced to give up a large sum of money for damages, and to pay a handsome allowance each month for the support of the child.

For several months the deception was practiced on Alsip, and when he discovered it, by a mere chance, Morgan was gone. The story got into print, and Alsip was obliged to explain. Since then he has learned that Miss Howell is happily married, and living in the East; that the Scandinavian mother of the child he thought was his, has gone home to the old country, and that the blue-eyed baby has fallen into a good home and the love of a worthy mother who intends to rear it as her own.

The Chronicle of April 1st says: "Morgan's whereabouts remains as much a mystery as ever, but wherever he happens to be his creditors are united in the belief that he will never come back to San Francisco. Mrs. Margaret Morgan, his divorced wife, is firmly of the opinion that the one-time husband has gone to Honolulu, and that from there he may probably go by schooner or trading vessel to one of the South sea islands. She says that he is well known in Hawaii and has some influential friends there, who would help him into any kind of business he cared to engage in. Talking about his disappearance to a friend, Mrs. Morgan said: "Some of the creditors profess to believe that I am in communication with him. This is absolute nonsense. I neither know nor care where he is. I only know that the further away he gets the less chance he will have to further disgrace the honest names of my children and myself. Morgan has always been passionately attached to my youngest girl, and I firmly believed that when he decamped he would attempt to take her with him. So, as soon as I knew of his intention to leave the country, which was four or five days before he went, I hired people to watch the girl, and they never let her out of their sight till after the Australian steamer left. I am positive that he sailed on that steamer, and that his brother Will is hiding somewhere in this part of the State right now, waiting for the next Australian boat."

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

Buffalo Beer
Is dispensed over the bars of the Cosmopolitan, Pacific and Royal saloons at the rate of two glasses for 25c. It is always fresh and cold and life-sustaining. The interchangeable check system leaves you free to obtain one beer at any other saloons, provided you have a check.

BOCK AT THE ANCHOR.
Seattle Brewing Company's Bock Beer doesn't need a doctor's certificate. It is a strength giving beverage and is on tap at the Anchor saloon. *

Any Additions Needed to Your House?

Is your house getting too small for your family? This spring is a good time to add two or three rooms. The improvement won't be costly if you figure with us. Perhaps you'll require new

Mattings, Wall Papers, Window Shades,

or find it advisable to touch up the house inside or outside with a coat of paint.

Think this question over, and if our suggestions are opportune, consult with us. We'll surprise you by making a new house at a small cost to you.

We keep in touch with your needs.

LEWERS & COOKE.

What is the Matter With

G. & J.?

nothing, we should judge, when almost every customer we have for a wheel wants the same fitted with this great tire, and when other makers of high grade bicycles do their best to imitate it.

Read this. We copied it from a letter picked up on Fort street, the original of which we can show you:

"The XXXXXXXX tires which are going forward on your esteemed order have the corrugated tread, and their appearance is very similar to the G. & J., and we believe that with little effort you will be able to place them on a good footing, especially as the fabric and rubber are intended for warm climates, and we feel sure will last as long as the G. & J. tires."

That shows you the standard. Other makers are trying to get something that "will last as long as the G. & J.," and own up that they are making them with the same corrugated tread, to make their "appearance very similar."

The genuine G. & J. tire made by Gormally & Jeffery is to be had only at the Rambler Agency, and the Rambler wheels, that every prefers to ride nowadays, are equipped with this great tire.

We are the Rambler people. We sell the G. & J. tire.

The place to rent a wheel is at

WINTER ALL YEAR.

AN OLD DIARY'S ACCOUNT OF SUMMERLESS 1816.

There Were Some Warm Days in the Spring, but in June, July and August There Were Snowstorms and Ice All Over New England.

The year 1816 was known throughout the United States and Europe as the coldest ever experienced by any person then living. There are persons in northern New York who have been in the habit of keeping diaries for years, and it is from the pages of an old diary, begun in 1810 and kept unbroken until 1840, that the following information regarding this year without a summer has been taken:

January was so mild that most persons allowed their fires to go out, and did not burn wood except for cooking. There were a few cool days, but they were very few. Most of the time the air was warm and springlike. February was not cold. Some days were colder than any in January, but the weather was about the same. March, from the 1st to the 6th, was inclined to be windy. It came in like a small lion and went out like a very innocent sheep.

April came in warm, but as the days grew longer the air became colder, and by the 1st of May there was a temperature like that of winter, with plenty of snow and ice. In May the young buds were frozen dead, ice formed half an inch thick on ponds and rivers, corn was killed, and the cornfields were planted again and again, until it became too late to raise a crop. By the last of May in this climate the trees are usually in leaf and birds and flowers are plentiful. When the last of May arrived in 1816, everything had been killed by the cold.

June was the coldest month of roses ever experienced in this latitude. Frost and ice were as common as buttercups usually are. Almost every green thing was killed. All fruit was destroyed. Snow fell ten inches deep in Vermont. There was a seven inch snowfall in Maine, a three inch fall in the interior of New York state and the same in Massachusetts. There were only a few moderately warm days. Everybody looked, longed and waited for warm weather, but warm weather did not come. It was also dry; very little rain fell. All summer long the wind blew steadily from the north in blasts laden with snow and ice. Mothers knit socks of double thickness for their children and made thick mittens. Planting and sowing were done together, and the farmers who worked out their taxes on the country roads wore overcoats and mittens. On June 17 there was a heavy fall of snow. A Vermont farmer sent a flock of sheep to pasture on June 16. The morning of the 17th dawned with the thermometer below the freezing point. At about 9 o'clock in the morning the owner of the sheep started to look up his flock. Before leaving home he turned to his wife and said jokingly:

"Better start the neighbors soon. It's the middle of June, and I may get lost in the snow." An hour after he left home a terrible snowstorm came up. The snow fell thick and fast, and as there was so much wind the heavy masses piled in great drifts along the windward side of the fences and out-buildings. Night came, and the farmer had not been heard of. His wife became frightened and alarmed the neighborhood. All the neighbors joined the searching party. On the third day they found him. He was lying in a hollow on a side hill, with both feet frozen. He was half covered with snow, but alive. Most of the sheep were lost.

A farmer near Teckisbury, Vt., owned a large field of corn. He built fires around the field to keep off the frost. Nearly every night he and his men took turns in keeping up the fires and watching that the corn did not freeze. The farmer was rewarded for his tireless labors by having the only crop of corn in the region. July came in with ice and snow. On the fourth of July ice as thick as window glass formed throughout New England, New York and in some parts of the state of Pennsylvania. Indian corn, which in some parts of the east had struggled through May and June, gave up, froze and died.

To the surprise of everybody August proved the warmest month of all. Almost every green thing in this country and Europe was blasted with frost. Snow fell at Burnet, 30 miles from London, on Aug. 30. Newspapers received from England stated that 1816 would be remembered by the existing generation as the year in which there was no summer. Very little corn ripened in New England. There was great privation, and thousands of persons would have perished in this country had it not been for the abundance of fish and wild game.

In direct contrast with 1816 appears the year 1827-8, when there was no winter. Captain Daniel Lyon, who died some years ago in Burlington, Vt., used to relate his experience in 1827-8. He was a walking encyclopedia of local events. He said: "I knew but one season when winter was almost like summer, the winter of 1827-8. I was running the steamboat General Green between Burlington, Vt., and Port Kent and Plattsburg, N. Y., and during the year there was not a bit of ice in the whole lake from one end to the other. The old Lake Champlain Steamboat company hauled out the steamboats Phoenix and Congress, and hardly a bit of ice appeared in Shelburne bay, near Burlington, during the winter."

"The Phoenix had a new engine built in Albany, and the whole outfit had to be carried from that city to Shelburne harbor by teams through the mud. At Middlebury, Vt., the mud was more than a foot deep. The Phoenix was rebuilt and ready to launch by Jan. 15. Jan. 18 was the day fixed for the launching, and I took over a large party from Burlington on the General Green. The sun was shining with the warmth of a July day. The women who sat on deck raised their parasols."—New York Sun.

Children's Terrors. Professor G. Stanley Hall of Clark university says that thunder and lightning cause terror to more children than any other one thing, and following in the order named come reptiles, strangers, darkness, fire, death, domestic animals, disease, wild animals, water, ghosts, insects, rats and mice, robbers and high winds. It is pleasant to notice that the fear of ghosts comes very low on the list. Some special forms of dread are to be found in all parts of the country. For instance, the thought of high winds excites no alarm in the east, while in the cyclone states it is a common cause of apprehension.

Gastronomic. "What is nutritious food, Uncle Aleck?" "It is food that is so cheap and plain that many people are ashamed to eat it."—Chicago Record.

BOB COOK'S VIEW.

The Veteran Yale Coach Talks of the Rowing Outlook.

Bob Cook, the great rowing coach of Yale, in the course of a recent talk on his favorite theme, said:

"There is generally nothing so productive of earnest effort and a determination to do good work as the memory of a defeat. I always find it easier to coach a crew the year after a defeat than one which has been victorious. If any bad fault had existed, in spite of which the crew was successful, then that fault is adopted as a part of a successful season. In this way it would grow from year to year as long as victorious crews were turned out. This was one of the purposes of the Henley trip. We wanted to find out just where we stood—to what extent we had departed from the original system. How or why these deviations have been made is scarcely a proper subject for public discussion. But there is nothing like a thorough test to prove it. I believe that there is now only one opinion among the rowing men in college as to the proper method of doing their work, and when they are of one mind coaching is a pleasant task, but when they are of varied opinions coaching is different. The recent rowing of the university crew was very encouraging and showed that Captain Bailey has been working on the right lines and has brought his crew to a degree of development which is exceedingly creditable to him, so far as one can judge at this early stage. In view of Wisconsin's easy victory over the freshmen last year, I think it very questionable whether the westerners will consider a similar race this season worthy of the effort. But they might find it different if they journeyed east again."—New York Sun.

TIMELY TURF TIPS.

The spring meeting at Sanborn, Ia., will occur June 15 to 17.

It will be John Shillinglaw who will pilot the pacer Blizzard, 2:09 1/2, this season.

Andy McDowell has added Wayland W. 2:12, to his stable of campaigners for 1897.

Dave Labounty is jogging June, 2:13 3/4, and the other members of the Snell stable.

The late Thomas Raymond left Klamath, 2:07 1/2, to Gilbert Judd of Santa Anna, Cal.

Josie, the dam of Azote, 2:04 3/4, is still living, but has not produced a foal for nine years.

Direction, 2:08 1/2, Newcastle, 2:11 3/4, and Boreal, 2:15 3/4, will be members of Splan's stable.

The question of the ownership of Bethel may prove an interesting one before it is settled.

William D. Althouse, the proprietor of the Phoenix Stock farm, has gelded his good horse Dauntless.

Findlay, O., horsemen have leased the pacer Maggie J. 2:14 1/2, by Hylas. Trainer Hayes will race her.

William Farrell, who trained last season at Unionville, Conn., has spent the winter at New Berne, N. C.

Governor Clough of Minnesota has bought Cora B. 2:18 1/2, by Decorah, to drive on the road in Minneapolis.

Henry Barnett will place his recent purchase, Rattler, 2:29 3/4, in Al Saunders' stable at Belmont this spring.

Horace Brown, who has trained in Europe for various wealthy owners for some years, will have a public stable this season.

ATHLETIC NOTES.

Harvard's crew candidates are now rowing with their new English oars.

The Olympic club of San Francisco has a new barge that weighs only 165 pounds.

The Yale crew training table is at York Hill, where the football team practiced last year.

T. E. Burke of Boston, who is the fastest man in the country today at 440 yards, has gone into strict training.

Harry Bethune, the professional sprinter, is said to be negotiating for a match with Downer, the Englishman.

Eddie Bloss, the ex-Harvard champion and crack broad jumper of the New York Athletic club, has started training with his customary vim.

All the members of the Yale, Harvard, Knickerbocker Athletic club and New York Athletic club teams have applied to the A. A. U. for registration.

McGraw on Record Playing. "Record playing baseball is the ruin of team work," said John McGraw, the Baltimore crack, the other day. "I'm mentioning no names, but I know a certain player who prides himself on his record as an abductor of bases. He stole as high as 50 bases last season, I believe. But there were other players who stole half as many bases and with that number of steals helped win twice the number of games as the man with the record of 50 to his credit."—Washington Post.

Athletic Dress Reform. The sprinter now upon the track must be both spick and span. For on the coldest, unsightly togs reform has placed the ban. 'Tis purple and fine linen now the hurdle knight must wear, and soon, mayhap, the royal rose will twinkle in his hair.

And then the meagrier togs must less abbreviated be. No "pantalots," as they are called, shall end above the knees. Too low these garments must not come, nor must they climb too high. They must be made to glad and not to shock the public eye.

The A. A. U.'s put down its foot and thundered in its wrath: "Our meetings no'er shall simulate again the Turkish bath. The sprinter'll have to wear a shawl while in the race about. The swimmer for the tank will don a fur lined overcoat."—R. E. Munkittrick in New York Journal.

ITCHING SKIN DISEASES

Instantly Relieved by CUTICURA

A warm bath with CUTICURA SOAP, and a single application of CUTICURA, the great skin cure, followed by mild doses of CUTICURA RESOLVENT (the new blood purifier), will afford instant relief, permit rest and sleep, and point to a speedy, economical, and permanent cure of the most distressing of itching, burning, bleeding, scaly, and crusted skin and scalp diseases, after physicians, hospitals, and all other methods fail.

Sold throughout the world. British depot: F. NEWBERRY & SONS, 1, King Edward-st., London. E. C. POTTER DRUG AND CHEMICAL CORPORATION, Sole Proprietors, Boston, U. S. A.

Women and Women Only are most competent to fully appreciate the purity, sweetness, and delicacy of CUTICURA SOAP, and to discover new uses for it daily. In the preparation of curative washes, solutions, etc., for annoying irritations, chafings, and excoriations of the skin and mucous membrane, or too free or offensive perspiration, it has proved most grateful and comforting. Like all others of the CUTICURA REMEDIES, the CUTICURA SOAP appeals to the refined and cultivated everywhere, and is beyond all comparison the most effective skin purifying and beautifying soap in the world.

A meeting of the Board of Health has been called for this afternoon.

Bedspreads, full size, at best values, are being advertised by N. S. Sachs.

Charles M. Cooke and family are expected back from America in December.

G. A. Howard, of Howard & Train, was a passenger on the Kinan, from Hilo.

Mrs. De R. Ouellette, music teacher is located on Beretania street, near Piikoi.

The ladies will have possession of the Pacific Tennis Club courts this afternoon.

Conductor Colley, of the Oahu railroad, has gone to Kahuku on a brief vacation.

Messrs. H. P. Baldwin and C. A. Spreckels returned to Maui yesterday afternoon.

Service in Central Union church tonight, Thursday and Friday evenings at 7:30 p. m.

Mrs. William G. Irwin will accompany Mr. Irwin to California on the next Australia.

Dr. R. B. Williams, of Hilo, and H. A. Baldwin, of Maui, were passengers on the Kinan today.

Mr. and Mrs. W. C. Wilder will entertain at tea this afternoon in honor of Miss Heneghan.

Love's bakery will have Easter buns for Good Friday and Easter Sunday. Telephone your orders early.

Hot cross buns at the Elite Ice Cream parlors delivered Friday morning. Leave your order in time.

Honolulu Royal Arch Chapter 1, will hold a stated meeting tomorrow, Thursday, evening, at 7:30 o'clock.

Suggestions are offered by Lewers & Cooke regarding improvement to your house this spring. Read ad on page 7.

The Rio de Janeiro is due on Saturday. It is barely possible that she may come in sometime Friday afternoon.

Miss J. E. Kammer, formerly teacher in the night school has gone to Keauhou, where she has been made principal.

F. S. Dodge and son, who have been visiting the volcano, returned this morning, reporting a very enjoyable time.

The Government will play at Ma-kee Island tonight. Charles Kreuter will render the cornet solo, "Don't Be Cross."

The boating party to be given by Miss Kathryn Widdifield on Friday evening has been postponed for a week or so.

Hot cross buns, mince pies, cakes and ice cream, all flavors, for Good Friday, at Horn's bakery. Don't delay your orders.

Hot cross buns and extra mince pie will be delivered from Singer's bakery Good Friday morning. Place your order early.

E. O. Hall & Son publish a letter found by them that shows that other makers of bicycle tires quote G. and J. tires. Read ad on page 7.

Frank Atherton reports the sale of two Sterlings in the past few days and an order for a racer, which will appear on the track June 11.

An auditor and trustee of the Myrtle Boat club will be chosen at a meeting of the members in the Chamber of Commerce hall this evening.

No new cases of smallpox developed at the Quarantine station today. The three patients being treated by Dr. Emerson are getting along nicely.

Lieut. Commander E. P. Wood, of the U. S. S. Petrel called upon Capt. Greene, of the Marion, yesterday. Capt. Greene returned the courtesy today.

The Myrtle Boat Club will hold a meeting this evening at Chamber of Commerce at 7:30 o'clock to elect an auditor and trustee on the board of directors.

Poppleton's Home Bakery, Fort street, will have hot cross buns, cakes and ice cream for Good Friday and Easter Sunday. Telephone your orders today.

The local in yesterday's Star was in error in its statement that Castle & Cooke, Ltd., would handle the Detroit Stove Co's stoves and ranges. They

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. **ROYAL BAKING POWDER CO., NEW YORK.**

will handle the product of the Michigan Stove Co., at the lowest prices.

The regular quarterly meeting of the trustees of the Queen's Hospital will be held at the rooms of the Chamber of Commerce at 11 a. m. Thursday, April 15.

Mrs. Elizabeth Borne Waterhouse, executrix of the estate of John Thomas Waterhouse, deceased, has filed a final accounting, showing a balance on hand of \$103,000.

Mrs. Montague Turner is planning a trip to the States next month. After visiting friends there for a brief time she may go to Australia, passing through Honolulu en route.

Manager Frank L. Hoogs of the Star is the proud father of a bouncing baby girl, who arrived last night and is booked as a star attraction. Mother and child are both doing well.

George Rodiek, of Hackfeld & Company, is back from a trip to Hawaii and Maui in the interests of his firm. While in Hilo Mr. Rodiek made arrangements to open a lumber yard on July 1.

There will be a meeting of the British residents at the Arlington hotel parlors on Wednesday evening April 21st, to consider what steps should be taken for the proper celebration of Queen Victoria's Diamond Jubilee.

There was the poorest attendance at Company B drill last evening that has been known for weeks. The election of a captain takes place next Tuesday evening. Capt. White has not given his consent yet to serve another year.

The Government water pipe system is being laid from the opening of Queen street at Magoonville to the end of the extension of that street. The big gang of workmen employed by Bruce Waring & Company are engaged in grading the streets.

Horn's bakery is exhibiting a handsome wedding cake in their window that will be shipped to Hawaii this week. Friend Herman has the happy faculty of making new and attractive designs. Another cake is being constructed that will be used shortly in Honolulu.

NEW ADVERTISEMENTS.
