Stray Notes.

John Emmeluh is not dead, but writeth.

Representative Keliini is to be honored for the conservative and self-sacrificing stand he took in conference committee.

Kupihea distinguished himself by voting no on the passage of the county bill,—and doubtless extinguished himself as well.

Under the circumstances, the citizens of Wailuku can afford to contribute liberally for fireworks on the Fourth of July.

Little Reggie Vanderbilt slipped his head into the matrimonial noose and it is to be hoped the Nielson will take a few kinks out of him.

It was a mistake of judgment on the part of the House, which they yet have time to rectify, when they voted down Sunday games of baseball.

A canard to the effect that F. B. McStocker is to resign the management Oiaa Plantation is denied by B. F. Dillingham & Co., the Honolulu agents.

The franchise for electric lights and poles for Wailuku has been favorably reported by the Senate Committee and will doubtless pass both houses.

Not one boy from Maui will attempt the competitive examination for the Annapolis plum. Just wait till we get our high school under way at Wailuku.

The sum of \$2000 was voted into the Senate appropriation bill, for hose and hose carts in Wailuku. Call a meeting boys and organize Hose Co. No. 1.

The Turks are resolved to comply with the request of the Powers to restore quiet in Macedonia, and have begun by slaughtering 50 Christians under barbaric circumstances.

Pulau is reported to have asserted that the legislature has power to remove Governor Dole. Come now, Pulau, don't do anything so rash as that, but stick to pounding poi.

Russia declines to remove her troops from Manchuria for fear of bubonic plague. We had supposed it was corn on the toes of the soldiers which had prevented their marching.

If the legislature wishes to confirm the good opinion which it has won from the people, it will drop all further dissensions and finish up all necessary measures within the 60 days allowed.

Governor Dole's suggestion that an officer from the regular army be detailed to instruct our militia in the manual of arms and military tactics is a most wise and timely one, and should be granted.

The Honolulu Board of Health never discovered that Dr. Weddick was not legally entitled to hold the office of trustee of Malulani Hospital, until after Kahikini Ranch failed to get the beef contract. Remember that little item, people of Maui.

A Miraculous Vault.

The most interesting piece of pilgrimage in Dublin is St. Michan's church, where the organ is still to be seen upon which Handel is said to have composed his "Messiah." In the graveyard is the last resting place of Robert Emmet, and the vault at St. Michan's provides a more gruesome thrill than the morgue. The sexton lifts an iron door and descends a few rude steps, carrying a light, without which the place would be pitch dark. You follow and find yourself in a narrow passage, from which cell-like recesses belonging to different families branch off. Whether it is owing to the extreme dryness of the surroundings or to some mysterious property of the place the process of decay has been arrested, and the features of persons dead for two centuries may be recognized from authentic portraits. Here lie the brother Sheares, who were executed for their share in the united Irish conspiracy, side by side with the Earl of Leitrim, who was murdered about thirty years ago. The earl's ancestors for hundreds of years back rest in the same vault. Perhaps the strangest thing about the vault is the fact that, apart from the wierd sensation, there is nothing offensive in the surroundings.—London Tatler.

Scarce Eggs.

The eggs of some common birds of the present day have never been found. There is the robin snipe; its eggs have never been seen. An English zoologist kept a man going up and down the coast of Labrador for weeks purposely to get a robin snipe's egg, but it was in vain. The bird is known by thousands of people, but it breeds so far north and so remote from any civilization that no scientific observer can ever get to its nest ere the young are hatched and have taken to wing. The frigate bird that is so commonly seen at sea on the Pacific and off the West Indies is such a solitary bird and is so seldom seen in its nest during the hours of daylight that its egg is rare. It seems strange, but the egg of so well known a bird as the sandpiper have never been found and are almost priceless.

How a Buffalo Runs.

The world has read the exaggerated description of a buffalo stampede, but I don't believe anybody has ever done justice to the wonderful speed of a buffalo when lost from the herd and trying to catch up, says a man of experience. It is a deceptive gait. The man who never saw it before would swear that he could outrun the animal bare-footed. But the fastest horse ridden by cowboys couldn't catch a buffalo when running alone. Its marvelous lope, steady and enduring, carries it over the prairie at a speed that would make a race horse lie down and cry at the end of the first mile. But the buffalo keeps this gait up all day, and at night his great flanks show no sign of fatigue.

A Very Ancient Snake.

The African cobra ranges from Egypt to the Cape of Good Hope. That it was known in northern Africa thousands of years ago is shown by its familiar appearance in Egyptian hieroglyphics. Near Cape Colony it is almost exterminated, and its destruction is much promoted by that curious and valued long legged hawk known as the secretary bird. Six or seven species of cobra have been distinguished, three of which belong to the Indian region.

Not Yet Ripe.

The physicians were holding a consultation beside the cot of the man supposed to have appendicitis concealed about his person. "I believe," said one of the surgeons, "that we should wait and let him get stronger before cutting into him." Before the other prospective operators could reply the patient turned his head and remarked feebly: "What do you take me for—a cheese?"—Baltimore American.

Lahaina, Maui T. H.

Wailuku, standing in the midst of the most thickly settled portion of Maui, on a site unrivaled for beauty, health and charms of climate, with an abundant supply of pure mountain water and unrivaled natural drainage, has received its crowning honor, in being named as the county seat of Maui County. The next step should be to remove the two old shacks by courtesy called the courthouse and the schoolhouse, and in their place to erect a courthouse in accordance with our present and future needs, for it goes without saying that the county seat will never be moved from Wailuku. The money proposed for this purpose by the legislature is not sufficient, and it should be increased to \$50,000 and made available at once so that the courthouse could be finished and ready for occupancy by the first of next January. Reasonable assurances have been given that a new school building will be erected on the new school lot and this building should be completed by the opening of the September term of school. Necessary legislation should and doubtless will also be enacted to transfer both terms of the Circuit Court to the county seat, beginning with the December term.

English is the official language of the Territory and the Hawaiians wrong themselves and their children by seeking to revert to the official use of the Hawaiian language. We can but honor Hawaiians for the love they cherish for their old queen, their old flag and their old language, because if their hearts are true to those things, they will only the more surely be true and loyal to our present form of government. But the wheels of time cannot turn backward. A new order of things has come, and Hawaiians, who are wise in their own generation, will make all these new things their own, and seek to live in the present and the future, rather than in the past. With some force it may be urged that many Hawaiians, otherwise capable of becoming good and wise legislators are handicapped by an insufficient knowledge of English, but on the other hand, there are as many, if not more wise and capable Hawaiians who do possess the requisite knowledge of English. Opportunities have been presented to all of them in the past to acquire a knowledge of English, and those of them who failed to grasp the opportunity must fall behind in the race. Hawaiians who hope to ultimately acquire statehood can find no broader or straighter road to that goal than that of a thorough and exclusive use and knowledge of the English language.

There has been some very funny business doing with Malulani Hospital, which leads the NEWS to coincide with the legislature in the proposition that it is about time for Maui to take over its local institutions and stop all meddling with our affairs by that autocratic coterie in Honolulu known as the Board of Health. Dr. J. Weddick, L. M. Baldwin, and Sister Bonaventure constituted the Board of Local Trustees and their management of Malulani Hospital was in all respects intelligent, economical and praiseworthy. Without rhyme or reason, this Board of Trustees was removed, and in their places were named Dr. Raymond, C. B. Wells and Senator Kaiue, all good men enough, but the whole transaction is tainted with the smell of an abortive beef contract.

An Advertiser editorial and a communication from the Tubbs Cordage Co. of San Francisco throw a brilliant sidelight on the cultivation of sisal on the Islands. Dry, stony grounds, apparently as useless as an alkali sage brush desert in Arizona, produce "an excellent fiber, plenty long; very strong; an A 1 fibre." Concerning the Manoa specimen grown in sandy land where there is a large rainfall, the report reads: "more than excellent fibre; is extra long; very strong, and is the best sample of this fibre that I have ever seen." This should encourage sisal culture on all the Islands, especially on Maui where water power can be had for sisal mills, and large areas of sandy lands in the rainy districts are now absolutely nonproductive.

Baseball season has arrived, with the assurance that we will have a successful season, marked with exceptionally clever and some brilliant games. Four teams about equally matched have entered the lists, and no one can guess the winners at present. There is no better method of developing a splendid manhood in our young men than by encouraging them in a generous rivalry in athletic sports. Baseball, polo and foot ball on Maui should be fostered, until our games, even if they do not become so historic as those of Greece, shall acquire a traditional interest to our children's children.

Assurances have been received from Honolulu which confirm the wisdom of the Maui Racing Association in its decision to reclaim the Fourth of July as race day. Substantial purses have been offered by the Association, and the indications are that Maui is to have one of her old time famous racing days on the Fourth,—racing events which were formerly honored by the presence of royalty itself. The result of last year's races was to encourage the purchase of several horses on Maui for this year's races, and next year will probably see some very fast Maui horses.

Local option is a fair proposition and the vote of the majority in each district should decide the question of "wet or dry," but the NEWS can hold out but cold comfort to those ar circulating the local option petition in Wailuku District. In the first place, the legislature is not going to pass any local option measure, and in the second place if it should do so, the people of Wailuku District would vote "wet" by a large majority. Still, by all means let us have local option.

THE RACE PROGRAM

The newly elected officers of the Maui Racing Association have taken hold of their work with a vim which means success. The tentative program, given below was prepared by the Executive Committee and is substantially what will be offered on the Fourth, subject only to such changes as may seem beneficial. Copies of this program have been forwarded to prominent racing men in Honolulu, to whose suggestions reasonable heed will doubtless be paid by the Association, which at its monthly meeting, May 4, will definitely settle on the program.

Following is the proposed program:

Death of Frank Silva.

Mr. Frank Silva of Waikapu, for many years a luna on Wailuku Plantation, died at his residence at Waikapu last Sunday evening. Mr. Silva had been in failing health for some time, and his demise was not entirely unexpected. The funeral services were held on Tuesday under the auspices of his lodge, several members, as well as a delegation from Lahaina Lodge coming over from Lahaina to attend. The remains were escorted from Waikapu by the members of the lodge to the lodge in Wailuku, where the funeral ceremonies were held, after which a large cortege of carriages containing friends of the deceased followed the remains to their last resting place in Wailuku cemetery.

To Interest Tourist.

C. L. Clement, editor and publisher of Sidlights was an arrival from Honolulu per Mauna Loa last evening. Mr. Clement has had a conference with transportation companies and others interested in encouraging the Tourist trade to these Islands.

The object of Mr. Clement's visit to Maui is to make arrangements for a series of specially contributed articles on the various points of interest on this island. He will remain on Maui for several days, leaving on Tuesday's Kinnu for Hilo.

7 to 4.

Lithe as young tigers and fit as a kid glove, the famous Morning Stars made their initial bow to the Maui ball-loving public on Sunday and scored 7 to 4 against the Wailuku cracker-jacks, in one of the prettiest games ever played on the Maui diamond. As the News suggested last week, the Wailukus contain good timber and have at least an even show of winning the championship, it being bad luck, as well however as two or three expensive errors which prevented a tie score.

The Stars won the toss, went to the bat, and by sheer force of habit scored two runs before the Wailukus had time to wake up and put out their lights, J. Garcia and Crowell scoring, 2 runs.

Then the Wailukus grabbed the hickory, and took their medicine as follows; Holt out at first, Cornwell flew out to A. Garcia and Cummings fanned out.

In the second inning the Wailukus began to play the real article. Jackson of the Stars flew out to Huakini, Meyer ditto to Holt and Ross ditto to Waiwaiole.

By this time the Wailukus were beginning to feel chesty. Wright oated safe to first, and Waiwaiole followed suite, Wright dying on second. Thompson rapped one of his three-baggers, bringing Waiwaiole home. Huakini fanned out and Hose died at first. 1 run.

3rd Inning. Stars. Crowell flew out to Hose; J. Garcia fanned out; Smith, base on balls; Palapala fanned out.

Wailukus. Crook out at first on weak bunt; Holt rapped a lawn mower for first and stole second; Cornwell out at first; Cummings safe to first, bringing Holt over home plate; Wright flew out to Crowell. 1 run.

4th Inning. Stars.—A. Garcia out on foul fly to Cummings; Krueger base on balls; Jackson lined a two-bagger, pushing Krueger to third. Meyer fanned out; Ross safe to first, bringing Krueger home. Crowell rapped a two-bagger, bringing Jackson and Ross home; J. Garcia flew out to Cummings. 3 runs.

Wailukus. Waiwaiole safe to first; Thompson flew out to Palapala, who double-played Waiwaiole, catching him on his retreat from an attempted second; Hose, safe to first and stole second; Crook flew out to Ross.

5th Inning. Stars.—Smith flew out to Cummings; Palapala base on balls; A. Garcia out at first; Krueger safe to first, bringing Palapala home; out at second. 1 run.

Wailukus. Holt out at first; Cornwell ditto; Cummings flew out to Palapala.

6th Inning. Stars. Jackson safe to first; Meyer ditto; Ross fanned out; Crowell flew out to Palapala; J. Garcia ditto to Cummings.

Wailukus. Wright out (hit by batted ball); Waiwaiole safe to first; Thompson plugs a three-bagger; bringing Waiwaiole home; Huakini, out at first; Hose, ditto. 1 run.

7th Inning. Stars. Smith safe to first; out at second; Palapala safe to first and captures third on error at first. A. Garcia, safe to first, takes third on error at first, (bringing Palapala across the plate.) Krueger fanned out; Jackson, base on balls; Meyer out at first. 1 run.

Wailukus. Crook safe to first, but touched out; Holt out at first; Cornwell safe to first; Cummings flew out to J. Garcia.

8th Inning. Stars. Ross flew out to Crook; Crowell smashed a two-bagger; caught at third; J. Garcia flew out to Wright.

Wailukus. Wright, out at first; Waiwaiole, safe to first, steals second; Thompson safe to first; Huakini flew out to Krueger; Hose safe to first, bringing Waiwaiole home; Crook flew out to Palapala. 1 run.

9th Inning. Stars. Smith fanned out; Palapala ditto; A. Garcia safe to first; Krueger made a two-bagger, pushing Garcia to third; Jackson flew out to Wright.

Wailukus. Holt smashed a three-bagger; Cornwell out at first; Cummings safe to first, and Holt caught at home plate; Wright safe to first; Waiwaiole safe to first. At this point excitement reached a fever heat, with Cummings on third, Wright on second, Waiwaiole on first, and tremendous Thompson at the bat. The score then stood 7 to 4 in favor of the Stars, but if Thompson lifted her, the score would even up. Thompson lifted her, and three swift pairs of legs carried three human catapults across the home plate. In the mean-

time, Thompson's ball was soaring somewhere up in the blue ether. Finally it started earthward, headed for somewhere away off in the right center field. But, for the honor of the Stars Joe Ross was out there, eagle-eyeing and side-stepping; and as the sphere majestically descended Joe enfolded it in his paws and pressed it to his bosom.—and the score still stood 7 to 4, in favor of the Stars.

Following is the score by innings:

1 2 3 4 5 6 7 8 9
 M. Stars — 2 0 0 3 1 0 1 0 0 — 7
 Wailukus — 0 1 1 0 0 1 0 1 0 — 4

Tomorrow's game will be the initial contest for honors between the Ilimas, (Kahului) and the Lahainas, and the only certain guess is that both teams cannot win. The Ilimas have some individual players who outrank anything in the Lahaina team, but the Kahului team is a new one, and plenty of team work will be needed to develop its strength. The Lahainas are all good ones, and they have the advantage of a year's team work, which counts in a hotly contested game. All in all, tomorrow's game will prove well worth seeing.

Judge S. E. Kaleikau Passes Away.

On Tuesday afternoon, Judge S. E. Kaleikau died at his residence at Waihee of heart failure, after a week's illness. His death was unexpected. The remains were interred at Waihee on Wednesday afternoon.

Judge Kaleikau was born at Honokahau, North Maui, 49 years ago, where he spent his childhood. He was a pupil and graduate of Lahainalua. On reaching manhood, he removed to Wailuku, and in 1880 became a member of the Wailuku police force, which position he held for a number of years. Afterwards he studied law in the office of Attorney John Richardson for two years. About 1893, he was appointed District Magistrate for Honouuaula, District of Wailuku, which position he has ever since creditably filled, often presiding at Wailuku during the absence of the presiding magistrate.

Judge Kaleikau was a high type of his race, stately and dignified in manner and upright in character. He leaves a wife and one daughter.

County Bill Passed.

On Tuesday evening last the News received a wireless message from Representative Keliini, announcing that the conference committees from the Senate and the House had agreed on the county bill, and that it would be reported and adopted. Later papers from Honolulu confirmed his prediction, as both Houses passed the bill as agreed upon, and it was sent to Governor Dole for his approval.

The bill as passed is practically the one introduced in the Senate, with some few modifications. District Magistrates are to be appointed by the Boards of Supervisors of the different counties. Oahu has seven supervisors, and each of the others five. No change was made in the section which names Wailuku as the county seat.

Electric Lights at Kahului.

Supt. R. W. Filler of the K. R. R. Co. has just completed the installation of an electric light plant at Kahului, by which the work in the yard and on the wharf can be carried on by night almost as well as by day.

The system includes 100 lights, of which five are arc lights, the remainder being incandescent lamps, and when they were first turned on for practical work on Tuesday evening last, they proved a perfect success. The offices and warehouses are all amply supplied with lamps, but the system has not been extended to general public service, and will only be used when needed by the company for yard and wharf work.
