## Chinese Immigrants are Barred Out of Cuba

Havana, June 15.—The Board of Immigration has decided that forty-three Chinese laborers who came to Havana on board the Ward line steamer Monterey from New York and reached here last Wednesday, would have to be returned to New York by the steamship company. Heretofore Chinese have been allowed to enter Havana without restriction and thousands have landed here in the course of the last three years. An immigration law, however, similar to the one enforced in the United States, went into force last May, and the case of these Chinese has resulted in the first application of this law. The forty-three Chinese in question came direct from China, and were shipped in bond from Vancouver through New York to Havana.

The Ward line has asked the privilege of shipping the Chinese to Mexico instead of returning them to New York, as the Chinese themselves have requested to be sent to that country. The Board of Immigration has not yet given a decision in the latter matter.

## BROWN'S CASE FALLS THROUGH

Maile Saloon Bartender Discharged This Morning.

## MR. AND MRS. THWING WISH TO ADOPT ORPHAN

Contempt of Court Case Under Adjudication—Several Probate Matters Before Different Judges.

Thomas Nash, a bartender in the Maile saloon, was brought before Judge Humphreys this morning under a warrant charging him with selling liquor without a license. He was immediately discharged on the entering of a nolle prosequi. The charge was sworn to by L. E. Twomey, who had bought a drink of gin at the Maile bar. C. H. Brown, a former partner in the saloon and its licensee, instigated the prosecution, claiming that his withdrawal from the firm made the license void. There was no transfer of the license by the Treasurer, E. A. Dougherty, Assistant Attorney General, asked for the nolle prosequi. Frank E. Thompson appeared for the defendant.

Eliza S. Wilder, executrix of the will of the late Wm. C. Wilder, has filed a petition for discharge. Gardner K. Wilder, Chas. T. Wilder, W. C. Wilder and Harry A. Wilder, the remaining devisees and legatees, file their contentment and satisfaction with the administration, waive the filing of accounts and inventory, and pray that the petition of the executrix be granted.

The accounts of Kate W. Cooper, guardian of Henry Cooper, were referred by Judge Gear to A. G. Kauaiou for a master's report thereon.

Keiki, widow, was appointed administratrix of the estate of Kaia Kanakale, under \$100 bond.

Helen G. Henshall has petitioned for discharge as executrix of the will of W. A. Henshall.

Judge Robinson heard and took under advisement the contempt of court case of Maile vs. Achi.

Judge Gear appointed W. E. Rowell administrator of the estate of Malvina J. Rowell, under a bond of \$10,000.

A demurrer has been filed in the divorce case of Lelaola Carroll vs. John W. Carroll.

Edward W. Thwing and wife have petitioned for leave to adopt, with heirship rights, Harold Knudsen, an orphan boy five years of age, now in the Castle Home.

## Party Integrity Threatened AND ADMINISTRATION WORRIED By Fight Over Cuban Tariff

Washington, June 14.—The political consequences of the Administration's insistence upon Cuban reciprocity are furnishing food for reflection. Great stress was laid some days ago by the reciprocity leaders on the fact that the State convention of Ohio, Indiana and Kansas had advocated reciprocity. Now the question is what will the Administration say when other States take an opposite view, and in no uncertain terms. This was the subject of discussion at one of those early breakfasts at Senator Hanna's house this morning. The President, Secretary Root and Postmaster General Payne breakfasted with Hanna and talked for two hours on the political complications flowing from the reciprocity scheme.

Payne is opposed to the reciprocity plan. He is not offensive in his opposition, but as a shrewd politician he knows that the House of Representatives is endangered if the tariff reduction bill goes through. He knows what the public sentiment is in Minnesota, Wisconsin and Michigan, and has, no doubt, informed the President that those States are not in sympathy with the reciprocity move. Minnesota is to hold a Republican State convention in a few days. Governor Van Sant was here some days ago, and while here agreed that Senator Nelson should dictate the party platform in that State. Van Sant wants to be re-elected and needs the support of Nelson and Clapp. The Senators, on the other hand, want to be endorsed by their State in the attitude they have taken against reciprocity.

Will Denounce Reciprocity. Senator Nelson is now engaged in framing the platform to be adopted by the Minnesota Republicans, and one of the strong paragraphs will be a denunciation of the Cuban reciprocity scheme. The Minnesota delegation held an informal meeting today and agreed to stand solid against reciprocity, and will use their influence to obtain an unequivocal statement from their State convention. Such dark complications as this looming up on the horizon are giving the President uneasiness. Postmaster General Payne has used his influence to prevent the threatened split in the party ranks, but apparently without avail. This morning's conference with Senator Hanna unquestionably dealt with the national political situation as affected by Cuban reciprocity. Unless Hanna and Payne can bring the discordant elements into line this fall's campaign will be strenuous enough even for Roosevelt, with Minnesota.

Michigan, Wisconsin and other States repudiating the Administration's policy. There were informal talks between the opposing sides today, but nothing was accomplished. The best sugar stalwarts are to meet tomorrow night and go over the situation carefully, framing their plan of action for next week, which is likely to see a decisive result. Several leading stalwarts, including Perkins, said today that they stood solid and would not budge. They predict the adoption of the House bill by the Senate if the reciprocity Senators press their bill.

Pledge Has Been Signed. It is now positively known, notwithstanding denials, that fifteen Senators signed a pledge, which is in the hands of Senator Burrows. Burrows denies that he has such a paper, but certain Senators who signed it admitted the fact and even quoted its contents. It begins: "We, the undersigned Republican Senators," and goes on to recite that in the best interests of the country and the party the signers pledge themselves to vote for the House bill and against all other bills and amendments, except an amendment to substitute a rebate for tariff reduction.

## CIVIL SERVICE RULES

DRAFT SUBMITTED BY GOVERNOR IN COUNCIL  
Loan of Stone Crusher to United States Government for Naval Station—Liquor License Renewal.

Much of the time of the Executive Council was again occupied this morning over the matter of Government officials in politics. Governor Dole submitted a draft of rules, which he declined to give out for publication after the meeting as not having been issued or even definitely formulated. He requested the heads of departments each to furnish a list of employees. Attorney General Dole was ready, submitting a letter containing the following statement:

"I have the honor herewith to submit the statement which you requested relative to the nationality and rate of pay of officers and employees in my department.

"The total number of officers and employees in the department is 315, of whom 228 are of the Hawaiian race and 87 are of other races. The 87 includes all persons not of the Hawaiian race, whether born in these Islands or not; they are, in the main, white persons, born here or in the States."

A request was received from Admiral Merry for the loan of a stone crusher to smooth over the work being done on the Naval Station ground by the Japanese Ballasting Co. On motion of the Attorney General the request was granted.

The Waimea Wine Co., Kauai, was granted a renewal of its dealer's license.

## MARCUS ISLAND BOAT

Captain Rosehill of this city, who went to the Coast with W. C. Peacock recently for the purpose of securing a suitable schooner for the Marcus Island and fertilizer trade, left San Francisco on the 14th instant in charge of the schooner Julia E. Whalen.

The purchase of the Whalen, formerly owned by the famous "Commodore" Weaver, was exclusively reported in the Bulletin a few days ago. The Whalen will ply between Marcus Island and this port.

The Elks' Ping-Pong tournament started Saturday afternoon last and continued during the evening and this afternoon at 7 o'clock and continuing until midnight, the remainder of the preliminaries will be played. Saturday's results were as follows: F. M. Brooks defeated P. M. Rice; C. S. Holloway defeated F. M. Brooks; Henry Roth defeated J. L. Rockwell; F. H. Richardson defeated A. V. Gear; H. P. Roth defeated H. D. Couzens.

J. P. Rodrigues has a notice to his patrons in today's issue. See New Today on page 8.

## HUNGARY WANTS NO SUGAR BOUNTIES

Budapest, Hungary, June 12.—The Finance Minister, Dr. de Lukacs, announced in the Hungarian Diet today that he will shortly introduce a bill providing for the abolition of sugar bounties in Hungary, and will make proposals which the Government thought would be beneficial to the sugar industry of the country.

## WILL PAINT THE RAILS

When the rails laid by the Hawaiian Tramways Co. three years ago were exposed to the sunlight this morning, it was seen that they had become very much corroded over the entire surface excepting the bottom.

President Thurston and Manager Ballentyne of the Rapid Transit Co., upon seeing the damage wrought by chemical action in so short a period, determined at once to profit by the object lesson. They determined to have their rails painted before covering with ballast. It was judged that the corrosion was hastened by the use of salt water for a time in watering the tracks.

## ODD FELLOWS' MEMORIAL

The Odd Fellows of the city held memorial services for their dead yesterday afternoon, these taking place in the hall on King street. E. R. Henry acted as district deputy in place of J. D. McVeigh, absent, and D. P. Lawrence acted as secretary. Rev. Alex. MacIntosh served as chaplain in the hall and Dr. Rodgers performed the same service at the cemetery. Remarks were made at the cemetery by Rev. A. Mackintosh, J. Lightfoot and G. J. Fishel and the graves of the departed brethren at Nuuanu, Makiki and Kalaheo were decorated. There were in the neighborhood of a hundred Odd Fellows present.

## MEETINGS AT CAMP

The Y. M. C. A. held its Sunday afternoon service at 4 o'clock yesterday at Camp McKinley, where they went by a special invitation. Mr. Trent was to have delivered an address, but as he was called away quite unexpectedly, his place was taken by W. A. Bowen, who spoke on the text, from Paul, "Not Disobedient."

There was a large and attentive audience present and at the end of the meeting an invitation was given to the Y. M. C. A. people to hold their meetings at the camp every Sunday. While it will not be feasible to accept this invitation to its full extent, the Y. M. C. A. has decided to hold meetings at the camp every two or three weeks if possible.

## Committee of Senators May Visit the Islands

Washington, June 13.—In the Senate today a resolution was offered by Mitchell of Oregon, directing the Committee on Pacific Islands and Porto Rico to inquire into the general condition of Hawaii, the administration of affairs there, the quality, condition and value of the public lands in Hawaii; the crown lands and the title of the former Queen therein; with power to sit during the recess and by sub-committee to visit the Islands if necessary and to report at the beginning of the next session.

Hoar proposed an amendment to the resolution, providing that the committee should inquire whether the former Queen has any claim against the United States, legal or equitable, by reason of having parted hitherto with her title. Mitchell accepted the amendment and the resolution was referred to the Committee on Pacific Islands and Porto Rico.

The resolution also directs investigation of the granting of franchises or other privileges, immigration, condition of labor and all other matters pertaining to the executive, legislative, judicial, educational, tax, school, financial and other systems of the Islands.

## RAPID TRANSIT CO. WORKING ON KING

Last night at about 12:45 o'clock the Rapid Transit Company began its work of building the line which is to run from Alapai street along King street to connect with the company's Palama line. About 250 men were engaged in the work and started by tearing up the Hawaiian Tramway Company's girder rails in Palace square which had been laid by that company as an obstruction track.

This track was ordered removed by Superintendent of Public Works J. H. Boyd some time ago on the ground that it was a nuisance. This order was not heeded, however, so the Rapid Transit decided to tear up this track themselves as their franchise permits them to use the entire length of King street for their track.

This morning they were torn out and the roadbed for the Rapid Transit tracks being prepared as far down as Camarinos' place and as the company intends to keep a large gang at the work to rush it through, the connection will undoubtedly be completed very soon.

## CLUBS IN QUANDARY

PRECINCTS WILL HAVE TO MEET BEFORE FRIDAY  
Government Employees Are On Most Every Ticket—Seventh of Fifth A Very Good Illustration.

The precinct clubs of the Fourth and Fifth Districts are in a quandary just now and are uncertain just what to do. All this has come about by means of the beautifully vague letters of instruction as to non-participation in politics, sent out by Governor Dole as soon after his return as he could possibly manage. Not only people who have nothing to do with any Government position in any way, shape or manner, but Government employees themselves, are criticizing Mr. Dole for the stand he has taken. The consensus of opinion is that, if anyone is to blame for the defeat of the Republican party in the fall election, it will be the Governor.

The mandate, order or whatever it might be, which was sent out by Governor Dole after, and not before, the precinct clubs had met and made their nominations, has simply disintegrated the party and some very rapid action will have to be taken if the Republican party expects to present any kind of an organization in the fall elections.

On next Friday night the club must come together and elect the officers which it has nominated.

The Governor's order makes it incumbent that nearly all the precinct clubs shall meet again before that time because, on nearly every ticket, there are a number of Government employees.

The Seventh Precinct of the Fourth District furnishes a very good illustration of what the situation is. The story may be made very short by simply giving the following nominations made on the evening of the 13th inst.:

Judge Wilcox, president; Isaac Sherwood, clerk in the Auditor's office, secretary; J. L. Holt, Tax Office employe, assistant secretary; K. R. G. Wallace, secretary Board of Fire Commissioners, treasurer; Wm. Henry, jailor, judge of election; Joe Kalana, employe under Road Board, Charles Clark, superintendent of Kalihii Detention Camp, and Benj. Zablan, clerk District Court, executive committee.

## NEW INVENTION BY MARCONI.

London, June 13.—In the course of a lecture tonight before the Royal Institution of Great Britain, William Marconi announced that he had invented a highly sensitive magnetic detector of electric waves, by which it was possible to read about thirty words per minute in wireless telegraphy.

Cars were run at regular intervals over the King street extension yesterday and the service proved most satisfactory.

Washington, D. C., June 13, 1902. "Breckons, U. S. Attorney, Honolulu. The President has commuted sentence Casanha to thirty days in jail. You may order his release termination that period. Formal warrant of commutation to you by m'l.

"KNOX, Attorney General."

Under authority of the foregoing telegram, the aged and consumptive Portuguese, Casanha, was released from Onahu prison and restored to the companionship of his wife and family this morning. He had served nearly sixty days of the seven months to which he had been sentenced under conviction on two indictments for distilling liquor unlawfully. Fines and costs aggregating \$700 were included in the sentences, though the lowest the law allowed. Whether the money penalty is remitted by the President's commutation of sentence may only be certainly known when the document itself comes to hand.

None of the Federal officers threw any impediment in the way of the efforts made to procure executive clemency. Attorney J. M. Vivas, who defended the prisoner, says that the happy result for the distressed family is only what the Portuguese colony anticipated when the petition was sent to President Roosevelt.

And now it is the hackmen who are trying to drum up business. Yesterday, one of these men started up a story that there were hot springs up in the crater of Punahoa. On the strength of this he succeeded in securing five passengers who wanted to see the latest development of volcanic activity in the Islands. These people are spreading the warning broadcast today.

The cricket match played on the Maiki grounds last Saturday afternoon, as a game preparatory to the coronation match, was very closely contested. Vice Captain Boardman's team defeating Captain Morse's by 7 to 5. The feature of the game was the play made by Blackman who carried his bat throughout the innings for 41 runs. The Territorial band returned from Kauai yesterday in the W. G. Hall. The boys arrived in Nawiliwili last Tuesday and since that time performed at eighteen different places, beginning at Lihue. Among the places where performances were given were Hanamaulu, the Lihue hotel, the residence of Dr. Watt, the Rices, George Wilcox, Nawiliwili beach and other places. Kappelmeier Berger speaks of the trip with very much satisfaction.

POLITICS ON MAUI HOME RULERS FIRST TO GET INTO LINE Two Delegates From Waiehee to Convention Here—Kawaihoe and Kookoo the Men Chosen. Wailuku, June 21.—The Home Rulers of Waiehee held a meeting at that place last Wednesday evening for the purpose of sending two delegates to the convention at Honolulu. There were nearly sixty present, but Kolihi, the chairman of the meeting, was the lone Home Ruler from Waiehee who ruled the meeting. There were forty Democrats in the meeting and over ten Republicans, but there were only five Home Rulers present, and four of them were from Wailuku, viz.: Hons, S. E. Kalue, Solomon Kawaihoe, C. L. Kookoo and Kalliehu. So to Kolihi was left the most solemn duty of nominating and electing Hon. Solomon Kawaihoe and C. L. Kookoo as delegates from Waiehee to the Honolulu convention. The Home Rulers of Waiehee attempted to hold a meeting to ratify the election of the delegates on Thursday evening, but the threatening aspect of the heavens frustrated their best endeavors to bring the people together in sweet communion, so the meeting was postponed to the sweet "mahope." An attempt at Wailuku by the Home Rulers to hold a meeting for some purpose met with similar failure. This Saturday evening, however, the Wailuku Home Rulers under the able guidance of Hon. S. E. Kalue, President of the last Senate, will hold a big meeting and a great crowd is expected for Wailuku is the hotbed of the Home Rulers, and Mr. Kalue is a leader able enough to hold together his constituents. The Democrats have not yet made a move, although the leaders are not sleeping. T. B. Lyons has received campaign literature from the home office and will soon startle Wailuku with his capacity as a campaign "boss" among Maui Democrats. The Republicans will meet at the courthouse next Friday evening, June 27, for the purpose of electing officers and committees for the precinct club. Judge Kalua is still a candidate for office of president of the precinct club, for as a Federal official he has not received direct notification not to participate in active politics, for Judge Kalua is a believer in work as the only salvation for any party. The Territorial officials, however, will refrain from any participation in politics, and some of them would gladly halt the mandate if it went to the extent of keeping them away from the ballot box, for that would be the most sensible way of refraining from active politics. So, at the meeting next Friday evening, the government officials will keep out of politics, and will let the others do things to suit themselves.

CHINAMAN'S BODY FOUND ON BEACH Wailuku, June 24.—A well dressed Chinaman about thirty years of age was found dead on the beach at McGregor's Landing near Maalea Bay last Wednesday afternoon. The body had evidently been in the water for three or four days according to the belief of Dr. J. Weddick, who viewed the remains. There were no marks of violence on the body, excepting a few scratches on the forehead, apparently done by the action of the waves dashing the body on the coral beach. Coroner Baldwin subpoenaed the following jury: Antonio de Rego, W. H. King, W. T. Robinson, Manuel Dutro, J. Nua and V. A. Vettesen. They made a careful examination of the body and on Thursday afternoon the remains were interred in the cemetery at the sandhills, Wailuku. On the following morning, however, the body was exhumed so as to allow a couple of Chinese from Kilauea to examine it for the purpose of identification, for a certain Wong Tuck, a Chinese tailor at Kilauea, has been missing since Sunday morning, the 15th inst. The face, however, was so far gone owing to its advanced stage of decomposition that the men were unable to identify the body and so the remains of the unknown Chinaman were ordered buried, not to be disturbed again until such time as a general order is made for the removal of the bones of all Chinese within this Territory to the Fatherland. The coroners have not sat yet but it is expected that they will return a verdict of death by suicide.

### PARTY INTEGRITY THREATENED AND ADMINISTRATION WORRIED BY FIGHT OVER CUBAN TARIFF

(Continued from Page 1.)

This signed pledge, an unprecedented thing, was drawn for the purpose of holding fast certain wavering Senators, who said they were against reciprocity, but who it was feared would desert when the pinch came.

One of these uncertain Senators was Mason of Illinois, who was induced to sign the pledge. The other signers were Clapp, Nelson, Mitchell, Burrows, Elkins, Scott, Perkins, Bard, Millard, Wellington, Kittredge and Stewart. Gamble, Dietrich and Kearns were absent, but were expected to sign later. Kearns, however, gave notice that he was under such obligations to Senator Hanna that he could not sign. It is understood that Gamble and Dietrich signed the pledge. At any rate, they are as stalwart as the others. Simon of Oregon is absent, but will be paired on the question. Foster of Washington, who has been against reciprocity, now gives signs of weakening, and is not counted among the fifteen stalwarts.

#### The Spooner Compromise.

Certain influential Administration Senators think they can see a way out of the tangle, by having one of the best sugar Republicans offer an amendment to the Spooner "compromise" plan providing, in addition to its present limitations, that the President shall be empowered to suspend the reciprocity agreement whenever it is found, in operation, to work injury to any American industry. Of course, sugar is the industry referred to, and it is alleged that from the prevailing prices under the new law it would be possible to tell whether Cuban competition was resulting in lower prices for American sugar, and so injuring the beet raisers. The reciprocity Senators believe that some modifications of this sort, proposed by one of their own number, would bring into line all the "insurgents" of both Senate and House. It is also argued in behalf of this plan that it proposes reciprocity strictly in line with that advanced by President McKinley at Buffalo, which he said should not injure any American industry.

### ROOSEVELT SENDS A CUBAN MESSAGE

Washington, June 12.—The President today sent the following message to the Congress:

"The Senate and the House—I deem it important, before the adjournment of the present session of Congress, to call attention to the following expressions in the message which, in the discharge of the duty imposed upon me by the Constitution, I sent to Congress the first Tuesday of December last:

"Elsewhere I have discussed the question of reciprocity. In the case of Cuba, however, there are weighty reasons of morality and of national interest why the policy should be held to have a peculiar application, and I most earnestly ask your attention to the wisdom, indeed, to the vital need, of providing for a substantial reduction in the tariff duties on Cuban imports into the United States. Cuba has in her constitution affirmed what we desired, that she should stand, in international matters, in closer and more friendly relations with us than with any other power; and we are bound by every consideration of honor and expediency to pass commercial measures in the interest of her well being."

#### Quotations from McKinley.

"This recommendation was merely giving practical effect to President McKinley's words when, in his message of December 5, 1898, and December 5, 1899, he wrote:

"It is important that our relations with this people (of Cuba) shall be of the most friendly character and our commercial relations close and reciprocal. We have accepted a trust, the fulfillment of which calls for the sternest integrity of purpose and exercise of the highest wisdom. The new Cuba yet to rise from the ashes of the past must needs be bound to us by ties of singular intimacy and strength if its enduring welfare is to be assured. The greatest blessing which can come to Cuba is the restoration of her agricultural and industrial prosperity."

#### Plea from Cuba.

"Yesterday, June 12, I received by cable from the American Minister in Cuba, a most earnest appeal from President Palma for legislative relief before it is too late, and his country financially ruined." The granting of reciprocity with Cuba is a proposition which stands entirely alone. The reasons for it far outweigh those for granting reciprocity with any other nation, and are entirely consistent with preserving intact the protective system under which this country has thriven so marvelously. The present tariff law was designed to promote the adoption of such a reciprocity treaty, and expressly provided for a reduction not to exceed 20 per cent upon goods coming from a particular country, leaving the tariff rates on the same articles unchanged as regards all other countries. Objection has been made to the granting of the reduction on the ground that the substantial benefit would not go to the agricultural producer of sugar, but would inure to the American sugar refiners. In my judgment provision can and should be made which will guarantee us against this possibility, without having recourse to doubtful policy.

### TO ADMIT CUBA AS STATE

Washington, June 14.—Senator Elkins today introduced a joint resolution in the Senate providing for the annexation of Cuba and its admission as a State of the Union. The resolution grants the consent of Congress to the erection of the Republic of Cuba as a State of the Union, "to be called the State of Cuba, with a republican form of government, a constitution to be adopted by the people of said republic by deputies in convention assembled with the consent of the existing government."

A condition is specified that the constitution of the proposed State shall be submitted to Congress not later than January 1, 1904. There is also a provision that the debts of Cuba shall not become a charge upon the general government. There is also an alternative provision giving the President, if he prefers, power to proceed in a more direct way for Cuba's admission as a State. This provision permits the admission under the terms of the resolution itself, "instead of proceeding to submit the resolution to Cuba as an overture on the part of the United States." If this latter course is pursued, a State is to be formed "out of the present Republic of Cuba, with a republican form of government, and with representatives in Congress, and be admitted into the Union by this act, on an equal footing with the existing States as soon as the terms and conditions of such admission shall be agreed upon by the governments of the Republic of Cuba and the United States."

The resolution provides for the appropriation of \$100,000 to carry its provisions into effect.

Senator Elkins, speaking of the resolution introduced today for the annexation of Cuba, said that Texas was admitted under precisely the same terms as this resolution provided for Cuba. He said he preferred the admission of Cuba in preference to granting \$6,000,000 a year on her account out of the revenues without knowing where it would go. By providing for the admission of Cuba there would be no differences in the Republican party on the subject of tariff relations with the island.

such as a bounty in the form of a rebate.

#### Not Tariff Discussion.

"The question as to which, if any, of the different schedules of tariff ought most properly to be revised does not enter into the matter in any way or shape. We are concerned with getting a friendly reciprocal agreement with Cuba. This arrangement applies to all the articles that Cuba grows or produces. It is not in our power to determine what these articles shall be, and any discussion of the tariff as it affects special schedules, or countries other than Cuba, is wholly aside from the subject matter to which I now call your attention."

#### Hawaii an Example.

"Some of our citizens oppose the lowering of the tariff on Cuban products, just as three years ago they opposed the admission of the Hawaiian Islands, lest free trade with them might ruin certain of our interests here. In the actual event their fears proved baseless as regards Hawaii, and their apprehensions as to the damage to any industry of our own because of the proposed measure of reciprocity with Cuba seem to me equally baseless. In my judgment no American industry will be hurt, and many industries will be benefited by the proposed action. It is to our advantage as a nation that the growing Cuban market should be controlled by American producers."

The events following the war with Spain and the prospective building of the isthmian canal render it certain that we must take in the future a far greater interest than hitherto in what happens throughout the West Indies, Central America and the adjacent coasts and waters. We expect Cuba to put us on an exceptional footing politically, and we should put her in the same exceptional position economically. The proposed action is in line with the course we have pursued as regards all the islands with which we have been brought into relations of varying intimacy by the Spanish war. Porto Rico and Hawaii have been included within our tariff lines, to their great benefit, as well as ours, and without any of the feared detriment to our own industries. The Philippines, which stand in a different relation, have been granted substantial tariff concessions."

Cuba is an independent republic which has assumed certain special obligations as regards her international position in compliance with our request. I ask for her certain special economic concessions in return; these economic concessions to benefit us as well as her. There are few brighter pages in American history than the page which tells of our dealings with Cuba during the past four years. On her behalf we waged a war, of which the mainprize was general indignation against oppression, and we have kept faith absolutely. It is earnestly to be hoped that we will complete in the same spirit the record so well begun, and show in our dealings with Cuba that steady continuity of policy which it is essential for our Nation to establish in foreign affairs if we desire to play well our part as a world power.

#### Cuba Needs Assistance.

We are a wealthy and a powerful na-

tion; Cuba is a young republic, still weak, who owes to us her birth, whose whole future, whose very life must depend on our attitude toward her. I ask that we help her as she struggles upward along the painful and difficult road of self-government and independence. I ask this aid for her because she is weak, because she needs it, because we have already aided her, I ask that open-handed help, of a kind which a self-respecting people can accept, be given to Cuba for the very reason that we have given her such help in the past. Our soldiers fought to give her such help in the past. Our soldiers fought to give her freedom, and for three years our representatives, civil and military, have toiled unceasingly, facing disease of a peculiarly sinister and fatal type with patient and uncomplaining fortitude to teach her how to use aright her new freedom. Never in history has any alien country been thus administered with such high integrity of purpose, such wise judgment and such a single-handed devotion to the country's interests. Now, I ask that the Cubans be given all possible chance to use to the best advantage the freedom of which Americans have such right to be proud and for which so many American lives have been sacrificed.

"THEODORE ROOSEVELT."

"White House, June 12, 1902."

### RECIPROCALITY ADVOCATES THINK THEY'VE WON

Washington, June 14.—The present plans of the Senatorial supporters of Cuban reciprocity are to press the question to an issue next week. This was the result of the conferences held today and yesterday. The Republican members of the Committee on Cuban Relations will meet either Monday or Tuesday, and finally agree upon the exact terms of the bill to be reported as a substitute for the House bill. The measure thus agreed upon will be reported to a Republican caucus to be held Tuesday or Wednesday, and if the caucus indorses the measure it then will be brought before a meeting of the full Committee on Cuban Relations and reported to the Senate. The desire is to have all this done by the time the isthmian canal bill is disposed of on Thursday, so that the reciprocity bill may be given the first place in the order of business.

The reciprocity advocates still profess the utmost confidence in their ability to pass through the Senate any bill that may be recommended by the committee and caucus. They count largely upon the unwillingness of Republican members to align themselves strictly with the opposition against a bill that has been made a party measure by the President's message, and there are indications that at least in some instances this prognostication will prove sound.

The critical point will come upon the acceptance of the House bill with its amendment for the removal of the differential duty on refined sugar. The beet-sugar Republicans are all protectionists, and there has been from the beginning a division as to the expediency of adopting a policy looking to the abolition of this duty. This opposition found evidence in Thursday's beet sugar caucus, but the decision to stand by the House bill as amended was secured largely upon the understanding that such a course would inevitably result in the defeat of all legislation. Recent developments lead to the conclusion that if any considerable number of Republicans should adhere to the determination to vote with the Democrats to support the House bill it would pass the Senate.

There would then be no chance for a conference and the bill would go to the President, who, it is expected, would attach his signature and thus make a law of the bill, with the Morris amendment included. This provision would, of course, affect the beet sugar interests equally with the trust, in proportion to the extent of their refining industry, and is not desired. The beet sugar refiners say they would lose about \$500,000 annually, while the cane sugar refiners would lose \$6,000,000, but they argue that the cane sugar refiners would still have an advantage in the reduction on Cuban raw sugar.

### BET SUGAR STALWARTS SIGN AN AGREEMENT

Washington, June 12.—Another conference of stalwart Republican Senators was held today and a cast-iron pledge given to stand out against Cuban relief to the bitter end. A paper was drawn up and signed, an almost unprecedented proceeding. Fifteen names were placed on the roll, and three other Senators—Jones of Nevada, Dietrich and Kearns—are expected to sign as soon as they return from a trip down the Potomac. The meeting was held in Senator Elkins room.

Yesterday's disclosures before the Cuban committee, when Thurber admitted direct connection of the sugar trust with the reciprocity agitation, had an encouraging effect on the beet sugar Senators, though most of them were aware of what Senator Teller had up his sleeve. The Thurber revelations were discussed today in conference, and the suggestion was made that further investigation would no

MONDAY, JUNE 23, 1902.

After all Kilauea is doing hardly enough business to make it interesting.

It is to be hoped the Senatorial committee proposed for an investigation of Hawaii will time its trip so that a few campaign speeches may be delivered before the voters of the Territory go to the polls.

The failure of a Chinese truck gardener to stay the progress of the Rapid Transit Waikiki works is gratifying indeed to the Honolulu public. On the other hand it will be interesting to note the ultimate effect of the local government's approval of the parallel track idea on main avenues of traffic in its bearing on rights obtained under public franchises.

The Washington Times publishes an illustrated article by Edgar Cayless on Hawaii's volcanoes. The opening paragraph is as follows: "The appalling disasters of St. Pierre and St. Vincent, and the succeeding disturbances in volcanic regions, warrant grave concern regarding the safety of the Hawaiian Islands; with those having ties or interests there, it must assume the importance of fear. The recent and multiplying activities in what may be termed the volcanic belt of the world, justify serious apprehension as to their possible, if not probable, effect or influence upon the Hawaiian group."

When Cayless returns the business men are likely to request him to show cause why he should not compete in the Laughing Jacks class, that has been filling the Mainland mind with fearsome ideas about Hawaii's volcanoes.

The Cuban tariff fight has developed into one of the most distressing political tangles any administration since Cleveland's days has had to straighten out. Roosevelt's message looks like a move to make Cuban reciprocity a party measure. Instead of whipping the beet sugar forces into line, however, it has solidified them, and the President faces the probability of three State conventions repudiating his policy toward Cuba. No Republican President has been in such an uncomfortable position with his party for years, and the worst of it is Roosevelt has only a few weeks more in which to work with the "insurgents" before Congress adjourns and the fall campaign begins. The result is certain to have a forceful bearing on his nomination for 1904, and as the fight goes on the impression gains ground that there is a master hand in the affair somewhere that is shaping the struggle in order to down Roosevelt.

"The golden rule as a practical law of conduct is not less binding upon nations than upon individuals. Upon obedience to this law depends the welfare of all alike. This is not the dream of enthusiasts, but the practical judgment of the sober-minded men and women who are doing the world's best thinking in the conduct of its affairs. We believe in the unity of the human race and the brotherhood of mankind, and that being of kin, the spirit of kindness and of justice should be and some day will be universal, recognizing no distinctions of class or race or nationality."

These expressions are from the platform of the Lake Mohonk Conference on International Arbitration held the latter part of May. If these shrill words latter part of May. If these declarations are practical in international relations and are advocated by such men as Hon. John W. Foster, Clinton Rogers Woodruff and men of their stamp, there is every reason why they should prove successful guides to political action at home, even in the Territory of Hawaii. That portion which declares against distinctions of class or race or nationality is particularly applicable to Hawaii where some men classed as leading intelligent citizens have apparently yet to learn that superiority of citizenship should be determined without regard for racial considerations. Hawaii will

be a long time reaching a peaceful status while an element of the commonwealth bases its conclusions on whether men are of direct American or Polynesian extraction. The principles of international arbitration should by all means be applied to the home politics of Hawaii.

## JURISDICTION DENIED

### ANSWER TO INJUNCTION BY RAPID TRANSIT CO.

**Ownership of Schooner Malolo Decided—Two More Bankrupts—Mr. Warren Admitted Federal Bar.**

At the request of J. J. Dunne for plaintiff, the injunction suit of Hawaiian Tramways Co. vs. Honolulu Rapid Transit and Land Co. was continued by Judge Estee this morning for one week. As reason for the motion Mr. Dunne said he had just been served with the respondent's answer and desired time to consider it. The answer denies jurisdiction of the Federal court to hear the case on its merits, quoting the decision of the Hawaiian Supreme Court of the same question upon an agreed submission of facts, also the dismissal afterward by Judge Estee of an injunction of similar intent. The question was whether the Rapid Transit Co. had a right to lay its track on King street for more than 1700 feet. It is claimed by respondent that the decisions of both courts constitute an estoppel to complainant from setting up the legality of respondent's charter now. Finally, the respondent gives as a further reason for dismissing the case that the work sought to be enjoined is completed and the cars running.

Judge Estee sustained the exceptions presented by Attorney Marx to the claim of ownership in the Malolo made by the Leahi Navigation Co. In the libel for collision of Waianalo Sugar Co. vs. Steam Schooner Malolo. It is found that H. R. Macfarlane is the owner. The case was put over till Friday.

Judge Estee adjudicated the Abiley Cyclopedia Co. bankrupt, also the Kwong Hip Co.

The sale by J. L. Coke, auctioneer, of property of Jas. H. Painter, bankrupt, was approved.

Louis F. Warren was, on motion of W. O. Smith, admitted to the Federal bar.

## Dewet's Welcome from the Boers

London, June 15.—A dispatch from Lord Kitchener, dated Pretoria, Saturday, June 14, says that 2594 Boers have surrendered since Friday, June 13, and that everything is proceeding in a most satisfactory manner. Dispatches received here from South Africa show that the surrenders of Boers are proceeding with the greatest good will. The total of those who have already surrendered number 15,500 and the British are extending every possible kindness to the men who come in. The appearance of General Dewet at the camp at Winburg was the signal for a great display of enthusiasm. When he arrived at the camp General Dewet was at once surrounded by thousands of Boer men, women and children, who struggled and clamored to shake the hand of their hero. General De Wet mounted a table and delivered an address. He warmly applauded the staunch support that the women had given the burghers during the war, which, he said, had greatly encouraged the men in the field. Continuing, he recommended his hearers to be loyal to the new Government.

## AMERICANS BOLOED

Manila, June 15.—Friendly natives in Manila say a report is current among their countrymen that the five soldiers of the Fifth Cavalry who were captured by the insurgents May 29 have been boloed to death near Teresa, in Morone province, Luzon. This report has not been confirmed by the American authorities of that district. Twenty-five members of a band of insurgents who were captured while fighting with General Lukban in Samar took the oath of allegiance to the United States and were subsequently released. Four members of the band were killed in the engagement which resulted in the capture of their companions. The twenty-five who have sworn allegiance have been General Chaffee and have promised to give him all the assistance in their power in the work of maintaining the present peace conditions in Samar.

# LONDON IS WORRIED

## ILLNESS OF THE KING AS CORONATION NEARS

**Has Chill That Confined Him to His Rooms—King Said To Be "Run Down" By Cares of State.**

London, June 15.—King Edward was suffering today from a chill, which prevented him from attending the church parade of the Aldershot garrison. The chill came as a result of the King's prolonged stay out of doors last night, on the occasion of the torchlight tattoo at Aldershot. The chill was a slight one, accompanied by symptoms of lumbago.

The weather last night was extremely cold, and it rained at intervals before the King and Queen left the brigade recreation ground, King Edward returned to his apartments chilled from the unwanted exposure.

These reports of the King's illness have naturally caused apprehension, but there is apparently no reason to expect serious results.

Sir Francis Lakin, physician in ordinary to the King, was summoned to Aldershot early this morning. He prescribed for the King, and recommended that the day be spent in perfect quiet. Queen Alexandra and the other members of the royal party attended services at church, but remained in the royal apartments for the rest of the day.

It has been learned that the King arose this afternoon. This is considered a good reason for hoping that his indisposition is only temporary.

**Illness Causes Anxiety.** London, June 16, 4 a. m.—Sir Francis Lakin, who was in attendance upon His Majesty last night, found the King to be much better. The latest expectation is that King Edward will be able to attend the review today.

King Edward's indisposition was announced too late to become generally known in London yesterday, but, considering the near approach of the coronation, it is bound to cause extreme anxiety. It is announced that the King is "run down" to some extent as a result of his constant attention, during the past few weeks, to numerous state duties and obligations, and, in spite of the hope expressed at Aldershot last night that he would be able to attend the review of the troops to be held there today, it is more than likely that Sir Francis Lakin will forbid his running any further risks, especially as the weather continues to be cold and rainy. Sir Francis probably will enjoin the King to rest for another day.

## Irrigation Bill Passed By Congress

Washington, June 13.—The House today passed the irrigation bill by a vote of 146 to 55. Many amendments were offered, but only one, except those offered by the committee, was adopted. It was of a minor character. The bill has already passed the Senate. The friends of the measure greeted the announcement of its passage with a round of applause. The bill as passed creates a reclamation fund from the sale of public lands in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming, less the amount paid to local land offices and 1 per cent due the State under existing laws for educational purposes, the reclamation fund to be used for the construction and maintenance of irrigation works in the States and Territories enumerated.

## "Kid" Lavigne Goes Insane

Stockton, June 12.—At an early hour this morning George Lavigne became insane in a lodging house in this city. He is under restraint at the Detention Hospital. Lavigne, who was at one time the champion lightweight boxer of the world, came to this city yesterday with his brother, Billy Lavigne, to be present at a fight between Kid Williams and Young Gibbs.

## Mrs. Roosevelt Has Been Seriously Ill

New York, June 15.—The World has the following from Washington: Mrs. Roosevelt's recent illness was much more serious than was reported at the time. Although of unusually strong physique, she succumbed suddenly on the eve of the reception to the French delegation at the Rochambeau exercises. Mrs. Roosevelt was greatly debilitated by the trip to Charleston. It occurred at a time when she was peculiarly susceptible to nervous influences and her mind was constantly racked for her husband's safety. She made it a point to appear with him on all occasions in public; indeed, he was beyond her sight for hardly a minute during the whole trip.

THE DUKE OF NORFOLK, CORONATION STAGE MANAGER. One of the odd things about King Edward's coronation is that the Duke of Norfolk, who as earl marshal of England acts as stage manager of the coronation ceremonies and who directs to the smallest detail the style and cut of the dresses and costumes of all the noble lords and ladies who are to take part in that brilliant spectacle, is himself one of the worst dressed peers of the realm. The old slouch hat which you see him wearing in the picture is his favorite head covering.

NEW CHINESE PREACHER

The ordination of the Rev. Wong Shing Yuk as a minister of the Gospel took place in the Chinese church on Fort street Sunday afternoon. The regular 11 o'clock divine service was omitted and the services of ordination took place instead. The body of the church was well filled with the Chinese members of the congregation, and several foreigners were also present. On the platform were Rev. W. D. Westervelt, Rev. O. H. Gulick, Rev. J. Leadingham, Rev. O. P. Emerson, Dr. J. M. Whitney, Rev. Mr. Thwing and three Hawaiian ministers. Rev. Wong was also seated on the platform.

The services for the most part, were conducted in the Chinese language, with brief addresses in English by the foreign ministers. Rev. Mr. Thwing interpreting the latter.

The services were opened with prayer by Rev. Mr. Wong, and then came a reading of scripture lessons by Rev. Mr. Thwing in Chinese. Mr. Westervelt, scribe of the council which examined Mr. Wong, Friday, made the announcement of the results of the same, saying that all the ministers had been well satisfied with Mr. Wong's fitness to preach the gospel to his people.

At the conclusion of the address, Mr. Wong was called to the center of the platform, where he knelt, while Rev. Mr. Leadingham said the ordination service.

Chinese Rebels Make Attack on Nanning

Victoria, B. C., June 14.—Advices received by the steamer Athenian, which arrived today from Hongkong, gives details of the bombardment of Nanning by the rebel forces. The correspondent of the Hongkong Telegraph thus describes it: About 9 in the morning the inhabitants of Nanning were surprised to find that the city gates were besieged by a very large crowd, who demanded admittance. The Prefect sent an instant refusal and gave immediate instructions that all the gates of the city were to be closed. This was immediately done and the crowd, which had previously assembled at the main entrance to the city, angrily retraced its steps and made for the direction of the rebel camps, about three miles distant. A few days later another band made its appearance, and under a flag of truce, demanded to see the Prefect to arrange certain affairs regarding the procuring of provisions. Instead of reporting the matter to the Prefect, the military officer in charge of the troops at once gave orders for his men to shoot the rebels.

This was accordingly done, and, needless to say, very few escaped being either wounded or killed. The remainder at once hastened back to their camps, and the same night the city was bombarded. The rebels had no less than twenty odd pieces of ordnance, including round shot, shells and other combustible matter into the city. A breach was made in one of the walls, and a trader who witnessed the bombardment and knew that this particular part of the wall would not stand the incessant pounding, posted about forty men with burning oil on the terraces of the wall, and when the rebels attempted to rush the place they were met with a discharge of burning oil. The brigands displayed great bravery, some, in fact, approaching within twenty yards of the walls.

During the bombardment another point presented itself to the authorities. The rebels rained a thick shower of flaming arrows, tipped with the most inflammable material, into the city, and these, combined with "atink-pots," soon caused a few fires. The conflagrations, however, were put out, but not until damage to the extent of over \$10,000 had been done. The bombardment lasted over three hours, and in that time over 300 to 400 of the inhabitants were either killed or wounded. The rebels used machine guns, throwing not only round shot but shells with bursting charges.

After the siege the rebels, without ascertaining what damage they had done, retreated to their mountain fastnesses, carrying with them the bodies of their slain and wounded, thus making it impossible to judge what loss they sustained. It is very evident that the motive for the attack was revenge.

The casket was conveyed to the hearse by W. H. Wright, Charles H. Atherton, Charles Ramsay, Henry Giles, James Lloyd and Otto Bierbach. Interment took place in Nuuanu cemetery.

UNG STOLE MANGOES.

Ung Gin was arrested Saturday at Jennie Correa's place in Awaoluolu on the charge of stealing mangoes. It seems that the fellow went into the yard and notwithstanding the fact that he was told there were no mangoes for sale, climbed up into the big tree and filled a sack half full.

Ung remained up the tree until Jennie came out and then he came down. In the meantime a police officer had been sent for and Ung with his green mangoes was packed off to the police station. He had offered to pay fifty cents for the mangoes but Jennie "didn't want no money" as she stated in the Police Court today.

The Chinaman was examined this forenoon and was committed to the Circuit Court for trial, his bail being set at \$100.

Courts, Politics and OTHER NEWS

From Island of Maui

Waikulu, June 21.—The June term of the Second Circuit Court is still in session, but will likely finish next Tuesday or Wednesday at the latest. Deputy Attorney General D. H. Case has worked hard as the following table will show:
Criminal cases (verdict of guilty) . . . 3
Criminal cases (verdict of not guilty) . . . 1
Criminal cases (trials prosequed) . . . 3
Criminal cases (appeal withdrawn) . . . 2
Criminal cases (appeal dismissed) . . . 1
Criminal cases (pleaded guilty) . . . 4
Criminal cases (not yet tried) . . . 12
Criminal cases (jury disagreed and discharged) . . . 1
Total criminal cases . . . 33
Long Standing Cases.
Of the thirteen cases not yet heard, nine will be disposed of by Monday; some will be not prosequed, other defendants will plead guilty, and the rest will have appeals withdrawn. No civil case has been heard during the week, and there is a likelihood of the thirty-two remaining civil cases going over until the next December term at Lahaina.
Some of the civil causes have been on the calendar for four years, with a probability of remaining so for the next four years, until the parties "get a move on."

Some Spilt Milk.
Kauahali, malicious injury, this native in a drunken condition, got on a Japanese milk wagon when the owner was delivering milk to customers, and drove the wagon to destruction, the milk being spilled in the roads. The jury returned a verdict of guilty and defendant was fined \$25.
The jury in the case of Territory of Hawaii vs. Estarío Valez, a Porto Rican, charged with assault with intent to murder, was drawn at 3 p. m. Thursday. The case was partly heard that afternoon and next morning. At 11:45 a. m. Friday the jury went into their room and they disagreed. They were compelled to take sleeping apartments within the courthouse. This Saturday morning at 9:45, after having been out nearly twenty-two hours, they were ordered into court and Foreman W. F. Pogue stated that the vote stood 11 to 1 for twenty-two hours with no possibility of arriving at a verdict.
The jury was ordered discharged and the case continued until the next December term. The jurymen were W. F. Pogue, foreman, Sam Kellin, Geo. Copp, W. E. Bell, P. Cockett, A. B. Naone, J. K. Richardson, Geo. Richardson, W. R. Boote, G. B. Schaeffer, D. Kulkabi and Jno. V. Kerr. A. N. Hayeselden, who was assigned by the court to defend, put up such a good defense and also an able and exhaustive argument that the result was a hung jury, the vote standing 11 to 1 in favor of defendant, and the one lone jurymen stuck out for over twenty hours and would have stuck so for twenty years more if only permitted to do so.

Young Nap of Kula, formerly a cigar dealer in Honolulu, and also an office boy in the United States Consulate office, was found not guilty by the jury and was discharged.
Antone Faustino pleaded guilty to the charge of gross cheat and his sentence was suspended for one year.
The case of Territory of Hawaii vs. E. Waiaholo, assault and battery, appeal was withdrawn and fine of lower court (\$100) was paid.
The case of Territory of Hawaii vs. Keawe Kawa for practicing kahunaism or witchcraft, was nolle prosequi by the Deputy Attorney General. The defendant was brought before Judge Kakuia last Thursday morning on the motion. His honor asked the defendant to which order of kahunaism he belonged, whether to that of Papa, Waka, Kihwahine, or other lesser gods. The defendant, a native about 30 years of age, replied that he did not practice the devil's art as he had been charged and that he was a harmless, innocent native who only drank awa as a stimulant, not with the idea of invoking the gods; furthermore, that he did not enter into a dispute with a fellow kahuna as to the merits of their respective gods, and above all, he did not tell his opponent in kahunaism that he would pray him to death and that the fatal result would be consummated within twenty days, for the other fellow is still alive with prospects of outliving him.

GOOD PROGRESS ON BRITISH PACIFIC CABLE
Victoria, B. C. June 12.—C. Reynolds, chairman of the Pacific Cable Board, who has charge of the construction of the all-British cable from Bamfield Creek, on the west coast of Vancouver Island, to Australia and New Zealand, arrived here on the steamer Aurora yesterday and proceeded to Bamfield Creek. Before leaving Suva he opened the three spurs which were laid by the steamer Anglia, connecting Suva and Norfolk Island and Queensland, a distance of 850 miles, and from Norfolk Island to New Zealand, a distance of 750 miles. All these lines are now being kept busy.
Reynolds says the cable will be completed by the 1st of December, a full month earlier than the contract calls for.
Search for Explorer Baldwin.
London, June 12.—W. S. Champ, secretary of the Baldwin-Ziegler Arctic expedition, and Dr. G. S. Hurkley of New York, start tomorrow for Tromsø, Norway, whence they will sail July 1st on the Fritjhof for Franz-Josef-Land to take coal to Baldwin's ship, the America, and obtain news of the Arctic expedition. Mr. Champ expects to find the America in about 82 degrees. If Baldwin has succeeded in his dash to the Pole he will be brought back. Otherwise, the Fritjhof will leave a well equipped sledge party to search for Mr. Baldwin. The Fritjhof will return October 1st at the latest.

ADVICE TO YOUNG BASE-BALL PLAYERS
BY CONNIE MACK,
Manager of the Philadelphia American League Club.
Experienced Players Only Should Be Used as Coaches.
Young and inexperienced players should not be sent to coach on the first base line. While the first base is not as important as coach as the third, yet the responsibilities are unusually great, and the coach should be an old and tried player, fully alive to all the tricks of the game. At both positions good judgment is requisite. When the ball is hit over the third base the coach at first must decide whether the man on first should be sent to second. No time must be lost. Instructions must be given to runners, and those unhesitatingly.
An inexperienced player will make many mistakes, not of the heart, but of the head. Lack of knowledge of the fine points of the game is responsible for these. Over anxiety is another handicap under which all young players suffer. It is a proper thing to go out after every game and do everything possible to win it, but there are many tricks a young player must be familiar with before he can be trusted with so important a position.
It is customary for the managers and captains to use those players who are not taking actual part in the game. This is done to save the regular players as much as possible between the innings. They like to give their players all the rest possible, and use the men on the bench for coaching. This is all right in the case of those players whose experience entitles them to the confidence shown, but the inexperienced coach will often make their work harder by his mistakes, and it will be found profitable in the long run to use the experienced players, as they really feel little or no ill-effects from their additional labors.

CURES WITH X-RAYS

IMPORTANT DISCOVERY BY BOSTON PHYSICIAN

Claimed That Will Conquer Cancer and Other Malignant Diseases — In Line With Suggestion Made By Dr. Herbert.

New York, June 15.—A special to the Press from Boston says: The assertion has been made before the Massachusetts Medical Society by Dr. R. O. Southwick, Boston's leading surgeon, that the use of the X-ray promise great things in the treatment of malignant diseases which under the old methods of treatment usually are impossible to cure. In a word, cancer, tumors, lupus and tuberculous glands henceforth can be cured in all cases where X-rays can be applied directly. Serious cases of tumor have been cured temporarily at least, and probably permanently in the Southwick Hospital under Dr. Southwick's treatment.
Dr. Southwick said it was too soon to say with scientific certainty that all cases which had yielded to treatment were cured, but he added that the new cure was successful in all cases where the rays could exert their full power. He said the cure already had gone so far that it could be said most positively that in general cases X-rays were far superior to the surgeon's knife.
Physicians here call the discovery one of world-wide importance. One of the most remarkable things about the cure is the rapidity with which it works. Within three or four days after the first use of the rays the worst phases of cancer disappear, pain vanishes, the patient changes at once from a condition of suffering to one of almost ease.

PARTY INTEGRITY THREATENED AND ADMINISTRATION WORRIED BY FIGHT OVER CUBAN TARIFF

(Continued from Page 3.)
doubt bring out more interesting developments with regard to General Wood's operations in Cuba; but a majority of the Senators expressed the opinion that they had no desire to embarrass the Administration, and that if the reciprocity bill could be beaten time would be satisfied. At the same time, it is learned tonight that General Wood will be called before the committee, and an interesting half day or so is in store for him. Senator Teller said today that he had a number of matters of greater public interest than the Thurston revelations which might be made public. All sorts of stories are afloat concerning General Wood and his connection with the sugar tariff agitation, and the names of certain of his relatives are involved.
The agreement reached today by the stalwart Senators is that the debate plan shall be offered as an amendment to the Cuban reciprocity bill as soon as the latter is reported to the Senate. If they are beaten in that, then they will favor the Cuban bill as it passed the House, with an amendment removing the differential on refined sugar. This is not desired by the beet sugar people, but they know the sugar trust hates it worse than they do, and they believe the reciprocity advocates will not press the bill if they find the differential amendment will be tacked on.

HAIL TO MEN

Even unto old age you may feel the vigor of youth, with its light heart, elastic step, courage and tireless energy. You may be free from pains and aches and defy your years.

There is a fountain of perpetual youth, and you have only to reach out your hand and take it. You can drink of it until your heart shouts with gladness, and with all your might you will proclaim, as other men have:

"I AM A MAN!"

Like the giants of old, you can be in your prime at any age—strong, vigorous and full of youthful enthusiasm. John Page, Boulder Creek, Cal., writes, after wearing Dr. McLaughlin's Electric Belt: "I have no aches or pains now, and the varicocle has disappeared. I did not think it possible for me to obtain relief from my sufferings, but the Belt has surprised me. I feel as young as I did thirty years ago, and nothing could induce me to part with it."

It cures Rheumatism, Lamé Back, Sciatica. Call and see it today or send for free book about it. I will send it sealed if you send this ad.

Dr. M. H. McLaughlin, 906 Market St., San Francisco.

Office hours, 8 a. m. to 8:30 p. m.; Sundays, 10 to 1. NEVER SOLD BY DRUG STORES OR AGENTS.

TERRIBLE EXPERIENCE

EVENTFUL TRIP OF THE GUNBOAT MANILA

Broken Engines Mended While at Sea Between Honolulu and San Francisco—Ensign's Work Commended.

San Francisco, June 13.—The long-expected United States ship Manila, sixty days out from Manila, and seventeen days from Honolulu, came into the harbor last evening. The length of the trip was about according to program, but the experiences of the gunboat have seldom been equaled by a war vessel.

Twelve days ago the Manila was rolling in the trough of the sea, 1000 miles from Honolulu, 1200 miles from San Francisco and 700 miles from Bremerton, her destination. On June 1st, Sunday afternoon about 3:50 o'clock the high pressure piston was shattered into hundreds of pieces. Fortunately no one was hurt, although heavy pieces of steel were hurled through the iron decks and through four and five wooden partitions. The disaster placed the vessel completely at the mercy of the wind and waves, for the lower pressure piston could not turn over the engine. Two days later, while the engineer and his mechanics were at work repairing the break as best they could, a gale came up that tossed the little ship about like a cork, drove her 100 miles out of her course and threatened any moment to swamp her, and repeat the disaster which fell to the British gunboat Condon, which sailed from Esquimaux months ago and has never been heard of since.

Although the situation was a desperate one, it was met with an ability and knowledge worthy of the most skilled of marine engineers. Ensign H. J. Elson, chief engineer of the ship, at once went at the task of repairing the break and equipping the engine so she would make headway. The engine is old-fashioned and heavy, and it required many men to take it apart and do the work.

It was fairly comfortable while the sea was smooth, but when the gale came up on June 3d, the rolling of the ship made it almost impossible for men to keep their feet, much less handle machinery and pieces of steel which weighed 500 and 600 pounds. But Elson kept at it, never stopping to sleep until he had replaced the piston with a temporary device and made the engine turn over.

Ensign Elson is a young man, a graduate of Annapolis, class of 1898, and comes from Mississippi. His work in repairing the engines of the Manila have won for him the undying gratitude and respect of every officer and man on board the ship, and the commanding officer says that only through his ability and technical knowledge is the Navy prevented from chronicling one of the worst disasters in its history.

ENTERPRISE SAILS FOR HILO.

San Francisco, June 13.—Last evening the oil-burning steamer Enterprise, Captain Miller, sailed for Hilo direct with numerous passengers and a full cargo of general freight. The Matson Navigation Company has raised the wages of nearly every man employed on the Enterprise, but the wage of \$20 per month set down opposite the names of two Japanese waiters was not satisfactory to the brown men and they struck for 35%. The strike lasted until they found that waiters generally were getting only \$25, when they resumed their duties.

STANFORD NEW COACH.

Stanford University, June 12.—Howard S. Lee, '93, captain of the Stanford football team for the season of 1902, yesterday completed arrangements with Frank Slaker, the famous Chicago University and Stanford player, to be assistant coach this fall. While at Chicago, Slaker was chosen half-back on the All-American team, and for two years he has been full-back on the Stanford eleven.

M. Serpillet, who won the Rothschild cup with a 12-horsepower new egg-shaped automobile in the race at Nice, showed a terrific rate of speed. His time for one kilometer was 29.4-15 seconds, which is at the rate of 47.68-190 seconds per mile.

EPIDEMIC OF THEFTS ON MAUI ISLAND

Waikuku, June 21.—E. M. Brown's gold watch and chain have not yet been recovered. Sheriff L. M. Baldwin has offered a reward of \$100 for the recovery of the missing articles.

M. L. Decker, who lives near the Maui hotel, had his gold watch and chain and \$70 stolen from his room last Monday. On the following day the thief being convinced that the stop watch would be better in the possession of the owner, returned the watch and chain neatly wrapped up in fine paper and left them in a flower pot on Mr. Decker's veranda. Of course the \$70 was kept. Mr. Decker would like to meet the fellow who had such kind consideration for him in returning the watch.

Attorney Jas. L. Coke is another sufferer from these midnight marauders. For on the same Monday night, the thief succeeded in getting away with half a dozen fine colored shirts, and Mr. Coke would have defended the thief in court if arrested had he left but one shirt for him to appear in court with. Mr. Coke has gone to Honolulu to attend the Federal Court as well as to lay the matter before the Territorial detective.
