ELECTION IS CALLED OFF

PRESIDENT MCKINLEY SENDS INSTRUCTIONS.

Senators and Representatives Will Hold Over Until Hawaii Bill is Passed and Election Ordered.

A By Authority elsewhere gives the information that there will not be an election in Hawaii this year. The order so directing is signed by President McKinley.

The local status is not changed a particle by the order except in this way: Senators and Representatives hold over at the pleasure of President McKinley, and if it becomes necessary for the Legislature to sit, the former members will be the ones to assemble.

It is expected that the Hawaii enabling bill will be passed at the next session of Congress—perhaps as early as December. When it may take effect is still an open matter.

Appointive officers now hold at the pleasure of President McKinley, so, save for an appropriation for salaries and pay rolls, the changed situation does not affect them at all.

Registration is stopped short. All the boards in the islands will be ordered as soon as possible to cease business. The one in Honolulu shuts down today.

It may be stated that the order about the election came as a surprise to the local Government. Nothing had been asked of President McKinley concerning it, the policy of continuing on the old lines having been adhered to.

The order concerning the election came by the Gaelic but was not given out until 4:30 yesterday afternoon. Major Potter was the only person outside of the Cabinet who knew anything whatever about it until the By Authority notices were sent to the papers late in the day.

BECKWITH STREET.

Residents of Punahou Object to Change of Street Name.

Punahou residents are up in arms against the proposed obliteration of Beckwith street and the absorption of that thoroughfare by Wilder avenue.

They say: "Beckwith street was opened by us and presented to the Government. It was named to perpetuate a name dear to Punahou, the town and the country. It was made to connect straight with Wilder avenue purely for convenience. Had we known that this running together of the streets would have been an argument in the present situation, it is safe to say it would never have been done."

According to President Dole all continuous streets should and must have the same name. This is demanded by a first rule of convenience. While the Cabinet appreciates the sentiment attached to Beckwith street, the members feel that the continuous route should have one name, be that Wilder avenue or the other.

HENRY WILLIAM JARRETT.

Death of a Well-known Young Man Yesterday Afternoon.

Henry William Jarrett died at his father's home on Vineyard street near Nuuanu yesterday afternoon of typhoid fever and pneumonia. He was in his seventeenth year. Of late he had been working at the Honolulu Iron Works. He was ill about a week.

Young Jarrett was a promising youth and was well known about the city. He graduated a year ago from St. Louis College. His parents are prostrated with grief. The funeral will take place from the Catholic cathedral at 4 o'clock this afternoon. The remains will be interred in the Catholic cemetery on King street.

EMERSON DISCUSSED.

Professor Rolfe lectured at the High school in the University extension course last evening, on the subject of Emerson. The birth, life and works of the author were treated. Most of those present took part in the discussion which followed.

A CROWDED HOUSE.

A new program and Saturday night always means a crowded house, at the Orpheum. The players will be enthused by the large audience, and all who are fortunate enough to secure seats, will have an enjoyable evening. The box office is open all day. Telephone 540.

THE RAILWAY FRANCHISE

MINISTER DAMON'S POSITION LAID DOWN.

He Was in Favor of Granting the Contract Asked for by Messrs. Brown, Gehr and others.

The following letter represents Minister Damon's position with regard to the Hilo and Honolulu Railway Company's franchise.

HONOLULU, H. I., June 2, 1899. W. O. Smith, Esq., Attorney for the Hilo and Honolulu Railroad Company, Honolulu.

Dear Sir:—At a meeting of the Executive Council held this morning, the petition presented by yourself on behalf of the company for a railway contract on the island of Hawaii, was again considered. After a full investigation and hearing by the parties interested during a period of some two weeks, as Minister of the Interior, I made the following statement:

"On the application of Messrs. Brown, Gehr et al, for the Hilo and Honolulu Railway Company, upon investigation and consultation with the other members of the Cabinet, I recommend the granting of the contract applied for by said company, recognizing at the same time the position in which I am placed that the granting of the contract must be with the approval of the President."

This approval, for reasons stated by the President, he has declined to give and I have to inform you that the application is denied.

I remain, very respectfully yours, (Signed) S. M. DAMON, Minister of Interior ad interim.

THROWN FROM A CAR.

Hiram Bingham, Jr. Meets With a Severe Accident.

Hiram Bingham, Jr. arrived from Molokai yesterday afternoon by the Lele. He has just recovered from a painful and serious accident. He was riding on a stone loaded car on the railroad at Kaunakakai. One of the pieces of stone was just on the balance ready to fall off. He stooped down to move it further on the car, when a sudden jolt threw both him and the stone to the ground. He suffered a broken arm and some very severe bruises. He was cared for at the home of F. W. Carter.

IS SHE A SMUGGLER?

Captain Iatua of the Allen & Robinson schooner Kaulikeanui, reports that on Thursday morning he saw a small sloop in an out-of-the-way cove on the coast of Lanai. She resembled very much the sloop "Volante" which came from San Francisco several months ago. The name it bore, however, was the Kaulalupau. It seemed to him to be trying to keep out of sight. What her mission was can only be conjectured. No such vessel as the Kaulalupau appears in the list.

PUNAHOU ALUMNI.

It is proposed to hold a meeting of Oahu College Alumni on the grounds of Punahou on the afternoon of June 17, for reunion and the organization of an association. There will be a program of games, following which the association will be discussed. The call is signed by W. R. Castle, S. B. Dole and others.

A SMALL FIGHT.

There was a fight in a house on Nuuanu street last evening. Sailors of the Philadelphia, soldiers and one or two civilians were in it. The police appeared in force and scattered the belligerents. There was one arrest for drunkenness. The Mounted patrol stood ready to clear the street, but that proved unnecessary.

FUNERAL YESTERDAY.

Rev. W. M. Kineald, assisted by Rev. H. H. Parker, conducted the funeral services over the remains of the late Dr. Hugo Stangenwald yesterday afternoon. Rev. S. E. Bishop and E. W. Jordan were added to the list of pallbearers, making eight in all. The remains were interred in Nuuanu cemetery.

APOLLINARIS.

(The Queen of Table Waters.) 1887 ..... 11,894,000 bottles 1895 ..... 19,528,000 bottles 1896 ..... 21,973,000 bottles 1897 ..... 23,585,000 bottles

The ever-increasing popularity and the pre-eminence of Apollinaris are clear to all from the foregoing quantities bottled at the Apollinaris Spring, Rhens, Prussia.

Far exceeding the fillings of any other mineral spring in the world. The "Times" London, says, regarding Apollinaris: "These figures are more eloquent than words."

MATTERS OF HISTORY.

How many "great gods" had the ancient Hawaiians? Who first discovered the Hawaiian Islands? Alexander's Hawaiian History answers all such questions. For sale only at Golden Rule Bazaar.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

If you want a new carriage or your old one repaired call on W. W. Wright.

REPORT ON FREE SCHOOLS

REASONS OF THE COMMITTEE OF THREE.

The Fee Acted as a Hindrance to Selection Based on Stated Qualification—How the Fee System Arose.

The following is the full text of the report upon the fee system drawn up by the committee of three:

To the Honorable Commissioners of Public Instruction of the Republic of Hawaii:—Your Committee appointed Thursday, April 27th, 1899, to report on select schools in the Hawaiian Islands beg leave to submit the following report and recommendations.

EARLY SCHOOL SYSTEM.

The year 1841 marks the first attempt of the government to establish a regular system of free schools. Up to that time the schools were supported in part by missionaries but mostly by individual chiefs. The native language was the medium of instruction and the schools were taught by native teachers. About the same time a fourth school for young chiefs of both sexes was established in Honolulu in which English was the sole medium of instruction. This school ten years later developed into the present Royal School. From these two sources respectively arose the "common school," a free school taught in Hawaiian by Hawaiian teachers and the "select school," taught in English in which a tuition fee was charged for the double purpose of selection and revenue.

THE COMMON AND SELECT SCHOOLS.

In 1858, these two kinds of schools were in operation side by side. From this time on, however, the common schools, laboring under the disadvantage of inefficient teachers and the desire of the natives themselves to learn the language which was rapidly superseding their own, steadily declined until the Legislature in 1896 provided that "the English language shall be the medium and basis of instruction in all public and private schools."

In the meantime, with the growing prosperity of the country and under the care of good teachers, select schools steadily increased. In 1888, however, when the Legislature abolished fees in all schools with one exception, the Fort Street School, the prototype of the present High School, and in 1896 made English the medium of instruction in all schools, our schools both "common" and "select" became free common schools taught in English.

OUR PRESENT SELECT SCHOOLS.

The select schools of today are therefore the one remaining example of the old pay school. They consist of the Honolulu High School; the Kaakopua school under Miss Coursen which is preparatory thereto; a small school at Kohala and a small school at Hilo. They were saved from the sweeping effect of the Act of 1888, to fill the need in our cosmopolitan community of select schools for the children of such as desired them.

These schools are taught in English and charge 50 cents per week as a tuition fee for attendance. They differ from the free English schools of today in that they are schools taught in English rather than schools in which English is taught.

THE POINT IN ISSUE.

The point in issue before your committee is the utility of the 50 cent tuition fee in select schools and we beg to submit our views under three heads:—

1. The utility of the 50 cent tuition fee as a basis of selection; 2. its utility as a means of revenue; 3. its real effect in our schools.

UTILITY AS A BASIS OF SELECTION.

If selection were based on the fee alone, independent of all considerations, any one could claim a right to enter our select schools upon tender of the fee. If, on the other hand, mental, moral and health qualifications alone were the basis of selection, no one could enter upon any other ground of qualification. No one found deficient in the last stated qualifications should be admitted because of ability to pay the fee; and no one found eligible therein should be excluded for inability to pay the fee.

The standard of the school cannot rest upon the fee but on the stated qualifications. Your committee, therefore, considers the fee as a means of selection relatively ineffective and wholly undesirable.

UTILITY AS A MEANS OF REVENUE.

With the first establishment of select schools arose the very serious question, on account of the higher salaries commanded by English over Hawaiian teachers, of maintaining such schools. At that time the tuition fee was not charged from the standpoint of selection. Afterward it had the effect of selection, and at the same time provided a means of support for these schools. But in the onward movement to free schools, its use as a means of selection became predominant over its use as a means of revenue.

In 1884 the Board of Education found it expedient in the general prosperity of the country to recommend that select schools be made free on the ground that "this will contribute more than anything else can be promoted the prosperity and growth of our public school system." In 1888 the Legislature abolished fees in all schools with the exception noted above. By the Appropriation Bill of 1894, all revenue from tuition fees which, up to that time, had been applied to those

REASONS OF THE COMMITTEE OF THREE.

The Fee Acted as a Hindrance to Selection Based on Stated Qualification—How the Fee System Arose.

EVANS ADDS TO HIS FLEET

PURCHASED THE MOKULELE AT HANAIEI.

The Hulk of the Wrecked Island Steamer Sold by Sheriff Conroy to C. H. Willis for \$225.

HANAIEI, June 2.—The hulk of the wrecked schooner Mokulele was sold today by Sheriff Conroy for the account of the insurers. The purchaser was C. H. Willis, and the price paid was \$225. Willis immediately resold it to Captain Harry Evans for \$275.

Purser Max Olooy of the Mikahaia says that according to information he received at Naeahii by telephone from Hanaiei, there is some prospect that the Mokulele may be refloated. She lies right at the water's edge.

Harry Evans went to Kaula for the express purpose of looking the wreck over to see what chances there were of refloating and refitting her. Evidently he considered the chances good or he would not have bought her.

Some of the crew of the Mokulele returned by the Mikahaia. Others are still on Kaula.

Captain Irving has not yet returned from Kaula, though he is expected now at any time. The former owners of the Mokulele have not heard any further particulars, either of the wreck or of the safe, than are now made public.

THE M'VAY SEASON.

The M'Vay season at the opera house will begin on the evening of June 9. "Othello" will be played at that time and will be repeated on the Monday evening following, June 12. It is proposed by Mr. M'Vay to play on Tuesday and Saturday evenings of each week.

ESCAPED ACCIDENT.

Mrs. Du Roi has received a letter stating that Major Davis, wife and children had a serious mishap just after leaving New York for Europe. The steamer upon which they had taken passage caught fire and they had to get back, reaching port again none too soon. Mrs. Davis mentioned was formerly Mrs. Charles L. Carter of this city.

CHILDREN'S PARTY.

Miss Dillingham will entertain a large party of her little friends at Mokulele ranch. The young people will go down on the train this afternoon and will return Monday morning. Among the number in the party will be many of the pupils who returned by the last steamer from school in the East.

ST. ANDREW'S ALUMNI.

A meeting of the old pupils of St. Andrew's Priory was called together at the priory building to organize a society. About fifty young ladies answered the call. Mrs. Pierre Jones was elected president; Mrs. George Smith, vice-president; Mrs. Henry C. Morton, secretary, and Miss Bernice Cook, treasurer.

It was decided to call a further meeting, so that other old pupils might be present, and Saturday, July 1st was fixed upon, at 10 a. m.

WAILAUA STOCK CASE.

In the matter of Thomas H. Watson, A. R. Downs, E. B. Haldan, A. G. Butler and William Berg vs. B. F. Dillingham and Wailaia Agricultural Company, specific performance and bill for injunction, plaintiffs have filed an indemnity bond in the sum of \$1000. Cecil Brown and Paul Isenberg, Jr. are sureties. This is another of the series of suits on account of stock sold by Colonel Soper in San Francisco.

COURT NOTES.

In the matter of Ah Tuck, et al., vs. Wong Kwai motion for new trial was today denied and exceptions and appeal to the Supreme Court were immediately noted.

Judge Perry today heard argument in the case of J. D. Paris vs. Antonio Fernandez, specific performance.

In the matter of the estate of Nancy S. Ellis, Judge Perry this morning continued proceedings until moved on.

FREEDOM IN MANILA.

Freedom is issuing a special edition for the United States. It contains sixteen pages and is full of news of the doings of the various commands, which will be of interest to thousands of homes. There is also much information about Manila itself, the methods of government, the markets, the amusements and so forth. The paper is a credit to American energy in the Philippines.

ONE APPLICATION RELIEVES THE PAIN.

Mr. P. Ketcham of Pike City, Cal., says: "During my brother's late sickness of sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by all dealers and druggists. Benson, Smith & Company, general agent, Hawaiian Islands.

KERR'S REDUCTION SALE.

The 25 per cent reduction sale at L. B. Kerr's was the great attraction in the city today. The goods are all new in design and superior in quality. They are bargains, and must be seen to be appreciated.

CAMARINOS' REFRIGERATOR.

Per Australia: Plums, Peaches, Celery, Cauliflower, Fresh Salmon, Crabs, Founders, Frozen Oysters (in and shell), Apples, Grapes, Oranges, Figs, Lemons, Turkeys and Game in season. Cranberries, Burbank Potatoes, Fine Olive Oil, New Crop of Dry Fruit, Nuts, Raisins, etc., etc.

CUT IN HALF.

Fifty per cent reduction means cut in half. That is what L. B. Kerr has done to prices on ladies' shirt waists. Early comers will get first choice.

MAY DELINEATOR.

Now ready at Mrs. Hanna's, Fort street. A full line of trimmed and untrimmed hats for sale at moderate prices.

PLANTATIONS AND STOCK

DAY OF HAPPENINGS IN SUGAR WORLD.

Large Coast Order for McBryde Assessable and Paid up Stock—Water at Kihel—A Big Check.

A city broker is filling a large order received by the Gaelic for McBryde assessable and paid up stock. Considerable stock was bought yesterday and more is being collected today. It is understood that the instructions are to pay up to \$7 for assessable and to \$25 for paid up stock. Though the broker denies it, a current report is to the effect that the order was sent at the suggestion or recommendation of Edward Politz.

McKandless brothers have found a source of running water above Kihel, which will greatly facilitate the scheme of irrigation there. An official report on the matter will probably be published on Monday. It is believed today that the number of wells required will be materially reduced by the discovery.

B. F. Dillingham has given his check upon the Bank of Hawaii for nearly \$600,000. This represents the cash to be turned over to Theo. H. Davies & Company in connection with the new Wailaia plantation project. The firm named drew the money and deposited it in their own bank.

The stock of the Oahu Sugar Company is to be increased. Present shareholders are to receive a part of the increase as dividends and will be allowed preference in taking up the remainder.

John Emmoluth, John D. Holt and others are organizing a new plantation to occupy lands adjoining Wailaia. This is a portion of the old Holt estate. Laborers are engaged planting cane on the place, though the details of the project are not yet made out.

ABOUT CATARRH.  
It is caused by a cold or succession of colds combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Hood's Sarsaparilla which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the disagreeable sensations.

HOOD'S PILLS cure all liver ills. Mailed for 25c by C. I. Hood & Co., Lowell, Mass.

A GOOD THING.  
There's one good thing when they feel dry  
That business men cannot pass by,  
For far and wide it's fame you hear,  
They stop to drink of "Rainier" beer,  
On draught or in bottle at Criterion.

BY AUTHORITY

BY THE PRESIDENT OF THE UNITED STATES.

Executive Order

In the exercise of the power conferred upon him by the Joint Resolution of Congress, approved by the President on July 7, 1898, entitled "Joint Resolution to Provide for Annexing the Hawaiian Islands to the United States," the President of the United States hereby directs that the General Election provided for by the Constitution of the Republic of Hawaii to be held on the last Wednesday in September next, shall not be held. All elective officers whose terms of office shall expire before appropriate legislation shall have been enacted by the Congress of the United States, shall be continued in their offices at the pleasure of the President of the United States.

In Witness Whereof, I have caused the seal of the United States to be hereunto affixed,  
(Seal.)

CHOLERA IN INDIA.
Death Rate Reaches Over 200 Per Day
in Karachi.
BOMBAY, May 25.—Cholera is raging
in Karachi, the principal seaport town of
Singe. Two hundred and thirty-two
new cases were officially reported yester-
day and 208 deaths for the day.
The official returns show a total of
1197 cases and 1099 deaths since the
beginning of the outbreak.
Karachi, or Kurrachoo, is on an inlet
of the Indian ocean, eighteen miles from
the west branch of the Indus. The town
was taken by the British in 1839, and
was retained as a military post. Accord-
ing to the census of 1891, its popu-
lation is about 100,000. A railway ex-
tends from Karachi to Hyderabad. Of
late years the town has been rebuilt and
greatly improved, and it is now one of
the chief seaports of India.

STOCKTON FLOUR FOR MANILA.
STOCKTON, May 24.—Four steamers of
the California Navigation and Im-
provement Company will load with
four out of Stockton tomorrow for San
Francisco, where their cargoes will be
transferred to the United States trans-
port Grant for the army and navy at
Manila. This is not the entire order,
for about 450 tons of flour went down
tonight. The steamers which will load
out tomorrow are the J. D. Peters, H. J.
Corcoran, Leader and City of Stockton,
and they will take about 1300 tons.

DEATH ROLL.
NEW YORK, May 23.—A Washing-
ton special to the Herald says: Adju-
tant General Corbin has prepared this
statement of the number of
deaths which have occurred in the
army since the beginning of the war
with Spain:
In Cuba, 1399; in Porto Rico, 287; at
Honolulu, 45; in the Philippines, 606;
in the United States, 3872; total, 6209.

RESIST DISEASE.
You can do it if you have an abun-
dance of vitality and nerve force. Dr.
Miles' Nervine makes nerve force. It
stops the waste that is consuming the
vitality and dragging down the
strength. It invigorates the digestive
organs, builds up the worn out tissues
and fortifies the body against the en-
croachments of disease. "Dr. Miles'
Nervine cured me of sleeplessness, in-
digestion and nervous prostration. It
made me strong and vigorous, and
when I was taken with typhoid fever
at the front last summer I was able
to combat the disease so successfully
that I am alive and well again today."

CANDIDATES FOR PAPACY
CARDINAL OREGLIA HAS THE
BEST CHANCE.
List of Papabili or Those Who Might
Possibly be Elected Upon the Death
of the Present Pontiff.

PARIS, May 22.—"Every one is con-
vinced at the Vatican that the reign of
Leo XIII. is drawing to a close," writes
a Rome correspondent of the Herald.
"Who will be the next pope?" is a ques-
tion he has himself to answer. The
choice of the next conclave is being
anxiously anticipated by the whole
civilized world, but it is this very anx-
iety that makes prediction difficult, see-
ing that such great political influences
are steadily at work to sway the vote
from one candidate to another.

Another difficulty is that in the mul-
titude of papabili every cardinal of any
prominence has claims to be considered
papabili and this qualification may con-
sequently be applied to about one-third
of the Sacred College. The correspondent
says that of this number only six have
any reasonable chance under the present
circumstances of succeeding to the
throne. He gives them in the order of
probability as follows:
Oreglia, Parocchi, Vannutelli, Gotti,
Svampa and Rampolla. As Cardinal
Camerlengo and dean of the Sacred col-
lege, Cardinal Oreglia has great advan-
tages over his fellow candidates. By
virtue of his office he exercises papal
authority during interregnum.

Leo XIII. it may be recalled, was
camerlengo to Pius IX. Moreover, Car-
dinal Oreglia is a candidate of reelec-
tion of the reactionary party, irrecon-
ciliables who at present rule in the cler-
ical world at Rome.
Another likely candidate whose pres-
ent office would give him great weight
is Cardinal Parocchi. As Cardinal
general in Rome, which makes him a
kind of vice-pope. He also is of the In-
transigent, all the more so because
he has to make amends for youthful
liberalism.

He would unite the magnificence of
Leo X. the gentility of Pius IX. the
learning of Leo XIII. and, if necessary,
the heroism of Pius VI. Such is the
magnificent summing up of his man-
ifold gifts and accomplishments.
Coming next to papabili, who have
come out in favor of conciliation be-
tween the Vatican and the world, we
have Cardinal Serafini Vannutelli, who
would have the reversion of the coveted
post of secretary of state. Cardinal
Svampa's candidature is curiously
enough due to the fact that the prophe-
cies of Abbe Malinchi regarding the
papal succession might apply to him just
as they apply to Cardinals Oreglia and
Gotti.

The latter is the only monk among
papabili and is so exquisite a diplomatist
that no one can tell whether he is
reactionary or a conciliator in his ten-
dencies. It is said also that Leo XIII.
has jestingly referred to him as "my
successor."
Last, and by no means least, is Car-
dinal Rampolla, perhaps the most in-
teresting personality among the candi-
dates. He is of a bold, downright
nature, brooking no opposition and implac-
able in hatred. Should he be called on
to succeed Leo XIII. it is known before-
hand that the conflict between the holy
see and the house of Savoy will very
quickly become acute, and that any
scheme for reconciliation will be re-
gated to Greek kalends.

FEMALE ASTRONOMER.
Miss Elizabeth Brown, the English
astronomical observer, who has just
died, observed several total eclipses of
the sun, going in 1887 to Kineshma,
near Moscow; in 1889 to Trinidad, and
in 1896 to Vadsø, in Lapland. The
London Globe says of her: "Her pow-
ers of organization, especially in con-
nection with the British Astronomical
association, and her skill as an artist
were of the greatest service to the
astronomers of this country, and she
proved an admirable director of the
solar section of the association."

SATURDAY, JUNE 3, 1899.

According to the statistics published, it must be safer for a soldier to go abroad than to stay at home. The total deaths in the American army up to the beginning of May were 8299. Of these 2872 occurred in the United States and the rest abroad where the bullets were flying and a tropical climate had to be endured. Cuba accounted for 1399 deaths and Porto Rico, Honolulu and the Philippines for the rest. That is 60 per cent of the deaths in the army occurred in the United States, 23 1/2 per cent in Cuba, and 17 1/2 in the Philippines, etc. It is certainly a very curious fact that the figures reveal.

The Tuberculosis Congress, attention to opening of which was called in these columns early in May, is now in full swing. It is a pity that we did not have a direct representative from the territory present, but the reports will be published and both medical men and laymen will be able to read them. There has been so great an advance in the knowledge of methods in dealing with tuberculosis that some decisive theories may be expected at this congress. The medical profession seems to have, what has been aptly named, "the white fiend" in its grasp, and another ill will be taken from suffering humanity.

The awakening of China which is so much to the fore just now, may cut both ways. The great aim that the commercial nations have is to get at the markets of China because with its enormous population, immense quantities of cheap goods can be consumed. China has great natural resources and the commercial nations are anxious to develop these. But how will it be when the Chinese have been finally shoved into the line of progress and begin developing their own resources. The supply of coal and iron in China is said to be inexhaustible for centuries to come. The labor supply is also enormous and cheap. What will take place if the Chinese themselves take to manufacturing upon a large scale with the improved methods of Western civilization. Why, the competition from such a source would, for a time, drive the United States and Europe completely out of the field. Everybody is waiting for the awakening of the giant, but when he is aroused and fairly awake, look out.

The question of the election is settled. There will be no election. All the heart burning on one side and the other, and all the vigorous eloquence put forward is stopped in the "full tide of flood" by a few words from the President's pen. Whether this knowledge could have been acquired earlier or not, is a question upon which light may be thrown at sometime, it will not be thrown now. But it is quite evident that until word came from the President, the Executive was right to go ahead and comply with the law. McKinley does not wish to be bothered with Hawaiian matters more than is necessary. As it stands, Hawaii is to run along until Congress is prepared to settle what shall be done. When ever it is absolutely needful the President will exercise his authority as in this instance, but for all ordinary matters we must get along as we can with the machinery we have. Upon this situation there is no use arguing, so instead of wasting breath and ink over it, we had better devote ourselves to such matters as we have under our own control.

**SALE OF POISONS.**

The Board of Health has taken the proper stand with regard to poisons. The law provides against the indiscriminate sale of poisons, but it did not prescribe what drugs were to be so regarded. The board very properly has made out a schedule and every body now knows exactly what the law means. The law is not so much against suicide as to prevent deadly drugs getting into the hands of irresponsible persons. If a man or woman intends to commit suicide the merely preventing the purchasing a poison will not prevent either from making away with themselves. There are many ways of slipping out of this world without poison.

But the poet says justly "how oft the means to do ill deeds makes ill deeds done," and the mere fact of poison being easily accessible will urge a man to crime, which he otherwise would not commit. It is this that the law can protect. It cannot prevent a person committing suicide, but it can make it a difficult operation in certain directions.

If you put a weapon in a man's hand, he is very apt to use it. When swords were habitually worn, they were constantly being whipped out. In towns where men habitually carry fire arms, cases of shooting are frequent. When swords ceased to be worn, and were kept at home, men ceased to draw them on every occasion. If a man ran home for his sword, he was very apt to

change his mind about drawing it. So if a man has to go and get his pistol, in nine cases out of ten, he has cooled down before it comes into use, and no shooting is done.

So with poisons, if a man can get any quantity of deadly drugs, easily, he is very apt in a moment of passion or when under the influence of liquor, to rush off and supply himself. If it is made difficult to obtain he has not fixity of purpose sufficient to overcome the rebuff, and as a rule gets over his passion, or gets sober. But in either case his life is saved.

But the determined suicide will scheme and get small quantities of poison all the time, and frequently from different stores. Against this type of mind it is useless to set up law, it will always be evaded. We can only protect against a sudden access of madness. But it is quite right that we should take every precaution we can, and the Board of Health is to be commended for its prompt action.

**A MESSAGE TO GARCIA.**

Sometimes a man writes better than he imagines. He touches a nerve in the world's mentality, and straightway his words fly from state to state, from continent to continent, and are translated from language to language. It becomes a story for all humanity. Such has proved A Message to Garcia, published by Elbert Hubbard in March last. It has run with the rapidity of a prairie fire all over the mainland, and is away over in England and in Asia at the same time.

The sermon is founded upon the following fact. President McKinley wanted, at the breaking out of the war with Spain to communicate with Garcia. No mail, no telegraphic message could reach him. Some one suggested Rowan. He was sent for—took the letter—asked no questions—delivered it and returned with the answer. Such is the text.

The sermon emphasizes the value of self-confidence and of acting promptly, concentrating energy and going ahead and doing. Hubbard says justly that men who have important enterprises to carry out are constantly hampered by the "inability or unwillingness to concentrate on a thing and do it. Shipshod assistance, foolish inattention, drowsy indifference and half hearted work seem the rule." As an instance he puts the following case among others. He addresses his reader:

"You are sitting now in your office—six clerks are within call. Summon any one and make this request: 'Please look in the encyclopedia and make a brief memorandum for me concerning the life of Correggio.'"

"Will the clerk quietly say, 'Yes, sir,' and go do the task."

"On your life, he will not. He will look at you out of a fishy eye and ask one or more of the following questions:

"Who was he?"  
"What encyclopedia?"  
"Where is the encyclopedia?"  
"Was I hired for that?"  
"Don't you mean Bismarck?"  
"What's the matter with Charlie doing it?"  
"Is he dead?"  
"Is there any hurry?"  
"Shan't I bring you the book and let you look it up yourself?"  
"What do you want to know for?"  
"And I will lay you ten to one that after you have answered the questions, and explained how to find the information, and why you want it, the clerk will go off and get one of the other clerks to help him try and find Garcia—and then come back and tell you there is no such man. Of course I may lose my bet, but according to the law of average, I will not."

Mr. Hubbard cites many more instances, not fanciful as this, but from actual fact and experience, and all point, that success depends upon the determination, concentration and honest work, doing as well when the "boss" is away, as when he is round. The closing words of the article are worth reproduction and should be weighed by all who read them.

"My heart goes out to the man who does his work when the 'boss' is away, as well as when he is at home. And the man who, when given a letter for Garcia, quietly takes the missive, without asking any idiotic questions, and with no lurking intention of chucking it into the nearest sewer or of doing aught else but deliver it, never gets 'laid off,' nor has to go on a strike for higher wages. Civilization is one long anxious search for just such individuals. Anything such a man asks shall be granted; his kind is so rare that no employer can afford to let him go. He is wanted in every city, town and village—in every office, shop, store and factory. The world cries out for such; he is needed, and needed badly—the man who can carry a message to Garcia."

There is a fund of wisdom in this, and a solid piece of advice which no one can afford to cast aside. It contains more meat than many pulpit sermons.

## REPORT ON FREE SCHOOLS

Continued from page one.) schools from which it was derived was diverted into the current fund for the general support of the government; and in 1898 the government realized from tuition fees for the four select schools the small sum of \$3,705.05. Your committee therefore consider that its utility as a means of revenue is insignificant.

### REAL EFFECT OF THE FEE IN OUR SELECT SCHOOLS.

The fee acts as a hindrance to selection based on the stated qualifications without ability to pay, who from feelings of pride either do not apply for admission or do not under adverse circumstances continue in school. For them scholarships, not based primarily upon mental ability but financial inability, are provided upon the principle that no one possessing real merit should be turned away from the school for inability to pay the fee.

The existence of the fee as a line of demarcation has a tendency to foster in the minds of the children of certain classes the idea, that, because they are well off pecuniarily, they are entitled to larger benefits from the State than other classes; whereas ability and moral conduct provide the standards to be accepted and followed. As long as the fee exists this cannot be done with proper effect. The character of the scholar stands stamped with it, no matter how high the qualifications.

The removal of the fee will not for the present in any way change the standard or character of the schools. The actual basis of selection which is now most depended upon will be retained. Parents can feel as great a security as hitherto that the mental and moral well-being of the children and pupils will be considered and provided for.

Your Committee therefore recommend that the Board now pass the requisite resolution for the removal of the fee, such action however not to take effect until the beginning of the next school year.

Respectfully submitted,  
 (Sig.) E. A. MOTT-SMITH,  
 W. D. ALEXANDER,  
 J. Q. WOOD.

### MAUNALEI WATER.

The Lehua brought samples of water from the new wells on Maunalei plantation for analysis. Two successful wells have been driven and work is progressing on a third.

### DREDGER AT WORK.

The government dredger is at work today near the mouth of Nuuanu stream. The material taken out is being pumped back of the sea wall which is to form bank of the stream where it debouches into the harbor.

### "HEAVED OUT."

A vessel "heaved out," a sight once familiar in Honolulu but which has become rare since the marine railway was built, may be seen today in the slip next the old fish market wharf. "Heaving out" as sailors know, is to careen a vessel by means of tackle from her mast heads to the shore so that the bottom can be got at to be scraped and repaired. The little schooner Rob Roy is heaved out and is receiving a coat of copper paint and other repairs.

### DEATHS OF A MONTH.

Typhoid Fever Claims Six Victims During May.

The Health Department's mortality report for May has just been issued. The total number of deaths was 86, as against 68 last year, 57 in 1897 and 65 in 1896. Malarial and typhoid fever and heart disease each claimed 6 victims, diarrhoea and old age and convulsions each 5. "Unknown" still figures as the cause of two deaths. Agent Reynolds however makes the notation on the report "All unattended cases investigated by the coroner." The number of deaths among those under one year was 15, among those from 20 to 30, 22. By sex the deaths were: Male, 52; female, 34; by nationality, Hawaiian, 32; Chinese, 12; Portuguese, 9; Japanese, 20; British, 3; American, 5; all others, 5.

For the first time the column in the table marked "unattended" is empty.

### AN EASTER BONNET.

The nodding plumes of a new Easter bonnet came in contact with a cigar lighter in a Chicago drug store the other afternoon. Instantly the bonnet was in flames and the stylishly dressed wearer sent up a series of hysterical screams. A clerk in that store had his wits about him. He seized the seltzer syphon and aimed a stream at the blazing headgear. He put out the fire, but the woman fled without picking up the charred, seltzer-soaked remains.

Hundreds of people are looking for a healthy pale table beverage—one that will quench the thirst and leave no bad after effects.

## SCROFULA

It is Foul Blood's Advertisement

But It is Soon Cured by Hood's Sarsaparilla.

Yes, Scrofula, if anything, may be called the advertisement of foul blood. It is the scourge of the world—offensive, painful, debilitating, stubborn and well nigh unendurable. Outward applications do not cure, they only drive the difficulty to new quarters. Emollients may palliate, they cannot abolish the evil. There is but one sure way out, and that is to eliminate the taint from the blood.

There is one remedy that can effect this, and it is the only one that, so far as we know, has almost invariably succeeded—even where the system has been poisoned by long years of taint, and the ravages to be repaired are tremendous. That remedy is Hood's Sarsaparilla. Read this:

"My daughter was afflicted with impure blood. There were running sores all over her body and they caused her much suffering. We tried medicines that were recommended as blood purifiers, but could not see that they did any good. A friend told me about Hood's Sarsaparilla and I began giving the girl this medicine. The result was that she was perfectly cured after taking a few bottles. She has had no symptoms of scrofula sores since that time." MARIETTA M. SMITH, South Middleboro, Mass.

The cleanest, brightest safest and really the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

## THE BREW OF OLYMPUS

THE "HOFFMAN," corner of Hotel and Nuuanu streets, claims to be the "Banner" resort for gentlemen and holds the flag. L. H. Due, the proprietor, has attained success in his line, by specially and personally supervising everything connected with his establishment. He now introduces to his patrons "Olympia Beer." This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne." Mr. Schmidt, the leading spirit of this corporation, is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Due and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

## PROHIBITION A SUCCESS

HOW IT WORKED IN THE STATE OF KANSAS.

Observations by a Visitor—Dry Towns and Wet Towns—Where the Police Are Busy and Where Idle.

The prohibition law still prevails in Kansas, says William E. Curtis in the Chicago Record, but its enforcement is a matter of local option. Towns are "wet" or "dry" according to the demands of the public sentiment as to the closing of the saloons. In the large cities, generally speaking, there are breweries and distilleries, and the drinking places are wide open night and day, as in the States that have no prohibition law. There are, however, exceptions. Very little liquor is publicly sold in Topeka, for example, and in Lawrence, Leavenworth and a large majority of the second-class cities and towns none is sold except on the sly. Prohibition is not a dead letter nor a failure by any means, and I am told by almost everybody I ask that any proposition to repeal the law would be defeated by an overwhelming vote.

In some of the cities are singular exhibitions of inconsistency. In Pittsburg, a mining town in southern Kansas, for example, the city government licenses a number of saloons in direct defiance of the State statute that prohibits their existence, and the proceeds, upward of \$1200 a month, are devoted to the support of the schools. At the same time Pittsburg furnishes an unanswerable argument for the enforcement of the prohibition law, for its police expenses and the docket of its police courts are larger than those of any other town of similar size in the State. That is a universal rule. Wherever there is a dry town the police force is idle and the police court sits but once a week. In the wet towns it sits every morning and has plenty to do.

A temperance argument of equal force can be found in the poorhouses. In some of the dry counties none is needed. In all the wet counties they are found well filled.

The prosecuting attorneys throughout the State are usually the autocrats who decide whether a community shall be "wet" or "dry," and their action is generally governed by public sentiment. Sometimes it affords a political issue, and candidates are elected with the understanding or upon a pledge that they will carry out a certain policy, and thus the great majority of towns are dry, but the majority rules. As I have said, the many alternate between the two conditions according to circumstances. When the enforcement of the liquor law is lax a tragedy—a shooting scrape, a murder, a case of wife beating, a fatal accident that can be traced to liquor, the embezzlement of money by some fast young man—will so shock the moral sense of the community that the saloons will be shut up for a year or two; but the effect and the recollection of such events soon die away, and the drinking places gradually open first the back door and then the front door, until something else occurs to close them.

REGULARS FOR PHILIPPINES. SEATTLE (Wash.), May 24.—Companies H and B of the Fourteenth Infantry arrived here today from Alaska on the steamer Humboldt. These two companies have been stationed at Dyea for the past year. They have been ordered to the Philippines.

## IT CURED HER COUGH.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me. I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Denver, Ark. For sale by all dealers and druggists. ### FACTS ARE STUBBORN THINGS.

It is a fact that people in purchasing a bicycle should always get a high grade wheel. They save money by so doing and there is more satisfaction in the use. It is a fact, that the Sterling bicycle is "built like a watch," is of the highest grade, and is the wheel least seen in the repair shop. It is a fact, that the wearing quality is of supreme importance in a wheel especially as construction is now so nearly perfect that there are but few opportunities for general material improvement. It is a fact that the Sterling will last several seasons, with ordinary care, and miles, running into the tens of thousands, may be ridden before any repairs are needed. It is a fact that the factory price of the Sterling wheel to dealers is higher than that of any other wheel and it is also a fact that the Pacific Cycle & Mfg. Co. sell the Sterling wheel to customers at a very small margin of profit. It is a fact that honest repairers of bicycles will advise you to purchase a Sterling. It is a fact that purchasers of Sterling wheels are always satisfied and unsolicited testimonials will be shown on request. It is a fact that Sterling bicycle was, at the great National Exposition at Brussels, Belgium, the only bicycle which was deemed worthy of the Grand Prix.

remembered that our stock represents the finest ready-to-wear clothing made in the United States—stylish, serviceable, becoming clothes that have nothing in common with ordinary "ready-made" garments, nor with the kind of goods turned out by the average custom tailor.

We have recently added to our stock the lines made by Hart, Schaffner & Marx of Chicago, in addition to our Stein-Bloch goods.

Do not pay out money for awkward, old fashioned ready-made clothing when you can have the H. S. & M. goods for the same cost. Do not pay the tailor's price when you can get as good, and probably better, satisfaction, for less than half the money.

### HARVARD EXAMINATIONS.

Growth of Examining Centers in Twenty-eight Years.

Examinations for admission to Harvard College, to the Harvard Law, Medical, Veterinary and Scientific schools and to Radcliffe College for Women, will be this year held in Honolulu, on June 28th, 29th and 30th and July 1st. F. D. Greany, a graduate of Harvard '96, has been appointed examiner. This is the first time that the Harvard examinations have been given in Honolulu, and the new departure is fully in accord with President Elliot's well known desire for expansion.

To show the growth of the university's influence it may be said, that where, when twenty-eight years ago

### KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from \$5 to \$35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

### FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

### Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
