Legislature, 10.

THE PETITION TO KEEP THE MINISTRY IN OFFICE.

A week ago last Saturday, the petition of 1569 residents and tax payers of Honolulu, was presented to the King, asking for the removal of the present Ministry, in accordance with the unanimous desire of a crowded public meeting. What does Mr. Gibson do? Does he resign? Not much! He is not that kind. So long as office will stick to him he will stick to it, and a good deal longer. Immediately upon learning of the petition, Mr. Gibson with his own hand wrote the following:

"To His Majesty the King—Sire: We the undersigned residents and tax payers of the Kingdom, ever interested in the continued prosperity and independence of the country, desire to express our full confidence in the administration of the affairs of Government by Your Majesty's Ministers, and we pray that they may continue to enjoy Your Majesty's confidence and continue to serve as constitutional advisers of the Crown."

This was printed at the *Advertiser* office, and in the hands of numerous representatives of the *Elele Pookolu*, Government officers and Palace hangers on, was circulated for signature.

The men who circulated it, stated to all who objected to signing, that they came by authority of the King; that the King commanded it. Pinehasa Wood, a number of the Privy Council, went so far as to threaten those who "refused to obey the Kings command," that their houses would be burned. By this means many signatures were obtained among the natives; any one might know that; the soldiers signed it; the volunteers signed it; the police signed it; the hangers on and those who draw pap from the Government signed it. How many of this ilk appear upon the Gibsonian document we do not know, but no doubt Mr. Gibson will flaunt it in the face of His Majesty as a free expression of the people.

HOW THEY WORK IT.

Hon. Cecil Brown introduced an amendment to the rule allowing the Ministers to vote on questions affecting themselves, on last Thursday. This is an amendment which under

the circumstances, common sense requires, although if the Ministers possessed common decency or any sense of shame it would not be thought of. Mr. Gibson has shouted himself hoarse, in former sessions, on this very point, and denounced the voting of the Ministry with every invective adjective that his glib tongue was master of; but when this opportunity was offered to correct the abuse for the future, Gibson snapped his fingers and the whole row of toadies and Government teat suckers, from the Tax Assessor down to Water Pipe Macfarlane, jumped to do his bidding, like so many pups in a dog circus. The usual mound of 21 ballots was piled up, on top of which the four Ministers triumphantly planted themselves, and congratulated one another on the overwhelming majority (of Ministers) by which a grateful country sustained them.

This was not a surprise; such a thing as self-respect is a myth to the members of the Turkey Cabinet, and it has probably never entered into their hearts to conceive that there is any impropriety in an accused criminal sitting on a jury to try himself; but what *does* surprise the community is, that a man of Dr. J. Mott Smith's years and ability, with a fresh illustration of the working of the present iniquitous rule, should throw his influence and his vote against a reform thereof. So long as Ministers are allowed to vote upon the propriety of their own conduct, and to cast the votes which keep themselves in office, the Representative character of the Assembly is a simple farce. No one knows this better than Dr. Smith, and he owes this community an explanation and an apology for his conduct.

MR. GIBSON'S RECEPTION.

The man who has been tripped in his attempt to swindle the Government out of 25,000 acres of land, has had the impudence to get up a reception, and invite respectable citizens to attend it. He did not dare invite them in his own name, but has covered himself up under the cloak of the Minister of Foreign Affairs, and worded it to read "in honour of Prince Oscar of Sweden," thinking thereby to save the consciences of the weak, and to draw in through force of official courtesy those who otherwise would scorn to be associated with him.

Let it be so. Let those who represent Foreign Nations, and who by official position in this Government, are bound to extend official courtesy to them, attend as a matter of official duty; but we hope that no self-respecting citizen will so demean himself as to do honor to W. M. Gibson by breaking his bread beneath his roof. Let Prince Oscar understand that the citizens of Honolulu will gladly do him honour, but that they can not do so at the expense of their own honour, by accepting the hospitality of a shameless public swindler.

MR. GIBSON'S LAND GRABBING SCHEME.

The exposure of Mr. Gibson's game to grab 25,000 acres of government land is the most damaging point which has been made against him. He might charge double and triple rates for government printing done at his office, and pocket \$18000 and odd in two years, and still he could prevaricate and say that there was a difference of opinion, and when worse came to worse, put the blame on some one else; But when we came to this land grab, it is brought fairly and squarely home to Mr. Gibson himself. He in his own person, in collusion with Mr. Bush, Minister of the Interior, in person, entered into a conspiracy to defraud the government.

The statement of government lands leased and sold by the government, is one not usually made to the Legislature, and Mr. Gibson never dreamed that his breach of trust and deliberate fraud would come to light.

The atmosphere of Lanai evidently is not conducive to good morals. It first caused Mr. Gibson to swindle a lot of poor devils out of their money and land, under the guise of religion, and now he attempts to swindle the nation out of 25,000 acres of land under the guise of patriotism. And this public and private swindler is the man who stands at the head of the govern-

ment, and enjoys the confidence of the Legislature! Bah!

DR. RODGERS NAILS A LIE.

EDITOR BULLETIN:—In the course of the debate on the resolution of want of confidence, Mr. Gibson asserted in the most positive terms that he had endeavored to obtain a physician for the Leper Settlement in Molokai, and had been unable to do so. His language as reported in the *Advertiser* was as follows: "He had striven to obtain a resident physician." "He had again and again been anxious for a physician to reside there."

This statement of Mr. Gibson is an unmitigated falsehood. On the 19th of December, 1882, more than a year and a half ago, I forwarded to the Board of Health a letter in which I offered my services as resident physician to the Leper Settlement on Molokai. An official communication signed by the Secretary of the Board, acknowledging the receipt of my letter and informing me that the Board had concluded to "defer the consideration of the matter," was received by me about two weeks later. My offer has never been withdrawn, and the "consideration of the matter" by the Board of Health is still "deferred."

It will be seen, therefore, that Mr. Gibson's statement is not a "misrepresentation," or a "prevarication," or a "perversion of the truth." It is a lie, pure and simple, and has not the slightest trace of fact to excuse it or give it plausibility.

CHARLES T. RODGERS, M. D.

Honolulu, July 7th, 1884.

INSULT ADDED TO INJURY.

MR. EDITOR—I see by the paper that the notorious "Kekoa" has again been appointed Tax Assessor for Hilo District; this incompetent individual, that gave the tax payers so much trouble and extra expense during the last Assessment.

I own some property in Hilo District, and have had to pay double taxes on it. Has it come to this, that the people have no right that the Ministers will respect; Are we

slaves to be thus treated, our money wrongfully taken from us, and then illegally expended, as is clearly shown by the report of the Finance Committee. I understand the only reply the Minister gives is that it is too late, the appointment is made. It is never too late to make *right a great wrong*. I assure His Majesty the King, that a strong feeling now exists all over the Islands and with all classes of citizens, against the way the Government has been conducted during the last two years.

History informs us what has befallen Rulers and chief Ministers of Kingdom and countries, where they have disregarded the constitution and Laws made by the people for their guidance, and History sometimes repeats itself.

W. Y. HORNER.

OUR SOUTH AUSTRALIAN CORRESPONDENCE.

SOUTH AUSTRALIA, ADELAIDE, June 14th.

The first general election for our lower House of Parliament under the altered constitution has just taken place, and the opening ceremony—which was a brilliant affair—is now recorded on the last page of our history. The new Parliament—the lower House which contains 52 representatives, is noteworthy for the absence of several of the old members who failed to regain their seats. Among the number is Mr. Glyde, the Treasurer; Messrs. Bright and Carr, younger men, both in years and in political experience, occupying the seats of the defeated ones. Both Houses are at work. The Hon. John Colton has tabled a motion of want of confidence in the present Ministry. He accuses the Government of inconsistency &c., and an animated discussion is now proceeding and is expected that the opposition, led by Mr. Colton, will soon be in power.

As usual in the winter season, business is very dull, and many laboring men are out of employment; the low price of wheat will, in part, account for this state of things. On two separate occasions (before our harvest was gathered in) came news from America, that wheat crops in California and the Western States were very light; so our wheat growers hoped for good prices. The report being false, the high prices have not come.

While, in the past season, the southern part of this Continent has been favored with a good rainfall, the central portion has been suffering from a protracted drought and hundreds of thousands of sheep have died, and many larger cattle have suffered the same fate. This has operated against this Province in two ways, viz: Causing beef and mutton to be very dear and almost stopping (for want of water) the river trade. Our Government has just begun to recognize the necessity of dealing with water question in the North, and an officer has been appointed who has organized a strong staff to bore artesian wells and build dams for the conservation of the precious liquid. Already several good wells have been sunk and consequently, what will eventually be cattle-runs greatly enhanced.

ISLAND NEWS.

(From Our Own Correspondent.) KAUAI.

EDITOR BULLETIN:—A short time ago a farce was performed at Lihue which was decidedly unique. It seems a certain gentleman not noted

for legal accumen was appointed deputy to act in the absence of the regular District Justice. Lately he took it upon himself, while Justice Hapuku was at home, but without the knowledge of the latter, to try condemn and sentence a South Sea Islander. The jailor was first to discover the illegality of the whole affair. The condemned man had already paid costs into Court. The story stopped short before the pseudo-Justice had returned the costs. To despoil an ignorant man of a great part of a month's wages *without due process of law*, seems like rather a severe practical joke.

Mr. and Mrs. S. V. Wilcox intend to leave Lihue on the 12th inst., for a short visit to the Coast. Mrs. W's. health is the immediate occasion for the visit. Many friends will wish her a prosperous voyage and a happy return.

A new organ, just received, helps greatly to make Lihue Union School a pleasant and desirable place for the children, as well as for the teachers. LIHUE.

AN AQUATIC TEAM.

One of the most novel teams on record is owned by a boy in Tehama. The young fellow's flyers are nothing more nor less than two large sturgeons, which were caught by his father in Sacramento River. He has fastened an end of a strong rope to the tail of each fish, and the other end is fastened to the bow of an eighteen foot boat. Two cords, fastened in some manner to the heads of the fish, serve as reins, and the owner of the team guides his fishy charge up or down the stream at will. The first day the "water horses" were hitched up they "bucked" with all the energy of a thoroughbred untamed Mexican mustang, jumping and plunging out of the water, and digging down as far as their harness would permit. But they have been broken splendidly, and cause no trouble to their proud driver. When they are not in use, the fish are driven into a large wooden cage, which was made expressly for them.—*Chico (Cal.) Record.*

The Anglican Church Chronicle for July is now before us. The leading articles are well written, one of them on "Newspapers" probably refers to our morning contemporary. The educational department is more interesting than usual, though we should like to see more original matter from the pens of the able editors. We should like to hear what they have to say about free education or boarding schools, both matters of interest at the present time. The usual local and foreign church news makes up an excellent number.

A POLICE COURT AT CAIRO.

The prefect and his deputy were arrayed in black coats and trousers, white waistcoats and patent boots. But they sat, as their predecessors sat a thousand years ago, cross-legged on the divan. Litigants came up without formality, kissed their knees or their hands, according to rank or favour, bent, with hands folded in their sleeves, to declare the grievance volubly, answered a brief, harsh question and took the verdict helplessly. Cases lasted, on an average, two minutes each, as near as I could time it; and all the while men came and went in the little room, talking mostly in high, quarrelsome tones. If any one present was struck with an observation, he offered it casually, and his worship listened. After delivering judgment, always preceded by a grunt of general dissatisfaction, he clapped his hand, and a soldier rushed in at full gallop, holding up his sword. Forthwith the parties retired to discuss matters warmly outside, in full hearing of the court. A matrimonial difficulty referred to the authorities lasted but four minutes by the watch. A thin, speaking man looked the husband, while the wife, so far as one could judge by eyes and nose, was very pretty. The gentleman told his tale, the purport of which I could not gather. The lady turned red to the tip of her little nose, and her eyes flashed. She took up her parable vehemently and sternly. The prefect asked further explanations of the husband, who turned very pale. He found nothing effective to reply. His worship pronounced in a single phrase, the galloping soldier appeared, and off went the pair. I asked of an official who spoke English if the man was going to prison. "No said he; "he goes home." It must be admitted there is something to be urged for a system which can deal with domestic troubles in this superior way.

SWEATING DROPS OF BLOOD.

Rev. Dr. Thayer, in an article in the Christian Leader, calls attention to the fact that the words of Luke do not necessarily imply that Christ, in his agony, shed great drops of blood, as it has been generally claimed they do. The record says, "his sweat was as it were great drops of blood," the Greek word rendered "as it were" expressing likeness: But even if it had been as so many careless readers have believed, says Dr. Thayer, and Christ had actually fallen into a bloody sweat, it still remains to be seen that it was supernatural. There are a number of cases on record wherein it is stated that this phenomenon has been witnessed. Of course the subject is one that has invited the attention of all classes of Christian believers, and provoked the denials and sneering criticisms of unbelievers. Many things have been written in endeavors to solve the problem, and explain its cause; and diligent Biblical scholars, and devoutly loving disciples have looked into the pages of history, and consulted medical authorities, in quest of facts which may help to throw light on the evangelical narrative. London physician, Dr. Wm Stroud, whose work, "The physical cause of the Death of Christ," gives quite a number of cases in proof of the actual occurrence of a bloody sweat as the result of strong mental excitement, anxiety and terror. Several of these are quoted in Harper's Biblical Cyclopaedia, from which we take them for the information of our readers. In 1552 an Italian officer, threatened with a public execution "was so agitated and distressed at the prospect of an ignominious death, that he sweated blood in every part of his body."

A young man of Florence, who was unjustly ordered to be put to death by Pope Sixtus V; when led to execution, "was observed, through excessive grief, to shed bloody tears, and to discharge blood instead of sweat from his whole body." It was remarked by some who witnessed it that Nature seemed in this way to invoke vengeance upon his cruel murderers. In a work with the title of "Ephemerides," it is stated that "a young boy, having taken part in a crime for which two of his elder brothers were hanged, was exposed to public view under the gallows on which they were executed, and while there was observed to sweat blood" from the exposed parts of his body; further examination showed that it was the same over his entire body. Another of the examples given is that of "a nun who fell into the hands of soldiers, and seeing herself encompassed with swords and daggers threatening instant death, was so terrified and agitated that she discharged blood from every part of her body, and died of hemorrhage in the sight of her assailants." And the case of a sailor is also mentioned who was so frightened by a terrific storm that he fell down, and "his face sweated blood," which continued as long as the storm lasted.
