

A LARGE MILITARY FORCE COMING

SHOT TO DEATH IN POLITICAL ROW

(Associated Press Cable to The Star.)

NASHVILLE, November 9.—Former Senator Carmack was today killed by Duncan Cooper and Robin Cooper in a triangular street shooting affair which was the outcome of political quarrels.

STENOGRAPHER RUNS AMUCK

NEW YORK, November 9.—H. F. Mackey, a stenographer, shot Postmaster Morgan this morning and then committed suicide. Morgan's wounds are not fatal. The attempted assassin was the result of dementia.

FEDERATION CONVENES

DENVER, November 9.—President Gompers of the American Federation of Labor today opened the annual convention of the Federation in this city.

KING EDWARD'S BIRTHDAY

The birthday of King Edward was observed in Honolulu today by the flying of flags and by a reception given by Consul Ralph G. E. Forster, at the Consulate on King street, where many residents of Honolulu called to pay their respects. Tonight's government band concert will have a programme especially arranged in honor of the day. Today is the 67th birthday of King Edward VII. He acceded to the throne on January 22, 1901, and has therefore been king eight years. His reign has been one of great success in most respects and he has specially won fame for his skill in the complicated diplomatic affairs of recent history. All over the world his anniversary is being observed today.

KING EDWARD VII.

SACHS' THANKSGIVING SALE.
The annual Thanksgiving sale at Sachs' this week will save you money on all qualities of table linens.

Best cups of coffee in the city at New England Bakery.

A petition was presented in the Circuit Court this morning by E. E. Duisenberg praying that he and Virginia R. Isenberg be appointed guardians of the estate and persons of Rudolf Alexander Isenberg and Alexander Hackfeld Isenberg, minors. The children are at present in Berkeley, Cal.

BIG DEMAND

The first shipment of the new crop of Tengu Japan Rice arrived a few days ago and is almost exhausted. Cables have been sent ordering large shipment which will arrive soon. K. Yamamoto, sole agent.

CHILDREN IN THE HOME.
Small children are always a source of anxiety to parents. Coughs, colds, croup and whooping cough attack the little ones and serious illness results almost before they are aware of it. One trial of Chamberlain's Cough Remedy for these troubles will prove its efficiency and give it a place in the home ever after. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

The place to have your typewriters and machines repaired is at Wall, Nichols Co., Ltd. Fort and Merchant streets. Telephone 10.

STOP FOR LANAI CASE

ATTORNEY GENERAL HEMENWAY WILL STAY IN WASHINGTON SOME TIME YET.

Attorney General Hemenway will not return to this city from Washington till after the first of the year, according to the latest plans which have been decided on. Governor Frear decided this morning to cable him that it would be best to remain in the National Capital till the Lanai case comes up which will be about the twenty-second or third of December.

This was done for two reasons. Governor Frear believes that the presence of Mr. Hemenway in Washington while he is there himself, will be a great advantage in a number of matters which are to be taken up and also it will obviate the necessity of his making another trip. If the Lanai case should not be heard in December it would mean that it would have to go over till March. At that time the local Legislature will be in session and the presence of Attorney General Hemenway will be needed badly in this city.

MONEY FOR SCHOOLS

SUPERINTENDENT BABBITT WILL MAKE BIG DEMAND FOR APPROPRIATIONS FROM LEGISLATURE.

Superintendent of Public Instruction Babbitt will ask for many appropriations from the coming legislature, among which will be an increased amount for the salary of the local teachers. Two years ago the sum of \$723,000 was asked for this purpose, but only \$706,000 was appropriated. This year the sum asked will be between \$735,000 and \$750,000, though until the schedules are made up, the definite figures cannot be ascertained.

Babbitt will also ask for an appropriation of \$25,000 or \$30,000 for a new school building at Hanapepe, Kauai. In this city an appropriation will be asked for an addition to the Normal school building and also for a new site and building for the Kaula-wela institution on School street. Both the building and the grounds are overcrowded at this place. More room is badly needed.

MOLOKAI FOR KUHIO

There have been a number of requests from those interested in the recent election for the figures by which Kuhio won out at the Settlement on Molokai. It will be remembered that the news that McCandless was very strong there caused a hurry-up trip by special steamer leaving here at one o'clock Sunday morning. The trip evidently had its effect, for Kuhio got 142 votes to Nolley's 85 and McCandless' 84. The Democratic candidate coming last.

BIG GAMBLING GAME IS ON

A big gambling game is going on day and night near the corner of Beretania and Maunakea streets.

SUGAR MEN IN SESSION

ANNUAL MEETING OF THE HAWAIIAN SUGAR PLANTERS ASSOCIATION AT ITS HEADQUARTERS—CAPTAINS OF HAWAII'S CHIEF INDUSTRY AND HANDLERS OF THE COMMERCIAL END THEREOF CONVENE TO THE NUMBER OF NEARLY FORTY.

OFFICERS OF THE HAWAIIAN SUGAR PLANTERS ASSOCIATION FOR THE ENSUING YEAR, 1908-1909, ELECTED BY THE BOARD OF TRUSTEES THIS MORNING:
SAMUEL M. DAMON, President.
WILLIAM G. IRWIN, Vice President.
W. O. SMITH, Secretary and Treasurer.
G. H. ROBERTSON, Auditor.
ROYAL D. MEAD, Assistant Secretary.

Between thirty and forty members of the Hawaiian Sugar Planters' Association were assembled at the hall of that body, fourth floor of the Judd building, for the annual meeting, at 10 o'clock this morning.

The following named were present: F. A. Schaefer, president; S. M. Damon, vice president; W. O. Smith, secretary; Royal D. Mead, assistant secretary; H. P. Baldwin, George R. Ewart, E. D. Tenney, E. E. Paxton, W. H. C. Campbell, George Chalmers, C. C. Kennedy, George F. Renton, W. M. Giffard, John Watt, J. H. Mackenzie, H. A. Baldwin, F. M. Swanzey, G. F. Davies, J. Fassoth, Geo. Gibb, K. S. Gjerdrum, C. F. Hart, John Hind, F. Klamp, A. Lidgate, R. Hall, J. R. Myers, John M. Ross, F. Weber, Geo. C. Watt, E. H. Wodehouse, T. H. Petrie, J. P. Cooke, W. L. Hopper, J. P. C. Hagens, J. W. Waldron, W. Pullar, John M. Ross.

Mr. Mead read the minutes of last annual meeting which were approved.

THE PRESIDENT'S ADDRESS.

President Schaefer then read his opening address, as follows:

Honolulu, November 7th, 1908.

To the Officers and Members of the Hawaiian Sugar Planters' Association.

Gentlemen:—A year has passed again since the members of the Hawaiian Sugar Planters' Association came together at their last annual session, and in the name of the Trustees I extend to you all a hearty welcome at the present meeting.

The business year of 1907-1908, has been the most successful one for the sugar industry of these islands which we have to record. This refers particularly to the large tonnage of sugar produced, and also in a marked degree to the good sugar prices which prevailed during that period. The total tonnage of sugar of the past year, amounts to 521,123, while heretofore the yearly output has never reached 450,000 tons. The weather has been

F. A. SCHAEFER, RETIRING PRESIDENT HAWAIIAN SUGAR PLANTERS' ASSOCIATION.

INFANTRY, ARTILLERY, CAVALRY, ETC.

(Associated Press Cable to The Star.)

WASHINGTON, D. C., November 9.—A special army board has been detailed by the Secretary of War to select a barracks site in Hawaii for a garrison to consist of a regiment of infantry, one of field artillery, two squadrons of cavalry, a company of engineers and a hospital corps and a signal corps detachment. Captain Castner has been detailed to make immediate arrangements for the accommodation of the cavalry.

The two squadrons of cavalry which are coming to this city should arrive within three or four months and will probably be quartered at the military reservation at Lilehua, Wahiawa. This statement was made this morning by a local army officer who is in close touch with the way things will be handled here. In speaking of the matter he said:

Orders have already come to the local quartermaster's office to look into the matter of supplies for the cavalry. In this line instructions have been given to provide for forage for the cavalry horses, firewood oil and other like necessaries. A specially detailed officer has been appointed to come down here and look after the erecting of temporary quarters, which will take the matter out of the hands of the local quartermaster. It is believed that the cavalry will be camped at the Wahiawa military reservation and from the manner in which things are being hurried along that they will get here in about three or possibly four months.

According to the last order on organization issued by the War Department the following should be the make up of the force to be stationed on this island: one regiment of infantry, consisting of twelve companies and band, 816 enlisted men and 50 officers; one regiment of field artillery, consisting of 6 batteries, and band, 844 enlisted men and 30 officers; two squadrons of cavalry, consisting of eight troops and band, 552 enlisted men and 31 officers; one company of engineers, consisting of 164 enlisted men and three officers; signal corps detachment, probably at least 50 men and three officers; hospital corps detachment, probably at least 50 men and three officers. Total officers and men, outside of coast artillery, who have not yet been assigned, 2486 enlisted men and 120 officers.

The officers already stationed in this city say, without exception, that the military reservation now owned by the Federal government at Lilehua, Wahiawa, will undoubtedly be used for the camp of the entire force. It is apparently the best location that can be found where there is sufficient room. For the drill of the cavalry alone a stretch of about one mile square will be hardly enough. It is possible that the post at Fort Shafter will be used for other purposes and barracks will be erected at various places for the Coast Artillery troops who must be close to the batteries where they are to be stationed. For the Diamond Head battery land has already been bought in the direction of Kaimuki for a site for barracks, while transfers for a barracks site for the men to handle the big guns to be located at Waikiki have been made of 6 batteries, and band, 844 enlisted men recently.

3,445 MILES BY WIRELESS

ISEBELL AT KAHUKU HEARS JAPAN TALKING—HAD JUST CONVERSED WITH AMERICAN COAST—EXPERT'S EARS CATCH NEARLY SIX THOUSAND MILES OF WONDERFUL DAYLIGHT SPARKS—CONGRATULATIONS FROM SEATTLE.

Orient and Occident talked to Oahu, the other night by the wonderful wireless whose powers are only beginning to stir the imagination of man. If these things can be, what must be to come, since the wizardry of the exchange of intelligence is annihilating space and astounding humans beyond understanding except to the few, and urging those masters in the field of science to renewed efforts for further miracles.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Kahului and Hilo occur about one hour earlier than at Honolulu. Honolulu standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m. which is the same as Greenwich, 0 hours, 0 minutes. The Sun and Moon are for local time for the whole group.

BREAKS SPEECH TO GET MARRIED

PROMINENT WISCONSIN CLUB-WOMAN THEN RETURNS TO FINISH ADDRESS.

MILWAUKEE (Wis.), October 23.—While Mrs. Davis R. Davis of Eau Claire was responding to an address at the State Convention of the Federation of Women's Clubs Ralph W. Burdick of the same city was seeking out some Judge to secure a special dispensation to marry Mrs. Davis. She had not yet completed her address when he returned and hastily sent a messenger with a note to Mrs. Davis in the meeting.
Excusing herself for a few minutes, Mrs. Davis stepped outside and was whisked off to Calvary Presbyterian Church, where Rev. W. E. Graham was waiting to officiate at the marriage. When the ceremony was completed Mrs. Burdick returned and finished her talk.

DIED.

DILLON—In Honolulu, November 8, Nicholas Henry, son of P. F. and Eleanor Dillon, aged 38, a native of San Francisco.
Funeral will take place this afternoon at three o'clock from the residence of the parents, corner of Nuuanu avenue and Vineyard (terret), thence to the Roman Catholic cathedral, where services will be held. Interment at the Nuuanu cemetery.
San Francisco papers please copy.

YOUNG MEN CONTINUE TO GIVE SKIN FOR FRIEND

SANTA ROSA, October 24.—Phil Redmond, the young Santa Rosa fireman, who was scalded in a train wreck at Novato many weeks ago, underwent another skin-grafting operation this morning. Another delegation of friends from Santa Rosa and Petaluma went to San Rafael to furnish the skin-grafts required, making the total about 250 that have done so.
About one hundred inches of skin were transferred to the young man's leg today.
Some friends have submitted to two operations for the removal of skin-grafts.

JAPANESE DIET CALLED.

TOKIO, November 9.—The Japanese Diet has been called to open on December 22.
THE CAUSE.
The first causes of indigestion, Biliousness, Loss of Appetite, Headache, Dizziness, etc., is constipation. Don't take cathartics, as they irritate the lining of the bowels, and are only a temporary relief. Dr. Miles' Nerve and Liver Pills permanently cure by strengthening the nerves of the stomach and liver. They effect a mild, natural movement.
A lady is to sing in public in Esperanto. But in the present stage of the art of enunciation this is not likely to make much difference in what the audience hears.—New York World.

GOODWIN'S NEW BRIDE

BOSTON, November 9.—Nat Goodwin, the actor, who has only recently been divorced from his wife, Maxine Elliott, was married yesterday to Miss May Goodrich, the well-known actress.

WEEKLY WEATHER BULLETIN

FOR THE WEEK ENDED OCTOBER 24, 1908
Honolulu, October 24, 1908.
GENERAL SUMMARY.
The mean temperatures were lower than those of the preceding week at all temperature reporting stations in the section, excepting Pepeecko, Hawaii; Wailuku, Maui; Haoula and Waianae, Oahu, and Kealia, Kauai.
The rainfall was above the average of ten or more years at all stations having such records in the Kohala and Puna and the central and southern portions of the Hilo district of Hawaii; also at Honokaa, Hawaii, and Waimanalo, Oahu; at the remaining stations it was below the average for the week. The changes, in inches, in the several districts were: Hawaii—Kohala +0.03 to +0.29, Hamakua -0.52 to -0.82, excepting +0.32 at Honokaa; northern Hilo -0.37 to -0.43 and central and southern Hilo +0.94 to +2.80, Kapoho +2.15, Kau -0.30 to -0.55, and Kona -1.54; Maui—Hamakualoa -0.42; Oahu -0.23 to -0.47, excepting +0.07 at Waimanalo; and Kauai—Kona 0.52, and Waimea -0.03.
The greatest amounts of rainfall were reported from the Hilo and

Puna districts of Hawaii and the higher altitudes of the Ewa district of Oahu. The amounts, in inches, in the several districts were: Hawaii—Kohala 0.84 to 1.15, Hamakua 0.16 to 1.22, Hilo 1.50 to 5.36, Puna 3.98, Kau 0.20 to 0.94, and Kona 0.00; Maui—Koolau and Hamakualoa 0.98 to 1.18, Hana 0.23, and Wailuku and Lahaina 0.00; Oahu—Koolauloa and Koolau 0.11 to 0.90, Honolulu 0.12 at the lower levels and 1.20 at the higher, Ewa 0.08 on the plains and 0.87 to 2.66 at the higher altitudes, and Waianae 0.00; Kauai—Puna 0.19 to 0.42, Kona 0.64 and Waimea 0.24 to 0.28; and Molokai 0.02 to 0.41.
Heavy to excessive rains occurred in portions of the Hamakua, Hilo and Puna districts of Hawaii on the 20th, 21st and 22d; on the 21st Papaikou reported 3.12 inches, and Panahawai 3.10, and during 24 hours of the 20th-21st Kapoho 3.13.
There was considerably more rainfall than during the preceding week in the Puna and the southern and central portions of the Hilo districts of Hawaii and at the upper levels of the Ewa district of Oahu—the changes ranging from 1.06 to 3.37 inches; in the northern portion of the Hilo district of Hawaii there was from 1.12 to 1.40 inches less rainfall; elsewhere the differences were generally small.
The following table shows the weekly averages of temperature and rainfall for the principal Islands and for the Group:

	Temperature	Rainfall
Hawaii	72.3 deg.	1.91 inches.
Maui	73.5 deg.	0.43 inch.
Oahu	76.2 deg.	0.67 inch.
Kauai	75.8 deg.	0.35 inch.
Molokai	75.8 deg.	0.22 inch.

Entire Group..... 7.40 deg. 1.16 inches.
At the local office of the U. S. Weather Bureau in Honolulu clear to partly cloudy weather obtained with measurable rainfall on the first three days amounting to .12 inch, that amount more than during the preceding week, and .32 inch below the normal. The maximum temperature was 81 deg., minimum *8 deg., and mean 75.9 deg., 0.1 deg. below the normal, and 1.4 deg. lower than last week's. The mean daily relative humidity ranged from 62 to 77 per cent, and for the week was 68.4 per cent. Easterly winds prevailed on the 17th and 22d, inclusive, NE. and E. on the 23d, and northeasterly on the remaining days; the average hourly velocity was 7.9 miles. The mean daily barometer ranged from 29.98 to 30.06 inches, and the mean for the week—30.00—was 0.03 inch above normal.

U. S. DEPARTMENT OF AGRICULTURE. WEATHER BUREAU.

The following data, covering a period of 33 years, have been compiled from the Weather Bureau and McKibbin records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month.
Month of October for 33 years.
TEMPERATURE. (1890-1907). 18 years.
Mean or normal temperature, 77 deg.
The warmest month was that of 1906, with an average of 78 deg.
The coldest month was that of 1903, with an average of 75 deg.
The highest temperature was 90 deg., on the 10th, 1891; the 30th, 1892.
The lowest temperature was 63 deg. on the 30th, 1892.
PRECIPITATION (rain, 22 years) (1877-94, 1904-7).
Average for the month, 1.67 inches.
Average number of days with .01 of an inch or more, 14.
The greatest monthly precipitation was 4.32 inches in 1884.
The least monthly precipitation was 0.44 inches in 1885.
The greatest amount of precipitation recorded in any 24 consecutive hours was 2.36 inches on the 20th, 1882.
RELATIVE HUMIDITY.
Average, 8 a. m., 68 pct.; 8 p. m., 72 pct., (1904-7); average, 9 a. m., 68 pct.; 9 p. m., 75 pct., (1893-1903).
CLOUDS AND WEATHER. (1890-1907). 18 years.
Average number of clear days, 10; partly cloudy days, 17; cloudy days, 4.
WIND. Direction 24 years. Velocity 4 years.
The prevailing winds are from the NE. (1875-94, 1904-7).
The average hourly velocity of the wind is 8.2 miles (1904-7).
The highest velocity of the wind was 28 miles from the NE on the 26th, 1904; the 17th, 1907. (1904-7).
Station: Honolulu, T. H.
* 9 o'clock averages from records of Territorial Meteorologist; 8 o'clock averages from Weather Bureau records.

IMMIGRANTS ARE LESS IN NUMBER

VICE-CONSUL SAYS MORE JAPANESE ARE GOING HOME THAN COMING.

With the purpose of allaying American uneasiness in regard to the volume of Japanese immigration to this country figures were given out yesterday by S. Takahashi, Vice-Consul in charge of the Japanese Consulate in this city, showing the movement of Japanese subjects to and from the United States and Hawaii during the eight months ending with August 31st last. The figures indicate a marked decrease of Japanese immigration, the number of Japanese returning to Japan in the last two months being almost twice as great as those coming here.

The reports show the movement of passengers as follows: For January, 1908—Japanese passengers from Japan to the United States, 413; Japanese passengers from the United States to Japan, 442. For February—To the United States, 469; from the United States, 528. For March—To the United States, 540; from the United States, 325. For April—To the United States, 627; from the United States, 373; For May—To the United States, 426; from the United States, 323. For June—To the United States, 316; from the United States, 288. For July—To the United States, 281; from the United States, 512. For August—To the United States, 163; from the United States, 537.

The figures for Hawaii show that during July and August last 383 Japanese entered Hawaii and 976 left Hawaii for Japan. "These figures," said Takahashi, "should go far toward dispelling the uneasiness felt on the subject by a section of the American people. Strict control is now being exercised by the Japanese Government over the departure of those persons who have hitherto given cause for complaint, and the marked decrease may be attributed to the rigid enforcement of restrictive measures voluntarily undertaken."—San Francisco Chronicle.

HAWAII EXCLUDED

WASHINGTON, D. C., October 15.—Joseph Stewart, the new Second Assistant Postmaster-General, has issued a circular to the effect that the reduction in letter postage to 2 cents between the United Kingdom of Great Britain and Ireland and the United States does not refer to the island possessions of the United States; that while the states and territories on the continent of North America, including Alaska, are favored by the reduction, it does not apply to mail between England and Hawaii or Porto Rico.

COUPONS

The Times for November is sold off TRENT.

Almost the one thing we wished for in the late hot skirmish was the reelection of Mr. Trent; and we fancy Mr. von Holt wished much the same. We have an old-fashioned fashion of getting what we aim at; an' don't fire, at random, very often. At all-rates we believe in letting well-enough alone.

H. M. AYRES.
Air Castle would be a better name than Pacific Weekly.

MUNICIPAL LABOR BUREAU SUCCESS

Sacramento System of Caring for Unemployed Overcomes All Objections.

APPLICANTS PAY NO FEES.
Instead of Causing Influx of Idle Men, New System Reduces the Number.

SACRAMENTO, October 24.—California's capital city shares, with Los Angeles and Seattle, the claim to the clearest solution of the labor employment problem in the United States, and this has been accomplished by means of the municipal employment bureau system. According to the records of the labor bureau of this city, and the consensus of opinion expressed by all who have observed results, the scheme has been manifestly successful.

In this city alone last month, nearly half a thousand men obtained work without being obliged to disburse a cent in the way of fee, while in many instances matters were so arranged that the men were able to secure free railroad and steamboat fare.

NUMEROUS PROTESTS TO PLAN.
When the project was first broached a vigorous protest went up from various sources and disastrous results were predicted. Organized labor leaders feared that the free labor bureau would mean the cutting of wages and would be inimical to labor union interests. Employment agencies which long had fattened upon the fees of the unemployed, put up a strong protest on the grounds that the city employment bureau aimed a blow at a legitimate industry, while many citizens, otherwise uninterested, feared that the idea would prove a lodestone of attraction for the down-and-out class of the consequent menace to local labor by the bringing of competition to the city.

That the city free labor bureau does not affect the unions is freely conceded now by the local leaders. The men engaged from the bureau receive fully as much money as they would from any other source. In many instances they are safer than they would be in getting a job from some employment agencies, for the man in charge of the bureau has nothing to gain by placing his unemployed clients in any other than legitimate places of work.

NO INFLUX OF UNEMPLOYED.
So far from bringing an influx of unemployed men to the city to compete with the residents of the place, the first care of the city bureau is to see that unemployed men of Sacramento are served first, and if there is anything left over in the way of vacant positions any where, they go to the first comers and to those best adapted to the work.

Sacramento is today singularly free from idle hands in comparison with other places, and this has been particularly noticeable during the recent depression in trade.

The Sacramento City Free Employment Bureau is in charge of Timothy Lee, former Chief of Police of this city and a veteran resident of this locality. He is enthusiastic in his work and says that he cannot get enough women and girls for the places he has to fill.

TRAVELS FAR TO REGAIN BABIES

CHICAGO MAN STEALS CHILDREN FROM MOTHER-IN-LAW IN SAN BERNARDINO.

SAN BERNARDINO, October 23.—Mrs. John Ayer of this city and Chicago fought a terrific battle this afternoon on the principal business street with her son-in-law, Herbert E. Chandler, and his father, Clarence M. Chandler, a wealthy fruit grower of Elmonte, for possession of the former's two little children, who Mrs. Ayer, as their grandmother, refused to surrender. They had been placed in her keeping by her daughter, their mother.

Yesterday Chandler, after a month's searching from Chicago to California, located the grandmother and the children at a fashionable apartment-house here. She refused to surrender the children and attorneys were retained to commence habeas corpus proceedings this morning.

While on the way to the courthouse, the Chandlers espied the woman and the children. Instantly they clutched the woman's skirts, she defended them vigorously with her parasol, the men finally leaping, with the children, into a waiting automobile and left town going sixty miles an hour. Chandler and his wife separated.

GEORGE F. HENSHALLMANAGER

MONDAY.....NOVEMBER 9, 1908

A KING THE WORLD WELL HONORS.

In seven years of his reign King Edward has achieved a most remarkable position. He is recognized today as the most influential diplomat in Europe and the greatest peace-preserver of them all. The prince regarding whom very woeful predictions were once made has taken a place among great monarchs of the wonderful nation whose head he is. A glorious friendship with France is not the least of the achievements laid almost to his personal credit. If the United States under McKinley and Roosevelt has lately enjoyed prosperity and expansion beyond all previous records, the same period under King Edward has seen British diplomacy give London the dominating voice in the affairs of the nations, for with Japan at her back and the United States and France friendly, Great Britain holds the key. A poorer man in Edward's place might at least have been shorn of much power for evil and thus made harmless, but Edward is a tremendous positive power for good. Great Britain's "God Save the King" may rightly be echoed all over the world today.

Hawaii county returns show some queer results. In electing Pua, Republican, as sheriff to succeed Keolanui, the voters chose an excellent man, but at the same time they turned down a Home Ruler who has been one of the best officers in any of the counties. If Pua is as good a sheriff as Keolanui he will do well. On the other hand, the Home Rule County Attorney, whose record is a very miserable failure, was re-elected against a competent opponent. Amid the records of Home Rule failure Keolanui stood a conspicuous exception.—he was a success,—and he is turned down.

ON LEPERS AND PINKHAM.

All testimonies are the same about our leper settlement. Down the years the successive administrations of island affairs have spared nothing to help the unfortunates and make their lot as easy as nature allows. The policy will be kept up as long as it is needful to have a leper settlement at all. And the best hope of bringing the day when no settlement will be needed, lies in the facilities now being provided by the federal government for the study and treatment of the disease.

When Hawaiians hear praise of the good conditions at the settlement, the unsurpassed degree of contentment among the people there, the kindly feeling towards the administration, in a word the complete change from the conditions under which the settlement spent much of its time in mass meetings to frame complaints and protests, they should offer a thankful remembrance to L. E. Pinkham, under whose kindly administration the change came, also to Superintendent McVeigh, whose work on the ground has been a splendid mixture of humanity, charity and the necessary amount of discipline to maintain proper conditions. It was an ungrateful public that allowed Pinkham to be sacrificed to an unnecessary, and, we believe, positively harmful, Iwilei "reform" movement.

Kaniho has been in every Territorial legislature yet. In the first he was an enthusiastic, long-winded member of a majority in which it was some achievement to have the most enduring lungs. Later he has been on the under side and once he was a lone minority of one. Judgment and moderation came with experience and political chastening, and now Kaniho is a tamed lion.

Mrs. Mary Atcherley ought to have been a press agent.

The attitude of Representative-elect Cohen on the land question again bears out the contention, made by Republicans during the campaign, that the best way to reform the local land laws is through the Republican party. The members of that party are just as much convinced as are the Democrats, that revision is necessary, and they have the backing of the Governor and a Republican Senate here and in Washington of a Republican Congress and President. As Cohen puts it, the party wants Congress to give Hawaii the right to frame her own laws, which is certainly much better than asking Congress to make the laws for us. Cohen has taken up the study of the question in earnest, and will undoubtedly go into the House with definite and intelligent ideas as to what should be done. Through such legislators, reform will come far quicker than it could have come through a legislature hostile to both the local and national administration. The land agitators ought to be satisfied with the result of the election.

Attention is again called today to the condition of Makiki storm sewers, through the efforts of residents of that district to secure some action remedying evil conditions. A former appeal to the Board of Health resulted in a letter telling what had been done and intimating that things were all right. Yesterday some of the citizens who had tried to secure action visited sewer basins and took samples of the stagnant water standing there. The result showed not only breeding mosquitoes, but various other forms of organic life and filth. The smell from these holes is always enough, without this demonstration, to prove that there is something wrong. What is going to be done about it? It is surely time that the Board of Health took the matter up with some vigor, and did something more than write reports and letters.

TWO YEARS OF POLITICAL TURMOIL.

The voters of the municipality appear to have laid the foundation for a couple of years of politics and turmoil. The Board of Supervisors, with a Republican majority, six to one, is to be presided over by a Democratic mayor. The Democratic mayor has the power to make scores of appointments to office, but they are all subject to the approval of the Republican Board. Acts of the Board require his signature to become law, unless his veto is overruled, which the six to one majority can easily do. A Democratic police department depends for its revenue upon appropriations to be made by this overwhelmingly Republican Board. This seems to point to two years of inevitable political warfare in the city and county departments. It may develop that the Democratic mayor is but a figurehead after all, though the municipal act evidently contemplated giving the mayor very large powers. In

any event it is going to be very hard to organize the new government for business, and almost constant deadlocks seem unavoidable. It will be human nature for each side to try and strengthen its own party. Hence there will be a long contest for the control of the road department and to lessen the Democratic benefits from having control of the police department. The voters by their mixed action in the election have made it about as difficult as possible to start the new municipality, and much trouble may be looked for.

The Merchants' Association and the Chamber of Commerce of this city should reincarnate the movement for the stationing of a revenue cutter at this port. Some time ago it was announced that the Manning would return here. Then, owing to the fact that all the other cutters were on Alaska duty, she was kept on the Coast, with the promise that one of the boats in Northern waters would be sent here as soon as the sealing season closed. This promise might well be looked up and the Treasury Department be reminded of it.

THE HUMOR OF CRIME

Excitement at police headquarters! A rush of complaints and some clever soothings and settlements, with fakes on the sides for variation.

To begin at the ending, Mrs. Mary Atcherley complains of someone swiping three-fourths of a mine of medicine with which her husband, the doctor, was to have cured the Molokai settlement. It is sensational, but hardly probable and the complaint, if truth were known, probably rests in the same pigeon-hole, at secret service headquarters in the police station, as other curios.

There went this morning to the police station three ladies. One was elderly, distinguished looking and very neat in a silken surtout that hung according to the latest fashion notes in the society pages of local newspapers. With her were two beautiful girls, her daughters, boasting Castilian blood and looking the part. It seems they had rented a house and when they went to move in they found others occupying the premises. Warfare was threatened until Sheriff-elect and now Deputy Oom Paul Jarrett bade them arbitrate. Beauty thereupon vacated the precincts of the crime-curio-emporium and with them went the sunlight of the office, for, following them came a Chinese. He is his name, who swore that one Martins or Maertens, or the like, had assaulted his daughter, in that she went rightfully on certain Keaumoku street property and was wrongfully and forcibly ejected.

Yet another rumour, for a noted though young and peculiarly good-looking lawyer complained to the Deputy Sheriff-to-be, that three larkens, bums, loafers, tough-nuts, bad-boys, what you will, were terrorizing Vineyard and School streets, as well as Vineyard and River streets, with their window-breakings, hold-ups, bad languages and general misbehavior. It seems that the police, in spite of Kaulaia's Sherlock Holmes intellect, are unable to apprehend these limbs of Satan alleged.

As for the calendar this morning there was little of interest except a score of gamblers of various nations, and gambling, as it would appear from the police records, is not unusual in Honolulu, unless it be white gambling, and, as per police records, there is none of that; only Orientals gamble.

There may soon be something doing in a certain Kailih rendezvous, if the police know as much about prominent naughtiness as the town in general seems to know. Meanwhile there are those afraid of rusty guns and insane jealousy.

Fine Job Printing, Star Office.

HIGH SEAS OR HARBOR

ATTORNEY THOMPSON HOLDS STATUTE IN WYNNE CASE TO BE UNCONSTITUTIONAL.

The case of the United States vs. John Wynne, being tried for the murder of Archibald McKinnon, the third engineer on the oil steamer Rosecrans, should go to the jury this afternoon and a verdict will be expected by night. This morning the argument of the case for the Government was taken up by W. T. Rawlins, who occupied but a little over an hour, going over the details of the crime and setting forth the case of the United States in a clear manner.

Attorney Frank Thompson then argued for the prisoner. He laid great stress on the instructions of Judge Dole in regard to the taking into consideration the condition of intoxication in which Wynne was at the time. He also called attention to the presumption of innocence which must be granted everyone charged with crime unless proven guilty beyond reasonable doubt.

In the asking for instructions on Saturday, Thompson brought up a point upon which he may be able to get a new trial. He called the attention of Judge Dole to the fact that under the Constitution of the United States Congress is given the power only "to define and punish piracies and felonies committed on the high seas and offenses against the law of nations." Under this he claims that the act of Congress providing for punishment of crimes committed in a "harbor, inlet or arm" of the sea, is unconstitutional. It is interesting to note that Webster in defining the term "high seas" says "that part of the ocean or sea not within the limits of any sovereignty." Should the verdict be against Thompson's client he will probably ask for a new trial on this ground as his point was overruled by Judge Dole.

ART THEATRE.

Capacity houses is the rule at all performances of the Art Theatre. "Oiled" Pools Have Many Mosquitoes

DISEASE BREEDING PLACES INVESTIGATED BY CITIZENS AFTER COMPLAINT TO THE BOARD OF HEALTH — STAGNANT WATER SAID TO HAVE BEEN OILED HAS PLENTY OF WRIGGLERS AND OTHER LIFE.

A party of citizens, including John Walker, Dr. Sinclair, Captain Parker, Col. C. J. McCarthy, Henry Davis, John Markham Foster Davis and others, yesterday started on a mosquito and health campaign of their own in Makiki and this morning they are showing a bottle containing lots of lively mosquito "wrigglers" besides various other specimens drawn from sewer pools about which complaint was made some time ago to the Board of Health.

Some time ago the attention of the Board was called to the catch basins along Pilkoil street, which all have stagnant water in them nearly all the time, giving out an odor of filth. The Board discussed the matter, received a report stating that the pools were being treated with oil, and sent the report to Col. Soper, who made the complaint, and then dropped the matter.

As mosquitoes continued to swarm and filthy odors to emanate from the sewers, the citizens started out yesterday to find out why. The pools had been "oiled" on the day before. Walker dropped buckets into the pools and brought up the water. There were plenty of "wrigglers" in it, also some other insects which the voluntary inspectors were not able to classify.

"I think that if the citizens cannot get any action they ought to find away to do the work themselves," said John Walker. "There is no need for these catch basins at all in my opinion but if the basins are needed, the bottom can be pierced so that they won't hold water. We were better off without a storm sewer system than with one that produced a lot of stagnant pools and breeds disease. There is a case of sickness that is probably diphtheria in this very neighborhood now. It is time the citizens insisted upon some thing being done. If we have catch basins, let the water be allowed to leak through them into the black sand."

The following is the reply sent by the Board of Health to the last complaint:

Honolulu, Hawaii, No. 2, 1908. "John H. Soper, et al, Residents of Pilkoil Street, between Wilder Ave. and Elm Street, Honolulu.

"Gentlemen: I have to inform you

that your petition, relative to the storm sewer catch basins in your vicinity, was considered at a meeting of the Board of Health held October 29th and I was instructed to forward you a copy of the report of the General Health and Sanitary Officer relative thereto, which you will please find enclosed.

Yours very truly, "C. CHARLOCK, Secretary, Territorial Board of Health."

Honolulu, Hawaii, Oct. 27, 1908. "To the President and Members of the Board of Health, Honolulu.

"Gentlemen: Referring to the petition of certain residents of Pilkoil St., between Wilder Avenue and Elm Street, relative to the storm sewer catch basins in that vicinity, I beg to submit the following:

"The sewer catch basins that are the most offensive are the ones at King and Pilkoil streets.

"I saw Road Supervisor Cummins and he informs me that if he filled up the hole at the bottom of the catch basins the storm sewers would become filled and stopped up with the refuse brought down by the heavy rains. He also informs me that all the catch basins are cleaned at least once a week. He further says that he will give the matter his personal attention and have them cleaned often if they need it. He has given orders to the foreman to lime them.

"The men on the mosquito force have oiled the catch basins every week for the last two months, but of course when rains have come quite a little of the oil has been washed away. I have examined a number of the catch basins in the Makiki District of late and have found wrigglers in only three.

"Several engineers whom I have talked with claim that the sump in the bottom of the catch basin is unnecessary.

"It seems to me that it might be advisable to refer the petition to the Board of Supervisors and see if their engineers cannot find some way to do away with these sumps and yet not endanger the filling of the sewer in stormy weather. Respectfully submitted,

(Signed) J. S. B. PRATT, "General Health and Sanitary Officer."

SUGAR MEN IN SESSION

(Continued from Page One.)

rather favorable to the growing cane, although several districts of these islands have suffered severely by prolonged droughts, particularly Kau and Kona on the island of Hawaii, and Makawao and the Kula district on Maui, and to some extent the island of Kauai as well.

This extensive crop, next to weather conditions, is largely owing to careful and judicious field work and treatment of the soil with lime and artificial fertilizer based on scientific analysis, and ultimately to the perfection arrived at in the advanced equipment of Mill and Rolling Works to obtain the best possible results from the cane juice.

Too much praise cannot be given to the continued good work accomplished by the Experiment Station and the results obtained in its different Divisions. Special Annual Reports of each Division of the Station will be submitted to you for your information and discussion, but on my part I desire to commend each individual member of the Staff for his share in the successful working of the Experiment Station, without mentioning these cooperative workers by name, considering that they are long and favorably known to you. But I would be amiss in my duty if I refrained from making particular mention and speaking in the highest praise of the efforts made by Mr. Muir in the Moluccas and other islands in the Southern Pacific, to obtain specimen of parasites enemy to the cane borer, in which effort he has already partially succeeded. As you all are aware, to your sorrow, of the destruction caused by the cane borer, you will fully realize the great boon to the sugar industry here if the cane borer should be fought after this as successfully as has the leafhopper in recent years. The Experiment Station, under the Directorate of Mr. C. F. Ekart, and his able staff, has been doing most excellent, useful and practical work, by raising a large variety of cane seedlings and distributing them among all the plantations of this group. These seedlings are now carefully watched in their growth, and developments will show what species give most promise of large results. The cooperation of the Managers of the various plantations, in propagating new species of cane is greatly to be commended and fully recognized.

The labor situation, although not actually of a serious aspect at the present time, is justly a cause of constant apprehension, requiring intelligent study and watchfulness. Fortunately for the agricultural pursuits of these islands, there is a good supply of labor available to prevent any shortage to the demand, still it is very desirable that such labor should not be too largely of one nationality, but should be made up of various nationalities so far as this can reasonably be carried out. The benefit of such diversity in the labor element, is too apparent to require any argument. This fact the Trustees have fully recognized and steps are being taken having this end in view, which will be further referred to in this Report.

Most important to the agricultural and industrial pursuits of this Territory, have been the visits of Mr. Jas. R. Garfield Secretary of Interior, and of Mr. F. H. Newell, Director of the United States Reclamation Service, who by personal observation, have made themselves acquainted with the actual situation in this Territory as regards its agricultural and industrial progress made, its present needs and who have gauged its future possibilities. It will be the privilege of this Association to have Mr. Newell present at one of its daily sessions, when he will kindly deliver an address on the wonderful results obtained on the Mainland by the Reclamation Service under his Directorate and perhaps on the possible application of this national scheme on the resources of these islands.

Mr. John D. Treanor, at the suggestion of the late Mr. Sargent, Commissioner of Immigration, was invited to visit the different islands of this group, to inform himself on the existing labor conditions here, which resulted in his engagement as Agent of the Territorial Board of Immigration at New York. It is expected that he will recruit among the newly arrived Southern Europeans in New York, field laborers, first on a limited scale as an experiment with the possibility of larger numbers to follow. This movement is in line with the policy of the Administration in Washington and may prove to be a success in its way.

The fortunate result of the Presidential election, gives assurance of a conservative administration of public affairs on the lines of the policy of the present administration, and no fear need reasonably be entertained that Congress will enact any legislation which would affect the sugar industry of the mainland and that of these islands disastrously.

Thus the outlook for the near future is hopeful and there seems to be little in sight to cause serious apprehension, although as planters, we are not disposed to minimize our responsibilities, nor to underestimate the manifold contingencies which our industry is subject to. These are best shared and overcome by cooperative work, and the annual meeting of the mem-

bers of the Hawaiian Sugar Planters' Association is one of the essential means of furthering this object by mutual discussion and exchange of opinions, and last, but not least, by social intercourse and good fellowship. All of this I trust will make this annual meeting productive of much practical good to our industry, and also be socially a success to be pleasantly remembered by its participants.

Yours very truly, F. A. SCHAEFER, President, Hawaiian Sugar Planters' Association.

THE SECRETARY'S REPORT. W. O. Smith read his report as secretary, which was partly as follows:

The Trustees have held thirty meetings during the year. Attention is again called to the suggestion made, in the Secretary's last report, that further consideration be given to the subject of the appointment of committees of managers and of their reports.

It may be that instead of the President appointing the usual stated number of members on each committee it would be better that he appoint one member on each committee who should be chairman, and each chairman so appointed select the other members of his committee. This, however, is a matter for consideration and action at the annual meeting.

CROP REPORTS. The reports of the sugar crops for the year ending September 30, 1908, are herewith submitted. The crop has been the largest produced during any year in the past, making a total tonnage for the year of 521,123 tons.

The yield by island has been as follows:

Hawaii	180,159 tons
Oahu	137,013 tons
Mau	122,629 tons
Kauai	81,322 tons
Total	521,123 tons

The largest crop heretofore produced in one year was that of 1907, amounting to 449,017 tons.

The seasons were favorable both for growing the crops during 1907 and for harvesting in 1908.

The facilities for transporting and marketing have been better the past year than ever before.

COMMITTEE REPORTS. The chairmen of the various committees will report upon the subjects assigned to them.

The Committee on Labor has held many meetings during the year and had various plans under consideration. Upon the recommendation of this committee the Trustees decided that in order to carry out more systematic and comprehensive plans in regard to maintaining an adequate supply of laborers it was desirable that a Labor Bureau be organized to be in the immediate charge of capable and efficient officers. Steps have already been taken to carry out this object and it is hoped that much benefit will result therefrom.

WASHINGTON. Mr. F. M. Hatch, the Representative of the Association at Washington, has rendered valuable and efficient service and the Association is fortunate in being able to retain him as their representative at the seat of government.

TARIFF REVISION. Congress is about to consider the subject of tariff revision and hearings are about to be had before a committee in anticipation of the new session of Congress. It is of the utmost importance to the sugar interests of these islands that there should be no diminution of the tariff on sugar imported into the United States from foreign countries. This subject has been given earnest consideration by the Trustees and our Representative at Washington. Without tariff protection sugar could not be produced at a profit in these islands owing to the cost of production, distance from the market and cost of transportation.

THE DEATH OF MR. THOMAS RAIN WALKER. Since the last annual meeting news was received of the death of Mr. Thomas Rain Walker who, for many years, was a member of this Association and identified with the interests of these islands.

After receipt of the news of his death the Trustees adopted the following resolution, on September 23rd, 1908:

"WHEREAS the sad news has this day been received of the death of

MR. THOMAS RAIN WALKER, a former member and Trustee of this Association.

"BE IT RESOLVED That we, the Trustees of the Hawaiian Sugar Planters' Association, in meeting assembled, hereby record our deep sorrow at the death of our esteemed colleague and friend;

"THAT in the death of Mr. Walker this Association and the community of these islands have lost a friend who by his attainments, his marked integrity and uniform courtesy, commanded the respect and confidence of all;

"THAT we convey to the widow and family of the deceased our profound sympathy in their bereavement."

Respectfully submitted, W. O. SMITH, Secretary.

ELECTION OF TRUSTEES. The election of trustees for the ensuing year was next in order. Mr. Wodehouse moved that the secretary be directed to cast a ballot for the reelection of the present board. This was seconded and carried, the list being:

F. A. Schaefer, H. P. Baldwin, F. M. Swanzy, W. G. Irwin, J. F. Hackfeld, E. D. Tenney, E. P. Bishop, S. M. Damon and W. O. Smith.

Adjournment was then taken until 1:30 p. m., the trustees being immediately called to order to elect officers in executive session.

AFTERNOON SESSION. On reassembling the meeting heard and adopted the report of the trustees on election of officers as above. Mr. Damon then took the chair amidst applause. H. P. Baldwin read the report of the committee on cultivation, which the convention proceeded to discuss.

CATHCART IS ILL.

As the result of the strain through which he passed in the recent campaign, County Attorney John W. Cathcart has been confined to his house ever since election day, suffering from a nervous break down. There were a number of criminal cases called this morning before Judge Robinson in which the County Attorney was to appear in person but owing to Mr. Cathcart's illness, at the request of Deputy County Attorney Milverton, they were all continued for one week. It is stated by Mr. Cathcart's physician that he may be able to get downtown towards the end of the week, but that he must remain quiet for several days more.

The Courier-Journal remarks that the home John D. Rockefeller purchased in Georgia is a modest one—costing less than some United-States Senators.

STOCK BOOKS CLOSED.

The Stock Book of the Oahu Sugar Co., Ltd., will be closed to transfers from November 10th to 15th, 1908, both dates inclusive.

IS INDICTED FOUR TIMES

CHARGES OF EMBEZZLEMENT AGAINST THE FORMER BOOK-KEEPER OF MAKEE SUGAR CO.

Deputy Attorney General Larnach, who has been handling the cases before the Territorial Grand jury on the island of Kauai, writes to his colleague W. L. Whitney in this city, that the inquisitorial body has returned true bills in nine cases. Of these four are against the same man. In this matter all are of the same character, E. McCarriston being charged with embezzlement from the Makee Sugar Company. McCarriston's attorney, E. M. Watson, of this city, is ill at present, and it is likely that these cases will be continued till next term.

The other indictments brought in are as follows: Joe Ross and Manuel Agrella, manslaughter; Raymon Santiago, assault with deadly weapon; L. Santana, burglary in the first degree; Oshiro, selling liquor without a license; Morikawa, selling liquor without a license; Kabaawa, assault and battery.

DUCK SHOOTING

The local duck shooting clubs had their first outing of the season yesterday and were unusually successful, bringing back in the neighborhood of 100 birds of that species and about 150 plover. The best sport of the day was had by the members of the Kawaiian club who succeeded in bringing 85 of the sweet-meated water fowl down before their shotguns. The following members were out for the day: R. W. Shingle, H. A. Baldwin, Ed. Parle, H. M. Whitney, E. H. Wodehouse, Sam Wilder, Paul Isenberg and J. W. Harvey. Whitney and Wodehouse carried off the honors of the day on their stand, bringing in a bag of 52.

The members of the Kaelepu club did not have quite such good luck till it came to plover. They bagged about

WORK ON BIG LUMBER CONTRACT

MAHOGANY COMPANY IS TURNING OUT THOUSANDS OF OHIA TIES.

Reports received by the Mauna Kea on its arrival on Saturday by B. F. Dillingham from the mill of Hawaiian Mahogany Lumber Company, state that the ohia ties are being turned out in profusion. The expert sawyers brought down from the coast are at work and their presence is making considerable difference in the output of the big mill.

Arrangements are being made for the lighting of the big mill by electricity and in a short time the work will be completed. Just as soon as this is done the mill will be run both day and night and the Japanese who are working in the forests under Col. Sam Johnson will be placed on their mail to keep up with the inside force which is doing the sawing.

In the final accounts of the estate of Hanakaulani Holt, Administrator W. W. Thayer charges himself with the sum of \$669.25 and asks to be allowed \$1537.17.

GO TO HALEIWA.

There's a great deal more pleasure in a ride to Haleiwa in an automobile than can be found on any other road in the island and more good things at the end of the journey. The Haleiwa Hotel is under superior management and the pleasure and comfort of the guests have first consideration at the hands of Manager Biggood. Just at this time the road is in good condition and "Fair Moon" lights the way. Auto parties are to be the fad during the cool November nights.

twenty duck but over five dozen plover were picked up by their dogs before the day was over, E. I. Spalding, J. M. Dowsett, Frank Richardson, Carl Holloway and Herman Focke were those out for the first shoot.

SPORTS

FLOW OF MONEY; FEAST OF GOLF

A flow of reason and a feast of soul, or vice versa, any way you like it, was pulled off up Nuuanu, at the County Club, Saturday evening. But before the fun began to commence to start, Walt Whitman, beg pardon!—Walt Dillingham got up on his hind legs and informed the golfers that there was a scheme to buy more land for the Country Club. He made announcement to the effect that the Club would issue bonds for all amounts subscribed. Doc Monsarratt was selected as the chief talker and in ten minutes there were \$10,000 subscribed. It is said that \$30,000 is the total required.

Frank Armstrong was one of the leading lights to twinkle after the crowd had "clamchowered" and got to the smoker stage. Bob Buchty Hawaiian-aided; Sonny Cunha devastated the piano; Jack Densham let loose a golf jingle translated from Eutropius, B. C., and Archie Mahaulu (thankyou) warned the bunch that he had a golf verse which simply had to be recited. It was:

The score of the golf tournament between the so-called Republicans and the equally so-called Democrats, preceding the chowder (which was a banquet) was as hereinafter below:

NEW BLOOD AT AALA PARK

Baseball was played at Aala park yesterday morning between the Young Kamanuwa and the Asiatic A. C., the former winning by the run-away score of 20 to 8. The line-up were as follows:

Kamanuwa—Sam Aki, c; Alina, 1f; Tai Sung, 1b; Achona, 3b; Pat, rf; T. Chan, 2b; J. Yet, cf; H. Aki, p; Bung Wo, ss; T. Achock, lf; Awal, rf.

Asiatic A. C.—H. Kl, 2b; Lo Tan, ss; Late, p; Tom Kl, 1b; T. Dung, c; A. Wong, 3b; H. Cheong, rf; Tin Yan, lf; En Sue, cf.

Asiatic A. C. ... 4 0 1 2 1 0 0 0 — 8
Kamanuwa ... 1 1 7 5 4 0 0 2 — 20
Umpire—Tom Yen, Scorer, S. Aki.

The Young Kamanuwa A. C. is a newly organized club and is composed of Chinese members. The officers of the club are as follows:

President, T. Ah Chock; Vice President, E. Aki; Secretary, Sam Aki; Treasurer, Henry Aki; Manager, C. Ah Miu; Capt. T. L. Achona.

SPORTING SPOUTS

Aala S, Alohas 0; Sweet Violets 9, Comets 7; Sunday ball at Aala park.

Ball players of quarantine island yesterday walloped the Okawas by 16 to 9.

The Waialua and Oom Paul's Red Rangers met yesterday and the latter won at ball to the screaming close tune of 3 to 2.

Soccer on the Pan field between the Y. M. C. A. and the Alliolani College on Saturday resulted in a tie of one goal each. As all the regular players

TENNIS DOUBLES CHAMPIONSHIP

It looks very much as though Clarence Cooke and Billy Roth, the tennis doubles champion of the islands, would hold their title for another year. Billy Warren, who with Sonny Cunha won the right to play for the championship by winning the all-comers tournament, is still laid up and it does not appear that his doctor will allow him to play for some time. Since it was believed that Roth and Cunha would have a very good chance of winning the championship, it seems too bad that they are likely to be forced to a default.

The Hanaiwals at Atkinson park yesterday morning whipped the ball team of the Iroquois, 1 to 0.

The Bulletins beat the new Pauoas at Atkinson park yesterday at ball by 7 to 4 and the Eagles defeated the Hanaiwals Juniors by 13 to 9.

Fort Shafter challenges the U. S. S. Charleston to a game of ball to be played tomorrow afternoon on the Fort Shafter grounds.

The Democrats won the Country Club golf tournament from the Republicans on Saturday, by fourteen, a close election.

Oahu college overcame the High School by 12 to 0 in an exciting football mix on the new Alexander field on Saturday. For the season's opening the play was remarkably clean and clever.

On Sunday afternoon next at Aala park the winter series of the Kalaniana'ole League opens. Mayor-elect J. J. Fern will be in the box and vice president E. S. King will go behind the bat.

WORLD'S FINEST WARSHIP. DEVENPORT, England, November 8.—The great battleship Collingwood, an improved Dreadnaught, has been launched.

HOLLAND AND VENEZUELA. WILLEMSTAD, November 8.—Holland has revoked the treaty of 1894 with Venezuela.

MANILA AGAIN CLEAN. MANILA, November 9.—The Merchants' Association of this city has issued a statement that the city is now practically free from cholera.

The citizens are anxious to carry out their arranged plans for the reception of the Atlantic fleet and the entertainment of the officers and men.

COMMERCIAL DELEGATES RECORD CONVICTIONS

TOKIO, November 9.—The visiting delegates of the Chambers of Commerce of the Pacific Coast States have passed a resolution respecting the friendship of the Japanese for America and calling upon the American people to lay aside their suspicions of Japanese designs against America or American possessions.

TAFT RESTING AFTER FRAY... HOT SPRINGS, Virginia, November 9.—President-elect Taft is here resting after the exertions of the campaign.

GOMPERS' AID TO BRYAN DISPLEASES TO LABOR

DENVER, Colorado, November 9.—The American Federation of Labor will hold its annual convention here, the first session to be held today. There is considerable opposition among the assembled delegates against the reelection of Samuel Gompers as president of the Federation owing to his active work in the Bryan interest in the recent presidential campaign.

KERN, DEFEATED AT THE POLLS, STILL RUNNING.

INDIANAPOLIS, Indiana, November 9.—John W. Kern, who was Democratic nominee for Vice President, is a candidate for election by the Indiana Legislature to the United States Senate.

BENGAL GOVERNOR IN DANGER.

CALCUTTA, India, November 9.—A native made an attempt yesterday to assassinate the Governor of Bengal. The attempt was a failure, and the governor is uninjured.

Maul Attorney Enos Vincent, president of the league, will first bat the ball. E. O. Hall & Son has donated a splendid trophy for the season and there will also be a cup presented by Prince Kuhio, to be won twice. The Chinese A. C. won the first year's championship. The teams to play this season are the Twilights, Japanese A. C., Aala A. C., Chinese A. C., and the White Sox. The band will attend next Sunday's opening.

Once there was a man in Love who was Extremely Attenuated. In fact, he grew so slender that his Shadow used to fall into Cracks in the Pavement and had to be pried out.

His Daisy complained that his Knee Hurt her, and that it made her Cross Eyed, to look at him; but she Couldn't Afford to be Particular, and let it Go at That.

One day she Noticed that the Wind no longer Whistled when it Struck him, and that his Clothes seemed Filled Out. She Reproached him Bitterly. "Ah, Clarence! You love me No More!"

"No, Dearest," he said. "My Appetite is Tremendous, it is True, but I Love you Just the same. The Secret is that now I take a Glass of Primo Beer with Every Meal."

He grew Heavy so Rapidly that his Tailor had to Plan Ahead, but he was True to Daisy to the End.

Moral: Primo Beer will give you an Appetite under the most Adverse Conditions.

THE GREAT FRENCH DRAMATIST DEAD

SARDOU AND HIS GRANDCHILD.

PARIS, November 9.—Victorien Sardou, the great French playwright, died here yesterday.

Sardou, who has figured conspicuously in the dramatic world for nearly half a century, was seventy-seven years old in September last, although it is only five years ago that he produced his great drama "Robespierre," declared by many to be his masterpiece, while shortly before that his "Dante," was brought out in London by Sir Henry Irving and declared one of the greatest dramas of the age. For almost half a century this French genius had been writing plays, and, although he turned them out by the score, few have been failures. His very first attempt, "The Tavern of the Students," fell flat. That was in 1854, and Sardou for a

time thereafter was miserably poor. He lived in a garret and ate crusts. While thus in poverty he was stricken with typhoid fever. An actress, Mlle. de Breecourt, nursed him tenderly during his illness, and after his recovery the young author married her. Soon after the marriage Sardou was more successful with his plays, and within a few years had won fame and wealth with his pen. Among his dramas that are well known to Americans are "Odette," "Divorcees," "Fedora," "La Tosca," "Theodora," "Rene de Moray," "Gismonda" and "Cleopatra." In 1867 Mme. Sardou died, and in 1872 the playwright married Mlle. Soubrier, daughter of the conservator of the Museum of Versailles. He was decorated with the Legion of Honor in 1863, and was elected a member of the academy in 1877.

DESERTED ON WEDDING DAY

NAVAL OFFICER LEAVES HIS BRIDE THREE HOURS AFTER MARRIAGE.

OAKLAND, October 23.—T. F. Carter, a naval reserve, stationed at San Diego, married in the morning and deserted his wife the afternoon of the same day, according to the testimony upon which Mrs. A. B. Carter today secured an interlocutory decree of divorce. She lives in Berkeley and until she instituted suit for divorce she had never been known other than by her maiden name, McCarthy. The wedding took place at Redwood City August 7, 1907, and because she was deserted so soon after marriage the wife did not tell her friends of the marriage.

Mrs. Carter testified that she and her husband had been children together in San Diego and had been the best of friends for many years. He was finally sent to this port with a ship, and while here he renewed his acquaintance with her and they were married. Naval orders compelled him to leave her within three hours after the ceremony. He went to San Diego returning once, but only for a day. He did not send for her or contribute to her support. He refused to explain, said Mrs. Carter, why he had married and then deserted her.

Edna Grace Dunbar was given an interlocutory decree of divorce from George Alexander Dunbar, who, she says, treated her brutally during the few months of their married life.

GERMANY PLANS TO PUT A TAX ON ELECTRICITY.

BERLIN, October 23.—That the German Government, in its effort to solve the financial problem, intends to embark upon the novel experiment of taxing electricity is substantially confirmed as the result of the premature disclosure of the contents of Herr Sydow's finance reform bill. The result has been to evoke a storm of angry protest from the business and manufacturing elements throughout Germany. The bill proposed by the Secretary of the Imperial Treasury, which would place a tax on electric current, whether used for light or power, as well as on gas, would affect directly every concern producing or using them.

YOU WANT The News First.

You Want Your Ads Read

Here Is Some Advice

Honolulu more than any other city in the World, is a place where the Evening Paper gets the news first. The clock here is over two hours behind the clock at San Francisco, four hours behind Chicago, five hours behind New York and ten to eleven hours behind the clocks in the Europe capitals.

This means that when The Star is going to press THE DAY IS CLOSED in Washington, Chicago, New York and Europe and almost over in San Francisco. The news of the day is here for The Star.

Under modern conditions it takes practically no time to prepare and transmit news and THE STAR gets every evening the cable dispatches giving

The News Of All the World

For the Day Just Ended--

Here are some of the features that go to make the evening paper the predominating factor in an advertising campaign:

It is delivered at the home each night when the whole family has plenty of time to read it.

It is carried home by the business man when his day's work is done and it stays there. A morning paper is usually carried down town by the head of the family and hurriedly read.

The evening paper is not read hurriedly, but thoroughly, so that all the advertisements receive their share of attention.

It presents the store news a little ahead, giving the prospective purchaser time to plan a shopping tour for the next morning.

The evening paper presents the news the day it happens. The morning paper the day after.

The evening paper presents the news first. The morning paper merely elaborates it.

The evening paper prints daylight news. The morning paper takes what is left.

Oat & Mossman are now established in their stationery store at 76 Merchant street, near the Postoffice with a fine large stock of the latest stationery and periodicals. Drop in and see them.

A dead whale 70 feet long and estimated to weigh 90 tons was found off Lihue a few days ago. Japanese fishermen towed it ashore and proceeded to remove its blubber. Extra cars brought school children from Hanapepe to see the whale.

In his speech at the banquet in Yokohama to the Pacific Coast mercantile excursionists, C. M. Cooke of Honolulu paid a tribute to the Japanese bankers of Honolulu for their cooperation with the American bankers here to prevent the export of gold during the financial stringency last year.

Mr. Paschall, a young man from the State University, Raleigh, N. C., has arrived at Lahaina to take charge of one of the industrial departments of teaching. This school has now an excellent staff of teachers. The boys go there to work and having fine buildings, shops, tools, gardens, etc., they make the most of their time.

According to the Hawaii Shingo these islands are overrun with false priests who were driven out of Japan for such practices as they are conducting here. They are blackmailing Japanese laborers through various forms of necromancy and faith cure. The Shingo calls on the authorities to suppress the impostors by prosecuting them under the anti-kahunas law.

Jack London and wife, while visiting the island of Malaita of the Solomon group in a recruiting schooner, were wrecked on a reef and for two days and nights were in danger from cannibals. They were saved by a mis-

sonary who armed his mission boys and placed them on guard to protect the London. So the story is which the British cruiser Camorian brought to Sydney.

Ground was formally broken for the new building of St. Andrew's Priory on Saturday, the venerable Sisters Beatrice and Albertina, Bishop Rectarick, the Priory teachers, the girls attending the Priory and the boys attending Iolani College in the order named moving shovelfuls of earth. C. W. Dickey of Oakland, Cal., formerly of Honolulu, is architect of the projected building, which will be 177 feet 11 inches long and 138 feet 5 inches wide maximum ground dimensions.

FERNANDEZ TO DWIGHT

EDITOR STAR: I am surprised to see that Sam Dwight is still boasting of his tremendous power and influence over the men of our precinct, which is the eleventh of the fifth. He states that he knifed Lane in order to even up with me for matters with which Lane was in no way connected. I can not understand why Lane should suffer for my mistake, if I have made any. About three weeks ago, a report was circulated that Dwight was knifing Lane for what had happened in the last Republican convention when Lane was nominated Mayor. But believing at the time the report reached me that Dwight was a good Republican, and knowing that he was President of the Republican Club in my precinct I did not take much stock in the report. In order to show the fallacy of Sam Dwight's argument that his influence over the men in this precinct had anything to do with Lane's defeat, I must first analyze the voting strength of each party in this precinct. There are 400 voters in the precinct, 384 of whom voted on election day. According to the reports of the runners engaged by the party to canvass the precinct, there are 80 Republicans, 170 Democrats, and the balance of the voters comprise Home Rulers, Laborites and Non-partizan voters. The election returns show that Lane received 70 good Republican votes, besides those votes cast for him which were rejected.

According to the showing made, I am satisfied that Lane received almost the full Republican voting strength in the precinct. If there was any knifing done by Sam Dwight in this precinct, as I am informed there was, I am happy to say, it did not affect the result to any extent, and I should think Dwight would be a little sore to realize how small his influence was in his home precinct.

Look at the number of votes received by Daniel Logan, Norman Watkins, William Aylett, Harry Von Holt and Edgar Henriques. They all received a fair average of Republican votes with the exception of Edgar Henriques, who was far below the Republican voting strength. I wonder if Sam Dwight would attribute Henriques' defeat to his influence over the men in this precinct.

In this precinct there are no road workers, excepting one or two, and they are not Republicans. If Sam Dwight had done any knifing at all, it must have been done in the precincts where road workers had voted. I admit that Sam Dwight has considerable temporary influence over these men, as he is the chairman of the road committee of the Board of Supervisors.

I regret very much to know that a good Republican like Sam Dwight should cause injury to the party which honored him with a high position for a trivial matter. The trouble with Sam Dwight is that he thinks he is the great "I AM" in the precinct, and everything must be submitted to him for approval or disapproval.

I believe that I, as chairman of the executive committee of our precinct club, and also as a member of the executive committee of the Territorial Central Committee of the Republican party from the Fifth District, have as much responsibility as Sam Dwight has in the management of the affairs of the party in that precinct.

Sam Dwight also stated that he recommended Harry Auld or Benjamin Ka-ne for the position of clerk to the inspectors of election in this precinct. He well knew or at least he was informed that the party required on election day the services of all the officers of a Republican club at each polling place, and the two gentlemen named being officers of the club in this precinct they were expected to give their services on that day at the polling place in behalf of the party, hence their failure to receive the appointment recommended by Sam Dwight.

With reference to Edwin Fernandez, I will say that he is just as good a Republican as any of the gentlemen named, and just as much entitled to recognition as any other good Republican. He may not be a resident of this precinct, but he is a resident of the district wherein this precinct is located. There are no rules of the party confining the appointment of a clerk to the inspectors of election to only residents of the precinct wherein the appointment is made. In this case I was simply following out the precedent established by Ex-Governor Car-

ter in selecting men who were in every way qualified and available. Even admitting that I made a mistake in recommending Edwin Fernandez, for the reason that he was a non-resident of the precinct, still I was loyal to all of the candidates of the party, and worked hard and conscientiously for their election. I trust the day will never come when I will be a traitor to my party, and I deplore a condition of affairs which makes a man like Sam Dwight boast of his own political dishonesty.
 (Signed) N. FERNANDEZ.

WIRELESS

(Continued from Page One.)
 Isbell has heard Japan wirelessness. Isbell, at Kahuku, has caught small-power Japan coast station wireless-grams, 3,445 miles away.

Honolulu's Wireless Telegraph Company's Expert Arthur A. Isbell has been trying to keep this fact under his hat for several days. But truth, like some other things, will out.

It would appear that the past week has been one of peculiarly advantageous wireless weather.

Isbell, at Kahuku's powerful wireless station, had just been sending a message over two thousand miles to a friend in Seattle, sending it via Tatoosh Island, and he was listening to other American Pacific coast stations when, suddenly, his sense caught the signals, clear as bells, of an unknown operator.

He recorded some of the sparkings, but could not read them. They were foreign. Nevertheless he persisted in the recording and what should be proved but that he had caught bits of a message from a Japanese coast station!

Within the last few days, also, there has been accomplished another unexpected act.

During times when it was four-fifths darkness on the stretch of Pacific ocean between this island and the mainland States, Kahuku has been exchanging wireless messages with Vancouver Point, and with Estavan Point, Vancouver Island, the messages being exceedingly clear. These points have been talked with by Isbell before, but only when the intermediary was complete darkness.
